The principal place of business of the Company is located at Suite 1604, 16/F., Tower 6, The Gateway, Harbour City, Tsim Sha Tsui, Kowloon, Hong Kong. The Company is an investment holding company.

During the Period, the Group was involved in the following principal activities:

- design, manufacture and sale of packaging products and structural components in the People's Republic of China (the "PRC")
- property investment

2. BASIS OF PREPARATION

The unaudited condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 Interim Financial Reporting issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"), as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules"). The unaudited condensed consolidated financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand except when otherwise indicated.

Notwithstanding that the Group incurred loss attributable to owners of the Company of RMB23,362,000 for the period ended 30 June 2023, and as of that date, the Group's net liabilities amounted to RMB169,776,000; and the current liabilities of the Group at 30 June 2023 exceed its current assets at that date by RMB94,555,000, and the Group's current liabilities at that date includes interest-bearing bank and other borrowings with the carrying amounts of RMB459,688,000, in which including RMB231,953,000 (the "Loan") has default to a single lender (the "Lender"), according to their scheduled repayment date. Notes to Condensed Consolidated Financial Statements

2. BASIS OF PREPARATION (Continued)

Given the above condition, the directors of the Company have prepared a cash flow projection for a period of twelve months after the end of the reporting period, after taking into account of the following circumstances and measures to be implemented:

- (i) in relation to the Loan for which the Group entered into an agreement with Lender on 31 March 2015, pursuant to which the Lender has agreed to provide a loan for a principal amount of HK\$200 million to the Group, the outstanding principal amount as at 30 June 2023 is HK\$155 million (equivalent to RMB143 million). The loan drawn down by the Group was secured by share charge over the entire issued shares of Cheng Hao International Limited, a wholly-owned subsidiary of the Company, carries interest at 18% per annum and repayable on 2 January 2023.
 - As disclosed in the Company's announcement dated 16 November 2022, the said Loan has entered into a dispute and a case management conference will be held on 12 June 2024. In the light of the complexity of the matter, the legal representative do not expect the matter to be resolved by 12 June 2024:
- (ii) the Company obtained a letter of continuous financial support and undertaken from the substantial shareholders;
- (iii) estimated sales proceed for RMB62 million from the disposal of the Group's investment property in Singapore; and
- (iv) the Group is actively identifying any other possible financing options to improved the liquidity portion of the Group.

Significant uncertainties exist as to whether the Group's plans and measures as describe above will be able to be achieved by the Group and whether the Group will be able to continue as a going concern would depend upon the Group's ability to generate adequate financing and operating cash flows in the near future, obtaining the continuous financial support from its shareholders and successful obtaining of additional new source of financial assets and when needed.

Should the Group be unable to continue to operate as a going concern, adjustments would have to be made to restate the values of assets to their recoverable amounts, to provide further liabilities that might arise and to reclassify non-current assets and non-current liabilities to current assets and current liabilities, respectively. The consolidated financial statements do not include any adjustments that would result from the failure of the Group to continue as a going concern.

3. PRINCIPAL ACCOUNTING POLICIES AND CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

In the current interim period, the Group has applied, for the first time, the following new and amendments to HKFRSs issued by the HKICPA which are mandatory effective for the annual period beginning on or after 1 January 2023 for the preparation of the Group's unaudited condensed consolidated financial statements:

There was a decrease in gross profit margin in the current period which was attributable to the increase in cost of sales mainly in the second quarter of 2023 due to higher production costs for partially outsourcing our production to other factories. This situation will be alleviated once our newly purchased production facilities are setup and put into production in the last quarter of 2023.

Supply of raw materials

The Group purchases raw materials and components necessary for the manufacturing of its packaging products and structural components from independent third parties. The raw materials mainly include expanded polystyrene ("EPS") and expanded polyolefin ("EPO"). The Group retains a list of approved suppliers of raw materials and components and only makes its purchases from the list. The Group has established long-term commercial relationships with its major suppliers for stable supply and timely delivery of high quality raw materials and components. The Group has not experienced any major difficulties in procuring raw materials and components necessary for the manufacture of packaging products for the six months ended 30 June 2023. The Group continues to diversify its suppliers of raw materials and components to avoid over reliance on a single supplier for any type of raw materials and components.

Production capacity

The current production capacity enables the Group to promptly respond to market demand and strengthen its market position.

Property Investment Business

The Group's investment property, situated in Singapore at 1 Bishopsgate #04–06 Bishopsgate Residences, Singapore 247676 (registered in the Singapore Land Authority under the Land Lot No. TS24-U13661M) with a gross floor area of approximately 3,068 square feet, recorded a rental income of RMB415,000 for the six months ended 30 June 2023. As at 30 June 2023, the investment property in Singapore was listed for sale and will be disposed to improve the liquidity of the Company should opportunities arise. Since the market price of the investment property constitutes a significant portion of the Company's assets, the proposed sale is likely to constitute a discloseable/ notifiable transaction which will be subject to notification, publication and/or shareholders' approval requirement from the listing rules before the sales can be completed.

Update on the Petition

The Company was served with the Petition by SFC on 8 November 2022. A hearing of the Petition was held on 2 June 2023 and the court made directions for the next steps of the Petition. A case management conference will be held on 12 June 2024, and the parties should file and serve their respective proposed directions with brief written explanatory submissions 7 clear days before the said case management conference.

FUTURE OUTLOOK

Packaging Products and Structural Components Business

Although the COVID-19 pandemic has finally subsided, the global economy continues to face uncertainty against a backdrop of financial sector turmoil, high inflation, the Russia-Ukraine conflict and the ongoing impact of three years of pandemic. Mainland China's performance was uneven in 2022, with the constantly changing pandemic landscape reflected in the region's economic activity and subsequent slowed growth. There are also risks in the form of climate change, rising geopolitical tensions and a global financial crunch, all of which could affect China's economy to some extent. However, the China's real GDP growth is expected to rebound to 4.3% in 2023 following sluggish growth in 2022.

With the uncertain geopolitical and macroeconomic conditions, the management foresees that there is full of challenging in 2023 and will use their best endeavors to enhance operation efficiency while trying to maintain a stable performance of our business at the same time.

Management Discussion and Analysis

Property Investment Business

Singapore's real estate market remained resilient despite of higher interest rates and government's cooling measure of higher stamp duties and 2023 began on a strong start due. The higher interest rates led to increased borrowing costs that contributed to slower demand in 2023. However, asking prices did not ease. Consequently, we should expect the same buying behaviours in 2023.

While overall home sales declined, there were green shoots. New home sales continued to perform well due to the limited supply. The Government continued to play an active role in ensuring that the residential market grew sustainably. Looking ahead, demand for homes is expected to be influenced by the uncertain external environment. Prospective buyers were also more cautious, given uncertain economic prospects. Property seekers may adopt a 'wait-and-see' approach and sellers are motivated to keep prices high amidst volatile global economic conditions.

Conclusion

The current global economic climate is still recovering from the impacts of the Covid-19 pandemic. Given the current global economic situation, the Company was still able to maintain a stable performance over the last fiscal year. The management has always believed that diversification of income source can promote long term development for the Group. In July 2023, the Company made a move to start the mahogany home furniture business in PRC and expected it to bring positive outcome in the long run. The Group will continue to use its best endeavor, from time to time, to explore suitable investment opportunities to strengthen its financial position so as to enhance the interests of the Company and create value for shareholders which in time will bring sustainable and stable development to the Group.
