### 10. PROPERTY, PLANT AND EQUIPMENT (continued)

The Group's land and buildings were revalued individually at 31 March 2024 by Cushman & Wakefield Limited, independent professional valuer not connected with the Group, by reference to market evidence of recent transaction prices for similar properties. The Board is of the view that there is no material difference in the valuation of the land and buildings as of 31 March 2024 and 30 September 2024. Therefore, no revaluation has been carried out for the six months ended 30 September 2024.

In estimating the fair value of the leasehold land and buildings, the highest and best use of the leasehold land and buildings is their current use.

The fair value of the leasehold land and buildings were determined by the valuer on direct comparison approach assuming sale of each of these properties on an immediate vacant possession basis by reference to comparable sales evidence as available in the relevant market. Comparable properties in close proximity have been selected and adjustments have been made to account for the difference in factors such as location and property size. The most significant input into this valuation approach is price per square meter. There were no changes to the valuation techniques during the period. For details, please refer to the annual report of the Company for the year ended 31 March 2024, dated 26 July 2024.

### 11. INVESTMENT PROPERTIES

The fair values of the Group's investment properties as at 31 March 2024 have been arrived at on the basis of valuations carried out on the respective dates by Cushman & Wakefield Limited, independent professional valuer not connected with the Group, who has appropriate qualifications and recent experience in the valuation of similar properties in the relevant locations respectively. The Board is of the view that there is no material difference in the valuation of the investment properties as of 31 March 2024 and 30 September 2024. Therefore, no revaluation has been carried out for the six months ended 30 September 2024.

The valuations have been arrived at by considering the capitalised net rental income or where appropriate, by reference to market evidence of recent transaction prices for similar properties in similar location and condition. In arriving at the capitalised net rental income, the market rentals of all lettable units of the property are assessed and capitalised at market yield expected by investors for this type of property. The market rentals are also assessed by reference to the rentals achieved in other similar properties in the neighborhood. The capitalisation rate adopted is made by reference to the yields achieved in analysed market sales transactions and the valuer's knowledge of the market expectation from property investors.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

### Contingent Liabilities

As at 30 September 2024, the Group had no contingent liabilities (31 March 2024: nil).

### Exposure to Fluctuation in Exchange Rates

The Group's operations are principally in the PRC and accordingly a majority part of its income and expenditure is denominated in RMB. The exchange rates of RMB against HK\$ and US\$ have been quite stable over the past years despite a steady depreciation in RMB has occurred during the Period. Also, the Group's operations will not be unduly exposed to exchange rates fluctuations as all the major assets, mainly property development projects of the Group, are in the PRC and will generate RMB revenue to the Group. Except certain bank and other borrowings which are denominated in HK\$, most of the Group's liabilities are denominated in RMB. Therefore, the Directors do not foresee that movement in the exchange rates of foreign currencies against RMB in the foreseeable future will cause a material adverse impact on the Group's operations.

The Group does not have a foreign currency hedging policy. However, the management of the Group continuously monitors the Group's foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Employees and Remuneration Policy

The related employees' cost (including the Directors' remuneration) for the Period amounted to approximately HK\$12.1 million (2023: HK\$10.3 million). Employees are remunerated based on their work performance, skills and experience, and prevailing industry practice. Apart from basic salary and performance related bonus, the Group also provides other benefits to its employees including mandatory provident fund, medical insurance coverage and housing allowances.

### PROSPECTS

While business activities in the PRC have been gradually resuming following the lifting of COVID-19 restrictions in early 2023, the overall business environment remained challenging as the global economic outlook is weak and filled with uncertainties. The central government continues to positively monitor the macro economy and has since launched various economic policies and measures to support the PRC property market and activate the capital market, as well as improve the business environment for different sectors. Following these positive factors, the PRC's economy has showed signs of improvement broadly, although the consumer confidence remains cautious and the real estate industry is still in an adjustment cycle in the near term. The Group will cautiously watch out for the outlook and the prospects of the real estate market and seize investment opportunities as appropriate.

Confronted with industry challenges, the Group will continue to formulate its business strategy along the direction of government policies, resolutely fulfill the Group's mission and corporate responsibility.

Going forward, the Group will cautiously continue to seek opportunities of participation in city redevelopment of old villages or old plants and factories to replenish its property portfolio as an ongoing business exercise and as a means of replenishing a lower cost land bank. For business development, the Group will also look for different thriving business opportunities that will benefit the Group in the years ahead. On 19 March 2024, the Company has incorporated a wholly-owned subsidiary, namely Coastal A.I. Solutions Limited (沿海人工智能實業應用有限公司) ("Coastal A.I. Solutions") in Hong Kong. It is intended that Coastal A.I. Solutions would principally engage in artificial intelligence-related projects, being a new business segment of the Group currently in the initial phase of research and development. The Group would utilise its own funds to develop the new business segment and there is no certainty about the outcome of the development of the new business segment. Details of which are set out in the announcement of the Company dated 19 March 2024.
