## INTERIM REPORT

中國國際航空股份有限公司 (short name: 中國國航) (English name: Air China Limited, short name: Air China) is the only national flag carrier of China.

As the old saying goes, “Phoenix, a bird symbolizing benevolence” and “The whole world will be at peace once a phoenix reveals itself”. The corporate logo of Air China is composed of an artistic phoenix figure, the Chinese characters of “中國國際航空公司” in calligraphy written by Deng Xiaoping, by whom the China’s reform and opening-up blueprint was designed, and the characters of “AIR CHINA” in English. Signifying good auspices in the ancient Chinese legends, phoenix is the king of all birds. It “flies from the eastern Happy Land and travels over mountains and seas and bestows luck and happiness upon all parts of the world”. Air China advocates the core spirit of phoenix which is to “serve the world, to lead and move forward to higher goals”. By virtue of the immense historical heritage, Air China strives to create perfect travel experience and keep passengers safe by upholding the spirit of phoenix of being a practitioner, promoter and leader for the development of the Chinese civil aviation industry. The Company is also committed to leading the industrial development by establishing itself as a national brand, at the same time pursuing outstanding performance through innovation and excelling efforts.

Air China was listed on The Stock Exchange of Hong Kong Limited (stock code: 00753) and the London Stock Exchange (stock code: AIRC) on 15 December 2004, and was listed on the Shanghai Stock Exchange (stock code: 601111) on 18 August 2006.

Headquartered in Beijing, Air China has set up branches in Southwest China, Zhejiang, Chongqing, Tianjin, Shanghai, Hubei, Xinjiang, Guangdong, Guizhou, Tibet and Wenzhou. As at the end of the Reporting Period, the major subsidiaries of Air China are Shenzhen Airlines Company Limited (including Kunming Airlines Company Limited), Shandong Aviation Group Company Limited (including Shandong Airlines Co., Ltd.), Air Macau Company Limited, Beijing Airlines Company Limited, Dalian Airlines Company Limited, Air China Inner Mongolia Co., Ltd., Aircraft Maintenance and Engineering Corporation, Air China Import and Export Co., Ltd., Chengdu Falcon Aircraft Engineering Service Co., Ltd., Air China Shantou Industrial Development Company; and its joint ventures mainly include Sichuan Services Aero-Engine Maintenance Co., Ltd, Beijing Aero-Engine Services Co., Ltd. and GA Innovation China Co., Ltd. Moreover, the associates of Air China include Cathay Pacific Airways Limited and Tibet Airlines Co., Ltd.

With the goal of becoming “the world’s leading airline”, Air China remains committed to the mission of “put safety first, serve passengers with credibility, convenience, comfort and choice, maintain stable development, help employees achieve success and fulfill corporate responsibilities”, advocates the values of “people-oriented, accountable, excelling efforts and enjoyable flights” and positions the brand as “professional and reliable with both international quality and Chinese temperament”. The “Air China Miles” programme of Air China is the oldest frequent flier programme in China, under which all members of the frequent flier programmes under various brands of its subsidiaries and associates have been consolidated into the brand of “Phoenix Miles”.

## BUSINESS OVERVIEW

### SAFE OPERATION

The Group enforced the responsibility of safety at all levels and safeguarded the bottom line of production safety with unwavering efforts. During the Reporting Period, the Group conscientiously implemented the concept of overall national security, carried out in-depth investigations and researches on production safety, effectively carried out specific investigation and rectification of major hidden safety hazards, and actively pushed forward initiatives for this year of strengthening safety management. It has also solidly pushed ahead with the development of the “four systems” (四個體系), namely safety management, flight training, operation management, and aircraft maintenance. At the same time, the Group closely monitored the actual conditions of flight operation, exercised control over the whole process of its flight operation under the complex conditions, coordinated the rapid recovery of flight productivity and the restoration of operation support capability, and properly carried out the specific work for ensuring safe operation. The Group promoted in-depth development of safety style, and continuously improved the working pattern of shared management responsibilities among different governance bodies. During the Reporting Period, the Group recorded 1.1515 million safe flight hours, and successfully accomplished a series of major transportation safeguard missions such as the Two Sessions and evacuation of nationals.

### MAXIMISING OPERATING PERFORMANCE

The Group adhered to the general principle of pursuing progress while ensuring stability and intensively implemented measures for quality improvement and efficiency enhancement, making every effort to reduce losses and extricate itself from difficulties. Based on the domestic macro-circulation, the Group significantly increased the transport capacity for the domestic market and diligently developed the domestic express routes to enhance its competitive advantages. Seizing the opportunities arising from the rapid recovery of the international market, the Group steadily scaled up its investments and expanded the scale of international routes operation. Meanwhile, the Group gave its best efforts to improve the quality of revenue and maximized its revenue effectively by refining the marketing strategy. Through scientific pricing for interline products, it has realized an increase in revenue from interline products. Furthermore, the Group adjusted the pricing structure of the first class and business class cabins so as to ensure steady improvement of yield level of both cabins. Frequent flier membership policies were also optimized with a focus on the long-term contribution of customers with a view to increasing the stickiness of frequent flier members. The Group strengthened the operation of passenger aircraft for cargo operations to give play to the complementary effect of bellyhold capacity of passenger aircraft in the market and increase the revenue from passenger flights. Cost management and control was further implemented to deeply explore the cost potentials, while the investment in labor costs was optimized continuously in a bid to enhance the contribution to productivity. The Group continued to strengthen its capital management and control and enhanced the management of debt-related risks so as to improve the efficiency of capital use without prejudice to safe capital operation, and to reduce its finance costs.

## BUSINESS OVERVIEW

### REFORM AND DEVELOPMENT

Having a keen grasp of the new development stage, the Group clearly defined a model for centralized, synergetic, refined and risk-resistant development to comprehensively promote in-depth synergy of the Group's principal businesses in all aspects. For the key areas of passenger transportation such as route network, cargo spaces management and customer resources management, the Group has achieved synergy through centralization of flight schedules and transport capacities, and strengthened its express route products and optimized the flight schedules of jointly-operated routes in various regions with concerted efforts. The interlink operations across multiple airlines under the Group have been strengthened with a total of 106 thousand flight sectors being operated through interlink operations during January to June, which is 7.3 times of that of the corresponding period last year. The airlines shared their customer resources and realized unification of agreed working standards of customers, operation procedures and the relevant agreements, as well as unification of ground support resources and service standards from the perspective of passengers' perception, thereby improving the service quality and enhancing the efficiency of resources utilization.

The Group promoted the steady implementation of the "14th Five-Year" Plan for green development and made deployment for advancing the carbon peak action plan to empower green and high-quality development with joint efforts. The implementation plan for carbon peak-related works was released, which clarified the strategic direction and technological paths with six major tasks and nine major actions being formulated to serve as the fundamental guidance for the carbon peak action plan. The self-developed carbon emission monitoring and analysis platform realized automatic, systematic, intelligent and integrated management of aviation carbon emission data and established a carbon emission measurement model for civil aviation passengers, which won the "First Prize of the 19th Innovative Achievements of Modernized Management of Transportation Enterprises". The Group participated in the 2nd Civil Aviation Science and Education Innovation Achievement Exhibition (民航科教創新成果展), displaying a total of 21 innovations in the areas of smart travel, aircraft maintenance and technological support. Meanwhile, the Group also contributed to the conservation of biodiversity by setting up the "Join hands with Air China to chase sturgeons in Yangtze River" Wuhan Public Welfare Release Station (「攜手國航，追鱈長江」武漢公益放流站) to help restoring the endangered fish resources in Yangtze River.

The Group pushed forward specific initiatives for brand leadership and strengthened the efforts in the integration of brand building with its business operation and marketing campaigns with a view to facilitating the high-quality development of the Company. The Group actively responded to the "Belt and Road" initiative by utilizing the commencement of services of flight routes to promote its brand image, and demonstrated its operational strengths and good brand image by leveraging large-scale fairs such as the Exposition of China Brand, the Western China International Fair and other events as the platform. It has also enhanced the international brand influence of Air China through the cooperation with the Star Alliance and overseas industry associations. According to the ranking list released by the World Brand Lab, Air China ranked no. 24 in the 2023 China's 500 Most Valuable Brands with a brand value of RMB235.162 billion, representing a year-on-year increase of RMB21.503 billion and maintaining a leading position in the domestic aviation service industry in terms of ranking and brand value.

## BUSINESS OVERVIEW

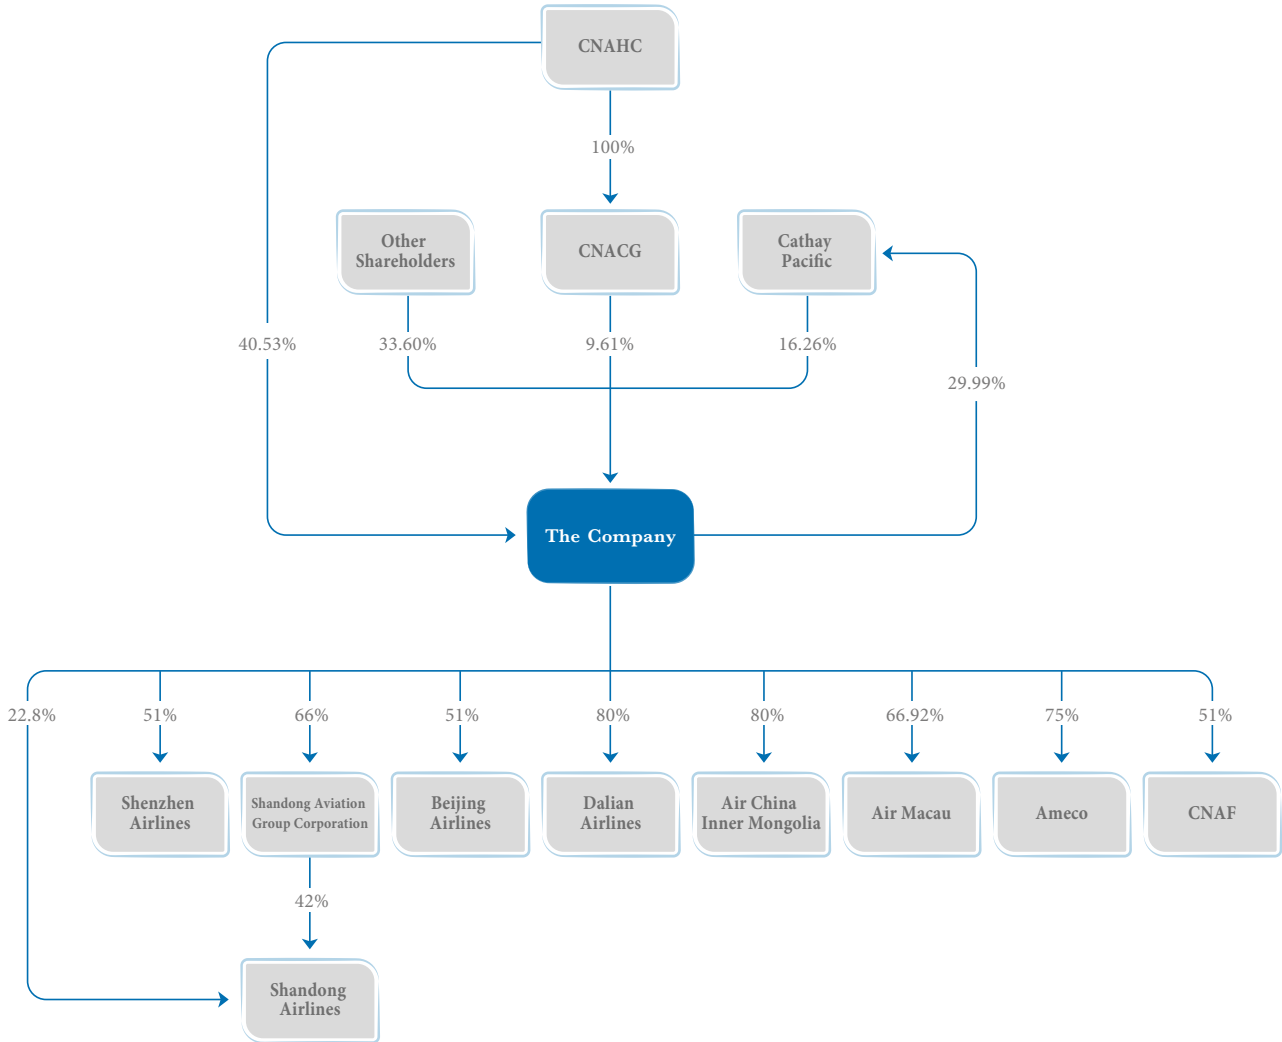

### ENHANCING SERVICES

Staying committed to the people-centered development ideology, the Group strived to improve the quality of its air travel services. During the Reporting Period, the Group pursued the goal and direction of developing world-class products and services. With a focus on passenger demand, it continued to raise service standards and optimize the design of services and products, in a bid to enrich the service experience of passengers at various aspects and solidify the foundation for high-quality development of services.

The Group constantly refreshed and improved the general conditions for transportation, and flexibly formulated and issued special handling plans for passenger tickets in response to special circumstances. It promoted the upgrade of air-ground products, and launched Phase I of the “Fengting Lounge”, a self-owned lounge offering cultural experience and products. Furthermore, the renovation with interior design layout under the “Phoenix Dance in the Cloud” series was completed for 22 aircraft, and the passenger interfaces of the “Chinese Red” in-flight entertainment system on 17 aircraft were fully upgraded. In order to promote the consistent optimization and expansion of convenient services for passengers and optimize the functions and service experience of various self-service channels, Air China introduced an upgraded “Caring Version” on its official website to assist the elderly in travelling smoothly. The “ready to go anywhere at any time” product was also launched to enhance the timeliness for passengers travelling with our domestic express routes. Besides, Air China strived to promote digital transformation of services through the development of service systems, and the global platform for ground service and flight support services has been operating smoothly since its launch, which significantly strengthened the management and control of flight and ground services operation. Continuous efforts were made to optimize and improve the service quality management system, the whole-process luggage tracking data system and other service management data system so as to enhance the level of service digitalization on a continuous basis. It also continued to expand the air-railway interlink stations and network, which covered 63 transit cities, 98 transit train stations, 371 accessible train stations and connected with 582 railways across China, and contributed to the development of interline transportation and services integration.

## MANAGEMENT DISCUSSION AND ANALYSIS

- Jet fuel costs increased by RMB8,998 million on a year-on-year basis, mainly due to the combined effect of the increase in the consumption of jet fuel and decrease in the prices of jet fuel.
- Take-off, landing and depot charges increased by RMB3,414 million on a year-on-year basis, mainly due to the year-on-year increase in the number of take-offs and landings.
- Depreciation and amortisation increased by RMB2,246 million on a year-on-year basis, mainly due to the acquisition of Shandong Aviation Group Corporation, the expansion of fleet as well as the year-on-year increase in flying hours.
- Aircraft maintenance, repair and overhaul costs increased by RMB2,602 million on a year-on-year basis, mainly due to the year-on-year increase in flying hours.
- Employee compensation costs increased by RMB2,151 million on a year-on-year basis, mainly due to the acquisition of Shandong Aviation Group Corporation and the year-on-year increase in flight hour fees.
- Air catering charges increased by RMB752 million on a year-on-year basis, mainly due to the increase in the number of passengers.
- Selling and marketing expenses increased by RMB634 million on a year-on-year basis, mainly due to the consolidation of Shandong Aviation Group Corporation, and the increase in handling fees for agency services and booking fees resulting from the increase in the sales volumes and the number of passengers.
- General and administrative expenses increased by RMB198 million on a year-on-year basis, mainly due to the effect of the acquisition of Shandong Aviation Group Corporation.
- Other operating expenses mainly included civil aviation development fund and ordinary expenses arising from the core air traffic business other than those mentioned above, which increased by RMB1,213 million on a year-on-year basis, mainly due to the acquisition of Shandong Aviation Group Corporation and the increase in the investment in production and operation.

### NET EXCHANGE LOSS AND FINANCE COSTS

During the Reporting Period, the Group recorded a net exchange loss of RMB1,565 million, representing a year-on-year decrease of RMB674 million. The Group incurred finance costs of RMB3,542 million (excluding those capitalised) during the Reporting Period, representing a year-on-year increase of RMB401 million.

## MANAGEMENT DISCUSSION AND ANALYSIS

### SHARE OF RESULTS OF ASSOCIATES AND JOINT VENTURES

During the Reporting Period, the Group's share of profits of its associates was RMB1,266 million, as compared with the losses of RMB1,041 million for the same period of the previous year. The Group recorded a share of profits of Cathay Pacific of RMB1,279 million during the Reporting Period, as compared with the share of losses of RMB423 million for the same period of the previous year.

During the Reporting Period, the Group's share of profits of its joint ventures was RMB89 million, representing a year-on-year decrease of RMB138 million.

### ASSETS STRUCTURE ANALYSIS

At the end of the Reporting Period, the total assets of the Group were RMB344,487 million, representing an increase of 16.78% from that as at 31 December 2022. Among them, the current assets accounted for RMB43,267 million or 12.56% of the total assets, while the non-current assets accounted for RMB301,220 million or 87.44% of the total assets.

Among the current assets, cash and cash equivalents were RMB25,970 million, representing an increase of 144.82% from that as at 31 December 2022, which was mainly due to the non-public issuance of shares of the Company, and the flexibility in cash management based on capital and liquidity need.

Among the non-current assets, the aggregate carrying amount of property, plant and equipment and right-of-use assets as at the end of the Reporting Period was RMB240,730 million, representing an increase of 6.80% from that as at 31 December 2022, which was mainly due to the combined effect of the consolidation of Shandong Aviation Group Corporation's assets, depreciation for the period and introduction of aircraft.

### ASSET PLEDGED

At the end of the Reporting Period, the Group's certain bank loans and finance leasing agreements were secured by certain aircraft, engines and flight equipment, other equipment and buildings with an aggregated book value of approximately RMB92,149 million (31 December 2022: RMB95,499 million) and land use rights with book value of approximately RMB25 million (31 December 2022: RMB25 million). In addition, the Group had restricted bank deposits of approximately RMB645 million (31 December 2022: approximately RMB828 million). The restricted bank deposits were mainly statutory reserves deposited in the People's Bank of China.

### CAPITAL EXPENDITURE

During the Reporting Period, the Group's capital expenditure amounted to a total of RMB12,499 million, of which the total investment in aircraft and engines was RMB4,953 million. Other capital expenditure investment amounted to RMB7,546 million, mainly including investment in high-value rotables, flight simulators, infrastructure construction, IT system construction, ground equipment procurement and cash component of the long-term investments.

### EQUITY INVESTMENT

At the end of the Reporting Period, the Group's equity interests in its associates amounted to RMB11,841 million, representing an increase of 12.38% from that as at 31 December 2022, among which, the carrying amount of the equity interests in Cathay Pacific amounted to RMB11,682 million.

At the end of the Reporting Period, the Group's equity interests in its joint ventures was RMB2,259 million, representing an increase of 3.73% from that as at 31 December 2022.

## MANAGEMENT DISCUSSION AND ANALYSIS

### DEBT STRUCTURE ANALYSIS

At the end of the Reporting Period, the total liabilities of the Group amounted to RMB311,593 million, representing an increase of 13.95% from those as at 31 December 2022, among which current liabilities were RMB112,338 million and non-current liabilities were RMB199,255 million, accounting for 36.05% and 63.95% of the total liabilities, respectively.

Among the current liabilities, interest-bearing debts (including interest-bearing borrowings and lease liabilities) amounted to RMB62,494 million, representing an increase of 4.08% as compared with that as at 31 December 2022.

Among the non-current liabilities, interest-bearing debts (including interest-bearing borrowings and lease liabilities) amounted to RMB179,633 million, representing an increase of 5.83% from that as at 31 December 2022. The increase in interest-bearing debts was mainly due to the acquisition of Shandong Aviation Group Corporation. Excluding this effect, the Group's interest-bearing debts demonstrated a decreasing trend as compared with that at the end of the previous year.

Details of interest-bearing liabilities of the Group by currency are set out below:

(in RMB'000)	30 June 2023		31 December 2022		Change
	Amount	Percentage	Amount	Percentage	
RMB	195,151,949	80.60%	187,990,038	81.81%	3.81%
US dollars	45,273,450	18.70%	39,999,600	17.41%	13.18%
Others	1,701,191	0.70%	1,797,824	0.78%	(5.37%)
Total	242,126,590	100.00%	229,787,462	100.00%	5.37%

### COMMITMENTS AND CONTINGENT LIABILITIES

The Group's capital commitments, which mainly consisted of the payables in the next few years for purchasing certain aircraft and related equipment, increased by 32.01% from RMB58,509 million as at 31 December 2022 to RMB77,239 million as at the end of the Reporting Period. The Group's investment commitments, which were mainly used for the investment agreements that have been signed and come into effect, amounted to RMB466 million as at the end of the Reporting Period, as compared with RMB512 million as at 31 December 2022.

Details of the Group's contingent liabilities are set out in note 20 to the condensed consolidated financial statements included in this interim report.

### GEARING RATIO

At the end of the Reporting Period, the Group's gearing ratio (total liabilities divided by total assets) was 90.45%, representing a decrease of 2.25 percentage points from that as at 31 December 2022.

### WORKING CAPITAL AND ITS SOURCES

At the end of the Reporting Period, the Group's net current liabilities (current liabilities less current assets) were RMB69,072 million, representing a decrease of RMB1,166 million from that as at 31 December 2022. The Group's current ratio (current assets divided by current liabilities) was 0.39, representing an increase of 0.15 as compared to that as at 31 December 2022.

## MANAGEMENT DISCUSSION AND ANALYSIS

The Group meets its working capital needs mainly through its operating activities and external financing activities. During the Reporting Period, the Group's net cash inflow from operating activities was RMB16,142 million, as compared to the net cash outflow of RMB9,960 million for the corresponding period in 2022, which was mainly due to the significant increase in revenue on a year-on-year basis. Net cash outflow from investing activities was RMB2,032 million, representing an increase of 61.06% from RMB1,261 million for the corresponding period in 2022, mainly due to the year-on-year increase in the cash payments for the purchase of property, plant and equipment and other long-term assets, and the effect of the acquisition of Shandong Aviation Group Corporation. Net cash inflow from financing activities amounted to RMB1,046 million, representing a decrease of 92.40% from RMB13,758 million for the corresponding period in 2022, mainly due to the year-on-year increase in repayment of borrowings and rental payments.

At the end of the Reporting Period, the Company has obtained bank facilities of up to RMB205,863 million granted by several banks in the PRC, among which approximately RMB87,828 million has been utilised and approximately RMB118,035 million remained unutilised. The remaining amount is sufficient to meet its demands on liquidity and future capital commitments.

### POTENTIAL RISKS

#### 1. Risks of External Environment

##### Market Fluctuation

With the gradual resumption of normal social and economic activities, the domestic market has shown better performance than the international market from the perspective of the overall aviation industry. The progress of recovery in the international market was lagging behind under the influence of factors such as the restrictions of the immigration policy of certain countries. Based on the characteristics of the new development stage, the Group will fully, precisely and comprehensively implement the new development philosophy, take the initiative to contribute to and integrate with the new development paradigm, seek development based on the domestic market and optimize international fleet capacity structure to accelerate the recovery of profitability.

##### Oil Price Fluctuation

Jet fuel is one of the main operating costs of the Group. The results of the Group are relatively more affected by the changes in jet fuel price. During the Reporting Period, with other variables remaining unchanged, if the average price of the jet fuel rises or falls by 5%, the Group's jet fuel costs will rise or fall by approximately RMB967 million.

##### Exchange Rate Fluctuation

The Group's certain lease liabilities, bank loans and other loans are mainly denominated in US dollar. Certain international income and expenses of the Group are denominated in currencies other than RMB. Assuming that the risk variables other than the exchange rate stay unchanged, the appreciation or depreciation of RMB against US dollar by 1% due to the changes in the exchange rate will result in the increase or decrease in the Group's net profit and shareholders' equity as at 30 June 2023 by approximately RMB297 million.

## MANAGEMENT DISCUSSION AND ANALYSIS

### 2. Risks of Competition

#### Industry competition

During the Reporting Period, as there was no significant reduction in the number of operating entities in the market, the Company still faced relatively huge industry competition pressure. In respect of the domestic market, due to the slow recovery of the international market, a large number of wide-body aircraft were used in the domestic market, which intensified the imbalance between supply and demand in the domestic market. In respect of the international market, the newly resumed routes of domestic airlines were mainly concentrated in destinations such as Hong Kong, Macau, Taiwan, Southeast Asia and Europe, resulting in an intense competition in certain regions within a short period of time. Adhering to its strategy for hub network, the Company spared no efforts in building Beijing Capital Airport into a world-class hub and Chengdu Tianfu Airport into an international hub, realising differentiated development with other competing entities in the market. Main routes and express routes were launched centering on hubs as well as principal bases and markets with a view to consolidating its competitiveness in the core markets with its high-quality products.

#### Alternative competition

The world's largest expressway network has created substitution effect to short-distance transportation. The world's largest high-speed railway network has extended its reach towards central and western China. Hence, there are ongoing risks relating to diversion of customers in terms of short- and medium-distance transportation. In the long run, the high-speed railway will change China's geographic pattern of the economy and, as a result of its cooperation and competition with civil aviation, the air-rail interlink operation will provide strong support to the development of aviation hubs. The civil aviation sector will give full play to its competitive edges in the comprehensive transportation system and promote international exchange. It will "link main routes and branch routes and connect the whole network" to offer easily accessible and quality transportation services to the general public.

# REPORT ON REVIEW OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

# Deloitte.

# 德勤

TO THE BOARD OF DIRECTORS OF AIR CHINA LIMITED

(中國國際航空股份有限公司)

(Incorporated in the People's Republic of China with limited liability)

## INTRODUCTION

We have reviewed the condensed consolidated financial statements of Air China Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 32 to 67, which comprise the condensed consolidated statement of financial position as of 30 June 2023 and the related condensed consolidated statement of profit or loss, statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the six-month period then ended, and certain explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 “Interim Financial Reporting” (“IAS 34”) issued by the International Accounting Standards Board. The directors of the Company are responsible for the preparation and presentation of these condensed consolidated financial statements in accordance with IAS 34. Our responsibility is to express a conclusion on these condensed consolidated financial statements based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

## SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of these condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

# NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Six Months Ended 30 June 2023

## 1. CORPORATE INFORMATION

Air China Limited (the “Company”) was established as a joint stock limited company in Beijing, the People’s Republic of China (the “PRC”), on 30 September 2004. The Company’s H shares are listed on The Stock Exchange of Hong Kong Limited (the “HKSE”) and the London Stock Exchange (the “LSE”) while the Company’s A shares are listed on the Shanghai Stock Exchange. In the opinion of the directors of the Company (the “Directors”), the Company’s parent and ultimate holding company is China National Aviation Holding Corporation Limited (“CNAHC”), a PRC state-owned enterprise under the supervision of the State Council.

The principal activities of the Company and its subsidiaries (together referred to as the “Group”) are provision of airline and airline-related services, including aircraft engineering services and airport ground handling services.

The registered address of the Company is at 1st Floor – 9th Floor 101, Building 1, 30 Tianzhu Road, Airport Industrial Zone, Shunyi District, Beijing, the PRC.

The condensed consolidated financial statements are presented in Renminbi (“RMB”), the currency of the primary economic environment in which most of the group entities operate (the functional currency of the Company and most of the entities comprising the Group), and all values are rounded to the nearest thousand (‘000) unless otherwise indicated.

## 2. BASIS OF PREPARATION

The condensed consolidated financial statements for the six months ended 30 June 2023 have been prepared in accordance with International Accounting Standard 34 “*Interim Financial Reporting*” (“IAS 34”) issued by the International Accounting Standards Board (the “IASB”) as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”). The condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group’s consolidated financial statements for the year ended 31 December 2022.

As at 30 June 2023, the Group’s current liabilities exceeded its current assets by approximately RMB69,072 million. The liquidity of the Group is primarily dependent on its ability to maintain cash inflows from operations and sufficient financing to meet its financial obligations as and when they fall due. Considering the Company’s sources of liquidity and the unutilised bank facilities of RMB118,035 million as at 30 June 2023, the Directors believe that adequate funding is available to fulfil the Group’s debt obligations and capital expenditure requirements to enable the Group to continue in operational existence for the foreseeable future when preparing these condensed consolidated financial statements for the six months ended 30 June 2023. Accordingly, these condensed consolidated financial statements have been prepared on a basis that the Group will be able to continue as a going concern.

For the Six Months Ended 30 June 2023

## 3. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair values.

Other than application of new and amendments to International Financial Reporting Standards (“IFRSs”), the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 June 2023 are the same as those presented in the Group’s annual consolidated financial statements for the year ended 31 December 2022.

### Application of amendments to IFRSs

In the current interim period, the Group has applied the following new and amendments to IFRSs issued by the IASB, for the first time, which are mandatorily effective for the Group’s annual period beginning on 1 January 2023 for the preparation of the Group’s condensed consolidated financial statements:

IFRS 17 (including the June 2020 and December 2021 Amendments to IFRS 17)	<i>Insurance Contracts</i>
Amendments to IAS 1 and IFRS Practice Statement 2	<i>Disclosure of Accounting Policies</i>
Amendments to IAS 8	<i>Definition of Accounting Estimates</i>
Amendments to IAS 12	<i>Deferred Tax related to Assets and Liabilities arising from a Single Transaction</i>
Amendments to IAS 12	<i>International Tax Reform-Pillar Two model Rules</i>

The application of the new and amendments to IFRSs in the current interim period has had no material impact on the Group’s financial positions and performance for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

## NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Six Months Ended 30 June 2023

### 4B. SEGMENT INFORMATION (continued)

#### Geographical information

The following tables present the Group's consolidated revenue under IFRSs by geographical location for the six months ended 30 June 2023 and 2022, respectively:

#### For the six months ended 30 June 2023 (Unaudited)

	Mainland China RMB'000	Hong Kong SAR, Macau SAR and Taiwan, China RMB'000	International RMB'000	Total RMB'000
Sales to external customers and total revenue	50,342,825	1,730,660	7,539,708	59,613,193

#### For the six months ended 30 June 2022 (Unaudited)

	Mainland China RMB'000	Hong Kong SAR, Macau SAR and Taiwan, China RMB'000	International RMB'000	Total RMB'000
Sales to external customers and total revenue	16,374,918	530,154	7,047,581	23,952,653

In determining the Group's geographical information, revenue is attributed to the segments based on the origin or destination of each flight. Assets, which consist principally of aircraft and ground equipment, supporting the Group's worldwide transportation network, are mainly registered/located in Mainland China. According to the business demand, the Group needs to flexibly allocate different aircraft to match the need of the route network. An analysis of the assets of the Group by geographical distribution has therefore not been included.

There was no individual customer that contributed 10% or more of the Group's revenue during the six months ended 30 June 2023 (six months ended 30 June 2022: CNAHC and its subsidiaries (other than the Group) contributed 30% of the Group's revenue).

The Company has also undertaken to indemnify CNAHC and CNACG against any damage suffered or incurred by CNAHC and CNACG as a result of any breach by the Company of any provision of the Restructuring Agreement.

### 21. FINANCIAL INSTRUMENTS

#### (a) Financial assets measured at fair value

##### (i) Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in IFRS 13 *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 fair value measurements are based on quoted prices (unadjusted) in active market for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).
