NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the twelve months ended 31 December 2024

1. BASIS OF PREPARATION

As disclosed in the Company's announcement dated 17 December 2024, the board of directors of the Company (the "Directors" and the "Board", respectively) resolved to change the financial year end date of the Company from 31 December to 30 June commencing from the financial period from 1 January 2024 to 30 June 2025. Accordingly, the condensed consolidated financial statements for the current period cover a twelve-month period from 1 January 2024 to 31 December 2024.

These unaudited condensed financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and the applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

2. MATERIAL ACCOUNTING POLICIES

The unaudited condensed consolidated interim financial statements for the twelve months ended 31 December 2024 (the "unaudited condensed consolidated interim financial statements") have been prepared on the historical cost basis, as modified by revaluation of investment properties, investments at fair value through profit or loss and equity investments at fair value through other comprehensive income which are carried at their fair values. They are presented in Hong Kong Dollars ("HK\$") and all values are rounded to the nearest thousand except when otherwise indicated.

The unaudited condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements for the twelve months ended 31 December 2023. The accounting policies and methods of computation used in the unaudited condensed consolidated interim financial statements are the same as those followed in the preparation of the Group's audited consolidated financial statements for the twelve months ended 31 December 2023.

The Group has not yet adopted any new and amendments to HKFRSs that have been issued but are not yet effective. The Group is in the process of assessing the impact of the adoption of such new and amendments to HKFRSs on the Group's results and financial position.

Going concern basis

The Group incurred a loss of approximately HK\$45,448,000 for the twelve months ended 31 December 2024 and as at 31 December 2024, the Group had net current liabilities of approximately HK\$935,220,000. These conditions indicate the existence of a material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern. Therefore, the Group may be unable to realise its assets and discharge its liabilities in the normal course of business.

Having taken into account (i) the Group has undertaken the task of coordinating with an indirect shareholder of the Company a proposed plan to dispose certain assets pertaining to the Group's properties development and properties investment business, the sales proceeds of which are anticipated to be received in accordance with a timeline stipulated by the Group; (ii) the Group will negotiate with its bankers and an indirect shareholder of the Company for the renewal of the loans when they fall due and obtain new facilities; and (iii) the estimated proceeds from the placing of shares (if any), the directors are satisfied that the Group will have sufficient working capital for its present requirements. The directors are therefore of the opinion that it is appropriate to prepare the condensed consolidated financial statements on a going concern basis. Should the Group be unable to continue as a going concern, adjustments would have to be made to the condensed consolidated financial statements to adjust the value of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets and liabilities as current assets and liabilities, respectively.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the twelve months ended 31 December 2024

3. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs: unobservable inputs for the asset or liability.

The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.
