Business Review

For the six months ended 30 September 2024, the Group recorded a turnover of approximately HK\$26,070,000 (2023: HK\$24,988,000), representing an increase of 4.3% as compared with corresponding period last year. The increase was mainly due to the increase of e-commerce income due to global economic recovery. However, gross profit decreased to approximately HK\$3,564,000 in the Current Interim Period (2023: HK\$3,738,000). The gross profit margin slightly decreased to 13.7% in the Current Interim Period from 15.0% in the corresponding period last year. The decrease of gross profit margin was mainly due to the increase of the portion of turnover generated from the e-commerce segment which has a lower gross profit margin. Administrative expenses decreased to approximately HK\$3,586,000 for the six months ended 30 September 2024 from approximately HK\$5,297,000 for the corresponding period last year. The decrease was mainly due to the decrease of staff costs and marketing expenses for the six months ended 30 September 2024.

Loss attributable to the owners of the Company amounted to approximately HK\$1,281,000 in the Current Interim Period (2023: HK\$7,323,000) and loss per share for the period was HK\$1.64 cents in the Current Interim Period (2023: loss per share of HK\$9.37 cents). The decrease of loss attributable to the owners of the Company mainly due to the decrease in net realised and unrealised fair value loss on financial assets for trading and also the decrease in administrative expenses.

Advertising business

For the Current Interim Period, a wholly-owned subsidiary of the Company, that is principally dedicated to constructing a catering business mobile platform, has been actively engaged in development of mobile internet business based on established foundation and closely following the O2O path. It aims at connecting the online and offline operational procedures in traditional catering businesses that would result in forming a data closed-loop. The platform has launched such interactive features namely online order placing and online table booking. It has even mobile payment service for some merchants. As a result, efficiency of the clients' restaurants has been improved rather remarkably. Our platform has been hugely popular among catering business operators.

E-commerce business

For the Current Interim Period, a wholly-owned subsidiary of the Company has been actively engaged in the business of e-commerce.
