BUSINESS REVIEW

On behalf of the board of directors (the "Board"), I am delighted to present to our shareholders the financial results of Kingboard Holdings Limited and its subsidiaries (the "Group") for the year ended 31 December 2024 (the "Period"). Despite the challenges posed by geopolitical conflicts and the impact of high interest rates on various industries, the Group has effectively navigated these complex market dynamics by leveraging its management experience, vertical value-chain advantage, and diversified business portfolio. The Group has demonstrated strong resilience and risk resistance capabilities, delivering a set of robust results, highlighted by a 9% year-on-year increase in revenue to HK\$43,093.3 million.

During the Period, the electronics industry emerged from the bottom of the cycle and ushered in a new round of growth opportunities. This positive momentum was further driven by the rapid development of the automotive electronics and artificial intelligence (AI) sectors, which spurred significant demand growth. In addition, improved demand forecasts from downstream clients have prompted active restocking in various downstream sectors. As a result, both the Laminates and Printed Circuit Boards ("PCB"s) segments recorded year-on-year growth in revenue and profits. The Property Division delivered a stable performance with an annual rental income of over HK\$1,400 million, providing the Group with a steady cash inflow. After deducting allowances for credit loss on a loan to Country Garden Holdings Company Limited made by the Group and for investments in bonds issued by Guangzhou R&F Properties Co., Ltd., totalling HK\$1,420 million approximately, as well as the allowance for impairment loss (net of deferred tax) on unsold residential properties in eastern China held by the Group. in the amount of HK\$220 million approximately, the Group registered an underlying net profit of HK\$1,622 million. Despite a 29% year-on-year decline in underlying net profit due to provisions for losses related to the property business, the Group's foundation remains solid. Both the Laminates and PCBs divisions performed well, and the Group continues to maintain a healthy capital structure and financial position.

回顧期內,電子行業走出週期底部並迎來新一 輪增長機遇,汽車電子及人工智能行業的迅速 發展帶動需求顯著上升。產業鏈下游客戶對 未來需求的預期改善,促使下游各領域積極備 貨,推動覆銅面板部門及印刷線路板部門的營 業額及利潤雙雙按年增長。同時,房地產部門 的表現平穩, 年租金收入超過十四億港元, 為 集團帶來穩定的現金流入。在扣除本集團向碧 桂園控股有限公司的借款及對所持有之廣州富 力地產股份有限公司的債券投資作出信貸虧損 撥備共約十四億二千萬港元以及對所持有位 於華東地區未售住宅物業作出減值虧損撥備 (扣除遞延税項後之淨額)約二億二千萬港元 後,集團仍錄得本公司持有人應佔基本純利 十六億二千二百萬港元。儘管因房地產相關的 各項虧損撥備導致純利較去年同期下降29%, 但集團的業務根基穩固,覆銅面板部門及印刷 線路板部門表現良好,仍然維持健康的資本結 構以及財務狀況。

PERFORMANCE

Laminates Division: The Period witnessed a gradual recovery in demand in the traditional consumer electronics market, with particularly notable growth in air conditioning and photovoltaic panels. The rapid development of the Al industry and the increased integration of electronic and smart applications in the automotive sector have further boosted the demand for laminates. The laminates market is trending towards small-volume, diversified production. The division has actively responded by undertaking research and development (R&D) into new products that meet the functionality and pricing requirements of different clients. Such R&D initiatives have also helped the division establish footholds in new market arenas. Steady progress has been made in the optimisation of the product portfolio, with a gradual shift towards high-end, high-value-added products. Annual laminate sales volume increased to 110 million sheets, an increase of 10% as compared with 2023. Revenue of the Laminates Division increased by 10% to HK\$18,901.5 million. During the Period, as copper prices surged significantly, the Group implemented orderly price increases for its laminate products. These adjustments not only offset the cost pressures caused by rising copper prices, but also helped improve the division's gross profit margin. The Group's seasoned management team also made persistent efforts to enhance production efficiency and reduce energy consumption through technical improvements, while lowering labour costs through increased automation. As a result, earnings before interest, taxes, depreciation and amortisation ("EBITDA") increased by 23% to HK\$3,064 million.

PCBs Division: The division continued to expand its presence across various sectors, including automotive, telecommunications and consumer electronics. Demand for PCBs also grew in parallel with the rapid development of the Al industry and the increased integration of electronic and smart applications in the automotive sector. Meanwhile, the Group's PCBs Division has consistently onboarded expert management and professional technical talent for its PCB factories to develop high-end offerings, building a higher value-added product portfolio for the division. The Group also adopted a modern manufacturing execution system ("MES") to enable precise quality tracking and analysis across the entire manufacturing process in order to drive improvements in production efficiency and product quality. With a focus on market demand and efficiency, the management team achieved cost efficiencies through continuous technical improvements and increased automation of facilities. These efforts collectively drove a 1% EBITDA growth to HK\$2,033.3 million, coupled with 4% growth in segment revenue to HK\$12,107.0 million. Although 2024 remained a challenging year in terms of the operating environment, the PCBs Division still delivered a record-high profit for the Kingboard Group, underscoring the remarkable success of the division's development.

PERFORMANCE (continued)

Chemicals Division: During the Period, segment revenue (including intersegment sales) posted 22% growth to HK\$13,617.7 million, driven by the commissioning of the 450,000-tonne per annum phenol acetone and the 240,000-tonne per annum bisphenol A projects in Daya Bay, Huizhou, Guangdong Province. The guarantees are given to banks with respect to loans procured by the purchasers of properties that were developed by the Group. Such guarantees will be released by banks upon delivery of the properties to the purchasers and completion of registration of the relevant mortgage properties. In the opinion of the Directors, the fair values of these financial guarantee contracts of the Group are insignificant at initial recognition and the Directors consider that the possibility of default of the parties involved is remote. Accordingly, no value has been recognised at the inception of the guarantee contracts and at the end of the reporting period as at 31 December 2024 and 2023.

(b) On 3 August 2011, Annuity & Re Life Ltd (the "Petitioner"), the non-controlling shareholder of Kingboard Copper Foil Holdings Limited ("KBCF"), presented a petition in the Supreme Court of Bermuda (the "Petition") in respect of KBCF against its controlling shareholders based on a complaint that the affairs of KBCF had been and/or were being conducted in a manner which was oppressive or unfairly prejudicial to the Petitioner.

Such appeal was withdrawn by the Petitioner following a settlement agreement reached by the Petitioner and the respondents in the Petition.

During the year ended 31 December 2019, the controlling shareholders of KBCF had purchased all of the remaining issued and outstanding ordinary shares in the capital of KBCF and KBCF has become a wholly-owned subsidiary of the KLHL.

PROSPECTS

Aligned with national energy-saving objectives, the Group is adopting a professional and systematic approach to installing distributed solar photovoltaics in all buildable areas within its facilities. Following an aggregate investment of HK\$900 million up to 31 December 2024, the Group has successfully installed an annual generating capacity of 200 million kWh of green electricity thereafter, resulting in energy savings equivalent to 54,000 tonnes of standard coal and a reduction in carbon dioxide emissions of 120,000 tonnes. This initiative is expected to translate into annual electricity bill savings of HK\$180 million based on the current market price. In respect of thermal energy recovery, as at 31 December 2024 the Group's investments totalled HK\$200 million. These investments resulted in a reduction in carbon dioxide emissions by 59,000 tonnes during 2024, which is equivalent to energy savings of 24,000 tonnes of standard coal and cost savings totalling HK\$180 million. Coupled with cumulative cost savings of HK\$300 million as at 31 December 2023, cumulative cost savings of more than HK\$480 million had been achieved as at 31 December 2024. These savings will bring long-term benefits to the Group. In addition, the Hebei acetic acid project is utilising an advanced and energyefficient carbon capture technology developed by the School of Environment at Tsinghua University, to capture and recycle 200,000 tonnes of carbon dioxide annually. All captured carbon dioxide is reused in the acetic acid production system, resulting in annual energy savings equivalent to 80,000 tonnes of standard coal. The Hebei project enables carbon capture from flue gases in its coal-fired plant, and is currently the largest of its kind in the chemical industry nationwide. The technology has been certified as meeting the highest international standards. This initiative supports the Group's green transformation and demonstrates its total commitment to achieving its environmental, social and governance (ESG) goals. As 2025 dawns, the management believes that geopolitical tensions will persist, and that the performance of industries worldwide will fluctuate under the shadow of protectionism and trade wars, posing even greater challenges to business operations. Amidst this uncertain business environment, the Group will remain steadfast in strengthening cash flow and expenses management. The Group will continue to implement its strategy of maintaining a diversified and synergistic business portfolio, while leveraging the competitive advantage of its vertical production model. Strict cost control measures will remain in place as the Group works to boost technological impetus and proactively deploy big data management to enhance operational efficiency. Furthermore, R&D upgrades, safe production, environmental performance improvements, and the promotion of new-quality productivity will remain top priorities for the Group.

Laminates Division: As 2025 unfolds, the electronics market is generally experiencing robust demand. The Group recorded significant year-on-year growth in shipment volume for the first two months, with prices for laminates and their upstream materials, such as fibreglass fabric and fibreglass yarn, also rising. The rise of AI technology has spurred the burgeoning development of multiple industry chains, including cloud data centres, robotics, autonomous driving, and smart wearables, along with the continuous upgrading of high-speed networks. These advancements are capable of stimulating the demand for electronic products. The recent strong business performance of downstream PCB clients will also serve as a growth driver for laminates demand. Benefitting from its advantages in vertical integration and economies of scale, the Group commands highly competitive product pricing and maintains a resilient, top-tier gross margin level in the industry. This is expected to drive sustained growth in the Group's revenue and profits. At the same time, the Group has established a state-of-the-art laminate R&D centre equipped with advanced facilities. It has successfully developed a range of high-frequency and high-speed products applicable to GPU motherboards in Al servers. Through the coordinated development of its vertical supply chain, the Group has also successfully developed HVLP3 copper foil for AI servers and ultra-thin VLP copper foil for IC substrate packaging. The utilisation of thick copper foil has also seen a substantial rise due to its applications in data centres and cloud computing. The newly added 1,500-tonne monthly copper foil capacity in the latest phase of the Lianzhou facility will be fully operational in 2025, significantly enhancing the Group's cost efficiencies. Moving forward, the division will continue to collaborate with premium customers, working together to achieve the certification of high-end products by end customers in order to enable comprehensive downstream coverage. Low-dielectric fibreglass varn, which is used in the core components of Al applications, is currently in short supply. A low-dielectric fibreglass yarn project in Qingyuan City, Guangdong Province with an annual capacity of 500 tonnes is under construction and is expected to commence operations in the second half of 2025, meeting market demand and greatly enhancing Kingboard Group's core competitiveness. In 2024, the Group increased its laminate production capacity in Thailand by 400,000 sheets per month, reaching a monthly capacity of 1 million sheets by the end of 2024. The Group will subsequently increase its monthly capacity in two phases in Thailand, adding 400,000 sheets per phase, with the goal of reaching a total capacity of 1.8 million sheets per month. This expansion is designed to meet the growing demand from overseas clients, including the overseas PCB operations of Kingboard Holdings Limited.

PROSPECTS (continued)

PCBs Division: The management has full confidence in the business prospects for the PCBs Division. The Group possesses multiple strengths, including technical prowess, comprehensive certification, and superior quality, across multiple sectors such as automotive, telecommunications, and consumer electronics. The division currently has a solid order book, with both business volume and profits for the first two months showing significant year-on-year growth. The electronics market is generating strong demand for PCBs, driven by emerging applications such as AI, high-speed computing, and electric vehicles. The development of the large language model has driven a surge in data processing demand, accelerating the iteration of hardware such as servers and switches and injecting new vitality into the PCB industry. At the same time, the proliferation of electric vehicles has led to increased complexity in electronic control systems, significantly boosting the usage of PCBs. The Group has equipped itself with technologies related to PCB manufacturing for 6G communication, mmWave radar, automotive highend common control units, and Al servers. The Group will further enhance collaboration with clients to build a close-knit working ecosystem. At the same time, the division will continue to strengthen the core competencies of its PCB brands, including Elec & Eltek, Techwise Circuits and Express Electronics. A new project is currently underway to add 1.2 million square feet of monthly PCB capacity in Thailand, which is expected to commence operations in 2026. Another project to add 1.1 million square feet of monthly PCB capacity in Vietnam is also expected to be fully operational in 2026. These facilities are strategically located, and the additional capacity will meet the growing overseas demand. These additions will further enhance the market penetration of Kingboard's PCB network and optimise the Group's strategic position in downstream businesses.

Chemicals Division: As 2025 gets underway, market conditions for the Chemicals Division's major products have improved compared to the same period last year, with the caustic soda industry enjoying particularly strong momentum. The national focus for 2025 remains on strengthening ecological and environmental protection and promoting a transformation towards green development. The Chemicals Division will spare no effort to ensure production safety and compliance with emission standards. At the same time, it will focus on improving facility efficiency and optimising resource utilisation to reduce energy consumption. The caustic soda project currently underway in Beihai City, Guangxi, will have an annual capacity of 340,000 tonnes. In its first phase, an annual capacity of 200,000 tonnes is expected to come online by the end of 2025. The industrial park where this project is located already has sufficient demand capacity to absorb its output, such that the caustic soda products can be transported to clients over short distances or through pipelines, reducing transportation costs. Strong competitiveness is evident as the average selling price of caustic soda produced in this facility is higher than that in the Hengyang area. Meanwhile, the acetic acid project in Xingtai City, Hebei Province, with an annual capacity of 800,000 tonnes, was commissioned in early 2025. This project also utilises the advanced energy-efficient carbon capture technology developed by the School of Environment at Tsinghua University. The current daily production of 1,700 tonnes is expected to be ramped up to 2,000 tonnes daily beginning in April, contributing to an annual output of RMB3 billion. This new project will help expand the Group's chemical business footprint. Looking ahead, the Chemicals Division remains committed to driving enterprise transformation, upgrading, and high-quality development characterised by green and lowcarbon practices.

INVESTMENTS (continued)

Guangzhou R&F Properties Co., Ltd (stock code: 2777) ("GRFP") is principally engaged in the properties sector.

Based on the announcements of GRFP dated 17 June 2022, 30 June 2022, 11 July 2022 and 14 July 2022, GRFP conducted the Consent Solicitations in June 2022 to seek waivers of existing and potential consequential Defaults or Events of Default under the Notes and to extend its debt maturity profile. GRFP offered Eligible Holders of each Series of the Notes an opportunity to consent to, among others, the extension of the maturity date of such Series of the Notes, which will allow GRFP to improve its overall financial condition and maintain a sustainable capital structure. In July 2022, GRFP completed the above debt restructuring scheme.

During the year, the Group did not acquire or sell the above GRFP debt instruments at fair value through other comprehensive income.

According to above announcements and the announcement of GRFP dated 12 August 2024, GRFP were not able to pay the bond interests due to its adverse financial condition. Also, according to the announcement of GRFP dated 19 December 2024, GRFP has announced its debt restructuring plan for the above GRFP debt instruments. The Group had performed an impairment assessment on the debt instruments held under the lifetime expected credit loss ("ECL") model. Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. The measurement of ECL is a function of the probability of default and loss given default (i.e. the magnitude of the loss if there is a default), with the assessment of the probability of default and loss given default being based on historical data and forward-looking information. The estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights, and also with reference to the time value of money. In determining ECL on the Group's debt instruments for the period, the management had taken into accounts factors including the downgrading of credit rating of the debt instruments by the credit rating agencies, the defaults of the bond issuer in making payments of interest and principal for its indebtedness, and forward-looking information including the future macroeconomic conditions at places where the bond issuer is operating.

The Group recognised impairment loss in profit or loss under ECL model of HK\$702,158,000 (2023: HK\$2,283,000) on the above GRFP debt instruments at fair value through other comprehensive income by reference to exposures at default, recovery rate and adjustments for forward-looking information.

投資(續)

廣州富力地產股份有限公司(股份代號:2777) (「廣州富力地產」)均主要從事房地產行業。

根據廣州富力地產日期為二零二二年六月十七日、二零二二年六月三十日、二零二二年七月十一日及二零二二年七月十四日的公告,廣州富力地產於二零二二年六月進行了徵求同意,以尋求對票據下現有和潛在的間接違約或違約事件的豁免,並延長其債務期限。廣州富力地產為每個系列票據的合格持有人提供了一個機會,以同意延長該系列票據的到期日等,這將使廣州富力地產能夠改善其整體財務狀況並維持可持續的資本結構。於二零二二年七月,廣州富力地產完成了上述債務重組方案。

於年內,本集團並無購入或出售任何以上廣州 富力地產按公平值計入其他全面收益之債務工 具。

根據上述公告及廣州富力地產日期為二零二四 年八月十二日的公告,由於其惡劣財務狀況, 廣州富力地產故此未能支付其債券利息。另 外,根據廣州富力地產日期為二零二四年十二 月十九日的公告,廣州富力地產公佈了上述債 務工具的債務重組方案。本集團已根據全期預 期信貸虧損(「預期信貸虧損」)模型對所持有之 債務工具進行減值評估。全期預期信貸虧損指 將因相關工具預計存續期內所有可能違約事件 而導致的預期信貸虧損。預期信貸虧損之計量 是違約概率及違約損失率(即發生違約時的損失 程度)的函數,而違約概率及違約損失率乃基於 歷史數據及前瞻性資料評估。預期信貸虧損的 估計反映無偏頗及概率加權金額,該金額以發 生違約的相應風險為權重釐定,同時亦參考貨 幣的時間價值。於釐定本集團於期內之債務工 具的預期信貸虧損時,管理層考慮各種因素, 包括信貸評級機構下調債務工具的信貸評級、 債券發行人拖欠其債務的利息及本金付款以及 前瞻性資料,包括債券發行人現時經營所在地 的未來宏觀經濟狀況。

經參考違約風險、回收率及前瞻性資料之調整後,本集團根據預期信貸虧損模式於損益中確認以上之廣州富力地產按公平值計入其他全面收益之債務工具之減值虧損702,158,000港元(二零二三年:2,283,000港元)。

When recommending the remuneration package for each individual Director, the Remuneration Committee will consider his qualification and experience, specific duties and responsibilities assigned to him by the Board and the prevailing market packages available for similar position. The emoluments of the Directors on a named basis for the year under review is set out on pages 155 to 159 in Note 11 to the financial statements. B. REMUNERATION OF DIRECTORS AND SENIOR MANAGEMENT (continued)

The level and make-up of remuneration and disclosure (continued)

The purpose of the grant of share options is to provide the participants with an opportunity to have a personal stake in the Company, and motivate the grantees to optimize their performance and efficiency, having considered the grantees' experience, length of service to the Group and contribution to the Group's overall business performance. The Remuneration Committee is of the view that performance targets are not necessary as (i) the value of the share options is subject to the market price of the shares, which, in turn, depends on the business performance of the Group, to which the Grantees would directly contribute, and the grantees will benefit more from the Share Options if the Company's share price increases; (ii) the number of share options granted to each grantee was determined after taking into account their contribution for the past financial periods, such that relevant performance targets have already been met before any grant is decided to be made. The share options are also subject to the terms of the Scheme which provides that the share options will lapse automatically if the grantee ceases to be an employee or director of the Group. In addition, the Remuneration Committee is of the view that a clawback mechanism is not necessary considering the lapse of share options upon cessation or termination of employment already been provided for under the Scheme, which could adequately safeguard the Company's interests. Notwithstanding the absence of the performance target and clawback mechanism to recover, the Board and the Remuneration Committee believe that without additional performance target and clawback mechanism, the grant of the share options could align the interests of the grantees with that of the Company and its shareholders, provide the grantees with an opportunity to have a personal stake in the Company, incentivize the grantees to contribute to the future continuous competitiveness, results of operation and growth of the Company, reinforce their commitment to long term services of the Company, and motivate the grantees to optimize their performance and efficiency, which is in line with the purpose of the Scheme.

B. 董事及高級管理人員薪 酬(續)

薪酬及披露的水平及組成(續)

考慮到承授人的經驗、為本集團服務的 年期以及對本集團整體業務表現的貢 獻,授予購股權的目的是為參與者提供 個人持有本公司股份的機會, 並激勵承 授人優化其表現和績效。薪酬委員會認 為,績效目標並非必要,因為(i)購股權 的價值取決於股份的市價,而市價則取 決於承授人將直接貢獻的本集團的業務 表現,以及若本公司股價上升,承授 人將從購股權獲益更多;(ii)授予各承授 人的購股權數量是在考慮其過往財務 期間的貢獻後確定的,故此在決定授 予任何購股權之前已達到相關績效目 標。購股權亦須遵守該計劃的條款,該 計劃規定,倘承授人不再為本集團僱員 或董事,購股權將自動失效。此外,薪 酬委員會認為,考慮到該計劃已就中止 或終止僱佣時購股權失效作出規定,可 充分保障本公司的利益,故並無必要設 立回扣機制。儘管並無可追回的績效目 標及回扣機制,董事會及薪酬委員會相 信,在無額外績效目標及回扣機制的情 況下,授出購股權可使承授人的利益與 本公司及其股東的利益保持一致,為承 授人提供個人持有公司股份的機會,激 勵承授人為公司未來的持續競爭力、經 營業績和增長作出貢獻,強化他們對公 司長期服務的承諾,並激勵承授人優化 其表現和績效,上述皆符合該計劃的目 的。

Assessment of net realisable values of properties held for development ("PHD") 評估待發展物業(「待發展物業」)的可變現淨值

We identified the assessment of net realisable values of PHD as a key audit matter due to the significance of the amount and estimation uncertainty involved in determining their net realisable values.

The carrying value of the Group's PHD amounted to HK\$12.2 billion as at 31 December 2024. The Group's PHD are all situated in the People's Republic of China (the "PRC").

As disclosed in Notes 4 and 26 to the consolidated financial statements, the net realisable values of the PHD are determined by reference to the estimated future selling prices less estimated costs of completion and costs necessary to make the sale. The future selling prices are estimated by reference to the recent selling prices of similar properties in the same project or relevant locations. In addition, the management estimates the future costs to complete the PHD and costs necessary to make the sale by reference to the actual development costs and selling expenses incurred and the completion status.

我們將評審待發展物業的可變現淨值識別為關鍵審計事項,此乃由於釐定其可變現淨值涉及重大金額及估計不確認性。

於二零二四年十二月三十一日 · 貴集團擁有待發展物業賬面值為一百二十二億港元 。 貴集團的待發展物業全部位於中華人民共和國(「中國」)。

誠如綜合財務報表附註4及26所披露,待發展物業的可變現 淨值仍參考估計日後售價減估計完成成本及達成銷售所需 的成本後釐定。日後售價參考同一項目或相關地點類似物 業的近期售價估計。此外,管理層參考已產生的實際發展 成本和銷售費用及完成進度,以估計完成待發展物業的未 來費用及達成銷售所需的成本。 Our procedures in relation to the assessment of net realisable values of PHD included:

KEY AUDIT MATTERS (continued)

Key audit matter 關鍵審計事項

Valuation of investment properties 投資物業估值

We identified the valuation of investment properties as a key audit matter due to the inherent level of subjective judgements and estimation uncertainty involved required in determining the fair values.

The Group's investment property portfolio comprises commercial, residential and industrial properties located in Hong Kong, the PRC and the United Kingdom, which was stated at fair value of HK\$26.0 billion as at 31 December 2024 with a net loss on fair value change of HK\$32 million recognised in the consolidated statement of profit or loss for the year then ended.

The Group's investment properties are stated at fair value based on valuations performed by the Valuer. The valuation committee of the Group works closely with the Valuer to determine the appropriate valuation methodologies and inputs for fair value measurements. The valuation was determined based on direct comparison by reference to market transactions of similar properties taking into consideration of timing of reference transactions and property-specific adjustment factors. Details of the valuation techniques and key inputs used in the valuations are disclosed in Notes 4 and 14 to the consolidated financial statements.

貴集團的投資物業基於估值師進行的估值以公平值列 賬。 貴集團的估值委員會與估值師緊密合作,共同就公 平值計量釐定適當的估值方法及輸入數據。估值乃按直接 比較法參考類似物業之市場交易並考慮參考交易的時間及 物業特定的調整因素後釐定。估值所用估值技術及主要輸 入數據的詳情於綜合財務報表附註4及14披露。

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

就我們對綜合財務報表的審核,我們的責任是 閱讀其他資料,在此過程中,考慮其他資料是 否與綜合財務報表或我們在審核過程中所瞭解 的情況存在重大抵觸或者似乎存在重大錯誤陳 述的情況。基於我們已執行的工作,如果我們 認為其他資料存在重大錯誤陳述,我們需要報 告該事實。在這方面,我們沒有任何報告。

董事及治理層就綜合財務報 表須承擔的責任

貴公司董事須負責根據香港會計師公會頒佈的 香港財務申報準則及香港公司條例的披露要求 擬備真實而中肯的綜合財務報表,並對其認為 為使綜合財務報表的擬備不存在由於欺詐或錯 誤而導致的重大錯誤陳述所需的內部控制負責。

在擬備綜合財務報表時,董事負責評估 貴集團持續經營的能力,並在適當情況下披露與持續經營有關的事項,以及使用持續經營為會計基礎,除非董事有意將 貴集團清盤或停止經營,或別無其他實際的替代方案。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- 識別和評估由於欺詐或錯誤而導致綜合 財務報表存在重大錯誤陳述的風險,設 計及執行審核程序以應對這些風險,以 及獲取充足和適當的審核憑證,作為我 們意見的基礎。由於欺詐可能涉及串 謀、偽造、蓄意遺漏、虛假陳述,或湊 駕於內部控制之上,因此未能發現因欺 詐而導致的重大錯誤陳述的風險高於未 能發現因錯誤而導致的重大錯誤陳述的 風險。
- 瞭解與審核相關的內部控制,以設計適當的審核程序,但目的並非對 貴集團內部控制的有效性發表意見。
- 評價董事所採用會計政策的恰當性及作 出會計估計和相關披露的合理性。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit
 evidence regarding the financial information of the entities or business
 units within the group as a basis for forming an opinion on the group
 financial statements. We are responsible for the direction, supervision

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Kwok Lai Sheung.

1. GENERAL INFORMATION

Kingboard Holdings Limited (the "Company") is a public limited company incorporated in the Cayman Islands and its shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The addresses of the registered office and principal place of business of the Company are disclosed in the "Corporate Information" section of the annual report.

The Company is an investment holding company and the principal activities of its subsidiaries are set out in Note 44.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

Amendments to HKFRSs that are mandatorily effective for the current year

In the current year, the Company and its subsidiaries (collectively referred to as the "Group") has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") for the first time, which are mandatorily effective for the Group's annual period beginning on 1 January 2024 for the preparation of the consolidated financial statements:

Amendments to HKFRS 16 Lease Liability in a Sale and

Leaseback

Amendments to HKAS 1 Classification of Liabilities as

Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020)

Amendments to HKAS 1

Non-current Liabilities with

Covenants

Amendments to HKAS 7 and

HKFRS 7

Supplier Finance Arrangements

Except as described below, the application of the amendments to HKFRSs in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

2. 應用新訂及經修訂之香港財務報告準則(「香港財務報告準則」)

於本年度已強制生效之經修訂香 港財務報告準則

於本年度,為編製綜合財務報表,本公司及其附屬公司(統稱「本集團」)已首次應用香港會計師公會(「香港會計師公會」)頒佈且已於二零二四年一月一日開始之本集團年度期間強制生效之下列經修訂香港財務報告準則:

香港財務報告準則 售

售後租回的租賃負

香港會計準則第1號

附有契約條件的非

(修訂本)

流動負債

香港會計準則第7號及 供應商融資安排

香港財務報告準則 第7號(修訂本)

除下文所述者外,本年度應用經修訂香 港財務報告準則對本集團於本年度及過 往年度之財務狀況及表現及/或載於該 等綜合財務報表之披露並無重大影響。

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (continued)

Amendments to HKFRSs that are mandatorily effective for the current year (continued)

Impacts on application of Amendments to HKAS 1 "Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020)" (the "2020 Amendments") and Amendments to HKAS 1 "Non-current Liabilities with Covenants" (the "2022 Amendments")

The Group has applied the amendments for the first time in the current year.

The 2020 Amendments provide clarification and additional guidance on the assessment of right to defer settlement for at least twelve months from reporting date for classification of liabilities as current or non-current, which:

- specify that the classification of liabilities as current or noncurrent should be based on rights that are in existence at the end of the reporting period. Specifically, the amendments clarify that the classification should not be affected by management intentions or expectations to settle the liability within 12 months.
- clarify that the settlement of a liability can be a transfer of cash, goods or services, or the entity's own equity instruments to the counterparty. If a liability has terms that could, at the option of the counterparty, result in its settlement by the transfer of the entity's own equity instruments, these terms do not affect its classification as current or non-current only if the entity recognises the option separately as an equity instrument applying HKAS 32 "Financial Instruments: Presentation".

2. 應用新訂及經修訂香港 財務報告準則(「香港財 務報告準則」)_(續)

於本年度已強制生效之經修訂香 港財務報告準則(續)

應用香港會計準則第1號(修訂本)「將負債分類為流動或非流動以及香港詮釋第5號(二零二零年)之有關修訂」(「二零二零年修訂本」)以及香港會計準則第1號(修訂本)「附有契約條件的非流動負債」(「二零二二年修訂本」)的影響

本集團於本年度首次應用該等修訂本。

二零二零年修訂本為評估報告日期起延 遲最少十二個月之結算分類為流動或非 流動負債提供澄清及額外指引,當中:

- 訂明負債應基於報告期末存在之權利而分類為流動或非流動。具體而言,修訂本澄清該分類不應受到管理層在十二個月內清償負債的意圖或期望所影響。
- 澄清可透過現金轉賬、轉移貨物或服務或實體本身的權益工具轉讓予對手方清償負債。倘負債具有條款,可由對手方選擇透過轉讓實體本身之權益工具進行結算,則僅當實體應用香港會計準則第32號「金融工具:呈列」將期權分開確認為權益工具時,該等條款方不會對其分類為流動或非流動造成影響。

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (continued)

Amendments to HKFRSs that are mandatorily effective for the current year (continued)

Impacts on application of Amendments to HKAS 1 "Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020)" (the "2020 Amendments") and Amendments to HKAS 1 "Non-current Liabilities with Covenants" (the "2022 Amendments") (continued)

For rights to defer settlement for at least twelve months from reporting date which are conditional on the compliance with covenants, the 2022 Amendments specifically clarify that only covenants that an entity is required to comply with on or before the end of the reporting period affect the entity's right to defer settlement of a liability for at least twelve months after the reporting date, even if compliance with the covenant is assessed only after the reporting date. The 2022 Amendments also specify that covenants with which an entity must comply after the reporting date (i.e. future covenants) do not affect the classification of a liability as current or non-current at the reporting date. However, if the entity's right to defer settlement of a liability is subject to the entity complying with covenants within twelve months after the reporting period, an entity discloses information that enables users of financial statements to understand the risk of the liabilities becoming repayable within twelve months after the reporting period. This would include information about the covenants, the carrying amount of related liabilities and facts and circumstances, if any, that indicate that the entity may have difficulties complying with the covenants.

In accordance with the transition provision, the Group has applied the new accounting policy to the classification of liability as current or non-current retrospectively. The application of the amendments in the current year had no material impact on the consolidated financial statements.

2. 應用新訂及經修訂香港 財務報告準則(「香港財 務報告準則」)(續)

於本年度已強制生效之經修訂香 港財務報告準則(續)

應用香港會計準則第1號(修訂本)「將負債分類為流動或非流動以及香港詮釋第5號(二零二零年)之有關修訂」(「二零二零年修訂本」)以及香港會計準則第1號(修訂本)「附有契約條件的非流動負債」(「二零二二年修訂本」)的影響(續)

對於自報告日期起遞延結算至少十二個 月且以遵守契諾為條件的權利,二零 二二年修訂特別闡明,只有實體須於報 告期末或之前遵守的契諾,才會影響實 體將負債遞延至報告日期後至少十二個 月結算的權利,即使契諾的遵守情況僅 在報告日期後評估。二零二二年修訂本 亦訂明,實體於報告日期後必須遵守的 契諾(即未來契諾)不會影響負債於報告 日期的流動或非流動分類。然而,如果 實體延期結算負債的權利須取決於實體 在報告期後十二個月內是否遵守契諾, 則實體應披露相關資料,以使財務報表 使用者能夠了解在報告期後十二個月內 償還負債之風險。此將包括有關契諾、 相關負債的賬面值以及表明實體可能難 以遵守契諾的事實和情況(如有)。

根據過渡規定,本集團已對負債分類為 流動或非流動追溯應用新會計政策。於 本年度應用修訂並無對綜合財務報表產 生重大影響。

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (continued)

New and amendments to HKFRSs in issue but not yet effective (continued)

HKFRS 18 "Presentation and Disclosure in Financial Statements"

HKFRS 18 "Presentation and Disclosure in Financial Statements" ("HKFRS 18"), which sets out requirements on presentation and disclosures in financial statements, will replace HKAS 1 "Presentation of Financial Statements" ("HKAS 1"). This new HKFRS Accounting Standard, while carrying forward many of the requirements in HKAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some HKAS 1 paragraphs have been moved to HKAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" and HKFRS 7. Minor amendments to HKAS 7 "Statement of Cash Flows" and HKAS 33 "Earnings per Share" are also made.

HKFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. The application of the new standard is expected to affect the presentation of the statement of profit or loss and disclosures in the future financial statements. The Group is in the process of assessing the detailed impact of HKFRS 18 on the Group's consolidated financial statements.

2. 應用新訂及經修訂香港 財務報告準則(「香港財 務報告準則」)(續)

已頒佈但尚未生效之新訂及經修 訂香港財務報告準則(續)

香港財務報告準則第18號「財務報表的 呈列及披露」

香港財務報告準則第18號「財務報表的 呈列及披露」(「香港財務報告準則第18 號」)載列有關財務報表呈列及披露的規 定,將取代香港會計準則第1號「財務 報表的呈列」(「香港會計準則第1號」)。 此項新訂香港財務報告準則會計準則沿 用香港會計準則第1號中的多項規定, 同時亦引入新規定,要求於損益表中呈 列指定類別及界定小計;在財務報表附 註中披露管理層界定的績效計量,以及 改進財務報表中所披露資料的匯總及分 類。此外,香港會計準則第1號的若干 段落已移至香港會計準則第8號「會計政 策、會計估計變動及差錯」及香港財務 報告準則第7號。香港會計準則第7號 「現金流量表」及香港會計準則第33號 [每股盈利]亦作出輕微修訂。

香港財務報告準則第18號及其他準則的修訂本將於二零二七年一月一日或之後開始的年度期間生效,並允許提前應用。預期應用該新準則將會影響日後財務報表中損益表的呈列及披露。本集團正在評估香港財務報告準則第18號對本集團綜合財務報表的詳細影響。

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (continued)

New and amendments to HKFRSs in issue but not yet effective (continued)

Amendments to HKFRS 9 and HKFRS 7 "Amendments to the Classification and Measurement of Financial Instruments"

The amendments to HKFRS 9 clarify the recognition and derecognition for financial asset and financial liability and add an exception which permits an entity to deem a financial liability to be discharged before the settlement date if it is settled in cash using an electronic payment system if, and only if certain conditions are met.

The amendments also provide guidance on the assessment of whether the contractual cash flows of a financial asset are consistent with a basic lending arrangement. The amendments specify that an entity should focus on what an entity is being compensated for rather than the compensation amount. Contractual cash flows are inconsistent with a basic lending arrangement if they are indexed to a variable that is not a basic lending risk or cost. The amendments state that, in some cases, a contingent feature may give rise to contractual cash flows that are consistent with a basic lending arrangement both before and after the change in contractual cash flows, but the nature of the contingent event itself does not relate directly to changes in basic lending risks and costs. Furthermore, the description of the term "non-recourse" is enhanced and the characteristics of "contractually linked instruments" are clarified in the amendments.

The disclosure requirements in HKFRS 7 "Financial Instruments" Disclosures" ("HKFRS 7") in respect of investments in equity instruments designated at fair value through other comprehensive income are amended. In particular, entities are required to disclose the fair value gain or loss presented in other comprehensive income during the period, showing separately those related to investments derecognised during the reporting period and those related to investments held at the end of the reporting period. An entity is also required to disclose any transfers of the cumulative gain or loss within equity related to the investments derecognised during the reporting period. In addition, the amendments introduce the requirements of qualitative and quantitative disclosure of contractual terms that could affect the contractual cash flow based on a contingent even not directly relating to basic lending risks and cost.

The amendments are effective for annual reporting periods beginning on or after 1 January 2026, with early application permitted. The application of the amendments is not expected to have significant impact on the financial position and performance of the Group.

2. 應用新訂及經修訂香港 財務報告準則(「香港財 務報告準則」)_(續)

已頒佈但尚未生效之新訂及經修訂香港財務報告準則(續)

香港財務報告準則第9號及香港財務報告準則第7號(修訂本)「金融工具的分類及計量(修訂本)」

香港財務報告準則第9號(修訂本)就金融資產及金融負債之確認及終止確認進行澄清,並增訂例外情況,倘金融負債透過電子支付系統以現金結算,且僅在滿足若干條件之情況下,允許實體視該金融負債於結算日前已獲解除。

該等修訂本於二零二六年一月一日或之 後開始之年度報告期間生效,並允許提 前應用。預期應用該等修訂不會對本集 團的財務狀況及表現造成重大影響。

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION

3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules") and by the Hong Kong Companies Ordinance.

3.2 Material accounting policy information Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss from the date the Group gains control until the date when the Group ceases to control the subsidiary.

3. 綜合財務報表編製基準 及重大會計政策資料

3.1 綜合財務報表編製基準

綜合財務報表乃按香港會計師公會頒佈的香港財務申報準則編, 製。就編製綜合財務報表而言, 倘有關資料可合理預期將會影響 主要使用者之決定,則該等資料 被視為重要。此外,綜合財務報 表亦遵守香港聯合交易所有限公 司證券上市規則(「上市規則」)及 香港公司條例的適用披露規定。

3.2 重大會計政策資料 綜合賬目基準

綜合財務報表包括本公司及由本 公司及其附屬公司控制之實體之 財務報表。當本公司符合以下情 況,即取得控制權:

- 有權控制被投資方;
- 因其參與被投資方業務 而對可變回報承擔風險 或享有權利;及
- 有能力以其權力影響其 回報。

倘有事實及情況顯示上列三項控 制權條件之其中一項或多項有 變,本集團會重新評估其是否控 制被投資方。

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION

(continued)

3.2 Material accounting policy information (continued) Basis of consolidation (continued)

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units ("CGUs") (or group of CGUs) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purpose and not larger than an operating segment.

如有需要,將會就附屬公司之財 務報表作出調整,以確保其會計 政策與本集團會計政策貫徹一 致。

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION

(continued)

3.2 Material accounting policy information (continued) Goodwill (continued)

A CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment annually or more frequently when there is an indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of CGUs).

The Group policy for goodwill arising on the acquisition of an associate and a joint venture is described below.

Investments in an associate and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

3.2 Material accounting policy information (continued) Investments in an associate and joint ventures

(continued)

The results and assets and liabilities of an associate and joint ventures are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of an associate and joint ventures used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

When a group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

3.2 Material accounting policy information (continued) Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

Revenue from property investment will be accounted for accordance with HKFRS 16, whereas dividend income and interest income from investments will be accounted for in accordance with HKFRS 9.

3.2 Material accounting policy information (continued) Revenue from contracts with customers (continued)

A contract liability represents the Group's obligation to transfer goods, properties or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation Output method

The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

Existence of significant financing component

In determining the transaction price, the Group adjusts the promised amount of consideration for the effects of the time value of money if the timing of payments agreed (either explicitly or implicitly) provides the customer or the Group with a significant benefit of financing the transfer of goods or services to the customer. In those circumstances, the contract contains a significant financing component. A significant financing component may exist regardless of whether the promise of financing is explicitly stated in the contract or implied by the payment terms agreed to by the parties to the contract.

For contracts where the period between payment and transfer of the associated goods, properties or services is less than one year, the Group applies the practical expedient of not adjusting the transaction price for any significant financing component.

Existence of significant financing component (continued)
For advance payments received from customers before the transfer of the associated goods, properties or services in which the Group adjusts for the promised amount of consideration for a significant financing component, the Group applies a discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. The relevant interest expenses during the period between the advance payments were received and the transfer of the associated goods and services are accounted for on the same basis as other borrowing costs.

Leases

The Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 "Leases" at inception of the contract. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessor

Classification and measurement of leases

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases are recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and such costs are recognised as an expense on a straight-line basis over the lease term except for investment properties measured under fair value model.

Rental income which are derived from the Group's ordinary course of business are presented as revenue.

Investment properties are properties held to earn rentals and/ or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at fair values, adjusted to exclude any prepaid or accrued operating lease income.

Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the year in which the property is derecognised.

3.2 Material accounting policy information (continued) Properties held for development

Properties held for development which are intended to be sold upon completion of development are classified as current assets. Except for the leasehold land element which is measured at cost model in accordance with the accounting policies of right-of-use assets, properties held for development are carried at the lower of cost and net realisable value. Cost is determined on a specific identification basis including allocation of the related development expenditure incurred and where appropriate, borrowing costs capitalised. Net realisable value represents the estimated selling price for the properties less estimated cost to completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

The Group transfers properties held for development to investment properties when there is a change of intention to hold the properties to earn rentals or/and for capital appreciation rather than for sale in the ordinary course of business, which is evidenced by the inception of an operating lease to another party. Any difference between the fair value at the date of transfer and its previous carrying amount is recognised in profit or loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes (other than freehold lands and property, plant and equipment under construction as described below). Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Freehold lands are not depreciated and are measured at cost less subsequent accumulated impairment losses.

Property, plant and equipment in the course of construction for production, supply or administrative purposes, are carried at cost less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management, including costs of testing whether the related assets is functioning properly and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Sale proceeds of items that are produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management (such as samples produced when testing whether the asset is functioning properly), and the related costs of producing those items are recognised in the profit or loss. The cost of those items are measured in accordance with the measurement requirements of HKAS 2. When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as "right-of-use assets" in the consolidated statement of financial position.

Artwork are stated at cost less impairment loss, if any. No depreciation is provided as the artwork are held primarily for office aesthetics with no intention to sell and are high value paintings with indefinite useful lives and estimated residual values of not less than their costs.

Depreciation is recognised so as to write off the cost of assets (other than freehold lands, artwork and property, plant and equipment under construction) less their residual value over their estimated useful lives using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

3.2 Material accounting policy information (continued) Impairment on property, plant and equipment, right-ofuse assets and intangible assets other than goodwill

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets and intangible assets with finite useful lives to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment, right-of-use assets and intangible assets with finite useful lives. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the CGU to which the asset belongs.

In testing a CGU for impairment, corporate assets are allocated to the relevant CGU when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the CGU or group of CGUs to which the corporate asset belongs, and is compared with the carrying amount of the relevant CGU or group of CGUs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a CGU) for which the estimates of future cash flows have not been adjusted.

Impairment on property, plant and equipment, right-ofuse assets and intangible assets other than goodwill
(continued)

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or a CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGUs, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a prorata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a CGU or a group of CGUs) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU or a group of CGUs) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sales, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale. For properties under development for which revenue recognised over time, the Group ceases to capitalise borrowing costs as soon as the properties are ready for the Group's intended sale.

Any specific borrowing that remain outstanding after the related asset is ready for its intended use or sale is included in the general borrowing pool for calculation of capitalisation rate on general borrowings. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Retirement benefit costs

Payments to defined contribution retirement benefit plans, state-managed retirement benefit schemes and the Mandatory Provident Fund Scheme ("MPF") are recognised as an expense when employees have rendered service entitling them to the contributions.

For Long Service Payment ("LSP") obligation, the Group accounts for the employer MPF contributions expected to be offset as a deemed employee contribution towards the LSP obligation in terms of HKAS 19.93(a) and it is measure on a net basis. The estimated amount of future benefit is determined after deducting the negative service cost arising from the accrued benefits derived from the Group's MPF contributions that have been vested with employees, which are deemed to be contributions from the relevant employees.

3.2 Material accounting policy information (continued) Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries and annual leave) after deducting any amount already paid.

Share-based payments

Equity-settled share-based payment transactions

Share options granted to the Directors and employees of the Group

Equity-settled share-based payments to Directors and employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in share-based payments reserve.

For share options that are vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share-based payments reserve will be transferred to share capital and share premium. When the share options are forfeited after vesting date or are still not exercised at the expiry date, the amount previously recognised in share-based payments reserve will be transferred to retained profits.

Income tax expense represents the sum of current and deferred income tax expense.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before taxation because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary difference. In addition, the deferred tax liabilities are not recognised if the temporary difference arisen from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and an associate and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale, except for freehold lands, which is always presumed to be recovered entirely through sale.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 requirements to the lease liabilities and the related assets separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxation entity by the same taxation authority.

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15 "Revenue from Contracts with Customers" ("HKFRS 15"). Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss ("FVTPL"), are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Amortised cost and interest income Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost and debt instruments subsequently measured at FVTOCI. For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the creditimpaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer creditimpaired.

Impairment of financial assets and other items subject to impairment assessment under HKFRS 9

The Group performs impairment assessment under expected credit loss ("ECL") model on financial assets (including trade receivables, other receivables, bills receivables, entrusted loans, loan receivable, debt instruments at FVTOCI, restricted bank deposits and bank balances) and financial guarantee contracts which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables and loan receivable. The ECL on these assets are assessed individually and/or collectively based on appropriate groupings.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. (i) Significant increase in credit risk (continued) Despite the aforegoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) it has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of "investment grade" as per globally understood definitions.

(i) Significant increase in credit risk (continued)

For financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of financial guarantee contracts, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

 A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:
 - (a) significant financial difficulty of the issuer or the borrower;
 - (b) a breach of contract, such as a default or past due event;
 - (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group has applied a practical expedient for the provision matrix in estimating ECL for its financial instruments. The provision matrix simplifies the calculation process by utilizing predetermined probabilities of default and loss given default assigned to different credit risk categories.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

For a financial guarantee contract, the Group is required to make payments only in the event of a default by the debtor in accordance with the terms of the instrument that is guaranteed. Accordingly, the ECL is the present value of the expected payments to reimburse the holder for a credit loss that it incurs less any amounts that the Group expects to receive from the holder, the debtor or any other party.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

Except for investments in debt instruments that are measured at FVTOCI and financial guarantee contracts, the Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables, where the corresponding adjustment is recognised through a loss allowance account. For investments in debt instruments that are measured at FVTOCI, the loss allowance is recognised in other comprehensive income and accumulated in the investment revaluation reserve without reducing the carrying amount of these debt instruments. Such amount represents the changes in the investment revaluation reserve in relation to accumulated loss allowance.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss.

On derecognition of an investment in equity instrument classified as at FVTPL, the difference between the asset's carrying amount and the fair value change is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the Directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in consolidated financial statements.

Deferred taxation on investment properties (Notes 14 and 24)

For the purposes of measuring deferred tax arising from investment properties that are measured using the fair value model, the Directors have reviewed the Group's investment property portfolios as at 31 December 2024, and concluded that the investment properties located in the PRC with carrying amount of HK\$12,964,770,000 (2023: HK\$13,347,994,000) are held under a business model which objective is to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale. Therefore, the Directors have determined the presumption that the carrying amounts of such investment properties are recovered entirely through sale is rebutted. As a result, the Group has not recognised deferred taxes on LAT in respect of changes in fair value of such investment.

4. 重大會計判斷及估計不 明朗因素之主要來源

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Critical judgements in applying accounting policies (continued)

Deferred taxation on investment properties (Notes 14 and 24) (continued)

As at 31 December 2024, the investment properties located in Hong Kong and the United Kingdom with carrying amounts of HK\$7,049,558,000 (2023: HK\$4,076,290,000) and HK\$5,979,627,000 (2023: HK\$6,377,504,000), respectively are not held under a business model which objective is to recover the economic benefits of the investment properties entirely through use. No deferred tax is recognised in respect of the fair value changes in such investment properties as the Group is not subject to any income taxes on disposal of investment properties in Hong Kong. The Group is subject to Capital Gains Tax on disposal of investment properties in the United Kingdom. No deferred tax is recognised in respect of the fair value changes in such investment properties located in the United Kingdom as the amount is insignificant.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Allowances for inventories (Note 25)

In determining the net realisable value of the Group's inventories, the management considers the fluctuations in price, the balance on hand relative to sales prospect and the condition of the inventories and estimate the net realisable value of inventories based on estimated selling prices and market condition to the extent that such condition exists at the end of reporting period, less the estimated cost of completion and costs necessary to make the sale. Where the net realisable value is less than the carrying amount, impairment loss will arise. Reversal of write-down of HK\$140,926,000) on inventories has been recognised during the year ended 31 December 2024. As at 31 December 2024, the carrying amount of inventories was HK\$4,232,930,000 (2023: HK\$3,775,589,000).

下文詳述有關日後主要假設及於報告期間結束當日估計不明朗因素之其他主要來源,而該等假設及估計不明朗因素造成須對資產及負債於下個財務年度之賬面值作出重大調整之重大風險。

存貨撥備(附註25)

於釐定本集團存貨的可變現淨值時,管理層考慮了價格波動、相對於銷售前景的庫存餘額以及存貨的狀況,並基於估計售價和市場情況估計了若該等情況於報告期末繼續存在時的存貨的可變現淨值,減去估計的完成成本和促成銷售所需的成本。倘可變現淨值低於賬面值四時,則將產生減值虧損。截至二零二三年一貨撇減263,078,000港元(二零二三年:撥回撇減140,926,000港元)。於三四年十二月三十一日,存貨之賬面值為4,232,930,000港元(二零二三年:3,775,589,000港元)。

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Key sources of estimation uncertainty (continued) Estimated net realisable value on properties held for development (Note 26)

In determining whether write-down should be made to the Group's properties held for development, the Group determined the net realisable values of the properties held for development by reference to the estimated selling price less estimated costs to completion of the properties and costs necessary to make the sale. The future selling prices are estimated by reference to the recent selling prices of similar properties in the same project or relevant locations. In addition, the management estimated the future costs to complete the properties held for development and costs necessary to make the sale by reference to the actual development costs and selling expenses incurred and the completion status. When assessing the net realisable value of the properties held for development, the management will also make reference to the valuations carries out by an independent qualified valuer which engaged by the Group. If the actual net realisable values on properties held for development is less than expected as a result of change in market condition and/or significant variation in the budgeted development cost, material write-down may result. Write-down of HK\$303.149.000 (2023: HK\$553.032.000) on properties held for development has been recognised during the year ended 31 December 2024. As at 31 December 2024, the carrying amount of properties held for development was HK\$12,217,659,000 (2023: HK\$15,419,688,000).

ECL for trade receivables (Notes 27(a) and 35)

Trade receivables that are credit-impaired are assessed for ECL individually, and the remaining trade receivables are assessed collectively based on shared credit risk characteristics by reference to the Group's internal credit ratings. The estimated loss rates are estimated based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered.

The ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables are disclosed in Notes 27(a) and 35(b).

As at 31 December 2024, the carrying amount of trade receivables was HK\$7,184,950,000 (2023: HK\$6,543,486,000), net of allowance for credit losses of HK\$938,732,000 (2023: HK\$1,090,600,000).

4. 重大會計判斷及估計不明朗因素之主要來源(續)

應用會計政策之重大判斷(續) 待發展物業之估計可變現淨值(附註**26**)

於釐定本集團待發展物業是否需要撇減 時,本集團參考估計售價減去物業竣工 之估計成本及促成銷售所需的成本,釐 定待發展物業之可變現淨值。日後售 價參考同一項目或相關地點類似物業 的近期售價估計。此外,管理層參考 已產生的實際發展成本及銷售開支及 完成進度,估計完成待發展物業的未 來費用及促成銷售所需的成本。於評估 待發展物業的可變現淨值時,管理層亦 將參考本集團委聘的獨立合資格估值師 進行的估值。由於市場狀況之改變及/ 或預期發展成本有重大變動,待發展 物業之實際可變現淨值若少於預期, 則導致重大撇減。於截至二零二四年 十二月三十一日止年度,已確認待發展 物業撇減303,149,000港元(二零二三 年:553,032,000港元)。於二零二四年 十二月三十一日,待發展物業的賬面值 為12,217,659,000港元(二零二三年: 15,419,688,000港元)。

貿易應收賬款之預期信貸虧損(附註 27(a)及35)

我們個別評估貿易應收賬款信貸減值的預期信貸虧損,其餘貿易應收賬款參照本集團內部信貸評級,基於共同信貸風險特徵進行綜合評估。估計虧損率乃基於應收賬款預期年期的歷史觀察所得違約率估計,並就無需付出過多成本或努力即可得的前瞻性資料作出調整。於每個報告日期,均會重新評估歷史觀察所得違約率,並考慮前瞻性資料的變化。

預期信貸虧損對估計變動呈敏感反應。 有關預期信貸虧損及本集團貿易應收賬 款的資料於附註27(a)及35(b)披露。

於二零二四年十二月三十一日,貿易應收賬款之賬面值為7,184,950,000港元(二零二三年:6,543,486,000港元),已扣除信貸虧損撥備938,732,000港元(二零二三年:1,090,600,000港元)。

二零二四年年報

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Key sources of estimation uncertainty (continued) ECL for debt instruments at FVTOCI (Note 35)

Due to the defaults of a bond issuer in making payments of interest and principal for its indebtedness, the Directors considered there was a significant increase in credit risk in the debt instruments at FVTOCI issued by this issuer. The Group engaged an independent qualified valuer to assist in the estimation of the ECL provision on the debt instruments at FVTOCI issued by this issuer by determining an appropriate probability of default rate, the estimated loss given default rate of each debt instrument and forward-looking adjustments.

For the remaining debt instruments at FVTOCI issued by other bond issuers, the Directors considered that the credit risk on these investments is limited as the bonds securities listed on Singapore Exchange Securities Trading Limited ("SGX") and Irish Stock Exchange and were issued by listed issuers in Hong Kong with good creditability. The Directors assess ECL on these debt instruments at FVTOCI based on the default rates published by major international credit rating agencies that are applicable to the respective debts instruments.

As at 31 December 2024, the carrying amounts of the Group's debt instruments at FVTOCI was HK\$705,341,000 (2023: HK\$861,970,000). Based on the assessment, the Group has recognised impairment loss under expected credit loss model of HK\$702,158,000 (2023: HK\$2,283,000) in profit or loss for the year ended 31 December 2024, details of which are disclosed in Note 35(b).

4. 重大會計判斷及估計不 明朗因素之主要來源(續)

應用會計政策之重大判斷(續) 按公平值計入其他全面收益之債務工具的預期信貸虧損(附註35)

由於債券發行人未能就其債務支付利息及本金,董事認為該發行人發行的按公平值計入其他全面收益的債務工具的信貸風險大幅增加。本集團委聘獨立合資格估值師,透過釐定合適的違約概率、各債務工具的估計違約損失率及前瞻性調整,協助估計該發行人發行的按公平值計入其他全面收益的債務工具之預期信貸虧損撥備。

就餘下由其他債券發行人發行的按公平 值計入其他全面收益之債務工具,董事 認為,該等投資的信貸風險有限,原因 在於此等債券證券由擁有良好信貸評級 的香港上市發行人於新加坡證券交易所 有限公司(「新交所」)及愛爾蘭證券交易 所上市發行。董事根據主要國際信貸評 級機構公佈的適用於相應債務工具的強 約率,評估按公平值計入其他全面收益 的債務工具的預期信貸虧損。

於二零二四年十二月三十一日,本集團按公平值計入其他全面收益之債務工具的賬面價值為705,341,000港元(二零二三年:861,970,000港元)。基於評估,截至二零二四年十二月三十一日止年度,本集團已於損益中根據預期信貸虧損模式確認減值虧損702,158,000港元(二零二三年:2,283,000港元),有關詳情於附註35(b)中披露。

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Key sources of estimation uncertainty (continued) ECL for loan receivable (Note 35)

During the year ended 2024, due to the defaults of the borrower of the loan receivable in making payments of interest and principal for its indebtedness, the Directors considered there was a significant increase in credit risk in the loan receivable to this borrower. The Group engaged an independent qualified valuer to assist in the estimation of the ECL provision on the loan receivable to this borrower by determining an appropriate discount factor, exposure at default, probability of default rate, the estimated loss given default rate of the loan receivable and forward-looking adjustments.

As at 31 December 2024, the carrying amounts of the Group's loan receivable was HK\$Nil (2023: HK\$721,591,000). Based on the assessment, the Group has recognised impairment loss under expected credit loss model of HK\$721,591,000 (2023: HK\$893,907,000) in profit or loss for the year ended 31 December 2024, details of which are disclosed in Notes 23 and 35(b).

4. 重大會計判斷及估計不明朗因素之主要來源(續)

應用會計政策之重大判斷(續) 應收貸款的預期信貸虧損(附註35)

截至二零二四年止年度,由於應收貸款 之借款人未能就其債務支付利息及本 金,董事認為該借款人之應收貸款的信 貸風險大幅增加。本集團委聘獨立合資 格估值師,透過釐定適當的貼現系數、 違約風險、違約概率、應收貸款的估計 違約損失率及前瞻性調整,協助估計應 收該借款人貸款的預期信貸虧損撥備。

於二零二四年十二月三十一日,本集團應收貸款的賬面價值為零港元(二零二三年:721,591,000港元)。基於評估,截至二零二四年十二月三十一日止年度,本集團已於損益中根據預期信貸虧損模式確認減值虧損721,591,000港元(二零二三年:893,907,000港元),有關詳情於附註23及附註35(b)中披露。

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Key sources of estimation uncertainty (continued) Fair value measurements and valuation processes

Some of the Group's assets are measured at fair value for financial reporting purposes. The Directors have a designated team to determine the appropriate valuation methodologies and inputs for fair value measurements.

In estimating the fair value of the Group's investment properties, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages independent qualified valuer to perform the valuation of the Group's investment properties. At the end of each reporting period, the valuation committee of the Group work closely with the independent qualified valuer to establish and determine the appropriate valuation methodologies and inputs for Level 2 and Level 3 fair value measurements. The Group will first consider and adopt Level 2 inputs where inputs can be observable, other than quoted prices in the active market. When Level 2 inputs are not available, the Group will adopt valuation methodologies that include Level 3 inputs. Where there is a material change in the fair value of the assets, the causes of the fluctuations will be reported to the Directors. Any changes in the price per square metre with reference to recent transactions will affect the fair value of the investment properties of the Group. Information about the valuation methodologies and inputs used in determining the fair value of the Group's investment properties are disclosed in Note 14. As at 31 December 2024, the carrying amount of investment properties was HK\$25,993,955,000 (2023: HK\$23,801,788,000).

4. 重大會計判斷及估計不明朗因素之主要來源(續)

應用會計政策之重大判斷(續)公平值計量及估值程序

就財務報告而言,本集團若干資產以公 平值計量。董事擁有一個專責團隊,負 責為公平值計量確定合適的估值方法及 輸入數據。

估計本集團投資物業的公平值時,本集 團使用可獲得的市場可觀察數據。倘並 無第一級輸入數據,本集團委聘獨立合 資格估值師對本集團投資物業進行估 值。於各報告期末,本集團估值委員 會與獨立合資格估值師密切合作,確 定第二級及第三級公平值計量的適當 估值方法及輸入數據。除可從活躍市 場得到報價外,本集團會先考慮及採用 第二級可觀察輸入數據。如無第二級輸 入數據,則本集團會採用含第三級輸入 數據的估值方法。倘資產公平值發生重 大變動,會向董事報告波動原因。本集 團投資物業的公平值乃受最近交易每平 方米售價之變動影響。有關釐定本集團 投資物業公平值所用估值技術及輸入數 據的資料於附註14披露。於二零二四 年十二月三十一日,投資物業的賬面值 為25,993,955,000港元(二零二三年: 23,801,788,000港元)。

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Key sources of estimation uncertainty (continued)

Fair value measurements and valuation processes (continued)

In relying on the valuation report, the Directors have exercised their judgement and are satisfied that the method of valuation is reflective of the current market conditions. Changes to these assumptions, including the potential risk of any market violation, policy, geopolitical and social changes or other unexpected incidents as a result of change in macroeconomic environment, travel restrictions implemented by many countries, increased complexity in international trade tensions geopolitics, changes in policy direction and/or mortgage requirements, or other unexpected incidents would result in changes in the fair values of the Group's investment properties and the corresponding adjustments to the amount of gain or loss reported in the consolidated statement of profit or loss.

4. 重大會計判斷及估計不明朗因素之主要來源(續)

應用會計政策之重大判斷(續)公平值計量及估值程序(續)

於依賴估值報告時,董事已行使其判斷力,並信納估值方法能夠反映現時市況。該等假設的變化(包括因宏觀經濟環境的變化、許多國家實施的旅行限制、國際貿易緊張局勢及地緣政治的複雜性增加、政策方向和/或抵押貸款的接性增加、政策方向和/或抵押貸款等求的變化或其他突發事件導致的任何可或其他突發事件等潛在風險)將導致本集團投資物業的公平值發生變化,並對綜合損益表中報告的收益或虧損金額進行相應調整。

The revenue of the Group arising from sales of laminates, PCBs, chemicals and magnetic products is recognised at a point in time. Under the transfer-of-control approach in HKFRS 15, revenue from these sales is recognised when customer acceptance has been obtained, which is the point of time when the goods are delivered based on the agreed shipping terms and the location specified by the customers, and when the customer has the ability to direct the use of these products and obtain substantially all of the remaining benefits of these products.

The revenue of the Group arising from sales of properties in the ordinary course of business is recognised at a point in time when the customer obtains control of the respective properties.

Revenue from hotel accommodation is recognised over time, as the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs.

6. SEGMENT INFORMATION

HKFRS 8 "Operating Segments" ("HKFRS 8") requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the executive directors of the Company, who are the Chief Operating Decision Makers ("CODM"), in order to allocate resources to segments and to assess their performance. Specifically, the Group's reportable segments under HKFRS 8 are organised into six main operating divisions – (i) laminates, (ii) PCBs, (iii) chemicals, (iv) properties, (v) investments (mainly investment income from debt instruments at FVTOCI and equity instruments at FVTPL) and (vi) others (mainly including service income, manufacture and sale of magnetic products and hotel business).

The accounting policies the Group used for segment reporting under HKFRS 8 are the same as those used in its HKFRS consolidated financial statements. Segment results represent the profit earned by/loss from each segment with certain items not included (share of result of an associate, share of results of joint ventures, finance costs, share-based payments, impairment losses under expected loss model on loan receivable and unallocated corporate income and expenses). This is the measure reported to the CODM for the purpose of resource allocation and performance assessment.

9. INCOME TAX EXPENSE (continued)

Under the Law of the PRC on EIT (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% for both years.

Under the EIT Law of the PRC, withholding tax of 5% – 10% is imposed on dividends declared in respect of profits earned by subsidiaries in Mainland China from 1 January 2008 onwards.

Pursuant to the EIT Law, a High-New Technology Enterprise shall be entitled to a preferential tax rate of 15% for three years since it was officially endorsed. Certain subsidiaries of the Company in the PRC obtained official endorsement as a High-New Technology Enterprise ("Tax Concession") and with the expiry dates on or before 2026 (2023: 2025).

The provision of LAT is estimated according to the requirements set forth in the relevant PRC tax laws and regulations. LAT has been levied at progressive rates ranging from 30% to 60% on the appreciation of land value, represented by the excess of sales proceeds of properties over prescribed direct costs. Prescribed direct costs are defined to include costs of land, development and construction costs, as well as certain costs relating to the property development. According to the State Administration of Taxation's official circulars, LAT shall be payable provisionally upon sales of the properties, followed by final ascertainment of the gain at the completion of the properties development.

Under the two-tiered profits tax rates regime of Hong Kong Profits Tax, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%. Accordingly, the Hong Kong Profits Tax of the qualifying group entity is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million.

The Group is operating in UK where the Pillar Two Rules are effective, and Thailand where the Pillar Two Rules are enacted but not effective. However, as the Group's estimated effective tax rates of all the jurisdictions in which the Group operates are higher than 15%, after taking into account the adjustments under the Pillar Two Rules based on management's best estimate, the management of the Group considered the Group is not liable to top-up tax under the Pillar Two Rules.

9. 所得税開支(續)

按照「中國企業所得税法」(「企業所得税法」)及實施條例,兩個年度於中國附屬公司之企業所得税税率為25%。

根據中國企業所得稅法,自二零零八年 一月一日起,就在中國國內附屬公司 所賺取的利潤所宣派的股息徵收5%至 10%的預提稅。

根據企業所得稅法,高新技術企業可自 其獲官方認可起享有為期三年的15%稅 率優惠。本公司若干中國附屬公司獲官 方認定為高新技術企業(「稅務優惠」), 到期日為二零二六年或之前(二零二三 年:二零二五年)。

計提土地增值稅撥備是按有關中國稅法 及規則要求估算。按土地增值金額(根 據物業銷售收入扣去指定直接成本)以 累進稅率30%至60%基準繳交土地增值 稅。指定直接成本界定為土地成本,發 展及建築成本,及其他關於房產發展的 成本。按照國家稅務總局之官方公告, 銷售物業時應暫繳土地增值稅,到房產 發展完成後才確認所得收益。

根據利得稅兩級制或香港利得稅制度, 合資格集團實體的首二百萬港元利潤將 按8.25%徵稅,而超過二百萬港元的利 潤則須按16.5%徵稅。不符合利得稅兩 級制的集團實體的利潤將繼續按16.5% 的固定稅率徵稅。因此,合資格集團 實體首二百萬港元估計應課稅溢利則按 按8.25%的稅率繳納香港利得稅,而 二百萬港元以上之估計應課稅溢利則按 16.5%的稅率繳稅。

本集團於英國(支柱二規則已生效)及泰國(支柱二規則已頒佈但尚未生效)經營業務。然而,由於本集團於所有經營所在司法權區之估計實際稅率均高於15%,在考慮根據管理層的最佳估計而作出的支柱二規則下的調整後,本集團管理層認為本集團毋須根據支柱二規則繳納補足稅款。

INCOME TAX EXPENSE (continued) 9.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

Income tax expense for the year can be reconciled to the profit before taxation per the consolidated statement of profit or loss as follows:

In determining the fair value of the relevant properties, the Directors have set up a valuation committee, which is headed up by the persons in charge of financial matters of the Group, to determine the appropriate valuation techniques and inputs for fair value measurements.

The Group engages an independent qualified valuer to perform its valuations. The persons in charge of financial matters report the valuation committee's findings to the Directors every quarter to explain the cause of fluctuations in the fair value of the assets.

The Group's investment properties were classified as Level 3 of the fair value hierarchy as at 31 December 2024 and 2023.

The fair value of the Group's investment properties at 31 December 2024 and 2023 had been arrived at on the basis of a valuation carried out by Ravia Global Appraisal Advisory Limited, an independent qualified valuer not connected to the Group. Ravia Global Appraisal Advisory Limited is a member of the Hong Kong Institute of Surveyors. The Group leases various leasehold land, leased properties and plant and machinery for its operations. Lease contracts are entered into for fixed term of 1 year to 50 years (2023: 1 year to 50 years). Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

The Group regularly entered into short-term leases for leased properties. As at 31 December 2024 and 2023, the portfolio of shortterm leases is similar to the portfolio of short-term leases to which the short-term lease expense disclosed in this note above.

Pre-tax discount rate	税前貼現率	14%	14%	12% - 15.7%	12% – 15.7%	12%	12%

The key assumptions are determined based on the unit's past performance and the management's expectations for the market development and the growth rates used to extrapolate cash flow projections beyond the first five-year (2023: five-year) period do not exceed the long-term average growth rates for the relevant industries and growth rates ranging from 0% to 3% (2023: 0% to 3%). The cash flow projections, growth rates and pre-tax discount rate have been reassessed as at 31 December 2024 and 2023 taking into consideration higher degree of estimation uncertainties in the respective year due to how the recovery of industry and economy. The growth rates covering a five-year period of 2% (2023: 2%) for Laminates, 0% to 8% for PCBs and 0% (2023: 0%) for Chemicals.

Since the recoverable amounts of each group of CGUs were above their carrying amounts, no impairment loss was recognised.

The management believes that any reasonably possible changes in any of these assumptions would not cause the carrying amount of each group of CGUs to exceed their respective recoverable amount.

主要假設乃按該單位過往表現及管理層對市場發展之期望及用作估算首五年(二零二三年:五年)估計現金流量的增長率而釐定,且不超逾相關行業平均長期增長率,而且增長率介乎0%至3%(二零二三年:0%至3%)。現金流量預測、增長率和税前貼現率已於二零二四年及二零二三年十二月三十一日重新销估,計及各自年度因行業及經濟復甦程度而導致的較高程度的估計不確定性。覆銅面板、印刷線路板及化工產品涵蓋五年期間的增長率分別為2%(二零二三年:2%)、0%至8%及0%(二零二三年:0%)。

由於各組現金產生單位之可收回金額高於其賬面值,故並無確認減值虧損。

管理層相信,該等假設如有任何合理潛 在變動將不會使各組現金產生單位之總 賬面值超逾總可收回金額。

28. TRADE AND OTHER PAYABLES AND BILLS PAYABLES AND CONTRACT LIABILITIES (continued)

Contract liabilities (continued)

Typical payment terms with which impact on the amount of contract liabilities recognised are as follows:

Sales of properties

The Group typically receives 30% to 50% of the contract value as deposits from customers on entering of a sale and purchase agreement of properties and will receive the remaining contracted sum prior to customers obtaining control of the respective properties. The deposits and advance payment schemes result in contract liabilities being recognised throughout the property contract period until the customer obtains control of the completed property.

In addition, the Group considers the advance payment schemes contain significant financing component and accordingly the amount of consideration is adjusted for the effects of the time value of money taking into consideration the credit characteristics of the relevant group entities during the year ended 31 December 2023. As this accrual increases the amount of the contract liability during the period of construction, it increases the amount of revenue recognised when control of the completed property is transferred to the customer.

Sales of laminates, chemicals and PCBs

When the Group receives a deposit before the production activity commences, this will give rise to contract liabilities at the start of a contract, until the revenue recognised when control of the goods has transferred, being when the goods have been delivered. The Group typically receives a 30% to 50% deposit on acceptance of manufacturing orders.

28. 貿易及其他應付賬款及應付票據及合約負債(續)

合約負債(續)

典型付款條款對已確認的合約負債金額 的影響如下:

銷售物業

本集團於訂立物業買賣協議時向客戶收取相當於合約價值30%至50%的按金,並於客戶取得相關物業的控制權前收取餘下合約款項。按金及預付款項計劃導致整段物業合約期間確認合約負債,直至客戶取得竣工物業的控制權為止。

此外,本集團認為,預付款項計劃載有重大融資成分,因此,代價金額經考慮相關集團實體截至二零二三年十二月三十一日止年度的信貸特徵就款項時間值的影響作出調整。由於應計款項增加建築期間的合約負債金額,當竣工物業的控制權轉移至客戶時亦增加已確認的營業額金額。

銷售覆銅面板、化工產品及印刷 線路板

本集團會於生產活動開始前收取按金,此將於合約開始時導致合約負債,直至轉讓貨物控制權(即交付貨物之時)後確認營業額為止。本集團通常於承接製造訂單時收取30%至50%按金。

The expected life used in the model has been adjusted, based on the valuer's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

The Binomial model has been used to estimate the fair value of the options. The variables and assumptions used in computing the fair value of the share options are based on the directors' best estimate. The value of an option varies with different variables of certain subjective assumptions.

The risks associated with these financial instruments include market risk (currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Currency risk

Several subsidiaries of the Company have foreign currency sales and purchases, which expose the Group to foreign currency risk. Approximately 11.6% (2023: 11.4%) of the Group's sales are denominated in currencies other than the functional currency of the group entities making the sale, whilst almost 11.5% (2023: 16.2%) of purchases are denominated in currencies other than the functional currency of the relevant group entities.

Currency risk (continued)

The carrying amount of the Group's foreign currency denominated monetary assets and liabilities at the end of the reporting period are disclosed in respective notes. The management continuously monitors the foreign exchange exposure and will consider hedging foreign currency risk should the need arise.

Sensitivity analysis

The Group is mainly exposed to fluctuation against foreign currencies of US\$, HK\$, Euro and GBP. The following table details the Group's sensitivity to a 5% (2023: 5%) increase and decrease in functional currency of respective group entities against the relevant foreign currencies, excluding the exposures on balances denominated in US\$ of respective group entities of which functional currencies are HK\$, since the Directors are of the opinion that such exposures are not significant as HK\$ is pegged to US\$. 5% (2023: 5%) represents the management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only the outstanding monetary items denominated in foreign currency and adjusts their translation at the end of the reporting period for a 5% (2023: 5%) changes in foreign currency rates. The sensitivity analysis includes trade and other receivables, bank balances and cash, trade and other payables, bank borrowings as well as debt instruments at FVTOCI. A positive (negative) number below indicates an increase (decrease) in post-tax profit for the year where functional currency of each group entity strengthens 5% (2023: 5%) against the relevant foreign currency. For a 5% (2023: 5%) weakening of functional currency of each group entity against the relevant foreign currency, there would be an equal and opposite impact on the post-tax profit for the year.

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate loan receivable (see Note 23 for details of the loan receivable), listed bond securities with fixed coupon interest (see Note 22 for details of these listed bond securities), fixed-rate lease liabilities (see Note 30 for details of these lease liabilities) and fixed-rate bank borrowings (see Note 29 for details of these bank borrowings). The Group manages its interest rate exposures by assessing the potential impact arising from any interest rate movements based on interest rate level and outlook.

The Group's bank balances, restricted bank deposits, entrusted loans and variable-rate borrowings have exposure to cash flow interest rate risk due to the fluctuation of the prevailing market interest rate.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of HIBOR and LPR (2023: HIBOR and LPR) arising from the Group's bank borrowings.

Sensitivity analysis

The sensitivity analysis below have been determined based on the exposure to interest rates for entrusted loans and bank borrowings at the end of the reporting period. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period were outstanding for the whole year. A 50 basis points (2023: 50 basis points) increase or 50 basis points (2023: 50 basis points) decrease are used and represents the management's assessment of the reasonably possible change in interest rates. Bank balances are excluded from sensitivity analysis as the Directors consider that the exposure of cash flow interest rate risk arising from variable-rate bank balances is insignificant.

If interest rate had been 50 basis points (2023: 50 basis points) higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31 December 2024 would decrease/increase by HK\$93,517,000 (2023: decrease/increase by HK\$93,334,000) as a result of the Group's exposure to interest rates on its entrusted loans and variable-rate borrowings.

In the opinion of the Directors, the sensitivity analysis is unrepresentative of inherent interest rate risk as the year end exposure does not reflect the exposure during the year.

敏感度分析

以下敏感度分析根據報告期間結束當日委託貸款及銀行借貸的利率風險釐定。編製該分析時,假設於報告期間結束當日未到期之金融工具於整年度仍未到期。50個基點(二零二三年:50個基點)增加或50個基點(二零二三年:50個基點)減少為所用的理歷、亦是管理層對利率合理無包括銀行結餘,原因為董事認為,浮息銀行結餘產生的現金流量利率風險不大。

倘利率上升/下降50個基點(二零二三年:50個基點)且所有其他變量保持不變,本集團截至二零二四年十二月三十一日止年度的稅後利潤將減少/增加93,517,000港元(二零二三年:減少/增加93,334,000港元),原因是本集團就其委託貸款及浮息借款所面臨的利率風險。

董事認為,由於年底風險並不反 映年內風險,故敏感度分析對固 有的利率風險而言並無代表性。

Other price risk

The Group is exposed to equity and debt price risk through its investments in equity instruments measured at FVTPL and debt instruments at FVTOCI. For equity instruments measured at FVTPL quoted in the Stock Exchange and debt instruments at FVTOCI traded in over-the-counter, the management manages this exposure by maintaining a portfolio of investments with different risks. The Group has appointed a special team to monitor the price risk and will consider hedging the risk exposure should the need arise.

Sensitivity analysis

The sensitivity analyses have been determined based on the exposure to equity and debt price risk at the reporting date.

If the prices of the respective equity instruments had been 10% (2023: 10%) higher/lower, the post-tax profit for the year ended 31 December 2024 would increase/decrease by HK\$720,277,000 (2023: increase/decrease by HK\$928,917,000) as a result of the changes in fair value of equity investments at FVTPL.

If the prices of the respective debt instruments had been 10% (2023: 10%) higher/lower, the investment revaluation reserve for the year ended 31 December 2024 would increase/decrease by HK\$70,534,000 (2023: increase/decrease by HK\$86,197,000) as a result of the changes in fair value of investments at FVTOCI.

Credit risk and impairment assessment

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's maximum exposure to credit risk in the event of the counterparties' failure to perform their obligations at the end of the reporting period in relation to each class of recognised financial assets is the carrying amount of those assets as stated in the consolidated statement of financial position.

Trade receivables arising from contracts with customer In order to minimise the credit risk, the Directors have delegated the management to be responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. Before accepting any new customer, the Group uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. The Group monitors any changes in the credit quality of the trade receivables since the credit was granted and up to the end of the reporting period. Limits and scoring attributed to customers are reviewed twice a year. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. In this regard, the Directors consider that the Group's credit risk is significantly reduced.

The Group has no significant concentration of credit risk on trade receivables with exposure spread over a number of customers. However, the Group is exposed to the concentration on geographic segment in the PRC. At 31 December 2024, approximately 95% (2023: 95%) of the Group's trade receivables are arising from the PRC.

Except for credit-impaired trade receivables which are assessed for impairment individually, the remaining trade receivables are grouped based on shared credit risk characteristics by reference to the Group's internal credit ratings. Details of the quantitative disclosures are set out below in this note.

Credit risk and impairment assessment (continued)

The decrease (2023: decrease) of lifetime ECL for trade receivables that are credit-impaired is mainly due to the transfer from not credit-impaired trade receivable with a gross carrying amount of HK\$17,648,000 during the year (2023: subsequent settlement in full of trade debtors with a gross carrying amount of HK\$8,580,000).

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate.

Bills receivables

In determining the ECL for bills receivables, the Directors have considered the bills received by the Group with a maturity period of less than one year are assessed on 12m ECL by reference to the external credit rating of relevant banks, and concluded that the credit risk inherent in the Group's outstanding bills receivables is insignificant as at 31 December 2024 and 2023.

Other receivables

In determining the ECL for other receivables, the Directors have made periodic collective assessment as well as individual assessment on the recoverability of other receivables, based on historical settlement records, past experience, and also forward-looking information, as appropriate. For the years ended 31 December 2024 and 2023, the Group has considered the consistently low historical default rate of other receivables in connection with payments, and concluded the ECL of the Group's outstanding other receivables is insignificant.

信貸減值的貿易應收款項的全期預期信貸虧損減少(二零二三年:減少)主要由於年內轉撥賬面總值為17,648,000港元的非信貸減值貿易應收款項(二零二三年:其後悉數清償賬面總值8,580,000港元的貿易應收款項)所致。

倘有資料顯示對手方面對嚴重財務困難,且實際上並無收回款項的前景(如對手方被清盤或進入破產訴訟),本集團會撇銷金融資產。於適當時,在考慮法律意見後,本集團可能仍會根據收款程序處理被撇銷的金融資產。

於釐定應收票據的預期信貸虧損時,董事已考慮本集團已收票據於一年內到期,均按十二個月預期信貸虧損作並參照相關銀行的外部信貸評級評估,並得出結論本集團於二零二四年及二零二三年十二月三十一日未到期應收票據的內在信貸風險微不足道。

Entrusted loans

The Group reviews the recoverable amount of entrusted loans at the end of the reporting period to ensure that adequate impairment assessment are made for irrecoverable amounts. The entrusted loans are pledged by the properties held by the borrowers. In this regard, the Directors consider that the Group's credit risk is significantly reduced.

At 31 December 2024, 100% (2023: 100%) of the Group's entrusted loans are arising from the PRC.

Loan receivable

The Directors estimate the estimated loss rates of loan receivable based on financial background of the debtor. During the year ended 2023, due to the defaults of the borrower of the loan receivable in making payments of interest and principal for its indebtedness, the Directors considered there was a significant increase in credit risk in the loan receivable to this borrower. The Group engaged an independent qualified valuer to assist in the estimation of the ECL provision on the loan receivable to this borrower by determining an appropriate probability of default rate, the estimated loss given default rate of each debt instrument and forward-looking adjustments, which resulted in an impairment loss of HK\$893,907,000. During the year ended 2024, without any further payments of interest and principal for its indebtedness, the Directors considered there was a significant increase in credit risk in the loan receivable to this borrower. The Group engaged an independent qualified valuer to assist in the estimation of the ECL provision on the loan receivable to this borrower by determining an appropriate probability of default rate, the estimated loss given default rate of each debt instrument and forward-looking adjustments, which considered the loan receivable is credit-impaired and resulted in an impairment loss of HK\$721,591,000.

At 31 December 2024, the Group is exposed to concentration of credit risk on its loan receivable as 100% (2023: 100%) of the loan receivable is concentrated in one (2023: one) debtor. The Group's loan receivable is exposed to credit risk due to the default of repayment by the debtor. As at 31 December 2024, the carrying amounts of the Group's loan receivable was HK\$Nil (2023: HK\$721,591,000). 應收貸款(續)

於二零二四年十二月三十一日, 本集團應收貸款有集中信貸風 險,因為100%(二零二三年: 100%)應收貸款集中於一名(二 零二三年:一名)債務人。本集 團的應收貸款承受信貸風險,原 因是債務人可能拖欠還款。於二 零二四年十二月三十一日,本集 團應收貸款的賬面價值為零港元 (二零二三年:721,591,000港 元)。基於評估,截至二零二四 年十二月三十一日止年度,本集 團已於損益中根據預期信貸虧損 模式確認減值虧損721,591,000 港元(二零二三年:893,907,000 港元)。

受限制銀行存款及銀行結餘

由於受限制銀行存款及銀行結餘 乃存放於信譽評級良好之多間銀 行,故該等款項之信貸風險屬微 不足道,且概無重大集中信貸風 險。

Debt instruments at FVTOCI

At 31 December 2024, the Group is exposed to concentration of credit risk on its debt instruments at FVTOCI as 100% (2023: 100%) of the total debt are concentrated in four (2023: four) bond securities listed on SGX and Irish Stock Exchange and issued by two (2023: two) listed issuers in Hong Kong. The Group's listed bond securities are exposed to credit risk due to the default of repayment by the bond issuers.

During the year ended 31 December 2023, defaults of a bond issuer in making payments of interest and principal for its indebtedness indicated significant increase in credit risk and deterioration of repayment ability. Thus, credit loss allowance of these debt instruments at FVTOCI issued by this issuer are measured on lifetime ECL basis.

The Group engaged an independent qualified valuer to perform ECL assessment on these debt instruments by determining an appropriate probability of default, the estimated loss given default of each debt instrument and forward-looking adjustments. The Directors work closely with the independent qualified valuer to establish the appropriate valuation techniques and inputs to the model.

於二零二四年十二月三十一日,本集團的按公平值計入其他全面收益的債務工具有集中信貸價,在債務總額中,100%(二零二三年:100%)集中在兩間(二零二三年:兩間)在香港上市的發行人發行的四款(二零二三年:四款)在新交所及愛爾蘭登等交易所上市的債券證券承受信證大學行人可能拖欠還款。

截至二零二三年十二月三十一日 止年度,一名債券發行人未能就 其債務支付利息及本金,顯示信 貸風險大幅增加及還款能力惡 化。因此,該發行人發行的該等 按公平值計入其他全面收益的債 務工具之信貸虧損撥備按全期預 期信貸虧損基準計量。

本集團已委聘獨立合資格估值師 透過釐定合適的違約概率、各債 務工具的估計違約損失率及前瞻 性調整,對該等債務工具進行預 期信貸虧損評估。董事與獨立合 資格估值師緊密合作,共同制定 模型之適當估值技術及輸入數 據。

Since the year ended 31 December 2024, ECL on debt instruments at FVTOCI of HK\$702,158,000 (2023: HK\$2,283,000) was recognised in profit or loss thereafter.

For the remaining debt instruments at FVTOCI issued by other bonds issuers, the Directors considered that the credit risk on these investments is limited as these bonds securities listed on Irish Stock Exchange were issued by issuers in Hong Kong with good creditability. The Directors assess ECL on these debt instruments at FVTOCI based on the default rates published by major international credit rating agencies that are applicable to the respective debts instruments credit grades. As a result of this assessment, the Directors are of the opinion that the ECL on these debt instruments is insignificant.

Other items

As at 31 December 2024, other than those financial assets whose carrying amounts best represent the maximum exposure to credit risk, the Group's maximum exposure to credit risk which will cause a financial loss to the Group arising from the amount of financial guarantees provided by the Group is disclosed in Note 37.

For financial guarantee contracts, the maximum amount that the Group has guaranteed under the respective contracts was HK\$10,147,000 (2023: HK\$322,266,000) as at 31 December 2024. At the end of the reporting period, the Directors have performed impairment assessment, and concluded that there has been no significant increase in credit risk since initial recognition of the financial guarantee contracts. Accordingly, the loss allowance for financial guarantee contracts issued by the Group is measured at an amount equal to 12m ECL. The management considers the probability of default is low and accordingly, ECL was considered as insignificant. Details of the financial guarantee contracts are set out in Note 37.

The Group provided guarantees amounting to HK\$10,147,000 (2023: HK\$322,266,000) as at 31 December 2024 to facilitate mortgage bank loans applications of purchasers of the properties that were developed by the Group.

Such guarantees will be released by banks upon delivery of the properties to the purchasers and completion of registration of the relevant mortgage properties. In the opinion of the Directors, the fair values of these financial guarantee contracts of the Group are insignificant at initial recognition and the Directors consider that the possibility of default of the parties involved is remote. Accordingly, no value has been recognised at the inception of the guarantee contracts and at the end of the reporting period as at 31 December 2024 and 2023.

37. 金融擔保合約

於二零二四年十二月三十一日,本集團 為本集團所發展物業之買家之按揭銀行 貸款申請提供約10,147,000港元(二零 二三年:322,266,000港元)擔保。

本集團就本集團所發展物業之買家取得之貸款向銀行提供擔保。該等擔保將於物業交收予買家及相關按揭物業登記完成時由銀行解除。董事認為,本集團該等財務擔保合約的公平值於初始確認時並不重大,且董事認為參與各方違約的機會極微。因此,於二零二四年及二零二三年十二月三十一日,於擔保合約開始及報告期間結束時並無確認任何價值。

38. CONTINGENT LIABILITIES

On 3 August 2011, Annuity & Re Life Ltd (the "Petitioner"), the non-controlling shareholder of Kingboard Copper Foil Holdings Limited ("KBCF"), presented a petition in the Supreme Court of Bermuda (the "Petition") in respect of KBCF against its controlling shareholders based on a complaint that the affairs of KBCF had been and/or were being conducted in a manner which was oppressive or unfairly prejudicial to the Petitioner.

The controlling shareholders of KBCF were eventually successful in defending the case following a favourable judgement by the Bermuda Court of Appeal dated 24 March 2017, Subsequently, the Petitioner filed an appeal with the Privy Council. Such appeal was withdrawn by the Petitioner following a settlement agreement reached by the Petitioner and the respondents in the Petition.

During the year ended 31 December 2019, the controlling shareholders of KBCF had purchased all of the remaining issued and outstanding ordinary shares in the capital of KBCF and KBCF has become a wholly-owned subsidiary of the KLHL.

On 22 October 2018, the Petitioner commenced an action in the Supreme Court of Bermuda under Civil Jurisdiction 2018: No. 359 against the respondents in the Petition based on purported breach of the settlement agreement (the "Settlement Action").

On 22 October 2020, the Group filed an application for striking out part of the Petitioner's claim under the Settlement Action (the "Strike-Out Application"). The Strike Out Application was unsuccessful and the substantive proceedings in the Settlement Action are continuing.

Further to a hearing on 14 December 2022, the issue of the Singapore Letter of Request and the adjournment were ordered by the Court. Despite the adjournment, expert reports were exchanged on 16 November 2022, and a joint expert report has been filed on or around 22 December 2022.

Based on the advice of the Company's Bermuda Counsel to date, the Board is of the opinion that the Settlement Action appears to be intrinsically defective and that the Company should have a more than reasonable chance to succeed. Accordingly, no provision for liability has been made in connection with the claim.
