# CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of Jiande International Holdings Limited (the "Company"), I am pleased to present the annual report of the Company and its subsidiaries (collectively, the "Group") for the year ended 31 December 2022.

## INDUSTRY REVIEW

In 2022, China's economy faced downward pressures from the domestic outbreaks of the COVID-19 pandemic in different areas and the complicated internal and external environment. With the increased effort made by the central government and local governments, the gross domestic product of China for 2022 expanded 3.0% on a year-on-year basis, achieving approximately RMB121.0 trillion according to the National Bureau of Statistics. Adhering to the principle of "houses are for living, not for speculation" for the promotion of a positive, healthy and sustainable environment, the adjustment in real estate market has been under progress, and the sales of commodity properties in China amounted to RMB13.3 trillion in 2022, representing a year-on-year decrease of 26.7%. To ensure steady development of the real estate industry, the "16 Supportive Financial Measures for the Property Market" was introduced by People's Bank of China and the China Banking and Insurance Regulatory Commission in the fourth quarter of 2022.

## BUSINESS REVIEW AND PROSPECT

During the year ended 31 December 2022, the Group focused on the development of its five residential and commercial property projects in the People's Republic of China (the "PRC"), namely Xixian Kangqiao Xueyuan (息縣康橋學苑) in Xinyang, Henan Province, and Wugang Kangqiao Xueyuan (武岡康橋學苑), Kangqiao International City (康橋國際城), Kangqiao Meiju (康橋美居) and Kangqiao Meishu (康橋美墅) in Wugang, Hunan Province.

Looking forward to 2023, the real estate industry remains to be full of challenges and the "wait-and-see" attitude among potential property buyers will adversely affect the market demand in China. Nevertheless, the central government has intensified its effort to drive the steady qualitative growth and rational quantitative growth of the economy. It is expected that more supportive policies will be launched to stabilize the expectations of home buyers and recover consumers' confidence in the property market. Local governments are also expected to implement region-specific and flexible regulatory policies to promote long-term stable and healthy development of real estate industry.

The Group will continue to uphold its prudent management approach to maintain a balance between growth, efficiency and risk. The Group has committed to developing quality properties accompanied with a living community to customers, particularly in those cities in the PRC where the rigid demand for housing remains strong due to the continuous urbanization process. The Group will also aim at being customer-centred and innovating product functions to realise customers' pursuit for better lives.

# MANAGEMENT DISCUSSION AND ANALYSIS

## FINANCIAL REVIEW

### Financial Performance

The Group's revenue for the year ended 31 December 2022 was mainly derived from the sale and delivery of properties of the final phase of The Cullinan Bay project to customers, net of discounts and sales related taxes. Revenue rose by 148.2% from RMB105,609,000 for the year ended 31 December 2021 to RMB262,153,000 for the year ended 31 December 2022, primarily due to the increase in delivery of the residential properties of the final phase of The Cullinan Bay project which were mostly completed in December 2021 and delivered to customers in early 2022, as compared to the situation that no new properties were completed for delivery during the year ended 31 December 2021.

Gross profit of the Group increased by 105.7% from RMB40,643,000 for the year ended 31 December 2021 to RMB83,593,000 for the year ended 31 December 2022, along with the revenue growth. Gross profit margin decreased from 38.5% for the year ended 31 December 2021 to 31.9% for the year ended 31 December 2022, mainly attributable to the rising unit cost of the properties sold.

Other income, consisting of rental income from investment properties and interest income from bank deposits, was reduced by 24.0% from RMB4,425,000 (restated) for the year ended 31 December 2021 to RMB3,361,000 for the year ended 31 December 2022, primarily due to the decrease in overall cash held by the Group after spending approximately RMB112,420,000 to acquire the land use rights in January 2022, leading to the reduction in interest income from bank deposits.

Write down on properties for sale of approximately RMB5,000,000 for the year ended 31 December 2022 represented the write down of certain car parking spaces of the Group to their net realisable value when the Group adjusted the selling price of these car parking spaces below cost to promote the sale.

As disclosed in the Company's announcements dated 7 October 2022, 19 December 2022 and 28 March 2023, the Company has discovered that a former treasurer of Hui An China General Real Estate Development Company Limited (惠安中總房地產開發有限公司) ("Hui An China General"), a subsidiary owned as to 98.4% by the Company, was suspected to have misappropriated the funds of Hui An China General between 2019 and 2022 (the "Misappropriation"). Based on the findings of the independent review performed by RSM Corporate Advisory (Hong Kong) Limited ("RSM") that was engaged by the Company as independent forensic accountant to investigate the Misappropriation, the Company has ascertained a total net loss as a result of the Misappropriation to be approximately RMB24,980,000, out of which: (i) approximately RMB4,500,000 was recorded as loss on misappropriation of funds for the year ended 31 December 2022, (ii) approximately RMB9,900,000 was restated as loss on misappropriation of funds for the year ended 31 December 2021, and approximately RMB10,644,000 was restated to adjust the equity attributable to owners of the Company and non-controlling interests as at 1 January 2021. Details of the prior year adjustments in relation to the Misappropriation are set out note 5 to the consolidated financial statements.

Selling expenses of the Group increased by 39.8% from RMB5,258,000 for the year ended 31 December 2021 to RMB7,349,000 for the year ended 31 December 2022, primarily attributable to the additional sales agent commission incurred for the delivery of properties of The Cullinan Bay project.

# MANAGEMENT DISCUSSION AND ANALYSIS

Administrative expenses decreased by 3.4% from RMB21,640,000 (restated) for the year ended 31 December 2021 to RMB20,914,000 for the year ended 31 December 2022, mainly due to the further control on administrative expenses relating to the operation for The Cullinan Bay project after the completion of construction of final phase of this project in December 2021.

Income tax expense, representing current tax provision for the PRC Enterprise Income Tax and PRC Land Appreciation Tax and deferred tax, increased by 85.2% from RMB7,347,000 for the year ended 31 December 2021 to RMB13,603,000 for the year ended 31 December 2022, mainly attributable to the increase in the Group's taxable profit.

Profit attributable to owners of the Company reached RMB31,321,000 for the year ended 31 December 2022, representing approximately 24 times of the profit of RMB1,303,000 (restated) for the year ended 31 December 2021, primarily due to the growth of revenue and gross profit from the Group's property development business, net of the increase in write down on properties for sale, selling expenses and income tax expense.

## Liquidity and Financial Resources

As at 31 December 2022, the Group had total assets of RMB1,358,573,000 (including restricted bank deposits and bank balances and cash of RMB150,452,000), which were financed by total equity of RMB796,637,000 and total liabilities of RMB561,936,000. The Group's working capital requirements were mainly fulfilled by its internal resources and bank borrowings during the year ended 31 December 2022.

Current ratio of the Group was 2.45 times as at 31 December 2022 (31 December 2021: 2.15 times (restated)). The Group had secured bank borrowings of RMB36,000,000 as at 31 December 2022 (31 December 2021: RMB40,000,000). Gearing ratio, defined as total debts comprising bank borrowings and amount due to a non-controlling interest of subsidiaries divided by total equity, was 19.7% as at 31 December 2022 (31 December 2021: 17.5% (restated)).

## Foreign Exchange Exposure

Major subsidiaries of the Company operate in the PRC and all the business transactions of the Group are denominated in RMB. Net foreign exchange gain for the year ended 31 December 2022 primarily resulted from the translation of the bank balances denominated in currencies other than RMB into RMB. Currently, the Group does not use derivative financial instruments and has not entered into any derivative contracts. However, the management will monitor the currency fluctuation exposure and will consider hedging significant foreign exchange risk should the need arise.

## EMPLOYEES AND REMUNERATION POLICY

As at 31 December 2022, the Group had approximately 42 full-time employees, excluding the directors of the Company ("the Directors"), in the PRC. During the year ended 31 December 2022, the total staff costs, including Directors' remuneration, was RMB9,484,000 (2021: RMB9,242,000). Remuneration packages of the employees are determined by reference to the qualifications and experience of the employee concerned and are reviewed annually by the management with reference to market conditions and individual performance. The Group offers a comprehensive and competitive remuneration and benefit package to its employees. As required by applicable PRC laws and regulations, the Group participates in various employee benefit plans of the municipal and provincial governments, including housing provident fund, pension, medical, maternity, work injury insurance and unemployment benefit plans.

The Group has taken into consideration the environmental factors in the course of planning and development for its property projects, such as promoting planting and landscaping during project design to optimise the green ecosystem and adopting a series of emission reduction, water pollution prevention and resources saving measures on the construction sites. The Group also procures and selects environment-friendly materials for both outdoor and indoor construction, so as to provide residents with a comfortable living environment and conserve natural resources upon the completion of the project. In addition, engaging construction contractors with sound environmental protection and safety track records, the Group has closely monitored its projects at every stage to ensure the construction process is in compliance with environmental protection and safety laws and regulations.

## **COMPLIANCE WITH RELEVANT LAWS AND REGULATIONS**

The Group seeks to uphold high standard of integrity in all aspects of business and is committed to ensure that its affairs are conducted in accordance with applicable laws and regulatory requirements and has formulated and adopted various internal control measures, approval procedures and training within all business units at all levels of the Group. To the best knowledge of the Directors, the Group has complied in material respects with all the relevant laws and regulations that have a significant impact on the Group during the year ended 31 December 2022.

## **RETIREMENT BENEFITS PLANS**

Particulars of the Group's retirement benefits plans are set out in note 15 to the consolidated financial statements.

# REPORT OF THE DIRECTORS

## **CORPORATE GOVERNANCE**

The Company's corporate governance practices are set out in the Corporate Governance Report on pages 16 to 29 of this annual report.

## **TAX RELIEF AND EXEMPTION**

The Company is not aware of any tax relief and exemption available to the shareholders by reason of their holdings of the shares of the Company. If the shareholders are unsure about the taxation implications of purchasing, holding, disposing of, dealing in, or exercising of any rights in relation to the shares of the Company, they are advised to consult their professional advisers.

# CORPORATE GOVERNANCE REPORT

## CORPORATE GOVERNANCE PRACTICES

The Company is committed to maintaining good standards of corporate governance best suited to the needs and interests of the Group in order to achieve sustainable development and enhance corporate performance. The Board recognizes that effective corporate governance practices of the Company with emphasis on integrity, sound internal control and high level of accountability and transparency are fundamental to safeguarding interests of shareholders and other stakeholders and enhancing shareholders' value.

To the best knowledge of the Directors, the Company has complied with the code provisions as set out in Appendix 14 of the Listing Rules — Corporate Governance Code (the “CG Code”) during the year ended 31 December 2022.

## DIRECTORS

### The Board

The Board, led by the chairman of the Board (the “Chairman”), steers the Company's business direction. It is responsible for formulating the Company's long-term strategies, setting business development goals, assessing results of management policies, monitoring the management's performance and ensuring effective implementation of risk management measures on a regular basis. The Directors meet regularly to review the Group's financial and operational performance and to discuss and formulate future development plans. The Directors can attend meetings in person or through electronic means of communication in accordance with the Articles.

### Board Composition

The Board currently comprises a total of six Directors, being three Executive Directors and three Independent Non-executive Directors. The list of Directors is set out in the section headed “Report of the Directors” of this annual report. In addition, an updated list of the Company's Directors by category identifying their role and function is at all times available on the websites of the Stock Exchange and the Company respectively. The list specifies whether the Director is an Independent Non-executive Director and expresses the respective roles and functions of each Director.

The Board is characterised by significant diversity and has a balance of skills and experience appropriate for the direction and oversight of the Group's strategic priorities. The Directors give sufficient time and attention to the affairs of the Group. All Directors are required to disclose to the Company at the time of their appointment and annually the number and the nature of offices held in public companies or organizations and other significant commitments with an indication of the time involved.

### The Board Diversity Policy

The Company recognises and embraces the benefits of a diversity of Board members and has adopted a policy of the Board diversity (the “Board Diversity Policy”). The Board Diversity Policy endeavours to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company's business. All Board appointments shall continue to be made on a merit basis with due regard for the benefits of diversity of the Board members. Selection of candidates is based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The ultimate decision shall be made according to the merits of candidates and their contribution to the Board.

# CORPORATE GOVERNANCE REPORT

Currently, all Board members are males. In order to achieve gender diversity on the Board level, the Board will appoint one female Board member no later than 31 December 2024.

The Board will review the implementation and effectiveness of the Board Diversity Policy on an annual basis in accordance with the code provision B.1.3 of the CG Code.

To achieve diversity at workforce level, the Group has put in place appropriate recruitment and selection practices such that a diverse range of candidates are considered and ensure that gender diversity is taken into account when recruiting employees. The management will review the gender composition of the workforce and set targets based on the future needs of the Group's development. The gender ratio of male to female in the workforce, including senior management of the Group, as at 31 December 2022, is approximately 1.33:1.

## **Independent Element on the Board**

The Board includes a balanced composition of Executive and Non-executive Directors (including Independent Non-executive Directors) so that there is a sufficient independent element on the Board, which can effectively exercise independent judgement. Save for those as disclosed in the section headed "Directors' Biographies" of this annual report, the Board members have no other financial, business, family or other material/relevant relationships with each other.

The Independent Non-executive Directors play an important role on the Board. They are responsible for ensuring that the Board maintains high standards of financial and other mandatory reporting as well as providing adequate checks and balances for safeguarding the interest of shareholders of the Company and the Group as a whole. During the year ended 31 December 2022, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive directors representing at least one-third of the Board with at least one of them possessing appropriate professional qualifications on accounting or related financial management expertise.

The Board has received from each of its Independent Non-executive Directors a confirmation of independence pursuant to Rule 3.13 of the Listing Rules and the Company considers that all of the Independent Non-executive Directors are independent. The Company identifies the Independent Non-executive Directors in all corporate communications which disclose the names of directors.

## **Role and Function of the Board and the Management**

The Board is responsible for overall strategic formulation and performance monitoring of the Group. It delegates day-to-day operations of the Company to the senior management within the control and authority framework set by the Board. In addition, the Board has also delegated various responsibilities to the Audit Committee, the Remuneration Committee and the Nomination Committee. Further details of these Board committees are set out in this report.

## **Chairman and CEO**

With respect to code provision C.2.1 of the CG Code, the roles of chairman and chief executive should be separate and should not be performed by the same individual. The Company fully supported the division of responsibility between the chairman of the Board (the "Chairman") and the chief executive officer of the Company ("CEO") to ensure a balance of power and authority. During the year ended 31 December 2022, the positions of the Chairman and CEO were held by Mr. Shie Tak Chung and Mr. Tsoi Kin Sze, respectively. This ensures a clear distinction between the Chairman's duty to manage the Board and the CEO's duty to oversee the overall internal operation of the Company.

# CORPORATE GOVERNANCE REPORT

## Records of Meetings of the Board and the Board Committees

The board shall meet regularly and at least four times a year at approximately quarterly intervals under code provision C.5.1 of the CG Code, the chairman should at least annually, hold meetings with the independent non-executive directors without the other directors present under the code provision C.2.7 of the CG Code, and the audit committee must meet, at least twice a year, with the issuer's auditors under code provision D.3.3(e)(i) of the CG Code.

During the year ended 31 December 2022, the Board met four times, the Chairman held a meeting with all the Independent Non-executive Directors without the presence of other Executive Directors, and the Audit Committee met three times with the Company's auditors. Attendance of individual Directors at the meetings of the Board and the Board committees for the year ended 31 December 2022 is as follows:

	Number of meetings attended/eligible to attend			Audit Committee

Notice of regular Board meetings are served to all Directors at least 14 days before the meeting while reasonable notice is generally given for other Board meetings. Agenda and Board papers together with all appropriate, complete and reliable information are sent to all Directors in a timely manner, and at least 3 days before the intended date of each Board or Board committee meeting, except agreed otherwise among the members, to ensure that they had sufficient time to review the board papers, be adequately prepared for the meeting, keep the Directors apprised of the latest developments and financial position of the Company and to enable them to include any matter in the agenda and to make informed decisions.

The Board and each Director, upon reasonable request, have access to independent professional advice to assist them in performing their duties to the Company, at the Company's expense. When needed and upon making request to the Board, the Directors may obtain independent professional advice at the Company's expense in carrying out their duties.

Minutes of all meetings of the Board and the Board committees are kept by the company secretary. All of the above minutes record the discussions and decisions reached by the relevant members in sufficient detail the matters considered and decisions reached, including any concern raised by Directors or dissenting views expressed. Any Director may inspect the minutes at any reasonable time on reasonable notice.

# CORPORATE GOVERNANCE REPORT

Draft minutes are normally circulated to Directors or members of the relevant committee for comment within a reasonable time after each meeting and the final version is sent to all Directors or committee members for their record.

## **Appointment and Re-election of Directors**

Appointment of new Directors is a matter for consideration by the Nomination Committee. The Nomination Committee will give adequate consideration to the Board Diversity Policy and review the profiles of the candidates and make recommendations to the Board on the appointment, re-appointment and nomination of Directors.

According to article 113 of the Articles, any Director so appointed by the Board shall hold office, in the case of filling a casual vacancy, only until the next following general meeting of the Company or, in the case of an addition to their number, until the next following annual general meeting of the Company who shall then be eligible for re-election at such general meeting. According to article 109 of the Articles, at each annual general meeting of the Company (the "AGM"), one-third of the Directors for the time being (or, if their number is not a multiple of three (3), the number nearest to but not less than one-third) shall retire from office by rotation provided that every Director shall be subject to retirement at an annual general meeting at least once every three years while those retiring Directors shall be eligible for re-election.

All Directors have entered into service contracts or letters of engagement with the Company for a term of not more than three years.

## **Model Code for Securities Transactions**

The Company has adopted the Model Code as the code of conduct for Directors in their dealings in securities of the Company. Having made specific enquiry with all Directors, all Directors confirmed that they have complied with the Model Code.

Employees who are likely to possess inside information in relation to the Company or its shares are prohibited from dealing in shares of the Company during the black-out period.

## **Insurance for Directors' and Officers' Liabilities**

Appropriate insurance cover on directors' and officers' liabilities has been in force to protect the Directors and officers of the Group from their risk exposure arising from the business of the Group.

## **Directors' Training and Professional Development**

The Directors are continually updated with legal and regulatory developments, and business and market changes to facilitate the discharge of their responsibilities. Every newly appointed Director will be given an introduction of the Listing Rules, legal and other regulatory requirements to ensure compliance and upkeep of good corporate governance practices. Directors are also encouraged to participate in continuous professional development to develop and refresh their knowledge and skills. There are also arrangements in place for providing continuing briefing and professional development to Directors at the Company's expenses whenever necessary.

# CORPORATE GOVERNANCE REPORT

According to the records maintained by the Company, the Directors received the following training with an emphasis on the roles, functions and duties of a director of a listed company in compliance with the requirement of the CG Code on continuous professional development during the year ended 31 December 2022:

## ACCOUNTABILITY AND AUDIT

### Financial Reporting

The Board aims to present a balanced, clear and understandable assessment in annual and interim reports, inside information announcements and other financial disclosures required under the Listing Rules and other regulatory requirements.

The Directors have acknowledged their responsibility for the preparation of the financial statements for each financial period which give a true and fair view of the state of affairs of the Group and of the results and cash flows for that period.

The statement by the auditors of the Company, HLB, regarding their reporting responsibilities on the financial statements of the Group for the year ended 31 December 2022 is set out in the section headed “Independent Auditor’s Report” of this annual report.

The Directors, having made appropriate reasonable enquiries, consider that the Group has adequate resources to continue in operational existence for the foreseeable future and hence decide that it is appropriate to prepare the financial statements set out in the audited financial statements on pages 39 to 119 of this annual report on a going concern basis. As at the date of this annual report, the Board is not aware of any material uncertainties relating to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern.

The basis on which the Company generates or preserves value over the longer term and the strategy for delivering its objectives are explained in the section headed “Management Discussion and Analysis” of this annual report.

### Access to Information

The management provides the Board with sufficient explanation and information, such as the Group’s major business activities and key financial information, to enable the Board to make an informed assessment of the financial information and position of the Company put before the Board for approval. Where any Director requires more information than is volunteered by the management, each Director has the right to separately and independently access to the Company’s senior management to make further enquiries if necessary.

# CORPORATE GOVERNANCE REPORT

## Risk Management and Internal Control

The Board has the overall responsibility for maintaining sound and effective risk management and internal control systems to safeguard the Group's assets and stakeholders' interests, as well as for reviewing the effectiveness of the systems through the support of internal audit function and the Audit Committee.

The Group has adopted a three-tier risk management approach to identify, assess, mitigate and handle risks. At the first line of defense, business units are responsible for identifying, assessing and monitoring risks associated with each business or deal. The management, as the second line of defense, defines rule sets and models, provides technical support, develops appropriate systems and oversees risk management to ensure that significant risks of the Group are within the acceptable level and that the first line of defense is effective. As the final line of defense, the internal audit function ensures that the first and second lines of defense are effective through regular review. However, the risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss. Moreover, the management of the Group would, at least once a year, identify risks that would adversely affect the achievement of the Group's business objectives, and assesses and prioritises the identified risks according to a set of standard criteria. Risk mitigation plans are established and risk responsible persons are appointed for those significant risks.

Given the Group's relatively simple corporate and operation structure, as opposed to diverting resources to establish internal audit department, the Board conducted annual review of the Company's risk management and internal control systems through engaging ZHONGHUI ANDA Risk Services Limited (the "IC Advisor") to perform review and assessment of the effectiveness of the Company's risk management and internal control systems which implemented material controls covering the financial, operational, compliance and risk management aspects of the Group for the year ended 31 December 2022 and reported to the Audit Committee and the Board. The management of the Group is responsible for taking necessary actions to remedy any significant failures or weaknesses in internal control identified by the IC Advisor. The IC Advisor also performs follow-up review to assist the Audit Committee in monitoring the implementation of remedial actions. The Board considers that internal audits have been implemented and provided the Board with reasonable assurance that the processes of the Company operate as designed.

The Group's risk management and internal control systems aim to provide reasonable assurance, rather than eliminating the risk of failing to achieve business objectives. Therefore, such systems can only provide reasonable but not absolute assurance against any material misstatement or losses.

As disclosed in the Company's announcements dated 7 October 2022, 19 December 2022 and 28 March 2023, a former treasurer of Hui An China General was suspected to have misappropriated the funds of Hui An China General between 2019 and 2022. As such, the Company has engaged RSM as independent forensic accountant to, among other things, conduct an independent forensic accounting review (the "Independent Review") in respect of the Misappropriation, review the risk management and internal control systems of the Group and make rectification and improvement recommendations to the Board. Based on the findings of the Independent Review, the Company has ascertained a total net loss as a result of the Misappropriation to be approximately RMB24.98 million. The Independent Review report issued by RSM was tabled and accepted by the Board on 28 March 2023.

The summary of the key findings of the Independent Review is set out below:

1. RSM reviewed and compared the accounting records of Hui An China General in relation to its 14 bank accounts between 1 January 2019 and 30 September 2022 (the "Review Period") and obtained the corresponding bank statements directly from the banks, and a material discrepancy of approximately RMB2.0 million, RMB10.7 million and RMB20.7 million was identified and quantified in one bank account as at 31 December 2019, 2020 and 2021, respectively. Moreover, a material discrepancy of approximately RMB25.0 million was identified and quantified in two bank accounts as at 31 August 2022.

# CORPORATE GOVERNANCE REPORT

2. RSM also reviewed the completeness and accuracy of transactions in four bank accounts and approximately 1,100 unrecorded transactions and fictitious transactions during the Review Period were identified and quantified. Such unrecorded transactions and fictitious transactions involved net outflow of unauthorised transfers of approximately RMB22.0 million from four bank accounts of Hui An China General and cash of approximately RMB3.0 million was collected from customers of Hui An China General but was not deposited into the bank accounts of Hui An China General.
3. Hui An China General maintained 14 active bank accounts (excluding time deposit accounts) in the PRC. RSM has independently confirmed that there was misappropriation of funds took place in the four bank accounts as mentioned above and RSM was not aware of any misappropriation of funds in the remaining 10 active bank accounts of Hui An China General.
4. Based on the Independent Review, the Former Treasurer has misappropriated funds of the Group of an aggregate amount of approximately RMB24.98 million during the Review Period. A net amount of approximately RMB22.0 million was transferred to four bank accounts. And, they are bank accounts of the Former Treasurer, the then financial manager of Hui An China General (the "Former Financial Manager") and two other independent third parties of the Company. All these four bank accounts were suspected to be controlled by the Former Treasurer and approximately RMB0.5 million was transferred to the bank account of the Former Financial Manager during the Review Period. According to the PRC public security bureau, the misappropriated funds in these bank accounts were used by the Former Treasurer for online gambling in the PRC.
5. The Misappropriation was only discovered by the management of Hui An China General in September 2022 primarily due to the followings:
  - (a) most of the unauthorised bank transfers were in an individual amount of less than RMB50,000 per transfer, which evaded the banks' alert to high-value transactions;
  - (b) the Former Treasurer was able to access two sets of internet banking tokens and passwords required to be used simultaneously to make payment, one of which was under her custody and the other ordinarily under the custody of the Former Financial Manager. Furthermore, the Former Financial Manager failed to request the Former Treasurer to hand over the internet banking tokens and passwords after the cessation of employment of the Former Treasurer in March 2022, resulting in continual access to the bank accounts by the Former Treasurer until September 2022 after the Company discovered the Misappropriation; and
  - (c) the Former Treasurer was responsible for obtaining bank receipts and bank statements from the banks for Hui An China General's books and records and for the other finance staff to perform bank reconciliations. It appears that the Former Treasurer fabricated certain bank receipts and bank statements to conceal the unauthorised transactions and, in some cases, created fictitious transactions or modified transactions. The Former Treasurer also intercepted and forged certain audit confirmations to banks during the Review Period.

The Company has ascertained a total net loss as a result of the Misappropriation to be approximately RMB24.98 million. Relevant adjustments to the financial statements of Hui An China General have been made accordingly. Details of the prior year adjustments in relation to the Misappropriation are set out note 5 to the consolidated financial statements of the Company for the year ended 31 December 2022.

Hui An China General suspended the duties of the Former Financial Manager and the accountant of Hui An China General in September 2022 in view of its further internal investigations. As at the date of this annual report, the employment of the Former Financial Manager has been terminated and the accountant of Hui An China General was reinstated.

# CORPORATE GOVERNANCE REPORT

The findings of the Independent Review revealed that the Company could enhance its internal control systems in areas including control over the Company's internet banking tokens and passwords, audit procedures, management of cash and idle funds and internal audit.

The Board has taken or is in the process of taking the following remedial actions to address such internal control concerns:

(1) *Implementation of an enhanced bank accounts management system*

The Company has implemented an enhanced bank accounts management system of Hui An China General. Three sets of internet banking tokens and passwords are now set up and separately controlled by the new treasurer and the accountant of Hui An China General and the financial officer of the Group. Notifications of any movements in the bank accounts of Hui An China General will be sent to five personnel, being the new treasurer, the accountant and the general manager of Hui An China General, the financial officer of the Group and Mr. Wu Zhisong, an executive Director. The policy of maintaining three sets of tokens and passwords for internet banking has also been adopted by other subsidiaries of the Company.

The duty of collecting bank statements directly from banks and/or downloading bank statements via internet banking in respect of the major bank accounts has been separated from the treasurer and assigned to the accountant or the financial manager of each subsidiary of the Company.

(2) *Audit procedures*

The Board and the Audit Committee have discussed with the auditor of the Company, HLB, regarding the auditing standards and audit procedures, in particular those in relation to the audit of the bank accounts of the Group. The Audit Committee and HLB shall review the key audit matters every year and formulate appropriate audit procedures for high-risk items.

(3) *Internal audit function*

The Company has formed an internal audit department beginning from the year ending 31 December 2023 to review and supervise various departments of the Company and its subsidiaries in order to timely identify any internal control issues within the Group and cooperate with the internal control adviser of the Company to review and assess of the risk management and internal control systems. The Board strives to disseminate a good internal control and risk management culture of the Group and would identify and assess various operational risks from time to time. They would review and enhance internal control measures of the Group for minimising and eliminating identified risks.

(4) *Management of cash and idle funds*

The Group has enhanced the management of its cash and idle funds of the Group to reduce the risk of misappropriation. The staff shall avoid collecting payments from the customers in cash and request the customers to directly deposit their payments into the Group's bank accounts instead, or otherwise, the staff shall make clear remarks as to the source of fund at the time of deposit for review and verification by the finance department. The management of the Group shall review the idle funds of each subsidiary of the Company every six months and the results of which shall be reviewed and approved by two executive Directors.

# CORPORATE GOVERNANCE REPORT

The management has been continuously improving the internal control system of the Group since the discovery of the Misappropriation, reviewed the Independent Review findings and taken appropriate remedial actions based on the recommendations proposed in the Independent Review report. For additional details, please refer to the Company's announcement dated 28 March 2023.

After review of the Independent Review report and taking into consideration the remedial actions having been taken, the Board believes that the Company's systems of risk management and internal control in place are effective and adequate to prevent misappropriation of funds in future and fulfill its obligations under the Listing Rules.

Inside Information Policy setting out the guidelines to the Directors and all employees of the Group has been established to ensure that inside information can be promptly identified, assessed and disseminated to the public in equal and timely manner in accordance with the applicable laws and regulations. Before the information is fully disclosed to the public, the Company will ensure that the information is kept strictly confidential. If the Company believes that the necessary degree of confidentiality cannot be maintained or that confidentiality may have been breached, the Company would immediately disclose the information to the public. The Company is committed to ensure that information contained in announcements are not false or misleading as to a material fact, or false or misleading through the omission of a material fact, in view of presenting information in a clear and balanced manner, which requires equal disclosure of both positive and negative facts.

Whistleblowing policy and procedures have been established for reporting possible improprieties. Whistle-blowers are protected under the policy and ensured non-retaliation, and all information are kept confidential. Various independent channels have been established to facilitate identification of suspected fraud and non-compliance cases.

In addition, the Group's anti-corruption policies have expressly stipulated the code of conduct to which all employees are subject. The Group has in place email address for reporting any irregular or fraudulent activities to the Board on a confidential basis. The identity of those who lodge a complaint will be protected.

## COMMUNICATIONS WITH SHAREHOLDERS

All of the Company's shares are ordinary shares carrying equal voting rights. As at the date of this annual report, sufficient shares of the Company were on public float as required by the Listing Rules.

The Company recognises that effective communication can highlight transparency and enhance accountability to its shareholders. The Company provides information to its shareholders through the publication of notices, announcements, circulars, interim and annual reports. Shareholders may access the Company's website at [www.jiande-intl.com](http://www.jiande-intl.com) for the Group's information. Shareholders may also put to the Board any enquiries about the Group in writing by sending emails to [ir@jiande-intl.com](mailto:ir@jiande-intl.com) or mail to the principal office of the Company at Room 401–402, 4/F, Westlands Centre, 20 Westlands Road, Quarry Bay, Hong Kong. The Directors, company secretary or other appropriate members of senior management respond to enquiries from shareholders in a timely manner.

The general meeting of the Company provides a useful forum for shareholders to exchange views with the Board. All Directors shall make an effort to attend the general meeting to address queries raised by shareholders. External auditors are also invited to attend the AGM to answer questions about the conduct of the audit, the preparation and content of the auditors' report, the accounting policies and auditor independence.

The Company reviewed the implementation and effectiveness of the measures relating to shareholders' communication and considered them to be effective.

Pursuant to article 64 of the Articles, shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the company secretary, to require an extraordinary general meeting to be called by the Board for the transaction of any business (including any proposals) specified in such requisition, and such meeting shall be held within two months after the deposit of such requisition. If within twenty-one days of such deposit the Board fails to proceed to convene such meeting the requisitionists themselves may do so in the same manner, and all reasonable expenses incurred by the requisitionists as a result of the failure of the Board shall be reimbursed to the requisitionists by the Company.

During the year ended 31 December 2022, all Directors attended the AGM held on 16 June 2022 in Hong Kong.

A special resolution to amend the amended and restated memorandum and articles of association of the Company by way of adopting the second amended and restated memorandum and articles of association of the Company (the "New Memorandum and Articles of Association") was passed by the shareholders of the Company during the 2022 AGM held on 16 June 2022. The amendments were to bring the then existing amended and restated memorandum and articles of association of the Company in line with the latest legal and regulatory requirements, including the amendments made to Appendix 3 to the Listing Rules which took effect on 1 January 2022, and modernise and provide flexibility to the Company for the conduct of general meetings. For further information in relation to the amendments, please refer to the announcement of the Company dated 27 April 2022 and the circular of the Company for the 2022 AGM dated 30 April 2022. Except for the adoption of the New Memorandum and Articles of Association, there was no significant change in the Company's constitutional documents during the year ended 31 December 2022.

## TO THE SHAREHOLDERS OF JIANDE INTERNATIONAL HOLDINGS LIMITED

建德國際控股有限公司

*(incorporated in the Cayman Islands with limited liability)*

### OPINION

We have audited the consolidated financial statements of Jiande International Holdings Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 39 to 119, which comprise the consolidated statement of financial position as at 31 December 2022, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

# INDEPENDENT AUDITORS' REPORT

## KEY AUDIT MATTERS (Continued)

### Key audit matter

### How our audit addressed the key audit matter

#### ***Valuation of investment properties***

We identified the valuation of investment properties as a key audit matter due to the quantitative significance of the balance to the consolidated financial statements as a whole, combined with the significant estimations required in determining the fair values.

As at 31 December 2022, the Group's investment properties, comprised a kindergarten property and car parking spaces located in Quanzhou, Fujian Province, the People's Republic of China (the "PRC"), a retail store property and car parking spaces located in Yangzhou, Jiangsu Province, the PRC, were stated at fair value amounted to Renminbi ("RMB") 93,645,000, and the fair value change of investment properties for the year then ended amounted to a loss of RMB2,902,000.

As disclosed in notes 3, 4 and 17 to the consolidated financial statements, all of the Group's investment properties were measured using the fair value model based on a valuation performed by independent qualified professional valuers (the "Valuers"). In estimating the fair values of the Group's investment properties, the directors of the Company worked with the Valuers to establish the appropriate valuation techniques and inputs to the model. The valuations of civil defense car parking spaces in Quanzhou, retail store properties and kindergarten property were determined based on income approach by considering the capitalised rental income derived from the existing tenancies with due provision for any reversionary income potential of the property interests. The valuations of non-civil defense car parking spaces in Quanzhou and Yangzhou were determined based on direct comparison approach by referencing to recent market transaction prices of similar properties in the similar locations with adjustments of other individual factors. The key inputs in evaluating the investment properties are term yield, reversionary yield and monthly market rent of civil defense car parking spaces in Quanzhou, retail store properties and kindergarten property, and recent market transaction prices per car parking space of comparable properties for non-civil car parking spaces in Quanzhou and Yangzhou.

Our procedures in relation to the management's valuation of investment properties included but not limited to:

- Evaluating the competence, capabilities and objectivity of the Valuers and obtaining an understanding of the Valuers' scope of work and their terms of engagement;
- Evaluating the appropriateness of the Valuers' valuation approach to assess if they were consistent with the industry norms and in accordance with the relevant accounting standards;
- Obtaining an understanding from the management and Valuers about the key inputs to the valuation;
- Evaluating the reasonableness of the key inputs underpinning the valuation; and
- Comparing other inputs in the income approach and the direct comparison approach, on a sample basis.

We found the valuation of investment properties was supported by available evidence.

## KEY AUDIT MATTERS (Continued)

### Key audit matter

### How our audit addressed the key audit matter

#### ***Assessment of net realisable value of properties for/under development/properties for sale***

We identified the assessment of net realisable value (“NRV”) of properties for/under development/properties for sale as a key audit matter due to the quantitative significance of the balance to the consolidated financial statements as a whole, combined with the management estimations required in determining the NRV of properties for/under development/properties for sale.

As at 31 December 2022, the Group had properties for/under development/properties for sale at a total carrying amount of RMB1,036,048,000, which included properties for development of RMB249,663,000, properties under development of RMB627,077,000 and completed properties of RMB159,308,000, which located in Fujian Province, Jiangsu Province, Henan Province and Hunan Province in the PRC, as disclosed in note 19 to the consolidated financial statements.

As disclosed in notes 3, 4 and 19 to the consolidated financial statements, NRV is estimated at the estimated selling price less estimated costs to complete and estimated costs necessary to make the sales by reference to the similar properties in similar locations. An allowance is made if the estimated NRV is less than the carrying amount.

Our procedures in relation to the net realisable value of properties for/under development/properties for sale included but not limited to:

- Obtaining an understanding of the control over the preparation and monitoring of the management budgets of construction and other costs for key property development project;
- Evaluating the reasonableness of the estimated construction cost by comparing with actual construction cost incurred by completed properties of the Group and the reasonableness of the source data used in the valuation assessment of properties for/under development/properties for sale, on a sample basis;
- Evaluating the appropriateness of the estimated selling prices, on a sample basis, by comparing it with recent sales transactions for similar properties in similar locations to assess the lower of cost or NRV; and
- Evaluating the reasonableness of the estimated cost necessary to make the sale of properties for/under development/properties for sale, on a sample basis.

We found the net realisable value of properties for/under development/properties for sale was supported by available evidence.

## **OTHER INFORMATION**

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **OTHER MATTER**

The consolidated financial statements for the year ended 31 December 2021 were audited by another auditor who expressed an unmodified opinion on those statements on 31 March 2022.

## **EMPHASIS OF MATTER**

Without qualifying our opinion, we draw attention to Note 5 to the consolidated financial statements which states that the Company has made certain prior year's adjustments to restate the consolidated financial statements for the year ended 31 December 2021.

## **RESPONSIBILITIES OF DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

# INDEPENDENT AUDITORS' REPORT

## AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

# INDEPENDENT AUDITORS' REPORT

## **AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS** (Continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement director on the audit resulting in the independent auditors' report is Shek Lui.

# CONSOLIDATED STATEMENT OF CHANGES IN EQUITY

For the year ended 31 December 2022

## Notes:

- (a) Immediately before the resumption of trading the shares of the Company on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") on 27 October 2016, the amounts advanced from Mr. Shie Tak Chung and Mr. Tsoi Kin Sze to the Group in prior years amounting to RMB59,139,000 were waived and such waived amounts were recognised as shareholders' contribution.
- (b) Other non-distributable reserve principally represent statutory reserves required to be appropriated from profit after income tax of the subsidiaries established in the People's Republic of China ("PRC"), under the relevant laws and regulations. Allocation to the statutory reserves shall be approved by the board of directors of the relevant subsidiaries. The appropriation to statutory reserves may cease if the balance of the statutory reserves has reached 50% of the registered capital of the respective subsidiaries. The statutory reserves may be used to make up losses or for conversion into capital. The relevant subsidiaries may, upon the approval by a resolution of shareholders' general meeting/board of directors' meeting, convert their statutory reserves into capital in proportion to their then existing shareholdings. However, when converting the statutory reserves into capital, the balance of such reserve remaining unconverted must not be less than 25% of the registered capital of the relevant subsidiary.
- (c) The amount included in other reserve represents the deemed listing expenses incurred upon the reverse asset acquisition of the Company by China General (HK) Company Limited ("China General") completed on 25 October 2016 which was measured at the fair value of the equity consideration deemed to be issued to the former shareholders of the Company amounted to Hong Kong Dollar ("HK\$" or "HKD") 621,746,000 (equivalent to RMB542,101,000), less the amount of 4,086,592,788 consideration shares, issued at HK\$0.005 per share amounted to HK\$20,433,000 (equivalent to RMB17,816,000).

In October 2014, 福建省厚德企業管理有限公司 ("Houde Enterprise") acquired, from 福建建弘投資有限公司 ("Jianhong Investment"), the entire paid-up capital of 恆德(石獅)投資有限公司 ("Hengde (Shishi)") at a consideration of RMB10,000,000 in cash. Upon completion of the acquisition, Hengde (Shishi) became a wholly-owned subsidiary of Houde Enterprise. The consideration was accounted for as a deemed distribution to Mr. Tsoi Kin Sze and Mr. Shie Tak Chung, who held 55% and 45% of the issued share capital of China General respectively and each of them also held 50% beneficial interest in Jianhong Investment. This transaction results in a dilution in Group's ownership interest in 揚州德輝房地產開發有限公司 and its subsidiary amounting to RMB5,801,000, which is charged to equity attributable to owners of the Company.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

## 1. GENERAL INFORMATION

Jiande International Holdings Limited (the “Company”) was incorporated in the Cayman Islands with limited liability and its shares are listed on the Main Board of The Stock Exchange. Its immediate and ultimate holding companies are Fame Build Holdings Limited and Talent Connect Investments Limited respectively, companies incorporated in the British Virgin Islands with limited liabilities, which are wholly owned by Mr. Shie Tak Chung (“Mr. Shie”) and Mr. Tsoi Kin Sze (“Mr. Tsoi”). Pursuant to a deed of confirmation dated 23 October 2014 executed by Mr. Shie and Mr. Tsoi whereby they confirmed the existence of their acting in concert arrangement, which resulted in Mr. Shie and Mr. Tsoi collectively becoming the ultimate controlling shareholders of the Company. The addresses of its registered office and principal place of business are set out on page 2 of the annual report. The principal activity of the Company is investment holding and its subsidiaries (collectively referred as the “Group”) are principally engaged in property development in the People’s Republic of China (the “PRC”).

The consolidated financial statements are presented in Renminbi (“RMB”), which is the same as the functional currency of the Company.

## 2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

### Amendments to HKFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”) for the first time, which are mandatorily effective for the Group’s annual periods beginning on or after 1 January 2022 for the preparation of the consolidated financial statements:

Amendments to HKFRS 3	Reference to the Conceptual Framework
Amendment to HKFRS 16	Covid-19-Related Rent Concessions beyond 30 June 2021
Amendments to HKAS 16	Property, Plant and Equipment — Proceeds before Intended Use
Amendments to HKAS 37	Onerous Contracts — Cost of Fulfilling a Contract
Amendments to HKFRSs	Annual Improvements to HKFRSs 2018–2020

The application of the amendments to HKFRSs in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

## 2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

### New and amendments to HKFRSs in issue but not yet effective

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

HKFRS 17 (including the October 2020 and February 2022 Amendments to HKFRS 17)	Insurance Contracts <sup>1</sup>
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture <sup>2</sup>
Amendments to HKFRS 16	Lease Liability in a Sale and Leaseback <sup>3</sup>
Amendments to HKAS 1	Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020) <sup>3</sup>
Amendments to HKAS 1 and HKFRS Practice Statement 2	Disclosure of Accounting Policies <sup>1</sup>
Amendments to HKAS 8	Definition of Accounting Estimates <sup>1</sup>
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction <sup>1</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2023.

<sup>2</sup> Effective for annual periods beginning on or after a date to be determined.

<sup>3</sup> Effective for annual periods beginning on or after 1 January 2024.

Except for the amendments to HKFRSs mentioned below, the directors of the Company anticipate that the application of all other new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

## 3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES

### 3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with HKFRSs issued by HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements includes applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”) and by the Hong Kong Companies Ordinance (“Companies Ordinance”).

The consolidated financial statements have been prepared on the historical cost basis except for investment properties which are measured at fair values at the end of each reporting period.

### 3.2 Significant accounting policies

#### *Basis of consolidation*

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has the rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

## 3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 3.2 Significant accounting policies (Continued)

#### *Basis of consolidation (Continued)*

Profit or loss and each item of other comprehensive income are attributed to owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

#### *Non-current assets held for sale*

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell, except for financial assets within the scope of HKFRS 9 and investment properties, which continue to be measured in accordance with the accounting policies as set out in respective sections.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

## 3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 3.2 Significant accounting policies (Continued)

#### *Revenue from contracts with customers*

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods underlying the particular performance obligation is transferred to customers.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct goods or service.

For sale of properties, revenue is recognised at a point in time when control of completed property is transferred to the customer and the Group has present right to payment and the collection of the consideration is probable.

A contract liability represents the Group’s obligation to transfer goods to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

For the year ended 31 December 2022

## 3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 3.2 Significant accounting policies (Continued)

*Revenue from contracts with customers (Continued)*

#### ***Existence of significant financing component***

In determining the transaction price, the Group adjusts the promised amount of consideration for the effects of the time value of money if the timing of payments agreed (either explicitly or implicitly) provides the customer or the Group with a significant benefit of financing the transfer of goods or services to the customer. In those circumstances, the contract contains a significant financing component. A significant financing component may exist regardless of whether the promise of financing is explicitly stated in the contract or implied by the payment terms agreed to by the parties to the contract.

For contracts where the period between payment and transfer of the associated goods or services is less than one year, the Group applies the practical expedient of not adjusting the transaction price for any significant financing component.

For advance payments received from customers before the transfer of the associated goods or services in which the Group adjusts for the promised amount of consideration for a significant financing component, the Group applies a discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. The relevant interest expenses during the period between the advance payments were received and the transfer of the associated goods and services are accounted for on the same basis as other borrowing costs.

#### ***Contract costs***

Incremental costs of obtaining a contract

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained.

The Group recognises such costs (sales commission) as an asset if it expects to recover these costs. The asset so recognised is subsequently amortised to profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the assets relate.

The Group applies the practical expedient of expensing all incremental costs to obtain a contract if these costs would otherwise have been fully amortised to profit or loss within one year.

## 3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 3.2 Significant accounting policies (Continued)

#### *Leases*

##### ***Definition of a lease***

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or after the date of initial application of HKFRS 16 or arising from business combinations on or arising from business combinations, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

##### ***The Group as a lessee***

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

## 3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 3.2 Significant accounting policies (Continued)

*Leases (Continued)*

**The Group as a lessee** (Continued)

Right-of-use assets

The cost of right-of-use assets includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Except for those that are classified as investment properties and measured under fair value model, right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets that do not meet the definition of investment property or inventory as a separate line item on the consolidated statement of financial position. Right-of-use assets that meet the definition of investment property and inventory are presented within “investment properties” and “properties for/under development/properties for sale”.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

## 3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 3.2 Significant accounting policies (Continued)

*Leases (Continued)*

#### **The Group as a lessee** (Continued)

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains one or more additional lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component. The associated non-lease components are included in the respective lease components.

## 3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 3.2 Significant accounting policies (Continued)

*Leases (Continued)*

#### ***The Group as a lessor***

Classification and measurement of leases

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

Allocation of consideration to components of a contract

When a contract includes both leases and non-lease components, the Group applies HKFRS 15 *Revenue from Contracts with Customers* ("HKFRS 15") to allocate consideration in a contract to lease and non-lease components. Non-lease components are separated from lease component on the basis of their relative stand-alone selling prices.

Refundable rental deposits

Refundable rental deposits received are accounted for under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments from lessees.

Lease modification

Changes in considerations of lease considerations of lease contracts that were not part of the original terms and conditions are accounted for as lease modifications, including lease incentives provided through forgiveness or reduction of rentals.

The Group accounts for a modification to an operating lease as a new lease from the effective date of the modification, considering any prepaid or accrued lease payments relating to the original lease as part of the lease payments for the new lease.

For rent concession under which the Group legally releases the lessee from its obligation to make specifically identified lease payment, of which some of these lease payments are contractually due but not paid and some of them are not yet contractually due, the Group accounts for the portions which have been recognised as operating lease receivables (i.e. the lease payments which are contractually due but not paid) by applying the ECL and derecognition requirements under HKFRS 9 and applies lease modification requirements for the forgiven lease payments that the Group has not recognised (i.e. the lease payments which are not yet contractually due) as at the effective date of modification.

#### *Foreign currencies*

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

#### *Borrowing costs*

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale. For properties under development for which revenue is recognised over time, the Group ceases to capitalise borrowing costs as soon as the properties are ready for the Group's intended sale.

Any specific borrowing that remain outstanding after the related asset is ready for its intended use or sale is included in the general borrowing pool for calculation of capitalisation rate on general borrowings. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the year in which they are incurred.

#### *Government grants*

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "other income".

*Employee benefits*

#### **Retirement benefit costs**

Payments to the Mandatory Provident Fund Scheme and state-managed retirement benefit schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

#### **Short-term employee benefits**

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

*Taxation*

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

## 3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### *Taxation (Continued)*

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale, except for freehold land, which is always presumed to be recovered entirely through sale.

For the purpose of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 3.2 Significant accounting policies (Continued)

#### *Taxation (Continued)*

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 *Income Taxes* requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption. Temporary differences arising from subsequent revision to the carrying amounts of right-of-use assets and lease liabilities, resulting from remeasurement of lease liabilities and lease modifications, that are not subject to initial recognition exemption are recognised on the date of remeasurement or modification.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax on deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

#### *Plant and equipment*

Plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes. Plant and equipment stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of assets over their estimated useful lives, using the straight-line method. The estimated useful lives and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

#### *Investment properties*

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties also include leased properties which are being recognised as right-of-use assets and subleased by the group under operating leases.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values, adjusted to exclude any prepaid or accrued operating lease income.

Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the year in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals.

#### *Impairment of plant and equipment, right-of-use-assets and contract costs*

At the end of each reporting period, the Group reviews the carrying amounts of its plant and equipment, right-of-use-assets and contract costs to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of plant and equipment and right-of-use-assets are estimated individually. When it is not possible to estimate the recoverable amount of an asset individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

### 3.2 Significant accounting policies (Continued)

#### *Impairment of plant and equipment, right-of-use-assets and contract costs (Continued)*

Before the Group recognises an impairment loss for assets capitalised as contract costs under HKFRS 15, the Group assesses and recognises any impairment loss on other assets related to the relevant contracts in accordance with applicable standards. Then, impairment loss, if any, for assets capitalised as contract costs is recognised to the extent the carrying amounts exceeds the remaining amount of consideration that the Group expects to receive in exchange for related goods or services less the costs which relate directly to providing those goods or services that have not been recognised as expenses. The assets capitalised as contract costs are then included in the carrying amount of the cash-generating unit to which they belong for the purpose of evaluating impairment of that cash-generating unit.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

#### *Properties for/under development/properties for sale*

Properties for/under development which are intended to be sold upon completion of development and properties for sale are classified as current assets. Except for the leasehold land element which is measured at cost model in accordance with the accounting policies of right-of-use assets, properties for/under development/properties for sale are carried at the lower of cost and net realisable value. Cost is determined on a specific identification basis including allocation of the related development expenditure incurred and where appropriate, borrowing costs capitalised. Net realisable value represents the estimated selling price for the properties less estimated cost to completion and costs necessary to make the sales. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Properties for/under development for sale are transferred to properties for sale upon completion.

The Group transfers a property from inventories to investment property when there is a change in use to hold the property to earn rentals or/and for capital appreciation rather than for sale in the ordinary course of business, which is evidenced by the inception of an operating lease to another party.

#### *Financial instruments*

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset and financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

#### **Financial assets**

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

Impairment of financial assets and other items subject to impairment assessment under HKFRS 9

The Group performs impairment assessment under expected credit loss (“ECL”) model on financial assets (including trade and other receivables, restricted bank deposits and bank balances) and financial guarantee contracts which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

*Financial instruments* (Continued)

**Financial assets** (Continued)

Impairment of financial assets and other items subject to impairment assessment under HKFRS 9 (Continued)

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-months ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

#### (i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

*Financial instruments* (Continued)

**Financial assets** (Continued)

Impairment of financial assets and other items subject to impairment assessment under HKFRS 9 (Continued)

#### (i) Significant increase in credit risk (Continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; or
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

For financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since recognition of financial guarantee contracts, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

#### (ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

#### (iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

#### (iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

#### (v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

For a financial guarantee contract, the Group is required to make payments only in the event of a default by the debtor in accordance with the terms of the instrument that is guaranteed. Accordingly, the ECL is the present value of the expected payments to reimburse the holder for a credit loss that it incurs less any amounts that the Group expects to receive from the holder, the debtor or any other party.

(v) Measurement and recognition of ECL (Continued)

For ECL on financial guarantee contracts for which the effective interest rate cannot be determined, the Group will apply a discount rate that reflects the current market assessment of the time value of money and the risks that are specific to the cash flows but only if, and to the extent that, the risks are taken into account by adjusting the discount rate instead of adjusting the cash shortfalls being discounted.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

Except for financial guarantee contracts, the Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade and other receivables where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

#### **Financial liabilities and equity instruments**

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instrument

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities at amortised cost

Financial liabilities including trade payables, other payables, amount due to a non-controlling interest of subsidiaries, secured bank borrowings and amount due to a related party are subsequently measured at amortised cost, using the effective interest method.

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts liabilities are measured initially at their fair values. They are subsequently measured at the higher of:

- (i) the amount of loss allowance in accordance with HKFRS 9; and
- (ii) the amount initially recognised less, where appropriate, cumulative amortisation recognised over the guarantee period.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Cash and cash equivalents

Cash and cash equivalents presented on the consolidated statement of financial position include:

- (a) cash, which comprises of cash on hand and demand deposits, excluding bank balances that are subject to regulatory restrictions that result in such balances no longer meeting the definition of cash; and
- (b) cash equivalents, which comprises of short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value and restricted deposits arising from pre-sale of properties that are held for meeting short-term cash commitments. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

## 4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of each reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

### **Fair value of investment properties**

The valuations of investment properties were determined based on the income approach or direct comparison approach. The valuations of civil defense car parking spaces in Quanzhou, retail store properties and kindergarten property were determined based on income approach by considering the capitalised rental income derived from the existing tenancies with due provision for any reversionary income potential of the property interests. It was based on capitalisation of the hypothetical and reasonable market rents with a typical lease term. The valuations of non-civil defense car parking spaces in Quanzhou and Yangzhou were determined based on direct comparison approach by referencing to recent market transaction prices of similar properties in the similar locations with adjustments of other individual factors. Note 17 provides detailed information about the valuation techniques, inputs and key assumptions used in the determination of the fair value of investment properties of the Group.

The carrying amount of investment properties at 31 December 2022 was RMB93,645,000 (2021: RMB105,071,000). Notwithstanding that the management employs independent professional qualified valuers to perform fair value assessments based on these assumptions, changes to these assumptions, including the potential risk of any market violation, policy, geopolitical and social changes or other unexpected incidents as a result of change in macroeconomic environment, changes in policy direction and/or mortgage requirements, or other unexpected incidents would result in changes in the fair values of the Group's investment properties and the corresponding adjustments to the amount of gain or loss reported in the consolidated statement of profit or loss and other comprehensive income.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 4. KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

### Assessment of net realisable value on properties for/under development/properties for sale

In determining whether allowances should be made to the Group's properties for/under development/properties for sale, the Group takes into consideration the current market conditions to estimate the net realisable value ("NRV") (i.e. the estimated selling price less estimated costs to completion and estimated costs necessary to make the sales by reference to the similar properties in similar locations). An allowance is made if the estimated NRV is less than the carrying amount. Where there is any decrease in the estimated selling price arising from any changes to the property market conditions in the PRC, an NRV allowance will be recognised on the properties for/under development/properties for sale in the consolidated statement of profit or loss and other comprehensive income. As at 31 December 2022, the carrying amount of the properties for/under development/properties for sale was approximately RMB1,036,048,000 (2021: RMB951,827,000).

## 5. PRIOR YEAR ADJUSTMENTS

Certain line items in the prior year's consolidated financial statements of the Group require retrospective restatements in relation to the misappropriation of funds.

As disclosed in the Company's announcements dated 7 October 2022 and 19 December 2022, the Company has discovered that a former treasurer (the "Former Treasurer") of Hui An China General Real Estate Development Company Limited\* (惠安中總房地產開發有限公司) ("Hui An China General") was suspected to have misappropriated in aggregate approximately RMB24,980,000 of Hui An China General between 2019 and 2022 (the "Misappropriation"). Hui An China General is a company incorporated in the People's Republic of China (the "PRC") with limited liability, principally engaged in property development in the PRC and owned as to 98.4% by the Company.

The Company has engaged RSM Corporate Advisory (Hong Kong) Limited ("RSM") on 13 December 2022 as independent forensic accountant to, among other things, conduct an independent forensic accounting review (the "Independent Review") in respect of the Misappropriation and make improvement recommendations to the Company based on its findings. As disclosed in the Company's announcement dated 28 March 2023, RSM issued its report of the Independent Review.

RSM has reviewed and compared the accounting records of Hui An China General in relation to its 14 bank accounts between 1 January 2019 and 30 September 2022 (the "Review Period") and obtained the corresponding bank statements directly from the banks, and a material discrepancy of approximately RMB2,000,000, RMB10,700,000 and RMB20,700,000 was identified and quantified in one bank account as at 31 December 2019, 2020 and 2021, respectively and a material discrepancy of approximately RMB25,000,000 was identified and quantified in two bank accounts as at 30 August 2022.

RSM has also reviewed the completeness and accuracy of transactions in four bank accounts and approximately 1,100 unrecorded transactions and fictitious transactions during the Review Period were identified and quantified. Such unrecorded transactions and fictitious transactions involved net outflow of unauthorised transfers of approximately RMB22,000,000 from four bank accounts of Hui An China General and cash of approximately RMB3,000,000 was collected from customers of Hui An China General but was not deposited into the bank accounts of Hui An China General.

## 5. PRIOR YEAR ADJUSTMENTS (Continued)

Based on the findings of the Independent Review, the Former Treasurer has misappropriated funds of the Group of an aggregate amount of approximately RMB24,980,000 during the Review Period. A net amount of approximately RMB22,000,000 was transferred to the bank accounts which were suspected to be controlled by the Former Treasurer.

Based on the findings and conclusions of the Independent Review conducted by RSM, the Company has ascertained a total net loss as a result of the Misappropriation to be approximately RMB24,980,000 and has determined the prior period adjustments that should be made to the consolidated financial statements to correct the prior period errors in previously issued consolidated financial statements of the Group (the "Errors") found as a result of the discovery of the Misappropriation and the Independent Review conducted by RSM. The following tables set out the retrospective adjustments that have been made to each of the line items in the Consolidated Statement of Profit or Loss and Other Comprehensive Income and Consolidated Cash Flow Statement for the year ended 31 December 2021 and Consolidated Statement of Financial Position as at 31 December 2021 and 1 January 2021 affected by the Errors.

## 6. REVENUE AND SEGMENT INFORMATION (Continued)

### (ii) Performance obligations for contracts with customers

For contracts entered into with customers on sales of properties, the relevant properties specified in the contracts are based on customer's specifications with no alternative use. Taking into consideration of the relevant contract terms, the Group concluded that the Group does not have an enforceable right to payment prior to transfer of the relevant properties to customers. Revenue from sales of properties is therefore recognised at a point in time when the completed property is transferred to customers, being at the point that the customer obtains the control of the completed property and the Group has present right to payment and collection of the consideration is probable.

The Group averagely receives 35% of the contract value as deposits from customers when they sign the sale and purchase agreement. However, depending on market conditions, the Group may offer customers a discount compared to the listed sales price, provided that the customers agree to pay the balance of the consideration early while construction is still ongoing. Such advance payment schemes result in contract liabilities being recognised throughout the property construction period for the full amount of the contract price.

The Group considers the advance payment schemes contains significant financing component and accordingly the amount of consideration is adjusted for the effects of the time value of money taking into consideration the credit characteristics of the Group. As this accrual increases the amount of the contract liabilities during the period of construction, it increases the amount of revenue recognised when control of the completed property is transferred to the customer.

The Group had provided guarantees in respect of mortgage facilities granted by certain banks in connection with the mortgage loans entered into by customers of the Group's properties. Pursuant to the terms of the guarantees, if a customer defaults on the payment of its mortgage during the term of guarantee, the bank holding the mortgage may demand the Group to repay the outstanding amount of the loan and any accrued interest thereon. Under such circumstances, the Group is able to retain the customer's sales deposit and sell the property to recover any amounts paid by the Group to the bank. The guarantee period commences from the dates of grant of the relevant mortgage loans and ends at the earlier of: (i) the property buyers obtain the individual property ownership certificate, and (ii) the full settlement of mortgage loans by the property buyers. The related financial guarantee contracts issued to banks in favour of customers in respect of the mortgage loans are not recognised separately as the fair value of the guarantees is immaterial.

No provision for taxation in Hong Kong has been made as the Group's income neither arises in, nor is derived from, Hong Kong.

Current tax provision represents provision for the PRC EIT and the PRC LAT. Under the Law of PRC on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% for both years.

In addition, under the Provisional Regulations of LAT (《中華人民共和國土地增值稅暫行條例》) effective on 1 January 1994, and the Detailed Implementation Rules on the Provisional Regulations of the PRC on LAT (《中華人民共和國土地增值稅暫行條例實施細則》) effective from 27 January 1995, all income from the sale or transfer of state-owned land use rights, buildings and their attached facilities in the PRC is subject to LAT at progressive rates ranging from 30% to 60% of the appreciation value, being the proceeds of sales of properties less deductible expenditures including borrowing costs and property development expenditures in relation to the gains arising from sales of properties in the PRC effective from 1 January 2004, with an exemption provided for property sales of ordinary residential properties (普通標準住宅) if their appreciation values do not exceed 20% of the sum of the total deductible items.

On 28 December 2006, the State Administration of Taxation of the PRC (the "SAT") issued the Notice on the Settlement Management of Land Appreciation Tax on Real Estate Enterprises (《關於房地產開發企業土地增值稅清算管理有關問題的通知》), which took effect on 1 February 2007. Such notice provides further clarification regarding the settlement of LAT. Local provincial tax authorities can formulate their own implementation rules according to the notice and local conditions. On 12 May 2009, the SAT issued the Regulations of Land Appreciation Tax Settlement Administration (《土地增值稅清算管理規程》), effective on 1 June 2009, which further clarifies the specific conditions and procedures for the settlement of LAT.

The Group leases out car parking spaces, a kindergarten property and retail store properties under operating leases with rentals payable monthly. The leases typically run for an initial period of 3 months to 20 years.

The Group is not exposed to foreign currency risk as a result of the lease arrangements, as all leases are denominated in the respective functional currencies of group entities. The lease contracts do not contain residual value guarantee and/or lessee's option to purchase the property at the end of lease term.

The fair values of the Group's investment properties as at 31 December 2022 and 2021 have been arrived on the basis of a valuation carried out on respective dates by Messrs. Cushman & Wakefield Limited ("C&W"), independent qualified professional valuers not connected to the Group. The management of the Group works closely with the valuers to establish the appropriate valuation techniques and inputs to the model and explain the cause of fluctuations in the fair values of the investment properties to the board of directors.

In estimating the fair value of the investment properties, the highest and best use of the investment properties is their current use.

## 17. INVESTMENT PROPERTIES (Continued)

The following table gives information about how the fair values of these investment properties are determined (in particular, the valuation techniques and inputs used).

Investment properties	Fair value	Valuation techniques	Significant unobservable inputs	Sensitivities
Civil defense car parking spaces located in Quanzhou, Fujian Province, the PRC	RMB17,570,000 (2021: RMB21,192,000)	Income approach	Reversionary yield: 4.2 (2021: 4.2%)  Monthly market rent, taking into account the difference in location, and individual factors, i.e. accessibility, between the comparable and the subject properties, ranging from RMB296 to RMB450 (2021: RMB301 to RMB457) per civil defense car parking space per month.	A slight increase in the reversionary yield used would result in a significant decrease in fair value, and vice versa.  A significant increase in the market rent used would result in a significant increase in fair value, and vice versa.
Non-civil defense car parking spaces located in Quanzhou, Fujian Province, the PRC	RMB53,665,000 (2021: RMB62,449,000)	Direct comparison approach	Recent market transaction prices per car parking space of comparable properties ranging from RMB100,000 to RMB126,000 (2021: RMB130,000 to RMB158,000) by taking into account the difference in location and individual factors, i.e. accessibility.	A significant increase in the market transaction prices used would result in a significant increase in fair value, and vice versa.
A kindergarten property located in Quanzhou, Fujian Province, the PRC	RMB12,770,000 (2021: RMB12,900,000)	Income approach	Reversionary yield: 4.7% (2021: 4.7%)  Monthly market rent, taking into account the difference in location, and individual factors, i.e. size and accessibility, between the comparable and the subject properties, at an average of RMB26 (2021: RMB28) per square meter per month.	A slight increase in the reversionary yield used would result in a significant decrease in fair value, and vice versa.  A significant increase in the market rent used would result in a significant increase in fair value, and vice versa.
Non-civil defense car parking spaces located in Yangzhou, Jiangsu Province, the PRC	RMB6,300,000 (2021: RMB7,680,000)	Direct comparison approach	Recent market transaction prices per car parking space of comparable properties, at a range from RMB66,000 to RMB120,000 (2021: ranging from RMB80,000 to RMB115,000) by taking into account the difference in location and individual factors, i.e. accessibility.	A significant increase in the market transaction prices used would result in a significant increase in fair value, and vice versa.

## 17. INVESTMENT PROPERTIES (Continued)

Investment properties	Fair value	Valuation techniques	Significant unobservable inputs	Sensitivities
Retail store properties located in Yangzhou, Jiangsu Province, the PRC	RMB3,340,000 (2021: RMB850,000)	Income approach	Reversionary yield: 4.8% (2021: 4.8%)  Monthly market rent, taking into account the difference in location, and individual factors, i.e. size, accessibility and environment, between the comparables and the subject property, at an average of RMB73 (2021: RMB73) per square meter per month.	A slight increase in the reversionary yield used would result in a significant decrease in fair value, and vice versa.  A significant increase in the market rent used would result in a significant increase in fair value, and vice versa.

Details of the Group's investment properties and information about the fair value hierarchy as at the end of the reporting periods are as follows:

	Fair value at Level 3 hierarchy	
	2022 RMB'000	2021 RMB'000

## 18. RIGHT-OF-USE ASSETS

	2022 RMB'000	2021 RMB'000
<b>Leased properties</b>		
Carrying amount	404	594

	For the year ended 31 December	
	2022 RMB'000	2021 RMB'000
Depreciation charge	501	617
Expense relating to short-term leases and with lease terms end within 12 months	35	57
Total cash outflow for leases	294	634
Additions to right-of-use assets	311	141

During the current year, the Group entered into new lease agreements with lease term ranging from 1 to 3 years (2021: 3 to 5 years). The Group makes fixed payments on yearly basis. On lease commencement, the Group recognised right-of-use assets and lease liabilities of RMB311,000 (2021: RMB141,000).

For both years, the Group leases various offices and showrooms for its operations. Lease terms are negotiated on an individual basis. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

The Group regularly entered into short-term leases for staff quarters. As at 31 December 2022 and 2021, the portfolio of short-term leases is similar to the portfolio of short-term leases to which the short-term lease expense disclosed above.

Details of the lease maturity analysis of lease liabilities are set out in note 26.

Analysis of leasehold lands:

	2022 RMB'000	2021 RMB'000
Carrying amount	537,429	424,441

The carrying amount of leasehold lands is measured at cost less any impairment losses. The residual values are determined as the estimated disposal value of the leasehold land component. No depreciation charge on the leasehold lands taking into account the estimated residual values for the year ended 31 December 2022 and 2021.

The properties for development, properties under development and completed properties are located in Fujian Province, Jiangsu Province, Henan Province and Hunan Province in the PRC. All the properties for/under development/properties for sale are stated at lower of cost and NRV on an individual property basis.

## 21. CONTRACT COSTS

	2022 RMB'000	2021 RMB'000
Incremental costs to obtain contracts (note)	1,885	1,311

Note: Contract costs capitalised as at 31 December 2022 and 2021 relate to the incremental commissions expenses to intermediaries/employees in connection with obtaining sales of properties contracts with customers which are still under construction or not yet delivered at the reporting date.

Contract costs are recognised as part of selling expenses in the consolidated statement of profit or loss and other comprehensive income in the period in which revenue from the related property sales is recognised. The amount of capitalised costs recognised in profit or loss during the year was RMB593,000 (2021: RMB349,000). There was no impairment in relation to the opening balance of capitalised costs or the costs capitalised in both years.

The Group applies the practical expedient and recognises the incremental costs of obtaining contracts relating to the sale of completed properties and services as an expense when incurred if the amortisation period of the assets that the Group otherwise would have recognised is one year or less.

## 22. BANK BALANCES AND CASH AND RESTRICTED BANK DEPOSITS

The market interest rates per annum of bank balances and restricted bank deposits at 31 December 2022 and 2021 as follows:

	2022	2021
Bank balances	0.01% to 3%	0.00% to 1.00%
Restricted bank deposits (note)	0.25% to 1.35%	0.3% to 1.35%

Note: Restricted bank deposits represented designated bank accounts solely for collecting pre-sales proceeds and settlement of construction costs of properties and will be released upon the completion of the development of properties.

The conversion of RMB denominated balances into foreign currencies and the remittance of such foreign currencies denominated bank balances and cash out of the PRC are subject to relevant rules and regulations of foreign exchange control promulgated by the PRC government.

Details of impairment assessment of these bank balances and restricted bank deposits are set out in note 35b.

## 23. ASSETS CLASSIFIED AS HELD FOR SALE

The major classes of assets classified as held for sale as at 31 December 2022 and 2021 are as follow:

	2022 RMB'000	2021 RMB'000
<b>Assets classified as held for sale:</b>		
Investment properties	3,011	2,759

During the years ended 31 December 2022 and 2021, the Group entered into sale agreements with independent third parties to sell certain investment properties (car parking spaces). As at 31 December 2022 and 2021, the Group received sale deposits regarding sales of investment properties to RMB1,509,000 and RMB2,190,000, respectively. The investment properties which were expected to be sold within twelve months were classified as held for sale and were presented separately in the consolidated statement of financial position. During the year ended 31 December 2022, the investment properties classified as held for sale as at 31 December 2021 have been derecognised.

## 24. TRADE AND OTHER PAYABLES

	2022 RMB'000	2021 RMB'000
Trade payables	10,413	7,025
Accrued construction costs (note (a))	89,389	113,843
Accrual staff costs and contributions to the retirement benefits scheme	4,424	4,820
Other tax payables	2,683	2,655
Other payables and accrued expenses	9,325	5,818
Deposits received for construction	2,500	4,500
Deposits received on exclusive sales agreements with property agents (note (b))	3,520	9,662
Deposits received on sales of investment properties	1,509	2,190
	<b>123,763</b>	<b>150,513</b>

Notes:

- (a) The accrued construction costs relate to construction of properties under development for sale which will be transferred to trade payables on achieving payment milestones as stipulated in the agreements with the subcontractors.
- (b) The amount represents the performance deposits received from two independent property agents for their exclusive sales agency agreements signed with the Group for underwriting certain residential flats, garages and car parks with a minimum selling price in The Cullinan Bay Project. Such amount will be conditionally returned to the property agent depending on the number of residential flats, garages and car parks sold within a fixed period of time as specified in the agreements.

The following is an aged analysis of trade payables presented based on the invoice date:

	2022 RMB'000	2021 RMB'000

## 25. CONTRACT LIABILITIES

	2022 RMB'000	2021 RMB'000
Pre-sales proceeds received on sales of properties	234,085	327,526

As at 1 January 2021, contract liabilities amounted to RMB108,152,000.

The following table shows how much of the revenue recognised in the current year relates to carried forward contract liabilities.

	Sales of properties	
	2022 RMB'000	2021 RMB'000
Revenue recognised that was included in the contract liabilities balance at the beginning of the year	193,703	60,018

The Group averagely receives 35% (2021: 35%) of the contract value as deposits from customers when they sign the sale and purchase agreement. However, depending on market conditions, the Group may offer customers a discount compared to the listed sales price, provided that the customers agree to pay the balance of the consideration early while construction is still ongoing. The deposits and advance payment schemes result in contract liabilities being recognised throughout the property construction period until the customer obtains control of the completed property.

In addition, the Group considers the advance payment schemes contain significant financing component and accordingly the amount of consideration is adjusted for the effects of the time value of money taking into consideration the credit characteristics of the relevant group entities. As this accrual increases the amount of the contract liabilities during the period of construction, it increases the amount of revenue recognised when control of the completed property is transferred to the customers.

## 27. SECURED BANK BORROWINGS

	2022 RMB'000	2021 RMB'000
Secured bank borrowings	36,000	40,000
The carrying amounts of the above bank borrowings are repayable:		
Within one year	5,408	14,200
Within a period of more than one year but not exceeding two years	30,592	25,800
	36,000	40,000
Less: Amounts due within one year shown under current liabilities	(5,408)	(14,200)
Amounts shown under non-current liabilities	30,592	25,800

As at 31 December 2022 and 2021, all of the bank borrowings are variable-rate borrowings which carry interest rate at the one-year loan prime rate plus 2.35% per annum.

The borrowings were pledged by the Group's property for development (note 19) and guaranteed by (1) the Group; (2) Mr. Tsoi; and (3) a related party controlled by Mr. Shie and Mr. Tsoi.

### Loan covenants

The Group is required to comply with the covenant which specifies the debt to asset ratio of the borrower shall be less than 70% throughout the continuance of the relevant loan and/or as long as the loan is outstanding.

The Group has complied with the covenant throughout the reporting period.

## 28. DEFERRED TAX ASSETS/LIABILITIES (Continued)

Under the relevant tax law and implementation regulations in the PRC, withholding income tax is applicable to dividend earned and payable to investors that are “non-tax resident enterprises” in respect of profits earned by the PRC subsidiaries since 1 January 2008, which do not have an establishment or place of business in the PRC, or which have such establishment or place of business but the relevant income is not effectively connected with the establishment or place of business, to the extent such interest or dividends have their sources within the PRC. Under such circumstances, dividends paid by the PRC subsidiaries to offshore group entities shall be subject to the withholding tax at 10% or a lower treaty rate. The Group is subject to withholding tax in relation to the dividend paid by the PRC subsidiaries. Deferred taxation has not been provided for in the consolidated financial statements in respect of accumulated profits of the PRC subsidiaries amounting to RMB353,065,000 (2021: RMB216,335,000) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

At 31 December 2022, the Group has unused tax losses of RMB13,515,000 (2021: RMB9,796,000) available for offsetting against future profits. A deferred tax asset has been recognised in respect of approximately RMB13,039,000 (2021: RMB8,916,000) of such losses. No deferred tax asset has been recognised in respect of the remaining approximately RMB476,000 (2021: RMB880,000) due to the unpredictability of future profit streams. Included in unrecognised tax losses are losses of approximately RMB476,000 (2021: RMB880,000) with expiry dates as disclosed in the following table.

## 31. FINANCIAL GUARANTEE CONTRACT

	2022 RMB'000	2021 RMB'000
Corporate guarantee given to banks in respect of mortgage facilities granted to property buyers	265,213	469,862

In accordance with market practice in the PRC, the Group provides guarantees for the property buyers' mortgage loans with the PRC banks to facilitate their purchases of the Group's properties. Guarantees for mortgages on properties begin simultaneously with the respective mortgage, and are generally discharged at the earlier of: (i) the property buyers obtains the individual property ownership certificate, and (ii) the full settlement of mortgage loans by the property buyers. The outstanding financial guarantee providing with guarantee period up to the full settlement of mortgage loans as at 31 December 2022 amounted to RMB265,213,000 (2021: RMB469,862,000). Pursuant to terms of the guarantees with financing capped at 70% of contract price, for a given mortgage loan, if there is any default of the mortgage payments by a property buyer, the Group is responsible to repay to the bank outstanding balance of the mortgage loans as well as accrued interests and penalties owned by the defaulted property buyers. If the Group fails to do so, the mortgage banks will first deduct the bank balances existing in the banks owned by the property buyers. Any shortfall will be recovered through auction the underlying properties and recover the remaining balances from the Group if the outstanding loan amount exceeds the net foreclosure sale proceed. The Group does not conduct independent credit checks on their property buyers but rely on the credit checks conducted by the mortgage banks.

In the opinion of the directors of the Company, the fair values of the financial guarantee contracts of the Group are insignificant at initial recognition and the directors of the Company consider that, in case of default in payments, the net realisable value of the related properties is expected to cover the outstanding mortgage principals together with the accrued interest and penalties. Accordingly, no provision has been made in the consolidated financial statements for these guarantees.

## 34. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged throughout the years.

The capital structure of the Group consists of net debt, which includes the secured bank borrowings disclosed in note 27, lease liabilities in note 26, bank balances and cash and equity attributable to owners of the Company, comprising share capital and reserves.

The directors of the Company reviews the capital structure from time to time. As part of this review, the management considers the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends and issue of new shares or new debts.

### a. Categories of financial instruments

	2022 RMB'000	2021 RMB'000
<b>Financial assets</b>		
At amortised cost	154,103	266,606
<b>Financial liabilities</b>		
Amortised cost	179,928	157,846

### b. Financial risk management objectives and policies

The Group's major financial instruments include trade and other receivables, restricted bank deposits, bank balances and cash, trade payables, other payables, amount due to a non-controlling interest of subsidiaries and secured bank borrowings. Details of the financial instruments are disclosed in the respective notes. The risks associated with these financial instruments include market risks (interest rate risk and currency risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

#### *Market risks*

##### **(i) Interest rate risk**

The Group is exposed to cash flow interest rate risk in relation to restricted bank deposits, bank balances and secured bank borrowings. The cash flow interest rate risk is mainly concentrated on fluctuations associated with variable rate of restricted bank deposits, bank balances, secured bank borrowings. The Group is also exposed to fair value interest rate risk in relation to lease liabilities (see note 26 for details) carried at fixed rate. The Group currently does not have an interest rate hedging policy. However, the management monitors interest rate risk exposure and will consider interest rate hedging should the need arise.

No sensitivity analysis of restricted bank deposits, bank balances and secured bank borrowings is presented as a reasonably possible change in interest rate would not have significant impact on profit or loss of the Group.

### b. Financial risk management objectives and policies (Continued)

*Market risks (Continued)*

#### (ii) Currency risk

The Group has certain other payables and bank balances and cash which are denominated in foreign currency of relevant group entities, hence they are exposed to foreign exchange risk. The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities at the end of each of the reporting period are as follows:

	Assets		Liabilities	
	2022 RMB'000	2021 RMB'000	2022 RMB'000	2021 RMB'000
HKD	1,223	5,524	43	40

The Group does not enter into any derivative contracts to minimise the currency risk exposure. However, the management monitors foreign exchange exposure and will consider hedging significant foreign exchange risk should the need arises.

Sensitivity analysis

The Group is mainly exposed to the effects of fluctuations of HKD.

The following table details the Group's sensitivity to a reasonably possible change of 5% in HKD against RMB while all other variables are held constant. 5% is the sensitivity rate used which represents the management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the end of each of the reporting period for a 5% change in foreign currency rate.

### b. Financial risk management objectives and policies (Continued)

*Market risks (Continued)*

#### (ii) **Currency risk** (Continued)

Sensitivity analysis (Continued)

An analysis of sensitivity to currency risk is as follows:

	2022 RMB'000	2021 RMB'000
Increase (decrease) in post-tax profit for the year		
— if RMB weakens against HKD	44	206
— if RMB strengthens against HKD	(44)	(206)

In the management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

#### *Credit risk and impairment assessment*

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk exposures are primarily attributable to trade and other receivables, restricted bank deposits, bank balances and financial guarantee contracts. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

The Group performed impairment assessment for financial assets and financial guarantee contracts under ECL model. Information about the Group's credit risk management, maximum credit risk exposures and the related impairment assessment, are summarised as below.

The Group's concentration of credit risk by geographical locations is mainly in the PRC, which accounted for 99% (2021: 98%) of the total financial assets as at 31 December 2022.

## 35. FINANCIAL INSTRUMENTS (Continued)

### b. Financial risk management objectives and policies (Continued)

*Credit risk and impairment assessment (Continued)*

#### ***Restricted bank deposits/bank balances***

The credit risks on restricted bank deposits and bank balances are limited because the counterparties are banks with high credit ratings assigned by international/national credit-rating agencies. The management of the Group assumed that there is no material increase for the credit risk on deposits during the year. According, the loss allowance measured under 12m ECL and the amount of impairment is consider insignificant at an amount equal to 12m ECL and no loss allowance was recognised during the years ended 31 December 2022 and 2021.

#### ***Trade receivables arising from contracts with customers***

In order to minimise the credit risk, the management of the Group is responsible for determination of credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group performs impairment assessment under ECL model on trade balances individually. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

#### ***Other receivables***

For the purpose of impairment assessment for other receivables, the management makes periodic individual assessment on the recoverability of other receivables based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. For other receivables that there are no significant increase in credit risk since initial recognition, the Group provided impairment based on 12m ECL. For credit-impaired other receivables which was assessed individually under ECL model, loss allowance of RMB804,000 (2021: RMB4,489,000) was recognised as at 31 December 2022.

### b. Financial risk management objectives and policies (Continued)

*Credit risk and impairment assessment (Continued)*

#### **Financial guarantee contracts**

The Group assessed the expected credit loss on financial guarantee contracts on 12m ECL basis. In determining the ECL, the Group has taken into account the historical default experience and forward looking information as appropriate. The directors consider that it is not probable for the Group to sustain a loss under these guarantees as during the periods under guarantees, the Group can take over the ownerships of the related properties under default and sell the properties to recover any amounts paid by the Group to the banks. The Group considers the fair value of these financial guarantee contracts at initial recognition to be minimal. The directors also consider that the fair value of the underlying properties is able to cover the outstanding mortgage loans guaranteed by the Group in the event that the purchasers default payments to the banks for their mortgage loans. There had been no significant increase in credit risk since initial recognition. The Group has considered the consistently low historical default rate in connection with payments and concluded that credit risk inherent in the Group's outstanding balances is insignificant.

For financial guarantee contracts, the maximum amount that the Group has guaranteed under the respective contracts was RMB265,213,000 (2021: RMB469,862,000) as at 31 December 2022. At the end of the reporting period, the directors of the Company have performed impairment assessment on ECL, and concluded that there has been no significant increase in credit risk since initial recognition of the financial guarantee contracts. Accordingly, the loss allowance for financial guarantee contracts issued by the Group is measured at an amount equal to 12m ECL. No loss allowance was recognised in the profit or loss because the directors of the Company consider that, in case of default in payments, the NRV of the related properties is expected to cover the outstanding mortgage principals together with the accrued interest and penalties because the market price of the properties is higher than the guaranteed amounts. In this regards, the directors of the Company consider the Group's credit risk is significantly reduced.

#### Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents, bank balances and cash deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The following table details the Group's remaining contractual maturities for its financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

The tables include both interest and principal cash flows. To the extent that interest flows are variable rate, the undiscounted amount is derived from interest rate at the end of each reporting period.

The amounts included above for financial guarantee contracts are the maximum amounts the Group could be required to settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantee. Based on expectations at the end of each reporting period, the Group considers that it is more likely than not that no amount will be payable under the arrangement. However, this estimate is subject to change depending on the probability of the counterparty claiming under the guarantee which is a function of the likelihood that the financial receivables held by the counterparty which are guaranteed suffer credit losses.

### c. Fair value measurements of financial instruments

*Fair value of the Group's financial assets and financial liabilities that are not measured at fair value on recurring basis*

The directors of the Company consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their fair values based on discounted cash flows analysis.
