CHAIRMAN'S STATEMENT

Dear Shareholders,

e 📕 e e e 👘 e e e

10 A A

We would like to extend our deep appreciation to all our Shareholders for your steadfast support and trust. I am pleased to present the annual report of the Group for the year ended December 31, 2023, on behalf of the Board.

The year 2023 was a year full of challenges and opportunities for Yeahka. Against the backdrop of a gradual global economic recovery, we continued to make significant strides across our three core business lines of one-stop payment services, in-store e-commerce services, and merchant solutions, fueled by the strong positioning of our independent and scalable commercial digitalized ecosystem and continuous technological innovation. Our mainland China business grew steadily while our overseas initiatives began to yield tangible results, demonstrating our globalization capabilities. We expect to further improve our operational and financial performance, grow our ecosystem, and create long-term sustainable value as our technology iterations accelerate and innovation goes global.

Financial Highlights

In 2023, our total revenue reached RMB3,950.6 million, representing a year-on-year increase of 15.6%. Among which, revenue from our one-stop payment services increased by 26.5% year-on-year to RMB3,485.0 million.

Our gross profit amounted to RMB738.2 million, despite the impact of the Non-Recurring Adjustment on Revenue, and we achieved gross margin optimization by improving our operational efficiency and commercialization capabilities.

Our adjusted EBITDA grew 160.6% year-on-year to RMB556.0 million, reflecting significant improvements and enhancements in our operating efficiency and core performance.

Business Highlights

Payment Business Solidified Industry-Leading Position, and Technological Innovation Leads the Future

We continued to deepen our presence in the one-stop payment services. Through our continuous technological innovation and service optimization, we reached record highs in the number of active payment services merchants and the daily count of app-based payment transactions, reinforcing our leading position in the payments industry. In 2023, our gross payment volume (GPV) grew by 29.2% year-on-year, of which 71.2% was app-based payment services, and our user base continued to expand with fee rates¹ steadily increasing, reflecting our industry-leading position and bargaining power. Meanwhile, we further expanded our nationwide channel network and partnered with over 150 commercial banks on our joint merchant acquiring services. For in-store e-commerce services,

A set of a set of a set of the set of the

by optimizing operational strategies and improving service quality, we saw an impressive 30.3% year-on-year increase in GMV to over RMB4.3 billion and a significant year-on-year reduction in net loss, reflecting our remarkable success in improving profitability and operational efficiency. Moreover, we constantly invested in all-traffic marketing, expanded our partnership with diverse traffic platforms, and built a comprehensive digital midstream operational platform for merchants. Our merchant solutions also achieved a robust performance in 2023, with commercialization continuing to accelerate. Our active merchant solutions merchants exceeded 1.6 million, representing a year-on-year increase of 30.8%, with significant revenue growth driven by our improved product monetization and offline merchants' growing willingness to pay.

Overseas Markets Expansion and Progress

In overseas markets, we continue to fortify our global presence. In Hong Kong Special Administrative Region and Singapore in particular, we have served over 5,000 well-known local merchants in industries such as catering, retail, hotels, luxury goods, etc. Our one-stop payment services and merchant solutions are widely recognized by local merchants, which not only strengthen our brand influence but also lay a solid foundation for our globalization strategy. We will continue to leverage Hong Kong Special Administrative Region as a global hub to expand further into the Southeast Asian and North American markets.

Technological Innovation and Use of Generative AI Technology

In technological innovation, Yeahka has actively embraced generative AI technology and made significant breakthroughs in areas such as automated programming, intelligent customer service, and content generation. Our AI technology improves operational efficiency, reduces costs while enhancing the user experience and creates more value for our merchants and consumers. For example, our self-developed automative programming co-pilot increased the code adoption rate to 10%, greatly improving R&D efficiency. In addition, Yeahka's AI Lab adopted the latest large models and massive data to develop a number of generative AI products, which have been applied to the creation of marketing materials, resulting in a significant reduction of content production costs by more than 90% while improving content generation efficiency by 70%.

ESG Commitment

We have actively integrated ESG into our strategic objectives and daily operations. We are continuously improving our ESG governance system, with a focus on realizing long-term, high-quality, sustainable development. In 2023, we scored 54 in the S&P Global ESG Ratings and A - in the Hang Seng Corporate Sustainability Indexes, leading the industry. In addition, we were recognized in the S&P Global's 2023 Sustainability Yearbook (China Edition) during the Reporting Period as one of the 88 companies on the list out of nearly 1,600 participating companies.

Outlook

CHAIRMAN'S STATEMENT

Looking ahead, we will maintain technological innovation as our core driver and continue to implement our globalization strategy. In terms of technological innovation, we will actively advance the use of generative AI technologies to improve operational efficiency and reduce costs, making our products and services more competitive. We will also continue to explore new business models to adapt to the ever-changing market environment and provide a more personalized and efficient user experience for merchants and consumers.

In the domestic market, we will deepen our roots and strengthen our compliance management to ensure the standardization and efficiency of our business operations. We will also focus on enhancing the commercialization capabilities of our businesses to meet the diversified needs of the domestic market. In overseas markets, we remain committed to accelerating the pace of expansion and the localization of our products and services. To build our new global strategic footprint, we will cooperate more closely with overseas banks, international card organizations, and local enterprises.

We believe that these initiatives will enable us to ride the wave of globalization, continuously improve our international competitiveness, and provide even better products and services to merchants and consumers around the world. We look forward to working hand in hand with our partners to create a better future.

Appreciation

The Board would like to convey its profound gratitude to our Shareholders, merchants, partners, and consumers for their unwavering support and confidence in the Company. Moreover, the Board is truly grateful to all our employees and the management team for their efforts and dedication.

Strategic Progress and Outlook

2023 marked a year of China's economic recovery. Benefiting from our unique positioning in serving small and mediumsized offline merchants, our strategically-built independent and scalable ecosystem, and following the steady recovery of the domestic small and medium economy, our business achieved steady growth. During the Reporting Period, our one-stop payment services GPV and number of active payment services merchants significantly increased year-onyear. The GMV of in-store e-commerce services and the penetration rate of merchant solutions also continued to grow. Furthermore, we operated each of our businesses more efficiently in 2023 and continued to narrow losses from our instore e-commerce services to achieve a significant year-on-year increase in non-IFRS adjusted EBITDA.

The following table sets forth the comparative figures for the year ended December 31, 2023 and December 31, 2022, respectively, illustrating our solid growth capability, high operating efficiencies and robust synergies across our three business lines:

Note:

- (1) During the Reporting Period, we paid approximately RMB344.4 million in aggregate in relation to interchange fee rate adjustments to a suspended account of the payment networks as requested by the payment networks. We netted off such payments from our one-stop payment services revenue for the year ended December 31, 2023 in accordance with the Group's accounting policies of revenue recognition and based on our preliminary communications with the payment networks. Such impact on our revenue is non-recurring ("Non-Recurring Adjustment on Revenue").

For the year ended December 31, 2023, our total revenue, despite being partially offset by the Non-Recurring Adjustment on Revenue, increased to RMB3,950.6 million, up 15.6% from RMB3,418.0 million for the year ended December 31, 2022. Revenue from our one-stop payment services, despite being partially offset by the Non-Recurring Adjustment on Revenue, increased by 26.5% year-onyear, mainly due to (i) the 29.2% growth in total GPV to RMB2,882.9 billion from RMB2,231.6 billion in 2022, of which we primarily serve small and medium merchants from a wide range of industries, including food and beverages, retail and wholesale, among others, representing the key components of the consumer staples sector which are less susceptible to macro turbulence; and (ii) the increase in our fee rate⁴ to 13.3 bps from 12.3 bps in 2022.

Our gross profit decreased by 28.4% to RMB738.2 million in 2023 from RMB1,030.9 million in 2022, and our gross profit margin decreased to 18.7% in 2023 from 30.2% in 2022. These decreases were mainly attributable to the netting off of the non-recurring impact of approximately RMB344.4 million in relation to interchange fee rate adjustments from our one-stop payment services revenue for the Reporting Period in accordance with the Group's accounting policies of revenue recognition and based on our preliminary communications with the payment networks. Eliminating this impact, our gross profit was RMB1,082.6 million with a gross profit margin of 25.2%. Adjusted EBITDA, an indication of our core operating results and financial performance, increased to RMB556.0 million in 2023, representing growth of 160.6% compared with 2022. Our in-store e-commerce services net loss narrowed to RMB43.5 million in 2023 from RMB211.3 million in 2022, as a result of the scaling effect and enhanced operating efficiencies. In addition, in-store e-commerce services gross profit margin increased to 80.3% in 2023 from 67.3% in 2022.

Below are the key highlights from our three business lines during the Reporting Period:

One-Stop Payment Services: Outstanding Growth Domestically, Rapid Progress Overseas

In 2023, we leveraged the offline consumption recovery trend, improvements in the competitive landscape, and our leading position in the payment industry, to drive a 29.2% year-on-year increase in GPV to RMB2.88 trillion. Furthermore, the number of active payment services merchants exceeded 9.2 million and the peak daily count of app-based payment transactions reached a record high of nearly 60 million, altogether representing a stellar performance that exceeded the industry's growth level. During the Reporting Period, we continued to expand our diversified and extensive channel network and vertical-based payment solutions. With nearly 19,000 independent sales agents in over 300 cities across China and nearly 5,000 SaaS partners through standardized application programming interfaces (APIs), we broadened our coverage to include food and beverages, retail, wholesale, department stores, hotel and tourism, and other verticals, spurring a continuous expansion of our business scale.

During the Reporting Period, our revenue from one-stop payment services increased by 26.5% year-on-year. Our revenue was partially offset by approximately RMB344.4 million as we netted off payments in relation to interchange fee rate adjustments from our one-stop payment services revenue for the Reporting Period in accordance with the Group's accounting policies of revenue recognition and based on our preliminary communications with the payment networks. Eliminating this impact, our revenue increased by 39.0% year-on-year and fee rate reached 13.3 bps.

After eliminating the impact of the "Non-Recurring Adjustment on Revenue" to reflect a complete picture of our 4 operations.

10 A 10

The strong growth in our one-stop payment services was driven by our continued efforts to develop new business growth catalysts. In 2023, we made significant progress in the breadth and depth of our joint merchant acquiring business with commercial banks. We partnered with over 150 commercial banks and the corresponding GPV doubled. At the same time, we have deepened our cooperation with commercial banks by providing merchant discount packages for in-store e-commerce to the bank's customer loyalty program, as well as SaaS interactive game marketing in merchant solutions, further helping banks activate and expand their user base, increasing our differentiated competitive edge in the payment industry, and further enhancing the synergy of the three major businesses lines of Yeahka. Our Digital Currency Electronic Payment (DC/EP) business also reached a new milestone as we became one of the first batches of institutions to access the e-CNY compatible system of the Digital Currency Institute under the People's Bank of China. During the Reporting Period, we provided DC/EP solution to 12,000 merchants, completed 39,000 transactions, and achieved GPV of RMB22 million. In addition, we became one of Mastercard NUCC's first partners for acquiring foreign cards and obtained Visa membership, allowing us to help our merchants accept foreign card payments in China.

We also made breakthroughs in developing one-stop payment services overseas. In 2023, we actively expanded our collaboration with overseas card associations and the world's leading e-wallets and signed a Memorandum of Understanding for global strategic cooperation with Alipay International. We have incorporated Yeahpay Singapore, obtained MPI license and MSO license in Singapore and Hong Kong Special Administrative Region, respectively, and launched local QR code and bank card merchant acquiring services, serving over 5,000 well-known local merchants in industries such as catering, retail, hotels, luxury goods, etc., including brands such as Xiabu Xiabu, TWG Tea, Pullman Hotel, Rolex, etc. Moreover, the overseas company we invested in provided merchant SaaS services for brands such as Starbucks, Bread Talk, Pizza Hut, further enhancing our overseas business landscape. Moving through 2024, we will conduct acceptance and remittance, currency exchange and settlement businesses globally to further enrich our overseas product matrix and fortify our global presence.

Going forward, we will continue to strengthen compliance management, deepen our focus on commercialization and promote win-win collaborations in domestic and overseas payment businesses.

In-store E-commerce Services: Comprehensive Digital Marketing Strategy Strengthens Growth, Resulting in Significant Narrowing in Losses

According to iResearch, the market size of the local lifestyle services industry in China is expected to reach RMB35 trillion by 2025, implying broad prospects for our in-store e-commerce services development. During the Reporting Period, while significantly narrowing our losses, we delivered GMV exceeding RMB4.3 billion, an increase of 30.3% year-on-year. In 2023, we propelled growth by servicing merchants' diversified traffic needs in-depth, implementing co-op model to expand the market, and strategically offering concessions to merchants to address intensified short-term market competition. Furthermore, our leading market position and improved operating efficiency boosted our gross profit margin to 80.3% in 2023 from 67.3% in 2022, while net loss continued to narrow by 79.4% year-on-year to RMB43.5 million in 2023.

In 2023, we adhere to our position as a local lifestyle aggregation platform and expanded our diversified traffic partner base to include Meituan, Kuaishou, Xiaohongshu, Weixin Channels, Amap, Pinduoduo, etc. We also continued to build merchants' comprehensive digital marketing capabilities, refined our midstream operational capabilities, and continuously strengthened synergies with other businesses. Leveraging the increasing trend towards digitization of local lifestyle services and our diversified traffic operating ability, we will further develop our comprehensive digital marketing capabilities for merchants. We are cooperating with hundreds of thousands of KOLs to create high-quality live streaming and short videos, coupled with customized tactics targeting different characteristics of traffic platforms and customer groups, and to assist merchants with customer acquisition and retention in one-stop by methods such as live streaming and short videos. Our standardized midstream tools can help merchants to reach target consumer groups accurately and respond to the growing digitalization trend across local lifestyle services.

Looking ahead to 2024, the continued implementation of our comprehensive digital marketing strategy will remain a key driver of our growth and will effectively strengthen the deep binding with our merchants and soften the impact of market competition and policy changes on a single traffic platform. Furthermore, we will adopt more refined and industry-specific operational strategies for verticals such as food and beverages, hotel and tourism, comprehensive services, and e-commerce, while integrating our payment and merchant solutions' capabilities and resources to create synergies. Concurrently, we will continue to use AI technology and cross-platform midstream systems to continuously enhance our overall operational capabilities and efficiency, empowering our merchants' sustainable business operations.

Merchant Solutions: Product Innovation Drove Commercialization Capability Enhancement

The growth in our merchant solutions overall performance reflects our strong merchant servicing capabilities. Merchant solutions' revenue increased by 17.2% year-on-year to RMB363.0 million during the Reporting Period compared to 2022, mainly attributable to the improved product commercialization and offline merchants' growing willingness to pay. During the Reporting Period, we introduced our pioneering metaverse game, "Yverse," to help merchants create an engaging metaverse space and conduct in-depth private domain marketing through immersive metaverse games. After the game's launch, the weekly activity rate of merchants' private domain communities grew from 12% to 37%, and the user retention rate increased from 30% to 70%.

Technological Innovation: Generative AI Technology Reduced Cost and Improved Efficiency

In 2023, benefiting from our forward-thinking planning, we made great advancements in research and development. Our private clouds have been widely applied throughout our technological infrastructure, significantly reducing costs comparing with traditional physical hosts in data centers. Additionally, our private clouds are also made available to our payment partners. More importantly, Yeahka's AI Lab adopted latest large models to develop a number of generative AI products based on our own application scenarios, and greatly improved R&D and operational efficiency. Based on open-source large models, we developed and locally deployed automative programming copilot, increased code adoption rate to 10%, and optimized our R&D processes. On content-based interaction front, we have developed proprietary AI content generation platform and AI-powered interactive virtual hosts based on massive data including video, graphics, text, dialogues, etc. We also launched AI-powered customer service kit that provides instant feedback on complex issues and gives customized suggestion. These initiatives significantly reduced content production cost by 90%, increased content generation efficiency by 70%, and boosted customer service self-serve rate to 30%, allowing merchants and consumers to experience smooth and personalized interactive experience in our ecosystem. Looking ahead, we will focus on exploring cutting-edge technology applications in various business lines and our technology infrastructures. We are confident in using generative AI technology to further reduce costs, increase efficiency, and explore new business models.

Environmental, Social and Governance

We actively integrate ESG into our strategic objectives and daily operations, and continuously improve our ESG governance system, with a focus to realize long-term and high-quality sustainable development. In 2023, we scored 54 in the S&P Global ESG Ratings and A- (54.21) in the Hang Seng Corporate Sustainability Indexes, leading the industry. In addition, we were recognized in the S&P Global's 2023 Sustainability Yearbook (China Edition) during the Reporting Period as one of the 88 companies on the list out of nearly 1,600 participating companies.

On the environmental front, we proactively addressed issues such as climate change, energy conservation and waste management, by implementing a green operation strategy. During the Reporting Period, we continued to optimize the system structure and centralizing resource allocation through Yeahka's private cloud, increasing the overall effective utilization rate of computing resources by more than 8%. Meanwhile, we have increased the proportion of clean energy usage in our data operation centers, constructed green data centers and fully utilized natural cooling sources for energy-saving, thereby decreasing the emission of greenhouse gases. In addition, we enthusiastically promoted green office practices internally and campaigned externally for the International Day of Forests, raising environmental protection awareness and broadening knowledge among consumers.

On the social front, we continued to strengthen the level of transaction risk control. During the Reporting Period, we made more than 17 billion risk decisions and performed risk treatment on more than 15 million risky transactions, effectively ensuring transaction security. At the same time, we provided our employees with compensation incentives and a variety of training, and were committed to building a diversified and high-quality talent team, realizing the mutual development of employees and the enterprise. In addition, we fully utilized our product advantages to provide value-added financial services and non-financial support, such as media promotion, to micro and small merchants to help promote their brands and contribute to the recovery of the hustle and bustle economy.

On the corporate governance front, we continued to improve the governance structure through various measures, such as establishing a health and safety management committee for the Group and a designated team to assist micro and small merchants. We integrated ESG elements into our risk management and governance and continuously carried out compliance and risk-related trainings to fortify our risk management capabilities. During the Reporting Period, we conducted multiple trainings as well as published manuals on anti-corruption, operation compliance, risk management, anti-money laundering, and the Sunshine Code of Conduct, covering 100% of our employees. Besides, we refined our Anti-Money Laundering Policy and established a whistleblowing mechanism to protect the interests of our customers and Shareholders. In particular, we listened to the legitimate rights and interests of minority shareholders and maintained consistent communication with them through various means.

One-stop payment services

Revenue from our one-stop payment services increased by 26.5% from RMB2,754.3 million for the year ended December 31, 2022 to RMB3,485.0 million for the year ended December 31, 2023, primarily due to the increase in our GPV and fee rate⁵.

In-store e-commerce services

We commenced to provide in-store e-commerce services in December 2020. Revenue from in-store e-commerce services decreased by 71.0% from RMB354.2 million for the year ended December 31, 2022 to RMB102.7 million for the year ended December 31, 2023, primarily due to the implementation of our co-op model, as well as strategically offering concessions to merchants to address intensified short-term market competition.

Merchant solutions

Revenue from our merchant solutions increased by 17.2% from RMB309.6 million for the year ended December 31, 2022 to RMB363.0 million for the year ended December 31, 2023, primarily due to our improved product monetization and offline merchants' growing willingness to pay.

| Total | 738,164 | 18.7 | 1,030,944 | 30.2 |

Our gross profit decreased by 28.4% from RMB1,030.9 million for the year ended December 31, 2022 to RMB738.2 million for the year ended December 31, 2023. Our gross profit margin decreased from 30.2% for the year ended December 31, 2022 to 18.7% for the year ended December 31, 2023 as a result of the decrease in gross profit margin of our one-stop payment services.

Gross profit margin of our one-stop payment services decreased from 19.3% for the year ended December 31, 2022 to 9.7% for the year ended December 31, 2023 as we (i) offered higher commissions to our payment distribution channels temporarily while increasing our fee rate to facilitate our expansion strategy and (ii) netted off payments in relation to interchange fee rate adjustments from our one-stop payment services revenue for the Reporting Period in accordance with the Group's accounting policies of revenue recognition and based on our preliminary communications with the payment networks.

Gross profit margin of in-store e-commerce services increased from 67.3% for the year ended December 31, 2022 to 80.3% for the year ended December 31, 2023, primarily due to improvement in operating efficiency.

Gross profit margin of merchant solutions increased from 84.1% for the year ended December 31, 2022 to 87.4% for the year ended December 31, 2023.

Selling Expenses

Our selling expenses decreased by 67.7% from RMB386.5 million for the year ended December 31, 2022 to RMB125.0 million for the year ended December 31, 2023, primarily due to the decrease in selling expenses following the streamlining of cost structure of our in-store e-commerce services.

Administrative Expenses

10 A M

Our administrative expenses increased by 5.0% from RMB322.8 million for the year ended December 31, 2022 to RMB338.8 million for the year ended December 31, 2023, primarily due to the increase in our employee benefits.

Research and Development Expenses

Our research and development expenses remained relatively stable at RMB270.3 million and RMB265.6 million for the years ended December 31, 2022 and 2023, respectively.

Net Impairment Losses on Financial Assets

Our net impairment losses on financial assets increased by 18.8% from RMB48.7 million for the year ended December 31, 2022 to RMB57.8 million for the year ended December 31, 2023 as we adopted a more refined credit risk model and increased impairment on loan receivables prudently.

Other Income

Our other income increased by 3.5% from RMB54.4 million for the year ended December 31, 2022 to RMB56.3 million for the year ended December 31, 2023, primarily due to the increase in interest income from bank deposits.

Fair Value Changes of Financial Assets and Financial Liabilities at Fair Value Through Profit or Loss

We recorded fair value changes of financial assets and financial liabilities at fair value through profit or loss of RMB119.5 million for the year ended December 31, 2022 and RMB144.6 million for the year ended December 31, 2023, respectively, primarily due to the fair value gains from the investments in preferred shares and related financial instruments of an investment company, Fushi.

Other Losses - Net

We recorded other losses – net of RMB9.8 million and RMB26.8 million for the years ended December 31, 2022 and 2023, respectively. The increase in other losses – net was primarily due to provision for regulatory fines.

Operating Profit

As a result of the foregoing, we recorded operating profit of RMB166.8 million for the year ended December 31, 2022 and RMB125.0 million for the year ended December 31, 2023.

Finance Costs

Our finance costs increased by 71.4% from RMB52.5 million for the year ended December 31, 2022 to RMB89.9 million for the year ended December 31, 2023, primarily due to the increase in interest expenses on our borrowings and convertible bonds.

Share of Profits of Investments Accounted for Using the Equity Method

We recorded share of profits of investments accounted for using the equity method of RMB8.1 million and RMB0.4 million for the years ended December 31, 2022 and 2023, respectively, the change was primarily due to the decrease in our share of profits in an associate of the Group.

Profit Before Income Tax

As a result of the foregoing, our profit before income tax decreased by 71.1% from RMB122.5 million for the year ended December 31, 2022 to RMB35.4 million for the year ended December 31, 2023.

Income Tax Expense

Our income tax expense decreased by 4.3% from RMB26.4 million for the year ended December 31, 2022 to RMB25.3 million for the year ended December 31, 2023. Our effective tax rate was 21.6% and 71.5% for the year ended December 31, 2022 and 2023, respectively. The increase was mainly due to deferred tax assets of certain businesses not being recognized due to our prudent approach.

Profit for the Year

As a result of the foregoing, our profit decreased by 89.5% from RMB96.0 million for the year ended December 31, 2022 to RMB10.1 million for the year ended December 31, 2023.

Non-IFRS Measures

We adopt adjusted EBITDA, which is not required by or presented in accordance with IFRS, as an additional financial measure to supplement our consolidated financial statements. We believe that EBITDA facilitates comparisons of operating performance from period to period and company to company, by eliminating potential impacts of items that our management does not consider indicative of our operating performance. In addition, our adjusted EBITDA excludes certain non cash or non-recurrent items such as share-based compensation expenses, and fair value changes of financial assets and financial liabilities at fair value through profit or loss. We believe that the non-IFRS measure is commonly adopted by our industry peers and provide useful information to investors and others in understanding and evaluating our consolidated results of operations in the same manner as they help our management. However, our presentation of adjusted EBITDA may not be comparable to similarly titled measures presented by other companies. The use of the non -IFRS measure has limitations as an analytical tool, and the investors and Shareholders should not consider them in isolation from, or as substitute for analysis of, our results of operations or financial condition as reported under IFRS.

Liquidity, Capital Resources and Gearing

The Group has adopted a prudent approach in financial resources management. For the year ended December 31, 2023, we financed our operations primarily through cash generated from business operations, proceeds from fundraising activities, and bank borrowings. Our cash and cash equivalents decreased by 44.2% from RMB1,591.5 million as of December 31, 2022 to RMB887.9 million as of December 31, 2023, primarily attributable to (i) the payment to the trustee of the RSU Scheme to purchase Shares on market; (ii) the payment for share repurchase on market; (iii) the long-term bank deposits; and (iv) the cash used in operating activities for expanding merchant solutions business. As of December 31, 2023, the cash and cash equivalents of the Group were mainly denominated in RMB, USD and HKD. The Group maintains a strong cash position to meet potential needs for business expansion and development.

Our gearing ratio, being total debt (which includes total borrowings and convertible bonds) divided by total equity, increased from 39.5% as of December 31, 2022 to 45.3% as of December 31, 2023, primarily attributable to the increased balance of borrowings.

Capital Expenditures

Our capital expenditures primarily consist of payments for purchasing property, plant and equipment, intangible assets and payment terminals. Our total capital expenditures decreased by 37.4% from RMB237.4 million for the year December 31, 2022 to RMB148.6 million for the year December 31, 2023.

Contingent Liabilities

10 A M

As of December 31, 2023, we did not have any material contingent liabilities, guarantees or any litigations or claims of material importance, pending or threatened against any member of the Group that was likely to have a material and adverse effect on our business, financial condition or results of operations.

Loan Receivables

As of December 31, 2023, our loan receivables totaled RMB882.3 million (as of December 31, 2022: RMB588.2 million), as we have enlarged our customer base for our merchant solutions services and extended credit to customers with good credit standing.

As part of our merchant solutions services, we aim to satisfy the working capital needs of our customers. Under prudent loan policies, qualified customers can gain access to credit facilities on our platform to purchase inventory, invest in customer acquisition and manage cash flow. As we are responsible for providing the platform as well as ancillary services, including loan applicant information collection and verification and credit assessment, the experience has been essential for the development of our risk management capabilities.

During the Reporting Period, there was no material impairment or write-off of any single loan transaction. For the risk management policies and basis of impairment assessments of the loan receivables, please refer to note 3.1 to the consolidated financial statements. For details of the major terms of the loans, please refer to note 24 to the consolidated financial statements.

Foreign Exchange Risk and Hedging

As we operate mainly in the PRC with most of the transactions settled in RMB, we consider that our business is not exposed to any significant foreign exchange risk as there are no significant financial assets or liabilities that are denominated in the currencies other than the respective functional currencies of the Group's entities. We do not use any derivative contracts to hedge against our exposure to foreign exchange risk. We manage currency risks by closely monitoring the movement of the foreign currency rates and will take prudent measures to minimize the currency translation risk.

Material Acquisitions or Disposals and Future Plans for Major Investments

During the year ended December 31, 2023, we did not conduct any material investments, acquisitions or disposals of subsidiaries, associates and joint ventures. In addition, save for the expansion plans as disclosed in (i) the sections headed "Business" and "Future Plans and Use of Proceeds" in the prospectus of the Company dated May 20, 2020, and (ii) the section headed "Use of Proceeds" in the Company's announcements dated December 4, 2020 and July 5, 2022, we have no specific plan for major investment or acquisition for major capital assets or other businesses. Relationship with Employees

Our success depends on our ability to attract, retain and motivate gualified personnel. We primarily recruit our employees through campus recruitment, recruitment agencies, and online channels. As part of our recruiting and retention strategy, we offer employees competitive salaries, performance-based bonuses and certain other incentives. We have adopted a robust training program, pursuant to which employees regularly receive trainings on areas including technology, regulation and management from internal or external speakers. We offer ongoing in-house training for different levels of employees, tailored to their roles and skill levels. We believe our training culture has contributed to our ability to recruit and retain qualified employees. We have established a dual-track career path that separately assesses managerial and technical talents, enhancing opportunities for personal development and career advancement. We engage external human resources business partners to enhance communication with, and provide counselling to new recruits and key employees. As required under PRC regulations, we participate in various employee social security plans that are organized by applicable local municipal and provincial governments, including housing, pension, medical, work-related injury and unemployment benefit plans. We also purchase commercial health and accidental insurance for our employees. We believe that we maintain a good working relationship with our employees and we did not experience any labor strikes or other material labor disputes that affected our operations for the year ended December 31, 2023.

We have also adopted the RSU Scheme and the Share Option Scheme to incentivize qualified directors, senior management and employees to attract, motivate and retain skilled and experienced personnel to strive for the future development and expansion of our Group, details of which are set out in the section headed "Restricted Share Unit Scheme and Share Option Scheme" in this directors' report.

During the year ended December 31, 2023, there were no material breaches or violations of relevant laws and regulations in China, where the Group has business entities and operations, and the Group obtained all requisite licenses, approvals and permits from relevant authorities that are material to the Group's operations in China. Details of our compliance with relevant laws and regulations will be set out in the Environmental, Social and Governance Report.

Principal Risks and Uncertainties

A number of factors may affect the results and business operation of the Group, and principal risks and uncertainties that the Group faces and key mitigations that the Group adopts are summarized as follows:

Principal Risks and

| Uncertainties | Description | Key Mitigations |
|---|---|--|
| Uncertainty to developing products and services which can address the rapidly evolving market for one- stop payment services and technology-enabled business services | We expect that new products, services and technologies applicable to the industries in which we operate will continue to emerge and evolve. Rapid and significant technological changes continue to shape such industries, including developments in e-commerce, mobile commerce, and proximity payment devices. Other potential changes, such as developments in big data analytics and artificial intelligence, are on the horizon as well. Similarly, there is rapid innovation in the products and services to facilitate business operations, including technology-enabled business services. These new products, services and technologies may be superior to, impair, or render obsolete the products and services we currently offer, or the technologies we currently use to provide them. | We continue to invest in research and development in areas including artificial intelligence and big data analytics in order to ensure the competitiveness of our products and services and to develop innovative and high- tech products. Leveraging our nationwide merchant network, we are able to gain insights into merchants' needs in a timely and efficient manner enabling our research and development team to develop and optimize products and services which cater for the needs of merchants and adapt to market changes. |

DIRECTORS' REPORT

Principal Risks and Uncertainties

10 A.

Risks related to significant disruption in service on our platform, malfunctions of our technology systems, errors and quality issues in our software, hardware, and systems, or human errors in operating these systems

Description

1.00

Our business is dependent on the ability of our information technology systems to stably and timely process a large amount of information and transactions. Our operations depend on the ability of the host of our system hardware to protect its and our systems in its facilities against damage or interruption from natural disasters, power or telecommunications failures, air quality, temperature, humidity and other environmental concerns, computer viruses or criminal acts. Our software, hardware, and systems may contain undetected errors, that could have a material adverse impact on our business, particularly where such errors are not timely detected and remedied. Any errors, defects, disruptions in services, or other performance problems with our services could hurt our reputation and damage our customers' businesses.

Key Mitigations

We have set up security systems and measures including firewall, intrusion prevention system, bastion host and vulnerability scanning which monitor and control incoming and outgoing traffic, identify weaknesses in our information technology systems and withstand attacks to our information technology systems. We also regularly conduct security scanning, penetration tests and bug fixing on our systems to prevent information security threats.

For the operations of our core servers and databases, we adopt "double - review" (雙 人覆核) approach in order to prevent malicious operations by an employee. Our employees are only authorized to access servers and systems to the extent which is necessary for performing their job duties.

Principal Risks and Uncertainties

| Uncertainties | Description | Key Mitigations |
|---|---|---|
| Risks related to reliance on business partners | Our payment and business services rely on technologies, services and infrastructure offered by third parties that we do not control, such as payment networks, commercial banks, trust companies, insurance companies and telecommunication operators. We rely on them for a variety of services, including transmitting transaction data, processing chargebacks and refunds, facilitating same- day or settlement service and providing value-added services. Our IT systems and various interfaces also utilize or are connected to the platforms, infrastructures and technologies of these third parties. If they fail to provide services adequately, including as a result of system errors, human errors or events beyond their control, or they refuse to provide these services on terms acceptable to us or at all, and we are not able to find suitable alternatives, our business may be materially and adversely affected. | We receive real-time alerts for any malfunctions in and interruptions to our operations and have developed contingency plans for situations in which malfunctions in or interruptions to our operations are caused by failure in the technologies, services or infrastructure provided by our business partners. For instance, we maintain two server rooms with one being the backup. As the server rooms adopt three routing connections provided by two different operators, in the event that any of the routing connections is interrupted, the servers can still connect properly without compromising our services. In addition, for servers we rent from third parties, as we have a master database server together with three associated counterparts, where the master database server experiences malfunctions or interruptions, one of the three associated counterparts will take over automatically as the master database server, thereby effectively minimizing the negative impact arising from failure of the master database |

We maintain close contact with our business partners and will communicate with them in a timely manner in situations where malfunctions in or interruptions to our operations are caused by them so as to devise a risk response plan to minimize disruption.

Description

Principal Risks and Uncertainties

Risks relating to fraudulent and fictitious transactions, and misconducts committed by our employees, customers, distribution channels and other third parties Offering payment services to a large number of customers, we may be subject to liability for fraudulent payment transactions by customers, in particular, fraudulent chargeback and use of counterfeit cards. Fraud or other misconducts committed by our employees, customers, distribution channels or other third parties may be difficult to detect or prevent and could subject us to financial losses and regulatory sanctions as well as seriously damage our reputation. Fraudulent activities have become increasingly sophisticated. Failure to effectively identify and address these risks could lead to losses, regulatory penalties or even regulatory restrictions to our business operations, which will adversely affect our business, financial condition, and results of operations.

Key Mitigations

We maintain an anti-fraud system which automatically monitors merchants through multiple dimensions to evaluate fraud risks and minimize fraud exposure.

We also adopt a professional anti-money laundering system which continuously monitors and identifies merchants with respect to customer ratings, suspicious transactions, largesum transactions, and the like.

We provide our employees with regular trainings on antimoney laundering, fraudulent and fictitious transactions and misconduct in order to enhance their understanding and awareness on these issues.

Subsequent Events

There were no material events subsequent to December 31, 2023 which could have a material impact on our operating and financial performance as of the date of this annual report.

Financial Statements

The results of the Group for the year ended December 31, 2023 and the state of the Group's financial position as at that date are set out in the consolidated financial statements from pages 94 to 229 of this annual report.

Final Dividend

The Board did not recommend the payment of a final dividend for the year ended December 31, 2023.

Reserves

The Company may pay dividends out of share premium, retained earnings and any other reserves provided that immediately following the payment of such dividends, the Company will be in a position to pay off its debts as they fall due in the ordinary course of business.

Restricted Share Unit Scheme and Share Option Scheme

Restricted Share Unit Scheme

On August 1, 2019, the RSU Scheme was approved and adopted by the Board (and amended by the Board in December 2022). As part of the Reorganization and for the convenience of the governance of the Company, the Company adopted the RSU Scheme to replace the Pre-IPO Stock Incentive Scheme such that all the options granted under the Pre-IPO Stock Incentive Scheme are converted to RSUs. The Pre-IPO Stock Incentive Scheme has been terminated. Further details of the Reorganization and the conversion of share options to RSUs are set out in the Prospectus. The purpose of the RSU Scheme is to incentivize Directors (excluding independent non-executive Directors), senior management of our Group and holding companies, fellow subsidiaries or associated companies of the Company, and other selected personnel for their contribution to the Group, to attract, motivate and retain skilled and experienced personnel to strive for the future development and expansion of the Group by providing them with the opportunity to own equity interests in the Company.

The RSU Scheme was adopted before the new Chapter 17 of the Listing Rules coming into effect (effective on January 1, 2023). The Company will comply with the new Chapter 17 in accordance with

A REPORT OF A R

A CONTRACTOR OF A CONTRACTOR A

A RSU gives the RSU Participant a conditional right when the RSU vests to obtain either Shares or an equivalent value in cash with reference to the market value of the Shares on or about the date of exercise of the RSUs, less any tax, stamp duty and other charges applicable, as determined by the Board in its absolute discretion. Each RSU represents one underlying Share. A RSU may include, if so specified by the Board in its entire discretion, cash and non-cash income, dividends or distributions and/or the sale proceeds of non-cash and non-scrip distributions in respect of those Shares.

the transitional arrangements for existing share schemes.

The Board selects the RSU Eligible Persons to receive RSUs under the RSU Scheme at its discretion. The RSU Scheme will be valid and effective for a period of ten (10) years, commencing from the date of the first grant of the RSUs, being August 1, 2019 (unless it is terminated earlier in accordance with its terms), after which no further RSUs shall be granted or accepted, but the provisions of the RSU Scheme shall remain in full force and effect in order to give effect to the vesting of RSUs granted and accepted prior to the expiration of the period of the RSU Scheme. As of December 31, 2023, the remaining life of the RSU Scheme is approximately five years and seven months. The maximum number of RSUs that may be granted under the RSU Scheme in aggregate (excluding RSUs that have lapsed or been cancelled in accordance with the RSU Scheme) shall be such number of Shares held or to be held by the trustee for the purpose of the RSU Scheme from time to time. As of January 1, 2023 and December 31, 2023, the total number of Shares held by the trustee for the purpose of RSU Scheme were 70,370,616 and 76,396,682, respectively, representing 15.8% and 17.1% of the shares of the Company in issue as of the relevant dates, respectively. The trustee holding unvested shares of the RSU Scheme, whether directly or indirectly, shall abstain from voting on matters that require shareholders' approval under the Listing Rules, unless otherwise required by law to vote in accordance with the beneficial owner's direction and such a direction is given. The Company may (i) allot and issue Shares to the trustee to be held by the trustee and which will be used to satisfy the RSUs (except those RSUs granted to service providers) upon exercise and/or (ii) direct and procure the trustee to receive existing shares from any shareholder of the Company or purchase existing Shares (either on-market or off-market) to satisfy the RSUs upon exercise. The Company shall rely on any general mandate or specific mandate obtained from the Shareholders at any general meetings of the Company in accordance with the Listing Rules to issue and allot Shares underlying any RSUs to the trustee. The total number of shares available for issue under the general mandate approved by the Shareholders at the annual general meeting of the Company held on June 5, 2023 was 89,198,568 Shares, representing 20.1% of the total number of issued Shares as of the date of this report. There is no maximum entitlement for each RSU Eligible Person under the rules of the RSU Scheme.

An Eligible Person selected by the Board to be granted RSUs under the RSU Scheme may accept the RSUs in such manner (including any amount payable on acceptance of the RSUs as determined by the Board in its absolute discretion and the period within which payments may be made, if any) set out in the grant letter. The Board can determine the vesting criteria, conditions and the time schedule when the RSUs will vest and such criteria, conditions and time schedule shall be stated in the grant letter. RSUs held by a RSU Participant that are vested as evidenced by the vesting notice may be exercised (in whole or in part) by the RSU Participant serving an exercise notice in writing on the RSU Trustee and copied to the Company. Any exercise of RSUs must be in respect of a board lot of 400 Shares each or an integral multiple thereof (except where the number of RSUs which remains unexercised is less than one board lot). Upon receipt of an exercise notice, the Board shall direct and procure the RSU Trustee to, within a reasonable time, transfer the Shares underlying the RSUs exercised (and, if applicable, the cash or non-cash income, dividends or distributions and/ or the sale proceeds of non-cash and non-scrip distributions in respect of those Shares) to the RSU Participant which the Company has allotted and issued to the RSU Trustee as fully paid up Shares or which the RSU Trustee has either acquired by purchasing existing Shares or by receiving existing Shares from any shareholder, subject to the RSU Participant paying the exercise price (as determined by the Board in its absolute discretion, if any) and all tax, stamp duty, levies and charges applicable to such transfer to the RSU Trustee or as the RSU Trustee directs.

A RSU Participant does not have any contingent interest in any Shares underlying the RSUs unless and until such Shares are actually transferred to the RSU Participant. Further, a RSU Participant may not exercise voting rights in respect of the Shares underlying the RSUs prior to their exercise and, unless otherwise specified by the Board in its entire discretion in the RSU grant letter to the RSU Participant, nor do they have any rights to any cash or non-cash income, dividends or distributions and/or the sale proceeds of non-cash and non-scrip distributions from any Shares underlying the RSUs.

The Company has appointed TMF Trust (HK) Limited as the RSU Trustee to assist with the administration and vesting of RSUs granted pursuant to the RSU Scheme. All the Shares underlying the RSUs granted and to be granted under the RSU Scheme were allotted and issued to RSU Nominee 1 and RSU Nominee 2, each of which being a company wholly-owned by the RSU Trustee. As of December 31, 2023, RSUs in respect of 47,674,749 underlying Shares were granted under the RSU Scheme for the benefit of Eligible Persons pursuant to the RSU Scheme, and RSUs in respect of an aggregate of 7,454,773 underlying Shares, representing approximately 1.67% of the total number of issued Shares as of the same date, were granted but have not been vested, have been lapsed or cancelled and remain to be held by RSU Nominee 1 and RSU Nominee 2. The grantees of the RSUs granted under the RSU Scheme as referred to in the table below are not required to pay for the grant of any RSU under the RSU Scheme.

The table below sets out the movements in the RSUs during the year from January 1, 2023 to December 31, 2023 granted under the RSU Scheme:

DIRECTORS' REPORT

- (1) Further details of the grants were set out in the Company's announcement dated March 28, 2023. The RSU Trustee will transfer the existing Shares purchased by the RSU Trustee directly to the RSU Grantees and no new Shares will be issued as a result of the grant of RSUs.
- (2) The exercise period of the RSUs is 15 years from their respective dates of grant.
- (3) Please refer to note 35(b) to the consolidated financial statements for the vesting schedules.

Details of movements in the RSUs under the RSU Scheme are also set out in note 35(b) to the consolidated financial statements. The RSU Participants shall serve the exercise notice within three (3) months after receiving the vesting notice.

On March 28, 2023, the Company granted a total of 8,151,565 RSUs pursuant to the RSU Scheme to a total of 167 RSU grantees. The RSUs granted represent 8,151,565 underlying Shares and approximately 1.8% of the issued share capital of the Company as at December 31, 2023. Upon each vesting date, the portion of the RSUs that vests shall depend on the RSU grantee meeting a specified threshold in their performance evaluations during the one-year period prior to each vesting date. The trustee of the RSU Scheme will transfer the Shares directly to the grantees and no new Shares will be issued as a result of the grant of RSUs. For further details, please refer to the Company's announcement dated March 29, 2023.

Save as disclosed above, for the year ended December 31, 2023 and up to the date of this annual report, no further RSUs have been or would be granted by the Company pursuant to the RSU Scheme.

Save as disclosed above, no RSUs were granted to other Directors, chief executive, substantial Shareholders, related entity participants or service providers of the Company, or their respective associates. None of the participant of the RSU Scheme was granted or to be granted in excess of the 1% individual limit.

Share Option Scheme

The Share Option Scheme was adopted at the extraordinary general meeting of the Company held on October 13, 2020. The Share Option Scheme was adopted before the new Chapter 17 of the Listing Rules coming into effect (effective from January 1, 2023). The Company will comply with the new Chapter 17 in accordance with the transitional arrangements for existing share schemes.

A summary of the share option scheme is as follows:

The purpose of the Share Option Scheme is to attract, retain and motivate talented employees to strive towards long term performance targets set by the Group and to provide them with an incentive to work better for the interest of the Group. The Share Option Scheme will link the value of the Company with the interests of the participants, enabling the participants and the Company to develop together and promote the Company's corporate culture.

Subject to the terms of the Share Option Scheme, the Board shall be entitled at any time within the period of ten years after October 13, 2020 to grant options to any participants as the Board may in its absolute discretion select. As of December 31, 2023, the remaining life of the Share Option Scheme was approximately six years and nine and a half months. No offer shall be made and no option shall be granted to any participants in circumstances prohibited by the Listing Rules at a time when the participants would or might be prohibited from dealing in the Shares by the Listing Rules or by any applicable rules, regulations or law. In particular, no options may be granted during the period commencing one month immediately preceding the earlier of: (i) the date of the Board meeting (as such date is first notified to the Stock Exchange in accordance with the Listing Rules) for the approval of the Company's results for any year, half-year, guarterly or other interim period; and (ii) the deadline for the Company to publish its interim or annual results announcement under the Listing Rules, and ending on the date of actual publication of such results announcement.

The participants of the Share Option Scheme include any Director or employee or officers of any member of the Group, who the Board considers, in its sole discretion, have contributed or will contribute to the Group.

The maximum number of Shares which may be issued upon exercise of all share options to be granted under the Share Option Scheme and any other share option schemes adopted by the Company shall not exceed 10% of the aggregate of the Shares in issue on October 13, 2020 (the "Scheme Mandate Limit"), i.e. 42,620,507 Shares, unless Shareholders' approval has been obtained. Options lapsed in accordance with the terms of the Share Option Scheme and (as the case may be) such other share option schemes of the Company will not be counted for the purpose of calculating the Scheme Mandate Limit. The Company may renew the Scheme Mandate Limit at any time subject to prior Shareholders' approval but in any event, the total number of Shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other share option schemes of the Company under the limit as refreshed must not exceed 10% of the Shares in issue as at the date of approval of the renewal of the Scheme Mandate Limit.

The maximum number of Shares issued and to be issued upon exercise of the share options granted and to be granted to each participant (including both exercised, cancelled and outstanding share options) under the Share Option Scheme or any other share option schemes adopted by the Company in any 12-month period is limited to 1% of the Shares in issue, unless otherwise separately approved by Shareholders in general meeting with such participant and his close associates (or his associates if the participant is a connected person) abstaining from voting.

The offer of a grant of share options may be accepted within 28 days from the date of offer. Upon acceptance of the share options, a nominal consideration of HKD1.00 is payable for the grant of options and such payment shall not be refundable. Subject to such terms and conditions as the Board may determine, there is no minimum period for which a share option must be held before it can be exercised and no performance target need to be achieved by a grantee before the share options can be exercised.

Subject to the terms of grant of any option, an option may be exercised by the grantee of the option at any time during the option period and in accordance with the vesting schedule and other terms specified in the offer. No option may be vested more than ten years after the date of the offer made. Subject to earlier termination by the Company in general meeting or by the Board, the Share Option Scheme shall be valid and effective for a period of ten years commencing on October 13, 2020.

The exercise price shall be at a price determined by the Board at its absolute discretion and shall be at least the highest of (i) the closing price of the Shares as stated in the daily quotation sheets issued by the Stock Exchange on the date of offer; (ii) the average closing price of the Shares as stated in the daily quotation sheets issued by the Stock Exchange for the five business days immediately preceding the date of offer; and (iii) the nominal value of a Share on the date of offer.

Further details of the principal terms of the Share Option Scheme are set out in circular of the Company dated September 24, 2020.

Tax Relief and Exemption

The Directors are not aware of any tax relief and exemption available to the Shareholders by reason of their holding of the Company's securities.

Emolument Policy

Our Directors believe that the ability to attract, motivate and retain a sufficient number of qualified employees is of significant importance to the long-term successful development of our Group. We participate in various employee social security plans that are organized by applicable local municipal and provincial governments, including housing, pension, medical, work-related injury and unemployment benefit plans. We purchase commercial health and accidental insurance for our employees. We have also adopted the RSU Scheme and Share Option Scheme, details of both schemes are set out under the section headed "Restricted Share Unit Scheme and Share Option Scheme" in this directors' report. Our Group has established a remuneration committee to review the policy and structure of the remuneration for our Directors and senior management and make recommendations on the remuneration packages of individual executive Directors and senior management. In general, our Group determines the emolument payable to our Directors based on each Director's time commitment and responsibilities, salaries paid by comparable companies as well as the employment conditions elsewhere in our Group.

Employee Benefits

Particulars of the employee benefits of the Group are set out in note 10 to the consolidated financial statements.

Pursuant to code provision E.1.5 of Part 2 of the CG Code, the annual remuneration (excluding equity-settled share expenses) of the senior management (including members of senior management who are also executive Directors) by band for the year ended December 31, 2023 is set out below:

Rights to Acquire the Company's Securities and Equity-Linked Agreements

Issue of US\$70 Million 6.25% Convertible Bonds Due 2027

On July 4, 2022, the Company and J.P. Morgan Securities plc and Credit Suisse (Hong Kong) Limited as the joint global coordinators, joint bookrunners and joint lead managers (the "**Managers**") entered into a subscription agreement, pursuant to which and subject to certain conditions contained therein, the Company has agreed to issue, and the Managers have agreed to severally and not jointly subscribe and pay for, or to procure subscribers to subscribe and pay for, the 6.25% convertible bonds in a principal amount of US\$70 million.

The issue price of the Convertible Bonds was 100% of the principal amount. The initial conversion price per conversion share is HK\$23.32, which represents (i) a premium of 4.11% over the last closing price of HK\$22.40 per Share as quoted on the Stock Exchange on July 4, 2022 (being the trading day on which the subscription agreement was signed) and (ii) a premium of approximately 0.91% over the average closing price of HK\$23.11 as quoted on the Stock Exchange for the five consecutive trading days up to and including July 4, 2022. On July 13, 2022, all of the conditions for the Convertible Bonds under the subscription agreement have been satisfied and/or waived and completion of the Convertible Bonds in the principal amount of US\$70 million took place. The Convertible Bonds were offered to no less than six independent placees (who are independent individual, corporate and/or institutional investors). Assuming full conversion of the July 2027 convertible bonds at the initial conversion price of HK\$23.32 per Share, the Convertible Bonds will be convertible approximately 23,551,758 Shares. The Convertible Bonds were listed on the Stock Exchange on July 14, 2022. The net proceeds from the offering of the Convertible Bonds were approximately US\$68.1 million. For details, please refer to note 34 to the consolidated financial statements.

Save as disclosed in this section and under the section headed "Restricted Share Unit Scheme and Share Option Scheme" in this directors' report, at no time during the year ended December 31, 2023 was the Company, or any of its subsidiaries, a party to any arrangement to enable the Directors or chief executive of the Company or their respective associates to subscribe for securities of the Company or any of its associated corporations as defined in the SFO or to acquire benefits by means of acquisition of Shares in, or debentures of, the Company or any other body corporate. Save as disclosed in this section, the Company did not enter into any equity-linked agreement.

Directors' Interests in Competing Business

During the year ended December 31, 2023, none of the Directors have any interest in a business, apart from the business of the Group, which competes or is likely to compete, directly or indirectly, with the business of the Group, which would require disclosure under Rule 8.10 of the Listing Rules.

Permitted Indemnity Provision

Every Director, auditor or other officer of the Company shall be entitled to be indemnified out of the assets of the Company against all losses or liabilities incurred or sustained by him as a Director, auditor or other officer of the Company in defending any proceedings, whether civil or criminal, in which judgment is given in his favour, or in which he is acquitted. Subject to the Companies Act, if any Director or other person shall become personally liable for the payment of any sum primarily due from the Company, the Board may execute or cause to be executed any mortgage, charge, or security over or affecting the whole or any part of the assets of the Company by way of indemnity to secure the Director or person so becoming liable as aforesaid from any loss in respect of such liability. Such provisions were in force throughout the year ended December 31, 2023 and are currently in force. The Company has arranged for appropriate insurance cover for Directors' liabilities in respect of legal actions that may be brought against the Directors.

Use of Proceeds from Convertible Bonds

In July 2022, the Company issued US\$70 million 6.25% convertible bonds due 2027. The Group successfully raised total net proceeds (after deducting all applicable costs and expenses including commissions, professional fees and out-of-pocket expenses) of approximately USD68.1 million (equivalent to HKD533.3 million) through the issuance of the Convertible Bonds. Details of the Group's use of proceeds from the issuance of Convertible Bonds as at December 31, 2023 are set out in the section headed "Management Discussion and Analysis - Use of Proceeds from Convertible Bonds" in this annual report.

Connected Transactions

Continuing Connected Transactions

We set out below a summary of the continuing connected transactions of the Group, which are subject to the reporting, annual review, announcement and independent shareholders' approval requirements under Chapter 14A of the Listing Rules.

Contractual Arrangements

Our Group, through our primary PRC operating entities, Shenzhen Yeahka and its subsidiaries, is primarily engaged in providing payment services and business services to merchants and consumers. In order for our Company, as a foreign investor under the current regulatory regime, to maintain its business operations while complying with the PRC laws and regulations, our Group conducts a substantial portion of the business through its PRC Consolidated Entities. Yeahka WFOE, Shenzhen Yeahka and the Registered Shareholders entered into the Contractual Arrangements on October 29, 2019. Our Group do not hold any equity interest in the PRC Consolidated Entities. Rather, through the Contractual Arrangements, we effectively control these PRC Consolidated Entities and are able to derive substantially all of their economic benefits, and expect to continue to do so.

10 A A

1 A A 📕 A A A

Reasons for the Contractual Arrangements

As advised by our PRC Legal Advisors, the value-added telecommunication services, payment services business and micro - credit business of our Group (the "**Relevant Businesses**") are subject to foreign investment restrictions in the PRC. Accordingly, our Company could not hold a shareholding interest in the PRC Consolidated Entities, which hold the licenses and approval required for the Relevant Businesses. In order for our Company, as a foreign investor, to maintain its business operations while complying with the PRC laws and regulations, we, through Yeahka WFOE, have entered into a set of contractual arrangements (the "**Previous Contractual Arrangements**") with Shenzhen Yeahka and the then registered shareholders in 2012 and 2013. The Previous Contractual Arrangements allowed our Company to exercise control over the business operation of Shenzhen Yeahka and enjoy all the economic interests derived therefrom. In preparation for the Listing and upon the completion of the Reorganization, Yeahka WFOE, Shenzhen Yeahka and the Registered Shareholders entered into the Contractual Arrangements on October 29, 2019, which superseded the Previous Contractual Arrangements.

For further details of the limitations on foreign ownership in PRC companies conducting the Relevant Businesses under PRC laws and regulations, please refer to pages 221 to 224 of the Prospectus and the sections headed "Regulatory Overview — Regulations on Payment Services of Non-financial Institutions", "Regulatory Overview — Regulations on Micro-credit Business" and "Regulatory Overview — Regulations on Value-added Telecommunication Services" of the Prospectus.

Our Directors (including our independent non-executive Directors) are of the view that the Contractual Arrangements and the transactions contemplated thereunder are fundamental to our Group's legal structure and business operations; and the Contractual Arrangements and the transactions thereunder have been and will be entered into in our ordinary and usual course of business, are on normal commercial terms or better and the terms are fair and reasonable and in the interest of our Group and our Shareholders as a whole.

Our Directors also believe that our structure, whereby the financial results of Shenzhen Yeahka and its subsidiaries are consolidated into our financial statements as if they were our Company's wholly-owned subsidiaries, and all the economic benefits of their business flow to our Group, places our Group in a special position in relation to the connected transactions rules. Accordingly, notwithstanding that the transactions contemplated under the Contractual Arrangements technically constitute continuing connected transactions under Chapter 14A of the Listing Rules, our Directors consider that it would be burdensome and impracticable, and would add unnecessary administrative costs to our Company, for all the transactions contemplated under the Contractual Arrangements to be subject to strict compliance with the requirements set out under Chapter 14A of the Listing Rules, including, among other things, the announcement and approval of independent Shareholders.

In addition, given the Contractual Arrangements were entered into prior to the Listing and are disclosed in the Prospectus and this annual report, and potential investors of our Company will deal in our Shares on the basis of such disclosure, our Directors consider that compliance with the announcement and the independent Shareholders' approval requirements in respect thereof would add unnecessary administrative costs to our Company.

Summary of Major Terms of the Contractual Arrangements

The Contractual Arrangements which were in place during the year ended December 31, 2023 and a brief description of the major terms of the structured contracts under the Contractual Arrangements are as follows:

DIRECTORS' REPORT

A REPORT OF A R

Exclusive Business Cooperation Agreement

Pursuant to the exclusive business cooperation agreement dated October 29, 2019 between Shenzhen Yeahka and Yeahka WFOE (the "Exclusive Business Cooperation Agreement"), Yeahka WFOE agreed to be engaged as the exclusive provider to the PRC Consolidated Entities of technical support, consultation and other services for a monthly service fee.

Under the Exclusive Business Cooperation Agreement, the service fee shall be of reasonable prices in accordance with the nature of the services, shall be further stipulated in separate service agreements, and shall consist of 100% of the total consolidated profit of the PRC Consolidated Entities, after deduction of any accumulated deficit of the PRC Consolidated Entities in the preceding financial year(s), working capital, expenses, taxes and other statutory contributions. Notwithstanding the foregoing, Yeahka WFOE may adjust the scope and amount of service fees according to PRC tax law and tax practices, and Shenzhen Yeahka will accept such adjustments. Yeahka WFOE shall calculate the service fees on a monthly basis and issue a corresponding value-added tax invoice to Shenzhen Yeahka at the tax rate stipulated by current PRC laws and regulations regarding value-added tax. Notwithstanding the payment agreements in the Exclusive Business Cooperation Agreement, Yeahka WFOE may adjust the payment time and payment method, and Shenzhen Yeahka will accept any such adjustment.

In addition, absent the prior written consent of Yeahka WFOE, during the term of the Exclusive Business Cooperation Agreement, with respect to the services subject to the Exclusive Business Cooperation Agreement and other matters, the PRC Consolidated Entities shall not directly or indirectly accept the same or any similar services to be provided by any third party and shall not establish cooperation relationship similar to that formed by the Exclusive Business Cooperation Agreement with any third party. Yeahka WFOE may appoint other parties, who may enter into certain agreements with the PRC Consolidated Entities, to provide the PRC Consolidated Entities with the services under the Exclusive Business Cooperation Agreement.

The Exclusive Business Cooperation Agreement also provided that Yeahka WFOE has the exclusive proprietary rights to and interests in any and all intellectual property rights developed or created by the PRC Consolidated Entities during the performance of the Exclusive Business Cooperation Agreement.

The validity period of the Exclusive Business Cooperation Agreement commenced from October 29, 2019, and it shall remain effective unless terminated (a) in accordance with the provisions of the Exclusive Business Cooperation Agreement; (b) in writing by Yeahka WFOE; (c) when all the equity interests and assets of Shenzhen Yeahka have been legally transferred to Yeahka WFOE; or (d) if renewal of the expired business period of either Yeahka WFOE or Shenzhen Yeahka is denied by relevant government authorities, at which time the Exclusive Business Cooperation Agreement will terminate upon expiration of that business period.

Exclusive Option Agreement

DIRECTORS' REPORT

• • • • • • • • • •

10 A A

Pursuant to the exclusive option agreement dated October 29, 2019 among Shenzhen Yeahka, Yeahka WFOE and the Registered Shareholders (the "**Exclusive Option Agreement**"), the Registered Shareholders irrevocably agreed to grant Yeahka WFOE an exclusive right to acquire, or designate one or more persons to acquire, from the Registered Shareholders any or all their equity interests then held in Shenzhen Yeahka, in whole or in part at any time, for a total consideration of RMB200,000,000, which equals to the registered capital of Shenzhen Yeahka. If Yeahka WFOE exercises its option right to acquire part of equity interests held by certain Registered Shareholder(s) in Shenzhen Yeahka, the purchase price shall be calculated in proportion to the equity interests being transferred. Furthermore, where the above purchase prices are higher than the lowest price permitted by the then PRC laws and regulations at the time of exercising options, the lowest price permitted by PRC laws and regulations shall be applied. Each of Shenzhen Yeahka and the Registered Shareholders has given certain covenants under the Exclusive Option Agreement.

The Registered Shareholders have also undertaken that, subject to the relevant laws and regulations, they will return to Yeahka WFOE any consideration they receive in the event that Yeahka WFOE exercise the options under the Exclusive Option Agreement to acquire the equity interests in the PRC Consolidated Entities. The validity period of the Exclusive Option Agreement commenced from October 29, 2019 and it shall remain effective unless terminated (a) in accordance with the provisions of the Exclusive Option Agreement; (b) in writing by Yeahka WFOE; or (c) when the entire equity interests held by the Registered Shareholders or their successors or the transferees in Shenzhen Yeahka have been transferred to Yeahka WFOE or their appointee(s).

Equity Pledge Agreement

Pursuant to the equity pledge agreement dated October 29, 2019 entered into between Yeahka WFOE, Shenzhen Yeahka and each of the Registered Shareholders (collectively, the "**Equity Pledge Agreements**"), the Registered Shareholders agreed to pledge all their respective equity interests in Shenzhen Yeahka that they own, including any interest or dividend paid for the shares, to Yeahka WFOE as a security interest to guarantee the performance of contractual obligations and the payment of outstanding debts.

The pledge in respect of Shenzhen Yeahka took effect upon the completion of the change of registration on February 18, 2020 with the relevant administration for industry and commerce and shall remain valid until after all the contractual obligations of the Registered Shareholders and Shenzhen Yeahka under the relevant Contractual Arrangements have been fully performed and all the outstanding debts of the Registered Shareholders and Shenzhen Yeahka under the relevant Contractual Arrangements have been fully performed and all contractual Arrangements have been fully paid.

Upon the occurrence and during the continuance of an event of default (as defined in the Equity Pledge Agreement), unless such default is cured within 20 days following the Registered Shareholders or Shenzhen Yeahka's receipt of the written notice which requests the cure of such default, Yeahka WFOE shall have the right to exercise all such rights as a secured party under any applicable PRC laws and regulations and the Equity Pledge Agreements, including without limitation, being paid in priority with the equity interests based on the monetary valuation that such equity interests are converted into or from the proceeds from auction or sale of the equity interests upon written notice to the Registered Shareholders.

Powers of Attorney

Each of the Registered Shareholders has executed a power of attorney dated October 29, 2019 (collectively, the "Powers of Attorney") pursuant to which each of the Registered Shareholders irrevocably appointed Yeahka WFOE and its designated persons (including but not limited to the Directors and their successors and liquidators replacing the Directors but excluding those who are non-independent or who may give rise to conflict of interests) as his or its attorney-in-fact to exercise on his or its behalf, and agreed and undertook not to exercise, any and all right that he or it has in respect of his or its equity interests in Shenzhen Yeahka.

Each of the Registered Shareholders has undertaken that he will not directly or indirectly participate in, engage in, involve in, own or be interested in any business which potentially competes with Yeahka WFOE or its affiliates without Yeahka WFOE's prior written consent.

Each of the individual Registered Shareholders has undertaken that in the event that he becomes a natural person without civil capacity or a natural person with limited capacity for civil activity due to any reasons, his representatives or successors shall continue to perform his obligations and enjoy the benefits under the Contractual Arrangements subject to the terms of the Powers of Attorney.

Each of the non-individual Registered Shareholders has undertaken that in the event that it becomes a legal person without civil capacity or a legal person with limited capacity for civil activity due to its liquidation or other reasons, its administrator shall continue to perform its obligations and enjoy the benefits under the Contractual Arrangements subject to the terms of the Powers of Attorney.

Further, the Registered Shareholders have been in compliance with the Powers of Attorney since October 29, 2019, and the Powers of Attorney shall remain effective for so long as he or it holds an equity interest in Shenzhen Yeahka.

Loan Agreement

Yeahka WFOE, Mr. Liu and Mr. Qin Baoan ("Mr. Qin") entered into a loan agreement on October 29, 2019 (the "Loan Agreement"), pursuant to which Yeahka WFOE provided an RMB198,813,172 interest-free loan to Mr. Liu and an RMB1,186,828 interest-free loan to Mr. Qin for their investment in Shenzhen Yeahka.

The term of the Loan Agreement commenced on the date of entering into the Loan Agreement and shall be terminated when Yeahka WFOE exercises its exclusive option to acquire, or designate one or more persons to acquire, from the individual Registered Shareholders any or all their equity interests then held in Shenzhen Yeahka, as stipulated in the Exclusive Option Agreement. The loan will become due and payable under the following circumstances: (i) 30 days after receiving a written notice from Yeahka WFOE requesting repayment of the loan; (ii) the death or loss of civil capacity of the individual Registered Shareholders; (iii) the individual Registered Shareholders being engaged or involved in criminal activities; and (iv) Yeahka WFOE exercising its exclusive option to acquire, or designate one or more persons to acquire, from the individual Registered Shareholders any or all their equity interests then held in Shenzhen Yeahka pursuant to the Exclusive Option Agreement and the PRC foreign ownership restrictions applicable to the Group's business have been lifted. Mr. Liu's and Mr. Qin's contribution to the share capital of Shenzhen Yeahka is RMB198,813,172 and RMB1,186,828, respectively.

Spouse Undertakings

The spouse of each of the individual Registered Shareholders, where applicable, has signed a letter of agreement on October 29, 2019 to the effect, among others, that:

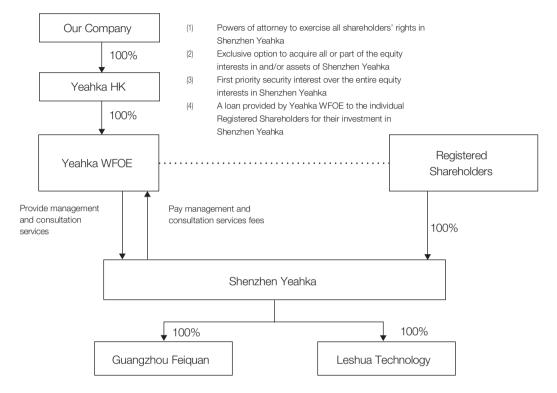

- each spouse confirmed and agreed that the respective individual Registered Shareholder's (i) existing and future equity interests in Shenzhen Yeahka (together with any other interests therein) are separate properties of the individual Registered Shareholder and do not fall within the scope of communal properties of such individual Registered Shareholder and his spouse; the respective individual Registered Shareholder is entitled to deal with his own equity interests and any interests therein in Shenzhen Yeahka in accordance with the Contractual Arrangements. The spouse of each of the individual Registered Shareholder confirmed that she will fully assist with the performance of the Contractual Arrangements at any time;
- (ii) each spouse unconditionally and irrevocably waives any right or benefits on such equity interests and assets in accordance with applicable laws and confirms that she will not have any claim on such equity interests and assets; and she has not and does not intend to participate in the operation and management or other voting matters of Shenzhen Yeahka;
- (iii) each spouse confirmed that the respective individual Registered Shareholder may further amend or terminate the Contractual Arrangements or enter into other alternative documents without the need for authorization or consent by the spouse; and
- (iv) each spouse will enter into all necessary documents and take all necessary actions to ensure the due performance of Contractual Arrangements as amended from time to time.

The following simplified diagram illustrates the flow of economic benefits from Shenzhen Yeahka to our Group stipulated under the Contractual Arrangements.

Risks relating to the Contractual Arrangements

1 11

DIRECTORS' REPORT

We believe the following risks are associated with the Contractual Arrangements. Further details of these risks are set out on pages 57 to 62 of the Prospectus.

- If the PRC Government finds that the Contractual Arrangements do not comply with applicable PRC laws and regulations, or if these regulations or their interpretations change in the future, we could be subject to severe consequences, including the nullification of the Contractual Arrangements and the relinquishment of our interest in our PRC Consolidated Entities.
- Substantial uncertainties exist with respect to the interpretation and implementation of the Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance and business operations.
- Our Contractual Arrangements may not be as effective in providing operational control as direct ownership. Our PRC Consolidated Entities may fail to perform their obligations under our Contractual Arrangements.
- We may lose the ability to use and enjoy assets held by our PRC Consolidated Entities that are material to our business operations if our PRC Consolidated Entities declare bankruptcy or become subject to a dissolution or liquidation proceeding.
- The Registered Shareholders of Shenzhen Yeahka may have conflicts of interest with us, which may materially and adversely affect our business.
- Our Contractual Arrangements may be subject to scrutiny by the PRC tax authorities, and a finding that we owe additional taxes could substantially reduce our consolidated net income and the value of your investment.
- If we exercise the option to acquire equity ownership and assets of our PRC Consolidated Entities, the ownership or asset transfer may subject us to substantial costs.

Mitigation Actions Taken by the Company

Our management works closely with our executive Directors, our external legal advisers and other professional advisors to monitor the regulatory environment and developments in PRC laws and regulations to mitigate the risks associated with the Contractual Arrangements.

The Board is pleased to present this corporate governance report for the purpose of inclusion in the Company's annual report for the year ended December 31, 2023 (the "Year").

Corporate Purpose, Value, Strategy and Culture

The Company is a leading payment-based technology platform, which continuously creates value for merchants and consumers since its establishment.

Innovation

We believe that only continuous innovation and breakthroughs in technology, products, and services with forward-thinking can create more value for merchants and make life more convenience.

Integrity

We insist on integrity and trustworthiness, which is the standard of establishing long-term and mutually beneficial relations with colleagues internally and users, business partners, investors and other parties externally.

Enterprise

We have the ambition to strive for progress and improvement, driving us to perfect technology and enhance services continuously to achieve sustainable development, exceed expectations and meet demand.

Responsibility

We have the courage to shoulder responsibility and focus on the big picture instead of personal or short-term interests. When facing difficulties and challenges, we will embrace them, stay positive, strive for the best results and excel ourselves.

Compliance with the CG Code

The Company is committed to maintaining and implementing strict corporate governance. The principles of the Company's corporate governance are to promote effective internal control measures, uphold a high standard of ethics, transparency, responsibility and integrity in all aspects of its business, to ensure compliance with applicable laws and regulations in its business and operations, and to enhance transparency and the accountability of the Board to all Shareholders. The Company's Corporate Governance Code is based on the principles and code provisions prescribed in the CG Code as set out in Appendix C1 to the Listing Rules. The Board is of the view that for the year ended December 31, 2023, the Company has complied with the majority of the code provisions as set out in the CG Code, with the exception of deviations from code provision C.2.1 of Part 2 as explained in this Corporate Governance report.

CORPORATE GOVERNANCE REPORT

The Board directly, and indirectly through its committees, leads and provides direction to the management by laying down strategies and overseeing their implementation, monitors the Group's operational and financial performance, and ensures that internal control is sound and risk management systems are in place. The Board has delegated responsibilities to the Board committees, which have been set out in their respective terms of reference.

Delegation of Management Functions

The major powers and function of the Board include, but not limited to, convening general meetings, reporting its work at general meetings, implementing resolutions adopted at general meetings, considering and approving operating and investment plans of the Company, formulating the Company's strategic development plans, formulating annual financial budgets and final accounts, formulating profit distribution plans and plans on making up losses, and exercising other power and functions as conferred by the Memorandum and the Articles of Association.

The Board regularly reviews the contribution required from a Director to perform his/her responsibilities to the Company, and whether the Director is spending sufficient time performing them.

All Directors have full and timely access to all the information of the Company and advice from the company secretary and the senior management of the Company, and may, where appropriate, request to seek independent professional advice at the Company's expenses for discharging their duties to the Company.

The Board is responsible for making decisions on strategic plans, major investment decisions and other significant operational issues of the Company, while responsibilities for implementing decisions of the Board, day-to-day management, administration and operation of the Company are delegated to the senior management. The Board will review the delegated functions and tasks regularly. The management has to obtain the Board approval prior to entering into any significant transaction.

Structure of the Board

As at the date of this annual report, the Board consists of seven Directors, including three executive Directors, one non-executive Director and three independent non-executive Directors. The list of the Board members and their positions are set out below.

Executive Directors:

Mr. Liu Yingqi (Chairman of the Board and Chief Executive Officer) Mr. Yao Zhijian (Chief Financial Officer) Mr. Luo Xiaohui (Chief Architect)

Non-executive Directors:

Mr. Mathias Nicolaus Schilling (retired on June 5, 2023) Mr. Akio Tanaka

Independent Non-executive Directors:

Mr. Tam Bing Chung Benson Mr. Yao Wei Mr. Yang Tao

Biographical details of each Directors are set out in the section headed "Directors and Senior Management".

All Directors, including non-executive Directors, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective functioning. All Directors have carried out duties in good faith and in compliance with applicable laws and regulations, and have always acted in the interests of the Company and the Shareholders.

There is no relationship (including financial, business, family or other material/relevant relationship) between the Board members of the Company.

Chairman and Chief Executive Officer

Code provision C.2.1 of Part 2 of the CG Code stipulates that the roles of chairman of the Board and chief executive officer should be separate and should not be performed by the same individual. The roles of chairman of the Board (the "**Chairman**") and chief executive officer of the Company are held by Mr. Liu Yingqi. In view of Mr. Liu's experience, personal profile and his roles in the Company, and the fact that Mr. Liu has assumed the role of chief executive officer of the Company since 2011, the Board considers it beneficial to the management and business development of our Group and will provide an outstanding and consistent leadership to our Group that Mr. Liu acts as the chairman of the Board and continues to act as the chief executive officer of the Company.

While this will constitute a deviation from code provision C.2.1 of Part 2 of the CG Code, the Board believes this structure will not impair the balance of power and authority between the Board and the management of the Company, given that: (i) decision to be made by the Board requires approval by at least a majority of our Directors; (ii) Mr. Liu and the other Directors are aware of and undertake to fulfill their fiduciary duties as Directors, which require, among other things, that he acts for the benefit and in the best interests of the Company and will make decisions for the Company accordingly; and (iii) the balance of power and authority is ensured by the operations of the Board which comprises experienced and high caliber individuals who meet regularly to discuss issues affecting operations of the Company.

10 C 10 C

The Chairman provides leadership to the Board by ensuring the Board works effectively and discharges its responsibilities in time, and all key and appropriate issues are discussed by it in a timely manner. The Chairman himself, or a Director or a company secretary delegated by him, is responsible for determining and approving the agenda for each Board meeting. The Chairman ensures that good corporate governance practices and procedures are established. The Chairman encourages all Directors to make a full and active contribution to the Board's affairs and take the lead to ensure that it acts in the best interests of the Company. The Chairman ensures that Directors receive, in a timely manner, adequate information which must be accurate, clear, complete and reliable. The Chairman ensures appropriate steps are taken to provide effective communication with Shareholders and that their views are communicated to the Board as a whole. The Chairman promotes the effective contribution of Directors (in particular non-executive Directors) to the Board and ensures constructive relations between executive and non-executive Directors.

Independent Non-Executive Directors

The Board has been complying with the requirements of Rules 3.10 (1) and 3.10 (2) of the Listing Rules relating to the appointment of at least three independent non-executive Directors with at least one independent non-executive Director possessing appropriate professional qualifications or accounting or related financial management expertise. In addition, under Rule 3.10A of the Listing Rules, independent non-executive Directors shall represent at least one-third of the Board. The Company has three independent non-executive Directors during the Year, accounting for over one-third of the Board members; therefore, the Company has complied with the relevant regulations.

Independent non-executive Directors have confirmed their independence in the Year to the Company in accordance with Rule 3.13 of the Listing Rules. Based on the confirmation of independent non-executive Directors, the Company considers that they are independent during the Year.

Appointment and Re-Election of Directors

1.1

Code provision B.2.2 of Part 2 of the CG Code states that every director, including those appointed for a specific term, shall be subject to retirement by rotation at least once every three years. The procedures and process of appointment, re-election and removal of Directors are contained in the Memorandum and the Articles of Association.

Each of the executive Directors, Mr. Liu Yingqi, Mr. Yao Zhijian and Mr. Luo Xiaohui, have signed service contracts with the Company. The term for Mr. Liu Yingqi and Mr. Yao Zhijian is three years from April 30, 2023, while the term for Mr. Luo Xiaohui is three years from August 28, 2023. The service contract may be terminated in accordance with its terms.

Each of the non-executive Directors and the independent non-executive Directors have signed the letters of appointment with the Company. The terms and conditions of respective letters of appointment are similar in all material aspects. Each of the non-executive Directors and the independent non-executive Directors have been appointed for a term of three years from April 30, 2023, except for Mr. Akio Tanaka whose term is three years from August 28, 2023. The letter of appointment may be terminated in accordance with its terms.

According to Article 16.2 of the Articles of Association, the Board shall have power from time to time and at any time to appoint any person as a Director either to fill a casual vacancy or as an addition to the Board. Any Director so appointed shall hold office until the first annual general meeting of the Company after such appointment and shall then be eligible for re-election at that meeting.

According to Article 16.19 of the Articles of Association, at every annual general meeting of the Company, one-third of the Directors for the time being (or, if their number is not three or a multiple of three, then the number nearest to, but not less than, one-third) shall retire from office by rotation provided that every Director (including those appointed for a specific term) shall be subject to retirement by rotation at least once every three years. Any Director required to stand for re-election pursuant to Article 16.2 shall be not considered in determining the number of Directors and which Directors are to retire by rotation. A retiring Director shall retain office until the close of the meeting at which he retires and shall be eligible for re-election thereat. At any annual general meeting at which any Director retires, the Company may fill the vacated office by electing a like number of persons to be Directors.

In addition to the regular Board meetings, during the year ended December 31, 2023, the Chairman also held a meeting with independent non-executive Directors without the attendance of other Directors.

The Company adopts the practice of holding regular Board meetings at least four times a year at approximately quarterly intervals. Notices of not less than 14 days are given for all regular Board meetings to provide all Directors with an opportunity to attend the meetings and discuss matters included in the agenda.

For other meetings of the Board and the Board committees, reasonable notices are generally given. The agenda and accompanying Board papers are dispatched to Directors or members of the Board committees at least three days before the meetings to ensure that they have sufficient time to review the papers and are adequately prepared for the meetings. Where Directors or members of the Board committees are unable to attend a meeting, they will be advised of the matters to be discussed and given an opportunity to make their views known to the Chairman prior to the meeting. All Directors shall obtain information related to the Board resolutions in a comprehensive and timely manner.

The senior management normally will attend regular Board meetings and where necessary, other Board and committee meetings, to advise on business development, financial and accounting matters, statutory and regulatory compliance, corporate governance and other major aspects of the Company. The Board and each Director also have separate and independent access to the senior management where necessary.

Minutes of meetings of the Board and the Board committees are recorded in full detail about the matters considered by the Board and the Board committees and the decisions reached, including concerns raised or objections expressed by Directors. Draft minutes of each meeting of the Board and the Board committees are sent to Directors for comments within a reasonable time after the date of the meeting. Minutes of meetings are kept by the company secretary of the Company with copies circulated to all Directors for information and records. Any Director can seek independent professional advice at the Company's expense after making reasonable request to the Board.

If a substantial shareholder or a Director has a potential conflict of interest in a matter to be considered by the Board which the Board has determined to be material, the relevant Directors shall abstain from voting and a Board meeting attended by independent non-executive Directors who have no material interest in the matter shall be held to discuss and vote on the same.

Director Nomination Policy

According to the Company's Director nomination policy, the Nomination Committee shall recommend to the Board candidates for election as Directors (including independent non-executive Directors) in accordance with the following nomination procedures: (i) the Nomination Committee and/or the Board may solicit candidates for directorship through various means, including but not limited to internal promotion, transfer, recommendation by other members of management and by external recruitment agents; (ii) the Nomination Committee and/or the Board shall, upon receipt of a proposal for the appointment of a new Director and the candidate's personal information (or relevant details), evaluate the candidate to determine the suitability of the candidate to serve as a Director in accordance with the following criteria; (iii) the Nomination Committee shall then make appropriate recommendations to the Board for the appointment of a suitable person to the position of Director; and (iv) in respect of any person nominated by a Shareholder for election as a Director at a general meeting of the Company, the Nomination Committee and/or the Board shall evaluate such candidate in accordance with the following criteria to determine whether such candidate is suitable to become a Director. If appropriate, the Nomination Committee and/or the Board shall make a recommendation to the Shareholders regarding the proposal for the election of Directors at a general meeting of the Company.

In evaluating and selecting candidates for directorship, the Nomination Committee shall consider the following criteria: (i) character including integrity, honesty and impartiality; (ii) background and qualifications including professional qualifications, skills, knowledge and experience relevant to the Company's business operations and corporate strategy; (iii) commitment to understanding the Company and its industry, willingness to devote sufficient time to the duties of Board members and ability to assist the Board in performing its duties; (iv) requirement for the Board to have sufficient independent non-executive Directors in accordance with the Listing Rules and assessment of the independence of candidates; (v) the Board Diversity Policy and any measurable objectives adopted by the Nomination Committee for the purpose of diversifying the Board. Diversity of Board members shall be considered from a number of perspectives, including but not limited to gender, skills, age, cultural and educational background, industry experience, technical and professional experience and/or qualifications, knowledge, length of service and time to be devoted as a Director; and (vi) other factors relevant to the Company's business model and specific needs from time to time, and the contribution that the selected candidates shall bring to the Board.

Board Diversity Policy

a 📕 a sa 🖉 a sa sa

1.1

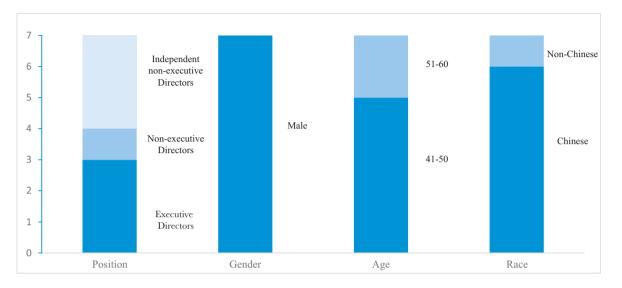

The Board has adopted a Board Diversity Policy which sets out the objectives and methods for achieving and maintaining Board diversity to enhance Board effectiveness. The Board Diversity Policy requires the Company to make every effort to ensure that Board members have the balance of skills, experience and diversity required to execute its business strategies. In accordance with the Board Diversity Policy, we achieve board diversity by taking into account a number of factors, including but not limited to professional experience, skills, knowledge, gender, age, cultural and educational background, ethnicity and length of service. The Board has delegated to the Nomination Committee the responsibility for compliance with the codes governing board diversity in the CG Code. The Nomination Committee reviews the Board Diversity Policy from time to time to ensure its continued effectiveness and we shall disclose the implementation of the Board Diversity Policy in our Corporate Governance Report on an annual basis.

The Board and the Nomination Committee of the Company have reviewed the Board Diversity Policy, measurable objectives, including but not limited to professional experience, skills, knowledge, gender, age, cultural and educational background, ethnicity and length of service, and the progress on achieving the objectives on March 27, 2023. The Board considers that the Board Diversity Policy is effective and is satisfied with the measurable objectives and the progress on achieving the objectives.

As at December 31, 2023, the Board comprised seven members, including three executive Directors, one non-executive Director and three independent non-executive Directors. The Directors have balanced experience in overall management and strategic development, business and risk management as well as finance and accounting. The Board members are of all ages, ranging from 41 to 60. The Board members are of diverse cultural and educational backgrounds, as well as ethnicity. After due consideration, the Board believes that the Company's Board, which is comprised of Directors with elite management skills, has met its measurable objectives and is consistent with the Board Diversity Policy. Despite that the Board is only comprised of male members currently, the Board plans to appoint at least one female Board member no later than December 31, 2024 in line with its diversity policy. The Board may identify and select suitable female Board members or successors from various sources, including but not limited to internal promotion, recommendation from Board members and external recruitment.

The following chart shows the diversity profile of the Board as at December 31, 2023:

As at December 31, 2023, male employees accounted for 72% and female employees accounted for 28% of all employees (including senior management) of the Group. To achieve gender diversity, we are committed to creating favorable conditions in our working environment to attract more women to join the Group, and thus increase the proportion of female employees (including senior management) year by year, making us a gender-balanced company. The gender balance scheme includes hiring and promoting more women to hold senior management positions based on the qualifications, experience and skills required for those positions. In addition, we may face the issue of whether the supply of female personnel in the human resources market matches the academic gualifications, experience and skills required for positions within the Group. Despite these challenges, we are still moving towards gender balance.

Mechanism for the Board to Obtain Independent Views and Opinions

The Board has adopted the "Mechanism for the Board to Obtain Independent Views and Opinions", which clarifies the procedures and channels for Directors to seek advice from external professional consultants and obtain information, as well as the qualifications, number and time contributed by independent non-executive Directors to ensure independent views and opinions available to the Board. The Board will also review the implementation and effectiveness of this mechanism on a yearly basis.

On March 27, 2023, the Board reviewed the implementation and effectiveness of the mechanism. The Board considers that the "Mechanism for the Board to Obtain Independent Views and Opinions" is effective.

Ms. Mak Po Man Cherie of SWCS Corporate Services Group (Hong Kong) Limited, an external service provider, has been appointed as the company secretary by the Company with effect from the Listing Date. During Ms. Mak's term of office, Mr. Yao Zhijian, an executive Director, shall be the principal liaison between the Company and Ms. Mak. Ms. Mak reports to the Chairman of the Board and is responsible for advising the Board on corporate governance matters to ensure that the Board procedures and all applicable laws, rules and regulations are complied with.

During the year ended December 31, 2023, Ms. Mak received not less than 15 hours of relevant professional training.

Dividend Policy

In accordance with code provision F.1.1 of Part 2 of the CG Code, the Company has adopted a dividend policy for the purpose of setting out the principles and guidelines to be applied by the Company in relation to the declaration, payment or distribution of dividends of Shareholders on the net profit of the Company.

The policy adopted by the Board is that the Company shall maintain sufficient cash reserves to meet its working capital requirements, future growth and the value of its Shareholders when proposing or declaring dividends. The Company does not have any pre-determined dividend payout ratio. Subject to the Articles of Association and all applicable laws and regulations and the factors set out below, the Board may, at its discretion, declare and distribute dividends to the Shareholders of the Company.

In considering the declaration and payment of dividends, the Board shall also take into account the following factors in relation to the Group, including financial results, cash flow, business conditions and strategies, future operations and earnings, capital requirements and expenditure plans, interests of Shareholders, any restrictions on the payment of dividends and any other factors that the Board may deem as relevant.

Depending on the financial position of the Company and the Group and the above conditions and factors, the Board may recommend and/or declare the following dividends for a particular financial year or period, including interim dividends, final dividends, special dividends, and any distribution of net profits as the Board may consider appropriate. Any final dividend in respect of a fiscal year shall be subject to approval by the Shareholders. Dividends may be declared and paid by the Company in cash, scrip dividends or in such other manner as the Board of Directors may consider appropriate. Any unclaimed dividend shall be forfeited and shall revert to the Company in accordance with the provisions of the Articles of Association. The Board shall review the dividend policy from time to time as appropriate.

Directors' and Senior Management's Liability Insurance

The Company has purchased insurance coverage for all Directors and members of senior management to minimize the risks they may incur in the normal course of performing their duties. The Board reviews the relevant insurance coverage annually.

Directors' Responsibility for the Financial Statements

The Directors acknowledge their responsibilities for the preparation of the financial statements of the Company for the year ended December 31, 2023.

The Directors are not aware of any material uncertainties relating to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

The management has provided the Board with such explanations and information necessary to enable the Board to make an informed assessment of the Company's financial statements presented for the Board's approval. The management provides monthly updates to all Board members on the Company's performance, condition and prospects.

A statement by the Company's independent auditor regarding its reporting responsibilities on the Company's consolidated financial statements for the year ended December 31, 2023 is included in the "Independent Auditor's Report" section of this annual report.

| Services provided | Fees paid/payable (RMB) |
|----------------------------|-------------------------|
| Audit service | 6,400 |
| Non-audit service Note (1) | 599 |

Note (1): Non-audit service mainly includes consulting service.

PricewaterhouseCoopers shall be invited to attend the AGM to answer questions about the audit, the preparation and content of the auditor's report, accounting policies and auditor independence.

Risk Management and Internal Control

e 🔳 a se 🗉 e se se

The Board considers that appropriate and effective risk management and internal control systems are an important safeguard for the achievement of the Company's strategic objectives, and confirms its responsibility for the review of the Company's risk management and internal control systems and their effectiveness. The management shall be responsible for implementing the Board's risk management and internal control policies and procedures, designing, implementing and monitoring the risk management and internal control systems, and confirming the effectiveness of such systems to the Board.

Good risk management and internal control systems are designed to manage, not eliminate, risks that may prevent the Company from achieving its business objectives and can only provide reasonable, but not absolute, assurance against material misstatement or loss. To this end, appropriate policies and procedures have been established and implemented to ensure that key risks that could affect the Company's performance are properly identified and managed, that the Company's assets are not used or disposed of without permission, that financial and accounting information is accurately recorded and maintained in accordance with relevant accounting standards and regulatory reporting requirements, and that all operations comply with relevant rules and regulations.

Risk Management and Internal Control Systems and Their Characteristics

The Group's risk management and internal control systems include a clear structure with specified license and responsibilities. As the owner of risk prevention and control, business units are responsible for implementing daily risk management and internal control, identifying and assessing internal and external risk information. The management is responsible for setting appropriate principles and values, performing risk assessments, designing, implementing and maintaining the internal controls, as well as giving confirmation to the Board on the effectiveness of the risk management and internal controls. The Board and the Audit Committee oversee the actions of the management and monitor the overall effectiveness of the control systems.

To the extent authorized by the Board and the Audit Committee, the Company has established a Risk Management Committee and set up three lines of defense for the risk management and internal control systems to specifically perform the daily duties related to risk management and internal control:

Risk Management Committee

It consists of the management of the Company and reports directly to the Board of Directors and the Audit Committee.

CORPORATE GOVERNANCE REPORT

It is responsible for organizing, planning, formulating and adjusting the Company's risk management strategy and its implementation mechanism, clarifying the division of labor and coordination mechanism for risk management in each department, and regularly reporting work related to risk management to the Board of Directors and the Audit Committee to supervise daily risk management activities and conduct regular review and disclosure of risk assessment and internal controls.

Three Lines of Defense for Risk Management and Internal Control Systems

- The first line of defense consists of the core business departments of the Company. As the first responsible organization for risk management, it is responsible for designing and implementing standards for daily business operation to manage various risks in the business processes.
- The second line of defense consists of risk control, policy development, finance and other supporting functions. It is responsible for designing, implementing and monitoring risk control, legal affairs, compliance and finance, and other management regulations, and assisting the first line of defense in risk management and control, timely discovery, capture, early warning and tracking of abnormal risk information from daily supervision.
- The third line of defense consists of the Internal Audit and Control Department, which is responsible for providing analysis and evaluation independent from the first and second lines of defense for the effectiveness of the Company's risk management and internal monitoring systems, and supervising their improvement and enhancement; as well as receiving reports and monitoring the handling of reported cases.

The Effectiveness of Risk Management and Internal Control Systems

The Board reviews the effectiveness of the Group's risk management and internal control systems at least once annually. The review covers all material controls, including significant risks and the Company's ability to address them, the scope and quality of management's ongoing monitoring of risks and of internal control systems, internal audit function and the existence and impact of significant control failure or weaknesses. During the above review process, the management is responsible for providing the Board with timely information to assist the Board in its assessment of the effectiveness of the Group's controls and risk management.

During the year ended December 31, 2023, the Board received a confirmation from management on the effectiveness of the Group's risk management and internal control systems and completed a review of them and considered the Group's risk management and internal control systems effective and adequate. The Board has also completed a review of the adequacy of the resources, staff qualifications and experience, training programs and relevant budget of the Group's accounting, internal audit and financial reporting functions, and was satisfied with the results.

The Company has formulated and implemented an Information Disclosure System which provides general guidelines to the Directors, senior management and staff of the Company on the handling of confidential information, monitoring data disclosure and responding to enquiries, and has put in place control procedures to ensure that unauthorized access to and use of inside information is strictly prohibited.

Investor Relations

Communication with Shareholders and Investors

The Company considers that effective communication with Shareholders is essential for enhancing investor relations and investors' understanding of the Group's business performance and strategies. The Company also recognizes the importance of transparency and timely disclosure of corporate information, which will enable Shareholders and investors to make the best investment decisions.

The Company has adopted the Shareholders' Communication Policy on March 31, 2022, which sets out the Company's use of a number of mechanisms to provide effective and efficient communication to Shareholders, among which, (i) the Company publishes updated information and news on its business operations and development, financial information, corporate governance practices and other information for public access through the website of the Stock Exchange (www.hkexnews.hk) and the website of the Company (www.yeahka.com) to facilitate effective communication, timely and objective provision of clear and complete information to Shareholders and investors; (ii) the Company is also committed to continuously strengthening the communication with the Shareholders' investment market, designating senior management of the Company to maintain regular dialogue with institutional investors and analysts, organizing various activities including briefings for investors/analysts, local and international tours, media interviews and investor promotion activities, as well as organizing/participating in industry thematic forums, so as to facilitate communication between the Company and its Shareholders and investors; and (iii) the Chairman of the general meeting will explain to the Shareholders the detailed procedures for voting by poll and answer any questions from the Shareholders in connection with voting by poll at the annual general meeting and other general meetings. At the annual general meeting, the Chairman of the Board, the Chairmen of the Audit Committee, the Remuneration Committee and the Nomination Committee, or, in their absence, other members of each committee will also answer questions from Shareholders.

During the year ended December 31, 2023, the Board has reviewed the implementation and effectiveness of the Shareholders' Communication Policy. The Board believes that the diversified shareholders' communication channels provide Shareholders and investors with effective access to information about the Group, and that Shareholders can contact the Board directly and express their opinions on their own initiative through the following procedures of making inquiries to the Board. The Board, therefore, endorses the effectiveness of the Shareholders' Communication Policy.

Procedures for Shareholders to Convene an Extraordinary General Meeting and Shareholders' Rights

In accordance with Article 12.1 of the Articles of Association, the Company shall hold a general meeting as its annual general meeting within six months after the end of each financial year. Pursuant to Article 12.3 of the Articles of Association, the Board may, whenever it thinks fit, convene an extraordinary general meeting. General meetings shall also be convened on the written requisition of any one or more members holding together, as at the date of deposit of the requisition, shares representing not less than one-tenth of the paid-up capital of the Company which carry the right of voting at general meetings of the Company. The written requisition shall be deposited at the principal office of the Company in Hong Kong or, in the event the Company ceases to have such a principal office, the registered office of the Company, specifying the objects of the meeting and signed by the requestor(s). If the Board does not, within 21 days from the date of deposit of the requisition, proceed duly to convene the meeting to be held within a further 21 days, the requestor(s) themselves or any of them representing more than one-half of the total voting rights held by all of them, may convene the general meeting in the same manner, as nearly as possible, as that in which meetings may be convened by the Board provided that any meeting so convened shall not be held after the expiration of three months from the date of deposit of the requisition, and all reasonable expenses incurred by the requestor(s) as a result of the failure of the Board shall be reimbursed to them by the Company.

Pursuant to Article 13.5 of the Articles of Association, at any general meeting, a resolution put to the vote of the meeting shall be decided on a poll save that the Chairman may, in good faith, allow a resolution which relates purely to a procedural or administrative matter as prescribed under the Listing Rules to be voted on by a show of hands. The poll results will be posted on the websites of the Stock Exchange and the Company immediately after the relevant general meetings.

As one of the measures to safeguard Shareholders' interests and rights, separate resolutions are proposed at Shareholders' meetings for each substantially separate issue, including the election of individual Directors, for Shareholders' consideration and voting.

Procedures for Shareholders to Put Forward Proposals at General Meetings

There are no provisions under the Memorandum and Articles of Association and the Companies Law of the Cayman Islands regarding approval of Shareholders' proposal of new resolutions at the general meeting. The Shareholders who intend to propose a resolution may require the Company to convene an extraordinary general meeting pursuant to the procedures as stated in the above paragraph — "Procedures for Shareholders to Convene an Extraordinary General Meeting and Shareholders' Rights".

Procedures for Shareholders to Propose Persons for Election as Directors

According to Article 16.4 of the Articles of Association, if any Shareholder of the Company proposes any person other than a retiring Director for election as a Director at any general meeting, the Shareholder shall submit a written notice of his/her intention to propose such person for election as a Director of the Company and also a written notice signed by such person to be proposed for election as a Director of the Company of his/her willingness to be elected to 19/F, A4 Building, Kexing Science Park, 15 Keyuan Road, Nanshan District, Shenzhen, China or to 40th Floor, Dah Sing Financial Centre, No. 248 Queen's Road East, Wanchai, Hong Kong. The period for submitting the notices required by this Article shall start no earlier than the day after the notice of the general meeting designated for the election is sent, and end no later than seven days before the date of the general meeting, and the minimum length of the period, during which such written notices are given, shall be at least seven days. To facilitate the Company informing that proposal to the Shareholders, according to the requirements of Rule 13.51(2) of the Listing Rules, the written notices must contain the personal information of the person proposed for election as a Director, and shall be signed by relevant Shareholder(s) and the proposed Director, indicating his/her willingness to be elected as a Director and his/her consent to disclose his/her personal information. In order to ensure that other Shareholders would have sufficient time to receive and consider the information of the person proposed for election as a Director, Shareholders are urged to lodge their written notice of their intention to propose a person for election as a Director as early as practicable in advance of the relevant general meeting and, in any case, not less than 12 business days (as defined in the Listing Rules, i.e. day(s) on which the Stock Exchange is open for business of dealing in securities) before the date scheduled for holding the relevant general meeting, so that the Company can complete the verification with the share registrar, and publish announcement(s) and/or the dispatch of a supplementary circular to Shareholders in compliance with the relevant requirements under the Listing Rules. In the event that such written notices are received by the Company later than the 12th business day before the date of holding the relevant general meeting, the Company shall consider whether to adjourn the relevant meeting so as to give Shareholders a notice of at least 10 business days of the proposal in accordance with the Listing Rules. "Procedures for Shareholders to Propose Persons for Election as Directors" are available on the website of the Company.

The consolidated financial statements of Yeahka Limited (the "**Company**") and its subsidiaries (the "**Group**"), which are set out on pages 105 to 229, comprise:

- the consolidated statement of financial position as at 31 December 2023;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, comprising material accounting policy information and other explanatory information.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (**"ISAs**"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants ("**IESBA Code**"), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are summarised as follows:

- Revenue recognition of one-stop payment services
- Goodwill impairment assessment
- Fair value measurement of financial assets at fair value through profit or loss ("FVPL")

| Key Audit Matter | How our audit addressed the Key Audit Matter |
|--|---|
| Revenue recognition of one-stop payment services | Our procedures in relation to the recognition of one-stop payment services revenue mainly included: |
| Refer to Note 6 to the consolidated financial statements. For the year ended 31 December 2023, the Group recognized revenue of approximately RMB3,484,960,000 from provision of one- stop payment services to merchants for their acceptance of non-cash payments from consumers through connecting the merchants with the payment networks. | - We examined, on a sample basis, the key terms and conditions of sales agreements entered into between the Group and the merchants, mainly including the service fee rates and the Group's performance obligations, and assessed the appropriateness of the Group's revenue recognition policies with reference to the requirements of the applicable accounting |
| The one-stop payment services revenue is recognized at a point in time upon completion of the payment services for each transaction at an amount which is calculated based on the total payment value made by the consumers and the respective applicable service fee rates, net of interchange fees levied by various third party payment networks. The service fee rates are determined based on the agreements entered into between the Group and the merchants. | the key controls in relation to the revenue recognition of one-stop payment services; |

| We focused on this area due to the large volume of the one-stop payment services revenue transactions to which significant audit resources are required to be allocated. | - We tested, on a sample basis, the underlying data of the key reports generated from the Group's relevant information systems which support revenue recognition of one-stop payment services by (i) comparing the transaction payment records in the key reports capturing the fund flows through the relevant payment networks to the payment transaction reports provided by the respective payment networks; (ii) comparing the applicable service fee rates in the key reports to the service fee rates as set out in the sales agreements entered into between the Group with the merchants; and (iii) checking the mathematical accuracy of the calculation of the Group's one-stop payment services revenue recognized; |
| | - We performed data analytics over payment transaction volume from the dimensions of distribution channels and merchants newly acquired during the year in order to identify unusual fluctuations or payment transactions. |
| | Based on the above procedures, we found that the recognition of one-stop payment services |

the recognition of one-stop payment services revenue was supported by the evidence we obtained.

financial statements.

As at 31 December 2023, the Group had goodwill with an aggregate carrying amount of approximately RMB439,117,000.

The Group engaged an external valuer to assist them in carrying out the goodwill impairment assessment. Goodwill impairment is assessed by comparing the recoverable amount of the respective cash generating unit ("CGU") or a group of CGUs against the corresponding carrying amount of the CGU or a group of CGUs. -Management determined the recoverable amount of the CGU or a group of CGUs based on the value-in-use ("VIU"), which is the present value of the future cash flows expected to be derived from the respective CGU or a group of CGUs. The goodwill impairment assessment involves significant judgments and estimates which include the adoption of appropriate valuation method and the use of key assumptions, including revenue growth rates and gross profit margins during the forecast period, terminal growth rates and pre-tax discount rates. Based on the results of the goodwill impairment assessment conducted, management considered no impairment charge needed to be provided for the year ended 31 December 2023.

- We understood, evaluated, and tested management's key controls in respect of the goodwill impairment assessment, including the determination of CGUs, the preparation of cash flow forecasts, assumptions used in the calculation of VIU and assessed the inherent risks of material misstatement by considering the degree of estimation uncertainty and the level of other inherent risk factors of the related accounting estimates;
- We assessed the competency, capabilities and objectivity of the external valuer engaged by the Group;
- We obtained the valuation report of goodwill impairment and assessed the appropriateness of the valuation method adopted by management with the involvement of our internal valuation experts;
- We compared management's cash flow forecasts compiled in the prior year against the actual performance achieved in the current year to reconsider, with hindsight, whether there was management bias in prior year's forecasts;

| We focused on this area due to that the goodwill impairment assessment involves significant judgments and estimates, which are subject to high degree of estimation uncertainty. The inherent risk in relation to the goodwill impairment assessment is considered significant due to uncertainty of significant assumptions used. | - We challenged and assessed the reasonableness of the key assumptions adopted in the cash flow forecasts, including revenue growth rates and gross profit margins during the forecast period, and terminal growth rates, taking into consideration the historical performance, the budgets and plans approved by management, and the industry forecasts and market developments; |
| | - We evaluated the reasonableness of discount rates applied in the calculation of VIU with the involvement of our internal valuation experts by comparing them against the industry or market data to assess whether the discount rates applied were within the range of those adopted by comparable companies in the same industry; and |
| | - We evaluated management's sensitivity |

analysis performed over the key assumptions adopted in the impairment assessment to assess the potential implications of changes in assumptions within a reasonable range on the results of the impairment assessment.

Based on the above procedures, we found the significant judgments and estimates applied in management's goodwill impairment assessment were supported by the evidence we obtained.

Key Audit Matter

We focused on this area due to the significance . of the net fair value gains recognized for the year and the significant judgments and estimates involved in the fair value measurement of the financial assets at FVPL, which are subject to high degree of estimation uncertainty. The inherent risk in relation to the fair value measurement is considered significant due to uncertainty of significant assumptions and unobservable input used.

How our audit addressed the **Key Audit Matter**

- We challenged and assessed the reasonableness of the key assumptions adopted in the cash flow forecasts, including revenue growth rates and gross profit margins during the forecast period, and terminal growth rates, taking into consideration the historical performance, the approved budgets and plans, and the industry forecasts and market developments;
- We evaluated the reasonableness of discount rates applied in the calculation with the involvement of our internal valuation experts by comparing them against the industry or market data to assess whether the discount rates applied were within the range of those adopted by comparable companies in the same industry.
- For investments in unlisted entities with fair value determined using market approach, we evaluated the reasonableness of the significant unobservable input (including enterprise value to sales multiple, price to sales multiple and discounts for lack of marketability) with the involvement of our internal valuation experts by comparing them against the industry or market data.

Based on the above procedures, we found the significant judgments and estimates involved in the fair value measurement of the financial assets at FVPL were supported by the evidence we obtained.

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors and the Audit Committee for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

A REPORT OF A R

ж.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

• Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Wilson W.Y. Chow.

10 A. M. M. 1.1.1

General information (Continued) 1

1.2 Information about subsidiaries (Continued)

- (a) The regulations in the PRC restrict foreign investments in companies that provide value-added telecommunication services, payment services and micro-credit businesses, which include certain activities and services operated by the Group through Shenzhen Yeahka and its subsidiaries, which are companies incorporated in the PRC and controlled by Mr Liu. In order to enable certain foreign companies to make investments into these businesses of the Group, Yeahka WFOE was established in May 2012 in the PRC, and entered into contractual arrangements with Shenzhen Yeahka and its then registered owners in order to gain management control over, and enjoys all economic benefits of Shenzhen Yeahka through a series of contractual arrangements. The details of those contractual arrangements are set out in Note 41.1.1(a). Through these contractual arrangements, the Company is able to effectively control, recognize and receive substantially all the economic benefits and operations of the Shenzhen Yeahka and its subsidiaries. Accordingly, these PRC entities are treated as structured entities controlled by the Company and the financial positions and results of operations of these PRC entities have been consolidated since the respective dates when the Company first obtained control over them.
- (b) All these entities are structured entities for the Group.
- (c) The Group has entered into a consensus action agreement with several shareholders of Zhejiang Shanxi. Such shareholders agree to act as a connected person in accordance with the Group's intention and unconditionally and irrevocably exercise voting rights in accordance with the Group's. Accordingly, Zhejiang Shanxi is controlled by the Company and its financial position and results of operation have been consolidated since the respective date when the Company first obtained control over it.
 - The English names of companies established in the PRC are translations of their Chinese names at the best effort of the directors of the Company (the "Directors") as they do not have official English names.

2 **Basis of preparation**

1.1

X = X

The consolidated financial statements of the Group have been prepared in accordance with IFRS Accounting Standards and interpretations issued by the IFRS Interpretations Committee (IFRS IC) applicable to companies reporting under IFRS. The financial statements comply with IFRS as issued by the International Accounting Standards Board (IASB) and the disclosure requirements of the Hong Kong Companies Ordinance Cap. 622.

The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss (**"FVPL**"), which are carried at fair value.

The preparation of the consolidated financial statements in conformity with IFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4 below.

(a) Amended standards adopted by the Group

The Group has applied the following amendments for the first time for their annual reporting period commencing 1 January 2023:

- IFRS 17 and amendments to IFRS 17 Insurance Contracts
- Amendments to IAS 8 Definition of Accounting Estimates
- Amendments to IAS 1 and IFRS Practice Statement 2 Disclosure of Accounting Policies
- Amendments to IAS 12 Deferred tax related to assets and liabilities arising from a single transaction
- Amendments to IAS 12 International Tax Reform Pillar Two Model Rules

The amendments listed above did not have any impact on the amounts recognized in prior periods and are not expected to significantly affect the current or future periods.

(b) New standards, amendments and interpretations not yet adopted

Standards and amendments that have been issued but not yet effective at 1 January 2023 and not been early adopted by the Group during the year are as follows:

| | | Effective for annual periods beginning on or after |
|-------------------------------------|---|---|
| Amendments to IAS 1 | Classification of liabilities as current or non-current | 1 January 2024 |
| Amendments to IAS 1 | Non current liabilities with covenants | 1 January 2024 |
| Amendments to IFRS 16 | Leases on sale and leaseback | 1 January 2024 |
| Amendment to IAS 7 and IFRS 7 | Supplier finance | 1 January 2024 |
| Amendments to IAS 21 | Lack of Exchangeability | 1 January 2025 |
| Amendments to IFRS 10 and IAS 28 | Sale or contribution of assets between an investor and its associate or joint venture | To be determined |

The Group will adopt the above new or revised standards and amendments to existing standards as and when they become effective. Management has performed preliminary assessment and does not anticipate any significant impact on the Group's financial position and results of operations upon adopting these standards and amendments to the existing IFRSs.

3 Financial risk management

2 📕 - A A 🔲 A A

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, cash flow interest rate risk), credit risk and liquidity risk. The Group's overall risk management focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance. Risk management is carried out by the senior management of the Group.

(a) Market risk

(1) Foreign exchange risk

Foreign exchange risk arises from recognized assets and liabilities in currency other than the Group entities' respective functional currency and net investments in foreign operations.

The Group operates mainly in the PRC with most of the transactions settled in RMB, management considers that the business is not exposed to any significant foreign exchange risk as there are no significant financial assets or liabilities of the Group that are denominated in the currencies other than the respective functional currencies of the Group's entities. The Group did not enter into any forward contract to hedge its exposure to foreign currency risk for the years ended 31 December 2023 and 2022.

(2) Cash flow interest rate risk

The Group's interest rate risk arises from borrowings. Borrowings obtained at variable rates expose the Group to cash flow interest rate risk. The Group currently has not entered into any interest rate swap contract and will only consider for hedging of significant interest rate risk.

As at 31 December 2023, bank borrowings of the Group which were bearing at floating rates amounted to approximately RMB171,000,000 (2022: RMB123,000,000). As at 31 December 2023, if interest rates on borrowings at floating rates had been 100 basis points higher or lower with all other variables held constant, interest charges for the year ended 31 December 2023 would increase/decrease by approximately RMB1,710,000 (2022: RMB1,230,000).

(b) Credit risk

The Group is exposed to credit risk in relation to its cash and cash equivalents, restricted cash, trade receivables, other receivables and loan receivables. The Group also provided guarantees in offering loan facilitation services for loans granted by certain of the Group's loan facilitation partners. Pursuant to the terms of the guarantees, upon default in repayments by the debtors, the Group will be responsible to repay the outstanding loan principals together with accrued interest and penalty owed by the debtors to certain of the Group's loan facilitation partners.

(1) Risk management

To manage risk arising from cash and cash equivalents and restricted cash, the Group places deposits in state-owned financial institutions in the PRC or reputable banks, financial institutions having high-credit-quality in the PRC and Cayman Islands.

To manage risk arising from trade receivables and other receivables, the Group has policies in place to ensure that sale of services is made to customers with an appropriate credit history. It also has other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews regularly the recoverable amount of each individual receivable to ensure that adequate impairment losses are made for irrecoverable amounts.

To manage risk arising from loan receivables, standardised credit management procedures are performed. The Group conducts holistic assessment on credit worthiness of loan applicants, which consist of automatic preliminary assessment, screening, and manual assessment. The management makes periodic collective assessments as well as individual assessment on the recoverability of loan receivables based on historical settlement records and past experiences incorporating forward-looking information.

The carrying amounts of cash and cash equivalents, restricted cash, trade receivables, loan receivables and other receivables represent the Group's maximum exposure to credit risk in relation to financial assets.

As at 31 December 2023, the maximum exposure arising from the provision of financial guarantee to certain loan facilitation parties amounted to approximately RMB551,723,000 (31 December 2022: RMB177,637,000), being the principals and interests of the underlying loans which were granted by the Group's loan facilitation partners with terms ranging from 3 to 12 months.

- (2) Impairment of financial assets (Continued)
 - (i) Cash and cash equivalent and restricted cash

While the Group's cash and cash equivalent and restricted cash are subject to the impairment requirement of IFRS 9, the identified impairment loss was immaterial.

(ii) Trade receivables

The Group applies the simplified approach to provide for expected credit losses prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on the share credit risk characteristics and the days past due.

The expected loss rate are based on the overdue aging profiles of trade receivables and the corresponding historical credit losses expected. The historical loss are then adjusted to reflect current and forward-looking information on macro-economic factors affecting the ability of the customers to settle the receivables.

The following table contains an analysis of allowance for trade receivables based on overdue aging:

| 31 December 2023 | Current | Less than 90 days past due | 90-180 days past due | 180-270 days past due | More than 270 days past due | Total |
|---------------------------------------|---------|----------------------------------|----------------------------|-----------------------------|-----------------------------------|---------|
| Expected loss rate | 0.68% | 9.32% | 19.51% | 27.87% | 100.00% | 5.57% |
| Gross carrying amount (RMB'000) | 348,177 | 9,684 | 492 | 122 | 17,537 | 376,012 |
| Loss allowance (RMB'000) | 2,383 | 903 | 96 | 34 | 17,537 | 20,953 |

Financial risk management (Continued) 3

3.1 Financial risk factors (Continued)

(b) Credit risk (Continued)

- (2) Impairment of financial assets (Continued)
 - (iii) Other receivables and loan receivables

Other receivables mainly comprise balances resulted from the Group's principal activities with various business partner. Loan receivables comprise the principle and interest arising from micro-credit business. Impairment on these financial assets are measured as either 12-month estimated credit losses ("ECL") or lifetime expected credit loss, depending on whether there has been a significant increase in credit risk since initial recognition. If a significant increase in credit risk of a receivable has occurred since initial recognition, then impairment is measured as lifetime ECL. To assess whether there is a significant increase in credit risk, the Group compares risk of a default occurring on the assets at the reporting date with the risk of default as the data of initial recognition. Especially the following indicators are incorporated:

- external credit rating;
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the customer's ability to meet its obligations; and
- significant changes in the expected performance and behaviour of the borrowers, including changes in payment status of borrowers in the group and changes in the operating results of the borrowers.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor for other receivables is more than 30 days past due in making a contractual payment and that for loan receivables is past due. Under such a case, other receivables and loan receivables are classified as stage 2 and subject to lifetime expected losses provision. When the other receivables and loan receivables became past due for more than 90 days, they are treated as credit-impaired and therefore classified as stage 3.

Other receivables are written off when there is no reasonable expectation of recovery and loan receivables are written off when interest and/or principal repayments are 180 days past due or there is no reasonable expectation of recovery. Where these financial assets have been written off, the Group continues to engage in follow-up actions such as enforcement activities to attempt recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

A summary of the assumptions underpinning the Company's expected credit loss model for other receivables and loan receivables is as follows:

| | Group definiti | on of category | Basis for recognition | |
|------------------------------|--|---|--|--|
| Category | Loan receivables | Other receivables | of ECL provision | |
| Stage 1-Performing | Customers have a low risk of default and a strong capacity to meet contractual cash flows | | 12-month ECL, where the expected lifetime of an asset is less than 12 months, expected losses are measured at its expected lifetime | |
| Stage 2-Under- performing | Loans for which there is a significant increase in credit risk; as significant increase in credit risk is presumed if interest and/or principal repayments are past due | Other receivables for which a significant increase in credit risk has occurred compared to original expectations; a significant increase in credit risk is presumed if interest and/or principal repayments are 30 days past due or adverse changes in solvency and operational capabilities | Lifetime ECL | |

3.2 Capital management

The Group's objectives on managing capital are to safeguard the Group's ability to continue as a going concern and support the sustainable growth of the Group in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to enhance equity holders' value in the long term.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total equity.

3.3 Fair value estimation

The table below analyses the Group's financial instruments carried at fair value as at 31 December 2023 and 2022 by level of inputs adopted in the valuation techniques used for measuring fair value. Such inputs are categorised into three levels within a fair value hierarchy as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1); .
- Inputs other than quoted prices included within level 1 that are observable for the . asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2); and
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's assets and liabilities that are measured at fair value as at 31 December 2023.

The fair value of financial instruments traded in active markets is determined based on quoted market prices at the end of the reporting period. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required for evaluating the fair value of a financial instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs are not based on observable market data, the instrument is included in level 3.

Specific valuation techniques used to value financial instruments include:

- Dealer quotes for similar instruments;
- The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves; and
- Other techniques, such as discounted cash flow analysis, are used to determine fair value for financial instruments.

During the years ended 31 December 2023 and 2022, there was no transfer between level 1 and 2 for recurring fair value measurements. The significant methods used to determine the fair value and the fair value changes in level 3 financial instruments are presented in Notes 20 and 32.

Valuation processes of the Group (Level 3)

A team in the finance department of the Group performs the valuations of financial instruments required for financial reporting purposes, including the Level 3 fair values. This team reports directly to the Chief Financial Officer ("CFO"). Discussions of valuation processes and results are held between the CFO and the valuation team at least twice a year.

At each financial year end the finance department:

- verifies all major inputs to the valuation report; .
- assesses valuation movements when compared to the prior year valuation report; and
- holds discussions with the independent valuer.

Changes in Level 3 fair values are analysed at each reporting date during the bi-annual valuation discussions between the CFO and the valuation team. As part of this discussion, the team presents a report that explains the reasons for the fair value movements.

The carrying amounts of the Group's financial assets and liabilities including cash and cash equivalents, restricted cash, trade and other receivables, loan receivables, trade and other payables and borrowings approximate to their fair values due to their short maturities.

4 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

Management of the Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below:

(a) Revenue recognition-gross or net basis presentation

The determination of revenues should be reported on a gross or net basis is based on an assessment of whether the Group is acting as the principal or an agent in the transactions. In determining whether the Group acts as the principal or an agent, the Group follows the accounting guidance for principal-agent considerations in IFRS15. Details are set out in Note 6.

(b) Current income taxes ("CIT") and deferred income taxes

The Group is subject to income taxes in the PRC and other jurisdictions. Judgment is required in determining the provision for income taxes in each of these jurisdictions. There are transactions and calculations during the ordinary course of business for which the ultimate tax determination is uncertain. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred income tax provisions in the period in which such determination is made.

Deferred income tax assets relating to certain temporary differences and tax losses are recognized when management considers it is probable that future taxable profits will be available against which the temporary differences or tax losses can be utilized. When the expectation is different from the original estimate, such differences will impact the recognition of deferred income tax assets and taxation charges in the period in which such estimate is changed.

4 Critical accounting estimates and judgements (Continued)

10 C 10 C 10

10.00

(c) Expected credit loss for trade receivables, other receivables and loan receivables

The impairment provisions for trade receivables, other receivables and loan receivables are made based on assumptions about the expected loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, which is based on the Group's past history, existing market conditions as well as forward looking estimates made at the end of each reporting period. For details of the key assumptions and inputs used, see Note 3.1(b). Changes in these assumptions and estimates could materially affect the result of the assessment and it may be necessary to make additional impairment charge to the profit or loss.

(d) Recognition of share-based compensation expenses

The fair value of options is determined by the binomial option-pricing model at grant date and is expected to be expensed over the respective vesting period. Significant estimate on assumptions, including risk-free interest rate, expected volatility and dividend yield are made by the Directors with the assistance of an independent valuer.

(e) Contractual arrangement for structured entities

As disclosed in Note 41.1.1, the Group conducts certain part of its business through Shenzhen Yeahka and its subsidiaries. Due to the regulatory restrictions on the foreign ownership in the PRC, the Group does not have any equity interest in Shenzhen Yeahka. The Directors assessed whether or not the Group has control over Shenzhen Yeahka and its subsidiaries by assessing whether it has the rights to variable returns from its involvement with Shenzhen Yeahka and its subsidiaries and has the ability to affect those returns through its power over Shenzhen Yeahka and its subsidiaries. After assessment, the Directors concluded that the Group has control over Shenzhen Yeahka and its subsidiaries as a result of the contractual arrangements. Accordingly, the financial position and the operating results of Shenzhen Yeahka and its subsidiaries are included in the Group's consolidated financial statements since the respective dates of incorporation. Nevertheless, the contractual arrangements may not be as effective as direct legal ownership in providing the Group with direct control over Shenzhen Yeahka and its subsidiaries and uncertainties presented by the PRC legal system could impede the Group's beneficiary rights of the results, assets and liabilities of Shenzhen Yeahka and its subsidiaries. The Directors, based on the advice of its legal counsel, consider that the contractual arrangements among Yeahka WFOE, Shenzhen Yeahka and its equity holders are in compliance with the relevant PRC laws and regulations and are legally binding and enforceable.

4 Critical accounting estimates and judgements (Continued)

(f) Fair value measurement of financial assets and liabilities at fair value through profit or loss

The fair value assessment of financial assets and liabilities at fair value through profit or loss that are measured at level 3 fair value hierarchy requires significant estimates, which include estimating the future cash flows, determining appropriate discount rates and other assumptions disclosed in Notes 3.3, 20 and 32.

(g) Impairment of goodwill

The Group tests annually whether goodwill suffered any impairment in accordance with the accounting policy states in Note 17(a). In determining whether goodwill is impaired requires an estimation of the recoverable amount of cash generating units ("**CGU**") or a group of CGUs to which goodwill has been allocated. The recoverable amount of a CGU or a group of CGUs is determined based on value-in-use calculations which require the use of assumptions. The calculations use cash flow projections based on financial budgets approved by management.

Details of impairment charge, key assumptions which are made by the management and third-party valuer and impact of possible changes in key assumptions are disclosed in Note 17.

(h) Impairment of investments in associates

Impairment of investments in associates are reviewed for impairment whether events or changes in circumstances indicate that the carrying amount may not be recoverable. The recoverable amounts have been determined based on value-in-use calculations or fair value less costs to sell. These calculations require the use of judgements and estimates.

Judgements are required to evaluate, among other factors, the duration and extent to which the recoverable amount of assets is less than their carrying balance. For the purpose of assessing impairment, assets are grouped at the lowest level for which there are separately identifiable cash flows. The recoverable amount of the CGU has been determined based on value-in-use calculations of fair value less cost to sell, which is higher. These calculations require the use of estimates, including operating results, income and expenses of the business, future economic conditions on growth rates and future returns. Changes in these assumptions and estimates could materially affect the result of the assessment and it may be necessary to make additional impairment charge to the profit or loss.

For the years ended 31 December 2023 and 2022, interest revenue from entrusted loans and small-sized retail loans amounting to approximately RMB130,805,000 and RMB67,652,000, respectively, are included in revenue derived from merchant solutions services.

Except for interest income which is recognized over time, revenues of the Group are recognized at a point in time according to the related provisions prescribed under IFRS 15.

During the year, the Group paid approximately RMB344 million in aggregate in relation to interchange fee rate adjustments to a suspense account of the payment networks as requested by the payment networks. Such payments were netted off from the Group's one-stop payment services revenue for the year ended 31 December 2023 in accordance with the Group's accounting policies of revenue recognition and based on the Group's preliminary communications with the payment networks.

Revenue (Continued) 6

(a) The Group has a large number of customers, none of whom contributed 10% or more of the Group's revenue during the years ended 31 December 2023 and 2022.

(b) Accounting policies of revenue recognition

Revenue is measured when or as the control of the goods or services is transferred to a customer. Depending on the terms of the contract and the laws that apply to the contract, control of the goods and services may be transferred over time or at a point in time. Control of the goods and services is transferred over time if the Group's performance:

- provides all the benefits received and consumed simultaneously by the customer; or
- creates and enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the goods and services transfers over time, revenue is recognized over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. The Group recognizes revenue at a point in time when the customer obtains control of the goods and services under IFRS 15.

Contracts with customers may include multiple performance obligations. For such arrangements, the Group allocates revenue to each performance obligation based on its relative standalone selling price. The Group generally determines standalone selling prices based on the prices charged to customers. If the standalone selling price is not directly observable, it is estimated using expected cost plus a margin or adjusted market assessment approach, depending on the availability of observable information. Assumptions and estimations have been made in estimating the relative selling price of each distinct performance obligation, and changes in judgements on these assumptions and estimates may impact the revenue recognition.

The Group principally derives revenue from (i) one-stop payment services, (ii) merchant solutions services and (iii) in-store e-commerce services. The accounting policies for each of the Group's revenue streams are set out below:

(i) One-stop payment services

The Group provides one-stop payment services to merchants for their acceptance of non-cash payments from consumers, through connecting the merchants with the payment networks.

The Group adopts various sales channels to promote their business, including the use of distribution channels and direct marketing. The payment terminals delivered to the merchants or distribution channels are not considered as a distinct performance obligation as the payment services are required to continually interact with the payment terminals provided to the merchants in order for the Group to provide its payment services to the merchants.

The Group assessed that payment services rendered to the merchants is recognized at a point in time, upon completion of the payment services for each transaction.

Service revenue is recognized for each payment transaction handled by the Group at an amount calculated based on the total payment value made by the consumers and the respective applicable service fee rates, net of interchange fees levied by various third-party payment networks.

The service fee rates are determined based on the agreements entered into between the Group and the merchants.

The Group considered that it acts as a principal in offering payment services to the merchants as the Group (1) is the primary obligor in the arrangement; (2) has latitude in establishing the selling price, i.e. service fee rate; (3) has involvement in the determination of services specifications; and (4) has discretion in the selection of distribution channels to assist its payment services and to maintain relationships with its merchants and to handle their enquiries about the services. The Group shares its service revenue with distribution channels in accordance with the service agreements entered into with them and the related commissions payable to the distribution channels are recognized as its cost of revenue of the payment services.

In addition to the provision of services to merchants mentioned above, the Group also provides separate system support services to some distribution channels. System support services are customized by a right that allow distribution channels to use the systems that meet the specific needs of various types of merchants. The distribution channels can use the systems as they are available at a point in time. The Group recognizes revenue for such system support services at a point in time when the distribution channels have the access to the systems and has control over the systems and the Group has a present right to payment.

(ii) Merchant solutions services

Leveraging on the established customer base acquired from provision of the onestop payment services, the Group also provides a series of value-added merchant solutions services, including (1) provision of various SaaS products with scenariospecific functionalities integrated with the payment services, data analysis services or SaaS terminals with operating system can be customized by customers as needed; (2) provision of agency services to customers; (3) provision of online marketing services to customers; (4) provision of technology services to insurance companies through the Group's technology platform; and (5) provision of small-sized loans to customers.

Except for revenue from provision of small-sized loans to customers, revenues from merchant solutions services are recognized at a point in time when products or services are delivered; while interest income of in the small-sized loans provided to customers are recognized using an approach similar to the effective interest method over the respective loan periods.

Gross or net basis presentation

The determination of whether revenues from provision of online marketing services should be reported on a gross or net basis is based on an assessment of whether the Group is acting as the principal or an agent in the transactions. In determining whether the Group acts as the principal or an agent, the Group follows the accounting guidance for principal-agent considerations in IFRS15. Such determination involves judgment and is based on an evaluation of the terms of each arrangement as follows:

Under this arrangement, the Group generates revenue from providing comprehensive advertisement placement services to the advertisers. The Group charges the advertisers based on Cost per click ("**CPC**") or specified action such as download, installation, registration of the mobile device users or merchants, transaction completed (cost per action or CPA).

The Group is considered as the principal in offering advertising services because the Group (1) obtains control of the right to the advertising service and directs that service to be provided on the Group's behalf. The Group has the discretion to decide which media publishers or advertising agents to use, what types of the advertisements and how to be placed; (2) is primarily responsible for producing the advertisements and bears the inventory risk like taking certain risk of loss to the extent that non-refundable prepayments acquiring traffic from media publishers. If the advertisements do not perform well or breach the advertising regulation, the Group has to undertake the additional cost of reproduction and compensate the advertisers for all their losses; (3) has the discretion in determining how much to pay the media publishers or advertising agents based on service fee rate agreed with the media publishers or advertising agents; (4) In some instances, is subject to certain risk of loss to the extent that the cost paid to the media publishers or advertising agents cannot be compensated by the total consideration obtained from the advertisers according to acquisition of specific action or sales transaction. This is like inventory risk. Therefore, the Group reports revenue earned from the advertisers and costs paid to the media publishers or advertising agents related to these transactions on a gross basis.

Under this arrangement, the Group charges the advertisers based on the cost charged by media publishers or advertising agents.

The Group is considered as an agent in this arrangement because the Group (1) does not control a specified service before that service is delivered to an advertiser; (2) does not have the latitude to select media publisher which is designated in the contract with the advertiser; (3) does not own the media advertisement space, and does not have any commitments to purchase the advertising space, and therefore does not have inventory risk, and (4) the Group charges the advertisers based on amount charged by the media publishers and advertising agents, which is the same pricing mechanism that the media publishers or advertising agents charge the Group. Therefore, the Group reports the amount received from the advertisers and the amounts paid to the media publishers or advertising agents related to these transactions on a net basis.

(iii) In-store e-commerce services

Leveraging on the established customer base with merchants acquired from providing the one-stop payment services, the Group also provides in-store e-commerce services like provision of display in-store, hotel & travel services, or various goods of merchants in the Group's platform, transaction users can purchase the goods, vouchers or make reservations offered by merchants via the Group's platform.

(iii) In-store e-commerce services (Continued)

The Group charges commission fees based on the agreed percentage of goods or services paid by transaction users. The Group is considered as an agent in this arrangement because (1) the Group does not control specified goods or services before that goods or services are delivered to transaction users; (2) does not have the latitude to select goods or services which is designated in the contract with the transaction users; (3) does not own the goods or services purchased by the transactions users, and does not have any commitments to purchase the goods or services, and therefore does not bear any inventory risk, and (4) the Group charges the merchants based on the monetary amount of goods or services sold on the Group's platform or redeemed at merchant's site. Therefore, the Group reports the amount received from the transaction users and the amounts paid to the merchants related to these transactions on a net basis.

Revenues from provision of in-store e-commerce services are recognized at a point of time when the related services are delivered.

(iv) Contract liabilities

The Group occasionally charges merchants one-off and upfront entry fees (**"Entry Fees**") for their future use of the Group's payment services. The Group initially records Entry Fees as a contract liability and then recognizes it as revenue rateably over the estimated average service relationship period of the merchants. The estimated average service relationship period is within 1 year.

The Group also sells promotion coupons to some merchants, which enable the merchants to use them to offset the payment service charges payable to the Group for the one-stop payment services. The coupons are sold at a price lower than their respective face value. The amounts received/receivable from the merchants are recorded as a contract liability which is then recognized as revenue when the coupon value is utilised by the merchants to offset the payment service charges payable to the Group.

For considerations received for online marketing services and in-store e-commerce services from the respective customers and transaction users, the Group has the right to unconditional consideration before the provision of the respective services to the customers or the merchants, respectively. In both cases, the Group has the contract liability when the payment is received or a receivable is recorded, whichever is earlier. This means that the Group has an obligation to provide the online marketing services to the customer or in-store e-commerce services to the merchant, for which the Group has received consideration from the customers or transaction users, respectively.

(v) Contract fulfilment costs

Contract fulfilment costs primarily consist of costs of payment terminals, which are installed in merchants' retail shops/venues in conjunction with the offering of the Group's one-stop payment services. They are amortised using a straight-line method over the expected benefit period of 3 years for the use of payment terminals.

(vi) Financing components

The Group does not expect to have any contracts enacted with customers with material consideration where the period between the transfer of the promised goods or service to the customer and payments received/receivable by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

Majority of the Group's defined contributions plans, welfare, medical and other expenses are related to the local employees in the PRC. All local employees of the subsidiaries in the PRC participate in employee social security plans established in the PRC, which cover pension, medical and other welfare benefits. The plans are organised and administered by the governmental authorities. Except for the contributions made to these social security plans, the Group has no other material commitments owing to the employees. According to the relevant regulations, the portion of premium and welfare benefit contributions that should be borne by the companies within the Group as required by the above social security plans are principally determined based on percentages of the basic salaries of employees, subject to certain ceilings imposed. These contributions are paid to the respective labour and social welfare authorities and are expensed as incurred.

Current income tax provision was made on the estimated assessable profits of entities within the Group incorporated in the PRC and was calculated in accordance with the relevant regulations of the PRC after considering the available tax benefits from refunds and allowances. The general PRC current income tax rate is 25%.

Certain subsidiaries of the Group in the PRC are subject to a preferential current income tax rate of 15% either due to their qualification for "High and New Technology Enterprise" ("HNTE") or their engagement in business that falls within the catalogue for current income tax preferential treatments of Qianhai Shenzhen-Hong Kong Modern Services Industry Cooperation Zone ("Qianhai Zone"). Certain subsidiaries of the Group in the PRC are exempt from current income tax or subject to a preferential current income tax rate of 12.5% due to their qualification for "Software Enterprise".

(d) Research and development super deduction

According to the relevant laws and regulations promulgated by the State Administration of Taxation of the PRC, certain entities engaging in research and development activities were entitled to claim 200% of their research and development expenses incurred during the year ended 2023 ("Super Deduction").

The Group has made its best estimate for the Super Deduction to be claimed for the Group's entities in ascertaining their assessable profits.

(e) PRC withholding tax

According to the applicable PRC tax regulations, dividends distributed by a company established in the PRC to a foreign investor with respect to profits derived after 1 January 2008 are generally subject to a 10% WHT. If a foreign investor incorporated in Hong Kong Special Administrative Region meets the conditions and requirements under the double taxation treaty arrangement entered into between the PRC and Hong Kong Special Administrative Region, the relevant WHT rate will be reduced from 10% to 5%. The Group does not have any plan to require its PRC subsidiaries to distribute their retained earnings and intends to retain them to operate and expand its business in the PRC. Accordingly, no deferred income tax liability on WHT was accrued as at the end of each reporting period.

Basic earnings per share are calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the respective years.

| | Year ended 3 | Year ended 31 December | |

| Basic earnings per share (expressed in RMB per share) | 0.03 | 0.39 | |

 Weighted average number of ordinary shares in issue for the year ended 31 December 2023 has been determined based on the number of shares in issue, excluding shares held for restricted share award schemes (Note 35(b)).

(b) Diluted earnings per share

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares.

The Group has three categories of potential ordinary shares in the year ended 31 December 2023 which were the convertible bonds as disclosed in Note 34, the share options as disclosed in Note 35(a) and the restricted share units as disclosed in Note 35(b).

A calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average market share price of the Company's shares during the year) based on the monetary value of the subscription rights attached to outstanding restricted share units and share options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options and the restricted share units.

For the convertible bonds, they are assumed to have been converted into ordinary shares. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options and the conversion of convertible bonds. For the year ended 31 December 2023, the effect of the convertible bonds was anti-dilutive and therefore not included in the calculation of the diluted earnings per share.

The depreciation of property, plant and equipment has been charged to the consolidated statement of comprehensive income as follows:

| | Year ended 31 | Year ended 31 December | | |
|-----------------------------------|----------------|------------------------|--|--|
| | 2023 | 2022 | | |
| | RMB'000 | RMB'000 | | |

| Research and development expenses | 4,173 | 8,301 | | |
| Selling expenses | 122 | 118 | | |
| | 37,719 | 44,852 | | |

(a) Accounting policies of property, plant and equipment

All property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the profit or loss during the financial period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives as follows:

| Equipment | 3 years or 5 years |
|------------------------|-------------------------------|
| Motor vehicles | 5 years |
| Leasehold improvements | shorter of estimated useful |
| | life or remaining lease terms |

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

(a) Accounting policies of property, plant and equipment (Continued)

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized in "other (losses)/gains, net" in the consolidated statement of comprehensive income.

Right-of-use assets included the rights to use certain properties, plant and machinery under leases which are measured at cost. The initial costs of right-of-use assets include the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date
- any initial direct costs, and
- restoration costs.

If the lease transfers ownership of the underlying assets to the Group by the end of the lease term or if the cost of the right-of-use assets reflect that the Group will exercise a purchase option, the Group depreciates the right-of-use asset from the commencement date of the lease to the end of the useful life of the underlying assets. Otherwise, right-of-use assets are depreciated over the shorter of the assets' useful lives and their lease terms on a straight-line basis.

(a) Accounting policies of intangible assets

(i) Other intangible assets

Other intangible assets are initially recognized and measured at cost or fair value if they are acquired in business combinations. Other intangible assets are amortized over their estimated useful lives using the straight-line method which reflects the pattern in which the intangible asset's future economic benefits are expected to be consumed.

The Group amortizes intangible assets with indefinite useful life using the straightline method over the following periods:

| • | Software | 3 years |
|---|-----------------------|--------------|
| • | Customer relationship | 3 or 5 years |
| • | Platform | 2 years |
| • | Brand name | 3 or 5 years |

(ii) Research and development expenditures

Research expenditure is recognized as an expense as incurred. Costs incurred on development projects (relating to the design and testing of new or improved products) are capitalized as intangible assets when recognition criteria are fulfilled. These criteria include: (1) it is technically feasible to complete the software product so that it will be available for use; (2) management intends to complete the software product and use or sell it; (3) there is an ability to use or sell the software product; (4) it can be demonstrated how the software product will generate probable future economic benefits; (5) adequate technical, financial and other resources to complete the development and to use or sell the software product during its development can be reliably measured. Other development expenditures that do not meet those criteria are recognized as expenses as incurred. There were no development costs meeting these criteria and capitalized as intangible assets for the years ended 31 December 2023 and 2022.

(iii) Goodwill

Goodwill arises on the acquisition of subsidiaries represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identified net assets acquired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the CGUs, or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGUs containing the goodwill is compared to the recoverable amount, which is the higher of value in use ("VIU") and the fair value less costs of disposal. Any impairment is recognized immediately as an expense and is not subsequently reversed.

The Group engaged an external valuer to assist them in carrying out the goodwill impairment assessment. Management determined the recoverable amounts of the CGUs based on the VIU, which is calculated using discounted cash flows based on five-year financial projections plus a terminal value related to cash flows beyond the projection period extrapolated at an estimated termination growth rate.

(b) Impairment tests for goodwill

During the year, management adjusted and integrated certain businesses of the Group and as a result, Tuozhanbao's business was integrated into the Group's one-stop payment services business segment, while Leshua Shangquan's business was integrated into the Group's in-store e-commerce services segment. Therefore, for this year's impairment test, the goodwill relating to the acquisition of Tuozhanbao and Leshua Shangquan in previous years were allocated to the Group's one-stop payment services business segment and instore e-commerce services segment, respectively. The goodwill allocation is as follows:

| | RMB'000 |
|--|---------|
| One-stop payment services business segment | 145,840 |
| In-store e-commerce services segment | 172,404 |
| Chuangxinzhong CGU | 120,873 |
| | 439,117 |

(i) Impairment test for goodwill related to one-stop payment services segment

Key assumptions used for determination of recoverable amount are set out below:

| Revenue growth rate during the forecast period | 5.0%-8.0% |
|--|-------------|
| Gross profit margin during the forecast period | 13.0%-14.3% |
| Terminal growth rate | 2.5% |
| Pre-tax discount rate | 20.4% |

(1) Revenue growth rate and gross profit margin during the forecast period

Revenue growth rate and gross profit margin during the forecast period are determined by management of the Company based on past performance and the future business plan of one-stop payment services segment and synergies expected to be achieved after the aforementioned business integration of the Group.

(2) Terminal growth rate

A terminal growth rate of 2.5%, which is based on the long-term expected inflation rate, has been applied to the terminal year's cash flow.

(3) Pre-tax discount rate

20.4% pre-tax discount rate was applied, which reflected the nature and stage of development of the one-stop payment services segment.

(4) Based on the result of the goodwill impairment test performed by the Directors, the estimated recoverable amount exceeded its carrying value by approximately RMB1,035,450,000 as at 31 December 2023. Accordingly, no impairment provision was required to be made as at 31 December 2023. The Directors had performed a sensitivity analysis on the key assumptions used in management's impairment test of goodwill. Had the estimated revenue growth rate and estimated gross profit margin during the forecast period been 8.4% lower and 3.7% lower respectively, the recoverable amount would have been equal to the carrying amount.

(ii) Impairment test for goodwill related to in-store e-commerce services segment

Key assumptions used for determination of recoverable amount are set out below:

| Revenue growth rate during the forecast period | 8.0%-50.0% |

| Gross profit margin during the forecast period | 85.0% |
| Terminal growth rate | 2.5% |
| Pre-tax discount rate | 32.4% |

(4) Based on the result of the goodwill impairment test performed by the Directors, the estimated recoverable amount exceeded it carrying value by RMB28,453,000 as at 31 December 2023. Accordingly, no impairment provision was required to be made as at 31 December 2023. The Directors had performed a sensitivity analysis on the key assumptions used in management's impairment test of goodwill. Had the estimated revenue growth rate and estimated gross profit margin during the forecast period, and estimated pre-tax discount rate been 1.1% lower, 2.9% lower and 2.3% higher respectively, the recoverable amount would have been equal to the carrying amount.

(iii) Impairment test for goodwill related to the acquisition of Chuangxinzhong

Goodwill acquired in a business combination is allocated to the CGU that are expected to benefit from that business combination. The Directors consider Chuangxinzhong as a separate CGU and the goodwill is allocated to the Chuangxinzhong CGU.

Key assumptions used for determination of recoverable amount are set out below:

| Revenue growth rate during the forecast period | 5.0%-14.2% |

(3) Pre-tax discount rate

19.6% pre-tax discount rate was applied, which reflected the nature and stage of development of the underlying business acquired and also the returns required by the Company in the acquisition.

(4) Based on the result of the goodwill impairment test performed by the Directors, the estimated recoverable amount exceeded its carrying value by approximately RMB15,249,000 as at 31 December 2023. Accordingly, no impairment provision was required to be made as at 31 December 2023. The Directors had performed a sensitivity analysis on the key assumptions used in management's impairment test of goodwill. Had the estimated revenue growth rate during the forecast period and estimated pre-tax discount rate been 0.5% lower, and 0.4% higher respectively, the recoverable amount would have been equal to the carrying amount.

- (i) Classification

10 M K

X = X

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income ("**FVOCI**").

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

• • • • • • • • • • • 1.1.1

20 Financial assets at FVPL (Continued)

- (d) Accounting policies of financial assets (Continued)
- (ii) Measurement (Continued)

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in "other (losses)/ gains - net" together with foreign exchange gains and losses. Impairment losses, if any, are presented as separate line item in profit or loss.
- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss and recognized in "other (losses)/gains net". Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in "other (losses)/gains - net" and impairment expenses, if any, are presented as separate line item in profit or loss.
- Financial assets at FVPL: Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognized in profit or loss and presented net within "other (losses)/gains - net" in the period in which it arises.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognized in profit or loss as other income when the Group's right to receive payments is established.

20 Financial assets at FVPL (Continued)

- (d) Accounting policies of financial assets (Continued)
- (ii) Measurement (Continued)

Equity instruments (Continued)

Changes in the fair value of financial assets at FVPL are recognized in "other (losses)/ gains - net" in the consolidated statement of comprehensive income as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iii) Impairment

10 M K

10.00

The Group has following assets subject to the expected credit loss model with IFRS 9:

- Trade receivables, other receivables and loan receivables;
- Restricted cash;
- Cash and cash equivalents;
- Financial guarantee contracts.

The Group applies the IFRS 9 simplified approach to measuring ECL which uses a lifetime expected loss allowance for all trade receivables.

The Group assesses on a forward-looking basis the ECL associated with its debt instruments carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Impairment on other receivables and loan receivables are measured as either 12-month ECL or lifetime expected credit loss, depending on whether there has been a significant increase in credit risk since initial recognition. If a significant increase in credit risk of a receivable has occurred since initial recognition, then impairment is measured as lifetime ECL. To manage risk arising from cash and cash equivalents, the Group only transacts with state-owned or reputable financial institutions. There has been no recent history of default in relation to these financial institutions.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the reversal of the previously recognized impairment loss is recognized in profit or loss. Impairment testing of financial assets is described in Note 3.1(b).

20 Financial assets at FVPL (Continued)

- (d) Accounting policies of financial assets (Continued)
- (iv) Derecognition

Financial assets

The Group derecognizes a financial asset, if the part being considered for derecognition meets one of the following conditions: (i) the contractual rights to receive the cash flows from the financial asset expire; or (ii) the contractual rights to receive the cash flows of the financial asset have been transferred, the Group transfers substantially all the risks and rewards of ownership of the financial asset; or (iii) the Group retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to the eventual recipient in an agreement that meets all the conditions of de-recognition of transfer of cash flows ("pass through" requirements) and transfers substantially all the risks and rewards of ownership of the financial asset.

Where a transfer of a financial asset in its entirety meets the criteria for derecognition, the difference between the two amounts below is recognized in profit or loss:

- the carrying amount of the financial asset transferred; and ٠
- the sum of the consideration received from the transfer and any cumulative gain or loss that has been recognized directly in equity.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group continues to recognize the asset to the extent of its continuing involvement and recognizes an associated liability.

Other financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognized in profit or loss.

(v) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet where the Group currently has a legally enforceable right to offset the recognized amounts, and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The Group has also entered into arrangements that do not meet the criteria for offsetting but still allow for the related amounts to be set off in certain circumstances, such as bankruptcy or the termination of a contract.

| | 2023 | 2022 |
| | RMB'000 | RMB'000 |
| Denominated in: | | |
| RMB | 80,996 | - |

Long-term bank deposits represent bank deposits with original maturities ranging from 2 to 3 years and are redeemable on maturity, which are neither past due nor impaired. As at 31 December 2023, the carrying amounts of the long-term deposits approximated their fair values.

The effective interest rates of the long-term bank deposits ranged from 2.6% to 3.0% per annum as at 31 December 2023.

22 Trade receivables

(a) The carrying amounts of the trade receivables balances were approximate to their fair value as at 31 December 2023 and 2022. All the trade receivables balances were denominated in RMB.

The Group applies the IFRS 9 simplified approach to measure ECL which uses a lifetime expected loss allowance for all trade receivables. Information about the impairment of trade receivables and the Group's exposure to credit risk has been disclosed in Note 3.1(b).

As at 31 December 2023, RMB7,000,000 of trade receivables were pledged for certain bank borrowings of the Group (Note 31).

22 Trade receivables (Continued)

The Group allows a credit period within 90 days to its customers. Aging analysis of trade receivables based on invoice date is as follows:

| | As at 31 December | |

(a) Share option schemes

In September 2020, the board of the Company proposed to adopt the share option scheme to attract, retain and motivate talented employees to strive towards long term performance targets set by the Group and to provide them with an incentive to work better for the interest of the Group. The proposal was approved by the general meeting of the Company in October 2020.

The Company has granted three batches of share options to employees and directors, on 7 January 2021, 12 May 2021 and 21 January 2022, respectively. The granted share options are vested evenly in 4 distributions within a 42-month, 4-year and 4-year period from vesting commencement, respectively.

(b) Share award schemes

Under a stock incentive plan approved by the board of directors of the Company (the "Share Award Plan"), several batches of share options were granted to certain employees and directors.

In August 2019, the board of directors of the Company passed a resolution, according to which all outstanding options representing 34,109,384 shares of the Company granted under the Share Award Plan were converted into 34,109,384 shares of restricted share unit ("RSU") granted to the same option holders, who became eligible participants under such scheme. There was no modification of terms or conditions which had increased the fair value of the equity instruments granted and such arrangement was accounted for as the continuance of the original Share Award Plan. The Company granted additional 3,524,000 RSUs to other participants in August 2019.

41 Summary of other potentially material accounting policies

41.1 Subsidiaries

41.1.1 Consolidation

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealized gains on transactions between Group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. When necessary, accounting policies by subsidiaries have been changed to conform to the Group's accounting policies.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of comprehensive income, statement of changes in equity and statement of financial position, respectively.

(a) Subsidiaries controlled through contractual arrangements

As described in Note 1.2(a), Yeahka WFOE has entered into the contractual arrangements with Shenzhen Yeahka and its registered shareholders which enable Yeahka WFOE and the Group to:

- Exercise effective control over Shenzhen Yeahka;
- Exercise equity holders' voting rights of Shenzhen Yeahka; .
- Receive substantially all the economic interests and returns generated by Shenzhen Yeahka and its subsidiaries in consideration for technical support, consulting and other services provided exclusively by Yeahka WFOE, at Yeahka WFOE's discretion;

41.1.1 Consolidation (Continued)

- (a) Subsidiaries controlled through contractual arrangements (Continued)
 - Obtain an irrevocable and exclusive right to purchase all equity interests in Shenzhen Yeahka from its registered shareholders at a nominal consideration unless the relevant government authorities request that another amount be used as the purchase consideration and in which case the purchase consideration shall be such amount. Where the purchase consideration is required by the relevant government authorities to be an amount other than a nominal amount, the registered shareholders of Shenzhen Yeahka shall return the amount of purchase consideration they have received to Yeahka WFOE. At Yeahka WFOE's request, the registered shareholders of Shenzhen Yeahka will promptly and unconditionally transfer their respective equity interests in Shenzhen Yeahka to Yeahka WFOE (or its designee within the Group) after Yeahka WFOE exercises its purchase right.
 - Obtain pledges over the entire equity interests in Shenzhen Yeahka from its registered shareholders to secure, among others, performance of their obligations under the contractual arrangements.
- (b) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to noncontrolling interests and any consideration paid or received is recognized in reserve within equity.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognized in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable IFRSs.

(c) Business combinations

The acquisition method of accounting is used to account for all business combinations other than under common control, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the:

- fair values of the assets transferred,
- liabilities incurred to the former owners of the acquired business,
- equity interests issued by the Group,
- fair value of any asset or liability resulting from a contingent consideration arrangement, and
- fair value of any pre-existing equity interest in the subsidiary.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognizes any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the

- consideration transferred;
- amount of any non-controlling interest in the acquired entity; and
- acquisition-date fair value of any previous equity interest in the acquired entity over the fair value of the net identifiable assets acquired is recorded as goodwill.

41.1.1 Consolidation (Continued)

(c) Business combinations (Continued)

If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized directly in profit or loss as a bargain purchase.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognized in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognized in profit or loss.

41.1.2 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

41.2 Associates

An associate is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights.

Investments in associates

Investments in associates are accounted for using the equity method of accounting in accordance with IAS 28. Under the equity method, the investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee and the share of other comprehensive income of the investee after the date of acquisition. Dividends received or receivable from associates are recognized as a reduction in the carrying amount of the investment. The Group's investments in these associates include goodwill identified on acquisition, net of any accumulated impairment loss. Upon the acquisition of the ownership interest in an associate, the excess cost of the associate over the Group's share of the net fair value of the associate's identifiable assets and liabilities is accounted for as goodwill. If those amounts are less than the fair value of the net identifiable assets and liabilities of the business acquired, the difference is recognized directly in profit or loss.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of the associates' post-acquisition profit or loss is recognized in the consolidated statement of comprehensive income, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equal or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group determines at each reporting date whether there is any objective evidence that the investments in the associate are impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the amount adjacent to "share of profits/(losses) of investments accounted for using the equity method" in the consolidated statement of comprehensive income.

Investments in associates (Continued)

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognized in the Group's consolidated financial statements only to the extent of unrelated investor's interests in the associates. Unrealized losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group. Gain or losses on dilution of equity interest in associates are recognized in profit or loss.

41.3 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("Functional Currency"). The Functional Currency of the Company is USD. Group companies including Yeahka WFOE and Structured Entities were incorporated in the PRC and these entities considered RMB as their functional currency. As the major operations of the Group are within the PRC, the Group has determined RMB as its presentation currency and presented its consolidated financial statements in RMB (unless otherwise stated).

(b) Transactions and balances

Transactions in a currency other than Functional Currency are translated into Functional Currency using the exchange rates at the dates of the transactions. Currency exchange differences resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the end of the reporting period are recognized in profit or loss.

Foreign exchange gains and losses that relate to borrowings are presented in the consolidated statement of profit or loss within "finance costs". All other foreign exchange gains and losses impacting profit or loss are presented in the consolidated statement of profit or loss within "other (losses)/gains -net".

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

A REPORT OF A R

41 Summary of other potentially material accounting policies (Continued)

41.3 Foreign currency translation (Continued)

(b) Transactions and balances (Continued)

Translation differences on non-monetary financial assets and liabilities such as equities held at FVPL are recognized in the consolidated statement of financial position as part of the fair value gain or loss. Translation differences on nonmonetary financial assets, such as equities classified as FVOCI, are included in other comprehensive income.

(c) Group companies

The results and financial position of all the group entities (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the presentation currency of RMB are translated into the presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are • translated at the closing rate at the date of that statement of financial position;
- Income and expenses for each statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- All resulting currency translation differences are recognized as a separate component of other comprehensive income.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations, and of borrowings and other currency instruments designated as hedges of such investments, are taken to other comprehensive income. When a foreign operation is sold, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Currency translation differences arising are recognized in other comprehensive income.

41.4 Trade receivables, other receivables and loan receivables

III 10 10 10 10 10

A DECK MARKED

10.00

Trade receivables, other receivables and loan receivables mainly consist of receivables from payment networks, commission receivables, loan receivables, lease deposits, etc. If collection of other receivables is expected in one year or less, they are classified as current assets. Otherwise, they are presented as non-current assets.

Trade receivables are recognized initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognized at fair value. The Group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method. Other receivables and loan receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment. See Note 3.1 for the Group's impairment policy for trade receivables, other receivables and loan receivables.

41.5 Share capital and shares held for employee share scheme

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Where any group company purchases the Company's equity instruments, for example as the result of a share buy-back or a share-based payment plan, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the owners of the Company as treasury shares until the shares are cancelled or reissued. Where such ordinary shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the owners of the Company.

Shares held by the employee share trust are disclosed as treasury shares and deducted from contributed equity.

41.6 Financial assets

Financial guarantee contracts

Financial guarantee contracts are recognized as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of:

- the amount determined in accordance with the expected credit loss model under IFRS 9; and
- the amount initially recognized less, where appropriate, the cumulative amount of income recognized in accordance with the principles of IFRS 15.

The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

41.7 Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Other payables mainly consist of deposits and entry fees received from distribution channels and amounts payable to merchants.

The Group receives from distribution channels two payments during the course of business: (1) an upfront refundable deposit and (2) an upfront non-refundable entry fees upon they sign up the service agreements with the Group. The Group, in return, shares its payment service revenue with distribution channels in the form of commissions in accordance with the terms of the service agreements. The upfront deposit is recorded as a liability of the Group and it is refundable to the distribution channels upon, they terminate the distribution service agreement or upon expiry of the contractual service period. The entry fees from distribution channels are credited into profit or loss to off-set against the commission paid/payable to distribution channels based on a straight-line method over the contractual period of the service agreements of 3 years.

Trade and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

41.8 Borrowings

III I A REAL MADE

A DECK MARKED

10 A 10

10.00

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

41.9 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

41.10 Compound financial instruments

Compound financial instruments issued by the Group comprise convertible bonds that can be converted to share capital at the option of the holders with number of shares to be issued by the Group would not vary with changes in their fair value.

The fair value of the liability portion of a convertible bond is determined using a market interest rate for an equivalent non-convertible bond. This amount is recorded as a liability on an amortized cost basis until extinguished on conversion or maturity of the bonds. The remainder of the proceeds is allocated to the conversion option. This is recognized and included in shareholders' equity, net of income tax effects. The equity component is recognized initially at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component, which is included in shareholders' equity in other reserves. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

41.10 Compound financial instruments (Continued)

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not re-measured subsequent to initial recognition except on conversion or maturity.

The liability component of a convertible instrument is classified as current unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

41.11 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of each reporting period in the countries where the Company's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b) Deferred income tax

Inside basis differences

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of each reporting period and are expected to apply when the related deferred income tax asset is realized, or the deferred income tax liability is settled.

Inside basis differences (Continued)

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Outside basis differences

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, associates, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Generally, the Group is unable to control the reversal of the temporary difference for associates. Only when there is an agreement in place that gives the Group the ability to control the reversal of the temporary difference in the foreseeable future, deferred tax liability in relation to taxable temporary differences arising from the associate's undistributed profits is not recognized.

Deferred income tax assets are recognized on deductible temporary differences arising from investments in subsidiaries, associates only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

(c) Offsetting

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

41.12 Employee benefits

(a) Employee leave entitlements

Employee entitlements to annual leave are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period. Employee entitlements to sick and maternity leave are not recognized until the time of leave.

10 C 10 1.1.1

41 Summary of other potentially material accounting policies (Continued)

41.12 Employee benefits (Continued)

(b) Pension obligations

The Group contributes on a monthly basis to various defined contribution plans organised by the relevant governmental authorities. The Group's liability in respect of these plans is limited to the contributions payable in each period. Contributions to these plans are expensed as incurred and not reduced by contributions forfeited by those employees who leave the plan prior to vesting fully in the contributions. Assets of the plans are held and managed by government authorities and are separated from those of the Group.

(c) Termination benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognizes termination benefits at the earlier of the following dates: (a) when the Group can no longer withdraw the offer of those benefits; and (b) when the entity recognizes costs for a restructuring that is within the scope of IAS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

(d) Share-based benefits

As disclosed in Note 35, the Group operates several equity-settled share-based compensation plans (including share option scheme and share award scheme), under which the Group receives services from its employees in exchange for the equity instruments of the Company. The fair value of the employee services received in exchange for the grant of equity instruments is recognized as an expense. The total amount to be expensed is determined by reference to the fair value of the equity instruments granted:

- Including any market performance conditions (e.g., the entity's share price); •
- Excluding the impact of any service and non-market performance vesting conditions (e.g., profitability, sales growth targets and retention periods of an employee of the entity over a specified time period); and
- Including the impact of any non-vesting conditions (e.g., the requirement for employees to save or holdings shares for a specific period).

(d) Share-based benefits (Continued)

Non-market performance and service conditions are included in assumptions about the number of equity instruments that are expected to vest. The total expense is recognized over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied.

If the terms of an equity-settled award are modified, at a minimum an expense is recognized as if the terms had not been modified. An additional expense is recognized for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

If an equity award is cancelled by forfeiture, when the vesting conditions (other than market conditions) have not been met, any expense not yet recognized for that award, as at the date of forfeiture, is treated as if it had never been recognized. At the same time, any expense previously recognized on such cancelled equity awards are reversed from the accounts effective as at the date of forfeiture.

At the end of each period, the entity revises its estimates of the number of options or restricted share units that are expected to vest based on the non-market vesting and service conditions. It recognizes the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment made to equity.

41.13 Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognized for further operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

41.14 Government grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received, and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognized in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to property, plant and equipment are included in non-current liabilities as deferred government grants and are credited to profit or loss on a straightline basis over the expected lives of the related assets.

41.15 Leases

III A REAL PROPERTY.

10 C 10 C 10

 (x_1, x_2)

The Group leases various properties. Rental contracts are typically made for fixed periods of one to five years. Lease terms are negotiated on an individual basis and contain various terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

Leases are recognized as right-of-use assets (included in properties, plant and equipment) and the corresponding liabilities at the date of which the respective leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Assets and liabilities arising from a lease are initially measured on a present value basis.

The depreciation of right-of-use asset is calculated using the straight-line method to allocate their cost to their residual values over remaining lease terms.

Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payment that are based on an index or a rate;
- amounts expected to be payable by the lessee under residual value guarantees;
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are discounted using the interest rate implicit in the lease, if that rate can be determined, or the entity's incremental borrowing rate.

Payments associated with short-term leases and leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of less than 12 months. Low-value assets comprise machinery with value below RMB35,000.
