# Management Discussion And Analysis

## MARKET OVERVIEW

The formal education system in the PRC comprises fundamental education, which includes education from preschool to high school, secondary vocational education and higher education. Formal higher education can be further categorised into junior colleges and universities. Junior colleges only offer junior college programmes while universities can offer both junior college programmes and bachelor's degree programmes.

### The Private Higher Education Industry in China

The private higher education industry in China has experienced rapid growth since the beginning of the 1990s as the relevant government authorities have made great endeavour in developing the regulatory framework for private higher education. The number of student enrolments in private higher education in China has continued to increase in recent years, with more and more students having chosen to go to private universities or colleges instead of public schools. According to Frost & Sullivan, the total number of private higher education institutions in China has been growing continuously, and the development of private higher education is primarily driven by a number of factors, including (i) support by PRC government policies and initiatives; (ii) increasing resident income and demand for higher education; (iii) growing market demand for technical talents; and (iv) increasing diversification and strengthened education quality. With the help of these factors, the rapid growth in higher education in China is expected to continue, and the private higher education landscape remains competitive.

## BUSINESS REVIEW

The Company is one of the leading providers of private higher education in China. Since our inception in 2004, we have grown to operate four colleges in Henan Province, namely Shangqiu University, Shangqiu University Kaifeng Campus, Anyang University and Anyang University Yuanyang Campus, and two colleges in Hubei Province, namely Jiankang College and Jingzhou College. We also participate in the operation of Tianping College. We completed the acquisition of sponsor interest of Jingzhou College in May 2021 and are in the process of acquiring the sponsor interest of Tianping College. We believe that we have strong potential to further grow our business, and the private higher education market in China presents many market opportunities.

The schools operated under the Group closely focus on the goal of application-oriented talent training, attach importance to, and actively carry out, the integration of industry and education, strengthen school-enterprise cooperation, explore "diversified talent training, innovative practical education system", and form their own characteristics and highlights. As at 29 February 2024, the Group had entered into approximately 900 school-enterprise cooperations. Our collaboration models include practice and training, joint transformation of research and development results, joint training of order classes, and joint construction of majors and laboratories, and have achieved good results.

Our employment-oriented curricula are focused on equipping our students with practicable skills that meet the demand of economic development in China. The effectiveness of our practical curricula and training programmes is reflected in our high graduate employment rates. ## Management Discussion And Analysis

### Notes:

- (1) As our school year typically ends in late June or early July, we present student numbers as at 28 February and 29 February for interim presentation of 2022/2023 and 2023/2024 school years' student enrolment statistics, respectively.
- (2) Including (i) students enrolled in junior college diploma programmes and (ii) students enrolled in the last three years of combined vocational education and junior college diploma programmes.
- (3) Including (i) students enrolled in vocational education programmes and (ii) students enrolled in the first two years of the combined vocational education and junior college diploma programmes.

The number of students enrolled for the 2023/2024 school year slightly increased by 0.1% from 103,931 as at 28 February 2023 to 104,053 as at 29 February 2024. The increase was primarily due to the combined effect of an increase in enrolment of Anyang University Yuanyang Campus, Jingzhou College and Jiankang College as a result of the increase in student recruitment and a decrease in enrolment in Shangqiu University, Anyang University and Shangqiu University Kaifeng Campus. We also achieved expected results through increasing our efforts and expanding our footprint, thereby driving solid momentum for future sustainable development.

The Group believes the educational philosophies of its schools and its well-developed curricula as well as its high graduate employment rates enable the Group to attract high-quality students who are seeking a pathway to satisfactory employment. In addition, the quality faculty team is also a major factor that has played in the past, and will continue to play in the future, an important role in the success of the schools.

### Student Recruitment

Our new student enrolment has historically been driven primarily by word-of-mouth referrals. We believe we generally have a good reputation in providing high quality education services among students and parents. In addition, after over 19 years of operations, we have built a highly engaged and vibrant community of alumnus, who we believe would assist us to continuously attract outstanding students.

Our recruitment efforts, coupled with the quality and reputation of our education programmes, have helped us achieve high admission yields in our colleges that offer bachelor's degree programmes. For example, as at 29 February 2024, the overall yield of our five colleges that offer bachelor's degree programmes (being Shangqiu University, Anyang University, Shangqiu University Kaifeng Campus, Jingzhou College and Anyang University Yuanyang Campus), as defined by the number of students who enrolled in a bachelor's degree programme divided by the number of students who were admitted in that programme, was 96.8%.

# Management Discussion And Analysis

## Our Teachers

We believe that our team of experienced and dedicated teachers are crucial to our success. As an operator of private schools, we can provide better incentives to qualified teachers who fit our hiring criteria. Teachers are the key to maintaining high-quality educational programmes and services as well as maintaining our brand and reputation. Our aim is to continue hiring teachers with a strong command of their respective subject areas who are open to innovative teaching methods and a caring heart towards students' well-being.

## FUTURE DEVELOPMENT

In order to continuously increase our total student enrolment, we plan to acquire additional land use rights and construct new education and living facilities. We consider that the increase in capacity under the expansion plan is essential to accommodate our growth strategy of increasing student enrolment going forward. As each of our colleges generally requires its students to live in dormitories on campus, a college's student enrolment is largely limited by the capacity of its student dormitories. Taking into account the gender specificity of our student dormitories and the gender mix of our students, there is currently limited capacity for a significant growth in student enrolment. We expect to increase the capacity of our colleges progressively to strike a reasonable balance between student enrolment and utilisation of the school campuses. We believe the estimated increase in capacity is appropriate and will enable our colleges to grow sustainably.

We consider that, given our track record of delivering quality private higher education and industry reputation, the education authorities in the PRC will be receptive to our application for increasing admission quota provided that we are able to demonstrate that we have sufficient school capacity, appropriate facilities available and quality education programmes to offer, which are among the key objectives of our expansion plans.

### Selling Expenses

Our selling expenses decreased by 34.3% from RMB3.5 million for the six months ended 28 February 2023 to RMB2.3 million for the six months ended 29 February 2024, primarily due to the decrease of advertising expenses in student recruitment promotion.

## Management Discussion And Analysis

### Non-IFRS Measure – Adjusted Net Profit

To supplement the Group's unaudited consolidated financial statements which are presented in accordance with IFRS, the Company also uses adjusted net profit as an additional financial measure. The Company presents this non-IFRS measure because it is used by the management of the Company to evaluate the Group's financial performance by eliminating the impact of items that the Company does not consider indicative of the performance of the Group's business. The Company also believes that this non-IFRS measure provides additional information to investors and others in understanding and evaluating the Group's unaudited consolidated results of operations in the same manner as they help the management of the Group and in comparing financial results across accounting periods and to those of peer companies. However, the Company's presentation of such adjusted figure may not be comparable to a similarly titled measure presented by other companies. The use of this non-IFRS measure has limitations as an analytical tool, and you should not consider it in isolation from, or as substitute for analysis of, the Group's results of operations or financial condition as reported under IFRS.

Our adjusted net profit increased by 16.3% from RMB331.8 million for the six months ended 28 February 2023 to RMB386.0 million for the six months ended 29 February 2024. Adjusted net profit (as a non-IFRS measure) was calculated as profit for the period excluding (i) share-based compensation, and (ii) foreign exchange loss/(gain). The following table reconciles profit for the period to adjusted net profit for both periods:

	<b>For the six months ended</b>	
	<b>29 February 2024</b>	28 February 2023
	<i>(RMB in thousands)</i>	
<b>Profit for the period</b>	<b>384,271</b>	331,172
<b>Add:</b>		
Share-based compensation	<b>1,199</b>	2,777
Foreign exchange loss/(gain)	<b>577</b>	(2,130)
<b>Adjusted net profit</b>	<b>386,047</b>	331,819

### Liquidity and Source of Funding and Borrowing

As of 29 February 2024, the Company had funded the Group's cash requirements principally from cash generated from our operations and external borrowings. The Company had cash and cash equivalents of RMB789.7 million and RMB382.9 million as of 31 August 2023 and 29 February 2024, respectively. The Company generally deposits the Group's excess cash in interest-bearing bank accounts and current accounts.

As of 29 February 2024, the Group's principal uses of cash had been for the funding of required working capital, capital expenditures and other recurring expenses to support the expansion of the Group's operations. Going forward, the Company believes the Group's liquidity requirements will be satisfied by using funds from a combination of internally generated cash, external borrowings, proceeds from the Global Offering (as defined below) and other funds raised from the capital markets from time to time. Any significant decrease in student enrolment, or our tuition fees and boarding fees, or a significant decrease in the availability of bank loans or other financing may adversely impact the Group's liquidity.

## Management Discussion And Analysis

### Gearing Ratio

As at 29 February 2024, the gearing ratio of the Group, calculated as total borrowings divided by total equity as of the end of the period, was approximately 52.2%, representing a decrease of 14.0 percentage points as compared with 66.2% as at 31 August 2023. ### QUALIFICATION REQUIREMENT

#### Foreign Investment Law

On 15 March 2019, the National People’s Congress promulgated the Foreign Investment Law 《中華人民共和國外商投資法》 (“**FIL**”), which came into effect on 1 January 2020. On 26 December 2019, the State Council promulgated the Implementation Regulations on the Foreign Investment Law 《中華人民共和國外商投資法實施條例》 (the “**Implementation Regulations**”), which came into effect on 1 January 2020. The FIL and the Implementation Regulations replaced the trio of existing laws regulating foreign investment in China, namely, the Sino-foreign Equity Joint Venture Enterprise Law, the Sino-foreign Cooperative Joint Venture Enterprise Law and the Wholly Foreign-invested Enterprise Law, together with their implementation rules and ancillary regulations. The FIL and the Implementation Regulations embody an expected PRC regulatory trend to rationalize its foreign investment regulatory regime in line with prevailing international practice and the legislative efforts to unify the corporate legal requirements for both foreign and domestic investments.

Though the FIL does not explicitly classify contractual arrangements as a form of foreign investment, it contains a catch-all provision under the definition of “foreign investment”, which includes investments made by foreign investors in China through means stipulated in laws or administrative regulations or other methods prescribed by the State Council without elaboration on the meaning of “other methods”. The Implementation Regulations is also silent on whether foreign investment includes contractual arrangements. Therefore, the FIL and the Implementation Rules still leave leeway for future laws, administrative regulations or provisions promulgated by the State Council to provide for contractual arrangements as a form of foreign investment. Given that the FIL and the Implementation Rules are relatively new, uncertainties still exist in relation to its interpretation and implementation, the Company believes that any attempt to evaluate the potential impact that they will have on the Contractual Arrangements and the business of our Group would be premature. The Board will continuously monitor any future laws, administrative regulations or provisions promulgated by the State Council in relation to the contractual arrangements and seek guidance from our PRC Legal Adviser to ensure compliance with all relevant rules and regulations in the PRC at all times.

### Updates in Relation to the Qualification Requirement

The foreign investor in a Sino-foreign joint venture school for PRC students at higher education institutions must be a foreign educational institution with relevant qualification and high quality of education (the “**Qualification Requirement**”). The foreign portion of the total investment in a sino-foreign joint venture private school should be below 50% (the “**Foreign Ownership Restriction**”) and domestic party of the sino-foreign joint venture shall play a dominant role (the “**Foreign Control Restriction**”).

On the basis that (a) the principals and other chief executive officers of our PRC Operating Schools and Tianping College are PRC nationals; and (b) the representatives or the directors of our PRC Operating Schools and Tianping College are appointed by PRC entities, our PRC Legal Adviser is of the view that our PRC Operating Schools and Tianping College are in full compliance with the Foreign Control Restriction as stipulated above.

Our PRC Legal Adviser has advised that there are currently no applicable PRC laws and regulations providing clear guidance or interpretation as to what specific criteria must be met by a foreign investor (such as length of experience and form and extent of ownership in the foreign jurisdiction) in order to demonstrate to the relevant education authority that it meets the Qualification Requirement.

### Efforts and Actions Undertaken to Comply with the Qualification Requirement

The Group is implementing a business plan with a view to expanding our education operations overseas. The Group believes that such business plan represents our commitment and a meaningful endeavour to demonstrate compliance with the Qualification Requirement.

The Group is also in the process of communicating or negotiating with certain experienced and reputational overseas education service providers in various forms of potential cooperation, including but not limited to expanding our school network abroad. Our subsidiary in Hong Kong, Chunlai (Hong Kong), will serve as the main control hub of our overseas business and will be responsible for, among other things:

1. negotiating and executing contracts for international business cooperation, such as contracts for cooperation with foreign education institutions in organising international classes or courses;
2. investing in or acquiring overseas education businesses as and when appropriate;
3. holding our overseas intellectual property rights and licensing them to our international partners; and
4. recruiting and employing overseas education business professionals and advisers outside of PRC.

The 2016 Decision has made certain amendments to the Law for Promoting Private Education. According to the 2016 Decision, school sponsors of private schools can choose to establish schools as non-profit or for-profit entities, with the exception of schools providing compulsory education, which can only be established as non-profit entities.

Under the 2016 Decision, a private school electing to re-register as a for-profit school must carry out financial settlement procedures, clarify property ownership, pay relevant taxes and fees, and re-apply for registration. The specific registration requirements for existing private schools shall be formulated by the provincial governments. Pursuant to the Henan Implementation Opinions, Private HEIs in Henan Province shall complete the re-registration procedures by the end of year 2022. Despite the issuance of the Henan Implementation Opinions, the Hubei Implementation Opinions, Implementation Opinions of Jiangsu Government on Encouraging Social Groups to Engage in Education and Promoting the Healthy Development of Private Education (江蘇省政府關於鼓勵社會力量興辦教育促進民辦教育健康發展的實施意見) and Implementation Rules for Classification and Registration of Private Schools in Jiangsu Province (江蘇省民辦學校分類登記實施細則), the specific requirements, policies and procedures for re-registration as for-profit or non-profit private schools remain unclear in Henan, Hubei and Jiangsu provinces. As such, we are unable to quantify the impact that the 2016 Decision may have on our business operations.

The Regulations on the Implementation of the Law for Promoting Private Education 《民辦教育促進法實施條例》) (the “**Private Education Regulation**”) was initially issued by the State Council on 5 March 2004 as the primary implementing regulation of the Law for Promoting Private Education of the PRC 《中華人民共和國民辦教育促進法》). On 14 May 2021, the State Council promulgated the 2021 Revised Private Education Regulations, which have become effective since 1 September 2021. The 2021 Revised Private Education Regulations provide that

- (i) a non-profit private school shall use the accounts filed with the competent authorities for transactions of fees collection and other activities, and a for profit private school shall deposit all of the school's income into a designated account of its own;
- (ii) private schools providing compulsory education may not transact with connected parties, while transactions between other private schools and their connected parties should follow the principles of transparency, fairness and justice, be reasonably priced and be duly approved internally;
- (iii) a for-profit private school providing education for academic credentials shall have such amount of registered capital commensurate with its type, level and operating scale;
- (iv) school sponsors or actual controllers who operate and/or control multiple private schools shall have sufficient resources and capacities and take the management and supervisory responsibilities for those private schools they operate; and
- (v) the school sponsor of an “existing private school” may, in accordance with its lawful rights and interests, reach agreements with its succeeding school sponsor on the proceeds from the change of school sponsor; the change of controlling shareholder(s) or actual controller(s) shall be filed with relevant government authorities and issue public announcement.

As of 29 February 2024, there was no update in relation to the Group's re-registration as a for-profit or non-profit private school.

### UPDATE ON NON-COMPLIANCE MATTERS

#### Buildings

As of 29 February 2024, we owned buildings with a total ground floor area of approximately 0.82 million square metres. We have not obtained building ownership certificates for a substantial portion of our buildings primarily because they were not constructed in full compliance with applicable rules and regulations in the PRC. We commenced construction of these buildings on land when the relevant land use right certificates were still under application, as our management believed that it was a practice acceptable to the relevant local authorities and in compliance with local policies.

We are proactively liaising with the relevant government authorities with a view to complying with the relevant requirements as soon as practicable. As of 29 February 2024, we were in the process of applying for the relevant construction land use planning permits (建設用地規劃許可) and construction planning permits (建設工程規劃許可) for our non-compliant buildings.

We consider that the non-compliance issues concerning our buildings will not have any material adverse effect on our operations as a whole.

The Company undertakes that it will rectify all non-compliances in a timely manner and will update the progress of the rectification of the non-compliance incidents in the Company's subsequent annual and interim reports.
