MESSAGE FROM OUR CHAIRMAN

DEAR SHAREHOLDERS,

The year 2023 marks the commencement of fully embracing the spirit of the 20th CPC National Congress, and signifies the 28th milestone year of CICC's journey. Guided by Xi Jinping's Thought on Socialism with Chinese Characteristics for a New Era, CICC diligently studied and implemented the spirit of the 20th CPC National Congress and the Central Financial Work Conference. We embraced the responsibility of financial service for the nation and by the people, achieving high-quality development.

Adhering to the new development philosophy, we actively served the real economy and the national agenda. Following the "Eight Adherences" in financial work, we prioritized major responsibilities and core businesses, and provided comprehensive services for the financing needs of real economy by leveraging our strengths in equity and debt financing, mergers and acquisitions, equity investment, etc., contributing RMB9.8 trillion to direct social financing throughout the year, effectively serving the real economy.

With unity and determination, we tackled challenging market conditions and industry complexities. The Company pursued high-quality development, with steady progress across all business lines. Additionally, the control functions of middle and back offices were further strengthened, while the cohesiveness and creativity of the talent pool continued to improve, further solidifying the foundation for long-term development.

Reflecting on China's capital market development and our 28 years of history, we revisited our original mission. Drawing wisdom from history, we summarized the core spirit of CICC, set the goal to build a first-class investment bank, and will forge ahead to create new brilliance.

Looking at the general trend, we are confident about the industry's prospects. Despite the increasing complexity, severity and uncertainty of the current external environment, the resilience and potential of the Chinese economy, along with the people's aspirations and demands for a better life, as well as China's vast unified national market, complete industrial chain system, and the largest number of highly skilled labor force in the world, all providing us with the confidence and strength to achieve development.

In pursuit of mutual development, we unite our hearts and keep advancing ahead. CICC, fueled by dreams, stood at the forefront of the reform and opening-up wave in the 1990s. Today, it is our mission, responsibility, and obligation to pass the aspiration on, and persevere in the pursuit of lofty goals. We pay tribute to history, drawing wisdom and strength from it, and carry forward the core genes that make CICC great. Embracing the future, we strive to seize the opportunity for high-quality development, create new opportunities in challenges, and open new prospects amid changes.

In the new year, we will uphold the original aspiration of "For the Nation", and deepen our roots in China while consolidating our global footprint. We are committed to serving national development, actively thinking and assisting in solving major economic and social development issues for the country, and will accelerate to become a first-class investment bank with international competitiveness. We will maintain our strategic focus, strengthen strategic guidance and empowerment of business development, and ensure the successful execution of the "Three + One" strategic blueprint. Stepping forward steadily and persistently, we will better leverage the hub function of the capital market, actively leverage our strengths and know-how with focus on the five key areas of technology finance, green finance, inclusive finance, pension finance, and digital finance, and follow the path of financial development with Chinese characteristics, making new and greater contributions to the construction of a financial powerhouse!

MESSAGE FROM OUR PRESIDENT

DEAR SHAREHOLDERS,

Challenging times are like fire; they test and refine true worth. The year 2023 marked the beginning of fully implementing the spirit of the 20th CPC National Congress. The overall performance of the Chinese economy improved, and solid steps were taken to build a modern socialist country in all respects. The Central Financial Work Conference outlined the blueprint for building a strong financial nation, and explicitly stressed the imperative of cultivating first-class investment banks and institutions, setting the future direction and goals for securities firms. We are deeply inspired with a greater sense of responsibility.

Unity leads to victory. Over the past year, we have always kept in mind the top priorities of the country, focusing on serving as a bridge between the real economy and the capital market, and striving for new breakthroughs and new achievements in advancing high-quality development. As at the end of 2023, total assets of CICC amounted to RMB624,306.6 million; net assets^(note) amounted to RMB104,603.3 million. Our Group recorded total revenue and other income of RMB35,446.2 million and profit^(note) of RMB6,156.1 million. The Company keeps advancing ahead with steady steps. In 2023, we ranked second by global equity financing of PRC-based companies and maintained the first place by Hong Kong IPO financing. We remained industry No.1 by the AUM of private equity investment funds and led the industry by advisory-based AUM. We topped the market by QFII trading volume and led the market by fixed income global connectivity and bond connect trading volume.

BUILDING UPON OUR CORE BUSINESSES, WE CONTINUOUSLY ENHANCE THE QUALITY AND EFFICIENCY OF SERVING THE REAL ECONOMY

As the transformation and upgrade of the national economy accelerate, the demands for direct financing, especially those in the technology sector, has surged. This places higher demands on high-quality capital market services to the real economy under the across-the-board registration-based IPO system. Guided by the fundamental principle of financial services for the real economy, we bolster financial support for major national strategies, key sectors, and vulnerable segments based on our core businesses and expertise. This contributes to the modernization of the industrial system and accelerating the development of new productive forces.

We vigorously support the innovation-driven development strategy. We have provided financial support to core enterprises in key areas essential to the country's technological progress. We facilitated transactions for technology companies, with a transaction volume exceeding RMB340 billion. Through growth funds, FoFs, and other means, we have mobilized social capital towards sectors such as industrial internet, cloud computing, artificial intelligence, big data, and blockchain. We established 23 funds focusing on technological innovation and industrial upgrading, with numerous portfolio companies making breakthroughs in core technologies.

We actively support small and medium-sized enterprises (SMEs). We actively contributed to expanding the businesses of the Beijing Stock Exchange and the NEEQ, and assisted SMEs in achieving direct financing through IPOs, bond issuance, asset securitization, and other channels, completing transactions totaling over RMB230 billion. We designed new service models for SMEs, with the synergy of "investment banking + banking" model enabling dozens of SMEs to obtain

banking facilities. **We serve the strategy of green development and actively promote green finance.** We actively participated in green industry equity and bond financing, and mergers and acquisitions, completing transactions in the green sector exceeding RMB600 billion. We facilitated the establishment of several green-themed funds, strategically covering industries like green energy and new materials, and supporting companies in low-carbon transformation and green development. We are honored to have been invited to participate in the G20 Sustainable Finance Working Group, providing insights for financing and capacity building for global sustainable development goals.

STABILIZING THE MARKET, WE CONTRIBUTE TO BUILDING A MODERN CAPITAL MARKET WITH CHINESE CHARACTERISTICS

As a state-owned financial institution, we have always considered safeguarding the long-term healthy development of the capital market as our significant responsibility. We actively leverage our expertise in cross-border and cross-market businesses to help activate the capital market, boost investor confidence, and protect investor rights.

With capital, products, and services, we strive to maintain market stability amidst market fluctuations and uncertainties. We increased holdings of equity shares in mutual funds through principal investment and leveraged financial instruments such as OTC options trading and ETF market making to maintain market liquidity and activity. We actively explored markets in the Middle East and other Belt and Road countries, successfully introducing long-term capital from the Middle East into several important projects, contributing to market stability. Additionally, we actively developed China's unique index system and index-based investments, mediating long-term funds into the market. We launched a series of index products in the secondary market, such as the "CSHT.WI", which effectively enhances the value of companies in strategic Hard & Core Technology fields such as smart manufacturing and aerospace, while also providing investors with financial products of long-term investment value.

Providing objective interpretation, value discovery, and in-depth research, we actively convey the value of A shares, guiding market understanding of the long-term resilience and huge development potential of China's economy through professional interpretation. Since 2023, we have published over 18,000 reports, ranking first in the market by quantity, and covering over 1,800 stocks. These reports presented the long-term value of A shares to the market, effectively stabilizing market expectations. At the same time, we leveraged platform and research advantages to conduct systematic research on major issues in economic and social development. Focusing on the real economy, we held the 2023 Specialization and Innovation Forum, and released a series of in-depth research results closely following the times, such as *Industry Chains of a Large Economy* (《大國產業鏈》) and *Belt and Road Initiative at Ten* (《「一帶一路」新十年》). We promoted China's advantages as an ultra-large unified market and long-term growth potential through various high-end forums.

With professionalism, focus, and dedication, we leverage the expertise of investment banking to facilitate smoother and more efficient industrial restructuring through debt restructuring. CICC has been focused on the field of debt restructuring for a long time. We have actively participated in the top-level design of debt restructuring and contributed to fostering the “market-oriented” and “law-based” debt restructuring system. In 2023, we completed projects involving a debt scale of approximately RMB667 billion, introducing over RMB70 billion of funds, and safeguarding about 38,000 jobs. We extended our advisory services from “mid-restructuring” to “pre-restructuring” and “post-restructuring”, allowing debt restructuring to benefit more people through longer chains of involvement. For example, we helped Xining Special Steel’s transformation and upgrading, driving the development of local steel and related industries, and creating jobs. We actively supported to “ensure the delivery of housing projects” initiative, assisting multiple leading property developers to mitigate domestic debt risks, involving a total scale of over RMB80 billion.

PUTTING CUSTOMERS FIRST, WE FOCUS ON CREATING VALUE FOR OUR CLIENTS

We grasp the rapid changes in economic growth paradigm. The fusion of economic transformation and people’s aspirations for a better life, coupled with technological advancements such as AI and big data, is accelerating the restructuring of many industries. Faced with these changes, our steadfast commitment remains anchored in our original mission of “creating values for our clients”, enabling us to navigate through the changing circumstances.

In terms of wealth management, we aim to provide advisory-based professional services that guide clients in investing the “right money” in the “right products” at the “right time”, enabling each client to reap returns brought by compound interests over time and pursue relative certainty amidst market fluctuations. We are committed to providing clients with “whole-lifetime companionship”, leveraging the expertise of our professional consultant team to interpret market changes alongside nearly 7 million clients. Understanding economic, industry, and market cycles, we advocate for long-term investment philosophies. We have established a specialized, open content ecosystem from the perspective of our clients, establishing the “Co-Building with Time” 1018 brand month. This bridges online and offline services, achieving over tens of millions of online views and over a hundred million WeChat Index readings. We have established wealth planning accounts and provided goal-oriented advisory-based services tailored to our clients’ needs. We continuously refine segmentation of client demands, investment consultants and services to deliver attentive and meticulous service when clients need it most.

In terms of institutional services, we leverage the synergies of “investment + investment banking + research” to elevate the quality of our customer service model. By offering a one-stop institutional business service, we consistently bolster our core competencies. We delved into the genuine needs of global clients and constantly expand our customer base domestically and internationally. We have successfully reached over tens of thousands of corporate and institutional clients, earning widespread recognition from large multinational corporations and top institutions at home and abroad. We continually enhanced the capabilities of our Strategic Client Center by assembling cross-departmental “1+N” service teams dedicated to serving strategic clients. We provided 24/7 trading services, mapping out customer group service graphs, to ensure timely responses to the needs of different types of institutional clients at various stages.

GUIDED BY DEVELOPMENT STRATEGIES, WE REMAIN FIRM IN EXECUTING THE BLUEPRINT

We steadfastly implement the “Digitalization, Regionalization, Internationalization and One CICC” strategy, further solidifying the foundation and momentum for the Company’s long-term sustainable development through international setup, regional footprints, digital empowerment, and the collective strength from “One CICC”.

Under the digitalization strategy, the empowering of “Digital CICC” has been gradually evident. Key areas such as wealth management platforms, asset management and research platforms, and FOF investment management platforms are steadily digitalized, and we have been promoting scenario applications such as intelligent investment advisory. **Under the regionalization strategy**, “CICC in China” has deepened its roots. We continued to deepen our regional penetration, expand coverage of early-stage enterprises, and established several FOFs or growth funds in cooperation with the governments in Guangdong, Hubei, Anhui provinces, etc. **Under the internationalization strategy, we have seen an increasingly improved global setup** of “Global CICC”. Cooperation agreements have been signed with institutions in multiple countries participating in the “Belt and Road” initiative. We actively voiced out in mainstream media at home and abroad, telling China stories, and expanding our global influence. The collective strength from “**One CICC**” has yielded significant results, with all departments working closely and harmoniously, centering around a customer-focused service model that has been further refined.

FINANCE FOR GOOD. WE FULFILL SOCIAL RESPONSIBILITIES THROUGH “FINANCE + CHARITY”

We’ve been long committed to social welfare, actively fulfilling, and practicing social responsibilities. We have supported rural revitalization and carried out poverty alleviation initiative and provided assistance to the vulnerable. Our resident cadre stationed in Huining County continues to work diligently; we bolster the industries in the beautiful Guzhang County. Our commitment to targeted assistance has been promoting the progress of rural revitalization. Our rural doctor training program in Tibet has advanced maternal and child healthcare in villages, bringing knowledge and health to remote communities. In Medog, Tibet, the “CICC Public Welfare Ecological Carbon Neutrality Forest” innovatively pilots a comprehensive project combining “green low-carbon initiatives, biodiversity conservation, and rural revitalization”. On the Pamir Plateau in Tibet, the “Frontier Miles” initiative funds improvements to school infrastructure in border areas. Faced with floods in Hebei, earthquakes in Gansu, and other natural disasters, CICC team gathers immense support to help disaster-stricken communities rebuild their homes. As we continue the path of serving the people’s aspirations for a better life, we are more determined and taking stronger actions.

Looking back, we have consistently kept pace with the times, tackling tough yet worthwhile challenges, and leveraging our expertise and know-how to serve the reform and advancement of the real economy. Looking ahead, we are committed to becoming a top-tier investment bank, staying focused on our strategic objectives, enhancing our core strengths, seizing growth opportunities, and steadily advancing on the path of high-quality development, contributing to the building of a financial powerhouse!

V. OTHER INFORMATION OF THE COMPANY

(i) History of the Company

Our Company was established on July 31, 1995, with the name of China International Capital Corporation Limited (中國國際金融有限公司) in the PRC as approved by the People's Bank of China ("PBOC") with a registered capital of US\$100 million. The promoters of our Company were the former People's Construction Bank of China (中國人民建設銀行), Morgan Stanley & Co. Incorporated (摩根士丹利國際公司), I&G (then known as China National Investment & Guaranty Corporation (中國經濟技術投資擔保公司)), GIC Private Limited (新加坡政府投資有限公司, then known as Government of Singapore Investment Corporation Pte. Ltd. (新加坡政府投資公司)) and Mingly Corporation (名力集團控股有限公司, then known as The Mingly Corporation Limited (名力集團)).

On June 1, 2015, our Company was converted into a joint-stock company with limited liability with the name of China International Capital Corporation Limited (中國國際金融股份有限公司). Upon the conversion, our Company had a total share capital of RMB1,667,473,000, comprising 1,667,473,000 Shares with a nominal value of RMB1.00 each.

Our Company was successfully listed on the Hong Kong Stock Exchange on November 9, 2015, and initially issued 555,824,000 H Shares, and further issued 83,372,000 H Shares upon the exercise of over-allotment option. After the completion of the global offering and the exercise of the over-allotment option, the total number of issued Shares of our Company increased from 1,667,473,000 Shares to 2,306,669,000 Shares.

On November 4, 2016, our Company and Huijin entered into the Equity Transfer Agreement, pursuant to which, our Company has agreed to acquire, and Huijin has agreed to sell, 100% of the equity interest of Former CISC (now renamed as CICC Wealth Management Securities). CICC Wealth Management Securities is a fully-licensed securities firm in the PRC with an extensive and well-established branch network, a large customer base, and an integrated business platform. Our Company became the sole shareholder of Former CISC (now renamed CICC Wealth Management Securities) on March 21, 2017. 1,678,461,809 domestic shares had been issued as fully paid to Huijin as consideration for the Acquisition on April 12, 2017. Upon completion of the Acquisition, Huijin directly held 58.58% equity interest in our Company, and that the registered capital of our Company increased from RMB2,306,669,000 to RMB3,985,130,809.

On March 23, 2018, the Company completed the issuance of 207,537,059 new H Shares to Tencent Mobility Limited. Accordingly, the number of the Company's issued H Shares and the total issued Shares increased to 1,727,714,428 H Shares and 4,192,667,868 Shares, respectively.

On October 24, 2019, the Company successfully allotted an aggregate of 176,000,000 new H Shares to no fewer than six professional, institutional and/or individual investors, which are not connected parties or connected persons of the Company. Accordingly, the total issued H Shares and the total issued Shares of the Company increased to 1,903,714,428 H Shares and 4,368,667,868 Shares, respectively.

On November 2, 2020, our Company was successfully listed on the Shanghai Stock Exchange and issued 458,589,000 A Shares in the initial public offering and a total of 2,464,953,440 domestic shares held by the original domestic shareholders of the Company were converted into 2,464,953,440 A Shares. Upon completion of the A Share Offering and Listing, the total number of issued Shares of our Company increased to 4,827,256,868 Shares, including 1,903,714,428 H Shares and 2,923,542,440 A Shares.

In 2021, the Company completed the integration of 20 domestic business offices engaged in wealth management business with CICC Wealth Management, further realizing the business integration of both parties. After the integration, the Company, as the parent company, conducted investment banking business, equities business, FICC business, asset management business and private equity business; CICC Wealth Management, as a wholly-owned subsidiary, conducted wealth management business.

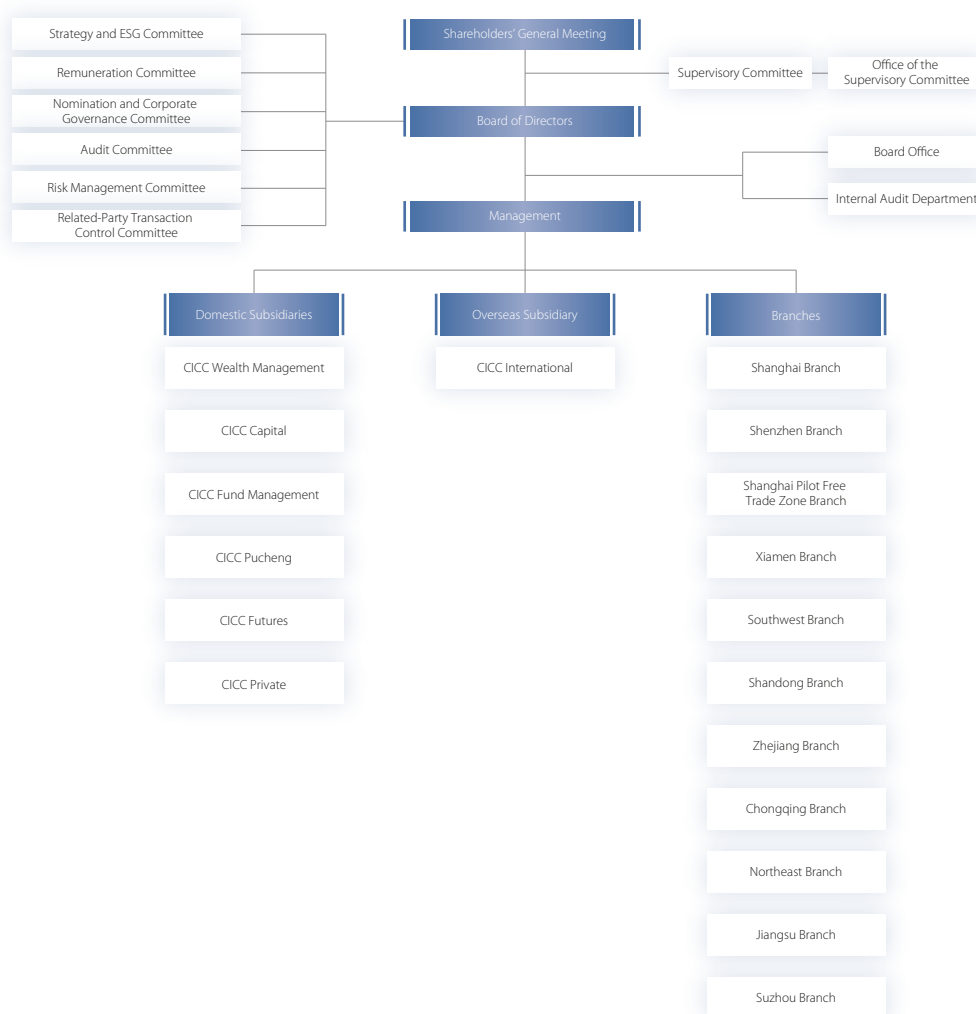

In June 2022, in line with the Company's internationalization strategy, China International Capital Corporation (Hong Kong) Limited changed its name to China International Capital Corporation (International) Limited.

The Headquarters of our Group is in Beijing and as of December 31, 2023, our Group has a number of subsidiaries in the PRC, including CICC Wealth Management Securities, CICC Capital, CICC Fund Management, CICC Pucheng, CICC Futures and CICC Private Equity. Moreover, our Group has established branch companies in Shanghai, Shenzhen, Xiamen, Chengdu, Hangzhou, Jinan, Chongqing, Shenyang, Nanjing and Suzhou. The Group and its subsidiaries have over 200 securities business offices located in 30 provinces, autonomous regions and municipalities of the PRC. As the scope of business continues to expand, our Group has also actively ventured into overseas markets. We have further strengthened our international presence by establishing subsidiaries or branches in seven international financial centers, including Hong Kong of the PRC, New York, London, Singapore, San Francisco, Frankfurt and Tokyo, laying a solid foundation for our Company to become a world-class investment bank in China.

In recent years, our Group has been committed to enhancing our core competitiveness by speeding up efforts to invest in innovative business and developing offshore business to build a balanced business structure. Our Group strives to become a world-renowned financial institution featuring our balanced structure and full services.

(ii) Organizational Structure of the Company

MANAGEMENT DISCUSSION AND ANALYSIS

I. CORPORATE STRATEGIES AND OPERATIONS

(I) Market Environment

China's economy staged a recovery in 2023.

China's GDP grew 5.2% year-on-year in 2023, accelerating markedly from the 3.0% growth in 2022. As economic and social activities fully normalized, China's consumption potential was unleashed, service consumption recovered at an accelerating pace, and consumption played a stronger fundamental role as a driver of economic growth. In 2023, final consumption expenditure contributed 82.5% of China's economic growth, boosting GDP growth by 4.3 percentage points. Despite overall weakness in the real estate sector, the accelerating construction of major projects continued to play a key role in stabilizing economic growth. In 2023, gross capital formation contributed 28.9% of China's economic growth, driving GDP growth by 1.5 percentage points.

Innovation-driven development gained momentum; industrial transformation and upgrading bore fruit.

Investment in the high-tech manufacturing industry and high-tech service sector increased 9.9% and 11.4% in 2023, which outpaced the growth of overall fixed asset investment by 6.9 percentage points and 8.4 percentage points, respectively. These figures show steady progress in industrial transformation and upgrading. In the high-tech manufacturing industry, aerospace vehicle and equipment manufacturers above the designated size recorded 17.7% year-on-year growth in their value added, which outpaced that of all

industrial companies above the designated size by 13.1 percentage points. Service companies in key areas maintained revenue growth. The year-on-year revenue growth of high-tech service companies and sci-tech service firms above the designated size outpaced that of all service companies above the designated size by 2.7 percentage points and 2.9 percentage points, respectively. The competitiveness of China's manufacturing industries was also evident in exports, such as the country's outstanding automobile exports.

China's capital market came under pressure in 2023 due to internal and external challenges,

including multiple corrections to expectations for China's economic recovery, and sustained tight policy stance in major overseas economies. Nevertheless, China still reached milestones in the comprehensive implementation of the registration-based IPO system, and advanced in an orderly manner a number of medium- to long-term reforms that aim to develop capital markets with Chinese characteristics, expand the country's opening-up, and improve the quality of listed companies. Various institutional investors continued to grow larger. In the mutual fund industry, the number of newly issued fund units reached 1,153.4 billion in 2023 and the net asset value continued to rise compared with the end-2022 level. In addition, privately-offered funds' securities under management and insurance companies' equity and other securities investments both increased compared with end-2022 levels. Northbound funds became more volatile in the second half of 2023 and the full-year net

inflow of funds totaled RMB43,704 million in 2023, lower than the amount in 2022. After substantial corrections, the valuation of China's equity market is quite attractive for investment. In our view, investors should not be pessimistic about the medium-term performance outlook of China's capital market, since the Chinese economy is likely to improve along with the issuance and implementation of pro-growth policies, and the country has large markets with strong growth potential and extensive industry chains with global competitive advantages.

The financial sector provided support for the high-quality development of the real economy.

The People's Bank of China (PBoC) continued to ensure a favorable monetary and financial environment for the real economy in 2023. In terms of aggregate policies, the PBoC lowered twice the reserve requirement ratio (RRR) for financial institutions to maintain a moderate credit aggregate and a steady pace of credit growth. In addition, the PBoC reduced policy interest rates twice to facilitate further declines in loan prime rates (LPR), and guided commercial banks to cut the interest rates of outstanding personal housing loans for first homes. Moreover, deposit interest rates were lowered three times, helping banks to reduce their liability costs. This also shows the enhanced role of the market-oriented adjustment mechanism for deposit interest rates, and helps lower comprehensive financing costs for the whole society. From a structural perspective, financial institutions provided stronger credit support for key areas. As of end-2023, there was a 23.5% year-on-year increase in the balance of inclusive loans to micro and

small businesses, and the growth rate was 18.6% year-on-year for loans to enterprises that use special and sophisticated technologies to produce novel and unique products, 21.9% year-on-year for loans to small and medium technology enterprises, 31.9% year-on-year for medium- and long-term loans to manufacturing industries, and 34.0% year-on-year for medium- and long-term loans to high-tech manufacturing industries. Loan growth in these key areas significantly outpaced the overall loan growth of 10.6%. As for financial risks, the PBoC took prudent measures to deal with risks in key regions and at key institutions. Meanwhile, financial institutions assisted with the defusing of debt risks at local government financing vehicles in an orderly manner.

(II) Landscape of Securities Industry

Earnings of the securities industry were stable in 2023 but business operations still faced challenges.

The decline in major stock indexes narrowed while the rise in bond indexes widened. The average daily turnover of the A-share market was RMB874,410 million, and the average daily balance of margin financing and securities lending edged down 0.8% to RMB1.61 trillion. Against such a backdrop, we estimate that securities firms' investment income rose year-on-year in 2023, partly offsetting the decline in fee income. Therefore, we believe the industry's overall earnings stabilized year-on-year in 2023. Among various business lines, we estimate that the industry's brokerage revenue declined year-on-year in 2023, as market turnover and commission rates both fell marginally, while agency sales of financial products still faced pressure. Meanwhile, the

industry's investment banking revenue was under downward pressure in 2023, as A-share IPO fundraising decreased by 31.3% year-on-year to RMB358,971 million and A-share follow-on offering decreased by 39.8% year-on-year to RMB402,708 million, although credit bond issuance increased by 5.1% year-on-year to RMB18.99 trillion. In addition, we estimate that the industry's revenue from the asset management business declined slightly in 2023, as securities firms were transforming this business line at an accelerating pace, the mutual fund industry launched a fee reform in the second half of 2023, and the assets under management (AUM) of mutual funds remained stable year-on-year. As the performance of major equity and bond market indexes recovered year-on-year in 2023, we estimate that securities firms' investment income rebounded markedly on a low base and was an important contributor to the stabilization of the industry's overall earnings. We expect securities firms' 2023 operating results to diverge due to differences in revenue mix and asset allocation.

Steady advancements in market reforms help drive high-quality development of the securities industry.

The A-share market fully adopted the across-the-board registration-based IPO system in 2023. Meanwhile, China further reformed its fundamental market rules and frameworks, and the country's multi-layer capital market system continued to improve. At a meeting of the Political Bureau of the CPC Central Committee held in July 2023, policymakers called for measures to "invigorate the capital market and boost investor confidence". In August, the China Securities

Regulatory Commission (CSRC) unveiled a policy package designed for this purpose, which was followed by the issuance of various measures, such as cutting the stamp duty on securities trading, coordinating and balancing primary and secondary markets, regulating stock sales by shareholders, and fostering high-quality development of the Beijing Stock Exchange. At the central financial work conference held in October 2023, policymakers stressed the need to "give full play to the pivotal role of the capital market, advance the registration-based IPO system, develop diversified equity financing, significantly improve the quality of listed companies, and cultivate first-class investment banks and institutions". Policymakers highly recognized the capital market's significant role in serving the real economy and national strategies. As such, we believe China will launch more medium- and long-term institutional reforms on investment, financing and trading, so as to accelerate the growth of a modern capital market with Chinese characteristics and guide the high-quality development of the securities industry to achieve high efficiency, full compliance with rules and regulations, as well as business specialization and differentiation.

Supply-side reforms are likely to accelerate in the securities industry, helping improve the industry's competitive landscape.

Key reform drivers include the government's top-down policy guidance, the requirement that financial institutions should slash their fees and relinquish part of their profits, as well as regulation rules that categorize securities firms based on their relative strengths and provide stronger firms with more supportive terms and

conditions. Supply-side reforms in the securities industry will likely gain speed through both organic growth and mergers & acquisitions, raising the industry's concentration ratio. In the first place, financial institutions are being asked to relinquish more profits, raising the bar on securities firms' diversified client structure, comprehensive customer services and efficient business operations. In this context, we believe high-quality securities companies with strong economies of scale, outstanding professional expertise, and leading internal coordination mechanisms have stronger capabilities to cope with these changes and expand business volume to offset impacts from reduced prices. Secondly, the CSRC has initiated a revision of risk control indicators for securities companies in response to policymakers' call at the central financial work conference that China shall comprehensively strengthen financial regulation and enhance service capabilities of investment banks. By optimizing indicators and adopting categorized ratings, the revision aims to guide securities companies to improve business structures and may allow high-quality firms to expand their business scale to an appropriate extent on the back of a given amount of capital. This will encourage securities firms to grow stronger, in our view. High-quality securities companies are taking the lead to transform various business lines, which enhances their business competitiveness and earnings stability. Meanwhile, favorable policies and appropriate market conditions may offer opportunities for strategically leading companies to grow by leaps and bounds through mergers & acquisitions.

(III) Development Strategies

CICC's strategic vision is to focus on serving the priorities of the national development, innovating to support the real economy, actively facilitating capital market reform, and effectively promoting financial risk mitigation. CICC attaches importance to medium and long-term development, and will clarify the direction, and capture the opportunities to accelerate growth for quality and capabilities, strengthen core competitiveness, and strive to become a first-class investment bank with international competitiveness.

(IV) Business Plans

In 2024, we will uphold the original aspiration of "For the Nation", continue to deepen our roots in China and consolidate our global footprint. We will act as a bridge between the real economy and the capital market, contributing to the five key areas of technology finance, green finance, inclusive finance, pension finance, and digital finance, and making new breakthroughs and achievements on the path of high-quality development. We will maintain strategic focus, strengthen the strategic guidance and empowerment of business development, and fully execute the "Three + One" strategic blueprint. We will actively seize market opportunities, consolidate core competitive advantages and business strengths, and accelerate to become a first-class investment bank with international competitiveness.

II. ANALYSIS OF CORE COMPETITIVENESS

(I) Premier Brand

Our Company has established a premier brand in the financial services industry. Since the inception, our Company has drawn on the best practices of market in China, and has always adhered to the business philosophy of “By the People and For the Nation, Chinese Roots and International Reach”, which won us a market reputation at home and abroad. For years, while maintaining high-standard practices, our Company has actively participated in reforms and system construction of the capital market to stimulate business innovation. Our Company maintained leading positions in many businesses for years, and was honored numerous awards as the best player in China.

Our Company regarded the brand cultivation and cultural building as key measures to continuously enhance our market leading position. Leveraging our franchise and core values of professionalism, entrepreneurship and pursuing excellence, our Company continued to attract outstanding talents and new clients, expand our business scope and capture important business opportunities while maintaining the stability of existing employees and clients.

(II) High-quality Client Base

Our Company has explored an extensive and profound client base with high quality. Relying on our excellent service quality and professional service capabilities, our Company has formed a profound client base covering a wide range of large-sized enterprises, high-quality emerging growth companies, professional institutional investors and growing wealth management clients that play important roles in the national economy and capital market. Our Company can provide our clients with complicated, diversified and high-quality business services through our integrated and customized cross-border platform. Our Company has developed long-term cooperation with clients and are dedicated to providing them with a comprehensive suite of products and services.

(III) Balanced Business Structure

Our Company has established our business structure from a forward-looking prospective based on our insight into development trends of global capital markets. With the accelerating process of internationalization and institutionalization of the capital market in recent years, a large number of traditional channel businesses are facing tremendous pressure. As such, in line with the trend of “institutionalization”, “internationalization” and “product sophistication”, our Company continued to enhance the overall capabilities, and has embarked on a new track in advance to closely focus on key national deployment areas such as technological innovation and green development, and promoted the sustainable development of emerging businesses related to asset management business, private equity business and wealth management business.

(IV) Outstanding Cross-border Capability

Capitalizing on our first mover advantage in pursuing international strategy, our Company has formed outstanding cross-border business capabilities with a leading position in the cross-border arena, thus proactively playing our role in serving cross-border capital transactions and promoting the mutual opening of financial markets.

In terms of international presence, our Company has established overseas operations and business activities in seven financial centers across Hong Kong of the PRC, New York, London, Singapore, San Francisco, Frankfurt and Tokyo, which are managed by respective business lines vertically, so as to fully mobilize domestic and overseas resources including research, people and products, thus providing one-stop cross-border services for our clients. The seamless connection among our domestic and overseas businesses equipped our teams with both domestic and overseas business experience, and have obtained qualifications for domestic businesses and businesses in several overseas regions.

In terms of cross-border business, our Company has been serving the “bringing in” and “going global” needs of industrial capital and financial capital, which enabled us to enjoy certain advantages in businesses such as overseas IPOs for PRC-based companies, offshore bond offerings, and cross-border mergers and acquisitions, to sustain strong growth in emerging businesses such as cross-border transactions and the Connect business, thereby obtaining more bargaining and pricing power in the international capital markets.

(V) Leading and Influential Research

Research is an important foundation for our business. Our talented, experienced and international research team has provided objective, independent, prudent and professional research services for domestic and overseas clients through our research platform covering the global markets. With in-depth understanding, thorough analysis and unique insights into Chinese companies and industries, our research team has won the Company a reputation as the “China Expert”.

Our research capabilities have been widely recognized by influential international institutions. These included the “No. 1 Overall Country Research for China” in the *Asiamoney Brokers Poll*, which marked the 18th consecutive year of our championship in this poll from 2006 to 2023. We were also named the “No.1 The All-China Best Research Team” by *Institutional Investor* for twelve consecutive years from 2012 to 2023. In 2020, our Company established the CICC Global Institute (CGI), which focuses on public policy research and is committed to building a new think tank in the new era. The CGI and CICC Research are committed to working side by side to provide all-round research support for the economic and social development.

(VI) Experienced Management and High-quality Workforce

Our Company has a senior management team with global perspectives and entrepreneurship, and a high-quality workforce with full licenses at home and abroad.

Most members of our senior management team have work experience in domestic and overseas financial institutions with global perspectives. In the meantime, they have experienced the main development course and multiple cycles of China's securities industry, and are equipped with rich experience and profound understanding regarding domestic and overseas capital markets and the securities markets. Riding on the concept of "Chinese Roots and International Reach", our senior management team has constantly combined advanced management experience with the practices of China's financial reform, and took the lead in developing new products and vigorously exploring new markets.

Our excellent brand and high-quality platforms enabled us to recruit the best graduates from top domestic and overseas universities, providing high-quality talents for our domestic and overseas branches. Our sound staff development and training system has provided comprehensive and systematic training for employees at different levels and positions, thereby continuously enhancing professional capabilities of our workforce and equipping them with practice capabilities to obtain full licenses. Through the above measures, we have developed high-quality workforce to support our rapid, healthy and sustainable development.

(VII) Efficient Management Model and Prudent Risk Management Mechanism

Our Company has established an efficient and reasonable management model and a comprehensive and prudent risk management mechanism. The Company has adhered to the "Two Consistencies", gradually improved the modern state-owned enterprise system with Chinese characteristics, and established corresponding business models and management processes in line with the experience of mature international markets to ensure efficient and effective management. At the same time, our Company has always adhered to and continuously strengthened the "all staff, whole process, full coverage and penetrating" risk control compliance system and operating mechanism, through which the parent company can conduct integrated vertical management over domestic and overseas subsidiaries and branches, and the same business and the same client can be subject to unified risk management. Therefore, our Company has formed centralized and effective business management and risk control, and unified decision-making, management and resources allocation, thus ensuring the smooth and orderly development of our business and the stable operation of our risk control system.

(VIII) Advanced Information Technology Capabilities

We consider information technology as a core component of our competitiveness. We have a sound IT governance structure and the industry-leading independent research and development capabilities. Our Company has developed three basic technology systems regarding basic transactions, products and services, and risk control and operation management, to provide complicated whole-process and end-to-end financial products and services for clients and various business units as well as global support of comprehensive business operation and management capabilities. Our Company has adopted self-developed and industry-leading core business systems and platforms with stable operation.

The Company will continue to promote our business development based on information technologies. With the continuous advancement of information technologies in recent years, our Company has also increased capital investment in and attached importance to talent training and capacity building, continued to optimize our organizational structure and operating model, and proactively researched and explored the application of new technologies in various business areas of investment banks, so as to promote the integration of businesses and technologies. Capitalizing on the advantages brought by the booming development of China's financial technologies, we have actively carried out strategic cooperation with China's leading technology companies to develop new products, businesses and models with data and technology.

innovation and low-carbon transformation-linked" corporate bonds, and assisted CECEP Solar Energy Technology (中節能股份) in completing the issuance of the first green corporate bond under the *Common Ground Taxonomy* on the SZSE. In terms of supporting regional economic development, the Company assisted Chengdu Communications Investment Group (成都交通投資集團) in completing the issuance of "Chengdu-Chongqing Twin Cities Economic Circle" bond, being China's first bond to raise funds for expressway project. In terms of rural revitalization, the Company assisted State Power Investment Corporation (國家電投集團) in completing the issuance of the first rural revitalization Quasi-REITs in the market. In terms of infrastructure public REITs, the Company completed the first two REITs expansion projects of GLP (普洛斯) and Shekou Industrial Park (蛇口產業園), and completed two initial offerings of Hubei Optics Valley Science and Technology Investment Industrial Park REIT (湖北光谷科投產業園REIT) and Shandong Expressway REIT (山東高速REIT). In terms of offshore bonds, the Company assisted the Ministry of Finance in the issuance of offshore sovereign bonds, assisted the People's Government of Hainan Province, Guangdong Province and Shenzhen Municipality in the issuance of offshore Renminbi bonds. To empower the real economy, the Company assisted NIO Inc., iQIYI Inc., and MicroPort Scientific Corporation in completing the issuance of overseas convertible bonds, and assisted New Hope Group in completing the first

sustainability-linked bonds issued overseas by a private enterprise from Chinese mainland. The Company assisted multiple Chinese enterprises in overseas ESG bond financing, including overseas green bonds issuance by Guangzhou Development District Holding Group and Jinan Energy, overseas green bonds issuance with the dual themes of "Biodiversity" and "Belt and Road" by China Construction Bank London Branch and Sydney Branch, and overseas sustainable bonds issuance by Huzhou City Investment and Development Group. The Company promoted multi-product and multi-market bonds issuance, including subordinated capital bonds issuance by China Taiping and the global first RMB "Yulan Bond" issuance by Bank of China Macau Branch. In terms of internationalization, the Company assisted New Development Bank, SSA (Sovereigns, Supranational, and Agencies) issuer, in completing private placement medium-term note issuance and euro commercial paper issuance, assisted the Asian Infrastructure Investment Bank in completing the issuance of euro commercial paper, assisted China Education Group in the issuance of Dim Sum Bonds guaranteed by Credit Guarantee and Investment Facility (a trust fund of the Asian Development Bank), and assisted KDB Asia Limited (a wholly-owned subsidiary of Korea Development Bank) in the issuance of Certificate of Deposit. In terms of debt restructuring, the Company assisted several leading real estate enterprises to restructure their outstanding bonds of approximately RMB83.0 billion in total.

Outlook for 2024

In 2024, the Company will give full play to its professional advantages, and combine its efforts in innovating fixed income products with those in serving national strategic development. To this end, the Company will increase its underwriting scale in special products such as science and technology innovation bonds, ESG bonds, rural revitalization, and Belt and Road bonds. The Company will continue to maintain the strategic focus and leading edge of infrastructure public REITs, and actively seize opportunities arising from corporate debt management and credit repair business. In terms of international business, the Company will continuously contribute to the development of the offshore RMB bond market, and promote green and sustainable debt financing. The Company will expand overseas customer base, and relying on the advantages of CICC's cross-border platform, provide domestic and foreign enterprises with multi-currency debt financing and risk management solutions. In addition, the Company will also strictly control risks in the debt financing and asset securitization business through comprehensive risk management, execution quality and compliance control.

Outlook for 2024

In 2024, the Company will continue to serve the national strategies, fully leverage its domestic and overseas linkages to promote the dual circulation, firmly support the high-quality development of the real economy, grasp M&A opportunities in key technology sectors, and strive to steadily increase market share. In terms of debt restructuring, we will continue to help local governments and enterprises prudently resolve debt risks, maintain industrial security, and improve the quality and efficiency of financial services for the real economy.

(II) Equities Business

Market Environment

In 2023, as the global stock market was disturbed by monetary policy adjustments, geopolitical tensions, economic recovery and inflationary pressures, various markets witnessed mixed performances, with significant divergences. The A-share market curbed at a high level after an upsurge, with slight decrease in trading volume as compared with the same period of the previous year.

As of the end of 2023, performance of the A-share market can be illustrated by the following indexes: -3.7% in SSE Composite Index, -13.5% in SZSE Component Index, -11.4% in Shanghai & Shenzhen 300 Index, -7.4% in China Securities

Index 500, -19.4% in ChiNext Price Index, -13.8% in Hang Seng Indexes, -14.0% in Hang Seng China Enterprises Index and -5.3% in Hang Seng Tech Index. In 2023, the average daily turnover of A shares reached RMB874,410 million, representing a year-on-year decrease of 5.5%; the average daily turnover in the Hong Kong stock market was HK\$105,012 million, representing a year-on-year decrease of 15.9%⁵.

Actions and Achievements

In 2023, the Company actively served national strategies, and implemented the overall deployment of the Central Financial Work Conference. The Company gave full play to its own characteristics in the equity business, and provided domestic and foreign institutional investors with “investment research, sales, trading, products, and cross-border” and other one-stop comprehensive financial services for the stock business. We focused on serving important national strategies such as innovation-driven development, technological self-improvement, green development, and inclusive finance. The equities business cooperated with multiple departments of the Company, played the role of a bridge and introduced high-quality investors to the capital market, making due contributions to promoting the reform and opening up of the capital market.

We steadily advanced our business with institutional clients. We have consolidated the advantages of institutional client groups and upgraded our global trading capabilities. We followed the business concept of Client First and continued to diversify our clientele, covering more than 11,000 domestic and overseas institutional investors. In 2023, the number of new client accounts achieved solid growth. The market share of QFII clients has ranked first in the market for 20 consecutive years, and investment research services for a number of QFII and global long-only funds ranked top. The market share of Hong Kong stock trading continued to lead among Chinese securities companies. The Company continued to be in the first echelon in the investment research services for mutual funds clients. We achieved a high coverage of hedge funds, and customer stickiness was improved. We also made progress in the expansion of the bank customers, and remained a leading position in the investment research services for NSSF.

We comprehensively improved our tailor-made products. We actively respond to market changes, continuously introduced product innovation, and strengthened the building of a comprehensive customer service capability system. We continued to improve product and service capabilities throughout the whole life cycle for domestic businesses and maintained our market advantage. We enriched asset allocation options and institutional investment channels.

The Company was approved to officially become a market maker on the Beijing Stock Exchange and the STAR Market of Shanghai Stock Exchange, focusing on the national innovation-driven development strategies. In terms of offshore product business, we continuously enriched the customer structure and product category, as a way to further enhance our international competitiveness, and ranked among the tops of overseas Chinese securities companies in terms of comprehensive strengths.

We continued to improve our international presence. We strengthened our international setup to improve our influence in cross-border business, and provided customers with first-class global capital market services. The share of Stock Connect transactions remained at the forefront of the market. CICC HK Securities was approved as one of the first batch of “HKD-RMB dual counter” market makers to boost the internationalization of RMB. The overseas team cooperated in the implementation of a number of primary and secondary market financing projects to introduce overseas strategic and cornerstone investors for listed companies, and actively attract long-term funds into the market. We focused on expanding customers in emerging markets and countries involved in the Belt and Road Initiative, and helped CICC expand its overseas business and improve the level of comprehensive customer services.

We built and broadened the defense risk management system across the department, and formed a multi-level, all-round and penetrating risk control and compliance system, to proactively respond to various market fluctuations and emergencies. We established and improved a centralized management and control system and carried it out in matrix way so as to resolutely adhere to the bottom line of risk prevention. We accelerated digitization process to enable business development, benchmarked against market best practices, and built a platform-based open ecosystem service system to lead financial innovation with digital and intelligent technologies.

Outlook for 2024

In 2024, the Company will always adhere to the goal of serving national strategies, practice the customer-oriented business concept, and strengthen the all-round customer service capability as a way to strive to build a global equity business platform that provides leading solutions. The Company will deeply cultivate various institutional customer groups, enhance product innovation, enhance two-way cross-border business capabilities, and improve the digital level of investment research and transaction services. The Company will manage and prevent risks in an all-round way, adhere to the pursuit of progress while maintaining stability, promote stability through progress, and actively contribute to the construction of a modern capital market with Chinese characteristics and a financial powerhouse.

(III) FICC

Market Environment

In 2023, the domestic economy experienced its recovery as a whole, but the major overseas economies were still facing inflationary pressure, and the market saw repeated divergence and periodical fluctuations. In the year, the domestic market fluctuated due to the impact of fundamentals and policies, and yields were generally moving in an M-shape. In 2023, according to the data of ChinaBond, the total bond transaction amount in the inter-bank market was RMB202.7 trillion.

Actions and Achievements

In 2023, the Company continued to promote the development of FICC business. We improved the quality and efficiency of traditional businesses, and actively expanded market presence of emerging businesses with focus on customer service. Our bond underwriting and trading volume continued to lead the market. We continued to rank No. 1⁶ in the market in terms of the underwriting amount of USD bonds of PRC-based companies for three consecutive years. We further enhanced the coverage of international customers and trading service capabilities, and established a global sales network covering New York, London, Singapore and Tokyo with Chinese mainland and Hong Kong, China as centers, with cross-border settlement amount continuing to increase.

In order to actively capture opportunities, we enhanced our product innovation and customer services and continued to develop derivatives business. We continued to capture market opportunities from publicly-offered REITs, carbon transaction, green finance, enterprises that use special and sophisticated technologies to produce novel and unique products, and non-equity ETFs. In order to develop the capacity to provide customized services, we enhanced the innovation of domestic and foreign products and launched a number of innovative product lines. We continued to develop the cross-border derivatives business and expand the interest rate, credit and foreign exchange businesses, thereby rallying among leading market makers in terms of key categories of commodities.

In the meantime, we promoted the integration of business and technology, actively explored the innovation of cutting-edge fin-tech, and continuously enhanced risk control capabilities and operation systems constructions.

Outlook for 2024

In 2024, the Company will continue to promote the high quality development of FICC business, enhance comprehensive customer service capabilities, develop a global market-making platform with full time zones, multiple currencies and markets, thus constantly expanding our influence; continue to maintain our dominant position in the traditional FICC business market and expand the scale of the emerging businesses. We will continue to optimize the risk control system and strengthen risk control; further strengthen capabilities in

customized products, continuously promote product innovation, and improve the capacity to serve the real economy, with an aim to build an one-stop customer service platform covering all products. We will improve cross-border business capabilities, support high-level opening-up, and steadily implement the international setup. In the meantime, we will continue to promote the digital transformation, step up the development of digital economy and enhance the systematic ability of global business development to build a first-class FICC fin-tech platform.

(IV) Asset Management

Asset Management

Market Environment

In 2023, the market environments experienced heightened complexity both internally and externally. The fluctuation of capital market intensified, the uncertainty and difficulty of investment increased, new regulatory documents published, and industry competition escalated. Under the new situation of domestic economic transformation and upgrading and deepening financial market reform, opportunities and challenges coexisted in the asset management industry. Asset management institutions continued to build up competence in asset management, sales and services, product mix, and compliance and risk control, served the overall situation of economic and social development, made efforts to create value returns for investors, and constantly promoted high-quality business development.

Actions and Achievements

In 2023, we gave full play to our strengths and made up for our deficiencies. We consolidated the investment and research construction, strengthened the risk control and compliance, and enhanced the personnel management. Guided by the high-quality development of asset management business, we built competitive advantages for differentiated development, and highlighted the business layout with focus on the concept of “finance serving real economy”. We persisted in investing in the investment and research capacity building to consolidate the long-term foundation for business development. Committed to the diversification of customer base, we broadened our layout of retail and corporate customer base, deeply served the needs of strategic customers such as social security and annuities, and continued to strengthen the coverage of international customers. We continuously improved digital capabilities, focused on investment and research integration and operation management, and deepened platform capacity building and business process integration. We continuously made efforts to enhance our risk management capacity, improved the risk management mechanism and the risk management system so as to hold the bottom line and operate in a compliant way.

As of December 31, 2023, the AUM of the Asset Management Department of the Company was RMB552,571 million. By product line, the AUM of collective asset management products and segregated asset management products (including NSSF, corporate annuities, occupational annuities and pensions) were RMB138,842 million and RMB413,729 million, respectively. We had altogether 758 products under management.

Outlook for 2024

In 2024, the Company will actively study and implement the guiding principles of the 20th CPC National Congress and the spirit of the Central Financial Work Conference, adhere to high-quality development, and strictly abide by the bottom line of risk compliance to contribute to the Company’s building of a world-class investment bank. We will enhance the quality and efficiency, strive to improve comprehensive competitiveness, and make great efforts to further consolidate the current market position. The Company will deepen the construction of the core investment and research system, strengthen the talent reserve and echelon building, improve the layout of product lines, and firmly adhere to the bottom line of no major risks.

CICC Fund Management

Market Environment

In 2023, the A-share market was weak and volatile, most major stock indices closed down, and the new issuance of mutual funds continued to be sluggish, hitting a five-year low. However, driven by the growth of the money market funds and bond funds, the scale of mutual fund industry increased to RMB27.60⁷ trillion, representing an increase of approximately 6.0% over the end of the previous year. The scale of the mutual funds surpassed that of bank financial products for the first time to become the largest asset management category. Meanwhile, the reform of mutual fund rates has been finalized, and the high-quality development of the industry has steadily advanced.

Actions and Achievements

In 2023, CICC Fund Management closely followed the requirements of high-quality development, focused on mutual fund businesses, diversified product mix, strengthened team and competence building, and improved management and digital empowerment. CICC Fund Management also strictly observed requirements of compliance and risk control to maintain steady business growth. CICC Fund Management issued 6 traditional mutual funds, including CICC CSI 1000 Index Enhanced Initiating Fund (中金中證1000指數增強型發起式證券投資基金), CICC Advanced Manufacturing Hybrid Fund (中金先進製造混合型證券投資基金), and CICC Selected Changxing Robust 6-month Holding

Period Hybrid Initiating Fund of Funds (FoF), and the product line was more abundant and complete. CICC Fund Management completed the first follow-on offering of CICC GLP REIT and the issuance of CICC Hubei Science Technology Investment Optics Industry Park REIT (中金湖北科投光谷REIT) and CICC Shandong Expressway REIT (中金山東高速REIT), and the management scale of C-REITs remained the first in the industry. Meanwhile, as CICC Fund Management continued to strengthen the core competence building of investment and research, many funds' performances ranked in the forefront of its class, and the medium-long period performance continued to accumulate. Our sales competence was continuously improved. The exploration of the online transformation of traditional channels achieved remarkable results, and the number of customers served grew continuously. In addition, following Client First, CICC Fund Management finished the reduction of fund management fees and custodian fees, and actively carried out a variety of online and offline investor education activities to help investors establish scientific investment concepts. In 2023, the overall business of CICC Fund Management was running smoothly, with no major violations of laws and regulations and major potential compliance risks.

As of December 31, 2023, the AUM of CICC Fund Management increased by RMB27,420 million compared with the end of 2022 to RMB138,477 million. The AUM of mutual funds increased to RMB127,204 million, representing an increase of 25.98% compared with the end of 2022.

Outlook for 2024

In 2024, CICC Fund Management will keep practicing high-quality development and promote steady business growth. It will continue to focus on investment and research team and competence building, enhance investment and research competence, and accumulate product performance. CICC Fund Management will enhance product management, make efforts in fund issuance and continuous marketing, diversify product mix, and enhance product vitality; strengthen marketing competence building, promote the construction of high-quality comprehensive marketing system covering retail channels, institutional investors and e-commerce platforms; improve the comprehensive service ability for customers, strengthen customer companionship, improve customer investment experience, continue to carry out investor education activities, and help investors develop scientific investment concepts. CICC Fund Management will continue to do a good job in the issuance and follow-on offering of REITs, improve the operation and management, and strive to establish a benchmark for industry operation competence. In 2024, CICC Fund Management will continue to strengthen comprehensive competence building, actively explore industry innovation, empower business development through digitalization, strengthen compliance and risk control management, and safeguard the bottom line of no major risks.

(V) Private Equity Investment

Market Environment

In 2023, the landscape of private equity market was still changing, with the profound transformations in fundraising and investment environment. On fundraising side, the complexities, severities and uncertainties of international finance were surging, and domestic economic recovery still faced some challenges, therefore fundraising activities encountered obstacle. Given the rebound of fundings from government guidance funds and corporate investors, the fundraising activities are expected to recover later.

Meanwhile, affected by the macro environment, fund managers remained cautious in making investment decisions. Furthermore, the highlights of China's private equity market last year were in technology innovation sectors, such as semiconductor, new energy and new material.

The exit of China's private equity investment market slowed down gradually, due to multiple factors such as the deceleration of domestic IPO, the volatility of the equity market and obstacles to overseas listings. The private equity fund managers are actively exploring diversified exit channels, such as M&As and secondary transactions, to help funds realize efficient and orderly exit.

Actions and Achievements

As of December 31, 2023, the Company's private equity business reached RMB401.8 billion. In 2023, CICC won the bid for a number of provincial, municipal and district-level government guidance funds, and completed the fundraising of many direct investment funds, focusing on digital economy, green development and regional development. We continued to improve our investment capabilities, pursue better performance, enhance our knowledge in diverse sectors such as digital economy, advanced manufacturing, new energy, new materials, and healthcare, so as to promote scientific and technological innovation and industrial upgrading. CICC Capital Management Department actively empowered investors and invested companies, and provided various support such as finance, business, and human resources. A number of invested companies have gone public last year.

Outlook for 2024

CICC Capital Management Department will adhere to the original spirit of finance serving the country, serve the real economy with the highest standards, and focus on technology finance, green finance, inclusive finance, pension finance and digital finance. We will fully utilize the advantages of corporate equity investment funds and FoFs, and strengthen cooperation with local governments and industrial groups to further consolidate our industry leadership. Through research-driven investment, we will continuously strengthen investment and empowerment capabilities. We will strengthen collaboration with investment bank and other business lines to improve cross-departmental cooperation. We will improve risk management and corporate governance system, and continuously enhance our competitive advantage.

Actions and Achievements

Financial product AUM grew for four consecutive years, and inclusive financial products and services continuously upgraded.

Financial product AUM of the wealth management business was approximately RMB350.0 billion, with positive growth for four consecutive years. The advisory-based system composed of products and services such as China 50 (中國50), Mini 50 (微50), Mutual Fund 50 (公募50), Stock 50 (股票50), and ETF50 was continuously improved. The wealth planning account system was innovated and released, which was based on customer needs, to deepen goal-oriented advisory-based services. Through innovative personal trading services such as “Stock 50”, “ETF 50” and “Stock T0 (股票T0)”, more than 200,000 customers were covered and customer assets of more than RMB240.0 billion were signed.

With focus on customer service, we enhanced the breadth and depth of customer companionship.

In the volatile market environment, the total number of CICC wealth management customers was 6,803,800, an increase of 17.0% over the previous year, and the total asset value of customer accounts was RMB2.88 trillion, an increase of 4.3% over the previous year. We actively responded to the call of “activating the capital market and enhancing investor confidence”, and accompanied customers professionally to spread our brand, and enhance the sense of gain of customers. The investment education was awarded the A grade in the 2023 investor education evaluation announced by the Securities Association of China. We created an “online + offline” content matrix, and launched offline events of nine major brands, including China 50 China Tour (中國50中國行) and

Fortune Wanjiaxing (財富萬家行). We carried out more than 3,400 activities, and eight live broadcast programs including *China 50-Cloud Chatting Room* (《中國50中國行雲會客廳》), *Desired Investment* (《嚮往的投資》), and *Fund Planning* (《基金有規劃》), attracting more than 12 million views.

We continued to deepen digital transformation, and focused on digital intelligence to create value. Our fintech capabilities were at the forefront of the industry.

In 2023, digital intelligence drove value realization, with the online AUM being nearly RMB10 billion, a fourfold increase from the end of last year. The App was upgraded from functional to operational, empowering business development. The RITAS advisory-based digital platform continued to practice the concept of customer-centered wealth management allocation. E-Space, a platform for investment consultants, improved the four-stage customer experience to further empower investment consultants doing business and help them grow. The data management capability was certified by the China Academy of Information and Communications Technology as Level 3 (Robust Level). We embraced the wave of AIGC technology and explored AIGC-enabled wealth management scenarios.

Outlook for 2024

Looking forward to 2024, we will thoroughly implement the guiding principles of the Central Financial Work Conference, serve the national strategies, and pursue high-quality development. We will continue to scale up, improve quality and efficiency, refine

operations, and proceed digital intelligence transformation so as to achieve greater life and social value together with customers. In terms of customer experience, we will continue to build an industry-leading “omni-channel, multi-scenario” customer acquisition model, embrace the trend of public offering, indexation and globalization, and develop inclusive finance to improve customers’ long-term investment experience. At the product and solution level, while maintaining the strategic focus on advisory-based concept, we will extend the advisory-based concept to a single product and allocate assets properly. We will enhance the basic trading capabilities and develop the “retail transaction service system that creates value for customers”. In terms of capacity building for investment consultants, we will strengthen the refined empowerment for investment consultants to achieve steady growth in the size of the investment consultants team and increase production capacity. In terms of technology and digitalization, we will put efforts in digital finance and continue to promote the transformation of “digital intelligence”.

(VII) Research

Our research team covers global markets and serves clients both at home and abroad through our offices and platforms across the world. The scope of our research products and investment analysis spans not just macro economy and market strategy, but also fixed income, financial engineering, asset allocation, equities, commodities, and foreign exchange. As of December 31, 2023, our research team consisted of nearly 400 highly experienced professionals, and covered more than 40 sectors, and around

1,800 companies listed on stock exchanges in Chinese mainland, Hong Kong SAR, New York, Singapore, Frankfurt, London, and Paris.

CICC Research has won recognition from domestic and international investors for its independent, unbiased, and insightful research products. ⁹ Operating leverage ratio = (total assets – accounts payable to brokerage clients and to underwriting clients)/total equity attributable to shareholders of the parent company

long-term debt securities issued amounted to RMB106,937.0 million, accounting for 20.6% of the total liabilities; other liabilities amounted to RMB111,142.5 million, accounting for 21.5% of the total liabilities.

(III) Cash Flows

In 2023, excluding the impacts of changes in cash held on behalf of clients, a net decrease in cash and cash equivalents of the Group amounted to RMB14,051.8 million. The changes from a net increase in cash and cash equivalents of RMB19,396.1 million in 2022 are mainly generated from the following daily activities:

- net cash used in operating activities amounted to RMB2,422.3 million in 2023, representing a change from the net cash generated of RMB57,960.9 million in 2022. The change was mainly attributable to a shrinkage in the net cash inflow from investments in financial instruments at fair value through profit or loss as compared with that in 2022; meanwhile, a turn from the net cash inflow from an expansion in scale of placements from financial institutions in 2022 to the net cash outflows from a reduction in scale in 2023, a turn from the net cash inflow from a decline in scale of receivable from margin clients in 2022 to the net cash outflows from an expansion of scale in 2023, and a larger reduction in accounts payable to brokerage clients as compared with that in 2022 led to an increase in the net cash outflows. The above increase in net cash outflow was partially offset by a decrease in net cash outflow associated with trade payables for derivative transactions;
- net cash generated from investing activities amounted to RMB2,081.9 million in 2023, representing a change from the net cash used of RMB23,437.5 million in 2022. The change was mainly attributable to a reduction of the cash outflow associated with purchase of investments and an increase in cash receipts from disposal of investments;
- net cash used in financing activities amounted to RMB13,711.5 million in 2023, representing a decrease of RMB1,415.9 million or 9.4% as compared with the net cash used of RMB15,127.4 million in 2022. The decrease was mainly attributable to a decrease in redemption of debt securities issued, which was partially offset by a decrease in proceeds from issuing debt securities.

(IV) Financing Channels and Capability

Our Group constantly broadens and diversifies its funding channels to optimize the liability structure. The funding instruments of our Group include corporate bonds, medium-term note program, bank loans, commercial papers, beneficiary certificates, transfer of right to income, inter-bank borrowing, REPOs, etc.

In addition, our Group may finance through follow-on offerings, rights issues and other ways according to market conditions and business needs.

Net fee and commission income	12,088.4	15,943.0	(3,854.7)	(24.2%)

The charts below set forth the composition of the Group's fee and commission income:

The structure of the Group's fee and commission income is presented as follows:

Items	2023	2022	Change
Brokerage commission income	41.1%	37.2%	Increased by 3.9 percentage points
Investment banking income	28.6%	40.7%	Decreased by 12.0 percentage points
Asset management fees	23.6%	17.7%	Increased by 5.9 percentage points
Investment advisory fees	5.0%	3.3%	Increased by 1.6 percentage points
Others	1.7%	1.1%	Increased by 0.6 percentage point
Total	100.0%	100.0%	

Brokerage commission income amounted to RMB5,685.4 million, representing a year-on-year decrease of RMB1,039.2 million or 15.5%, mainly due to the fact that in 2023, as the global stock market was disturbed by monetary policy adjustments, geopolitical tensions, economic recovery and inflationary pressures, various markets witnessed mixed performances, with significant divergences. The A-share market curbed at a high level after an upsurge, with slight decrease in trading volume as compared with that in 2022. The average daily turnover of A shares reached RMB874,410 million, representing a year-on-year decrease of 5.5%; the average daily turnover of H shares was HK\$105,012 million, representing a year-on-year decrease of 15.9%.

Investment banking income amounted to RMB3,959.2 million, representing a year-on-year decrease of RMB3,388.2 million or 46.1%. Investment banking income included underwriting and sponsoring fees from equity financing and from debt and structured financing and financial advisory fees. The underwriting and sponsoring fees amounted to RMB3,212.7 million, representing a year-on-year decrease of RMB3,189.1 million or 49.8%; of which, underwriting and sponsoring fees from equity financing decreased by RMB2,955.0 million or 58.2%, mainly due to a decrease in revenue associated with equity financing transactions such as IPO on the STAR Market and on the ChiNext Board as well as on the Hong Kong Stock Exchange; underwriting and sponsoring fees from debt and structured financing decreased by RMB234.1 million, or 17.7%, mainly due to a decrease in revenue related to debt and structured financing transactions such as financial bonds, corporate bonds and convertible bonds. Financial advisory fees amounted to RMB746.5 million, representing a year-on-year decrease of RMB199.1 million or 21.1%, mainly due to a decline in fees from financial advisory services for debt restructuring, acquisition of listed companies, M&A and fixed-income products.

Asset management fees amounted to RMB3,267.0 million, representing a year-on-year increase of RMB66.4 million or 2.1%. Asset management fees consisted of fees from asset management business, mutual fund business and private equity investment fund business. In addition to asset management fees, a portion of the Group's share of profits of associates and joint ventures was generated from the AUM of the fund management companies jointly-invested by the Group.

Investment advisory fees amounted to RMB685.4 million, representing a year-on-year increase of RMB85.5 million or 14.2%, mainly due to a rise in demand for investment advisory services for trusts in 2023, resulting in the corresponding increase in investment advisory fees.

Fee and commission expenses amounted to RMB1,741.9 million, representing a year-on-year decrease of RMB378.4 million or 17.8%, mainly due to a decrease of brokerage commission expenses resulting from the downward trend of capital markets.

Interest Income and Expenses

In 2023, the Group incurred net interest expenses of RMB1,334.8 million, among which interest income amounted to RMB9,405.4 million, representing a year-on-year increase of 15.4%, and interest expenses amounted to RMB10,740.1 million, representing a year-on-year increase of 17.0%. A breakdown of the Group's interest income and expenses is presented as follows:

Unit: RMB in million

Items	2023	2022	Change	% of change
Interest income				
Interest income from financial institutions	3,419.9	2,845.5	574.4	20.2%

Net interest expenses	(1,334.8)	(1,023.2)	(311.6)	30.5%

Interest income from financial institutions amounted to RMB3,419.9 million, representing a year-on-year increase of RMB574.4 million or 20.2%, mainly due to an increase in deposit interest rate overseas.

Interest income from margin financing and securities lending amounted to RMB2,743.7 million, representing a year-on-year increase of RMB71.2 million or 2.7%.

Interest income from reverse REPOs amounted to RMB773.1 million, representing a year-on-year decrease of RMB112.2 million or 12.7%, mainly due to a shrinkage in average scale of the Group's stock-based lending business compared with that in 2022, resulting in a corresponding decrease in interest income.

Interest income from financial assets at fair value through other comprehensive income amounted to RMB1,700.8 million, representing a year-on-year increase of RMB268.5 million or 18.7%, mainly due to an expansion in average scale of the Group's position in debt securities at fair value through other comprehensive income in the domestic markets.

Interest expenses amounted to RMB10,740.1 million, representing a year-on-year increase of RMB1,563.6 million or 17.0%, mainly due to a climb in interest expenses arising from REPOs, placements from financial institutions and other external financing.

Investment income

In 2023, the Group realized an investment income of RMB10,555.9 million, representing a year-on-year decrease of RMB52.0 million or 0.5%. A breakdown of the Group's investment income is presented as follows:

Unit: RMB in million

Items	2023	2022	Change	% of change
Investment income				
Net losses from disposal of financial assets at fair value through other comprehensive income	(132.3)	(117.3)	(15.1)	12.9%
Net gains from financial instruments at fair value through profit or loss and from derivative financial instruments	10,688.2	10,722.5	(34.3)	(0.3%)
– Equity investments	6,601.0	5,583.4	1,017.6	18.2%
– Debt investments	3,762.3	3,175.4	586.9	18.5%
– Other investments	325.0	1,963.8	(1,638.8)	(83.5%)
Others	0.0	2.6	(2.6)	(99.9%)
Total	10,555.9	10,607.9	(52.0)	(0.5%)

Net losses from disposal of financial assets at fair value through other comprehensive income amounted to RMB132.3 million, representing a year-on-year increase of RMB15.1 million or 12.9%, mainly due to an enlarged scale of the Group's disposition of overseas debt securities at fair value through other comprehensive income, resulting in the corresponding increase in the net losses associated with the disposals.

Net gains from financial instruments at fair value through profit or loss and from derivative financial instruments totalled RMB10,688.2 million, representing a year-on-year decrease of RMB34.3 million or 0.3%, and were from the following categories of investments:

- Net gains from equity investments increased by RMB1,017.6 million or 18.2% year on year, mainly due to the change from a net loss associated with securities held by the Group under the following-investment mechanism on STAR Market in 2022 to a net gain in 2023; meanwhile, the net investment income related to the OTC derivatives business increased amid the stock market subject to fluctuations in 2023;
- Net gains from debt investments increased by RMB586.9 million or 18.5% year on year, mainly due to a growth in net gains from investments in securitized products and bonds;
- Net gains from other investments were mainly gains or losses arising from investments in funds and decreased by RMB1,638.8 million or 83.5% year on year, mainly due to a decline in scale of the Group's investments in private funds and a drop in valuation of public REITs funds amid an unfavorable market, resulting in a corresponding decrease in net gains from fund investments.

For detailed information of the Group's financial instruments at fair value through profit or loss and of derivative financial instruments, please refer to "(VI) Analysis of Items in Statement of Financial Position – 1. Operating Expenses

In 2023, the Group's operating expenses (excluding fee and commission expenses and interest expenses, the same below) amounted to RMB16,175.7 million, representing a year-on-year decrease of RMB866.2 million or 5.1%. A breakdown of the Group's operating expenses is presented as follows:

Unit: RMB in million

Items	2023	2022	Change	% of change
Operating expenses				
Staff costs	10,685.5	11,927.2	(1,241.8)	(10.4%)
Depreciation and amortization expenses	1,771.7	1,645.1	126.6	7.7%
Tax and surcharges	87.2	122.7	(35.5)	(28.9%)
Other operating expenses and costs	3,626.4	3,367.8	258.5	7.7%
Provision for/(Reversal of) impairment losses under expected credit loss model	5.0	(20.9)	26.0	N/A
Total	16,175.7	17,042.0	(866.2)	(5.1%)

Staff costs amounted to RMB10,685.5 million, representing a year-on-year decrease of RMB1,241.8 million or 10.4%, primarily attributable to the decline in the Group's operating performance compared with that in 2022 under the unfavorable market conditions in 2023 and the corresponding decrease in staff costs.

Depreciation and amortization expenses amounted to RMB1,771.7 million, representing a year-on-year increase of RMB126.6 million or 7.7%.

Tax and surcharges amounted to RMB87.2 million, representing a year-on-year decrease of RMB35.5 million or 28.9%, mainly due to a decrease in the Group's taxable revenue in connection with value-added tax, resulting in a decline in value-added tax and related urban construction and maintenance tax, educational surtax and local educational surtax.

Other operating expenses and costs amounted to RMB3,626.4 million, representing a year-on-year increase of RMB258.5 million or 7.7%.

Provision for impairment losses under expected credit loss model amounted to RMB5.0 million, the variation from the reversal of impairment losses in 2022 primarily attributable to a decrease in a reversal of impairment losses for account receivable and reverse REPOs compared with those of last year and a variation in the impairment losses for receivable from margin clients from a reversal in 2022 to a provision in 2023, which were partially dampened by a change to a reversal for impairment losses for financial assets at fair value through other comprehensive income from a provision of impairment losses in 2022.

2. Segment Results

The Group has six principal business segments: Investment Banking, Equities, FICC, Asset Management, Private Equity and Wealth Management. The segment Others mainly comprises of other business departments, and middle and back offices.

Total	284,681.3	269,397.0	15,284.3	5.7%

The Group's financial assets at fair value through profit or loss increased by RMB15,284.3 million or 5.7% year on year and mainly consisted of the following categories:

- RMB19,650.3 million in financial assets of consolidated structured entities in which the Group held interests, accounting for 6.9% of the total financial assets at fair value through profit or loss. The financial assets of these consolidated structured entities included RMB3,296.6 million of equity investments, primarily listed stocks; RMB11,728.0 million of debt investments, most of which were debt securities above investment grade; and RMB4,625.7 million of funds and other investments, mainly private funds, equity mutual funds and money market funds;
- RMB122,436.5 million of investments in hedge equity position held for OTC derivative transactions by the Group, consisting of underlying assets under the OTC derivatives trading agreements into which the Group had entered with its clients, accounting for 43.0% of the total financial assets at fair value through profit or loss. These underlying assets were held to hedge the market risks associated with OTC derivative trading whereby the volatility in fair value of the underlying assets was mainly assumed by the clients and had no material impact on the Group's profit or loss;
- RMB14,371.4 million of equity investments held directly by the Group, accounting for 5.0% of the total financial assets at fair value through profit or loss, most of which were investments in the private equity investment funds and in the stocks listed on the STAR Market;
- RMB78,415.6 million of debt investments held directly by the Group, accounting for 27.5% of the total financial assets at fair value through profit or loss, most of which were debt securities above investment grade and securitized products;
- RMB49,807.5 million in funds and other investments held directly by the Group, accounting for 17.5% of the total financial assets at fair value through profit or loss, most of which were money market funds and mutual funds with high liquidity and low risks.

Derivative Financial Assets

As of December 31, 2023, the Group's derivative financial assets amounted to RMB12,005.4 million, representing a year-on-year decrease of RMB5,786.0 million or 32.5% and accounting for 1.9% of the Group's total assets. The decrease was mainly attributable to a decrease in derivative financial assets under equity contracts as a result of fluctuations in valuation of the Group's OTC derivatives under the effect of changes in stock market prices; meanwhile, the derivative financial assets under currency contracts decreased as a result of a decrease in scale of the Group's relevant derivative transactions and changes in valuation under the effect of exchange rate fluctuations. A breakdown of the Group's derivative financial assets is presented as follows:

Unit: RMB in million

Items	December 31, 2023	December 31, 2022	Change	% of change
Interest rate contracts	1,659.9	966.8	693.1	71.7%

RECEIVABLE FROM MARGIN CLIENTS AND REVERSE REPOS

As of December 31, 2023, the Group's receivable from margin clients and reverse REPOs totaled RMB55,731.0 million, representing a year-on-year decrease of RMB3,031.0 million or 5.2% and accounting for 8.9% of the Group's total assets, mainly due to a decrease in reverse REPOs resulting from a shrinkage in scale of bond-pledged repurchase business and bond outright repurchase business. The decrease was partially offset by an increase in scale of margin business as a result of a rise in financing demands of domestic clients.

PROPERTY AND EQUIPMENT AND INTANGIBLE ASSETS

As of December 31, 2023, the Group's property and equipment and intangible assets totaled RMB3,203.9 million, representing a year-on-year increase of RMB839.6 million or 35.5% and accounting for 0.5% of the Group's total assets, mainly due to an increase in expenditures on office equipment, software and leasehold improvements, as well as investment in construction in progress. A breakdown of the Group's property and equipment and intangible assets is presented as follows:

Unit: RMB in million

Items	December 31, 2023	December 31, 2022	Change	% of change

VI. COMPLIANCE OF THE COMPANY'S ACCOUNTS

(I) Compliance of Accounts of CICC Wealth Management

The Company's wealth management business is mainly conducted through CICC Wealth Management. Since the CSRC has comprehensively carried out the account regulation work on securities companies, CICC Wealth Management has fully implemented the account regulation in strict accordance with the regulations and requirements under the CSRC.

1. Rectification over unqualified account

The All-in-one Counter System of the Company solves the problem that the rectification over unqualified accounts are confined to the level of manual control by integrating second-generation ID card readers, real-time automatic verification with CSDC, and activation and verification management of unqualified and dormant accounts, which technically solidified the long-term mechanism of account rectification work. In 2023, the Company has no new unqualified accounts, no unqualified accounts activated by mistake, and unqualified accounts sending entrustments to exchanges. As of December 31, 2023, the Company has 3,700 unqualified securities accounts remaining.

2. Standardized management on judicially frozen accounts

The Company freezes and unfreezes customer accounts in strict accordance with the requirements of the judiciary and other competent state authorities. For the unqualified accounts frozen by the judicial system, the Company has performed separate storage in the counter system. If the unqualified accounts frozen by the judicial system remained unrectified after the judicial freeze is removed, the Company will report to CSDC the suspension of transactions and the separate storage of remaining unqualified securities accounts, whilst submitting a report to the Shenzhen Securities Regulatory Bureau within fifteen days after the judicial freeze is removed. As of December 31, 2023, there are 318 judicially frozen securities accounts separately stored in the Counter System of the Company.

3. Standardized management of risk disposal accounts

According to the risk disposal arrangement for the former China Southern Securities Co., Ltd. (hereinafter referred to as "China Southern Securities"), the Company continued to receive some retained accounts of China Southern Securities in 2020. An independent branch has been established in the OTC system for separate storage and cessation of transactions according

to relevant regulations, and separate reservation and trading restrictions will be lifted subject to the completion of standardized procedures of the accounts, and third-party escrow has been implemented.

4. Standardized management of pure capital accounts

In 2023, the Company continued to implement separate reservation management for pure capital accounts in strict compliance with the relevant regulations and complete the activation procedures for customers in accordance with the prescribed processes.

(II) Compliance of Accounts of the CICC's Business Office

Apart from CICC Wealth Management, CICC had one securities business office as at the end of the Reporting Period, Beijing Jianguomenwai Avenue Securities Business Office of CICC (hereinafter referred to as the "Jianguomen Business Office").

In 2023, Jianguomen Business Office continued to strictly implement the real name system for securities accounts when handling securities account business. The securities account business of Jianguomen Business Office was handled by the counter of the branches, and each counter of the branch had set up handling position and review position to audit the application materials for various account business in strict compliance with the relevant regulations of CSDC and verify identity information in accordance with the requirements of CSDC. As of December 31, 2023, Jianguomen Business Office had no remaining and opening of any ineligible account.

In 2023, the Jianguomen Business Office continued to implement restrictive management for pure capital accounts in strict accordance with relevant regulations and to freeze and unfreeze customer accounts in strict accordance with the requirements of the judiciary and other competent state authorities. As of December 31, 2023, the Jianguomen Business Office had 0 judicially frozen accounts held in storage of the OTC system, which did not involve the risky disposal accounts.

VII. RISK MANAGEMENT

(I) Overview

Our Company has always believed that risk management creates value. The risk management of our Company aims to effectively allocate risk-based capital, limit risks to a controllable level, maximize the corporate value and constantly solidify the foundation for the steady and sustainable development of our Company. Our Company has sound corporate governance, effective risk management measures and a strict internal control system.

Pursuant to the relevant laws and regulations and regulatory requirements, our Company has established a sound governance structure. The Shareholders' General Meeting, the Board of Directors and the Supervisory Committee of our Company perform duties in accordance with the *Company Law*, the *Securities Law*, the *Guidance for the Internal Control of Securities Companies* (《證券公司內部控制指引》), the *Norms for the Comprehensive Risk Management of Securities Companies* (《證券公司全面風險管理規範》) and the *Articles of Association* and supervise and manage the business operations of our Company. Through enhancing and improving the internal control structure, compliance and risk management culture, the Board of Directors has made internal control and risk management an essential aspect of the business operation management of our Company.

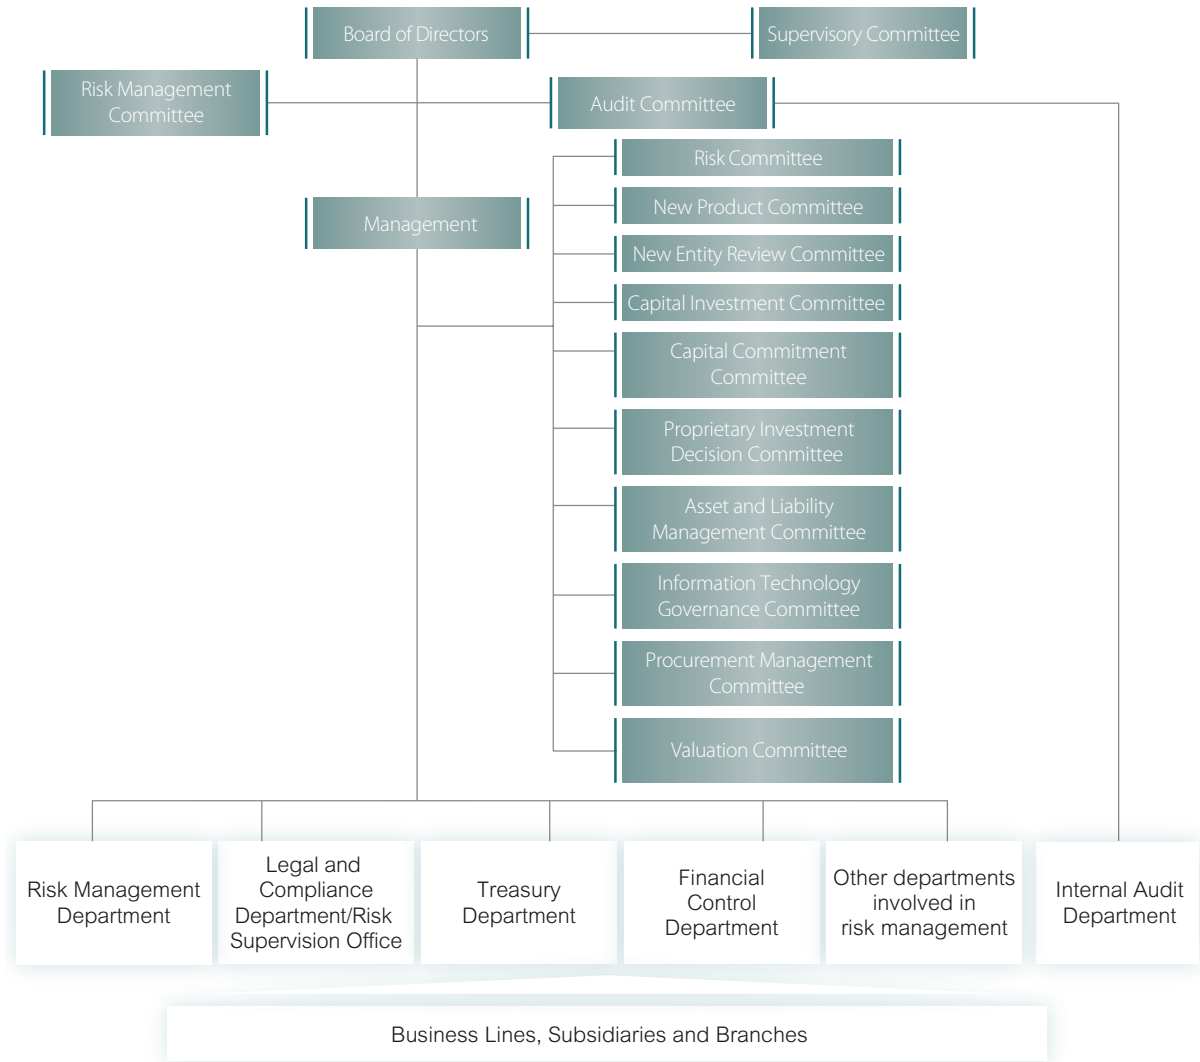

(II) Risk Management Framework

The Company has established a multi-level risk management organizational structure which comprises the Board of Directors, the Supervisory Committee, senior management, departments performing risk management functions, business departments and branches, of which, 1) the Board of Directors is the top level of our Company's risk management and

internal control governance structure and is responsible for facilitating the enforcement of the firm-wide risk management culture and reviewing and approving the overall risk management goals, risk appetite, risk tolerance, important risk limits and the risk management policy of our Company. The Board of Directors performs its risk management duties primarily through the Risk Management Committee and the Audit Committee; 2) the Supervisory Committee assumes the supervision duty on the effectiveness of the overall risk management of our Company, and supervises and inspects the fulfillment of the risk management duties performed by the Board of Directors and the management, and reviews the rectification of risk management deficiencies and findings; 3) under the Board of Directors, our Company has established the Management Committee chaired by the Chairman or the President. There are New Product Committee, New Entity Review Committee, Capital Investment Committee,

Capital Commitment Committee, Proprietary Investment Decision Committee, Asset and Liability Management Committee, Information Technology Governance Committee, Procurement Management Committee and Valuation Committee under the Management Committee, which perform their duties in respect of new business/new product approval, branch set-up and approval, approval of capital contribution from owned funds, risk control of issuance and underwriting in investment banking business, management of investment decision-making process of proprietary business, management of assets and liabilities of the Company, management of information technology, procurement management, valuation management of financial instruments and etc.; 5) departments performing risk management functions, including departments such as Risk Management Department, Legal and Compliance Department, Treasury Department, Financial Control Department, Operations Department, Information Technology Department and Public Relations Department, coordinate to manage various risks based on their respective perspectives; and 6) heads of business departments and branches take the primary responsibility for the effectiveness of risk management. During our daily business operations, all staff involved in business operations in our business departments and branches are required to perform risk management functions.

The organizational structure of our Company's risk management is shown in the following chart:

(III) Risk to Our Company's Business Activities and Management Measures

Risks related to business activities of our Company mainly include market risk, credit risk, liquidity risk, operational risk, IT risk, compliance risk, legal risk, money laundering risk and reputational risk, etc. During the Reporting Period, the aforementioned risk factors did not have any significant impact on the current or future operating results of the Company. Our Company proactively responded to and managed risks through effective risk management measures, which generally prevented the occurrence of significant risk events and ensured the stable development of the business operation of our Company.

In 2023, the global economy was dismal, the international landscape was complex and evolving, geopolitical conflicts were frequent, and the external environment was becoming more complex, severe and uncertain. Under the leadership of the Party Central Committee, China adhered to the general principle of seeking progress while ensuring stability, implemented the new development philosophy in a complete, accurate and comprehensive manner, accelerated the establishment of a new development pattern, comprehensively deepened reform and opening up, stepped up macroeconomic-control, and worked to expand domestic demand, optimize the structure, boost confidence, and prevent and defuse risks. The national economy picked up and made solid progress in high-quality development. However, it still faces difficulties and challenges such as insufficient domestic effective demand, excess capacity in some

industries, weak social expectations and many hidden risks. Confronted with severe and complex market environment challenges, the Company persisted in implementing the risk management and control requirements of "full coverage, looking through, and full cycle", and continuously strengthened the integrated vertical risk management system covering its subsidiaries and branches. Through joint efforts on risk management control of three lines of defense, the Company actively identified, prudently evaluated, dynamically monitored, timely reported and proactively coped with risks. The Company deeply publicized the risk management culture, continuously enhanced risk management capabilities, coordinated its business plans, considered its risk appetite, reviewed and improved the multi-dimensional and multi-level risk management system, optimized the management mechanism and processes prospectively, and continuously promoted the optimization and sustainable development of its business models. During the Reporting Period, the business operation of the Company was stable without material risk events and large losses, and the overall risks were controllable and tolerable.

During the Reporting Period, the Company continued to enhance risk management of the same business and the same client. The Company formulated identification standards for the same business to implement relatively consistent risk management standards and measures for the same business and to identify, assess, measure, monitor and aggregate risks of the same business within the Company in a unified manner. The Company also

formulated identification standards for the same client to enhance standardized and regulated management of information of the same client and to aggregate and monitor the business transactions in various business lines of the Company with the same client, which will be implemented throughout all key links of business. At the same time, the Company managed relevant risks of clients identified as related parties in a unified manner.

Market Risk

Market risk refers to risks of changes in the fair value of financial assets held by our Company resulting from the fluctuations in equity prices, interest rates, exchange rates and commodity prices, etc.

Our Company has adopted the following measures to manage market risk:

- Business departments of our Company, as the first line of defense, dynamically manage market risk of exposures by way of diversifying risk exposures, controlling the size of positions and utilizing hedging instruments;
- The Risk Management Department of our Company independently assesses, monitors and manages the overall market risk of our Company. The market risk management mainly includes risk measurement, limit formulation and risk monitoring, etc.:
- Our Company measures market risk mainly by means of Value at Risk (VaR) analysis, stress tests and sensitivity analysis, etc. VaR is a major tool for our Company to measure and monitor market risk. VaR measures the potential maximum loss to an asset portfolio by changes in market risk factors at a certain confidence level within a certain holding period. Our Company computes the single day VaR at a confidence level of 95% by adopting a historical simulation method based on three years of historical data and examines the effectiveness of the model through the method of back testing on a regular basis. Meanwhile, our Company adopts stress test to complement the VaR analysis and measures whether the investment loss of our Company is within the scope of the risk tolerance when market risk factors such as equity prices, interest rates, exchange rates and commodity prices undergo extreme changes. In addition, in respect of sensitivity factors of different assets, our Company measures the impact of changes in specific factors on the value of assets by calculating the corresponding sensitivity indicators.
- Our Company has formulated a risk limit indicator framework. Risk limit is a means for controlling risks and also represents the risk appetite and risk tolerance of our Company. Our Company sets appropriate market risk limits based on the business nature, such as notional limit, VaR limit, concentration limit, sensitivity limit, stress test limit and stop-loss limit, etc.

- Our Company monitors risk limit usage in real time or on a daily basis. The Risk Management Department prepares daily risk reports to monitor the usage of limits and submits them to the management and business departments. When the limit usage triggers the warning line, the Risk Management Department will issue a warning notice to business departments. Once the risk indicators exceed the limits, business departments shall report reasons of the breach and measures to be taken to the Chief Risk Officer or his/her authorized person and shall be responsible for reducing the risk exposure to a level within the limits in a given time frame. If this cannot be achieved, they are required to apply to the Chief Risk Officer or his/her authorized person for a temporary increase in limit. If necessary, the Chief Risk Officer will submit a request to the management.

Value at Risk (VaR)

Our Company sets the total VaR limit of our investment portfolio and VaR limits for different business lines. The Risk Management Department computes and monitors VaRs of these financial instruments on a daily basis to ensure the daily VaRs are maintained within limits. The following table sets forth the computed VaRs and diversification effect of the Company by risk categories (equity prices, interest rates, currency rates and commodity prices) as of the dates and for the periods as indicated: 1) the daily VaRs as of the end of the respective period; 2) the averages of daily VaRs during the respective period; and 3) the highest and lowest daily VaRs during the respective period.

The chart below sets forth the VaRs by risk categories of the Company as of the end of each month over the past year:

Monthly VaR Chart

The Company has set price-sensitive exposure limits for price-related businesses, which are measured and monitored on a daily basis. During the Reporting Period, the equity market showed a volatile trend, and the Company managed price market risks through adjusting positions, applying derivatives for hedging and controlling the concentration.

The Company closely followed the changes in interest rates and credit spreads in domestic and overseas markets, measuring risk exposures and monitoring risk limit utilizations on a daily basis. The Company hedged the interest rate risk for the fixed-income portfolio by using treasury bond futures, interest rate swaps, etc.

The Company conducted foreign exchange risk management for domestic and overseas assets, measuring risk exposures and monitoring risk limit utilizations on a daily basis. The foreign exchange risk exposures were managed by adjusting currency positions and using foreign exchange derivatives as hedging instruments.

The Company's exposure to commodity market risks was relatively low. During the Reporting Period, as the prices of some domestic and overseas commodities fluctuated sharply, the Company conducted commodity risk management by using commodity futures, options and swaps as hedging instruments.

Credit Risk

Credit risk refers to the risk caused by deterioration in creditworthiness or default losses of counterparties, borrowers and securities issuers.

Bond Investments Business

Our Company emphasizes the diversification level of the fixed income credit products and the credit products invested are those predominantly with relatively high credit ratings. Our Company controls its market risk and credit risk exposures by various initiatives, such as setting up limits on investment size, product types, credit ratings and concentrations, and carrying out forward-looking risk research, as well as closely monitors and tracks bond issuers' business performance and credit profiles so as to constantly evaluate and warn any credit deterioration.

During the Reporting Period, in response to the frequent occurrence of credit risk events, FICC Department closely collaborated with the Risk Management Department and identified, assessed, monitored and managed credit risk related to bond investments. As a result, the Company avoided material losses during the Reporting Period through effective risk management measures.

Notes: The Risk Management Department uses DV01 and Spread DV01 to measure the interest rate sensitivity and credit spread sensitivity of bonds.

DV01 measures the change in the value of interest rate sensitive products for each parallel movement of one basis point in a market interest rate curve. Spread DV01 measures the change in the value of credit spread sensitive products for each parallel movement of one basis point in the credit spread.

1. The Company refers the credit ratings of its debt securities to the credit ratings of the debt securities or the debt securities' issuers from Bloomberg comprehensive ratings or the local major rating agencies.
2. Non-rated 1: These non-rated financial assets mainly include government bonds and policy financial bonds.
3. Non-rated 2: These non-rated financial assets are mainly other debt securities and trading securities which are not rated by independent rating agencies.

Capital Business

For the credit risks of margin financing and securities lending business, stock-based lending business and other capital businesses, our Company has established a comprehensive and robust risk control system, including the customers' creditworthiness assessment, collateral management, underlying securities management, risk limit management, margin ratio monitoring, mandatory liquidation, etc. Our Company attaches considerable importance to customers' onboarding and has established and implemented a strict customer selection and credit assessment mechanism, under which the branches are responsible for preliminary assessment of the customers' credit profile by collecting customers' basic information, financial status, securities investment experience, credit record and risk tolerance. The information of the customers that has passed the preliminary assessment will be submitted to the relevant business departments at the headquarters for further review, which, if qualified, will then be submitted to the Risk Management Department for formal approval, which will conduct an independent assessment of the customers' qualifications, and determine their credit ratings and credit limits.

During the Reporting Period, no significant losses were incurred in the Company's margin financing and securities lending business and stock-based lending business. Our Company primarily controlled the risks of margin financing and securities lending business and stock-based lending business by the following measures:

Margin Financing and Securities Lending Business

During the Reporting Period, our Company strictly controlled the concentrations of single customer and single underlying security, closely monitored and assessed accounts with higher collateral concentration and riskier investment portfolio, timely communicated with the customers and promptly took corresponding measures to mitigate such risks; our Company attached considerable importance to collateral management and dynamically adjusted the scope and haircuts of the collaterals; we prudently reviewed and approved business extension by considering the following factors, i.e., the concentration and risk condition of the investment portfolio, and the collateral ratio of the existing deal; our Company also conducted regular and irregular stress testing and closely monitored customers with high risks.

Stock-based Lending Business

During the Reporting Period, our Company exercised strict control over the onboarding and approval of the stock-based lending deals, and has taken effective risk control measures, including, but not limited to, strengthening deal risk assessment and management, evaluating the risks by the customers' creditworthiness and fundamentals of the pledged securities (including the pledge ratio of the large shareholder, pledge ratio of all shareholders, liquidity and trading suspension records, shareholder structure, capital status of the controlling shareholder, potential delisting risk and negative news), carefully determining the loan-to-value ratio, as well as exercising strict control over the financing amount of the customers who are subject to shareholding reduction restriction; our Company strictly controlled single security concentration, established a security blacklist mechanism, and managed the overall exposure of a single security within the Company. In addition, our Company strengthened the on-site due diligence investigation,

assessment and analysis of the pledged securities and clients with large financing demand, and raised the approval requirements to ensure risks were managed at a controllable level.

Meanwhile, our Company continuously monitored the risks of the outstanding contracts, conducted regular and irregular stress testing, and classified deals into different risk status and kept key track of the deals with potential high risks; we maintained close monitoring and regular assessment of the customers' credit risk with large financing amount, and maintained dynamic monitoring of the pledged securities, continuously tracked the fundamentals and security price fluctuations of large deals, and if any abnormal circumstances identified on the pledged security, our Company will ensure the risk precautions are in place, and corresponding measures are taken promptly.

Margin Financing and Securities Lending Business

The following table sets forth the balance of margin financing and securities lending, market value of collaterals and collateral ratio data of the margin financing and securities lending business of the Company:

Unit: RMB in million

Items	As of December 31, 2023	As of December 31, 2022
Amounts of margin financing and securities lending	42,425.4	41,153.8
Market value of collaterals	111,285.1	110,229.3
Collateral ratio	262.3%	267.8%

Note: The collateral ratio is calculated as the ratio of the client's total account assets balance (including cash and securities held) to the client's balance of margin loans and securities borrowed from our Company (i.e. the sum of margin loans extended, the securities sold short and any accrued interests and fees).

As of December 31, 2023, the collateral ratio of the margin financing and securities lending business of the Company was 262.3%. Assuming that the market value of all securities as collaterals of the Company's margin financing and securities lending business declined by 10% and 20% respectively, and the liabilities of securities lending business increased by 10% and 20% respectively, the collateral ratio of the Company's margin financing and securities lending business as of December 31, 2023, would have been 233.8% and 205.3% respectively.

Stock-based Lending Business

The following table sets forth the lending amount, market value of collaterals and collateral ratio data of the stock-based lending business of the Company:

Unit: RMB in million

Items	As of December 31, 2023	As of December 31, 2022
Amounts of stock-based lending	5,161.4	5,657.0
Market value of collaterals	13,598.8	18,215.6
Collateral ratio	263.5%	322.0%

Note: The collateral ratio refers to the ratio of the fair value of initial and supplement collateral, less any collateral already released, plus interests and dividends received, divided by the amount payable by the borrower.

Liquidity Risk

Liquidity risk refers to the risks arising from our Company's inability to obtain sufficient funds at reasonable costs in a timely manner to settle debts due, fulfill other payment obligations, and satisfy the funding needs in conducting normal business operations.

Our Company has adopted the following measures to manage liquidity risk:

- Closely monitoring balance sheets of our Company and its branches and subsidiaries, and managing liquidity gaps between assets and liabilities;
- Setting liquidity risk limits based on our Company's overall situation and regulatory requirements;
- Conducting cash flow forecast and liquidity risk stress test on a regular and irregular basis to analyze and assess our liquidity risk exposure;
- Maintaining adequate high-quality liquid assets and establishing liquidity contingency plan for potential liquidity emergencies.

In order to withstand the potential liquidity risk and satisfy the short-term liquidity needs, our Company constantly holds sufficient unsecured and high-quality liquid assets as its liquidity reserves. The liquidity reserves are held by the Treasury Department and are managed independently from business departments. Our Company manages the liquidity reserves of all branches and subsidiaries vertically to ensure the allocation efficiency of the liquidity reserves. Meanwhile, due to the liquidity transfer restrictions between entities and regions, the liquidity reserves are held in various currencies and maintained within major operating subsidiaries, ensuring that the liquidity requirements of different entities are met in a timely manner. The size and composition of the liquidity reserves are actively managed by our Company based on the consideration of factors including, but not limited to, funding maturity profile, balance sheet size and composition, business and operational capital requirements, stress test results, and regulatory requirements. Our Company strictly limits the liquidity reserves to high-quality liquid assets (including cash and cash equivalents, interest rate bonds and money market funds) and sets risk limits.

Our Company constantly broadens and diversifies its funding channels to optimize the liability structure. The funding instruments of our Company include corporate bonds, medium-term note program, bank loans, commercial papers, beneficiary certificates, transfer of right to income, inter-bank borrowing, REPOs, etc. Our Company maintains good relationship with banks and has sufficient bank credit to meet the funding requirement for business development. The business operations and prospects of our Company and risks possibly faced by our Company in our business activities are respectively set out in "Management Discussion and Analysis – Analysis of Principal Business" and "Management Discussion and Analysis – Risk Management" of this report. The key financial indicators of our Company are set out in "Summary of Accounting Data and Financial Indicators" and "Consolidated Financial Statements" of this report.

II. PLAN ON PROFIT DISTRIBUTION OR ON CONVERTING CAPITAL RESERVE INTO SHARE CAPITAL

(i) Formulation, implementation or adjustment of profit distribution policy

According to the *Articles of Association*, the profit distribution plan of the Company shall be formulated by the Board of Directors, and a special proposal shall be submitted to the Shareholders' General Meeting for consideration and approval before implementation. After the Shareholders' General Meeting of the Company makes a resolution on the profit distribution plan, the Board of Directors shall complete the distribution of dividends (or shares) within 2 months after the Shareholders' General Meeting. The determination of whether to pay a dividend and in what amount is based on factors including the Company's results of operations, cash flows, financial condition, capital adequacy ratio, dividends the Company receives from its subsidiaries, future business prospects, statutory and regulatory restrictions on the payment of dividends by the Company and other factors that the Board of Directors deems relevant.

Article 257 of the *Articles of Association* stipulates the specific policies for the Company's profit distribution as follows:

" (I) Profit shall be distributed in the following manner: the Company may use cash, shares or a combination of cash and shares or other methods permitted by law or regulation to distribute profit; (II) Conditions for and proportions of cash dividends distribution: if the Company has no events such as major investment plans or significant cash expenditures, and the Company's risk control indicators can meet regulatory requirements and the normal operating capital requirements of the Company can be satisfied after the distribution of cash dividends, within any three (3) consecutive years, the cumulative profit distributed by the Company in cash shall not be less than 30% of the annual average distributable profit realized in such three (3) years; (III) Interval of profit distribution: in principle, the Company makes a profit distribution once a year, and the Board of Directors can propose the Company to carry out the interim profit distribution according to the profit situation and the situation of capital requirements and related conditions; (IV) Conditions for issuing share dividends: when the Company is operating well and the Board of Directors believes that the Company's share price does not match the size of the Company's share capital and that the issuance of share dividends is in the interest of the shareholders of the Company as a whole, and comprehensively taking into account the Company's growth, dilution of net assets per share and other factors, it can propose share dividends distribution plan under the conditions of meeting the aforesaid cash dividends distribution."

During the Reporting Period, the Company did not amend or adjust the profit distribution policy.

The 2022 profit distribution plan of our Company is to distribute cash dividends to its Shareholders in the form of cash dividends of RMB1.80 (tax-inclusive) per 10 Shares, for a total cash dividend of RMB868,906,236.24 (tax-inclusive). The Company's profit distribution for the year 2022 has been implemented on August 18, 2023.

The Company will adopt the method of cash dividend to distribute cash dividends to its Shareholders for its 2023 profit distribution. The total proposed cash dividends to be distributed is RMB868,906,236.24 (tax-inclusive), representing 15.8% of the net profit attributable to shareholders of the parent company in the consolidated statement of the year (excluding the net profit attributable to holders of perpetual subordinated bonds). On the basis of the total number of 4,827,256,868 Shares of the Company as at the Latest Practicable Date, the cash dividends of RMB1.80 (tax-inclusive) per 10 Shares will be distributed. In case of any changes in the total share capital of the Company before the record date to distribute profit, the amount of cash dividend per Share will be adjusted within the total amount of RMB868,906,236.24 (tax-inclusive). The cash dividends will be denominated and declared in RMB, and paid in RMB and in HKD to holders of A Shares and holders of H Shares, respectively. The actual amount distributed in HKD will be converted based on the average central parity of the exchange rate of RMB against Hong Kong dollars as announced by PBOC for the five business days prior to the date of the 2023 Annual General Meeting of the Company. The 2023 profit distribution plan shall be subject to the consideration and approval by the Shareholders' General Meeting before implementation.

The cash dividends will be paid within two months after the 2023 profit distribution plan is considered and approved at the Shareholders' General Meeting. The Company will make further announcement on, among others, record date and date of distribution in relation to this dividend distribution.

(ii) Particulars of the formulation and implementation of profit distribution policy

The Company's profit distribution policy, especially the cash dividend policy, was in line with the relevant industry requirements, with clear standards and ratios of dividend distribution. The relevant formulation and revision procedures were compliant, transparent and complete, without prejudice of the legitimate interests of minority shareholders.

The Company's 2023 profit distribution plan is in line with the requirements of the *Articles of Association*, which had been considered and approved by the Board of Directors, and should be submitted to the Shareholders' General Meeting for consideration, and minority shareholders may express their views and aspirations through Shareholders' General Meeting, investor briefing session and other channels, and their legitimate rights and interests have been fully protected.

(III) TAX RELIEF AND EXEMPTION INFORMATION FOR HOLDERS OF H SHARES

The holders of H Shares of our Company shall pay relevant tax and/or enjoy tax relief and exemption in accordance with the following provisions:

According to the *Individual Income Tax Law of the People's Republic of China* (《中華人民共和國個人所得稅法》) and its implementation rules, dividends paid to individuals by PRC companies are generally subject to an individual income tax levied at a flat rate of 20%.

Pursuant to the requirements of the *Notice of the Ministry of Finance and the State Administration of Taxation on Certain Policies Regarding Individual Income Tax (Cai Shui Zi [1994] No. 020)* (《財政部、國家稅務總局關於個人所得稅若干政策問題的通知》(財稅字[1994]020號)), individual foreigners are exempted from individual income tax on dividends and bonus received from foreign-invested enterprises in the PRC. As the Company is a foreign-invested joint stock limited company, the foreign individual Shareholders who hold the H Shares of the Company and whose names appear on the H-share register are not required to pay the individual income tax of the PRC.

Pursuant to the *Notice of the State Administration of Taxation on Issues Concerning Withholding the Enterprise Income Tax on Dividends Paid by Chinese Resident Enterprises to Holders of H Shares who are Overseas Non-resident Enterprises (Guo Shui Han [2008] No. 897)* (《關於中國居民企業向境外H股非居民企業股東派發股息代扣代繳企業所得稅有關問題的通知》(國稅函[2008]897號)), a PRC resident enterprise, when distributing dividends for 2008 and for the years afterwards to holders of H Shares who are overseas non-resident enterprises, shall withhold the enterprise income tax at a flat rate of 10%. A non-PRC resident enterprise which is entitled to a preferential tax rate under an applicable tax treaty or arrangement may, directly or through its agent, apply to the competent tax authorities for a refund of the excess amount of tax withheld.

Pursuant to the *Notice on Taxation Policies concerning the Pilot Program of an Interconnection Mechanism for Transactions in the Shanghai and Hong Kong Stock Markets* (Cai Shui [2014] No. 81) (《關於滬港股票市場交易互聯互通機制試點有關稅收政策的通知》(財稅[2014]81號)) and the *Notice on Taxation Policies concerning the Pilot Program of an Interconnection Mechanism for Transactions in the Shenzhen and Hong Kong Stock Markets* (Cai Shui [2016] No. 127) (《關於深港股票市場交易互聯互通機制試點有關稅收政策的通知》(財稅[2016]127號)) jointly promulgated by the Ministry of Finance, the State Administration of Taxation and the CSRC, for dividends derived by Mainland individual investors from investing in H Shares listed on the Hong Kong Stock Exchange through Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect, H-share companies shall withhold individual income tax at a tax rate of 20% for the investors. For mainland securities investment funds investing in shares listed on the Hong Kong Stock Exchange through Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect, the above rules also apply and individual income tax shall be levied on dividends derived therefrom. Dividends derived by mainland enterprise investors from investing in shares listed on the Hong Kong Stock Exchange through Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect shall be reported and paid by the enterprise investors themselves. H-share companies will not withhold or pay enterprise income tax on their behalf in the distribution of dividends. For dividends derived by mainland resident enterprises where the relevant H shares have been continuously held for more than 12 months, the enterprise income tax thereon may be exempt according to the tax law.

(ii) Composition of the Board of Directors

Our Company strictly complies with the requirements under the *Articles of Association* and relevant rules in respect of the appointment of the Directors. Directors are elected by the Shareholders' General Meeting to serve a term of 3 years and are eligible for re-election upon the expiration of the term. The Board meetings were convened in accordance with the *Articles of Association* and the *Rules of Procedures of the Board of Directors*.

As of the Latest Practicable Date, the Board of the Company comprises 8 Directors, including 1 executive Director (Mr. Chen Liang), 3 non-executive Directors (Ms. Zhang Wei, Mr. Kong Lingyan and Mr. Duan Wenwu) and 4 independent non-executive Directors (Mr. Ng Kong Ping Albert, Mr. Lu Zhengfei, Mr. Peter Hugh Nolan and Mr. Zhou Yu). None of the Directors, Supervisors and senior management is related to other Directors, Supervisors and members of the senior management of our Company. For details on changes in Directors, please refer to "Directors, Supervisors, Senior Management and Employees – Changes in Directors, Supervisors and Senior Management" in this report.

The biographies of all Directors are set out in "Directors, Supervisors, Senior Management and Employees – Biographies of Directors, Supervisors and Senior Management" in this report.

(iii) Board of Directors Diversity Policy

The Nomination and Corporate Governance Committee under the Board has adopted a Board of Directors Diversity Policy concerning the diversity of Board members pursuant to Rule 13.92 of the *Listing Rules of the Stock Exchange*. Our Company considers increasing diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and sustainable development. In designing the composition of the Board, diversity of the Board members has been considered from a number of aspects, including but not limited to gender, age, cultural, educational background, professional experience and other factors. All appointments of the Board will be based on meritocracy, and candidates will be considered against objective criteria with due regard for the benefits of diversity on the Board. Selection of candidates will be based on a range of diversity perspectives, the ultimate decision will be made based on meritocracy and contribution that the selected candidates can bring to the Board. The composition of the Board will be disclosed in the *Corporate Governance Report* annually. For further details about the Board of Directors Diversity Policy, please refer to Appendix I to the *Terms of Reference of the Nomination and Corporate Governance Committee of the Board of Directors* of our Company, which has been published on the websites of our Company, the Hong Kong Stock Exchange and the SSE.

The Nomination and Corporate Governance Committee annually reviews and monitors the implementation of the Board of Directors Diversity Policy to ensure its effectiveness. The Nomination and Corporate Governance Committee heard and discussed about the *Report on the Composition of the Board and the Diversity of the Board Members* of the Company on October 30, 2023 and no revision was needed out of the diversity considerations.

As of the Latest Practicable Date, the diversity analysis of the Board of the Company is as follows:

Item	Type	As a percentage of	
		Number	Board members
Gender	Male	7	87.5%
	Female	1	12.5%
Age	55 or below	4	50.0%
	55-60	2	25.0%
	60 or above	2	25.0%
Position	Executive Director	1	12.5%
	Non-executive Director	3	37.5%
	Independent non-executive Director	4	50.0%
Educational background	Doctoral degree	4	50.0%
	Master's degree	4	50.0%

The Board of Directors consists of professionals from different professional backgrounds, such as economics, finance, accounting, management, with different genders and ages, of which female Directors account for 12.5% of the total number of the Board of Directors. The composition of the Board of Directors is in line with the requirements relating to gender diversity of the members of the Board of Directors specified in the *Listing Rules of the Stock Exchange*, and in line with the diversification policy formulated by the Company. The Board has achieved the goal of gender diversity. The Company will continue to strive to achieve an appropriate balance of gender diversity at the Board level, taking into account shareholders' expectations and industry practice. The Company values the importance and benefits of gender diversity of the members of the Board of Directors, and the Company's nomination policy ensures that the Board of Directors will have a potential successor to continue the existing gender diversity of the Board of Directors.

(iv) Independent Views and Input in the Board of Directors

The Board of Directors has established relevant mechanisms to ensure that the Board of Directors obtain independent views and input. According to the *Articles of Association* and the *Policy on the Work of Independent Directors*, the number of independent non-executive Directors in the Board of Directors of the Company shall be no less than 3 and shall constitute no less than one third of the Board of Directors.

Our Company has also formulated the *Policy on the Work of Independent Directors*, which stipulates the qualifications and duties of independent non-executive Directors, and clarifies that the Company shall provide necessary conditions for independent non-executive Directors to effectively exercise their functions and powers. In accordance with the *Listing Rules of the Stock Exchange*, the *Measures for the Administration of Independent Directors of the Listed Companies* and other relevant requirements, the incumbent independent non-executive Directors of the Company have conducted self-examination on their independence and issued confirmation letters, and the Board of Directors of the Company has evaluated their independence and issued special opinions based on the self-examination materials submitted by the incumbent independent non-executive Directors. Our Company believes that each of the incumbent independent non-executive Directors is independent as specified in the Listing Rules. Independent non-executive Directors are able to exercise independent and objective judgments and protect the interests of minority shareholders.

According to the *Articles of Association*, the *Policy on the Work of Independent Directors* and relevant requirements, with the consent of more than half of the independent non-executive Directors, the independent non-executive Directors may exercise the following special functions and powers: propose to convene an extraordinary general meeting; propose to convene a Board meeting, etc.; when necessary, engage external auditor firms and consulting firms in an independent manner to audit and consult on the Company's specific matters, etc.

During the Reporting Period, the Company fully complied with the above regulations, and implemented effective mechanisms to ensure that there were strong and sufficient independent elements on the Board of Directors. The independent non-executive Directors of the Company shall also submit an annual work report to the annual general meeting.

As equity-based remuneration with performance-related elements may lead to biased decision-making and affect objectivity and independence, the Company does not grant such remuneration to independent non-executive Directors. Upon consideration and approval by the Shareholders' General Meeting of the Company, the remuneration plan for the independent non-executive Directors of the Company is: fees of RMB600,000 (tax inclusive) per year, an increase of RMB25,000 (tax inclusive) per year for each member of each special committee of the Board, and RMB50,000 (tax inclusive) per year for each chairman of the committee. The Company will pay a meeting fee of RMB5,000 (tax inclusive) per person for each meeting to the Directors attending the relevant meetings. The fees and conference fee shall be paid by the Company on a monthly basis, and the individual income tax shall be withheld. For details of the specific amount of remuneration received by independent non-executive Directors from the Company during the Reporting Period, please refer to "Directors, Supervisors, Senior Management and Employees – Basic Information, Changes in Shareholdings and Remunerations of Directors, Supervisors and Senior Management".

Notes:

- The attendance at meetings listed in the above table refer to the attendance at meetings of each incumbent Director during the Reporting Period. "Actual attendance at meetings in person" includes on-site attendance and participation in the meetings by way of teleconference, video conference and written ballots.
- There was no case that any Director did not attend two consecutive Board meetings in person during his/her tenure of office.

2. Directors' objections to relevant matters of the Company

During the Reporting Period, the Directors had no objections to relevant matters of the Company, and all the Directors voted for the proposals considered by the Board, with no waiver or opposition.

3. Training

The training and continuous professional development of Directors plays an important role in ensuring that Directors are kept abreast of the latest developments of the Company and understand their responsibilities under the relevant laws and regulations and the Company's business and governance policies, so as to assist them in performing their duties as Directors. Our Company provided trainings for all Directors in a variety of ways such as providing online training and written and video training materials, information on the Company's operation and industry information. In the meantime, we also proactively coordinated and supported Directors to participate in external trainings organized by the SSE, the CSRC and its branches, the China Association for Public Companies and other organizations. The trainings covered a broad range of topics including the information disclosure, insider dealing under the Listing Rules, corporate governance, the code of conduct of directors, supervisors and senior management and anti-money laundering regulatory requirements, and recent regulatory developments and rule updates.

(vii) Chairman and President

Currently, Mr. Chen Liang and Mr. Wu Bo serve as the Chairman of the Board and the President of the Company, respectively, and their powers and duties are clearly divided and specified in the *Articles of Association*. The Chairman of the Board is also the legal representative of the Company. During the Reporting Period, the roles of the Chairman of the Board and the President are separate and are taken by different persons. A clear division of the management of the Board and the day-to-day management of the Company ensures a balance of power and authority, guarantees the independence of their duties and avoids excessive concentration of power in any individual.

The Chairman is responsible for overseeing the overall operations of the Group and formulating business and corporate development strategies, providing leadership for the Board, ensuring that the Board works effectively and performs its duties. The Chairman also ensures that good corporate governance practices and procedures are established and complied with and that the Board acts in the best interests of the Company and all Shareholders.

The President is in charge of the operation and management of the Group, organizing the implementation of the resolutions of the Board and reporting to the Board.

In addition, the Company conducted specialized evaluations of the senior management's own risk compliance and that of their respective responsible sectors. The incentives of the senior management were closely linked to the Company's overall operating performance.

During the Reporting Period, the senior management of the Company conscientiously performed their duties, obtained good overall performance, completed the tasks assigned to them by the Board, further promoted the optimization and adjustment of the customer-centered organizational structure, strengthened the Company's professional service capabilities, and improved the internal control system of compliance and risk management during their terms. Under the guidance of the Board, the senior management closely followed the transformation opportunities of the industry, based on the principle of stable operation, continuously optimized the business and talent structure, promoted the effective integration and coordination of business resources, and comprehensively deepened the implementation of the Company's strategies.

VIII. MANAGEMENT AND CONTROL OF SUBSIDIARIES

Adhered to the risk appetite commitment of “prudent and steady business operations”, the Company continuously strengthened its management and control of subsidiaries and established a whole-process vertical management system with full coverage, so as to ensure the steady and orderly operation of subsidiaries and prevent any potential unauthorized operation, uncontrolled budget or moral risks during the operation and management of subsidiaries. The Company strictly abides by laws and regulations applicable to subsidiaries of securities firms, and has no conflicts of interest or peer competition with subsidiaries. The reasonable and necessary separation system has been established to prevent any possible risk transmission or conflicts of interest.

IX. ESTABLISHMENT AND IMPLEMENTATION OF INTERNAL CONTROL SYSTEM

(i) Establishment of the Internal Control System

Our Company has been emphasizing building a corporate internal control system since its establishment. Our Company's corporate internal control system has been gradually taking shape and enhanced in compliance with the requirements of the *Guidelines for Internal Control of Securities Companies* and the *Basic Norms of Internal Control for Enterprises*, and has incorporated the development of internal control into the operational development of our Company.

As of the end of the Reporting Period, our Company has established an internal control system suitable for our business nature, scale and complexity, and has achieved results in ensuring the legality and compliance of operations, the safety of assets and the authenticity and completeness of financial reports and relevant information, and improving operational efficiency and effectiveness.

(ii) Major Characteristics of the Internal Control System

Our Company has established a reasonable, effective and balanced internal control system, with clear division of work among the Board of Directors, the Supervisory Committee, the management, functional departments, business departments and their branches within the structure of the entire internal control system, and their duties and responsibilities are as follows:

- The Board of Directors is responsible for the sound establishment and effective implementation of internal control. The Board has established the Audit Committee which is responsible for reviewing the internal control of our Company, supervising the effective implementation of internal control and self-evaluation on internal control, coordinating internal control audits and other relevant matters.
- The Supervisory Committee supervises the establishment and implementation of internal control by the Board.
- The management is responsible for organizing and steering the daily operation of the internal control of our Company.
- Each of the business departments and their branches formulates and implements its business policies, internal process and control. Our Company requires all employees who participate in business operations to comply with the policies and processes in the ordinary course of business. Each of the business departments conducts self-evaluation and assessment on the specific internal control procedures and measures for its scope of business, and is responsible for reporting deficiencies of the internal control procedures to the management of our Company.
- The Internal Audit Department is independent of the business departments of our Company and reports directly to the Audit Committee of the Board. The Internal Audit Department conducts reviews, appraisals, reports and recommendations, independently and objectively, on the overall internal control environment, the design and implementation of the internal control measures and risk assessment measures in each business department of our Company on a regular basis, in order to prevent risks, enhance the internal control levels and utilize resources properly and effectively.
- The functional departments participating in internal control include the Risk Management Department, Legal and Compliance Department and other middle and back office departments, which actively manage market risk, credit risk, operational risk, liquidity risk, compliance risk, legal risk, reputational risk, etc. faced by our Company's businesses and identify risks in the implementation of internal control and make recommendations to improve internal control deficiencies.

(iii) Procedures for Evaluating the Effectiveness of the Internal Monitoring System and Rectifying Material Internal Control Deficiencies

Our Company has established the Internal Audit Department which is independent of other departments in our Company and reports directly to the Audit Committee of the Board. The Internal Audit Department conducts reviews, appraisals, and provides reports and recommendations independently on risk management, the adequacy of the design and the effectiveness of the implementation of internal control for each business line. For issues discovered during internal audits, the Internal Audit Department formulates improvement measures jointly with various departments and assist the management in following up on the issues discovered in the audits and the rectification progress on a regular basis. As for the management of related-party (connected) transactions of the Company, the Company implements a complete series of internal control measures to ensure legal compliance, while the Internal Audit Department also conducts regular reviews of relevant internal control measures over the management of related-party (connected) transactions.

By reviewing the work and audit results of the Internal Audit Department on a regular basis, the Audit Committee appraises the effectiveness of risk management and internal control system on a regular basis on behalf of the Board.

(iv) Procedures for Processing and Releasing Inside Information

With approval from the Board and pursuant to the requirements of domestic and foreign laws and regulations, the Listing Rules and the *Articles of Association* as well as the practical conditions of our Company, the *Policy on Information Disclosure Management* has been formulated by our Company to determine the segregation of duties and responsibilities on information disclosure, the procedures for processing and releasing inside information and other information required to be disclosed. Pursuant to this policy, our Company must, as soon as any inside information comes to its knowledge or a false market may be established, disclose the information to the public to the reasonable and practicable extent.

During the Reporting Period, our Company has truthfully, accurately, legally and timely disclosed information in strict compliance with the requirements of domestic and foreign laws and regulations, the Listing Rules, the *Articles of Association* and the *Policy on Information Disclosure Management* without any false statements, misleading statements or material omissions, to ensure that all investors receive the disclosed information fairly, timely and effectively. During the Reporting Period, the *Policy on Information Disclosure Management* has not been amended.

(v) Appraisal of Internal Control

The Board and the management of our Company are jointly responsible for the establishment, the effective implementation and improvement of sound internal control system. The objectives of internal control of our Company are: guaranteeing the legality of operations of our Company and the execution of internal regulatory system, protecting against operational risk and moral risk, securing the safety and completeness of the assets of the clients and our Company, ensuring the reliability, completeness and timeliness of business records, financial information and other information of our Company and improving the operational efficiency and effectiveness of our Company.

As internal control has inherent restrictions, we can only reasonably guarantee the achievement of the above objectives. Furthermore, the effectiveness of internal control may also change according to our Company's internal and external environment and operating conditions. Our Company has set up an inspection and supervision mechanism through which our Company can take measures to rectify deficiencies in internal control once identified.

The Board concluded that, pursuant to the requirements of relevant laws, regulations and regulatory rules such as the *Guidelines for Internal Control for Securities Companies* and with reference to the requirements of the *Basic Norms of Internal Control for Enterprises* and the provisions of its ancillary guidelines, an appraisal on internal control of the Group was conducted as at the reference date (as of December 31, 2023) of the *2023 Internal Control Assessment Report of China International Capital Corporation Limited*, and the Group was not aware of any material defect in internal control of the Group. The Board is of the view that the Group has established an effective internal control system, which helps to achieve our objectives of internal control and is free of material defect and significant defect.

Deloitte Touche Tohmatsu Certified Public Accountants LLP performed audits on the effectiveness of internal control over financial statements of the Company as at December 31, 2023 in accordance with the *Guidelines on Internal Control Audit for Enterprises* and relevant requirements of the Practice Standards for Certified Public Accountants of China, and had issued the *Internal Control Audit Report of China International Capital Corporation Limited* with standard unqualified opinion. Based on the above understanding, testing and evaluation of internal control during the audit, Deloitte Touche Tohmatsu Certified Public Accountants LLP believed that the Company has maintained effective internal control over financial statements in all material aspects in accordance with the *Basic Norms of Internal Control for Enterprises* and relevant requirements as at December 31, 2023. There was no inconsistency between the *2023 Internal Control Assessment Report of China International Capital Corporation Limited* issued by the Company and the *Internal Control Audit Report of China International Capital Corporation Limited*.

For details, please refer to the *2023 Internal Control Assessment Report of China International Capital Corporation Limited* and the *Internal Control Audit Report of China International Capital Corporation Limited* published by the Company on the website of the Company, the Hong Kong Stock Exchange and the SSE.

I. ENVIRONMENTAL INFORMATION

Always adhering to the concept of sustainable development, CICC has actively responded to the call of the country, leveraged its industry attributes and its own development advantages to empower the green development strategy, and worked with stakeholders at all levels of management, operation and practice to contribute the strength of CICC to achieving the “Carbon Peaking and Carbon Neutrality” goals. During the Reporting Period, the Company invested a total of RMB5.65 million in environmental protection.

In terms of risk management, the Company has incorporated climate risk into its comprehensive risk management system, and has established a climate risk management system that is commensurate with the strategic objectives and complexity of climate-related risk of the Company. Meanwhile, the Company has formulated and released the *Climate Risk Management Policy of China International Capital Corporation Limited* to clarify the organizational structure and mechanism of climate risk management, and has actively promoted climate risk identification and assessment, scenario analysis and risk measurement, etc.

During the Reporting Period, the Company carried out the implementation of the climate risk management mechanism in an orderly manner, promoted the identification and assessment of climate risks, explored the construction of climate risk scenarios and risk measurement models, gradually built a risk transmission framework, improved the climate risk management system, and comprehensively enhanced the Company’s climate risk management and quantification capabilities. In addition, the Company has paid sustained attention to environmental risks involved in the conduct of business. For example, we attach great importance to risk management and control in the “high pollution and high energy consumption” sectors (hereinafter referred to as “Two Highs”), exercise strict investment, and focus on whether the relevant investment and financing business involves the “Two Highs” projects and the financial risks of green and low-carbon transition in our daily business control.

In terms of sustainable operation, the Company has strictly complied with laws, regulations and policies, including the *Environmental Protection Law of the People’s Republic of China*, the *Energy Conservation Law of the People’s Republic of China* and the *Law of the People’s Republic of China on the Prevention and Control of Environment Pollution by Solid Waste*, and has formulated the institutional documents including the *Office Environment Management Regulations* to regulate energy consumption, water use, waste management and other aspects in office, procurement, travel and other aspects. During the Reporting Period, the Company steadily promoted sustainable operation and actively practiced energy conservation and emission reduction from the two dimensions of green operation and green building. In terms of green operation, the Company continued to implement co-working to improve the utilization rate of office space resources. In the new travel system, the Company recommended flights with the lowest-carbon emission to employees. The Company also promoted an online worksheet system to reduce paper usage. In terms of green construction, the Company continued to promote the prefabricated construction model. In 2023, the Company realized the reduction of over 474 tons of Chinese Certified Emission Reduction and obtained 5 carbon neutrality certificates. In addition, the Company has enhanced the environmental awareness of employees through training and publicity. CO₂ equivalent emission reduction during the Reporting Period: not applicable.

The Company is a financial company, which is not in the list of the key pollutant discharge units or their major subsidiaries published by the environmental protection authority. During the Reporting Period, the Company did not have any lawsuits or related penalties caused by environmental issues.

II. SOCIAL RESPONSIBILITIES

Always adhering to the original aspiration of “By the People and For the Nation”, the Company has given full play to the advantages of “investment + investment banking + research + public welfare” to earnestly fulfil social responsibilities. The Company actively participates in public welfare undertakings, and carries out public welfare projects in education, medical care, environmental protection and other fields, so as to contribute to improving people’s livelihood and well-being. During the Reporting Period, the Group donated over RMB48.5 million to support public welfare and assistance programs, benefiting approximately 320,000 people in total.

In terms of public welfare, CICC, through its public welfare platform – CICC Charity Foundation, has long focused on five aspects: equitable development of education, rural revitalization, ecological and environmental protection, disaster relief and development of public welfare culture, and has organized various public welfare projects and volunteer service activities. Its public welfare footprint has spread to 18 provinces (autonomous regions and municipalities directly under the central government) across China. The Company promoted branded public welfare projects such as “China Reach” program, “CICC-Joyoung Charity Kitchen” and “CICC Charity First Class of School” (中金公益開學第一課) and activities to help the early development of children’s education in underdeveloped areas, and promote the rural education equity. The Company actively took disaster relief actions to support flood control and disaster relief as well as post-disaster reconstruction in Hebei and Beijing, and support post-earthquake reconstruction in Gansu Province, demonstrating its social responsibilities. At the same time, the Company focused on environmental sustainability and actively responded to the “Carbon Peaking and Carbon Neutrality” goals, continuously advancing the “CICC Public Welfare Ecological Carbon Neutrality Forest” project, achieving the organic integration of economic, social and ecological benefits.

In terms of sustainable finance, CICC consistently leverages its core strengths in a commitment to supporting the real economy. With a focus on key areas such as green finance, inclusive finance and responsible investment, the Company strategically develops various business models encompassing equities, bonds, mergers and acquisitions and funds. CICC has emerged as a market leader in the issuance of green bonds, and in 2023, received a no-objection letter from the CSRC for carbon trading and actively participated in relevant business. Through diverse financing services and tools, we supported small and medium-sized enterprises as well as private enterprises in overcoming challenges related to “difficulty in financing” and “high financing costs”, thereby promoting the high-quality development of inclusive finance. We enhanced our responsible investment mechanism, continuously refining and upgrading the distinctive CICC ESG rating system and management system.

In terms of research support, CICC actively provided insights and recommendations for industry development, contributing its expertise. CICC Research, in association with CGI, expanded existing ESG research areas to encompass a wide range of fields including green economy, carbon markets/finance, green bonds, green financial products, corporate social responsibility and philanthropy, rolling out a number of in-depth reports such as the *CICC ESG Handbook*, *Carbon Strategies for China* (《「碳」策中國》) and *New Supply Economics of Scale Effect and Green Transformation* (《規模效應和綠色轉型的新供給經濟學》).

In terms of transformation of scientific and technological achievements, during the Reporting Period, the Capital Healthtech Incubation Engineering Foundation (首都醫療科技成果轉化公益基金會) (hereinafter referred to as the “CHIF”) launched and established by the Company continued to build a diversified research funding mechanism and a support system for the transformation of medical achievements, to help solve the pain points and difficulties in the process of transformation of scientific and technological achievements, and facilitate the transformation of medical scientific and technological achievements and the exploration of innovative models. In 2023, the CHIF donated a total of RMB33 million to eight transformation projects.

III. DETAILS ON CONSOLIDATING AND EXPANDING THE ACHIEVEMENTS OF POVERTY ALLEVIATION, RURAL REVITALIZATION AND OTHER WORK

The Company resolutely implemented the decisions and arrangements of the CPC Central Committee and the State Council regarding strengthening the effective connection between the achievements of poverty alleviation and the rural revitalization. The Company continued to improve the targeted assistance and paired assistance system and mechanism, and worked on rural revitalization in targeted assistance county (Huining County, Gansu Province) and four paired assistance counties (Guzhang County in Hunan Province, Yuexi County in Anhui Province, Kaizhou District in Chongqing, and Fengjie County in Chongqing) through assistance measures in industrial assistance, consumption assistance, education assistance and livelihood assistance. The Company gave full play to its financial advantages and supported the development of agriculture and people’s livelihood industries by assisting the issuance of rural revitalization themed bonds and providing “insurance + futures” services. During the Reporting Period, the total donation of CICC in assistance projects and rural revitalization projects was approximately RMB35.6 million, benefiting approximately 190,000 people in total. The investment banking segment completed rural revitalization-related projects with a transaction amount of over RMB120.0 billion.

Focusing on industrial assistance. During the Reporting Period, our Company helped Huining County in Gansu Province to build a reputation of “the hometown of China’s mutton sheep”, and cooperated with the county government to construct a mutton sheep trading market in western China. We’ve also implemented a standardized mutton sheep breeding incentive plan, incentivizing all 284 administrative villages in Huining County to achieve standardization in their breeding industry parks through reward policies. Furthermore, leveraging the resource endowment of Huining County, we’ve selected enterprises involved in new materials development, agricultural product processing and sales along the industrial chain. We’ve conducted research trips to Huining County, engaging in discussions and negotiations to facilitate investment attraction and cooperation.

Focusing on consumption assistance. During the Reporting Period, our Company has procured agricultural specialty products from poverty-alleviation areas and counties such as Huining County and Jingning County in Gansu Province, as well as Xunhua County in Qinghai Province. We’ve collaborated with both online and offline sales platforms to expand the sales channels for products from these supported counties. Additionally, we participated in the first China Specialised Agriculture Development Summit and opened CICC Huinong Pavilion, providing a platform for exchange, display and cooperation in the development of specialty industries. In addition, the Company purchased 8,500 catties of rice from Guzhang County, Hunan Province and 18,000 catties of rice from Yuexi County, Anhui Province, and donated them to 3,639 students from 23 schools in Huining County, Gansu Province. The Company purchased 2,300 boxes of brown sugar from Kaizhou District, Chongqing and donated them to women and children in Tibet. The Company purchased 1,140 boxes of navel oranges from Fengjie County, Chongqing and donated them to Dandelion School in Daxing District, Beijing, to help students grow healthily.

Focusing on education support. During the Reporting Period, our Company continued the construction of 16 “CICC-Joyoung Charity Kitchen” in Huining County, Gansu Province, improving the kitchen facilities in rural schools, enhancing the capacity to prepare nutritious meals, benefiting over ten thousand teachers and students. We also innovatively implemented the “Class on Dream for Sports” project, providing 12 types of sports equipment totaling 7,680 items to 48 primary and secondary schools, enriching the daily forms of physical education teaching. In addition, 1,600 books were purchased and donated to Donghua Junior High School in Kaizhou District, Chongqing, benefiting 1,086 students; and 1,230 books were purchased and donated to Yong’an Middle School in Fengjie, Chongqing, benefiting 8,550 students.

Focusing on livelihood support. During the Reporting Period, we provided insurance for forestalling reemergence of poverty for impoverished households, three categories of vulnerable households (those at risk of falling back into poverty, those on the verge of poverty, and those facing sudden severe difficulties), and households relying on subsistence allowance and with orphans in Huining County, Gansu Province. This initiative constructed a risk barrier against four major categories: natural disasters, accidental incidents, diseases, and infectious diseases, covering 12 subcategories. We also launched the “Angel Empowerment” medical assistance project, offering skill training and equipping digital diagnostic tools for 56 village doctors across 28 townships, comprehensively enhancing the professional and service levels of rural doctors. Meanwhile, the Company donated to the People’s Government of Guzhang County, Hunan Province the medical relief fund for the prevention of returning to poverty due to illness, and funds for the development of women and children’s undertakings and the protection of their rights and interests. The Company donated to the People’s Government of Yuexi County, Anhui Province funds for the prevention of returning to poverty due to illness, funds for student assistance, funds for village (community) “emergency relief” mutual aid cooperatives, and funds for the construction of the rescue information system.

In addition, the Company has made continued efforts to carry out special research and dissemination on rural revitalization, continuously expanded the scope of rural research, and discovered the pain points of rural development and the difficulties of poverty alleviation. We have better grasped the actual situation through special research, and are committed to offering services and products that are more tailored to local conditions. The Company has carried out rural revitalization research for the third consecutive year, and has compiled and released the 2023 rural revitalization special research report named *Dreams Coming True in China’s Rural Revitalization* (《心歸田野夢歸鄉》).

OPINION

We have audited the consolidated financial statements of China International Capital Corporation Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 259 to 436, which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") issued by the International Accounting Standards Board ("IASB") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

KEY AUDIT MATTERS *(continued)*

Key Audit Matter	How our audit addressed the key audit matter
<i>Valuation of financial instruments measured at Level III fair value</i>	
<p>We identified the valuation of financial instruments measured at Level III fair value as a key audit matter.</p> <p>As at 31 December 2023, the Group's financial instruments contained those financial instruments measured at Level III fair value, which were mainly private fund investments, unlisted equity investments, restricted stocks, etc. The Group measured the fair value using valuation techniques that involve significant unobservable inputs, including liquidity discount, volatility, market multiplier, etc.</p> <p>For the valuation of these financial instruments measured at Level III fair value, the selection of valuation techniques, the key assumptions and unobservable inputs used in the valuation techniques involve significant estimation of management as disclosed in Note 4(a) and Note 56. We identified the valuation of financial instruments measured at Level III fair value as a key audit matter because the impact of financial instruments measured at Level III fair value on the consolidated financial statement could be significant and it involves significant estimation and judgement of management in determining the valuation of financial instruments measured at Level III fair value.</p> <p>As at 31 December 2023, the Group held financial assets of RMB13,939 million and financial liabilities of RMB12,020 million measured at Level III fair values as disclosed in Note 56.</p>	<p>Our procedures in relation to valuation of financial instruments measured at Level III fair value included:</p> <ul style="list-style-type: none"> • Understanding the Group's valuation models for financial instruments at Level III fair value and key controls over selection of valuation methods and determining the valuation of such financial instruments; • Involving our internal valuation specialists and selecting financial instruments measured at Level III fair value on a sample basis to perform the following procedures: <ul style="list-style-type: none"> – Reviewing the investment agreements to understand the relevant investment terms and identifying any conditions that were relevant to the valuation of the selected financial instruments; – Evaluating the appropriateness of the model adopted by management for the valuation of the selected financial instruments, based on our knowledge of current industry practice; – Evaluating the appropriateness of the unobservable and observable inputs used by management for measuring the fair value of the selected financial instruments with reference to relevant market data; • For the samples selected in above procedures, involving our internal valuation specialists to develop expected fair values and perform sensitivity analysis of the selected financial instruments, and investigating if the expected fair values are significantly deviated from the corresponding fair value adopted by the Group.

KEY AUDIT MATTERS *(continued)*

Key Audit Matter	How our audit addressed the key audit matter
<i>Consolidation of structured entities</i>	
<p>We identified the consolidation of structured entities as a key audit matter.</p> <p>The Group issues, manages and/or acquires various structured entities including asset management schemes, trust products, mutual funds, private equity funds, etc.</p> <p>As disclosed in Note 4(b) to the consolidated financial statements, in accordance with the principle of control in IFRS 10 <i>Consolidated Financial Statements</i>, to determine whether a structured entity should be consolidated, a combination of factors needs to be assessed by management to make a comprehensive judgment on whether the Group has controlled the structured entity based on the terms of the related contracts, including the purpose of establishment, the Group's power over the structured entity, all variable returns obtained including investment income and management remuneration, the ability to use power over the investees to affect the amount of returns, whether the Group is a principal or an agent, etc. We identified the consolidation of structured entities as a key audit matter because the impact of consolidating a structured entity on the consolidated financial statement could be significant and it involves significant estimation and judgement of management in determining whether a structured entity is required to be consolidated by the Group.</p> <p>As disclosed in Note 53 to the consolidated financial statements, as at 31 December 2023, the carrying amount of interests held by the Group amounted to RMB23,705 million. As at 31 December 2023, the carrying amount of interests held by the Group in structured entities sponsored by third party and sponsored by the Group but not consolidated amounted to RMB89,074 million and RMB10,194 million respectively.</p>	<p>Our procedures in relation to consolidation of structured entities included:</p> <ul style="list-style-type: none"> • Evaluating the design and implementation of management's key controls over determining the consolidation of structured entities; • Reviewing, on a sample basis for each key product type of structured entity, the related investment contracts and service agreements of investments in structured entities to assess whether management has appropriately considered the following factors in determining the consolidation of structured entities: <ul style="list-style-type: none"> – The purpose of establishment, the major activities and decision-making process of these structured entities; – All variable returns entitled, primarily investment income, management remuneration, etc., by the Group; – The Group's substantive power over these structured entities and how it can affect the variable returns; and – Whether the Group makes investment decision as the principal. • Checking and evaluating, on a sample basis, management's quantitative analysis on the Group's exposure or right to variable returns with its economic interests in the structured entity and examining the data used in these calculations by reference to the related contracts.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Mr. Ma Hing Fai.

The Company and its subsidiaries (together “the Group”) are principally engaged in investment banking business, equities business, fixed-income, commodities and currency (“FICC”) business, asset management business, private equity business, wealth management business and other business activities.

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”)

2.1 New and Amendments to IFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following new and amendments to IFRSs issued by the International Accounting Standards (the “IASs”) Board (the “IASB”), for the first time, which are mandatorily effective for the annual periods beginning on or after 1 January 2023 for the preparation of the consolidated financial statements:

IFRS 17 (including the June 2020 and December 2021 Amendments to IFRS 17)	<i>Insurance Contracts</i>
Amendments to IAS 8	<i>Definition of Accounting Estimates</i>
Amendments to IAS 28	<i>Deferred Tax related to Assets and Liabilities arising from a Single Transaction</i>
Amendments to IAS 12	<i>International Tax Reform-Pillar Two model Rules</i>
Amendments to IAS 1 and IFRS Practice Statement 2	<i>Disclosure of Accounting Policies</i>

Except for the amendments to IFRSs mentioned below, the application of all other amendments to IFRSs in the current year has had no material effect on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”) (continued)

2.1 New and Amendments to IFRSs that are mandatorily effective for the current year (continued)

Impacts on application of Amendments to IAS 1 and IFRS Practice Statement 2 Disclosure of Accounting Policies

The Group has applied the amendments for the first time in the current year. IAS 1 is amended to replace all instances of the term “significant accounting policies” with “material accounting policy information”. Accounting policy information is material if, when considered together with other information included in an entity’s financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The amendments also clarify that accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. If an entity chooses to disclose immaterial accounting policy information, such information must not obscure material accounting policy information.

IFRS Practice Statement 2 Making Materiality Judgements (the “Practice Statement”) is also amended to illustrate how an entity applies the “four-step materiality process” to accounting policy disclosures and to judge whether information about an accounting policy is material to its financial statements. Guidance and examples are added to the Practice Statement.

The application of the amendments has had no material impact on the financial position or performance of the Group but has affected the disclosures of the Group’s accounting policies set out in Note 3.

Impacts on application of Amendments to IAS 12 Income Taxes International Tax Reform- Pillar Two model Rules

IAS 12 is amended to include an exception to recognise and disclose information about deferred tax assets and liabilities that are related to tax law enacted or substantively enacted to implement the Pillar Two model rules published by the Organisation for Economic Co-operation and Development (the “Pillar Two legislation”). The Group applies the temporary exception immediately upon the issue of the amendments. The amendments also require entities to disclose the qualitative and quantitative information about their exposure to Pillar Two income taxes jurisdictions in which the Pillar Two legislation is enacted or substantially enacted but not yet in effect. To the extent information is not known or reasonably estimable, an entity shall instead disclose a statement to that effect and disclose information about the entity’s progress in assessing its exposure.

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”) (continued)

2.1 New and Amendments to IFRSs that are mandatorily effective for the current year (continued)

Impacts on application of Amendments to IAS 12 Income Taxes International Tax Reform- Pillar Two model Rules (continued)

The Group has applied the amendments to IAS 12 on Pillar Two legislation. Therefore, the Group shall neither recognise nor disclose information about deferred tax assets and liabilities related to Pillar Two legislation.

As at 31 December 2023, some of the jurisdictions where the Group’s overseas operating institutions are located, including the UK, Japan, Germany and Luxembourg, have enacted Pillar Two legislation which will be effective from 1 January 2024 or later. Therefore, the Pillar Two legislation in the aforementioned jurisdictions has no significant impact on the financial position or performance of the Group for the year 2023. According to the rules of Pillar Two legislation, low-tax jurisdictions with effective tax rate below 15% may have a Top-up Tax impact since 2024. There are differences in the computation of effective tax rate between Pillar Two legislation and IFRSs. The Group is continuing to assess the impact of the Pillar Two legislation on the future financial performance.

2.2 Amendments to IFRSs in issue but not yet effective

The Group has not early applied the following amendments to IFRSs that have been issued but are not yet effective:

Amendments to IFRS 10 and IAS 28	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Ventureⁱ</i>
Amendments to IFRS 16	<i>Lease Liability in a Sale and Leasebackⁱⁱ</i>
Amendments to IAS 1	<i>Classification of Liabilities as Current or Non-currentⁱⁱ</i>
Amendments to IAS 1	<i>Non-current Liabilities with Covenantsⁱⁱ</i>
Amendments to IAS 7 and IFRS 7	<i>Supplier Finance Arrangementsⁱⁱ</i>
Amendments to IAS 21	<i>Lack of Exchangeabilityⁱⁱⁱ</i>

- (i) Effective for annual periods beginning on or after a date to be determined.
- (ii) Effective for annual periods beginning on or after 1 January 2024.
- (iii) Effective for annual periods beginning on or after 1 January 2025.

The directors of the Company anticipate that the application of all amendments to IFRSs mentioned above will have no material impact on the consolidated financial statements in the foreseeable future.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION

3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with IFRSs issued by the IASB. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosure provisions of the Rules Governing the Listing of Securities ("Listing Rules") on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The directors of the Company have, at the time of approving the consolidated financial statements, a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the consolidated financial statements.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2 *Share-based Payment*, leasing transactions that are accounted for in accordance with IFRS 16 *Leases* ("IFRS 16"), and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 *Inventories* or value in use in IAS 36 *Impairment of Assets*.

For financial instruments which are transacted at fair value and for which a valuation technique with unobservable inputs is to be used to measure fair value in subsequent periods, the valuation technique is calibrated so that at initial recognition the results of the valuation technique equal the transaction price or investment cost.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.1 Basis of preparation of consolidated financial statements *(continued)*

In addition, for financial reporting purposes, fair value measurements are categorised into Level I, II or III based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level I inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level II inputs are inputs, other than quoted prices included within Level I, that are observable for the asset or liability, either directly or indirectly; and
- Level III inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

3.2 Material accounting policy information

(a) Basis of consolidation

(i) *Business combinations*

In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs.

Acquisitions of businesses, other than business combination under common control are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred, except if related to the issue of debt or equity securities.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(a) Basis of consolidation *(continued)*

(i) **Business combinations** *(continued)*

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with IAS 12 *Income Taxes* and IAS 19 *Employee Benefits* respectively;
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard; and
- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in IFRS 16) as if the acquired leases were new leases at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(a) Basis of consolidation *(continued)*

(ii) *Subsidiaries and non-controlling interests*

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised gains arising from intra-group transactions are eliminated in full when preparing the financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Group, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between holders of non-controlling interests and shareholders of the Company.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised. Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(a) Basis of consolidation *(continued)*

(ii) *Subsidiaries and non-controlling interests* *(continued)*

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary. Any gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owner of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable IFRSs). Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (see Note 3.2(e)) or, when appropriate, the cost on initial recognition of an investment in an associate or a joint venture (see Note 3.2(a)(iii)).

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see Note 3.2(l)), unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale).

(iii) *Associates and joint ventures*

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

(a) Basis of consolidation *(continued)*

(iii) Associates and joint ventures *(continued)*

An investment in an associate or a joint venture is accounted for in the consolidated financial statements using the equity method of accounting, unless it is classified as held for sale (or included in a disposal group that is classified as held for sale). Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

Unrealised profits and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's interest in the investee, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method.

In all other cases, when the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when significant influence or joint control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (see Note 3.2(e)).

(b) Goodwill

Goodwill represents the excess of:

- (i) the aggregate of the fair value of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the Group's previously held equity interest in the acquiree; over
- (ii) the net fair value of the acquiree's identifiable assets and liabilities measured as at the acquisition date.

When (ii) is greater than (i), then this excess is recognised immediately in profit or loss as a gain on a bargain purchase.

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units ("CGU"), or a group of CGUs, that is expected to benefit from the synergies of the combination, which represents the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A CGU (or a group of CGUs) to which goodwill has been allocated is tested for impairment annually or more frequently when there is an indication that the unit may be impaired.

On disposal of the relevant CGU, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

(c) Foreign currency

(i) Translation of foreign currencies

The financial statements are presented in RMB, which is the Company's functional and presentation currency.

When the Group receives capital in foreign currencies from investors, the capital is translated to RMB at the spot exchange rates ruling at the date of receipt. Other foreign currency transactions are, on initial recognition, translated to the respective functional currencies of the entities at the exchange rates that approximate the spot exchange rate ruling at the transaction dates.

A spot exchange rate is quoted by the PBOC, the State Administration of Foreign Exchange, or a cross rate determined based on quoted exchange rates. A rate that approximates the spot exchange rate is determined by a systematic and rational method, normally the average exchange rate of the current period.

Monetary assets and liabilities denominated in foreign currencies are translated to the functional currencies at the spot exchange rates ruling at the end of the year. Exchange gains and losses are recognised in profit or loss, except those arising from foreign currency used to hedge a net investment in a foreign operation that are recognised in other comprehensive income.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated to the functional currencies using the foreign exchange rates ruling at the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to the functional currencies using the foreign exchange rates ruling at the dates the fair value is measured.

When a fair value gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is also recognised in profit or loss. When a fair value gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is also recognised in other comprehensive income.

(c) Foreign currency *(continued)*

(ii) Foreign operations

The results of foreign operations are translated to RMB at the exchange rates approximating the spot exchange rate ruling at the transaction dates. Statement of financial position items are translated to RMB at the closing foreign exchange rates at the end of the year. The resulting exchange differences are recognised in other comprehensive income and accumulated separately in equity in the foreign currency translation reserve.

Upon disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to profit or loss when the profit or loss on disposal is recognised.

(d) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits, and short-term and highly liquid investments which are readily convertible into known amounts of cash and which are subject to an insignificant risk of change in value.

(e) Financial instruments

(i) Recognition and initial measurement

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss ("FVTPL"), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(e) Financial instruments *(continued)*

(i) Recognition and initial measurement *(continued)*

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. When calculating the effective interest rate, the Group considers all contractual terms of the financial instrument (for example, prepayment, call and similar options) to estimate cash flows.

For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost on initial recognition.

(ii) Classification and subsequent measurement

(1) Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income ("FVTOCI") (including debt investment and equity investment); or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding ("SPPI").

(1) Financial assets *(continued)*

A debt investment is measured at FVTOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding (“SPPI”).

On initial recognition of an equity investment that is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which IFRS 3 *Business Combinations* applies, the Group may irrevocably elect to present subsequent changes in the investment’s fair value in other comprehensive income (OCI). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVTOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets – Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets – The “SPPI” assessment

For the purposes of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Group’s claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets – Subsequent measurement and gains and losses

Financial assets classified as at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets classified as at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss. For purchased or originated credit-impaired financial assets, the Group recognises interest by applying the credit-adjusted effective interest rate to the amortised cost of the financial asset from initial recognition. The calculation does not revert to the gross basis even if the credit risk of the financial asset subsequently improves so that the financial asset is no longer credit-impaired.

Debt investments classified as at FVTOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments classified as at FVTOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

(2) Impairment of financial assets

The Group performs impairment assessment under ECL model and correspondingly recognises loss allowances on the following items:

- financial assets measured at amortised cost (including cash and cash equivalents, receivable from margin clients, reverse REPOs, accounts receivable in accordance with IFRS 15 Revenue from contracts with customers (“IFRS 15”) and loans to associates and joint ventures);
- debt investment measured at FVTOCI; and
- contract assets in accordance with IFRS 15.

The Group measures the loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

The Group always recognises lifetime ECL for trade receivable and contract assets that result from transactions that are within the scope of IFRS 15, and that do not contain a significant financing component in accordance with IFRS 15 (or when the group applies the practical expedient in accordance with IFRS 15). The ECL on these assets are assessed individually for debtors with significant balances and/or collectively using a provision matrix with appropriate groupings.

The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

3.2 Material accounting policy information *(continued)*

(e) Financial instruments *(continued)*

(ii) Classification and subsequent measurement *(continued)*

(2) Impairment of financial assets *(continued)*

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- significant changes in external market indicators of credit risk for a particular financial instruments or similar financial instruments with the same expected life;
- an actual or expected significant deterioration in the financial instrument's external or internal (if available) credit rating;
- an actual or expected internal credit rating downgrade for the borrower;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations;
- significant deterioration in the value of the collateral supporting the obligation or the quality of third-party guarantees or credit enhancements;
- an actual or expected significant deterioration in the quality of credit enhancement;
- significant changes in the expected performance and behavior of the borrower.

3.2 Material accounting policy information *(continued)*

(e) Financial instruments *(continued)*

(ii) Classification and subsequent measurement *(continued)*

(2) Impairment of financial assets *(continued)*

Depending on the nature of the financial instruments, the Group identifies significant changes in credit risk on individual financial instruments or a group or sub-group of financial instruments. For purpose of determining significant increases in credit risk on a collective basis, the Group groups financial instruments on the basis of shared credit risk characteristics, which may include, past-due status and credit risk ratings.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

(e) Financial instruments *(continued)*

(ii) Classification and subsequent measurement *(continued)*

(2) Impairment of financial assets *(continued)*

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt securities at FVTOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being overdue;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganisation;
- the disappearance of an active market for a security because of financial difficulties;
- the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

Presentation of allowance for ECL in the statement of financial position

The allowances for ECL for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

For debt securities at FVTOCI, the allowance for ECL is charged to profit or loss and is recognised in OCI.

Write-off policy

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

(3) Financial liabilities and equity – Classification, subsequent measurement and gains and losses

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Perpetual instruments, which include no contractual obligation for the Group to deliver cash or other financial assets or of which the Group has the sole discretion to indefinitely defer payment for distribution or redemption are classified as equity instruments.

Repurchase of the Group's own equity instruments is recognised in and deducted directly from equity. No gain or loss is recognised in profit or loss for the purchase, sale, issue or cancellation of the Group's own equity instruments.

(e) Financial instruments *(continued)*

(ii) Classification and subsequent measurement *(continued)*

(3) Financial liabilities and equity – Classification, subsequent measurement and gains and losses *(continued)*

Financial liabilities

Financial liabilities are classified as measured at FVTPL or amortised cost.

Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. For financial liabilities that are designated as at FVTPL, the amount of changes in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are not subsequently reclassified to profit or loss; instead, they are transferred to retained profits upon derecognition of the financial liability.

Financial liabilities at amortised cost are subsequently measured at amortised cost using the effective interest method.

(iii) Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows of the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

(e) Financial instruments *(continued)*

(iii) Derecognition *(continued)*

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged, cancelled, or expired. The Group also derecognises a financial liability when the terms of the financial liability are substantially modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(v) Fair value measurement principles

If there is an active market for a financial asset or financial liability, the quoted market price without adjusting for transaction costs that may be incurred upon future disposal or settlement is used to establish the fair value of the financial asset or financial liability. For a financial asset held or a financial liability to be assumed, the quoted price is the current bid price. For a financial asset to be acquired or a financial liability assumed, the quoted price is the current asking price. Quoted prices from an active market are prices that are readily and regularly available from an exchange, dealer, broker, industry group or pricing service agency, and represent actual and regularly occurring market transactions on an arm's length basis.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(e) Financial instruments *(continued)*

(v) Fair value measurement principles *(continued)*

If no active market exists for a financial instrument, a valuation technique is used to establish the fair value. Valuation techniques include using recent arm's length market transactions between knowledgeable willing parties, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models. Where discounted cash flow technique is used, future cash flows are estimated based on management's best estimates and the discount rate used is the prevailing market rate applicable for instrument with similar terms and conditions at the end of the year. Where other pricing models are used, inputs are based on market data at the end of the year.

In estimating the fair value of a financial asset or financial liability, the Group considers all factors including, but not limited to, risk-free interest rate, credit risk, foreign exchange rate and market volatility, that are likely to affect the fair value of the financial asset or financial liability.

The Group obtains market data from the same market where the financial instrument was originated or purchased.

(vi) Derivative financial instruments and hedge accounting

(1) Derivative financial instruments

Derivative financial instruments are initially measured at fair value at the date a derivative contract is entered into and are subsequently measured at fair value. Changes in fair value of these derivative financial instruments other than those designated as hedging instrument are recognised in profit or loss. Fair values are obtained from quoted market prices in active market or are determined using valuation techniques, including discounted cash flow model and options pricing model as appropriate.

A derivative instrument is recognised as an asset when the fair value is positive and as a liability when the fair value is negative.

(e) Financial instruments *(continued)*

(vi) **Derivative financial instruments and hedge accounting** *(continued)*

(1) *Derivative financial instruments (continued)*

Derivatives embedded in hybrid contracts that contain financial asset hosts within the scope of IFRS 9 are not separated. The entire hybrid contract is classified and subsequently measured in its entirety as either amortised cost or fair value as appropriate.

Derivatives embedded in non-derivative host contracts that are not financial assets within the scope of IFRS 9 are treated as separate derivatives when they meet the definition of a derivative, their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

(2) *Hedge accounting*

The Group designates certain derivatives as hedging instruments for fair value hedges or hedges of net investments in foreign operations.

At the inception of the hedging relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group assesses whether the hedging instrument is highly effective in offsetting changes in fair values of the hedged item attributable to the hedged risk.

Certain derivative transactions, while providing effective economic hedges under the Group's risk management positions, do not qualify for hedge accounting and are therefore treated as derivatives held for trading with fair value gains or losses recognised in profit or loss.

(e) Financial instruments *(continued)*

(vi) *Derivative financial instruments and hedge accounting* *(continued)*

(2) *Hedge accounting* *(continued)*

Assessment of hedging relationship and effectiveness

For hedge effectiveness assessment, the Group considers whether the hedging instrument is effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk, which is when the hedging relationships meet all of the following hedge effectiveness requirements:

- there is an economic relationship between the hedged item and the hedging instrument;
- the effect of credit risk does not dominate the value changes that result from that economic relationship; and
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of hedged item.

If a hedging relationship ceases to meet the hedge effectiveness requirement relating to the hedge ratio but the risk management objective for that designated hedging relationship remains the same, the Group adjusts the hedge ratio of the hedging relationship (i.e. rebalances the hedge) so that it meets the qualifying criteria again.

Hedges which meet the strict criteria for hedge accounting are accounted for in accordance with the Group's accounting policy as set out below.

(3) *Fair value hedges*

Fair value hedges are hedges of the Group's exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment, or an identified portion of such an asset, liability or unrecognised firm commitment, that is attributable to a particular risk and could affect the profit or loss. For fair value hedges, the carrying amount of the hedged item is adjusted for gains and losses attributable to the risk being hedged, the derivative is remeasured at fair value and the gains and losses from both are taken to profit or loss. For hedged items recorded at amortised cost, the difference between the carrying value of the hedged item and the face value is amortised over the remaining term of the original hedge using the effective interest rate method.

The Group discontinues fair value hedge accounting if the hedging instrument expires or is sold, terminated or exercised, the hedge no longer meets the criteria for hedge accounting. If the hedged items are derecognised, the unamortised fair value is recorded in profit or loss.

(4) *Hedges of net investments in foreign operations*

Hedges of net investments in foreign operations are hedges of the foreign currency risk of net investments in foreign operations. The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognised in other comprehensive income. The ineffective portion is recognised immediately in profit or loss and included in the statement of profit or loss. The cumulative gain or loss on the hedging instrument relating to the effective portion of the hedge that has been accumulated in equity are reclassified to profit or loss on the disposal or partial disposal of the foreign operation.

(f) Financial assets held under resale agreements and financial assets sold under repurchase agreements

Financial assets purchased under agreements to resell are reported not as purchases of the assets but as receivables and are carried in the statement of financial position at amortised cost.

Financial assets sold subject to a simultaneous agreement to repurchase these assets are retained in the statement of financial position and measured in accordance with their original measurement principles. The proceeds from the sale are reported as liabilities and are carried at amortised cost.

Interest earned on resale agreements and interest incurred on repurchase agreements are recognised respectively as interest income and interest expenses over the life of each agreement using the effective interest method.

(g) Property and equipment

(i) Recognition and measurement

Items of property and equipment are stated at cost less accumulated depreciation and impairment losses (Note 3.2(l)). Property and equipment under construction is stated at cost less impairment losses (Note 3.2(l)).

The cost of a purchased property and equipment asset comprises the purchase price, related taxes, and any expenditure directly attributable to bringing the asset into working condition for its intended use.

Costs of construction in progress include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, including costs of testing whether the related assets are functioning properly and, for qualifying assets, borrowing costs eligible for capitalisation.

(ii) Subsequent costs

The subsequent costs including the cost of replacing part of an item of property or equipment are recognised in the carrying amount of the item if the recognition criteria are satisfied, and the carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property and equipment are recognised in profit or loss as incurred.

(g) Property and equipment *(continued)*

(iii) Depreciation

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of property and equipment. Where the individual component parts of an item of property and equipment have different useful lives or provide benefits to the Group in different patterns, each part is depreciated separately. The estimated useful lives and the rate of net residual values of each class of property and equipment are as follows:

	Estimated useful life	Estimated rate of net residual value
Buildings	20 – 35 years	3% – 5%
Office equipment	2 – 5 years	0% – 10%
Furniture and fixtures	3 – 15 years	0% – 10%
Motor vehicles	3 – 5 years	0% – 10%
Leasehold improvements	Benefit period	Nil

No depreciation is provided in respect of property and equipment under construction.

Depreciation methods, useful lives and net residual values are reassessed at the end of the reporting period. In the current year, the Group has adjusted the estimated useful lives of certain property and equipment as a result of the periodic reassessment. The change in accounting estimates has had no material impact on the consolidated financial statements.

(iv) Gains or losses from the retirement or disposal

Gains or losses arising from the retirement or disposal of property and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss on the date of disposal or retirement.

(h) Leases

(i) Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(ii) The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group also applies practical expedient not to separate non-lease components from lease component, and instead to account for the lease component and any associated non-lease components as a single lease component.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases that have a lease term of 12 months or less from the commencement date (i.e. the date the underlying asset is available for use) and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Right-of-use assets

Except for short-term leases and leases of low value assets, the Group recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(h) Leases *(continued)*

(ii) *The Group as a lessee* *(continued)*

Right-of-use assets *(continued)*

The cost of right-of-use assets includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(h) Leases *(continued)*

(ii) *The Group as a lessee* *(continued)*

Lease liabilities *(continued)*

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the options; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in an index or a change in expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(h) Leases *(continued)*

(ii) **The Group as a lessee** *(continued)*

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability, less any lease incentives receivable, based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use assets. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Taxation

For the purposes of measuring deferred tax arising from the recognition of right-of-use assets and related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities. Temporary differences associated with right-of-use assets and lease liabilities are not recognised when the Group initially recognising the assets and liabilities and over the lease terms as a result of applying the initial recognition exemption of deferred tax under IAS 12 *Income Taxes*.

(i) Investment properties

Investment properties comprise real estate properties for the purpose of earning rental income and/or for capital appreciation. The Group's investment properties are accounted for using the cost model, which are stated in the financial statements at cost less accumulated depreciation and impairment losses (see Note 3.2(l)). Subsequent expenditure is capitalised only when it is probable that the future economic benefits associated with the expenditure will flow to the Group. Ongoing repairs and maintenance are expensed as incurred.

An investment property shall be derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. When an investment property is sold, transferred, retired or damaged, the Group recognises the amount of any proceeds on disposal, net of the carrying amount and related expenses in the consolidated statement of profit or loss.

The estimated useful lives and the estimated rate of net residual values of investment properties are as follows:

	Estimated useful life	Estimated rate of net residual value
Investment properties	30 years	3%

(j) Intangible assets

Intangible assets are stated in the statement of financial position at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses (Note 3.2(l)).

Useful lives of intangible assets are determined as the period that the assets are expected to generate economic benefits for the Group, and when there is no foreseeable limit on the period of time over which the asset is expected to generate economic benefits for the Group, the intangible assets are regarded as having indefinite useful life.

Amortisation of an intangible asset with finite useful life is charged to profit or loss on a straight-line basis over its estimated useful life. Both the period and method of amortisation are reviewed annually. In the current year, the Group has adjusted the estimated useful lives of certain intangible assets as a result of the periodic reassessment. The change in accounting estimates has had no material impact on the consolidated financial statements.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(j) Intangible assets *(continued)*

Intangible assets are not amortised while their useful lives are assessed to be indefinite. Any conclusion that the useful life of an intangible asset is indefinite is reviewed annually to determine whether events and circumstances continue to support the indefinite useful life assessment for that asset. If they do not, the change in the useful life assessment from indefinite to finite is accounted for prospectively from the date of change and in accordance with the policy for amortisation of intangible assets with finite lives as set out above.

The self-developed software and software acquired from third party shall be amortised over 5 to 10 years. The trade mark right and the securities trading seat rights in Chinese mainland shall be amortised over 10 years.

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development activities (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible asset is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses (if any), on the same basis as intangible assets that are acquired separately.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(k) Contract assets and contract liabilities

A contract asset is recognised when the Group recognises revenue (see Note 3.2(p)) before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for ECLs in accordance with the policy set out in Note 3.2(e)(ii)(2) and are reclassified to receivables when the right to the consideration has become unconditional.

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue (see Note 3.2(p)). A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis. When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method.

(l) Impairment of non-financial assets

Internal and external sources of information are reviewed at the end of year to identify indications that the following assets may be impaired or an impairment loss previously recognised no longer exists or may have decreased:

- property and equipment (other than properties carried at revalued amounts);
- investment properties;
- intangible assets;
- right-of-use assets;
- investments in subsidiaries, associates and joint ventures; and
- goodwill.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(I) Impairment of non-financial assets *(continued)*

If any impairment indication exists, the asset's recoverable amount is estimated. In addition, for goodwill and intangible assets that are not yet available for use and intangible assets that have indefinite useful lives, the recoverable amounts are estimated annually whether or not there is any indication of impairment.

– Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a CGU).

– Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the CGU to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of CGU are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (or group of units) and then, to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

– Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(m) Provisions and contingent liabilities

Provisions are recognised when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

A contingent liability is a present obligation arising from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Where the Group is jointly and severally liable for an obligation, the part of the obligation that is expected to be met by other parties is treated as a contingent liability and it is not recognised in the consolidated financial statements.

The Group assesses continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognised in the consolidated financial statements in the reporting period in which the change in probability occurs, except in the extremely rare circumstances where no reliable estimate can be made.

(n) Employee benefits

(i) Short-term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the period in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

Pursuant to the relevant laws and regulations in the PRC, the Group participated in the social pension schemes for employees arranged by local government labour and security authorities. The Group makes contributions to the retirement schemes at the applicable rates based on the amount stipulated by the government. The contributions are charged to profit or loss on an accrual basis. When employees retire, the local labour and security authorities are responsible for the payment of the basic retirement benefits to the retired employees.

(n) Employee benefits *(continued)*

(i) Short-term employee benefits and contributions to defined contribution retirement plans *(continued)*

The Group also participates in the Mandatory Provident Fund Scheme (the "MPF Scheme") for its employees in Hong Kong under the *Mandatory Provident Fund Scheme Ordinance* and there are no forfeited contributions that may be used by the Group to reduce the existing level of contributions.

(ii) Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise.

(iii) Termination benefits

A liability for a termination benefit is recognised at the earlier of when the Group can no longer withdraw the offer of the termination benefit and when it recognises any related restructuring costs.

(o) Offsetting

Income and expenses are presented on a net basis only when permitted by the accounting standards, or for gains and losses arising from a group of similar transactions such as in the Group's trading activity.

(p) Revenue recognition

Revenue from contracts with customers is recognised when control of the services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a service (or a bundle of services) that is distinct or a series of distinct services that are substantially the same and have the same pattern of transfer to the clients.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(p) Revenue recognition *(continued)*

The Group accounts for a contract with a client only when all of the following criteria are met:

- the parties to the contract have approved the contract and are committed to perform their respective obligations;
- each party's rights regarding the services to be transferred can be identified;
- the payment terms for the services to be transferred can be identified;
- the contract has commercial substance; and
- it is probable that the consideration to which the Group is entitled in exchange for the services to be transferred to the clients will be collected.

When a contract with a client does not meet the criteria stated above and the Group receives consideration from the client, the Group recognises the consideration received as revenue only when the Group has no remaining obligations to transfer services to the client and all, or substantially all, of the consideration promised by the client has been received by the Group is non-refundable, or the contract has been terminated and the consideration received from the client is non-refundable and the consideration received from a client will be recognised as a contract liability.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the client simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the client controls as the Group performs;
or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(p) Revenue recognition *(continued)*

Otherwise, revenue is recognised at a point in time when the client obtains control of the distinct service.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the promised services to the client. The estimated amount of variable consideration is included in the transaction price only to the extent that it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

At the end of each reporting period, the Group updates the estimated transaction price to represent faithfully the circumstances present at the end of the reporting period and the changes in circumstances during the reporting period.

When another party is involved in providing services to a client, the Group determines whether the nature of its promise is a performance obligation to provide the specified services itself as a principal or to arrange, as an agent, for the other party to provide those services.

The Group is a principal if it controls the specified service before that service is transferred to a client.

The Group is an agent if its performance obligation is to arrange for the provision of the specified service by another party. In this case, the Group does not control the specified service provided by another party before that service is transferred to the client. When the Group acts as an agent, it recognises revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the other party to provide the specified services.

Where the contract contains a financing component which provides a significant financing benefit to the client for more than 12 months, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction with the client, and interest income is accrued separately under the effective interest method. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. The Group takes advantage of the practical expedient in IFRS 15 and does not adjust the consideration for any effects of a significant financing component if the period of financing is 12 months or less.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(p) Revenue recognition *(continued)*

Further details of the Group's revenue and other income recognition policies are as follows:

(i) Underwriting and sponsoring fees, financial advisory fees and investment advisory fees

Underwriting and sponsoring fees are recognised when the Group has fulfilled its obligations under the underwriting and sponsoring contract.

Depending on the nature of the services and the contract terms, financial advisory fees and investment advisory fees are recognised in profit or loss over time using a method that depicts the Group's performance, or at a point in time when the service is completed.

(ii) Asset management fees

Asset management fees include periodic management fees calculated based on assets under management and performance-based fee. The fees are recognised progressively over time using a method that depicts the Group's performance, to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

(iii) Brokerage commission income

Brokerage commission income includes commission income from brokerage trading of securities and leasing out trading seats. Commission income from brokerage trading of securities is recognised on the trade date basis when the relevant transactions are executed. Commission income from leasing out trading seats is recognised when the related services are rendered.

(iv) Dividend income

Dividend income from investments is recognised when the rights to receive payment have been established.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(q) Expenses recognition

(i) Interest expenses

Interest expenses are accrued on a time proportion basis with reference to the amortised cost and the applicable effective interest rate.

(ii) Fee and commission expenses

Fee and commission expenses are charged to profit or loss on an accrual basis.

(iii) Other expenses

Other expenses are recognised on an accrual basis.

(r) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(s) Income tax

Income tax expense comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amount of tax is recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of year, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

(s) Income tax *(continued)*

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss related to the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination) and at the time of the transaction does not give rise to equal taxable and deductible temporary differences, and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The carrying amount of a deferred tax asset is reviewed at the end of year and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

(s) Income tax *(continued)*

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(t) Dividends appropriated to investors

Dividends or distributions of profits proposed in the profit appropriation plan which will be authorised and declared after the end of the year are not recognised as a liability at the end of the year but disclosed separately in the notes to the consolidated financial statements.

(u) Government grants

Government grants are recognised in the consolidated statement of financial position initially when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them.

Government grants that compensate the Group for expenses incurred are recognised as income in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Government grants that compensate the Group for the cost of an asset are deducted from the carrying amount of the asset and consequently are effectively recognised in profit or loss over the useful life of the asset by way of reduced depreciation expense.

(v) Related parties

(i) A person, or a close member of that person's family, is related to the Group if that person:

- (1) has control or joint control over the Group;
- (2) has significant influence over the Group; or
- (3) is a member of the key management personnel of the Group or the Group's parent.

(ii) An entity is related to the Group if any of the following conditions applies:

- (1) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
- (2) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
- (3) Both entities are joint ventures of the same third party;
- (4) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
- (5) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
- (6) The entity is controlled or jointly controlled by a person identified in Note 3.2(v)(i);
- (7) A person identified in Note 3.2(v)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(w) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial statements provided regularly to the Group's senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various business lines and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of clients, the methods used to distribute the products or provide the services, and the nature of the regulatory environment.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3.2, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(a) Fair value of financial instruments

Financial instruments without quotes from an active market require the use of valuation techniques to determine their fair values. Valuation techniques include the use of the latest market transaction information, reference to the current fair values of similar financial instruments, discounted cash flow method and option pricing model. Valuation techniques are subject to validation and adjustment before use to ensure that the valuation results reflect actual market conditions. The valuation models developed by the Group use market information as much as possible and information specific to the Group as little as possible. It should be noted that some of the information used in the valuation models requires management to make estimates (e.g. counterparty risk, risk correlation factors, etc.). The Group regularly reviews these estimates and assumptions and makes adjustments as necessary. Whilst the Group considers these valuations are the best estimates, inflationary environment and interest rates hike have resulted in greater market volatility and may affect the investees' or issuers' businesses, which have led to higher degree of uncertainties in respect of the valuations in the current and prior year.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(continued)*

(b) Determination of consolidation scope

All facts and circumstances must be taken into consideration in the assessment of whether the Group, as an investor, controls the investee. The principle of control includes three elements: (i) power over the investee; (ii) exposure, or rights, to variable returns from involvement with the investee; and (iii) the ability to use power over the investee to affect the amount of investor's returns. The Group reassesses whether it controls an investee when relevant facts and circumstances change to such an extent that there is a change in one or more of the three elements of control listed above.

For structured entities, the Group assesses whether the combination of investments it holds, if any, together with its remuneration creates exposure to variability of returns from the activities of the structured entities that is of such significance indicating that the Group is a principal. The structured entities shall be consolidated if the Group acts in the role of principal.

(c) Impairment of goodwill

The Group assesses the recoverable amount of the goodwill at the end of year and performs impairment test no matter whether there is indication that the unit may be impaired or not.

Determining whether goodwill is impaired requires an estimation of the recoverable amount of the CGU (or the group of CGUs) to which goodwill has been allocated, which is the higher of the value in use or fair value less costs of disposal. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the CGU (or the group of CGUs) and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, or change in facts and circumstances which results in downward revision of future cash flows or upward revision of discount rate, a material impairment loss or further impairment loss may arise. Furthermore, the estimated cash flows and discount rate are subject to higher degree of estimation uncertainties due to uncertainty on how the volatility in financial or foreign currency markets may progress and evolve.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(continued)*

(d) Measurement and recognition of ECLs

The measurement of the ECL allowance for debt investments measured at amortised cost and FVTOCI is an area that requires the use of models and assumptions about future economic conditions and credit behavior of the client (such as the likelihood of clients defaulting and the resulting losses). A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Determining the number and relative weightings of forward-looking scenarios for the ECL of each type of product/market.

See Note 58(a) for more details on ECL.

(e) Income tax

Determining income tax provisions involves judgement on the future tax treatment of certain transactions. The Group carefully evaluates tax implications of transactions and tax provisions are made accordingly. The tax treatment of such transactions is reconsidered periodically to take into account all tax legislations. Deferred tax assets are recognised for tax losses not yet used and temporary deductible differences. As disclosed in Note 29(b), the recognition of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future, which is a key source of estimation uncertainty especially the uncertainty on how the volatility in financial or foreign currency markets may progress and evolve. Management's assessment is constantly reviewed and additional deferred tax assets are recognised if it becomes probable that future taxable profits will allow the deferred tax assets to be recovered.

5. TAXATION

(a) Value-added tax (“VAT”) and surcharges

The applicable tax rate is 6% for the years ended 31 December 2023 and 2022. The urban maintenance and construction tax, education surcharge and local education surcharge are charged at 7%, 3% and 2% of VAT respectively for the years ended 31 December 2023 and 2022.

(b) Income tax

The income tax rate applicable to the Company and its subsidiaries in Chinese mainland is 25% for the years ended 31 December 2023 and 2022.

The profits tax rate applicable to the subsidiaries in Hong Kong Special Administrative Region (“Hong Kong SAR”) is 16.5% for the years ended 31 December 2023 and 2022. Taxes of other overseas subsidiaries are charged at the relevant local rates.

6. SEGMENT REPORTING

Reportable segments are identified based on operating segments which are determined based on the Group’s internal organisational structure, management requirements and internal reporting mechanisms. An operating segment is a component of the Group:

- that engages in business activities from which it may earn revenues and incur expenses;
- whose operating results are regularly reviewed by the Group’s management for the purposes of resources allocation and performance evaluation; and
- for which discrete financial information is available.

Two or more operating segments may be aggregated into a single operating segment if the segments have similar economic characteristics in respect of:

- nature of the services;
- type or class of clients for the services;
- approaches to providing the services; and
- nature of the regulatory environment.

6. SEGMENT REPORTING *(continued)*

For management purposes, the Group's businesses are structured and managed separately according to the nature of their operations and the services that the Group provides. Each of the Group's operating segments represents a strategic business unit and offers services which are subject to risks and returns different from those to which the services offered by the other operating segments are subject. A summary of the operating segments is as follows:

- the Investment Banking segment provides investment banking services, including equity financing, debt and structured financing and financial advisory services to domestic and overseas corporations and institutional clients.
- the Equities segment provides one-stop integrated financial services such as investment research, sales, trading, products and cross-border services to domestic and overseas professional investors, including institutional trading services and capital services such as primary brokerage, over-the-counter derivatives, capital introduction and market-making transactions.
- the FICC segment provides a package of services and supports in the areas of market making and financing to domestic and overseas institutional and corporate clients on fixed-income products such as interest rate, credit and structured products, as well as on overseas exchange and commodities.
- the Asset Management segment designs and provides a wide range of asset management products and services to domestic and overseas investors, including social security and annuity investment management business, institutional entrusted investment management business, overseas asset management business, retail and mutual fund business, etc.
- the Private Equity segment designs and provides integrated private equity fund products and services to domestic and overseas investors, mainly including corporate equity funds, Funds of Funds, dollar funds, real asset funds, infrastructure funds, etc.
- the Wealth Management segment provides a wide range of wealth management products and services, consisting of transactional services, capital services and product configuration services, to retail clients, families and corporate clients.
- the Others segment mainly comprises of other business departments, middle offices and back offices.

Note 1: The Company acquired CICC Wealth Management in 2017 and paid, as the cost of the acquisition, the consideration of RMB16,700,695,000 in the form of share issuance. The difference between the consideration and the fair value of the identifiable net assets attributable to the Company amounted to RMB1,582,678,646 and was recognised as goodwill related to the CGU of Wealth Management.

Note 2: In 2021, CICC Capital Management Co., Ltd. ("CICC Capital"), a subsidiary of CICC, made a capital injection in cash of RMB220,129,947 into Beijing Science & Technology Innovation Investment Management Co., Ltd. ("Science & Technology Innovation") and acquired 51% equity interests of Science & Technology Innovation. The difference between the cash injection and the fair value of the identifiable net assets attributable to CICC Capital amounted to RMB39,984,637 and was recognised as goodwill.

(b) Impairment test

The recoverable amount of the CGU in respect of Wealth Management is determined based on the present value of expected future cash flows, which was determined based on the financial budgets (including budgeted income and profit margins based on the CGU's past performance and management's expectations for market development) approved by management covering a certain period from 2024 to 2028, cash flows beyond the certain period are extrapolated using an estimated long-term growth rate of 3.00% (Year ended 31 December 2022: 3.00%). Pre-tax discount rates used by the Group was 13.28% (31 December 2022: 11.84%). As the goodwill arising from the acquisition of Science and Technology Innovation is not material, the details of the impairment analysis are not disclosed.

As at 31 December 2023 and 2022, the Group performed annual goodwill impairment tests. There was no impairment recognised for the goodwill related to the aforesaid CGUs since the recoverable amounts were greater than its carrying amounts individually.

29. DEFERRED TAX ASSETS/(LIABILITIES) *(continued)***(b) Deferred tax assets not recognised**

As at 31 December 2023, the accumulated deductible temporary differences and unused tax losses with no deferred tax asset recognised of the Group amounted to RMB2,073 million (31 December 2022: RMB1,498 million).

Deferred tax assets not recognised in respect of cumulative tax losses are mainly attributable to certain overseas subsidiaries of the Group which were set up to strengthen the Group's cross-border service capabilities.

Deferred tax asset arising from unused tax losses is recognised only to the extent that an entity has sufficient taxable temporary differences or there is other convincing evidence that sufficient taxable profit will be available against which the unused tax losses can be utilised by the entity, when the entity has a history of recent losses. The directors of the Company review the financial performance of these overseas subsidiaries at the end of year to determine whether there is sufficient taxable profit to be available against the unused tax losses, and they are of the opinion that it is probable that sufficient future taxable profits against which the losses can be utilised may not be available in these overseas entities in the foreseeable future, given the current market conditions, and that further expenditures of these overseas subsidiaries are considered necessary for expanding the Group's foreign operations based on its business strategies.

Note: Other contracts mainly include commodity options and commodity futures.

Under a daily mark-to-market settlement arrangement, any gains or losses of the Group's positions in futures contracts in Chinese mainland are settled on a daily basis. As at 31 December 2023, the fair value of those unexpired daily settled future contracts was RMB598,627,695 (31 December 2022: RMB860,305,806).

34. DERIVATIVE FINANCIAL ASSETS/(LIABILITIES) *(continued)***(a) Hedging instruments****(i) Fair value hedges**

Fair value hedges are used by the Group to protect against changes in the fair value of financial liabilities due to movements in market interest rates. Interest rate swaps are used to hedge the interest rate risk of the selected long-term debt securities issued.

The gains of fair value hedges are presented as follows:

	Year ended 31 December	
	2023	2022
Gains arising from fair value hedges, net:		
Interest rate contracts	50,559,629	(18,539,345)
Hedged items attributable to the hedged risk	(40,610,763)	29,642,738
Total	9,948,866	11,103,393

The analysis on notional amounts of the items designated as hedging instruments in fair value hedges by tenure is presented as follows:

	As at 31 December 2023			Total
	Less than 6 months (inclusive)	6 months to 12 months (inclusive)	More than 12 months

34. DERIVATIVE FINANCIAL ASSETS/(LIABILITIES) *(continued)***(a) Hedging instruments** *(continued)***(i) Fair value hedges** *(continued)*

Details of the Group's hedged risk exposure in fair value hedges strategy are set out below:

Long-term debt securities issued	As at 31 December	
	2023	2022
Carrying amount of hedged items	18,321,073,414	6,546,764,966
Accumulated adjustments to the fair value of hedged items	45,127,039	18,341,250

(ii) Hedges of net investments in foreign operations

The Group's consolidated financial position is affected by the gain or loss through currency fluctuations as the Company and its subsidiaries have different functional currencies. The Group hedges such foreign exchange exposure in limited circumstances. The Group hedges exchange exposures using foreign exchange forward contracts for certain net investments in foreign operations. Under the hedging relationships, the Group separates the forward element and the spot element of a forward contract and designates only the change in the value of the spot element of the forward contract as the hedging instrument. There was no hedge ineffectiveness for the years ended 31 December 2023 and 2022.

For the year ended 31 December 2023, the net gains from the hedging instruments recognised in other comprehensive income amounted to RMB15,460,231 (Year ended 31 December 2022: the net losses amounted to RMB5,443,508). For the year ended 31 December 2023, the net losses associated with forward elements of forward contracts recognised in profit or loss were RMB11,686,568 (Year ended 31 December 2022: the net gains amounted to RMB1,030,898).

As at 31 December 2023, the notional amount of hedging instruments designated as hedges of net investments in foreign operations by the Group was RMB722,090,400 (31 December 2022: RMB300,168,756), and the tenure is within 6 months (31 December 2022: within 6 months).

35. CASH HELD ON BEHALF OF CLIENTS

The Group maintains segregated deposit accounts with banks and authorised institutions to hold client monies arising from its ordinary course of business. The Group has classified their client monies as cash held on behalf of clients under current assets of the consolidated statement of financial position and recognised the corresponding current liabilities, in particular, accounts payable to brokerage clients and accounts payable to underwriting clients, on the grounds that the Group is liable for any misappropriation of their clients' monies. In Chinese mainland, clients' monies are restricted and governed by relevant third-party deposit regulations issued by the China Securities Regulatory Commission (the "CSRC"). In Hong Kong SAR, clients' monies are restricted and governed by the *Securities and Futures (Client Money) Rules* under the *Securities and Futures Ordinance*.

50. CAPITAL, RESERVES AND DIVIDENDS *(continued)*

(b) Reserves *(continued)*

(ii) Surplus reserve

The surplus reserve represents statutory surplus reserve. According to the Accounting Standards for Business Enterprises issued by the Ministry of Finance of the People's Republic of China ("MOF") and other relevant requirements, the Company is required to appropriate 10% of its net profit, after offsetting prior year's accumulated losses, to the statutory surplus reserve until the reserve balance reaches 50% of its registered capital. Subject to the approval of the shareholders, the statutory surplus reserve may be used to offset accumulated losses, or converted into capital of the Company provided that the balance of the statutory surplus reserve after such capitalisation is not less than 25% of the registered capital immediately before the capitalisation.

The Company makes the appropriation to surplus reserve at the end of each year.

(iii) General reserves

General reserves include general risk reserve and trading risk reserve.

In accordance with the Financial Rules for Financial Enterprises (Order of the MOF No. 42) and the application guidance (Cai Jin [2007] No. 23) issued by the MOF, and the Guideline of Supervision of Annual Report of Securities Companies issued by the CSRC, the Company is required to appropriate an amount equivalent to 10% of the net profit to the general risk reserve.

In addition, the Company as the mutual fund custodian shall accrue general risk reserve at a proportion of no less than 2.5% of custodian fee income. The accrument could be suspended on condition that the ending balance of risk reserve reached 0.25% of the aggregate of net asset values of the mutual funds under custody at the end of last quarter.

In accordance with the Guideline of Supervision of Annual Report of Securities Companies issued by the CSRC, the Company is required to appropriate an amount equivalent to 10% of the net profit to the trading risk reserve.

In accordance with the Guidelines for the Large Collective Asset Management Business of Securities Companies on implementing the Guiding Opinions for Regulating the Asset Management Business of Financial Institutions, securities companies shall be analogically governed by relevant laws and requirements of mutual funds to manage and operate large collective products. Accordingly, the Company accrued general risk reserves for large collective asset management business in accordance with relevant regulations on mutual funds.

General reserves for the Company's subsidiaries are appropriated if relevant requirements are in place.

(c) Dividends

On 28 March 2024, the 2023 profit distribution plan was approved by the Board of Directors. For details, please refer to Note 63(d).

The Company's Annual General Meeting approved the 2022 profit distribution plan on 30 June 2023. The distribution of cash dividends amounting to RMB868,906,236 was made in August 2023.

Dividends proposed by the directors are not deducted from equity, until approved by the Annual General Meeting. After being approved and declared, the dividends are recognised as a liability.

51. OTHER EQUITY INSTRUMENTS

At initial recognition, the Group classifies perpetual subordinated bonds issued as financial liabilities or equity instruments based on their contractual terms and their economic substance after considering the definition of financial liabilities and equity instruments.

Perpetual subordinated bonds issued that should be classified as equity instruments are recognised in equity at the actual amount received. Any distribution of dividends or interests during the instruments' duration is treated as profit distribution. When the perpetual subordinated bonds are redeemed pursuant to the contractual terms, the redemption price is charged to equity.

51. OTHER EQUITY INSTRUMENTS *(continued)*

Contractual terms related to the above perpetual subordinated bonds are as follows:

- The bonds bear interest at a fixed rate;
- The nominal interest rate of the first five interest-bearing years is determined by book building and remains unchanged. The nominal interest rate resets every five years since the sixth interest-bearing year;
- The issuer has an option to defer interest payment, except in the event of mandatory interest payments, so that at each interest payment date, the issuer may choose to defer to the next interest payment date the payment for the interest for the current period as well as all interests and accreted interests as a result of exercising the interest payment deferral option. There is no limitation on number of times that the issuer exercises the deferral option. Exercising the interest payment deferral option shall not be deemed as the issuer's failure to pay the interest in full as agreed. Mandatory interest payment events are limited to dividend distributions to ordinary shareholders and reductions of registered capital in the 12 months before the interest payment date.

The Company does not have any contractual obligation to deliver cash or other financial assets to redeem the above issued perpetual subordinated bonds. The redemption of the perpetual subordinated bonds is solely at the discretion of the Company.

- (a) The Company issued 20 CICC Y1 with an aggregate principal amount of RMB5.0 billion and the interest commencement date is 28 August 2020, with the nominal interest rate of 4.64%.
- (b) The Company issued 21 CICC Y1 with an aggregate principal amount of RMB1.5 billion and the interest commencement date is 29 January 2021, with the nominal interest rate of 4.68% and issued 21 CICC Y2 with an aggregate principal amount of RMB2.0 billion and the interest commencement date is 26 April 2021, with the nominal interest rate of 4.20%.
- (c) The Company issued 22 CICC Y1 with an aggregate principal amount of RMB3.9 billion and the interest commencement date is 13 January 2022, with the nominal interest rate of 3.60% and issued 22 CICC Y2 with an aggregate principal amount of RMB4.0 billion and the interest commencement date is 10 October 2022, with the nominal interest rate of 3.35%.

52. COMMITMENTS

(a) Capital commitments

As at 31 December 2023 and 2022, the capital commitments contracted but not provided for in the consolidated financial statements were as follows:

	As at 31 December	
	2023	2022
Contracted, but not provided for	4,432,574,807	4,748,772,645

(b) Underwriting commitments

According to the relevant tendering documents, there was no underwriting commitment taken but not provided for as at 31 December 2023 and 2022.

53. INTERESTS IN STRUCTURED ENTITIES

(a) Interests in structured entities consolidated by the Group

When considering the power over structured entities, the Group determines whether the Group is a principal or an agent based on a combination of factors such as the Group's decision-making scope, the power of other investees and the exposure to variable returns, etc. The structured entities in which the Group exercises investment decision-making power as a principal and in which the Group's entitled variable return accounts for a relatively large portion of the total return of the structured entities shall be consolidated.

As at 31 December 2023, the total assets of the consolidated structured entities amounted to RMB24,422,112,760 (31 December 2022: RMB34,692,090,052), and the carrying amount of interests held by the Group in the consolidated structured entities amounted to RMB23,705,409,380 (31 December 2022: RMB18,593,234,732).

53. INTERESTS IN STRUCTURED ENTITIES (continued)**(b) Interests in structured entities sponsored by third party institutions**

The types of structured entities that the Group does not consolidate but holds an interest in include wealth management products, asset management schemes, mutual funds, trust products, and other vehicles issued by other financial institutions. The Group's exposure to the variable returns in these structured entities is not significant and the maximum exposure to losses is limited to the carrying amount of the interests held by the Group in these structured entities.

	As at 31 December	
	2023	2022
Carrying amount of interests held by the Group		
– Financial assets at fair value through profit or loss	89,074,308,164	107,007,554,074

(c) Interests in structured entities sponsored by the Group but not consolidated

Structured entities in which the Group serves as a general partner or a manager, and therefore over which the Group has a power during the reporting period include private equity funds, mutual funds and asset management products. These structured entities are mainly financed through issuing units to investors.

	As at 31 December	
	2023	2022
Carrying amount of interests held by the Group		
– Financial assets at fair value through profit or loss	8,880,373,963	8,639,188,097
– Accounts receivable	1,289,659,820	1,175,179,962
– Interests in associates and joint ventures	23,790,633	28,557,379

For the year ended 31 December 2023, the management fee and performance fee obtained from these structured entities amounted to RMB3,267,002,807 (Year ended 31 December 2022: RMB3,200,602,010).

Except for those which have been consolidated by the Group as set out in Note 53(a), the Group's exposure to the variable returns in the rest of these structured entities is not significant. The maximum exposure to losses is limited to the carrying amount of the interests held by the Group in these structured entities.

During the year, the Group did not provide financial support to these unconsolidated structured entities and has no intention of providing material financial or other support in the future.

54. TRANSFERS OF FINANCIAL ASSETS

In the ordinary course of business, the Group enters into certain transactions in which it transfers recognised financial assets to third parties or customers. If these transfers qualify for derecognition, the Group derecognises all or part of the financial assets where appropriate. If the Group has retained substantially all the risks and rewards on these assets, the Group continues to recognise these assets.

(a) Repurchase agreements

Sales and repurchase agreements are transactions in which the Group sells a financial asset and simultaneously agrees to repurchase it (or an asset that is substantially the same) at an agreed date and price. The repurchase price is fixed and the Group is still exposed to substantially all risks and rewards of the financial asset transferred. The financial asset is not derecognised from the consolidated financial statements but is regarded as “collateral” for any secured borrowing arrangements because the Group retains substantially all the risks and rewards of the financial asset. A financial liability is recognised for cash received under the borrowing arrangements. In this kind of transactions, the recourse of counterparties against the Group is not limited to the transferred financial assets.

The following tables provide a summary of carrying amounts related to the transferred financial assets that are not derecognised in their entirety and the associated liabilities:

As at 31 December 2023	Financial assets measured at fair value through profit or loss	Financial assets measured at fair value through other comprehensive income	Total
Carrying amount of transferred assets	6,779,645,661	15,223,178	6,794,868,839

Net position	691,801,815	176,884,556	868,686,371

(b) Securities lending arrangement

The Group enters into securities lending agreements with clients under which it lends out its financial assets measured at fair value through profit or loss that are secured by clients' securities and deposits held as collateral. As at 31 December 2023, the equity securities and exchange-traded funds which were lent out by the Group amounted to RMB1,586,669,375 (31 December 2022: RMB1,898,856,092). Pursuant to the securities lending agreements, the Group lent its own securities to clients. In view of this, the Group determined that it retains substantially all the risks and rewards of ownership of these securities and therefore did not derecognise these securities in the consolidated financial statements.

55. RELATED PARTY RELATIONSHIPS AND TRANSACTIONS**(a) The controlling shareholder of the Company – Central Huijin Investment Ltd. (“Huijin”)**

As at 31 December 2023 and 2022, Huijin owned 40.17% of the equity interest of the Company directly and indirectly.

Huijin does not carry out any other commercial business activities, nor does it interfere with the daily operations of the state-owned key financial enterprises it controls. The Group's daily business transactions with Huijin and Huijin's affiliates are conducted on normal commercial terms.

(g) Directors' and supervisors' interests in contracts and service contracts

At any time during the year, none of the Group's directors or supervisors had any interest, whether directly or indirectly, in any contract (excluding service contracts) of significance in relation to the Company's business to which the Company, or its associated companies, is a party. None of the directors and supervisors has entered into a service contract with the Company that cannot be terminated by the Company within one year without payment of compensation (other than statutory compensation).

56. FAIR VALUE INFORMATION

The Group uses the following hierarchy for determining and disclosing the fair values of financial instruments:

- Level I: Fair value measured using only Level I inputs (i.e. unadjusted quoted prices in active markets for identical assets or liabilities) at the measurement date.
- Level II: Fair value measured using Level II inputs (i.e. observable inputs which are unqualified as Level I inputs), and no significant unobservable inputs. Unobservable inputs are the inputs for which market data are not available.
- Level III: Fair value measured using significant unobservable inputs.

If there is a reliable market quote for a financial instrument, the fair value of the financial instrument is measured based on quoted market price. If a reliable quoted market price is not available, the fair value of the financial instrument is estimated using valuation techniques. For the fair value of financial instruments categorised within Level II, the valuation techniques applied include discounted cash flow analysis and option pricing models. The significant observable inputs to the valuation techniques used for Level II include future cash flows estimated based on contractual terms, risk-free and benchmark interest rates, credit spreads and foreign exchange rates. For the fair value of financial instruments categorised within Level III, fair values are determined based on the reports on capital account for these instruments obtained by management or determined by using valuation techniques such as discounted cash flow model, market comparable company analysis and recent financing price method.

56. FAIR VALUE INFORMATION *(continued)*

(b) Basis for determining the market value used for fair value measurement categorised within Level I

If there is an active market for a financial instrument at fair value through profit or loss or through other comprehensive income, the quoted market price is used to establish the fair value of the financial instrument at the end of the year.

(c) Valuation techniques used and the qualitative information of key parameters for fair value measurement categorised within Level II

For debt securities investments included in financial instruments at fair value through profit or loss or through other comprehensive income, the fair value is determined by the quoted prices from valuation systems of the relevant bond registrars and clearing houses. Observable inputs reflecting market conditions are used by the relevant bond registrars and clearing houses in the quote formation process.

For private securities investment funds and asset management products at fair value through profit or loss, the fair value is determined by net asset values provided by managers.

The quoted market price is used to establish the fair value of derivative financial instruments. Based on the contractual terms and maturity dates, the prices are measured by discounted future cash flows using the market interest rates similar to those of derivative financial instruments to verify reasonable prices.

There is no significant change for the Group's applied fair value valuation techniques within Level II for the years ended 31 December 2023 and 2022.

56. FAIR VALUE INFORMATION *(continued)*

(d) Valuation techniques used and the qualitative and quantitative information of key parameters for fair value measurement categorised within Level III

The following table presents the valuation techniques and inputs used in the valuation of the major financial instruments measured at Level III. As at 31 December 2023 and 2022, the fair value of the financial instruments measured at Level III is not significantly sensitive to a reasonable change in these unobservable inputs.

Financial instruments	Fair value hierarchy	Valuation technique(s)	Significant unobservable input(s)	Relationship of unobservable input(s) to fair value
Financial assets at fair value through profit or loss				
– Debt securities	Level III	Discounted cash flow models	Estimated future cash flows, discount rate	The higher the estimated future cash flows, the higher the fair value The higher the discount, the lower the fair value
– Equity securities	Level III	Option pricing models	Volatility	The higher the volatility, the lower the fair value
– Equity securities	Level III	Market approach	Valuation multiples (Such as P/E, P/B, P/S), liquidity discount	The higher the valuation multiples, the higher the fair value The higher the discount, the lower the fair value
Derivative financial instruments over-the-counter (“OTC”) options	Level III	Option pricing models	Volatility	The higher the volatility, the greater impact on the fair value
Financial liabilities at fair value through profit or loss				
– Structured products	Level III	Option pricing models	Volatility	The higher the volatility, the greater impact on the fair value

There is no significant change for the Group’s applied fair value valuation techniques within Level III for the years ended 31 December 2023 and 2022.

(f) Transfer between levels

For the year ended 31 December 2023, the Group's investments in suspended stocks of RMB5 million (Year ended 31 December 2022: RMB225 million) were transferred from Level I to Level II, as the quoted prices of these stocks were no longer regularly available.

For the year ended 31 December 2023, the Group's investments in equity securities of RMB24 million (Year ended 31 December 2022: RMB9 million) were transferred from Level I or II to Level III, as the fair values of these investments were determined with the use of valuation techniques instead of quoted prices, due to events such as delisting, etc.

For the year ended 31 December 2023, the Group had no investments in fund and other securities transferred from Level II to Level III, as the fair values of these investments were determined with the use of valuation techniques instead of quoted prices, due to events such as potential credit risk in existence, etc. (Year ended 31 December 2022: RMB46 million).

For the year ended 31 December 2023, the Group's investments at FVTPL of RMB1,662 million (Year ended 31 December 2022: RMB177 million) were transferred from Level III to Level I, as the fair values of these investments were determined with the use of quoted prices instead of valuation techniques, due to events such as expiration of lock-up period in equity and fund, etc.

In accordance with its accounting policies, the Group recognises transfers among the levels as at the end of the reporting period in which such transfers occur.

(g) Fair value of financial assets and liabilities carried at other than fair value

The financial assets carried at other than fair value mainly include cash and bank balances, cash held on behalf of clients, refundable deposits, receivable from margin clients, accounts receivable and reverse REPOs. The carrying amounts approximate their fair values.

The financial liabilities carried at other than fair value mainly include short-term debt securities issued, placements from financial institutions, REPOs, accounts payable to brokerage clients, long-term debt securities issued and lease liabilities. As at 31 December 2023, the fair values of long-term debt securities issued amounted to RMB149,331,351,874 (31 December 2022: RMB151,599,741,440), and the carrying amounts for other financial liabilities approximate their fair values.

57. OFFSETTING OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

When there is a current legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously, the relevant financial assets and liabilities:

- are offset in the consolidated statement of financial position of the Group; and
- are subject to an enforceable master netting agreement or similar agreement, irrespective of whether they are offset in the consolidated statement of financial position of the Group.

The tables below present the amounts of account receivables and payables which are settled on the same settlement date and for the same currency on a net basis with the same overseas clearing house.

58. FINANCIAL RISK MANAGEMENT

The Group's risk management aims to effectively allocate risk-based capital, limit risks to a controllable level, maximise the corporate value and constantly solidify the foundation for a steady and sustainable development of the Group. The Group monitors and controls different types of risk exposures, such as credit risk, liquidity risk and market risk which incurred from Group's holdings on various financial instruments.

(a) Credit risk

Credit risk refers to the risk caused by deterioration in creditworthiness or default losses of counterparties, borrowers and securities issuers.

The exposure to credit risk of the Group arises mainly from: (1) credit risk from default or bankruptcy of debtors, including the loss due to default of intermediary institutions (such as brokers or custodian banks), in which case the risk exposure is the total value of outstanding debts; (2) counterparty risk in terms of failure to fulfill obligations under contracts or deterioration in creditworthiness of counterparties in the OTC derivative transactions (such as forward, swap or option transactions), in which case the risk exposure depends on current exposure and potential future exposure of the derivatives; (3) credit risk caused by the deterioration in creditworthiness or default losses of securities issuers, in which case the risk exposure is the total value of outstanding debts.

At the end of the reporting period, the Group's maximum credit risk exposure is the net carrying amount of financial assets without taking account of any collateral or other credit enhancements.

Measurement of ECL

The Group recognises an impairment loss allowance for financial assets measured at amortised cost (including receivable from margin clients, reverse REPOs, etc.) and debt securities measured at FVTOCI via ECL model. The measurement of the ECL is based on the Probability of Default ("PD"), Loss Given Default ("LGD") and Exposure at Default ("EAD").

A default is that a client, a financier or an issuer of investment products fails to fulfil the contract. PD is an estimate of the likelihood of default over a given time horizon. The Group estimates the PD based on its internal rating model, integrating factors such as external rating information, macroeconomic environment and changes in quantitative and qualitative indicators of the counterparties or bonds issuers. LGD is an estimate of the loss bore by the Group on the exposure at default. In the determination of LGD, the Group estimates the recoverable cash flow from disposing underlying assets and collaterals by taking their liquidity and relevant historical market data into full consideration, and estimates LGD based on the difference between the recoverable and the contracted cash flows. EAD is the amount that shall be repaid to the Group when a default occurs. When measuring the ECL, the Group classifies the assets into different risk stages based on whether the credit risk of each asset has increased significantly since the initial recognition. Accordingly, the Group measures the loss allowance on either a 12-month or the lifetime basis for the investments at different risk stages.

58. FINANCIAL RISK MANAGEMENT *(continued)*

(a) Credit risk *(continued)*

Provision method of ECL

The Group recognises impairment allowance based on ECL for businesses such as debt securities investment and margin financing. For the financial instruments for which the ECL measurement is used, the Group classifies these financial instruments into different risk stages based on whether the credit risk of each instrument has increased significantly since the initial recognition. The financial instruments with low credit risk on the balance sheet date or of which the credit risk has not increased significantly since the initial recognition will be classified into “Stage 1”; the financial instruments of which the credit risk has increased significantly since the initial recognition will be classified into “Stage 2”; and the financial instruments that have been credit-impaired will be transferred into “Stage 3”. The Group measures ECL based on the parameters such as PD, LGD, EAD and forward looking information, and regularly tests and updates ECL models and assumptions.

The criteria of significant increase in credit risk (“SICR”)

The Group considers a financial instrument experiencing SICR when one or more of the following quantitative and qualitative criteria have been met: (1) for debt securities investment business: the latest external or internal ratings of the bond issuer or the debt securities per se decline substantially compared with their ratings on the initial recognition, or there are adverse changes in business, financial or external conditions of the bond issuer and these adverse changes are expected to cause a significant decrease in the bond issuer’s ability to meet its obligations; (2) for margin financing business: the performance guarantee ratio is lower than or equal to the predetermined liquidation line but above 100%, or when contractual payments are less than or equal to 30 days past due.

The criteria of credit-impaired assets

The Group considers that a financial instrument has been credit-impaired when (1) for debt securities investment business: the circumstances in which a bond issuer can be regarded as default include failure to perform the payment obligations as agreed, having other bond defaults or having significant financial difficulties; (2) for margin financing business: the performance guarantee ratio is lower than or equal to 100%, or when contractual payments are more than 30 days past due.

Forward-looking information

The Group measures ECL using forward looking information without undue costs or efforts. In order to adjust the default rates to incorporate forward-looking information, the Group, using forecasted year-on-year growth rates on GDP (cumulatively accounted) and broad measure of money supply (M2) as the basis, establishes relationship between the two macroeconomic indicators and default rates with the use of statistical models and sets different scenario weightings. The Group determined the forecasted values of the two macroeconomic indicators to be 4.91% and 9.95% as at 31 December 2023 based on publicly available forecasts of third parties. The tuning parameter was determined with the use of weighted average of the values under optimistic, neutral and pessimistic hypothetical scenarios in combination with qualitative analysis method.

58. FINANCIAL RISK MANAGEMENT *(continued)***(a) Credit risk** *(continued)***Debt securities (including debt securities measured at FVTPL and at FVTOCI)**

The Group emphasizes the diversification level of the fixed income credit products and the credit products invested are those predominantly with relatively high credit ratings. The Group controls its market risk and credit risk exposures by various initiatives, such as setting up limits on investment size, product types, credit ratings and concentrations, and carrying out forward-looking risk assessment, as well as closely monitoring and tracking bond issuers' business performance and credit profiles so as to constantly evaluate and warn any credit deterioration.

The carrying amount of the Group's debt securities is presented as follows:

58. FINANCIAL RISK MANAGEMENT *(continued)*

(a) Credit risk *(continued)*

Derivatives

Regarding the counterparty credit risk of the OTC derivatives business, the Group has established a counterparty credit rating system. Through a combination of qualitative and quantitative methods, it comprehensively evaluates counterparty qualifications and determines credit ratings accordingly. On the basis of credit ratings, the Group sets a corresponding limit of credit risk exposure for each counterparty, and manages counterparty credit risk by signing OTC derivatives trading master agreements and performance guarantee agreements, and by requiring performance guarantees. The Group calculates the minimum amount required as collateral and credit risk exposure for an OTC derivative counterparty by establishing dynamic scenarios combined with stress test, and measures and monitors the minimum collateral value and credit risk exposure through the system on a daily basis. In view of this, the Group maintains the credit risk exposure of derivatives transactions within an acceptable range.

(b) Liquidity risk

Liquidity risk refers to the risks arising from the Group's inability to obtain sufficient funds at reasonable costs in a timely manner to settle debts due, fulfill other payment obligations, and satisfy the funding needs in conducting normal business operations.

The Group has adopted the following measures to manage liquidity risk: closely monitoring balance sheets of the Group and its branches and subsidiaries, and managing liquidity gaps between assets and liabilities; setting liquidity risk limits based on the Group's overall situation and regulatory requirement; conducting cash flow forecast and liquidity risk stress test on a regular and irregular basis to analyse and assess the Group's liquidity risk exposure; maintaining adequate high-quality liquid assets and establishing liquidity contingency plan for potential liquidity emergencies.

(c) Market risk

Market risk is the risk of loss of the Group's income and value of financial instruments arising from unfavourable market conditions such as adverse changes in interest rates, stock prices and exchange rates. The objectives of market risk management are to monitor the market risk and control it within the acceptable range and to maximise the risk-adjusted return. The Group conducts stress test on a regular basis and calculates risk control indicators and operating indicators under different scenarios. The Group monitors the market risk for investment portfolios and non-trading portfolios separately.

58. FINANCIAL RISK MANAGEMENT *(continued)***(c) Market risk** *(continued)***(i) Market risk of investment portfolios**

Investment portfolio includes financial assets at FVTPL and at FVTOCI, derivative financial assets, financial liabilities at FVTPL, derivative financial liabilities. The risk exposures are measured and monitored within limits set by management. The Group adopts various kinds of methods (such as Value-at-Risk ("VaR") analysis, sensitivity limit analysis, investment concentration limit analysis, scenario analysis and stress test) to manage market risk. The VaR analysis is a major tool used by the Group to measure and monitor market risk of the investment portfolios.

VaR is a technique with the use of which the Group estimates the potential losses that could incur on its risk position under the unfavourable market condition over a specified time horizon and at a given level of confidence. The independent risk management personnel of the Group computes VaR using historical simulation method and implements relevant controls over the market risk accordingly. The historical simulation method is used to estimate future profit or loss based on observed historical market risk factors movements and sensitivity of the current investment portfolio to those risk factors.

Based on three-year historically observed market risk factors movements, the Group has adopted the historical simulation method at the 95% confidence level to compute its daily VaR. The 95% daily VaR indicates that the expected one-day loss of the Group's portfolio will not exceed this VaR at 95% chance, if the portfolio were held constant for one day. Although VaR is an important tool for measuring market risk, the assumptions on which the model is based do have some limitations, including the following:

- When there is severe market illiquidity for a prolonged period, the realisable value of the Group's investment portfolio in a trade day may vary from the estimate due to the one-day time horizon of VaR;
- The 95% confidence level does not reflect losses that may occur beyond this level. Under the model currently in use, the loss in portfolio value would have been exceeded with a frequency of 5%;
- VaR is calculated on an end-of-day basis and does not take into account intraday trading; and
- Historical changes in market risk factors may not be accurate predictors of future market conditions, especially in terms of fully incorporating the risk of extreme market events.

58. FINANCIAL RISK MANAGEMENT *(continued)***(c) Market risk** *(continued)***(ii) Market risk of non-trading portfolios****(1) Interest rate risk**

The non-trading portfolios of the Group are subject to the risk of interest rate fluctuations. Except for the financial assets and liabilities managed through VaR, the Group's major interest-earning assets in its non-trading portfolios include deposits with banks and with clearing houses, receivable from margin clients and reverse REPOs; and its interest-bearing liabilities mainly include short-term debt securities issued, placements from financial institutions, REPOs and long-term debt securities issued.

The Group adopts sensitivity analysis to measure the interest rate risk of non-trading portfolios. Assuming all other variables remain constant, interest rate sensitivity analysis is as follows:

	Sensitivity of net profit	
	Year ended 31 December	
	2023	2022
Changes in basis points (bps)		
Increase by 50 bps	(406,942,657)	(328,607,802)

58. FINANCIAL RISK MANAGEMENT *(continued)*

(c) Market risk *(continued)*

(ii) Market risk of non-trading portfolios *(continued)*

(1) Interest rate risk *(continued)*

The sensitivity analysis is based on the static rate risk profile of the Group's assets and liabilities. The sensitivity analysis measures the impact of changes of interest rates in terms of how annualised net profit or loss and equity would have been affected by repricing of the Group's assets and liabilities over the next 12 months. The sensitivity analysis is based on the following assumptions that:

- The 50-bp changes of interest rates at the end of the reporting periods apply to all of the Group's non-trading financial instruments in the next 12 months;
- The shift in the yield curve is parallel with the changes of interest rate;
- There are no changes in the assets and liabilities portfolios;
- Other variables (including exchange rates) remain unchanged; and
- Risk management measures undertaken by the Group are not considered.

As the actual interest rate changes can differ from the above assumptions, the impact of the interest rate changes on the Group's net profit and equity may vary from the estimated results of the sensitivity analysis.

58. FINANCIAL RISK MANAGEMENT *(continued)***(c) Market risk** *(continued)***(ii) Market risk of non-trading portfolios** *(continued)***(2) Currency risk**

Currency risk is the risk arising from fluctuations of foreign exchange rates. The table below presents the exchange rate sensitivity analysis of the Group's major currency risk exposures, which calculates the impact of reasonably possible changes in the foreign exchange rate on equity where all other variables are held constant. This analysis does not take into account any foreign exchange correlations or changes in fair values of financial instruments denominated in foreign currencies, nor does it take into account any measures (for instance use of currency derivatives) that the Group may take to address the adverse impact of foreign exchange exposure on equity.

Currency	Changes in exchange rates	Sensitivity of equity As at 31 December	
		2023	2022
USD	1%	(335,710,756)	(282,026,183)
Hong Kong dollar ("HKD")	1%	73,829,664	45,047,240
Others	1%	2,047,180	2,873,905

While the table above indicates the impact on equity of 1% appreciation of USD, HKD and other foreign currencies, there will be an opposite effect with the same amount if the currencies depreciate by the same percentage.

The table below presents the Group's exposure to foreign exchange risk as at 31 December 2023 and 2022. The Group's exposure to RMB is presented in the tables below for comparison purposes. Included in the table are the carrying amounts of the assets and liabilities of the Group in RMB equivalent, categorized by the original currencies.

59. CAPITAL MANAGEMENT

The Group's capital management policy is to maintain an adequate capital base, so as to retain the confidence of the investors, the creditors and the counterparties and to ensure the sound development of future business. The objective of the Group's capital management is to meet legal and regulatory requirements, while maintaining adequate capital and maximising returns. Based on its strategic plan, its business development needs and the tendency in its risk exposure, the Group carries out the forecast, planning and management of its regulatory capital through scenario analysis and stress testing.

The Group calculates its regulatory capital in accordance with relevant regulations applicable in the local jurisdiction and which may vary from jurisdictions. The Company calculates regulatory capital in accordance with the Provisions on the Calculation Basis for Risk Control Indicators of Securities Companies (CSRC Announcement [2020] No. 10) issued by the CSRC on 23 January 2020.

59. CAPITAL MANAGEMENT *(continued)*

In accordance with CSRC Announcement [2020] No. 10, the Company is required to meet the following standards for risk control indicators on a continual basis:

- (i) Risk Coverage Ratio (Net capital/Total risk capital reserves \times 100%) shall be no less than 100% ("Ratio i");
- (ii) Capital Leverage Ratio (Core net capital/Total on-and-off-balance-sheet assets \times 100%) shall be no less than 8% ("Ratio ii");
- (iii) Liquidity Coverage Ratio (High quality liquid assets/Total net cash outflows over the next 30 days \times 100%) shall be no less than 100% ("Ratio iii");
- (iv) Net Stable Funding Ratio (Stable funding available/Stable funding required \times 100%) shall be no less than 100% ("Ratio iv");
- (v) The ratio of net capital divided by net assets shall be no less than 20% ("Ratio v");
- (vi) The ratio of net capital divided by liabilities shall be no less than 8% ("Ratio vi");
- (vii) The ratio of net assets divided by liabilities shall be no less than 10% ("Ratio vii");
- (viii) The ratio of equity securities and related derivatives held divided by net capital shall not exceed 100% ("Ratio viii");
- (ix) The ratio of non-equity securities and related derivatives held divided by net capital shall not exceed 500% ("Ratio ix").

59. CAPITAL MANAGEMENT *(continued)*

As at 31 December 2023 and 2022, the above risk control indicators of the Company were as follows:

	As at 31 December	
	2023	2022
Net capital	44,125,911,819	45,336,902,147
Ratio i	192.32%	182.42%
