Chairman's Statement

FU WAI CHUNG
Chairman

In 2022, China's property industry started on a new cycle of "changing gear and slowing down". In the past two years, the surfacing of unexpected factors such as the COVID-19 pandemic, austerity measures on the industry and changes in the financing environment, coupled with weaker medium- and long-term housing demand have created cash flow pressure and operating challenges for most property companies. According to National Bureau of Statistics of China data, the nationwide real estate development investment amounts in 2022 fell for the first time since 1999, and the results of the top 100 property enterprises altogether declined by more than 40% year-on-year.

Although the government timely launched a number of positive policies at the end of the year, stressing that the property sector is a pillar industry in the country, those policies have yet to produce effect. Thus, despite the Group pulling out all the stops in the battle, it was not able to buck the adverse macro-economic trend.

In 2022, the Group's overall turnover amounted to HK\$1,517,000,000, representing a decrease of 43% as compared with 2021. Loss attributable to shareholders was HK\$580,000,000. The Board of Directors did not recommend the payment of a final dividend for the year ended 31 December 2022.

Chairman's Statement

CONTINUED TO FOCUS ON CORE PROPERTY REAL ESTATE AGENCY SERVICES BUSINESS AND EXPLORE NEW OPPORTUNITIES IN COORDINATION WITH OTHER BUSINESSES

Capitalizing on its years of operating experience and rich customer resources, the Group was able to navigate the uncertainties in 2022 and delivered stable performance. It moved forward with prudence, continued to penetrate key cities quickly urbanizing and of higher value, and stayed alert and responded shrewdly to market changes. In addition, the Group continued to optimize the "AI Hopefluent" platform, adopting live broadcasting and other new media marketing approaches and internet technologies to avail including "cloud" tour of flats and VR sample flats. Its hope was to effectively integrate Internet service models and on-site marketing approaches, thereby drive development of the traditional property real estate agency services business.

To better allocate resources, the Group also reviewed the operational performance of its businesses and made strategic adjustments. In April, the Group and Poly reorganized and integrated real estate agency services business. In November, Country Garden Services increased its shareholding in the Group so that the two parties could marry strengths in developing property brokerage business and value-added real estate service business, finding new opportunities for long-term development of the companies.

With government policies yet to bear result, the market was still trending down, inevitably affecting the Group. During the year under review, turnover of the Group's real estate agency services business amounted to approximately HK\$1,426,000,000, representing a decline of 43% from HK\$2,489,000,000 in 2021.

The Group's financial services business was also affected by such factors as the market shrinking with the external environment unstable, thus turnover of the business dropped markedly year-on-year to HK\$91,000,000 in 2022.

CONCLUSION

For China, "development" is above all else in 2023, thus recovery of the property market is imperative, and the recent government policies enforced substantiated that statement. The same goes for the property industry deemed an economic pillar. As the Chinese economy moves towards being "more open" and "higher quality" development, the property industry has become the "slow bull" that guides recovery of the domestic circular economy, the role it should play as a "pillar industry" under the new normal.

I believe the property market will gradually warm up this year, and the relevant indicators of the property market are also expected to improve. On its foundation built over the past more than 20 years, the Group will remain cautiously optimistic, continue to cultivate key cities leading in economic development, and also keep assessing market conditions and adjusting its business development directions and resource allocation, so as to seize opportunities to promote overall growth in results.

On behalf of the Group and the Board of Directors, I would like to thank all Hopefluent staff for their hard work and contribution. I also sincerely thank all shareholders, customers, business partners and investors for their support and trust over the years. The Group will continue to work as one, be pragmatic in action, with the aim of creating better returns for shareholders.

Management Discussion and Analysis

BUSINESS REVIEW

I. Market Review for the 2022 Year

In 2022, the real estate industry in Mainland China faced numerous challenges. To begin with, the volatile global economic environment and adjustments in industrial layout placed downward pressure on the domestic market. Coupled with the peaks and troughs resulting from COVID-19, many industries were hit hard and consumer spending was curtailed, all of which seriously affected an already weakened real estate sector and dragged down various industry indicators.

Despite the prompt actions taken by the Mainland government at year-end, clarifying the status of the real estate industry as the pillar of the economy, it will take time for the industry to recover. The sales of commercial housing in the country have declined by approximately 30% year-on-year, and investment in real estate development nationwide has plummeted.

Under this environment, the Group has spared no effort in avoiding risk, though the general market conditions have inevitably affected the Group's results and revenue.

II. Business Review of the Group

For the year ended 31 December 2022, the Group's turnover reached HK\$1,517 million, down approximately 43% from the same period last year (2021: HK\$2,669 million), with loss attributable to shareholders totaling HK\$580 million (2021: loss attributable to shareholders of HK\$545 million). Basic loss per share was HK86.1 cents (2021: basic loss per share: HK80.8 cents per share). The Board of Directors did not recommend the payment of a final dividend for the year ended 31 December 2022.

Turnover from the property real estate agency services business amounted to approximately HK\$1,426 million, and accounted for 94% of the Group's turnover, while turnover from the financial services business was approximately HK\$91 million, and accounted for 6% of the Group's turnover. Total new home sales in 2022 amounted to approximately HK\$380 billion in which approximately 217,000 transactions were handled, and encompassed a total gross floor area of about 19.6 million square meters.

1. Property Real Estate Agency Services Business

Turnover of this segment fell by 43% from approximately HK\$2,489 million in 2021 to approximately HK\$1,426 million, which was mainly because the real estate industry continued to face severe conditions in Mainland China. Uncertainties surrounding the economy and pandemic, debt risks of real estate companies, and market contractions constrained the development of the local real estate market this year. Even though the Mainland government launched a number of policies at the beginning of the second half of 2022 to "stabilize the economy, market and employment" and support the healthy development of the industry, the downward trend of the industry persisted. The Group's property real estate agency services business was inevitably affected. In a challenging operating environment, business operating costs increased, and revenue fell below expectations.

During the review year, the Group re-organized its cooperation model with Poly. It acquired 43.9% equity interest in Hopefluent China, which was held by Poly, and disposed of its interest in Poly Consultancy Group to Poly. Details of which have been disclosed in the circular dated 26 May 2022. In addition, the Group continued to look for resources to better address its development needs. It is believed that the increased shareholding in the Group by Country Garden Services can strengthen the Group's property agency and property value-added service businesses, and create opportunities for resource sharing and information exchange.

The Group has also maintained its focus on meeting the needs of homebuyers. It has explored the digital operation and sustainable service model via the "AI house tour" platform in order to help its property real estate agency services business "enhance both its strength and capacity for growth".

Currently, the Group's property real estate agency services business covers more than 80 large and small cities and handles over 1,100 agency projects. The Group has around 160 secondary branches.

Management Discussion and Analysis

2. Financial Services Business

Domestic and global macroeconomic conditions were unstable, and the financial services business continued to face a shrinking market. During the year, the Group focused on serving existing high-quality customers, and screened real estate companies and high-net-worth individuals with strong investment and financing needs through more rigorous vetting procedures. Risk control remained as the core focus of the operations. In the future, the Group will closely monitor market developments and adjust the positioning and strategies of its financial services in a timely manner to facilitate steady progress.

During the year under review, total transaction value of the Group's financial services business amounted to approximately HK\$512 million, with a turnover of approximately HK\$91 million (2021: approximately HK\$180 million).

III. Prospects for 2023

From a series of austerity policies formulated at the end of 2022, it is not difficult to see that stable economic development will be a priority of the Mainland government in 2023. Real estate will undoubtedly remain as the pillar of the national economy, and its recovery will play a key role in economic development. The Mainland government has consequently implemented an array of measures and austerity policies. Firstly, various financial tools have been launched to support the supply side, allowing developers to obtain more funds through financing to launch more projects. Secondly, policies regarding property financial restrictions and purchase restrictions have been optimized, while mortgage policies have also been adjusted to stimulate consumer sentiment. Coupled with a number of related measures, the government has strived to stabilize market confidence, and fully support the prosperity of the market from both the supply and demand sides. At the same time, municipalities have also enhanced the flexibility of their local policies in line with different market conditions so as to accelerate the pace of market recovery.

As the haze of the pandemic gradually disappears, the linking of city clusters and metropolitan areas will resume. The stability of the real estate industry will be driven by "leading economic zones". Recent market data have indicated that the Mainland China economy has come out of its trough, and that sales in the real estate market have picked up. The Group's performance will likely rebound in the coming year.

Going forward, the Group will further penetrate key cities and consolidate its business foundation, while retaining and promoting its existing customer base. It will also search for more business opportunities through the digitalization of operations. The Group will remain pragmatic and strive to generate long-term and promising returns for shareholders.

Management Discussion and Analysis

AUDIT COMMITTEE

The Audit Committee of the Company, comprising the three existing independent non-executive directors, has reviewed the audited financial statements for the year ended 31 December 2022.

LIQUIDITY AND FINANCIAL RESOURCES

As at 31 December 2022, the Group maintained a sound financial position where the cash and bank deposits and current ratio, as a ratio of current assets to current liabilities, were approximately HK\$394 million (31 December 2021: HK\$1,721 million) and 3.72 (31 December 2021: 2.32) respectively. Total borrowings amounted to approximately HK\$232 million which are secured and unsecured bank loan and other borrowings (31 December 2021: approximately HK\$516 million). The Group's gearing ratio, which was computed by dividing the total borrowings by total assets, was approximately 7.6% (31 December 2021: 7.4%). The Group's borrowings are denominated in Renminbi. The Group had no material contingent liabilities as at 31 December 2022.

PLEDGE OF ASSETS

As at 31 December 2022, the Group pledged its investment properties and property, plant and equipment with an aggregate amount of approximately HK\$35 million to banks to secure bank borrowings of the Group.

ENVIRONMENTAL POLICY

The Group is committed to building an environmental friendly working environment that conserves natural resources. The Group strives to minimize the environmental impact by saving electricity and water and encouraging recycle of office supplies.

CAPITAL STRUCTURE

As at 31 December 2022, the total number of shares (the "Shares") of HK\$0.01 each in the capital of the Company in issue was 674,149,989.

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

The board of directors of the Company (the “Board”) and the management of the Company and its subsidiaries (the “Group”) are committed to establishing good corporate governance practices and procedures. The maintenance of high standard of business ethics and corporate governance practices have always been one of the Group’s goals. The Company believes that good corporate governance provides a framework that is essential for effective management, successful business growth and a healthy corporate culture, thereby leading to the enhancement of shareholders’ value.

The Board leads to establish, promote and continually reinforce the desired corporate culture of the Company which is underpinned by our corporate values of committing high standard of business ethics and integrity. Our sound corporate culture reaches all levels of the Group, and aligns with the Company’s corporate values and strategies.

The Board has adopted the Corporate Governance Code (the “CG Code”) as set out in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”). Continuous efforts are made to review and enhance the Group’s risk management and internal controls and procedures in light of changes in regulations and developments in best practices. To us, maintaining high standards of corporate governance practices is not just complying with the provisions but also the intent of the regulations to enhance corporate performance and accountability.

The Board is pleased to report compliance with the code provisions of the CG Code for the year ended 31st December, 2022, except where otherwise stated.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 to the Listing Rules (the “Model Code”) as its own code of conduct regarding securities transactions by directors. Having made specific enquiry with all directors, the directors confirmed that they all had complied with the required standard set out in the Model Code throughout the year.

REMUNERATION COMMITTEE

The remuneration committee of the Company (the “Remuneration Committee”) comprises the three existing independent non-executive directors and Mr. Lam King Pui is the chairman of the Remuneration Committee. The terms of reference of the Remuneration Committee are available at the Company’s website and on the website of The Stock Exchange of Hong Kong Limited.

The roles and functions of the Remuneration Committee include consulting the chairman of the Board about their remuneration proposals for other executive directors, making recommendation to the Board on the Company’s remuneration policy and structure for all directors’ and senior management and to review and/or approve matters relating to share schemes. The Remuneration Committee has adopted the approach under the E.1.2(c)(ii) of the code provisions to make recommendations to the Board on the remuneration packages of individual executive directors and senior management.

The Group’s human resources department assists the Remuneration Committee by providing relevant remuneration data and market conditions for the Committee’s consideration. The remuneration of executive directors and senior management is determined with reference to the Company’s performance and profitability, as well as remuneration benchmarks in the industry and the prevailing market conditions.

One meeting was held during the year ended 31st December, 2022. During the meeting, remuneration policies of the directors have been discussed and no change has been proposed to the remuneration policies. No director or any of his associates was involved in deciding his own remuneration.

The attendance of each member is set out as follows:

NOMINATION COMMITTEE

The nomination committee of the Company (the "Nomination Committee") was established on 22nd March, 2012 comprising Mr. Fu Wai Chung, Mr. Lo Yat Fung and the existing three independent non-executive directors. Mr. Lam King Pui is currently the chairman of the Nomination Committee. The terms of reference of the Nomination Committee are available at the Company's website and on the website of The Stock Exchange of Hong Kong Limited.

According to the terms of reference of the Nomination Committee, its major roles and functions are as follows:

- to review the structure, size and composition (including the skills, knowledge and experience) of the Board at least annually and to make recommendations on any proposed changes to the Board to complement the Company's corporate strategy;
- to identify individuals suitably qualified to become Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships of the Company;
- to assess the independence of independent non-executive directors of the Company; and
- to make recommendations to the Board on the appointment or re-appointment of directors of the Company and succession planning for directors, in particular the chairman and the chief executive of the Company.

In considering the nomination of new directors, the Board and nomination committee will take into account the qualification, ability, working experience, leadership and professional ethics of the candidates, especially their experience in the property real estate agency and consultancy services and/or other professional areas and the diversity criteria set out in the board diversity policy of the Company.

The procedures for the election and appointment of director(s) are that the committee may search for candidates for directors on an extensive scale in the Company, its subsidiaries and the job market, gather information of the preliminary candidates and then shall submit to the board of directors its recommendations on candidates for directors and relevant materials prior to the election of new directors.

One meeting was held during the year ended 31st December, 2022. No change has been proposed to the structure, size and composition of the Board during the meeting and the Committee had also confirmed the diversity of the Board.

The attendance of each member is set out as follows:

Mrs. WONG LAW Kwai Wah, Karen	1/1

Corporate Governance Report

BOARD AND WORKFORCE DIVERSITY

The Board has a board diversity policy which sets out the approach to achieve a sustainable and balanced development of the Company and also to enhance the quality of performance of the Company.

The Company seeks to achieve board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. All board appointments will be based on meritocracy, and candidates will be considered against objective criteria, having due regard for the benefits of diversity on the Board.

Selection of candidates will be based on a range of diversity perspectives as stated in the above. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

As at the date of this report, the Board comprises 8 directors. Three of them are women. Three of the directors are independent non-executive directors and independent of management, thereby promoting critical review and control of the management process. The Board is also characterised by significant diversity, whether considered in terms of gender, professional background and skills. Biographical details with the professional experience, skills and knowledge of the Directors are available in the section of “Biographical Details of Directors and Senior Management” of this annual report.

The Board comprises eight Directors and three of them are female. The Company targets to avoid a single gender Board and will timely review the gender diversity of the Board in accordance with the business development of the Group. The Company believes the balance of gender in the Board would bring more inspiration to the Board and enhance the business development of the Group, thus gender diversity is one of the essential factor for the Company to select suitable candidate as a Director.

As at the date of this report, approximately 71% of the Company’s senior workforce (including the Directors and senior management) is male and approximately 29% is female. Same as the gender diversity of the Board, the Company targets to avoid a single gender senior workforce and will timely review the gender diversity of the senior workforce in accordance with the business development of the Group. Details of the Group’s gender diversity at workforce level are set out in the Environmental, Social and Governance report of this annual report.

The following tables further illustrate the diversity of the Board members as of the date of this annual report:

 Category	<p style="text-align: center;">4 Executive Directors</p>	<p style="text-align: center;">1 Non-Executive Director</p>	<p style="text-align: center;">3 Independent Non-Executive Directors</p>
 Gender	<p style="text-align: center;">5 Male</p>		<p style="text-align: center;">3 Female</p>
 Age Group	<p style="text-align: center;">1 30-49</p>	<p style="text-align: center;">4 50-69</p>	<p style="text-align: center;">3 Over 70</p>

The Company has not set any measurable objectives for implementation of the diversity policy in relation to the Board members and the workforce of the Group (including gender diversity) because property real estate agency service is neither a male nor female dominated industry. However, the Company will consider and review from time to time such diversity policy (including gender diversity) and setting of any measurable objectives (if applicable).

Corporate Governance Report

DIVIDEND POLICY

The Board has approved and adopted a policy for the Company's dividend distribution (the "Dividend Policy") in 2019.

The Dividend Policy of the Company aims at enhancing transparency of the Company and facilitating the shareholders and investors to make informed investment decisions relating to the Company.

Under the Dividend Policy, the Company does not have any pre-determined dividend payout ratio. The declaration, payment and amount of dividends are subject to the Board's discretion having regard to the following factors:

- (1) the Group's actual and expected financial performance;
- (2) the Group's expected working capital requirements, capital expenditure requirements and future expansion plans;
- (3) retained earnings and distributable reserves of the Company and each of the members of the Group;
- (4) the Group's liquidity position;
- (5) the general economic conditions and other internal or external factors that may have an impact on the business or financial performance and position of the Group;
- (6) the contractual restrictions on the payment of dividends by the Company to its shareholders (if any);
- (7) the statutory and regulatory restrictions on the payment of dividends by the Company; and
- (8) any other factors that the Board deems relevant.

The Company's dividend distribution record in the past may not be used as a reference or basis to determine the level of dividends that may be declared or paid by the Company in the future.

Such declaration and payment of dividend by the Company is also subject to any restrictions under the Companies Laws of the Cayman Islands, any applicable laws, rule and regulations and the Articles of Association of the Company.

Any declaration and payment of future dividends under the Dividend Policy are subject to the Board's determination that the same would be in the best interests of the Group and the shareholders of the Company as a whole. The Board will review the Dividend Policy from time to time and may exercise at its sole and absolute discretion to update, amend and/or modify the Dividend Policy at any time as it deems fit and necessary. There is no assurance that dividends will be paid in any particular amount for any given period.

ACCOUNTABILITY AND AUDIT

Financial Reporting

The management provides such explanation and information to the Board and reports regularly to the Board on financial position and prospects of the business of the Company so as to enable the Board to make an informed assessment of the financial and other information put before the Board for approval.

The directors acknowledge their responsibilities (as set out in the Independent Auditor's Report) for preparing the financial statements of the Group that give a true and fair view of the state of affairs of the Group. The Board was not aware of any material uncertainties relating to events or conditions that might cast significant doubt upon the Group's ability to continue as a going concern and the Board has prepared the financial statements on a going concern basis. The responsibility of the external auditor is to form an independent opinion, based on their audit, on those consolidated financial statements prepared by the Board and to report their opinion solely to the shareholders of the Company, as a body, and for no other purpose. A statement by auditor about their reporting responsibility is set out in the Independent Auditor's Report.

Corporate Governance Report

ACCOUNTABILITY AND AUDIT (Continued) Risk Management and Internal Control Systems

The Board is responsible for the risk management and internal control systems of the Company and reviewing their effectiveness. The Board oversees the overall risk management of the Group and endeavours to identify, control impact of the identified risks and facilitate implementation of coordinated mitigating measures. The risks have been disclosed in the report of the directors of this annual report. The risk management and internal control systems of the Company are designed to manage rather than eliminate the risk of failures to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

Each department of the Company would choose certain material risk events in its field every year and assess and grade the possibility of occurrence and influence of risk events to determine the scope of material risk of the year together with the management of the Company. Each functional department prepares counteractions to deal with material risks in its field and report the execution situation regularly.

The Company has maintained an internal control department (“ICD”) established in 2006 which performs an internal audit function and reported directly to the Board. The function of the ICD audit team is to ensure the branches operation and practices are complied with the Group’s policies and procedures. The team has reviewed and checked the sales performance reports and cash flow of each branch rotationally. The management of the Company has established a set of structure, standards and procedures in areas of operational, financial and risk controls for safeguarding assets against unauthorized use or disposition; for maintaining proper accounting records; and for ensuring the reliability of financial information to achieve a satisfactory level of assurance against the likelihood of the occurrence of fraud and errors.

The Board reviews the risk management and internal controls annually. The Board has conducted a review of, and is satisfied with the effectiveness and adequacy of the risk management and internal control systems and the internal audit function for the year ended 31st December, 2022.

With respect to the monitoring and disclosure of inside information, the Company has formulated its guidelines, with an aim to ensure that the insiders abide by the confidentiality requirement and fulfill the disclosure obligation of the inside information.

Auditors’ Remuneration

During the financial year ended 31st December, 2022, the fees paid to the Company’s auditors is set out as follows:

The non-audit services provided by the auditors are relating to review of the Company’s interim report and services relating to very substantial disposal disclosed in the circular dated 26 May 2022.

Services rendered	Fees paid/payable HK\$'000
Audit services	4,200
Non-audit services	1,330

COMPANY SECRETARY

The Company has engaged Mr. Lo Hang Fong, a solicitor practising in Hong Kong, as its company secretary and Mr. Lo Yat Fung, an executive director of the Company, is the person whom the company secretary can contact. The biographical details of Mr. Lo Hang Fong are set out under the section headed “Biographical Details of Directors & Senior Management”.

According to Rule 3.29 of the Listing Rules, Mr. Lo Hang Fong has taken no less than 15 hours of relevant professional training during the financial year ended 31st December, 2022.

SHAREHOLDERS’ RIGHTS

The general meetings of the Company provide an opportunity for communication between the shareholders and the Board. An annual general meeting of the Company shall be held in each year and at the place as may be determined by the Board. Each general meeting, other than an annual general meeting, shall be called an extraordinary general meeting (“EGM”).

Corporate Governance Report

SHAREHOLDERS' RIGHTS (Continued)

— Right to convene EGM

Any one or more members holding at the date of the deposit of the requisition not less than one-tenth of the paid-up capital of the Company carrying the right of voting at general meetings of the Company, shall at all times have the right, by written requisition sent to the Company's business office as set out in the manner below, to require an EGM to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two (2) months after the deposit of such requisition.

The written requisition must state the purposes of the meeting, signed by the requisitionist(s) and deposit it to the Board or the company secretary of the Company at the Company's place of business in Hong Kong at Room 3611, 36th Floor, Shun Tak Centre West Tower, 200 Connaught Road Central, Hong Kong and such may consist of several documents in like form, each signed by one or more requisitionists.

The request will be verified with the Company's branch share registrars in Hong Kong and upon their confirmation that the request is proper and in order, the company secretary of the Company will ask the Board to convene an EGM by serving sufficient notice in accordance with the statutory requirements to all the registered members. On the contrary, if the request has been verified as not in order, the shareholders will be advised of this outcome and accordingly, an EGM will not be convened as requested. If within twenty-one days from the date of the deposit of the requisition the Board fails to proceed to convene such meeting, the requisitionist(s), may convene a meeting in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed by the Company to the requisitionist(s).

The notice period to be given to all the registered members for consideration of the proposal raised by the requisitionist(s) concerned at the EGM varies according to the nature of the proposal, as follows:

- At least 14 clear days' notice in writing if the proposal constitutes an ordinary resolution of the Company;
- At least 21 clear days' notice in writing if calling for an annual general meeting or the proposal constitutes a special resolution of the Company in EGM.

— Right to put enquiries to the Board

Shareholders have the right to put enquiries to the Board. All enquiries shall be in writing and sent by post to the place of business of the Company in Hong Kong or by e-mail to info@hopefluent.com.hk for the attention of the Board or company secretary.

— Right to put forward proposals at general meetings

There are no provisions allowing shareholders to propose new resolutions at the general meetings under the Cayman Islands Companies Law (2011 Revision). However, shareholders are requested to follow Article 58 of the Company's Articles of Association for including a resolution at an EGM. The requirements and procedures are set out above. Pursuant to Article 88 of the Company's Articles of Association, no person, other than a director retiring at a meeting, shall, unless recommended by the directors for election, be eligible for appointment as a director at any general meeting unless a Notice signed by a member (other than the person to be proposed) duly qualified to attend and vote at the meeting for which such notice is given of his intention to propose such person for election and also a notice signed by the person to be proposed of his willingness to be elected shall have been lodged at the head office or at the registration office provided that the minimum length of the period, during which such notice(s) are given, shall be at least seven (7) days and that (if the notices are submitted after the despatch of the notice of the general meeting appointed for such election) the period for lodgment of such Notice(s) shall commence on the day after the despatch of the notice of the general meeting appointed for such election and end no later than seven (7) days prior to the date of such general meeting.

The written notice must state that person's biographical details as required by Rule 13.51(2) of the Listing Rules. The procedures for shareholders of the Company to propose a person for election as director is posted on the Company's website.

USE OF PROCEEDS FROM THE DISPOSAL COMPLETED ON 31ST JULY, 2019

On 10th July, 2019, a wholly-owned subsidiary of the Company as vendor entered into a sale and purchase agreement with an independent third party as purchaser in relation to the disposal of Sino Estate Holdings Limited and its subsidiaries for a consideration of HK\$358,424,550 (subject to adjustments) which would be settled by the purchaser in cash (the "Disposal") by instalments.

As 31st December, 2022, the Group had received HK\$323 million from the Disposal and the Group has utilised approximately HK\$323 million of the proceeds received, of which approximately HK\$173 million was used for the development of the Group's financial services business; approximately HK\$90 million was used for the Group's dividend distribution and approximately HK\$60 million was used for working capital of the Group. Such proceeds have been and will be applied in the manner consistent with that stated in the announcement of the Company dated 10th July, 2019. It is expected that the unutilised proceeds for the development of the Group's financial services business will be fully used by the end of 2023. The expected timeline for utilising the unused proceeds is based on the best estimation of the present and future business market situations in the PRC made by the Board.

Details of the above Disposal have been disclosed in the announcement dated 10th July, 2019.

CONNECTED TRANSACTION

On 19th July, 2018, the shareholders have approved a 2018 Cooperation Agreement (as defined below) at an extraordinary general meeting which was a cooperation reorganisation agreement ("2018 Cooperation Agreement") entered into by the Company, Hopefluent (Hong Kong) Limited and Poly Developments and Holdings Group Co., Ltd. (formerly known as Poly Real Estate Group Co., Ltd.) ("Poly" or "Poly Real Estate" with its subsidiaries "Poly Real Estate Group") on 7th May, 2018 in relation to the real estate agency business cooperation between the parties, involving, inter alia, the acquisition by 合富輝煌(中國)房地產顧問有限公司 (in English, for identification purpose only, Hopefluent (China) Real Estate Consultancy Co., Ltd.) ("Hopefluent China" with its subsidiaries "Hopefluent China Group") of the group of 保利地產投資顧問有限公司 (in English, for identification purpose only, Poly Real Estate Investment Consultancy Co., Ltd.) ("Poly Consultancy" with its subsidiaries "Poly Consultancy Group"), in consideration for the issue by Hopefluent China of 43.9% of its entire equity interests to Poly Real Estate. Upon completion of the abovementioned restructuring on 4th September, 2018, Poly Real Estate owned 43.9% of the entire equity interests in Hopefluent China and has become a connected person at the subsidiary level (as defined in the Listing Rules) of the Company.

On 27th July, 2018, the Company entered into a master agreement ("2018 Master Agreement") with Poly Real Estate (which is a connected person at the subsidiary level), Hopefluent China and Poly Consultancy in relation to possible connected transactions between the enlarged group and Poly Real Estate Group including:

- the total amount due from the Poly Real Estate Group to the Poly Consultancy Group, comprising mainly the real estate agency fee payable by the Poly Real Estate Group to the Poly Consultancy Group. The parties have agreed that the Poly Real Estate Group would settle the abovementioned outstanding amount by instalments.
- for those property development projects effectively controlled by Poly Real Estate, Poly Real Estate will continue to primarily engage real estate agents for selling the properties thereof, and the Poly Consultancy Group and the Hopefluent China Group will have the preferential rights to be engaged as real estate agents for such property development projects on the same commercial terms.
- Poly Real Estate agrees that the enlarged group could continue to rent various premises at various cities of the PRC which the Poly Consultancy Group has rented before.

Directors' Report

CONNECTED TRANSACTION (Continued)

- Some of the premises rented by the Poly Consultancy Group are managed by the Poly Real Estate Group. To the best knowledge of the Directors, the monthly management fee paid by the Poly Consultancy Group to the Poly Real Estate Group was agreed after arm's length negotiations between the relevant parties with reference to the then market rates, comparable to the current market rates and was generally in line with the management fee payable by other tenants of properties comparable to the premises of the Poly Consultancy Group being rented by the Poly Real Estate Group.

The reasons for entering the 2018 Master Agreement including the cooperation restructuring would allow the Company and Poly Real Estate to cooperate to enhance the core competitiveness of Hopefluent China by contributing their respective quality resources and establish Hopefluent China as a leading enterprise in the real estate agency service sector of the PRC and to allow Hopefluent China to have preferential rights to be engaged as the real estate agent for the property development projects effectively controlled by Poly Real Estate. The primary and secondary real estate agency businesses of the Company and Poly Real Estate will be exclusively operated by the Hopefluent China Group and the Poly Consultancy Group, which will also enjoy preferential rights to be engaged as the real estate agent for the property development projects effectively controlled by Poly Real Estate. The Board believes that the Master Agreement will allow the enlarged group to take advantage of such preferential rights and thereby improving the operating and financial performance and position of the enlarged group.

Pursuant to Rule 14A.101 of the Listing Rules, the possible connected transactions are exempt from the circular, independent financial advice and Shareholders' approval requirements under the Listing Rules.

Details of the above have been disclosed in the circular dated 22nd June, 2018, the announcements dated 19th July, 2018, 27th July, 2018, 2nd August, 2018 and 7th August, 2018.

Details of the transactions were mainly set out in note notes 33 and 39 to the consolidated financial statements.

The Directors (including the independent non-executive directors) considered that the 2018 Master Agreement and the transactions contemplated thereunder during the year were entered into in the ordinary and usual course of business of the Group, and have been negotiated on an arm's length basis between the parties on normal commercial terms, and are fair and reasonable and are in the interests of the Company and the Shareholders as a whole.

On 31 March 2022, the Company, Hopefluent China, Hopefluent (Hong Kong) Limited ("Hopefluent HK"), and 廣州合富輝煌投資諮詢有限公司 (Guangzhou Chun Wui Investment Consulting Co., Ltd.#) ("Hopefluent Investment") (collectively, the "Hopefluent Parties") and Poly and Poly Consultancy (collectively, the "Poly Parties") entered into a conditional shareholder cooperation adjustment agreement (股東合作調整協議) ("Agreement") in relation to

- the carrying out of transformation for the purpose of ceasing all business operations of the Poly Consultancy Group by fulfilling all outstanding contracts or transferring the same to a third party ("Transformation"); and Poly ceasing to be a shareholder of Hopefluent China by way of share transfer of its 43.9% equity interests in Hopefluent China (the "Relevant Equity"), resulting in Hopefluent China to be wholly owned by the Company (the "Proposed Restructuring"); and
- first-hand agency business contracts for real estate development projects of Poly with a saleable property value of not less than RMB80 billion to be provided by Poly to Hopefluent Parties or its designated real estate agents every 12 months for five years (the "Property Agency Transactions").

The objective of the Agreement is to adjust the mode of cooperation under the 2018 Cooperation Agreement so that the Poly Parties and the Hopefluent Parties can operate their respective real estate agency business independently. Hopefluent China Group and Poly Consultancy Group will be operated and managed by the Hopefluent Parties and the Poly Parties, respectively.

The Hopefluent Parties and the Poly Parties agreed that Hopefluent Parties and the Poly Parties are entitled to determine their own sales/agent business model according to their business needs and will no longer be restricted by the non-compete undertaking stated in 2018 Cooperation Agreement.

There is no cash consideration involved in the Proposed Restructuring. 56.1% of the net asset value of Poly Consultancy is taken to be the consideration for the disposal of the Poly Consultancy Group, and 43.9% of the net asset value of Hopefluent China (excluding the Poly Consultancy Group) is taken to be the consideration for the acquisition of the 43.9% equity interest in Hopefluent China (excluding the Poly Consultancy Group).

Directors' Report

CONNECTED TRANSACTION (Continued)

Property Agency Transactions

Poly is committed to the Hopefluent Parties that, Poly will enter into first-hand agency business contracts with the Hopefluent Parties or its designated members of the Group for real estate development projects of Poly with a saleable property value of not less than RMB80 billion (subject to the amount of the actual value to be agreed in the relevant sales agency contract between Poly or its designated subsidiary and Hopefluent Parties or its designated members of the Group) every 12 months for five years commencing from 1st September, 2022.

The fees for real estate agency services to be offered by Poly to Hopefluent China Group after completion of the Proposed Restructuring would be determined with reference to the fees payable by independent third parties for similar property projects, in terms of size, location and grading of property projects and such agency fee would be on normal commercial terms and in line with the market rate.

The Company and Poly have cooperated closely, thereby generating value for the Company and its shareholders since 2019, however, due to the difference in business culture, organisational systems and operating model between the Company and Poly and given the slow progress of such integration, and despite the amicable continuing cooperation between the parties, the actual day to day operations and management of the Hopefluent China Group and Poly Consultancy Group below the board level remained relatively separate and largely influenced by culture and systems of the Company and Poly respectively similar to the operating model before the 2018 cooperation. As a result, the parties decided to carry out the Proposed Restructuring. The property agency services will continue to be the core business of the Group.

Before the Proposed Restructuring, Poly directly held 43.9% of the entire equity interests in Hopefluent China and hence a connected person of the Company. After completion of the Proposed Restructuring, Hopefluent China will cease to hold any direct or indirect interest in the Poly Consultancy Group or the Poly Consultancy Group Businesses, and Hopefluent Investment will hold 100% equity interest of Hopefluent China, which in turn will hold the existing interest of the Hopefluent China Group. The Proposed Restructuring amounted to a very substantial disposal under Chapter 14 of the Listing Rules and a connected transaction under Chapter 14A of the Listing Rules.

With respect to Poly's cessation to hold any equity interest in Hopefluent China, such cessation constitutes an acquisition by the Company for the purposes of the Listing Rules. Such acquisition will constitute a major transaction of the Company and thus is subject to reporting, announcement and Shareholders' approval requirements under Chapter 14 of the Listing Rules and a connected transaction under Chapter 14A of the Listing Rules.

The Property Agency Transactions fall under the scope of the 2018 Master Agreement. As Poly is a connected person of the Company at the subsidiary level, pursuant to Rules 14A.101 of the Listing Rules, the Property Agency Transactions are exempt from circular and independent shareholders' approval requirements under Chapter 14A of the Listing Rules.

Despite such exemption and given that the Property Agency Transactions form part of the Proposed Restructuring, the Company had sought shareholders' approval for the Property Agency Transactions together with the Proposed Restructuring at an extraordinary general meeting held on 28th June, 2022 ("2022 EGM").

The Property Agency Transactions will not be a continuing connected transaction of the Company under Chapter 14A of the Listing Rules after the completion of the Proposed Restructuring.

The Agreement relating to the Proposed Restructuring and the Property Agency Transactions has been approved by the shareholders at the 2022 EGM. Details of which have been disclosed in the circular dated 26th May, 2022.

The parties mutually agreed that Poly Consultancy Group was ceased to be subsidiaries of the Company and 43.9% equity interest of Hopefluent China held by Poly was derecognised as non-controlling interest on 31st August, 2022.

Environmental, Social and Governance Report

The Board of Directors (the “Board”) of the Company are pleased to present this report in accordance with the Environmental, Social and Governance Reporting Guide (the “ESG Guide”) as set out in Appendix 27 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

This report covers the financial year ended 31st December, 2022 and describes how the Company fulfills the ESG Guide. This report covers the Company and all of its subsidiaries and branches in the People’s Republic of China (“PRC”) and Hong Kong (the “Group”).

MANAGEMENT APPROACH, STRATEGY, PRIORITIES AND OBJECTIVES

The Board is responsible for the environmental and social governance strategy to ensure that the relevant environmental and social policies are in place. The Board also believes that the success of the Group is not only based on the performance of its operations and activities, but is also based upon its responsibility and commitment towards the environment, employees, suppliers, customers, and the community. The Group has adopted various policies in the environmental and social aspects in order to support the Group’s sustainability growth.

The Group manages its operations and businesses in an environmentally and socially responsible manner and this report sets out the summary of how the Group implements its environmental and social policies during the year ended 31st December, 2022. The Board has carried out a series of processes based on the ESG Guide which includes, among others, setting ESG target and reviewing the progress made against them during the financial year.

The management of the Company has confirmed to the Board about the effectiveness of the environmental and social policies, and this report has been reviewed and approved by the Board.

STATEMENT FROM THE BOARD

The Board hereby presents you this report for the financial year ended 31st December, 2022. Our Group strives to create values for its shareholders while fulfilling corporate social responsibility. The Board is responsible for overseeing the Group’s corporate governance as well as the ESG management approach. The Board has a supervisory role in the data collection, drafting and review of the ESG report.

The ESG working team of the Group is composed of certain full-time staff from different departments and branches who are responsible for collecting relevant information on its ESG aspects for compiling the ESG Report. The Board and the ESG working team assess the significance of multiple ESG topics with reference to different stakeholders’ opinions by communicating with the Group’s stakeholders.

The representative of ESG working team periodically reports to the Board, assists in identifying and assessing the Group’s ESG risks and the effectiveness of the internal control mechanisms. Such team also examines and evaluates the Group’s performances in different aspects, such as environmental protection, recruitment practices, and other ESG aspects. The Board sets the general direction for the Group’s ESG strategies, ensuring the effectiveness of risk management and internal control mechanisms. The Group has been adopting measures to reduce its environmental impacts on different areas and regularly reviews the effectiveness of such measures. The Group has set emission targets to maintained at the level of year 2022 for year 2023 in relation to the total GHG emission, non-hazardous waste and use of resources with an approximate 5% reduction target. We will continue to adopt the measures in this ESG report to achieve the targets.

Environmental, Social and Governance Report

REPORTING PRINCIPLES

The Group has adopted the following reporting principles in the preparation of this report:

(i) Materiality

The Group has held discussions among our management and employees of different departments to assess the materiality of these issues in consideration of the Group's business and all relevant stakeholders, as well as to propose suggestions and action plans to improve decision-making and accountability from a social and environmental perspective. In this ESG report, we include details of ESG-related issues that were identified during such discussions and which we considered material.

(ii) Quantitative

The Group provides quantitative information on the Group's ESG performance. The calculation methods used are described in the relevant sections.

(iii) Balance

The report provides an unbiased picture of the Group's ESG and avoids selections, omissions, or presentation formats that may mislead the readers.

(iv) Consistency

The Group applies a consistent methodology to aggregate ESG factors to ensure the meaningful comparison over time. Unless otherwise stated, there were no changes to the calculation method or the scope of aggregation in the preparation of the report for financial year ended 31st December, 2022. Due to the Proposed Restructuring with Poly Parties, the report only includes ESG data of Poly Consultancy Group for a period from 1st January, 2022 to 31st August, 2022 in year 2022 because of the derecognition of Poly Consultancy Group on 31st August, 2022. Details of which have been disclosed in the section headed "Connected Transaction" of this annual report.

REPORTING BOUNDARY

As a general principle, this report focuses mainly on the property real estate agency services business operated by the Group in PRC.

FURTHER INFORMATION

The Group values feedback from its stakeholders. If you have any opinions or suggestions regarding this ESG report or the Group's performance, please feel free to contact us by post to the place of business of the Company in Hong Kong or by emailing to info@hopefluent.com.hk.

Environmental, Social and Governance Report

ENVIRONMENTAL Emissions

The Group is engaged in the businesses of provision of real estate agency service, mortgage referral services, advertising, marketing services, financial services and investment holding.

The Group's direct environment impact is immaterial as we are in the service industry and primarily an office based company with low energy, power and water consumption. Therefore, the operations of the Group does not have significant impact to the environment and does not generate significant air and greenhouse gas ("GHG") emissions, discharges into water and land and hazardous and non-hazardous waste. The emissions generated by the Group mainly consist of GHG such as carbon dioxide emitted from the consumption of electricity.

Therefore, during the year ended 31st December, 2022, the Group and its office did not generate significant emissions, water pollutants and hazardous wastes during the operation, except for GHG emissions and non-hazardous waste.

The non-hazardous wastes generated by the Group's operations mainly consist of toner cartridges and ink cartridges. During the current year and prior year, the consumption volume generated by the Group is shown as below:

Non-hazardous waste category	2022 Pieces	2021 Pieces
Toner cartridge	2,300	13,700
Ink cartridge	860	1,900

Consumption of toner and ink cartridge declined due to the increase in on-line document delivery during the year.

The Group's workplace effluents and wastes are limited which are attributed to the operation of the Company's offices and property real estate agency service branches. Workplace wastes are treated by the property management companies maintaining the Group's offices and branches. Our GHG emissions are indirect, principally resulting from electricity consumed at the Company's offices and branches as well as from business travel by some employees.

Owing to its business nature, the main air emissions of the Group are the GHG emissions, arising from the use of electricity in the office and branch operations. The total GHG emissions for the year was about 4,414 tonnes (2021: approximately 5,800 tonnes) in carbon dioxide equivalent.

GHG Performance Summary	2022 Tonnes	2021 Tonnes
Direct GHG emission — petrol consumption	1,030	1,630
Indirect GHG emission — electricity consumption	3,380	4,160
Other indirect GHG emission — paper and water consumption	4	10
Total GHG emission	4,414	5,800

Paper and water consumption and electricity consumption have been decreased due to work from home arrangement during the review year. Consumption of petrol has been decreased because of the increased online internet operations caused by COVID-19 pandemic.

The Group is committed to the principles of waste management for the proper handling and disposal of all wastes from our business activities. The Group also takes steps to closely monitor and manage the environmental effect of the operations.

ENVIRONMENTAL (Continued)

Our View on the Environment

It is the Group's objective to reduce energy consumption and carbon emissions. The Group adopts green practices into its operation. The Group recognises that preserving the global environment is one of our missions. In order to meet our target to continuously reduce our burden on the global environment and promote environmental protection, we have been implementing the following initiatives. For example, at the Group's offices and branches, the indoor temperature and the running time of air-conditioning system are controlled to reduce energy consumption and carbon emissions.

The Group does not produce hazardous wastes in its business activities.

Use of Resources

Since the Company's operation is office based, the energy, power and water utilisation of the Group is relatively low. Resources such as electricity and water are mainly consumed by its offices and branches. The Group is committed to building an environmental friendly working environment that conserves natural resources. The Group targets to minimise the environmental impact by saving electricity and water, encouraging recycle of office supplies, and using environmental friendly equipments and tools in the marketing events of the property promotion project.

The water consumption of the Group is limited, and much of the water consumption is for basic cleaning, sanitation and daily domestic uses in the office and branches. We also promote water conservation awareness to the employees, and inspect water supply facilities to reduce water wastage.

Concerning the use of energy and office electricity control, the Group requires employees to make sure that all lights, computers, office equipment, and other electronic appliances are switched off after office hour or when they are not utilized. Furthermore, when we purchase office equipment and electronic appliances, we take into great consideration about the energy consumption efficiency of the office equipment and electronic appliances.

For office consumables consumption management, the Group encourages its employees to handle documents electronically. Concerning the reduction of use of papers, we require the employee to assess the necessity of printing, and adopt the practice of double-sided printing and reusing single-sided printed papers. In addition, internet-meeting practices through video conference or telephone conference, instead of face-to-face meetings, are encouraged to avoid unnecessary travel. We also encourage recycle of office supplies.

During the financial year, the Group's use of major resources and energy is as follows:

Gasoline

During the financial year, the Group consumed gasoline of vehicles of approximately 420 tonnes (2021: approximately 660 tonnes), which was mainly used for the daily consumption by the office vehicles of the Company. The decrease in the consumption of gasoline was in line with the increased online internet operations caused by COVID-19 pandemic.

Electricity

During the financial year, the electricity consumption of the Group was approximately 4,825,000 kWh (2021: approximately 5,940,000 kWh), which was consumption for the daily operation of the Company. In response to the precautionary policies and measures implemented by the Government to deter the spread of the COVID-19 outbreak, the property market has been affected in 2022. Staff worked from home which reduced electricity consumption during the year.

Use of Water

During the financial year, the water consumption of the Group was approximately 24,300 tonnes (2021: approximately 26,000 tonnes). The water consumption is classified as daily consumed water. Water consumption has been reduced due to work from home arrangement during the review year.

Environmental, Social and Governance Report

ENVIRONMENTAL (Continued) Use of Resources (Continued)

Paper

During the financial year, the Company procured a total of approximately 40 tonnes (2021: 90 tonnes) of paper, which was mainly for general office purposes.

Resource Consumption	2022 Tonnes/kWh	2021 Tonnes/kWh
Gasoline	420	660
Electricity	4,825,000	5,940,000
Water	24,300	26,000
Paper	40	90

Since the Group operates in the provision of service industry, other than the above major resource consumption categories, there is no other category of resource consumption that needs to be disclosed in accordance with relevant laws and regulations. The Group strictly follows the environmental laws and regulations in the PRC, and there has been no material environmental problem during the year.

In addition, due to the nature of business, the Group did not have physical products for sale and therefore did not involve any use of packaging materials. Therefore, such disclosure is not applicable to the Group.

The Group has complied with relevant environmental laws and regulations, including but not limited to Environmental Protection Law of the PRC, Water Pollution Prevention and Control Law of the PRC, Law of the PRC on Prevention and Control of Air Pollution and Environmental Protection Law of Solid Waste Pollution of the PRC. During the year ended 31st December, 2022, the Group was not aware of any material non-compliance with laws and regulations relating to the air and GHG emissions, discharges into water and land, and generation of hazardous and non-hazardous wastes that would have a significant impact on the Group.

The Environment and Natural Resources

Although the Group's environment impact and the use of natural resources is limited, the Group still aims to work towards environmental best practice during the activities and operations of the Group in order to minimise any environmental impact.

We also promote environmental awareness among the employees to achieve environmental sustainability and require employees to use resources reasonably. We also assess the environmental risks of our operation and activities from time to time.

Response to Climate Change

The Group recognises the following issues that are already occurring or will likely occur in the future, in relation to climate change and the following actions have been taken for each of them:

Climate Change-related Issues	Actions
Increase in relevant costs such as carbon tax (i.e. a tax levied on the carbon emissions)	Reduce our carbon dioxide and greenhouse gas emissions by implementing the power reduction measures as mentioned above
the potential impact that climate change may have on the risks of extreme events (eg, floods, storms, pandemics). If these physical risks materialise, our property agency services will be affected	Provide certain property agency services online

(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Hopefluent Group Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 53 to 129, which comprise the consolidated statement of financial position as at 31st December, 2022, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31st December, 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

KEY AUDIT MATTERS (Continued)

Key audit matter

How our audit addressed the key audit matter

Recoverability of accounts receivable

At 31st December, 2022, the Group's accounts receivable amounted to HK\$657 million (2021:HK\$1,204 million) with an allowance for doubtful debts of HK\$383 million as at 31st December, 2022 (2021: allowance for doubtful debts of HK\$438 million) as disclosed in note 21 to the consolidated financial statements, representing 36% (2021:21%) of the current assets of the Group.

Loss allowances for accounts receivable are based on management's estimate of the lifetime expected credit losses ("ECLs") to be incurred, which is estimated by taking into account the credit loss experience, aging of overdue accounts receivable, customers' repayment history and customers' credit rating, financial position and an assessment of both the current and forecast general economic conditions, all of which involve a significant degree of management judgement.

Independent professional valuer is engaged to assist the assessment of ECL allowance for accounts receivable.

Assessment of the recoverability of accounts receivable and recognition of ECL allowance are inherently subjective and requires significant management judgement, hence, we identified the recoverability of accounts receivable as key audit matter.

Our procedures in relation to the recoverability of accounts receivable included, amongst others:

- Assessing, on a sample basis, whether items in the accounts receivable report were classified within the appropriate aging bracket by comparing individual items in the report with the relevant invoices;
- Considering the appropriateness of the ECL loss allowance recorded against accounts receivable, with reference to the aging of accounts receivable balances, economic conditions, concentration of counterparty risk and past history of debt recovery;
- Evaluating the competency, capabilities and objectivity of the independent professional valuer of the Group;
- Obtaining external valuation reports and meeting with external valuers to understand the results of their work;
- Involving our internal valuation experts to evaluate the management of the Group's judgment in assessing the valuation's key assumptions and methodology in deriving the ECL; and
- Reviewing subsequent settlement records and challenging management regarding their reasons for not considering a provision against any unsettled past-due balances.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of these consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibility in this regard.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The special reserve of the Group includes (i) an amount of HK\$5,760,000 (2021: HK\$5,760,000) representing the difference between the nominal value of the share capital issued by the Company and the nominal value of the share capital of the subsidiaries acquired pursuant to the Group reorganisation in 2004; (ii) an amount of HK\$13,135,000 (2021: HK\$13,135,000) representing the equity-settled share-based payment expenses; and (iii) an amount of HK\$10,420,000 (2021: HK\$10,420,000) representing the difference between the consideration paid in acquisition of additional interests in subsidiaries from the non-controlling shareholders and the adjustment to the non-controlling interests in subsidiaries net with the translation reserve and retained profits during the year ended 31st December, 2017.

Note b: Statutory surplus reserve

As stipulated by the relevant laws and regulations of the People's Republic of China (the "PRC"), the Group's subsidiaries in the PRC shall set aside 10% of their profit after taxation for the statutory surplus reserve until the statutory surplus reserve reaches 50% of the registered capital of the respective subsidiaries. The reserve can only be used, upon approval by the board of directors of the PRC subsidiaries and by the relevant authority, to offset accumulated losses or increase capital.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

1. GENERAL

Hopefluent Group Holdings Limited (the “Company”) is a limited liability company incorporated in the Cayman Islands and its shares are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The addresses of its registered office and principal place of business of the Company are disclosed in the “Corporate Information” section to the annual report.

The consolidated financial statements are presented in Hong Kong dollars while the functional currency of the Company is Renminbi (“RMB”). The Directors selected Hong Kong dollars as the presentation currency because the shares of the Company are listed on the Stock Exchange.

The Company is an investment holding company. Particulars of the principal activities of its subsidiaries are set out in note 44a.

2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

(a) Adoption of new or amended HKFRSs

The Hong Kong Institute of Certified Public Accountants has issued a number of new or amended HKFRSs that are first effective for the current accounting period of the Group.

Amendments to HKAS 16	Property, Plant and Equipment — Proceeds before Intended Use
Amendments to HKAS 37	Onerous Contracts — Cost of Fulfilling a Contract
Annual Improvements to HKFRSs 2018–2020	Amendments to HKFRS 1 First-time Adoption of International Financial Reporting Standard, HKFRS 9 Financial Instruments, HKFRS 16 Leases, and HKAS 41 Agriculture
Amendments to HKFRS 3	Reference to the Conceptual Framework

None of these new or amended HKFRSs has a material impact on the Group’s results and financial position for the current or prior periods.

(b) New or amended HKFRSs that have been issued but are not yet effective

HKFRS 17	Insurance Contracts and related amendments ¹
Amendments to HKAS 1 and HKFRS Practice Statement 2	Disclosure of Accounting Policies ¹
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction ¹
Amendments to HKAS 8	Definition of Accounting Estimates ¹
Amendments to HKAS 1	Classification of Liabilities as Current or Non-current ²
Amendments to HKAS 1	Non-current Liabilities with Covenants ²
Amendments to HKFRS 16	Lease Liability in a Sale and Leaseback ²
Amendments to HKFRS 10 and HKAS 28	Sales on Contribution of Assets between an Investor and its Associate or Joint Venture ³

¹ Effective for annual periods beginning on or after 1st January, 2023.

² Effective for annual periods beginning on or after 1st January, 2024.

³ Effective for annual periods beginning on or after a date to be determined.

The Directors of the Company do not anticipate that the application of the amendments and revision in the future will have significant impacts on the consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with all applicable HKFRSs, Hong Kong Accounting Standards (“HKASs”) and Interpretations (hereinafter collectively referred to as the “HKFRSs”) and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange (the “Listing Rules”).

The consolidated financial statements have been prepared on the historical cost basis except for investment properties and financial assets at FVTPL which are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods or services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 *Share-based Payment*, leasing transactions that are accounted for in accordance with HKFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 *Inventories* or value in use in HKAS 36 *Impairment of Assets*.

A fair-value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

The principal accounting policies are set out below.

Basis of consolidation

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation (Continued)

Changes in the Group's interests in existing subsidiaries

Changes in the Group's interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries, including re-attribution of relevant reserves between the Group and the non-controlling interests according to the Group's and the non-controlling interests' proportionate interests.

Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKFRS9 or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Business combinations

Acquisitions of businesses, other than business combination under common control, are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 *Income Taxes* and HKAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 *Share-based Payment* at the acquisition date;
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard; and
- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in HKFRS 16) as if the acquired leases were new leases at the acquisition date (except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value). Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

Basis of consolidation (Continued)

Business combinations (Continued)

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation are initially measured at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets or at fair value. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value.

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively. Measurement period adjustments are adjustments that arise from additional information obtained during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured to fair value at subsequent reporting dates, with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss or other comprehensive income, as appropriate. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income and measured under HKFRS 9 would be accounted for on the same basis as would be required if the Group had disposed directly of the previously held equity interest.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted retrospectively during the measurement period (see above), and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

Basis of consolidation (Continued)

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units ("CGUs") (or groups of CGUs) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of CGUs).

On disposal of the relevant CGU or any of the CGU within the group of CGUs, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal. When the Group disposes of an operation within the CGU (or a CGU within a group of CGUs), the amount of goodwill disposed of is measured on the basis of the relative values of the operation (or the CGU) disposed of and the portion of the CGU (or the group of CGUs) retained.

The Group's policy for goodwill arising on the acquisition of an associate and a joint venture is described below.

Investments in associates and a joint venture

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates and joint venture are incorporated in the consolidated financial statements using the equity method of accounting. The financial statements of associates and joint venture used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Appropriate adjustments have been made to conform the associate's and the joint venture's accounting policies to those of the Group. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. Changes in net assets of the associate/joint venture other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of an associate or joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Investments in associates and a joint venture (Continued)

The Group assesses whether there is an objective evidence that the interest in an associate or a joint venture may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset within the scope of HKFRS 9, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition. The difference between the carrying amount of the associate or joint venture and the fair value of any retained interest and any proceeds from disposing the relevant interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) upon disposal/partial disposal of the relevant associate or joint venture.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

Impairment losses on tangible assets

At the end of the reporting period, the Group reviews the carrying amounts of tangible assets with finite useful lives to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment, right-of-use assets, and intangible assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the CGU to which the asset belongs.

In addition, the Group assesses whether there is indication that corporate assets may be impaired. If such indication exists, corporate assets are also allocated to individual CGU, when a reasonable and consistent basis of allocation can be identified, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a CGU) for which the estimates of future cash flows have not been adjusted.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Impairment losses on tangible assets (Continued)

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or a CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGUs, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or CGU or a group of CGUs) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU or a group of CGUs) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Revenue recognition

Revenue is recognised to depict the transfer of promised services to customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those services, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts. Specifically, the Group uses a 5-steps approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to each performance obligation
- Step 5: Recognise revenue when each performance obligation is satisfied

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the services underlying the particular performance obligation is transferred to customers.

Control of the services may be transferred over time or at a point in time. Control of the services is transferred over time if:

- the consumer simultaneously receives and consumes the benefits provided by the entity’s performance as the entity performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Notes to the Consolidated Financial Statements

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue recognition (Continued)

If control of the services transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the services.

When the contract contains a financing component which provides the customer a significant benefit of financing the transfer of services to the customer for more than one year, revenue is measured at the present value of the amounts receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. For contracts where the period between the payment and the transfer of the promised services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

Revenue from real estate agency services is recognised at a point in time when the service is rendered and (a) the property buyer has executed the sales and purchase agreement and made the required down-payment to the relevant property developers or (b) the sales and purchase agreement has been registered with the relevant government authorities according to the terms and conditions stated in different agency contracts. Based on terms and conditions in agency contracts and customary industry practice, real estate agency service income is not required to return to property sellers when the property buyers have made the required payments to the relevant property developers which became non-refundable.

Revenue from mortgage referral and other financial service income is recognised at a point in time when the service is rendered and the individual parties or entities have signed legally binding agreements with customers, since only by that time the Group has an enforceable right to payment for the services performed.

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial assets.

Rental income, including rental invoiced in advance from properties let under operating leases, is recognised on a straight-line basis over the period of the relevant leases.

Dividend income from investments is recognised when the shareholder's right to receive payment has been established.

Contract liabilities

A contract liability represents the Group's obligation to transfer services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customers.

Equity-settled share-based payment transactions

The fair value of services received determined by reference to the fair value of share options/shares granted at the grant date is recognised as an expense in full at the grant date when the share options/shares granted vest immediately, with a corresponding increase in equity (share options reserve).

When the share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to retained earnings.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment

Property, plant and equipment including leasehold land and buildings held for use in the supply of services or for administrative purposes are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties also include leased properties which are being recognised as right-of-use assets upon application of HKFRS 16 and subleased by the Group under operating leases.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values adjusted to exclude any prepaid or accrued operating lease income.

All of the Group's land and buildings and rights of use assets (where the Group is a lessee) held to earn rentals or for capital appreciation purposes are accounted for as investment properties and are measured using the fair value model. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the property is derecognised.

Leasing

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leasing (Continued)

The Group as a lessee (Continued)

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases of property that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 *Financial Instruments* ("HKFRS 9") and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leasing (Continued)

Lease liabilities (Continued)

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review/expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group as a lessor

Allocation of consideration to components of a contract

When a contract includes both leases and non-lease components, the Group applies HKFRS 15 to allocate consideration in a contract to lease and non-lease components. Non-lease components are separated from lease component on the basis of their relative stand-alone selling prices.

Refundable rental deposits

Refundable rental deposits received are accounted for under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments from lessees.

Sublease

When the Group is an intermediate lessor, it accounts for the head lease and the sublease as two separate contracts. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of the translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates or joint arrangements that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Capitalisation of borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Any specific borrowing that remain outstanding after the related asset is ready for its intended use or sale is included in the general borrowing pool for calculation of capitalisation rate on general borrowings.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received,

Government grants related to income that are receivables as compensation for expenses or losses already incurred or for the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "other income".

Retirement benefit costs

Payments to state-managed retirement benefit schemes and the Mandatory Provident Fund Scheme (the "MPF Scheme") are recognised as expenses when employees have rendered service entitling them to the contributions.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on the taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using the tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, associates, and joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they are related to income taxes levied by the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Notes to the Consolidated Financial Statements

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation (Continued)

In assessing any uncertainty over income tax treatments, the Group considers whether it is probable that the relevant tax authority will accept the uncertain tax treatment used, or proposed to be used by individual group entities in their income tax filings. If it is probable, the current and deferred taxes are determined consistently with the tax treatment in the income tax filings. If it is not probable that the relevant taxation authority will accept an uncertain tax treatment, the effect of each uncertainty is reflected by using either the most likely amount or the expected value.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of asset within the time frame established by regulation or convention in the marketplace concerned.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest/dividend income which are derived from the Group's ordinary course of business are presented as revenue.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVOCI"):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at the date of initial application/initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income ("OCI") if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 *Business Combinations* applies.

Financial instruments (Continued)

Financial assets (Continued)

Classification and subsequent measurement of financial assets (Continued)

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) *Financial assets at FVTPL*

Financial assets that do not meet the criteria for being measured at amortised cost or FVOCI or designated as FVOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend earned on the financial asset and is included in the "other gains and losses" line item.

(ii) *Equity instruments designated as at FVOCI*

Investments in equity instruments at FVOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognised in OCI and accumulated in the investment revaluation reserve; and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will be transferred to retained earnings.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss ("ECL") model on financial assets (including accounts and loan receivables, other receivables, amounts due from a joint venture/an associate, pledged bank deposits and bank balances) which are subject to impairment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for accounts receivable. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Unless identified at initial recognition, the management considered loan receivables are unimpaired and without significant increase in credit risk on which a 12m ECL is recognised. Loan receivables are deemed to have suffered a significant increase in credit risk since initial recognition when they are 30 days past due and are transferred from stage 1 to stage 2 on which a lifetime ECL is recognised. For loan receivables past due over 151 days, they are considered to be credit-impaired and are transferred from stage 2 to stage 3.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) *Significant increase in credit risk*

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) it has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flows obligation. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definitions.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

(ii) *Definition of default*

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collateral held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 365 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) *Credit-impaired financial assets*

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

(iv) *Write-off policy*

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of rental receivables, when the amounts are over 2 years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) *Measurement and recognition of ECL*

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

The measurement of ECL on accounts receivable and loan receivables are assessed on an individual basis for customers with good credit rating or with high credit risk, and the remaining is assessed collectively using provision matrix. The Group uses a practical expedient in estimating ECL on those assets using a provision matrix taking into consideration historical settlement pattern, past default experience of the debtor, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

(v) *Measurement and recognition of ECL (Continued)*

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of rental receivables where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of an investment in a debt instrument classified as at FVOCI, the cumulative gain or loss previously accumulated in the FVOCI reserve is reclassified to profit or loss.

On derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained profits.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is (i) contingent consideration of an acquirer in a business combination to which HKFRS 3 applies, (ii) held for trading or (iii) it is designated as at FVTPL.

A financial liability is held for trading if:

- it has been acquired principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative, except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration of an acquirer in a business combination may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and HKFRS 9 permits the entire combined contract to be designated as at FVTPL.

For financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. For financial liabilities that contain embedded derivatives, such as convertible loan notes, the changes in fair value of the embedded derivatives are excluded in determining the amount to be presented in other comprehensive income. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are not subsequently reclassified to profit or loss; instead, they are transferred to retained profits upon derecognition of the financial liability.

Financial liabilities at amortised cost

Financial liabilities including payables and accruals, amount due to an associate and bank and other borrowings are subsequently measured at amortised cost, using the effective interest method.

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument. Financial guarantee contract liabilities are measured initially at their fair values. It is subsequently measured at the higher of:

- the amount of the loss allowance determined in accordance with HKFRS 9; and
- the amount initially recognised less, where appropriate, cumulative amortisation recognised over the guarantee period.

Related parties

- (a) A person or a close member of that person's family is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of key management personnel of the Group or the Company's parent.
- (b) An entity is related to the Group if any of the following conditions apply:
 - (i) the entity and the Group are members of the same group (which means that each parent, subsidiary or fellow subsidiary is related to the others).
 - (ii) one entity is an associate or a joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) both entities are joint ventures of the same third party.
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) the entity is a post-employment benefit plan for the benefit of the employees of the Group or an entity related to the Group.
 - (vi) the entity is controlled or jointly controlled by a person identified in (a).
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of key management personnel of the entity (or of a parent of the entity).
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the group or to the group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (i) that person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; and
- (iii) dependents of that person or that person's spouse or domestic partner.

Discontinued operations

A discontinued operation is a component of the Group's business, the operations and cash flows of which can be clearly distinguished from the rest of the Group, and which represents a separate major line of business or geographical area of operations, or is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations, or is a subsidiary acquired exclusively with a view to resale.

Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. It also occurs if the operations are abandoned.

Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's chief operating decision makers including executive directors and senior management ("CODMs") for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

PRC enterprise income tax and deferred taxation

The Group is subject to income taxes in Mainland China. As a result of the fact that certain matters relating to the income taxes have not been confirmed by the local tax bureau, objective estimate and judgement based on currently enacted tax laws, regulations and other related policies are required in determining the provision of income taxes to be made. Where the final tax outcome of these matters is different from the amounts originally recorded, the differences will have impact on the income tax and tax provision in the period in which the differences realise.

Deferred tax assets relating to certain temporary differences and tax losses are recognised when management considers to be probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. The outcome of their actual utilisation may be different.

Estimated impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the recoverable amount of the CGUs to which goodwill has been allocated which is higher of the value in use or fair value less cost of disposal. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the CGUs and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected or change in facts and circumstances which results in downward revision of future cash, a material impairment loss/further impairment loss may arise. As at 31st December, 2022, the carrying amount of goodwill was HK\$11,707,000 (2021: HK\$218,604,000). Details of the recoverable amount calculation are disclosed in note 18.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty (Continued)

Fair value measurements and valuation processes

The Group's certain assets are measured at fair value for financial reporting purposes.

In estimating the fair value of an asset, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party qualified valuers to perform the valuation.

The Group uses valuation techniques that include inputs that are not based on observable market data to estimate the fair value of investment properties and certain types of financial instruments. Notes 15 and 41c provide detailed information about the valuation techniques, inputs and key assumptions used in the determination of the fair value of various assets.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Deferred taxation on investment properties

For the purposes of measuring deferred tax liabilities or deferred tax assets arising from investment properties that are measured using the fair value model, the directors have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment properties are depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. Therefore, in measuring the Group's deferred taxation on investment properties, the directors have determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is not rebutted. As a result, the Group has recognised the deferred taxes on changes in fair value of investment properties as the Group is subject to enterprise income tax ("EIT") and land appreciation tax ("LAT") on disposal of its investment properties.

6. SEGMENT INFORMATION

Operating segments and the amounts of each segment item reported in the consolidated financial statements are identified from the financial information provided regularly to the Group's top management for the purposes of allocating resources to and assessing the performance of the Group's various lines of business.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of business activities.

Segment revenue, expenses, results and assets include items directly attributable to a segment as well as those that can be allocated on a reasonable basis to that segment, but exclude exceptional items. Segment capital expenditure is the total cost incurred during the year to acquire segment assets (both tangible and intangible) that are expected to be used for more than one year. Corporate portions of expenses and assets mainly comprise corporate administrative and financing expenses and corporate financial assets respectively.

The Group has the following operating segments during the year ended 31st December, 2022. These segments are managed separately. No operating segments have been aggregated to the following reportable segments.

- Property real estate agency is the provision of first hand real estate services to property developers and secondary real estate services to corporates and individuals;
- Financial services is the provision of mortgage referral and loan financing services to individuals or companies.

The Group was involved in the following segment which was discontinued during the year ended 31st December, 2022:

On 31st March, 2022, the Company entered into a conditional shareholder cooperation adjustment agreement (the "Agreement") with Poly Developments and Holdings Group Co., Ltd. ("Poly") to dispose the entire issued share capital of Poly Real Estate Investment Consultancy Co., Ltd. and its subsidiaries ("Poly Consultancy Group"). The operation of Poly Consultancy Group representing the provision of property real estate agency services in the PRC was classified as discontinued operations.

The following is an analysis of the Group's revenue by geographical markets.

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 3. Total segment revenue represents the Group's consolidated turnover as set out in the consolidated statement of profit or loss and other comprehensive income. Segment profit represents the profit earned by each segment without allocation of other income, central administrative costs including directors' emoluments, other gains and losses, impairment loss of financial assets gain on disposal of investment properties, gain on disposal of subsidiaries, share of results of associates and a joint venture, change in fair value of investment properties and finance costs. This is the measure reported to the CODM for the purposes of resource allocation and performance assessment.

Segment assets and liabilities

As the Group's segment assets and liabilities are not regularly reviewed by the CODMs, the measure of total assets and liabilities for each operating segment is therefore not presented.

Unrealised (loss)/gain on property revaluation included in profit or loss (included in change in fair value of investment properties)	(4,135)	1,221

The investment properties of the Group are held under medium term land use rights in the PRC.

All of the Group's properties held to earn rentals or for capital appreciation purpose are measured using the fair value model and are classified and accounted for as investment properties.

During the year ended 31st December, 2022, rental income of HK\$9,273,000 (2021: HK\$12,029,000) and rental yield of 6.66% (2021: 8.66%) were generated from the investment properties.

There were no transfer into or out of Level 3 during the year.

The fair values of the Group's investment properties at 31st December, 2022 and 2021 have been arrived at on the basis of a valuation carried out on that date by BMI Appraisals Limited ("BMI"), an independent qualified valuer not connected to the Group. BMI is a member of the Institute of Valuers. The fair value was determined based on the direct comparison approach, where assuming sales in their existing states with the benefit of vacant possession and by making reference to market evidence of transaction prices for similar properties in the same locations and conditions. There has been no change from the valuation technique used in prior year.

In estimating the fair value of the properties, the highest and best use of the properties is their current use, which does not differ from their actual use.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

15. INVESTMENT PROPERTIES (Continued)

One of the key inputs used in valuing the investment properties was the market price per square meter using direct market comparable and taking into account the differences between the investment properties and the comparable in terms of age, time, location, floor level and other relevant factors, ranging from RMB8,000 to RMB71,000 (2021: ranging from RMB9,000 to RMB126,000) per square meter. An increase in the market price per square meter will result in a same level increase in fair value of the investment properties, and vice versa.

	Valuation technique	Key inputs	Sensitivity
Residential units			
Guangdong	Direct comparison	Market unit rate, taking into account the recent transaction prices for similar properties adjusted for nature and location of the property, which averages HK\$32,000 (2021: HK\$27,000) per square metre ("sqm").	A significant increase in the market unit rate used would result in a significant increase in fair value, and vice versa.
Guangxi	Direct comparison	Market unit rate, taking into account the recent transaction prices for similar properties adjusted for nature and location of the property, which averages HK\$9,000 (2021: HK\$nil) per sqm.	A significant increase in the market unit rate used would result in a significant increase in fair value, and vice versa.
Commercial units			
Guangdong	Direct comparison	Market unit rate, taking into account the recent transaction prices for similar properties adjusted for nature and location of the property, which averages HK\$43,000 (2021: HK\$52,000) per sqm.	A significant decrease in the market unit rate used would result in a significant decrease in fair value, and vice versa.
Sichuan	Direct comparison	Market unit rate, taking into account the recent transaction prices for similar properties adjusted for nature and location of the property, which averages HK\$nil (2021: HK\$26,000) per sqm.	A significant decrease in the market unit rate used would result in a significant decrease in fair value, and vice versa.
Beijing	Direct comparison	Market unit rate, taking into account the recent transaction prices for similar properties adjusted for nature and location of the property, which averages HK\$nil (2021: HK\$46,000) per sqm.	A significant decrease in the market unit rate used would result in a significant decrease in fair value, and vice versa.

18. GOODWILL

	HK\$'000
COST	
At 1st January, 2021	213,399
Exchange adjustments	5,205
At 31st December, 2021 and 1st January, 2022	218,604
Derecognition of discontinued operations (note 33)	(206,040)
Exchange adjustments	(857)
At 31st December, 2022	11,707

For the purposes of impairment testing, goodwill as detailed above has been allocated to the subsidiaries as individual CGUs from which goodwill arose. The carrying amount of goodwill as at 31st December, 2022 and 2021 allocated to these units are as follows:

	2022 HK\$'000	2021 HK\$'000
Provision of primary real estate agency services in the PRC ("Unit A")	11,707	12,564
Provision of real estate agency services in the PRC ("Unit B") — discontinued operations	—	206,040
	11,707	218,604

The recoverable amount of the CGUs has been determined based on a value in use calculations. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period, and a discount rate of 16.05% for Unit A (2021: Unit A: 18.01% and Unit B: 16.53%). The set of cash flows beyond five-year period are extrapolated using a growth rate of 3% (2021: a growth rate of 3%), as determined by management. Other key assumptions for the value in use calculations relate to the estimation of cash inflows/outflows which include commission income of Unit A (2021: Unit A and Unit B respectively) and respective profit margin, such estimation is based on unit's past performance and management's expectations for the market development. Management believes that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of the CGUs to exceed the aggregate recoverable amount.

References are made to the announcements of the Company dated 7th April, 2022, the circular dated 26th May, 2022, and note 6 and note 33 to the consolidated financial statement in related to the derecognition of discontinued operations — Poly Consultancy Group.

Taking into account that Unit B (Poly Consultancy Group) was derecognised and the recoverable amount of Unit B cannot be recovered, the amount of goodwill approximately of HK\$206,040,000 associated with Unit B (Poly Consultancy Group) was derecognised together with the derecognition of discontinued operations on 31st August, 2022.

36. OPERATING LEASES

The Group as lessee

The Group made minimum lease payments under operating leases in respect of office premises and shops of HK\$138,930,000 (2021: HK\$144,818,000).

At the end of the reporting period, the Group had commitments for future minimum lease payments under non-cancellable operating leases which fall due as follows:

	2022 HK\$'000	2021 HK\$'000
Within one year	129,881	164,795

The Group has certain leases of shops with lease terms of 12 months or less. The Group applies the "short-term lease" recognition exemptions for these leases and the future minimum lease payments regarding these leases are disclosed as above.

The Group as lessor

Property rental income earned during the year was HK\$9,791,000 (2021: HK\$12,029,000). All of the investment properties held have committed tenants for the next 1 to 6 years (2021: 1 to 7 years).

At the end of the reporting periods, the Group had contracted with tenants for the following future minimum lease payments:

	2022 HK\$'000	2021 HK\$'000
Within one year	6,997	11,482
In the second to fifth year inclusive	3,499	11,579

37. SHARE OPTIONS SCHEME

The Company's share option scheme (the "Old Scheme"), was adopted pursuant to a resolution passed on 24th June, 2004 for the primary purpose of providing incentives or rewards to directors, eligible employees and advisors and consultants of the Group for their contributions to the Group. The Old Scheme became effective upon the listing of the Company's shares on the Stock Exchange on 15th July, 2004 and expired on 23rd June, 2014. The Company's new share option scheme (the "New Scheme"), was adopted pursuant to a resolution passed in an annual general meeting on 6th June, 2014. Under the New Scheme, the board of directors of the Company (the "Board") may grant options to eligible employees, including directors of the Company and its subsidiaries, to subscribe for shares in the Company. The New Scheme, unless otherwise cancelled or amended, will remain in force for 10 years from the date of its adoption on 6th June, 2014.

The offer of the grant of share options may be accepted within 28 days from the date of the offer, at a consideration of HK\$1, payable by the grantee upon the acceptance of the offer. The options may be exercised at any time within the period commencing from the date of grant of the option and expiring on the date following 10 years from the date of acceptance of the grant of the options. Unless otherwise determined by the executive directors, the New Scheme does not require a minimum period for which the options must be held or a performance target which must be achieved before the options can be exercised.

The subscription price of the share options is determinable by the directors, but shall be the highest of (i) the closing price of the shares as stated in the Stock Exchange's daily quotation sheet on the date of grant, which must be a business day; (ii) the average closing price of the shares as stated in the Stock Exchange's daily quotation sheet for the five business days immediately preceding the date of grant; and (iii) the nominal value of a share of the Company.

Pursuant to the New Scheme, the maximum number of shares in the Company in respect of which options may be granted when aggregated with any other share option scheme of the Company must not exceed 10% of the issued share capital of the Company as at the date of adoption of the New Scheme (i.e. 52,370,190 shares). Subject to the issue of a circular and the approval of the shareholders of the Company in general meeting and/or such other requirements prescribed under the Listing Rules from time to time, the Board may refresh the limit at any time to 10% of the total number of shares in issue as at the date of approval by the shareholders of the Company in general meeting. Notwithstanding the foregoing, the shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the New Scheme and any other share option schemes of the Company at any time shall not exceed 30% of the shares in issue from time to time.

No option may be granted to any person if the total number of shares of the Company already issued and issuable to him under all the options granted to him in any 12-month period up to and including the date of grant exceeding 1% of total number of shares in issue as at the date of grant. Any further grant of options in excess of this 1% limit shall be subject to the issue of a circular by the Company and the approval of the shareholders in general meeting. Such participant and his associate (as defined in the Listing Rules) have to abstain from voting and/or comply with other requirements prescribed under the Listing Rules from time to time. Options granted to substantial shareholders or independent non-executive directors in excess of 0.1% of the Company's shares in issue and with a value in excess of HK\$5 million within any 12-month period must be approved in advance by the Company's shareholders.

The outstanding share options granted under the Old Scheme shall continue to be valid and exercisable.

There were no outstanding balance of share options as at 31st December, 2022 and 2021.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

38. RETIREMENT BENEFITS SCHEMES

The Group operates a MPF Scheme for all qualifying employees in Hong Kong. MPF Scheme is a defined contribution scheme in accordance with the principle of Mandatory Provident Fund Scheme Ordinance. The Group contributes 5% of relevant payroll costs which limited to HK\$18,000 (2021: HK\$18,000) per annum of each individual employee to the Scheme, where contribution is matched by employees. Any forfeited contributions in respect of unvested benefits of staff leavers will be used to reduce the Group's contributions. The assets of the schemes are held separately from those of the Group, in funds under the control of trustees.

The employees of the Group's subsidiaries in the PRC are members of a state-managed retirement benefits scheme operated by the government of the PRC. The subsidiaries are required to contribute a specified percentage of payroll costs to the retirement benefits scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefits scheme is to make the specified contributions.

The contributions paid and payable to the schemes by the Group in respect of the year which were charged to profit or loss amounted to HK\$218,187,000 (2021: HK\$278,856,000).

39. RELATED PARTY TRANSACTIONS

Except as disclosed elsewhere in the consolidated financial statements, the Group entered into the following transactions with related parties during the year:

	2022 HK\$'000	2021 HK\$'000

The following balances were outstanding as at the end of reporting periods:

	2022 HK\$'000	2021 HK\$'000
Non-controlling interest (note c)	–	6,876
Related parties of non-controlling interest (notes b & c)	–	296,462

Note a: These transactions were carried out in accordance with terms and conditions mutually agreed by the parties involved.

Note b: A non-controlling interest has controlled, joint controlled or significant influence over those corporations.

Note c: The amounts due are trade in nature, unsecured, interest-free and repayable on demand. In the opinion of the directors of the Company, the amounts are expected to be recovered within twelve months from the end of the reporting period.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

39. RELATED PARTY TRANSACTIONS (Continued)

Compensation of key management personnel

The remuneration of key management during the year is as follows:

	2022 HK\$'000	2021 HK\$'000
Fees, salaries and other benefits	12,971	11,199
Retirement benefits scheme contributions	122	58
	13,093	11,257

The remuneration of key management including directors and key executives is determined by the remuneration committee having regard to the performance of individuals and market trends.

40. CAPITAL RISK MANAGEMENT

The Group's objective of managing capital is to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce cost of capital.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholders' returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

As consistent with industry practice, the Group monitors its capital structure on the basis of the gearing ratio. This ratio is calculated as total liabilities divided by total assets.

The gearing ratio as at the end of the reporting period is as follows:

	2022 HK\$'000	2021 HK\$'000
Total liabilities	816,986	2,881,624
Total assets	3,051,020	6,994,101

41. FINANCIAL INSTRUMENTS (Continued)

41b. Financial risk management objectives and policies

The Group's major financial instruments include accounts receivable, amounts due from/(to) a joint venture/an associate, loan receivables, other receivables, financial assets at FVTPL, bank balances, pledged bank deposits, payables, lease liabilities and bank and other borrowings. Details of the financial instruments are disclosed in respective notes. The main risks arising from the Group's financial instruments in the normal course of the Group's business are market risk, credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Currency risk

The Group substantively operated in the PRC with most of the transactions settled in RMB and did not have significant exposure to risk resulting from changes in foreign currency exchange rates.

Several subsidiaries of the Company have foreign currency assets, including bank balances and cash, which exposed the Group to foreign currency risk.

The Group is mainly exposed to the currency risk of Australian dollars ("AUD").

The carrying amounts of the Group's foreign currency denominated monetary assets at the reporting date are as follows:

	Assets	
	2022 HK\$'000	2021 HK\$'000
AUD	–	6,102

Sensitivity analysis

The following table details the Group's sensitivity to a 5% (2021: 5%) increase/decrease in AUD against 5%(2021: 5%) is the sensitivity rate used which represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the reporting period for a 5% (2021: 5%) change in foreign currency rates. A positive number below indicates an increase in post-tax profit where HK\$ strengthen 5% (2021: 5%) against AUD. For a 5% (2021: 5%) weakening of HK\$ against AUD, there would be an equal and opposite impact on the profit and the balance would be negative.

	HK\$ Impact	
	2022 HK\$'000	2021 HK\$'000
Profit or loss	–	214

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

41. FINANCIAL INSTRUMENTS (Continued)

41b. Financial risk management objectives and policies (Continued)

Market risk (Continued)

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to loan receivables, amounts due from a joint venture and fixed-rate other borrowings.

The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank balances because these balances carry interest at prevailing rates and they are of short maturity. The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank borrowings and variable-rate other borrowings.

The Group currently does not have any interest rate hedging policy in relation to fair value interest rate risk and cash flow interest rate risk. The directors monitor the Group's exposure on ongoing basis and will consider hedging the interest rate should the need arises.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for variable-rate bank balances. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period were outstanding for the whole year. A 25 basis points (2021: 25 basis points) increase or decrease is used which represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 25 basis points (2021: 25 basis points) higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31st December, 2022 would have increased/decreased by HK\$738,000 (2021: increased/decreased by HK\$3,225,000).

In the management's opinion, the sensitivity analysis is unrepresentative of the inherent interest rate risk as the year end exposure does not reflect the exposure during the year.

Other price risk

The Group is exposed to equity price risk through its investments in listed equity securities. The management manages this exposure by closely monitoring the price fluctuation of the investment. As at 31st December, 2022, the Group's equity price risk is mainly concentrated on the equity instruments operating in different industry sectors listed on the Hong Kong, Shanghai and Shenzhen Stock Exchange.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to equity price risks at the reporting date.

If the prices of the equity instrument had been 5% (2021: 5%) higher/lower and all other variables were held constant for the year ended 31st December, 2022, the Group's post-tax profit for the year would have increased/decreased by HK\$375,000 (2021: HK\$521,000) as a result of the changes in fair value of financial assets at FVTPL.

In management's opinion, the sensitivity analysis is unrepresentative of the inherent price risk as the year end exposure does not reflect the exposure during the year.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2022

41. FINANCIAL INSTRUMENTS (Continued)

41b. Financial risk management objectives and policies (Continued)

Credit risk

As at 31st December, 2022, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

The Group's concentration of credit risk by geographical locations is mainly in the PRC, which accounted for 100% (2021: 100%) of the total loan receivables, accounts receivable and an amount due from a joint venture as at 31st December, 2022. The Group also has concentration of credit risk as 16.5% (2021: 12.0%) and 6.2% (2021: 4.6%) of the total accounts receivable was due from the Group's five largest customers and the largest customer, respectively, whom are within the property real estate agency segment with good reputation and satisfactory repayment history.

For the amounts due from/(to) an associate/a joint venture as disclosed in note 24, the management of the Group closely monitors the financial position and repayment status of the joint venture and the associate, and considers that the credit risk is limited.

Other than concentration of credit risk on loan receivables, accounts receivable and amount due from a joint venture, the Group does not have any other significant concentration of credit risk.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. With respect to the microcredit business, the Group has delegated a team responsible for determination of credit limits and credit approvals. The team monitors customers' repayment ability and requests the customers to provide guarantees. In addition, the Group reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group applies the HKFRS 9 simplified approach to measure ECL which uses a lifetime ECL for trade receivables. The management of The Group performs impairment assessment on individual debtors basis to estimate the amount of lifetime ECL of trade receivables based on internal credit rating, ageing, repayment history and/or past due status of respective debtors. Estimated loss rates are based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information.

An impairment loss under ECL model, net of reversal, of HK\$382,572,000 (2021: HK\$438,128,000) is recognised for trade receivables for the year ended 31st December, 2022. Details of the quantitative disclosure are set out below in this note.

Loan receivables

The management of the Group performs impairment assessment on individual debtor basis to estimate the amount of ECL of loan receivables based on internal credit rating, ageing, collateral, repayment history and/or past due status of respective other receivables and adjusted for forward-looking information. The 12m ECL for loan receivables of HK\$155,595,000 (2021: HK\$201,335,000) was recognised as at 31st December, 2022.

The Group's internal credit risk grading assessment comprises following categories:

Internal credit rating level	Description	Trade receivables	Other financial assets
High	The counterparty has good ability of repayment, but may infrequently settle after due date.	Lifetime ECL — not credit-impaired	12m ECL
Medium	The counterparty has enough ability of repayment, but may settle in full after due date.	Lifetime ECL — not credit-impaired	12m ECL
Low	There is evidence indicating the asset is credit-impaired.	Lifetime ECL — credit-impaired	Lifetime ECL — credit impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery.	Amount is written off	Amount is written off

		729,296	155,595	201,335

(c) *Other receivables, deposits and amount due from a joint venture*

Other receivables, deposits and amount due from a joint venture are considered to have low credit risk and the loss allowance was limited 12m ECLs. In the opinion of the directors of the Company, the identified impairment loss of those financial assets was immaterial after the assessment.

(d) *Bank balances and pledged bank deposits*

The management of the Group assessed that the Group's bank deposits and bank balances are at low credit risk because they are placed with reputable banks with higher internal credit rating with reference to either international or PRC credit-rating agencies, and ECL is insignificant.

41. FINANCIAL INSTRUMENTS (Continued)

41b. Financial risk management objectives and policies (Continued)

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank borrowings.

In addition to the Group's own capital and earnings to finance the Group's operations, the Group relies on bank and other borrowings as additional source of liquidity. As at 31st December, 2022, the Group has bank borrowings of HK\$60,795,000 (2021: HK\$60,976,000) and other borrowings of HK\$171,114,000 (2021: HK\$455,092,000). Furthermore, as at 31st December, 2022, the Group has unutilised bank facilities of RMB200,000 (approximately HK\$227,000) (2021: RMBnil (approximately HK\$nil)).

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.

Notes:

- (a) The Company directly holds the equity interest in Hopefluent (BVI) Limited. All other interests shown above are indirectly held by the Company.
- (b) The companies are sino-foreign equity joint ventures with limited liability.
- (c) The companies are limited liability companies.
- (d) Hopefluent Realty is 75% held by Hopefluent Australia, which is 60% held by the Group. The effective shareholding in Hopefluent Realty held by the Group is thus 45% as at 31st December, 2021.
- (e) Despite holding only 22.4% equity interest, according to the articles of association of Tibet Poly Aijia, all parties contractually agreed all board decision rest on the sole discretion of Poly Consultancy, an indirect subsidiary of the Group, therefore giving the Group control over Tibet Poly Aijia as at 31st December, 2021.
- (f) The English name is for identification purposes only.

The above table lists the subsidiaries of the Group as at 31st December, 2022 and 2021 which, in the opinion of the directors, principally affected the results or assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.
