Goldwind
ANNUAL REPORT 2024

### **CONTENTS**

- **2** Definitions
- 6 Corporate Information
- 8 Financial Highlights
- 10 Chairman's Letter
- **12** Milestones of 2024
- **14** Management Discussion and Analysis
- **45** Profiles of Directors, Supervisors and Senior Management
- **55** The Board of Directors' Report
- **76** Supervisory Committee Report
- **79** Corporate Governance Report
- 107 Independent Auditor's Report
- 113 Consolidated Statement of Profit or Loss and other Comprehensive Income
- 115 Consolidated Statement of Financial Position
- 117 Consolidated Statement of Changes in Equity
- 119 Consolidated Statement of Cash Flows
- **122** Notes to the Consolidated Financial Statements
- **256** Financial Highlights for the Past Five Financial Years

### **Definitions**

In this annual report, the following expressions have the following meanings unless the context requires otherwise:

"2023 AGM" the 2023 annual general meeting of the Company held on 25 June 2024;

"A Shares" ordinary shares issued by the Company, with RMB-denominated par value of

RMB1.00 each, which are listed on the SZSE and traded in RMB;

"A Shareholders" the holders of the A Shares;

"AGM" annual general meeting of the Company;

"Articles" the Articles of Association of the Company, as amended, modified or otherwise

supplemented from time to time;

"associate" has the meaning as ascribed in the Listing Rules;

"Beijing Tianrun" Beijing Tianrun New Energy Investment Co., Ltd. (北京天潤新能投資有限公司),

a company incorporated under the laws of the PRC on 11 April 2007 and a wholly

owned subsidiary of the Company;

"Board" the board of directors of the Company;

"Board Committees" specialized committees of the Board established by the Board and include members

of the Board, namely the Audit Committee, Nomination Committee, Remuneration and

Assessment Committee, and Strategic Committee;

"CASBE" China Accounting Standards for Business Enterprises:

"Chairman" the chairman of the Board;

"chief executive" has the meaning as ascribed in the Listing Rules;

"China" or "PRC" the People's Republic of China. References in this annual report to the PRC exclude

Hong Kong, the Macau Special Administrative Region of the PRC and Taiwan;

"China Three Gorges China Three Gorges Corporation (中國長江三峽集團公司), a joint stock limited Corporation"

company incorporated under the laws of the PRC and the parent company of China

Three Gorges Energy;

"China Three Gorges Energy" China Three Gorges New Energy (Group) Co., Ltd. (中國三峽新能源(集團)股份有

限公司), a company incorporated under the laws of the PRC, an owned subsidiary of

China Three Gorges Corporation;

"Company" GOLDWIND SCIENCE&TECHNOLOGY CO., LTD. (金風科技股份有限公司), a joint

stock limited liability company incorporated in the PRC on 26 March 2001;

"connected person" has the meaning as ascribed in the Listing Rules;

"CSRC" China Securities Regulatory Commission;

"Corporate Governance Code" Corporate Governance Code as set out in Appendix C1 of the Listing Rules;

"Directors" the directors of the Company;

**"EGM"** extraordinary general meeting of the Company;

"Financial Statements" the audited consolidated financial statements of the Group for the financial year ended

31 December 2024, prepared in accordance with IFRSs;

"gearing ratio" net debt divided by the sum of capital and net debt;

"Group", "Goldwind", "us" or

"we"

the Company and its subsidiaries;

"GW" gigawatt, a unit of power, 1GW equals 1,000MW;

"H Shares" ordinary shares issued by the Company, with RMB-denominated par value of

RMB1.00 each, which are listed on the Hong Kong Stock Exchange and traded in

HKD;

**"H Shareholders"** the holders of the H Shares;

"HKD" Hong Kong dollars, the lawful currency of Hong Kong;

"Hong Kong" the Hong Kong Special Administrative Region of the PRC;

"IFRSs" International Financial Reporting Standards;

"kV" kilovolt, a unit of potential difference between two terminals, 1kV equals 1,000 volts;

"kW" kilowatt, a unit of power, 1kW equals 1,000 watts;

**"kWh"** kilowatt hour, the unit of measurement for calculating the quantity of power production

output. 1kWh is the work completed by a kilowatt generator running continuously for

one hour at the rated output capacity;

"Latest Practicable Date" 17 April 2025, being the latest practicable date prior to printing this annual report for

ascertaining certain information contained in this report;

"Listing Rules" the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong

Limited;

"Model Code" the Model Code for Securities Transactions by Directors of Listed Issuers as set out in

Appendix C3 of the Listing Rules;

"MW" megawatt, a unit of power, 1MW equals 1,000kW;

"NEA" National Energy Administration of the PRC (中國國家能源局);

"NDRC" National Development and Reform Commission of the PRC(中國國家發展和改革委

員會);

"President" the president of the Company;

"R&D" research and development;

"Reporting Period" year ended 31 December 2024;

"RMB" Renminbi, the lawful currency of the PRC;

"Senior Management" the members of the senior management of the Company, their profiles as at 31

December 2024 are set out in the section headed "Profiles of Directors, Supervisors

and Senior Management" on page 45 of this annual report;

"SFO" the Securities and Futures Ordinance, Chapter 571 of the Laws of Hong Kong, as

amended, supplemented or otherwise modified from time to time;

"Shareholders" shareholders of the Company;

**"State Council"** the State Council of the PRC (中國國務院);

"Hong Kong Stock Exchange" The Stock Exchange of Hong Kong Limited;

"subsidiary" has the meaning as ascribed in the Listing Rules;

"Supervisors" the supervisors of the Company;

**"Supervisory Committee"** the supervisory committee of the Company;

"SZSE" Shenzhen Stock Exchange;

"Wind Farm Investment and

Development"

the Group's Wind Farm Investment and Development segment, one of the three

primary business segments of the Group;

"Wind Power Services" the Group's Wind Power Services business segment, one of the three primary business

segments of the Group;

**"WTG"** wind turbine generator;

"WTG Manufacturing" the Group's WTG R&D, Manufacturing and Sales business segment, the core business

of the Group and one of the three primary business segments of the Group;

"Xinjiang" the Xinjiang Uyghur Autonomous Region of the PRC;

"Xinjiang Wind Power" Xinjiang Wind Power Co., Ltd. (新疆風能有限責任公司), a state-owned enterprise

incorporated under the laws of the PRC and a substantial shareholder of the Company;

"YoY" year-over-year, a method of evaluating two or more measured events to compare the

results at one time period with those from another time period on an annualized basis;

and

"%" percent, in this annual report, calculations of percentage shall be based on the

financial data contained in the Financial Statements including the relevant notes

(where applicable).

Dear Shareholders,

On behalf of the Board, I hereby present to you the 2024 Annual Report of Goldwind.

Under the impetus of the global energy structure transformation and the "dual carbon" goals, the large-scale development of WTGs is accelerating continuously. Onshore wind power is vigorously promoting the construction of large-scale wind and photovoltaic bases in deserts, Gobi, and desert areas, while offshore wind power is moving towards large-scale and deep-sea development. According to the statistical data from NEA and China Electricity Council, the newly installed capacity of wind power in China amounted to 79.82GW in 2024, increasing by 6% compared to 2023. In 2024, the accumulated installed wind power capacity in China came in at approximately 520GW, representing a YoY growth of 18.0%.

With strong R&D and product technology advantages, forward-looking industrial layout and diversified profit model, Goldwind constantly pursues high-quality, high-efficiency and large-scale development. During the Reporting Period, the Group's operating revenue was RMB56,516.21 million. Net profit attributable to owners of the Company was RMB1,860.45 million. According to Bloomberg New Energy Finance, the Company added 18.67GW of domestic installed wind power capacity in 2024, with a domestic market share of 22%, ranking first in China for 14 consecutive years. The Company added 19.3GW of global installed capacity, with a global market share of 15.9%, ranking first in the world for 3 consecutive years.

During the Reporting Period, the Group's revenue from the sales of WTGs and components was RMB38,920.58 million, accounting for 68.87% of the total. The Group's external sales totaled 16,052.99MW

in 2024. By the end of the Reporting Period, the Company's total orders on hand amounted to 47,403.91MW, representing a YoY growth of 55.93%.

In order to respond to the diversified needs of the market and customers, the Company has continuously optimised and upgraded the existing product platforms around the strategy of product and technology leadership, and has now formed a multi-platform series of GWHV11, GWHV12, GWHV15, GWHV17, GWHV20, and GWHV21, with a rich spectrum of products covering both the onshore, offshore and overseas wind power market. In the domestic onshore market, the Company relies on the synergistic advantages of the GWHV12 and GWHV17 platforms to build a full-scenario solution for wind power. In the domestic offshore market, the GWHV20 platform unit achieved the first one million kW project of delivery and grid power generation in the same year, reflecting the Company's high efficiency in crane installation and high-quality delivery capability of offshore units. In 2024, the Company's new overseas orders reached a record high, and it has achieved signed orders in a cumulative total of 47 countries. In terms of technological innovation, the Company released a new generation of wind resource assessment software "GoldFoam 3.0", and obtained the first DNV certification in China. In 2024, Goldwind won the "Wind Power Leader" Best Offshore Unit Award (13~16MW) and Best Offshore Unit Award (16~18MW), Best Innovative Product Award for the Year and 3 Best Service Product Awards, totalling 6 awards.

In 2024, the Company has actively expanded hybrid towers, and energy storage businesses. In the hybrid tower business, the domestic new orders signed in 2024 increased by 104% YoY, with the market share ranking first in the industry. In terms of energy storage business, the external new order volume in 2024 increased by 2.4 times YoY, and the external shipment scale improved by 2 times YoY.

As one of the first companies in China to enter the wind power post-warranty service market, Goldwind has comprehensive and systematic solution capabilities in the industry, as well as a complete service network, spare parts network and digital team. Through consecutive years of exploration and testing, Goldwind's wind power service business has made considerable progress in "unmanned wind farm" solutions, power prediction accuracy and asset management services, providing customers with diversified solutions for cost reduction and efficiency enhancement, as well as comprehensive and reliable service support. In terms of energy and carbon business, the Company has constructed load-side full-stack solutions with wind and storage as the core to promote the transformation and upgrading of energy and carbon business, and has obtained the 155MW generation in source, grid, load and energy storage project.

As of the end of the Reporting Period, the Company's post warranty projects under operation at home and abroad totaled nearly 40GW, representing a YoY growth of 30%, the scale of the Company's external wind farm asset management services had reached 13,776MW. During the Reporting Period, the Group's revenue from the Wind Power Service business was RMB5,507.03 million.

During the Reporting Period, the Company successfully acquired a number of high-quality wind power projects to further consolidate its market position. At the same time, the Company focused on the development of offshore wind power resources, and successfully won the bid for large-scale offshore wind power projects, achieving the first breakthrough in offshore wind power project resources in state-controlled waters. During the Reporting Period, the Group's revenue from electricity generation through wind power projects was RMB6,237.27 million. Gain on disposal of equity investment in wind farms totaled RMB666.24 million. In addition, the Company actively explored new business areas and deployed wind power hydrogen production, power supply in industrial parks and other businesses, so as to adapt to the changes in the industry with keen market insights and seek new growth points for development.

In terms of water treatment, Goldwind actively carried out municipal wastewater and industrial wastewater treatment business and water plant operation service, supported by comprehensive water solutions. During the Reporting Period, the Group's revenue from water operation business totaled RMB1,011.99 million.

Wind power industry application scenarios presented a diversified and complex trend. Technology iteration and policy guidance jointly promoted the penetration of wind power into a wider range of fields. In the face of increasingly complex wind power application scenarios, Goldwind insisted on high-quality development as the guide, and scientific and technological innovation as the core, and continued to break through the boundaries of wind power technology, products and application scenarios, and maintained its leading position in the wind power market both domestically and globally. The Company will build an innovative layout with WTGs as the main line, radiating energy development, services, hybrid tower, energy storage, energy carbon and green chemical business, and accelerate breakthroughs in the international market and new business areas.

Finally, on behalf of the Board, I would like to express my most sincere gratitude to our Shareholders and business partners for their unwavering support and encouragement in 2024, and to each of Goldwind's employees for their contribution to the Company.

### Wu Gang

Chairman

Beijing, 28 March 2025

## JANUARY \*

Goldwind was approved to set up a national standard verification station (wind power), becoming the only company in the wind power industry to be shortlisted.

### APRIL 💠

The 500,000-ton green methanol project with wind power coupling in Xing'an League initiated by Goldwind has been launched.

### JUNE ♦♦

Goldwind launched the new energy storage product GoldBlock L700 and the new generation liquid-cooled energy storage system GoldStack 2.0.

### JULY \*

Goldwind completed the nation's first 220kV black start experiment of the grid forming wind storage station.

The Goldwind Fuyang hybrid tower prefabrication plant has been awarded the first DNV European standard factory manufacturing assessment certificate in China.

### **AUGUST**

Goldwind's first overseas equipment manufacturing base, the Brazilian wind power equipment manufacturing base, was officially put into operation.

### SEPTEMBER <sup>♦</sup>♦

Goldwind completed a single batch of 1 million green electricity certificates, equivalent to providing 1 billion kWh of green electricity.

Goldwind won three awards, including the 20th New Fortune Outstanding Board Secretary, the Best ESG Information Disclosure Award, and the 7th Best IR Hong Kong Stock Company (A+H Shares).

# OCTOBER \*

Goldwind launched the new generation of its flagship sea-land products GWH300-20(25) MW, GWH204 Ultra series.

The National Wind Power Generation Technology Innovation Center, led by Goldwind, was inaugurated in Xinjiang.

### NOVEMBER ♦

Goldwind entered into a long-term contract with global shipping giant Hapag-Lloyd for the delivery of 250,000 tons per annum of green methanol.

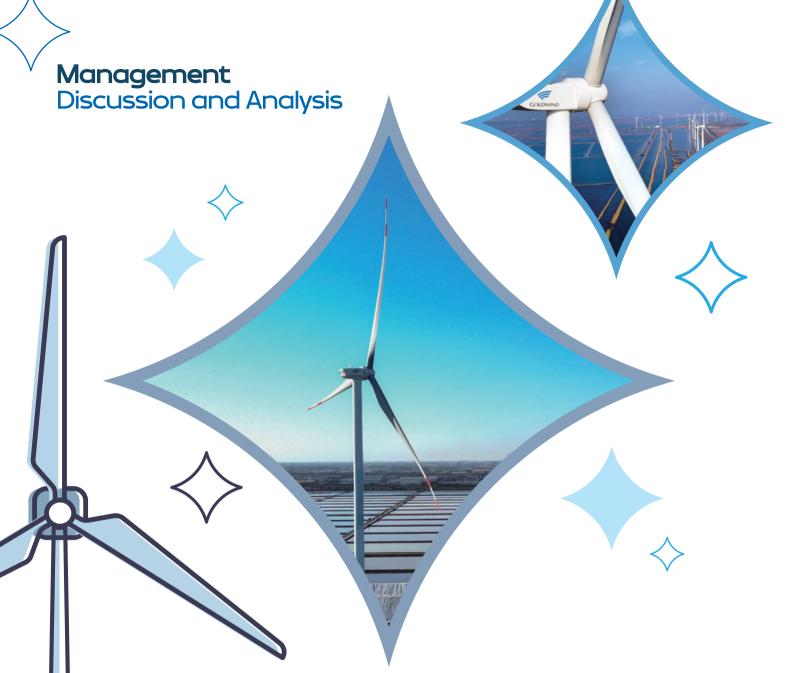

Goldwind has cumulatively repurchased 42,228,173 A Shares through centralized bidding.

### DECEMBER <sup>♦</sup>♦

Goldwind has granted 39,400,000 A Shares that were repurchased under the Company's 2024 Restricted A Share Incentive Scheme, and the number of repurchased A Shares that have not yet been granted or cancelled is 2,828,173.

Goldwind successfully rolled out the new-generation 22MW offshore wind turbine at its manufacturing base in Shantou, setting a new record for the largest single-unit capacity of offshore wind turbines in Guangdong.

### I. THE INDUSTRY SITUATION IN WHICH THE COMPANY OPERATES DURING THE REPORTING PERIOD

In 2024, the world economy remained generally stable, but the growth rate was low. The International Monetary Fund (IMF) pointed out in the latest edition of its World Economic Outlook Report that global economic growth was 3.2% in 2024, and it is expected to be 3.3% in 2025, essentially unchanged from 2023. The global economic outlook faced downside risks in an environment of geopolitical conflict, rising trade and investment protectionism, and rising policy uncertainty.

The year 2024 is a critical year for achieving the goals and tasks of the "14th Five-Year Plan". In the face of the complex situation of intensifying external pressure and increasing internal difficulties, China has steadfastly promoted high-quality development, expanded domestic demand, promoted the integration of scientific and technological innovation and industrial innovation, and made progress in economic operation in a stable and steady manner. According to the data from the National Bureau of Statistics, China's gross domestic product (GDP) exceeded RMB130,000 billion for the first time in 2024, up by 5.0% YoY.

China registered ongoing growth in electricity demand during the Reporting Period. According to data released by the NEA, electricity consumption grew by 6.8% YoY to 9,852.1 billion kWh in 2024. On the power supply side, as at the end of December 2024, the accumulated installed power generation capacity of China was

approximately 3.35 billion kW, representing a 14.6% YoY increase, among which the accumulated installed capacity of wind power was approximately 520 GW, representing an 18.0% YoY increase.

### i. MAIN POLICIES REVIEW

In 2024, China took the carbon peak and carbon neutrality as the lead, integrated energy security and low-carbon development, accelerated the planning and construction of a new energy system, steadily promoted the green and low-carbon transformation of energy, and made every effort to promote the development of renewable energy to a new level. The NDRC, the NEA and other departments have continued to push forward energy reform and the rule of law, launch policies to promote the development of clean energy, improve the consumption and regulation of new energy sources, build a unified national electricity market, and promote the consumption of green electricity, accelerating the construction of a new energy system.

# 1. Establish a new mechanism for energy development and utilization and build a green and low-carbon economic system

On 11 January 2024, the Central Committee of the Communist Party of China and the State Council issued the Opinions on Comprehensively Promote the Construction of a Beautiful China, proposing that by 2035, green production and lifestyle shall be widely formed, carbon emissions will stabilize and decline after peaking, the ecological environment will improve fundamentally, and the new layout of development and protection of land and space will be achieved. The diversity, stability and continuity of ecosystem have improved significantly, with national ecological security becoming more stable, the modernization of the ecological environment governance system and governance capabilities being realized basically, and the goal of a beautiful China achieved as a whole. Meanwhile, carbon peaking and carbon neutrality should be advanced steadily, and actions for carbon peaking should be implemented in a planned and step-by-step manner. By adhering to the principle of establishing first and breaking then, planning and construction of new

energy systems will be accelerated to ensure energy security. Focusing on controlling the consumption of fossil energy such as coal, it will strengthen the cleaning and efficient use of coal, vigorously develop non-fossil energy, and accelerate the construction of new power systems.

On 29 May 2024, the State Council issued the Energy Conservation and Carbon Reduction Action Plan for 2024-2025, proposing that in 2024, energy consumption and carbon dioxide emissions per unit of GDP will reduce by approximately 2.5% and 3.9%, respectively, energy consumption per unit of added value of industrial enterprises above designated size will reduce by approximately 3.5%, the proportion of non-fossil energy consumption will reach approximately 18.9%, and energy conservation and carbon reduction transformation in key areas and industries will decrease by approximately 50 million tons in terms of standard coal and decrease by approximately 130 million tons in terms of carbon dioxide emissions. In 2025, the proportion of non-fossil energy consumption will reach approximately 20%, and energy conservation and carbon reduction transformation in key areas and industries will decrease by approximately 50 million tons in terms of standard coal and decrease by approximately 130 million tons in terms of carbon dioxide emissions.

On 31 July 2024, the Central Committee of the Communist Party of China and the State Council issued the Opinions on Accelerating the Comprehensive Green Transformation of Economic and Social Development, pointing out that it is necessary to steadily push forward the green and low-carbon transformation of energy sources, strengthen the clean and efficient use of fossil energy sources, vigorously develop non-fossil energy sources, and accelerate the construction of a new type of electric power system, and explicitly proposed that, by 2030, the proportion of non-fossil energy consumption in the whole society would be increased to about 25%.

On 30 October 2024, six departments, including the NDRC and the NEA, issued the Guidelines for Vigorously Implementing the Renewable Energy Substitution Action, which aims to promote the construction of a green, low-carbon and recycling development economic system, and promote the formation of a green, low-carbon mode of production and lifestyle, and coordinate the supply of renewable energy with the consumption of green energy in key areas, steadily promote the orderly substitution of renewable energy for traditional fossil energy, and synergistically promote the integration and substitution of renewable energy with industry, transport, construction, agriculture and rural areas.

### 2. Improve policies and measures for the consumption and regulation of new energy and accelerate the construction of a unified national electricity market

On 22 March 2024, the NEA issued the Guiding Opinions on Energy Work in 2024, stating that the energy structure continues to be optimized. The proportion of non-fossil energy power generation installed capacity has increased to approximately 55%. Wind power and solar power generation account for more than 17% of the national power generation. Natural gas consumption has increased steadily, with the proportion of non-fossil energy in total energy consumption increased to approximately 18.9%, and the proportion of terminal power consumption has continued to increase.

On 28 May 2024, the NEA issued the Notice on Performing Well in New Energy Consumption and Ensuring the High-Quality Development of New Energy. The Notice proposed measures to perform well in consumption and put forward four key tasks: first, accelerate the construction of new energy supporting power grid projects; second, actively promote the improvement of system regulation capabilities and coordinated development of network sources; third, fully utilize the role of the power grid resource allocation platform; fourth, scientifically optimize the new energy utilization rate target.

On 8 November 2024, the twelfth meeting of the Standing Committee of the 14th National People's Congress voted to adopt the Energy Law of the People's Republic of China (the "Energy Law"), which came into force on 1 January 2025. It explicitly supports the priority development and use of renewable energy, and establishes a guarantee system for renewable energy power consumption. It also requires the improvement of the acceptance, allocation and regulation of renewable energy in the power grid, and setting up a mechanism to promote green energy consumption. The Energy Law proposes to "accelerate to build a new type of power system", strengthen the "source-grid-load-storage" synergistic layout, and strengthen the status of energy planning from the legal level, requiring that the construction of a new type of power system should pay full attention to lead, guide and regulate energy and power planning.

On 29 November 2024, under the coordination and organisation of the NEA, the China Electricity Council, together with a number of units, released the Blue Paper on the Development Plan for a National Unified Electricity Market. According to the plan, by 2025, the preliminary construction of the national unified electricity market will be completed; by 2029, the national unified electricity market will be fully completed. In terms of the construction of market mechanisms to adapt to the green low-carbon transition, the new energy market consumption will account for more than 50% before 2025; and new energy will be fully participated in the market before 2029.

### 3. Build a dual-control policy and management mechanism for carbon emissions and create a green environment for electricity consumption

On 30 July 2024, the General Office of the State Council issued the Work Plan to Accelerate the Establishment of a Dual-Control System for Carbon Emission, proposing to improve the management system for energy conservation and carbon reduction of enterprises, improve the management system for key energy-consuming and carbon-emitting units, and give full play to the regulatory role of market mechanisms, such as the national trading of carbon emission rights, the national trading of greenhouse gases for voluntary emission reductions, and the trading of green electricity certificates.

On 26 August 2024, the NEA issued the Rules for Issuance and Trading of Renewable Energy Green Electricity Certificates, which clarifies the division of responsibilities for green electricity certificates, account management, issuance of green electricity certificates, green electricity certificate trading and transfer, green electricity certificate cancellation, information management and supervision, and other specific requirements. It helps to reflect the green environmental value of renewable energy projects, better cultivate the green electricity certificate and green power trading market, and create a green power consumption environment.

On 23 October 2024, the NDRC, the Ministry of Ecology and Environment and other departments jointly issued the Work Plan for Improving the Carbon Emission Statistics and Accounting System, stating that by 2025, the national and provincial annual and express reporting system for carbon emissions will be fully established, the national database of greenhouse gas emission factors will have been basically built and regularly updated, and the level of capacity for carbon emission-related measurement, testing, monitoring, and analysis will have been significantly upgraded; by 2030, the construction of a systematic and complete statistical accounting system for carbon emissions will be completed.

### 4. Promote the development of decentralized wind power and open up space for the development of deepsea wind power

On 13 March 2024, the State Council issued the Action Plan for Promoting Large-Scale Equipment Renewal and Consumer Goods Trade-in, proposing to improve the standards for upgrading and decommissioning wind turbines, photovoltaic equipment and products, explore the remanufacturing business of high-end equipment in emerging sectors such as wind power, photovoltaics, and aviation. By accelerating the R&D of residual life assessment technology for wind power, photovoltaics, power batteries and other products and equipment, the cascade utilization of products, equipment and key components shall be promoted orderly.

On 1 April 2024, the NDRC, the NEA and the Ministry of Agriculture and Rural Affairs issued a Notice on Organizing and Launching the "Thousands of Villages Wind Power Coverage Action", proposing that during the "14th Five-Year Plan" period, in rural areas of counties (cities, districts, and banners) fulfilling conditions, a number of wind power projects developed and utilized locally and nearby will be constructed village-by-village, with each administrative village not exceeding 20MW in general, to explore the formation of a new model of wind power investment and construction of "village-enterprise cooperation" and a new mechanism for the distribution of benefits of "co-construction and sharing", and promote the construction of a new layout of wind power development and utilization of "wind power in the village, increased collective benefits, and benefits for villagers". At the same time, the basic principles for the implementation of the Thousands of Villages Wind Power Coverage Action, the division of responsibilities in various links, the innovative mechanisms for approval, benefit distribution and application scenarios, and the support and guarantee of land use, grid connection and consumption, and finance were proposed.

On 29 August 2024, the State Council Information Office released a White Paper on China's Energy Transition. It proposes to accelerate the construction of a new energy supply system that is diversified, clean, secure and resilient. It also proposes to promote the construction of large-scale wind power and photovoltaic bases in an orderly manner, promote the development of offshore wind power on a large scale and in clusters, and carry out the Thousands of Villages Wind Power Coverage Action to promote the development of distributed new energy.

#### ii. INDUSTRY REVIEW

### 1. China's cumulative wind power construction scale continues to grow, and the new grid connection scale reaches a new high

According to the statistical data from NEA and China Electricity Council, the newly installed capacity of wind power in China amounted to 79.82GW in 2024, increasing by 6% compared to 2023. From the perspective of the distribution of newly installed capacity, the "Three North" regions account for 75% of the national newly installed capacity. In 2024, the accumulated installed wind power capacity in China came in at approximately 520GW, up by 18.0% YoY, including 480GW of onshore wind power and 41.27GW of offshore wind power. The national wind power generation amounted to 991.6 billion kWh in 2024, up by 16% YoY. The average utilization rate of wind power across the country was 95.9%, remaining steadily above 95%. The national utilization of wind power equipment connected to the grid was 2,127 hours on average in 2024.

### 2. Strongly promote the onshore construction of large-scale bases focusing on deserts, Gobi, and desert areas, and develop offshore construction towards large-scale and deep-sea

According to the statistical data from NEA, in 2024, the first batch of large-scale wind power photovoltaic bases was basically completed and put into operation. As of the end of 2024, the first batch of bases had been completed with 91.99GW, accounting for approximately 95%, and put into operation with 90.79GW. The construction of the second and third batches of large-scale wind power photovoltaic bases of the "deserts, Gobi, and desert areas" projects was being actively promoted. Offshore wind power has entered a stage of large-scale development, rapidly expanding from the offshore to deep sea, shifting from a single project mode to a large-scale base mode, and a number of provinces are actively planning and promoting the construction of deep-sea wind power projects. The offshore wind power industry chain system has been gradually completed, and the key core technologies continue to break through. The largest single capacity of offshore wind turbines launched by the wind turbine manufacturers has exceeded 20MW, laying a solid foundation for large-scale development.

### 3. Steady increase in the scale of public bidding for WTG

In 2024, new bids for WTGs in the domestic market reached 164.1GW, increasing by 90.2% YoY. Among which 152.8GW was attributable to onshore wind power bids and 11.3GW to offshore bids. By region, 80.5% were located in north China and 19.5% were located in south China. The trend of larger-scale WTGs continues to develop, and the proportion of 6MW-unit turbines and above in the bidding volume has further increased.

### 4. The global layout of clean energy is accelerating, and China's production capacity is contributing a key force

According to the Energy Outlook (2024 edition) released by British Petroleum, the cost of wind power generation continued to decline, thanks to increasing load factor of wind turbines and the continuous reduction in operating costs, and the layout of new clean energy capacity has accelerated. According to Bloomberg New Energy Finance, China's abundant clean energy manufacturing capacity is a key force driving the significant reduction in the cost of global clean energy projects, and plays an important role in improving the economics of clean energy projects. According to statistics from the Wind Energy Association of the China Renewable Energy Society, in 2024, China's new export capacity of wind turbines increased by 41.7% YoY.

### II. PRIMARY ACTIVITIES OF THE COMPANY DURING THE REPORTING PERIOD

The Company is mainly engaged in three primary activities, namely WTG Manufacturing, Wind Power Services and Wind Farm Investment and Development and other activities such as water treatment, which provide the Company with diversified sources of profits. Drawing from the Goldwind's extensive experience in R&D and manufacturing of WTGs and wind farm construction, the Company is able to provide its customers with high-quality WTGs as well as comprehensive solutions, which include Wind Power Services and Wind Farm Investment and Development, allowing the Company to meet its customers' demands in multiple segments of the wind power industry's value chain. The Company's turbines are capable of sustained operation in many varying environments, from high to low temperatures, high altitude, low wind speed and marine environments. In terms of market expansion, the Company has actively expanded into the global wind power market while consolidating the domestic market, with development spreading across six continents.

### III. CORE COMPETITIVE ADVANTAGES

### 1. Market Leading Position

Goldwind was among the earliest enterprises to enter the field of WTG manufacturing in China. After more than 20 years of development, Goldwind has become an industry-leading, comprehensive wind power solution provider both in China and overseas. Relying on the advanced technology and products, and years of experience in WTG R&D and manufacturing, the Company's WTGs with independent intellectual property rights ranked first in domestic new wind power installations for 14 consecutive years, and ranked first in the global new wind power installations for 3 consecutive years.

### 2. Advanced Products and Technology

Goldwind has always attached great importance to investment in R&D and innovation, persisted in product and technological innovation, continuously improved the performance of wind turbine products, enriched the wind turbine products, and actively established a complete intellectual property management system to continuously enhance the Company's innovation capabilities and core competitiveness. The Company has established "1+1+6" R&D layout and more than 3,000 R&D staff with extensive industry experience. Through mastering more cutting-edge technologies, the Goldwind constantly develops and streamlines its serialized product portfolio to ensure the application of products in diversified usage scenarios and the Company's market coverage. The Company's outstanding product quality and performance have been demonstrated by its substantial order backlog in the market, which provides visibility to the Company's revenue in the foreseeable future.

### 3. Excellent Product Quality

The Company attaches great importance to the quality of WTGs and insists on the approach of quality benefits. With more than 20 years of WTG R&D and manufacturing experience, the Company ensures the quality and reliability of WTGs and reduces the levelized cost of energy throughout turbine lifecycle. Goldwind has earned good reputation and industry leverage after years of industry precipitation thanks to its advanced technology, excellent quality, high power generation efficiency, warranty service and overall solutions for its customers. It has been highly recognized by the government, customers, partners and investors.

### 4. Comprehensive Solution Provider

Relying on the Company's advanced technology and products, and years of experience in wind power development, construction, and O&M, in addition to WTG sales, the Company actively expands comprehensive solutions of wind farm services and wind farm development to satisfy customer demands throughout the value chain in wind power industry. Meanwhile, it has enhanced the Company's competitiveness as a whole and gained a unique advantage. In the field of energy conservation and environmental protection, the Company continuously accumulated water treatment and environmental protection assets, and developed smart water treatment comprehensive solutions. The Company is committed to becoming a global leader in clean energy, energy conservation and environmental protection comprehensive solutions. At the same time, the Company has actively explored new business areas such as hybrid towers, energy storage, and energy carbon, deeply explored the development potential of new businesses, expanded new boundaries for the efficient development and utilization of wind energy resources, and continued to promote technological innovation in wind power and peripheral product solutions, lead the balanced development of the industrial chain and help achieve the dual-carbon goal.

### 5. Global Expansion

As one of the earliest domestic wind power enterprises in China to expand overseas business, Goldwind adheres to the aim of "promoting internationalization through localization", and promotes global energy transformation and sustainable development through continuous innovation and international layout. The Company has established "1+1+6" R&D layout, 7 regional centres, 5 global solution factories and 3 international production bases, and is committed to realizing the internationalization of capital, market, technology, talents and management. Overseas business has successfully developed markets in North America, Oceania, Europe, Asia, South America and Africa, and it has the comprehensive ability to provide robust and reliable renewable energy solutions for the world. Currently, the Company's business spans across 47 countries in six continents worldwide, and the installed capacity in North America, Oceania, Asia (except China) and South America has exceeded 1GW, respectively.

#### IV. MAIN BUSINESS ANALYSIS

#### Overview

In 2024, China's wind power industry accelerated transformation driven by policies, China's "dual-carbon" goal was deepened and realized, while green and low-carbon has become a social consensus, the renewable energy grew rapidly, wind power industry application scenarios also presented a diversified and complex trend. Technology iteration and policy guidance jointly promoted the penetration of wind power into a wider range of fields. In the face of increasingly complex wind power application scenarios, Goldwind insisted on high-quality development as the guide, and scientific and technological innovation as the core, and continued to break through the boundaries of wind power technology, products and application scenarios, and improved the reliability of wind power operation through intelligent and network construction technology, and maintained its leading position in the wind power market both domestically and globally. During the Reporting Period, the Group's operating revenue was RMB56,516.21 million, representing an increase of 12.48% YoY. Net profit attributable to owners of the Company was RMB1,860.45 million, representing an increase of 39.78% YoY.

### i. WTG and components Manufacturing, R&D and Sales

According to Bloomberg New Energy Finance, the Company added 18.67GW of domestic installed capacity of wind power in 2024, with a domestic market share of 22%, ranking first in China for 14 consecutive years. The Company added 19.3GW of installed capacity of wind power on a global basis, with a global market share of 15.9%, ranking first in the world for 3 consecutive years.

### 1. WTG Manufacturing and Sales

During the Reporting Period, the Group's revenue from the sales of WTGs and components was RMB38,920.58 million, representing an increase of 18.17% YoY, accounting for 68.87% of the total operating revenue of the Group. The Group's external sales totaled 16,052.99 MW in 2024, representing an increase of 16.56% YoY. The large-scale capacity transformation process of the wind power industry continues to accelerate. During the Reporting Period, units of 6MW and above became the Company's main models, with sales capacity up by 59.15% YoY.

The following table lists out details of the Group's WTG sales in 2024 and 2023:

| Year ended 31 December                           |                      |                                |                    |                                |                             |  |
|--|----------------------|--------------------------------|--------------------|--------------------------------|-----------------------------|--|
|  | 20                   | <b>2024</b> 2023               |                    | )23                            | Percentage<br>Change of     |  |
| Model  | Units Sold           | Capacity Sold<br>(MW)          | Units Sold         | Capacity Sold<br>(MW)          | Capacity Sold               |  |
| Below 4MW<br>4MW(inclusive)-6MW<br>6MW and above | 62<br>1,183<br>1,323 | 159.24<br>6,111.72<br>9,782.03 | 66<br>1,538<br>901 | 143.00<br>7,482.70<br>6,146.59 | 11.36%<br>-18.32%<br>59.15% |  |
| Total  | 2,568                | 16,052.99                      | 2,505              | 13,772.29                      | 16.56%                      |  |

During the Reporting Period, the Company sustained stable growth for its orders on hand. As at 31 December 2024, the Company had 36,445.72MW external orders to be executed, including 593.12MW for units below 4MW, 7,921.45MW for units 4MW (inclusive)-6MW, and 27,931.15MW for units 6MW and above. The Company had 8,637.32MW of external unsigned contract orders that have been won in tenders, including 648.8MW for units 4MW (inclusive)-6MW, 7,988.52MW for units 6MW and above. The Company's external orders on hand totaled 45,083.04MW, including 7,031.82MW overseas orders. In addition, the Company had 2,320.87MW of internal orders. The Company's total orders on hand amounted to 47,403.91MW, representing a YoY growth of 55.93%.

### 2. Technology R&D and Product Certification

Driven by the transformation of global energy structure and the goal of "dual-carbon", the process of large-scale wind turbine continued to accelerate. Goldwind complied with the industry trend, increased technical investment, promoted product upgrading, and made continuous breakthroughs in the dimensions of turbine capacity, blade length, tower height, and usage scenarios. Meanwhile, Goldwind adhered to the value orientation, focused on the enhancement of the whole life-cycle revenue, focused on the needs of the customers and the market, continuously developed and improved the product platforms and promoted the technological innovation of the solutions of the wind power and the peripheral products to continuously create value for the customers.

#### a. Product R&D and Mass Production

In order to respond to the diversified needs of the market and customers, the Company has continuously optimised and upgraded the existing product platforms around the strategy of product and technology leadership, and has now formed a multi-platform series of GWHV11, GWHV12, GWHV15, GWHV17, GWHV20, and GWHV21, with a rich spectrum of products covering the onshore, offshore and overseas wind power markets.

In the domestic onshore market, the Company relies on the synergistic advantages of the GWHV12 and GWHV17 platforms to build a full-scenario solution for wind power. With the modular design of the GWHV12 platform, the delivery of a single platform for two consecutive years has exceeded 10GW; through the technological innovations of the GWHV17 platform, such as long and flexible blades and the integrated drive train, this platform has achieved full coverage of low, medium and high wind speeds, and has become a benchmark product for the high-wind speed area. The Company's newly released GWH204 Ultra flagship model deeply integrates the needs of rural wind power, mountains and other complex scenarios. This product won the "Wind Power Leader" 2024 Best Innovative Product Award.

In the domestic offshore market, the GWHV20 platform unit achieved grid power generation in the same year as the delivery of the first one million kW project, reflecting the Company's high efficiency in crane installation and high-quality delivery capability of offshore units. For future deep sea application scenarios, the Company has launched a new generation of deep sea flagship product GWH300-20(25) MW model. This unit adopts a number of innovative technologies such as fully integrated drive chain, high-performance blades, grid-type converter, and integrated cooling integration. Under future deep sea scenarios, the use of this product can reduce the levelized cost of electricity (LCOE) of wind farms by up to 10%.

In 2024, the Company's new overseas orders reached a record high, while breaking through 8 countries including Philippines, Namibia and Georgia, a total of 47 countries to achieve the signing of orders. GWHV12 and GWHV15 platform series units have become the main bidding products, covering the Middle East and North Africa, Central Asia, South America, South Africa, Asia, Europe and other regions.

The Company released a new generation of wind resource assessment software "GoldFoam 3.0", and obtained the first DNV certification in China. The software innovates and optimizes the core model for site-specific assessment of wind farms, and builds a life-cycle wind resource assessment system covering macro/micro site selection, meteorological disaster early warning and post-assessment.

### $\diamondsuit$

### Management Discussion and Analysis

Goldwind continues to carry out floating products and technology research. In 2024, the Company released a new floating system mooring system, which fully considers the design and optimisation of the floating wind turbine structure under the simultaneous action of wind and wave currents, and achieves the integrated design, simulation and calibration of the turbine-tower-floating system mooring. Floating wind turbine floating body is designed to deploy wind power generation equipment to the deep water areas far away from the coastline, in order to make full use of the rich marine wind energy resources.

In addition, Goldwind has won awards in the "Wind Power Leader" competition of China Wind Power News for 4 consecutive years. In 2024, Goldwind won the "Wind Power Leader" Best Offshore Unit Award (13~16MW) and Best Offshore Unit Award (16~18MW), Best Innovative Product Award and 3 Best Service Product Awards, totalling 6 awards. Meanwhile, the projects "Complete set of technology and equipment for safe and efficient development and industrialization of offshore wind power" and "Key technology for high-performance service and application of ultra-large-capacity wind power energy conversion system" participated by the Company were awarded the first and second prizes of the 2023 State Science and Technology Progress Award, respectively.

### b. Intellectual Property and Standard-Setting, Product Certification

With a strong emphasis on investment in R&D, Goldwind has been actively engaged in new product accreditation and protection of its core technologies through intellectual property rights to continuously improve the construction of its intellectual property management system. It owns an increasing number of patents at home and abroad with a consistently optimized mix of patent applications.

In 2024, Goldwind received 210 wind turbine certificates in total, of which 159 were domestic certificates and 51 were international certificates. The Company's turbine development certificates cover multiple platforms and various models, meeting the diverse market demands both domestically and internationally.

As at 31 December 2024, the Company had 6,173 patent applications in China, including 3,740 invention patent applications, accounting for 61% of the total. The Company obtained 4,541 patent licenses in China, including 2,279 invention patents, accounting for 50%, ranking first in the industry. The Company had 1,345 patent applications and 811 patent licenses abroad.

Meanwhile, the Company actively participated in the formulation and revision of domestic and international standards. As at 31 December 2024, Goldwind participated in the formulation and revision of 31 International Energy Commission (IEC) standards, led the formulation for one international standard, and was a participant in 14 International Energy Agency (IEA) standardised research projects. The Company also led and participated in the formulation and revision of 572 domestic standards, including 192 national standards, 186 industrial standards and 194 regional and association standards, among which 471 were already published. The Company will continue to play the role of standards in leading innovation and supporting guarantees, and promote high-quality development of the wind power industry with high standards.

### 3. Quality Management

Goldwind has always regards "highly reliable products, reliable Goldwind" as the quality vision, and adheres to "quality first". In 2024, the Company focused on the prevention of risk in core components, new product quality assurance and quality management system reform to continuously improve product reliability and customer experience, and promote the Company's high-quality development.

In terms of risk prevention of core components, the Company carried out risk investigation and technical reform of core components through the optimisation of anti-pouring tower and anti-fracture strategies, effectively avoiding hidden dangers and establishing a line of defence; in terms of guaranteeing the quality of new products, the Company strengthened the quality standards of each link, formed a red line of design and an inspection mechanism on the R&D side, and conducted a review of the realisability of the process in conjunction with the suppliers to enhance the consistency of the design and the process. The Company implemented "red and yellow card" mechanism and intensive management on the supplier side, and continuously improved the quality of supply chain products; in addition, the Company issued and implemented the "Goldwind Quality Law", which enforced the quality responsibility and realised the overall improvement of quality management maturity.

### 4. Hybrid Tower Business

The domestic new orders signed in 2024 increased by 104% YoY, with the market share ranking first in the industry; the annual delivery volume increased by 50% YoY, of which the 185m hybrid tower achieved batch delivery, continuing to lead the market. The Company released a new digitalised steel hybrid tower platform of 204m, setting a new record for tower height in the wind power industry. Meanwhile, the international business has achieved a breakthrough, successfully winning the first international project using the Company's hybrid tower solution, taking a key step in the hybrid tower strategy to go overseas. In terms of technology and certification, the Company was awarded the first DNV European Standard Factory Manufacturing Assessment Certificate in China, jointly released the White Paper on China Onshore Steel Hybrid Tower with China General Certification, the first white paper in China's wind power industry with China General Certification, and was awarded the authoritative report and certification by UL Solutions and TÜV NORD.

### 5. Energy Storage Business

The external new order volume in 2024 increased by 2.4 times YoY, and the external shipment scale increased by 2 times YoY. During the Reporting Period, the Company completed the 220kV black start and microgrid artificial short circuit experiment of the first grid-type wind storage field station in China, and the 440kW PCS of the energy storage converter successfully passed the grid-type test of the Electric Power Research Institute, which realized a major breakthrough in the grid-type technology of Goldwind, as well as completed the delivery of two grid-type energy storage projects, which further consolidated the position in the energy storage market and laid a solid foundation for the subsequent business expansion.

### ii. Wind Power Service

In 2024, Goldwind made considerable progress in "unmanned wind farm" solutions, power prediction accuracy and asset management services, providing customers with diversified solutions for cost reduction and efficiency enhancement, as well as comprehensive and reliable service support.

In terms of "unmanned" wind farms, the Company successfully implemented the first unmanned field station benchmarking project in the industry. This project realized the regional centralisation of operation and maintenance personnel and unmanned guarding on the station side through the unmanned platform system. After the "unmanned" transformation, the daily manual inspection of the station was replaced by remote intelligent inspection, and the inspection hour was reduced from 2,232 hours to 414 hours, with the overall inspection efficiency increased by 5.4 times.

In terms of power prediction, the Company combined artificial intelligence technology with the application of meteorological big model and extreme weather event collection system to realize a major breakthrough in prediction technology, with the spatial resolution greatly improved from 3km to 100m, and through the synergy of cloud platforms, the Company formed a "prediction model" with continuous self-optimization of prediction, evaluation, optimisation and training, which improved prediction accuracy by 3%-5%.

In terms of asset management services, the Company focused on reducing the volatility of new energy asset returns and built a new energy asset management platform. Through centralized monitoring, station operation, power trading and data-assisted decision-making, this platform significantly improved the operational efficiency and revenue stability of the assets. As of the end of the Reporting Period, the scale of the Company's external wind farm asset management services had reached 13,776MW.

In terms of electricity sales service, the Company owned six electricity sales companies, with a business scope covering more than 10 provinces in 2024, providing highly reliable, reasonably priced and convenient green energy to more than 3,500 power users.

In terms of energy and carbon business, the Company has constructed load-side full-stack solutions with wind and storage as the core to promote the transformation and upgrading of energy and carbon business, and has obtained the 155MW source-grid-load-storage project. During the Reporting Period, the Company released the Oasis Carbon Account product, which was certified to the Bureau Veritas ISO14064 standard. This product uses digital intelligence to help enterprises complete carbon inventory, carbon profit and loss, carbon report, carbon performance and carbon planning in a one-stop manner, while eight projects have been signed up to help enterprises achieve their carbon emission reduction targets. In addition, the Company participated in the compilation of China's first carbon emission standard "Carbon Emission Reduction Data Mutual Trust Management Standard (《碳減排數據互信管理規範》)", which was released to provide the industry with a reliable carbon emission reduction "metric" system.

As of the end of the Reporting Period, the Company's post warranty projects under operation at home and abroad totaled nearly 40GW, representing an increase of 30% YoY. During the Reporting Period, the Group's revenue from the Wind Power Service business was RMB5,507.03 million, among which the post-warranty service revenue totaled RMB3,912.97 million, representing an increase of 29.26% YoY.

### iii. Wind Farm Investment and Development

In 2024, the Company continued to plough deeper into the traditionally dominant regions such as North China and Northwest China, and successfully acquired a number of high-quality wind power projects to further consolidate its market position; Meanwhile, the Company has accurately laid out the central and southeastern regions, and won a number of high-quality projects. In addition, the Company actively explored new business areas and deployed wind power hydrogen production, power supply in industrial parks and other businesses. At the same time, the Company focused on the development of offshore wind power resources. During the Reporting Period, the Company successfully won the bid for large-scale offshore wind power projects, achieving the first breakthrough in offshore wind power project resources in state-controlled waters.

During the Reporting Period, the newly added grid-connected attributable installed capacity in wind farms run by the Company at home and abroad amounted to 1,980.28MW, and the Company transferred 331.25MW of grid-connected attributable capacity. As of the end of the Reporting Period, the global cumulative grid-connected attributable installed capacity totaled 8,042.85MW, and the attributable capacity in wind farms under construction was 3,763.94MW.

During the Reporting Period, the Group's revenue from electricity generation through wind power projects was RMB6,237.27 million. Gain on disposal of equity investment in wind farms totaled RMB666.24 million.

As of the end of the Reporting Period, the Company's wind power assets accounted in the consolidated financial statements covered 22 provinces across China, and the Company's power generation at home and abroad accounted in the consolidated financial statements was 16.262 billion kWh, and on-grid power generation was 15.643 billion kWh. During the Reporting Period, the number of average power generation utilization hours of domestic turbines was 2,340 hours, which exceeded the national average level by 213 hours, and the number of average power generation utilization hours of international turbines was 4,566 hours.

### Key information in production and operation

| Item   | Reporting Period | Corresponding period last year |
|--|------------------|--------------------------------|
| Domestic projects  |                  |                                |
| Total installed capacity (0' 000 kW)                                     | 760.96           | 682.61                         |

#### **Water Treatment Business** iv.

Goldwind actively carried out municipal wastewater and industrial wastewater treatment business and water plant operation service, supported by comprehensive water solutions. In 2024, the Company actively promoted the construction of photovoltaic facilities in water plants and the application of green electricity, facilitating the green and low-carbon operation of water plants. As of the end of the Reporting Period, the Company owned 63 water treatment companies with a total operational scale of 2,534,500 tons per day. During the Reporting Period, the Group's revenue from water operation business totaled RMB1,011.99 million.

### v. Major Subsidiaries

As at 31 December 2024, the Group had 792 subsidiaries, including 51 directly owned subsidiaries and 741 indirectly owned subsidiaries. In addition, the Group had 20 joint ventures, 35 associated companies and 34 equity investments. The Group's principal subsidiaries include R&D and manufacturing companies for WTG components, wind farm development companies, wind power service companies, water treatment plants, finance lease service companies, etc. The following table sets out the key financial information of principal subsidiaries of the Group (reported in accordance with CASBE):

As at 31 December 2024

Unit: RMB

| No | Company Name   | Registered Capital | Total Assets      | Net Assets        | Revenue from<br>Operations | Net Profits      |

### V. OPERATIONS PERFORMANCE AND ANALYSIS

The contents of this section should be read in conjunction with the Financial Statements, including the relevant notes, set out in this report.

### **Summary**

For the year ended 31 December 2024, the Group's operating revenue was RMB56,516.21 million, net profit attributable to owners of the Company was RMB1,860.45 million. The Group reported basic earnings per share of RMB0.42.

The following table provides the Group's major financial indicators:

|  | Year ended 31 December |       | Change (percentage |  |
|--|------------------------|-------|--------------------|--|
| Financial indicators   | 2024                   | 2023  | points)            |  |
| Profitability Index Sales margin attributable to owners of the Company   | 3.29%                  | 2.65% | 0.64               |  |
| <b>Return on investment index</b> Weighted average return on net assets* | 4.91%                  | 3.45% | 1.46               |  |

<sup>\*</sup> Calculated according to Announcement [2010] No. 2, *Information Disclosure Compiling Rule No. 9 of Public Offering Company about the Calculation and Disclosure of Net Asset Income Rate and Earnings Per Share*.

#### Revenue

The Group's revenues were generated mainly from: (i) WTG Manufacturing and Sale; (ii) Wind Power Services; (iii) Wind Farm Development; and (iv) Others. Revenue from WTG Manufacturing and Sale was mainly generated through sales of WTGs and components. Revenue from Wind Power Services was mainly generated through post-warranty services, asset management services, finance services, wind farm construction, etc. Revenue from Wind Farm Development was mainly generated from the sale of wind power generation service provided by the Group's wind farms and power station products. Revenues from other business segments include revenues from water operation business, etc.

For the year ended 31 December 2024, The Group's operating revenue was RMB56,516.21 million. Details are set out as below:

Unit: RMB thousand

|                            | Ye         |            |           |            |
|----------------------------|------------|------------|-----------|------------|
|                            | 31         | December   | Amount    | Percentage |
| Revenue                    | 2024       | 2023       | Change    | Change     |
| WTG Manufacturing and Sale | 38,920,578 | 32,937,070 | 5,983,508 | 18.17%     |
| Wind Power Services        | 5,507,031  | 5,241,499  | 265,532   | 5.07%      |
| Wind Farm Development      | 10,853,521 | 10,915,397 | (61,876)  | -0.57%     |
| Others                     | 1,235,080  | 1,149,760  | 85,320    | 7.42%      |
| Total                      | 56,516,210 | 50,243,726 | 6,272,484 | 12.48%     |

The Group's revenue increase during the Reporting Period YoY was mainly due to: (i) the increase in sale of WTG components led to the increased revenue from WTG Manufacturing and Sale YoY; (ii) due to the steady increase in installed capacity of wind farms, the Group's revenue from post-warranty-service increased, leading to increased revenue from Wind Power Services YoY; and (iii) the increase in revenue from other business segments YoY.

### **Cost of Sales**

The Group's cost of sales consisted primarily of raw materials and components, labour, depreciation and amortisation, other production costs, and changes in inventories and transferred fixed assets. The cost of raw materials and components mainly included blades, generators, structural parts, and electric control systems. Labour costs primarily consisted of salaries and wages for employees directly involved in production and wind power services. Depreciation and amortisation expenses were calculated for the usage of fixed assets and intangible assets, respectively, during the Group's operations. Changes in inventories and transferred assets represented the changes in unfinished and finished goods and the use of our WTGs as fixed assets in wind farms developed by the Group, respectively.

The following table provides a breakdown of the Group's cost of sales:

Unit: RMB thousand

|  | Ye 31   |   |  |                                      |
|--|---|---|--|--------------------------------------|
| Cost   | 2024  | 2023<br>(Restated)                              | Amount<br>Change                             | Percentage<br>Change                 |
| Raw materials and components Labour Depreciation and amortisation Other production costs | 38,449,355<br>1,243,059<br>2,948,760<br>6,158,279 | 34,229,110<br>994,428<br>2,350,833<br>6,324,264 | 4,220,245<br>248,631<br>597,927<br>(165,985) | 12.33%<br>25.00%<br>25.43%<br>-2.62% |

The following table provides a breakdown of the Group's cost of sales by business segments:

Unit: RMB thousand

|  | Ye 31   |   |   |                                    |
|--|---|---|---|------------------------------------|
| Cost   | 2024  | 2023<br>(Restated)                              | Amount<br>Change                          | Percentage<br>Change               |
| WTG Manufacturing and Sale<br>Wind Power Services<br>Wind Farm Development<br>Others | 37,011,427<br>4,323,059<br>6,511,130<br>953,837 | 33,028,631<br>4,201,567<br>5,752,839<br>915,598 | 3,982,796<br>121,492<br>758,291<br>38,239 | 12.06%<br>2.89%<br>13.18%<br>4.18% |
| Total  | 48,799,453                                      | 43,898,635                                      | 4,900,818                                 | 11.16%                             |

The increase in cost of sales of the Group was mainly caused by the increase in revenue of the Group in 2024.

### **Gross Profit**

Unit: RMB thousand

|                            | Yea<br>31 I |                    |                  |                      |
|----------------------------|-------------|--------------------|------------------|----------------------|
| Gross Profit               | 2024        | 2023<br>(Restated) | Amount<br>Change | Percentage<br>Change |
| WTG Manufacturing and Sale | 1,909,151   | (91,561)           | 2,000,712        | 2,185.11%            |
| Wind Power Services        | 1,183,972   | 1,039,932          | 144,040          | 13.85%               |
| Wind Farm Development      | 4,342,391   | 5,162,558          | (820,167)        | -15.89%              |
| Others                     | 281,243     | 234,162            | 47,081           | 20.11%               |
| Total                      | 7,716,757   | 6,345,091          | 1,371,666        | 21.62%               |

During the Reporting Period, the Group's gross profit increased mainly due to the increase in gross profits from WTG Manufacturing and Sale, Wind Power Services and other business segments. Gross profits from Wind Farm Development decreased YoY.

For the year ended 31 December 2024 and 2023, the Group's comprehensive gross profit margins were 13.65% and 12.63%, respectively. The gross profit margins for the WTG Manufacturing segment were 4.91% and -0.28%, respectively. The following table sets out the gross profit margins for each business segment:

|                            | Year ended 31 December |                    | Change                 |
|----------------------------|------------------------|--------------------|------------------------|
|                            |                        |                    |                        |
| Gross Profit Margin        | 2024                   | 2023<br>(Restated) | (percentage<br>points) |
| WTG Manufacturing and Sale | 4.91%                  | -0.28%             | 5.19                   |
| Wind Power Services        | 21.50%                 | 19.84%             | 1.66                   |
| Wind Farm Development      | 40.01%                 | 47.30%             | -7.29                  |
| Others                     | 22.77%                 | 20.37%             | 2.40                   |

During the Reporting Period, gross profit margins for WTG Manufacturing and Sale, Wind Power Services and other business segments had various degree of increase YoY. Gross profit margins for Wind Farm Investment and Development decreased YoY.

# Other Income and Gains, Net

Other income and gains of the Group mainly consist of gain on disposal of subsidiaries, gain on disposal of associates and joint ventures, interest income, fair value gain, gross rental income from investment properties and equipment, and government grants obtained for R&D projects and production facilities, etc.

Other net income and gains of the Group were RMB3,233.57 million for the year ended 31 December 2024, representing a decrease of 10.81% compared with RMB3,625.33 million for the year ended 31 December 2023. This was mainly caused by the decrease in gains on loss of significant influence over associates or disposal of investments in associates and joint ventures, interest income, fair value gains on financial assets at fair value through profit or loss and derivative financial instruments, provision of technical service, etc. Such decrease was offset by the increase in government grants, value-added tax refund, gain on disposal of financial assets at fair value through profit or loss, etc.

# **Selling and Distribution Expenses**

The Group's selling and distribution expenses mainly include bidding service fees, staff costs, etc.

Selling and distribution expenses of the Group for the year ended 31 December 2024 was RMB1,321.53 million, representing an increase of 19.44% compared with RMB1,106.44 million for the year ended 31 December 2023. This was mainly caused by the increase in staff costs, etc.

# **Administrative Expenses**

The Group's administrative expenses mainly include R&D expenses, staff costs, depreciation and amortization, rental expenses, etc.

Administrative expenses of the Group for the year ended 31 December 2024 was RMB4,934.14 million, representing an increase of 20.94% compared with RMB4,079.67 million for the year ended 31 December 2023. This was mainly caused by the increase in R&D expenses, staff costs, depreciation and amortization, etc.

#### Management Discussion and Analysis

# Impairment losses/reversal under expected credit loss model, net

The Group's impairment losses under expected credit loss model primarily consisted of impairment losses on trade receivables, other receivables, financial receivables, contract assets, etc.

Impairment losses under expected credit loss model for the year ended 31 December 2024 was loss of RMB327.18 million, representing an increased loss of 6.73% compared with loss of RMB306.56 million for the corresponding period in 2023.

Details of impairment losses under expected credit loss model are as follows:

Unit: RMR Million

| Item  | 2024    | 2023   | Amount<br>change | Percentage<br>change |
|---|---------|--------|------------------|----------------------|
| Impairment losses of trade receivables                  | 323.48  | 203.25 | 120.23           | 59.15%               |
| Impairment losses of financial receivables              | (0.39)  | 58.47  | (58.86)          | -100.67%             |
| Impairment losses of other receivables                  | (32.05) | 48.94  | (80.99)          | -165.49%             |
| Impairment losses of contract assets                    | 36.10   | (4.40) | 40.50            | 920.45%              |
| Impairment losses of other non-current financial assets | 0.04    | 0.30   | (0.26)           | -86.67%              |
| Total   | 327.18  | 306.56 | 20.62            | 6.73%                |

Main reasons for the increase in impairment losses under expected credit loss model during the Reporting Period include:

- 1. During the Reporting Period, due to the fact that several customers had experienced material financial difficulties, adverse changes in operating or financial conditions, breach of contract, default or overdue payments for principal, the Group, in the estimation that trade receivables may not be collected in full, therefore performed test with ECL model on an individual basis to evaluate the expected loss for trade receivables and recognized impairment loss of RMB221.73 million; as a result of obtaining the proceeds from the enforcement of litigation, improved financial conditions of some customers and enhanced long-aging receivables management of the Group, the Group had collected several customers' receivables during the Reporting Period, therefore made reversal of impairment of trade receivables on an individual basis of RMB102.63 million; the Group performed test with ECL model on a collective basis to evaluate the expected loss for trade receivables and recognized impairment loss of RMB204.38 million; the total amount of impairment loss recognized during the Reporting Period for trade receivables was RMB323.48 million;
- 2. During the Reporting Period, the Group performed test with ECL model and recognized reversal of impairment loss of RMB0.39 million for its financial receivables, reversal of impairment loss of RMB32.05 million for other receivables, and recognized impairment loss of RMB36.10 million for contract assets and impairment loss of RMB0.04 million for other non-current financial assets.

Details of impairment losses under expected credit loss model during the Reporting Period refer to Notes 6, 15, 16, 17, 18 to the consolidated financial statements.

# **Other Expenses**

Other expenses of the Group mainly include bank charges, foreign exchange net losses, asset impairment provision, etc.

For the year ended 31 December 2024, the Group's other expenses were RMB1,183.82 million, representing an increase of 41.91% compared with RMB834.21 million for the year ended 31 December 2023. This was mainly attributable to the increase in asset impairment provision, rental cost, etc.

Details of impairment of long-term assets are as follows:

Unit: RMB Million

| Items   | 2024                  | 2023                     | Amount<br>change            | Percentage<br>change           |
|---|-----------------------|--------------------------|-----------------------------|--------------------------------|
| Impairment losses of other intangible assets Impairment losses of property, plant and equipment Impairment losses of Goodwill | 190.20<br>576.72<br>– | 69.52<br>119.18<br>70.93 | 120.68<br>457.54<br>(70.93) | 173.59%<br>383.91%<br>-100.00% |
| Total   | 766.92                | 259.63                   | 507.29                      | 195.39%                        |

During the Reporting Period, the Group performed impairment tests on other intangible assets, property, plant and equipment, Goodwill and recognized impairment losses according to the test results:

- 1. The Group performed impairment test on certain water and sewage treatment plant projects with impairment indicator. Based on the difference between the recoverable amount and the book value of the assets, the Group recognized impairment loss of RMB190.20 million for other intangible assets during the Reporting Period;
- 2. The Group performed impairment test on certain wind farm and photovoltaic power station projects with impairment indicator. Based on the difference between the recoverable amount and the book value of the assets, the Group recognized impairment loss of RMB576.72 million for the property, plant and equipment during the Reporting Period.

Details of assets impairment during the Reporting Period refer to Notes 6, 12, 13, 14 to the consolidated financial statements.

#### **Finance Costs**

For the year ended 31 December 2024, the Group's finance costs were RMB1,216.55 million, representing a decrease of 11.46% compared with RMB1,373.98 million for the year ended 31 December 2023. This was mainly due to the decrease in interest expenses for interest-bearing bank and other borrowings, etc.

#### Management Discussion and Analysis

# **Income Tax Expense**

For the year ended 31 December 2024, the Group's income tax expense was RMB247.39 million, representing a decrease of 75.19% compared with RMB997.02 million for the year ended 31 December 2023. This was mainly due to the impact of tax inflation on long-term assets.

# **Financial Position**

As of 31 December 2024 and 31 December 2023, the Group's total assets were RMB155,224.29 million and RMB143,494.60 million, respectively. Total current assets were RMB68,600.89 million and RMB63,829.48 million, respectively. The ratio of current assets to total assets were 44.19% and 44.48%, respectively. The increase in current assets was mainly due to the increase in trade and bills receivables, prepayments, other receivables and other assets, etc. Such increase was offset by the decrease in cash and cash equivalents, inventories, contract assets, pledged deposits, etc.

As of 31 December 2024 and 31 December 2023, the Group's total non-current assets were RMB86,623.40 million and RMB79,665.12 million, respectively. The increase in total non-current asset was mainly due to the increase in property, plant and equipment, deferred tax assets, financial assets at fair value through profit or loss, contract assets, prepayments, other receivables and other assets, etc. Such increase was offset by the decrease in financial receivables, other non-current financial assets, interests in associates and joint ventures, right-of-use assets, etc.

As of 31 December 2024 and 31 December 2023, the Group's total liabilities were RMB114,797.20 million and RMB103,265.69 million, respectively. Total current liabilities were RMB71,873.94 million and RMB63,019.61 million, respectively. The increase in current liabilities was mainly due to the increase in other payables and accruals, interest-bearing bank and other borrowings, tax payable, etc. Such increase was offset by the decrease in trade and bills payables, derivative financial instruments.

As of 31 December 2024 and 31 December 2023, the Group's total non-current liabilities were RMB42,923.26 million and RMB40,246.08 million, respectively. The increase in non-current liabilities was mainly due to the increase in interest-bearing bank and other borrowings, provisions, etc. Such increase was offset by the decrease in trade payables.

As of 31 December 2024 and 31 December 2023, the Group's net current liabilities and net current assets were RMB3,273.05 million and RMB809.87 million, respectively. The Group's net assets were RMB40,427.08 million and RMB40,228.91 million, respectively.

As of 31 December 2024 and 31 December 2023, the Group's cash and cash equivalents were RMB11,132.90 million and RMB13,693.91 million, respectively. The interest-bearing bank and other borrowings were RMB42,049.20 million and RMB38,843.10 million, respectively.

# **Financial Resources and Liquidity**

#### 1. Cash flows from operating activities

The net cash receipts from the Group's operations mainly include pre-tax profits, plus adjustments for non-cash items, changes in operating capital, other income and gains, etc.

For the year ended 31 December 2024 the Group's net cash flows from operating activities were RMB2,315.85 million. Cash inflows consist mainly of profit before tax of RMB2,103.79 million, adjustments of the increase of RMB5,165.37 million in other payables and accruals, the increase of RMB3,377.14 million in depreciation and amortization, the increase of RMB1,216.55 million in finance costs million, the increase of RMB909.62 million in provisions, the decrease of RMB874.14 million in financial receivables, the increase of RMB576.72 million in impairment of property, plant and equipment, etc. The cash inflows were offset by the increase of RMB6,151.77 million in trade and bills receivables, income tax paid of RMB1,423.61 million, the increase of RMB1,285.49 million in prepayments, other receivables and other assets, the decrease of RMB1,277.71 million in trade and bills payables, the decrease of RMB953.49 million in gain on disposal of subsidiaries, the decrease of RMB809.92 million in gains on loss of significant influence over associates or disposal of investments in associates and joint ventures, the increase of RMB714.51 million in contract assets, etc.

For the year ended 31 December 2023 the Group's net cash flows from operating activities were RMB1,854.04 million. Cash inflows consist mainly of profit before tax of RMB2,519.23 million, adjustments of the increase of RMB2,798.69 million in depreciation and amortization, the increase of RMB2,321.96 million in trade and bills payables, the increase of RMB1,373.98 million in finance costs, the decrease of RMB1,021.33 million in financial receivables, the decrease of RMB601.72 million in prepayments, other receivables and other assets, the decrease of RMB547.77 million in contract assets, etc. The cash inflows were offset by the increase of RMB5,541.70 million in inventories, income tax paid of RMB1,105.82 million, the adjustments of the decrease of RMB985.74 million in gain on disposal of interests in associates and joint ventures, the decrease of RMB939.97 million in gain on disposal of subsidiaries, the increase of RMB614.80 million in interest income, the decrease of RMB575.52 million in other payables and accruals, etc.

#### Management Discussion and Analysis

# 2. Cash flows used in investing activities

The net cash used in investing activities of the Group mainly consists of purchase of properties, plant and equipment, purchases of financial assets, disposals of subsidiaries, disposals of shareholding in associates and joint ventures, etc.

For the year ended 31 December 2024 the Group's net cash flows used in investing activities were RMB5,724.05 million. Cash outflows consist mainly of purchases of property, plant and equipment of RMB6,829.11 million, purchases of financial assets at fair value through profit or loss of RMB3,025.04 million, deregistration of a subsidiary of RMB700.00 million, additions of other intangible assets of RMB462.74 million, additions of right-of-use assets of RMB378.68 million, acquisitions of interests in associates of RMB143.82 million, etc. The cash outflows were offset by the cash inflows from cash received of financial assets at fair value through profit or loss of RMB2,734.06 million, disposals of subsidiaries, net of cash disposed of RMB1,503.52 million, disposals of non-pledged time deposits with original maturity of three months or more when acquired of RMB1,087.22 million, proceeds from disposal of other non-current financial assets of RMB387.59 million, etc.

For the year ended 31 December 2023 the Group's net cash flows used in investing activities were RMB1,823.70 million. Cash outflows consist mainly of purchases of property, plant and equipment of RMB5,646.73 million, purchases of financial assets at fair value through profit or loss of RMB2,337.75 million, purchases of non-pledged time deposits with original maturity of three months or more when acquired of RMB1,232.18 million, additions of other intangible assets of RMB932.69 million, etc. The cash outflows were offset by the cash inflows from disposals of shareholding in associates and joint ventures of RMB3,158.35 million, cash received of financial assets at fair value through profit or loss of RMB2,100.00 million, disposals of subsidiaries, net of cash disposed of RMB1,537.81 million, loan repayment from the related parties of RMB1,016.93 million, disposals of non-pledged time deposits with original maturity of three months or more when acquired of RMB605.12 million, etc.

# 3. Cash flows from financing activities

The net cash flows from financing activities of the Group mainly consist of new bank and other borrowings and proceeds from issuance of perpetual securities, net of issuance costs.

For the year ended 31 December 2024 the Group's net cash inflows from financing activities were RMB1,650.28 million. Cash inflows consist mainly of new bank and other borrowings of RMB13,220.69 million, issuance of bond of RMB1,999.12 million, capital contributions from other equity instruments holders of RMB1,500.00 million, etc. Cash inflows were offset by repayment of bank and other borrowings of RMB1,483.78 million, repayment of other equity instruments of RMB1,549.82 million, interest paid of RMB1,271.69 million, etc.

For the year ended 31 December 2023 the Group's net cash outflows from financing activities were RMB1,993.16 million. Cash outflows consist mainly of repayment of bank and other borrowings of RMB10,500.21 million, repayment of other equity instruments of RMB1,500.00 million, interest paid of RMB1,276.12 million, etc. Cash outflows were offset by new bank and other borrowings of RMB10,569.33 million, issuance of bond of RMB749.72 million, capital contributions from other equity instruments holders of RMB549.82 million, etc.

# **Capital Expenditure**

For the year ended 31 December 2024 the Group's capital expenditures were RMB10,391.90 million, representing a decrease of 2.37% compared with RMB10,644.44 million for the year ended 31 December 2023. The primary sources of funds to finance capital expenditures are bank loans and cash flows from operating activities of the Group.

# Interest-bearing bank and other borrowings

As at 31 December 2024, the Group's interest-bearing bank loans were RMB34,792.93 million, including bank loans repayable within one year of RMB5,287.17 million, in the second year of RMB4,772.53 million, in the third to fifth year of RMB8,230.74 million, and above five years of RMB16,502.49 million. In addition, as at 31 December 2024, the Group's other borrowings were RMB7,256.27 million, including other borrowings repayable within one year of RMB529.49 million, in the second year of RMB785.92 million, in the third to fifth year of RMB1,770.95 million, and above five year of RMB4,169.91 million.

As at 31 December 2023, the Group's interest-bearing bank loans were RMB32,432.00 million, including bank loans repayable within one year of RMB4,281.38 million, in the second year of RMB4,482.01 million, in the third to fifth year of RMB8,828.85 million, and above five years of RMB14,839.76 million. In addition, as at 31 December 2023, the Group's other borrowings were RMB6,411.10 million, including other borrowings repayable within one year of RMB403.98 million, in the second year of RMB862.10 million, in the third to fifth year of RMB1,503.18 million, and above five year of RMB3,641.84 million.

During the Reporting Period, the Group did not apply any interest rate hedging methods.

#### **Capitalization of Interest**

For the year ended 31 December 2024, the Group's capitalised interest expenses were RMB286.38 million.

#### Reserves

As at 31 December 2024, the Company's reserves distributable to shareholders were RMB1,940.88 million. This was the lower figure calculated under CASBE and IFRS.

# **Restricted Assets**

As at 31 December 2024, certain assets of the Group with a total carrying value of RMB23,461.87 million were pledged as security for certain bank loans, other banking facilities, etc. Such assets include bank deposits of RMB486.50 million, trade and bills receivables of RMB6,930.95 million, property, plant and equipment of RMB13,158.89 million, financial receivables of RMB1,875.94 million, inventories of RMB600.89 million, right-of-use asset of RMB255.61 million, other intangible assets of RMB153.09 million.

As at 31 December 2023, certain assets of the Group with a total carrying value of RMB19,835.57 million were pledged as security for certain bank loans, other banking facilities, etc. Such assets include bank deposits of RMB551.28 million, trade and bills receivables of RMB5,641.49 million, property, plant and equipment of RMB11,405.30 million, right-of-use asset of RMB219.84 million, financial receivables of RMB1,828.00 million, other intangible assets of RMB189.66 million.

# **Gearing Ratio**

As at 31 December 2024, the Group's gearing ratio, defined as net debt divided by the sum of capital and net debt, was 65.71%, representing an increase of 0.62 percentage point compared with 65.09% as at 31 December 2023.

#### Management Discussion and Analysis

# **Exposure to Fluctuations in Exchange Rates and Any Related Hedges**

The Group primarily operated its businesses in China. Over 77% of the Group's revenue, expenditure, and financial assets and liabilities were denominated in RMB. The exchange rate of the RMB against foreign currencies did not have a significant impact on the Group's businesses. For the year ended 31 December 2024, the Group's foreign exchange exposure associated with such transactions (except for the functional currency of the relevant operating entities) maintained at a relatively low level. The currency exchange difference incurred by the Group in respect of the long-term equity investment by our subsidiaries incorporated outside China was recorded under the exchange reserve.

# **Contingent Liabilities**

The Group's contingent liabilities primarily consisted of letters of credit issued, letters of guarantee issued, guarantees and compensation arrangements given to banks in connection with bank loans granted to joint ventures, associates or independent third parties.

As at 31 December 2024, the Group's contingent liabilities were RMB24,837.26 million, representing an increase of RMB3,760.48 million compared with RMB21,076.78 million as at 31 December 2023.

# **Significant Investments**

The Group made no significant investment during the year ended 31 December 2024.

# **Material Acquisitions and Disposals**

Save as disclosed in the section headed "Acquisitions and Disposals of Subsidiaries and Associates" in this report, the Group did not have any material acquisitions and disposals during the year ended 31 December 2024.

# **Future Plans for Material Investments or Capital Assets**

As at the date of this report, there is no plan authorized by the Board for material investments or additions of capital assets.

## **OUTLOOK FOR THE FUTURE**

# 1. Overall Trend of Industrial Development

In 2024, the global energy transition process was further accelerated, but it still faced various challenges. While the global energy structure is developing towards diversification and cleanness, the impacts of international turbulence, frequency of extreme weather and disasters, and the outbreak of a new scientific and technological revolution cannot be ignored. Looking ahead to 2025, energy development needs to strike a balance between cleaner and lower-carbon energy and security and stability.

At the 29th session of the Conference of the Parties to the United Nations Framework Convention on Climate Change (COP29), the parties reached a number of material agreements on the implementation of the United Nations Framework Convention on Climate Change, the Kyoto Protocol, the Paris Agreement and other agreements, and one of the core outcomes was the establishment of the New Collective Quantified Goal on Climate Finance (NCQG), in which developed countries committed to provide at least US\$300 billion in climate finance per annum by 2035, and reached consensus on the rules for a UN-backed global carbon market. However, there are still disagreements over the amount of funds, sources of funding, allocation ratios, and historical responsibilities.

The International Energy Agency (IEA) has released its World Energy Outlook 2024. Under the current policy and market conditions, it is expected that the global cumulative installed capacity of renewable energy will increase to nearly 10,000GW by 2030. Driven by the surge in solar photovoltaic power generation and wind power generation, clean energy will become the largest source of energy in the mid-2030s. Meanwhile, the IEA predicted in the Renewable Energy Report 2024 - Analysis and Forecasts to 2030, during the period from 2024 to 2030, the global cumulative installed capacity of onshore wind power is expected to double compared to that from 2017 to 2023, reaching 846GW; the cumulative installed capacity of offshore wind power is expected to reach 212GW, and the global new installed capacity of offshore wind power in 2030 is expected to increase to 45GW.

# 2. Development Trend of Domestic Market

In 2024, new energy sources such as wind power and solar power achieved leapfrog development. According to statistics from the NEA, the installed capacity of national renewable energy was approximately 1.889 billion kW by the end of 2024, representing an increase of 25% YoY, accounting for about 56% of China's total installed capacity. It is expected that in 2025, approximately 200 million kW of wind power and photovoltaic power will be installed throughout the year, and the consumption of renewable energy will exceed 1.1 billion tons of standard coal.

In February 2025, the NDRC and the NEA jointly issued the Notice on Deepening the Market-Oriented Reform of New Energy Grid Tariff and Promoting High-Quality Development of New Energy, proposing to deepen the market-oriented reform of the new energy grid tariff, to promote the entry of all new energy grid electricity, such as wind and solar power, into the electricity market, to form the grid tariff through market transactions, to innovate and establish the new energy sustainable development price settlement mechanism and accelerate the construction of a unified national electricity market.

On 27 February 2025, the NEA issued the Guidance on Energy Work in 2025, proposing that the proportion of installed capacity of non-fossil energy power will be increased to about 60%, and the proportion of non-fossil energy in total energy consumption will be increased to about 20%; actively promote the construction of the second and third batches of "deserts, Gobi, and desert areas" large-scale wind power and photovoltaic bases and water, wind and photovoltaic integration bases in major watersheds, scientific planning for the layout plans of the "15th Five-Year Plan" and "deserts, Gobi, and desert areas" new energy large-scale bases, and actively promote the development and construction of offshore wind power projects; coordinate the optimization of the layout of new energy and key industries, expand new energy application scenarios, vigorously implement renewable energy substitution actions in key areas such as industry, transportation, construction and data centres, and actively support the construction of zero-carbon parks and the integration of photovoltaic buildings, so as to better promote local consumption of new energy.

Wood Mackenzie issued "China Onshore Wind Market Outlook 2024", it is expected that in the next ten years, China's wind power market will reach 895GW of new grid capacity, of which the onshore wind power market will account for more than 80% of the new capacity. Onshore wind power renovation will contribute 10% of the new installed capacity for onshore wind power and is expected to show a strong growth trend in the medium and long term, with its market share during the "15th Five-Year Plan" period expected to achieve a triple growth as compared to the "14th Five-Year Plan". China Electricity Council expects China's installed power generation capacity will exceed 3.8 billion kW by the end of 2025, representing an increase of around 14% YoY. Among them, grid wind power will be 640 million kW, and the combined installed capacity of solar power and wind power will exceed the installed capacity of thermal power in 2025.

#### Management Discussion and Analysis

# 3. Corporate Strategy

Goldwind undertakes the mission of "Innovating for a Brighter Tomorrow" and is committed to becoming a globally trusted strategic partner in clean energy. During the "14th Five-Year Plan" period, the Company continues to focus on high-quality development, guided by the values of "reverence for nature, facilitation of clients' success, leading the innovation, legal compliance, as well as healthy and long-term development". With a strategic intent centered on "Innovation leading, Efficiency-driven and High-quality growth", Goldwind aims to advance sustainable development initiatives.

# 4. Company Business Plan and Major Objectives

In 2025, the Company will adhere to the principle of "innovation-led, efficiency-driven, high-quality growth", achieve breakthroughs in business structure, product innovation and market expansion, and promote the enhancement of various business indicators and sound growth. Meanwhile, the Company will build an innovative layout with wind turbines as the main line, radiating energy development, services, hybrid tower, energy storage, energy carbon and green chemical business, and accelerate breakthroughs in the international market and new business areas, so as to continuously improve the Company's comprehensive strength and realise the value of Goldwind's full-chain solutions.

# 5. Capital Requirements

According to the Company's operation objectives and plans for 2025, the Company's working capital in 2025 will be financed mainly by a combination of self-owned capital and bank loans. The Company has a strong solvency position with high reputation, in tandem with stable and smooth financing channels, and sources of capital are sufficiently guaranteed.

#### 6. Possible Risks

#### (1) Policy Risk

The development of the wind power industry is influenced by national and industry development policies, and any adjustments to these policies may impact the production and sales of the Company's main products.

# (2) Market Competition Risk

The "dual carbon" goals announced by the government create unparalleled opportunities for the wind power industry in China. Competition among peer companies may intensify due to demand for improving WTGs quality and efficiency, seizing of advantageous resources, and expanding market share.

# (3) Economic Environment and Exchange Rate Fluctuations

The current domestic and international economic environment is complicated and volatile, which might affect the Company's internationalization strategy and international business expansion. As the Company's overseas businesses are mainly denominated in USD, AUD or other local currencies, it may be affected by the risk of exchange rate loss arising from exchange rate movements.

Facing the aforementioned possible risks, the Company will consolidate its manufacturing base, roll out products and solutions of higher quality, lower prices and better performance, with technological innovation and product upgrade as main drivers, and bring into play its competitive advantage in the whole industrial chain. Meanwhile, the Company will continue to strengthen its diversified profitability and achieve sustainable development.

# **Profiles of Directors,**Supervisors and Senior Management

Below are the profiles of Directors, Supervisors and Senior Management that were in office as at 31 December 2024:

# **EXECUTIVE DIRECTORS**

# Mr. Wu Gang(武鋼先生)

Mr. Wu Gang ("Mr. Wu"), aged 67, is currently the Chairman and Chief Engineer of the Company. Mr. Wu graduated from Dalian University of Technology with a master's degree. He is a member of the Communist Party of China, a professor level senior engineer, a deputy to the 12th National People's Congress, a member of the 13th National Committee of the Chinese People's Political Consultative Conference, a representative to the 20th National Congress of the Communist Party of China, and an expert entitled to a special allowance granted by the State Council. Mr. Wu served as the head of Teaching and Researching Office of Xinjiang Water Power School from 1983 to 1987; head of wind farms of Xinjiang Wind Power Company from 1987 to 1993; vice general manager of Xinjiang Wind Power from 1993 to 1997; and general manager of the Company from 1997 to 2002. He has been serving as the Chairman of the Company since May 2002 and concurrently serving as the Company's general manager between 2002 and 2006, CEO between 2006 and 2013 and President between March 2012 and January 2013. He has served as the Chairman and Party Secretary of Xinjiang New Energy (Group) Co., Ltd. from 2013 to 2018. Mr. Wu has served as the Chief Engineer of the Company since July 2022.

# Mr. Cao Zhigang (曹志剛先生)

Mr. Cao Zhigang ("**Mr. Cao**"), aged 50, is currently an executive Director and the President. Mr. Cao graduated from China Europe International Business School with a Master of Business Administration degree. He is a senior engineer. Mr. Cao worked in Xinjiang Wind Power Company from July 1998 to February 1999; Technology Department of Xinjiang New Wind Technology and Trade Co., Ltd. from March 1999 to March 2001. Mr. Cao worked in the Technology Department of the Company from March 2001 to April 2002; served as the head of electricity control business department of the Company from May 2002 to February 2005; the head of chief engineer office and vice chief engineer of the Company from March 2006 to March 2010; the executive vice president of the Company from March 2010 to July 2019; the President of the Company since July 2019. He was appointed as an executive Director of the Company in June 2013.

# Mr. Liu Rixin (劉日新先生)

Mr. Liu Rixin ("Mr. Liu"), aged 52, is currently an executive Director and a vice president. Mr. Liu graduated from Tianjin University with a bachelor's degree majoring in Fine Process. Mr. Liu served as employee of Sinopec Jinxi Oil Processing Plant from 1995 to 1996; technical staff of Shantou Golden Chamber Computer Company from 1996 to 1997; technical staff of Shantou Dannan Wind Power Company from 1997 to 2000; manager of Production Technology Department and manager of wind power project of Shantou Huaneng Nan'ao Company from 2000 to 2002; manager of Asset Operation Department and assistant general manager of Shantou Dannan Company from 2002 to 2006. From November 2006 to July 2010, Mr. Liu served as the deputy general manager of China Resources Power (Wind Energy) Development Co., Ltd. and as the deputy general manager of wind power of China Resources Power Holdings Co., Ltd. From July 2010 to May 2012, Mr. Liu served as the deputy general manager for China Resources New Energy Holdings Co., Ltd. # PRIMARY BUSINESS

The Group has three primary businesses, including WTG Manufacturing, Wind Power Services and Wind Farm Investment and Development, and water treatment and other businesses.

WTG Manufacturing is our core business and its revenue represents a majority of the Group's total revenue from operations. A fair review of the principal activities of the Group for the financial year ended 31 December 2024 and its likely future development are set out in the section headed "Management Discussion and Analysis" on page 14 of this annual report.

#### **CASH DIVIDEND POLICY**

The Resolution on the Future Three-year (2024-2026) Shareholders' Return Plan of the Company was passed at the 21st meeting of the eighth session of the Board and the AGM of 2023. It was proposed in the profit distribution plan that the Company shall distribute dividends in cash, shares or a combination of cash and shares, with cash distribution as the preferred way of profit distribution.

Conditional upon the Company being profitable and the accumulated undistributed profit being positive as well as the cash flow being able to satisfy the normal operation and long-term development of the Company, the Company shall actively distribute cash dividends and value the importance of Shareholders' return.

Over the three years from 2024 to 2026, when distributing dividends, the Board shall take into account the features of the industries in which the Company operates, its stage of development, business model, profit level and whether it has any significant capital expenditure plans when formulating profits distribution proposals in accordance with the provisions set out below and procedures provided in the Articles:

- (1) If the Company is at a mature stage of development and has no significant capital expenditure plan, the proportion of cash dividends shall be at least 80% of the profit distribution;
- (2) If the Company is at a mature stage of development and has a significant capital expenditure plan, the proportion of cash dividends shall be at least 40% in the profit distribution;
- (3) If the Company is at the growing stage and has a significant capital expenditure plan, the proportion of cash dividends shall be at least 30% in the profit distribution. If it is difficult to determine the Company's stage of development while it has a significant capital expenditure plan, the profit distribution may be dealt with pursuant to the rules applied in the previous distribution.

If the operation of the Company is satisfactory, and the Board believes that the scale of share capital does not match the scale of operation of the Company and dividend payment in shares will be in the interest of all Shareholders, the Company may propose to distribute dividends in shares.

The dividend proposal of the Company for the year 2024 was made according to the above plan.

#### RESULTS AND PROFIT DISTRIBUTION

The annual results of the Group for the financial year ended 31 December 2024 are set out in the Financial Statements.

The Board recommends the payment of a final dividend of RMB1.4 per every ten shares (including tax) from the Company's retained undistributable profit for the financial year ended 31 December 2024. This recommendation is subject to approval by the Shareholders at the forthcoming AGM for the year of 2024 in accordance with the provisions of the Articles, and will be implemented thereafter. The final dividend is expected to be paid to the Shareholders on or before 30 August 2025.

# TAX RELIEF (H SHAREHOLDERS)

When the Group distributes final dividends, the income tax for H Shareholders will be deducted at the following rates:

# Non-resident enterprise Shareholders

Pursuant to the Enterprise Income Tax Law of the People's Republic of China (《中華人民共和國企業所得稅法》), and the Detailed Rules for the Implementation of the Enterprise Income Tax Law of the People's Republic of China (《中華人民共和國企業所得稅法實施條例》), the Company is required to withhold corporate income tax at the rate of 10% to non-resident enterprise Shareholders whose names appear on the H share register of members.

#### Non-resident individual Shareholders

Pursuant to the Individual Income Tax Law of the People's Republic of China (《中華人民共和國個人所得稅法》) and its implementing regulations of the State Taxation Administration of PRC, the Company is required to withhold individual income tax at the rate of 20% to non-resident individual Shareholders of H shares. For Hong Kong residents, Macau residents and other non-resident individual Shareholders of H shares in countries and regions which have entered into an agreement with China in respect of a 10% tax rate, the Company withholds individual income tax at the rate of 10%.

The Company implements the requirements of documents of the Notice of the State Taxation Administration Regarding Questions on Withholding Enterprise Income Tax on the Dividends Paid by PRC Resident Enterprises to Non-Resident Enterprise Shareholders of H Shares (Guo Shui Han [2008] No. 897) (《國家稅務總局關於中國居民企業向境外H股非居民企業股東派發股息代扣代繳企業所得稅有關問題的通知》(國稅函[2008]897號)), the Notice of the State Taxation Administration on Issues Concerning the Implementation of the Dividend Provisions of Tax Agreements (Guo Shui Han [2009] No. 81) (《國家稅務總局關於執行稅收協議股息條款有關問題的通知》(國稅函[2009]81號)), the Announcement on Matters Concerning Withholding and Payment of Income Tax of Non-resident Enterprises from Source (SAT Circular 2017 No.37) (《國家稅務總局關於非居民企業所得稅源泉扣繳有關問題的公告》(國家稅務總局公告2017年第37號)), Administrative Measures on Preferential Treatment Entitled by Non-resident taxpayers (SAT Circular 2019 No.35) (《非居民納稅人享受協議待遇管理辦法》(國家稅務總局公告2019年第35號)).

#### **Mainland investors**

If any resident enterprise listed on the Company's register of members which is duly incorporated in the PRC or under the laws of a foreign country (or a region) but with a PRC-based de facto management body, the Company shall not withhold and pay any income taxes, as the income taxes shall be reported and paid by the investing enterprises on their own. Meanwhile, for dividends obtained by mainland resident enterprises from holding relevant H shares for 12 months consecutively, enterprise income taxes shall be exempted according to laws. The Company shall withhold and pay individual income tax at the rate of 20% for mainland individual investors who investing in H-shares listed on the Hong Kong Stock Exchange through Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect.

If anyone would like to change the identity of the holders in the register of members, please enquire about the relevant procedures with the nominees or trustees. The Company will withhold for payment of the enterprise income tax for its non-resident enterprise Shareholders strictly in accordance with the relevant laws and requirements of the relevant government departments and adhere strictly to the information set out in the Company's register of members on the record date for the dividend payment. The Company assumes no liability whatsoever in respect of and will not entertain any claims arising from any delay in, or inaccurate determination of, the status of the Shareholders or any disputes over the mechanism of withholding.

# FINANCIAL HIGHLIGHTS FOR THE PAST FIVE FINANCIAL YEARS

Financial highlights of the Group's results and balance sheets prepared in accordance with IFRS for the past five financial years are set out in the section headed "Financial Highlights for the Past Five Financial Years" on page 256 of this annual report.

#### MAJOR CUSTOMERS AND SUPPLIERS

During the financial year ended 31 December 2024, 32.08% and 9.14% of the Group's revenue from operations was attributed to our five largest customers and our largest customer, respectively. During the same period, 32.93% and 10.53% of the Group's total procurement expenditure was attributed to our five largest suppliers and our largest supplier, respectively.

Other than the information disclosed above, none of the Directors, their close associates, or any Shareholders (that, as far as is known to the Directors, own more than 5% of the issued shares of the Company (excluding treasury shares)) held any interest in the Group's five largest customers or suppliers.

# RESTRICTED A SHARE INCENTIVE SCHEME

In order to further establish and improve the Company's long-term incentive mechanism, attract and retain talented individuals, fully raise the enthusiasm of core staff of the Company, bond the interests of Shareholders and the Company, as well as the personal interests of the core teams together effectively, and enable various parties to attend to the long-term development of the Company, the Company has adopted the 2024 Restricted A Share Incentive Scheme ("Incentive Scheme") at its EGM convened on 19 November 2024.

# The Board of Directors' Report

# The Scope of Participants

The Participants of the Incentive Scheme include Directors, Senior Management, middle management and core backbone staff of the Company (including branches and subsidiaries). All Participants of the Incentive Scheme shall be nominated by the Remuneration and Assessment Committee under the Board and the Board, and verified and determined by the Supervisory Committee. The Participants of the Incentive Scheme exclude the Independent Directors, Supervisors, and the Shareholders individually or in aggregate holding 5% or more of the Shares of the Company and their spouses, parents or children.

# Source, Number of Restricted Shares

The source of the underlying Shares of the Incentive Scheme shall be ordinary A Shares repurchased from the secondary market by the Company.

The number of the Restricted Shares to be granted by the Company to the Participants shall not exceed 42,250,000 Shares, approximately representing 1.00% of the total share capital of the Company (excluding treasury shares) as at the date of this report. The number of the Shares of the Company granted to any of the Participants of the Incentive Scheme through the Company's Incentive Scheme in validity period shall not exceed 1% of the Company's total share capital.

#### The Grant Price of the Restricted Shares and the Basis of Its Determination

The Grant Price of the Restricted Shares under the first grant of the Incentive Scheme shall not be lower than the carrying amount of the Shares, and not lower than the higher of the followings: (1)50% of the average trading price of the Company's Shares on one trading day prior to the announcement of the draft announcement of the Incentive Scheme (the total value of shares traded on the previous one trading day/the total amount of shares traded on the previous one trading day) of RMB8.18 per share, which is RMB4.09 per Share; (2)50% of the average trading price of the Company's shares on 120 trading days prior to the announcement of the draft announcement of the Incentive Scheme (the total value of shares traded on the previous 120 trading days/the total amount of shares traded on the previous 120 trading days) of RMB7.68 per Share, which is RMB3.84 per Share.

The Grant Price of the reserved Restricted Shares under the Incentive Scheme is the same as the Grant Price of the first grant of Restricted Shares, which is RMB4.09 per share. The Board shall be convened to consider and approve the relevant resolutions and disclose the grant of the reserved Restricted Shares prior to the grant.

#### Lock-up Period and Unlocking Arrangement

The Lock-up Period of the Restricted Shares granted to the Participants under the Incentive Scheme shall be 12, 24 or 36 months since the date on the completion of which the corresponding Restricted Shares are granted and registered. During the Lock-up Period, the Restricted Shares granted to the Participants under the Incentive Scheme shall be restricted for sale and shall not be transferred or used for guarantee or repayment of debts.

The Unlocking Period and the unlocking schedule for each period for the Restricted Shares under the first grant of the Incentive Scheme are shown in the table below:

| Unlocking arrangement   | Unlocking schedule  | Unlocking proportion |
|-------------------------|---|----------------------|
| First Unlocking Period  | Commencing from the first trading day upon the expiry of 12 months from the date of the completion of grant and registration of corresponding Restricted Shares to the last trading day upon the expiry of 24 months from the date of the completion of grant and registration of corresponding Restricted Shares | 30%                  |
| Second Unlocking Period | Commencing from the first trading day upon the expiry of 24 months from the date of the completion of grant and registration of corresponding Restricted Shares to the last trading day upon the expiry of 36 months from the date of the completion of grant and registration of corresponding Restricted Shares | 30%                  |
| Third Unlocking Period  | Commencing from the first trading day upon the expiry of 36 months from the date of the completion of grant and registration of corresponding Restricted Shares to the last trading day upon the expiry of 48 months from the date of the completion of grant and registration of corresponding Restricted Shares | 40%                  |

The Unlocking Period and the unlocking schedule for each period for the reserved restricted shares for grant of the Incentive Scheme are shown in the table below:

| Unlocking arrangement   | Unlocking schedule   | Unlocking proportion |
|-------------------------|--|----------------------|
| First Unlocking Period  | Commencing from the first trading day upon the expiry of 12 months from the date of the reserved grant to the last trading day upon the expiry of 24 months from the date of the completion of grant and registration of corresponding Restricted Shares | 50%                  |
| Second Unlocking Period | Commencing from the first trading day upon the expiry of 24 months from the date of the reserved grant to the last trading day upon the expiry of 36 months from the date of the completion of grant and registration of corresponding Restricted Shares | 50%                  |

# Performance appraisal

The unlocking of the restricted shares also requires the fulfillment of certain conditions, including meeting the performance appraisal requirements at both the company level and individual level.

# The Board of Directors' Report

# Performance appraisal at company level

The appraisal period of the Incentive Scheme covers three accounting years from 2024 to 2026. Appraisals are made once per accounting year, and the performance appraisal objectives for each year are set out in the table below:

The performance conditions for unlocking of Restricted Shares under the first grant are set out in the table below

| Unlocking Period        | Perfo | rmance Appraisal Objectives  |
|-------------------------|-------|--|
| First Unlocking Period  | The C | Company is supposed to fulfil one of the following two conditions:   |
|                         | 1.    | Taking the net profit of 2023 as the base, the growth rate of net profit of 2024 compared with that of 2023 is not less than 20%;  |
|                         | 2.    | Taking the operating income of 2023 as the base, the growth rate of operating income of 2024 compared with that of 2023 is not less than 10%.  |
| Second Unlocking Period | The c | ompany is supposed to fulfil one of the following two conditions:  |
|                         | 1.    | Taking the net profit of 2023 as the base, the sum of (the net profit growth rate of 2024 over 2023 + the net profit growth rate of 2025 over 2023) is not less than 50%;  |
|                         | 2.    | Taking the operating income of 2023 as the base, the sum of (the operating income growth rate of 2024 over 2023 + the operating income growth rate of 2025 over 2023) is not less than 30%.  |
| Third Unlocking Period  | The c | ompany is supposed to fulfil one of the following two conditions:  |
|                         | 1,    | Taking the net profit of 2023 as the base, the sum of (the net profit growth rate of 2024 over 2023 + the net profit growth rate of 2025 over 2023 + the net profit growth rate of 2026 over 2023) is not less than 85%;                               |
|                         | 2.    | Taking the operating income of 2023 as the base, the sum of (the operating income growth rate of 2024 over 2023 + the operating income growth rate of 2025 over 2023 + the operating income growth rate of 2026 over 2023) shall not be less than 60%. |
| NI I                    |       |  |

#### Notes:

- 1. The above "Operating Income" is calculated based on the data contained in the audited consolidated statement of the Company, the same hereinafter;
- 2. "Net profit" refers to the net profit attributable to Shareholders of the listed company in the audited consolidated statement of the Company, the same hereinafter.

The performance appraisal targets of the reserved Restricted Shares for grant for two accounting yeas from 2025 to 2026 will be set out as the following table:

| Unlocking Period        | erformance appraisal objectives  |  |  |  |  |
|-------------------------|--|--|--|--|--|
| First Unlocking Period  | The company is supposed to fulfil one of the following two conditions:   |  |  |  |  |
|                         | 1. Taking the net profit of 2023 as the base, the sum of (the net profit growth rate of 2024 over 2023 + the net profit growth rate of 2025 over 2023) is not less than 50%;   |  |  |  |  |
|                         | 2. Taking the operating income of 2023 as the base, the sum of (the operating income growth rate of 2024 over 2023 + the operating income growth rate of 2025 over 2023) is not less than 30%.   |  |  |  |  |
| Second Unlocking Period | The company is supposed to fulfil one of the following two conditions:   |  |  |  |  |
|                         | 1. Taking the net profit of 2023 as the base, the sum of (the net profit growth rate of 2024 over 2023 + the net profit growth rate of 2025 over 2023 + the net profit growth rate of 2026 over 2023) is not less than 85%;                            |  |  |  |  |
|                         | 2. Taking the operating income of 2023 as the base, the sum of (the operating income growth rate of 2024 over 2023 + the operating income growth rate of 2025 over 2023 + the operating income growth rate of 2026 over 2023) is not be less than 60%. |  |  |  |  |

If the Company fails to achieve the above performance appraisal targets, all the Restricted Shares held by the Participants that are unlockable in the relevant appraisal year shall not be unlocked and shall be repurchased and cancelled by the Company at the sum of the Grant Price plus interest on deposits of the bank at the same period.

# Performance appraisal at individual level

The performance appraisal results of the Participants are classified into five grades, i.e., S, A, B, C and D. The unlocking proportion provision of the Participants is set out in the table below:

|                      | Performance evaluation | Performance evaluation table |  |  |
|----------------------|------------------------|------------------------------|--|--|
| Evaluation results   | S/A/B                  | C/D                          |  |  |
| Unlocking proportion | 100%                   | 0                            |  |  |

If the individual performance appraisal rating of the Participants for the previous year is S/A/B, the Participants may unlock in batches in accordance with the ratio stipulated in the Incentive Scheme; If the individual performance appraisal rating of the Participants for the previous year is C/D, the Company will cancel the current unlocking quota of the Participants in accordance with the provisions of the Incentive Scheme, and the Restricted Shares will be repurchased and cancelled by the Company at the sum of the Grant Price plus the interest on deposits of the bank at the same period.

# The Board of Directors' Report

#### **First Grant**

On 13 December 2024, the Board considered and approved the resolutions in relation to adjustments to matters relating the 2024 Restricted Share Incentive Scheme and the first grant of restricted shares to participants. The Board has resolved that the first grant date of the Incentive Scheme shall be 13 December 2024, and 39,400,000 Restricted Shares have been granted to 460 Participants at the Grant Price of RMB4.09 per share. On 27 December 2024, the Company completed the registration of the grant of the aforementioned Incentive Scheme with Shenzhen Branch of China Securities Depository and Clearing Corporation Limited. The relevant grant price has been paid by each of incentive participants by 27 December 2024.

The Validity Period of the Incentive Scheme shall commence on the date on the completion of which the Restricted Shares have been granted and registered for the first time and end on the date of unlocking all the Restricted Shares (excluding circumstances such as reductions or restrictions in the shareholdings of Directors and Senior Management) or the date of completion of repurchase and cancellation of the Restricted Shares, which shall not exceed 60 months. Accordingly, based on the date of the completion of registration of the grant of the Restricted Shares which falls on 27 December 2024, the Incentive Scheme shall remain valid until no later than 27 December 2029.

# **Details of Awards Granted to Participants During the Year**

A summary of the movements of the Restricted Shares granted under the Incentive Scheme during the year ended 31 December 2024 is as follows:

# Note:

- 1. For the year ended 31 December 2024, the five highest paid individuals within the year included one director, namely Mr. Cao Zhigang, and therefore the total number of restricted shares granted to the remaining four individuals is presented herein.
- 2. The closing price of A shares immediately before the date on which the restricted shares were granted was RMB10.98 (i.e., the closing price of A shares on 12 December 2024).
- 3. In accordance with the requirements of the Accounting Standards for Business Enterprises No. 11 Share-Based Payments, the fair value of the restricted shares at the date of grant was the closing price of A shares at the date of grant of RMB10.81 grant price of RMB4.09=RMB6.72.

#### EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATES AND ANY RELATED HEDGES.

Details are set out in the section headed "Management Discussion and Analysis" of pages 14 of this annual report.

# PROPERTY, PLANT AND EQUIPMENT

Details of adjustments made to property, plant and equipment of the Group during the financial year ended 31 December 2024 are set out in Note 15 to the Financial Statements.

# **RESERVES**

The amounts of the Group's reserves as at 31 December 2024 and the movements therein for the year ended 31 December 2024 are set out in Note 38 to the Financial Statements.

# **ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES AND ASSOCIATES**

The Group acquired and disposed certain subsidiaries and interests in certain associates during the financial year ended 31 December 2024 in accordance with its development strategies and based on changes in the industry and market environments. Details are set out in Note 41 and 42 to the Financial Statements.

# The Equity Transfer relating to parts of the wholly-owned subsidiary of the Company

Beijing Tianrun, a wholly-owned subsidiary of the Company, ("Transferor") entered into the Equity Transfer Agreement ("Equity Transfer Agreement") with ABC Financial Asset Investment Company Limited\* (農銀金融資產投資有限公司) ("Transferee" or "ABC Investment") on 25 October 2019 in relation to the transfer of the 49% equity interests in each of Shuozhou Pinglu Tianshi Wind Power Co., Ltd.\* (朔州市平魯區天石風電有限公司) ("Target Company I") and Shuozhou Pinglu Tianrun Wind Power Co., Ltd.\* (朔州市平魯區天潤風電有限公司) ("Target Company II"). Upon completion, the Group will continue to hold 51% equity interests in each of Target Company I and Target Company II, which will be accounted for as jointly controlled entities of the Group.

Equity transfer consideration of RMB667 million pursuant to the Equity Transfer Agreement comprising (i) the consideration for the transfer of 49% equity interest of Target Company I of RMB276,716,374; and (ii) the consideration for the transfer of 49% equity interest of Target Company II of RMB390,283,626. ABC Investment has paid the consideration under the Equity Transfer Agreement, being RMB667 million, to Beijing Tianrun in cash.

# The Board of Directors' Report

The distributable profits of Target Company I and Target Company II are to be shared by ABC Investment and Beijing Tianrun for each year from the payment date (being the day on which the Transferee pays the consideration under the Equity Transfer Agreement to the escrow account within 30 days from the signing of the Equity Transfer Agreement) to 2037 pursuant to the Profit Sharing Agreement, which shall be allocated in the following manner:

- (a) For the portion of distributable profits of Target Company I and Target Company II for the previous year which does not exceed the agreed profit benchmark, ABC Investment and Beijing Tianrun shall distribute such profits in proportion to their respective shareholding;
- (b) For the portion of distributable profits of Target Company I and Target Company II for the previous year which exceeds the agreed profit benchmark, ABC Investment and Beijing Tianrun shall distribute the exceeding portion on a 20(ABC Investment):80(Beijing Tianrun) basis.

Based on the valuation report prepared by the independent valuer, the total profit attributable to Beijing Tianrun in excess of its shareholding from the payment date to 2037 is valued at approximately RMB123 million.

For the avoidance of doubt, in the event that the distributable profits for the previous year are lower than or equal to the profit benchmark, ABC Investment and Beijing Tianrun shall only distribute the profit in proportion to their respective shareholding ratios, rather than on a 20%:80% basis.

The above equity transfer was completed on 29 February 2020. As the distributable profits from 1 January 2024 to 31 December 2024 exceeded the profit benchmark, ABC Investment and Beijing Tianrun will distribute the exceeding portion on a 20(ABC Investment):80(Beijing Tianrun) basis.

#### MANAGEMENT CONTRACTS

The Group did not enter into any contract in respect of the management and administration of the entire or any significant part of the business of the Group, nor did any such contract subsist at any time during the financial year ended 31 December 2024.

# TOP FIVE HIGHEST PAID INDIVIDUALS

Details regarding the five highest paid individuals, including the chief executive of the Company, for the financial year ended 31 December 2024 are set out in Note 11 to the Financial Statements.

# **SHARE CAPITAL**

The particulars of the issued share capital of the Company as at 31 December 2024 are set out as follows:

| Share Category       | Number of<br>Shares          | As a Percentage of Total Shares |
|----------------------|------------------------------|---------------------------------|
| A Shares<br>H Shares | 3,451,495,248<br>773,572,399 | 81.69%<br>18.31%                |
| Total                | 4,225,067,647                | 100.00%                         |

# **NUMBER OF SHAREHOLDERS**

As at 31 December 2024, the total number of Shareholders was 204,385, among which the number of A Share Shareholders and H Share Shareholders were 203,394 and 991 respectively.

# SUBSTANTIAL SHAREHOLDERS

As at 31 December 2024, to the best of the Directors' knowledge, save for the interests disclosed in "Interests and Short Positions in Shares of the Company and Its Associated Corporations by Directors and Supervisors", according to the register kept by the Company in accordance with section 336 of the SFO, the following persons had an interest or short position in the shares of the Company which would require disclosure under the provisions of Divisions 2 and 3 of Part XV of the SFO:

# Long position in A Shares:

|   |                                    | Number of   |             | As a Percentage | As a Percentage |
|---|------------------------------------|-------------|-------------|-----------------|-----------------|
| Name of Shareholder                         | Capacity                           | Shares      | Total       | of A Shares     | of Total Shares |
| Xinjiang Wind Power                         | Beneficial owner                   | 497,510,186 | 497,510,186 | 14.41%          | 11.78%          |
| Hexie Health Insurance Co., Ltd.            | Beneficial owner                   | 486,085,542 | 486,085,542 | 14.08%          | 11.50%          |
| China Three Gorges Energy <sup>1</sup>      | Beneficial owner                   | 386,909,686 |             |                 |                 |
|   | Interest in controlled corporation | 497,510,186 | 884,419,872 | 25.62%          | 20.93%          |
| China Three Gorges Corporation <sup>2</sup> | Interest in controlled corporation | 884,419,872 | 884,419,872 | 25.62%          | 20.93%          |

# Notes:

1. As at 31 December 2024, China Three Gorges Energy directly holds 386,909,686 A Shares of the Company. China Three Gorges Energy holds 43.33% of the issued share capital of Xinjiang Wind Power. Under the SFO, other than directly holding interests in the Company, China Three Gorges Energy is deemed to be interested in the 497,510,186 A Shares held by Xinjiang Wind Power.

# The Board of Directors' Report

2. China Three Gorges Corporation is the controlling shareholder of China Three Gorges Energy. Under the SFO, the 497,510,186 A Shares held by Xinjiang Wind Power, in which China Three Gorges Energy is deemed to be interested, and the 386,909,686 A Shares directly held by China Three Gorges Energy, were deemed to be the interests of China Three Gorges Corporation in the Company.

Other than as disclosed above, as at 31 December 2024, to the best knowledge of the Directors, no other persons (excluding the Directors, Supervisors and chief executive of the Company) had an interest or short position in shares of the Company which would require disclosure under the provisions of Divisions 2 and 3 of Part XV of the SFO.

# **PRE-EMPTIVE RIGHTS**

The Articles and the laws of the PRC do not have any mandatory provision regarding pre-emptive rights.

# PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES

# Repurchases of A Shares

During the year ended 31 December 2024, the Company repurchased certain of its A Shares on the SZSE. The summary details of aforesaid repurchases are as follows:

|                                |                                     | Price per sh   | are           |                                  |
|--------------------------------|-------------------------------------|----------------|---------------|----------------------------------|
| Months                         | Number of<br>A Share<br>repurchased | Highest<br>RMB | Lowest<br>RMB | Total<br>Price paid<br>RMB       |

| November 2024                  | 300,000<br>42,228,173               | 10.50          | 10.38         | 3,145,744.80 442,384,531.66      |

On 19 September 2024, the EGM considered and approved the repurchase of A Shares through centralized price bidding. The A Shares repurchased will be used in the Company's share incentive scheme.

As of 31 December 2024, the Company had repurchased a total of 42,228,173 A Shares, of which 39,400,000 A Shares have been granted under the Company's 2024 Restricted A Share Incentive Scheme. For details, please refer to the announcement of the Company dated 13 December 2024. The balance of A-Share repurchased but not yet cancelled or granted as at 31 December 2024 is 2,828,173 shares, and will be used in the Company's Restricted A Share Incentive Scheme.

Saved as disclosed in this report, during the financial year ended 31 December 2024, neither the Company nor any of its subsidiaries purchased, sold or redeemed any listed securities of the Company (including treasury shares).

# **ULTRA-SHORT-TERM FINANCING BONDS**

In order to broaden financing channels, optimise financing structure, reduce financing costs and meet the Company's capital requirements, the Board considered and approved the Proposal on the Application for Registration and Issuance of Ultrashort-term Financing Bonds on 26 April 2023. It was agreed that the Company would apply to the National Association of Financial Market Institutional Investors for registration and issuance of ultra-short-term financing bonds with a total amount not exceeding RMB2 billion. On 21 July 2023, the Company received the Notification of Acceptance of Registration (Zhong Shi Xie Zhu [2023] No. SCP287)(《接受註冊通知書》(中市協注[2023]SCP287號)) issued by the National Association of Financial Market Institutional Investors, accepting the Company's registration of ultra-short-term financing bonds, with a registration amount of RMB2 billion. The registration amount is valid within 2 years from the date of signing the Notification of Acceptance of Registration.

On 12 June 2024, the Company issued the First Tranche of Green Ultra-short-term Financing Bonds in 2024 ("Kechuang Note"). The funds were received on 13 June 2024. The actual issued amount of the bonds is RMB500 million and the interest rate of the bonds is 2.08%. For details, please refer to the announcement of the Company dated 13 June 2024.

On 23 July 2024, the Company issued the Second Tranche of Green Ultra-short-term Financing Bonds in 2024 ("Kechuang Note"). The funds were received on 24 July 2024. The actual issued amount of the bonds is RMB750 million and the interest rate of the bonds is 2.03%. For details, please refer to the announcement of the Company dated 24 July 2024.

On 20 August 2024, the Company issued the Third Tranche of Green Ultra-short-term Financing Bonds in 2024 ("Kechuang Note"). The funds were received on 21 August 2024. The actual issued amount of the bonds is RMB750 million and the interest rate of the bonds is 2.00%. For details, please refer to the announcement of the Company dated 21 August 2024.

# SUFFICIENCY OF PUBLIC FLOAT

From publicly available information and to the best knowledge of the Directors, the Company had maintained a sufficient public float as required under the Listing Rules throughout the financial year ended 31 December 2024 and up to the Latest Practicable Date.

# The Board of Directors' Report

# **DIRECTORS AND SUPERVISORS**

The Directors and Supervisors in office during the financial year ended 31 December 2024 and up to the Latest Practicable Date were:

Save as disclosed above, there were no changes to the Directors and Supervisors during the financial year ended 31 December 2024 and up to the Latest Practicable Date.

# PROFILES OF DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

The profiles of the Directors, Supervisors and Senior Management of the Company in office as at 31 December 2024 are set out in the section headed "Profiles of Directors, Supervisors and Senior Management" on page 45 of this annual report.

# INTERESTS AND SHORT POSITIONS IN SHARES OF THE COMPANY AND ITS ASSOCIATED CORPORATIONS BY DIRECTORS AND SUPERVISORS

Based on the information known to the Directors, as at 31 December 2024, the interests and short positions of the Directors, Supervisors and chief executive of the Company in the securities of the Company are set out as follows:

# Long position:

| Name            |                  | _              | As a                | As at 31 December 2024                        |                                       |  |
|-----------------|------------------|----------------|---------------------|---|---------------------------------------|--|
|                 | Capacity         | Share Category | Number of<br>Shares | As a Percentage<br>of Related<br>class Shares | As a<br>Percentage of<br>Total Shares |  |
| Mr. Wu Gang     | Beneficial owner | A Shares       | 62,538,411          | 1.81%   | 1.48%                                 |  |
| Mr. Cao Zhigang | Beneficial owner | A Shares       | 12,743,283          | 0.37%   | 0.30%                                 |  |
| Mr. Liu Rixin   | Beneficial owner | A Shares       | 300,000             | 0.009%  | 0.007%                                |  |
|                 |                  | H Shares       | 79,300              | 0.002%  | 0.002%                                |  |

Other than as disclosed above, as at 31 December 2024, as far as known to the Company, none of the Directors, Supervisors or chief executive of the Company had any interests and short positions in shares, underlying shares and debentures of the Company or its associated corporations (within the meaning of Part XV of the SFO), or as recorded in the register required to be kept under Section 352 of the SFO, or as otherwise notified to the Company and the Hong Kong Stock Exchange pursuant to the Model Code.

# DIRECTORS' AND SUPERVISORS' RIGHTS TO ACQUIRE SHARES AND DEBENTURES

Save as disclosed in the paragraph headed "Interests and Short Positions in Shares of the Company and its Associated Corporations by Directors and Supervisors" in this report, at no time, during the financial year ended 31 December 2024 or the period following 31 December 2024 and up to the Latest Practicable Date, was the Company, or any of its subsidiaries or its holding company or any of the subsidiaries of the Company's holding company, a party to any arrangement to enable the Directors or Supervisors or their respective associates to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other corporate body, and none of the Directors and Supervisors or their spouses and children under the age of 18 had any right to subscribe for the securities of the Company or had exercised any such right during such period.

# **DIRECTORS' AND SUPERVISORS' SERVICE CONTRACTS**

Each of the Directors and Supervisors had a service contract with the Company. If a Director or Supervisor is dismissed from the position of Director or Supervisor by the Shareholders' general meeting of the Company, or the circumstances of the Director or Supervisor are not in accordance with the relevant regulations of the Company Law of the PRC or the Articles, the contract will be terminated automatically.

The Company did not enter into a service contract with any Director or Supervisor that is not terminable by the Company within one year without payment of compensation other than statutory compensation.

# The Board of Directors' Report

# **DIRECTORS' AND SUPERVISORS' REMUNERATION**

The relevant resolutions relating to Directors' remuneration and independent non-executive Directors' allowance were approved by the Shareholders. In accordance with the relevant resolutions, for the financial year ended 31 December 2024, the Chairman and executive Directors received remuneration from the Company, the non-executive Directors did not receive any remuneration from the Company, and the independent non-executive Director's allowance was paid to the independent non-executive Directors.

For the financial year ended 31 December 2024, employee representative Supervisors received remuneration from the Company in accordance with their office held in the Company, while the other Supervisors did not receive any remuneration from the Company.

Details of the remuneration paid to the Directors, Supervisors and chief executive of the Company are set out in Note 11 to the Financial Statements and the Corporate Governance Report.

# DIRECTORS' AND SUPERVISORS' INTERESTS IN CONTRACTS

As at 31 December 2024 or at any time during the financial year ended 31 December 2024, other than the service contract, there were no transactions, arrangements or contracts of significance to the Group in which the Company or any of its subsidiaries was a party and in which a Director or Supervisor, whether directly or indirectly, had a material interest.

# **DIRECTORS' INTERESTS IN COMPETING BUSINESSES**

None of the Directors had interests in any business apart from the Company's business, which competed or is likely to compete, either directly or indirectly, with the business of the Company.

# PERMITTED INDEMNITY

The Company has maintained appropriate directors' insurance and such permitted indemnity provision for the benefit of the Directors is currently in force and was in force throughout the financial year ended 31 December 2024.

#### **CONNECTED TRANSACTIONS**

## Non-exempt continuing connected transactions under Listing Rules

The Group had non-exempt continuing connected transactions with the Company's connected persons during the financial year ended 31 December 2024.

On 26 October 2023, the Company entered into the 2024 Product Sales Framework Agreement with Xinjiang Wind Power in respect of continuing connected transactions for a term from 1 January 2024 to 31 December 2024.

Set out below is the relevant annual cap of the continuing connected transactions:

Unit: RMB million

Annual Cap for 2024

Sales of Products to Xinjiang Wind Power and its associates

99.84

## (1) details for connected persons

Xinjiang Wind Power is a connected person of the Company by virtue of being a substantial Shareholder of the Company. Accordingly, the continuing transactions with any member of the connected persons which comprises Xinjiang Wind Power and its associates constitute a continuing connected transaction for the Company.

#### The Board of Directors' Report

#### (2) actual amounts of continuing connected transactions in 2024

The following table sets out the actual amounts of such non-exempt continuing connected transactions during the year ended 31 December 2024:

Unit: RMB million

| Connected Transactions                                      | Annual Cap<br>for 2024 | Actual Amount<br>for 2024 |
|---|------------------------|---------------------------|
| Sales of Products to Xinjiang Wind Power and its associates | 99.84                  | 10.13                     |

#### Product Sales

The Group sold, and will continue to sell, products to the Company's connected persons in the ordinary and usual course of business.

The sale of WTGs, parts and components to the Company's connected persons is usually carried out pursuant to public tenders in accordance with the applicable laws and regulations of the PRC, i.e. the relevant companies will invite bids for the WTGs, parts and components they propose to purchase, and the Group, as the tenderer, shall submit tender documents in response to the invitation to tender. The Group has put into place a sales supervision system and has also formed a dedicated team to carry out its product sales.

Under the relevant written agreements, the consideration in connection with any sale of WTGs, parts and components to the Company's connected persons has been, and will continue to be, determined through public tenders; for sales of parts and components that do not require tender, the consideration has been, and will continue to be, determined through market price. Such market price is defined by reference to the price at which the Group is able to sell identical or similar products to an independent third party in the ordinary and usual course of business.

The independent non-executive Directors have reviewed the Group's continuing connected transactions mentioned above, and confirmed that the transactions carried out during the financial year ended 31 December 2024:

- 1. were carried out in the ordinary and usual course of business of the Group;
- were conducted on normal commercial terms, or if there were insufficient comparable transactions to
  determine whether they were on normal commercial terms, then as far as the Group is concerned, the
  conditions of such transactions were no less favourable than those received from, or offered to, an independent
  third party; and
- 3. were conducted according to the terms of agreement of the relevant transactions, where the terms of agreement were fair and reasonable, and in the interests of the Company and the Shareholders as a whole.

The Company's auditors have confirmed that the respective counterparties to the aforementioned continuing connected transactions had allowed them sufficient access to their records for the purpose of reporting on the transactions as set out in this report, and the aforementioned continuing connected transactions carried out during the financial year ended 31 December 2024:

- 1. had been approved by the Board;
- 2. were, in all material respects, in accordance with the requirements of pricing policies of the Company;
- 3. had been entered into in accordance with the relevant agreements governing the transactions; and
- 4. had not exceeded the annual caps disclosed in the announcement of the Company dated 26 October 2023.

#### (3) Product Sales Framework Agreement and Annual Cap for 2025

On 25 October 2024, as the 2024 Product Sales Framework Agreement would expire on 31 December 2024, the Company entered into the 2025 Product Sales Framework Agreement with Xinjiang Wind Power for a term from 1 January 2025 to 31 December 2025. The annual cap in respect of the continuing connected transactions under the 2025 Product Sales Framework Agreement is RMB408.13 million. The Company has followed the relevant pricing policies and guidelines as disclosed in the announcement of the Company dated 25 October 2024 when determining the price and terms of the transactions conducted during the year ended 31 December 2025. For details, please refer to the announcement of the Company dated 25 October 2024.

## Non-exempt connected transactions under Listing Rules

Save as disclosed above, during the financial year ended 31 December 2024, the Company had no other non-exempt connected transactions under Listing Rules.

#### RELATED PARTY TRANSACTIONS

The Group entered into certain transactions with parties regarded as "related parties" under the applicable accounting standards during the financial year ended 31 December 2024. Save as the non-exempt continuing connected transactions and non-exempt connected transactions as set out in the section headed "Connected Transactions" on page 71 of this annual report, these related party transactions were not regarded as connected transactions under the Listing Rules and were fully exempt from shareholders' approval, annual review and all disclosure requirements pursuant to Rule 14A of the Listing Rules. Details are set out in Note 47 to the Financial Statements. The Company has complied with the disclosure requirements in accordance with Chapter 14A of the Listing Rules.

#### **CHARITABLE DONATIONS**

Charitable donations made by the Group during the financial year ended 31 December 2024 was RMB5.46 million.

#### RELATIONSHIP WITH EMPLOYEES

The Group is committed to providing our staff with a stable working environment and continues to uphold the principles of impartiality, fairness and merit-based employment, and constantly improves the criteria for personnel selection and appointment. The Group also provides lifelong learning and career development to our employees. Details are set out in the Company's 2024 Sustainable Report.

#### RELATIONSHIP WITH CUSTOMERS AND SUPPLIERS

The Group values mutually beneficial relationship with its customers and suppliers. The Group places strong emphasis on the protection of customers' interests and pays strong attention to product quality. The Group has been committed to the development of the supply chain construction and has a number of qualified suppliers. Details of the Group's relationship with customers and suppliers are set out in the Company's 2024 Sustainable Report.

#### THE PRINCIPAL RISKS FACING THE COMPANY AND FUTURE OUTLOOK

Details are set out in the section headed "Management Discussion and Analysis" on on page 14 this annual report.

#### ENVIRONMENTAL SOCIAL AND GOVERNANCE REPORT

The Group, on the basis of realizing its own personal business development goals, strives to maximize the long-term interest of all parties by making use of their professional advantages and resources to emphasize the impact of production and business activities on all of its customers, staff, suppliers, environment, community while protecting the interest of all the stakeholders, providing conditions for further development, and minimizing adverse impacts on stakeholders. For a comprehensive and systematic disclosure of relevant environmental, social and governance conditions in 2024, the Company has published the 2024 Sustainability Report covering its yearly corporate governance, products and services, environmental protection, employee development, supply chain management, social and public interests, as well as action and performance. For more information, please refer to the 2024 Sustainability Report published by the Company which is available online for view or downloading on the websites of the Hong Kong Stock Exchange and the Company.

#### COMPLIANCE WITH LAWS AND REGULATIONS

The Board pays attention to the Group's policies and practices on compliance with legal and regulatory requirements. For the year ended 31 December 2024, to the best of knowledge of the Board, the Company had remained in strict compliance with the relevant laws and regulations of the PRC and Hong Kong, including the Company Law of the PRC, Securities Law of the PRC, Code of Corporate Governance for Listed Companies (《上市公司治理準則》) issued by the CSRC, Corporate Governance Code, the Listing Rules, and the listing rules of the SZSE.

#### **REVIEW OF 2024 ANNUAL REPORT**

The Audit Committee of the Company has reviewed and approved the 2024 Annual Report of the Company. Information on works performed by the Audit Committee and its composition are set out in the section headed "Board Committees" on page 84 of this annual report.

## **AUDITOR**

The Company has appointed Deloitte Touche Tohmatsu Certified Public Accountants LLP as the domestic auditor of the Company and Deloitte Touche Tohmatsu as the international auditor of the Company with effect from 23 June 2020 to fill the vacancies following the retirement of Ernst & Young Hua Ming LLP and Ernst & Young.

For the year ended 31 December 2024, Deloitte Touche Tohmatsu Certified Public Accountants LLP was the domestic auditor of the Company and Deloitte Touche Tohmatsu had been appointed as the international auditor of the Company.

The consolidated financial statements for the year ended 31 December 2024 have been audited by Deloitte Touche Tohmatsu Certified Public Accountants LLP and Deloitte Touche Tohmatsu. Deloitte Touche Tohmatsu Certified Public Accountants LLP and Deloitte Touche Tohmatsu will retire and, being eligible, offer themselves for re-appointment at the forthcoming annual general meeting. A resolution to re-appoint Deloitte Touche Tohmatsu Certified Public Accountants LLP and Deloitte Touche Tohmatsu and to authorize the Board to fix their remunerations will be proposed by the Board at the forthcoming annual general meeting.

There has been no other change in auditors of the Company in the preceding three years.

#### **EVENTS AFTER THE REPORTING PERIOD**

There are no significant events subsequent to 31 December 2024 which would materially affect the Group's operating and financial performance as at the date of this report.

Yours Sincerely,

Wu Gang

Chairman

GOLDWIND SCIENCE&TECHNOLOGY CO., LTD.

# Supervisory Committee Report

During the Reporting Period, the Company's Supervisory Committee acted strictly in accordance with the Company Law, the Securities Law, the Listing Rules of SZSE, the No. 1 Self-regulatory Guidelines for Listed Companies of SZSE – Standardized Operation of Companies Listed on the Main Board, other relevant laws and regulations, the Articles, the Rules of Procedure for the Supervisory Committee, and other relevant rules of the Company. All members of the Supervisory Committee assumed responsibility towards the Shareholders, acted with integrity, carried out the supervisory duties to the best of their abilities, actively participated in supervision works, carefully deliberated on major decisions, protected the interest of the Shareholders and the Company, and supported the Company's management and sustainable development.

#### SUPERVISORY COMMITTEE MEETINGS

During the Reporting Period, a total of 6 meetings were held, and 24 proposals were considered and approved. All Supervisory Committee members attended the meetings in person.

#### INSPECTION OPINIONS OF THE SUPERVISORY COMMITTEE

The Supervisory Committee made the following inspection opinions on relevant aspects of the Company during 2024:

# 1. Compliance with Laws and Regulations in the Course of Operations by the Company

During the Reporting Period, in accordance with the relevant national laws and regulations, and the normative documents, the Supervisory Committee supervised the convening and holding procedures and resolutions of the Board and the general meetings, as well as the implementation of the resolutions approved at the general meetings by the Board and the performance of the Directors and Senior Management.

The Supervisory Committee believes that the decision-making procedures of the Board meetings and the general meetings were lawful, and that the Directors and Senior Management were diligent and responsible. No violations of laws, regulations, the Articles, or actions that harm the interests of the Company or the Shareholders were found.

#### 2. Financial Position of the Company

During the Reporting Period, the Supervisory Committee supervised and reviewed the Company's financial status and reviewed the periodic financial reports.

The Supervisory Committee believes that the Company's financial system was sound and operated in a standardized manner, and its financial condition was good. The procedures for the preparation and review of periodic reports by the Board complied with the laws and regulations, and the requirements of the CSRC, the Shenzhen Stock Exchange, the Hong Kong Stock Exchange, and the Articles. The content of the reports truthfully, accurately, and completely reflected the actual position of the Company, with no falsified records, misleading statements, or significant omissions.

#### 3. Opinions on the Internal Controls Self-assessment Report

During the Reporting Period, the Supervisory Committee inspected the construction and execution of the Company's internal control system and reviewed the internal control self-assessment report.

The Supervisory Committee believes that the Company, in accordance with the relevant regulations of the CSRC, the Shenzhen Stock Exchange and the Hong Kong Stock Exchange, has established a relatively complete internal control system which operates effectively. The Company's 2024 internal control self-assessment report comprehensively, truthfully, and objectively reflected the establishment, operation and execution of the Company's internal control system.

## 4. Related-party transactions of the Company

During the Reporting Period, the Supervisory Committee verified the related-party transactions of the Company and considered that the prices of the related-party transactions of the Company were fair and there was no manipulation of the Company's profits through related-party transactions, nor was there any damage to the interests of the Company and all Shareholders.

#### 5. Status of the Company's 2024 Restricted Share Incentive Scheme

On 23 September 2024, the Supervisory Committee considered the "Proposal on the Company's 2024 Restricted Share Incentive Scheme (Draft) and its summary" (the "Draft Incentive Scheme (Draft)"), and considered that the procedures and decision-making of the Board in considering the relevant proposals in respect of the Company's 2024 Restricted Share Incentive Scheme were lawful and effective. The contents of the Incentive Scheme (Draft) of the Company are in compliance with the Company Law, the Securities Law, the Administrative Measures for Share Incentives of Listed Companies (the "Administrative Measures") and other relevant laws, regulations and regulatory documents. The implementation of the Incentive Scheme (Draft) by the Company is lawful and compliant. The Incentive Scheme (Draft) of the Company is conducive to the establishment and improvement of the incentive and restraint mechanism, the effective mobilisation of the management team and the core cadres, the prompting of the management to grasp the opportunities of the industry development, the enhancement of the Company's competitive position in the industry, the enhancement of the core competitiveness of the Company, and the ensuring of the realisation of the Company's development strategies and business objectives.

On 23 September 2024, the Supervisory Committee considered the "Proposal on the Company's Management Measures for the Implementation and Evaluation of the 2024 Restricted Share Incentive Scheme", and considered that the Company's Management Measures for the Implementation and Evaluation of the 2024 Restricted Share Incentive Scheme was aimed at guaranteeing the smooth implementation of the Company's share incentive Scheme, ensuring that the share incentive Scheme operates in a standardised manner, and is beneficial to the Company's sustained development, and that it was in compliance with the Company Law, the Securities Law, the Administrative Measures and other relevant laws and regulations as well as the Articles, and there are no circumstances that would harm the interests of the Company and all Shareholders.

From 18 October 2024 to 27 October 2024, the Company made an internal public announcement of the list of participants for the first grant of the 2024 Restricted Share Incentive Scheme. The Supervisory Committee expressed its verification opinion on the list of participants for the grant on 14 November 2024 in accordance with relevant laws and regulations and in light of the public announcement. The Supervisory Committee is of the view that the persons included in the list of participants under the Incentive Scheme are in compliance with the conditions set out in the relevant laws, regulations and regulatory documents, and that their status as participants under the Restricted Share Incentive Scheme is lawful and valid.

#### Supervisory Committee Report

On 13 December 2024, the Supervisory Committee considered the "Proposal on Adjustment of Matters Relating to the 2024 Restricted Share Incentive Scheme" and considered that the adjustment of matters relating to the 2024 Restricted Share Incentive Scheme of the Company was in compliance with relevant laws, regulations and normative documents such as the Administrative Measures and relevant regulations of the Company's Incentive Scheme (Draft), and that there were no circumstances which would be detrimental to the interests of the Shareholders. The adjusted participants are all in compliance with the conditions as stipulated in the relevant laws, regulations and regulatory documents as incentive targets, and their qualifications are lawful and valid, and they are all the persons identified in the Incentive Scheme considered and approved by the 4th EGM of 2024 of the Company.

On 13 December 2024, the Supervisory Committee considered the "Proposal on the First Grant of Restricted Shares to Participants", reviewed the matters relating to the first grant and issued a verification opinion that the Supervisory Committee was of the view that neither the Company nor the participants of the first grant of the Incentive Scheme were in a position not to be granted/awarded the Restricted Shares, and that the date of the grant was in compliance with relevant provisions relating to the date of grant in the Administrative Measures and the Incentive Scheme (Draft) of the Company. The Supervisory Committee agreed that 13 December 2024 shall be the first grant date for the grant of 39.4 million Restricted Shares to the eligible 460 first-time grant participants at a grant price of RMB4.09 per share.

## 6. Implementation of Information Disclosure Policy

During the Reporting Period, the Supervisory Committee carefully reviewed the implementation of the Company's information disclosure system.

The Supervisory Committee believes that the Company strictly followed the provisions of the Information Disclosure Management System, the Insider Information Registrants System, and other related systems to fulfil its information disclosure obligations. The Company has reflected its actual business and management situation to investors in a true, accurate, complete, timely, and fair manner. During sensitive periods, the Company promptly reminded insiders of the confidentiality of insider information to prevent the occurrence of violations. At the same time, the Company has strictly managed insider information and registered insiders in accordance with the requirements of the relevant systems.

The Company is committed to maintaining high standards of corporate governance and to continually improve its corporate governance structure, optimize its management and internal controls in order to safeguard the interests of the Shareholders and enhance corporate value.

Being listed on the Hong Kong Stock Exchange and the SZSE, the Company has remained in strict compliance with the relevant laws and regulations of Hong Kong and the PRC during the year ended 31 December 2024, which included the Company Law of the PRC, Securities Law of the PRC, Code of Corporate Governance for Listed Companies (《上市公司治理準則》) issued by the CSRC, Corporate Governance Code, the Listing Rules, and the listing rules of the SZSE.

The Directors are, and will continue to be, committed to improving the corporate governance of the Company to ensure that formal and transparent procedures are in place to protect the interests of the Shareholders.

#### CORPORATE GOVERNANCE PRACTICES

The Board is responsible for implementing the Corporate Governance Code and managing the Group's corporate governance matters. The Board has reviewed the corporate governance policies and procedures of the Company and its compliance management systems and procedures, as well as training and continuous professional development of the Directors and Senior Management. The Board has also reviewed the disclosure of the Corporate Governance Report of the Company for the year ended 31 December 2024.

The Company has complied with all applicable code provisions under the Corporate Governance Code during the year ended 31 December 2024.

#### **SHAREHOLDERS**

The Board and Senior Management recognize their responsibilities towards all Shareholders to represent their interests and maximize shareholder value.

As the highest authority of the Company, the shareholders' general meeting is responsible for the decision-making of all major Company issues in accordance with relevant laws and regulations. The Company has remained in strict compliance with the Rules on Shareholders' General Meetings of Listed Companies (《上市公司股東大會規則》) issued by the CSRC, the Articles, the Company's Rules on Procedures of Shareholders' General Meetings, and other relevant laws, rules and regulations. The Company convenes shareholders' general meetings each year and standardizes the meeting procedures in accordance with the relevant laws to ensure fair treatment towards all Shareholders, especially minority Shareholders, and to enable them to fully exercise their rights.

The Company regards the shareholders' general meeting as an important event and all Directors, Supervisors and Senior Management are encouraged to attend. The Company also encourages all Shareholders to attend, exercise their rights and express their opinions.

Pursuant to the Articles, Shareholders have the right to obtain information and documents from the Company. They also have the right to request, convene, host, participate, or appoint proxies to participate in shareholders' general meetings, as well as to exercise corresponding speaking rights and voting rights.

Pursuant to the Articles, Shareholders that, either individually or jointly, hold over 10% of the shares of the Company have the right to propose to the Board in writing for the convening of an EGM. The Board will, in accordance with the relevant laws, administrative regulations and the Articles, provide a written reply within 10 days after receiving such proposal with respect to whether it agrees with the convening of an EGM. In the event that the Board disagrees with the convening of an EGM, or fails to provide any feedback within 10 days after receiving such proposal, such Shareholders shall have the right to propose to the Supervisory Committee in writing for the convening of an EGM.

Pursuant to the Articles, the Board, the Supervisory Committee and Shareholders that, either individually or jointly, hold over 3% of the shares of the Company have the right to make proposals to the Company for approval at shareholders' general meetings. The Company shall include all matters in the proposals that fall within the jurisdiction of the shareholders' general meeting into the agenda of such meetings. In addition, Shareholders that, either individually or jointly, hold over 3% of the shares of the Company have the right to submit temporary proposals to the convener of the shareholders' general meeting in writing at least 10 days prior to such meeting. The convener of the meeting shall give a supplementary notice of the shareholders' general meeting within 2 days after receiving such proposals and announce the contents of the temporary proposals.

The Articles sets out the rights of the Shareholders, including those mentioned above. The Company has taken all necessary steps to comply with all provisions of the relevant laws, regulations, the Listing Rules, and the listing rules of the SZSE to ensure adequate protection of Shareholders' rights.

Shareholders are welcome to send their written enquiries to the Company's Office of Secretary of the Board at No. 8 Bo Xing Yi Road, Economic & Technological Development District, Beijing, the PRC, PC: 100176. Alternatively, Shareholders may also contact the Company through the Company's Investor Relations Hotline +86-10-6751 1996, Investor Relations e-mail at goldwind@goldwind.com, or raise their enquiries directly by way of questions at an AGM or EGM.

#### THE BOARD

The Board is charged with directing and managing the Company's affairs and continued to pursue the sustainable development of the Company in the year ended 31 December 2024. Each Director has a duty to act in good faith and in the best interests of the Company. The Directors are aware of their collective and individual responsibilities to all Shareholders for the manner in which the affairs of the Company are managed, controlled and operated.

The decisions and responsibilities undertaken by the Board and corporate governance include those relating to:

- The formulation and review of the Company's corporate governance policy and practices;
- The review and monitoring of training and continuous professional development of Directors and Senior Management;
- The review and monitoring of the Company's policies and practices in compliance with legal and regulatory requirements;
- The development, review and monitoring of the code of conduct of employees and Directors; and
- The review of the Company's compliance with the Corporate Governance Code and its disclosures in its Corporate Governance Report.

## **Board Composition**

As at the Latest Practicable Date, the Board is comprised of nine Directors, which includes three executive Directors, three non-executive Directors, and three independent non-executive Directors. The Board is characterized by its diversity in terms of professional background and skills, age and gender, among other aspects, which promotes critical review of significant decisions and contributes to the effective direction of the Group. The Board includes members from engineering, business administration, economics, corporate governance, and financial backgrounds.

The Company endeavours to ensure that the Board can obtain independent views and opinions. As such, the Company reviews the structure and the composition of the Board, and evaluates the performance of the independent non-executive Directors regarding independence on an annual basis. Apart from the effective independent opinions provided by the independent non-executive Directors, the three non-executive Directors are all external Directors (from Hexie Health Insurance Co., Ltd., Xinjiang Wind Power, and China Three Gorges Energy, respectively), who also provide opinions for the Board and the management with their expertise and capabilities. Their presence helps to enhance the Board's balance of skills, experience and diversity of perspectives.

The Board composition during the year ended 31 December 2024 and up to the Latest Practicable Date is set out below:

#### **Executive Directors**

Mr. Wu Gang (Chairman)
Mr. Cao Zhigang

Mr. Liu Rixin

#### **Non-executive Directors**

Mr. Gao Jianjun Ms. Yang Liying

Mr. Zhang Xudong (appointed on 27 February 2024)

## **Independent non-executive Directors**

Ms. Yang Jianping

Mr. Tsang Hin Fun Anthony

Mr. Wei Wei

The current Board is the eighth session of the Board. The term of office of the eighth session of the Board commenced on 23 June 2022, with a term of three years. The Company has already entered into a service contract with each of the Directors, including the non-executive Directors, for their services to the Company, stating, among other things, their respective annual remuneration and length of service with the Company.

The executive and non-executive Directors have extensive expertise, experience, and skills in the wind power industry and other professional areas, thereby providing knowledge and expertise for making strategic decisions of the Group. The independent non-executive Directors have extensive experience in the industry and possess professional qualifications in areas such as finance and business administration. The profiles of the Directors in office as at the Latest Practicable Date are set out in the section headed "Profiles of Directors, Supervisors and Senior Management" on page 45 of this annual report.

During the year ended 31 December 2024, in compliance with the requirements of the Listing Rules, the Board had at least three independent non-executive Directors, representing at least one-third of the Board, and at least one of the independent non-executive Directors had appropriate professional qualifications or accounting or related financial management expertise. During the same period, there were no financial, business, family or other major or relevant relationships between members of the Board or the Chairman and the President.

Pursuant to the requirement of Rule 3.13 of the Listing Rules, the Board has received a confirmation from each independent non-executive Director of their independence to the Company for the year ended 31 December 2024, and considers that all of the independent non-executive Directors are independent.

## **Changes to Members of the Board and Supervisory Committee**

The proposal to elect Mr. Zhang Xudong ("Mr. Zhang") as the Company's non-executive Director has been approved at the EGM held on 27 February 2024. Mr. Zhang will assume the position on the day after the EGM held on 27 February 2024. His tenure will be until the end of the term of the eighth session of the Board. Mr. Zhang obtained legal opinion as stipulated in Rule 3.09D of the Listing Rules on 1 February 2024, and confirmed his understanding of the responsibilities of a director of a listed company. The Company has entered into a service agreement with Mr. Zhang for his services as a Director of the Company to state, among other things, his annual remuneration and length of services. According to a resolution from the annual general meeting of the Company on 22 June 2022, Mr. Zhang, as a non-executive Director, will not receive remuneration from the Company.

Ms. Li Tiefeng resigned as a supervisor and chairman of the 8th session of Supervisory Committee of the Company due to her job transfer on 24 April 2024.

The proposal to elect Mr. Chang Qing ("Mr. Chang") as the Company's Supervisor has been approved at the 2023 AGM held on 25 June 2024. Mr. Chang assumed the position on the day after the AGM held on 25 June 2024. His tenure will be until the end of the term of the eighth session of the Supervisory Committee. The Company has entered into a service agreement with Mr. Chang for his services as a Supervisor to state, among other things, his annual remuneration and length of services. According to a resolution from the annual general meeting of the Company on 22 June 2022, Mr. Chang, as a Supervisor, will not receive remuneration from the Company. The 11th meeting of the eighth session of the Supervisory Committee was held on 23 August 2024 and has considered and approved the election of Mr. Chang as the chairman of the Supervisory Committee. His term of office shall expire upon the expiry of the term of the eighth session of the Supervisory Committee.

#### Changes to Information of Directors, Supervisors and Senior Management

Mr. Tsang Hin Fun Anthony was appointed as an independent non-executive director of ENM Holdings Limited on 19 January 2024 and was appointed as an independent non-executive director of Yangtze Optical Fibre and Cable Joint Stock Limited Company on 22 November 2024, both companies are listed on the Hong Kong Stock Exchange.

Mr. Gao Jianjun ceased to serve as director of Xinjiang Lixin Energy Co., Ltd. (listed on the Shenzhen Stock Exchange) in April 2024.

Mr. Wei Wei ceased to serve as an independent non-executive director of China Aviation Technology International Holding Co., Ltd. (a private company) since October 2024. He has served as an independent non-executive director of All View Cloud Co. Ltd. (listed on the NEEQ) since August 2024.

Mr. Luo Jun was appointed as a director of Xinjiang Yutian New Wind Power Co., Ltd., Urumqi Tianpeng Wind Power Co., Ltd., Xinjiang Tianxiang Wind Power Co., Ltd., and Pishan Risheng Electricity Development Co.Ltd. in July 2024, and no longer serves as an executive director.

Save as disclosed above, to the best of the Company's knowledge, during the year ended 31 December 2024, there has been no change to the information about the Directors, Supervisors or Senior Management of the Company required to be disclosed and which have been disclosed in accordance with Rules 13.51(2)(a) to (e) and (g) of the Listing Rules.

#### **Chairman and President**

As at the Latest Practicable Date, the roles of Chairman and President were vested in Mr. Wu Gang and Mr. Cao Zhigang, respectively.

The Chairman is responsible for establishing the Company's strategies, ensuring the proper functioning of the Board, and monitoring the Company's corporate governance practices and procedures. In addition, the Chairman is responsible for encouraging all Directors to fully contribute to the Board's affairs and to express their opinions, ensuring that decisions of the Board reflect their consensus fairly, creating a culture of openness and constructive discussions, maintaining an effective communications channel with the Shareholders, and ensuring that the Board acts in the best interests of the Company. During the year ended 31 December 2024, the Chairman held a meeting with independent non-executive Directors and obtained independent opinions relating to affairs of the Board and the Company without the presence of other Directors.

The President is responsible for the day-to-day management of the Company's operations, including implementing corporate strategies set out by the Board, making day-to-day management decisions, coordinating the Company's businesses, and submitting operational reports to the Board.

#### **Directors' and Supervisors' Securities Transactions**

The interests in the Company's securities held by Directors or Supervisors as at 31 December 2024 are set out in the section headed "The Board of Directors' Report – Interests and Short Positions in Shares of the Company and its Associated Corporations by Directors and Supervisors" on page 69 of this annual report.

The Company has adopted a code of conduct regarding securities transactions by Directors and Supervisors on terms no less exacting than the required standard set out in the Model Code. The Company has strictly complied with other relevant binding clauses imposed by the regulatory authorities of Hong Kong and the PRC, and adhered to the principle of complying with the stricter regulations between the two jurisdictions. The Company made specific enquiry to all Directors and Supervisors about whether they complied with the Model Code during the Reporting Period, with all Directors and Supervisors confirming that they have complied with the Model Code during the year ended 31 December 2024.

The Group's employees, who are likely to be in possession of inside information of the Company, have also been subject to the Model Code for securities transactions. No incident of non-compliance of the Model Code by the Group's relevant employees was noted by the Company during the year ended 31 December 2024.

#### **Board Committees**

The Board established the Audit Committee, the Nomination Committee, the Remuneration and Assessment Committee and the Strategic Committee in accordance with the requirements of the Listing Rules. The written terms of reference of the Board Committees clearly set out their respective roles and authorities and are available on the websites of the Hong Kong Stock Exchange and the Company for review.

The composition of the Board Committees as at the Latest Practicable Date and their respective responsibilities are set out below:

#### 1. Audit Committee

The Audit Committee consisted of two independent non-executive Directors and one non-executive Director, namely Ms. Yang Jianping, Mr. Tsang Hin Fun Anthony and Ms. Yang Liying. The committee chairman was Ms. Yang Jianping.

The primary responsibilities of the Audit Committee are to review and propose recommendations relating to the Company's external auditors and audit services provided by them, review the integrity of the Company's periodic financial statements, oversee matters relating to the Company's internal audit, risk management and internal controls, review significant transactions of the Company, and report to the Board on matters of the Corporate Governance Code.

During the Reporting Period, a total of 8 Audit Committee meetings were held. The work performed by the Audit Committee included reviewing the Company's annual, interim and quarterly reports, internal audit and internal control assessment, risk management and monitoring external audit services. The Audit Committee reviewed and discussed the auditor's report to ensure that the 2023 consolidated financial statements of the Group in annual report were prepared in accordance with IFRS and comply with the applicable disclosure requirements of the Companies Ordinance and the Listing Rules, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. During the Reporting Period, careful considerations had been made by the Audit Committee to ensure transparency and consistency have been applied throughout the financial reporting disclosures.

During the Reporting Period, the Audit Committee also reviewed the independence of Deloitte Touche Tohmatsu Certified Public Accountants LLP and Deloitte Touche Tohmatsu, as well as the objectivity and effectiveness of the audit process. It reviewed the audit fees and the fees for non-audit services payable to Deloitte Touche Tohmatsu Certified Public Accountants LLP and Deloitte Touche Tohmatsu. Having considered the performance and independence of Deloitte Touche Tohmatsu Certified Public Accountants LLP and Deloitte Touche Tohmatsu, the Audit Committee recommended to the Board the re-appointment of Deloitte Touche Tohmatsu Certified Public Accountants LLP as the PRC auditor of the Company and Deloitte Touche Tohmatsu as the international auditor of the Company, which will be considered by the Shareholders at the forthcoming AGM.

#### 2. Nomination Committee

The Nomination Committee consisted of two independent non-executive Directors and one executive Director, namely Ms. Yang Jianping, Mr. Wei Wei and Mr. Cao Zhigang. The committee chairman was Ms. Yang Jianping.

The primary duties of the Nomination Committee include making recommendations to the Board on the structure, size and composition of the Board based on the Company's operating structure, asset size and shareholding structure, studying the criteria and procedures for the selection of Directors and Senior Management and making recommendations to the Board regarding the nomination or appointment and removal of Directors, and the appointment or dismissal of Senior Management, reviewing the independence of independent non-executive Directors, extensively searching for qualified candidates for Directors and Senior Management, reviewing and making recommendations on the appointment or re-appointment of candidates for Directors and Senior Management, reviewing the qualifications of the nominees and forming clear review opinions, reviewing the succession plan for the members of the Board, particularly the Chairman and the President, and making recommendations to the Board.

Procedures for nomination of Directors and Senior Management are:

- Shareholders individually or jointly holding more than 3% of the shares of the Company, the Board, the President, or the Chairman of the Board may propose the candidates for Directors and Senior Management and submit relevant materials of the nominees in accordance with the role requirements for Directors and Senior Management under the Articles to the office of the secretary of the Board for collection purposes; the Supervisory Committee and any shareholders individually or jointly holding more than 1% of the shares of the Company may propose candidate(s) for independent non-executive Directors in accordance with the role requirements for independent non-executive Directors under the Articles to the office of the secretary of the Board for collection purposes;
- The office of the secretary of the Board shall collect and sort out the proposed positions and relevant materials of the nominees and submit them to the Nomination Committee;
- The chairman of the Nomination Committee shall designate a member to seek the opinions of the nominees on the nomination;
- The Nomination Committee shall convene a meeting to review the qualifications of the candidates and make recommendations to the Board based on the candidates' contributions in terms of qualifications, skills, experience, independence and gender diversity, as well as the job requirements for Directors and Senior Management as required by laws and regulations;
- prior to the election of new Directors and the appointment of new members of Senior Management, review
  opinions on the candidates for Directors and new Senior Management, which shall be submitted to the Board.

For the year ended 31 December 2024, the Nomination Committee did not hold any meetings.

#### **DIVERSITY**

#### (1) Board Diversity Policy

#### Summary of Board Diversity Policy

The Company has recognized the importance of board diversity to corporate governance and board effectiveness in terms of examination and evaluation of corporate issues from different perspectives. As such, the Company adopted a board diversity policy (the "Diversity Policy") in 2014, and revised it in 2019, which sets out the objectives and principle regarding board diversity. Pursuant to the Diversity Policy, the Company considers board diversity from a number of measurable aspects, including but not limited to gender, age, cultural and educational background, nationality, professional experience, skills, knowledge and length of services. The ultimate decision would be based on merit and contribution the selected candidates would bring to the Board as well as the Company's business needs. Having reviewed the Diversity Policy and the Board's composition, the Board considers that the requirements set out in the Diversity Policy have been met.

#### Measurable objectives

Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, nationality, professional experience, skills, knowledge and length of services. The ultimate decision would be based on merit and contribution the selected candidates would bring to the Board as well as the Company's business needs.

As at the date of this report, the Board's composition under diversified perspectives was summarized as follows:

Unit: No. of person

| Educational background | Bachelor's<br>Degree  | Master's<br>Degree        | Doctor of<br>Philosophy                  |
|------------------------|-----------------------|---------------------------|--|
|                        | 4                     | 4                         | 1  |
| Designation            | Executive<br>Director | Non-Executive<br>Director | Independent<br>Non-executive<br>Director |
|                        | 3                     | 3                         | 3  |
| Gender                 |                       | Male                      | Female                                   |
|                        |                       | 7                         | 2  |
| Nationality            |                       | China                     | Hong Kong                                |
|                        |                       | 8                         | 1  |
| Age group              | 35-50                 | 51-60                     | 61-65                                    |
|                        | 3                     | 4                         | 2  |
| Length of service      | 1-5 years             | 6-15 years                | 16-25 years                              |
|                        | Δ                     | 4                         | 1  |

#### (2) Gender Diversity

#### Gender Diversity at Board Level

The Company recognizes and embraces the benefits of having a diverse Board and sees increasing diversity at the Board level, including gender diversity, as an essential element in maintaining the Company's competitive advantage and enhancing its ability to attract, retain and motivate employees from the widest possible pool of available talent. We have also taken, and will continue to take steps to promote gender diversity at all levels of the Company, including but not limited to our Board and the Senior Management levels. Currently, two of our Directors are female, demonstrating that we have realized gender diversity in our Board. The Board will continue to maintain at least one female director in the future. The Nomination Committee will review the gender balance from time to time to ensure its continued effectiveness.

#### Gender Diversity at the Company

The Company also attaches great importance to gender diversity of employees, and delegates the Nomination Committee of the Company to review the gender diversity of employees from time to time. As of the end of the Reporting Period, female employees accounted for 21.43% of the total number of employees; the Company had 11 members of Senior Management, one of whom was female. The Company plans to provide more opportunities to female employees in terms of recruitment and talent cultivation, so as to achieve a more balanced gender mix within the Company. As of the date of this annual report, the Company is not aware of any factors or circumstances that would make it more challenging or less relevant for the Company to achieve gender diversity among its employees.

## 3. Remuneration and Assessment Committee

The Remuneration and Assessment Committee consisted of two independent non-executive Directors and one executive Director, namely Mr. Wei Wei, Ms. Yang Jianping and Mr. Cao Zhigang. The committee chairman was Mr. Wei Wei.

The primary responsibilities of the Remuneration and Assessment Committee are to establish the Company's remuneration policy for Directors and Senior Management, make recommendations to the Board, review the remuneration proposals for Directors and Senior Management, review and assess their performance, including assessing the performance of executive Directors, and review and approve compensation payable for their termination in accordance with their contractual term; review and/or approve matters relating to share schemes under Chapter 17 of the Listing Rules; make recommendations to the Directors on the formulation or modification of the share incentive schemes and the employee share ownership schemes, and on the fulfillment of the conditions for the grant and exercise of interests to the participants; make recommendations to the Directors on the arrangement of the share ownership schemes of the proposed spin-off of a subsidiary participated by the Directors and Senior Management;.

The remuneration policy of Directors is set out below:

- The remuneration of executive Directors will be determined according to their positions held in the Company and the Company's remuneration management regulations;
- Non-executive Directors will not receive any remuneration from the Company;
- Each of the independent non-executive Directors shall be entitled to a remuneration of RMB400,000 (before tax) per annum.

The remuneration of the Company's employees is determined based on the principles of fairness and reasonableness, taking into account basic salary, performance salary, housing provident fund and various insurance amounts. The Company will also provide year-end bonuses to employees at its discretion based on the Company's performance and individual performance of employees.

During the Reporting Period, a total of 6 Remuneration and Assessment Committee meetings were held. The work performed by the Remuneration and Assessment Committee during the year ended 31 December 2024 included reviewing the Company's remuneration report, determining the remuneration and bonus of relevant Directors and Senior Management based on the performance of the Company and in accordance with the Company's Administration Rules for Remuneration, reviewing matters related 2024 restricted A Share incentive scheme.

#### 4. Strategic Committee

The Strategic Committee consisted of two executive Directors, two non-executive Director, and one independent non-executive Director, namely Mr. Wu Gang, Mr. Liu Rixin, Mr. Gao Jianjun, Mr. Zhang Xudong and Mr. Wei Wei. The committee chairman was Mr. Wu Gang.

The primary responsibilities of the Strategic Committee are to review and propose recommendations for the Group's long-term strategies, significant decisions, investment and financing plans, and capital operations.

#### **Board and Committee Meetings**

Pursuant to the Articles, the Board is required to hold at least four Board meetings each year, to be convened by the Chairman. In case of urgent matters, extraordinary Board meetings may be convened upon proposal by the Chairman or the President or more than one-third of all Directors. A notice period of at least 14 days shall be given to every Director and Supervisor for a Board meeting pursuant to the Corporate Governance Code, and the notice for such meetings shall be sent to every Director and Supervisor at least 10 days in advance pursuant to the Articles. The notice of a Board meeting shall include the date and place of the meeting, the duration of the meeting; matters and resolutions to be considered at the meeting, and the date of the notice.

A Board meeting must have over half of all the Directors in attendance. The Directors may attend the Board meeting in person or appoint another Director in writing to attend the Board meeting by proxy. The Board shall keep minutes of decisions on matters discussed at the meeting and ensure that such minutes are available for inspection by any Director.

Details of Directors' attendance at Board meetings, committee meetings, and shareholders' general meetings of the Company during the year ended 31 December 2024 are set out below:

| Name                                | Board     | Audit<br>Committee | Nomination<br>Committee | Remuneration & Assessment Committee | Strategic<br>Committee | Shareholders'<br>General<br>Meeting |
|-------------------------------------|-----------|--------------------|-------------------------|-------------------------------------|------------------------|-------------------------------------|
| Executive Directors                 |           |                    |                         |                                     |                        |                                     |
| Mr. Wu Gang                         | 11/11     |                    |                         |                                     | 0/0                    | 7/7                                 |
| Mr. Cao Zhigang                     | 11/11     |                    | 0/0                     | 6/6                                 |                        | 6/7                                 |
| Mr. Liu Rixin                       | 11/11     |                    |                         |                                     | 0/0                    | 7/7                                 |
| Non-executive Directors             |           |                    |                         |                                     |                        |                                     |
| Mr. Gao Jianjun                     | 8(3)1/11  |                    |                         |                                     | 0/0                    | 0/7                                 |

| Mr. Zhang Xudong <sup>2</sup>       | 9/9       |                    |                         |                                     | 0/0                    | 4/7                                 |
| Independent Non-executive Directors |           |                    |                         |                                     |                        |                                     |
| Ms. Yang Jianping                   | 10(1)1/11 | 8/8                | 0/0                     | 6/6                                 |                        | 7/7                                 |
| Mr. Tsang Hin Fun Anthony           | 11/11     | 8/8                |                         |                                     |                        | 5/7                                 |
| Mr. Wei Wei                         | 11/11     |                    | 0/0                     | 6/6                                 | 0/0                    | 7/7                                 |

#### Notes:

- 1. The Director attended the board meetings by proxy.
- 2. Mr. Zhang Xudong's appointment was effective from 28 February 2024.

## **Appointment of Directors**

The Company has a formal and transparent procedure in place for the appointment of new directors. Suitable candidates are first considered by the Nomination Committee, whereby the relevant qualifications of such candidates will be reviewed. The qualified candidate will then be put forward to the Board for consideration before such candidate's appointment as Director is proposed to the Company's shareholders' general meeting.

Pursuant to the Articles, any Director's term of office shall begin on the day after the approval of the relevant resolution of the Company's shareholders' general meeting until the expiration of the current session of the Board. Directors may serve consecutive terms if re-elected upon the expiration of the previous term of office. Independent non-executive Directors may not serve more than six years.

#### **Directors' Commitments**

All of the Directors have disclosed to the Company the number and nature of offices held in other listed companies or other significant commitments, including the name of and offices held in such companies or organizations. The Directors are periodically reminded to notify the Company in a timely manner with regard to any change of such information. Offices held in other listed companies or other significant commitments of the Directors in office as at 31 December 2024 are set out in the section headed "Profiles of Directors, Supervisors and Senior Management" on page 45 of this annual report. Any changes to such information of the Directors during the year ended 31 December 2024 are set out in the section headed "Corporate Governance Report – Changes to Information on Directors, Supervisors and President" on page 82 of this annual report.

## **Directors' Training**

The Company continuously updates all Directors on latest developments regarding the Listing Rules and other applicable regulatory requirements to ensure compliance of the same by all Directors. The Company also submitted Directors' Monthly Operations Report to brief Directors on the Company's monthly businesses, financial position, industry and market environment, and capital market updates. The Board is encouraged to observe the relevant regulatory requirements. All Directors are encouraged to attend external forums or training courses on relevant topics which may count towards continuous professional development training.

Pursuant to the Corporate Governance Code C.1.4, Directors should participate in continuous professional development to refresh and develop their knowledge and skills. This is to ensure that their contribution to the Board remains informed and relevant. During the year, all Directors have participated in appropriate continuous development activities either by attending training courses or by reading materials relevant to the Company's business or the Director's duties and responsibilities.

Details of Directors' attendance at seminars/training sessions/in-house briefing/reading materials during the year ended 31 December 2024 are set out as below:

| Name                                | Attending<br>seminar and/or<br>Conferences<br>and/or forums | Reading journals,<br>updates,<br>articles and/or<br>materials, etc. |

# Notes:

1. Mr. Zhang Xudong's appointment was effective from 28 February 2024.

#### THE SUPERVISORY COMMITTEE

The Supervisory Committee is the Company's permanent supervisory system. It is responsible for the supervision of the Board, the Directors, the President, and Senior Management in order to prevent such persons from exploiting their authority and violating the legal rights and interests of the Shareholders, the Company and employees of the Company. The Supervisory Committee has remained in strict compliance with the relevant provisions in the Company Law of the PRC, the Securities Law in the PRC and other relevant laws and regulations, the Articles, the Supervisory Committee Regulations of the Company and other relevant rules of the Company during the year ended 31 December 2024. The Supervisors are aware of their collective and individual responsibilities to all Shareholders and acted to the best of their abilities to protect the interests of the Shareholders and the Company.

The responsibilities undertaken by the Supervisory Committee include:

- review of the Company's periodic reports prepared by the Board and verification of financial reports, business reports, profit distribution proposals and other financial information to be submitted to shareholders' general meetings;
- examination of financial affairs of the Company;
- supervision of the performance of Directors and Senior Management and their compliance with laws, regulations, corporate policies, and resolutions of shareholders' general meetings;
- investigation into any identified irregularities in the Company's operations;
- institution of legal proceedings against Directors and Senior Management in accordance with Article 189 of the Company Law of the PRC; and
- any other duties stipulated by relevant laws, regulations, and the Articles.

## **Supervisory Committee Composition**

As at the Latest Practicable Date, the Supervisory Committee is comprised of five Supervisors, which included three Supervisors elected by the Shareholders and two employee representative Supervisors.

The Supervisory Committee composition during the year ended 31 December 2024 and up to the Latest Practicable Date is set out below:

## **Supervisors**

Mr. Chang Qing (Chairman)

Mr. Luo Jun

Mr. Wang Yan

#### **Employee Representative Supervisors**

Mr. Lu Min Ms. Ji Tian

The current Supervisory Committee is the eighth session of the Supervisory Committee. The term of office of the eighth session of the Supervisory Committee began on 23 June 2022, with a term of three years. The Company has already entered into a service contract with each of the Supervisors for their services to the Company, stating, among other things, their respective annual remuneration and length of service with the Company.

The profiles of the Supervisors in office as at 31 December 2024 are set out in the section headed "Profiles of Directors, Supervisors and Senior Management" on page 45 of this annual report.

#### **Supervisory Committee Meetings**

Pursuant to the Articles, the Supervisory Committee is required to hold at least one committee meeting every six months, to be convened by the chairman of the Supervisory Committee. In case of urgent matters, extraordinary committee meetings may be convened upon proposal by any Supervisor. A notice of meeting shall be given to every Supervisor at least 10 days prior to a committee meeting. The notice of committee meeting shall include the date, place and duration of the meeting, matters and resolutions to be considered at the meeting, and the date of the notice.

A committee meeting must have over half of all the Supervisors in attendance. The Supervisors may attend the committee meeting in person or appoint another Supervisor in writing to attend the committee meeting by proxy. The Supervisory Committee shall keep minutes of decisions on matters discussed at the meeting and ensure that such minutes are available for inspection by any Supervisor.

Details of Supervisors' attendance at committee meetings of the Company during the year ended 31 December 2024 are set out below:

| Name                                | Attendances/<br>Meetings Held |
|-------------------------------------|-------------------------------|
| Supervisors                         |                               |
| Mr. Chang Qing <sup>1</sup>         | 4/4                           |
| Mr. Luo Jun                         | 6/6                           |
| Mr. Wang Yan                        | 6/6                           |
| Ms. Li Tiefeng <sup>2</sup>         | 1/1                           |
| Employee Representative Supervisors |                               |
| Mr. Lu Min                          | 6/6                           |
| Ms. Ji Tian                         | 6/6                           |

#### Notes:

- 1. Mr. Chang Qing has been served as the supervisor of the Company since 26 June 2024.
- 2. Ms. Li Tiefeng resigned as a supervisor and chairman of the Supervisory Committee of the Company due to her job transfer on 24 April 2024.

## RISK MANAGEMENT AND INTERNAL CONTROL

The Group is committed to establishing and continually improving its risk management and internal control. As the Group developed its business over the years, it strengthened its internal management and risk control through analysis of past performance and implementation of innovative ideas.

## **Risk Management**

## Risk Management Framework Objectives and Principles

The Group established its risk management system based on the Central Enterprises Comprehensive Risk Management Guidelines (《中央企業全面風險管理指引》), COSO Comprehensive Risk Management Framework (《COSO全面風險管理框架》) and ISO31000 Guide to Risk Management (ISO31000《風險管理指南》). The Company defines risks as uncertainty towards business objectives, including possible gains or losses.

The Group's overall risk management objectives are to:

- Ensure that the risk is within the scope of the Company's development strategy;
- Achieve true and reliable communication of the Company's internal and external information;
- Ensure that the Company is in compliance with the relevant laws and regulatory requirements;
- Ensure the implementation of the Company's relevant regulations for major measures that achieve business objectives, ensure the validity of the Company's management, improve the efficiency and effect of business activities, and reduce uncertainty when achieving business objectives:
- Ensure that the Company has formulated a material risk management plan so as to protect the Company form significant losses and to protect the safety and completeness of the Company's assets.

The Group's risk management program was established on the basis of its:

- Complete implementation principle: risk management should be implemented before, during and after every event; it should be implemented in every level within the Company's operations, covering all business of the Company and influencing every operating decision. From administration to supervision to feedback on information, the Company's risk management process aims to be one without gaps or loopholes;
- Importance principle: risk management should be based on overall control, focusing on important business issues and high risk areas, strengthening the risk management of the "Three Priorities and One Major (三重一大)";
- Adaptability principle: risk management should be based on changes in the internal and external environment and
  combined with regular assessments. The risk database and risk response strategies should be updated accordingly to
  adapt to the realization of the Company's strategic goals.
- Integrated management principle: the risk management system should be fully integrated with other management systems, including quality management system, environmental and occupational health and safety management system, process system, and information security system. Risk prevention, anti-fraud and standardized management should be organically combined to achieve coordinated operation and mutual promotion of various management systems, continuously strengthen risk prevention and control capabilities, and effectively improve the Company's performance;
- Cost-benefit principle: the Company must evaluate the cost and expected return to achieve effective control at an appropriate cost;

#### Risk Management Organization and Responsibilities

The Group's risk management is equipped with three lines of defense + decision-making line of defense: each business unit, subsidiaries are its first line of defense; functional departments are its second line of defense; the Audit and Supervision Department is its third line of defense. The decision-making committee and various professional committees undertake the responsibility of the decision-making line of defense.

First line of defense: Each business unit and subsidiaries shall carry out risk management work in accordance with the Company's risk management requirements, conduct risk identification, analysis, assessment and response, record the risk management process, and report major risks.

Second line of defense: Each functional department organizes, guides, coordinates and implements the corresponding risk management requirements, risk assessment, risk response, risk record and reporting, risk supervision, inspection and evaluation, etc.

Third line of defense: The Audit and Supervision Department independently conducts supervision and evaluation of risk management work.

The Group's decision-making committee and various professional committees are responsible for reviewing risk-related decision-making matters within their respective jurisdictions. The secretariat institutions supervise and ensure the implementation of the decision-making resolutions. The Board and its Audit Committee are responsible for risk management, promoting the implementation and improvement of the Company's risk management work.

#### **Risk Classification**

According to the factors that affect the achievement of different goals, the Company's risks are divided into five categories: strategic risks, financial risks, market risks, operational risks, and legal risks.

## **Risk Management Processes and Procedures**

The general procedures followed by the Company's risk management are risk identification, risk analysis, risk evaluation and risk response. The Company's risk management system requires participation in departments at every level; regardless of the level of risk management or business area, all must adhere to this universal procedure.

Risk identification – the process of analysis and discovery of potential factors that may affect the Company's strategic objectives and business objectives. The qualitative method is mainly adopted for risk identification, and different approaches are adopted based on the actual situation.

Risk analysis – determine the level of risk by considering its causes, consequences and likelihood of occurrence, existing risk control measures and their effectiveness.

Risk evaluation—the process of deciding whether the risk needs to be addressed based on the results of risk analysis and selecting the most appropriate risk response strategy.

Risk response – the process of selecting and applying specific response measures to manage the risk. Risk response strategies mainly include risk avoidance and mitigation, risk reduction and sharing, risk sharing and acceptance, and risk acceptance and termination.

#### **Risk Management Characteristics**

Integrated – the risk management system of the Company is a comprehensive management system that is integrated within other management systems. Risk management, internal control and management assessment are integrated within standardized management, lean management in goal setting, division of labor organization, guaranteeing measures and implementation procedures, the Company's continual exploration, its integrated management system, and the process of improving the overall management efficiency.

Harmonized – the Company's risk management system requires full coverage in the management of all aspects. For instance, the annual business development plan, project investment examination and approval, bidding and purchasing, and policy-making all require a risk response plan.

Aligned – the Company's risk management style is aligned with the Company's corporate culture. The Company's corporate culture and value proposition determine the Company's appetite for risk.

#### **Internal Control**

The Group established its internal control based on the Company Law of the PRC, Accounting Law of the PRC, CASBE, and the Basic Administration Rules on Corporate Internal Control (《企業內部控制基本規範》) jointly issued by five ministries and commissions of the PRC in 2008, and other relevant rules and regulations. The basic principles of the internal control system of Group are comprehensiveness, importance, balance, adaptability and cost efficiency.

#### Organizational System and Responsibilities

Everyone in the Group has a role to undertake within the Company's internal control system:

- The Board is responsible for the establishment and improvement of internal control. The Board has established the
  Audit Committee, which is responsible for the review of internal control, the effective implementation of monitoring
  internal control and internal control self-assessment, as well as coordination of internal control audit and other related
  matters.
- The Supervisory Committee is responsible for supervising the establishment and implementation of the internal control of the Board.
- The managers are responsible for organizing and leading the daily operation of internal control.
- The Audit and Supervision Department supervises and checks the effectiveness of the internal control of the Group in conjunction with the internal control and internal audit. Internal control deficiencies found by the Audit and Supervision Department will be reported in accordance with the working procedures of the internal audit. The Audit and Supervision Department reports directly to the Board and its Audit Committee as well as the Supervisory Committee any major defects found in internal control supervision and inspection.
- Staff at all levels are responsible for the implementation of specific internal controls in accordance with the requirements of the Company's internal control manual and the control of evidence.

#### Internal Control Mechanism

The Group, in accordance with the Basic Administration Rules on Corporate Internal Control(《企業內部控制基本規範》), established an internal control system based on its internal environment, risk assessment, control activities, information and communication, and internal supervision. The Internal Control Manual of GOLDWIND SCIENCE&TECHNOLOGY CO., LTD. (《金風科技股份有限公司內部控制手冊》) is one of the fundamental documents detailing the construction and evaluation of Group's internal control system. It is a guide for the construction and implementation of Group's internal control system, promotes the further standardization of production and business activities, and once implemented, strengthens the ability of risk prevention.

The Company advocates integrity as the core of positive corporate culture. The Company developed the Goldwind Science & Technology Culture Handbook (《金風科技文化手冊》), which covers the Company's mission, vision and core values, business philosophy, and other content so that all employees have a clear understanding of the principles and norms of the Company. The Company's governance structure is a standardized and stable operation. Human Resources has developed a comprehensive introduction, development, use, and exit related system processes.

The Company has different levels of coping strategies for risk, either the Company's level of risk or business activity level of risk. At the Company level, it determines its overall goals and objectives for mitigation according to the business objectives of the Company's development strategy and its annual business objectives; it identifies the factors that influence the realization of its goals (collection, analysis, and arrangement of risk), it creates a preliminary risk database with examples from both its domestic and foreign industry; it uses the Company's risk assessment standards to analyze historical industry data to understand the cause of the risk, the probability and impact of risk, to identify significant risks at the Company level. At the business activity level, the Group takes account of the important accounting items and disclosures in the financial statements to sort out the business of the Company; it determines sales and receivables of project management and other types of business, and in practice covers all aspects of the Group's management activities. To facilitate the process, the Group has created an important business process directory. After identifying important business processes, the Group evaluates risk in important business by the method of risk identification and analysis, and establishes a risk database. At the same time, the Group identifies new risks according to changes in business activities, and maintains and updates its risk database. The internal control manual's established processes are also regularly updated according to the business process evaluation.

The Group, according to the Company level or business activity level risk assessment results, uses incompatible job separation control, authorization control, accounting system control, property protection control, budgetary control, operation control and performance evaluation control, through the development and deployment of systems and process implements internal control activities. The Group's functional departments and business units, in their respective duties within the scope of their management formulate their own rules and regulations; each business unit in different business sectors; for example, purchasing, sales, and R&D all create their own business systems and process documents, and operational rules for business execution. The operation center of the Group is responsible for the collection and compilation of the system processes of all levels, units and departments, and carry out such management as daily issuance, updating and abolishment.

The Company gradually formed a scientific standardization, wherein different levels, through various forms of internal information transmission mechanism, protect the internal control of the transfer of information and support the internal monitoring operation. The Company attaches importance to the construction of its information system, and gives full play to the role of information technology in internal control. The Company has established a complaint reporting system and set up a hotline which is open to all of its staff to ensure the smooth flow of complaints; it has become one of the important steps in the Company's measures against fraud.

#### **Internal Audit**

The Company has established an internal audit function and formulated the Internal Audit System (《內部審計制度》) and Internal Control Self-Assessment Management Measures (《內部控制自我評價管理辦法》), which clearly defines the internal audit department as accepting the guidance and supervision of the Board's Audit Committee, carrying out the functions of inspection and supervision independently, and specify the qualitative and quantitative standards for defects. The Audit and Supervision Department is equipped with full-time staff whose daily work includes risk assessment, internal control audits, financial audits, complaint handling, and special inspection work. At least once a year, the department conducts a comprehensive inspection and supervision of the group's internal control, and carries out regular inspections of the internal control of the Group on a regular basis. The Audit and Supervision Department reports directly to the Secretary of the Board. The Audit and Supervision Department regularly reports to the Audit Committee on its work about internal audit. The Audit Committee provides guidance on the internal audit work.

At each year end, in accordance with the requirements under the Company Internal Control Evaluation Guideline (企業內部控制評價指引), which focuses on the internal environment, risk assessment, control activities, information and communication, internal supervision and other factors, the Company conducts a comprehensive self-evaluation on internal control. The scope of the evaluation includes all of the Company's key business areas and business processes. The annual internal control evaluation comprises the internal control evaluation team, a clear division of labor and rate of progress schedule, and an on-site inspection amongst other ways to organize the implementation of an internal control evaluation. The main person in charge of each unit is responsible for the authentication of the internal control self-assessment process and its conclusion. The Audit and Supervision Department submits an annual report on internal control self-assessment to the Audit Committee within three months after the end of the year and the Audit Committee of the Board reviews the internal control self-assessment report submitted by the Audit and Supervision Department.

#### **Internal Control Defect Handling**

The Company established defect identification standards for its internal control according to its business scale, characteristics, and risk tolerance. There are two standards: general defects and major defects. These standards were formulated from two aspects of qualitative and quantitative identification according to the severity of the defects. This identification criteria was considered and approved by the Board.

After an audit, the internal audit department of the Company will report all internal control anomalies and improvement proposals in a work report to the Chairman and the management of the Company. The management of the Company will propose corrective actions while the internal audit department will supervise its implementation, after immediately sending a report to the Board's Audit Committee. For instance, there were defects in the Company's annual internal control self-assessment that were reported to the Board, the Board identified the major defects, and then implemented remedial measures.

Due to negligence in relevant personnel resulting in significant defects or significant risks in the internal control report to the Company that caused serious damage, the Company will utilize its accountability process to identify the source of the negligence.

## **Review of Risk Management and Internal Control Results**

According to the Fundamental Norms of Enterprise Internal Control(《企業內部控制基本規範》) and its supporting guidelines, the Company's internal control system and evaluation methods, on the basis of daily supervision of internal control and special supervision as well as the Board's Audit Committee submitting an assessment determining the nature and level of risk that the Company is willing to undertake to achieve its strategic objectives and tweaking their internal control system at least once a year are sufficient for its risk management and internal control system implementation and supervision. The Board has reviewed the Company's risk management and internal control system once for the year ended 31 December 2024, and has concluded that there are no significant deficiencies in its risk management and internal control systems and that such systems are sufficient, effective and adequate. The Board has received the conformation from the management that there are no significant deficiencies in its risk management and internal control systems and that such systems are sufficient, effective and adequate.

Risk management and internal control have inherent limitations, as these systems are designed to manage risk rather than eliminate any risk of failure when achieving business objectives. Any monitoring system can only provide reasonable assurance rather than absolute assurance. Nevertheless, the Board and the Company's management will continue to improve the company's risk management and internal control system.

The Board is ultimately responsible for the effectiveness of the Group's risk management and internal control system. Each year, the Board reviews the Company's financial report while simultaneously reviewing and forming resolutions for the Internal Control Evaluation Report (《內部控制評價報告》), after which it is responsible for disclosing information to relevant departments for handling.

#### **Inside Information**

The Company was in strict compliance with the Securities Law of the PRC, Securities and Futures Ordinance, the Listing Rules of the Shenzhen Stock Exchange and other relevant laws and regulations for the year ended 31 December 2024. The Company established and improved internal control procedures related to handling and dissemination of insider information.

- The Company understood and followed the principle of timely disclosure of inside information and safe harbor provisions.
- The Company created the Information Disclosure Management System (《信息披露管理制度》), which states that the Board bears the ultimate responsibility for ensuring that the Company performs its disclosure obligations. This system has established an effective information disclosure management system and standardized the responsibility and procedure of information disclosure.
- The Company established the insider registration system (《內幕消息知情人登記制度》), which clearly stipulates the scope of knowledge and confidentiality obligations of those with inside information.
- The Company regularly provided training on inside information to relevant personnel.
- The Company is listed on the Hong Kong and Shenzhen Stock Exchange, and has ensured that the disclosure of inside information was timely, accurate and consistent in the two markets.

#### **SENIOR MANAGEMENT**

The Senior Management is charged with implementing the strategies and directions as determined by the Board. In discharging their responsibilities, Senior Management must comply with business principles and ethics which are consistent with those expected by the Board, the Shareholders and other stakeholders.

The responsibilities undertaken by the Senior Management include:

- management of the Company's production and operations;
- establishment of corporate policies and the management framework of the Company;
- appointment, evaluation or dismissal of employees of the Company; and
- implementation of resolutions of the Board.

| Mr. Chen Qiuhua               | Vice President                            | 336.88  |
| Ms. Li Tiefeng <sup>3</sup>   | Chairman of the Supervisory Committee     | _   |

#### Notes:

- 1. Mr. Zhang Xudong's appointment was effective from 28 February 2024.
- 2. Mr. Chang Qing has been serving as the supervisor of the Company since 26 June 2024.
- 3. Ms. Li Tiefeng resigned as a supervisor and chairman of the Supervisory Committee of the Company due to her job transfer on 24 April 2024.

#### Company Secretary

The Company Secretary as at the Latest Practicable Date is Ms. Ma Jinru. She supports the Chairman, the Board and the Board Committees by ensuring good information flow and that Board policies and procedures are followed. She advises the Board on corporate governance matters and facilitates the training and professional development of the Directors. Ms. Ma Jinru is an employee of the Company and was appointed by the Board. Any Director may call upon her for advice and assistance at any time in respect of their duties and the effective operations of the Board. She also plays an essential role in managing the Company's disclosure obligations and maintaining the relationship between the Company and the Shareholders, including assisting the Board in discharging its obligations to the Shareholders pursuant to the Listing Rules.

In compliance with Rule 3.29 of the Listing Rules, Ms. Ma Jinru participated in approximately 85 hours of relevant professional training during the year ended 31 December 2024 relating to, among others, regulatory updates, corporate governance and business and market related topics to develop and refresh her knowledge and skills.

## **ARTICLES**

On 22 December 2023, the Board approved the proposal in relation to the amendment of the Articles. For details, please refer to the announcement dated 22 December 2023 of the Company. The proposal was presented to the Shareholders for consideration at the 2024 first EGM, the 2024 first class meeting of the A Shareholders and the 2024 first class meeting of the H Shareholders. However, it did not receive approval at the 2024 first class meeting of the H Shareholders. For details, please refer to the announcement dated 27 February 2024 of the Company.

On 26 April 2024, the Board approved the proposals in relation to the amendment of the Articles. For details, please refer to the announcement dated 26 April 2024 of the Company. At the 2023 AGM, the Shareholders approved the amendments to the Articles. For details, please refer to the announcement dated 25 June 2024 of the Company.

#### **AUDITORS**

Deloitte Touche Tohmatsu Certified Public Accountants LLP and Deloitte Touche Tohmatsu were appointed as the Company's auditors for the financial year ended 31 December 2024. The Audit Committee reviewed and confirmed the auditors' independence and that there were no relationships between the auditors and the Company which may reasonably be thought to bear on their independence.

The services received from Deloitte Touche Tohmatsu Certified Public Accountants LLP, Deloitte Touche Tohmatsu and other Deloitte member institutions and the respective fees payable by the Company for the financial year ended 31 December 2024 are set out below:

Unit: RMB million

Voor anded

| Year ended |  |  |

## **DIRECTORS' AND AUDITORS' RESPONSIBILITIES**

The Directors acknowledge their responsibility for preparing the financial statements for each financial year, which give a true and fair view of the state of affairs, results and cash flows of the Group. In preparing the Financial Statements, the Directors have selected suitable accounting policies and applied them consistently, made judgements and estimates that were prudent, fair and reasonable and prepared the Financial Statements on a going concern basis. The Directors are responsible for keeping proper accounting records and accurately disclosing the financial position, results, cash flows, and changes in equity of the Group in a timely manner.

The Directors' and auditors' responsibilities for the Financial Statements are set out in the section headed "Independent Auditor's Report" on page 107 of this annual report.

## **EMPLOYEES**

As at 31 December 2024, the Group had a total of 11,126 employees. As at 31 December 2023, the Group had a total of 10,651 employees.

As at 31 December 2024, the composition of employees in terms of profession and educational background is as follows:

| Profession                      | Number |
|---------------------------------|--------|
| Production personnel            | 1,411  |
| Sales personnel                 | 1,335  |
| R&D and technology personnel    | 3,213  |
| Financial personnel             | 344    |
| Administrative personnel        | 2,198  |
| O&M and services personnel      | 2,625  |
| Total                           | 11,126 |
| Education                       | Number |
| Master's degree and above       | 2,648  |
| Undergraduate                   | 6,280  |
| Junior college degree and below | 2,198  |
| Total                           | 11,126 |

During the year ended 31 December 2024, the remuneration of Group's employees amounted to RMB4,361,461,000, which comprises wages and salaries, pension scheme contributions, and welfare and other expenses. During the year ended 31 December 2023, the remuneration of the Group's employees amounted to RMB3,957,515,000.

## **Remuneration of Employees**

As a reward for employees to assume work responsibility and create value, remuneration is the embodiment of employee value. Taking responsibility, ability and performance as the main criteria for evaluating employee value, we build a competitive remuneration management system, combined with characteristics of the industry. With value creation as the incentive orientation, the Company's incentive system is designed as a whole, and is built and optimized step by step. At the same time, the Company provides employees with a diversified welfare system, reasonable vacation system and good working environment to stimulate the employees' working potential.

For the ended 31 December 2024, the Group adopted the 2024 Restricted A Share Incentive Scheme, for details please refer the section headed "RESTRICTED A SHARE INCENTIVE SCHEME" of this annual report

## **Training for employees**

Goldwind has consistently prioritized talent cultivation as its core value proposition. The Company has developed the Training Management System and is committed to continuously enhancing its talent training framework each year. By accumulating and sharing knowledge and experience, Goldwind establishes a robust learning platform for employees, facilitating their lifelong growth and development.

In order to meet the needs of the company's business development and employee growth, the Company continues to deepen the accumulation of wind power knowledge and experience, forming a knowledge tree of wind power containing more than 1,400 proprietary courses, and exploring diversified and multi-channel learning methods. Relying on the online learning platform, it has expanded the coverage of training, broadened the breadth of learning, and enriched the learning content to provide in-depth business support and satisfy the needs of employees to strengthen their expertise and basic vocational skills.

In addition to these initiatives, the Group establishes a three-tier talent development framework across the group level, business unit level, and center/department level. This framework facilitates collaboration in designing and implementing various development programs focused on leadership skills, professional competencies, general capabilities, and onboarding for new employees. Several esteemed training programs have been standardized within this system at the group level, including the Zero-Carbon Trainee Program, Training for New Managers, Goldwind Lectures, and Golden Eagle Project series. In 2024, the employee training number per capita is 47.3 hours.

## **INVESTOR RELATIONS**

The Group is committed to protecting the interests of its investors. The Company adheres to strict disclosure principles and strives to ensure that the information disclosed in its announcements, circulars and periodic reports are true, accurate and complete, and disclosures are made in a timely manner. In addition, the Company encourages regular communication and interaction with its investors and potential investors in order to allow them to better understand the wind power industry, the status of the Company's operation, and its long-term development strategies. The Company has established the Investor Relations division within its Office of Secretary of the Board which is responsible for organizing investor visits and conferences, responding to queries from the Investor Relations Hotline, attending to the Investor Relations email inbox and SZSE's investor interactive platform, analyzing information contained in the Company's disclosure documents and assisting investors with related queries, and updating the "Investor Relations" section on the Company's website in a timely manner.

In 2024, the Company strictly complied with its disclosure obligations, improved its communications with investors, and strived to provide investors with a fair and transparent investment environment. During the Reporting Period, the Company's Investor Relations division organized four results announcement telephone conferences, accommodated a total of 679 investors in such events, organized two online Q&A investor interactive sessions, and answered 87 questions from investors. In addition, the Company organized three performance roadshows, communicated with 651 institutional investors, and hosted 36 online research activities and 26 offline research activities.

#### SHAREHOLDERS' COMMUNICATION POLICY

The Company has adopted a shareholders' communication policy (the "Policy") to promote effective and transparent communication between the Company and its Shareholders. Pursuant to the Policy, Shareholders may get in touch with the Company through the contact information provided on the Company's website (www.goldwind.com). In addition, the Company maintains different sections on its website, such as "Investors", "Company Governance", "Shareholder Information" to provide key information and updates of the Company to its Shareholders. The Company has reviewed the implementation of the Policy during the year ended 31 December 2024 and is of the opinion that the Policy is effective and adequate.

#### WHISTLEBLOWING POLICY AND ANTI-CORRUPTION POLICY

The Company has adopted a whistleblowing policy for employees of the Group and those who deal with the Group to raise concerns, in confidence and anonymity, with the Audit Committee about possible improprieties in any matters related to the Group.

The Company has also adopted an anti-corruption policy to safeguard against corruption and bribery within the Company. The Company has an internal reporting channel that is open and available for employees of the Company and stakeholders to report any suspected corruption and bribery. Employees can also make anonymous reports to the internal anti-corruption department, which is responsible for investigating the reported incidents and taking appropriate measures. The Company continues to carry out anti-corruption and anti-bribery activities to cultivate a culture of integrity, and actively organizes anti-corruption training and inspections to ensure the effectiveness of anti-corruption and anti-bribery.

# Deloitte. 德勤

**德勤 ● 關黃陳方會計師行** 香港金鐘道88號 太古廣揚一座35樓 **Deloitte Touche Tohmatsu** 35/F One Pacific Place 88 Queensway Hong Kong

To the shareholders of GOLDWIND SCIENCE&TECHNOLOGY CO., LTD.

(Established in the People's Republic of China with limited liability)

#### **OPINION**

We have audited the consolidated financial statements of GOLDWIND SCIENCE&TECHNOLOGY CO., LTD. (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 113 to 255, which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2024, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

#### **BASIS FOR OPINION**

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (the "IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **KEY AUDIT MATTERS**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Independent Auditor's Report

#### **KEY AUDIT MATTERS** (continued)

#### Key audit matter

#### How our audit addressed the key audit matter

Impairment of trade receivables

As at 31 December 2024, the carrying amount of trade receivables was approximately RMB30,825 million representing 19.86% of the Group's total assets as at that date.

In accordance with the impairment method of IFRS 9 Financial Instruments, the Group established a provision matrix based on its historical credit loss experience adjusted for forward-looking factors specific to the debtors and the economic environment after taking into consideration the credit risk characteristics of different customers. The expected credit losses (the "ECLs") is calculated based on the combination of individual and collective assessment. The Group recognised a loss allowance based on lifetime ECLs, the amount of provision involved the use of significant management judgement and estimates.

Details of the related estimation uncertainty are set out in notes 4, 5, 26 and 51 to the consolidated financial statements.

Our major procedures in relation to impairment of trade receivables included:

- Testing the Group's relevant internal controls over impairment of trade receivables.
- Assessing and evaluating the appropriateness of the ECLs model and the reasonableness of the average loss rate of the ECLs model adopted by management, and evaluating the appropriateness of management's assessment of the forward-looking information.
- Corroborating the relevant consideration and objective evidences used by the management in assessing whether there were special impairment indications over long ageing receivables.
- For impairment of trade receivables assessed individually, assessing the basis and appropriateness of management's estimation of expected cash flows on a sample basis; for impairment of trade receivables assessed collectively, reviewing the basis and appropriateness of management's judgement on whether the debtors in the same aging group have similar credit risk patterns, testing the accuracy of the ageing of trade receivable balances.

# **KEY AUDIT MATTERS** (continued)

#### Key audit matter

#### How our audit addressed the key audit matter

Provision for product warranties

As at 31 December 2024, the provision for product warranties amounting to approximately RMB6,307 million was recorded in the consolidated statement of financial position.

The Group grants various types of product warranties to the customers of wind turbine generator products under which the performance of products delivered is generally guaranteed for a period of two to five years. During the warranty period, the Group is required to provide operation and maintenance services including free repairs and renewal of spare parts. Provision for product warranties made by the Group for certain products was estimated based on sales data and the warranty rates. If the estimate changes, it will have a significant impact on the provision for product warranties expense and balance.

Details of the related estimation uncertainty are set out in notes 4, 5 and 35 to the consolidated financial statements. Our major procedures in relation to provision for product warranties included:

- Testing the Group's relevant internal controls over the provision for product warranties.
- Evaluating the appropriateness of the methodology used by management for estimating warranty provision, assessing the assumptions used by management in determining the reasonableness of the warranty provision by comparing historical data.
- Testing the appropriateness of the underlying data used in the calculations by reviewing the warranty terms as set out in the respective sales contracts.
- Testing the arithmetic accuracy of the warranty provision made.
- Testing the amount of warranty provision utilised during the year and testing the accuracy of the amount of warranty provision reversed as unconsumed after the warranty period.

#### Independent Auditor's Report

#### OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH **GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

# AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
  appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's
  internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Independent Auditor's Report

# AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Yam Siu Man.

Note (i): In preparation of these consolidated financial statements, the GOLDWIND SCIENCE&TECHNOLOGY CO., LTD. (the "Company") and its subsidiaries (collectively referred to as the "Group") has appropriated certain amounts of retained profits to a special reserve fund for each of the years ended 31 December 2023 and 2024, for safety production expense purposes as required by directives issued by the relevant People's Republic of China ("PRC") government authorities. The Group charged the safety production expenses to profit or loss when such expenses were incurred, and at the same time the corresponding amounts of special reserve fund were utilised and transferred back to retained profits until such special reserve was fully utilised.

#### 1. **GENERAL INFORMATION**

GOLDWIND SCIENCE&TECHNOLOGY CO., LTD. (original name "Xinjiang Goldwind Science & Technology Co., Ltd.", the "Company") is a joint stock company with limited liability established in Xinjiang in the PRC, which was established on 26 March 2001. The Company's shares have been listed on the Shenzhen Stock Exchange from 26 December 2007 and the Stock Exchange of Hong Kong Limited (the "Hong Kong Stock Exchange") from 8 October 2010. The registered office of the Company is located at 107 Shanghai Road, Economic & Technology Development District, Urumqi, Xinjiang, the PRC.

During the year, the Group was involved in the following principal activities:

- Research and development, manufacture and sale of wind turbine generators and spare parts;
- Wind farm construction, post-warranty service and asset management services;
- Development and operation of wind farms, consisting of wind power generation service provided by the Group's wind farms as well as the sale of wind farms; and
- Development and operation of water treatment plants.

In the opinion of the directors of the Company (the "Directors"), the Company has no controlling shareholders.

The English names of the companies registered in the PRC represent the best efforts of the management of the Company in directly translating the Chinese names of the companies as no English names have been registered.

The above table lists the subsidiaries of the Company which, in the opinion of the Directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group as at 31 December 2024. To give details of other subsidiaries would, in the opinion of the Directors, result in particulars of excessive length.

All these companies were incorporated with limited liability.

None of the subsidiaries had issued any debt securities at the end of the year.

For the year ended 31 December 2024

# 3. APPLICATION OF NEW AND AMENDMENTS TO IFRS ACCOUNTING STANDARDS

### Amendments to IFRS Accounting Standards that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB") for the first time, which are mandatory effective for the annual period beginning on 1 January 2024 for the preparation of the consolidated financial statements:

Amendments to IFRS 16

Lease Liability in a Sale and Leaseback

Amendments to IAS 1

Classification of Liabilities as Current or Non-current

Non-current Liabilities with Covenants

Amendments to IAS 7 and IFRS 7

Supplier Finance Arrangements

The application of the amendments to IFRS Accounting Standards in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

#### New and amendments to IFRS Accounting Standards in issue but not yet effective

The Group has not early applied the following new and amendments to IFRS Accounting Standards that have been issued but are not yet effective:

Amendments to IFRS 9 and IFRS 7 Amendments to the Classification and Measurement of Financial

Instruments<sup>3</sup>

Amendments to IFRS 9 and IFRS 7 Contracts Referencing Nature-dependent Electricity<sup>3</sup>
Amendments to IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its

Associate or Joint Venture<sup>1</sup>

Amendments to IFRS Accounting Standards Annual Improvements to IFRS Accounting Standards – Volume 11<sup>3</sup>

Lack of Exchangeability<sup>2</sup>

IFRS 18 Presentation and Disclosure in Financial Statements<sup>4</sup>

- Effective for annual periods beginning on or after a date to be determined.
- <sup>2</sup> Effective for annual periods beginning on or 1 January 2025.

Amendments to IAS 21

- <sup>3</sup> Effective for annual periods beginning on or 1 January 2026.
- <sup>4</sup> Effective for annual periods beginning on or 1 January 2027.

Except for the new IFRS Accounting Standards mentioned below, the Directors anticipate that the application of all amendments to IFRS Accounting Standards will have no material impact on the consolidated financial statements in the foreseeable future.

For the year ended 31 December 2024

#### APPLICATION OF NEW AND AMENDMENTS TO IFRS ACCOUNTING 3. **STANDARDS** (continued)

### New and amendments to IFRS Accounting Standards in issue but not yet effective (continued)

#### IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 Presentation and Disclosure in Financial Statements, which sets out requirements on presentation and disclosures in financial statements, will replace IAS 1 Presentation of Financial Statements. This new IFRS Accounting Standard, while carrying forward many of the requirements in IAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on managementdefined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some IAS 1 paragraphs have been moved to IAS 8 and IFRS 7. Minor amendments to IAS 7 Statement of Cash Flows and IAS 33 Earnings per Share are also made.

IFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. The application of the new standard is expected to affect the presentation of the statement of profit or loss and disclosures in the future financial statements. The Group is in the process of assessing the detailed impact of IFRS 18 on the Group's consolidated financial statements.

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION

#### 4.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with IFRS Accounting Standards issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the consolidated financial statements include the applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"). They have been prepared under the historical cost convention, except for certain financial instruments, which have been measured at fair value. These consolidated financial statements are presented in Renminbi ("RMB"), which is also the functional currency of the Company, and all values are rounded to the nearest thousand except when otherwise indicated.

The Group has evaluated the going concern for twelve months from 31 December 2024 and was of the view that there is no significant doubt on the Group's ability to continue as a going concern. Therefore, the consolidated financial statements are prepared on a going concern basis.

For the year ended 31 December 2024

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

### 4.2 Material accounting policy information

#### Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended 31 December 2024. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the four elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

#### 4.2 Material accounting policy information (continued)

#### Interests in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's interests in associates and joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. Adjustments are made to bring into line any dissimilar accounting policies that may exist. The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in the consolidated statement of profit or loss and other comprehensive income. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group's interests in associates or joint ventures.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

For the year ended 31 December 2024

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

### 4.2 Material accounting policy information (continued)

#### **Optional concentration test**

The Group can elect to apply an optional concentration test, on a transaction-by-transaction basis, that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. The gross assets under assessment exclude cash and cash equivalents, deferred tax assets, and goodwill resulting from the effects of deferred tax liabilities. If the concentration test is met, the set of activities and assets is determined not to be a business and no further assessment is needed.

#### Business combinations and goodwill

A business is an integrated set of activities and assets which includes an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired processes are considered substantive if they are critical to the ability to continue producing outputs, including an organised workforce with the necessary skills, knowledge, or experience to perform the related processes or they significantly contribute to the ability to continue producing outputs and are considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation either at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

### 4.2 Material accounting policy information (continued)

**Business combinations and goodwill** (continued)

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred. the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cashgenerating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

The identifiable assets acquired and liabilities assumed must meet the definitions of an asset and a liability in the Conceptual Framework for Financial Reporting (the "Conceptual Framework") except for transactions and events within the scope of IAS 37 or IFRIC 21, in which the Group applies IAS 37 or IFRIC 21 instead of the Conceptual Framework to identify the liabilities it has assumed in a business combination. Contingent assets are not recognised.

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

### 4.2 Material accounting policy information (continued)

#### Fair value measurement

The Group measures its derivative financial instruments and equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorises within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

# 4.2 Material accounting policy information (continued)

#### Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, contract assets, deferred tax assets, financial assets and non-current financial assets/a disposal group classified as held for sale), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises.

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

### 4.2 Material accounting policy information (continued)

#### Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
  - (i) the entity and the Group are members of the same group;
  - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
  - (iii) the entity and the Group are joint ventures of the same third party;
  - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
  - (vi) the entity is controlled or jointly controlled by a person identified in (a);
  - (vii) a person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
  - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

### 4.2 Material accounting policy information (continued)

#### Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use, including costs of testing whether the related assets is functioning properly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

| Buildings:                       | 2.4% to 3.2%  |
|----------------------------------|---------------|
| Machinery:                       | 4.8% to 19.2% |
| Vehicles:                        | 9.6% to 19.2% |
| Electronic equipment and others: | 9.6% to 19.2% |

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

Construction in progress represents property, plant and equipment under construction, which are stated at cost less any impairment losses, and are not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

#### Other intangible assets (other than goodwill)

Other intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value as at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

For the year ended 31 December 2024

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

### 4.2 Material accounting policy information (continued)

Other intangible assets (other than goodwill) (continued)

Patents, licences, self-developed technology know-how and office software

Purchased patents, licences, self-developed technology know-how and office software are stated at cost less any impairment losses and are amortised on the straight-line basis over the shorter of their estimated useful lives of 7 to 10 years and the relevant licence periods.

#### Water treatment operating concession

Water treatment operating concession represents the right to operate a water treatment plant and is stated at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is provided on the straight-line basis over the period of the operating concession granted to the Group of 25 to 30 years. Details are given in "Service concession agreements" below.

#### Wind farm development and operating permit

Wind farm development and operating permit represents the right to develop and operate a wind farm and is stated at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is provided on the straight-line basis over the period of the development and operating permit granted to the Group of 20 to 30 years. If the wind farm is still in development stage, the amortisation will be capitalised in construction in progress.

#### Research and development costs

All research costs are charged to profit or loss as incurred.

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

Deferred development costs are stated at cost less any impairment losses and are amortised using the straightline basis over the commercial lives of the underlying products commencing from the date when the products are put into commercial production.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

### 4.2 Material accounting policy information (continued)

#### Service concession agreements

#### Consideration given by the grantor

A financial asset (receivable under a service concession arrangement) is recognised to the extent that (a) the Group has an unconditional right to receive cash or another financial asset from or at the direction of the grantor for the construction services rendered and/or the consideration paid and payable by the Group for the right to charge users of the public service; and (b) the grantor has little, if any, discretion to avoid payment, usually because the agreement is enforceable by law.

The Group has an unconditional right to receive cash if the grantor contractually guarantees to pay the Group (a) specified or determinable amounts or (b) the shortfall, if any, between amounts received from users of the public service and specified or determinable amounts, even if the payment is contingent on the Group ensuring that the infrastructure meets specified quality of efficiency requirements. The financial asset (receivable under service concession arrangement) is accounted for in accordance with the policy set out for loans and receivables under "Investments and other financial assets" below.

An intangible asset (operating concession) is recognised to the extent that the Group receives a right to charge users of the public service, which is not an unconditional right to receive cash because the amounts are contingent on the extent that the public uses the service. The intangible asset (operating concession) is accounted for in accordance with the policy set out for "Intangible assets (other than goodwill)" above.

Subsequent to initial recognition, the financial receivable is measured at amortised cost using the effective interest method.

When the Group receives a payment during the concession period, it will apportion such payment among (i) a repayment of the financial receivables (if any), which will be used to reduce the carrying amount of the financial receivables on the consolidated statement of financial position, (ii) interest income, which will be recognised as revenue in profit or loss and (iii) revenue from operating and maintaining the wastewater treatment plants in profit or loss.

#### Construction or upgrade services

Revenue and costs relating to construction or upgrade services are accounted for in accordance with the policy set out for "Construction services" below.

#### Operating services

Revenue relating to operating services are accounted for in accordance with the policy for "Revenue recognition" below. Costs for operating services are expensed in the period in which they are incurred.

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

### 4.2 Material accounting policy information (continued)

#### Leases

The Group assesses whether a contract is or contains a lease based on the definition under IFRS 16 at inception of the contract. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

#### Group as a lessee

The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets, except for short-term leases and leases of low-value assets.

#### (a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

| Prepaid land lease payments    | 10 to 50 years |
|--------------------------------|----------------|
| Buildings                      | 2 to 25 years  |
| Machinery                      | 2 to 10 years  |
| Motor vehicles                 | 2 to 5 years   |
| Electronic and other equipment | 2 to 10 years  |

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

When the Group obtains ownership of the underlying leased assets at the end of the lease term, upon exercising purchase options, the cost of the relevant right-of-use assets and the related accumulated depreciation and impairment loss are transferred to property, plant and equipment.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

### 4.2 Material accounting policy information (continued)

Leases (continued)

Group as a lessee (continued)

#### (b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including insubstance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

The Group's lease liabilities are included in interest-bearing bank and other borrowings.

#### (c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). When the Group enters into a lease in respect of a lowvalue asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

#### Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

#### 4.2 Material accounting policy information (continued)

Leases (continued)

#### Group as a lessor (continued)

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee are accounted for as finance leases.

At the commencement date, initial direct costs (other than those incurred by manufacturer or dealer lessors) are included in the measurement of the net investments in the lease and presented as a receivable. The finance income of such leases is recognised in the statement of profit or loss so as to provide a constant periodic rate of charge over the lease terms.

#### Sale and leaseback transactions

The Group applies the requirements of IFRS 15 to assess whether sale and leaseback transaction constitutes a sale by the Group. For a transfer that does not satisfy the requirements as a sale, the Group as a seller-lessee continues to recognise the assets and accounts for the transfer proceeds as borrowings within the scope of IFRS 9.

#### Investments and other financial assets

#### Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 Revenue from Contracts with Customers in accordance with the policies set out for "Revenue recognition" below.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

### 4.2 Material accounting policy information (continued)

Investments and other financial assets (continued)

Initial recognition and measurement (continued)

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

#### Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

#### Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

#### Financial assets at fair value through other comprehensive income (debt instruments)

For debt investments at fair value through other comprehensive income, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in other comprehensive income. Upon derecognition, the cumulative fair value change recognised in other comprehensive income is recycled to the statement of profit or loss.

For the year ended 31 December 2024

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

**Investments and other financial assets** (continued)

Financial assets designated at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under IAS 32 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Fair value gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised as other income and gains in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

## Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the consolidated statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes derivative instruments and equity investments which the Group had not irrevocably elected to classify at fair value through other comprehensive income. Dividends on equity investments classified as financial assets at fair value profit or loss are also recognised as other income and gains in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in the statement of profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

#### 4.2 Material accounting policy information (continued)

## **Derecognition of financial assets**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the assets. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

### Impairment of financial assets

The Group recognises an allowance expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

## General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

Impairment of financial assets (continued)

General approach (continued)

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

For debt investments at fair value through other comprehensive income, the Group applies the low credit risk simplification. At each reporting date, the Group evaluates whether the debt investments are considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the external credit ratings of the debt investments.

The Group may consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Debt investments at fair value through other comprehensive income and financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables and contract assets which apply the simplified approach as detailed below.

- Stage 1 Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

Impairment of financial assets (continued)

### Simplified approach

For trade receivables and contract assets that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

The Group perform ECL assessments collectively and individually. The Group uses provision matrix to calculate ECL for the trade receivables from goods and services from customers. The provision rates are based on past due analysis as groupings of various debtors that have similar loss patterns. The provision matrix is based on the Group's historical default rates taking into consideration forward-looking information that is reasonable and supportable available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered. In addition, credit-impaired trade receivables from goods and services are assessed for ECL individually. For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- types of financial instruments:
- remaining maturities of contracts:
- industry of debtors; and
- location of debtors.

For trade receivables and contract assets that contain a significant financing component and lease receivables, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

## Financial liabilities

## Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and bills payables, other payables, and interest-bearing bank and other borrowings.

For the year ended 31 December 2024

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

Financial liabilities (continued)

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

## Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by IFRS 9 *Financial Instruments* ("IFRS 9"). Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the statement of profit or loss. The net fair value gain or loss recognised in the statement of profit or loss does not include any interest charged on these financial liabilities.

Financial liabilities designated upon initial recognition as at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. Gains or losses on liabilities designated at fair value through profit or loss are recognised in the statement of profit or loss, except for the gains or losses arising from the Group's own credit risk which are presented in other comprehensive income with no subsequent reclassification to the statement of profit or loss. The net fair value gain or loss recognised in the statement of profit or loss does not include any interest charged on these financial liabilities.

## Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, interest-bearing bank loans and other borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in profit or loss.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

Financial liabilities (continued)

## Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contracts at the higher of: (i) the ECL allowance determined in accordance with the policy as set out in "Impairment of financial assets"; and (ii) the amount initially recognised less, when appropriate, the cumulative amount of income recognised.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms. or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in profit or loss.

## Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

## Derivative financial instruments and hedge accounting

## Initial recognition and subsequent measurement

The Group uses derivative financial instruments, such as forward currency contract to hedge its foreign currency risk. These derivative financial instruments are initially recognised at fair value on the date on which such derivative contracts are entered into and are subsequently remeasured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Any gains or losses arising from changes in fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in other comprehensive income and later reclassified to profit or loss when the hedged item affects profit or loss.

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

**Derivative financial instruments and hedge accounting (continued)** 

Initial recognition and subsequent measurement (continued)

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment; or
- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a
  particular risk associated with a recognised asset or liability or a highly probable forecast transaction, or
  a foreign currency risk in an unrecognised firm commitment; or
- Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting, the risk management objective and its strategy for undertaking the hedge.

The documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined). A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

- There is "an economic relationship" between the hedged item and the hedging instrument.
- The effect of credit risk does not "dominate the value changes" that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

**Derivative financial instruments and hedge accounting (continued)** 

Initial recognition and subsequent measurement (continued)

Hedges which meet all the qualifying criteria for hedge accounting are accounted for as follows:

## Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised directly in other comprehensive income in the cash flow hedging reserve, while any ineffective portion is recognised immediately in the statement of profit or loss. The cash flow hedging reserve is adjusted to the lower of the cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

The amounts accumulated in other comprehensive income are accounted for, depending on the nature of the underlying hedged transaction. If the hedged transaction subsequently results in the recognition of a nonfinancial item, the amount accumulated in equity is removed from the separate component of equity and included in the initial cost or other carrying amount of the hedged asset or liability. This is not a reclassification adjustment and will not be recognised in other comprehensive income for the period. This also applies where the hedged forecast transaction of a non-financial asset or non-financial liability subsequently becomes a firm commitment to which fair value hedge accounting is applied.

For any other cash flow hedges, the amount accumulated in other comprehensive income is reclassified to the statement of profit or loss as a reclassification adjustment in the same period or periods during which the hedged cash flows affect the statement of profit or loss.

If cash flow hedge accounting is discontinued, the amount that has been accumulated in other comprehensive income must remain in accumulated other comprehensive income if the hedged future cash flows are still expected to occur. Otherwise, the amount will be immediately reclassified to the statement of profit or loss as a reclassification adjustment. After the discontinuation, once the hedged cash flow occurs, any amount remaining in accumulated other comprehensive income is accounted for depending on the nature of the underlying transaction as described above.

## Fair value hedges

The change in the fair value of a hedging instruments are recognised in profit or loss as other expenses. The change in the fair value of the hedged item attributable to the risk hedged is recorded as a part of the carrying amount of the hedged item and is also recognised in profit or loss as other expenses.

For fair value hedges relating to items carried at amortised cost, the adjustment to carrying value is amortised through profit or loss over the remaining term of the hedge using the effective interest rate method. Effective interest rate amortisation may begin as soon as an adjustment exists and shall begin no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged. If the hedged item is derecognised, the unamortised fair value is recognised immediately in profit or loss.

For the year ended 31 December 2024

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

**Derivative financial instruments and hedge accounting (continued)** 

## Fair value hedges (continued)

When an unrecognised firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognised as an asset or liability with a corresponding gain or loss recognised in profit or loss. The changes in the fair value of the hedging instrument are also recognised in profit or loss.

## Cost of hedges

The Group separated the intrinsic value and time value of an option contract and designating as the hedging instrument only the change in intrinsic value of an option and excluding change in its time value; and same for the forward element and the spot price of a forward contract. These exceptions are permitted because the intrinsic value of the option and the forward element can generally be measured separately. A dynamic hedging strategy that assesses both the intrinsic value and time value of an option contract can qualify for hedge accounting.

## Current versus non-current classification

Derivative instruments that are not designated as effective hedging instruments are classified as current or non-current or separated into current and non-current portions based on an assessment of the facts and circumstances (i.e., the underlying contracted cash flows).

A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not due to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Embedded derivatives that are not closely related to the host contract are classified consistently with the cash flows of the host contract.

Derivative instruments that are designated as, and are effective hedging instruments, are classified consistently with the classification of the underlying hedged item. The derivative instruments are separated into current portions and non-current portions only if a reliable allocation can be made.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

#### 4.2 **Material accounting policy information** (continued)

#### **Inventories**

Inventories include raw materials, work in process, finished and semi-finished goods, power station product development costs, etc.

Inventories are stated at the lower of cost and net realisable value. Development cost of power station products is accounted for using the specific-unit-cost method, and the cost of other inventories is determined on the weighted average basis. In the case of work in progress, semi-finished goods and finished goods, the cost comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value represents the estimated selling prices for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

The power station projects are initially classified as either inventories or property, plant and equipment according to the initially approved development plan of the project. The power station projects that are initially set up and developed with a clearly defined sole purpose to sell to customers are accounted for and presented as "Inventories-power station product development costs" in the consolidated statement of financial position. The power station projects that, according to the initial project setup and approval, the Group plans to hold and operate or does not have a clearly defined plan to sell the power station projects to customers upon completion are classified as non-current assets and accounted for and presented as property, plant and equipment in the consolidated statement of financial position from inception. Power station product development costs comprises costs for acquiring land use rights, expenditures of support infrastructure, expenditures of construction and installation work, borrowing interest expenses qualifying for capitalization and other related expenses incurred during the course of development.

## **Provisions**

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in profit or loss.

For the year ended 31 December 2024

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

## **Provisions** (continued)

The Group provides for warranties in relation to the sale of certain industrial products and the provision of construction services for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are recognised based on sales volume and past experience of the level of repairs, discounted to their present values as appropriate.

A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of (i) the amount that would be recognised in accordance with the general policy for provisions above; and (ii) the amount initially recognised less, when appropriate, the amount of income recognised in accordance with the policy for revenue recognition.

## Contingent assets/liabilities

## Contingent assets

Contingent assets arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Group and they are not recognised in the consolidated financial statements. The Group assesses continually the development of contingent assets. If it has become virtually certain that an inflow of economic benefits will arise, the Group recognises the asset and the related income in the consolidated financial statements in the reporting period in which the change occurs.

## Contingent liabilities

A contingent liability is a present obligation arising from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Where the Group is jointly and severally liable for an obligation, the part of the obligation that is expected to be met by other parties is treated as a contingent liability and it is not recognised in the consolidated financial statements.

The Group assesses continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognised in the consolidated financial statements in the reporting period in which the change in probability occurs, except in the extremely rare circumstances where no reliable estimate can be made.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

#### Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 requirements to the lease liabilities, and the related assets separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and at the time of the transaction does not give rise to equal taxable and deductible temporary differences; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

For the year ended 31 December 2024

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

Income tax (continued)

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and at the time of the transaction does not give rise to equal taxable and deductible temporary differences; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

## Perpetual securities

Perpetual securities are classified as equity, as the following conditions have been met:

- The financial instruments have no contractual obligation to pay cash or other financial assets to others. nor to exchange financial assets or liabilities with others under potential unfavourable circumstances;
- The financial instruments will or may be settled in the Group's own equity instruments: if the financial instrument is non-derivative, it should not have the contractual obligation to be settled by the Group delivering a variable number of its own equity instruments; if the financial instrument is derivative, it should solely be settled by the Group delivering a fixed number of its own equity instruments in exchange for a fixed amount of cash or other financial assets.

Interest and distributions on perpetual securities classified as equity are recognised as distributions within equity.

## Revenue recognition

## Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in IFRS 15.

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

## Revenue recognition (continued)

### Sale of wind turbines and spare parts

Revenue from the sale of individual wind turbines based on standard solutions (supply-only projects) as well as spare parts sales, at the point in time when control of the promised assets have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;

Some contracts for the sale of industrial products provide customers with rights of return and volume rebates. The rights of return and volume rebates give rise to variable consideration.

## Sale of electricity

Revenue from the sale of electricity, which is recognised at the point of transmission of electric power to electric power grid companies, is determined based on the volume of electric power transmitted and the applicable fixed tariff rates.

## Wind power services

Revenue from the provision of construction services is recognised over time, using an input method to measure progress towards complete satisfaction of the service, because the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced. The input method recognises revenue based on the proportion of the actual costs incurred relative to the estimated total costs for satisfaction of the construction services.

## Sales of power station project products

The performance obligation under the power station project product sales contract between the Group and the customer is satisfied at a point of time upon the transfer of project products.

The power station projects are initially set up and developed with a clearly defined sole purpose to sell to customers, and the sale of power station project is part of the Group's ordinary course of business. The Group recognises the sales revenue of power station project products when the control of the power station project is transferred to the customer. The transaction price for the sale of power station project includes non-cash consideration, which represents the liabilities transferred to the customers upon transferring of the power station project. The Group determines the transaction price based on the fair value of the non-cash consideration.

## Revenue from other sources

Rental income is recognised on a time proportion basis over the lease terms.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

Revenue recognition (continued)

#### Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

#### Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment assessment, details of which are included in the accounting policies for impairment of financial assets.

#### Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

## Contract costs

Other than the costs which are capitalised as inventories, property, plant and equipment and intangible assets, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- The costs are expected to be recovered.

The capitalised contract costs are amortised and charged to the statement of profit or loss on a systematic basis that is consistent with the pattern of the revenue to which the asset related is recognised. Other contract costs are expensed as incurred.

For the year ended 31 December 2024

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

## **Employee benefits**

#### Pension scheme

The Group has the social pension plans for its employees arranged by local government labour and security authorities. The Group makes contributions on a monthly basis to the social pension plans. The contributions are charged to profit or loss as they become payable in accordance with the rules of the social pension plans. Under the plans, the Group has no further obligations beyond the contributions made.

## Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A provision is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

## Equity-settled share-based payment transactions

## Shares granted to employees

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share-based payments reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share-based payments reserve.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

**Equity-settled share-based payment transactions** (continued)

Modification to the terms and conditions of the share-based payment arrangements

When the terms and conditions of an equity-settled share-based payment arrangement are modified, the Group recognises, as a minimum, the services received measured at the grant date fair value of the equity instruments granted, unless those equity instruments do not vest because of failure to satisfy a vesting condition (other than a market condition) that was specified at grant date. In addition, if the Group modifies the vesting conditions (other than a market condition) in a manner that is beneficial to the employees, for example, by reducing the vesting period, the Group takes the modified vesting conditions into consideration over the remaining vesting period.

The incremental fair value granted, if any, is the difference between the fair value of the modified equity instruments and that of the original equity instruments, both estimated as at the date of modification.

If the modification reduces the total fair value of the share-based arrangement, or is not otherwise beneficial to the employee, the Group continues to account for the original equity instruments granted as if that modification had not occurred.

## **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowings costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### **Dividends**

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the consolidated financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the Directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

For the year ended 31 December 2024

# 4. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

## Foreign currencies

These financial statements are presented in RMB, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Differences arising on settlement or translation of monetary items are recognised in profit or loss. These are recognised in other comprehensive income until the net investment is disposed of, at which time the cumulative amount is reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. When a fair value gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is also recognised in profit or loss. When a fair value gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is also recognised in other comprehensive income.

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain overseas subsidiaries, joint ventures and associates are currencies other than the RMB. As at the end of the reporting period, the assets and liabilities of these entities are translated into RMB at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss and other comprehensive income are translated into RMB at the weighted average exchange rates for the year.

For the year ended 31 December 2024

#### BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS 4. AND MATERIAL ACCOUNTING POLICIES INFORMATION (continued)

## 4.2 Material accounting policy information (continued)

## Foreign currencies (continued)

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rates for the year.

#### CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF 5. **ESTIMATION UNCERTAINTY**

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

## **Judgements**

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

## **Determination of one performance obligations**

The Group's sales transaction of wind turbine includes two types of goods or services commitments: sales of wind turbine as well as operation and maintenance services. As customers can benefit from the goods or services or together with other readily available resources, and the goods or services commitments can be distinguished from each other within the context of the contract, the above goods or services commitments constitute an one performance obligation separately.

For the year ended 31 December 2024

# 5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

## Judgements (continued)

## **Equity instrument**

Equity instruments issued by the Company, such as perpetual medium-term notes, which are not settled in the Company's own equity instruments, contain no contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the entity. Therefore, such equity instruments are accounted for as other equity instruments.

## **Estimation uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

## Method of determining performance progress for construction contracts

The input method is adopted by the Group to determine the progress of performance of construction contracts. Specifically, the construction costs actually incurred on a cumulative basis as a percentage of estimated total costs is used to determine the progress of performance. Costs actually incurred on a cumulative basis include direct and indirect costs incurred by the Group in the course of transfer of goods to customers. The Group considers that the consideration of construction contracts signed with customers is determined based on construction costs. The construction costs actually incurred on a cumulative basis as a percentage of estimated total costs can practically reflect the progress of performance of the construction service. As the period of validity of construction contracts is relatively long and may span over a number of accounting periods, the Group shall review and revise budget as the duration of the construction contracts continues, and adjust the performance progress accordingly.

## Impairment of financial instruments and contract assets

The Group uses ECL model to assess the impairment of financial instruments and contract assets. The application of ECL model requires significant judgements and estimates, and requires consideration for all reasonable and proofed information, including forward-looking information. The Group make these judgements and estimates based on its historical credit loss experience adjusted for forward-looking factors specific to the debtors and the economic environment after taking into consideration the credit risk characteristics of different customers. The ECL is calculated based on the combination of individual and collective assessment. Different estimates may affect the accrual of provision for impairment. The accrued provision for impairment may not be equal to the actual amount of impairment losses in the future.

For the year ended 31 December 2024

#### CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF 5. **ESTIMATION UNCERTAINTY** (continued)

## Estimation uncertainty (continued)

## Impairment of inventories

The Group makes provision for inventory fall in price for obsolete and slow-moving inventories. These estimates are made with reference to the inventory age analysis, the expected future sales of the goods, and the experience and judgement of the management. When the cost of inventory is lower than the net realisable value, provision for inventory depreciation is made. When market conditions change, the actual sales of goods may differ from the current estimates, and the difference will affect the current profit and loss.

## Useful lives and residual values of items of property, plant and equipment

The estimated useful lives of property, plant and equipment are estimated based on the actual useful lives of property, plant and equipment of similar nature and functions in the past, and based on historical experience. If the useful lives of these property, plant and equipment are shortened, the Group will increase the depreciation rate and eliminate idle or technically obsolete property, plant and equipment.

In determining the useful lives and residual values of items of property, plant and equipment, the Group periodically reviews the changes in market conditions, the expected physical wear and tear, and the maintenance of the asset. The estimation of the useful life of the asset is based on historical experience of the Group with similar assets that are used in a similar way. Depreciation amounts will be adjusted if the estimated useful lives and/or the residual values of items of property, plant and equipment are different from previous estimation. Useful lives and residual values are reviewed, at the end of each reporting period based on changes in circumstances.

#### Useful lives of items of intangible assets

The useful lives of intangible assets are determined by estimating the period during which economic benefits can be generated from using these assets. The Group reviews at the end of each reporting period based on changes in circumstances and will adjust when needed.

## Current income tax and deferred income tax

The Group is subject to income taxes in numerous jurisdictions in the PRC. Judgement is required in determining the provision for taxation. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts originally recorded, the differences will impact on the current income tax and deferred income tax in the periods in which the differences arise.

Deferred tax assets relating to certain temporary differences and tax losses are recognised as management considers it is probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. The realisation of the deferred tax assets mainly depends on whether sufficient future taxable profits will be available in the future. In cases where the actual future taxable profits generated are less than expected, a material reversal of deferred tax assets may arise, which will be recognised in profit or loss in the period in which such a reversal takes place.

For the year ended 31 December 2024

# 5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

## Estimation uncertainty (continued)

## **Warranty provision**

The Group grants various types of product warranties to the customers of wind turbine generator products under which the performance of products delivered is generally guaranteed for a period of two to five years. During the warranty period, the Group is required to provide operation and maintenance services including free repairs and renewal of spare parts. For a combination of contracts with similar characteristics, considering all relevant information such as product improvements and market changes, the Group estimates the warranty rates based on historical warranty data, current-warranty conditions. The Group re-evaluates the warranty rate at the end of each reporting period and recognises the provision for product warranties based on the re-evaluated warranty rate.

## Impairment of non-financial assets

Goodwill and development costs capitalised are tested for impairment at least on an annual basis. Besides, the Group assesses whether there are any indicators of impairment for other non-financial assets at the end of each reporting period. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable.

This requires an estimation of the recoverable amount of the cash-generating units to which the goodwill is allocated. An impairment exists when the carrying value of a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. When determine the fair value using income approach or when the value in use calculations are undertaken, management must estimate the expected gross margin rate, perpetual increase rate and other assumptions related to the expected future cash flows from the cash-generating units, and choose a suitable discount rate in order to calculate the present value of those cash flows.

For the year ended 31 December 2024

#### OPERATING SEGMENT INFORMATION 6.

For management purposes, the Group is organised into business units based on their products and services and has four reportable operating segments as follows:

- (a) the wind turbine generator manufacturing and sale segment engages in the research and development, manufacture and sale of wind turbine generators and spare parts;
- (b) the wind power services segment provides wind power construction, post-warranty service and asset management services;
- (c) the wind farm development segment engages in the development of wind farms, which consists of wind power generation service provided by the Group's wind farms as well as the sale of wind farms; and
- (d) the others segment mainly engages in the operation of water treatment plants under the service concession arrangements.

Management, being the chief operating decision maker (the "CODM"), monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit or loss, which is a measure of adjusted profit or loss before tax. The adjusted profit or loss before tax is measured consistently with the Group's profit before tax.

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the prevailing market prices.

For the year ended 31 December 2024

## 7. REVENUE, OTHER INCOME AND GAINS (continued)

## Revenue from contracts with customers (continued)

## (ii) Performance obligations

Information about the Group's performance obligations is summarised below:

## Sale of wind turbine generators and spare parts and sales of power station project products

The contracts with customers for the sales of wind turbine or the sales of power station project products are standalone performance obligation, which is satisfied upon delivery of the control rights of goods.

## Wind power services

Wind power services include service-type warranties and construction services. Performance obligation of service-type warranties will be satisfied over the period during which the services are provided. The construction contracts between the Group and its customers usually include performance obligations for wind farm construction. The performance obligations are satisfied over time in accordance with the progress of construction.

## Sale of electricity

The performance obligations are satisfied upon power transmission, and measured based on the volume of wind power transmitted and the applicable fixed tariff rates.

#### Others

For revenue generated from the operation of water treatment plants under the service concession arrangements, the performance obligations of which are satisfied over time in accordance with progress of service provided.

For the year ended 31 December 2024

## Note (i):

As at 31 December 2024, the Group held 4.93% of equity interests in JL Mag Rare-earth Co., Ltd. ("JL Mag"). According to the results of director election of JL Mag's annual general meeting held on 5 June 2024, the candidate nominated by the Group to the board of directors of JL Mag failed to be elected. The term of the current board of directors is 3 years. In the absence of any other directors resigning or being removed by general meeting, the Group is unable to nominate director candidate to JL Mag during the term of this board of directors. In addition, after considering other facts and circumstances to determine whether the Group has ability to participate in the formulation of JL Mag's financial and operating policies, including whether the Group conducting major transactions with JL Mag, dispatching management personnel to JL Mag and providing key technological information to JL Mag, etc. The Directors are of the view that the Group no longer maintains significant influence over JL Mag and therefore, the investment in JL Mag has been accounted for as financial assets at fair value through profit or loss.

#### **PROFIT BEFORE TAX** 8.

The Group's profit before tax is arrived at after charging/(crediting):

- (iv) Yang Liying was appointed as a non-executive director of the Company with effect from 21 June 2023.
- (v) Wang Yili resigned as a non-executive director of the Company with effect from 12 December 2023.

For the year ended 31 December 2024

#### DIRECTORS' AND SUPERVISORS' REMUNERATION AND FIVE HIGHEST 11. PAID EMPLOYEES (continued)

#### (b) Five highest paid employees

An analysis of the headcount of the five highest paid employees within the Group for the year is as follows:

|  | Year ended 31 December |        |  |
|--|------------------------|--------|--|
|  | 2024                   | 2023   |  |
| Directors Non-director, non-supervisor and non-chief executive employees | 1<br>4                 | 1<br>4 |  |
|  | 5                      | 5      |  |

Details of the remuneration of the above non-director, non-supervisor and non-chief executive highest paid employees are as follows:

|   | Year ended 3                  | 31 December                |
|---|-------------------------------|----------------------------|
|   | 2024<br>RMB'000               | 2023<br>RMB'000            |
| Salaries, allowances and benefits in kind Performance related bonuses Pension scheme contributions Equity-settled share-based payment | 8,228<br>10,431<br>265<br>490 | 7,928<br>9,988<br>253<br>– |
|   | 19,414                        | 18,169                     |

The number of non-director, non-supervisor and non-chief executive highest paid employees whose remuneration fell within the following bands is as follows:

|                                | Year ended 31 December |      |  |
|--------------------------------|------------------------|------|--|
|                                | 2024                   | 2023 |  |
| HK\$4,000,000 to HK\$4,500,000 | _                      | 1    |  |
| HK\$4,500,000 to HK\$5,000,000 | 2                      | -    |  |
| HK\$5,000,000 to HK\$5,500,000 | _                      | 3    |  |
| HK\$5,500,000 to HK\$6,000,000 | 2                      | _    |  |

During the year, no Directors, Supervisors, or any of the non-director, non-supervisor and non-chief executive highest paid employees waived or agreed to waive any emoluments and no emoluments were paid by the Group to the Directors, Supervisors, or any of the non-director, non-supervisor and non-chief executive highest paid employees as an inducement to join or upon joining the Group or as compensation for loss of office.

#### 12. INCOME TAX EXPENSE

The Company and nine subsidiaries of the Company (2023: the Company and nine subsidiaries of the Company) have been identified as "high and new technology enterprises" and were entitled to preferential income tax at a rate of 15% for the year ended 31 December 2024 in accordance with the PRC Corporate Income Tax Law.

Certain subsidiaries of the Company in China, which were established after 1 January 2008 and are engaged in public infrastructure projects including wind farm and urban water treatment projects, are each entitled to a tax holiday of a three-year full exemption followed by a three-year 50% exemption commencing from the respective years when operating income is generated for the first time.

Certain subsidiaries of the Company in China were taxed at a preferential rate of 15% primarily due to their status as entities engaging in development projects supported by the government in the western region of the PRC.

Certain subsidiaries of the Company in China which are small and micro-sized enterprises, the following tax policy applies: For annual income amount of RMB1 million or below, the taxable income amount should be computed at 25% of the annual income and subject to a tax rate of 20%. The preferential period is from 1 January 2023 to 31 December 2024. For annual income amount of over RMB1 million but less than RMB3 million, the taxable income amount should be computed at 25% of the annual income and subject to a tax rate of 20%. The preferential period is from 1 January 2022 to 31 December 2024, which was extended to 31 December 2027 according to the relevant updated tax regulation.

Except for certain preferential treatment available to certain subsidiaries of the Company and the Company as mentioned above, the entities within the Group in China were subject to corporate income tax at a rate of 25%.

Certain subsidiaries of the Company in overseas countries are subject to corporate income tax at a rate ranging from 10% to 35% (2023: 10% to 35%).

Hong Kong profits tax has been provided at the rate of 16.5% (2023: 16.5%) on the estimated assessable profits arising in Hong Kong, China during the year.

Taxes on profits assessable elsewhere have been calculated at the rate of tax prevailing in the jurisdictions in which the Group operates, based on existing legislation, interpretations and practices in respect thereof.

| Tax expense for the year at the effective rate of 11.8% (2023: 39.6%)   | 247,392   | 997,024   |  |

Note (i): Others mainly include the impact of tax inflation adjustment on long-term assets.

# 13. DIVIDENDS

For the year ended 31 December 2024, the board of Directors proposed to distribute cash dividends of RMB1.4 (tax included) per each 10 shares with total amount of RMB591,114,000 to the shareholders. The proposed final dividends for the year are subject to the approval of the Company's shareholders at the forthcoming annual general meeting.

The final cash dividends of RMB1.0 (tax included) per each 10 shares, which amounted to RMB422,507,000 of cash dividends for the year ended 31 December 2023, were approved by the Company's shareholders on 25 June 2024.

# 14. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE COMPANY

For those financial instruments classified as equity, if the distributions are cumulative, the undeclared amounts of the cumulative distributions were deducted in arriving at earnings for the purposes of the basic earnings per share calculation. On the other hand, if the distributions are non-cumulative, only the amount of dividends declared in respect of the year should be deducted in arriving at the profit attributable to ordinary equity holders. The diluted potential ordinary shares of the Group consist of restricted shares granted to the employees.

The calculation of basic earnings per share is based on:

|  | Year ended 31 December |                        |  |  |
|--|------------------------|------------------------|--|--|
|  | 2024<br>RMB'000        | 2023<br>RMB'000        |  |  |
| Profit attributable to ordinary equity holders of the parent<br>Less: Distribution relating to the medium-term notes (i) | 1,860,446<br>(86,827)  | 1,330,998<br>(114,494) |  |  |
| Profit used to determine basic earnings per share  | 1,773,619              | 1,216,504              |  |  |
| Weighted average number of ordinary shares in issue ('000)   | 4,217,097              | 4,225,068              |  |  |
| Basic earnings per share (expressed in RMB per share)  | 0.42                   | 0.29                   |  |  |
| Diluted earnings per share (expressed in RMB per share)  | 0.42                   | 0.29                   |  |  |

<sup>(</sup>i) The long-term option-embedded medium-term notes (the "Perpetual Medium-term Notes") issued by the Company in November 2021, June 2022, September 2022, June 2023, December 2023, March 2024 and September 2024 were classified as other equity instruments with deferrable cumulative interest distribution and payment. The interest from the Perpetual Medium-term Notes which has been generated but not yet declared, during the years of 2024 and 2023, was deducted from earnings when calculating the earnings per share for the years ended 31 December 2024 and 31 December 2023.

For the year ended 31 December 2024

The net carrying amount of construction in progress of the Group included capitalised interest of RMB199,113,000 (2023: RMB227,197,000) charged for the year 2024 prior to being transferred to buildings, machinery and electronic equipment.

As at 31 December 2024, certain of the Group's property, plant and equipment, with a net carrying amount of RMB13,158,891,000 (31 December 2023: RMB11,405,299,000) were pledged to secure certain of the Group's bank loans (Note 34).

During the year ended 31 December 2024, the Group recognised impairment provisions for property, plant and equipment of RMB576,717,000 (2023: RMB119,182,000), which includes impairment for property, plant and equipment of several subsidiaries of the Group. The recoverable amount has been determined based on a value in use calculation using cash flow projections based on electricity sales volume of wind farms and applicable tariff rates. The discount rate before taxes applied to the cash flow projections is 6.86% to 7.83%. Based on the results of the impairment test, the Group recognised an impairment provision of RMB576,717,000 for property, plant and equipment.

For the year ended 31 December 2024

### 16. LEASES

# The Group as a lessee

The Group has lease contracts for various items of land, buildings, machinery, motor vehicles, electronic equipment and other equipment used in its operations. Land leased from owners generally has lease terms from 10 to 50 years. The lease term of buildings is between 2 and 25 years. Leases of machinery, electronic equipment and other equipment generally have lease terms between 2 and 10 years, while motor vehicles generally have lease terms between 2 and 5 years. Generally, the Group is restricted from assigning and subleasing the leased assets outside the Group.

#### (a) Right-of-use assets

The carrying amounts of the Group's right-of-use assets and the movements during the year are as follows:

# Impairment testing of goodwill

The recoverable amount of subsidiaries engaged in wind farm development have been determined based on a value in use calculation using cash flow projections based on installed capacity of wind farms and applicable tariff rates. The discount rates before taxes applied to the cash flow projections are from 7.64% to 22.22% (2023: 9.59% to 22.95%). Based on the results of the impairment test, the Group does not have to recognise goodwill impairment provision for the current year.

For the year ended 31 December 2024

Deductible losses on unrecognised deferred tax assets will expire in the following years:

| As | at | 31 | December |
|----|----|----|----------|
|    |    |    |          |

|                            | 2024<br>RMB'000 | 2023<br>RMB'000 |
|----------------------------|-----------------|-----------------|
| 31 December 2024           | _               | 430,016         |
| 31 December 2025           | 484,562         | 488,637         |
| 31 December 2026           | 277,257         | 320,380         |
| 31 December 2027           | 807,142         | 836,044         |
| 31 December 2028           | 510,420         | 510,420         |
| 31 December 2029 and later | 1,127,114       | -               |
|                            |                 |                 |
|                            | 3,206,495       | 2,585,497       |

Deferred tax assets have not been recognised in respect of the above losses as they have arisen in subsidiaries that have been loss-making for some time and it is not considered probable that taxable profits will be available against which the tax losses can be utilised.

For the year ended 31 December 2024

# 24. **DEFERRED TAX** (continued)

At the end of the reporting period, the Group has deductible temporary differences of RMB1,916,479,000 (31 December 2023: RMB1,487,674,000). No deferred tax asset has been recognised in relation to such deductible temporary difference as it is not probable that taxable profit will be available which the deductible temporary differences can be utillised.

# 25. INVENTORIES

Note: The capitalization amount of interest included in the development cost of power station was RMB87,271,000 (2023: RMB50,449,000). The capitalization rate of interest was 2.50% to 3.20% (2023: 2.55% to 3.80%).

As at 31 December 2024, certain of the Group's inventories, with a net carrying amount of RMB600,884,000 (31 December 2023: Nil) were pledged to secure certain of the Group's bank loans (Note 34).

For the year ended 31 December 2024

### **26. TRADE AND BILLS RECEIVABLES**

|                                    | As at 31 December         |                           |
|------------------------------------|---------------------------|---------------------------|
|                                    | 2024<br>RMB'000           | 2023<br>RMB'000           |
| Trade receivables Bills receivable | 32,840,414<br>2,437,112   | 27,225,218<br>954,510     |
| Provision for impairment           | 35,277,526<br>(2,014,948) | 28,179,728<br>(1,677,216) |
|                                    | 33,262,578                | 26,502,512                |

The Group's trading terms with its customers are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally one month, extending up to three months for major customers. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

As part of its normal business, the Group endorsed or discounted bills receivable accepted by banks. Bills receivable is held within a business model whose objective is achieved by both collecting contractual cash flows and selling bills receivable. Therefore, the Group has classified bills receivable presented in trade and bills receivable as at 31 December 2024 amounting to RMB2,437,112,000 (31 December 2023: RMB954,510,000) as debt instruments measured at fair value through other comprehensive income, but still listed as trade and bills receivables.

An ageing analysis of trade and bills receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

|   | As at 31 December  |  |
|---|--|--|
|   | 2024<br>RMB'000  | 2023<br>RMB'000  |
| Within 6 months 6 months to 1 year 1 to 2 years 2 to 3 years Over 3 years | 16,526,290<br>4,531,854<br>6,353,032<br>2,832,886<br>3,018,516 | 12,772,383<br>3,853,821<br>5,564,301<br>2,585,202<br>1,726,805 |
|   | 33,262,578   | 26,502,512   |

For the year ended 31 December 2024

# 26. TRADE AND BILLS RECEIVABLES (continued)

The movements in the loss allowance for impairment of trade and bills receivables are as follows:

|  | Year ended 31 December |  |  |
|--|------------------------|--|--|
|  | Note                   | 2024<br>RMB'000                                      | 2023<br>RMB'000  |
| At beginning of year Impairment losses recognised Impairment losses reversed Amounts written off as uncollectible Exchange realignment | 8<br>8                 | 1,677,216<br>631,813<br>(308,330)<br>(283)<br>14,532 | 1,459,855<br>537,430<br>(334,179)<br>(3,146)<br>17,256 |
| At end of year   |                        | 2,014,948  | 1,677,216  |

An impairment analysis is performed at each reporting date using a provision matrix to measure ECL. The provision rates are based on the ageing of the balances for groupings of various customer segments with similar credit risk patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

For the year ended 31 December 2024

# 26. TRADE AND BILLS RECEIVABLES (continued)

Set out below is the information about the credit risk exposure on the Group's trade receivables:

|                                       | As             | at 31 December 2024<br>Gross  | ı                 |

For the year ended 31 December 2024

# 26. TRADE AND BILLS RECEIVABLES (continued)

The amounts due from the Group's beneficial shareholders, joint ventures and associates included in trade and bill receivables are as follows:

|  | As at 31 December         |                              |
|--|---------------------------|------------------------------|
|  | 2024<br>RMB'000           | 2023<br>RMB'000              |
| Beneficial shareholders of the Company Joint ventures Associates | 1,963<br>35,923<br>29,379 | 16,503<br>274,626<br>108,358 |
|  | 67,265                    | 399,487                      |

The above balances are unsecured, non-interest-bearing and repayable on credit terms similar to those offered to the independent customers of the Group.

As at 31 December 2024, the Group's trade and bills receivables amounting to RMB6,930,952,000 (31 December 2023: RMB5,641,489,000) were pledged to secure certain of the Group's interest-bearing bank and other borrowings (note 34).

For the year ended 31 December 2024

# 27. FINANCIAL RECEIVABLES

| As at 31 | December |
|----------|----------|
|----------|----------|

|   | 2024<br>RMB'000                             | 2023<br>RMB'000                             |
|---|---|---|
| Receivables for service concession agreements Receivables for finance lease services Accrued VAT on finance lease receivables Loans to joint ventures | 3,983,349<br>3,240,376<br>236,064<br>44,111 | 4,366,729<br>3,773,175<br>270,046<br>52,360 |
| Provision for impairment  Portion classified as non-current assets  | 7,420,224                                   | 8,294,366<br>(7,037,438)                    |
| Current portion   | (7,043,030)                                 | (7,937,428)<br>356,938                      |

Receivables for service concession agreements arose from service concession contracts to build and operate water treatment plants and were recognised to the extent that the Group has an unconditional right to receive cash from grantor.

Receivables for finance lease services arose from finance lease contracts to lease equipment to customers.

The movements in the loss allowance for impairment of financial receivables based on a lifetime ECL are as follows:

|  | Year ended 31 December |  |                            |
|--|------------------------|--|----------------------------|

| Impairment   |                   | 7,127,355<br>(47,065)            | 6,412,850<br>(10,962)             |
| Portion classified as non-current assets   |                   | 7,080,290<br>(5,415,238)         | 6,401,888<br>(4,664,057)          |
| Current portion  |                   | 1,665,052                        | 1,737,831                         |

# Notes:

- (i) For retention money receivables, the due dates usually range from two to five years after the completion of commissioning for wind turbines.
- (ii) Contract assets are initially recognised for revenue earned from the provision of construction services. Upon billing of construction and acceptance by the customer, the amounts recognised as contract assets are reclassified to trade receivables and financial receivables.

# 29. CONTRACT ASSETS (continued)

The expected timing of recovery or settlement for contract assets as at 31 December is as follows:

|                                   | As at 31 December      |                        |
|-----------------------------------|------------------------|------------------------|
|                                   | 2024<br>RMB'000        | 2023<br>RMB'000        |
| Within one year<br>After one year | 1,665,052<br>5,415,238 | 1,737,831<br>4,664,057 |
| Total contract assets             | 7,080,290              | 6,401,888              |

The movements in the loss allowance for impairment of contract assets are as follows:

|  |        | Year ended 31 December      |                            |
|--|--------|-----------------------------|----------------------------|
|  | Note   | 2024<br>RMB'000             | 2023<br>RMB'000            |
| At beginning of year Impairment losses recognised Impairment losses reversed | 8<br>8 | 10,962<br>39,830<br>(3,727) | 15,362<br>2,952<br>(7,352) |
| At end of year   |        | 47,065                      | 10,962                     |

An impairment analysis is performed at each reporting date using a provision matrix to measure ECL. The provision rates for the measurement of the ECL of the contract assets are based on those of the trade receivables as the contract assets and the trade receivables are from the same customer bases. The provision rates of contract assets are based on trade receivables for groupings of various customer segments with similar credit risk patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure on the Group's contract assets:

|                              | As at 31 December   |                     |

For the year ended 31 December 2024

# 30. CASH AND CASH EQUIVALENTS AND PLEDGED DEPOSITS (continued)

The RMB is not freely convertible into other currencies. However, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short-term time deposits are made for varying periods of between seven days and ninety days depending on the immediate cash requirements of the Group, and earn interest at the respective short-term time deposit rates. The bank balances and pledged deposits are deposited with creditworthy banks with no recent history of default.

# 31. TRADE AND BILLS PAYABLES

|  | 2024<br>RMB'000 | 2023<br>RMB'000 |
|--|-----------------|-----------------|
| Trade payables                                     | 31,193,698      | 28,596,375      |
| Bills payable (i)                                  | 10,304,613      | 14,143,573      |
|  |                 |                 |
|  | 41,498,311      | 42,739,948      |
| Portion classified as non-current liabilities (ii) | (719,442)       | (1,095,225)     |
|  |                 |                 |
| Current portion                                    | 40,778,869      | 41,644,723      |

- (i) These relate to trade payables in which the Group has issued bills to the relevant suppliers for future settlement trade payables. The Group continues to recognise these trade payables as the relevant banks are obliged to make payments only on the due date of the bills, under the same conditions as agreed with the suppliers without further extension.
- (ii) The non-current portion of trade payables mainly represented retention amounts held by the Group as at 31 December 2024 and 2023.

For the year ended 31 December 2024

# 31. TRADE AND BILLS PAYABLES (continued)

Trade and bills payables are non-interest-bearing. For the retention payables in respect of warranties granted by the suppliers, the due dates usually fall from three to five years after the completion of the preliminary acceptance of goods.

An ageing analysis of trade and bills payables as at the end of the reporting period, based on the invoice date, is as follows:

|   | As at 31 December   |  |
|---|---|--|
|   | 2024<br>RMB'000   | 2023<br>RMB'000  |
| Within 3 months 3 to 6 months 6 months to 1 year 1 to 2 years 2 to 3 years Over 3 years | 18,676,717<br>9,143,588<br>4,029,998<br>5,265,523<br>1,899,570<br>2,482,915 | 23,498,181<br>10,210,369<br>2,671,989<br>3,212,129<br>1,886,185<br>1,261,095 |
|   | 41,498,311  | 42,739,948   |

The amounts due to the Group's beneficial shareholders, joint ventures and associates included in the trade and bills payables are as follows:

|  | As at 31 December        |                   |
|--|--------------------------|-------------------|

# Note:

(i) The Group used forward currency contracts to hedge the exchange rate risk. The Group signed several forward currency contracts with some banks during this year which were designated for hedge purposes and classified as cash flow hedges and fair value hedges. Any gains or losses arising from changes in fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in other comprehensive income.

The carrying amounts of the derivative financial instruments are the same as their fair values.

For the year ended 31 December 2024

(b) Certain of the bank loans amounting to RMB402,181,000 (31 December 2023: RMB733,134,000) are guaranteed. Certain of the bank loans of the Company's subsidiaries, amounting to RMB397,181,000 (31 December 2023: RMB726,134,000) as at 31 December 2024 were guaranteed by the Company. Certain of the Company's bank loans amounting to RMB5,000,000 (31 December 2023: RMB7,000,000) as at 31 December 2024 were guaranteed by a subsidiary.

## 35. PROVISIONS

Provisions mainly represented product warranties, asset retirement obligations and others. The Group generally provides warranties of two to five years to its customers on the wind turbine generators sold by the Group, under which faulty components are repaired or replaced. The amount of the provision for the warranties is estimated based on sales volumes and past experience of the level of repairs. The estimation basis is reviewed on an ongoing basis and revised where appropriate.

| Government grants | 252,147            | 231,702 |

Government grants are received by the Group as financial subsidies for the research and development projects and improvement of manufacturing facilities of the Group. Government grants are recognised as income over the periods necessary to match the grant on a systematic basis to the research and development costs that they are intended to compensate or over the expected useful life of the relevant property, plant and equipment.

The movements of government grants during the year are as follows:

| V    |      |    | 2 1 |            |     |

## 38. RESERVES

The amounts of the Group's reserves and the movements are presented in the consolidated statement of changes in equity for the current and prior years on pages 117 and 118 of these consolidated financial statements.

# 39. OTHER EQUITY INSTRUMENTS

In November 2021 and September 2022, the Company issued RMB1,000,000,000 and RMB500,000,000 in an aggregate principal amount of renewable loans. According to the terms of the contract above, the Company had no contractual obligation to deliver cash or other financial assets to the holders. The Company considered that the loans did not satisfy the definition of financial liabilities and included the loans in other equity instruments. In March 2024, the Company redeemed the renewable loans for RMB1,000,000,000, resulting in a decrease of RMB1,000,000,000 in other equity instruments.

In June 2023, the Company issued RMB300,000,000 in an aggregate principal amount of renewable loans. According to the terms of the contract above, the Company had no contractual obligation to deliver cash or other financial assets to the holders. The Company considered that the loans did not satisfy the definition of financial liabilities and included the loans in other equity instruments. In May 2024, the Company redeemed the renewable loans for RMB300,000,000, resulting in a decrease of RMB300,000,000 in other equity instruments.

In December 2023, the Company issued RMB249,818,000 in an aggregate principal amount of renewable loans. According to the terms of the contract above, the Company had no contractual obligation to deliver cash or other financial assets to the holders. The Company considered that the loans did not satisfy the definition of financial liabilities and included the loans in other equity instruments. In May 2024, the Company redeemed the renewable loans for RMB249,818,000, resulting in a decrease of RMB249,818,000 in other equity instruments.

In March 2024, the Company issued RMB1,000,000,000 in an aggregate principal amount of renewable loans. According to the terms of the contract above, the Company had no contractual obligation to deliver cash or other financial assets to the holders. The Company considered that the loans did not satisfy the definition of financial liabilities and included the loans in other equity instruments.

In September 2024, the Company issued RMB500,000,000 in an aggregate principal amount of renewable loans. According to the terms of the contract above, the Company had no contractual obligation to deliver cash or other financial assets to the holders. The Company considered that the loans did not satisfy the definition of financial liabilities and included the loans in other equity instruments.

For the year ended 31 December 2024

#### 40. SHARE-BASED PAYMENT TRANSACTIONS

The shareholders of the Company approved the Restricted Share Incentive Scheme (the "Incentive Scheme") on 19 November 2024. The restricted shares of the Incentive Scheme amounted to RMB442,460,000 were ordinary A Shares repurchased from the secondary market by the Company. Subsequently on 13 December 2024 (the "Grant Date") 39,400,000 restricted shares were granted to the selected participants, including directors, senior management, middle management and key staff of the Company (including branches and subsidiaries). The participants subscribed for the restricted shares at RMB4.09 per share (the "Grant Price").

Under the terms of the Incentive Scheme, if the vesting conditions: (a) performance target of the Company and (b) individual performance evaluation requirement of selected participants are met, the restricted shares shall be vested by 30%, 30% and 40% in the following three years, respectively.

The following table discloses movements of the Scheme during the year:

|  | Number of granted shares |
|--|--------------------------|
| Granted during the year Outstanding as at 31 December 2024 | 39,400,000<br>39,400,000 |

The Group recognised the expense of RMB12,126,000 for the year ended 31 December 2024 (2023:Nil) in relation to the Incentive Scheme.

# **ACQUISITION OF SUBSIDIARIES**

In 2024, the following entities were acquired from independent third parties:

| Company names  | Acquisition date | Percentage<br>of equity<br>interests<br>acquired | Cash<br>consideration<br>RMB'000 | Net loss from<br>the purchase<br>date to the end<br>of the year<br>RMB'000 |
|--|------------------|--|----------------------------------|--|
| Taizhou Runjing New Energy Technology Co., LTD (Taizhou Runjing) | May 2024         | 100%   | 14,448                           | (45)   |
| Tianjin Runchuang Energy Co., Ltd (Tianjin Runchuang)            | July 2024        | 100%   | 20,000                           | (1)  |
| Shandong Runqian New Energy Co., Ltd (Shandong Runqian)          | July 2024        | 100%   | 100,000                          | (1,440)  |
|  |                  |  | 134,448                          | (1,486)  |

For the above acquisitions, the Group elected to apply the optional concentration test in accordance with IFRS 3 Business Combinations and concluded that substantially all of the fair value of the gross assets (excluding cash and cash equivalents) acquired is concentrated in a single identifiable asset and concluded that the acquired set of activities and assets is not a business.

For the year ended 31 December 2024

# 41. ACQUISITION OF SUBSIDIARIES (continued)

The fair values of the identifiable assets and liabilities of these companies as at the dates of acquisition were as follows:

|   | Fair value<br>recognised on<br>acquisition<br>RMB'000 |
|---|---|
| Non-current assets  | 16,975  |
| Current assets  | 188,840   |
| Current liabilities   | (64,700)  |
| Non-current liabilities   | (6,667)   |
| Total identifiable net assets at fair value   | 134,448   |
| Total consideration   | 134,448   |
| An analysis of the cash flows in respect of the acquisitions of subsidiaries is as follows: | RMB'000   |
| Cash consideration  | 134,448   |
| Cash and cash equivalents paid during the current year                                      | 8,669   |
| Cash and cash equivalents acquired  | (10,477)  |
|   | (1,808)   |
| Cash and cash equivalents paid during the year for prior year transactions                  | 34,730  |
| Net outflow of cash and cash equivalents included in the consolidated                       | 20, 222   |
| statement of cash flow for the year ended 31 December 2024                                  | 32,922  |

For the year ended 31 December 2024

# 42. DISPOSAL OF SUBSIDIARIES

In 2024, the following entities were disposed from the Group. Details are as follows:

| Company names  | Disposal date  | Equity<br>interests<br>disposed | Cash<br>consideration<br>RMB'000 |
|--|----------------|---------------------------------|----------------------------------|

| At 31 December 2023                            | 38,843,099                                | 81,440                          | 182                            |

#### (c) Total cash outflow for leases

Amount includes payments of principal and interest portion of lease liabilities, short-term leases, low-value assets and payments of lease payments on or before lease commencement date (including prepaid land lease payments). These amounts could be presented in operating, investing or financing cash flows.

The total cash outflow for leases included in the statement of cash flows is as follows:

|   | 2024<br>RMB'000               | 2023<br>RMB'000               |
|---|-------------------------------|-------------------------------|
| Within operating activities Within investing activities Within financing activities | 159,139<br>378,678<br>986,045 | 161,370<br>196,420<br>275,136 |
|   | 1,523,862                     | 632,926                       |

#### 44. CONTINGENT LIABILITIES

At the end of the reporting period, contingent liabilities not provided for in the financial statements were as follows:

|   | As at 31 December |                 |  |
|---|-------------------|-----------------|--|
|   | 2024<br>RMB'000   | 2023<br>RMB'000 |  |
| Letters of guarantee issued Guarantees given to banks in connection with bank loans granted to: | 24,537,869        | 20,634,989      |  |
| Associates  | 170,042           | 284,610         |  |
| A third party   | 129,348           | 157,184         |  |
|   |                   |                 |  |
|   | 24,837,259        | 21,076,783      |  |

In 2015, Beijing Tianrun New Energy Investment Co., Ltd ("Beijing Tianrun") entered into an agreement with the creditor bank, Chifeng Jinneng New Energy Investment Co., Ltd. ("Chifeng Jinneng") and Chifeng Xinneng New Energy Investment Co., Ltd. ("Chifeng Xinneng"). According to the agreement, in the case where Chifeng Xinneng fails to repay the bank loans on schedule, Beijing Tianrun shall repurchase the entire share interest in Chifeng Xinneng, and the consideration equals a certain percentage of the net assets of Chifeng Xinneng at that time. As at 31 December 2024, Chifeng Xinneng made profit and the Directors are of the view that it could pay the principal and interest of relevant loans on schedule. Therefore, the risk exposure from above repurchase clause is insignificant.

The Group was involved in a number of legal proceedings and claims against it in the ordinary course of business. Provision has been made for the probable losses to the Group on those legal proceedings and claims when management can reasonably estimate the outcome of the legal proceedings and claims taking into account the legal advice. No provision has been made for pending legal proceedings and claims when the outcome of the legal proceedings and claims cannot be reasonably estimated or management believes that the probability of loss is remote.

As at 31 December 2024, the amount of pending litigation matters of which the Group as the defendant was RMB2,450,965,000 (2023: RMB2,885,374,000).

#### 45. PLEDGE OF ASSETS

Details of the Group's bank and other borrowings, letters of credit, guarantees issued, provision risk, mandatory reserve deposits and uncompleted transactions, which are secured by the assets of the Group, are included in notes 15, 16, 18, 25, 26, 27 and 30, respectively, to these consolidated financial statements.

## **46. COMMITMENTS**

(a) The Group had the following capital commitments as at the end of the reporting period:

|   | As at 31 December |                 |  |
|---|-------------------|-----------------|--|
|   | 2024<br>RMB'000   | 2023<br>RMB'000 |  |
| Contracted, but not provided for: Property, plant and equipment and land use rights | 6,936,784         | 4,920,124       |  |

For the year ended 31 December 2024

# 47. RELATED PARTY TRANSACTIONS

(a) The Group had the following significant transactions with related parties during the year:

|   | Year ended 31 December   |   |  |

#### 49. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The carrying amounts and fair values of the Group's financial instruments, other than those with carrying amounts that reasonably approximate to fair values, are as follows:

|   | Carrying           | amounts     | Fair values |             |  |
|---|--------------------|-------------|-------------|-------------|--|
|   | <b>As at</b> As at |             | As at       | As at       |  |
|   | 31 December        | 31 December | 31 December | 31 December |  |
|   | 2024               | 2023        | 2024        | 2023        |  |
|   | RMB'000            | RMB'000     | RMB'000     | RMB'000     |  |
| Financial liabilities Interest-bearing bank and other |                    |             |             |             |  |
| borrowings, non-current portion                       | 29,505,756         | 28,150,615  | 29,491,965  | 28,133,212  |  |

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, contract assets, trade and bills receivables, financial receivables, financial assets included in prepayments, other receivables and other assets, other non-current financial assets, trade and bills payables, financial liabilities included in other payables and accruals, the current portion of interest-bearing bank and other borrowings approximate to their carrying amounts.

The Group's corporate finance team headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The corporate finance team reports directly to the chief financial officer and the audit committee. At each reporting date, the corporate finance team analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer. The valuation process and results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of pledged deposits, trade and bills receivables, financial receivables, trade and bills payables. financial assets included in prepayments, other receivables and other assets, and interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for the non-current portion of interest-bearing bank and other borrowings as at 31 December 2024 and 2023 was assessed to be insignificant.

For the year ended 31 December 2024

# 49. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

The fair values of listed equity investments are based on quoted market prices. The Group has estimated the fair value of the restricted listed equity investment by using an Asian Option valuation model based on the quoted market prices and liquidity discount. The fair value of unlisted equity investments designated at fair value through other comprehensive income have been estimated using a market-based valuation technique based on assumptions that are not supported by observable market prices or rates. The valuation requires the Directors to determine comparable public companies (peers) based on industry, size, leverage and strategy, and to calculate an appropriate price multiple, such as enterprise value to earnings before interest, taxes, depreciation and amortisation ("EV/EBITDA") multiple and price to earnings ("P/E") multiple, for each comparable company identified. The multiple is calculated by dividing the enterprise value of the comparable company by an earnings measure. The trading multiple is then discounted for considerations such as illiquidity and size differences between the comparable companies based on company-specific facts and circumstances. The discounted multiple is applied to the corresponding earnings measure of the unlisted equity investments to measure the fair value.

The Group invests in unlisted investments, which represent wealth management products issued by banks in Mainland China. The Group has estimated the fair value of these unlisted investments by using a discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks.

The Group enters into derivative financial instruments with the financial institutions with AAA credit ratings. Derivative financial instruments, including forward currency contracts and power price swap contracts, are measured using valuation techniques similar to forward currency and swap models, using present value calculations. The models incorporate various market observable inputs including the credit quality of counterparties, foreign exchange spot and forward rate, interest rate curves and power price trend. The carrying amounts of the derivative financial instruments are the same as their fair values.

As at 31 December 2024 and 2023, the mark-to-market value of the derivatives was net of a credit/debit valuation adjustment attributable to derivative counterparty default risk. The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationship and other financial instruments recognised at fair value.

For the fair value of the unlisted equity investments at fair value through other comprehensive income, management has estimated the potential effect of using reasonably possible alternatives as inputs to the valuation model.

# 49. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

# Fair value hierarchy

The following tables illustrate the fair value measurement hierarchy of the Group's financial instruments:

#### As at 31 December 2024

#### **50. TRANSFERRED FINANCIAL ASSETS**

# Transferred financial assets that are not derecognised in their entirety

- (a) At 31 December 2024, the Group endorsed or discounted certain bills receivable accepted by banks in Mainland China (the "Endorsed Bills" or the "Discounted Bills") with a carrying amount of RMB1,604,418,000 (31 December 2023: RMB855,165,000) to certain of its suppliers in order to settle the trade payables due to such suppliers (the "Endorsement" or the "Discount"). In the opinion of the Directors, the Group has retained the substantial risks and rewards, which included default risks relating to such Endorsed Bills or Discounted Bills, and accordingly, it continued to recognise the full carrying amounts of the Endorsed Bills or Discounted Bills and the associated trade payables settled. Subsequent to the Endorsement or the Discount, the Group did not retain any rights on the use of the Endorsed Bills or Discounted Bills, including the sale, transfer or pledge of the Endorsed Bills or Discounted Bills to any other third parties. The aggregate carrying amount of the trade payables settled by the Endorsed Bills or Discounted Bills during the year to which the suppliers have recourse was RMB1,620,633,000 (31 December 2023: RMB862,483,000) as at 31 December 2024.
- (b) As part of its normal business, the Group entered into a trade receivable factoring arrangement (the "Arrangement") and transferred certain trade receivables to a bank. Under the Arrangement, the Group may be required to reimburse the bank for loss of interest if any trade debtors have late payment. The Group is not exposed to default risks of the trade debtors after the transfer. Subsequent to the transfer, the Group did not retain any rights on the use of the trade receivables, including the sale, transfer or pledge of the trade receivables to any other third parties. The original carrying value of the trade receivables transferred under the Arrangement that have not been settled as at 31 December 2024 was RMB10,000,000 (31 December 2023: RMB10,600,000). The carrying amount of the assets that the Group continued to recognise as at 31 December 2024 was RMB10,000,000 (31 December 2023: RMB10,600,000) and that of the associated liabilities as at 31 December 2024 was RMB10,000,000 (31 December 2023: RMB10,600,000).

# Transferred financial assets that are derecognised in their entirety

At 31 December 2024, the Group endorsed or discounted certain bills receivable accepted by banks in Mainland China (the "Derecognised Bills") to certain of its suppliers in order to settle the trade payables due to such suppliers with a carrying amount in aggregate of RMB11,811,460,000 (31 December 2023: RMB11,224,556,000). The Derecognised Bills had a maturity of one to twelve months at the end of the reporting period. In accordance with the Law of Negotiable Instruments in the PRC, the holders of the Derecognised Bills have a right of recourse against the Group if the PRC banks default (the "Continuing Involvement"). In the opinion of the Directors, the Group has transferred substantially all risks and rewards relating to the Derecognised Bills. Accordingly, it has derecognised the full carrying amounts of the Derecognised Bills and the associated trade payables or loans. The maximum exposure to loss from the Group's Continuing Involvement in the Derecognised Bills and the undiscounted cash flows to repurchase these Derecognised Bills is equal to their carrying amounts. In the opinion of the Directors, the fair values of the Group's Continuing Involvement in the Derecognised Bills are not significant.

During the year ended 31 December 2024 and 2023, the Group has not recognised any gain or loss on the date of transfer of the Derecognised Bills. No gains or losses were recognised from the Continuing Involvement, both during the year or cumulatively. The endorsement has been made evenly throughout the year.

For the year ended 31 December 2024

## 51. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments, other than derivatives, comprise interest-bearing bank loans and other borrowings, cash and cash equivalents and pledged deposits. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade and bills receivables and trade and bills payables, which arise directly from its operations.

The Group also enters into derivative transactions, including foreign currency contracts and power price swap contracts. The purpose is to manage the interest rate risks, foreign currency risk and price risk arising from the Group's operations and its sources of finance.

The main risks arising from the Group's financial instruments are fair value and cash flow interest rate risks, foreign currency risk, credit risk and liquidity risk. Generally, the senior management of the Company meets regularly to analyse and formulate measures to manage the Group's exposure to these risks. In addition, the Directors hold meetings regularly to analyse and approve the proposals made by the senior management of the Company. Generally, the Group introduces conservative strategies on its risk management. The Group's accounting policies in relation to derivative financial instruments are set out in note 4 to the consolidated financial statements.

#### Fair value and cash flow interest rate risks

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. With its borrowings issued at fixed and floating interest rates, the Group is exposed to both fair value and cash flow interest rate risks.

The Group regularly reviews and monitors the mix of fixed and floating interest rate borrowings in order to manage its interest rate risk. The Group's interest-bearing bank loans and short-term deposits are stated at amortised cost and not revalued on a periodic basis. Floating rate interest income and expenses are credited/charged to profit or loss as earned/incurred.

The Group's policy is to manage its interest cost using a mix of fixed and variable rate debts. To manage this mix in a cost-effective manner, the Group enters into an interest rate swap, in which the Group agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount. At 31 December 2024, after taking into account the effect of the interest rate swap, approximately 1.85% (31 December 2023: 1.96%) of the Group's interest-bearing borrowings bore interest at fixed rates

If there were a general increase/decrease in the interest rates of bank loans with floating interest rates by 1% point, with all other variables held constant, the consolidated pre-tax profit, inventories and construction in progress would have decreased/increased by RMB251,357,000 (2023: RMB242,062,000) for the year ended 31 December 2024, and there would be no impact on other components of the consolidated equity, except for retained profits, of the Group.

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of the reporting period and the Group has applied the exposure to interest rate risk to those financial instruments in existence at those dates. The estimated one percentage point increase or decrease represents management's assessment of a reasonably possible change in interest rates over the period until the end of the next reporting period.

For the year ended 31 December 2024

# FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

## Foreign currency risk

The Group is exposed to foreign currency risk on cash and cash equivalents, receivables, payables and bank loans that are denominated in a currency other than the respective functional currencies of the Group's entities. The currencies giving rise to this risk are primarily Euro, the United States dollar and the Australian dollar.

The Group has transactional currency exposures. Such exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies. The Group requires all its operating units to use foreign currency forward currency contracts to eliminate the foreign currency exposures on any individual transactions for which payment is anticipated more than one month after the Group has entered into a firm commitment for a sale or purchase. The foreign currency forward currency contracts must be in the same currency as the hedged item. It is the Group's policy not to enter into forward contracts until a firm commitment is in place.

At 31 December 2024 and 2023, the Group had hedged most of its foreign currency sales for which firm commitments existed at the end of the reporting period.

It is the Group's policy to negotiate the terms of the hedge derivatives to match the terms of the hedged item to maximise hedge effectiveness.

The Group's exposures to foreign currencies as at 31 December 2024 and 2023 are as follows:

| As | at 31 | December |
|----|-------|----------|
|    |       |          |

|                                |          | 2024      |            |          | 2023      |            |

| If RMB weakens against Australian dollar If RMB strengthens against Australian dollar       | 5%<br>(5%)                                 | 6,297<br>(6,297)   |

The sensitivity analysis above has been determined assuming that the change in foreign currency rates had occurred on 31 December 2024 and the Group had applied the exposure to foreign currency risk to those monetary assets and liabilities and net investment operations in existence at those dates. The estimated 5% increase or decrease represents management's assessment of a reasonably possible change in foreign currency rates over the period until the end of the next reporting period. The sensitivity analysis is performed on the same basis for the year.

## **Credit risk**

The Group trades only with recognised and creditworthy parties. The Group has a credit policy in place which requires credit evaluations on all customers who wish to trade on credit terms. Receivable balances are monitored on an ongoing basis. In most instances, advance payments are required for customers of wind turbine generators. Otherwise, the credit quality of customers is assessed after taking into account the customers' financial position and past experience with the customers.

For the year ended 31 December 2024

# 51. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

# Credit risk (continued)

## Maximum exposure and year-end staging

The table below shows the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December 2024. For listed debt investments, the Group also monitors them by using external credit ratings. The amounts presented are gross carrying amounts for financial assets and the exposure to credit risk for the financial guarantee contracts.

As at 31 December 2024

|  | 12-month ECLs      | Lifetime ECLs      |                    |                                   |                  |

For trade receivables and contract assets to which the Group applies the simplified approach for impairment, information based on the provision matrix is disclosed in notes 26 and 29 to the financial statements, respectively.

The Group establishes an allowance for impairment that represents its estimate of losses to be incurred in respect of trade and other receivables. The main component of this allowance is a specific loss component that relates to individually significant exposures.

The credit quality of the financial assets included in prepayments, other receivables and other assets is considered to be "normal" when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition. Otherwise, the credit quality of the financial assets is considered to be "doubtful".

For the year ended 31 December 2024

## FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

## Credit risk (continued)

The allowance account in respect of trade and other receivables is used to record impairment losses unless the Group is satisfied that no recovery of the amount owing is possible. At that point, the impaired financial asset is considered irrecoverable and the amount charged to the allowance account is written off against the carrying amount of the impaired financial asset.

Management evaluates the creditworthiness of the Group's existing and prospective customers and ensures that the customers have adequate financing for the projects as well as the source of the financing.

As at 31 December 2024, the maximum exposure to credit risk was represented by the carrying amount of financial assets in the statement of financial position.

Cash and bank balances are placed with banks and financial institutions which are regulated.

# Liquidity risk

The Group's net current liabilities amounted to approximately RMB3,273 million (31 December 2023: net current assets amounted to approximately RMB810 million) as at 31 December 2024, and its net cash inflow from operating activities and financing activities amounted to approximately RMB2,316 million and RMB1,650 million (2023: net cash inflow from operating activities was approximately RMB1,854 million and net cash outflow used in financing activities was approximately RMB1,993 million), and its net cash outflow used in investing activities was approximately RMB5,724 million (2023: net cash outflow used in investing activities was approximately RMB1,824 million) respectively for the year ended 31 December 2024. The Group recorded a decrease in cash and cash equivalents of approximately RMB1,758 million (2023: decrease in cash and cash equivalents of approximately RMB1,963 million) for the year ended 31 December 2024.

The Group is dependent on its ability to maintain adequate cash inflow from operations, its ability to maintain existing external financing, and its ability to obtain new external financing to meet its debt obligations as they fall due and to meet its committed future capital expenditures. The Group's policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term. As at 31 December 2024, the Group had banking facilities with several banks and financial institutions for providing sufficient bank financing.

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial instruments and financial assets (e.g., trade receivables) and projected cash flows from operations.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of interestbearing bank and other borrowings. The Group's policy is that not more than 70% of borrowings should mature in any 12-month period.

# 51. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

## Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2024 and 31 December 2023.

For the year ended 31 December 2024

# FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

# Capital management (continued)

The Group monitors capital using a gearing ratio, which is net debt divided by capital plus net debt. Net debt includes trade and bills payables, financial liabilities included in other payables and accruals, derivative financial instruments, interest-bearing bank loans and other borrowings, less cash and cash equivalents and the current portion of pledged deposits. Capital represents equity attributable to owners of the parent as stated in the consolidated statement of financial position.

The Group's strategy is to maintain the gearing ratio at a healthy capital level in order to support its businesses. The principal strategies adopted by the Group include, but are not limited to, reviewing future cash flow requirements and the ability to meet debt repayment schedules when they fall due, maintaining a reasonable level of available banking facilities and adjusting investment plans and financing plans, if necessary, to ensure that the Group has a reasonable level of capital to support its businesses.

The gearing ratios at the end of the reporting periods are as follows:

|   | As at<br>31 December<br>2024<br>RMB'000 | As at<br>31 December<br>2023<br>RMB'000 |
