## 18. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The carrying amounts of the Group's financial instruments reasonably approximate to fair values.

Management has assessed that the fair values of cash and cash equivalents, trade receivables, financial assets included in other receivables, loan and interest receivables, trade payables and financial liabilities included in other payables approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The Group's management is responsible for determining the policies and procedures for the fair value measurement of financial instruments. At each reporting date, management analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation process and results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values: The fair values of the interest-bearing bank borrowings, a loan from and an amount due to the ultimate holding company and amount due to an intermediate holding company have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The changes in fair value as a result of the Group's own non-performance risk for the interest-bearing bank borrowings, a loan from and an amount due to the ultimate holding company as at 30 June 2023 were assessed to be insignificant.

The Group invests in wealth management products issued by banks in Mainland China. The Group has estimated the fair value of these unlisted investments by using a discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks.

The Group also invests in an unlisted investment issued by a financial institution in Hong Kong, the fair value of which was determined with reference to the quoted price provided by the issuing financial institution.

## MANAGEMENT DISCUSSION AND ANALYSIS

The Group is principally engaged in the business of leasing of investment properties, production and sale of the digital Chinese calligraphy education equipment and relevant learning, tutorial systems and the provision of loan financing, consulting services and property development.

#### **Leasing of Investment Properties**

During the six months ended 30 June 2023, the rental income from the leasing of investment properties located in Hong Kong and the People's Republic of China (the "PRC") amounted to approximately RMB5.0 million (2022: RMB13.8 million), which accounted for 48% of the Group's total revenue.

The performance was negatively affected in the first half of 2023 as approximately RMB3 million of rental amount was waived in the first half of 2023 due to regulatory requirements imposed by local PRC authorities. The Group's investment property in Qingdao City known as "22<sup>nd</sup> Century Plaza" comprises 13 upperground floors and 136 underground carpark units, and approximately 40% of such investment property became vacant after the corresponding tenancy agreement expired in early March 2023.

#### Production and Sale of Digital Chinese Calligraphy Education Equipment

During the six months ended 30 June 2023, revenue generated from the production and sale of digital Chinese calligraphy education equipment amounted to RMB5.4 million (2022: RMB6.6 million), which accounted for 52% of the Group's total revenue.

The resurgence of COVID-19 cases in various cities and provinces in the PRC and lockdowns that followed affected business performance of this segment during 2022 and the situation of business environment where this segment is operating has not been fully recovered in first half of 2023. Due to weak customers' confidence, they become more prudent for entering the sales contracts and the installation works for our digital Chinese calligraphy education equipment in classrooms were delayed.

#### **Loan Financing**

The Group's money lending business is conducted through its wholly-owned subsidiary and principally carrying out loan financing business by providing secured and unsecured loans to its customers. Through the business and social networks of the management of the Company, corporate customers and individual customers with personal wealth are identified. Before carrying out the money lending process, the Company would assess the credit of such potential customers based on its credit policy and procedures. The Group strikes a balance by adhering to an effective comprehensive policy as well as prudent procedures relating to loan approvals, loan renewals, loan top-ups, loan recovery, loan compliance, monitoring and anti-money laundering. During the six months ended 30 June 2023, the Group's loan financing business did not generate any revenue (2022: Nil) and the Group did not grant any new loans during the six months ended 30 June 2023. All loan receivables were settled in early 2020 with no outstanding loan receivables during the six months ended 30 June 2023.

As part of the internal control system, the Group has implemented its credit risk assessment protocol in the ongoing operation of loan financing businesses. The Group conducts adequate and considerable amount of valuation and background checks before granting any loan. The Group obtains land search report, valuation report from banks on properties and valuation check, including but not limit to the marketable securities, unlisted securities and first legal charge or second legal charge in respect of properties or land; ascertains the financial condition of the customers including reviewing income/asset proof of individual customers and financial information of corporate customers; and conducts litigation searches and credit search on customers. The loan terms are determined with reference to factors including customers' requirements; result of credit assessment of customers, including whether regular income of customers are sufficient to cover loan repayment instalments; value of collaterals; past collection history and relevant forward-looking information of each customer.

The Group also monitors loan repayment and recoverability by adopting the procedures on monitoring loan repayment and recovery which involve the finance department of the Group performing financial analysis such as comparatives and outstanding loans, and valuation review of pledged assets and reporting to the executive Directors at least monthly. In case of any delinquent loans, we will first issue standard demand letters. If no satisfactory response is received, we will instruct solicitors to issue formal legal demand letters. Thereafter formal legal proceedings may be initiated where appropriate. The Group will continue to develop this business by employing prudent credit control procedures and strategies to maintain a balance between the business growth and the risk management.

#### **Provision of Consulting Services**

During the Period, the provision of consulting services segment did not generate any revenue (2022: RMB Nil). The consulting services are mainly provided to developers engaged in the construction and development of properties in new districts selected by PRC provincial governments for urbanization.

#### **Property Development**

The Group had, through Bengbu City Huai Yi Construction and Development Ltd.\* (蚌埠市淮 翼建設發展有限公司) ("BCHYCDL"), an indirect non-wholly owned subsidiary of the Company, successfully acquired the land use right in respect of a land where Yong Kang Yuan Southern District Project ("Project") is located by way of bidding in March 2021. Upon completion of the acquisition of BCHYCDL, property development became one of the principal business activities of the Group. For details, please refer to the announcements of the Company dated 30 December 2022 and 30 January 2023, respectively.

As at 30 June 2023, cost in relation to the construction of the Project has been recognized as inventory in the amount of RMB292.8 million (31 December 2022: RMB210.0 million).

## **FINANCIAL REVIEW**

#### **Revenue and Results**

During the six months ended 30 June 2023, the Group recorded a revenue of approximately RMB10.5 million (2022: RMB20.4 million). The Group recorded a loss attributable to the equity holders of the parent in the amount of approximately RMB37.78 million for the six months ended 30 June 2023 (2022: a profit of RMB3.1 million). Loss per share was RMB3.78 cents for the six months ended 30 June 2023 (2022: an earning of RMB0.31 cent). The significant decline was mainly attributable to (i) the decrease in fair value of investment properties of the Group, in particular the properties located in the PRC, as a result of the unfavourable market conditions; and (ii) no interest income was recognised for the loan due from a joint venture because of the breach of the contract by Huizhou Jiuyu Real Estate Company Limited\* (惠州 市九煜置業有限公司) during the six months ended 30 June 2023 (interest income for the six months ended 30 June 2022: RMB12.6 million).

Cost of inventory sold for the six months ended 30 June 2023 was approximately RMB4.2 million (2022: RMB4.1 million).
Other income for the six months ended 30 June 2023 was approximately RMB1.3 million (2022 RMB13.9 million), representing a significant decrease of approximately RMB12.6 million. The decrease was attributable to no interest income recognized from the Loan (as defined below) and the income of RMB1.3 million was bank interest income and investment income.

In 2022, Huizhou Jiuyu failed to repay RMB191,600,000 of the principal of the loan (the "Loan") granted by the Group and approximately RMB7,006,000 of the interests of such loan (the "Breach"). Accordingly, an impairment loss in the amount of RMB43.58 million has been made. The Board is currently seeking legal advice in respect of the Breach and is considering the options available to the Company, including but not limited to the commencement of legal proceedings, enforcement of the pledge on the parcel of land which is located at No. 1 Court, Zhongkai Gaoxin District, Huizhou City, Guangdong Province, the PRC (中國廣東省 惠州市仲愷高新區1號小區) (the "Land") or requesting additional guarantees for the Loan. For more details, please refer to the announcements of the Company dated 30 December 2022 and 3 January 2023 and the section headed "Material Transactions – 1. The Provision of Loan" below, respectively. Furthermore, as the Group holds 49% of the equity interest in Huizhou Jiuyu, the Board expects that the Group shall benefit from the long term business development of Huizhou Jiuyu through providing funding to Huizhou Jiuyu for its business operation. Therefore, the Board is of the view that the loan shall not be classified as part of the Group's loan financing business of the Group. The Board is of the view that the Breach does not affect the normal operation of the Group.

Employee benefit expenses for the six months ended 30 June 2023 were approximately RMB7.0 million (2022: RMB7.3 million), representing a decrease of approximately RMB0.3 million.

Other operating expenses for the six months ended 30 June 2023 were approximately RMB9.5 million (2022: RMB8.1 million). The increase was mainly attributable to the increase in marketing expenses to promote our Chinese calligraphy education equipment in anticipation of recovery of economy activities.

Finance costs for the six months ended 30 June 2023 were approximately RMB13.3 million (2022: RMB11.8 million), representing an increase of RMB1.5 million. Finance costs included interest payable for the unsecured loans provided by the ultimate holding company of the Company and interest payable for the secured loans provided by banks. The increase in finance cost was attributable to the increase of interest rate.

Income tax credit for the six months ended 30 June 2023 were approximately RMB5.9 million (2022: income tax expense of RMB1.5 million). The increase was mainly because of the decrease in the deferred tax liabilities as the fair value of the 22<sup>nd</sup> Century Plaza decreased during the Period.

As at 30 June 2023, the outstanding bank and other borrowings of the Group was approximately RMB49.3 million (31 December 2022: RMB49.5 million). In addition to basic salaries, the employees and Directors are rewarded with performance-related bonuses and other staff welfare benefits.

### PROSPECTS

Slow recovery from lockdowns are impacting economic stability in almost all industries in the PRC and Hong Kong. The progress of our business growth was slow due to the sluggish economic recovery and the evident conservative consumption for the first half of 2023. The Directors are cautiously optimistic that the business of the Group will gradually recover in the second half of 2023.

The Board is currently seeking legal advice in respect of the Breach (as defined below) and is considering the options available to the Company, including but not limited to the commencement of legal proceedings, enforcement of the pledge on the Land or requesting for additional guarantees for the Loan. The Company will make further announcement(s) to keep its shareholders (the "Shareholders") and investors informed of any significant development of the Breach as and when appropriate.

For a longer-term perspective, riding on the resumption of economic activities after the outbreak of COVID-19, the Group will continue the product development effort on digital Chinese calligraphy education equipment and sales network in the PRC.

In addition, the Directors believe that the sale of the Project (as defined below) with its saleable building area is expected to generate reasonable revenue to the Group and hence benefit the Shareholders ultimately.

Further, Huizhou Jiuyu shall procure (i) Meile Land to pledge its 51% equity interest in Huizhou Yanlong; (ii) Huizhou Yanlong to pledge its 100% equity interest in Huizhou Jiuyu; and (iii) Meile Land to provide the joint and several liability guarantee on the Entrusted Loan, in favour of QURC Micro-credit Loan Company as security for the purposes of the Entrusted Loan On 7 May 2020, QCCIG entered into a loan agreement with Qifeng, pursuant to which, QCCIG agreed to provide, upon Qifeng's request, unsecured loan of RMB182,000,000 to Qifeng at an interest rate of 3.85% per annum ("Financial Assistance"). The Group used its internal resources and the Financial Assistance to fund the Entrusted Loan for the years ended 31 December 2020, 2021 and 2022.

As at the date of this report, the entrusted loan entrustment contract had been terminated, QURC Micro-credit Loan Company ceased to be the lending agent in relation to the Loan and the Loan was provided to Huizhou Jiuyu by Qifeng directly.

#### Impairment of the loan receivable

Based on the initial business plan of Huizhou Jiuyu, Huizhou Jiuyu intended to repay the principal and interest of the Loan by December 2022 through the proceeds from the sales of the properties on the Land. However, due to the restrictions imposed by the PRC Government due to the outbreak of COVID-19, the construction schedule of the properties on the Land was delayed and slowdown. As a result, Huizhou Jiuyu was not able to obtain the pre-sale permit as initially scheduled and sale of the properties on the Land has not commenced as at the date of this report. Accordingly, Huizhou Jiuyu failed to generate proceeds from the pre-sale of properties on the Land to repay the Loan. In addition, given the downturn in the real estate market in the PRC, it is expected that even after the pre-sale permit of the properties on the Land has been obtained and Huizhou Jiuyu proceeds with the pre-sale, the selling price of the properties on the Land will be lower than it was initially expected, and Huizhou Jiuyu may not be able to generate sufficient proceeds to repay the Loan in full.

#### Basis of impairment assessments

In 2022, Huizhou Jiuyu failed to repay RMB191,600,000 of the principal of the Loan and approximately RMB7,006,000 of the interests of such loan. The Company has taken into account the expected credit losses assessment as set out in Hong Kong Financial Reporting Standard 9 "Financial Instruments" (the "HKFRS 9") on the impairment assessment of the Loan in accordance with HKFRS 9. The Company engaged an independent third-party valuer to evaluate expected credit losses on loan receivables and the value of loan collateral. The valuer adopted the general approach for the valuation of the expected credit losses of the Entrusted Loan Arrangement (the "ECL Approach"). Under the ECL Approach, the valuation of the expected credit losses was based on the following formula:

ECL (Expected Credit Losses) = EAD x PD x LGD

PD (Probability of Default): the probability of default and the likelihood that the borrowers may fail to pay back the Loan. The Company will perform due diligence on the financial statements and consider the macro-environment and the latest information of the borrowers. The repayment record of the borrowers will also be taken into account;

LGD (Loss given Default): the loss given default and the expected cash shortfall between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive. The Company will consider the value of the collaterals pledged for the Loan, if any; and

EAD (Exposure at Default): the balance of the Loan exposed under default risk, including the principal and interests.

In addition, the valuer also adopted scenario analysis on deriving the result of expected credit losses, the valuer used different percentage of weights to base, optimistic and pessimistic scenarios accordingly and calculated the weighted average expected credit losses based on the above assumptions.

The Company considered that the Loan is in stage 3 of financial instrument impairment as at 30 June 2023. Accordingly, as at 30 June 2023, the expected credit losses evaluated by the independent third-party valuer amounted to RMB43,694,000 (31 December 2022: RMB43,694,000) were estimated by fair value of collateral and recovery rate. The loss rate applied at 30 June 2023 was 22% (2022: 1%).

#### Follow up actions

The Group has engaged in ongoing negotiations and discussions with Huizhou Jiuyu on repayment arrangements to endeavour to reach a commercially feasible settlement plan. As at the date of this report, the Group had issued three demand letters to Huizhou Jiuyu for the immediate repayment of the Loan and the interest of the Loan. The Group has engaged an independent third-party valuer to conduct the relevant (i) valuation of expected credit losses of the Loan; and (ii) valuation of the collateral of the Loan. The Board is currently seeking legal advice in respect of the Breach and is considering the options available to the Company, including but not limited to the commencement of legal proceedings, enforcement of the pledge on the Land or requesting for additional guarantees for the Loan. The Board is of the view that the Breach does not affect the normal operation of the Group.
