- * Performance is calculated in base currency with NAV to NAV, total return with dividend (if any) reinvested. The performance information presented is calculated based on the assumption that there were no distributions to Unitholders, and is for reference only.
- Δ To achieve comparability among funds' performance presentations in the market for investors, the Manager is to change the methodology used to calculate portfolio and composite returns with effective from 1 September 2022 onward. The change is the total return with dividend reinvested at ex-dividend date instead of payment date. Performance data published prior to 1 September 2022 is incomparable with the performance calculated by the new calculation methodology.
- # Performance is calculated in total return with dividend reinvested, net of withholding tax.

Investors should note that all investment involves risks (including the possibility of loss of the capital invested), prices of fund units may go up as well as down and past performance is not indicative of future performance. Investors should read the relevant fund's offering documents (including the full text of the risk factors stated therein) in detail before making any investment decision.

as at 30 June 2023

Given the investment objective of the Hang Seng China A Industry Top Index ETF (the "ETF") and nature of the Hang Seng China A Industry Top Index (the "Index"):

- i) The ETF is allowed under Chapter 8.6(h) of the Code on Unit Trusts and Mutual Funds (the "Code") to hold investments in securities of any single issuer exceeding 10% of the ETF's latest available net asset value if such constituent securities account for more than 10% of the weighting of the Index and the ETF's holding of any such constituent securities does not exceed their respective weightings in the Index, except where the weightings are exceeded as a result of changes in the composition of the Index and the excess is only transitional and temporary in nature, or otherwise approved by the SFC.
- ii) Subject to Chapter 8.6(g) and (h) of the Code, more than 30% of the latest available net asset value of the ETF may also be invested in government and other public securities of the same issue and may be fully invested in government and other public securities in any number of issues.

During the period from 1 January 2023 to 30 June 2023, the Manager has complied in full to the above restriction for the Hang Seng China A Industry Top Index ETF.

The Hang Seng Harvest CSI 300 Index ETF is a feeder fund and seeks to achieve its investment objective by investing substantially (at least 90% of its Net Asset Value) into Harvest CSI 300 Index ETF (the "Master ETF"). The Manager has requested of the SFC, and the SFC has granted, a waiver in respect of the Hang Seng Harvest CSI 300 Index ETF from:

- (a) the requirement under Chapter 7.12(a) of the Code that the Master ETF must be authorised by the SFC; and
- (b) the requirement under Chapter 7.12(b)(ii) of the Code that, for the purposes of complying with the investment restrictions, the Sub-Fund and the Master ETF will be deemed as a single entity.

The purpose of the waivers are to enable the Hang Seng Harvest CSI 300 Index ETF to invest into the Master ETF (which is not authorised by the SFC) as a feeder fund.

As stated in the Prospectus of the ETFs, when representative sampling strategies are used, the weighting of a particular constituent security in Hang Seng Stock Connect China A Low Carbon Index ETF (the "Sub-Fund") may exceed its weighting in Hang Seng Stock Connect China A Low Carbon Index and such excess is subject to a maximum limit of up to 4% of the Net Asset Value of the Sub-Fund in respect of any constituent security.

During the period from 28 March 2023 (date of commencement) to 30 June 2023, the Manager has adopted a full replication strategy when investing for the Hang Seng Stock Connect China A Low Carbon Index ETF, hence the above restriction is not applicable.

Please refer to Prospectus to see the full disclosure of Investment Restrictions.
