(IV) Corporate Profile

(1) COMPANY BACKGROUND

The Company was incorporated in the Cayman Islands as an exempted company on 26 April 2006. The Company completed the restructuring on 6 September 2007 to become the ultimate holding company of the Group and was listed on the Main Board of the Stock Exchange (Stock Code: 00691) on 4 July 2008. The Company holds 100% equity interests in China Shanshui (HK) and does not operate any business since the date of registration.

China Shanshui (HK) is a limited company incorporated in Hong Kong and holds 100% equity interests in Pioneer Cement; Pioneer Cement is a limited company incorporated in Hong Kong and holds 100% equity interests in Shandong Shanshui and is the sole shareholder of Shandong Shanshui.

Shandong Shanshui is a wholly foreign-owned limited company established by Pioneer Cement in 2005 through the acquisition of shares in Jinan, Shandong Province in accordance with the laws and regulations of the PRC.

Shandong Shanshui is a large enterprise group with the production of cement and clinker as the main industry, integrating the production and sales of commercial concrete, aggregate, plastic weaving, machinery manufacturing and maintenance, and new-type wall materials. Its headquarter is located in Jinan City, Shandong Province.

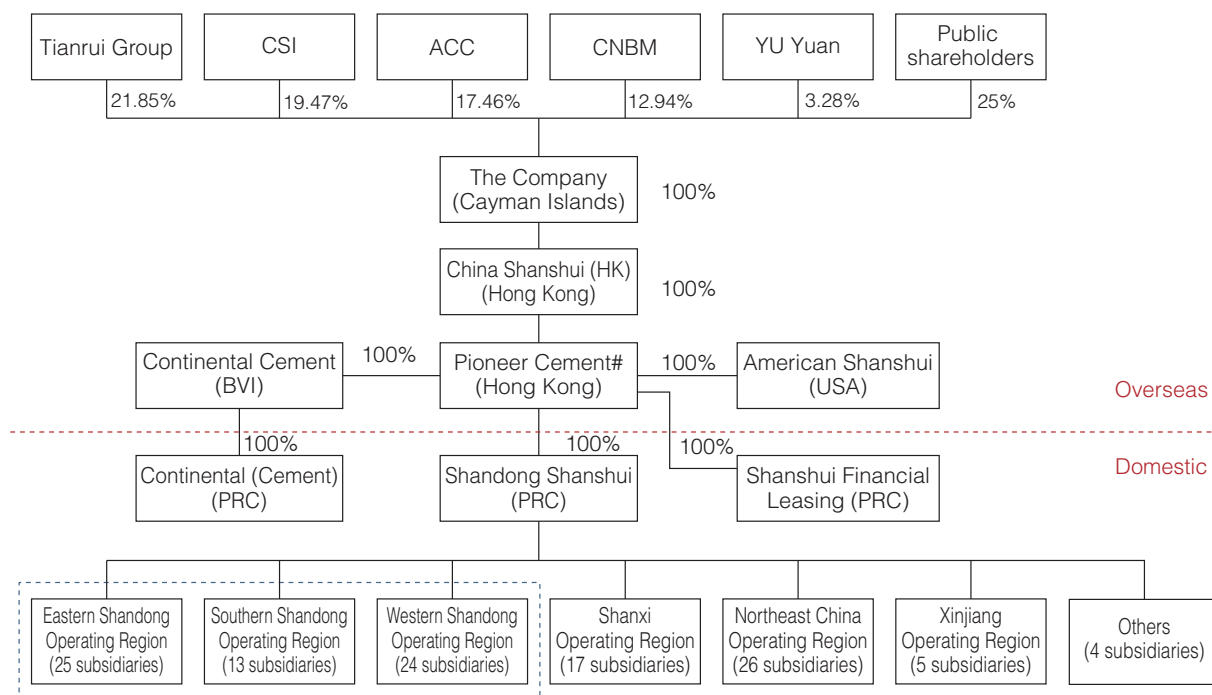

Shandong Shanshui Group has six operating regions including Eastern Shandong Operating Region, Western Shandong Operating Region, Southern Shandong Operating Region, Northeast China Operating Region, Shanxi Operating Region, and Xinjiang Operating Region, and currently has 114 subsidiaries in 10 provinces (municipalities, autonomous regions) including Shandong, Liaoning, Shanxi, Inner Mongolia and Xinjiang, forming a market pattern of “North-South Interaction (南北互動)” between Shandong and Northeast, and “East-West Correspondence (東西呼應)” between Shandong and Shanxi, which has brought better market advantages. While expanding and strengthening the main cement industry, Shandong Shanshui Group are actively implementing the “cement +” business development model and changing from expanding the scale of a single product to diversifying products. At present, the prototype of the whole industry chain, such as aggregates, manufactured sand, commercial concrete, cement products, prefabricated construction components and cement equipment, has taken shape.

High-grade cement and commercial clinker are the Group’s leading products. The cement brands of “Shanshui Dongyue”, “Shanshui Gongyuan” and “Bohai” enjoy high reputation in China and are widely used in national key projects such as Beijing-Shanghai High-Speed Railway, Jiaozhou Bay Bridge, Qingdao Subsea Tunnel, and Haiyang Nuclear Power.

Over the years, the Group has been awarded the honorary titles of Advanced Group of National Building Material System, National May 1st Labor Certificate, National Advanced Grassroots Party Organization, National Model Worker’s Home, Shandong Civilized Unit, Shandong High-end Brand Cultivation Enterprise and so on, and has been ranked among the Top 20 Chinese Building Materials Enterprises and the Fortune Global 500 for many years.

(V) Management Discussion and Analysis

1. OPERATING ENVIRONMENT AND INDUSTRY OVERVIEW

Demand side: Cement demand continued to shrink

In 2024, the cement market demand continued the overall trend of the past two years, and has continued to be affected by the reduction in downstream real estate investment and the slowdown of infrastructure projects. Cement demand across the country and in all major consumption areas experienced significant declines, leading to a notable decrease in capacity utilization rates.

According to data from the National Bureau of Statistics, the cumulative cement output of enterprises-above-designated-size in China reached 1,825 million tonnes in 2024, representing a year-on-year decrease of 9.5% (on a comparable basis), the lowest level of cement output in 15 years.

The main reasons for the continued shrinkage in cement demand are as follows: Firstly, there has been a sustained and significant decline in real estate investment, with a severe shortage of newly-commenced projects, resulting in a continued substantial decrease in cement demand from the real estate sector. Secondly, there was insufficient funding for infrastructure construction, resulting in a slowdown in the progress of projects such as highways as well as a decline in cement demand from the infrastructure sector.

Supply side: The continued increase in the intensity of staggered production during the peak season reaped significant results

According to the preliminary statistics of the Digital Cement, by the end of 2024, there were 1,543 new dry-type cement clinker lines (including small special cement kilns), and the annual capacity of clinkers (as intended by design) was 1.81 billion tonnes per year (calculated based on 310 days per year). The utilization rate of the actual capacity of clinkers is expected to be 53% in 2024, representing a decrease of 6 percentage points as compared with that of 2023.

From a quarterly perspective: The relationship between market supply and demand remained tense, and corporate sentiment was volatile, leading to a slump in cement prices to their lowest point and leaving the entire industry mired in losses. In the second quarter, led by leading companies in various locations, the industry actively promoted self-discipline and strengthened the implementation of staggered production. However, the peak season was not as flourishing as expected, the scheduling of staggered production did not align with the actual decline in demand, and cement inventory remained at a high level for most of the time. In the third quarter, the industry faced a low season with a further contraction in cement demand. Although the intensity of staggered production had increased, it was insufficient to reverse the overall imbalance between supply and demand, bringing about frequent adjustments in cement prices in some regions. In the fourth quarter, the Yangtze River Basin, Southwest China, Shandong, Henan and other regions strengthened the implementation of off-peak kiln shutdowns during the peak season, significantly lowering inventory levels and prompting a price recovery.

Cement prices: Hovering at low levels in the first half of the year, gradually recovering in the second half of year

Throughout the year, the cement market prices exhibited a complex trend characterized by “hovering at low levels in the first half of the year, gradually recovering in the second half of year, and experiencing relatively frequent fluctuations”.

By quarter, the trend of cement prices showed a progressive increase. Specifically, the first quarter witnessed the lowest price of the year with an average market price of RMB363/tonne, a significant year-on-year decrease of RMB65/tonne. In the second quarter, prices rose slightly compared to the previous quarter, with an average of RMB370/tonne, narrowing the year-on-year drop to RMB43/tonne. In the third quarter, prices climbed further to RMB385/tonne, up by RMB15/tonne from the previous quarter and RMB22/tonne higher compared to the same period last year. In the fourth quarter, prices surged to RMB418/tonne, reaching the year’s highest point and achieving a remarkable turnaround, with a substantial year-on-year increase of RMB45/tonne.

The main factors affecting the trend of cement prices are as follows: Firstly, there was a significant decline in domestic cement market demand. Specifically, the demand continued to decrease by 10% year-on-year, and the new construction area of properties underwent continuous deep adjustments. Meanwhile, the recovery of key projects under construction and housing construction projects fell short of expectations due to shortage of funds. Particularly in the second half of the year, the pressure on local governments to resolve debt issues led to a substantial reduction in the number of municipal projects, further widening the year-on-year decline in cement demand. Secondly, there were contractions and adjustments in the supply side of the cement market. Due to the continuous deterioration of market supply and demand, the cement market in most regions fell into a state of full competition in the first quarter. However, by the second quarter, under the active leadership of dominant enterprises in various regions, the supply side was effectively controlled through the continuous increase in the intensity of staggered production, thereby influencing the trend of cement prices. Thirdly, there was an adjustment in corporate market strategies. In the face of fierce market competition, companies have gradually shifted from full competition to deeper cooperation, while profit improvement became the dominant objective of their strategies. As a result, the behavior of cutting prices to increase sales volume and engaging in “price wars” has significantly diminished. This strategic adjustment also had a positive impact on cement prices.

Cement prices: Hovering at low levels in the first half of the year, gradually recovering in the second half of year (Continued)

By region, Northeast China emerged as the “shining star” in terms of cement price performance in 2024. The average annual price rose to RMB456/tonne, an increase of RMB74/tonne compared to the same period last year, marking a significant rise of 20%. It was also RMB50-100/tonne higher compared to other regions, making it the only area nationwide to experience a year-on-year price increase. Looking back at the annual trend of cement prices in Northeast China, the first quarter continued the sluggish market conditions of the previous two years, with factory price of cement hovering around RMB200/tonne. Most enterprises within the region were confronted with the predicament of huge losses. Some enterprises were on the brink of broken capital chains and struggled to cover expenses, making business operations extremely difficult. In the second quarter, to reverse this downward trend, companies reached a consensus to strengthen industry self-regulation, implement more stringent staggered production measures, and proactively reduce supply. This led to a significant improvement in the relationship between market supply and demand, and supported a continuous and substantial rise in cement prices, which remained high until the end of the fourth quarter. Against the backdrop of a generally sluggish national cement market, the Northeast China’s counter-trend surge stood out and garnered widespread attention. Enterprises in other regions began to emulate these practices in hopes of improving their own market conditions.

Propelled by the wave of recovery in the Northeast market, the cement industries in Northwest China and North China also took the initiative to push for price increases starting from the second quarter. However, the performance of these two regions was quite different. Cement prices in Northwest China followed Northeast China in showing a recovery trend, with an annual average price of RMB394/tonne, which was only a slight year-on-year decline of 1.9%. This price was the second highest level nationwide, which was mainly attributable to the stable and relatively high prices maintained in Xinjiang, Gansu, and Qinghai.

In contrast, the price performance in North China was relatively stable, with only a moderate increase of RMB20-30/tonne observed in June. In the second half of the year, prices largely remained steady. Despite several attempts by enterprises to raise prices, these efforts were more often aimed at stabilizing prices rather than achieving significant increases.

In 2024, cement prices in Southwest China became the lowest in the country, with an average transaction price of RMB355/tonne, the lowest level nationwide. This was mainly due to the drag from Chongqing market, where price competition was exceptionally fierce, with prices once plummeting to RMB180-190/tonne, causing widespread losses among enterprises. Fortunately, in the fourth quarter, enterprises strengthened industry self-discipline and promoted staggered production measures, contributing to a strong rebound in prices, which alleviated the operational pressure on businesses.

1. OPERATING ENVIRONMENT AND INDUSTRY OVERVIEW (CONTINUED)

Cement prices: Hovering at low levels in the first half of the year, gradually recovering in the second half of year (Continued)

In 2024, the average price of cement in Central and South China was RMB369/tonnes, marking the largest year-on-year decline among all major regions in the country, falling by RMB34/tonne compared to 2023, a decrease of 8.4%. Secondly, the annual average transaction price in East China stood at RMB377/tonne, a year-on-year decrease of RMB22/tonne or 5.5%. Throughout the first half of the year, cement prices in both Central and South China and East China consistently hovered at or below the break-even point or cost line. Despite attempts by industry players to push prices up through industry self-discipline, none of these efforts were successful. The reasons can be attributed to several factors: On one hand, some companies, aiming to expand their market share, failed to strictly implement price increase strategies, resulting in a lackluster effect on price enhancement. On the other hand, the timing of staggered production did not align well with the actual decline in demand, and market competition remained fierce, keeping cement prices at a low level throughout the first half of the year. However, the situation improved in the second half of the year. Companies in the Yangtze River Delta and Pearl River Delta, including industry leaders, adjusted their business strategies and effectively implemented staggered production measures, which significantly contributed to a dramatic increase in cement prices, consequently enhancing the economic benefits for both the industry and companies.

In summary, the national cement market price in 2024 was initially at low levels and gradually increased, with volatility and adjustments within mid-to-low range. There were both lows and highs within the year, coupled with distinct variations across different regions and at different times.

Effectiveness: Sharp decrease in industrial profit margins

Since the beginning of 2024, the cement market has faced severe demand contraction due to multiple adverse factors, including the downturn in the real estate market and the slowdown of infrastructure project construction in key provinces and cities to prevent local debt risks. These challenges have exacerbated the imbalance between supply and demand, eroded market confidence, and made business operations difficult for enterprises. In response, companies across various regions have resorted to vicious price competition to capture market share, driving cement prices down to hover near cost lines. The industry recorded a sharp decline in profits, with the sector experiencing losses in the first half of the year. In the second half of the year, regions across the country began seeking ways to break free from “rejecting excessive competition”, and the profit improvement became the dominant strategy for enterprises. The behavior of cutting prices to increase sales volume and engaging in “price wars” has noticeably decreased, resulting in a significant recovery in industry benefits. The cement industry is expected to make a profit of approximately RMB25 billion in 2024, representing a year-on-year decrease of approximately 20%, but with a significantly narrowed decline.

Revenue

The sales revenue was RMB14,509,866,000, representing a YOY decrease of 19.9%, with revenue analysis by product as follows:

(1) Year-on-year analysis of product sales volume, unit price and revenue

Product	2024				2023

Total			14,509,866	100%			18,116,387	100%

Note: Mainly includes sales of aggregates, waste materials, slag powder and waste heat power generation, etc.

During the Reporting Period, the Group's external sales volume of cement and clinker decreased by 7,655,000 tonnes and 3,512,000 tonnes, respectively, as compared to 2023, representing a decrease of 14.5% and 34.0%, respectively, the external sales volume of concrete decreased by 779,000 cubic meters as compared to 2023, representing a decrease of 25.5%. The decrease in sales volume of cement for the year was mainly due to the continuous decline in demand in the cement market in 2024, the imbalance between supply and demand in the industry and intense competition in the market.

During the Reporting Period, the Group's average selling prices of cement and concrete decreased by RMB8.2 and RMB68.2, respectively, as compared to 2023, representing a decrease of 3.0% and 18.6%, respectively, and the average selling prices of clinker increased by RMB3.5 as compared to 2023, representing an increase of 1.6%.

Internal cement sales for the Group's concrete production amounted to 461,442 tonnes in 2024 (2023: 674,161 tonnes), accounting for 1.0% of total cement sales (2023: 1.3%).

Others	2,890,790	19.9%	3,431,880	18.9%	1.0 P. Pt.
Total cost of sales	12,416,024	85.6%	16,203,780	89.4%	-3.8 P. Pts.

During the Reporting Period, the proportion of the Group's total cost of sales to revenue was 85.6%, representing a YOY decrease of 3.8 percentage points. In particular, the proportion of cost of raw materials, cost of coal and power costs decreased by 3.8, 2.0 and 0.2 percentage points, respectively, while the proportion of depreciation and amortisation and other costs increased by 1.1 and 1.0 percentage point, respectively, compared with last year.

The decrease in cost of raw materials was mainly attributed to the decrease in external sales of cement and clinker, the decrease in the consumption of the relevant raw materials and the decrease in the unit price of various raw materials purchased during the year. In 2024, the average purchase price of coal decreased by 9.7% to RMB872.0/tonne compared with the previous year (RMB965.3/tonne). The unit coal consumption per tonne of clinker produced in 2024 decreased to 114.2kg from an average of 117.0kg in 2023. The average coal cost per tonne of clinker produced in 2024 decreased by 11.8% to RMB99.6 from RMB112.9 in 2023 due to the decrease in coal price and the use of alternative fuels. The decrease in cost of electricity was mainly due to the decrease in electricity prices and power consumption for the year as compared with last year. The increase in depreciation and amortisation costs was mainly ascribed to the slight year-on-year increase in depreciation and amortization as a result of the progressive gradual completion of capital expenditure investment projects and their reclassification to fixed assets for the year. Others decreased compared with the previous year, mainly due to the decrease in maintenance and personnel expenses.

2. RESULTS OF OPERATIONS (CONTINUED)

GROSS PROFIT AND GROSS PROFIT MARGIN

The gross profit for 2024 was RMB2,093,842,000 (2023: RMB1,912,607,000), representing a gross profit margin of 14.4% on revenue (2023: 10.6%). The increase in gross profit was mainly attributable to the cement sales price showing a start-low and end-high trend during the year, with a significant price increase since June, resulting in a slight YOY decrease of 3% in cement sales prices; at the same time, due to a greater decrease in the cost on various raw materials and fuels expenses during the year, the decrease in the unit production cost was greater than the decrease in the sales price, resulting in an increase in gross profit margin.

Other income

Other income decreased from RMB236,679,000 to RMB190,143,000, mainly due to the decrease in government grants during the year as compared with the previous year.

Other net expenses, gains and losses

With respect to other net expenses, gains and losses, the Group recorded a gain of RMB39,610,000 for the year ended 31 December 2024, as compared to a loss of RMB259,750,000 for the year ended 31 December 2023, mainly due to (i) the compensation granted to the Group, pursuant to the relocation compensation agreement, due to the highway construction project causing the compression of the mineral resources and the change from conveyor belt transportation to road transportation increasing its operating costs; and (ii) the gain arising from the disposal of a subsidiary during the year.

Selling and marketing expenses, administrative expenses and finance costs

A YOY decrease of 12.1% from RMB317,920,000 to RMB279,593,000 was recorded in selling and marketing expenses, mainly due to the YOY decrease in the sales volume of cement, resulting in a YOY decrease in loading and unloading fees and sales service charges for the year.

A YOY decrease of 23.9% from RMB1,535,013,000 to RMB1,168,523,000 was recorded in administrative expenses, mainly due to the provision resulting from employment compensation and compensation for resignation granted to certain employees based on their prior employment relationship in the course of the restructuring of the subsidiary, Shandong Shanshui, from a state-owned enterprise to a privately-owned enterprise in the previous year; in addition, a YOY decrease was recorded in the number of employees, resulting in a YOY decrease in the cost of salaries, and various expenses were tightened during the year.

Selling and marketing expenses, administrative expenses and finance costs (Continued)

A YOY decrease of 1.1% from RMB218,273,000 to RMB215,934,000 was recorded in finance costs, mainly due to the decline in bank loan interest rates during the year as compared with the previous year.

Taxation

A YOY decrease of 27.6% from RMB172,567,000 to RMB125,000,000 was recorded in income tax expenses, mainly due to the decrease in taxable income for the year.

Loss for the year

The Group recorded a net loss for the year of RMB189,041,000 while the net loss for 2023 was RMB1,050,106,000. Loss for the year was mainly due to the decrease in the sales volume of cement resulting from the weak market demand. However, as a result of the increase in gross operating profit and the decrease in selling and marketing expenses, administrative expenses and finance costs to varying degrees under the various cost and expense control measures taken during the year, the loss for the year was reduced by RMB861,065,000 as compared to the previous year, representing a YOY decrease of 82.0%.

3. FINANCIAL RESOURCE AND LIQUIDITY

As at 31 December 2024, total assets decreased by 1.8% to RMB30,222,319,000 (2023: RMB30,773,414,000), while total equity decreased by 1.1% to RMB18,192,206,000 (2023: RMB18,403,464,000). As at 31 December 2024, the Group's net gearing ratio was 14.9% (2023: 13.5%), calculated based on net debts and total equities as of 31 December 2024 and 31 December 2023. The increase in net gearing ratio was mainly due to a slight increase in bank loans and a slight decrease in bank balances and cash position during the year.

Bank balances and cash, restricted bank deposits and fixed bank deposits

As at 31 December 2024, the Group's bank balances and cash, restricted bank deposits and fixed bank deposits are as below:

	31 December 2024 RMB'000	31 December 2023 RMB'000

Total	5,365,460	5,132,457

As at 31 December 2024, all borrowings of the Group were denominated in Renminbi. The Group's total borrowings were RMB5,365,460,000, representing an increase of RMB233,003,000 as compared with the end of 2023. In particular, short-term borrowings amounted to RMB3,797,750,000 and accounted for 70.8% of the Group's total borrowings. As at 31 December 2024, the balance of unutilised credit facility of the Group approved by the banks amounted to RMB654,000,000. As of the date of this report, the balance of the unutilised credit line was RMB615,000,000. and the Group will seek new bank loan facility lines subsequently as required.

The Group adopts robust and prudent treasury policies in financial management. Treasury management, financing and investment activities are all managed and monitored by the senior management of the Company. The Group regularly monitors its current and expected liquidity needs as well as compliance with bank loan agreements in order to maintain sufficient cash reserves and flexibility in funding for meeting the Group's short-term and long-term liquidity needs.

The Group had net current liabilities of RMB1,203,025,000 as at 31 December 2024. Taking into account the cash and bank balances, the expected future internally generated funds, the new banking facilities and other sources of financing to be obtained, the Board believes that the Group will be able to meet its financial obligations when they fall due in the foreseeable future.

Capital expenditures

During the Reporting Period, capital expenditures were approximately RMB824,115,000, which were mainly used as investment in the new construction and technical transformation of intelligent production, mine resource reserves, cement and clinker production lines. The Group's investment and construction will be mainly financed by working capital obtained from daily operation and part of bank borrowings.

Outstanding capital commitments under production facility construction contracts and the equipment purchase contracts not provided for in the financial statements as at 31 December 2024 were:

	31 December 2024 RMB'000	31 December 2023 RMB'000

Balance of cash and cash equivalents at 1 January	2,254,037	2,124,362
Effect of foreign exchange rate changes	8,383	26,679
Balance of cash and cash equivalents at 31 December	2,179,627	2,254,037

Net cash generated from operating activities

During the Reporting Period, the Group recorded a net cash generated from operating activities of RMB538,173,000, representing a YOY increase of RMB113,945,000, mainly due to the decrease in various costs and expenses for the year.

Net cash used in investing activities

During the Reporting Period, the Group recorded a net cash used in investing activities of RMB648,958,000, representing a YOY decrease of RMB982,651,000, mainly due to the decrease of capital expenditure in construction of new production lines for cement and clinker and equipment purchase for technical transformation, as well as equity investment during the year. In addition, there were still compensation income from the compression of the mineral resources for highway construction project and the change from conveyor belt transportation to road transportation, as well as gain arising from the disposal of a subsidiary. On a net basis, these factors resulted in a decrease in net cash used in investing activities for the year.

Net cash generated from financing activities

During the Reporting Period, the Group recorded a net cash generated from financing activities of RMB27,992,000, representing a YOY decrease of RMB1,282,385,000, mainly due to the decrease in net inflow of bank loans during the year.

3. FINANCIAL RESOURCE AND LIQUIDITY (CONTINUED)

Material acquisition and disposal of subsidiaries and affiliated companies

On 19 March 2024, the Group entered into an agreement with an independent third party for the disposal of 70% equity interest in a subsidiary, Guangrao Shanshui Cement Company Limited, at a consideration of RMB26,295,000, the transaction had no material impact on the financial operations of the Group and the relevant gain or loss on disposal is set out in Note 8 to the Financial Statements. Save as mentioned in the preceding paragraph, the Group had no other material acquisitions or disposals during the Reporting Period.

Pledge of assets

Details in relation to pledge of assets of the Group as at 31 December 2024 are set out in Note 24 to the Financial Statements.

Contingent liabilities

Details in relation to contingent liabilities of the Group as at 31 December 2024 are set out in Note 36 to the Financial Statements.

Management of foreign exchange exposure

The Group's functional currency is RMB, and during the Reporting Period, as most of the sales amounts and purchase amounts of the Group were denominated in RMB, there was no significant foreign exchange exposure.

RMB is not a freely convertible currency. Future exchange rate of RMB may change substantially as compared to current or historical exchange rates as a result of the controls imposed by the PRC government. The exchange rate may also be subject to domestic and international economic developments and political changes as well as the supply and demand of RMB. The appreciation or depreciation of RMB against foreign currencies may have an impact on the Group's operating results.

The Group currently does not have a foreign currency hedging policy. However, the management of the Group monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

During the Reporting Period, the Group did not employ any financial instruments for hedging purposes.

4. OUTLOOK FOR 2025

(a) Operating environment outlook

In 2024, with the annual demand for cement experiencing a rapid double-digit decline, the imbalance between supply and demand in the industry exacerbated and the competition was increasingly fierce, leading to a sharp decline in profits. In the fourth quarter, a nationwide effort was initiated to explore the path of “rejecting excessive competition”, and the profit improvement became the core focus of corporate strategies. The phenomenon of slashing prices to capture market share diminished, and the industry gradually turned losses into gains. Looking ahead to 2025, the cement industry will face an increasingly complex market environment. Due to the influence of multiple factors, the issue of insufficient demand in the cement market remains prominent. The strengthening of industry self-discipline, the implementation of staggered production and the gradual effectiveness of capacity management policies will collectively drive a recovery in profits of the cement industry. It is anticipated that cement prices in 2025 will continue to be initially at low levels and gradually increase, with the fluctuation center shifting upwards.

From the perspective of demand: In 2025, the issue of insufficient demand in the cement market remains prominent due to the influence of multiple factors. However, the Politburo meeting proposed “stabilizing the property market”, and the Economic Work Conference of the Central Government stressed “continuing efforts to halt the decline and stabilize the real estate market”, setting the tone for the property market in 2025 and signaling a more resolute stance on stabilizing the property market. Meanwhile, a moderately loose monetary policy and a more proactive fiscal policy will be implemented in 2025, aiming to provide stable funding support for infrastructure investment. The strengthened support for infrastructure will benefit the recovery of cement demand driven by infrastructure projects. Although it is expected that the cement demand throughout 2025 will decrease compared to 2024, the rapid decline in demand is expected to slow down under the regulation of extraordinary countercyclical policies, with the decline narrowing to around 5%-7%.

From the perspective of supply: The capacity utilisation rate will be further reduced affected by insufficient demand and increasingly severe industry overcapacity. Currently, there are 15 production lines under construction nationwide with a combined capacity of approximately 23,000,000 tonnes, of which 8 production lines with a capacity of nearly 12,000,000 tonnes are expected to commence operation in 2025, further exacerbating the overcapacity problem. However, in 2025, the government will intensify regulatory efforts in the cement industry, and capacity management policies will become stricter, driving the industry to reduce capacity and adjust its structure to improve the market supply and demand. Coupled with the regulation of production through regular staggered production, the downward trend in the cement industry's profits will be effectively curbed, and significant progress will be made in addressing excess capacity. It is expected that cement prices in 2025 will continue to be initially at low levels and gradually increase, with the fluctuation center shifting upwards. The cement industry is expected to achieve steady growth in profits in 2025.

4. OUTLOOK FOR 2025 (CONTINUED)

(b) Business outlook of the Company

In 2025, the Company will focus on improving efficiency, adhere to the overall tone of seeking progress while maintaining stability and promoting stability through progress, coordinate business development and risk prevention, concentrate on improving operational efficiency, enhancing management effectiveness and accumulating development momentum, and earnestly carry out the “Year of Efficiency Improvement” action, so as to fully boost high-quality development.

- 1. Making every effort to stabilize quantity and price.** We will actively respond to the national requirement for comprehensive management of “excessive competition”, and continuously promote the construction of a healthy industry ecosystem. Building on the strengths of quality, brand, and service, we will further intensify the research and development of high value-added products to retain existing customers and attract new customers. By integrating online and offline sales channels, we will extend service coverage and ensure precise alignment between production and sales.
- 2. Reinforcing cost management.** We will focus on production cost reduction with the approach of “improving efficiency, cutting expenditures and reducing costs”, comprehensively enhance benchmarking management, identify the optimal threshold between cost and quality, and maintain the best economic operating conditions. We will concentrate on supply assurance and cost reduction, leveraging our own centralized procurement and transportation platforms to integrate procurement and transportation needs, actively seeking strategic-level suppliers and direct suppliers for collaboration; explore new models of inter-industry collaborative procurement to jointly achieve benefits from the upstream supply chain; promote shared warehousing models to improve material utilization. We will focus on human resource management, continuously optimize staff position allocation, and strive to resolve structural talent shortages.

4. OUTLOOK FOR 2025 (CONTINUED)

(b) Business outlook of the Company (Continued)

3. **Optimizing industrial layout.** Starting from investments, we will timely advance “fast-turnover” industrial chain projects, and focus on developing commercial concrete operations in advantageous regions through various methods such as new project construction, cooperative operations, and leasing, actively integrating terminal markets; steadily promote resource reserve increase projects to ensure sustainable development. Starting from resource allocation, we will leverage the comparative advantages of the enterprise, scientifically plan capacity adjustment schemes, and build a regional industrial chain through integrated unit operation management, to enhance overall competitive strength. At the same time, we will prioritize extending and supplementing the chain to promote transformation and development, and timely clear out inefficient and ineffective assets.
4. **Promoting green transformation.** We will establish and improve the carbon management mechanism, comprehensively calculate carbon assets, and swiftly integrate into the carbon market. We will steadily increase the utilization rate of alternative raw and fuel materials. In addition to external procurement, we will advance the implementation of pilot projects for alternative fuel processing to achieve self-production and self-use. Adhering to the harmonious unity of enterprise and local communities, we will orderly facilitate the investment and construction of various environmental protection projects.
5. **Preventing funding risks.** We will further strengthen the rigid constraints of budgeting, reinforce expense management, and avoid ineffective expenditures; promote the establishment of credit ratings to effectively expand financing channels; actively seek the conversion of bank loans to lower interest rates to alleviate financial cost pressures; intensify policy research and utilization to ensure full enjoyment of policy benefits; follow up on the clearance of accounts receivable and take necessary preservation measures in a timely manner to effectively safeguard our rights and interests.
6. **Address loss-making enterprises.** We will take into account the strategic value and economic benefits of loss-making enterprises, evaluate their sustainable operating capabilities, and develop governance plans tailored to enterprises that can achieve positive cash flow, suffer long-term losses with no hope of turnaround, and lose money in non-core businesses, aiming to further reduce the scope of losses.

2. SHAREHOLDING OF SUBSTANTIAL SHAREHOLDERS (CONTINUED)

(1) Shareholdings of substantial shareholders (Continued)

Save as disclosed above, and so far as the Directors are aware, as at 31 December 2024, no person, other than Directors or the Chief Executive of the Company, had an interest or short position in the Shares or underlying shares of the Company which would need to be disclosed to the Company pursuant to Divisions 2 and 3 of Part XV of the SFO, or which would be required to be recorded in the register maintained pursuant to Section 336 of the SFO.

(2) Directors' and Chief Executives' Interests in the Shares, Underlying Shares and Debentures

As of 31 December 2024, none of the Directors or the chief executives of the Company had any interest or short position in the Shares, underlying Shares and debentures of the Company or any of its associated corporations, which would be required to be disclosed to the Company and the Stock Exchange pursuant to the provisions of Divisions 7 and 8 of Part XV of the SFO, or which would be required, pursuant to section 352 of the SFO, to be entered in the register referred to therein, or which would be required to be notified to the Company and the Stock Exchange, pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix C3 to the Listing Rules.

3. PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES OF THE COMPANY

Neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities during the Reporting Period.

(VII) Share Capital and Shareholdings of Substantial Shareholders and the Directors (Continued)

4. SHARE OPTION SCHEME

The Company adopted a share option scheme (the **"Share Option Scheme"**) pursuant to a Shareholders' resolution passed on 14 June 2008 (the **"Adoption Date"**). Save for the Share Option Scheme, the Company has no other share option scheme currently in force.

At the Adoption Date, a mandate limit was approved to allow the Company to grant options entitling holders to subscribe for Shares not exceeding 10% of the then issued Shares as at the date of the approval of the Share Option Scheme, which amounted to 260,336,000 options to subscribe for 260,336,000 Shares (the **"Existing Scheme Mandate Limit"**). During the period from the Adoption Date to the date of this report, no refreshment of the Existing Scheme Mandate Limit has been approved by the Shareholders.

Since the adoption of the Share Option Scheme, options to subscribe for 7,400,000 Shares were granted on 25 May 2011 (the closing price of the Shares as at the date of grant was HK\$7.83 per Share) and options to subscribe for 163,700,000 Shares (not including the options to subscribe for 20,000,000 Shares and 23,600,000 Shares conditionally granted to ZHANG Bin and ZHANG Caikui (ZHANG Caikui was deemed to be a substantial Shareholder due to his interest in CSI and ZHANG Bin is his associate), respectively, subject to the approval of the Shareholders which has not yet been obtained) were granted on 27 January 2015 (the closing price of the Shares as at the date of grant was HK\$3.68 per Share).

By virtue of the High Court Miscellaneous Proceedings No. 593 of 2015 ("HCMP593/2015"), CSI has commenced an injunction application to apply to set aside the grant of the 207,300,000 share options in early 2015. A Consent Summons with Wong & Lawyers (for CSI in its capacity as minority shareholders) and Mayor Brown JSM (for CSI in its corporate capacity) was signed on 6 January 2016 in which the Company gave an undertaking to the High Court that it will not take steps to implement the share options offered as described in its public announcement dated 27 January 2015 until 28 days from the handing down of the judgment in relation to the substantive hearing of the Petitioner's Summons dated 17 August 2015 or until further Order of the Court.

Since no extraordinary general meeting of the Company was held for the approval of the grant of 43,600,000 options in aggregate conditionally granted to ZHANG Bin and ZHANG Caikui, such options have not been granted.

All of the options to subscribe for 7,400,000 Shares granted on 25 May 2011 were lapsed in accordance with the terms of the Share Option Scheme and therefore will not be counted for the purpose of the Existing Scheme Mandate Limit pursuant to Note 1 to Rule 17.03(3) of the Listing Rules.

Out of the options to subscribe for 163,700,000 Shares granted on 27 January 2015, 73,800,000 share options were lapsed in accordance with the terms of the Share Option Scheme, of which 400,000 share options lapsed during the Reporting Period. Therefore, these lapsed options had not been counted for the purpose of the Existing Scheme Mandate Limit pursuant to Note 1 to Rule 17.03(3) of the Listing Rules.

Save for the above, none of the options granted on 27 January 2015 had been exercised or cancelled or lapsed during the Reporting Period.

(VII) Share Capital and Shareholdings of Substantial Shareholders and the Directors (Continued)

4. SHARE OPTION SCHEME (CONTINUED)

Accordingly, taking into account all the options granted and conditionally granted, the outstanding Existing Scheme Mandate Limit as at 31 December 2024 was 170,436,000 Shares, representing approximately 65.47% of the Existing Scheme Mandate Limit and approximately 3.91% of the share capital in issue (4,353,966,228 Shares) as of 31 December 2024.

As at 31 December 2024, Shares that would have been issued upon full exercise of the options granted under the Share Option Scheme were 89,900,000 Shares, representing approximately 2.06% of the share capital in issue (4,353,966,228 Shares) of the Company as of 31 December 2024.

Details of the options are set out as follows:

Type of Grantee	Date of Grant	Vesting period	Exercise period	Exercise price	Number of Share Options				
					Outstanding as at 1 January 2024	Exercised during the Reporting Period	Lapsed during the Reporting Period	Cancelled during the Reporting Period	Outstanding as at 31 December 2024
Other employee participants ¹	25 May 2011	Nil	25 May 2011 – 24 May 2021	HK\$7.90	–	–	–	–	–
Other employee participants ¹	27 January 2015	Six months after the date of grant	27 July 2015 – 26 January 2025	HK\$3.68	90,300,000	–	400,000	–	89,900,000
					90,300,000	–	400,000	–	89,900,000

Note:

- (1) Other employee participants include directors and employees of the Company or any of its subsidiaries in accordance with Rule 17.03A of the Listing Rules

Pursuant to the terms of the Share Option Scheme, 89,900,000 share options lapsed on 27 January 2025. Accordingly, the Company no longer has outstanding share options under the Share Option Scheme as at the date of this report.

Summary of the principal terms of the Share Option Scheme

The purpose of the Share Option Scheme is to provide an incentive for certain eligible participants to work with commitment towards enhancing the value of the Company and the Shares for the benefit of the Shareholders, and to retain and attract talents and working partners whose contributions are or may be beneficial to the growth and development of the Group.

Subject to the original terms of the Share Option Scheme, the Board may at its discretion grant options to (i) any executive director, or employee (whether full time or part time) of the Company, any member of the Group or any entity in which any member of the Group holds an equity interest ("**Invested Entity**"); (ii) any non-executive director (including independent non-executive director) of the Company, any member of the Group or any Invested Entity; (iii) any supplier of goods or services to the Company, any member of the Group or any Invested Entity; (iv) any customer of the Company, any member of the Group or any Invested Entity; and (v) any such person (including but not limited to consultant, adviser, contractor, business partner or service provider of the Company or any member of the Group or any Invested Entity) who in the absolute discretion of the Board has contributed or will contribute to the Group.

(VII) Share Capital and Shareholdings of Substantial Shareholders and the Directors (Continued)

4. SHARE OPTION SCHEME (CONTINUED)

Summary of the principal terms of the Share Option Scheme (Continued)

In accordance with the Listing Rules, with effect from 1 January 2023, eligible participants shall only include the following persons:

1. directors and employees of the Company and its subsidiaries;
2. directors and employees of the Company's holding company, fellow subsidiaries or associated companies;
3. persons who provide services to the Group on a continuing or recurring basis in its ordinary and usual course of business which are in the interests of the long term growth of the Group, excluding placement agents, financial advisers or professional service providers such as auditors or valuers (collectively, the **"Eligible Participants"**).

Unless approved by the Shareholders in general meeting in the manner prescribed in the Listing Rules, the Board shall not grant options to any grantee if the acceptance of those options would result in the total number of shares issued and to be issued to that grantee on exercise of his options during any 12-month period exceeding 1% of the total Shares then in issue.

The options granted by the Board on 25 May 2011 had no vesting period, were valid for ten years from 25 May 2011, and were lapsed in accordance with the terms of the Share Option Scheme. The vesting period of the options granted by the Board on 27 January 2015 is 6 months from the date of grant, and the validity of which shall be ten years from 27 January 2015.

The price at which the Shares may be subscribed upon exercise of an option granted shall be at least the highest of: (i) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheets on the date of grant (and which must be a business day); (ii) the average of the closing prices of the Shares as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the date of grant; and (iii) the nominal value of the Shares.

An option shall be deemed to have been granted and accepted by the grantee (subject to certain restrictions of the Share Option Scheme) and to have taken effect upon the issue of the option certificates after the duplicate letter comprising acceptance of the option duly signed by the grantee together with a remittance in favour of the Company of HK\$1.00 (by way of consideration for the grant thereof) shall have been received by the Company on or before the last day for acceptance. The remittance is not, in any circumstance, refundable. Once accepted, the option is granted as from the date on which it was offered to the relevant grantee.

The Share Option Scheme is valid for ten years from 4 July 2008 (i.e. the effective date of the Share Option Scheme) and expired on 4 July 2018, after which no further options will be granted but the provisions of the Share Option Scheme will remain in full force and effect in all other respects.

5. PRE-EMPTIVE RIGHTS

Pursuant to the Articles of Association and the laws of the Cayman Islands, the Company is not required to offer to its existing shareholders the pre-emptive right to acquire new shares in proportion to their shareholdings.

The Group's PRC subsidiaries participate in the state-management retirement benefits scheme operated by the local government in compliance with applicable PRC regulations. Subsidiaries are required to contribute a specified percentage of their payroll costs to the retirement benefits scheme.

6. HIGHEST PAID INDIVIDUALS

Please refer to Note 12 to the Financial Statements for details of the remuneration of the five highest paid individuals of the Group during the Reporting Period.

7. HUMAN RESOURCES

As at 31 December 2024, the Group had a total of 14,700 employees. The Group provides retirement insurance, medical insurance and unemployment insurance and makes contributions to the housing provident scheme for its employees in the PRC in accordance with applicable laws and regulations in the PRC. The Group remunerates its employees based on their respective work performance and experience and reviews its employee remuneration policies as and when appropriate. Please refer to Note 9(b) to the Financial Statements for details of the Group's personnel expenses such as salaries and benefits during the Reporting Period.

(IX) Report on Corporate Governance

CORPORATE GOVERNANCE CULTURE

The Company is committed to maintaining high standards of corporate governance and believes that good governance is critical to the long-term success and sustainability of the Company's business.

The Company is committed to ensuring that its affairs and daily operations are conducted in accordance with high ethical standards. This reflects its belief that, in the achievement of its long-term objectives, it is imperative to act with probity, transparency and accountability. By so acting, the Company believes that Shareholder value will be maximised in the long term and that its employees, business partners and the communities in which it operates will all benefit.

Corporate governance is the process by which the Board instructs management of the Group to conduct its affairs with a view of ensuring that its objectives are met. The Board reviews the Company's corporate governance policies and practices on a regular basis and makes changes as necessary to protect the interests of Shareholders, enhance corporate value, increase transparency and strengthen accountability.

(IX) Report on Corporate Governance (Continued)

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

The Board is committed to maintaining good corporate governance standards.

The Board believes that good corporate governance standards are essential in providing a framework for the Company to safeguard the interests of Shareholders, enhance corporate value, formulate its business strategies and policies, and enhance its transparency and accountability.

The Company's corporate governance practices are based on the principles and code provisions as set out in the Corporate Governance Code (the **"CG Code"**) contained in Appendix C1 to the Listing Rules.

The Company has in place a corporate governance framework and has established a set of policies and procedures based on the CG Code contained in Appendix C1 to the Listing Rules. Such policies and procedures provide the infrastructure for enhancing the Board's ability to implement governance and exercise proper oversight on business conduct and affairs of the Company.

During the Reporting Period, the Board was not aware of any information which would indicate that the Company did not comply with the code provisions of the CG Code unless otherwise indicated.

Chairman and Chief Executive Officer

According to Code Provision C.2.1 of the CG Code, the roles of chairman and chief executive should be separate and should not be performed by the same individual.

The Company did not appoint any Chief Executive Officer, and Mr. LI Huibao, the former Chairman, undertook the responsibilities of a Chief Executive Officer until 31 May 2024.

Upon the conclusion of the annual general meeting held on 31 May 2024, Mr. LI Huibao retired as the Chairman and an Executive Director of the Company.

Immediately following the resignation of Mr. LI Huibao, the Board and the Nomination Committee considered several potential candidates to undertake the role and responsibilities of the Chairman. However, in order to ensure the development, stability and sustainability of the Company, the Board considered it essential to conduct an in-depth review of all aspects of interests and balance of power before an appropriate candidate can be selected and appointed as the Chairman, which was time-consuming. In the absence of a Chairman, the Board temporarily nominated Ms. WU Ling-ling, an Executive Director of the Company, to discharge the responsibilities of a Chairman as required under code provisions C.2.2 to C.2.9 of the CG Code and undertake the responsibilities of the Chief Executive Officer following resignation of Mr. LI Huibao.

On 5 August 2024, Mr. TENG Yongjun was appointed as the Chairman of the Board and an Executive Director to discharge the responsibilities as required under code provisions C.2.2 to C.2.9 of the CG Code. Mr. TENG Yongjun has also undertaken the responsibilities of a Chief Executive Officer in place of Ms. WU Ling-ling since 5 August 2024.

(IX) Report on Corporate Governance (Continued)

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE (CONTINUED)

Chairman and Chief Executive Officer (Continued)

In allowing the two positions to be occupied by the same person, the Company has considered that both positions require in-depth knowledge and considerable experience of the Group's business. Candidates with the requisite knowledge, experience and leadership are difficult to identify. If either of the positions is occupied by an unqualified person, the Group's performance could be gravely compromised. Besides, the Board believes that the balance of power and authority will not be impaired by such arrangement as it is adequately ensured by the Board which comprises experienced and high calibre individuals (including Executive Directors and Independent Non-Executive Directors).

For the reasons as set out above, the Board considered that good corporate governance has been achieved throughout the Reporting Period.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors (the "**Model Code**") as set out in Appendix C3 to the Listing Rules. Having made specific inquiries to all Directors, all Directors confirmed that they have complied with the Model Code throughout the Reporting Period.

The Model Code for Securities Transactions by Directors also applies to all employees who, because of their office or employment, are likely to possess inside information in relation to the Company or its securities. No incident of non-compliance of the Model Code by the employees was noted by the Company.

(IX) Report on Corporate Governance (Continued)

BOARD OF DIRECTORS

The key responsibilities of the Board include formulating the Group's overall strategies, setting management targets, monitoring internal controls and financial management, supervising the performance of our management, developing and reviewing the policies and practices of corporate governance. The Board operates in accordance with established practices (including those relating to reporting and supervision).

Board Composition

The Board assumes responsibility for leadership and control of the Company and is collectively responsible for promoting the success of the Company by directing and supervising the Company's affairs. It should act in the best interest of the Company and its Shareholders at all times. The Board sets strategies for the Company and monitors the performance and activities of the senior management. The management is responsible for the implementation of the Board's decisions and daily management.

The Board has a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company's business and regularly reviews the contribution required from a Director to perform his/her responsibilities to the Company and whether the Director is spending sufficient time performing them that are commensurate with their role and the Board responsibilities.

The Board currently comprises three Executive Directors, and three Independent Non-Executive Directors. The brief biographical details of the Directors and the relationships between the Directors are disclosed in the respective Director's biography set out in the section headed "(2) Biography of Directors and senior management" of "(VIII) Basic Information on Directors, Senior Management and Employees" of this report. The Executive Directors of the Company are responsible for the day to day operations of the Company whereas the Independent Non-Executive Directors of the Company are responsible for ensuring a high standard of financial and management reporting to the Board and Shareholders as well as to provide a balanced composition in the Board so that there is a strong independent element on the Board.

BOARD OF DIRECTORS (CONTINUED)

Chairman and Chief Executive Officer

The principal duties of Chairman are: (a) to lead the Board and ensure that the Board operates effectively and performs its duties and discusses any significant and appropriate matters on a timely basis; (b) to ensure that all Directors at the meetings of the Board are properly informed of the current affairs; (c) to ensure that all Directors receive sufficient information which is complete and reliable, on a timely basis; and (d) to review the implementation of the Board resolutions passed.

The principal duties of Chief Executive Officer are: (a) to oversee the management of the Group's daily production and operations with the assistance of Executive Directors and senior management; (b) to implement major strategies and development plans adopted by the Board, including coordination of implementing the Board resolutions, annual business plans and investment proposals of the Company; (c) to prepare the proposal on the establishment of internal management structure, to organise and formulate the roles and responsibilities of various departments, standards of various positions and professional management procedures, to formulate the basic management system and the standards for performance appraisal of management officers of various levels; (d) to propose the engagement, dismissal or re-designation of deputy general managers or financial controller of the Company; (e) to convene and chair the general manager office meetings and professional management seminars; and (f) to perform other duties and exercise other powers granted by the Articles of Association and the Board.

Code Provision C.2.1 stipulates that the roles of chairman and chief executive should be separate and should not be performed by the same individual. As set out in the section "Compliance with the Corporate Governance Code" in this annual report, the roles of Chairman and Chief Executive Officer were performed by the same individual (namely, Mr. LI Huibao from 1 January 2024 to 31 May 2024, Ms. WU Ling-ling from 1 June 2024 to 5 August 2024, and Mr. TENG Yongjun since 5 August 2024) during the Reporting Period. Notwithstanding the above, for the reasons set out under the same section, the Board considered that good corporate governance has been achieved throughout the Reporting Period. Please refer to pages 64 to 65 of this annual report for further details.

BOARD OF DIRECTORS (CONTINUED)

Independent Non-Executive Directors

The Company has received written annual confirmation from each of the Independent Non-Executive Directors in respect of his independence in accordance with the independence guidelines set out in Rule 3.13 of the Listing Rules. The Company is of the view that all Independent Non-Executive Directors are independent.

Rule 3.10(1) of the Listing Rules requires that every board of directors of a listed issuer must include at least three Independent Non-Executive Directors. Rule 3.21 of the Listing Rules requires that an audit committee shall comprise at least three members, among whom, at least one member shall be an Independent Non-Executive Director possessing proper qualification in compliance with the relevant requirements of Rule 3.10(2) of the Listing Rules or appropriate accounting expertise or related financial management expertise. The Company has also complied with the requirement of Rule 3.10A of the Listing Rules relating to the appointment of Independent Non-Executive Directors representing at least one-third of the Board.

During the Reporting Period, the Company has met the relevant requirements.

Board Independence

Independent Non-Executive Directors enhance the effectiveness and decision-making of the Board by providing objective judgment and constructive challenge to management.

The Company established a Board Independence Evaluation Mechanism which sets out the processes and procedures to ensure that independent views are available to the Board and the Board is able to exercise independent judgment to better safeguard Shareholders' interests.

The objectives of such Evaluation Mechanism are to improve Board effectiveness, maximise strengths and expertise contributed by the Directors, and identify the areas that need improvement or further development. The Evaluation Mechanism also clarifies what actions of the Company needs to take in order to maintain and improve the Board's performance - for instance, addressing individual training and development needs of each Director.

Pursuant to the Board Independence Evaluation Mechanism, the Board will conduct annual review on its independence. The Board Independence Evaluation Report will be presented to the Board which will collectively discuss the results and the action plan for improvement, if appropriate.

During the year ended 31 December 2024, the Board reviewed the implementation and effectiveness of the Board Independence Evaluation Mechanism and the results were satisfactory.

BOARD OF DIRECTORS (CONTINUED)

Appointment and Re-election of Directors

The Non-Executive Directors (including Independent Non-Executive Directors) of the Company are appointed for a specific term of three years, subject to renewal after the expiry of the then current term.

The Company's Articles of Association provides that any Director appointed to fill a casual vacancy or as addition to the Board shall hold office only until the first annual general meeting of the Company after his/her appointment and shall then be subject to re-election at that meeting.

Meanwhile, pursuant to the requirements of the Articles of Association of the Company, at every annual general meeting of the Company, one-third of the Directors for the time being, or, if their number is not three or a multiple of three, then the number nearest to, but not less than, one-third, shall retire from office by rotation provided that every Director (including those appointed for a specific term) shall be subject to retirement by rotation at least once every three years. The retiring Directors shall be eligible for re-election at such meeting.

BOARD COMMITTEES

The Respective Responsibilities of the Board and Management and Their Contributions to the Issuer

The Board should assume responsibility for leadership and control of the Company; and is collectively responsible for directing and supervising the Company's affairs.

The Board directly, and indirectly through its committees, leads and provides direction to management by laying down strategies and overseeing their implementation, monitors the Group's operational and financial performance, and ensures that sound internal control and risk management systems are in place.

All Directors, including Independent Non-Executive Directors, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective functioning.

The Independent Non-Executive Directors are responsible for ensuring a high standard of regulatory reporting of the Company and providing a balance in the Board for bringing effective independent judgement on corporate actions and operations.

All Directors have full and timely access to all the information of the Company and may, upon request, seek independent professional advice in appropriate circumstances, at the Company's expenses for discharging their duties to the Company.

The Directors shall disclose to the Company details of other offices held by them.

(IX) Report on Corporate Governance (Continued)

BOARD COMMITTEES (CONTINUED)

The Respective Responsibilities of the Board and Management and Their Contributions to the Issuer (Continued)

The Board reserves for its decision all major matters relating to policy matters, strategies and budgets, internal control and risk management, material transactions (in particular those that may involve conflict of interests), financial information, appointment of directors and other significant operational matters of the Company. Responsibilities relating to implementing decisions of the Board, directing and coordinating the daily operation and management of the Company are delegated to the management.

The Company has arranged appropriate insurance coverage on Directors' and officers' liabilities in respect of any legal actions taken against Directors and senior management arising out of corporate activities. The insurance coverage would be reviewed on an annual basis.

Continuous Professional Development of Directors

Directors shall keep abreast of regulatory developments and changes in order to effectively perform their responsibilities and to ensure that their contribution to the Board remains informed and relevant.

Every newly appointed Director has received formal, comprehensive and tailored induction on the first occasion of his/her appointment to ensure appropriate understanding of the business and operations of the Company and full awareness of Director's responsibilities and obligations under the Listing Rules and relevant statutory requirements. Such induction shall be supplemented by visits to the Company's key plant sites and meetings with senior management of the Company.

All Directors are encouraged to attend relevant training courses to improve their knowledge and skills. Directors should participate in appropriate continuous professional development to develop and refresh their knowledge and skills. The Company also keeps the Directors informed of the latest updates on the amendments to the Listing Rules and the media coverage published on the Stock Exchange.

The Directors confirmed that they have complied with Code Provision C.1.4. During the Reporting Period, all Directors have participated in continuous professional development by means of attending seminars and/or reading materials to develop and refresh their knowledge and skills.

BOARD COMMITTEES (CONTINUED)

Director Nomination Policy

The Board has delegated its responsibilities and authority for selection and appointment of Directors to the Nomination Committee of the Company.

The Company has adopted a Director Nomination Policy which sets out the selection criteria and process and the Board succession planning considerations in relation to nomination and appointment of Directors of the Company and aims to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the Company and the continuity of the Board and appropriate leadership at Board level.

The nomination process set out in the Director Nomination Policy is as follows:

Appointment of New Director

- (i) The Nomination Committee and/or the Board may select candidates for directorship from various channels, including but not limited to internal promotion, re-designation, referral by other member of the management and external recruitment agents.
- (ii) The Nomination Committee and/or the Board should, upon receipt of the proposal on appointment of new Director and the biographical information (or relevant details) of the candidate, evaluate such candidate based on the criteria as set out above to determine whether such candidate is qualified for directorship.
- (iii) If the process yields one or more desirable candidates, the Nomination Committee and/or the Board should rank them by order of preference based on the needs of the Company and reference check of each candidate (where applicable).
- (iv) The Nomination Committee should then recommend to the Board to appoint the appropriate candidate for directorship, as applicable.
- (v) For any person that is nominated by a Shareholder for election as a Director at the general meeting of the Company, the Nomination Committee and/or the Board should evaluate such candidate based on the criteria as set out above to determine whether such candidate is qualified for directorship.

Where appropriate, the Nomination Committee and/or the Board should make recommendation to Shareholders in respect of the proposed election of Director at the general meeting.

(IX) Report on Corporate Governance (Continued)

BOARD COMMITTEES (CONTINUED)

Re-election of Director at General Meeting

- (i) The Nomination Committee and/or the Board should review the overall contribution and service to the Company of the retiring Director and the level of participation and performance on the Board.
- (ii) The Nomination Committee and/or the Board should also review and determine whether the retiring Director continues to meet the criteria as set out above.
- (iii) The Nomination Committee and/or the Board should then make recommendation to Shareholders in respect of the proposed re-election of Director at the general meeting.

Where the Board proposes a resolution to elect or re-elect a candidate as Director at the general meeting, the relevant information of the candidate will be disclosed in the circular to Shareholders and/or explanatory statement accompanying the notice of the relevant general meeting in accordance with the Listing Rules and/or applicable laws and regulations.

The Director Nomination Policy sets out the factors for assessing the suitability and the potential contribution to the Board of a proposed candidate, including but not limited to the following:

- Character and integrity;
- Qualifications including professional qualifications, skills, knowledge and experience that are relevant to the Company's business and corporate strategy;
- Diversity in all aspects, including but not limited to gender, age (18 years or above), cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service;
- Requirements of Independent Non-Executive Directors on the Board and independence of the proposed Independent Non-Executive Directors in accordance with the Listing Rules; and
- Commitment in respect of available time and relevant interest to discharge duties as a member of the Board and/or Board committee(s) of the Company.

During the year ended 31 December 2024, the Nomination Committee recommended to the Board the appointment of a new Executive Director, namely Mr. TENG Yongjun. The appointment was subject to a stringent nomination process in accordance with the Director Nomination Policy and the Board Diversity Policy, to ensure the Board possesses the necessary skills, experience and knowledge in alignment with the Company's strategy.

The Nomination Committee will review the Director Nomination Policy, as appropriate, to ensure its effectiveness.

Board Diversity Policy (Continued)

The Nomination Committee and the Board are of the view that the current composition of the Board has achieved the objectives set in the Board Diversity Policy.

The Nomination Committee oversees the implementation of the Board Diversity Policy, reviews the existing policy as appropriate to ensure its effectiveness, and recommends proposals for revisions for the Board's approval.

Biographical details of existing Directors are set out in “(2) Biography of Directors and senior management” of the “(VIII) Basic Information on Directors, Senior Management and Employees” section of this report. There are currently two female Directors on the Board. The Board currently comprises experts from diversified professions such as accounting, finance, law and management with diversification in terms of gender, age, duration of service, etc. Advancing enhancement of management standard and the further standardisation of corporate governance practices result in a more comprehensive and balanced Board structure and decision-making process. Each Director brings to the Board different views and perspectives. Both the Nomination Committee and the Board believe that the gender, age, educational background, professional experience, skills, knowledge and the duration of service of the Board members are in accordance with the Board Diversity Policy.

Gender Diversity

The Company values gender diversity across all levels of the Group. The following table sets out the gender ratio in the workforce of the Group as at 31 December 2024:

	Female	Male
Board	33.33%	66.67%
Overall workforce (including senior management)	24.16%	75.84%

The Board currently consists of two female members and is of the view that gender diversity is achieved. The Board targets to maintain at least the current level of female representation. The Nomination Policy can ensure that there will be potential successors to the Board which continues gender diversity within the Board.

The Group operates in the manufacturing industry, and due to industry characteristics, the proportion of male employees is relatively high. However, the Group implements the principle of equal employment, respects and treats employees of different genders fairly, and provides equal opportunities for employees in terms of recruitment, training and development, job promotion and salary and benefits. We will continue to strive to improve female representation and to achieve an appropriate balance of gender diversity across the Group, taking into account the expectations of our Shareholders and recommendations from the Group's management.

Corporate Governance Functions

The Audit Committee is responsible for performing the functions set out in the Code Provision A.2.1 of the CG Code.

During the year, the Audit Committee met 7 times to review the Company's corporate governance policies and practices, training and continuous professional development of directors and senior management, the Company's policies and practices on compliance with legal and regulatory requirements, the compliance of the Model Code, and the Company's compliance with the CG Code and disclosure in this Corporate Governance Report.

Independent Non-Executive Directors have attended general meeting to gain and develop a balanced understanding of the view of Shareholders.

RISK MANAGEMENT AND INTERNAL CONTROL SYSTEM ON OPERATIONS

The Board acknowledges its responsibility for the risk management and internal control systems and reviewing their effectiveness. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss. The Board has arranged the Audit Committee to review and supervise relevant matters.

During the Reporting Period, pursuant to the requirements of the Company Laws, the Articles of Association, the requirements of the Stock Exchange and relevant laws and regulations, with an aim to establish a comprehensive corporate governance structure and speed up the transformation of internal management, the Group has continuously endeavoured to amend and improve various systems, thereby it has established a comparatively sound internal control system. During the Reporting Period, the internal audit department of the Group proceeded with supervision and examination on the implementation of the risk management and internal control system, and ensured the effective implementation of the internal control system and the continued improvement of the risk management standard and operation quality through regular or irregular special auditing on the operating activities of the Group. Details are as follows:

- (1) Production management: The Group maintained a product planning, implementation and monitoring system. After discussion and review, the Group issues annual and monthly production plans on a unified basis. In accordance with statistical data generated by the MES system, the Production Management Department of the Group carries out daily reporting and monthly analysis. The Production Management Department is also responsible for providing technical guidance services to ensure smooth implementation of the production plan.

RISK MANAGEMENT AND INTERNAL CONTROL SYSTEM ON OPERATIONS (CONTINUED)

- (2) Equipment management: The Group has established an equipment examination and process overhaul system. The overhaul of equipment of subsidiaries is carried out by themselves after approval, and acceptance is also implemented by themselves. The Production Management Department of the Group collaborates with various operational areas to remotely monitor data on the operation of equipment to prevent equipment breakdown and accident.
- (3) Quality control: The Group enforces national quality standards and implements comprehensive quality control. The Laboratory of the Development and Technology Department is responsible for quality random inspection and new product research and development of the subsidiaries.
- (4) Financial management: The Group maintains a budgetary system, formulates a set of unified financial management procedures and supervises the financial manager appointment procedures to ensure their independence. It also implements a centralized funding management system. All financing activities are approved by the Group's headquarters and financing sources are arranged on unified channels. The Group implements a strict funding approval procedure. The Group's Treasury Department supervises the use of fund through the funding settlement centre to prevent funding risks.
- (5) Material procurement management: The Group has established a set of material procurement procedures to implement unified bidding procedures and to make purchases by comparing quality and prices for coal, spare parts, supplies and equipment. The Group has also established a supplier management system to strengthen the management of suppliers through regular and irregular assessments to achieve the elimination of the best and the worst. In addition, the Group and its subsidiaries control material procurement risks by monitoring quality, price, inventory and payment through the "one vehicle one inspection, one vehicle one settlement" system for raw materials, and the intelligent storage management system for spare parts.
- (6) Sales management: The Group implements unified policies for regional market development, pricing and product sales, and has been carrying out a "cash before delivery" selling a policy to non-major ordinary customers. The Marketing Centre of the Group monitors invoicing, goods delivery and pricing of its subsidiaries through the intelligent sales system, and collects market information and customer feedbacks to improve the product quality and sales service.
- (7) Project investment management: The Group formulates medium-to-long-term development strategic plans and submits results for approval by the Board before implementation. For construction projects, the Engineer Department at the Group's headquarters carries out project design. The Strategic Department conducts project review, organises project plan demonstration, organises budget review and project supervision; the Procurement Management Department organises a full range of tenders for project design, construction and equipment; the operational areas organises project construction management and production debugging; and the Audit Department performs engineering process audits and final accounts audits.
- (8) Human resources management: The Group maintains policies and procedures for labour contract management, employment, work and rest, performance appraisal, rewards and punishment, and has developed staffing and wage standards on a unified basis for its subsidiaries. The Human Resources Department of the Group has implemented supervision to control employment risks, which is managed by the operational areas and executed by the subordinate companies. The Group implements a unified talent development plan.

RISK MANAGEMENT AND INTERNAL CONTROL SYSTEM ON OPERATIONS (CONTINUED)

The management has reported to the Board and the Audit Committee on the effectiveness of the risk management and internal control systems for the Reporting Period.

The Board, as supported by the Audit Committee as well as the management report, reviewed the risk management and internal control systems annually, including the financial, operational and compliance controls, for the Reporting Period, and believed that such systems are effective and adequate. The Group will continue to improve the establishment and implementation of the risk management and internal control system by reference to the guidelines of the listed companies issued by the Stock Exchange.

The Company has established an Anti-Corruption policy and the Whistleblowing Policy with mechanisms to prevent, detect, report and investigate fraud, bribery or other misconduct. In accordance with the Whistleblower Policy, employees of the Company and those who deal with the Company are able to report any concerns, suspected malpractice and misconduct or irregularity related to the Company directly and anonymously to the Audit Committee about possible improprieties in any matters related to the Company.

The Company will continue to disseminate anti-corruption issues to employees and remind them of relevant precautions to enhance their awareness of anti-corruption and create a culture of integrity.

INSIDE INFORMATION

The Board is responsible for the handling and dissemination of inside information. In order to ensure that the market and Shareholders are fully and promptly informed about the material developments of the Company's business, the Board has adopted the Inside Information Disclosure Policy regarding the procedures of proper information disclosure. The release of inside information is subject to the approval of the Board. Unless official authorization is obtained, all staff members of the Company shall not disclose the inside information to any external parties and shall not respond to market speculation and rumors. In addition, all external presentation materials or publications must be pre-vetted before release.

Shareholders' Communication Policy

The Company has in place a Shareholders' Communication Policy. The policy aims at promoting effective communication with Shareholders and other stakeholders, encouraging Shareholders to engage actively with the Company and enabling Shareholders to exercise their rights as Shareholders effectively. During 2024, the Board reviewed the implementation and effectiveness of the Shareholders' Communication Policy. Having considered the multiple channels of communication and engagement in place, the Board consider that the results were satisfactory.

The Company has established a number of channels for maintaining an on-going dialogue with its Shareholders as follows:

(a) Corporate Communication

"Corporate Communication" as defined under the Listing Rules refers to any document issued or to be issued by the Company for the information or action of holders of any of its securities, including but not limited to the following documents of the Company: (a) the Directors' report, annual accounts together with a copy of the auditor's report and, where applicable, its summary financial report; (b) the interim report and, where applicable, its summary interim report; (c) a notice of meeting; (d) a listing document; (e) a circular; and (f) a proxy form.

The Corporate Communication of the Company will be published on the Stock Exchange's website (www.hkex.com.hk) in a timely manner as required by the Listing Rules. Corporate Communication will be provided to Shareholders and non-registered holders of the Company's securities in both English and Chinese versions or where permitted, in a single language, in a timely manner as required by the Listing Rules. Shareholders and non-registered holders of the Company's securities shall have the right to choose the language (either English or Chinese) or means of receipt of the Corporate Communication (in printed form or through electronic means).

(b) Announcements and Other Documents Pursuant to the Listing Rules

The Company shall publish announcements (on inside information, corporate actions and transactions etc.) and other documents (e.g. Articles of Association) on the Stock Exchange's website in a timely manner in accordance with the Listing Rules.

(c) Corporate Website

Any information or documents of the Company posted on the Stock Exchange's website will also be published on the Company's website (<http://www.sdsunnsygroup.com>). Other corporate information about the Company's business developments, goals and strategies, corporate governance and risk management will also be available on the Company's website.

Shareholders' Communication Policy (Continued)

(d) Shareholders' Meetings

The annual general meeting and other general meetings of the Company are primary forum for communication between the Company and its Shareholders. The Company shall provide Shareholders with relevant information on the resolutions(s) proposed at a general meeting in a timely manner in accordance with the Listing Rules. The information provided shall be reasonably necessary to enable Shareholders to make an informed decision on the proposed resolution(s). Shareholders are encouraged to participate in general meetings or to appoint proxies to attend and vote at the meetings for and on their behalf if they are unable to attend the meetings. Where appropriate or required, the Chairman of the Board and other Board members, the chairmen of board committees or their delegates, and the external auditors should attend general meetings of the Company to answer Shareholders' questions (if any). The chairman of the independent board committee (if any) should also be available to answer questions at any general meeting to approve a connected transaction or any other transaction that is subject to independent Shareholders' approval.

(e) Shareholders' Enquiries

Enquiries about Shareholdings

Shareholders should direct their enquiries about their shareholdings to the Company's share registrar, Computershare Hong Kong Investor Services Limited, via its online holding equity service at www.computershare.com/hk/contact, or call its hotline at (852) 2862 8555, or go in person to its public counter at 17M Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong.

Enquiries about Corporate Governance or Other Matters to be put to the Board and the Company

The Company will not normally deal with verbal or anonymous enquiries. Shareholders may send any enquiries to the Board by post to Room 1912, 19/F, Lee Garden One, 33 Hysan Avenue, Causeway Bay, Hong Kong.

Amendments to Constitutional Documents

During the year under review, the Company has made changes to its Articles of Association. Details of the amendments are set out in the circular dated 30 April 2024 to the Shareholders. An up to date version of the Company's Articles of Association is also available on the Company's website and the Stock Exchange's website.

Dividend Policy

The Company has adopted a Dividend Policy on payment of dividends. The Board is required to take into account various factors the Board may deem relevant, including but not limited to the Group's actual and expected financial performance, working capital requirements, capital expenditure requirements and commitments, development strategies and plans, overall economic situation, liquidity position, and any restrictions on the declaration and/or payment of dividends. Dividends may be proposed and/or declared by the Board during a financial year and any final dividend for a financial year will be subject to the Shareholders' approval.

(X) Major Events

1. MATERIAL LITIGATION IN THE CAYMAN ISLANDS

Cause Nos.: FSD 161 of 2018 and FSD 93 of 2019

The Company is facing a winding-up petition (the “**Cayman Petition**”) before the Grand Court of the Cayman Islands (the “**Grand Court**”). The Cayman Petition was filed by one of the shareholders of the Company, Tianrui. The Company has appointed legal counsel in relation to the Cayman Petition.

The Company was served on 4 June 2019 with a Writ of Summons issued on 27 May 2019 in the Grand Court (the “**Writ**”). The Writ was also issued by Tianrui, seeking (i) orders setting aside the Company’s issue of certain convertible bonds, issued on or about 8 August 2018 and 3 September 2018, the subsequent conversion of the bonds on 30 October 2018 and/or the allotment of the Company’s shares to the holders of such convertible bonds; and/or (ii) declarations setting aside the issue and subsequent conversion of the bonds. The orders sought by way of the Writ have since been amended (see below). The Company considers that there is no reasonable basis for the orders and/or declarations sought and will vigorously defend itself against the Writ and Tianrui’s claim.

On 1 July 2022, the Cayman Islands Court of Appeal delivered its judgment ordering that the Writ be struck out as defective. The Certificate of the Order of the Court of Appeal was issued on 14 September 2022. However, the Court of Appeal did leave it open to Tianrui to reconstitute the Writ as a derivative claim.

On 11 October 2022, the Court of Appeal granted Tianrui leave to appeal to the Privy Council against its decision. On 23 December 2022, Tianrui filed a notice of appeal to the Privy Council against the decision of the Court of Appeal. Tianrui’s appeal is still pending and has not yet been heard.

On 17 December 2020, the Grand Court heard a court summons for directions (“**Summons**”) taken out by Tianrui on 26 August 2020 in connection with the Cayman Petition. At the hearing of the Summons, Tianrui sought leave to re-amend the Cayman Petition, notably in order to join China National Building Materials Company Limited (“**CNBM**”) and Asia Cement Corporation (“**ACC**”) as respondents to the Cayman Petition. CNBM and ACC are currently shareholders of the Company.

In its judgment dated 27 January 2021, the Grand Court ordered that CNBM and ACC be joined as respondents to the Cayman Petition, and that the Cayman Petition be served on CNBM and ACC.

On 19 March 2021, the Cayman Petition was served on CNBM and ACC. Thereafter, at a further hearing of the Summons on 16 July 2021, the Grand Court ordered that the Cayman Petition be treated as an inter-party proceeding between Tianrui, CNBM and ACC, save that the Company may also participate for the purpose of discovery and to be heard regarding the appropriate remedy should the Cayman Petition be granted. At the hearing, Tianrui conceded that the only relief it was seeking in the winding-up proceedings was the liquidation of the Company and was ordered to amend its Cayman Petition accordingly. The Grand Court also granted leave to Tianrui to amend the Writ to confine the relief it is seeking to declarations that (i) the exercise by the Company’s directors of the power to issue certain convertible bonds on or about 8 August 2018 and/or on about 3 September 2018 was not a valid exercise of the said power; (ii) the exercise by the directors on 30 October 2018 of the power to convert the aforesaid bonds and the power to issue new shares was not a valid exercise of the said powers; and (iii) the exercise by the directors of the power to issue all other shares and securities in the Company after 1 August 2018 was not a valid exercise of the said power.

1. MATERIAL LITIGATION IN THE CAYMAN ISLANDS (CONTINUED)

Cause Nos.: FSD 161 of 2018 and FSD 93 of 2019 (Continued)

The hearing took place on 23 May 2022 following which the Grand Court settled the list of issues between the parties to the Cayman Petition for the purposes of discovery. Parties attended a case management hearing on 22 November 2022 and made further written submissions on 3 February 2023 to settle outstanding issues in relation to discovery. The Grand Court delivered rulings on 17 October 2023 and 26 October 2023, and a judgment dated 30 October 2023, regarding the scope of discovery. The Grand Court also made an order dated 7 February 2022 containing directions for discovery, and an order dated 9 April 2024 in respect of the search parameters for discovery and costs of discovery.

On 28 November 2022, the Company applied for a validation order to make payment of the final dividend as resolved at the Annual General Meeting of the Company held on 27 May 2022, and a variation of a prior validation order dated 11 October 2018. Tianrui and the Company attended a hearing before the Grand Court on 24 February 2023 in respect of this application. Subsequent to the hearing before the Grand Court on 24 February 2023, the Grand Court thoroughly considered factors such as the equal treatment of the Shareholders, the Listing Rules, and the desire not to complicate the course of any hypothetical winding up. The Grand Court handed down its judgment on the Validation Application and dismissed the Validation Application on 31 March 2023. As a result of the judgment, the final dividend for the year ended 31 December 2021 will not be payable to the Shareholders. On 26 February 2025, the Grand Court delivered its ruling on the costs of the Validation Application.

For further details, please refer to the announcements published by the Company on 4 September 2018, 20 September 2018, 12 October 2018, 16 October 2018, 23 October 2018, 29 October 2018, 14 November 2018, 13 December 2018, 18 January 2019, 22 January 2019, 15 February 2019, 21 March 2019, 1 April 2019, 17 April 2019, 5 June 2019, 17 September 2019, 19 February 2020, 7 April 2020, 24 March 2021, 21 March 2022, 5 August 2022, 27 February 2023, 15 March 2023, 3 April 2023 and 15 November 2024.

2. MATERIAL LITIGATION IN HONG KONG

HCA 2880 of 2015 and CACV 91 of 2020

On 4 December 2015, a Writ of Summons (the “**Writ**”) was issued by the Company against former Directors of the Company, namely ZHANG Cai Kui and ZHANG Bin (together, the “**Zhangs**”) and LI Cheung Hung. On 17 December 2015, China Shanshui (HK) and Pioneer Cement were added as Plaintiffs and an additional of 5 former Directors, namely CHANG Zhangli, WU Ling-ling (also known as Doris WU), LEE Kuan-chun (also known as Champion LEE), ZENG Xuemin and SHEN Bing were added as Defendants in the Writ.

2. MATERIAL LITIGATION IN HONG KONG (CONTINUED)

HCA 2880 of 2015 and CACV 91 of 2020 (Continued)

The Plaintiffs claimed against the Defendant Directors for (inter alia) (1) various injunctive relief, including restraining them from acting on the allegedly unlawfully altered articles of association of Shandong Shanshui, an order for identifying the current whereabouts of or return the books, records, accounts or computer data or other documents etc. of the Group, and (2) damages and/or equitable compensation as a result of the alleged misconduct of the former Directors.

On 24 December 2015, the Company obtained interlocutory injunction orders (the “**December Injunction Orders**”) against ZHANG Caikui, ZHANG Bin, LI Cheung Hung, CHANG Zhangli and WU Ling-ling compelling them to (inter alia) disclose and deliver the Group’s Records to the Company. On 8 January 2016, the December Injunction Orders (as varied) continued and the Company obtained further interlocutory injunction orders (the “**January Injunction Orders**”) against the Zhangs to (inter alia) restrain them from acting upon or exercising any power or entitlement pursuant to the unlawfully altered articles of association of Shandong Shanshui and execute amendments to the said unlawfully altered articles of association of Shandong Shanshui, to invalidate or reverse the unlawful amendments. The January Injunction Orders remain in effect as of today.

On 7 April 2016, CNBM and ACC were joined as the Defendants to the Action, on the basis of a claim of conspiracy.

The Company also on 4 November 2016 obtained a worldwide injunction against the Zhangs (the “**Worldwide Mareva Injunction**”) and issued a Summons on 7 November 2016 (the “**Plaintiffs’ Summons**”).

On 18 November 2016, the Worldwide Mareva Injunction was varied and directions were given by the High Court to the parties to file affidavit evidence for the disposal of the Plaintiffs’ Summons. After the substantive hearing on 7 June 2017, the High Court discharged the Worldwide Mareva Injunction and granted a fresh domestic Mareva injunction order against the Zhangs on terms substantially the same as the Worldwide Mareva Injunction (the “**Domestic Mareva Injunction**”).

On 29 May 2017, Shandong Shanshui was joined as the 4th Plaintiff to the Action to introduce a derivative claim against the Zhangs and LI Cheung Hung and further amendments were made to the Amended Statement of Claim.

Following the amendments to the Amended Statement of Claim, the parties filed a second round of pleadings (Re-Amended Defence or Amended Defence followed by the Amended Reply) except for the Zhangs (who only filed the acknowledgment of service indicating an intention to defend on 13 June 2017 and their defence on 18 September 2017).

All parties filed and exchanged their List of Documents and the Company has filed a supplemental list of documents on 29 September 2017. The parties have also exchanged witness statements.

2. MATERIAL LITIGATION IN HONG KONG (CONTINUED)

HCA 2880 of 2015 and CACV 91 of 2020 (Continued)

The first case management conference took place on 19 April 2018 and all of the parties agreed for the action to be referred to a Listing Judge for the assignment of a Trial Judge. On 15 April 2019, the parties sent a joint letter to the Listing Officer, Civil to formally apply to have the action assigned to a Trial Judge. On 18 April 2019, the Honourable Mr. Justice Coleman of the Court of First Instance of the High Court was assigned as the Trial Judge of the action.

At the subsequent case management conference held on 17 July 2019, leave was granted to the parties to set down the action for trial before the Honourable Mr. Justice Coleman of the Court of First Instance of the High Court with 41 days reserved on 19 to 23 April 2021, 26 to 30 April 2021, 3 to 7 May 2021, 10 to 14 May 2021, 17 and 18 May 2021, 24 to 28 May 2021, 31 May 2021, 1 to 4 June 2021, 7 to 11 June 2021 and 15 to 18 June 2021. A further case management conference was held on 5 May 2020.

On 11 March 2020, an order was made by the court to (inter alia) strike out certain paragraphs in the Company's pleadings as against the Zhangs in relation to the Company's claim concerning Qilu Property Co. Ltd. and to reduce the restrained sum of the Domestic Mareva Injunction to HK\$24 million. On 8 April 2020, the Company lodged an appeal against the order to the Court of Appeal under CACV 91/2020. No hearing date has been fixed for the hearing of the appeal.

On 11 June 2020, leave was granted by the court to (inter alia) the parties to adduce expert evidence on various questions of Mainland Chinese law, and to the Zhangs to amend their Defence and to the Company to amend its Reply to the Amended Defence of the Zhangs. The Zhangs filed the Amended Defence on 12 June 2020 and their Expert Report on Mainland Chinese law on 30 July 2020. The Company filed its Amended Reply to the Amended Defence of the Zhangs on 3 September 2020.

On 11 January 2021, an order was made by the court that (inter alia) leave be granted to the Company to amend the Re-Amended Statement of Claim and the restrained sum of the Domestic Mareva Injunction be increased from HK\$24 million to HK\$130 million. The Re-Re-Amended Statement of Claim was filed by the Company on 20 January 2021. The Zhangs filed their Re-Amended Defence on 4 March 2020. The Company filed its Re-Amended Reply to the Re-Amended Defence of the Zhangs on 1 April 2021.

The 1st Pre-Trial Review was held on 11 November 2020 before the Honourable Mr. Justice Coleman of the Court of First Instance of the High Court.

2. MATERIAL LITIGATION IN HONG KONG (CONTINUED)

HCA 2880 of 2015 and CACV 91 of 2020 (Continued)

The 2nd Pre-Trial Review was held on 25 February 2021 before the Honourable Mr. Justice Coleman of the Court of First Instance of the High Court. In the 2nd Pre-Trial Review, an order was made by the court that (inter alia) two further days (namely 20 and 21 May 2021) be reserved for the trial.

On 14 April 2021, an Order was made by the court that leave be granted to the Zhangs to amend its Re-Amended Defence. The Zhangs filed their Re-Re-Amended Defence on 15 April 2021.

There are currently two main outstanding interlocutory applications in this action:

- (1) The Company has issued a Summons on 27 March 2018 to (inter alia) appoint receivership over the 1st Defendant's shares in China Shanshui Investment Company (the "**Receivership Summons**"). Pursuant to the Order of Deputy High Court Judge Keith Yeung SC dated 3 May 2018, the hearing of the Receivership Summons is adjourned to a date to be fixed. No hearing date has been fixed yet.
- (2) The Company has, pursuant to the Order of the Honourable Madam Justice Au-Yeung dated 13 July 2018, issued a Summons on 20 July 2018 for the continuation of the December Injunction Orders and the January Injunction Orders against the 2nd Defendant (the "**Continuation Summons**"). The Company filed their affirmation in support in October 2018 and the 2nd Defendant has yet to file his affirmation in opposition. The hearing of the Continuation Summons is adjourned to a date to be fixed with one day reserved. No hearing date has been fixed yet.

The trial took place on 19 to 23 and 26 to 30 April 2021, 3 to 4, 6 to 7, 10 to 14, 17 to 18, 21, 24 to 26, 28 and 31 May 2021, 1 to 4, 7 and 15 to 17 June 2021 before the Honourable Mr. Justice Coleman of the Court of First Instance of the High Court. The judgment has yet to be handed down.

2. MATERIAL LITIGATION IN HONG KONG (CONTINUED)

HCA 548 of 2019

On 29 March 2019, the Company announced that the Company together with its subsidiaries, China Shanshui Cement Group (Hong Kong) Company Limited, China Pioneer Cement (Hong Kong) Company Limited, and Shandong Shanshui Cement Group Company Limited (collectively, the **"Plaintiffs"**) had commenced an action in the High Court of Hong Kong (the **"Hong Kong Court"**), against Tianrui (International) Holding Company Limited, Tianrui Group Company Limited, Stephen LIU Yiu Keung, David YEN Ching Wai, Godwin HWA Guo Wai, CHONG Cha Hwa, LI Heping, LI Liufa, CHEUNG Yuk Ming, NG Qing Hai, LI Zhi Qiang, HO Man Kay, Angela, LAW Pui Cheung, WONG Chi Keung, CHING Siu Ming, LO Chung Hing, TSANG Wing Tai and Ernst & Young Transactions Limited (collectively, the **"Defendants"**) in connection with:

- (a) alleged unlawful means conspiracy, by acting in combination and in concert with one another with respect to breaches of fiduciary and other duties, dishonest assistance and/or criminal intimidation and violence, from around 2015 to 2018, with the intention of injuring the Plaintiffs in order to acquire control of the Plaintiffs, and illegitimately maximise economic benefit therefrom for the benefit of the Defendants and at the expense of the Plaintiffs; and
- (b) various breaches of duties by the Defendants who are former directors and/or officers of the Company.

On 14 August 2019, three of the Defendants (Tianrui, Tianrui Group and LI Liufa) filed an application with the Hong Kong Court to (i) set aside the service of the Writ of Summons on Tianrui, and/or (ii) stay this proceeding pending the determination of the winding-up petition issued by Tianrui against the Company in the Cayman Islands in FSD161/2018. This application was dismissed by the Hong Kong Court on 7 December 2020.

For further details, please refer to the announcements published by the Company on 29 March 2019 and 4 September 2020.

HCA 1013 of 2023

On 18 July 2023, the Company announced that the Company and its subsidiaries, namely China Shanshui Cement Group (Hong Kong) Company Limited (**"CSC HK"**) and China Pioneer Cement (Hong Kong) Company Limited (**"Pioneer"**), were served with a writ of summons dated 28 June 2023 under the action number HCA 1013 of 2023 (the **"Writ of Summons"**) issued by Tianrui Group Company Limited (**"Tianrui Group"**) in the Court of First Instance of the High Court of the Hong Kong Special Administrative Region. Subsequently, the Writ of Summons was also served on Shandong Shanshui Cement Group Company Limited (**"Shandong Shanshui"**), another wholly-owned subsidiary of the Company.

2. MATERIAL LITIGATION IN HONG KONG (CONTINUED)

HCA 1013 of 2023 (Continued)

In the Writ of Summons, Tianrui Group alleges that it extended loans to the Company, CSC HK, Pioneer and Shandong Shanshui (collectively, “**CSC Group**”) with the alleged outstanding amount (the “**Alleged Loans**”) as described in the announcement published by the Company on 18 July 2023, and claims for repayment of the Alleged Loans.

In its Defence and Counterclaim filed on 3 January 2024, CSC Group denies on substantial grounds that Tianrui Group is entitled to claim for repayment of the Alleged Loans, and counterclaims against Tianrui Group for (and is therefore in any event entitled to set off the Alleged Loans against) damages and/or equitable compensation as a result of the unlawful means conspiracy committed by Tianrui Group and other parties with the intention of injuring CSC Group and its subsidiaries during the period from 2015 to 2018. CSC Group’s counterclaim in this action is substantially based on its claim against Tianrui Group and other parties in HCA 548 of 2019. Accordingly, CSC Group has made an application to the Court on 25 April 2024 for consolidation of this action with HCA 548 of 2019, and/or for the two actions to be heard together and/or one after the other before the same judge (the “**Hearing Together Summons**”). All parties in HCA 548 of 2019 are neutral to the Hearing Together Summons, except Tianrui Group, Tianrui (International) Holding Company Limited, Li Liufa and Ho Man Kay, Angela.

Meanwhile, on 28 February 2024, Tianrui Group also made an application to the Court to strike out CSC Group’s counterclaim in this action allegedly, inter alia, on the ground that CSC Group’s counterclaim in this action and its claim in HCA 548/2019 are duplicated (the “**Strike-Out Summons**”). CSC Group considers that the application is baseless, and will contest strenuously. The substantive hearing of the Hearing Together Summons and the Strike-Out Summons is fixed to be heard together on 30 April 2025.

3. PUBLIC FLOAT

Based on the information that is publicly available to the Company and to the knowledge of the Directors, the Company has maintained a sufficient public float as required under the Listing Rules at the date of this report.

To the shareholders of China Shanshui Cement Group Limited

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of China Shanshui Cement Group Limited (the “**Company**”) and its subsidiaries (collectively referred to as “the Group”) set out on pages 106 to 247, which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2024, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards (“**IFRSs**”) as issued by the International Accounting Standards Board (“**IASB**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”). Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements” section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (“**the Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

MATERIAL UNCERTAINTIES RELATED TO GOING CONCERN

We draw attention to note 3 to the consolidated financial statements, which highlights that the Group had loss for the year of approximately RMB189,041,000 and net current liabilities of approximately RMB1,203,025,000 as at 31 December 2024. As at 31 December 2024, the Group’s total interest-bearing bank loans amounted to RMB5,365,460,000, out of which RMB3,797,750,000 were due within twelve months from the end of the Reporting Period. In addition, there is a winding-up petition against the Company, details of which are disclosed in note 36(b), which is pending resolution.

These conditions, along with other matters as set forth in note 3 to the consolidated financial statements, indicate the existence of material uncertainty which may cast significant doubt over the Group’s ability to continue as a going concern. Our opinion is not modified in respect of these matters.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in "Material Uncertainties Related to Going Concern" section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How the matter was addressed in our audit
Impairment assessment on property, plant and equipment, right-of-use assets, intangible assets and goodwill	
<p>We identified the impairment assessment on property, plant and equipment, right-of-use assets, intangible assets and goodwill as a key audit matter due to the involvement of significant judgements and assumptions in estimating the recoverable amounts of the cash-generating units ("CGUs") to which property, plant and equipment, right-of-use assets, intangible assets and goodwill have been allocated.</p> <p>With reference to the financial performance of certain CGUs, the management considered that indications of impairment of certain property, plant and equipment, right-of-use assets, intangible assets and goodwill of the Group belonging to these CGUs existed as at 31 December 2024. Accordingly, the management assessed whether there was any impairment of the property, plant and equipment, right-of-use assets, intangible assets and goodwill belonging to these CGUs, as well as all CGUs containing goodwill, at 31 December 2024 by preparing value-in-use calculations. The value-in-use calculations require the Group to estimate the future cash flows expected to arise from the CGUs and suitable discount rates in order to calculate the present value.</p> <p>The carrying amounts of property, plant and equipment, right-of-use assets, intangible assets and goodwill after recognising impairment losses based on the impairment assessment as at 31 December 2024 performed by management were RMB16,373,192,000, RMB2,228,055,000, RMB1,992,921,000 and RMB14,224,000, respectively, as disclosed in notes 14, 15, 16 and 17 respectively, to the consolidated financial statements.</p>	<p>Our procedures in relation to the impairment assessment on property, plant and equipment, right-of-use assets, intangible assets and goodwill included:</p> <ul style="list-style-type: none"> • We obtained an understanding of the management's process and basis adopted in preparing the cash flow forecasts in respect of the CGUs, including significant assumptions; • We evaluated the competence, capabilities, and objectivity of the external valuers and obtained an understanding of the work of these management's experts; • We challenged the key assumptions adopted by the management in the valuation models, including revenue growth rates, gross margins, operating expenses and capital expenditures in the cash flow projection period, by referring to the industry information and the management's budgets; • We assessed the key factors in determining the discount rates, including the debt and equity ratios, returns on investments and other risk factors of the CGUs, and comparing to discount rates adopted in the cement industry for reasonableness; • We compared the expected changes in projected sales volume, selling prices and direct costs used in the cash flow projection period against historical performance and discussed with the management on revenue growth strategies and cost initiatives in respect of the CGUs; and • We evaluated the sensitivity analysis performed by the management's experts in respect of the growth rates and discount rates to assess the extent of impact on the calculations of the value in use.

KEY AUDIT MATTERS (CONTINUED)

Key audit matter	How the matter was addressed in our audit
Assessment of loss allowance for expected credit losses on trade receivables and other receivables	
<p>We identified the assessment of loss allowance for expected credit losses on trade receivables and other receivables as a key audit matter as the assessment of expected credit losses involved high level of estimation uncertainty and required exercise of significant management judgement.</p> <p>The carrying amounts of trade receivables and other receivables for which the management has performed assessment of loss allowance for expected credit losses as at 31 December 2024 are RMB1,156,054,000 and RMB498,100,000 respectively as disclosed in note 34(b)(i) to the consolidated financial statements. Net reversal of impairment losses on trade receivables of approximately RMB10,876,000 and net impairment loss on other receivables of RMB17,083,000 were recognised during the year.</p>	<p>Our procedures to evaluate the assessment of loss allowance for expected credit losses on trade receivables and other receivables included:</p> <ul style="list-style-type: none"> • We obtained an understanding of the management's process for credit risk assessment and impairment assessment of allowance for expected credit losses on trade receivables and other receivables; • We evaluated the competence, capabilities, and objectivity of the external valuer and obtained an understanding of the work of the management's experts; • We tested, on a sample basis, the accuracy of aging of trade receivables balances based on invoice date and due date as at the end of the reporting period to the underlying invoices; and • We assessed the reasonableness of the Group's expected credit losses models for trade receivables and other receivables, including the model inputs, model design, model performance for significant portfolios.

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards as issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditor's Report (Continued)

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the Group audit. We remain solely responsible for our audit opinion.

Independent Auditor's Report (Continued)

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2024

1. GENERAL INFORMATION

China Shanshui Cement Group Limited (the “**Company**”) is a public limited company incorporated in Cayman Islands and its shares are listed on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”). The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information section to the annual report.

The Company’s functional currency is the United States dollar (“**USD**” or “**US\$**”). However, the presentation currency of the consolidated financial statements is the RMB in order to present the financial performance and financial position of the Group based on the economic environment in which the operating subsidiaries of the Group operate.

The Company is an investment holding company. The principal activities of its subsidiaries and associates are set out in notes 40 and 19, respectively.

2. APPLICATION OF NEW AND AMENDMENTS TO IFRS ACCOUNTING STANDARDS (“**IFRSs**”) AND CHANGES IN OTHER ACCOUNTING POLICIES

Amendments to IFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to IFRSs issued by International Accounting Standards Board (“**IASB**”) for the first time, which are mandatorily effective for the annual period beginning on or after 1 January 2024 for the preparation of the consolidated financial statements:

Amendments to IFRS 16	Lease liability in a Sale and Leaseback
Amendments to IAS 1	Classification of Liabilities as Current or Non-current
Amendments to IAS 1	Non-current Liabilities with Covenants
Amendments to IAS 7 and IFRS 7	Supplier Finance Arrangements

Except as described below, the application of the amendments to IFRSs in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

2. APPLICATION OF NEW AND AMENDMENTS TO IFRS ACCOUNTING STANDARDS (“IFRSs”) AND CHANGES IN OTHER ACCOUNTING POLICIES (CONTINUED)

2.1 Impacts on application of Amendments to IAS 7 and IFRS 7 “Supplier Finance Arrangements”

The Group has applied the amendments for the first time in the current year.

The amendments add a disclosure objective to IAS 7 “Statement of Cash Flows” stating that an entity is required to disclose information about its supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity’s liabilities and cash flows.

In addition, IFRS 7 “Financial Instruments: Disclosures” was amended to add supplier finance arrangements as an example within the requirements to disclose information about an entity’s exposure to concentration of liquidity risk.

In accordance with the transition provision, the entity is not required to disclose comparative information for any reporting periods presented before the beginning of the annual reporting period in the first year of application as well as the information required by IAS 7.44(b)(ii) and (b)(iii) as at the beginning of the annual reporting period in which the entity first applies those amendments.

The Group has provided additional disclosures related to the amendments in notes 24, 34(b)(ii) and 37(b).

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

2. APPLICATION OF NEW AND AMENDMENTS TO IFRS ACCOUNTING STANDARDS (“IFRSs”) AND CHANGES IN OTHER ACCOUNTING POLICIES (CONTINUED)

New and amendments to IFRSs in issue but not yet effective

The Group has not early applied the following new and amendments to IFRSs that have been issued but are not yet effective:

Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments ³
Amendments to IFRS 9 and IFRS 7	Contracts Referencing Nature-dependent Electricity ³
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ¹
Amendments to IFRS Accounting Standards	Annual Improvements to IFRS Accounting Standards — Volume1 ¹³
Amendments to IAS 21	Lack of Exchangeability ²
IFRS 18	Presentation and Disclosure in Financial Statements ⁴

¹ Effective for annual periods beginning on or after a date to be determined.

² Effective for annual periods beginning on or after 1 January 2025.

³ Effective for annual periods beginning on or 1 January 2026.

⁴ Effective for annual periods beginning on or 1 January 2027.

Except as described below, the directors of the Company anticipate that the application of the new and amendments to IFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

IFRS 18 “Presentation and Disclosure in Financial Statements”

IFRS 18 “Presentation and Disclosure in Financial Statements”, which sets out requirements on presentation and disclosures in financial statements, will replace IAS 1 “Presentation of Financial Statements”. This new IFRS Accounting Standard, while carrying forward many of the requirements in IAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some IAS 1 paragraphs have been moved to IAS 8 and IFRS 7. Minor amendments to IAS 7 “Statement of Cash Flows” and IAS 33 “Earnings per Share” are also made.

IFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. The application of the new standard is expected to affect the presentation of the consolidated statement of profit or loss and disclosures in the future consolidated financial statements. The Group is in the process of assessing the detailed impact of IFRS 18 on the Group’s consolidated financial statements.

3. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements have been prepared in accordance with IFRSs, the collective terms of which include all applicable individual IFRSs and Interpretations issued by the IASB. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules**”) and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values, as explained in the material accounting policy information set out as per note 4.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The material accounting policy information is set out as per note 4.

3.1 Going concern basis

The Group reported a net loss of RMB189,041,000 for the year ended 31 December 2024 and as at that date, the Group had net current liabilities of RMB1,203,025,000. As at the same date, the Group had total interest-bearing bank loans amounting to RMB5,365,460,000, out of which RMB3,797,750,000 are due within twelve months from the end of the reporting period. In addition, there is a winding-up petition against the Company, details of which are disclosed in note 36(b), which is pending resolution.

The above conditions indicate the existence of material uncertainties which may cast significant doubt about the Group's ability to continue as a going concern.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

3. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3.1 Going concern basis (Continued)

The consolidated financial statements have been prepared on the assumptions that the Group will continue to operate as a going concern notwithstanding the conditions prevailing as at 31 December 2024 and subsequently thereto up to the date when the consolidated financial statements are authorised for issue. In order to mitigate the liquidity pressure, to improve its financial position, and to sustain the Group as a going concern, certain plans and measures have been and will be taken by the Group which include, but are not limited to, the following:

- i. For borrowings of the Group, the management will actively negotiate with the banks before they fall due to secure their renewals. The directors do not expect to experience significant difficulties in renewing most of these bank borrowings upon their maturities and there is no indication that these bank lenders will not renew the existing bank borrowings upon the Group's request. The directors have evaluated the relevant facts and circumstances available to them and are of the opinion that the Group would be able to renew such borrowings upon maturity. Historically, the Group successfully renewed bank borrowings upon maturities amounting to approximately RMB2,965,750,000 during the year.
- ii. The Group is implementing cost control measures in costs of sales and administrative expenses and other comprehensive policies so as to increase net operating cash inflows in coming years; and
- iii. The Group has appointed external lawyers and/or assigned internal lawyers to handle the outstanding litigations, and to mitigate the risk exposure from any legal claims. In respect of some of the litigations, the directors of the Company are of the opinion that the Group has valid grounds to defend against the claims.

The directors of the Company have carried out a detailed review of the Group's cash flow projections prepared by management. The cash flow projections cover a period of not less than twelve months from the end of the Reporting Period. On the basis of the successful implementation of the plans and measures described above in the foreseeable future, borrowings of the Group will be able to be renewed and after assessing the Group's current and forecasted cash positions, the directors of the Company are of the opinion that the Group will have sufficient working capital to finance its operations and to meet its financial obligations as and when they fall due within twelve months from 31 December 2024. Accordingly, the directors of the Company consider that it is appropriate to prepare the consolidated financial statements on a going concern basis.

Should the Group fail to achieve the above-mentioned plans and measures, it might not be able continue in business as a going concern, and adjustments would have to be made to write down the carrying amounts of the Group's assets to their recoverable amounts, to provide for any further liabilities and to reclassify non-current assets and non-current liabilities as current assets and current liabilities respectively. The effects of these adjustments have not been reflected in these consolidated financial statements.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

4. MATERIAL ACCOUNTING POLICY INFORMATION

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

Changes in the Group's interests in existing subsidiaries

Changes in the Group's interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries, including re-attribution of relevant reserves between the Group and the non-controlling interests according to the Group's and the non-controlling interests' proportionate interests.

Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 "Financial Instruments" or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Business combinations or asset acquisitions

Business combinations

A business is an integrated set of activities and assets which includes an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired processes are considered substantive if they are critical to the ability to continue producing outputs, including an organised workforce with the necessary skills, knowledge, or experience to perform the related processes or they significantly contribute to the ability to continue producing outputs and are considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

Business combinations or asset acquisitions (Continued)

Business combinations (Continued)

At the acquisition date, the identifiable assets acquired and the liabilities assumed, with limited exceptions, are recognised at their fair value.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after re-assessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of cash-generating units).

Investments in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of associates used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

Investments in associates (Continued)

The Group assesses whether there is an objective evidence that the interest in an associate may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When the Group ceases to have significant influence over an associate, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss.

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract liability represents the Group’s obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Leases

The Group assesses whether a contract is or contains a lease based on the definition under IFRS 16 at inception of the contract. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases of plants and buildings, equipment, motor vehicles and land lease prepayment that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Right-of-use assets

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term is depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Leasehold land and building

For payments of a property interest which includes both leasehold land and building elements, the entire property is presented as property, plant and equipment of the Group when the payments cannot be allocated reliably between the leasehold land and building elements.

Refundable rental deposits

Refundable rental deposits paid are accounted under IFRS 9 “Financial Instruments” (“IFRS 9”) and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Leases (Continued)

The Group as a lessee (Continued)

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. RMB) using exchange rate prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve.

Exchange differences relating to the retranslation of the Group's net assets in United States Dollars ("USD") to the Group's presentation currency (i.e. RMB) are recognised directly in other comprehensive income and accumulated in exchange reserve. Such exchange differences accumulated in the exchange reserve are not reclassified to profit or loss subsequently.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Any specific borrowing that remains outstanding after the related asset is ready for its intended use or sale is included in the general borrowing pool for calculation of capitalisation rate on general borrowings. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under “other income”.

Employee benefits

(i) Short term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

(ii) Defined benefit retirement plan obligations

The Group's net obligation in respect of defined benefit retirement plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine the present value and the fair value of any plan assets is deducted. The calculation is performed by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

Service cost and net interest expense on the net defined benefit liability are recognised in profit or loss and allocated by function as part of "cost of sales", "selling and marketing expenses" or "administrative expenses". Current service cost is measured as the increase in the present value of the defined benefit obligation resulting from employee service in the current period. Net interest expense for the period is determined by applying the discount rate used to measure the defined benefit obligation at the beginning of the reporting period to the net defined benefit liability. The discount rate is the yield at the end of the reporting period on high quality corporate bonds that have maturity dates approximating the terms of the Group's obligations.

When the benefits of a plan are changed, or when a plan is curtailed, current service cost for the portion of the changed benefit related to past service by employees, or the gain or loss on curtailment, is recognised as an expense in profit or loss at the earlier of when the plan amendment or curtailment occurs and when related restructuring costs or termination benefits are recognised.

Remeasurements, comprising actuarial gains and losses, arising from defined benefit retirement plans are recognised in other comprehensive income and reflected immediately in retained earnings.

Equity-settled share-based payment transactions

(i) Share options granted to employees

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (other reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the other reserve. For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in other reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in other reserve will continue to be held in other reserve.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit/(loss) before tax as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Notes to the Consolidated Financial Statements (Continued)

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

Taxation (Continued)

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities and ultimate costs incurred for provisions for decommissioning and restoration, the Group applies IAS 12 requirements to the lease liabilities and the provisions for decommissioning and restoration and the related assets separately. The Group recognises a deferred tax asset related to lease liabilities and the provisions for decommissioning and restoration to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use on the production or for administrative purposes. Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Property, plant and equipment in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, including costs of testing whether the related assets is functioning properly and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Sale proceeds of items that are produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management (such as samples produced when testing whether the asset is functioning properly), and the related costs of producing those items are recognised in the profit or loss. The cost of those items are measured in accordance with the measurement requirements of IAS 2. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as "right-of-use assets" in the consolidated statement of financial position. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Depreciation is recognised to write off the cost of assets, less their residual value over their estimated useful lives using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The estimated useful lives of property, plant and equipment are as follows:

Plants and buildings	10–40 years
Equipment	10–20 years
Motor vehicles and others	5–10 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Property, plant and equipment (Continued)

Construction in progress is stated at cost less impairment losses. Cost comprises direct costs of construction as well as interest expense capitalised during the periods of construction and installation. Capitalisation of these costs ceases and the construction in progress is transferred to property, plant and equipment when substantially all the activities necessary to prepare the assets for their intended use are completed. No depreciation is provided for in respect of construction in progress until it is completed and ready for its intended use.

Intangible assets (other than goodwill)

Intangible assets that are acquired by the Group are stated at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses. Expenditure on internally generated goodwill and brands is recognised as an expense in the period in which it is incurred. Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair values at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets with finite useful lives are reported at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives from the date they are available for use. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. A trademark acquired in a business combination in previous years that the directors of the Company are of the opinion that the trademark has good reputation in the local area are renewable continuously at minimal cost and the Group has the ability to do so. Accordingly, the trademark has indefinite useful lives. Intangible assets with indefinite useful lives are carried at cost less any subsequent accumulated impairment losses.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

The estimated useful lives for intangible assets are over the shorter of the terms of the respective contractual rights (if any) or are as follows:

Limestone mining rights	1–50 years
Customer relationships	5 years
Trademarks	Indefinite
Software and others	5–10 years

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

Impairment on property, plant and equipment, right-of-use assets and intangible assets other than goodwill

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any). Intangible assets with indefinite useful lives are tested for impairment at least annually, and whenever there is an indication that they may be impaired.

The recoverable amount of property, plant and equipment, right-of-use assets, and intangible assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash generating units. An impairment loss is recognised immediately in profit or loss.

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

Impairment on property, plant and equipment, right-of-use assets and intangible assets other than goodwill (Continued)

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit or the group of cash generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or the group of cash generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Bank balances and cash

Bank balances and cash comprise cash on hand and demand deposits, excluding bank balances that are subject to regulatory restrictions that result in such balances no longer meeting the definition of cash, and short-term highly liquid investments which are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired.

Inventories

Inventories are measured at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Contingent liabilities

A contingent liability is a present obligation arising from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

The Group assesses continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognised in the consolidated financial statements in the reporting period in which the change in probability occurs, except in the extremely rare circumstances where no reliable estimate can be made.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income which are derived from the Group's ordinary course of business are presented as revenue.

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI"):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at the date of initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which IFRS 3 "Business Combinations" applies.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset.

Dividends from investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "other income" in profit or loss.

(ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes/excludes any dividend or interest earned on the financial asset and is included in the “other net expenses” line item.

Impairment of financial assets and other items subject to impairment assessment under IFRS 9

The Group performs impairment assessment under expected credit loss (“ECL”) model on financial assets (including certain other financial assets, trade and bills receivables and other receivables, and prepayments) which are subject to impairment assessment under IFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade and bills receivables. The ECL on these assets are assessed individually for debtors with significant balances and/or collectively using a provision matrix with appropriate groupings.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

Impairment of financial assets and other items subject to impairment assessment under IFRS 9 (Continued)

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; or
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due with the reference of credit history of customers settlement days unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Lifetime ECL for trade and bills receivables are considered on a collective basis taking into consideration past due information and relevant credit information such as forward looking macroeconomic information.

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets and other items subject to impairment assessment under IFRS 9 (Continued)

(v) Measurement and recognition of ECL (Continued)

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Nature of financial instruments;
- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

Foreign exchange gains and losses

The carrying amount of financial assets that are denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. For financial assets measured at amortised cost that are not part of a designated hedging relationship, exchange differences are recognised in profit or loss in the 'Other net expenses, gains and losses' line item (note 8) as part of the net foreign exchange gains/(losses).

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial instruments (Continued)

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Financial liabilities at amortised cost

Financial liabilities (including trade payables, other payables, bank loans and long-term payables) are subsequently measured at amortised cost, using the effective interest method.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments. These foreign exchange gains and losses are recognised in the 'Other net expenses, gains and losses' line item in profit or loss (note 8) as part of net foreign exchange gains/(losses) for financial liabilities that are not part of a designated hedging relationship.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) Both entities are joint ventures of the same third party;
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
 - (vi) The entity is controlled or jointly controlled by a person identified in (a);
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or
 - (viii) The entity, or any member of the group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (a) that person's children and spouse or domestic partner;
- (b) children of that person's spouse or domestic partner; and
- (c) dependents of that person or that person's spouse or domestic partner.

Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's chief operating decision maker for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which the material policies are described in note 4, the directors of the Company are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(i) Impairments

– Property, plant and equipment, right-of-use assets and intangible assets

In considering the impairment losses that may be required for the property, plant and equipment, right-of-use assets and intangible assets of certain subsidiaries located in the Shandong Province, Shanxi Province and Northeastern China, the recoverable amounts of the assets need to be determined. The recoverable amount is the greater of fair value less cost of disposal and the value in use. It is difficult to precisely estimate fair value less cost of disposal because quoted market prices for these assets may not be readily available. In the impairment assessment of these assets, the value in use of the cash-generating units ("CGUs") to which these assets belong are estimated. In determining the value in use of the CGUs, expected cash flows generated in the CGUs are discounted to their present values, which require significant judgement relating to items such as the discount rates, growth rates and the projected sales volume, selling price, direct costs, gross margin and other related expenses. Where the actual future cash flows are less than expected, or change in facts and circumstances which results in downward revision of future cash, or upward revision of discount rate, a material impairment loss or a further impairment loss may arise. Furthermore, the estimated cash flows and discount rate are subject to change due to ongoing uncertain macroeconomic and geopolitical environment, which includes the persistent effects of climate change, higher interest rates and inflation and energy security concerns. The management also conducted a review for idle and/or obsolete assets in respect of the Group's production assets, details of the review are disclosed in note 14(g).

5. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

(i) Impairments (Continued)

– Property, plant and equipment, right-of-use assets and intangible assets (Continued)

As at 31 December 2024, the carrying amounts of property, plant and equipment, right-of-use assets and intangible assets are RMB16,373,192,000, RMB2,228,055,000 and RMB1,992,921,000, respectively (2023: RMB16,733,823,000, RMB2,254,779,000 and RMB1,617,845,000, respectively). During the year ended 31 December 2024, net impairment loss of RMB4,681,000 and RMB nil (2023: RMB60,678,000 and RMB40,000) has been recognised in respect of the property, plant and equipment and intangible assets, respectively, of certain subsidiaries located in the Shandong Province, Shanxi Province and Northeastern China based on the impairment assessments performed in respect of the subsidiaries as cash generating units.

In addition, based on the review of the Group's production assets conducted by the management of the Group, certain assets of subsidiaries located in the Shandong Province were idle and/or obsolete and that it is expected that these assets would not generate future benefit to the Group. Accordingly, impairment loss of RMB855,000 (2023: RMB165,707,000) has been recognised in respect of those assets.

Details of the recoverable amount calculation and review of the Group's production assets are disclosed in notes 14, 15 and 16 respectively.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

5. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

(i) Impairments (Continued)

– Goodwill

Determining whether goodwill allocated to subsidiaries located in the Shandong Province and the Northeast China is impaired requires an estimation of the recoverable amount of the cash-generating unit to which goodwill has been allocated, which is the higher of the value in use or fair value less cost of disposal. The value-in-use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit. In determining the value in use, expected cash flows generated by the cash-generating unit are discounted to their present values, which require significant judgement relating to items such as the discount rates, growth rates and the projected sales volume, selling price, direct costs, gross margin and other related expenses. Where the actual future cash flows are less than expected, or change in facts and circumstances which results in downward revision of future cash, or upward revision of discount rate, a material impairment loss or a further impairment loss may arise. Furthermore, the estimated cash flows and discount rate are subject to change due to ongoing uncertain macroeconomic and geopolitical environment, which includes the persistent effects of climate change, higher interest rates and inflation and energy security concerns. As at 31 December 2024, the carrying amount of goodwill is RMB14,224,000 (2023: RMB55,132,000), which is net of accumulated impairment loss of RMB2,413,582,000 (2023: RMB2,372,674,000). Details of the recoverable amount calculation are disclosed in note 17.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

(i) Impairments (Continued)

– Provision of ECL for trade receivables and other receivables

Trade receivables and other receivables with significant balances and credit-impaired are assessed for ECL individually. In addition, the Group uses practical expedient in estimating ECL on trade and bills receivables which are not assessed individually using a provision matrix. The provision rates are based on internal credit ratings as groupings of various debtors taking into consideration the Group's historical default rates and forward-looking information that is available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables and other receivables are disclosed in note 34(b)(i).

As at 31 December 2024, the carrying amounts of trade receivables and other receivables for which the management has performed assessment of loss allowance for ECL are RMB1,156,054,000 and RMB498,100,000 respectively (2023: RMB1,375,875,000 and RMB644,379,000, respectively).

– Inventories

Net realisable value of inventories is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling expenses. These estimates are based on the current market condition and the historical experience of distributing and selling products of similar nature. It could change significantly as a result of competitor actions in response to severe industry cycles or other changes in market condition. The Group will reassess the estimations at each statement of financial position date. As at 31 December 2024, carrying amount of inventories is RMB1,906,613,000 (2023: RMB2,143,591,000).

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

5. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

(ii) Deferred tax asset

As at 31 December 2024, deferred tax assets of RMB344,638,000 (2023: RMB306,215,000) have been recognised in the consolidated statement of financial position as disclosed in note 30. As the deferred tax assets cannot be recognised unless the unused tax losses and deductible temporary differences are probable for deduction against future taxable profits, the Group estimates the expected realisation of these deductible temporary differences by reference to expected future taxable profits. The realisability of the deferred tax asset mainly depends on whether sufficient taxable profits will be available in the future or taxable temporary differences are expected to reverse in the same period as the expected reversal of the deductible temporary differences, which is a key source of estimation uncertainty. The uncertainty would depend on how the ongoing uncertain macroeconomic and geopolitical environment, which includes the persistent effects of climate change, higher interest rates and inflation and energy security concerns, may progress and evolve. The Group reviews the judgment continuously and recognises additional deferred tax assets if taxable profits are probable to be generated. In cases where the actual future taxable profits generated are less or more than expected, or change in facts and circumstances which result in revision of future taxable profits estimation, a material reversal or further recognition of deferred tax assets may arise, which would be recognised in profit or loss for the period in which such a reversal or further recognition takes place.

(iii) Actuarially determined benefit obligations

The Group assesses the actuarial assumptions and methodology periodically to ensure their reasonableness at each end of the reporting period.

The Group would assess the assumptions of recognition, such as the discount rate and the benefit increase rate to assess the reasonableness of the methodology adopted. Should any of these factors change significantly and render the existing method inappropriate, the Group will consider a more appropriate methodology.

6. REVENUE AND SEGMENT REPORTING

(a) Revenue

The principal activities of the Group are manufacturing and sale of cement, clinker and concrete.

Revenue represents the sales value of cement, clinker and concrete supplied to customers, cement related products and the delivery services.

Disaggregation of revenue from contracts with customers by major products or service lines is as follows:

	2024 RMB'000	2023 RMB'000
Sales of cement	11,773,070	14,208,432
Sales of clinker	1,501,593	2,238,501
Sales of concrete	678,275	1,118,872
Sales of other products and services	556,928	550,582
	14,509,866	18,116,387

Disaggregation of revenue from contracts with customers by the timing of revenue recognition is disclosed in note 6(b)(i).

6. REVENUE AND SEGMENT REPORTING (CONTINUED)

(a) Revenue (Continued)

(i) Performance obligations for contracts with customers

Sales of cement, clinker, concrete and other products (revenue recognised at one point in time)

The Group sells cement, clinker, concrete and other products directly to customers.

Revenue is recognised when control of the goods has transferred, i.e. when the goods have been transferred out from the Group's warehouse (delivery). After leaving the warehouse, the customers have full discretion over the manner of distribution and price to sell the goods, have the primary responsibility when selling the goods, and bear the risks of obsolescence and loss in relation to the goods. The normal credit term is 30 to 60 days for cement and clinker customers and 90 to 180 days for concrete customers upon delivery.

A contract liability represents the Group's obligation to transfer goods to a customer for which the Group has received consideration from the customer.

Revenue from rendering of delivery services (revenue recognised over time)

The Group also provides delivery services to customers.

Revenue from the rendering of delivery service is recognised over time by reference to the progress of which the customer simultaneously receives and consumes the benefits when the delivery service is provided by the Group.

(ii) Transaction price allocated to the remaining performance obligation for contract with customers

All performance obligations for sale of cement, clinker, concrete and other products are for periods of one year or less. As permitted under IFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

Notes to the Consolidated Financial Statements (Continued)

6. REVENUE AND SEGMENT REPORTING (CONTINUED)

(b) Segment reporting

As the Group operates in a single business, which is the manufacturing and sale of cement, clinker, concrete and cement-related products in the People's Republic of China (the "PRC"), the Group's risks and rates of return are affected predominantly by differences in the areas it operates.

The Group manages its businesses by geographical areas. Based on the manner in which information is reported internally to the Executive directors of the Company, being the Group's chief operating decision maker ("CODM"), for the purposes of resource allocation and performance assessment, the Group has identified and presented the following four reportable segments based on the region in which the Group's business operates.

- Shandong Province – subsidiaries operating and located in the Shandong Province of the PRC, engage in the manufacture and sale of cement, clinker, concrete and other products.
- Northeastern China – subsidiaries operating and located in the Liaoning Province and Inner – Mongolia Autonomous Region of the PRC, engage in the manufacture and sale of cement, clinker and other products.
- Shanxi Province – subsidiaries operating and located in the Shanxi Province and Shaanxi Province of the PRC, engage in the manufacture and sale of cement, clinker, concrete and other products.
- Xinjiang Region – subsidiaries operating and located in the Kashi area of Xinjiang Uygur Autonomous Region of the PRC, engage in the manufacture and sale of cement, clinker and other products.

No operating segments identified by the CODM have been aggregated in arriving at the reportable segments of the Group.

6. REVENUE AND SEGMENT REPORTING (CONTINUED)

(b) Segment reporting (Continued)

(i) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Group's CODM monitors the results, assets and liabilities attributable to each operating segment on the following bases:

- Segment assets include all tangible and intangible non-current assets and current assets, with the exception of interests in associates, deferred tax assets and other corporate assets. Segment liabilities include trade payables, other payables and accrued expenses, contract liabilities, bank loans managed directly by the segments and lease liabilities.
- Revenue and expenses are allocated to the operating segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments.
- Segment results represent profits earned by each segment without allocation of share of results of associates, gain/(loss) on fair value changes of financial assets at FVTPL, gain on disposal of a subsidiary, loss on disposal of associates, unallocated other income, head office administrative expenses and finance costs in relation to the unallocated bank loans. This is the measure reported to the CODM for the purposes of resources allocation and performance assessment.
- In addition to receiving segment information concerning adjusted profit before taxation, the CODM is provided with segment information concerning revenue, interest income from bank balances, interest expenses on borrowings managed directly by the segments, depreciation and amortisation, impairment losses on and additions to non-current segment assets used by the segments in their operations, net impairment losses on trade and bills receivables and other receivables, and government grants. Inter-segment sales are priced with reference to prices charged to external parties for similar orders.

10. INCOME TAX IN THE CONSOLIDATED STATEMENT OF PROFIT OR LOSS (CONTINUED)

(b) Reconciliation between tax expense and accounting profit at applicable tax rates: (Continued)

Notes:

- (i) The Group's PRC subsidiaries are subject to PRC EIT at the statutory rate of 25% (2023: 25%) unless otherwise specified.

Certain subsidiaries which are recognised as High and New-tech Enterprises have been granted tax concessions by the local tax bureau and are entitled to PRC EIT at concessionary rate of 15% for both years.
- (ii) Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands, the Group is not subject to any income tax in those jurisdictions.

The Company and its subsidiaries incorporated in Hong Kong are subject to Hong Kong Profits Tax at the rate of 16.5% (2023: 16.5%). No provision for Hong Kong Profits Tax has been made as the Company and the subsidiaries incorporated in Hong Kong did not have assessable profits subject to Hong Kong Profits Tax for both years.
- (iii) Tax credit represents income tax credit for purchase of certain energy saving equipment pursuant to the applicable PRC tax laws and regulations received by certain group companies during the year. These group companies are entitled to an income tax credit of 10% of the purchase price of the qualifying energy saving equipment purchased.

13. LOSS PER SHARE

The calculation of the basic and diluted loss per share attributable to the owners of the Company is based on the following data:

	2024 RMB'000	2023 RMB'000
<u>Loss figures are as follows:</u>		
Loss for the year attributable to equity shareholders of the Company and loss for the purposes of basic and diluted loss per share	(140,608)	(883,959)
<u>Number of shares:</u>		
Weighted average number of ordinary shares for the purposes of basic and diluted loss per share	4,353,966,228	4,353,966,228

The computation of diluted loss per share does not assume the exercise of the share options granted by the Company in 2015 because the exercise prices of these share options were higher than the average market price of the shares of the Company for the years ended 31 December 2024 and 2023.

14. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Notes:

- (a) All plants and buildings and land are located in the PRC.
- (b) Construction in progress ("CIP") mainly relates to technical improvement projects of cement and clinker production lines.
- (c) As at 31 December 2024, the ownership certificates for certain plants and buildings with aggregate carrying amount of RMB1,226,242,000 (2023: RMB1,167,943,000) have not been obtained. The directors of the Company are of the opinion that the Group is entitled to lawfully and validly occupy or use the properties and therefore the aforesaid matter did not have any significant impact on the Group's financial position as at 31 December 2024 and 2023.
- (d) As at the date of approval of the consolidated financial statements, the Group is in the process of obtaining construction permits for certain clinker and cement production lines. The carrying amounts of the plants and buildings and equipments transferred from construction in progress in respect of these clinker and cement production lines as at 31 December 2024 were RMB708,133,000 and RMB221,920,000 respectively (2023: RMB633,170,000 and RMB210,455,000 respectively). The directors of the Company are of the opinion that the Group is entitled to lawfully and validly construct the certain clinker and cement production lines and therefore the aforesaid matter did not have any significant impact on the Group's financial position as at 31 December 2024 and 2023.
- (e) Certain plants and buildings with an aggregate carrying amount of RMB389,399,000 as at 31 December 2024 (2023: RMB400,852,000) are pledged to secure bank loans granted to the Group (see note 24).
- (f) As at 31 December 2024, land lease prepayments carried at RMB36,099,000 (2023: RMB37,200,000) and plants and buildings carried at RMB56,851,000 (2023: RMB59,387,000) have been frozen by the PRC Court pending the outcome of the legal proceedings initiated by the Group's creditors relating to certain purchases contracts. Under the Court order, the Group may continue to use these assets in its business but is prohibited from selling or transferring the assets until the litigation is resolved.

14. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Notes: (Continued)

- (g) For the years ended 31 December 2024 and 2023, the management performed impairment assessments on property, plant and equipment, right-of-use assets, intangible assets and goodwill of certain subsidiaries located in the Shandong Province, Shanxi Province and Northeastern China which contain goodwill and intangible assets with indefinite useful life or which the management considered there was indication for impairment due to the deterioration of economic conditions for the cement industry in recent years or indicator for reversal of impairment. The management assessed the recoverable amounts of these assets by assessing the recoverable amounts of the cash-generating units ("CGUs"), represented by the respective subsidiaries, to which they belong with reference to the value-in-use calculations of the CGUs. The value-in-use calculations use cash flow projections based on the financial budgets approved by the management for the next five financial years, which have been prepared using suitable growth rates for the second to fifth years in the projection period. The cash flows beyond the five-year projection period are extrapolated using suitable terminal growth rates.

The details of the CGUs, growth rates, discount rates and terminal growth rates used for value-in-use calculations for both years are shown as follows:

Segment	Number of subsidiaries		Range of growth rate (%) *		Range of discount rates (%)		Terminal growth rate (%)	
	2024	2023	2024	2023	2024	2023	2024	2023
Shandong Province-								
Shandong Shanshui Heavy								
Industries Co., Ltd. ("Shanshui

Others	13	12	3-13	1-12	12.00-15.07	12.00-15.04	-	-
Shanxi Province	7	7	5-17	2-18	13.18-14.75	11.00-12.34	-	-

* The growth rate for the second to fifth year in the projection period is based on the industry growth rate forecast.

Other key assumptions for the value-in-use calculations include the estimation of the projected sales volume, selling prices, direct costs, gross margin and other related expenses for each of the related CGUs used in the cash flow forecasts based on the unit's historical performance, unit's projected production plan and management's expectations for the market development of each of the CGUs.

14. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Notes: (Continued)

(g) (Continued)

For the years ended 31 December 2024 and 2023, based on the cash flow projections and financial budgets approved by the management in respect of the impairment assessments, the value in use calculated by the discounted cash flow analysis was lower than the carrying amount for certain of the CGUs assessed for impairment. These certain CGUs were in Shandong Province operating segment (2023: Shandong Province, Northeastern China and Shanxi Province operating segments). In view of the under performance of these CGUs which arose due to a shrinking business scale and shortfall in value in use, accordingly, impairment losses of RMB62,823,000 (2023: RMB60,678,000) of these CGUs were allocated to property, plant and equipment in these CGUs and recognised for the year ended 31 December 2024. In addition, driven by a substantial increase in cement prices in 2024 in Northeastern China, the value in use calculated by the discounted cash flow analysis for certain CGUs in Northeastern China operating segment was higher than the carrying amount for the CGUs as at 31 December 2024. In view of that, reversal of impairment losses on these CGUs of RMB58,142,000 was allocated to property, plant and equipment and recognised for the year ended 31 December 2024 (2023: Nil).

	Valuation methodology	Recoverable amount RMB'000	Amount of impairment recognised/ (reversed) RMB'000
CGUs (including goodwill)			
Shandong Province – Shanshui Heavy Industries	VIU	146,035	40,908
One subsidiary in Shandong Province	VIU	46,156	62,823
One subsidiary in Northeastern China	VIU	137,717	(58,142)
		329,908	45,589

The details of (reversal of impairment)/impairment loss allocated in respect of class of assets for the years ended 31 December 2024 and 2023 are shown as follows:

	Property, plants and equipment		Intangible assets (Note 16)		Goodwill (Note 17)		Total	
	2024 RMB'000	2023 RMB'000	2024 RMB'000	2023 RMB'000	2024 RMB'000	2023 RMB'000	2024 RMB'000	2023 RMB'000
Shandong Province-Shanshui Heavy Industries	-	-	-	-	40,908	35,000	40,908	35,000
Shandong Province – others	62,823	-	-	-	-	-	62,823	-

	4,681	60,678	-	40	40,908	35,000	45,589	95,718

In addition to the impairment assessments performed on the CGUs described above, the Group also conducted a review of the Group's production assets and identified certain assets owned by certain subsidiaries located in the Shanxi Province (2023: Shandong Province, Northeastern China and Shanxi Province) were idle and/or obsolete and that it was expected that these assets would not generate future benefit to the Group. Accordingly, impairment loss of RMB855,000 (2023: RMB165,707,000) had been recognised for the year ended 31 December 2024 in respect of those assets to fully write down their carrying amounts to nil.

Notes:

- For both years, the Group leases various plants and buildings, land lease prepayment and machinery for its operations. Lease contracts for plants and buildings and machinery are entered into for fixed terms of 2 to 30 years and 3 to 4 years, respectively. Lease contracts for land lease prepayment are entered into for fixed term of 25 to 70 years. Lease terms for all lease contracts are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.
- The lease prepayments for leasehold land which are presented as right-of-use assets with underlying assets of land are amortised for periods ranging from between 25 years and 70 years based on the lease term (2023: 25 years and 70 years).
- As at 31 December 2024, application for the registration of land use rights in relation to land lease prepayments for right-of-use assets with underlying assets of land with cost of approximately RMB116,268,000 and carrying amount of RMB96,855,000 (2023: cost of approximately RMB108,400,000 and carrying amount of RMB95,365,000) was still in progress. The directors of the Company are of the opinion that the Group is entitled to lawfully and validly occupy or use the properties and therefore the aforesaid matter did not have any significant impact on the Group's financial position as at 31 December 2024 and 2023.
- Certain land lease prepayments with an aggregate carrying amount of RMB131,195,000 (2023: RMB133,993,000) are pledged to secure bank loans granted to the Group (see note 24).

16. INTANGIBLE ASSETS (CONTINUED)

Notes:

- (a) The limestone mines owned by subsidiaries of the Company are located in Shandong, Liaoning, Shanxi, Xinjiang and Inner Mongolia regions/provinces. The limestone mining rights which are granted from the respective land resources bureaus are valid for periods ranging from 2 year to 26 years (2023: ranging from 1 year to 26 years) and will expire in 2025 to 2046. Certain limestone mining rights for limestone mines located in the Shandong Province, Northeastern China and Xinjiang Region that expired in the current year were renewed and will expire in 2027 to 2044.
- (b) As at 31 December 2024, the ownership certificates for certain limestone mining rights with a carrying amount of RMB325,107,000 (net of accumulated amortisation of RMB20,427,000) (2023: RMB62,355,000 (net of accumulated amortisation of RMB28,562,000)) have not been obtained. The directors of the Company are of the opinion that the Group is entitled to lawfully and validly occupy or use the properties and therefore the aforesaid matter did not have any significant impact on the Group's financial position as at 31 December 2024 and 2023.
- (c) Included in the carrying amount of trademarks represent the “遠航” brand acquired through acquisition of “Chifeng Yuanhang” in previous years. The “遠航” brand will be expired in February 2033, but is renewable every 10 years at minimal cost. The directors of the Company are of the opinion that the “遠航” brand is having good reputation in the local area and hence the Group would renew the trademark continuously and has the ability to do so. As a result, the “遠航” brand is considered by the management as having an indefinite useful life and will not be amortised until its useful life is determined to be finite. Instead it will be tested for impairment annually and whenever there is an indication that it may be impaired. The carrying amount of “遠航” brand as at 31 December 2024 is RMB22,230,000 (2023: RMB22,230,000).

For the years ended 31 December 2024 and 2023, the management assessed the recoverable amount of Chifeng Yuanhang which the trademark forms part of the CGU with reference to its value-in-use calculation. In addition to the trademark, property, plant and equipment, other intangible assets and right-of-use assets (including allocation of corporate assets) that generate cash flows together with the related trademark are also included in the CGU for the purpose of impairment assessment. Based on the cash flow projections and financial budgets approved by the management in 2024 and 2023, the value-in-use calculated by the discounted cash flow analysis is higher than the carrying amounts for Chifeng Yuanhang and accordingly the management determined that there was no impairment on the trademark for the year ended 31 December 2024 (2023: nil). Chifeng Yuanhang is one the CGUs in the Northeastern China segment and particulars of the value-in-use calculation in relation to Chifeng Yuanhang are disclosed in note 14(g).

17. GOODWILL (CONTINUED)

Impairment tests for cash-generating units containing goodwill

As set out in IAS 36, cash generating units are the smallest identifiable groups of assets that generate cash inflows from continuing use that are largely independent of the cash flows from other assets. For the purpose of impairment testing of goodwill, goodwill is allocated to CGUs or groups of CGUs (being subsidiaries acquired in each acquisition), which represent the lowest level within the Group at which the goodwill is monitored for internal management purposes. The carrying amount of goodwill is allocated to 3 individual CGUs, comprising 3 subsidiaries namely Shanshui Heavy Industries (amounting to RMB nil (2023: RMB40,908,000)), Wulanhaote Shanshui Cement Co., Ltd. ("Wulanhaote") (amounting to RMB 12,639,000 (2023: RMB12,639,000)) and Dezhou Zhucheng Concrete Co., Ltd. ("Dezhou Zhucheng") (amounting to RMB1,585,000 (2023: RMB1,585,000)). The goodwill recognised is not expected to be deductible for income tax purpose. In addition to goodwill, property, plant and equipment, intangible assets and right-of-use assets (including allocation of corporate assets) that generate cash flows together with the related goodwill are also included in the respective CGU for the purpose of impairment assessment.

For the purpose of impairment assessment for the years ended 31 December 2024 and 2023, the recoverable amounts of the individual CGUs as at the end of the reporting period were estimated with reference to value-in-use calculations determined by the management for Wulanhaote and Dezhou Zhucheng or with the assistance of GW Financial Advisory Service Limited, an independent firm of qualified professional valuer not connected with the Group for Shanshui Heavy Industries. The value-in-use calculations used cash flow projections based on the financial budgets for the next five financial years of the respective CGUs approved by the management. Particulars of the value-in-use calculations are disclosed as per note 14(g).

During the years ended 31 December 2024 and 2023, there was impairment loss for the CGU of Shanshui Heavy Industries as its value in use as at 31 December 2024 and 2023 was below its carrying amount as at the end of the respective reporting periods prior to the recognition of impairment loss for the year. The directors of the Company have consequently determined that during the years ended 31 December 2024 and 2023, impairment loss directly related to the CGU of Shanshui Heavy Industries amounting to RMB40,908,000 and RMB35,000,000, respectively, shall be recognised and included in consolidated profit or loss in the "Other net expenses, gains and losses". All the impairment losses of the CGU were allocated to goodwill belonging to the CGU. The impairment loss arose due to the under performance of the CGU which resulted from the anticipated decline in future demand for cement production related machinery. Shanshui Heavy Industries is principally engaged in provision of various service regarding cement production related machinery.

As at 31 December 2024 and 2023, the recoverable amounts of the CGUs of Wulanhaote and Dezhou Zhucheng were estimated to be higher than the carrying amounts of the respective CGUs and accordingly, the management determined that there is no impairment loss in these CGUs for the years ended 31 December 2024 and 2023.

Restricted bank deposits as at 31 December 2024 include RMB687,169,000 (2023: RMB416,754,000) of cash deposits pledged to banks to secure banking facilities granted to the Group and for the performance guarantee in relation to certain contracts of sales or purchases of cement, and RMB5,503,000 (2023: RMB7,100,000) of bank balances which have been frozen by the PRC Court pending the outcome of the legal proceedings initiated by the Group's creditors relating to certain purchases contracts. Further details of this litigation are set out in note 36. During the year ended 31 December 2024, frozen bank deposits amounting to RMB6,200,000 have been released as the litigation has been resolved.

The restricted bank deposits carry fixed interest rates ranged from 0.01% to 2.6% (2023: 0.19% to 2.75%) per annum. The variable interest rate on bank balances ranged from 0.5% to 1.5% (2023: 0.20% to 1.70%) per annum as at 31 December 2024.

The fixed bank deposits carry fixed interest rates ranged from 1.5% to 3.5% (2023: 1.71% to 4.2%) per annum and have original maturity of over three months.

Bank deposits of RMB553,000,000 (2023: RMB366,397,000) are pledged to secure bank loans granted to the Group (see note 24).

For the year ended 31 December 2024, the Group performed impairment assessment on bank balances and concluded that the probability of defaults of the counterparty banks are insignificant and accordingly, no allowance for credit losses is provided. Details of impairment assessment of restricted bank deposits for the year ended 31 December 2024 are set out in note 34(b)(i).

24. BANK LOANS

	Notes	2024 RMB'000	2023 RMB'000
Bank loans		4,559,460	4,052,457
Bank loans under supplier finance arrangements	(i)	806,000	1,080,000
		5,365,460	5,132,457
Bank loans – Secured	(ii)	1,035,710	548,706
Bank loans – Unsecured		4,329,750	4,583,751
		5,365,460	5,132,457

Notes:

- (i) The Group has entered into certain supplier finance arrangements with banks, under which the Group obtained extended credit in respect of the invoice amounts owed to certain suppliers of raw materials. Under these arrangements, the banks advanced funds to the Group for the settlement to suppliers on the original due dates of the invoices. The Group then settles with the banks between 10-360 days after loans granted by the banks with interest rates ranging from 2.01%-4.00% per annum. These arrangements provide the Group with extended payment terms, compared to the original due dates of the respective invoices. The interest rates are consistent with the Group's short-term borrowing rates. Information of the Group's supplier finance arrangements is set out in note 37(b).
- (ii) These bank loans were secured by certain land lease prepayments with an aggregate carrying amount of RMB131,195,000 (2023: RMB133,993,000) (see note 15), plants and buildings with an aggregate carrying amount of RMB389,399,000 (2023: RMB400,852,000) (see note 14(e)) and bank deposits of RMB553,000,000 (2023: RMB366,397,000) (see note 23).

As at 31 December 2024 and 2023, there is no default in bank loans repayment.

Bank loans due for repayment based on the scheduled repayment terms set out in the loan agreements are as follows:

	2024 RMB'000	2023 RMB'000
Within one year	3,797,750	4,332,147
After one year but within two years	1,032,440	180,000
After two years but within five years	535,270	620,310
	5,365,460	5,132,457

All bank loans are interest-bearing and detail of interest rates are disclosed as per note 34(b)(iii).

25. TRADE PAYABLES

As of the end of the Reporting Period, the ageing analysis of trade payables, based on the invoice date, is as follows:

	2024 RMB'000	2023 RMB'000
Within 3 months	1,342,437	2,198,451
3 to 6 months	597,414	544,666
6 to 12 months	292,355	428,012
Over 12 months	734,228	684,100
	2,966,434	3,855,229

Trade payables principally comprise amounts outstanding for trade purchase. The average credit period for trade purchases is 30 to 180 days.

As at 31 December 2024, certain suppliers and third parties have initiated lawsuits against the Group to demand immediate settlement of trade payables with carrying amount of RMB37,046,000 (2023: RMB17,194,000) plus interest for late payment, if any.

The management is continuing to negotiate with the suppliers to settle these amounts out of court. No adjustments have been made to the consolidated financial statements to accrue for any potential interest or other penalties that may arise through the Courts if the negotiations are not successful, as the directors of the Company consider that the eventual outcome of these litigations cannot presently be determined.

Accrued expenses and other payables	(i)	553,044	509,699
		2,073,275	2,069,927

Notes:

- (i) The amount mainly represents payable for mine management of RMB123,946,000 (2023: RMB123,946,000), contract guarantee deposits from suppliers of RMB139,123,000 (2023: RMB132,358,000), payables for equipment maintenance of RMB121,205,000 (2023: RMB107,168,000) and interest payables of RMB4,727,000 (2023: RMB5,318,000).

As at 31 December 2024, certain suppliers and third parties have lawsuits against the Group to demand immediate settlement of other payables with carrying amount of RMB7,783,000 (2023: RMB11,811,000) plus interest for late payment, if any.

- (ii) Included in the amount is the current portion of long-term payables for mining rights amounting to RMB62,310,000 (2023: RMB38,150,000), detail of which is set out in note 26 (c).

26. OTHER PAYABLES AND ACCRUED EXPENSES, CONTRACT LIABILITIES AND LONG-TERM PAYABLES (CONTINUED)

(b) Contract liabilities

	31 December 2024 RMB'000	31 December 2023 RMB'000
Sales of cement	261,346	361,150
Sales of clinker	13,671	34,271
Sales of concrete	6,951	8,492
Sales of other products	25,213	18,375
	307,181	422,288

The Group typically received full payment from certain customers for sales of cement, clinker, concrete and other products before the customers obtain the control of the cement products which give rise to contract liabilities at the start of a contract, until the revenue recognised upon the pass of controls. All contract liabilities are expected to be recognised as income within one year.

As at 1 January 2023, contract liabilities amounted to RMB519,332,000. The contract liabilities as at 1 January 2024 and 2023 were fully recognised as revenue during the year ended 31 December 2024 and 2023, respectively.

26. OTHER PAYABLES AND ACCRUED EXPENSES, CONTRACT LIABILITIES AND LONG-TERM PAYABLES (CONTINUED)

(c) Long-term payables

		31 December 2024 RMB'000	31 December 2023 RMB'000
	Notes		
Long-term payable for reclamation cost for environmental restoration and constructions	(i)	354,644	303,799
Payables for mining rights	(ii)	280,284	38,150
		634,928	341,949
Less: Current portion (Note 26(a))		(62,310)	(38,150)
		572,618	303,799

Notes:

- (i) Long-term payables mainly represented payables for reclamation cost for environmental restoration and constructions in amount of RMB354,644,000 (2023: RMB303,799,000). According to the regulation issued by the Ministry of Land and Resources (國土資源部), the user of quarry should undertake the obligation of environmental restoration. After taking into account the quantity of limestone excavated and the timing of environment restoration between 2024 to 2054, a provision has been recognised for the costs expected to be incurred for the environmental restoration. Additional provision is recognised as cost of sales of the related limestone excavated. An unwinding discount of RMB19,350,000 (2023: RMB15,918,000) was incurred in relation to the long-term payables for reclamation cost for environmental restoration and constructions, which was charged to consolidated statement of profit or loss as a finance cost, and a payment for reclamation cost of RMB8,015,000 was made during the year ended 31 December 2024.
- (ii) According to the announcement on Collection and Management of the Revenue from the Transfer of Mining Rights in PRC, “礦業權出讓收益征收辦法” (the “Announcement”), an entity is required to pay to the local government a transfer fee when acquiring the exploration right or mining right. The balance represented the amounts payable to the government in respect of such Announcement with repayments payable from 2024 to 2040 using a discount rate of 3.90% per annum.

27. EMPLOYEE BENEFITS

(a) Defined contribution retirement plans

As stipulated by the regulations of the PRC, the Group participates in various defined contribution retirement plans organised by municipal and provincial government authorities for its employees. The Group is required to make contributions to the retirement plans at rates ranging from 29% to 39% of the salaries, wages and certain allowances of the employees. A member of the plan is entitled to a pension equal to a fixed proportion of the salary prevailing at the member's retirement date. Where there are employees who leave the plans prior to vesting fully in the contributions, in accordance with the rules of the plans, the forfeited employers' contributions shall not be used to reduce the future contributions of the employers. At 31 December 2024, there was no forfeited contribution which is available to reduce the contributions payable in future years (2023: nil).

The Group has no other material obligation for the payment of pension benefits associated with these plans and other post-retirement beyond the annual contributions described above.

(b) Staff compensation and termination provision

	2024 RMB'000	2023 RMB'000
Staff compensation and termination provision	51,286	109,808

Included in the staff compensation and termination provision is a provision set aside following the transition from a state-owned enterprise to a privately-owned enterprise of certain subsidiaries of the Group, of RMB50,700,000 (2023: RMB109,241,000).

Pursuant to pertinent agreements with associated local governments established during the transition of certain subsidiaries of the Group from a state-owned enterprise to a privately owned entity, certain employees of certain subsidiaries of the Group are entitled to receive compensation and termination pay relating to their past employment prior to the change in status. Such amounts are required to be paid to the employees as soon as they cease to be employed by the Group. These amounts are included in other payables and accrued expenses in the consolidated statement of financial position (see note 26(a)) and remained unpaid in previous years as the Group has been negotiating with the relevant employees to finalise the compensation and termination pay. In May 2023, the Group reached a consensus with the employees on a revised compensation plan with effective from 31 August 2023, and an additional compensation amounting to RMB130,428,000 was provided.

Settlement to past employees amounting to RMB58,541,000 (2023: RMB162,786,000) was made by the Group during the year ended 31 December 2024. Certain workers were found unqualified for the compensation, and the relevant other payable aggregating RMB nil (2023: RMB1,159,000) was reversed.

27. EMPLOYEE BENEFITS (CONTINUED)

(c) Defined benefit obligations

The liabilities recognised in the consolidated statement of financial position represent:

	2024 RMB'000	2023 RMB'000
Present value of the defined benefit obligations	131,310	93,200

The balance represents the provision for the post-employment benefits according to the non-cancellable staff relocation plans agreed in respect of Shandong Shanshui, Weifang Shanshui Cement Co., Ltd., Liaoyang Qianshan Cement Co., Ltd. (excluding the compensation stated in note 26(a)) and Liaoning Gongyuan. The Group's obligations in respect of the defined benefit obligations at the end of the Reporting Period were reviewed by Willis Towers Watson, a qualified independent actuary and a member of the Society of Actuaries and China Association of Actuaries, using the projected unit credit actuarial cost method.

The Group's obligations in respect of the defined benefit obligations are recognised as non-current liabilities and the Group has not allocated any assets to satisfy such obligations.

(i) Movements in the defined benefit obligations are set out as follows:

	2024 RMB'000	2023 RMB'000
At 1 January	93,200	100,830
Remeasurements	24,720	(3,010)
Payments	(8,470)	(7,730)
Current service cost	19,130	460
Interest expense	2,730	2,650

27. EMPLOYEE BENEFITS (CONTINUED)

(c) Defined benefit obligations (Continued)

- (iii) Significant actuarial assumptions (expressed as weighted averages) and sensitivity analysis are as follows: (Continued)

The below analysis shows how the defined benefit obligation as at 31 December 2024 and 2023 would have (increased)/decreased as a result of 0.5% change in the significant actuarial assumptions:

Discount rate	2024 RMB'000	2023 RMB'000
Effect on defined benefit obligation		
– Increase in 0.5%	(7,440)	(4,280)
– Decrease in 0.5%	8,230	4,690

The above sensitivity analysis is based on the assumption that changes in actuarial assumptions are not correlated and therefore it does not take into account the correlations between the actuarial assumptions.

28. DEFERRED INCOME

	2024 RMB'000	2023 RMB'000
At 1 January	316,007	302,223
Addition during the year	55,440	27,137
Recognised in consolidated statement of profit or loss	(18,845)	(13,353)
At 31 December	352,602	316,007

Deferred income mainly represents the PRC local government grants received from relevant PRC authorities for investments of property, plant and equipment, such as cement and clinker plants and residual heat generation plants. The subsidies are recognised in the consolidated statement of profit or loss over the estimated useful lives of the respective property, plant and equipment. There are no unfulfilled conditions and contingencies relating to the grants.

(b) Tax losses and deductible temporary differences not recognised

As at 31 December 2024, the Group has unused tax losses of RMB2,637,799,000 (2023: RMB2,498,456,000) available for offset against future profits. A deferred tax asset has been recognised in respect of RMB158,146,000 (2023: RMB189,804,000) of such losses. The Group did not recognise deferred tax assets in respect of tax losses of certain PRC subsidiaries of RMB2,479,653,000 (2023: RMB2,308,652,000), as it is not probable that future taxable profits which the losses and deductible temporary differences can be utilised will be available. Included in unrecognised tax losses as at 31 December 2024 are losses of RMB370,603,000, RMB160,306,000, RMB207,878,000, RMB1,109,250,000, RMB631,616,000 that will be expired in 2025, 2026, 2027, 2028 and 2029, respectively (2023: RMB174,246,000, RMB370,249,000, RMB161,988,000, RMB240,823,000, RMB1,361,346,000 that will be expired in 2024, 2025, 2026, 2027 and 2028, respectively). Unrecognised tax losses amounting to RMB258,999,000 (2023: RMB544,672,000) was expired during the year ended 31 December 2024.

As at 31 December 2024, the Group did not recognise deferred tax assets in respect of deductible temporary differences, mainly arising from recognition of impairment losses on property, plant and equipment of certain PRC subsidiaries in loss-making position, of RMB167,292,000 (2023: RMB83,040,000), as it is not probable that future taxable profits which the losses and deductible temporary differences can be utilised will be available.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

30. DEFERRED TAXATION (CONTINUED)

(c) Deferred tax liabilities not recognised

Under the prevailing PRC income tax law and its relevant regulations, foreign corporate investors are levied PRC dividend withholding tax at 10%, unless reduced by tax treaties/arrangements, on dividends declared by PRC-resident enterprises for profits earned subsequent to 1 January 2008.

As at 31 December 2024, temporary differences relating to the undistributed profits of the Company's PRC subsidiaries amounted to RMB21,450,084,000 (2023: RMB21,245,391,000). Deferred tax liabilities of RMB2,145,008,000 (2023: RMB2,124,539,100) have not been recognised in respect of the tax that would be payable on the distribution of these retained profits as the Company controls the dividend policy of these subsidiaries and it has been determined that it is probable that these profits will not be distributed in the foreseeable future.

31. EQUITY SETTLED SHARE-BASED TRANSACTIONS

Pursuant to the written resolutions of the Company's shareholders passed on 14 June 2008, the Company has adopted the share option scheme (the "**Share Option Scheme**") whereby the directors of the Company are authorised, at their discretion, to invite employees of the Group, including directors of any company in the Group, and any customer or supplier or any persons who has contributed or will contribute to the Group, to take up options.

Pursuant to the written resolution of the Company's board of directors passed on 27 January 2015, the directors of the Company granted certain directors and employees of the Group to take up options to subscribe for 163,700,000 ordinary shares of the Company under the Share Option Scheme. The exercise price of these options is HKD3.68, being the average closing price of the Company's ordinary shares immediately before the grant. These share options were vested six months after being granted and would be exercisable until 26 January 2025. The 163,700,000 options granted by the Company on 27 January 2015 do not include the 43,600,000 options which were conditionally granted to Mr. Zhang Caikui and Mr. Zhang Bin, the ex-directors of the Company. According to the Listing Rules and the Share Option Scheme of the Company, the options granted to Mr. Zhang Caikui and Mr. Zhang Bin required the approval of the shareholders of the Company at an extraordinary general meeting of the Company. However, up until the date of the approval of these consolidated financial statements, the required extraordinary general meeting has not been held. As all the options granted on 27 January 2015 are subject to certain legal proceedings, the Company has given an undertaking on 6 January 2016 that it will not take any step to implement these options before a court decision is made. For details, please refer to the announcements of the Company dated 27 February 2015, 16 March 2015, 18 March 2015, 27 July 2015 and 29 March 2016. Accordingly, the options which were conditionally granted to Mr. Zhang Caikui and Mr. Zhang Bin have not been granted. (b) Dividends

The Board does not recommend the payment of any final dividends for the years ended 31 December 2024 and 2023.

(c) Nature and purpose of reserves

(i) Share premium

The application of the share premium account of the Company is governed by the Companies Law (Revised) of the Cayman Islands.

(ii) Statutory reserves

Statutory reserves of the Group were established in accordance with the relevant PRC rules and regulations and the articles of association of the companies comprising the Group which are incorporated in the PRC. Appropriations to the reserves were approved by the respective boards of directors. The statutory reserves consist of statutory reserve funds and maintenance and production funds.

For the entities concerned, statutory reserves fund can be used to offset accumulated losses, if any, and may be converted into capital in proportion to the existing equity interests of investors, provided that the balance after such conversion is not less than 25% of the registered capital.

According to relevant PRC regulations, the subsidiaries are required to appropriate to a specific statutory reserve to provide funds for maintenance and production and other related expenditures at fixed rates based on relevant bases, such as production volume. The maintenance and production fund could be utilised when expenses or capital expenditures on production maintenance and safety measures are incurred. The amount of maintenance and production funds utilised would be transferred from the specific statutory reserve account to accumulated profits.

(c) Nature and purpose of reserves (Continued)

(iii) Other reserves

Other reserves of the Group mainly include:

- (a) the differences of consideration over the net assets of subsidiaries acquired under common control in 2005;
- (b) the differences of consideration over the net assets of non-controlling interests acquired by Shandong Shanshui in 2005;
- (c) the difference between the nominal value of the share capital of the Company and the nominal value of the share capital and share premium of China Shanshui (HK) on the Share Swap; and
- (d) the difference between the considerations of acquisition or disposal of equity interests from/to non-controlling equity owners and the carrying amount of the proportionate net assets.

(iv) Exchange reserve

The exchange reserve of the Group comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations.

32. CAPITAL, RESERVES AND DIVIDENDS (CONTINUED)

(d) Distributability of reserves

Under the Companies Law of the Cayman Islands, the funds in the share premium account net of the accumulated losses account of the Company are distributable to the shareholders of the Company provided that immediately following the date on which the dividend is proposed to be distributed, the Company will be in a position to pay off its debts as they fall due in the ordinary course of business.

Any distributions proposed by the directors of the Company is subject to the approval of the Company's shareholders at the annual general meeting and all necessary order and approval from the Grand Court given the outstanding winding-up petition against the Company.

(e) Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for equity shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The Group monitors its capital structure on the basis of the net gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total debt (including all bank loans and other borrowings, if any, as shown in the consolidated statement of financial position) less bank balances and cash. Total capital is calculated as total equity plus net debt.

(b) Financial risk management objectives and policies

Exposure to credit, liquidity, interest rate and currency risks arises in the normal course of the Group's business. The Group is also exposed to equity price risk arising from its equity investments in other entities and movements in its own equity share price.

The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

34. FINANCIAL INSTRUMENTS (CONTINUED)

(b) Financial risk management objectives and policies (Continued)

(i) Credit risk and impairment assessment

The Group's credit risk is primarily attributable to trade and bills receivable and other receivables. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis.

Generally, the Group requires full payment upon delivery of goods for sales of cement, clinker and aerated bricks. Credit sales with general credit period of 30 to 60 days are allowed to certain selected customers with good credit histories and significant transaction amount. Settlement with bills receivables with maturity within three to six months is also acceptable. For sales of pipes and concrete, the Group allows a credit period ranging from 90 days to 180 days.

The Group generally does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

In respect of trade receivable for sales of cement, clinker and aerated bricks, individual credit evaluations are only performed when the customers required credit. In respect of trade receivable for sales of pipes and concrete, individual credit evaluations are performed on all customers requiring credit over a certain amount. In order to minimise the credit risk, the management has delegated a team to be responsible for evaluations and determination of credit limits and credit approvals. These evaluations focus on the customer's construction project size, the customer's payment history which takes into account of information specific to the customer, as well as pertaining to the economic environment in which the customer operates. For sales of pipes and concrete, debtors with balances that are more than six months past due are requested to settle all outstanding balances before any further credit is granted. In addition, the Group performs impairment assessment under ECL model on trade balances individually or based on provision matrix. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The bills receivables are all issued by reputable banks of good credit quality. The management considered the credit risk of these bank issued bills is insignificant and no impairment was provided on them at the year end.

The credit risks on restricted bank deposits, fixed bank deposits and bank balances are limited because the counterparties are banks/financial institutions with high credit ratings assigned by international credit-rating agencies.

(i) Credit risk and impairment assessment (Continued)

The Group's concentration of credit risk by geographical location is mainly in the PRC as of 31 December 2024 and 2023. Other than that, the Group does not have any other significant concentration of credit risk.

The Group's internal credit risk grading assessment comprises the following categories:

Internal credit rating	Description	Trade and bills receivables	Other financial assets
Low Risk	The aging of the exposure at default ("EAD") is less than 60 days. Based on management's assessment of debtor's typical project and payment processes, aging of EAD of less than 60 days is considered current.	Lifetime ECL— not credit-impaired	12m ECL
Fair Risk	The aging of EAD is less than 1 year. Based on management's assessment of debtor's typical payment process in the industry, aging of EAD of less than 1 year is considered reasonable.	Lifetime ECL— not credit-impaired	12m ECL
Substandard	The risk of non-payment increases as the time period is longer than normal expected process.	Lifetime ECL— not credit-impaired	Lifetime ECL— not credit-impaired
Doubtful	Indicates the aging of the debtor is within 2 years, the recovery of complete payments may be difficult.	Lifetime ECL— credit-impaired	Lifetime ECL— credit-impaired
Loss	Indicates the aging of the debtor is more than 2 years, the recovery of complete payment becomes unlikely.	Lifetime ECL— credit-impaired	Lifetime ECL— credit-impaired

Trade receivables

As part of the Group's credit risk management, the Group applies internal credit rating for its customers in relation to its business operation. The Group measures loss allowance for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significant different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

The following table provides information about the Group's exposure to credit risk and ECLs for trade receivables as at 31 December 2024 and 2023:

The estimated loss rates are estimated based on evaluation of collectability and on management's judgment, including the current creditworthiness and the past collection statistics in respect of the debtors and are adjusted for forward-looking information (considering the weighted impact to the loss rates caused by industry change, growth in economy, etc., with reference to statistical data from professional institutes) that is available without undue cost or effort. The grouping is regularly reviewed by management to ensure relevant information about specific debtor is updated.

Other receivables

Deposits and amounts due from related parties, which are measured at amortised cost were considered of low credit risk, and thus the impairment provision recognised during the year was limited to 12m ECL.

For amounts due from third parties and other receivables, the management makes periodic individual assessment on the recoverability based on historical settlement records, past experience, quantitative and qualitative information that is reasonable and supportive forward-looking information.

As at 31 December 2024, included in amounts due from third parties are amounts due from the former shareholders of certain subsidiaries of the Group, of aggregate gross carrying amounts of RMB303,616,000 (2023: RMB303,616,000). The former shareholders were in financial difficulties and the management considers the probability of default is significant in view that these amounts have been overdue for a long period of time. Accordingly, loss allowance of RMB303,616,000 (2023: RMB303,616,000) was provided for these amounts as at 31 December 2024 and 2023.

For the remaining balances of amounts due from third parties and other receivables of aggregate gross carrying amounts of RMB801,185,000 (2023: RMB937,580,000), the management considers the probability of default by assessing the counterparties' financial background and creditability and accordingly, loss allowance of approximately RMB303,085,000 (2023: RMB293,201,000) was provided for as at 31 December 2024.

(ii) Liquidity risk

The Group's objective is to ensure continuity of sufficient funding and flexibility by utilising a variety of bank and other borrowings with debt maturities spreading over a range of periods, so that the Group's outstanding borrowing obligation is not exposed to excessive repayment risk in any one year.

Shandong Shanshui and the Company are responsible for the Group's overall cash management and the raising of borrowings in the mainland China or overseas market to cover expected cash demands. The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

(iii) Interest rate risk

Cash and cash equivalents, pledged bank deposits and bank loans are the major types of the Group's financial instruments subject to interest rate risk.

The Group is exposed to fair value interest rate risk in relation to fixed rate bank loans (see below for details). The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank balances (see note 23 for details) and variable-rate bank loans (see below for details). The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of base rate announced by the People's Bank of China or applicable market rates arising from the Group's Renminbi denominated borrowings. The management does not anticipate fluctuation of interest rate to have significant impact to cash and cash equivalents and pledged bank deposits because the interest rates of the bank deposits are not expected to change significantly. The Group manages its interest rate exposures by assessing the potential impact arising from any interest rate movements based on interest rate level and outlook. The management will review the proportion of borrowings in fixed and floating rates and ensure they are within reasonable range.

(iii) Interest rate risk (Continued)

Sensitivity analysis

The sensitivity analysis above indicates the instantaneous change in the Group's loss or profit for the year (and accumulated profits) that would arise assuming that the change in interest rates had occurred at the end of the reporting period and in respect of the exposure to cash flow interest rate risk arising from variable-rate bank loans of the Group at the end of the reporting period. Bank balances are excluded from sensitivity analysis as the management considers that the exposure of cash flow interest rate risk arising from variable-rate bank balances is insignificant. The impact on the Group's loss or profit for the year (and accumulated profits) is estimated as an annualised impact on interest expense or income of such a change in interest rates. The analysis is performed on the same basis for 2023 and 2024.

At 31 December 2024, it is estimated that a general increase/decrease of 100 basis points in interest rates, with all other variables held constant, would increase/decrease the Group's loss for the year (and decrease/increase accumulated profits) by approximately RMB19,631,000 (2023: increase/decrease the Group's loss for the year (and decrease/increase accumulated profit) by RMB18,503,000). Other components of consolidated equity would not change in response to the general increase/decrease in interest rates.

(iv) Currency risk

The Group does not have significant currency risk.

The Group did not hedge its foreign currency exposure other than by retaining its foreign currency denominated earnings and receipts to the extent permitted by the State Administration of Foreign Exchange. However, the management monitors foreign exchange exposure and will consider hedging significant foreign exchange exposure should the need arises.

34. FINANCIAL INSTRUMENTS (CONTINUED)

(b) Financial risk management objectives and policies (Continued)

(v) Equity price risk

The Group is exposed to equity price changes primarily arising from the investments in equity securities measured at FVTPL (see note 18).

For equity securities measured at FVTPL quoted in the Shanghai Stock Exchange, the investments have been chosen by the management based on its longer term growth potential and are monitored regularly by the management for performance against expectations.

For unquoted equity securities measured at FVTPL, they are susceptible to market price risk arising from uncertainties about future values of those instruments. The management provides the Group with internal investment recommendations. To manage the price risk, the management reviews the performance of the portfolio companies on a semi-annual basis and is in regular contact with the management of the portfolio companies for business and operational matters. Results of these reviews are reported regularly to the board of directors.

At 31 December 2024, it is estimated that an increase/decrease of 50% (2023: 50%) in the relevant stock price of the listed investment with all other variables held constant, would have decreased/increased the Group's loss for the year (and increased/decreased accumulated profit) by RMB3,738,000 (2023: decreased/increased loss for the year (and increased/decreased accumulated profits) by RMB2,762,000) as a result of the change in the stock price of the listed investments.

The sensitivity analysis indicates the instantaneous change in the Group's loss or profit for the year and accumulated profits that would arise assuming that the changes in the stock price had occurred at the end of the reporting period and had been applied to re-measure those financial instruments held by the Group which expose the Group to equity price risk at the end of the reporting period. It is also assumed that the fair values of the Group's equity investments would change in accordance with the historical correlation with the relevant stock price, that none of the Group's financial assets at FVTPL would be considered impaired as a result of the decrease in the relevant stock price, and that all other variables remain constant. The analysis is performed on the same basis for 2023 and 2024.

34. FINANCIAL INSTRUMENTS (CONTINUED)

(c) Fair value measurements of financial instruments

This note provides information about how the Group determines fair values of various financial assets and liabilities.

(i) Fair value measurement and valuation process

Some of the Group's financial instruments are measured at fair value for financial reporting purposes. The management will determine the appropriate valuation techniques and inputs for fair value measurements.

In estimating the fair value, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party qualified valuers to perform the valuation. The management works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model.

(ii) Fair value of the Group's financial assets that are measured at fair value on a recurring basis

Some of the Group's financial assets are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets are determined (in particular, the valuation technique(s) and inputs used).

Financial assets	Fair value as at		Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable inputs	Relationship of unobservable inputs to the fair value
	31/12/2024	31/12/2023

36. CONTINGENT LIABILITIES AND OTHER EVENTS

(a) Litigation contingencies

As at 31 December 2024, several litigation claims had been initiated by certain suppliers against the Group to demand immediate repayment of the outstanding balance in relation to certain sales contract of cement and other products with an aggregate amount of RMB40,412,000 (2023: RMB54,781,000), which claims have not yet been concluded. No provision for these litigation claims was made in these consolidated financial statements during the year ended 31 December 2024 as in the opinion of the directors of the Company, the possibility of an outflow of economic resources cannot be reliably determined.

(b) Litigation in the Cayman Islands

The Company is facing a winding-up petition (the “**Cayman Petition**”) before the Grand Court. The Cayman Petition was filed by one of the shareholders of the Company, Tianrui (International) Holding Company Limited (“**Tianrui**”). The Company has appointed legal counsel in relation to the Cayman Petition.

- (i) The Company was served on 4 June 2019 with a Writ of Summons issued on 27 May 2019 in the Grand Court (the “**Writ**”). The Writ has been issued also by Tianrui, seeking (i) orders setting aside the Company's issue of certain convertible bonds, issued on or about 8 August 2018 and 3 September 2018, the subsequent conversion of the bonds on 30 October 2018 and/or the allotment of the Company's shares to the holders of such convertible bonds; and/or (ii) declarations setting aside the issue and subsequent conversion of the bonds. The orders sought by way of the Writ have since been amended (see below). The Company considers that there is no reasonable basis for the orders and/or declarations sought and will vigorously defend itself against the Writ and Tianrui's claim.

On 1 July 2022, the Cayman Islands Court of Appeal delivered its judgment ordering that the Writ be struck out as defective. The Certificate of the Order of the Court of Appeal was issued on 14 September 2022. However, the Court of Appeal did leave it open to Tianrui to reconstitute the Writ as a derivative claim.

On 11 October 2022, the Court of Appeal granted Tianrui leave to appeal to Privy Council against its decision. On 23 December 2022, Tianrui filed a notice of appeal to the Privy Council against the decision of the Court of Appeal. Tianrui's appeal is still pending and has not yet been heard.

36. CONTINGENT LIABILITIES AND OTHER EVENTS (CONTINUED)

(b) Litigation in the Cayman Islands (Continued)

- (ii) On 17 December 2020, the Grand Court heard a court summons for directions ("**Summons**") taken out by Tianrui on 26 August 2020 in connection with the Cayman Petition. At the hearing of the Summons, Tianrui sought leave to re-amend the Cayman Petition, notably in order to join China National Building Material Company Limited ("**CNBM**") and Asia Cement Corporation ("**ACC**") as respondents to the Cayman Petition. CNBM and ACC are currently shareholders of the Company.

In its judgment dated 27 January 2021, the Grand Court ordered that CNBM and ACC be joined as respondents to the Cayman Petition, and that the Cayman Petition be served on CNBM and ACC.

On 19 March 2021, the Cayman Petition was served on CNBM and ACC. Thereafter, at a further hearing of the Summons on 16 July 2021, the Grand Court ordered that the Cayman Petition be treated as an inter-party proceeding between Tianrui, CNBM and ACC, save that the Company may also participate for the purpose of discovery and to be heard regarding the appropriate remedy should the Cayman Petition be granted. At the hearing, Tianrui conceded that the only relief it was seeking in the winding-up proceedings was the liquidation of the Company and was ordered to amend its Cayman Petition accordingly. The Grand Court also granted leave to Tianrui to amend the Writ to confine the relief it is seeking to declarations that (i) the exercise by the Company's directors of the power to issue certain convertible bonds on or about 8 August and/or on about 3 September 2018 was not a valid exercise of the said power; (ii) the exercise by the directors on 30 October 2018 of the power to convert the aforesaid bonds and the power to issue new shares was not a valid exercise of the said powers; (iii) the exercise by the directors of the power to issue all other shares and securities in the Company after 1 August 2018 was not valid exercise of the said power.

The hearing took place on 23 May 2022 following which the Grand Court settled the list of issues between the parties to the Cayman Petition for the purposes of discovery. Parties attended a case management hearing on 22 November 2022 and made further written submissions on 3 February 2023 to settle outstanding issues in relation to discovery. The Grand Court delivered rulings on 17 October 2023 and 26 October 2023, and a judgment dated 30 October 2023, regarding the scope of discovery. The Grand Court also made an order dated 7 February 2022 containing directions for discovery, and an order dated 9 April 2024 in respect of the search parameters for discovery and costs of discovery.

36. CONTINGENT LIABILITIES AND OTHER EVENTS (CONTINUED)

(c) Litigation in Hong Kong

On 18 July 2023, the Company announced that the Company and its subsidiaries, namely China Shanshui Cement Group (Hong Kong) Company Limited ("**CSC HK**") and China Pioneer Cement (Hong Kong) Company Limited ("**Pioneer**"), were served with a writ of summons dated 28 June 2023 under the action number HCA 1013 of 2023 (the "**Writ of Summons**") issued by Tianrui Group Company Limited ("**Tianrui Group**") in the Court of First Instance of the High Court of the Hong Kong Special Administrative Region. Subsequently, the Writ of Summons was also served on Shandong Shanshui Cement Group Company Limited ("**Shandong Shanshui**"), another wholly-owned subsidiary of the Company.

In the Writ of Summons, Tianrui Group alleges that it extended loans to the Company, CSC HK, Pioneer and Shandong Shanshui (collectively, "**CSC Group**") with the alleged outstanding amount (see note 38(b)(ii)) (the "**Alleged Loans**") as described in the announcement published by the Company on 18 July 2023, and claims for repayment of the Alleged Loans.

In its Defence and Counterclaim filed on 3 January 2024, CSC Group denies on substantial grounds that Tianrui Group is entitled to claim for repayment of the Alleged Loans, and counterclaims against Tianrui Group for (and is therefore in any event entitled to set off the Alleged Loans against) damages and/or equitable compensation as a result of the unlawful means conspiracy committed by Tianrui Group and other parties with the intention of injuring CSC Group and its subsidiaries during the period from 2015 to 2018. CSC Group's counterclaim in this action is substantially based on its claim against Tianrui Group and other parties in HCA 548 of 2019. Accordingly, CSC Group has made an application to the Court on 25 April 2024 for consolidation of this action with HCA 548 of 2019, and/or for the two actions to be heard together and/or one after the other before the same judge (the "**Hearing Together Summons**"). All parties in HCA 548 of 2019 are neutral to the Hearing Together Summons, except Tianrui Group, Tianrui (International) Holding Company Limited, Li Liufa and Ho Man Kay, Angela.

Meanwhile, on 28 February 2024, Tianrui Group also made an application to the Court to strike out CSC Group's counterclaim in this action allegedly, inter alia, on the ground that CSC Group's counterclaim in this action and its claim in HCA 548 of 2019 are duplicated (the "**Strike-Out Summons**"). CSC Group considers that the application is baseless, and will contest strenuously. The substantive hearing of the Hearing Together Summons and the Strike-Out Summons is fixed to be heard together on 30 April 2025.

Other than the disclosure of the above, as at 31 December 2024, as far as the Group was aware, the Group had no other material litigation or claim which was pending or threatened against the Group. As at 31 December 2024, the Group was the defendant of certain non-material litigations, a party to certain non-material litigations, and also a party to certain litigations arising from the ordinary course of business. The likely outcome of these litigations or other legal proceedings cannot be ascertained at present, but the directors believe that any possible legal liability which may be incurred from the aforesaid cases will not have any material impact on the financial position of the Group.

– Comparable trade payables that are not part of supplier finance arrangements	30-180	N/A	N/A

Changes in liabilities that are subject to supplier finance arrangements are primarily attributable to additions resulting from purchases of goods and services and subsequent cash settlements. During the year, borrowings under supplier finance arrangement of RMB806,000,000 (2023: RMB1,080,000,000) represent the payments to the suppliers by the relevant banks directly. There were no other material non-cash changes in these liabilities.

Remark: The above disclosures are required by the amendments to IAS 7 and IFRS 7 Supplier Finance Arrangements. The comparative information that is not required to be presented by the Group in the current year as a result of application of the transition relief is marked as "N/A" in the table. where IAS 7.44H(b)(i) requires information to be presented at the beginning of the reporting period, this is shown in the 31/12/2023 column.
