Corporate Profile

We are a global manufacturer of UHP graphite electrodes with a worldwide customer base in over 25 countries comprising major global EAF steel manufacturers in Americas, EMEA, APAC and the PRC that sell their products to the automotive, infrastructure, construction, appliance, machinery, equipment and transportation industries.

The dual carbon goals, namely carbon peaking before 2030 and carbon neutrality before 2050 have brought global momentum towards the transformation of our downstream industry of steel manufacturing by shifting from blast furnace steelmaking to EAF steel manufacturing. In recent years, blast furnace steelmaking predominates the steel production with around 70% in worldwide and even around 90% in the PRC. Using EAF is more environmental friendly in terms of pollutants emissions and energy consumptions and regarded as a core pillar of decarbonisation to complete "super-low-emission" renovations within the steel industry. With our commitments to offer high quality UHP graphite electrode which serves as a key industrial material to EAF steel manufacturers and our continuous efforts to strive for a cleaner production process to reduce emissions and wastes as well as energy consumption, we believe, together with our downstream customers, we would be able to contribute to a green and sustainable economy in the long run.

We have our production facilities in Italy and the PRC with annual effective production capacities of 46,000MT in aggregate, which enables us to flexibly meet the demand for graphite electrodes from our customers located in different parts of the world and provide them with support and technical services.

We have regional sales teams focusing on the markets of Americas, EMEA, APAC and the PRC to serve and support our customers in all different geographies. Our global reach through our strong sales and distribution network ensures that our products are readily available to our customers.

Chairman's Statement

Dear Shareholders,

As we review the past year's performance and look to the challenges set down for the year ahead, we have seen a continuance of difficult times for the graphite electrode industry in 2024 mainly due to the difficulties in the global steel industry. The global steel industry faced various challenges in 2024, navigating macroeconomic headwinds and geopolitical uncertainty.

Whilst there is much to consider in our report, one aspect I am pleased to report is the increase in sales volume we have achieved through our dedicated sales and operations people. This increase in sales volume has been achieved in spite of very aggressive market pricing, global logistics difficulties and for the North American market, the change in government administration. These efforts reflect the Group's unwavering commitment to maintain market competitive agility despite global economic uncertainties and heightened competitive pressures.

Over the last 18 months we have streamlined our business and optimized our production footprint in order to see out the current market conditions and we are now well prepared to take advantage of the expected upturn in the graphite electrode and steel industries in the latter part of 2025.

On behalf of the Board, I thank our people and our shareholders for their ongoing support, hard work and loyalty and look forward to the 2025 annual report witnessing the fruit of that support, loyalty and hard work.

BUSINESS REVIEW

The global steel industry faced various challenges in 2024, navigating macroeconomic headwinds and geopolitical uncertainty. The world's crude steel production for the 71 countries reporting to the World Steel Association (which accounted for approximately 98% of total world crude steel production) during 2024 demonstrated an overall decreasing trend and recorded a decrease of 0.9% as compared to 2023, among which North America and the PRC decreased by 4.2% and 1.7%, respectively. The overall slowdown in steel production suppressed the downstream demand for graphite electrode products. Against this backdrop, the Group recorded revenue of approximately US\$57.0 million during FY2024, representing a decrease of approximately 21.2% as compared to FY2023 due to global economic uncertainties and heightened competitive pressures throughout FY2024. The Group achieved a commendable sales volume growth of over 6%, increasing from 17,015 MT in FY2023 to 18,141 MT in FY2024. This achievement reflects the Group's commitment to maintaining market competitiveness despite global economic uncertainties and heightened competitive pressures. Additionally, our proactive efforts to reduce inventory levels have strengthened our working capital position. The Group has been able to reduce the average unit cost of sales by 2.6% as compared to FY2023, primarily driven by our production cost control measures.

However, due to the problems primarily in the European market as a result of the uncertainty and disruption caused by the Ukrainian/Russian conflict to extant supply chains to the Group's Italian factory, the pricing dynamics observed across most regions resulted in a significant decrease of 26.1% in the average selling price of graphite electrodes. Additionally, the continuation of high energy costs in the European market has eroded any potential gross profit from cost control measures, which is at least partially attributable to the ongoing Ukrainian/Russian conflict.

While the increase in sales volumes contributed to a higher total cost of sales, the Group also recorded an inventory provision of approximately US\$4.2 million for FY2024 (the "Inventory Provision") (as compared to US\$3.3 million in FY2023). Consequently, our gross margin declined from a gross profit margin of approximately 1.2% in FY2023 and turned to a gross loss margin of approximately 30.3% in FY2024. Coupled with the net revaluation loss on property, plant and equipment of approximately US\$4.5 million, these factors collectively contributed to the loss for the Group in FY2024.

To navigate through the challenging market conditions, our Group prioritized operational flexibility, optimizing inventory levels and preserving liquidity to mitigate downside risks. The Group will monitor any change of positive momentum in the steelmaking industry and adjust our production volume accordingly to align with demand recovery.

FUTURE PROSPECTS

While near-term market conditions remain subdued, the Group anticipates a gradual recovery in graphite electrode demand in 2025. This optimism is supported by a projected growth of 1.9% in developed-world steel demand, driven by a long-awaited upturn in steel demand in the European Union and modest recoveries in the US and Japan. Additionally, upward price adjustments announced or proposed by industry peers further bolster this expectation.

To capitalize on this potential business momentum, the Group remains cautious despite the anticipated rebound. We are closely monitoring market dynamics and strategically implementing our business plan to achieve significant improvements in gross margin and profitability. Our strategic focus includes prioritizing key customer portfolios, securing profitable orders, expanding our customer base and continuing to implement production cost control measures. We are dedicated to supporting routine operational needs and have implemented effective cost and resource optimization management.

Despite prevailing softness in the commercial landscape, the global context of carbon neutrality continues to be the Group's growth driver in the mid-to-long term. The Group remains optimistic about its future business outlook and continues to pursue its business plan with a view to better position itself for business opportunities once the industry picks up its momentum. In connection with the graphite electrode business, the Group will strive for improvement and a rebound in the operational and financial performance in the near short term. With the backdrop of dual carbon goals of carbon peaking before 2030 and carbon neutrality before 2050, the continuous adoption of electric arc furnace steelmaking will drive long-term growth in the demand for ultra-high power graphite electrodes.

The Group is confident in its ability to navigate the industry headwinds and emerge stronger as industry conditions improve. By maintaining operational efficiency and reinforcing customer relationships, we aim to position the business as a resilient partner in the global sustainable steel value chain.

FINANCIAL REVIEW

Revenue

The revenue decreased from approximately US\$72.3 million in FY2023 to approximately US\$57.0 million in FY2024 mainly due to:

- (i) the decrease in the average selling price of graphite electrodes of approximately US\$4,249/MT in FY2023 to approximately US\$3,139/MT in FY2024; and partially offset by
- (ii) the increase in sales quantities from approximately 17,015MT in FY2023 to approximately 18,141MT in FY2024.

Cost of Sales

The cost of sales increased from approximately US\$71.5 million in FY2023 to approximately US\$74.2 million in FY2024, mainly due to the combined effect of (i) the increase in sales quantities; (ii) the decrease in the average unit cost of sales from approximately US\$4,199/MT in FY2023 to approximately US\$4,090/MT in FY2024; and (iii) the Inventory Provision of approximately US\$4.2 million (FY2023: US\$3.3 million) due to the decrease in the net realizable value of the inventory as assessed based on the market prices of graphite electrodes.

Gross (Loss) Profit and Gross Margin

The gross profit substantially decreased from approximately US\$0.8 million in FY2023 to a gross loss of approximately US\$17.3 million in FY2024 and the gross margin decreased from a gross profit margin of approximately 1.2% in FY2023 and turned to a gross loss margin of approximately 30.3% in FY2024. Such decrease in gross margin was mainly driven by the decrease in the average selling price of graphite electrodes and partially offset by the decrease in the average unit cost of sales of graphite electrodes per MT.

Administrative Expenses

The total administrative expenses of the Group were approximately US\$14.8 million in FY2024, representing an increase of approximately 23.0% as compared to FY2023. Such increase was mainly due to the increase in personnel and professional fee.

Finance Costs

The Group managed to secure loans from various financial institutions in FY2024 in support of the Group's operational plans. The decrease in the finance costs from approximately US\$3.7 million in FY2023 to approximately US\$2.9 million in FY2024 was mainly attributable to loan repayments in FY2024.

Loss for the Year

The Company recorded loss attributable to its owners of approximately US\$41.0 million in FY2024, which was mainly attributable to (i) the substantial gross loss due to the foregoing reasons; (ii) the net revaluation loss on property, plant and equipment; and (iii) moderate increase in administrative expenses.

Liquidity, Capital Resources and Capital Structure

During FY2024, the Group met its capital requirements principally with the following:

- (i) cash generated from operations;
- (ii) proceeds from bank and other borrowings; and
- (iii) proceeds from the placement of shares of the Company.

Variation of Bank Loan Terms

During FY2024, the Group was in negotiation with a bank to vary the terms of a bank loan with a carrying amount of US\$4,297,000 as at 31 December 2024. The bank had agreed to initiate the loan restructuring process prior to the original repayment date and the process is underway as at the date of this report. The Directors are confident that the process with the bank will ultimately reach a conclusion.

Cash Flow

The net cash used in operating activities, the net cash used in investing activities and the net cash used in financing activities in FY2024 amounted to US\$3.1 million (2023: net cash used in operating activities: US\$6.1 million), US\$11.1 million (2023: net cash used in investing activities: US\$15.0 million) and US\$3.9 million (2023: net cash from financing activities: US\$38.4 million), respectively.

The Group has adopted a prudent financial management approach towards its treasury policy. The Board closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and other commitments can meet its funding requirements from time to time.

As at 31 December 2024, the Group's cash and cash equivalents and pledged bank deposits, were approximately US\$16.4 million (31 December 2023: approximately US\$29.6 million) and mainly denominated in US\$, EUR, RMB and HK\$.

The Group's total interest-bearing bank and other borrowings as at 31 December 2024 amounted to approximately US\$29.7 million (31 December 2023: approximately US\$38.7 million), which were mainly denominated in US\$, RMB, EUR and HK\$. The interest-bearing bank borrowings were mainly used for working capital purposes and all of which are at commercial lending interest rates.

The Group manages its capital structure by maintaining a balance between equity and debts. As at 31 December 2024, the Group's total equity and liabilities amounted to approximately US\$105.8 million and approximately US\$68.2 million, respectively (31 December 2023: approximately US\$148.5 million and approximately US\$77.6 million, respectively).

Gearing Ratio

The Group's gearing ratio, as calculated based on total debts divided by total equity, increased from approximately 26.1% as at 31 December 2023 to approximately 28.1% as at 31 December 2024. This was mainly attributable to the decrease in equity.

Foreign Exchange Exposure

The Group has transactional currency exposures. Such exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies. At present, the Group does not intend to seek to hedge our exposure to foreign exchange fluctuations. However, the Group's management constantly monitors the economic situation and the Group's foreign exchange risk profile and will consider appropriate hedging measures in the future where appropriate.

Capital Expenditures

The Group's capital expenditures principally consisted of expenditures on additions to property, plant and equipment mainly including purchase of plant and machinery and upgrades and maintenance of our production systems. For FY2024, the Group incurred capital expenditures of approximately US\$5.0 million.

Contingent Liabilities

As at 31 December 2024, the Group did not have any material contingent liabilities.

Pledge of Assets

As at 31 December 2024, other than pledged bank deposits, certain of property, plant and equipment, trade receivables and industrial leasehold land with carrying amounts of approximately US\$21.0 million, approximately US\$3.7 million and approximately US\$3.6 million, respectively (as at 31 December 2023: approximately US\$22.7 million, approximately US\$8.9 million and approximately US\$3.2 million, respectively) were pledged to third parties for interest-bearing bank and other borrowings.

Material Acquisitions or Disposals of Subsidiaries, Associates and Joint Venture

Acquisition of Taigu Assets

On 6 July 2023, Shengrui (Shanxi) New Materials Technology Co. Limited* (昇瑞(山西)新材料科技有限公司) (the "Purchaser"), an indirect wholly-owned subsidiary of the Company, entered into an agreement (the "Asset Purchase Agreement") with Shanxi Taigu Mingxing Carbon Steel Company Limited* (山西太谷明興碳素瑪鋼有限公司) (the "Vendor") to acquire relevant buildings, production facilities and intangible assets pertaining to graphite electrode products, etc (the "Taigu Assets") for a consideration of approximately RMB80.5 million, of which RMB40 million had been paid in accordance with the payment schedule. Completion of the acquisition of the Taigu Assets had taken place in August 2023 and all of the Taigu Assets had been transferred to the Group in accordance with the terms of the Asset Purchase Agreement. Thereafter, the Vendor took the position to seek rescission of the Asset Purchase Agreement on the basis of force majeure and began to illegally occupy the Taigu Assets in around March 2024. As advised by the PRC legal advisers of the Company, the basis of force majeure proposed by the Vendor is groundless given that the completion of the acquisition of the Taigu Assets had taken place in August 2023. During this period and prior to the arbitration application in December 2024, the Company had made significant efforts to negotiate with the Vendor in an effort to regain access to the Taigu Assets. As advised by the PRC legal advisers, the Vendor's occupation of the Taigu Assets is a breach of the Asset Purchase Agreement and PRC law. In December 2024, the Company filed an arbitration application to the Shanghai International Arbitration Center ("SIAC") against the Vendor to seek immediate return of the Taigu Assets and compensation for losses suffered since the Vendor illegally occupied the Taigu Assets. As at the date of this report, the Vendor has proposed for a mediation before the arbitration and the first pre-arbitration mediation session has been held in the first quarter of 2025. The Company will update the Shareholders and potential investors on the latest developments as and when appropriate.

Termination and Dissolution of Joint Venture

In November 2024, in view of the ever-changing market and economic environment, the Company and Huixian City Construction Investment Co., Ltd.* (輝縣市建設投資有限公司) have reached agreement and resolved amicably to terminate the joint venture agreements and dissolve the joint venture, Shengrui (Xinxiang) New Material Technology Co., Ltd.* (异瑞(新鄉)新材料科技有限公司) on a voluntary basis. Further details of the termination and dissolution are set out in the announcement of the Company dated 24 November 2024. As at the date of this report, the joint venture has been dissolved with no material adverse impact on the financial performance and operation of the Group.

Save as disclosed above or otherwise in this report, the Group did not have any other material acquisitions nor disposals of subsidiaries, associates and joint ventures during FY2024.

Significant Investments

The Group did not have any significant investment which accounted for more than 5% of the Group's total assets as at 31 December 2024.

BOARD OF DIRECTORS

Executive Directors

Peter Brendon Wyllie ("Mr. Wyllie"), aged 56, joined the Group in January 2014 and was a Director of the Company from June 2018 to June 2020. He is the General Counsel of the Group and a director of Gosource (China) Limited* (高 碩(中國)有限公司), Gosource Capital Limited, GoSource Group Limited, Grafworld International Inc., Grafworld Macau Commercial Offshore Limited (also known as "Grafworld Commercial Offshore De Macau Limitada"), Sanergy Asia Ltd, Sanergy Europe Inc, Sanergy Global Ltd, Sanergy Group (Hong Kong) Limited, Sanergy Holding International Inc, Sangraf Global Inc, Sangraf International (Hong Kong) Limited and Sanode International Co., Limited, all being wholly-owned subsidiaries of the Company. Mr. Wyllie is primarily responsible for overseeing, identifying, developing and directing the implementation of business strategies and legal advisory work.

Mr. Wyllie is a barrister and solicitor of the High Court of New Zealand. Prior to joining our Group, Mr. Wyllie was an equity partner at Helmore Ayers Lawyers in New Zealand, a boutique law firm specializing in asset structuring, commercial matters, acquisition and sales, corporate governance and private client work for local, national and international consumers, intermediaries and advisers. Mr. Wyllie was an advisor of the Family Trust Legal & Affairs Centre of King & Capital Law in Beijing, PRC from 2016.

Mr. Wyllie became a member of the International Tax Planning Association in November 2015, and a member of the Society of Trust and Estate Practitioners and a Registered Trust and Estate Practitioner in August 2007. He received a diploma in international trust management from the Society of Trust and Estate Practitioners in July 2007. He received a Master of Laws (Internet and Electronic Law) degree from Monash University in March 2003 and subsequently became admitted as a barrister and solicitor of the High Court of New Zealand in May 2003. Mr. Wyllie graduated from the University of Canterbury with a bachelor of laws degree in December 2001 and from the University of Otago with a bachelor of arts degree in December 1992.

Mr. Wyllie is a director of Otautahi Enterprises Trust Company Limited, one of the single largest Shareholders of the Company and the trustee of a discretionary family trust where Mr. Hou Haolong, one of the executive Directors and single largest Shareholders of the Company, is one of the beneficiaries.

^{*} for identification purposes only

Mr. Hou Haolong (侯皓龍) ("Mr. Hou"), aged 47, joined the Group in February 2012 and was appointed as an executive Director on 29 March 2021. Mr. Hou is also a director of certain subsidiaries of the Company. He is the brother-in-law of Mr. Feng Jianguo, one of our senior management members. He is responsible for business infrastructure development, product innovation and business strategies of the Group.

Prior to joining the Group, from January 2003 to January 2013, Mr. Hou worked in Henan Sanli Carbon Products Co., Ltd.* (河南三力炭素制品有限公司) ("Henan Sanli") with his last position as general manager and was responsible for project implementation, including the production of large diameter UHP graphite electrode for EAF steel making.

Mr. Hou graduated with a bachelor of science in technology management in December 2000, and subsequently obtained a master of science in procurement and supply chain management from Golden Gate University in August 2002.

Mr. Adriaan Johannes Basson ("Mr. Basson"), aged 69, joined the Group in November 2014. He was appointed as a Director in January 2020 and was re-designated as an executive Director on 11 June 2020. He retired as an executive Director after the conclusion of the annual general meeting on 19 May 2023 and was appointed as an executive Director on 4 October 2024. He is as a director of certain subsidiaries of the Company. Mr. Basson is primarily responsible for providing strategic recommendations to optimise processes and costs in manufacturing, maintenance and operations of the Group.

Mr. Basson has over 46 years of experience in the graphite electrode industry and in the manufacturing, maintenance and operation of graphite electrode manufacturing equipment. Prior to joining the Group, Mr. Basson was employed by GrafTech South Africa Proprietary Limited in Meyerton, a company primarily engaged in the manufacturing and supply of carbon and graphite products, from October 1974 to March 2014 with his last role as a customer technical service engineer. His major duties included maintenance and operation of all the graphite electrodes manufacturing process, design, construction and commissioning of necessary equipment to increase and maximise product manufacturing output, customising and optimising product application based on customers' needs. Mr. Basson studied at the Vaal Triangle College for Advanced Technical Education, South Africa and obtained his national certificate for technicians (electrical) in May 1979. He became a member of The Chamber of Engineering Technology in April 1996. He was a registered engineering technician of the Engineering Council of South Africa in November 1984.

Non-executive Director

Mr. Wang Ping (王平) ("Mr. Wang"), aged 54, joined the Group in August 2019. He was appointed as a Director in October 2019 and re-designated as a non-executive Director on 11 June 2020. He is also a director of certain subsidiaries of the Company. Mr. Wang is primarily responsible for providing advice on business strategy development and financial planning.

Mr. Wang has over 20 years of experience in corporate finance, audit and accounting and financial management. From February 2004 to March 2007, Mr. Wang was employed by China Jishan Holdings Limited, a company listed on the main board of the Singapore Stock Exchange (stock code: J18), as its chief financial officer. From May 2007 to March 2010, Mr. Wang worked as the vice president of EV Capital Pte Ltd., a corporate finance advisory company engaging in corporate advisory services, and was responsible for providing advisory services in accounting and finance. From March 2012 to December 2015 and from March 2014 to December 2015, Mr. Wang served as the chief financial officer and executive director of China First Capital Group Limited (stock code: 1269).

Mr. Wang is currently an independent non-executive director of (i) China Hanking Holdings Limited (stock code: 3788) since February 2011; (ii) Jia Yao Holdings Limited (stock code: 1626) since June 2014; and (iii) Chongyi Zhangyuan Tungsten Co., Ltd., a company listed on the Shenzhen Stock Exchange (stock code: 002378.SZ) since May 2023.

Mr. Wang was admitted as a member of the Chinese Institute of Certified Public Accountants in December 1996 and a non- practicing member of the Shanghai Institute of Certified Public Accountants in September 2002. Mr. Wang graduated from Nanjing University, the PRC majoring in economics and management in December 1993 and obtained a master's degree in business administration from Sun Yat- Sen University, the PRC, in June 2004.

Independent Non-executive Directors

Mr. Cheng Tai Kwan Sunny (鄭大鈞**)** ("Mr. Cheng"), aged 52, was appointed as an independent non-executive Director on 19 December 2022. The Company is not aware of any tax relief or exemption available to the Shareholders by reason of their holding of the Company's Shares.

RELATED PARTY TRANSACTIONS

Details of related party transactions of the Group during FY2024 are set out in note 33 to the consolidated financial statements. Each of the related party transactions during FY2024 disclosed in note 33 to the consolidated financial statements was either a connected transaction or continuing connected transaction but is fully exempted and not subject to any of the disclosure requirements under Chapter 14A of the Listing Rules.

DIRECTORS' MATERIAL INTERESTS IN TRANSACTIONS, ARRANGEMENTS AND CONTRACTS

Save as disclosed in note 33 to the consolidated financial statements, no transactions, arrangements or contracts of significance, to which the Company, its parent company, its subsidiaries or its fellow subsidiaries, was a party and in which a Director at any time during FY2024 or an entity connected with a Director at any time during FY2024 had any material interest, whether directly or indirectly, was entered into or subsisted at the end of FY2024 or at any time during FY2024.

ARRANGEMENTS TO PURCHASE SHARES OR DEBENTURES

Save as disclosed in the section headed "Share Option Scheme", at no time during FY2024 was the Company, its holding company, or any of its subsidiaries, a party to any arrangement to enable the Directors to acquire benefits by means of the acquisition of Shares in, or debt securities including debentures of, the Company or any other body corporate.

MANAGEMENT CONTRACTS

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or in existence during FY2024, other than service contracts with the Directors and other persons engaged in the full-time employment of the Company.

CONTRACT WITH CONTROLLING SHAREHOLDER

No contract of significance, as well as contract of significance for the provision of services has been entered into between the Company or any of its subsidiaries and the Controlling Shareholders or any of its subsidiaries during FY2024.

PERMITTED INDEMNITY PROVISION

Pursuant to the Articles, the Directors, secretary and other officers of the Company shall be indemnified and secured harmless out of the assets and profits of the Company from and against all actions, costs, charges, losses, damages and expenses which they may incur or sustain in the execution of their duty. The Company has taken out and maintained directors' and officers' liability insurance throughout FY2024, which provides appropriate cover for certain legal actions (if any) brought against its Directors and officers.

DIRECTORS' AND CHIEF EXECUTIVE'S INTERESTS IN THE SHARES, UNDERLYING SHARES AND DEBENTURES

As at 31 December 2024, the interests and short positions of the Directors and the chief executive of the Company in the shares, underlying shares and debentures of the Company and its associated corporations (within the meaning of Part XV of the SFO) as recorded in the register required to be kept by the Company pursuant to section 352 of the SFO or as notified to the Company and the Stock Exchange pursuant to the Model Code were as follows:

Otautahi Holdings Limited is wholly-owned by Otautahi Enterprises Trust Company Limited is the trustee of Otautahi Enterprises Trust, which is a discretionary trust established by Otautahi Enterprises Trust Company Limited as the trustee and Mr. Hou Haolong is one of the beneficiaries of Otautahi Enterprises Trust. Accordingly, they are deemed to be interested in the Shares held by Otautahi Capital under the SFO.

Save as disclosed above, the Directors are not aware that there is any party (who were not Directors or chief executive of the Company) who, as at 31 December 2024, had interests or short positions in the shares and underlying shares of the Company, which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO or recorded in the register required to be kept by the Company pursuant to section 336 of the SFO.

DIRECTORS' INTERESTS IN A COMPETING BUSINESS

During FY2024, none of the Directors and directors of the Company's subsidiaries or their respective associates had any interests in any businesses, apart from the Group's business, which compete or are likely to compete either directly or indirectly, with the businesses of the Company and its subsidiaries as required to be disclosed pursuant to the Listing Rules.

DEED OF NON-COMPETITION

On 19 December 2022, the then Controlling Shareholders of the Company, namely Otautahi Capital Inc., Otautahi Holdings Limited, Otautahi Enterprises Trust Company Limited and Mr. Hou Haolong (collectively the "Undertaking Shareholders") entered into the Deed of Non-competition in favour of the Company (for itself and as trustee for each of its subsidiaries from time to time). Detailed information on the Deed of Non-competition is set forth in the section headed "Relationship with Controlling Shareholders – Deed of Non-competition" in the Prospectus. According to the terms of the Deed of Non-competition, the obligations of the Undertaking Shareholders under the Deed of Non-competition would remain in effect until, among other things, all of the Undertaking Shareholders cease to be Controlling Shareholders of the Company for the purpose of the Listing Rules. On 3 September 2024, the Undertaking Shareholders ceased to be Controlling Shareholders of the Company and would therefore no longer be bound by the Deed of Non-competition.

The Undertaking Shareholders have given written declarations and have confirmed to the Company that they have complied with the non-competition undertakings under the Deed of Non-competition from 1 January 2024 to 2 September 2024 (being the date immediately preceding the date on which the Undertaking Shareholders ceased to be Controlling Shareholders).

The Undertaking Shareholders have also confirmed in the declarations that they have no interest in any business, other than the business of the Group, which competes or is likely to compete, either directly or indirectly, with the business of the Group from 1 January 2024 to 2 September 2024. The independent non-executive Directors have reviewed the status of compliance of the Deed of Non-competition and confirmed that nothing has come to their attention that the Undertaking Shareholders have breached any undertaking or provisions under the Deed of Non-competition from 1 January 2024 to 2 September 2024.

SHARE OPTION SCHEME

On 19 December 2022, a share option scheme (the "Share Option Scheme") of the Company was approved and adopted by the then shareholders of the Company. No option under the Share Option Scheme has been granted since its adoption. At the beginning and the end of the FY2024, the number of options available for grant under the scheme mandate limit under the Share Option Scheme was 100,000,000.

The details of the Share Option Scheme are as follows:

1. Purpose

The purpose of the Share Option Scheme is to give the Eligible Participants (as defined in the following paragraph) an opportunity to have a personal stake in the Company and help motivate them to optimize their future contributions to our Group and/or to reward them for their past contributions, to attract and retain or otherwise maintain ongoing relationships with such Eligible Participants who are significant to and/or whose contributions are or will be beneficial to the performance, growth or success of the Group, and additionally in the case of an Employee Participant (as defined below), to enable our Group to attract and retain individuals with experience and ability and/or to reward them for their past contributions.

2. Who may join

The Board may, at its absolute discretion, offer options ("Options") to subscribe for such number of Shares in accordance with the terms set out in the Share Option Scheme to any of the Employee Participant, the Related Entity Participant or the Service Provider (collectively, the "Eligible Participants") below:

- (a) any director or employee of the Company or any of its subsidiaries, including persons who are granted Options as an inducement to enter into employment contracts with the Company or any of its subsidiaries ("Employee Participants");
- (b) a director or employee of a holding company, a subsidiary of the holding company or an associated company of the Company ("Related Entity Participants"); and
- (c) any person who provides services to our Group on a continuing or recurring basis in its ordinary and usual course of business which are in the interests of the long-term growth of our Group, including (i) a supplier of goods or services to any member of our Group; (ii) a customer of any member of our Group; (iii) a business or joint venture partner, franchisee, contractor, agent or representative in the sports product industry of any member of our Group; (iv) a person or entity (as an independent contractor, consultant, advisor or otherwise) that provides support or any advisory, consultancy, professional or other services to any member of our Group (including support or services in relation to design, research, development, marketing, in novation upgrading, strategic or commercial planning on corporate image, investor relations, product quality control, regulations and policies); and (v) an associate of any of the foregoing persons ("Service Providers"). For the avoidance of doubt, Service Provider may not include placing agents or financial advisers providing advisory services for fundraising, mergers or acquisitions, as well as professional service providers (such as auditors or valuers) who provide assurance or are required to perform their services with impartiality and objectivity.

3. Maximum number of Shares

The total number of Shares available for issue under the Share Option Scheme and any other schemes of the Company is 100,000,000 Shares, representing 8.8% of the Shares in issue as at the date of this annual report.

4. Maximum entitlement of each participants

No Option may be granted to any person such that the total number of Shares issued and to be issued upon exercise of Options granted and to be granted to that person in any 12-month period exceeds 1% of any relevant class of the Company's issued share capital from time to time (the "1% Individual Limit"). Any further grant of Share Options in excess of the 1% Individual Limit is subject to shareholders' approval in a general meeting with such grantee and his/her associates abstaining from voting.

Where any grant of Options to a substantial shareholder (as defined in the Listing Rules) or an independent non-executive director of the Company, or any of their respective associates, would result in the securities issued and to be issued upon exercise of all Options already granted and to be granted (including Options exercised, canceled and outstanding) to such person in the 12-month period up to and including the date of such grant representing in aggregate over 0.1% of the relevant class of securities in issue, such further grant of Options is subject to shareholders' approval in a general meeting with such grantee and his/her associates and all core connected persons (as defined in the Listing Rules) of the Company abstaining from voting.

5. Offer and grant of Options

Subject to the terms of the Share Option Scheme, the Board shall be entitled at any time within 10 years from the Adoption Date to offer the grant of an Option to any Eligible Participant as the Board may in its absolute discretion select to subscribe at the exercise price for such number of Shares as the Board may (subject to the terms of the Share Option Scheme) determine (provided the same shall be a board lot for dealing in the Shares on the Stock Exchange or an integral multiple thereof).

6. Amount payable for Options and offer period

An offer of the grant of an Option shall remain open for acceptance by the Eligible Participant concerned for a period of 28 days from the grant date provided that no such grant of an Option may be accepted after the expiry of the effective period of the Share Option Scheme or after the Share Option Scheme has been terminated. An Option shall be deemed to have been granted and accepted by the Eligible Participant and to have taken effect when the duplicate grant letter comprising acceptance of the offer of the Option duly signed by the grantee together with a remittance in favor of the Company of US\$1.00 by way of consideration for the grant thereof is received by the Company on or before the date upon which an offer of an Option must be accepted by the relevant Eligible Participant, being a date no later than 28 days after the offer date.

7. Vesting Period

The exercise of any Option may be subject to a vesting period to be determined by the Board in its absolute discretion. In any event, the vesting period for an Option under the Share Option Scheme shall not be less than 12 months, except that the Options granted to Employee Participants may be less than 12 months under the following specific circumstances.

- (a) grants of "make-whole" Options to new joiners to replace the share options they forfeited when leaving the previous employers;
- (b) grants of Options to an Employee Participant whose employment is terminated due to death or disability or uncontrollable event. In those circumstances, the vesting of an Option may accelerate;
- (c) grants of Options with performance-based vesting conditions in lieu of time-based vesting criteria;
- (d) grants of Options made in batches during a year for administrative and compliance reasons;
- (e) grants of Options with a mixed or accelerated vesting schedule such as where the Options may vest evenly over a period of 12 months; and
- (f) grants of Options with a total vesting and holding period of more than 12 months.

8. Exercise price

The exercise price in respect of any particular Option shall be such price as the Board may in its absolute discretion determine at the time of grant of the relevant Option (and shall be stated in the letter containing the offer of the grant of the Option) but the exercise price shall not be less than whichever is the higher of:

- (a) the closing price of a Share as stated in the Stock Exchange's daily quotations sheet on the grant date; and
- (b) the average closing price of a Share as stated in the Stock Exchange's daily quotations sheets for the five Business Days (as defined in the Listing Rules) immediately preceding the grant date.

9. Life of Share Option Scheme

The Share Option Scheme shall be valid and effective for a period of 10 years from 19 December 2022, i.e. until 18 December 2032, after which no further options pursuant to the Share Option Scheme may be granted.

EQUITY-LINKED AGREEMENTS

Save as disclosed in the sections headed "Issue of Listed Securities of the Company and Use of Proceeds" below, the Company did not enter into, and as of 31 December 2024 did not have, any equity-linked agreements which would or might result in the issue of Shares by the Company, or require the Company to enter into any agreements which would or might result in the issue of Shares by the Company, during FY2024.

EVENTS AFTER THE REPORTING PERIOD

Save as otherwise disclosed in this report, there are no significant events affecting the Group after FY2024 and up to the date of this report.

AUDITOR

On 31 July 2023, Ernst & Young, who acted as the auditors of the Company, resigned and Deloitte Touche Tohmatsu was appointed as the auditors of the Company. The details of the change of auditors are set out in the Company's announcement dated 31 July 2023.

The consolidated financial statements of the Group for the year ended 31 December 2024 have been audited by Deloitte Touche Tohmatsu, who will retire, and being eligible, offer themselves for re-appointment at the 2025 AGM. A resolution for their re-appointment as auditors of the Company will be proposed at the 2025 AGM.

Mr. Cheng Tai Kwan Sunny

Mr. Ngai Ming Tak Michael

Mr. Adriaan Johannes Basson confirmed that he had obtained the legal advice referred to in Rule 3.09D of the Listing Rules and he understood his obligations as a Director of the Company.

Corporate Governance Report

The Board members have no financial, business, family or other material/relevant relationships with each other. Such balanced board composition is formed to ensure strong independence exists across the Board and has met the recommended practice under the CG Code for the Board to have at least one-third of its members comprising independent non-executive Directors. The biographical information of the Directors is set out on pages 14 to 18 in this annual report under the section headed "Directors and Senior Management Profile".

A list of Directors and their roles and functions is also available on the websites of the Stock Exchange and the Company. During the reporting period, the Board had reviewed the implementation and effectiveness of the mechanisms ensuring independent views and input available to the Board.

Mr. Peter Brendon Wyllie is the Chairman and is primarily responsible for providing the overall leadership in the Board's affairs and in the strategic development of the business of the Group and ensuring that good corporate governance practices and procedures are established, along with the responsibilities of the Chairman under the Articles and the Listing Rules. Following the resignation of Dr. Wei-Ming Shen as the chief executive officer of the Company on 1 May 2024, the Company has not appointed a chief executive officer. Day-to-day management of the business of the Group are carried out by the senior management and monitored by the executive Directors, while prior approvals by all executive Directors are required for all strategic decisions which are also considered and confirmed in formal Board meeting.

Independent Non-Executive Directors

During FY2024, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive Directors representing at least one-third of the Board with one of whom possessing appropriate professional qualifications or accounting or related financial management expertise. The Company has received written annual confirmation from each of the independent non-executive Directors in respect of his/her pursuant to Rule 3.13 of the Listing Rules. The Board has assessed their independence and concluded that all independent non-executive Directors are independent.

Term of Appointment of Non-executive Directors

All non-executive Directors (including independent non-executive Directors) are appointed for a specific term.

Mr. Wang Ping, being a non-executive Director, has entered into a service agreement with the Company for an initial term of three years commencing from the Listing Date (subject to termination in certain circumstances as stipulated in the relevant service agreement). Each of the independent non-executive Directors (Ms. Chan Chore Man Germaine, Mr. Cheng Tai Kwan Sunny and Mr. Ngai Ming Tak Michael) has entered into a letter of appointment with the Company for an initial term of one year commencing from the Listing Date (which shall continue thereafter unless terminated in certain circumstances as stipulated in the relevant letter of appointment).

The Articles provide that subject to the manner of retirement by rotation of Directors as from time to time prescribed by the Listing Rules, at each annual general meeting, one-third of the Directors for the time being shall retire from office by rotation and that every Director shall be subject to retirement by rotation at least once every three years.

CORPORATE GOVERNANCE FUNCTIONS

The Board is responsible for performing the corporate governance functions such as (i) developing and reviewing the Company's policies, practices on corporate governance and making recommendations to the board; (ii) reviewing and monitoring the training and continuous professional development of directors and senior management; (iii) reviewing and monitoring the Company's policies and practices on compliance with legal and regulatory requirements and reviewing Company's compliance with the CG Code and disclosure in the Corporate Governance Report; and (iv) developing, reviewing and monitoring the code of conduct and compliance manual applicable to employees and directors.

The Board held meetings from time to time whenever necessary. At least 14 days' notice of regular Board meetings will be given to all Directors and they can include matters for discussion in the agenda as they think fit. The agenda accompanying Board papers will be sent to all Directors at least 3 days before the date of a Board meeting in order to allow sufficient time for the Directors to review the documents.

Minutes of each Board meeting are circulated to all Directors for their perusal and comments prior to confirmation of the minutes. The Board also ensures that it is supplied in a timely manner with all necessary information in a form and of a quality appropriate to enable it to discharge its duties.

Every Board member has full access to the advice and services of the company secretary of the Company with a view to ensuring that Board procedures, and all applicable rules and regulations are followed and they are also entitled to have full access to Board papers and related materials so that they are able to make an informed decision and to discharge their duties and responsibilities.

DIRECTORS' AND OFFICERS' LIABILITY INSURANCE

The Company has arranged appropriate insurance cover in respect of legal actions against its Directors and officers. The Company reviews the insurance coverage from time to time to ensure adequate coverage. There is a procedure agreed by the Board to enable Directors, upon reasonable request, to seek independent professional advice in appropriate circumstances, at the Company's expenses in order to assist them to discharge their duties to the Company.

CONTINUOUS PROFESSIONAL DEVELOPMENT

On appointment to the Board, each Director receives a comprehensive induction package covering business operations, policy and procedures of the Company as well as the general, statutory and regulatory obligations of being a Director to ensure that he/she is sufficiently aware of his/her responsibilities under the Listing Rules and other relevant regulatory requirements.

The Directors are regularly updated and apprised of the amendments to or updates on the relevant laws, rules, regulations and guidelines, particularly the effects of such new or amended laws, rules, regulations and guidelines on directors specifically, and the Company and the Group generally.

On an ongoing basis, Directors are encouraged to keep up-to-date on all matters relevant to the Group and to attend briefings, seminars and relevant training courses as appropriate. The Directors are requested to provide the Company with their respective training record pursuant to the requirement of the CG Code on continuous professional development.

During FY2024, all Directors (including Mr. Peter Brendon Wyllie, Dr. Wei-Ming Shen, Mr. Adriaan Johannes Basson, Mr. Yan Haiting, Mr. Hou Haolong, Mr. Wang Ping, Professor Zheng Honghe, Mr. Cheng Tai Kwan Sunny, Mr. Ngai Ming Tak Michael, Ms. Chan Chore Man Germaine), during their respective term of office as Directors, participated in appropriate continuous professional development activities by way of attending training sessions and reading materials relevant to the Company's business, directors' duties and responsibilities and corporate governance.

- accessed the independence of independent non-executive Directors; and
- considered and recommended the nomination of Mr. Professor Zheng Honghe as a non executive Director and Mr. Adriaan Johannes Basson as an executive Director, based on the procedures and the process and criteria set out above.

Board Diversity Policy

The Board has adopted a board diversity policy (the "Board Diversity Policy") which sets out the approach to achieve diversity of the Board and the Board will review the implementation and effectiveness of the Board Diversity Policy on an annual basis. The Company recognizes that increasing diversity at the Board level will support the attainment of the Company's strategic objectives and sustainable development. The Company seeks to achieve board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The Company will also take into consideration its own business model and specific needs from time to time in determining the optimum composition of the Board.

The Company take opportunities to promote gender diversity at all levels, including but not limited to our Board and the senior management levels. Currently, there is one female on the Board of Directors. To ensure there is gender diversity on the Board, the Board has set a target that there must be at least one Director of different gender on the Board at all times, subject to our Directors (i) being satisfied with the competence and experience of the relevant candidates after a holistic review process based on reasonable criteria; and (ii) fulfilling their fiduciary duties to act in the best interest of our Company and the Shareholders as a whole when deliberating on the appointment.

For the purpose of implementation of the Board Diversity Policy, the following measurable objectives were adopted:

- 1. The Company should comply with the requirements on board composition in the Listing Rules from time to time.
- 2. The number of independent non-executive Directors should be not less than three and one-third of the Board.
- 3. At least one of the independent non-executive Directors must have appropriate professional qualifications or accounting or related financial management expertise.
- 4. The Board should have at least one member of a different gender in order to achieve gender diversity at Board level.

The Nomination Committee is of the view that the Company has achieved these measurable objectives under the Board Diversity Policy.

Gender Diversity

The main business of the Group is manufacturing operation. Traditionally, the manufacturing industry has been short of female talents. As at 31 December 2024, the gender ratio in the total workforce of the Group (including senior management) was approximately 4.4:1 (male:female). Nevertheless, the Company targets to avoid a single gender senior workforce and will timely review the gender diversity of the senior workforce in accordance with the business development of the Group. To develop a pipeline of potential successors of different genders to the Board, our Company will (i) ensure that there is emphasis on gender diversity when recruiting staff at all levels; and (ii) engage fair resources in training staff of different genders with the aim of promoting them to be members of senior management or the Board. Through this, the Company is committed to identifying suitable candidates of different genders both internally and externally in order to achieve the abovementioned target.

Audit Committee

The Audit Committee currently comprises three independent non-executive Directors, namely Mr. Cheng Tai Kwan Sunny, Mr. Ngai Ming Tak Michael and Ms. Chan Chore Man Germaine. Mr. Cheng Tai Kwan Sunny is the chairman of the Audit Committee. The primary duties of the Audit Committee are (i) to assist the Board in providing an independent view of the effectiveness of the Company's financial controls, internal control and risk management systems; (ii) to review and monitor the effectiveness of the audit process; (iii) to make recommendations to the board on the appointment, reappointment and removal of external auditors and to approve the remuneration and terms of engagement of the external auditors; (iv) to review the interim and annual reports and accounts of the Group; and (v) to perform other duties and responsibilities as assigned by the Board.

Two (2) meetings of the Audit Committee were held during FY2024. The attendance of each member of the Audit Committee is set out as follows:

Professor Zheng Honghe (appointed as a member with effect from 31 May 2024 and	
ceased to be a member with effect from 4 October 2024)	N/A

The works performed by the ESG Committee during FY2024 include the following:

- met and discussed with the ESG consultant of the Company in respect of the Environmental, Social and Governance Report of the Company for FY2023 and its findings; and
- reviewed the Environmental, Social and Governance Report of the Company for FY2023.

MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code set out in Appendix C3 to the Listing Rules as its code of conduct regarding Directors' securities transactions. After making specific enquiries to all the Directors, each of them has confirmed that they have complied with the Model Code throughout FY2024.

RESPONSIBILITIES IN RESPECT OF THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the financial statements of the Company for FY2024.

The statement of the external auditor of the Company about its reporting responsibilities on the financial statements is set out in the Independent Auditor's Report on pages 47 to 50.

There are no material uncertainties relating to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

RISK MANAGEMENT AND INTERNAL CONTROLS

Responsibility of the Board

The Board acknowledges its responsibility to ensure the establishment, maintaining and review of the appropriateness and effectiveness of the Group's risk management and internal control systems, where management is responsible for the design, implementation and monitoring of these systems to manage risks.

Sound and effective risk management and internal control systems are in place to achieve the Group's strategic objectives as well as to safeguard shareholder investments and the Company assets. Such systems are designed to manage rather than eliminate the risk of failure to achieve strategic objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

Our Risk Management and Internal Control Framework

The Board has the overall responsibility of the risk management and internal control systems of the Group. With the support from the Audit Committee, the Board monitors the Group's risk exposure, oversees the actions of management and monitors the overall effectiveness of the risk management and internal control systems on an annual and on going basis. Management is responsible for setting an appropriate tone from the top, performing risk assessments, and owning the design, implementation and maintenance of internal controls. Policies and procedures form the basis and set forth the control standards required for functioning of the Group's business entities. These policies and procedures covered various aspects, including operations, finance & accounting, human resources, regulatory & compliance, delegation of authority, etc. The Group has not established an internal audit department and the Board is of the view that given the size, nature and complexity of the business of the Group, it would be more cost effective to appoint external independent professional firms to perform the internal audit function for the Group in order to meet its needs.

The Group has engaged a professional consulting firm which initiated and facilitated the management to perform an annual enterprise-wide risk assessment to evaluate the nature and extent of the risks (including environmental, social and governance ("ESG") risks). During the risk assessment process, the Group has identified several key risks that may impact the Group's strategic objectives, as a result of the changes in the business and external environment. These risks have been prioritized according to the likelihood of their occurrence and the significance of their impact on the business of the Group. An update to the risk assessment report has been submitted to the Board for oversight and monitoring of the risks. Meanwhile, risk management measures and mitigating controls have been developed to manage these risks to an acceptable level.

The Board has also engaged an external professional consultant to review the effectiveness of the Company's internal audit function for FY2024 and material controls, including financial, operational and compliance controls at entity and operational levels. The Audit Committee and the Board have discussed and reviewed the relevant results of the review. The Board had conducted annual review of the effectiveness of the risk management. The Group will continuously enhance its internal control systems and risk management according to findings therein and recommendations made to the Group.

Based on the risk management and internal control systems established and maintained by the Group, the review of the effectiveness of risk management and internal control systems performed by the management, the Board is of the view that the Group has maintained sound, effective and adequate risk management and internal control system during FY2024.

OPINION

We have audited the consolidated financial statements of Sanergy Group Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 51 to 120, which comprise the consolidated statement of financial position as at 31 December 2024, consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2024, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with HKFRS Accounting Standards issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTER

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Independent Auditor's Report

KEY AUDIT MATTER (CONTINUED)

Key audit matter

How our audit addressed the key audit matter

Valuation of land and buildings and plant and machinery

We identified valuation of land and buildings and plant and machinery as a key audit matter due to the significance of the balance to the consolidated financial statements as a whole, combined with the significant estimates associated with the determination of the fair value of the Group's land and buildings and plant and machinery.

As disclosed in notes 4(a) and 15 to the consolidated financial statements, the Group had property, plant and equipment of US\$88,567,000, of which US\$31,453,000 relating to freehold land and buildings and US\$56,809,000 relating to plant and machinery, were carried at revalued amounts. During the year, revaluation loss of US\$3,680,000 and US\$4,517,000 were recognised in asset revaluation reserve and profit or loss respectively.

The fair value of the land and buildings and plant and machinery was supported by valuations conducted by independent external valuers. Details of the valuation techniques and key inputs used in the valuations are disclosed in note 15 to the consolidated financial statements. The valuation of land and buildings and plant and machinery are dependent on certain key inputs including adjusted market price per square metre and replacement cost. Changes to the key inputs may result in changes in the fair value of the Group's land and buildings and plant and machinery.

Our procedures in relation to the management's valuation of land and buildings and plant and machinery included:

- Evaluating the competence, capabilities and objectivity of the independent external valuers;
- Understanding the valuers' valuation techniques, assumptions and key inputs adopted in the valuation; and
- Assessing the reasonableness of valuation techniques, assumptions and key inputs used in the valuation, on a sample basis, including the market price per square metre and replacement cost by comparing it to market evidence with the assistance of our internal specialists.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditor's Report

RESPONSIBILITIES OF THE DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRS Accounting Standards issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Keung To Wai, David.

There has been no significant change in the Group's principal activities during the year ended 31 December 2024.

The Group reported a loss of US\$40,984,000 and had a net operating cash outflow of US\$3,142,000 during the year ended 31 December 2024 and as of that date, the Group's interest-bearing bank and other borrowings amounted to US\$29,674,000, of which balances of US\$4,297,000 is in ongoing restructuring process with the relevant bank. The Group held cash and cash equivalents amounting to US\$10,937,000 as of 31 December 2024. Details of the bank borrowings are disclosed in note 25.

In preparing the consolidated financial statements of the Group, the directors of the Company have given careful consideration to the future liquidity, the financial performance, the financial position and the available sources of financing of the Group in assessing the Group's ability to continue as a going concern. The directors of the Company therefore are satisfied that the Group will have sufficient internal generated financial resources and available credit facilities to meet in full its financial obligations as and when they fall due for the foreseeable future. Accordingly, the directors of the Company have, at the time of approving the consolidated financial statements, a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus, the directors of the Company continue to adopt the going concern basis of accounting in preparing the consolidated financial statements.

2. APPLICATION OF NEW AND AMENDMENTS TO HKFRS ACCOUNTING **STANDARDS**

Amendments to HKFRS Accounting Standards that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to HKFRS Accounting Standards issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") for the first time, which are mandatorily effective for the Group's annual period beginning on 1 January 2024 for the preparation of the consolidated financial statements:

Amendments to HKFRS 16 Lease Liability in a Sale and Leaseback

Amendments to HKAS 1 Classification of Liabilities as Current or Non-current and

related amendments to Hong Kong Interpretation 5 (2020)

Amendments to HKAS 1 Non-current Liabilities with Covenants

Amendments to HKAS 7 and HKFRS 7 Supplier Finance Arrangements

For the year ended 31 December 2024

2. APPLICATION OF NEW AND AMENDMENTS TO HKFRS ACCOUNTING STANDARDS (CONTINUED)

Amendments to HKFRS Accounting Standards that are mandatorily effective for the current year (Continued)

Except as described below, the application of the amendments to HKFRS Accounting Standards in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

2.1 Impacts on application of Amendments to HKAS 1 Classification of Liabilities as Current or Noncurrent and related amendments to Hong Kong Interpretation 5 (2020) (the "2020 Amendments") and Amendments to HKAS 1 Non-current Liabilities with Covenants (the "2022 Amendments")

The Group has applied the amendments for the first time in the current year.

The 2020 Amendments provide clarification and additional guidance on the assessment of right to defer settlement for at least twelve months from reporting date for classification of liabilities as current or non-current, which:

- specify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period. Specifically, the classification should not be affected by management intentions or expectations to settle the liability within twelve months.
- clarify that the settlement of a liability can be a transfer of cash, goods or services, or the entity's own equity instruments to the counterparty. If a liability has terms that could, at the option of the counterparty, result in its settlement by the transfer of the entity's own equity instruments, these terms do not affect its classification as current or non-current only if the entity recognises the option separately as an equity instrument applying HKAS 32 Financial Instruments: Presentation.

For rights to defer settlement for at least twelve months from reporting date which are conditional on the compliance with covenants, the 2022 Amendments specifically clarify that only covenants that an entity is required to comply with on or before the end of the reporting period affect the entity's right to defer settlement of a liability for at least twelve months after the reporting date, even if compliance with the covenant is assessed only after the reporting date. The 2022 Amendments also specify that covenants with which an entity must comply after the reporting date (i.e. future covenants) do not affect the classification of a liability as current or non-current at the reporting date. However, if the entity's right to defer settlement of a liability is subject to the entity complying with covenants within twelve months after the reporting period, an entity discloses information that enables users of financial statements to understand the risk of the liabilities becoming repayable within twelve months after the reporting period. This would include information about the covenants, the carrying amount of related liabilities and facts and circumstances, if any, that indicate that the entity may have difficulties complying with the covenants.

In accordance with the transition provision, the Group has applied the new accounting policy to the classification of liability as current or non-current retrospectively. The application of the amendments in the current year had no material impact on the consolidated financial statements.

For the year ended 31 December 2024

2. APPLICATION OF NEW AND AMENDMENTS TO HKFRS ACCOUNTING STANDARDS (CONTINUED)

Amendments to HKAS 21 Lack of Exchangeability²

HKFRS 18 Presentation and Disclosure in Financial Statements⁴

¹ Effective for annual periods beginning on or after a date to be determined.

Effective for annual periods beginning on or after 1 January 2025.

Effective for annual periods beginning on or after 1 January 2026.

Effective for annual periods beginning on or after 1 January 2027.

Except for the new HKFRS Accounting Standards mentioned below, the directors of the Company anticipate that the application of all other amendments to HKFRS Accounting Standards will have no material impact on the consolidated financial statements in the foreseeable future.

HKFRS 18 Presentation and Disclosure in Financial Statements

HKFRS 18 *Presentation and Disclosure in Financial Statements*, which sets out requirements on presentation and disclosures in financial statements, will replace HKAS 1 *Presentation of Financial Statements*. This new HKFRS Accounting Standard, while carrying forward many of the requirements in HKAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some HKAS 1 paragraphs have been moved to HKAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* and HKFRS 7 *Financial Instruments: Disclosures.* Minor amendments to HKAS 7 *Statement of Cash Flows* and HKAS 33 *Earnings per Share* are also made.

HKFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. The application of the new standard is expected to affect the presentation of the statement of profit or loss and disclosures in the future financial statements. The Group is in the process of assessing the detailed impact of HKFRS 18 on the Group's consolidated financial statements.

For the year ended 31 December 2024

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION

3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with HKFRS Accounting Standards issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain properties, plant and equipment and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the fair value hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

3.2 Material accounting policy information

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost or fair value less subsequent accumulated depreciation and subsequent impairment losses, if any. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred.

The Group performs revaluations of the properties with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair values at the reporting date. Changes in the values of property, plant and equipment are dealt with as movements in the asset revaluation reserve. If the total of this reserve is insufficient to cover a deficit, on an individual asset basis, the excess of the deficit is charged to the statement of profit or loss. Any subsequent revaluation surplus is credited to the statement of profit or loss to the extent of the deficit previously charged. An annual transfer from the asset revaluation reserve to retained profits is made for the difference between the depreciation based on the revalued carrying amount of an asset and the depreciation based on the asset's original cost. On retirement or disposal of a revalued asset, the relevant portion of the asset revaluation reserve realised in respect of previous valuations is transferred to retained profits as a movement in reserves.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.2 Material accounting policy information (Continued)

Property, plant and equipment and depreciation (Continued)

Depreciation is calculated on the straight-line basis to write off the cost or valuation of each item of property, plant and equipment to its residual value over its estimated useful life, except for freehold land which is not depreciated. The principal economic useful lives used for this purpose are as follows:

Buildings33 yearsPlant and machinery20 yearsLeasehold improvementsOver the lease termsFurniture, fixtures and office equipment5-8 yearsMotor vehicles4 years

Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the consolidated statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Leases

The Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 *Leases* at inception of the contract. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.2 Material accounting policy information (Continued)

Leases (Continued)

Group as a lessee (Continued)

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Non-industrial buildings 1 to 5 years Industrial leasehold land, industrial buildings,
plant, machinery and equipment 3 to 42 years
Motor vehicles 1 to 4 years

The Group's right-of-use assets are presented separately in the consolidated statement of financial position.

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including insubstance fixed payments).

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

The Group's lease liabilities are presented separately in the consolidated statement of financial position.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost and fair value through profit or loss ("FVTPL").

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at FVTPL, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 *Revenue from Contracts with Customers* in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at FVTPL, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at FVTPL.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at amortised cost.

All financial liabilities are recognised initially at fair value and, in the case of interest-bearing bank and other borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and notes payables, other payables and interest-bearing bank and other borrowings.

Subsequent measurement of financial liabilities at amortised cost

After initial recognition, trade and notes payables, other payables, interest-bearing bank and other borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the consolidated statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

Investment in an associate

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Investments in an associate (Continued)

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of associates used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs necessary to be incurred to completion and disposal. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss and in other comprehensive income.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

For the year ended 31 December 2024

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.2 Material accounting policy information (Continued)

Income tax (Continued)

Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and interests in an associate except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interest are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

Pension scheme

The Group operates a defined contribution retirement benefit scheme in Hong Kong for those employees who are eligible and have elected to participate in the scheme. Contributions are made based on a percentage of the participating employees' basic salaries. The assets of the scheme are held separately from those of the Group in independently administered funds. The Group's employer contributions vest fully with the employees when contributed into the scheme.

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme.

The employees of the Group's subsidiary which operates in the USA participate in a defined contribution plan and a life insurance plan which require contributions to be made to a third-party trustee managed fund.

The Group's subsidiary which operates in Macau makes monthly contributions to the social security fund managed by the relevant authority of the local government, which underwrites the retirement obligations of the employees. The subsidiary has no obligation for payment of retirement benefits beyond the monthly contributions.

The contributions to the above schemes are charged to the consolidated statement of profit or loss as they become payable in accordance with the rules of such schemes.

Foreign currencies

These financial statements are presented in US\$, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

For the year ended 31 December 2024

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

(a) Estimation of fair value of land and buildings and plant and machinery

In the absence of current prices in an active market for similar property, plant and equipment, the Group considers information from a variety of sources, including:

- (i) current prices in an active market for land and buildings and plant and machinery of a different nature, condition or location, adjusted to reflect those differences;
- (ii) recent prices of land and buildings and plant and machinery on less active markets, with adjustments to reflect any changes in economic conditions since the dates of the transactions that occurred at those prices;
- (iii) an estimation of the new replacement cost of the assets from which deductions are then made to allow for physical deterioration and all forms of obsolescence and optimisation.

The aggregate carrying amount of land and buildings and plant and machinery at 31 December 2024 was US\$88,262,000 (2023: US\$99,870,000). Further details, including the key assumptions used for the fair value measurement and sensitivity analysis, are given in note 15.

(b) Deferred tax assets

Deferred tax assets are recognised for unused tax losses and deductible temporary differences to the extent that it is probable that taxable profit will be available against which the losses and the deductible temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. Further details are contained in note 26.

(c) Provision for inventories to net realisable value

Inventories are stated at the lower of cost and net realisable value. The assessment of the net realisable value involves management's judgement and estimates, based on management's expectations for future sales net of estimated cost necessary for the sales. Where the actual outcome or expectation in future is different from the original estimate, such differences will have an impact on the carrying amounts of the inventories and any provision will be written down or written back in the period in which such estimate has been changed. The carrying amount of inventories as at 31 December 2024 was US\$33,138,000 (2023: US\$57,024,000). The provision for inventories to net realisable value as at 31 December 2024 amounted to US\$7,554,000 (2023: US\$3,366,000).

5. OPERATING SEGMENT INFORMATION

The Group is principally engaged in the manufacturing and sale of graphite electrodes. Information reported to the Group's management for the purpose of resource allocation and performance assessment focuses on the operating results of the Group as a whole as the Group's resources are integrated and no discrete operating segment financial information is available. Accordingly, no operating segment information is presented.

6. REVENUE AND OTHER INCOME (CONTINUED)

(b) Performance obligation for contracts with customers and revenue recognition policies

Revenue from the sale of graphite electrodes is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. There are no other promises in the contracts that are separate performance obligations that require allocation of revenue.

The performance obligation of the sale of graphite electrodes is satisfied upon delivery of the products and payment is generally due within 30 to 60 days from delivery, except for new customers, where payment in advance is normally required. As a practical expedient in HKFRS 15, the amount of transaction prices allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) are not disclosed in the notes to these consolidated financial statements because all the remaining performance obligations in relation to the sale of graphite electrodes are a part of contracts that have an original expected duration of one year or less.

12. INCOME TAX CREDIT

Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands (the "BVI"), the Group is not subject to any income tax in the Cayman Islands and the BVI.

Hong Kong Profits Tax has been provided at the rate of 16.5% on the estimated assessable profits arising in Hong Kong for both years, except for one subsidiary of the Company which is a qualifying entity under the two-tiered profits tax rates regime. The first HK\$2,000,000 of assessable profits of this subsidiary for both years are taxed at 8.25% and the remaining assessable profits are taxed at 16.5%.

Pursuant to the relevant tax laws of the United States of America (the "US"), federal corporation income tax was levied at the rate of up to 21% for both years on the taxable income arising in the US during the year.

The Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was enacted on 27 March 2020 in the US. Under the CARES Act, the companies incorporated in the US can carry back net operating loss incurred (if any), in the calendar year ended 31 December 2018, 2019 and 2020 to previous five financial years that has taxable profit for tax refund. As such, the subsidiary of the Company in the US was eligible to carry back approximately US\$21,952,000 net operating loss incurred in the year ended 31 December 2020 which give rise to approximately US\$4,610,000 tax credit for the year ended 31 December 2023.

Pursuant to the Enterprise Income Tax Law of the PRC and the respective regulations, the subsidiaries which operate in Mainland China are normally subject to enterprise income tax at a rate of 25%, except for one subsidiary of the Group which enjoys preferential enterprise income tax at a rate of 15%, on the taxable income generated during both years.

Pursuant to the Italian tax laws and the respective regulations, the subsidiary which operates in Italy is subject to corporate income tax and regional tax on productive activities at a rate of 24.0% and 3.9%, respectively, on the taxable income for both years.

For the year ended 31 December 2024

12. INCOME TAX CREDIT (CONTINUED)

13. DIVIDENDS

No dividend was declared by the Company to its shareholders during the years ended 31 December 2024 and 2023.

For the year ended 31 December 2024

14. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE COMPANY

The calculation of basic and diluted loss per share is based on:

	2024 US\$'000	2023 US\$'000
Loss:		
Loss for the year attributable to owners of the Company for the purpose		
of calculating basic and diluted loss per share	(40,984)	(15,476)
Number of shares:		
Weighted average number of ordinary shares for the purpose		
of calculating basic and diluted loss per share	1,031,693,989	992,442,740

The calculation of the basic and diluted loss per share amounts is based on the loss for the year attributable to ordinary equity holders of the Company, and the weighted average number of ordinary shares in issue during the year.

The weighted average number of ordinary shares used for the purpose of calculating basic loss per share and diluted loss per share for the year ended 31 December 2023 had been retrospectively adjusted for the effects of the issue of shares in connection with the capitalisation issue which was completed on the Listing Date.

The computation of basic loss per share for the year ended 31 December 2024 and 2023 does not include the issuance of 10,000,000 shares as a consideration for acquisition of a land in Italy as the shares are subjected to return.

The computation of diluted loss per share for the year ended 31 December 2024 does not assume the issuance of 10,000,000 shares since their assumed exercise would result in a decrease in loss per share.

The computation of diluted loss per share for the year ended 31 December 2023 did not assume the exercise of the Company's over-allotment option and issuance of 10,000,000 shares since their assumed exercise would result in a decrease in loss per share.

The Group had no potentially diluted ordinary shares in issue during the year ended 31 December 2024 and 2023.

For the year ended 31 December 2024

15. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Notes:

- (a) Detail of property, plant and equipment pledged are set out in note 25.
- (b) Below is a summary of the valuation of industrial land and buildings and plant and machinery:

Nature and location	Independent professionally qualified valuer	Revalued balance
Industrial land and buildings in Italy	2024: ValQuest Advisory Group Limited	2024: US\$12,882,000

	2023: Asia Pacific Consulting and Appraisal Limited	2023: US\$2,379,000
Industrial buildings in other regions of the PRC*	2024: ValQuest Advisory Group Limited	2024: US\$16,312,000
	2023: CAREA Assets Appraisal Co., Ltd	2023: US\$17,006,000
Industrial plant and machinery in Shanxi, the PRC	2024: ValQuest Advisory Group Limited	2024: US\$6,610,000
	2023: Asia Pacific Consulting and Appraisal Limited	2023: US\$8,140,000
Industrial plant and machinery in other regions	2024: ValQuest Advisory Group Limited	2024: US\$19,893,000
of the PRC	2023: CAREA Assets Appraisal Co., Ltd	2023: US\$24,439,000

^{*} In the opinion of the directors, the Group is entitled to lawfully and validly occupy and use certain of the industrial buildings in the PRC for its daily operations, notwithstanding the fact that the related building ownership certificates have not been obtained.

Each year, the Group's management decides to appoint which external valuers to be responsible for the external valuations of the Group's land and buildings and plant and machinery. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Group's management has discussions with the valuers on the valuation assumptions and valuation results at least once a year when the valuations are performed for interim and annual financial reporting.

The loss on revaluation of US\$3,680,000 (2023: loss of US\$2,458,000) has been recognised in other comprehensive income in the asset revaluation reserve.

The net loss on revaluation totalling US\$4,517,000 (2023: net loss of US\$1,025,000) has been charged to profit or loss.

Had these land and buildings and plant and machinery been carried at historical cost less accumulated depreciation, the carrying amount of the Group's land and buildings would have been approximately US\$15,873,000 (2023: US\$16,552,000) and the carrying amount of the Group's plant and machinery would have been approximately US\$45,542,000 (2023: US\$44,591,000).

15. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Notes: (Continued)

(e) (Continued)

Under the market approach, the freehold industrial land is valued on the market basis assuming sale in its existing state with the benefit of vacant possession and by reference to comparable sales evidence available in the relevant markets. Comparison is based on prices realised in actual transactions or asking prices of comparable properties. Appropriate adjustments are then made to account for the differences between such properties in terms of location, size and other relevant factors.

A significant increase/(decrease) in the adjusted market price per square metre would result in a significant increase/(decrease) in the fair value of the freehold industrial land.

Under the DRC approach, the valuation of the fair value of the buildings, plant and machinery is determined based on their existing use which is the cost to reproduce or replace in a new condition the assets appraised in accordance with the current construction costs for similar assets in the locality, with allowance for accrued depreciation as evidenced by all forms of obsolescence and optimisation.

The DRC approach is used for the valuation of the buildings, plant and machinery due to the lack of comparable determining an active market for the assets being valued and the lack of recent sales transactions of these specialised assets.

The highest and best use of the buildings, plant and machinery at the measurement date is the most reliable indication for valuing the assets in the absence of a known market based on comparable sales. The Group has determined that this indication is the value of the existing use.

A significant increase/(decrease) in the replacement cost of the buildings, plant and machinery in isolation would result in a significant increase/(decrease) in the fair value of such property, plant and equipment.

16. LEASES

The Group as a lessee

The Group has lease contracts for various items of non-industrial buildings, industrial leasehold land, industrial buildings, plant, machinery and equipment, and motor vehicles used in its operations. Leases of non-industrial buildings have lease terms of 1 to 3 years (2023: 1 to 5 years), and those of industrial leasehold land, industrial buildings, plant, machinery and equipment have lease terms of 3 to 42 years (2023: 3 to 42 years), and those of motor vehicles generally have lease terms of 3 to 4 years (2023: 1 to 4 years). Generally, the Group is restricted from assigning and subleasing the leased assets outside the Group. There are no lease contracts that include extension and termination options and variable lease payments.

	10,227	12,727
Trade receivables measured at FVTPL	-	223
	10,227	12,950

As at 1 January 2023, trade receivables from contracts with customers amounted to US\$21,046,000.

The Group's trading terms with its customers are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally within 30 to 60 days from delivery. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

At the end of the reporting period, the Group has certain concentrations of credit risk as 32% (2023: 26%) and 67% (2023: 71%) of the Group's trade receivables from the Group's largest and the five largest customers, respectively.

Certain trade receivable balances are classified and measured at FVTPL as these trade receivables are held within a business model with the objective to sell the financial assets on a non-recourse basis under a trade receivable factoring arrangement with a bank. The balances were derecognised as the Group has transferred substantially all the risks and rewards of ownership of these receivables to the bank.

For the year ended 31 December 2024

20. TRADE RECEIVABLES (CONTINUED)

As part of its normal business, the Group also entered into a trade receivable factoring arrangement and transferred certain trade receivables to a bank with recourse. The carrying amount of the assets that the Group continued to recognise as at 31 December 2024 was US\$Nil (2023: US\$131,000) and that of the associated liabilities as at 31 December 2024 was US\$Nil (2023: US\$124,000).

At 31 December 2024, certain trade receivables of approximately US\$3,726,000 (2023: US\$8,883,000) were pledged to third parties to secure interest-bearing borrowings granted to the Group.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the past due date and net of loss allowance, is as follows:

	2024 US\$'000	2023 US\$′000
Not past due	7,608	7,524
Within 1 month	993	2,060
1 to 3 months	982	1,026
Over 3 months	644	2,340
	10,227	12,950

At 31 December 2024, included in the Group's trade receivables balance are debtors with an aggregate carrying amount of approximately US\$2,619,000 (2023: US\$5,426,000) which is past due at the end of the reporting period. Of the past due balances, US\$644,000 (2023: US\$2,340,000) has been past due over 90 days and is not considered as in default because the trade receivables are of good credit quality and those debtors do not have any default payment history. The Group holds no collateral over these balances.

The movement in lifetime expected credit loss ("ECL") that has been recognised for trade receivables are as follows:

	Lifetime ECL (not credit- impaired) 2024 US\$'000	Lifetime ECL (not credit- impaired) 2023 US\$'000
At beginning of year Impairment losses Exchange realignment	319 73 (2)	260 59 –
At the end of the year	390	319

An impairment analysis is performed at each reporting date by considering the probability of default of the counterparty based on a provision matrix calculated with reference to its historical credit loss experience. The Group also takes into account forward-looking information to reflect the debtors' probability of default under the current and future economic conditions, as appropriate. The ECL rates were assessed to be insignificant and accordingly, minimal loss allowance was provided for upon the assessment of ECL. As at 31 December 2024, the ECL rates ranged from 3.2% to 4.3% (2023: 0.2% to 5.8%).

Note: Details of all related party transactions are disclosed in note 33.

The carrying amounts of deposits and other receivables approximated to their fair value as at 31 December 2024 and 2023. Their recoverability was assessed with reference to the credit status of the debtors, and the ECL as at 31 December 2024 and 2023 were considered immaterial.

22. CASH AND CASH EQUIVALENTS/PLEDGED BANK DEPOSITS

	2024 US\$'000	2023 US\$'000
Cash and cash equivalents Pledged bank deposits	10,937 5,418	29,620 –
	16,355	29,620

At the end of the reporting period, the cash and bank balances of the Group denominated in Renminbi ("RMB") amounted to US\$597,000 (2023: US\$1,877,000). The RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, and Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. The bank balances are deposited with creditworthy banks with no recent history of default.

Pledged bank deposits carry fixed interest rate ranged from 0.1% to 4.5% per annum and represent deposits pledged to banks to secure notes payable and bank borrowings granted to the Group. Deposits amounting to US\$4,200,000 and US\$1,218,000 have been pledged to secure short-term bank borrowings and notes payable, respectively, and are therefore classified as current assets.

For the year ended 31 December 2024

23. TRADE AND NOTES PAYABLES

Trade payables	6,391	7,200
Notes payable (Note)	1,218	_
	7,609	7,200

Note: These relate to trade payables in which the Group has issued bills to the relevant suppliers for settlement of trade payables. The suppliers can obtain the invoice amounts from the bank on the maturity date of the bills. The Group continues to recognise these trade payables as the Group is obliged to make payments to the relevant banks on due dates of the bills, under the same conditions as agreed with the suppliers without further extension. In the consolidated statement of cash flows, settlements of these bills by the Group are included within operating cash flows based on the nature of the arrangements.

The notes payables are secured by pledged bank deposits as set out in note 22. An ageing analysis of the trade and notes payables as at the end of the reporting period, based on the past due date, is as follows:

	2024 US\$'000	2023 US\$'000
Not past due	5,363	5,678
Within 1 month	494	1,092
1 to 3 months	1,048	281
Over 3 months	704	149
	7,609	7,200

The trade and notes payables are non-interest-bearing and are normally settled on terms ranging from 28 to 120 days.

For the year ended 31 December 2024

Notes:

- (a) The loans were secured by pledged bank deposits of US\$4,200,000 as at 31 December 2024 (2023: trade receivables of US\$124,000).
- (b) Pursuant to facilities arrangements entered into between the Group and an independent party (2023: three independent third parties), the Group obtained interest-bearing borrowings amounting to approximately US\$354,000 (2023: US\$9,046,000). Details and the carrying amounts of each of these borrowings are as follows:
 - (i) US\$354,000 (2023: US\$868,000), of which was secured by certain property, plant and equipment with carrying amounts of US\$1,065,000 (2023: US\$1,262,000).
 - (ii) US\$Nil (2023: US\$4,899,000) of which was secured by 100% shares of certain subsidiaries of the Group and certain trade receivables with carrying amounts of US\$2,133,000 (2023: US\$2,288,000).
 - (iii) US\$Nil (2023: US\$3,279,000), of which was secured by certain property, plant and equipment, trade receivables and industrial leasehold land with carrying amounts of US\$19,932,000 (2023: US\$21,455,000), US\$1,593,000 (2023: US\$6,595,000) and US\$3,609,000 (2023: US\$3,186,000), respectively.
- (c) The Group's bank and other borrowings included fixed-rate borrowings of approximately US\$7,277,000 (2023: approximately US\$9,046,000) which carry effective interest rates ranged from 3.5% to 14.4% per annum (2023: 8% to 14.4%). The remaining Group's bank and other borrowings are variable-rate borrowings which carry interest at Hong Kong Interbank Offered Rate ("HIBOR"), Secured Overnight Financing Rate ("SOFR") and Euro Inter Bank Offered Rate ("EURIBOR") plus certain basis points. The range of effective interest rates is at 3.69% to 8.15% (2023: 0.75% to 8.97%) per annum.

For the year ended 31 December 2024

25. INTEREST-BEARING BANK AND OTHER BORROWINGS (CONTINUED)

During the year, a bank borrowing with a carrying amount of US\$4,297,000 was classified as current liabilities of which the Company had negotiated with the relevant bank to vary the terms of the borrowing, and the bank had agreed to initiate the loan restructuring process before the original repayment schedule. As of 31 December 2024, the restructuring process was still ongoing. The directors of the Company are confident that the process will ultimately reach a successful conclusion. In any event, should the lender call for immediate repayment of the bank borrowing, the directors of the Company believe that adequate alternative sources of finance are available to ensure that there is no threat to the continuing operations of the Group.

Pursuant to the PRC Corporate Income Tax Law and the respective regulations, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China and Italy, respectively. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 10%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China.

At 31 December 2024, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Company's subsidiaries established in Mainland China and Italy (2023: US\$Nil). In the opinion of the directors, it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China and Italy for which deferred tax liabilities have not been recognised totalled approximately US\$1,170,000 (2023: US\$2,268,000).

27. SHARE OPTION SCHEME

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants of the scheme include (i) any directors or employees of the Company or any of its subsidiaries; (ii) the director or employee of its holding company, a subsidiary of its holding company or an associated company of the Company; and (iii) any person who provides services to the Group on a continuing or recurring basis in its ordinary and usual course of business which are in the interests of the long-term growth of the Group.

On 19 December 2022 (the "Adoption Date"), the Company adopted a share option scheme (the "Scheme"). The Scheme is valid and effective for a period of ten years from the Adoption Date, after which no further share options will be granted but the provisions of the Scheme shall remain in full force and effect in all other respects. Share options complying with the provisions of the Listing Rules which are granted during the duration of the Scheme and remain unexercised immediately prior to the end of the 10-year period shall continue to be valid and exercisable subject to and in accordance with the Scheme, notwithstanding the expiry of the Scheme.

For the year ended 31 December 2024

27. SHARE OPTION SCHEME (CONTINUED)

The maximum number of shares which may be issued upon exercise of all share options granted under the Scheme and any other schemes of the Company shall not in aggregate exceed 100,000,000 ordinary shares, being 10.0% of the shares of the Company in issue on the Listing Date. The maximum number of shares issued and to be issued upon exercise of share options granted and to be granted to each eligible participant in the Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at the relevant time. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to a director, chief executive or a substantial shareholder of the Company, or to any of their respective associates, are subject to approval in advance by the independent non-executive directors of the Company (excluding any independent non-executive director who is a grantee of the share options). In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their respective associates, within any 12-month period, which are in excess of 0.1% of the shares of the Company in issue at the relevant time, are subject to shareholders' approval in advance in a general meeting.

The offer of a grant of share options may be accepted by the eligible participant within 28 days from the date of offer, with the duplicate offer letter comprising acceptance of the offer duly signed by the grantee with the number of shares in respect of which the offer is accepted clearly stated therein, together with payment of a nominal consideration of US\$1 by the grantee to the Company provided that no offer shall be open for acceptance after the expiry of the Scheme or after the Scheme has been terminated.

The exercise price of the share options is determinable by the directors in their absolute discretion at the time of the making of the offer which shall be stated in the letter containing the offer, but may not be less than the highest of (i) the closing price of the Company's shares as stated in the Stock Exchange's daily quotation sheet on the grant date which must be a trading day; and (ii) the average closing price of the Company's shares as stated in the Stock Exchange's daily quotation sheets for the five trading days immediately preceding the grant date.

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

Since the Adoption Date and up to 31 December 2024, no share options of the Company were granted, exercised, cancelled or lapsed under the Scheme.

Pursuant to a written resolution passed by the shareholders of the Company on 19 December 2022, a total of 816,600,000 shares of US\$0.01 each were allotted to the shareholders of the Company whose names appeared on the register of members of the Company as at 31 December 2021 on a pro rata basis by way of capitalisation of US\$8,166,000 from the Company's share premium account on the Listing Date. The capitalisation issue was completed on 17 January 2023, resulting in increase in share capital and reduction in share premium of US\$8,166,000, respectively.

The Company's shares were listed on the Stock Exchange on 17 January 2023 and as a result, an additional 172,400,000 ordinary shares were issued at US\$0.21 (equivalent to HK\$1.6) per share for a total consideration of US\$35,364,000 (equivalent to HK\$275,840,000), resulting in increase in share capital and share premium of US\$1,724,000 and US\$33,640,000, respectively. Transaction costs attributable to issue of shares amount to US\$3,962,000 which is debited into share premium during the year ended 31 December 2023.

Pursuant to a deed of assignment entered into by the Group on 13 November 2023, a total of 10,000,000 new shares of US\$0.01 each, amounted to US\$100,000 in total (the "Consideration Shares"), were issued to the assignor, an independent third party, as a consideration for assigning its rights in relation to an acquisition of a land parcel in Italy to the Group. The Consideration Shares issued rank pari passu with the existing shares except that they are subject to the disposal restrictions pursuant to an undertaking given by the assignor. The issued shares were credited to other reserve during the year ended 31 December 2023.

On 20 September 2024, the Company, the vendor, which was a substantial shareholder of the Company (the "Vendor"), and the placing agent, entered into a placing and subscription agreement, pursuant to which the vendor agreed to sell 50,000,000 Shares at HK\$0.325 per share to not less than six placees, and to subscribe 50,000,000 new shares at subscription price of HK\$0.325 per shares. The placing of existing shares and subscription of new shares was completed on 27 September 2024, resulting in an increase in share capital and share premium of US\$500,000 and US\$1,584,000, respectively. Net proceeds from the placing after deduction of transaction cost is approximately US\$2,045,000. Transaction costs attributable to issue of shares amount to approximately US\$40,000 which is debited into share premium during the year ended 31 December 2024.

For the year ended 31 December 2024

28. SHARE CAPITAL (CONTINUED)

On 30 September 2024, the Company, the Vendor and the placing agent, entered into a placing and subscription agreement, pursuant to which the vendor agreed to sell 80,000,000 shares at HK\$0.39 per share to not less than six placees, and to subscribe 80,000,000 new shares at HK\$0.39 per shares. The placing of existing shares and subscription of new shares was completed on 8 October 2024, resulting in an increase in share capital and share premium of US\$800,000 and US\$3,211,000, respectively. Net proceeds from the placing after deduction of transaction cost is approximately US\$3,941,000. Transaction costs attributable to issue of shares amount to approximately US\$70,000 which is debited into share premium during the year ended 31 December 2024.

29. RESERVES

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity.

- (a) The capital reserve represents the distribution to the Single Largest Shareholder with respect to the consideration for the acquisition of subsidiaries in prior years and the non-controlling interests of a non-wholly-owned subsidiary which was acquired by the Single Largest Shareholder in prior years.
- (b) The other reserve represents the new shares issued to acquire relevant rights in relation to an acquisition of a land parcel in Italy, which are subject to dealing restrictions pursuant to an undertaking given by the assignor of the rights.
- (c) In accordance with the Company law of the PRC, certain subsidiaries of the Group which are domestic enterprises are required to allocate 10% of their profit after tax, as determined in accordance with the relevant PRC accounting standards to their respective statutory reserve until the reserve reaches 50% of their respective registered capital. Subject to certain restrictions set out in the Company law of the PRC, part of the statutory reserve may be converted to increase share capital, provided that the remaining balance after the capitalisation is not less than 25% of the registered capital.
- (d) The asset revaluation reserve represents the revaluation surplus, net of tax, arising from the revaluation of property, plant and equipment. Release of asset revaluation reserve represents depreciation of the revaluation surplus, net of tax, of the related property, plant and equipment.
- (e) The exchange fluctuation reserve comprises all relevant exchange differences arising from the translation of the financial statements of foreign operations.

30. NOTES TO THE CONSOLIDATED STATEMENT OF CASH FLOWS

35. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

Management has assessed that the fair values of cash and cash equivalents, pledged bank deposits, certain balances of trade receivables, trade and notes payables, financial assets included in the current portion of prepayments, deposits and other receivables and financial liabilities included in the current portion of other payables and accruals and current portion of interest-bearing bank and other borrowings approximate to their carrying amounts largely due to the short term maturities of these instruments.

The fair values of financial assets included in non-current deposits, financial liabilities included in non-current other payables and accruals and non-current interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities, and were assessed to be approximately their carrying amounts.

Except for certain balances of trade receivables disclosed in note 20 and financial asset at FVTPL in note 18, all other financial assets and financial liabilities of the Group were measured at amortised cost. The management consider that the carrying amounts of the other financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their fair values.

The Group's finance department is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance department reports directly to the directors. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the directors. The valuation process and results are discussed with the audit committee for financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Fair value hierarchy

The following tables illustrate the fair value measurement hierarchy of the Group's financial assets measured at FVTPL and give information about the fair values of the financial assets are determined (in particular, the valuation techniques and inputs used).

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise cash and cash equivalents, pledged bank deposits, interest-bearing bank and other borrowings, financial asset at FVTPL and interest-bearing payables. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade receivables, deposits and other receivables, trade and notes payables and other payables, which arise directly from its operations.

The main risks arising from the Group's financial instruments are foreign currency risk, interest rate risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

(i) Foreign currency risk

The Group has transactional currency exposures. Such exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies.

The following table demonstrates the sensitivity at the end of each of the reporting period to a reasonably possible change in US\$ exchange rates, with all other variables held constant, of the Group's loss before tax (arising from Euro ("EUR") and RMB denominated financial instruments) and the Group's equity.

	Increase (decrease) in exchange rate	Impact on loss before tax US\$'000
2024		
If the RMB weakens against US\$ If the RMB strengthens against US\$	-5% 5%	391 (391)
If the EUR weakens against US\$ If the EUR strengthens against US\$	-5% 5%	230 (230)
2023		
If the RMB weakens against US\$ If the RMB strengthens against US\$	-5% 5%	515 (515)
If the EUR weakens against US\$ If the EUR strengthens against US\$	-5% 5%	885 (885)

For the year ended 31 December 2024

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(ii) Interest rate risk

The Group's fair value interest rate risk relates primarily to pledged bank deposits, fixed-rate bank and other borrowings and lease liabilities.

The Group's exposure to cash flow interest rate risk is resulted primarily from adverse change in interest rates determined by benchmark interest rates of various currencies arising from floating-rate borrowings.

The Group will continue to maintain a reasonable mix of floating-rate and fixed-rate borrowings and manages its interest rate exposures by assessing the potential impact arising from any interest rate movements based on interest rate level and outlook. The management will review the proportion of borrowings in fixed and floating rates and ensure they are within reasonable range.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates, including floating-rate borrowings and bank balances at the end of the reporting period. The analysis is prepared assuming the amounts of liabilities outstanding at the end of the reporting period were outstanding for the whole year. A 50 basis points (2023: 50 basis points) increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's loss before tax for the year ended 31 December 2024 would increase/decrease by US\$112,000 (2023: US\$148,000).

For the year ended 31 December 2024

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(iii) Credit risk

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that only well-established customers will be considered for open account terms and the approval of credit terms is subject to stringent credit check procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December. The amounts presented are gross carrying amounts for financial assets.

^{*} For trade receivables to which the Group applies the simplified approach for impairment, information based on the probability of default of customers is disclosed in note 20.

^{**} The credit quality of the financial assets included in prepayments, deposits and other receivables is considered to be "normal" when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition. Otherwise, the credit quality of the financial assets is considered to be "doubtful".

For the year ended 31 December 2024

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(iv) Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank and other borrowings and ensures compliance with loan covenants.

The directors have given careful consideration to future liquidity, the financial performance and the financial position of the Group and its available sources of financing in assessing whether the Group will have sufficient financial resources to continue as a going concern. Certain plans and measures have been taken by the directors to mitigate the liquidity position of the Group.

The directors of the Company are satisfied that the Group will have sufficient internal generated financial resources and available credit facilities to meet in full its financial obligations as and when they fall due for the foreseeable future.

The following table details the Group's contractual maturity for its financial liabilities, which has been drawn up based on the undiscounted cash flows of the financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest flows are at floating rate, the undiscounted amount is calculated based on effective interest rate at the end of the reporting period.

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders and return capital to shareholders. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2024 and 2023.

The Group monitors capital using a gearing ratio, which is total debt divided by the total capital. The gearing ratios as at the end of each of the reporting periods were as follows:

	2024 US\$'000	2023 US\$'000
Interest-bearing bank and other borrowings (note 25)	29,674	38,663
Total equity	105,751	148,493
Gearing ratio	28%	26%

For the year ended 31 December 2024
