Accelerating Overseas Energy Expansion: Forging an International Industrial Landscape

Under the context of the global energy transition and the deepening of the Belt and Road Initiative, GCL New Energy is strategically accelerating its overseas energy expansion with a global vision, and building a diversified international energy landscape. In 2024, aligning with domestic and international economic trends and industry developments, GCL New Energy has meticulously planned its future industrial layout. By focusing on the "Integration of Terminal and Trade (站貿一體化)" strategy, the Company aims to establish a vertically diversified industrial system, expedite internationalisation, and carve out a new frontier for "Global GCL".

ZHU Gongshan
(Chairman)

Integration of Terminal and Trade Strategy: Establishing a Vertical and Diversified Industrial System

As global energy transitions accelerate and natural gas gains prominence, the international natural gas trade market faces unprecedented opportunities. Since the formal establishment of "dual-carbon" goals, driving societal and economic transformation toward green and low-carbon practices has become an inevitable trend. In this transition, clean energy development definitely lies at the core. Among clean energy sources, natural gas, with its high calorific value and relatively low carbon emissions, has emerged as a pivotal energy source for green transformation. The growing demand from emerging markets, particularly in China, further broadens the market potential for natural gas utilisation.

Starting from 2023, GCL New Energy began its transition to a dual-core strategy of "solar power plus natural gas". On one hand, the Company continues to refine its decade-long expertise in solar energy, focusing on post-market services with excellence and high quality and enhancing integrated service capability in clean energy sector and is dedicated to providing high-quality integrated consultancy services for solar and other clean energy projects. On the other hand, GCL New Energy has entered the natural gas trade sector through strategic business layouts and talents acquisition in the natural gas sector. Leveraging Golden Concord Group's upstream oil and gas resources in Ethiopia, GCL New Energy has integrated natural gas trade operations based on core assets of domestic LNG receiving terminals to implement the "Integration of Terminal and Trade" strategy, realising business diversification and sustainable growth.

Chairman's Statement

Positioning natural gas as its “second growth engine”, GCL New Energy has made significant strides in this sector. In October 2024, GCL Natural Gas (Singapore) Pte. Ltd. (協鑫天然氣(新加坡)有限公司) was established in Singapore. Its first self-imported LNG shipment arrived at Beijing Gas Tianjin Nangang LNG Terminal on 31 October 2024. The gas trading team is actively building an international resource pool through procuring long-term and short-and-medium term procurement contracts, actively engaging in global trade and derivatives transactions. In preparation for the production and operation of the GCL Rudong LNG Project, GCL New Energy has planned in advance and is securing third-party partnerships for terminal facility leasing and utilisation, has steadily procured the signing of medium to long term utilisation agreements of terminals with its strategic partners to obtain additional resources for “terminal-trade” business operations, ensuring seamless integration of the procurement and sales of domestic and international trade to enhance the market influence of GCL New Energy. On the other hand, we are steadily promoting the signing of long-term contracts of international LNG procurement and actively establishing business partnerships with international first-class enterprises and domestic industry-leading enterprises in order to acquire international LNG resources and carry out self-managed trading, thereby increasing the self-utilisation rate of Rudong Receiving Terminal during the window period. Meanwhile, GCL New Energy is actively developing downstream clients, including city gas distributors, traders, industrial point-to-point gas supply, and integrated logistics and trading companies and gas stations to build a closer natural gas supply chain system to ensure the stable operation of receiving terminals.

Technology-Driven Innovation and Digital Intelligence Empowerment: Leading the New Trend of Overseas Energy Expansion

As global energy transition accelerates, the solar industry, central to renewable energy, is undergoing rapid technological evolution and market restructuring. Supply chain policies of “de-sinicization (去中國化)” in Europe and the U.S., aimed at reducing reliance on the supply chain in China, are compelling solar enterprises in China to expedite overseas expansion. With rising global demand for green energy, “energy globalisation” has become a defining theme of this new era.

In recent years, GCL New Energy has actively built overseas marketing teams, leveraging its intra-group projects and partnerships with state-owned and central government-owned enterprises in Africa and Southeast Asia to expand its global footprint. Through technological innovation and cost optimisation, the Company has solidified its leadership in the international solar sector. Our independently developed “Xinyilian (鑫翼連)” energy management platform V3.0, is officially launched after it is having refined over a decade and three iterations covering 4 units, 8 functions and 178 models, and now it offers a comprehensive digital intelligent solution covering wind, solar, storage, charging, and virtual power plants. This platform covers an integrated energy multi-sector, creating a mature and stable new ecology of full life cycle green operation. It can provide efficient remote monitoring and maintenance of overseas operational sites through digitalisation and intelligence in future.

Diverse Talents Integration and Organisational Innovation: Driving Business Strategic Transformation

Talents remain as the cornerstone of corporate development. In our global journey, the Company emphasises local talent cultivation and recruitment, and enhances professional expertise through training and team-building initiatives to provide localised operations with strong talent support. Aligning with the Group's "globalisation" strategy, the Company has adopted a "flat organisational structure" and "decentralised management", employing a hybrid talent model that combine "internal redeployment, industry recruitment, local training, international hires, expert consultants, and third-party services" to build up the talent pool for the support of professionals to the business operations.

Recognising disparities in market conditions, and policies and regulations among different countries and regions, localised operations enable the enterprises to gain deeper market insights and a good understanding of local cultures, and also have benefits to foster long-term partnerships with suppliers from upper, middles and down streams, thereby better addressing local demands of market development to mitigate operational risks. The Company has formulated a global natural gas branding strategy, adopting "internationalisation with localisation" operation strategy to engage targets effectively. The project of "ESG + Brand Culture" focuses on integrating into local culture, respecting local customs and values, enhancing contact and interaction with local society through cultural integration, spreading Chinese culture and attracting excellent foreign culture to create a diversified, equal and inclusive brand culture, and enhances employees' sense of belonging.

2025 marks the conclusion of China's 14th Five-Year Plan and the 35th anniversary of GCL's founding. With an unwavering sense of urgency, we will focus on our goals and stick to the mission, harness collective resolve, and overcome difficulties, implement every task with perseverance, build up the strength to weather headwind, and ignite the passion for a better future. Upholding green development and advancing strategic transformation of globalisation, we will demonstrate outstanding resilience and solid stability, delivering long term values to Shareholders and stakeholders. Through continuous reform in our industry, operations, management, and organisational structure, we will reignite the vitality of new energy, embracing changes while committing to our mission. GCL New Energy will seize the future by keeping itself on the right course with integrity, innovation and gaining momentum in the current trend of globalisation.

Management Discussion and Analysis

Overview

For the year ended 31 December 2024, loss attributable to owners of the Company for the year was RMB424 million, as compared to loss attributable to owners of the Company of RMB1,166 million in the last year. The decrease in loss for year ended 31 December 2024 was mainly attributable to the combined effect of the followings:

1. During the year ended 31 December 2024, the Group continued to expand the business of operation and management services for solar power plants. The customer base includes solar power plants which the Group newly engaged during the year and certain solar power plants previously owned by the Group. As at 31 December 2024, the Group had entered into contracts to provide operation and management services for solar power plants with total install capacity of approximately 12.5GW, representing a 74% increase in volume compared to a capacity of approximately 7.2GW as at 31 December 2023. The revenue of solar power plants operation and management service increased by RMB44.7 million, from RMB227.9 million to RMB272.6 million for the year ended 31 December 2024. The increase in revenue and volume of the operation and management service reinforce the Group's direction and transition into an asset-light enterprise.

The grid connected capacity of solar power plants operated by the Group decreased for 62% from 133MW as at 31 December 2023 to 50MW as at 31 December 2024 following the Group's disposal of subsidiaries in North Carolina, US which owned solar photovoltaic facilities of 83MW. The sales volume of electricity and the revenue from electricity generation of the Group decreased by 78.4% and 84.4% respectively. The revenue of electricity sales and tariff adjustment decreased by RMB488.1 million, from RMB578.2 million to RMB90.1 million for the year ended 31 December 2024.

During the year ended 31 December 2024, the Group entered into LNG market by expanding the trading business of LNG and related products. The Group generated sales income by trading of LNG and related products of RMB730 million (31 December 2023: RMB8.6 million).

2. the decrease in administrative expenses by 36.6%, from RMB424.8 million to RMB269.4 million, is mainly due to decrease in staff cost, depreciation and other general administrative expenses associated with disposed solar power plants during 2023;
3. the exchange gain of RMB3.8 million for the year ended 31 December 2024, as compared to the exchange loss of RMB38.3 million for the year ended 31 December 2023, the exchange gain is mainly caused by the appreciation of USD against RMB for USD denominated assets of the Group;
4. the decrease in finance costs of RMB392.5 million from RMB443.9 million for the year ended 31 December 2023 to RMB51.4 million for the year ended 31 December 2024, mainly due to the decrease in business scale of electricity sales after the Group's transition into an asset-light enterprise and repayment of debts.

Business Review

1. Solar Power Plants Operation and Management Service

During the year ended 31 December 2024, the Group provided operation and management services for solar power plant projects and generated management service income. The Group also provided other supporting services such as procurement and technical consultation service. As at 31 December 2024, the Group had entered into contracts to provide operation and management services for solar power plants with total installed capacity of approximately 12.5GW (31 December 2023: 7.2GW). Details of operation and management service income for the year ended 31 December 2024 are set out below.

| | Revenue RMB'000 |
|---|--------------------|
| Solar power plants operation and management services income | 272,577 |
| Solar related supporting services income | 15,150 |
| Total | 287,727 |

2. Electricity Generation and Capacity

As at 31 December 2024, the grid-connected capacity of the Group's subsidiary power plants was approximately 50MW (31 December 2023: 133MW). Details of capacity, electricity sales volume and revenue for the year ended 31 December 2024 are set out below.

| Subsidiaries by location | Electricity Sales Volume (thousand kWh) | Average Tariff (Net of Tax) (RMB/kWh) | Revenue (RMB thousand) |
|------------------------------|---|---|---------------------------|
| China | 14,921 | 0.48 | 7,178 |
| US | 190,138 | 0.44 | 82,879 |
| Total of Subsidiaries | 205,059 | 0.44 | 90,057 |

Note: As at 31 December 2024, the assets and liabilities attributable to the solar power plant project of Dengkou GCL located at Inner Mongolia, China have been classified as a disposal group held for sale.

The revenue of solar power plants located in China is mainly contributed by the subsidiaries of State Grid Corporation of China ("State Grid"). The State Grid is a State-owned enterprise in China, which possesses low default risk. Therefore, the Directors considered that the credit risk of trade receivables was minimal.

Management Discussion and Analysis

3. LNG and Related Business

During the year ended 31 December 2024, the Group entered into LNG market by expanding its trading business of LNG and related products. The Group generated sales income by trading of LNG and related products of RMB730 million (31 December 2023: RMB8.6 million).

During the year ended 31 December 2024, the Group's total sales volume of the LNG trading business was approximately 445,000 tonne. The Group's continual penetration into the LNG trading market is witnessed by the increase in sales volume during the year.

The Group entered into trading contracts with a total income of RMB1,750 million (31 December 2023: RMB95 million), whereas the Group recognised revenue from contracts with external customers, acting as a principal, amounting to approximately RMB728.3 million (31 December 2023: RMB8.3 million), relating to trading of LNG and related products. The Group recognised revenue from contracts with external customers, acting as an agent, amounting to approximately RMB1.7 million (31 December 2023: RMB0.3 million), relating to trading of LNG and related products.

Financial Review

Revenue and Gross Profit

For the year ended 31 December 2024, the Group's revenue was mainly derived from (i) service income from the provision of the solar power plants operation, management and related supporting services; (ii) solar power electricity generation; and (iii) income from trading of LNG and related products business. The table below sets forth an analysis of the Group's revenue:

| | Year ended 31 December | |
|---|------------------------|----------------|
| | 2024 | 2023 |
| | RMB'000 | RMB'000 |
| Revenue | | |
| – Solar power plants operation, management and related supporting service | 287,727 | 244,695 |
| – Sales of electricity and tariff adjustments | 90,057 | 578,208 |
| – LNG and related products trading business | 729,971 | 8,617 |
| | 1,107,755 | 831,520 |

The increase in revenue was mainly attributable to the combined effect of the drop of sales of electricity and tariff adjustments due to the disposal of solar power plants during 2023 and the increase in LNG business related income during 2024.

The grid-connected capacity of solar power plants of the Group decreased from 133MW as at 31 December 2023 to 50MW as at 31 December 2024 following the Group's disposal of subsidiaries in North Carolina in the US which owned solar photovoltaic facilities of 83MW. The average tariff (net of tax) for the Group was approximately RMB0.44/kWh (2023: RMB0.49/kWh).

Management Discussion and Analysis

The Group's gross margin for the year ended 31 December 2024 was 11.5%, as compared to 45.8% for the year ended 31 December 2023. The drop in gross margin is due to relatively lower gross profit margin for LNG and related products trading business in the current year. The cost of sales mainly consisted of purchase cost of LNG and related products which accounted for 78% of the cost of sales, with the remaining costs being depreciation, operation and maintenance costs of solar power plants, etc.

Other Income

During the year ended 31 December 2024, other income mainly included imputed interest arising from receivables containing significant financing component of RMB65.8 million (2023: RMBNil), interest income from related companies of RMB15.6 million (2023: RMBNil) and interest income from former subsidiaries of RMB3.9 million (2023: RMB42.7 million).

Administrative Expenses

The administrative expenses mainly included staff costs, rental expenses and legal and professional fees. Administrative expenses decreased by 36.6% to RMB269.4 million (2023: RMB424.8 million) for the year ended 31 December 2024. The decrease in administrative expenses was mainly due to decrease in staff costs, depreciation and other general administration expenses after certain solar power plants were disposed in 2023.

Other gains and losses, net

During the year ended 31 December 2024, the net loss amounted to RMB66.6 million (2023: RMB414.6 million). The net loss for 2024 was mainly due to gain on disposal of subsidiaries of RMB8.2 million (2023: loss of RMB394.9 million), and exchange gain of RMB3.8 million (2023: exchange loss of RMB38.3 million) caused by the appreciation of USD against RMB for USD denominated assets of the Group.

Impairment loss on expected credit loss model, net of reversal

During the year ended 31 December 2024, the impairment loss on expected credit loss model, net amounted to RMB148 million (2023: RMB156 million), consists of (i) RMB87 million (2023: RMB19 million) for on-grid electricity guarantee, (ii) RMB24 million (2023: RMBNil) for consideration receivable of disposal of solar power plant projects, and (iii) RMB26 million (2023: RMBNil) for provision of loss allowance of other debtors, (iv) RMB23 million (2023: reversal of RMB76 million) for expected credit loss on other receivables and deposits, and (v) 2023 amounts mainly included construction payable adjustment and expected credit loss of amount due from related companies which were not noted in current year, details of which are set out as follows:–

(i) On-grid electricity guarantees of approximately RMB87 million (2023: RMB19 million)

As part of the terms of the deal to attract the purchasers to acquire the Group's power plants and continue to appoint the Group as an operation and management services provider, if the relevant electricity sale volumes and revenues for the subject solar power plants for each agreed period (ranging from two to five years depending on the agreed terms) are less than the agreed minimum sale volumes and revenues, the purchaser will be entitled to the on-grid electricity guarantee compensation and the balance to be paid to the Group would be adjusted against the balances of the amounts due to the Group accordingly.

Management Discussion and Analysis

(ii) Consideration receivable of disposal of solar power plant projects of approximately RMB24 million (2023: RMBNil)

The amount represents consideration receivable from disposal of solar power plant projects since 2018 which are exceedingly long outstanding for over at least three to four years. The management of the Company made periodical individual assessment on the recoverability of the receivables by taking into account their past repayment history, financial position and overdue status. The management of the Company conducted actions to recover such receivables but unsuccessful and then considered to provide the expected credit loss on such amount.

(iii) Provision of loss allowance of other debtors of approximately RMB26 million (2023: RMBNil)

The amount represents provision of loss allowance of other debtors with which contact is lost, plus these other receivables were exceedingly long outstanding for over at least three to four years. The management of the Company had carried out actions to recover but were unsuccessful, as a result the management of the Company made the provision of loss allowance after individual assessment on the recoverability of such receivables.

Share of profits of associates

Share of profits of associates amounted to RMB111 million (2023: RMB112 million), mainly representing the share of profits from several partly held solar power plants.

Finance Costs

Total borrowing costs decreased by RMB392.5 million from RMB443.9 million to RMB51.4 million for the year ended 31 December 2024. The decrease was mainly due to the decrease in average borrowing balance as a result of the disposal of solar power plants during 2023 and repayment of debts. The interest-bearing debts has been decreased from RMB552 million as at 31 December 2023 to RMB452 million as at 31 December 2024.

Income Tax Expense

Income tax expense for the year ended 31 December 2024 was RMB4.2 million (2023: RMB15.2 million). There is a decrease in income tax expense because of the disposal of solar power plants during 2023, leading to decrease in taxable income.

Final Dividend

The Board does not recommend the payment of a final dividend for the year ended 31 December 2024 (2023: Nil).

Property, Plant and Equipment

Property, plant and equipment was RMB548.1 million and RMB903.9 million as at 31 December 2024 and 31 December 2023, respectively. The decrease was mainly due to the Group's disposal of subsidiaries in North Carolina, US which owned solar photovoltaic facilities of 83MW during 2024.

Amounts Due from Related Companies

As at 31 December 2024, amounts due from related companies of RMB1,268.1 million (31 December 2023: RMB1,453.3 million), mainly arose from the disposals of 36 subsidiaries ("2023 Disposal") that are principally engaged in the operation of solar power plants in the PRC. The amount were mainly consideration receivables arising from 2023 Disposal and liabilities owed by the former subsidiaries to the Group prior the disposal. The management of the Company have considered and factored in these outstanding liabilities when determining the consideration for the 2023 Disposal, and have agreed that the outstanding receivables will be paid by the counterparties based on the agreed payment arrangements as set out in the relevant share purchase agreements. The Company had published announcements in respect of the 2023 Disposal that constituted notifiable and connected transactions of the Company pursuant to Chapter 14 and 14A of the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules").

Trade and Other Receivables

As at 31 December 2024, trade and other receivables of RMB1,892.3 million (2023: RMB1,708.9 million) mainly included trade and bills receivables of RMB164.3 million (2023: RMB83.9 million) and consideration receivables from disposal of subsidiaries of RMB188.5 million (2023: RMB206.1 million), amounts due from former subsidiaries of RMB2,015.4 million (2023: RMB1,949.4 million), in which a deferred receivables of RMB817.8 million (2023: RMB700.9 million) were reclassified to non-current nature, as they are expected to be received within two years.

As at 31 December 2024, tariff adjustments receivables of RMB36 million including tariff adjustment of RMB36 million, for projects classified as held for sale (2023: RMB32 million including tariff adjustment of RMB32 million, for projects classified as held for sale), represents subsidy receivable from the government authorities in respect of the Group's solar power generation business.

Other Payables and Deferred Income

Other payables decreased from RMB780.4 million as at 31 December 2023 to RMB533.3 million as at 31 December 2024. Other payables and deferred income mainly consisted of payables for purchase of plant and machinery and construction cost of RMB17.6 million (2023: RMB36.4 million) and deferred income of RMB155 million (2023: RMB349.8 million).

Liquidity and Financial Resources

The Group adopts a prudent treasury management policy to maintain sufficient working capital to cope with daily operations. The funding for all its operations has been centrally reviewed and monitored at the Group level. The indebtedness of the Group mainly comprises bank and other borrowings and lease liabilities.

Management Discussion and Analysis

As at 31 December 2024, bank balances and cash of the Group were approximately RMB284.9 million (2023: RMB555.4 million), including bank balances and cash of RMB0.1 million, for projects classified as held for sale (2023: RMB1 million). For the year ended 31 December 2024, the Group's primary source of funding included cash generated from its operating activities and receipts of consideration receivable from disposal of subsidiaries with solar power plant projects.

Indebtedness and gearing ratio

Starting from 2019 onwards, the Group had adopted assets-light business strategy. The average gearing ratio of the Group became more stable and at an acceptable level since then.

The Group had a net current assets position of approximately RMB1,568.2 million as at 31 December 2024 (2023: RMB1,760.5 million).

The Group monitors capital based on the gearing ratio calculated by dividing the total liabilities by total assets. The gearing ratio as at 31 December 2024 and 31 December 2023 were calculated as follows:

| | 31 December 2024 RMB million | 31 December 2023 RMB million |
|-----------------------------------|---|------------------------------------|
| Total liabilities | 1,265 | 1,512 |
| Total assets | 6,094 | 6,506 |
| Total liabilities to total assets | 20.8% | 23.2% |

The Group's indebtedness was denominated in the following currencies:

| | 31 December 2024 RMB million | 31 December 2023 RMB million |
|--------------------------------|---|------------------------------------|
| Renminbi ("RMB") | 64 | 142 |
| United States dollars ("US\$") | 388 | 410 |
| | 452 | 552 |

Pledge of Assets

As at 31 December 2024, the following assets were pledged for bank and other facilities (other than those classified as held for sale) granted to the Group:

- property, plant and equipment of RMB518.6 million (2023: RMB872.3 million);
- bank and other deposits of RMB37 million (2023: RMB101.9 million); and

Besides, lease liabilities of RMB111.4 million (2023: RMB137.2 million) are recognised in respect of right-of-use assets amounting to RMB49.3 million (2023: RMB76.8 million) as at 31 December 2024.

Guarantees provided to Third Parties

As at 31 December 2024 as the guarantors, the Group provided back-to-back guarantees to third parties for certain bank and other borrowings taken out by certain third parties for project companies whereby the third parties held a substantial interest and the Group held a minority interest. The back-to-back guarantees held a maximum amount of RMB1,241 million (2023: RMB1,715 million). Besides, the Group also provided financial guarantees to financial institutions related to the existing financing of certain disposed subsidiaries during the transitional period. In accordance with the SPA, such financial guarantee will be released when these guarantees are replaced by the new buyers or the loan is repaid within the specific time as set out in the SPA. The financial guarantee in respect of the bank and other borrowings amounting to RMBNil million (2023: RMB1,259 million), out of which approximately RMBNil (2023: RMB367 million) is associated of connected persons which details has been disclosed in the announcement of the Company on 12 October 2023.

Capital Commitments

As at 31 December 2024 and 31 December 2023, the Group's capital commitments in respect of construction commitments relating to natural gas liquefaction plant contracted but not provided amounted to approximately RMBNil (2023: RMB106.7 million) and commitment of share capital of joint venture of approximately RMB24.5 million (2023: RMB24.5 million).

Significant Investment Held, Material Acquisition or Disposal of Subsidiaries and Affiliated Companies and Plans for Material Investment or Capital Assets

During the year ended 31 December 2024, there were no material acquisition or disposal of subsidiaries and affiliated companies by the Group.

Breach of loan agreement

As at 31 December 2024, the Company had not breached any terms of its loan agreements for loans that are significant to its operations.

Events After the Reporting Period

Please refer to note 44 to the consolidated financial statements for details.

Risk Factors and Risk Management

The Group's business and financial results of operations are subject to various business risks and uncertainties. The factors set out below are those that the management believes could affect the Group's financial results of operations differing materially from expected or historical results. However, there can be other risks which are immaterial now but could turn out to be material in the future.

1. Risk of market-based electricity price determination

With the accelerating reform of national renewable power pricing system, this allow market forces to determine renewable power pricing and would establish a pricing and settlement mechanism that supports the long-term sustainability. The Company's solar power plants operation and management service business will face the risk of market-based bidding transaction leading to a decrease in prices. The Company will conduct in-depth study on the business rules of market-based electricity trading, understand and master the relevant operating procedures, and increase the Company's volume of solar power plants operation and management service by actively participating in market-based trading, striving to maximise the interests of the Company.

2. Policy risk associated with tariff

Power tariff is one of the key earning drivers for the Group. The Group's results of operation could be affected by tariff and government subsidies for renewable energy. To minimise this risk, the Group's operation team pays close attention to changes of local and national energy policies, and will continue to implement related cost control measures in order to reduce the related risk exposure.

3. Risk of unpredictability of LNG and related product prices

Prices for natural gas, crude oil, and related products may fluctuate widely in response to relative changes in the supply and demand for such commodities. There are certain factors including macroeconomic conditions, oil policies of OPEC and other major oil-producing countries, geopolitics, etc which cast uncertainty over natural gas market. The predictability of oil and gas prices may impact the Group's business, cash flows and profits. The prolonged slump in oil and gas prices may also impact our long-term business strategies. The Group will perform overall management of related risks and respond to them at different levels, and strive to identify, prevent, handle and report them in a timely manner in order to mitigate the related risk, and will also implement cost control measures to reduce such risk exposure.

4. Risk of increasing difficulty for LNG trading market expansion

The Group face direct competition from major upstream competitors as the major upstream gas source suppliers continue to expand into downstream business, which increased the difficulty for the Group to penetrate into the market in the future. The Group will firmly adhere to the market-oriented philosophy, further optimise its resource mix, formulate sales strategies, continue to broaden market reach, and make full use of its resource and any potential synergy advantages to ensure the continual growth of gas trading volume.

5. Risk related to interest rate

Interest rate risk may result from fluctuations in bank loan rates. Any interest rate changes will have an impact on the Company's future capital expenditure and finance expenses, which in turn affect our operating results. Transformation into asset-light model is an effective way to reduce debts and interest rate exposure.

Management Discussion and Analysis

6. Foreign currency risk

As most of our business are located in the PRC, substantial of our revenues, capital expenditures, assets and liabilities are denominated in RMB. The Company uses US dollars to inject into US projects in the form of equity. As the Company has not purchased any foreign currency derivatives or related hedging instruments for hedging purpose, any changes in the exchange rate of foreign currency to RMB will have an impact on the Company's operating results.

7. Risk related to disputes with joint venture partners

Our joint ventures may involve us into risks associated with the possibility that our joint venture partners having financial difficulties or having disputes with us as to the scope of their responsibilities and obligations. We may encounter problems with respect to our joint venture partners which may have an adverse effect on our business operations, profitability and prospects.

Employee and Remuneration Policies

We consider our employees to be our most important resource. As at 31 December 2024, the Group had 1,075 employees (2023: 949 employees) in the PRC and overseas following the expansion of operation and management of solar power plants business. Employees are remunerated with reference to individual performance, working experience, qualification and the prevailing industry practice. Apart from basic remuneration and the statutory retirement benefit scheme, employee benefits include discretionary bonuses, with share options granted to eligible employees. Total staff costs (including Directors' emoluments, retirement benefits schemes contributions and share option expenses) for the year ended 31 December 2024 was approximately RMB223 million (2023: RMB251 million).

As at the date of this annual report, the biographies of our Directors are as follows:

Corporate Governance Report

The Company is committed to promoting high standards of corporate governance through its continuous effort in improving its corporate governance practices and process. The Board believes that sound and reasonable corporate governance practices are essential for sustainable development and growth, and safeguarding the interests and assets of the Group and enhancement of shareholders' value.

Compliance with Corporate Governance Code

Throughout the Reporting Period, the Company complied with the code provisions set out in the CG Code.

The Board

Board Composition

The Board currently consists of eleven members of which four are independent non-executive Directors, bringing in a sufficient independent voice and enhancing independent judgment. At least one of the independent non-executive Directors has appropriate professional qualifications or accounting or related financial management expertise throughout the Reporting Period. The other members of the Board comprise four executive Directors and three non-executive Directors.

The Directors during the Reporting Period and up to the date of this report (unless otherwise stated) were:

| Executive Directors | Non-executive Directors | Independent Non-executive Directors |
|---|------------------------------|-------------------------------------|
| Mr. ZHU Gongshan (<i>Chairman</i>) | Ms. SUN Wei | Mr. LEE Conway Kong Wai |
| Mr. ZHU Yufeng (<i>Vice Chairman</i>) | Mr. YEUNG Man Chung, Charles | Mr. WANG Yanguo |
| Mr. WANG Dong (<i>President</i>) | Mr. FANG Jiancai | Dr. CHEN Ying |
| Mr. GU Zengcai | | Mr. CAI Xianhe |

The Board's composition reflects an appropriate balance of skills, experience and diversity of perspectives among its members that are relevant to the Group's strategy, governance and business and contribute to the Board's effectiveness. In addition, two of the Board members are female directors, improving the gender diversity in the boardroom.

The names and biographical details of the Directors are set out in "Our Directors" of this annual report and available on the website of the Company. A list of all the Directors identifying their roles, functions and titles is available on the websites of the Company and the Stock Exchange.

Role and Responsibilities

The overall management of the Company's business is vested in the Board, which assumes the responsibility for leadership and control of the Company and the Directors are collectively responsible for promoting the long term success of the Group by directing and supervising the Company's affairs and overseeing the achievement of strategic plans to enhance shareholders' value. The Directors are aware of their duties to act in good faith and expected to make decisions objectively in the best interests of the Company.

Generally, the Board is responsible for all major aspects of the affairs of the Company, including:

- formulating long and short term strategies and reviewing of its financial performance, results and the effectiveness of the risk management and internal control systems;
- approving and authorising material transactions, including acquisition, investment, disposal of assets or setting dividend policies and capital expenditure;
- performing corporate governance functions in accordance with the CG Code, including formulating corporate governance policies, and reviewing and monitoring the corporate governance practices of the Group; and
- communicating with key stakeholders, including Shareholders and regulatory bodies.

The Board is responsible for maintaining proper accounting records so as to enable the Directors to monitor and disclose with reasonable accuracy the financial position of the Group. The Board updates the Shareholders on the operations and financial position of the Group through interim and annual results announcements as well as the publication of timely reports and announcements or other matters as prescribed by the relevant laws, rules and regulations.

During the Reporting Period, the Board has regularly reviewed the contributions from the Directors and confirmed that they have devoted sufficient time performing their responsibilities.

The non-executive Directors advise the Company on strategic and critical matters. The Board considers that each non-executive Director brings his/her own senior level of experience and expertise to the constructive functioning of the Board. To this end, regular informal meetings are held between the executive Directors and non-executive Directors, to evaluate the functioning of the Board.

Chairman and President

The distinct and separate roles and responsibilities of the Chairman and President are acknowledged with a clear and well established division of responsibilities to ensure a balance of power and authority, and reinforce their independence and accountability.

The Chairman is primarily responsible for providing leaderships to the Board; monitoring effective implementation of the Company's strategies, good corporate governance practices and established procedures; ensuring value creation and maximisation to the Shareholders; and drawing up and approving the agenda for each Board meeting, and taking into account, where appropriate, any matters proposed by the other Directors for inclusion in the agenda. The President is responsible for the day-to-day operations of the Group and to achieve performance targets.

Appointment, Re-election and Removal of the Directors

Each of the Directors has been appointed for a specific term of not more than 3 years, subject to the provisions on Directors' retirement as set out in the Bye-laws. All Directors appointed by the Board to fill a casual vacancy on or as an addition to the Board shall hold office only until the next annual general meeting of the Company, and every Director, including those appointed for a specific term, shall be subject to retirement by rotation at least once every 3 years.

In accordance with article 84 of the Bye-laws, at each annual general meeting one-third of the Directors shall retire from office and shall be eligible for re-election. Accordingly, each of Ms. Sun Wei, Mr. Fang Jiancai, Dr. Chen Ying and Mr. Cai Xianhe shall retire by rotation at the AGM and, being eligible, will offer themselves for re-election at the AGM.

Corporate Governance Report

Confirmation of Independency

Each independent non-executive Director has made a written annual confirmation of independence pursuant to Rule 3.13 of the Listing Rules. The Company is of the view that all independent non-executive Directors meet the independence guidelines as set out in Rule 3.13 of the Listing Rules, and considers all of its independent non-executive Directors to be independent of the management and free of any relationship that could materially interfere with the exercise of their judgment. Dr. Chen Ying has served as an independent non-executive Director of the Company for more than nine years since April 2015. Pursuant to Code B.2.3 of the Corporate Governance Code as set out in Appendix C1 of the Listing Rules, if an independent non-executive director has served more than nine years, such director's further appointment should be subject to a separate resolution to be approved by shareholders. The papers to shareholders accompanying that resolution should state why the board (or the nomination committee) believes that the director is still independent and should be re-elected, including the factors considered, the process and the discussion of the board (or the nomination committee) in arriving at such determination.

During the years of services, Dr. Chen Ying has contributed by providing independent viewpoints, enquires and advices to the Company in relation to its businesses, operations, future development and strategy. The Board considers that Dr. Chen Ying has the character, integrity, ability and experience to continue to fulfill her role as required effectively. There is no evidence that over nine years of services with the Company would have any impact on Dr. Chen Ying's independence which, on the contrary, is a valuable talent to the Company. The Board thus recommends Dr. Chen Ying for re-election at the AGM.

Compliance with Model Code

The Board adopted the Model Code with terms no less than the required standard set out in Appendix C3 to the Listing Rules as its own model code of conduct regarding Directors' securities transactions. Having made specific enquiries of all Directors, the Company confirmed that all Directors have complied with the required standards set out in the Model Code throughout the Reporting Period.

Risk Management and Internal Controls

The Board has an overall responsibility to maintain sound and effective risk management and internal control systems (the "Systems"), including financial, operational and compliance controls, for the Group and to review their effectiveness to safeguard the Group's assets, to protect Shareholders' values, and to identify and manage the risks so that they can be understood, reduced, mitigated, transferred or avoided to achieve business objectives. The Systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable, but not absolute, assurance against material misstatement or loss.

The Board has delegated to the management the design, implementation and monitoring of the Systems on an on-going basis. The Board has also entrusted the Audit Committee with the responsibility to review the Systems. The Corporate Governance Committee has been delegated with responsibilities by the Board to oversee the Group's overall risk management framework, including the risk governance structure and risk management process, and to advise the Board on the risk and corporate governance related matters of the Group. The Corporate Governance Committee is also responsible for approving the Group's risk and corporate governance policies and assessing the effectiveness of the Group's risk controls/mitigation tools. The Corporate Governance Committee held a meeting during the Reporting Period to review the Company's policies and practices on risk management, internal control systems and corporate governance for the year of 2023 and its plan.

With the assistance of the Audit Committee and the Corporate Governance Committee, the Board has conducted reviews of the effectiveness of the Systems and performed necessary and appropriate actions to maintain the Systems for the interests of the Shareholders. The Board's review has considered the adequacy of resources, staff qualifications and experience, training programmes and budget of the Company's accounting, internal audit, financial reporting functions, as well as those relating to the Company's ESG performance and reporting.

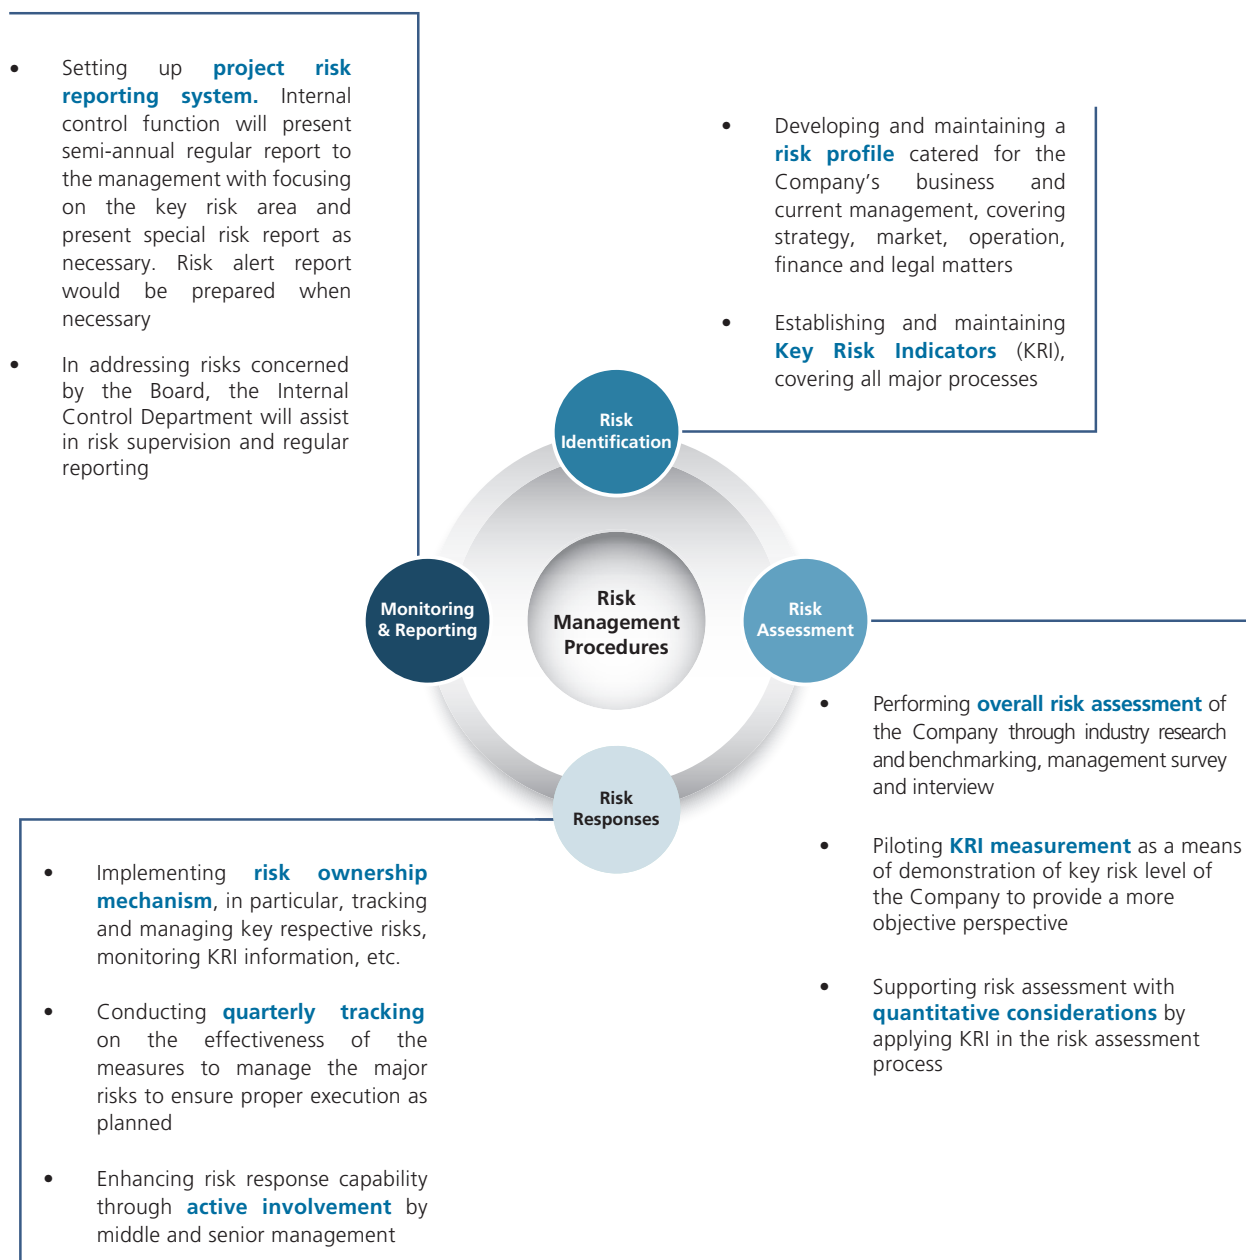

During the Reporting Period, the Group persistently dedicated efforts in enhancing the maturity of the corporate governance infrastructure across various business units and functions. In particular, a group-wide exercise has been launched to rationalise the existing policies and procedures so as to further emphasise the internal control objectives associated with key business processes and mitigate and control unnecessary divergences among different business units. During the Reporting Period, the Internal Control Department has carried out procedures for the review of the compliance with the relevant corporate governance requirements as well as the effectiveness of risk management of the Group. The Group has conducted ongoing reviews during the Reporting Period to identify deficiencies in operations and opportunities. All major findings were communicated to senior management of the respective business units to enforce the remediation.

Corporate Governance Report

In view of risk management, the Group has revisited the methodology and approach to further improve the relevancy and effectiveness of the existing risk management process to identify, evaluate, manage and communicate significant risks (including ESG risks). The changes in the nature and extent of significant risks (including ESG risks) and the Group's capabilities and strategies to respond to these changes were better captured and articulated within the organisation.

Risk Management Procedures

Together with the utilisation of IT system tools and regular internal control reviews by management, all these paved the way of enabling ongoing monitoring and overseeing of internal control effectiveness of the Group.

The Internal Control Function is independent of the daily operations of the Group. The person in charge of the Internal Control Function has reported directly to the Corporate Governance Committee. All other Directors are informed of the findings of these internal audit plans and assignments from the report by the chairman of the Corporate Governance Committee. The Internal Control Function is closely involved in the assessment of the quality of risk management of the Group. During the Reporting Period, the Internal Control Function reviewed the effectiveness of the Systems.

Based on the ongoing efforts devoted by the Group and reviews carried out by the Internal Control Department, the Corporate Governance Committee and the Board concluded that the risk management and internal control systems of the Group are basically effective whereas the Company's staff and resources for the internal audit, financial reporting functions as well as those relating to the ESG performance and reporting of the Company are adequate. There is neither material irregularities nor areas of material concerns that would have significant adverse impact on the Company's financial positions or results of operations. Management should pay attention to and monitor the important risk indicators, including the gearing ratio and the repayment ability of the Company.

Accountability and Audit

The Board acknowledges its responsibility to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Group. The interim and annual reports published within 2024 were published within the time limits as required under the Listing Rules after the end of the relevant periods to provide stakeholders with transparent and timely financial information.

The Board also acknowledges its responsibility to present a balanced, clear and understandable assessment in the Company's annual and interim reports, other inside information announcements and other financial disclosures required under the Listing Rules, and reports to the regulators as well as to information required to be disclosed pursuant to statutory requirements. The financial statements, which should be read in conjunction with the independent auditor's report, are made with a view to distinguishing for Shareholders the responsibilities of the Directors from those of the auditor in relation to the financial statements.

Inside Information

The management are encouraged to report any incidence or information they believe as inside information when performing their duties to the executive Directors or the Company Secretary. If the executive Directors or the Company Secretary recognizes that the information constitutes inside information, the executive Directors or the Company Secretary will report to the Board and recommend timely disclosure of such information pursuant to the relevant provisions under the SFO and the Listing Rules.

Corporate Governance Report

Measures to further enhance corporate governance practices

The Group has attached importance to the promotion of anti-corruption and integrity promotion system. Anti-fraud management structure is established through internal business ethics guidelines such as the Anti-Corruption Regulations (反腐敗條例), the Anti-Fraud and Whistleblowing Management Standards (反舞弊與舉報管理標準) and Ten Prohibitions at GCL (協鑫十戒), which sets out the code of conduct for employees when performing their duty in the course of business operations.

Whistle-blowing policy and procedures are also in place to allow direct reporting to the Audit Committee. The Audit Committee is responsible for reviewing the relevant policy and system regularly.

As regards corporate culture, the employee handbook of the Company and GCL Basic Law (協鑫基本法) of the Group have strengthened strategic management and promoted the Company's purpose, values and strategy which satisfies itself that these and the Company's culture are aligned.

Further details are set out in the Company's 2024 ESG Report.

The Board Committees

(1) Remuneration Committee

The Remuneration Committee was established on 15 September 2005 to oversee the remuneration policy and structure for all Directors and senior management of the Company. Board and Board Committee Meetings

Practices and Conduct of Meetings

The Board meets regularly at least four times each year and more frequently as the needs of the business demand. Apart from the Board meetings, the Board would from time to time devote separate sessions to consider and review the Group's strategy and business activities.

The Board and Committees' meeting schedule and the agenda of each meeting are made available to Directors in advance.

Notices of regular Board meetings were served to all Directors at least 14 days before the meetings. For all other Board and Committees' meetings, reasonable notices were given.

Papers for Board meetings or Committees' meetings together with all relevant information are sent to all Directors or Committee members at least 3 days before each meeting to enable them to make informed decisions with adequate data. The Board and each Director also have direct and independent access to the management whenever necessary.

According to the current Board practice, any material transactions involving a conflict of interest with a substantial Shareholder or a Director will be considered and dealt with by the Board at a duly convened Board meeting. The Bye-laws also contain provisions requiring the Directors to abstain from voting and not to be counted in the quorum at meetings for approving transactions in which such Directors or any of their associates have a material interest.

Corporate Governance Report

Mechanisms to Ensure Independent Views

The Board has established mechanisms and the Company has provided resources to ensure independent views and input are available to the Board. Channels are in place through formal and informal means whereby independent non-executive Directors can express their views in an open and candid manner as well as in a confidential manner, should circumstances required; these include regular board meetings and interaction with management and other Board members. Discussion sessions with key management personnel are also held to discuss major issues and any concerns. Members of the Board and the Board Committees are authorised by the Board to seek advice from the company secretary, in-house legal team and independent professional advisers where necessary.

Induction and Continuous Development

Upon their appointment, Directors are advised on their legal obligations and duties as directors of a listed company. Each newly appointed Director receives a comprehensive induction package designed to enhance his/her knowledge and understanding of the Group's culture and operations. The package usually includes a briefing or an introduction to the Group's structure, businesses strategies, recent developments and corporate governance practices.

Through the course of their directorship, Directors are updated on any developments or changes affecting the Company and their obligations to it at regular Board meetings.

The Company provided continuous professional training and Directors received regular updates and presentations on changes and developments to the Group's business and to the legislative and regulatory environments in which the Group operates from time to time. In addition, all Directors were requested to provide the Company with the records of the other training they received. All Directors are also encouraged to attend relevant training courses at the Company's expense.

The Directors acknowledge the need for continuous professional development so that they can continue contributing to the Company, and the Company provides support whenever relevant and necessary. The Directors are also provided with access to independent professional advice, where necessary, in carrying out their obligations as Directors at the expense of the Company.

During the year, all Directors attended the Directors' training(s) organised by the Company with topics relating to directors' duties and update on latest regulatory developments.

Company Secretary

The selection, appointment and dismissal of the Company Secretary is subject to approval by the Board in accordance with the Bye-laws and CG Code. The Company Secretary is an employee of the Company and is responsible for facilitating the Board's processes and communications among Board members with the Shareholders and with the management of the Company. Draft and final versions of minutes are disseminated to Directors for comment and filed for record purposes respectively within a reasonable time after each meeting. All Directors have access to the minutes of the Board and committee meetings of the Company. All Directors should have access to the advice and services of the Company Secretary to ensure that the Board procedures, and all applicable law, rules and regulations, are followed.

During the Reporting Period, the Company Secretary is Mr. HO Yuk Hay and he undertook over 15 hours of relevant professional trainings.

Constitutional Documents

During the Reporting Period, there were no amendments/changes to the Company's constitutional documents.

Notes:

(1) The percentage was calculated based on 1,400,922,926 Shares in issue as at 31 December 2024.

(2) (i) Dongsheng Photovoltaic is wholly-owned by GCL System Integration Technology (Su Zhou) Co., Ltd.* (協鑫集成科技(蘇州)有限公司), which is in turn wholly-owned by GCL System Integration. Jiangsu GCL Construction Management Co., Ltd.* (江蘇協鑫建設管理有限公司) (“Jiangsu GCL Construction”), Golden Concord Group Limited (PRC) and Yingkou Qiyin Investment Management Co., Ltd.* (營口其印投資管理有限公司) (“Yingkou Qiyin”) owns approximately 24.2% of GCL System Integration in aggregate. Yingkou Qiyin and Jiangsu GCL Construction are parties acting in concert with Golden Concord Group Limited (PRC). Golden Concord Group Limited (PRC) is 44.61% owned by Shanghai Qixun Investment Management Co., Ltd.* (上海其旬投資管理有限公司) (“Shanghai Qixun”) and 46.68% owned by Jiangsu GCL Construction and 8.71% owned by GCL-Poly (Taicang Harbour) Limited. Shanghai Qixun is directly wholly owned by Mr. Zhu Yufeng while Jiangsu GCL Construction and GCL-Poly (Taicang Harbour) Limited are indirectly wholly-owned by Golden Concord Group Limited (HK). Golden Concord Group Limited (HK) is in turn wholly-owned by Asia Pacific Energy Holdings Limited which is in turn wholly-owned by Asia Pacific Energy Fund Limited. Asia Pacific Energy Fund Limited is ultimately held under a discretionary trust with Credit Suisse Trust Limited as trustee and Mr. Zhu Yufeng and his family, including Mr. Zhu Gongshan as beneficiaries.

(ii) An aggregate of 101,844,780 shares in the Company, being approximately 7.27% equity interest of the Company, are collectively held by Highexcel Investments Limited, Happy Genius Holdings Limited and Get Famous Investments Limited, which are wholly-owned by Golden Concord Group Limited (HK).

(3) Elite Time Global Limited is wholly-owned by GCL Technology.

Save as disclosed above, as at 31 December 2024, no other person (other than the Directors and chief executive of the Company) who had an interest or short position in the Shares or underlying Shares as recorded in the register required to be kept by the Company under section 336 of the SFO, or as otherwise notified to the Company and the Stock Exchange.

Directors' interests in competing business

Each of the companies in the Golden Concord Group (a general reference to the companies in which Mr. Zhu Gongshan and his family members have a direct or indirect interest) operates within its own legal, corporate and financial framework. As at 31 December 2024, the Golden Concord Group might have had or developed interests in business similar to those of the Group and there was a chance that such businesses might have competed with the businesses of the Group.

The Directors are fully aware of, and have been discharging, their fiduciary duty to the Company. The Company and the Directors would comply with the relevant requirements of the Bye-laws and the Listing Rules whenever a Director has any conflict of interest in the transaction(s) with the Company. Therefore, the Directors believe that the Company is capable of carrying out its business independently of, and at arm's length from the Golden Concord Group.

Connected Transactions

The Group entered into the following connected transactions within the meaning of Chapter 14A of the Listing Rules during the Reporting Period:

Renewal of Lease Agreement with Suzhou GCL Industrial Applications Research

On 27 September 2023, Suzhou GCL New Energy Investment Co., Ltd.*蘇州協鑫新能源投資有限公司 ("Suzhou GCL New Energy") (an indirect wholly-owned subsidiary of the Company) as lessee and Suzhou GCL Industrial Applications Research (an indirect wholly-owned subsidiary of GCL Technology) as lessor entered into a lease agreement for the renewal of lease of the partial Premises with 9,869.35 square meters for a term of two years commencing from 1 October 2023 to 30 September 2025 ("2023 Lease Agreement"). Under the 2023 Lease Agreement, the rent payable by Suzhou GCL New Energy to Suzhou GCL Industrial Applications Research is RMB740,201.25 per month. Details of the transactions have been set out in the announcement of the Company dated 27 September 2023.

Suzhou GCL Industrial Applications Research is an indirect wholly-owned subsidiary of GCL Technology, which is also an associate of Golden Concord Group Limited (HK) (a company held indirectly by the Zhu Family Trust). Given that Mr. Zhu Gongshan (an executive Director) and his family (including Mr. Zhu Yufeng, an executive Director and son of Mr. Zhu Gongshan) are beneficiaries of the Zhu Family Trust, Golden Concord Group Limited (HK) is a connected person of the Company and Suzhou GCL Industrial Applications Research is an associate of a connected person of the Company under the Listing Rules. Accordingly, the entering into of the 2023 Lease Agreement constitutes a connected transaction of the Company under Chapter 14A of the Listing Rules.

Golden Concord Group Limited (HK) is a connected person of the Company and Zhongwei Xinhua is an associate of a connected person of the Company under the Listing Rules. Accordingly, the entering into of the Zhongwei Operation and Maintenance Management Service Agreement constitutes connected transactions of the Company under Chapter 14A of the Listing Rules.

The total amount received by the Group for the provision of operation services under the Zhongwei Operation and Maintenance Management Service Agreement from 2 July 2024 to 31 December 2024 was nil.

Report of the Directors

(vi) Services Agreements under Rule 14A.60 of the Listing Rules

References are made to the announcement dated 12 October 2023 the “Announcement”) and circular dated 15 November 2023 (the “Circular”) of the Company (capitalised terms used herein shall have the same meanings as those defined in the Circular) regarding the entering into of the First Batch Share Purchase Agreements dated 12 October 2023 between the First Batch Sellers and Suzhou Industrial Zone Xinkunneng Clean Energy Co., Ltd.* (蘇州工業園區鑫坤能清潔能源有限公司) (the “Purchaser”) and the entering into of the Second Batch Share Purchase Agreement dated 12 October 2023 between the Second Batch Sellers and the Purchaser (the “Disposals”) and the Management Service Agreements and Supplemental Operation Management Service Agreements (“Service Agreements”) of the Company. The Disposals were approved by the independent shareholders of the Company at the special general meeting held on 1 December 2023.

Given that the Purchaser is an associate of the connected persons of the Company, upon completion of the Disposals, the Target Companies will become subsidiaries of the Purchaser. As a result, the Designated Target Companies will also be considered as connected persons of the Company under Chapter 14A of the Listing Rules and the Service Agreements and the transactions contemplated thereunder will be considered as continuing connected transactions of the Company under Chapter 14A of the Listing Rules.

In accordance with Rule 14A.60 of the Listing Rules, the Company is required to comply with the applicable annual review and disclosure requirements under Chapter 14A of the Listing Rules regarding such continuing connected transaction, including issuance of announcements and annual reporting. The Company will comply in full with all applicable reporting, disclosure and, if applicable, Independent shareholders’ approval requirements under Chapter 14A of the Listing Rules upon any variation or renewal of the Service Agreements.

The aggregate maximum annual cap for provision of such services under the Supplemental Operation Management Service Agreements will be approximately RMB40.2 million. The total amount received by the Group for the provision of such services from 1 January 2024 to 31 December 2024 was approximately RMB34,686,235.

TO THE SHAREHOLDERS OF GCL NEW ENERGY HOLDINGS LIMITED

協鑫新能源控股有限公司

(incorporated in Bermuda with limited liability)

OPINION

We have audited the consolidated financial statements of GCL New Energy Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 71 to 209, which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2024, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards issued by the International Accounting Standards Board ("IASB") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Independent Auditor's Report (Continued)

Key audit matters

How our audit addressed the key audit matters

Revenue recognition on trading of liquefied natural gas ("LNG") business

For the year ended 31 December 2024, the Group recognised revenue of approximately RMB729,971,000 from sales of LNG and related products, of which approximately RMB728,268,000 is recognised on gross basis, and approximately RMB1,703,000 is recognised on net basis. The determination of whether revenue should be reported on a gross or net basis is based on the assessment of whether the Group acts as a principal or an agent in the transactions, taking into account of the nature of specified goods or services and whether the Group controls the specified goods or services before it is transferred to customer.

The indicators that an entity controls the specified good or service before it is transferred to the customer include but not limited to (a) the entity is primarily responsible for fulfilling the promise to provide the specified goods or service; (b) the entity bears certain inventory risk, and (c) the entity has discretion in establishing price.

We focused on this area due to the significant judgements involved in determining the Group's role as a principal or an agent in the arrangements of providing specified goods or services with customers, which will impact the presentation of revenue and related costs in the consolidated statement of profit or loss and other comprehensive income.

The accounting policies and disclosures are included in notes 4, 5 and 6 to the consolidated financial statements.

Our procedures in relation to the recognition of the Group's revenue on trading of LNG business included:

- Understanding, evaluating and testing, on a sample basis, the key controls in place over management's assessment of whether the Group acts as a principal or an agent in the transactions ("principal-agent assessment"), including management's approval and review of sales and purchase contracts;
- Discussing with management, understanding the business models and the indicators used in principal-agent assessment under different circumstances. Evaluating the appropriateness of both accounting policies and principal-agent assessment under different circumstances for each indicator;
- On a sample basis, obtaining and testing the supporting evidences for each indicator that the management considered in the principal-agent assessment. The supporting evidences include but not limited to contracts with customers and shipping documents, in order to assess whether the Group is primarily responsible for fulfilling the promise to provide the specified goods or service, establishes price and bears certain inventory risks; and
- Performing overall evaluation on the appropriateness of the judgement made by the management and considered the weight of the indicators for principal-agent assessment in revenue recognition.

Key audit matters

How our audit addressed the key audit matters

Impairment assessment of property, plant and equipment and right-of-use assets

As at 31 December 2024, the Group had property, plant and equipment and right-of-use assets of approximately RMB548 million and RMB49 million respectively.

The carrying amount of the Group's net assets has been more than its market capitalisation, which indicates that property, plant and equipment and right-of-use assets are subject to impairment. Management performed impairment test accordingly by comparing the recoverable amounts based on the higher of fair value less costs of disposal and value-in-use calculation of the cash-generating unit that the property, plant and equipment and right-of-use assets belong to with the carrying amount of the identified cash-generating unit as at 31 December 2024. Management assessed the recoverable amount of those assets were higher than their carrying amounts. Estimating the recoverable amounts requires significant management judgements and estimates including future sales volume, future electricity unit price, cost of inventories sold, estimated useful life of the asset, costs expected to be incurred for disposing of the asset and the discount rates applied to these forecasted future cash flows.

The accounting policies and disclosures of the impairment assessment are included in notes 4, 5, 8, 15 and 16 to the consolidated financial statements.

Our procedures in relation to the impairment assessment of property, plant and equipment and right-of-use assets included:

- Evaluating management's assessment on the impairment indicators for property, plant and equipment and right-of-use assets, and management's identification of cash-generating units;
- Evaluating the competence, independence and works performed by the expert engaged by the management to assess their estimation;
- Comparing management's valuation methodologies, that are, value-in-use calculation based on future discounted cash flows, to industry practice and assessed the key assumptions used, such as estimates of future sales volume, future electricity unit price and cost of inventories sold by analysing the historical accuracy of management's estimates, and discount rates with reference to comparable companies similar to the Group's business; and fair value less costs of disposal calculation based on the estimated useful life of the asset, costs expected to be incurred for disposing of the asset and the cash flow forecast;
- Involving our valuation specialists to assist us with assessing the valuation methodologies, discount rate and costs expected to be incurred for disposing the assets;
- Evaluating the sensitivity of the significant assumptions described above by assessing the changes to the recoverable amount of the cash-generating unit resulting from possible changes in these assumptions, both individually and in the aggregate; and
- Assessing the adequacy of the Group's disclosures included in the consolidated financial statements regarding the impairment assessment of property, plant and equipment and right-of-use assets.

Independent Auditor's Report (Continued)

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditor's Report (Continued)

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent Auditor's Report (Continued)

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Consolidated Statement of Changes in Equity (Continued)

For the year ended 31 December 2024

Notes:

- (a) Contributed surplus represents (i) the amount of approximately RMB16,924,000 (equivalent to approximately HK\$15,941,000) credited to the contributed surplus as a result of the capital reduction and consolidation of shares of the Company on 16 September 2003; and (ii) the Company made a distribution in respect of 2008 final dividend amounting to approximately RMB1,006,000 (equivalent to approximately HK\$1,138,000) out of the contributed surplus during the year ended 31 March 2009.
- (b) Legal reserves represent the amounts set aside from the retained earnings by certain subsidiaries incorporated in the People's Republic of China ("PRC"). In accordance with the relevant regulations and their articles of association, the Company's subsidiaries incorporated in the PRC are required to allocate at least 10% of their after-tax profit according to the PRC accounting standards and regulations to legal reserves until such reserves have reached 50% of registered capital. These reserves can only be used for specific purposes and are not distributable or transferable to loans, advances and cash dividends.
- (c) Special reserve represents the difference between (i) the consideration to acquire additional interest in subsidiaries and the respective share of the carrying amounts of net assets acquired; and (ii) the consideration to dispose of partial interest in subsidiaries without losing controls and the carrying amounts of the attributable net assets disposed of.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2024

I. GENERAL INFORMATION

GCL New Energy Holdings Limited (the “Company”) is incorporated in Bermuda as an exempted company with limited liability. The shares of the Company are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The address of the registered office of the Company is at Clarendon House, 2 Church Street, Hamilton HM11, Bermuda and the principal place of business is at Unit 1707A, Level 17, International Commerce Centre, 1 Austin Road West, Kowloon, Hong Kong.

The Company is an investment holding company. Its subsidiaries (hereinafter together with the Company collectively referred to as the “Group”) are principally engaged in the sale of electricity, development, construction, operation and management of solar power plants (“Solar Energy Business”) and sale of liquefied natural gas and related products (“LNG Business”).

The functional currency of the Company and the presentation currency of the Group’s consolidated financial statements are Renminbi (“RMB”).

2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements have been prepared in accordance with IFRS Accounting Standards (“IFRSs”) (which include all applicable individual International Financial Reporting Standards, International Accounting Standards (“IASs”) and interpretations) issued by the International Accounting Standards Board (“IASB”). For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange (“Listing Rules”) and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the material accounting policy information set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2 *Share-based Payment* (“IFRS 2”), leasing transactions that are accounted for in accordance with IFRS 16 *Lease* (“IFRS 16”), and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 *Inventories* or value-in-use in IAS 36 *Impairment of Assets* (“IAS 36”).

2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

3. APPLICATION OF NEW AND AMENDMENTS TO IFRS ACCOUNTING STANDARDS (“IFRSs”)

Amendments to IFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to IFRSs issued by IASB for the first time, which are mandatorily effective for the annual period beginning on or after 1 January 2024 for the preparation of the Group’s consolidated financial statements:

| | |
|--------------------------------|--|
| Amendments to IAS 1 | Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants |
| Amendments to IAS 7 and IFRS 7 | Supplier Finance Arrangements |
| Amendments to IFRS 16 | Lease Liability in a Sale and Leaseback |

The application of the amendments to IFRSs in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

The Group has not early applied the following new and amendments to IFRSs that have been issued but are not yet effective:

| | |
|---|--|
| Amendments to IAS 21 | Lack of Exchangeability ¹ |
| Amendments to IFRS 9 and IFRS 7 | Amendments to the Classification and Measurement of Financial Instruments ² |
| Amendments to IFRS 9 and IFRS 7 | Contracts Referencing Nature-dependent Electricity ² |
| Annual Improvements to IFRS Accounting Standards 2024 | Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7 ² |
| IFRS 18 and consequential amendments to other IFRS Accounting Standards | Presentation and Disclosure in Financial Statements ³ |
| IFRS 19 | Subsidiaries without Public Accountability: Disclosures ³ |
| Amendments to IFRS 10 and IAS 28 | Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ⁴ |

¹ Effective for annual periods beginning on or after 1 January 2025

² Effective for annual periods beginning on or after 1 January 2026

³ Effective for annual periods beginning on or after 1 January 2027

⁴ Effective for annual periods beginning on or after a date to be determined

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

3. APPLICATION OF NEW AND AMENDMENTS TO IFRS ACCOUNTING STANDARDS (“IFRSs”) (Continued)

Amendments to IFRSs that are mandatorily effective for the current year (Continued)

Except for the amendments to IFRSs mentioned below, the directors of the Company anticipate that the application of all other new and amendments to IFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

IFRS 18 Presentation and Disclosure in Financial Statements and consequential amendments to other IFRSs

IFRS 18 replaces IAS 1 *Presentation of Financial Statements* (“IAS 1”). It carries forward many requirements from IAS 1 unchanged. IFRS 18 brings major changes to the statement of profit or loss and notes to the financial statements as follows:

- (a) IFRS 18 requires an entity:
 - (i) to classify income and expenses into operating, investing and financing categories in the statement of profit or loss, plus income taxes and discontinued operations;
 - (ii) to present two new defined subtotals, namely, operating profit or loss and profit or loss before financing and income taxes.
- (b) It requires an entity to disclose management-defined performance measures (“MPM”) and reconciliations between MPM and subtotals listed in IFRS 18 or totals or subtotals required by IFRSs.
- (c) It sets out requirements to help an entity determine whether information about items should be in the primary financial statements or in the notes and provides principles for determining the level of detail needed for the information.

IFRS 18 also set out classification requirements for foreign exchange differences, the gain or loss on the net monetary position, and gains and losses on derivatives and designated hedging instruments.

In addition, some paragraphs in IAS 1 have been moved to IAS 8 *Basis of Preparation of Financial Statements* and IFRS 7. Minor amendments to IAS 7 *Statement of Cash Flows* and IAS 33 *Earnings per Share* are also made.

IFRS 18 and consequential amendments to other IFRS Accounting Standards are effective for annual reporting periods beginning on or after 1 January 2027, with early application permitted. The application of the new standard is expected to affect the presentation of the consolidated statement of profit or loss and disclosures in the future consolidated financial statements. The directors of the Company are in the process of assessing the detailed impact on the consolidated financial statements.

4. MATERIAL ACCOUNTING POLICY INFORMATION

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income ("OCI") are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Basis of consolidation (Continued)

Changes in the Group's interests in existing subsidiaries

Changes in the Group's interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries, including re-attribution of relevant reserves between the Group and the non-controlling interests according to the Group's and the non-controlling interests' proportionate interests.

Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interest (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in OCI in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/ permitted by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 *Financial Instruments* ("IFRS 9"), or when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

For business combinations in which the acquisition date is on or after 1 January 2022, the identifiable assets acquired and liabilities assumed must meet the definitions of an asset and a liability in the Conceptual Framework for Financial Reporting issued by International Accounting Standards Board in March 2018 (the "Conceptual Framework") except for transactions and events within the scope of IAS 37 or IFRIC 21, in which the Group applies IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* ("IAS 37") or IFRIC 21 *Leases* ("IFRIC 21") instead of the Conceptual Framework to identify the liabilities it has assumed in a business combination. Contingent assets are not recognised.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with IAS 12 and IAS 19 respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with IFRS 2 at the acquisition date (see the accounting policy information below);
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard; and
- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in IFRS 16) as if the acquired leases were new leases at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms, except for right-of-use assets relating to leasehold lands in which the relevant acquirees are the registered owners with full upfront lease payments, which are measured at fair value.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after reassessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Business combinations (Continued)

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation are initially measured at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets or fair value. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value.

Investments in associates and joint venture

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates and joint venture are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of associates and joint venture used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and OCI of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the year in which the investment is acquired.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Investments in associates and joint venture (Continued)

The Group assesses whether there is an objective evidence that the interest in an associate or a joint venture may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 as a single asset by comparing its recoverable amount (higher of value-in-use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset within the scope of IFRS 9, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition. The difference between the carrying amount of the associate or joint venture and the fair value of any retained interest and any proceeds from disposing of the relevant interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in OCI in relation to that associate or joint venture on the same basis as would have been required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in OCI by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) upon disposal/partial disposal of the relevant associate or joint venture.

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in OCI relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

Notes to the Consolidated Financial Statements (Continued)

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued) Non-current assets and disposal groups held for sale

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Group will retain a non-controlling interest in the relevant subsidiary after the sale.

When the Group is committed to a sale plan involving disposal of an investment, or a portion of an investment, in an associate or a joint venture, the investment or the portion of the investment that will be disposed of is classified as held for sale when the criteria described above are met, and the Group discontinues the use of the equity method in relation to the portion that is classified as held for sale from the time when the investment is classified as held for sale.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell, except for financial assets within the scope of IFRS 9 and deferred tax assets which continue to be measured in accordance with the accounting policies set out in respective sections. Immediately before the initial classification of the asset (or disposal group) as held for sale, the carrying amounts of the assets (or all the assets and liabilities in the group) are measured in accordance with applicable IFRSs.

When the criteria of non-current assets (and disposal groups) classified as held for sale have no longer been met, the Group shall cease to classify non-current assets (and disposal groups) as held for sale. The Group shall measure each non-current asset that ceased to be classified as held for sale at the lower of its carrying amount before the asset was classified as held for sale, adjusted for depreciation that would have been recognised had the asset not been classified as held for sale; and its recoverable amount at the date of the subsequent decision not to sell.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

Revenue from sales of electricity is recognised at a point in time when the control of the electricity transferred, being at the point when electricity has generated and transmitted to the customer.

Revenue from operation and management services is recognised over time during the provision of service, using an input method to measure progress towards complete satisfaction of the service, because the customer simultaneously receives and consumes the benefits provided by the Group. Revenue is recognised on a straight-line basis because the entity’s inputs are expended evenly throughout the scheduled performance period.

Revenue from solar related supporting services mainly represents contracts with customers in relation to sales of solar modules with related supporting services that the Group has acted as an agent and, is recognised at a point in time on a net basis when the control is transferred to the customer, which is at the time when the solar module is delivered and confirmed with the customer.

Revenue from liquefied natural gas (“LNG”) business mainly represents contracts with customers in relation to sales of LNG and related products that the Group has acted as both principal and agent and, is recognised at a point in time on a gross basis as a principal and on a net basis as an agent when the control is transferred to the customer, which is the time when the LNG and related products are delivered and confirmed with the customer.

Notes to the Consolidated Financial Statements (Continued)

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued) Revenue from contracts with customers (Continued)

When another party is involved in providing goods or services to a customer, the Group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for those goods or services to be provided by the other party (i.e. the Group is an agent).

The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer.

The Group is an agent if its performance obligation is to arrange for the provision of the specified good or service by another party. In this case, the Group does not control the specified good or service provided by another party before that good or service is transferred to the customer. When the Group acts as an agent, it recognises revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified goods or services to be provided by the other party.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with IFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Revenue from contracts with customers (Continued)

Existence of significant financing component

In determining the transaction price, the Group adjusts the promised amount of consideration for the effects of the time value of money if the timing of payments agreed (either explicitly or implicitly) provides the customer or the Group with a significant benefit of financing the transfer of goods or services to the customer. In those circumstances, the contract contains a significant financing component. A significant financing component may exist regardless of whether the promise of financing is explicitly stated in the contract or implied by the payment terms agreed to by the parties to the contract.

For contracts where the period between payment and transfer of the associated goods or services is less than one year, the Group applies the practical expedient of not adjusting the transaction price for any significant financing component.

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application or arising from business combinations, the Group assesses whether a contract is or contains a lease based on the definition under IFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group applies practical expedient not to separate non-lease component from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

Leases (Continued)

The Group as a lessee (Continued)

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use assets includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful lives. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of their estimated useful lives and the lease terms.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Leases (Continued)

The Group as a lessee (Continued)

Right-of-use assets (Continued)

When the Group obtains ownership of the underlying leased asset at the end of the lease term, upon exercising purchase option, the carrying amount of the relevant right-of-use asset is transferred to property, plant and equipment.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under IFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on consolidated statement of financial position.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Leases (Continued)

The Group as a lessee (Continued)

Lease modifications

Changes in considerations of lease contracts that were not part of the original terms and conditions are accounted for as lease modifications, including lease incentives provided through forgiveness or reduction of rentals.

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The associated non-lease components are included in the respective lease components.

Sale and leaseback transactions

The Group applies the requirements of IFRS 15 to assess whether sale and leaseback transaction constitutes a sale by the Group.

The Group as a seller-lessee

For a transfer that does not satisfy the requirements as a sale, the Group as a seller-lessee continues to recognise the assets and accounts for the transfer proceeds as loans within the scope of IFRS 9.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Foreign currencies (Continued)

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. RMB) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in OCI and accumulated in equity under the heading of translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

Borrowing costs

Borrowing costs are recognised in profit or loss in the year in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the year in which they become receivable. Such grants are presented under "other income".

Research and development expenses

Research and development expenses are expensed as incurred. Research and development expenses consist primarily of payroll and related personnel costs for developing or significantly improving the Company's services and products.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Retirement benefit costs

Payments to defined contribution retirement benefit plans, including state-managed retirement benefit schemes and the Mandatory Provident Fund Schemes, are recognised as an expense when employees have rendered services entitling them to the contributions.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another IFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Share-based payment arrangements

Equity-settled share-based payment transactions

Share options granted to employees and others providing similar services

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share-based transactions are set out in note 35.

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Share-based payment arrangements (Continued)

Equity-settled share-based payment transactions (Continued)

Share options granted to employees and others providing similar services (Continued)

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share options reserve). At the end of each reporting period, the Group revises its estimates of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share options reserve.

For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit and loss.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to accumulated losses.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and does not give rise to equal taxable and deductible temporary differences. In addition, deferred tax liabilities are not recognised if the temporary differences arises from initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interest in joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued) Taxation (Continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 requirements to recognise a deferred tax asset (to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised) and a deferred tax liability for all deductible and taxable temporary differences associated with the lease liabilities and the right-of-use assets respectively.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when it relates to items that are recognised in OCI or directly in equity, in which case, the current and deferred tax are also recognised in OCI or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Property, plant and equipment

Property, plant and equipment including buildings are tangible assets that are held for use in the production or supply of goods or services, or for administration purposes, are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

When the Group makes payments for ownership interests of properties which include both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as "right-of-use assets" in the consolidated statement of financial position. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued) Property, plant and equipment (Continued)

Depreciation is recognised so as to write off the cost of items of assets other than construction in progress less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in profit or loss.

Impairment on property, plant and equipment and right-of-use assets

At the end of reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amounts of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit ("CGU") to which the asset belongs.

In testing a CGU for impairment, corporate assets are allocated to the relevant CGU when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the CGU or group of CGUs to which the corporate asset belongs, and is compared with the carrying amount of the relevant CGU or group of CGUs.

Recoverable amount is the higher of fair value less costs of disposal and value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a CGU) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or the CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGUs, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value-in-use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or CGU or a group of CGUs) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU or a group of CGUs) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on first-in first-out basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instruments. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction cost and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI"):

- the financial asset is held within a business model whose objective is achieved by both selling and collecting contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial instruments (Continued)

Financial assets (Continued)

Classification and subsequent measurement of financial assets (Continued)

All other financial assets are subsequently measured at FVTPL, except that at initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in OCI if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which IFRS 3 (Revised) *Business Combinations* ("IFRS 3") applies.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not a designated and effective hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. For financial instruments other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

(ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset and is included in the "Other gains and losses, net" line item.

Impairment of financial assets and financial guarantee contracts

The Group performs impairment assessment under expected credit loss ("ECL") on financial assets (including trade and other receivables, amounts due from related companies, pledged bank and other deposits, bank balances and cash) and financial guarantee contracts which are subject to impairment assessment under IFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables, including those with significant financing component.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtors ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- actual or expected significant adverse change in the regulatory, economics, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets and financial guarantee contracts (Continued)

(i) Significant increase in credit risk (Continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payment are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if (i) the financial instrument has a low risk of default; (ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the debtor to fulfil its contractual cash flow obligations. The Group considers a financial instrument to have low credit risk when it has an internal or external credit rating of "investment grade" as per globally understood definitions.

For financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of financial guarantee contracts, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;

(iii) Credit-impaired financial assets (Continued)

- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or

- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over three years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

For a financial guarantee contract, the Group is required to make payments only in the event of a default by the debtor in accordance with the terms of the instrument that is guaranteed. Accordingly, the ECL is the present value of the expected payments to reimburse the holder for a credit loss that it incurs less any amounts that the Group expects to receive from the holder, the debtor or any other party.

For ECL on financial guarantee contracts which the effective interest rate cannot be determined, the Group will apply a discount rate that reflects the current market assessment of the time value of money and the risks that are specific to the cash flows but only if, and to the extent that, the risks are taken into account by adjusting the discount rate instead of adjusting the cash shortfalls being discounted.

(v) Measurement and recognition of ECL (Continued)

Lifetime ECL for trade receivables are assessed collectively for debtors with shared credit risk characteristics by reference to repayment history of the debtor, adjusted for factors in relation to general economic conditions of the relevant industry, relevant country default risk and an assessment of both the current as well as the forecast direction at the reporting date.

12m ECL for all other instruments (including other receivables and amounts due from related companies) and financial guarantee contracts, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL, are assessed individually for debtors by reference to past repayment history, credit rating or financial position of the debtors and the forward looking information that is available without undue cost or effort.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

Except for financial guarantee contracts, the Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amounts, with the exception of trade receivables where the corresponding adjustment is recognised through a loss allowance account.

Derecognition/modification of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

A modification of a financial asset occurs if the contractual cash flows are renegotiated or otherwise modified.

When the contractual terms of a financial asset are modified, the Group assesses whether the revised terms result in a substantial modification from original terms taking into account all relevant facts and circumstances including qualitative factors. If qualitative assessment is not conclusive, the Group considers the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received, and discounted using the original effective interest rate, is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial asset, after reducing gross carrying amount that has been written off.

Derecognition/modification of financial assets (Continued)

For non-substantial modifications of a financial asset that does not result in derecognition, the carrying amount of the relevant financial asset will be calculated at the present value of the modified contractual cash flows discounted at the financial asset's original effective interest rate. Transaction costs or fees incurred are adjusted to the carrying amount of the modified financial asset and are amortised over the remaining term. Any adjustment to the carrying amount of the financial asset is recognised in profit or loss at the date of modification.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Perpetual instruments, which include no contractual obligation for the Group to deliver cash or other financial assets or the Group has the sole discretion to defer payment of distribution and redemption of principal amount indefinitely, are classified as equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is (i) held for trading; or (ii) it is designated as at FVTPL.

A financial liability is held for trading if:

- it has been acquired principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative, except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument.

Financial liabilities at amortised cost

Financial liabilities including other payables, amounts due to related companies, loan from a related company, and bank and other borrowings are subsequently measured at amortised cost using the effective interest method.

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument. Financial guarantee contract liabilities are measured initially at their fair values. It is subsequently measured at the higher of:

- The amount of the loss allowance determined in accordance with IFRS 9; and
- The amount initially recognised less, where appropriate, cumulative amount of income recognised in accordance with the principles of IFRS 15.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Derivative financial instruments

Derivatives are initially recognised at fair value at the date when derivative contracts are entered into and are subsequently remeasured to their fair value at the end of the reporting period. The resulting gain or loss is recognised in profit or loss.

Notes to the Consolidated Financial Statements (Continued)

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Contingent liabilities

A contingent liability is a present obligation arising from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Where the Group is jointly and severally liable for an obligation, the part of the obligation that is expected to be met by other parties is treated as a contingent liability and it is not recognised in the consolidated financial statements.

The Group assesses continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognised in the consolidated financial statements in the reporting period in which the change in probability occurs, except in the extremely rare circumstances where no reliable estimate can be made.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Cash and cash equivalents are assessed for ECLs in accordance with the policy set out in note 4.

Cash at banks exclude bank balances that are subject to regulatory restrictions that result in such balances no longer meeting the definition of cash.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group; or
- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) one entity is an associate or a joint venture of the other entity (or an associate or a joint venture of a member of a group of which the other entity is a member);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
 - (vi) the entity is controlled or joint controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 4, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the Directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Principal versus agent consideration (principal)

The Group is engaged in sales of LNG and related products. The Group concludes that it acts as the principal for such transactions as it controls the specified goods before they are transferred to the customers after taking into consideration indicators such as the Group is primarily responsible for fulfilling the promise to provide the goods. The Group has inventory risk and has discretion in establishing the prices for the specified goods. When the Group satisfies the performance obligation, the Group recognises trading revenue in the gross amount of consideration to which the Group expects to be entitled as specified in the contracts.

During the year ended 31 December 2024, the Group recognised revenue from sales of LNG and related products, acting as a principal, of approximately RMB728,268,000 (2023: RMB8,335,000).

Principal versus agent consideration (agent)

The Group is considered as an agent for its contracts with customers relating to the sales of LNG and related products as the Group did not obtain the control over LNG and related products before passing on to customers taking into consideration indicators such as the Group is not primarily responsible for fulfilling the promise and not exposed to inventory risk. When the Group satisfies the performance obligation, the Group recognises trading revenue in the net amount of consideration that it retains after paying the other party the consideration received in exchange of the goods provided by that party.

During the year ended 31 December 2024, the Group recognised revenue from sales of LNG and related products, acting as an agent, of approximately RMB1,703,000 (2023: RMB282,000).

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainties

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Determination of timing of settlement of tariff adjustments on sales of electricity

Tariff adjustments represent subsidy received and receivable from the government authorities in respect of the Group's solar power generation business. Tariff adjustments are recognised as revenue and due from grid companies in the PRC in accordance with the relevant power purchase agreements. The Group considered that it contained a significant financing component over the relevant portion of tariff adjustment until the settlement of the trade receivables. In determining the period of extended financing, the Group has to exercise judgement and make estimation in timing of collection of the tariff adjustments with reference to historical pattern and experience for application and approval for registration in the List (as defined in note 6). The Group has adjusted the respective tariff adjustment for the financing component based on estimated timing of collection.

The adjustment for financing component is sensitive to changes in expected timing of settlement of the tariff adjustments. Change in facts and circumstances will result in revision of the expected collection period of the tariff adjustments which will be reflected as an increase or a reduction in financing component adjustment for the period in which such a revision takes place.

The revenue of the Group was adjusted by approximately RMB2 million for the year ended 31 December 2024 (2023: RMB25 million) for this financing component and in relation to revision of expected timing of tariff settlement.

Allowance for inventories

Inventories are stated at the lower of cost and net realisable value. Net realisable value of inventories is based on estimated selling prices less any estimated costs of completion and costs necessary to make the sale. These estimates are based on the current market conditions and the historical experience in selling goods of similar nature. It could change significantly as a result of changes in market conditions. The Group reassesses the estimation at the end of each reporting period.

During the year ended 31 December 2024, inventory allowance of approximately RMB31,879,000 (2023: RMBnil) was recognised based on estimated net realisable value.

As at 31 December 2024, the carrying amount of inventories was approximately RMB159,621,000 (2023: RMBnil) (net of allowance for inventories of approximately RMB31,879,000 (2023: RMBnil)).

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainties (Continued)

Provision of ECL for trade receivables

The Group uses a provision matrix to calculate ECL on trade receivables. The provision rates are based on internal credit rating as groupings for various debtors which shared credit risk characteristics by reference to repayment history of the debtor, taking into account general economic conditions of the relevant industry, relevant country default risk, and an assessment of both the current as well as forecast direction at the reporting date. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered. As at 31 December 2024 and 2023, the ECL provision for trade receivables is considered insignificant.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables are disclosed in notes 38(b), 22 and 24.

Useful lives and impairment of property, plant and equipment and right-of-use assets

Property, plant and equipment and right-of-use assets are stated at cost less accumulated depreciation, and impairment if any. In determining whether an asset is impaired, the Group has to exercise judgment and make estimation, particularly in assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value-in-use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in estimating the recoverable amount including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs, including allocation of corporate assets when a reasonable and consistent basis of allocation can be established, otherwise recoverable amount is determined at the smallest group of CGUs, for which the relevant corporate assets have been allocated. Changing the assumptions and estimates, including the discount rates or revenue growth rates in the cash flow projections, could materially affect the recoverable amounts.

Additionally, the Group determines the estimated useful lives and related depreciation charges for its property, plant and equipment and right-of-use assets. These estimates are based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. The management will increase the depreciation charge where useful lives are expected to be shorter than previously estimated. Actual economic lives may differ from estimated useful lives. Periodic review could result in a change in depreciable lives and therefore depreciation expense in future periods.

As at 31 December 2024, the carrying amounts of property, plant and equipment and right-of-use assets, were approximately RMB548 million and RMB49 million (2023: RMB904 million and RMB77 million) respectively. The carrying amount of the Group's net assets has been more than its market capitalisation, which indicates that property, plant and equipment and right-of-use assets are subject to impairment. Impairment losses of approximately RMBnil (2023: RMB86 million) on property, plant and equipment and right-of-use assets were made for the year ended 31 December 2024.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainties (Continued)

Provision of ECL on other receivables (including balances with former subsidiaries) and amounts due from related companies (non-trade)

The Group measures loss allowance equal to 12m ECL for other receivables and amounts due from related companies (non-trade). In determining the ECL of other receivables and amounts due from related companies (non-trade), the management of the Company makes periodical individual assessment on the recoverability of the receivables by taking into account their past payment history, credit rating or financial position of the debtors and the forward-looking information that is available without undue cost or effort, and considering the debtors operate in the solar power industry which is well supported by the prevailing government policies. The amounts of ECL reflect changes in credit risk since initial recognition and is sensitive to changes in estimates.

As at 31 December 2024, the aggregate carrying amount of other receivables and amounts due from related companies (non-trade) were approximately RMB2,706 million (2023: RMB3,047 million).

The information about the ECL and the Group's other receivables and amounts due from related companies (non-trade) are disclosed in notes 38(b), 22 and 24, respectively.

Fair value measurement of financial instruments

Certain of the Group's financial assets as described in note 38(c) are measured at fair values with fair values being determined based on unobserved inputs using valuation techniques. Judgement and estimation are required in establishing the relevant valuation techniques and the relevant inputs thereof. Changes in assumptions relating to these factors could affect the reported fair values of these instruments. Details of fair value measurements and disclosures are set out in note 38(c).

6. REVENUE AND SEGMENT INFORMATION

Revenue recognised during the year are as follows:

| | 2024 RMB'000 | 2023 RMB'000 |
|---|------------------|-----------------|
| Revenue | | |
| Sales of electricity and tariff adjustments | 90,057 | 578,208 |
| Operation and management services income | 272,577 | 227,948 |
| Solar related supporting services income | 15,150 | 16,747 |
| LNG business related income | 729,971 | 8,617 |
| Total | 1,107,755 | 831,520 |

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

6. REVENUE AND SEGMENT INFORMATION (Continued)

For sales of electricity and tariff adjustments, substantially all of the revenue is derived from electricity sales to local grid companies in the United States of America ("US") (2023: PRC) for the year ended 31 December 2024. The Group generally entered into power purchase agreements with local grid companies with a term of two (2023: one to five) years and overseas grid companies with a term of ten to twenty years which stipulate the price of electricity per watt hour. Revenue is recognised when control of the electricity has transferred, being at the point when electricity has generated and transmitted to the customers and the amount included tariff adjustments of approximately RMB4,847,000 (2023: RMB297,666,000) recognised during the current year. Except for trade receivables relating to tariff adjustments, the Group generally grants credit period of approximately one month to customers from date of invoice in accordance with the relevant power purchase agreements between the Group and the respective local grid companies or overseas grid companies. The Group will complete the remaining performance obligations in accordance with the relevant terms as stipulated in the power purchase agreements and the remaining aggregated transaction price will be equal to the quantity of electricity that can be generated and transmitted to the customers times the stipulated price per watt hour.

The financial resource for the tariff adjustment is the national renewable energy fund that accumulated through a special levy on the consumption of electricity of end users. The PRC government is responsible to collect and allocate the fund to the respective state-owned grid companies for settlement to the solar power companies. Effective from March 2012, the application, approval and settlement of the tariff adjustment are subject to certain procedures as promulgated by Caijian [2012] No. 102 Notice on the Interim Measures for Administration of Subsidy Funds for Tariff Premium of Renewable Energy (可再生能源電價附加補助資金管理暫行辦法). Caijian [2013] No. 390 Notice issued in July 2013 further simplified the procedures of settlement of the tariff adjustment.

In January 2020, the Several Opinions on Promoting the Healthy Development of Non-Hydro Renewable Energy Power Generation (Caijian [2020] No. 4)* (《關於促進非水可再生能源發電健康發展的若干意見》) (財建[2020] 4號) and the Measures for Administration of Subsidy Funds for Tariff Premium of Renewable Energy (Caijian [2020] No. 5)* (《財政部國家發展改革委國家能源局關於印發〈可再生能源電價附加資金管理辦法〉的通知》) (財建[2020]5號) (the "2020 Measures") were jointly announced by the Ministry of Finance, the National Development and Reform Commission and the National Energy Administration. In accordance with the new government policy as stipulated in the 2020 Measures, the PRC government has simplified the application and approval process regarding the registration of tariff adjustments for non-hydro renewable energy power plant projects into the Renewable Energy Tariff Subsidy List (可再生能源發電補助項目清單, the "List"). The state-owned grid companies will regularly announce the list based on the project type, time of grid connection and technical level of the solar power projects. For those on-grid solar power projects which have already started operation but yet to register into the List, these on-grid solar power projects are entitled to enlist into the List once they have met the conditions as stipulated on the Administration of Subsidy Funds for Tariff Premium of Renewable Energy (可再生能源電價附加資金管理辦法) and completed the submission and application in the National Renewable Energy Information Management Platform (the "Platform").

6. REVENUE AND SEGMENT INFORMATION (Continued)

Tariff adjustments are recognised as revenue and due from grid companies in the PRC in accordance with the relevant power purchase agreements.

The management considered that it contained a significant financing component over the tariff adjustments until the settlement of the trade receivables. For the current year, the respective tariff adjustment was adjusted for this financing component based on an effective interest rate ranged from 1.42% to 2.05% per annum (2023: 2.14% to 2.57% per annum) and the adjustment in relation to revision of expected timing of tariff collection. As such, the Group's revenue was adjusted by approximately RMB2 million (2023: RMB25 million) and interest income amounting to approximately RMB668,000 (2023: RMB504,000) (note 7) was recognised.

Operation and management service income represents the service income from the provision of the solar power plants operation and management services. The Group generally grants credit period of approximately one month to customers from the date of invoice.

As at 31 December 2024, the aggregate amount of the transaction price allocated to the remaining performance obligations under the Group's existing contracts is approximately RMB383 million (2023: RMB466 million). This amount represents revenue expected to be recognised in the future from operation and management contracts of solar power plant entered into by the customers with the Group. The Group will recognise the expected revenue in future when or as the work is completed, which is expected to occur over the next 12 to 60 months.

The transaction price allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at 31 December 2024 and the expected timing of recognising revenue are as follows:

| | 2024 RMB'000 | 2023 RMB'000 |
|--|-----------------|-----------------|
| Within one year | 230,997 | 194,715 |
| More than one year but not more than two years | 107,662 | 135,576 |
| More than two years but not more than five years | 40,112 | 133,520 |
| More than five years | 3,892 | 2,430 |
| | 382,663 | 466,241 |

The amounts disclosed in the above table do not include transaction price allocated to performance obligations which have been satisfied but not yet recognised due to variable consideration constraints.

6. REVENUE AND SEGMENT INFORMATION (Continued)

Solar related supporting services income represents the income from sales of solar modules with related supporting services. The Group generally requires customers to provide 10% to 20% of the agreed consideration of specified goods or services as upfront deposits and the remainder of the consideration is payable before seven to ten days the solar modules are delivered. The Group acts as an agent for its solar related supporting services and will complete the performance obligations in accordance with the relevant terms as stipulated in the contracts.

LNG business related income represents the income from (i) sales of LNG and related products; and (ii) trading agency. The Group generally requires customers to provide 100% of the agreed consideration of specified goods or services or grants credit period of approximately one month to customers from date of invoice when the LNG and related products are delivered. The Group acts as both principal and agent for its LNG related business and will complete the performance obligations in accordance with the relevant terms as stipulated in the contracts.

Included in LNG business related income, the Group recognised revenue from contracts with external customers, acting as a principal, amounting to approximately RMB728,268,000 (2023: RMB8,335,000), relating to sales of LNG and related products. The Group recognised revenue from contracts with external customers, acting as an agent, amounting to approximately RMB1,703,000 (2023: RMB282,000), relating to sales of LNG and related products.

Disaggregated revenue information

The Group's chief operating decision maker ("CODM"), being the executive directors of the Company, regularly reviews revenue by countries; however, no other discrete information was provided. In addition, the CODM reviews the consolidated results when making decisions about allocating resources and assessing performance. Hence, no further segment information other than entity wide information is presented.

Geographical information

The Group's operations are mainly located in the PRC and the US.

Information about the Group's revenue from external customers is presented based on the location of the operations and customers. Information about the Group's non-current assets is presented based on the geographical location of the assets.

| | Revenue from external customers | | Non-current assets | |
|--------|------------------------------------|-----------------|--------------------|-----------------|
| | 2024 RMB'000 | 2023 RMB'000 | 2024 RMB'000 | 2023 RMB'000 |

| | 1,107,755 | 831,520 | 2,189,459 | 2,542,380 |

Note: Non-current assets exclude those relating to financial instruments (including pledged bank and other deposits, financial assets at fair value through profit or loss, other receivables and amounts due from related companies) and deferred tax assets.

Information about major customers

For the year ended 31 December 2024, the revenue from grid companies under common control of the State Grid Corporation of China in total and customers in relation to LNG related business accounted for nil (2023: 60%) and 34% (2023: nil) of the Group's revenue respectively. For the purpose of presenting further information about major customers and considering the extent of economic integration between grid companies, the sales to grid companies under the common control of State Grid Corporation of China and LNG business companies which accounted for over 10% of the total revenue from external customers is as follows:

| | 2024 RMB'000 | 2023 RMB'000 |
|------------|-----------------|-----------------|
| Customer A | 196,114 | N/A* |
| Customer B | 176,921 | N/A* |
| Customer C | N/A* | 500,236 |

* The corresponding revenue did not contribute over 10% of total revenue of the Group.

| | – | (85,943) |

Notes:

- (a) Exchange gain/(loss) mainly arose from the bank and other borrowings and the senior notes, all are denominated in US\$ which appreciated against RMB for the current and prior year.
- (b) As disclosed in note 36(b)(ii), the Group entered into two equity transfer agreements with 湖南新華水利電力有限公司 Hunan Xinhua Water Conservancy and Electric Power Co., Ltd.* (“Hunan Xinhua Water”), an independent third party to dispose of its 100% equity interest in a wholly-owned subsidiary, namely 高唐縣協鑫晶輝光伏有限公司 Gaotang GCL Jinghui Photovoltaic Power Co., Ltd.* (“Gaotang GCL”), and 90.1% equity interest in 內蒙古香島新能源發展有限公司 Inner Mongolia Xiangdao New Energy Development Co., Ltd.* (“Inner Mongolia Xiangdao”), the disposals was not completed as at 30 June 2023.

Loss on measurement of assets classified as held for sale to fair value less cost to sell amounting to RMB105,188,000 was recognised in profit or loss during the year ended 31 December 2023 as it was measured at the lower of its carrying amount of net assets value of each subsidiary and fair value less cost to sell.

8. OTHER GAINS AND LOSSES, NET/IMPAIRMENT LOSS ON EXPECTED CREDIT LOSS, NET OF REVERSAL/IMPAIRMENT LOSSES ON PROPERTY, PLANT AND EQUIPMENT AND RIGHT-OF-USE ASSETS (Continued)

Notes: (Continued)

- (c) Impairment losses on property, plant and equipment and right-of-use assets amounting to RMBnil and approximately RMB85,943,000 is recognised during the years ended 31 December 2024 and 2023 respectively with details as below.

Year ended 31 December 2024

The carrying amount of the Group's net assets has been more than its market capitalisation, the management of the Group concluded there was indication for impairment of several photovoltaic solar power plants and conducted impairment assessment on these plants. The recoverable amounts of these photovoltaic solar power plants are estimated collectively based on their locations, characteristics and operations.

The recoverable amounts of these several photovoltaic solar power plants have been determined, with assistance from an independent professional valuer, based on the higher of fair value less costs of disposal and value-in-use.

The value-in-use calculation uses cash flow projections based on financial budgets approved by the management of respective operating subsidiaries covering a five-year period. Cash flows beyond the five-year period are extrapolated using an estimated long-term negative growth rate at 0.7%. The forecasted revenue is by reference to the historical on-grid electricity generated and existing selling price under the power purchase agreements. Another key assumption for the value-in-use calculations is the efficiency of the on-grid electricity which is determined based on the cash generating unit's past performance and management expectation for market development. The management estimates discount rate using pre-tax rate by reference to the average rates for a similar industry and the risks specific to the cash generating units and determined the discount rate to be 10.6%.

Based on the result of the impairment assessment, the management of the Group determined that the recoverable amount of the cash generating unit is higher than the carrying amount as at 31 December 2024. Based on the value-in-use calculation, no impairment loss was recognised against the carrying amounts of property, plant and equipment and right-of-use assets for the year ended 31 December 2024. The management also considered that any reasonably possible change in any of the assumptions would not result in impairment.

(c) (Continued)

Year ended 31 December 2023

During the year ended 31 December 2023, the economic performance of certain property, plant and equipment and right-of-use assets of the Group was worse than expected and the carrying amount of the Group's net assets is more than its market capitalisation, the management of the Group concluded there was indication for impairment of several photovoltaic solar power plants and conducted impairment assessment on these plants. The recoverable amounts of these photovoltaic solar power plants are estimated individually.

The recoverable amounts of these several photovoltaic solar power plants have been determined, with assistance from an independent professional valuer, based on the higher of fair value less costs of disposal and value-in-use.

The value-in-use calculation uses cash flow projections based on financial budgets approved by the management of respective operating subsidiaries covering a five-year period. Cash flows beyond the five-year period are extrapolated using an estimated long-term negative growth rate at 0.7%. The forecasted revenue is by reference to the historical on-grid electricity generated and existing selling price under the power purchase agreements. Another key assumption for the value-in-use calculations is the efficiency of the on-grid electricity which is determined based on the cash generating unit's past performance and management expectation for market development. The management estimates discount rate using pre-tax rate by reference to the average rates for a similar industry and the risks specific to the cash generating units and determined the discount rate to be 12.6%.

All relevant assets subject to impairment were impaired to aggregate recoverable amount of approximately RMB331,612,000 based on the value-in-use and the impairment loss of approximately RMB81,876,000 has been recognised in profit or loss during the year ended 31 December 2023.

Apart from the impairment assessment of the operating subsidiaries, full impairment loss of approximately RMB4,067,000 of certain in-progress solar projects in relation to the construction in progress has been recognised in profit or loss, respectively, after taking into consideration of the financial resources of the Group as well as the equipment costs related to in-progress solar power plant, which it is still in preliminary stage, the management is of the opinion that these in-progress solar projects will not generate future economic returns to the Group.

- (d) Fair value change on receivables containing significant financing component, which was based on the present value of future cash flows discounted using an effective interest rate of approximately 8%, represented the deferred receivables re-measured as at 31 December 2024 since the management expected that the repayment of deferred receivables was extended from 31 December 2025 to 31 December 2026 with other terms remained unchanged.

9. FINANCE COSTS

| | 2024 RMB'000 | 2023 RMB'000 |

10. INCOME TAX EXPENSE

| | 2024 RMB'000 | 2023 RMB'000 |
|---------------------------------------|-----------------|-----------------|
| PRC Enterprise Income Tax ("EIT"): | | |
| Current tax | 3,870 | 14,384 |
| Under/(over)-provision in prior years | 278 | (788) |
| | 4,148 | 13,596 |
| Deferred tax (note 32) | 34 | 1,554 |
| | 4,182 | 15,150 |

The basic tax rate of the Company's PRC subsidiaries is 25% under the law of the PRC on Enterprise Income Tax (the "EIT Law") and implementation regulations of the EIT Law. Certain subsidiaries were recognised as High and New Technology Enterprises and were entitled to a preferential EIT rate at 15% for three years.

For the year ended 31 December 2023, certain subsidiaries of the Group, engaged in solar photovoltaic projects, under the EIT Law and its relevant regulations, were entitled to tax holidays of 3-year full exemption followed by 3-year 50% exemption commencing from their respective years in which their first operating income was derived. These subsidiaries were disposed during the preceding year.

PRC withholding income tax of 10% shall be levied on the dividends declared by the companies established in the PRC to their foreign investors out of their profits earned after 1 January 2008. A lower 5% withholding tax rate may be applied when the immediate holding companies of the PRC subsidiaries are incorporated or operated in Hong Kong and fulfil the requirements to the tax treaty arrangements between the PRC and Hong Kong.

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No.7) Bill 2017 (the "Bill") which introduced the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of qualifying corporations is taxed at 8.25%, and profits above HK\$2 million is taxed at 16.5%. The two-tiered profits tax rates regime is applicable to the Group for both years. No provision for taxation in Hong Kong Profits Tax was made as there is no assessable profit for both reporting periods.

The Federal and state income tax rate in the US are calculated at 21% and 8.84% respectively for both years. No provision for taxation in US Federal and state income tax were made as there is no assessable profit for both reporting periods.

For the year ended 31 December 2024

10. INCOME TAX EXPENSE (Continued)

The subsidiary of the Company which operates in Singapore is subject to corporate income tax at a rate of 17% (2023: N/A) on the estimated assessable profit for the year. For the year ended 31 December 2024, the subsidiary can enjoy 75% tax exemption on the first S\$100,000 of chargeable income and a further 50% tax exemption on the next S\$100,000 of chargeable income. No provision for taxation in Singapore was made as there was no assessable profit for the year.

The tax charge for the year can be reconciled to the loss before tax per the consolidated statement of profit or loss and other comprehensive income as follows:

| | 2024 RMB'000 | 2023 RMB'000 |
|---|-----------------|-----------------|
| Loss before tax | (218,558) | (948,860) |
| Tax at the domestic income tax rate of 25% (note a) | (54,640) | (237,215) |
| Tax effect of share of profit of joint venture | (67) | (73) |
| Tax effect of share of profits of associates | (27,694) | (28,018) |
| Tax effect of expenses not deductible for tax purpose | 28,419 | 225,713 |
| Tax effect of deductible temporary differences not recognised | 37,757 | 92,798 |
| Tax effect of income not taxable for tax purpose | (31,526) | (51,545) |
| Tax effect of tax losses not recognised | 68,949 | 48,328 |
| Utilisation of tax losses previously not recognised | (6,869) | (30,199) |
| Under/(over)-provision in prior years | 278 | (788) |
| Effect of tax exemptions and concessions granted to the PRC subsidiaries | (6,021) | (3,851) |
| Effect of research and development expenses that are additionally deducted (note b) | (4,404) | – |
| Income tax expense for the year | 4,182 | 15,150 |

Notes:

- (a) The domestic tax rate in the jurisdiction where the operation of the Group is substantially based is used which is PRC EIT rate.
- (b) Certain research and development expenses of the Company's PRC subsidiaries are qualified for 100% additional deduction for tax purpose.

The executive directors' emoluments shown above were for their services in connection with the management of the affairs of the Company and the Group. The non-executive directors' emoluments shown above were for their services as directors of the Company and its subsidiaries. The independent non-executive directors' emoluments shown above were for their services as directors of the Company.

Bonuses are discretionary and are based on the Group's performance for both years.

No directors waived any emoluments and no incentive paid on joining and compensation for the loss of office for both years.

There was no arrangement under which a director or the chief executive waived or agreed to waive any remuneration during both years.

Certain directors were granted share options, in respect of their services to the Group under the share option scheme of the Company. Details of the share option scheme are set out in note 35.

13. DIVIDENDS

No dividend was paid or proposed for ordinary shareholders of the Company during 2024, nor has any dividend been proposed since the end of the reporting period (2023: RMBnil).

14. LOSS PER SHARE

The calculation of the basic and diluted loss per share attributable to owners of the Company is based on the following data:

| | 2024 RMB'000 | 2023 RMB'000 |
|---|-----------------|-----------------|
| Loss | | |
| Loss for the purpose of basic and diluted loss per share | | |
| (Loss for the year attributable to owners of the Company) | (424,040) | (1,165,641) |
| | 2024 '000 | 2023 '000 |
| Number of shares | | |
| Weighted average number of ordinary shares for the purpose of | | |
| basic and diluted loss per share | 1,318,403 | 1,167,436 |

Diluted loss per share for the years ended 31 December 2024 and 2023 do not assume the exercise of share options granted by the Company, since the exercise would result in decrease in loss per share of the respective year.

15. PROPERTY, PLANT AND EQUIPMENT (Continued)

The above items of property, plant and equipment, except for construction in progress, are depreciated on a straight-line basis after taking into account of the residual value as follows:

| | |
|---|--|
| Buildings | 2%–4% or over the lease term, whichever is shorter |
| Power generators and equipment | 4% per annum in the PRC or the percentage calculated based on license period in the US |
| Leasehold improvements, furniture, fixtures and equipment | 20%–25% |
| Motor vehicles | 20%–30% |

All buildings were held under operating leases in the PRC.

16. RIGHT-OF-USE ASSETS

16. RIGHT-OF-USE ASSETS (Continued)

| | 2024 RMB'000 | 2023 RMB'000 |
|---|-----------------|-----------------|
| Expense relating to short-term leases | (2,348) | (2,699) |
| Total cash outflow for leases | (20,847) | (39,195) |
| Additions to right-of-use assets | 8,171 | 15,848 |
| Effect of foreign currency exchange differences | (249) | 694 |

For both years, the Group leases lands, office, rooftops and other equipment for its operations. Lease contracts are entered into for fixed terms of two to fifty years, but may have extension options as described below. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

In addition, the Group owns several leasehold lands where its solar power plants are primarily located and office buildings. The Group is the registered owner of these property interests. The Group has obtained the land use right certificates for all leasehold lands except for those with carrying amount of approximately RMB367,000 (2023: RMB1,484,000) in which the Group is in the process of obtaining. Lump sum payments were made upfront to acquire these property interests.

The Group regularly entered into short-term leases for office, motor vehicles and staff quarter. As at 31 December 2024 and 2023, the portfolio of short-term leases is similar to the portfolio of short-term leases to which the short-term lease expense disclosed above.

The Group has extension options in a number of leases for the leasehold lands. They are used to maximise operational flexibility in terms of managing the assets used in the Group's operations. The majority of extension options held are exercisable only by the Group and not by the respective lessors.

The Group assessed at lease commencement date/date of initial application whether it is reasonably certain to exercise the extension option. There is no extension option which the Group is not reasonably certain to exercise, the related lease liabilities of all extension options are recognised and no potential exposure to these future lease payments under extension options are not included in lease liabilities as at 31 December 2024 and 2023. As at 31 December 2024, lease liabilities with the exercise of extension options of approximately RMB34,552,000 (2023: RMB74,386,000) are recognised.

In addition, the Group reassesses whether it is reasonably certain to exercise an extension option upon the occurrence of either a significant event or a significant change in circumstances that is within the control of the lessee. During the years ended 31 December 2024 and 2023, there is no such triggering event.

Details of the lease maturity analysis of lease liabilities are set out in note 31.

17. INTERESTS IN ASSOCIATES (Continued)

Notes:

- (a) On 16 November 2020, the Group announced that it has entered into a series of five share transfer agreements with 徐州國投環能源有限公司 Xuzhou State Investment & Environmental Protection Energy Co., Ltd.* (“Xuzhou State Investment”), an independent third party, for disposal of 90% equity interest in each of Suzhou GCL Solar Power, Huaibei Xinneng, Hefei Jiannan and Hefei Jiuyang and 67% equity interest in Dangshan Xinneng Photovoltaic Power Company Limited. As the Group has right to appoint one out of five directors of Suzhou GCL Solar Power, Huaibei Xinneng, Hefei Jiannan and Hefei Jiuyang and therefore the Group retains significant influence on Suzhou GCL Solar Power, Huaibei Xinneng, Hefei Jiannan and Hefei Jiuyang upon completion of the disposal. Accordingly, the remaining 10% equity interest in Suzhou GCL Solar Power, Huaibei Xinneng, Hefei Jiannan and Hefei Jiuyang are accounted for as associates.
- (b) On 21 August 2020, the Group disposed of a total of 60% equity interest in Xinao to 國家電投集團貴州金元威寧能源有限公司 State Power Investment Corporation Guizhou Jinyuan Weining Energy Co., Ltd.* and 廣西金元南方新能源有限公司 Guangxi Jinyuan South New Energy Limited*, which are independent third parties, the Group retains significant influence on Xinao upon completion of this disposal. Accordingly, the remaining 40% equity interest in Xinao is accounted for as investment in an associate.
- (c) In July 2020, the Group disposed of 75% equity interest in Jinhu to 國開新能源科技有限公司 CDB New Energy Technology Co., Ltd.* (“CDB New Energy”), in June 2021, the Group further entered into supplemental agreement with CDB New Energy to disposed of its 9.5% equity interest in Jinhu to an independent third party. As the Group has right to appoint one out of four directors of Jinhu and therefore the Group retains significant influence on Jinhu upon completion of the disposal. Accordingly, the remaining 15.5% equity interest in Jinhu is accounted for as an associate.
- (d) On 22 November 2020, the Group entered into five equity transfer agreements with Xuzhou State Investment to dispose of its 90% equity interest in each of Dangshan GCL, Funan GCL, Hefei Xinren and Tianchang GCL and its 50% equity interest in Taihu Xinneng Solar Power Co., Ltd. As the Group has right to appoint one out of five directors of Dangshan GCL, Funan GCL, Hefei Xinren and Tianchang GCL and therefore the Group retains significant influence on Dangshan GCL, Funan GCL, Hefei Xinren and Tianchang GCL upon completion of the disposal. Accordingly, the remaining 10% equity interest in Dangshan GCL, Funan GCL, Hefei Xinren and Tianchang GCL are accounted for as associates.
- (e) On 1 April 2021, the Group entered into four equity transfer agreements with 三峽資產管理有限公司 Three Gorges Asset Management Co., Ltd.* to dispose of its 98.4% equity interest in Jingbian GCL Solar Power Co., Ltd. (“Jingbian GCL”), its 80.3514% equity interest in Hengshan Jinghe and its 100% equity interest in two wholly-owned subsidiaries, namely Yulin Longyuan Solar Energy Limited and Yulin Yushen Industrial Area Energy Co., Ltd.. As the Group has right to appoint one out of five directors of Hengshan Jinghe and therefore the Group retains significant influence on Hengshan Jinghe upon completion of the disposal. Accordingly, the remaining 19.6% equity interest in Hengshan Jinghe is accounted for as an associate.
- (f) On 24 June 2021, the Group entered into six equity transfer agreements with 重慶綠欣能源發展有限公司 Chongqing Lvxin Energy Development Co., Ltd.* to dispose of its 100% equity interest in four wholly-owned subsidiaries namely, Shiyan Yunneng Photovoltaic Development Co., Ltd., Jingshan GCL Photovoltaic Power Co. Ltd., Jingshan Xinhui Solar Power Ltd. and Shanggao County Lifeng GCL New Energy Co., Ltd., its 70% equity interest in Shicheng GCL Solar Power Co., Ltd. and its 51% equity interest in Anfu GCL. As the Group has right to appoint one out of three directors of Anfu GCL and therefore the Group retains significant influence on Anfu GCL upon completion of the disposal. Accordingly, the remaining 49% equity interest in Anfu GCL is accounted for as an associate.

All associates are accounted for using the equity method in these consolidated financial statements.

Notes:

- (a) During the year ended 31 December 2021, the Group disposed of 99.635% equity interest in Jingbian County Shunfeng New Energy Limited and disposed of 98.4% equity interest in Jingbian GCL, the wholly-owned subsidiaries, and retained the remaining 0.365% and 1.6% equity interest respectively in the companies. The Group also disposed of 90% equity interest in Shenmu Jingpu Power Co., Ltd., Shenmu Jingfu Solar Power Co., Ltd., Shenmu Ping Xi Power Co., Ltd., Shenmu Ping Yuan Power Co., Ltd., Shenmu County Jingdeng Power Co., Ltd. and Xixian New District GCL Photovoltaic Power Co., Ltd. The Group was not given the right to appoint any directors, and therefore the Directors considered that the Group was not able to exercise significant influence over these companies. Such equity investments of approximately RMB33,741,000 (2023: RMB43,714,000) were therefore accounted for as FVTPL as at 31 December 2024.

19. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS (Continued)

Notes: (Continued)

- (b) The Group invested in Asia-IO Clean Energy Partners SP (the "Segregated Portfolio"), a segregated portfolio of Asia-IO Partners Master SPC (the "Fund"), amounted to US\$18,000,000 (equivalent to approximately RMB128,014,000) during the current year. The Fund is an exempted limited liability company registered as a segregated portfolio company with the Cayman Islands Monetary Authority. The Segregated Portfolio may hold various portfolio of listed and/or unlisted investments focusing on the energy and other related advanced manufacturing industries. The primary objective of the investments is to maximise long-term absolute returns primarily through the aforesaid investments. Pursuant to the subscription agreement and the private placement memorandum in relation to the Segregated Portfolio, the beneficial interests held by the Group in the Segregate Portfolio of the Fund are in the form of Class A participating shares which primarily provide the Group with the share of returns from the unlisted investments but not any decision making power nor any voting right to involve in and control the daily operation. The Fund is newly established.

The shareholders of Class A participating shares have no right to request redemption of Class A participating shares. Unless otherwise determined by the directors of the Fund, and subject to applicable law, redemptions of shares will be effected only by way of compulsory redemption by the Fund and will take place on such day or days as the directors of the Fund may from time to time determine. In addition, except as otherwise determined by the directors of the Fund, and subject to the articles of the Fund, no holder of Class A participating shares shall have the right to receive any distribution or return, whether in respect of its subscription monies or otherwise. Subject to applicable law, the directors of the Fund may in their absolute discretion, and from time to time, determine to make distributions to holders of Class A participating shares. The Class A participating shares carry an equal right to such dividends and other distributions as the directors of the Fund may declare.

| LNG business related products | 191,500 | – |
| Less: Write-down to net realisable value | (31,879) | – |
| | 159,621 | – |

The increase in inventories in the current year was mainly because the Group is newly exploring and expanding its LNG business.

Movements of write-down to net realisable value on inventories are as follows:

| | 2024 RMB'000 | 2023 RMB'000 |
|---|-----------------|-----------------|
| At 1 January | – | – |
| Write-down to net realisable value for the year | 31,879 | – |
| At 31 December | 31,879 | – |

The write-down to net realisable value were included in the cost of inventories recognised as expenses because costs of certain inventories were higher than their net realisable values.

22. TRADE AND OTHER RECEIVABLES (Continued)

Notes:

- (a) As at 1 January 2023, trade receivables from contract with customers amounted to approximately RMB1,589,395,000 (net of loss allowance of approximately RMB3,555,000).

For sales of electricity, the Group generally grants credit period of approximately one month to local grid companies in the PRC or overseas grid companies in the US from the date of invoice in accordance with the relevant electricity sales contracts between the Group and the respective local grid companies or overseas grid companies.

For operation and management services, the Group generally grants credit period of one month to customers in the PRC from the date of invoice in accordance with the relevant contracts between the Group and the respective customers.

For sales of LNG and related products, the Group generally requires customers to provide 100% of the agreed consideration of specified goods or grants credit period of approximately one month to customers from the date of invoice when the goods are delivered in accordance with the relevant contracts between the Group and the respective customers.

Trade receivables include bills received amounting to approximately RMB1,349,000 (2023: RMB210,000) held by the Group for future settlement of trade receivables, of which certain bills issued by third parties are further endorsed by the Group with recourse for settlement of payables for purchase of plant and machinery and construction costs, or discounted to banks for cash. The Group continues to recognise their full carrying amount at the end of both reporting periods. All bills received by the Group are with a maturity period of less than one year.

The following is an aged analysis of trade receivables (excluded bills held by the Group for future settlement), which is presented based on the invoice date and net of loss allowance at the end of the reporting period:

| | 2024 RMB'000 | 2023 RMB'000 |
|---------------|-----------------|-----------------|
| 0–90 days | 117,415 | 52,605 |
| 91–180 days | 13,901 | 16,600 |
| Over 180 days | 31,725 | 14,442 |
| | 163,041 | 83,647 |

As at 31 December 2024, included in these trade receivables are debtors with aggregate carrying amount of approximately RMB87,931,000 (2023: RMB39,798,000) which are past due as at the end of the reporting date. These trade receivables relate to a number of customers represented the local grid companies and customers in the PRC, for whom there is no recent history of default. The Group does not hold any collaterals over these balances.

Trade receivable of approximately RMB35,531,000 (2023: RMB31,259,000) as at 31 December 2024 have been classified as part of a disposal group held for sale (note 26(a)).

- (b) The amounts due from former subsidiaries include (i) carrying amount of approximately RMB817,789,000 (2023: RMB700,945,000) in relation to deferred receivables (details are set out in notes 36(b)(i) and (ii)), which are non-trade in nature, unsecured, interest-bearing ranging from 4.3% to 9.52% (2023: ranging from 4.3% to 9.52%) per annum and in the opinion of Directors, they are expected to be received within two years as at 31 December 2024 (note 8(d)); and (ii) outstanding payments arising from its disposals of subsidiaries to independent third parties during the financial years ended 31 December 2018 to 31 December 2023 as part of the Group's transition to become an asset-light enterprise. When the Group and the purchasers discussed the terms of the sale and purchase agreements in respect of the disposal of the Group's subsidiaries, the considerations were determined by taking into, among other things, receivables (i.e. the "Outstanding Payments") that were due from the former subsidiaries to the Group. The purchasers are obligated to procure the former subsidiaries to settle the Outstanding Payments in stages pursuant to the terms and conditions set out in the sale and purchase agreements. The amounts are non-trade in nature, unsecured and interest-bearing ranging from 4.45% to 9.52% (2023: ranging from 4.45% to 9.52%) per annum and repayable on demand.

Details of impairment assessment of trade and other receivables excluding prepayments and refundable value-added taxes are set out in note 38(b).

For the electricity sale business, the disposal group generally granted credit period of approximately one month to local power grid companies in the PRC from the date of invoice in accordance with the relevant electricity sales contract between the disposal group and the respective local grid companies.

As at 31 December 2023, none of these receivables are past due as at the end of the reporting date.

- (b) Lease liabilities of approximately RMB844,000 are recognised with related right-of-use assets of approximately RMB6,854,000 as at 31 December 2023. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by lessor and the relevant lease assets may not used as security for borrowing purposes.

The weighted average incremental borrowing rate applied to lease liabilities is 4.9%.

The lease obligations are denominated in the functional currency of the subsidiary.

| | 533,312 | 780,386 |

The Group has financial risk management policies in place to ensure settlement of payables within the credit time frame.

Notes:

- a. Pursuant to the relevant prevailing federal policies in the US, taxpayers that construct or acquire on or before 31 December 2019 qualified energy property are allowed to claim an energy investment tax credit ("ITC") at 30% for the taxable year in which such property is placed into service by the taxpayer. The Directors analysed the facts and circumstances of the ITC and determined that it is of nature of a government grant that is provided to the Group in the form of tax benefits relating to construction or acquisition of qualified energy property.

Notes: (Continued)

a. (Continued)

Against this, the Group entered into an inverted lease arrangement in February 2017 for its qualified solar power plant projects in the US ("Qualified Assets") with a third party financial institution, which acts as a tax equity investor, and the arrangement allows the Group to pass its entitled ITC ("ITC Benefit") that constitutes the right to offset against future tax payables to the tax equity investor for cash receipts in exchange. During the year ended 31 December 2017, ITC Benefit of the Group related to the Qualified Assets amounted to US\$34,090,000 (equivalent to approximately RMB222,751,000) and was recognised as a government grant ("Grant") as there is a reasonable assurance that the relevant requirements for the tax benefit have been met. The Grant would be amortised over the useful lives of the Qualified Assets. Pursuant to the arrangement, the ITC Benefit was passed on by the Group to the tax equity investor and accordingly, the ITC Benefit was derecognised during the year that the invested lease arrangement was entered into with the tax equity investor. Approximately US\$1,136,000 (equivalent to approximately RMB8,092,000) (2023: US\$1,136,000 (equivalent to approximately RMB8,007,000)) of the Grant was recognised in profit or loss for the year as a government grant income and included in other income.

During the year ended 31 December 2018, the Group entered into another financing arrangement for its four qualified solar power plant projects in the US with a third party financial institution, in which the Group passed its ITC Benefit to the financial institution that constitutes the right to offset against future tax payables to the financial institution for cash receipts in exchange. As at 31 December 2024, ITC Benefit of the Group related to the four projects amounted to US\$21,769,000 (equivalent to approximately RMB155,028,000) (2023: US\$22,686,000 (equivalent to approximately RMB160,676,000)) and was recognised as a Grant as there is a reasonable assurance that the relevant requirements for the tax benefit have been met. The Grant would be amortised over the useful lives of the Qualified Assets. Pursuant to the arrangement, the ITC Benefit was passed on by the Group to the financial institution and accordingly, the relevant ITC Benefit was derecognised during year ended 31 December 2019. Approximately US\$917,000 (equivalent to approximately RMB6,533,000) (2023: US\$917,000 (equivalent to approximately RMB6,464,000)) of the Grant was recognised in profit or loss for the year as a government grant income and included in other income.

b. Amounts due to former subsidiaries are non-trade in nature, unsecured, non-interest bearing and repayable on demand.

28. CONTRACT LIABILITIES

| | 2024 RMB'000 | 2023 RMB'000 |
|---|-----------------|-----------------|
| Contract liabilities arising from billings in advance of LNG business | 127,546 | 2,082 |

According to the payment terms relating to LNG business, the Group typically receives full payment or certain percentage of deposits as advance payment before delivery of goods. This will give rise to contract liabilities at the start of a contract, until the revenue is recognised upon the order is fulfilled. The increase in contract liabilities in the current year was mainly because the Group is newly exploring and expanding its LNG business.

The following table shows how much of the revenue recognised relates to brought-forward contract liabilities and how much relates to performance obligations that were satisfied in prior periods:

| | 2024 RMB'000 | 2023 RMB'000 |
|---|-----------------|-----------------|
| Revenue recognised that was included in the contract liabilities at the beginning of the year | 2,082 | – |

32. DEFERRED TAXATION

For the purpose of presentation in the consolidated statement of financial position, certain deferred tax assets and liabilities have been offset. The following is the analysis of the deferred tax balances for financial reporting purposes:

| | 2024 RMB'000 | 2023 RMB'000 |
|---------------------|-----------------|-----------------|
| Deferred tax assets | 787 | 821 |

The following are the deferred tax liabilities (assets) recognised and movements thereon during the year:

| | Unrealised profits on plant and equipment RMB'000 | Others RMB'000 | Total RMB'000 |
|--|---|-------------------|------------------|
| At 1 January 2023 | (25,383) | 679 | (24,704) |
| Charge (credit) to profit or loss | 2,233 | (679) | 1,554 |
| Disposal of solar power plant projects (note 36(b)) | 22,329 | – | 22,329 |
| At 31 December 2023 and 1 January 2024 | (821) | – | (821) |
| Charge to profit or loss | 34 | – | 34 |
| At 31 December 2024 | (787) | – | (787) |

Under the tax law of the PRC, withholding tax is imposed on dividends declared in respect of profits earned by the PRC subsidiaries from 1 January 2008 onwards.

Deferred taxation has not been provided for in the consolidated financial statements in respect of temporary differences attributable to retained earnings of the PRC subsidiaries amounting to approximately RMB106,327,000 (2023: RMB90,303,000) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future. No withholding tax is charged to profit or loss for the dividends declared and paid by the PRC subsidiaries during both years.

Notes to the Consolidated Financial Statements (Continued)

For the year ended 31 December 2024

32. DEFERRED TAXATION (Continued)

At the end of the reporting period, the Group has unused tax losses of approximately RMB1,297,178,000 (2023: RMB1,276,503,000) available for offset against future profits. Unrecognised tax losses of approximately RMB46,704,000 (2023: RMB194,488,000) was disposed together with the disposal of subsidiaries during the year ended 31 December 2024. No deferred tax asset has been recognised due to the unpredictability of future profit streams. Unrecognised tax losses of approximately RMB1,251,808,000 (2023: RMB1,231,133,000) will expire from 2025 to 2029 (2023: 2024 to 2028) and other losses may be carried forward indefinitely.

At the end of the reporting period, the Group has deductible temporary difference mainly in respect of impairment of certain assets in aggregate of approximately RMB1,302,113,000 (2023: RMB1,151,087,000). No deferred tax asset has been recognised to the deductible temporary difference as it is not probable that tax profit will be available against which the deductible temporary difference can be utilised.

34. PERPETUAL NOTES

On 18 November 2016, Nanjing GCL New Energy (as defined in note 46(a)), an indirect wholly-owned subsidiary, entered into a perpetual notes agreement with 保利協鑫(蘇州)新能源有限公司 GCL-Poly (Suzhou) New Energy Co., Ltd.* ("GCL-Poly (Suzhou)"), 江蘇協鑫矽材料科技發展有限公司 Jiangsu GCL Silicon Material Technology Development Co., Ltd.* ("Jiangsu GCL"), 蘇州協鑫光伏科技有限公司 Suzhou GCL Photovoltaic Technology Co., Ltd.* ("Suzhou GCL") and 太倉協鑫光伏科技有限公司 Taicang GCL Photovoltaic Technology Co., Ltd.* ("Taicang GCL") (together, the "Lenders"). Each of the Lenders is a wholly-owned subsidiary of GCL Technology Holdings Limited ("GCL Technology"). Nanjing GCL New Energy issued perpetual notes of RMB800,000,000 and RMB1,000,000,000 in November and December 2016, respectively and key terms are as follows:

** English name for identification only*

(a) Interest rate

Interest rate is 7.3% per annum for the first two years, 9% per annum for the third to fourth year and 11% per annum starting from the fifth year.

(b) Maturity date

There is no maturity date.

(c) Repayment terms

The distribution shall be repaid on the 21st day of the last month of each quarter (the "Distribution Payment Date"). Nanjing GCL New Energy shall have the right to defer any distribution payment indefinitely by notifying the Lenders five working days before the Distribution Payment Date, and there is no compound interest on the deferred distribution payment. If Nanjing GCL New Energy chooses to defer distribution payment, for as long as there is any deferred distribution payment not yet paid in full, Nanjing GCL New Energy is not permitted to declare and pay dividends to its shareholders. The Lenders shall have no right at any time to request repayment of the perpetual notes from Nanjing GCL New Energy, but Nanjing GCL New Energy shall have the right, but not the obligations, to repay the perpetual notes amount by notifying the Lenders in writing five working days before the repayment of the perpetual notes at par value.

(d) Classification of perpetual notes

The perpetual notes are classified as equity instruments in the Group's consolidated financial statements as the Group does not have a contractual obligation to deliver cash or other financial assets arising from the issue of the perpetual notes. Any distributions made by Nanjing GCL New Energy to the holders are recognised in equity in the consolidated financial statements of the Group. During the year ended 31 December 2024, profit and total comprehensive income of approximately RMB201,300,000 (2023: RMB200,750,000) was attributable to perpetual notes holders in accordance with the terms of the agreements. The entire distribution payment of approximately RMB201,300,000 for the year ended 31 December 2024 (2023: RMB200,750,000) was deferred by the Group.

35. SHARE-BASED PAYMENT TRANSACTIONS

Equity-settled share option scheme

The Company adopted a share option scheme on 15 October 2014 (the “2014 Share Option Scheme”). The termination of the 2014 Share Option Scheme and the adoption of a new share option scheme (the “2024 Share Option Scheme”) to replace the 2014 Share Option Scheme were passed by the shareholders at the annual general meeting of the Company held on 23 May 2024 (“Effective Date”). Following the termination of 2014 Share Option Scheme from the Effective Date, no further share options shall be granted under the 2014 Share Option Scheme but the outstanding share options granted thereunder shall continue to be valid and exercisable in accordance with the terms of the 2014 Share Option Scheme. Further details regarding the termination of 2014 Share Option Scheme and adoption of 2024 Share Option Scheme are set out in circular dated 23 April 2024 of the Company.

Under the 2014 Share Option Scheme, share options were granted on 23 October 2014, 24 July 2015, 26 February 2021 and 3 November 2021 to subscribe for 26,842,000 Shares, 23,673,000 Shares, 19,065,937 Shares (of which 18,525,812 share options have been accepted by the grantees) and 3,025,000 Shares respectively. No consideration is payable on acceptance of option. As at 31 December 2024, a total of 18,695,263 shares options granted under the 2014 Share Option Scheme remained outstanding and will continue to be valid and exercisable during their prescribed exercise periods in accordance with the 2014 Share Option Scheme.

No share options had been granted under the 2014 Share Option Scheme and the 2024 Share Option Scheme during the years ended 31 December 2024 and 2023.

The following table discloses the terms and conditions of the grants, whereby all options (after adjustment of Share Consolidation) are settled by physical delivery of shares at the end of the current reporting period:

| | Number of options | Vesting conditions | Contractual life of options |
|--------------------------------------|----------------------|---|---|
| Options granted to directors: | | | |
| 24 July 2015 | 402,640 | Exercisable in five even tranches immediately from 24 July of each year from 2015 to 2019 | Expire at the close of business on 23 July 2025 |
| 3 November 2021 | 2,175,000 | Exercisable in four even tranches immediately from 3 November of each year from 2022 to 2025 | Expire at the close of business on 2 November 2031 |
| Options granted to employees: | | | |
| 24 July 2015 | 3,193,436 | Exercisable in five even tranches immediately from 24 July of each year from 2015 to 2019 | Expire at the close of business on 23 July 2025 |
| 26 February 2021 | 12,924,187 | Exercisable in four even tranches immediately from 26 February of each year from 2022 to 2025 | Expire at the close of business on 25 February 2031 |

35. SHARE-BASED PAYMENT TRANSACTIONS (Continued)

Equity-settled share option scheme (Continued)

The options outstanding as at 31 December 2024 had a weighted average remaining contractual life of 5.85 years (2023: 6.17 years).

The fair value of services received in return for share options granted during the year ended 31 December 2021 was measured by reference to the fair value of share options granted, IFRS 2 and the accounting policy information stated in note 4. The estimate of the fair value of the share options granted was measured based on the Binomial Option pricing model for share options granted on 23 October 2014, 26 February 2021 and 3 November 2021, while based on the Monte Carlo mode for share options granted on 24 July 2015. The contractual life of the share option and expectations of early exercise were incorporated into the respective models.

The following assumptions were used to calculate the fair values of share options:

| | Granted on 26 February 2021 | Granted on 3 November 2021 |
|--|-----------------------------------|----------------------------------|
| Fair value of and assumptions for share options | | |
| Fair value at measurement date | HK\$0.12 | HK\$0.12 |
| Share price | HK\$0.375 | HK\$0.330 |
| Exercise price | HK\$0.384 | HK\$0.357 |
| Volatility | 64.71% | 63.42% |
| Share option life | 10 years | 10 years |
| Expected dividends | 0% | 0% |
| Risk-free interest rate (based on Exchange Fund Notes) | 1.43% | 1.50% |

The expected volatility is based on the historic volatility (calculated based on the weighted average remaining life of the share options), adjusted for any expected changes to future volatility based on publicly available information. Expected dividends were based on historical dividends. Changes in the subjective input assumptions could materially affect the fair value estimate.

As at 31 December 2024, the number of shares in respect of which had been granted under the 2014 Share Option Scheme and remained outstanding was approximately 18,695,263 (2023: 21,128,715) shares, representing 1.33% (2023: 1.81%) of the issued share capital of the Company at that date. The maximum number of shares which may be issued upon exercise of all options to be granted under the 2014 Share Option Scheme shall not in aggregate exceed 10% of the shares of the Company in issue at the date of approval of the 2014 Share Option Scheme. The maximum entitlement for any one participant is that the total number of shares issued or to be issued upon exercise of the options granted to each participant in any twelve-month period shall not exceed 1% of the total number of shares in issue.

The exercise price is determined by the Directors, and will not be less than the higher of (i) the closing price of the Company's shares on the date of grant; (ii) the average closing price of the Company's shares for the five business days immediately preceding the date of grant; and (iii) the nominal value of the Company's share.

36. DISPOSAL OF SUBSIDIARIES (Continued)

(b) During the year ended 31 December 2023, the Group completed the following disposal of subsidiaries:–

(i) Disposal group classified as held for sale as at 31 December 2022

As disclosed in notes 26(a) and 26(b), on 31 December 2022, the Group entered into two equity transfer agreements with Hunan Xinhua Water, an independent third party to dispose of its 100% equity interest in a wholly-owned subsidiary, Dengkou GCL, and 51% equity interest in Yuncheng Xinhua at an aggregate consideration of approximately RMB26,370,000 as at the date of completion of disposals. The subsidiaries operate solar power plant projects with an aggregate capacity of 50MW in Shandong and Inner Mongolia, the PRC.

During the year ended 31 December 2023, the disposal of Yuncheng Xinhua with an aggregate consideration of approximately RMB23,560,000 was completed. The disposal of Dengkou GCL has not been completed as at 31 December 2023 and is presented as disposal group held for sale and disclosed in note 26(b).

The Group has granted a put option to Hunan Xinhua Water, pursuant to which the Group has agreed that (i) within two-year period from the completion date of disposal if there is undisclosed obligations of Yuncheng Xinhua exceeding RMB10 million or the operation of Yuncheng Xinhua is disrupted for more than three months due to the reasons stipulated in the supplementary agreement; or (ii) there is a loss or removal arising from national subsidies compliance review of Yuncheng Xinhua, Hunan Xinhua Water has a right to request the Group to repurchase the entire interest in Yuncheng Xinhua from Hunan Xinhua Water at a purchase price calculated in accordance with terms specified in the supplementary agreement. In the opinion of the Directors, based on the Group's past experiences and historical operating results of all solar power plants, the possibility regarding the occurrence of the specified events as stipulated in the supplementary agreement that would trigger the repurchase event is remote, and the fair value of the put option as at 31 December 2023 is considered as insignificant.

In addition, pursuant to the supplementary agreement, partial repayment of shareholder's loan of approximately RMB5.8 million, which is discounted at 8% with present value of approximately RMB4,835,000, is deferred and will be payable upon the publication or release of the announcement of the national subsidies compliance review ("Deferred Receivable") (note 22(b)). In the event that the national subsidies compliance review will result in a reduction in the national subsidy entitled to be receivable by Yuncheng Xinhua or its solar power plant project being removed from the National Subsidy Catalogue, the contracted parties agreed to adjust the consideration and offset with the Deferred Receivable. In the opinion of the Directors, based on the Group's past experiences and historical operating results of all solar power plants, the possibility regarding the failure of national subsidies review as stipulated in the supplementary agreement is remote and the Deferred Receivable is expected to be received within two years. The Deferred Receivable is included in amounts due from former subsidiaries and classified as non-current assets.

36. DISPOSAL OF SUBSIDIARIES (Continued)

(b) During the year ended 31 December 2023, the Group completed the following disposal of subsidiaries:– (Continued)

(ii) Gaotang GCL and Inner Mongolia Xiangdao

On 19 May 2023, the Group entered into two equity transfer agreements with Hunan Xinhua Water, an independent third party to dispose of its 100% equity interest in a wholly-owned subsidiary, Gaotang GCL, and 90.1% equity interest in Inner Mongolia Xiangdao, at an aggregate consideration of approximately RMB307,686,000 as at the date of completion of disposals. The subsidiaries operate solar power plant projects with an aggregate capacity of 191MW in Shandong and Inner Mongolia, the PRC.

The Group has granted a put option to Hunan Xinhua Water, pursuant to which the Group has agreed that (i) within two-year period from the completion date of disposal if there is undisclosed obligations of Gaotang GCL or Inner Mongolia Xiangdao exceeding RMB10 million or the operations of Gaotang GCL or Inner Mongolia Xiangdao are disrupted for more than three months due to the reasons stipulated in the respective supplementary agreement; or (ii) there is a loss or removal arising from national subsidies compliance review of Inner Mongolia Xiangdao, Hunan Xinhua Water has a right to request the Group to repurchase the entire interest in Gaotang GCL or 90.1% of Inner Mongolia Xiangdao from Hunan Xinhua Water at a purchase price calculated in accordance with terms specified in the respective supplementary agreement. In the opinion of the Directors, based on the Group's past experiences and historical operating results of all solar power plants, the possibility regarding the occurrence of the specified events as stipulated in the respective supplementary agreements that would trigger the repurchase event is remote, and the fair value of the put option as at 31 December 2023 is considered as insignificant.

In addition, pursuant to the respective supplementary agreement, partial repayment of shareholder's loan of approximately RMB759 million, which is discounted at 8% with present value of approximately RMB697,454,000, is deferred and will be payable upon the publication or release of the announcement of the national subsidies compliance review ("Deferred Receivable") (note 22(b)). In the event that the national subsidies compliance review will result in a reduction in the national subsidy entitled to be receivable by Inner Mongolia Xiangdao or its solar power plant project being removed from the National Subsidy Catalogue, the contracted parties agreed to adjust the consideration and offset with the Deferred Receivable. In the opinion of the Directors, based on the Group's past experiences and historical operating results of all solar power plants, the possibility regarding the failure of national subsidies review as stipulated in the respective supplementary agreement is remote and the Deferred Receivable is expected to be received within two years. The Deferred Receivable is included in amounts due from former subsidiaries and classified as non-current assets.

(iii) Eshan Xinneng (as defined below)

In May 2023, the Group entered into an equity transfer agreement with an independent third party and agreed to sell 100% equity interest of 峨山鑫能光伏發電有限公司 Eshan Xinneng Photovoltaic Power Co., Ltd.* ("Eshan Xinneng") at a consideration of RMB1.

(iv) Guizhou GCL New Energy

In July 2023, the Group entered into an equity transfer agreement with 天津其辰投資管理有限公司 Tianjin Qichen Investment Management Co., Ltd*, an associate of connected persons to dispose of its 100% equity interest in a wholly-owned subsidiary, 貴州協鑫新能源有限公司 Guizhou GCL New Energy Co., Ltd.*, at a consideration of approximately RMB20,000.

(vi) Suzhou Industrial Batch 2

On 12 October 2023, the Group entered into four equity transfer agreements with Suzhou Industrial, an associate of connected persons, in which Mr. Zhu Gongshan and his family members have significant influence, of the Company to dispose of its 100% equity interest in five wholly-owned subsidiaries, namely 滕州鑫田光伏發電有限公司 Tengzhou Xintian Photovoltaic Power Generation Co., Ltd.* ("Tengzhou Xintian"), 高唐協智光伏發電有限公司 Gaotang Xiezhi Photovoltaic Power Generation Co., Ltd.* ("Gaotang Xiezhi"), 高唐鑫旺光伏發電有限公司 Gaotang Xinwang Photovoltaic Power Generation Co., Ltd.* ("Gaotang Xinwang"), 漯河協潤新能源有限公司 Luohe Xierun New Energy Co., Ltd.* ("Luohe Xierun") and 高唐協辰光伏發電有限公司 Gaotang Xiechen Photovoltaic Power Generation Co., Ltd.* ("Gaotang Xiechen"), at an aggregate consideration of approximately RMB14,315,900 as at the date of completion of disposals. The subsidiaries operate solar power plant projects with an aggregate capacity of 25.86MW in Shandong and Henan, the PRC.

37. CAPITAL MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debt, which mainly includes amounts due to related companies, bank and other borrowings, and lease liabilities, net of cash and cash equivalents, and equity attributable to owners of the Company, comprising issued share capital, perpetual notes and reserves.

The Directors review the capital structure on a periodical basis. As part of this review, the Directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the Directors, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debts or the redemption of existing debt.

38. FINANCIAL INSTRUMENTS (Continued)**(b) Financial risk management objectives and policies**

The Group's major financial instruments include financial assets at fair value through profit or loss, derivative financial instruments, trade and other receivables, amounts due from related companies, pledged bank and other deposits, bank balances and cash, other payables, amounts due to related companies, loan from a related company, bank and other borrowings, lease liabilities and financial guarantee contracts. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk**Currency risk**

The Group operates in the PRC, Japan, US, Singapore and Ethiopia and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to RMB, HK\$, US\$, Japanese Yen ("JPY") and Singapore dollars ("S\$"). Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities. The Group currently does not have a currency risk hedging policy. However, the management monitors foreign currency risk exposure by closely monitoring the movement of foreign currency rate and considers hedging against it should the need arise.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

| | Assets | | Liabilities | |
|-------------------------------|----------------|----------------|--------------------|----------------|
| | 2024 | 2023 | 2024 | 2023 |
| | RMB'000 | RMB'000 | RMB'000 | RMB'000 |
| The Group | | | | |

| S\$ | 33,864 | – | 285 | – |
| Inter-company balances | | | | |
| HK\$ | – | – | 13,975 | – |

The foreign currency assets in 2024 and 2023 mainly relate to the US\$, HK\$ and S\$ denominated financial assets at fair value through profit or loss, pledged bank and other deposits, and bank balances.

The foreign currency liabilities in 2024 and 2023 mainly relate to the HK\$ and S\$ denominated other payables.

Sensitivity analysis

The following sensitivity analysis details the Group's sensitivity to a 5% (2023: 5%) increase and decrease in functional currency of respective entities against the relevant foreign currencies. 5% (2023: 5%) represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the reporting period for a 5% (2023: 5%) change in foreign currency rates. The sensitivity analysis also includes inter-company balances where the denomination of the balance is in a currency other than the functional currency of the lender or the borrower. A positive number below indicates a decrease in post-tax loss (2023: a decrease in post-tax loss) and a negative number below indicates an increase in post-tax loss (2023: an increase in post-tax loss), where the functional currency of the respective entities had weakened 5% (2023: 5%) against the relevant foreign currencies. For a 5% (2023: 5%) strengthening of functional currency of respective entities against the relevant foreign currency, there would be an equal and opposite impact on the loss (2023: loss) for the year.

| | HK\$ RMB'000 | US\$ RMB'000 | JPY RMB'000 | S\$ RMB'000 |
|--|-----------------|-----------------|----------------|----------------|
| 2024 | | | | |
| (Increase)/decrease in loss for the year | (1,576) | 3,206 | 1 | 1,679 |
| 2023 | | | | |
| (Increase)/decrease in loss for the year | (454) | 8,361 | 1 | — |

In the opinion of the Directors, the sensitivity analysis is unrepresentative of the inherent foreign exchange of the Group's exposure to risk as the year end exposure does not reflect the exposure during the year.

(b) Financial risk management objectives and policies (Continued)

Market risk (Continued)

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to lease liabilities (see note 31). The Group is also exposed to cash flow interest rate risk in relation to variable-rate pledged bank deposits and bank balances (see note 25), and the management has considered that the cash flow interest rate risk is limited because the current market interest rates on general deposits are relatively low and stable.

Additionally, certain of the Group's borrowings are issued at variable rates which expose the Group to cash flow interest rate risk. It is the Group's policy to maintain an appropriate level between its fixed-rate and variable-rate borrowings so as to minimise the fair value and cash flow interest rate risk. The Group currently does not have a hedging policy on interest rate exposure. However, the management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arises. The Group's exposures to interest rates on financial liabilities are detailed in liquidity risk management section of this note.

Without changing in the Group's risk management strategy, there is no material impact on the financial performance and financial position of the Group for the years ended 31 December 2024 and 2023 because the Group maintains low level of variable-rate borrowings to minimise the fair value and cash flow interest rate risk, the management considered that the cash flow interest rate risk is minimal.

The sensitivity analysis below has been determined based on the exposure to cash flow interest rates risks. The analysis is prepared assuming the financial liabilities outstanding at the end of the reporting period were outstanding for the whole year. The following represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's loss for the year ended 31 December 2024 would have increased/decreased by approximately RMB50,000 (2023: RMB440,000). This is mainly attributable to the Group's exposure to interest rates on its variable-rate borrowings.

Other price risk

The Group is exposed to price risk through its quoted and unquoted investments measured at FVTPL. The Group's equity price risk is mainly concentrated on unlisted equity investments of entities operating in solar industry. In addition, the Group has monitored the price risk and will consider hedging the risk exposure should the need arise.

Other than sensitivity analysis of certain investments as disclosed in note 38(c), sensitivity on other investments is not provided as the amount is considered insignificant.

(b) Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk exposures are primarily attributable to trade receivables, pledged bank and other deposits, bank balances, amounts due from related companies, other receivables and the financial loss to the Group arising from the financial guarantees provided by the Group. The Group does not hold any collateral or other credit enhancements to cover its credit risk associated with its financial assets and financial guarantee contracts.

Trade receivables arising from contracts with customers

In order to minimise the credit risk, the Group has a credit control policy in place under which credit evaluations of customers are performed on all customers requiring credit. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. In addition, the Group performs impairment assessment under ECL model on trade balances collectively.

The Group's concentration of credit risk by geographical locations is mainly the PRC, which accounted for over 99% (2023: 97%) of the trade receivables as at 31 December 2024. The Group's significant concentration of credit risk primarily arises when it has significant exposure to individual customers. There is no concentration of credit risk on any customers from sales of electricity and tariff adjustment and sales of LNG and related products.

The trade receivables arising from sales of electricity, and operation and management services are mainly due from the local grid companies and state-owned enterprises in various provinces in the PRC respectively. The management considered the probability of default of trade receivables is low by taking into the account of the repayment history of the debtors, adjusted for general economic conditions of the relevant industry, relevant country default risk and an assessment of both current as well as forecast direction of market conditions at the reporting date. Accordingly, the management is of the opinion that the credit risk of trade receivables is limited.

The Group always measures the loss allowance for trade receivables, including those with significant financing component at an amount equal to lifetime ECL. The ECL on trade receivables are assessed collectively for debtors which shared credit risk characteristics by reference to repayment history of the debts, taking into account general economic conditions of the relevant industry, relevant country default risk, and an assessment of both the current as well as the forecast direction at the reporting date.

Based on the average loss rates, the ECL on trade receivables is considered to be insignificant.

As at 31 December 2024, 15% (2023: 13%) and 31% (2023: 32%) of the trade receivables are due from the Group's largest customer and the five largest customers respectively from operation and management services.

38. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment (Continued)

Bank balances and pledged bank and other deposits

The credit risks on bank balances and pledged bank and other deposits are limited because the counterparties are reputable banks and financial institutions with high credit ratings assigned by international credit-rating agencies in the PRC, United States, Singapore and Hong Kong. The credit risk on bank balance located in Ethiopia is limited because the counterparty is reputable private bank without history of default.

The Group assessed 12m ECL for bank balances and pledged bank and other deposits by reference to information relating to average loss rate of the respective credit rating grades published by external credit rating agencies.

Based on the average loss rates, the ECL on bank balances and pledged bank and other deposits is considered insignificant.

Other receivables and amounts due from related companies (non-trade)

The credit quality of other receivables and amounts due from related parties (non-trade) excluding prepayments has been assessed with reference to historical information about the counterparties' payment histories and business performance. The management closely monitors the credit quality of other receivables and amounts due from related companies (non-trade) and considers those amounts, which are neither past due nor impaired, are of good credit quality in view of the good historical repayment record of such parties. In addition, the Group performs impairment assessment under ECL model on these balances individually.

For the purpose of impairment assessment of other receivables and amounts due from related companies (non-trade), including those with significant financing component, the loss allowance is measured at an amount equals to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. In determining the ECL of other receivables and amounts due from related parties (non-trade), the management of the Company makes periodical individual assessment on the recoverability of the receivables by taking into account their past repayment history, credit rating or financial position and the forward looking information that is available without undue cost or effort, and considering the debtors operate in the relevant industry which is well supported by the prevailing government policies. Except for the accumulated impairment losses of approximately RMB886,096,000 (2023: RMB726,026,000) and approximately RMB75,321,000 (2023: RMB86,965,000) were recognised on other receivables and amounts due from related companies as at 31 December 2024 respectively, the management considered the ECL provision for other receivables and amounts due from related companies is insignificant.

As at 31 December 2024, the Group had concentration of credit risk on other receivables as the largest gross carrying amount of amount due from a former subsidiary as at 31 December 2024 was approximately RMB813,593,000 (2023: RMB817,545,000). As at 31 December 2024, the Group had concentration of credit risk on amounts due from related companies (non-trade) as the largest gross carrying amount of amount due from a related company as at 31 December 2024 was approximately RMB665,825,000 (2023: RMB661,055,000).

Financial guarantee contracts

The credit quality of the borrowers and the guarantors has been assessed with reference to historical information about the counterparties' repayment histories, business performance and forward-looking information that is available without undue cost or effort. The management closely monitors the credit quality of the borrowers are of good credit quality in view of the good historical repayment record and/or financial position of such parties.

For financial guarantee contracts, the maximum amount that the Group has guaranteed under the respective contracts was approximately RMB1,241 million (2023: RMB2,974 million) as at 31 December 2024 if the guarantees were called upon in entirety. As at 31 December 2024, the Group provided back-to-back guarantees to third parties (i.e. the guarantors) for certain bank and other borrowings taken out by certain associates for project companies whereby the third parties held a substantial interest and the Group held a minority interest. The back-to-back guarantees held a maximum amount of approximately RMB1,241 million (2023: RMB1,715 million). Besides, the Group also provided financial guarantees to certain disposed subsidiaries during the period until these guarantees are replaced or the loan is repaid for their bank and other borrowings amounting to approximately RMBnil (2023: RMB1,259 million), out of which approximately RMBnil (2023: RMB367 million) is associates of connected persons, in which Mr. Zhu Gongshan and his family members have significant influence. Since these bank and other borrowings are secured by the borrowers' (i) property, plant and equipment; (ii) trade receivables, contract assets and fee collection right in relation to sales of electricity, the credit risk on financial guarantee contracts provided by the Group were limited.

At the end of the reporting period, the Directors have performed impairment assessment, and concluded that there has been no significant increase in credit risk since initial recognition of the financial guarantee contracts. The loss allowance is measured at 12m ECL, in the opinion of the Directors, the fair value of the guarantees is considered insignificant at initial recognition, and the ECL as at 31 December 2024 and 2023 are insignificant.

The management considered the ECL provision of financial guarantee contracts is insignificant.

Credit risk and impairment assessment (Continued)

Notes:

- a. The Group performs impairment assessment under expected credit loss on amounts due from related companies, which are subject to impairment assessment under IFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition. The ECL are assessed individually for debtors by reference to past repayment history, credit rating or financial position of the debtors and forward-looking information that is available without undue cost or effort, and also taking into account of the prevailing government policies that support the relevant industry which the Group's debtors operate.

The following table shows movement in ECL that has been recognised for amounts due from related companies:

| | 12m ECL RMB'000 | Lifetime ECL not credit-impaired RMB'000 |
|--|--------------------|--|
| At 1 January 2023 | – | – |
| Impairment losses recognised | 86,202 | 763 |
| At 31 December 2023 and 1 January 2024 | 86,202 | 763 |
| Reversal of impairment loss | (11,644) | – |
| At 31 December 2024 | 74,558 | 763 |

The following significant changes in the gross carrying amounts of amounts due from related companies contributed to the changes in the loss allowance:

- (i) decrease in origination of new receivables resulted in a decrease in loss allowance; and
 - (ii) settlement on existing receivables resulted in a decrease in loss allowance.
- b. In determining the ECL of bank balances and pledged bank and other deposits, the Group has taken into account the counterparties are reputable banks and financial institutions with high credit ratings assigned by international credit agencies or without history of default and forward looking information as appropriate. The Group assessed 12m ECL for bank balances and pledged bank and other deposits by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies and the management considers that expected credit loss on bank balances and pledged bank and other deposits are immaterial.

Notes: (Continued)

- c. For trade receivables, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the ECL on these items collectively based on internal credit rating as grouping for various debtors with shared credit risk characteristics by reference to repayment history of the debtor, adjusted for factors in relation to general economic conditions of the relevant industry, relevant country default risk and an assessment of both the current as well as the forecast direction at the reporting date.

As part of the Group's credit risk management, the Group applies internal credit rating for its customers in relation to the Solar Energy Business and LNG Business. The following table provides information about the exposure to credit risk for trade receivables which are assessed collectively within lifetime ECL (not credit-impaired) as at 31 December 2024 and 2023.

Gross carrying amount

2024

| Internal credit rating | Average loss rate | Trade receivables RMB'000 |
|------------------------|-------------------|------------------------------|
| Low risk | 0.51% | 164,390 |

2023

| Internal credit rating | Average loss rate | Trade receivables RMB'000 |
|------------------------|-------------------|------------------------------|
| Low risk | 0.36% | 83,857 |

The estimated loss rates are based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort. The Group has not recognised impairment loss on trade receivables during both years as the ECL provision is insignificant.

The following table shows movement in ECL that has been recognised for trade receivables:

Notes:

- (i) The Group performs impairment assessment under expected credit loss on other receivables and deposits, which are subject to impairment assessment under IFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition. The Group measures loss allowance equal to 12m ECL for other receivables and deposits. In determining the ECL of other receivables and deposits, the ECL are assessed individually for debtors by reference to past repayment history, credit rating or financial position of the debtors, forward-looking information that is available without undue cost or effort, and also taking into account of the prevailing government policies that support the relevant industry which the Group's debtors operate.
- (ii) The Group completed substantial disposal of solar power plants during the financial years ended 31 December 2018 to 2024 as part of its transition to become an asset-light enterprise. The amount represents impairment loss arising from set off arrangements with amounts due from former subsidiaries in relation to general rectification and indemnification clauses (including RMBnil (2023: RMB5,052,000) for rectification cost compensation, RMBnil (2023: RMB132,659,000) for construction payable adjustments, RMB87,284,000 (2023: RMB18,588,000) for on-grid electricity guarantee and RMBnil (2023: reversal of RMB11,681,000) for tax on land use indemnification) in accordance with the terms of the sale and purchase agreements of the disposals of solar power plants during the financial years ended 31 December 2018 to 2022.

In addition, the amount of approximately RMB25,655,000 (2023: RMBnil) represents impairment loss of other debtors with which contact is lost, plus these other receivables were exceedingly long outstanding for over at least three to four years and approximately RMB24,000,000 (2023: RMBnil) for consideration receivable of disposal of solar power plant projects. The management of the Company had carried out actions to recover but unsuccessful, as a result the management of the Company made the impairment loss after individual assessment on the recoverability of such receivables.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

As at 31 December 2024, the Group's current assets exceeded its current liabilities by approximately RMB1,568 million (2023: RMB1,760 million) and had bank balances and cash of approximately RMB285 million (2023: RMB555 million) against bank and other borrowings, loan from a related company and lease liabilities due within one year amounted to approximately RMB45 million (2023: RMB141 million).

The Group finances its capital intensive operations by short-term and long-term bank and other borrowings and shareholders' equity and perpetual notes.

The Directors are of the opinion that, taking into account the above measures, undrawn banking facilities and the Group's cash flow projection for the coming year, the Group will have sufficient working capital to meet its cash flow requirements in the next twelve months.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities and the Group's liquidity analysis for its derivative financial instruments. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The maturity dates for other non-derivative financial liabilities are based on the contractual repayment dates.

The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate at the end of the reporting period.

Liquidity and interest rate risk tables (Continued)

The amounts included above for variable-rate borrowings are subject to change if changes in variable interest rates differ from those estimates of interest rates determined at the end of the reporting period.

The amounts included above for financial guarantee contracts are the maximum amounts the Group could be required to settle under the arrangement for the full guaranteed amounts if those amounts are claimed by the counterparty to the guarantees. Based on expectations at the end of the reporting period, the Group considered that it is more likely than not that no amount would be payable under the arrangement. However, this estimate is subject to change depending on the probability of the counterparties claiming under the guarantees which is a function of the likelihood that the financial receivables held by the counterparties which are guaranteed suffer credit losses.

(c) Fair value measurements of financial instruments

Fair value measurements and valuation processes

In estimating the fair value of an asset or a liability, the Group uses market observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party qualified valuers to perform the valuation when necessary. The Directors work closely with the corporate finance team and/or qualified valuers to establish the appropriate valuation techniques and inputs to the model. The management of the Group reports the findings to the Directors every half year to explain the cause of fluctuations in the fair value of the assets and liabilities.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed below.

(i) *Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis*

Some of the Group's financial assets and financial liabilities (classified as financial assets or financial liabilities at fair value through profit or loss) are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation techniques and inputs used).

If the discount for lack of marketability was 5% higher or lower while all the other variables were held constant, the change in fair value of the unlisted equity investments would decrease or increase by approximately RMB7,416,000 (2023: RMB1,102,000) for the year ended 31 December 2024.

(b) If the net asset value of the unlisted fund was 5% higher or lower while all other variables were held constant, the change in fair value of the unlisted fund would increase and decrease by approximately RMB4,736,000 (2023: N/A) and approximately RMB4,829,000 (2023: N/A) respectively for the year ended 31 December 2024.

If the expected volatility was 5% higher or lower while all other variables were held constant, the change in fair value of the unlisted fund would decrease and increase by approximately RMB278,000 (2023: N/A) and approximately RMB292,000 (2023: N/A) respectively for the year ended 31 December 2024.

There is no transfer between the different levels of the fair value hierarchy for the year.

| At 31 December | 122,204 | – | 33,741 | 43,714 |

The carrying amounts and fair values of the Group's financial instruments reasonably approximate to fair values.

Management has assessed that the fair values of pledged bank and other deposits, trade receivables, trade payables, financial assets included in other receivables and deposits, balances with related parties, and financial liabilities included in other payables and accruals, approximate to their carrying amounts. The fair values of the interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The changes in fair value as a result of the Group's own non-performance risk for these interest-bearing bank and other borrowings as at 31 December 2024 and 2023 were assessed to be insignificant.

The Group's corporate finance team headed by the group finance controller is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The corporate finance team reports directly to the Directors and the audit committee. At each reporting date, the corporate finance team analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the Directors. The valuation process and results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Apart from the above-mentioned, there is no other material commitments at the end of the reporting period.

(ii) Contingent liabilities

Except for the financial guarantee contracts provided by the Group to third parties and related companies as disclosed in note 38(b), the Group had no any other material contingent liability as at 31 December 2023 and 2024.

41. PLEDGE OF ASSETS/RESTRICTIONS ON ASSETS

Pledge of assets

The Group's borrowings had been secured by the pledge of the Group's assets and the carrying amounts of the respective assets are as follows:

| | 2024 RMB'000 | 2023 RMB'000 |
|---------------------------------|-----------------|-----------------|
| Property, plant and equipment | 518,648 | 872,261 |
| Pledged bank and other deposits | 37,030 | 101,929 |
| | 555,678 | 974,190 |

The Group's secured bank and other borrowings were secured, individually or in combination, by (i) certain property, plant and equipment of the Group; (ii) certain pledged bank and other deposits of the Group; and (iii) equity interests in certain subsidiaries of the Group.

Restrictions on assets

In addition, lease liabilities (other than those disclosed in note 26 if any) of approximately RMB111,409,000 (2023: RMB137,200,000) are recognised and their related right-of-use assets are approximately RMB49,324,000 (2023: RMB76,786,000) as at 31 December 2024. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by lessor and the relevant leased assets may not be used as security for borrowing purposes.

42. RETIREMENT BENEFITS SCHEMES

(a) The PRC

The Group contributes to retirement plans for its employees in the PRC at a percentage of their salaries in compliance with the requirements of the respective municipal governments in the PRC. The municipal governments undertake to assume the retirement benefit obligations of all existing and future retired employees of the Group in the PRC.

(b) Hong Kong

The Group participates in a pension scheme, which was registered under the Mandatory Provident Fund Schemes Ordinance (the "MPF Ordinance"), for all its employees in Hong Kong. The scheme is a defined contribution scheme and is funded by contributions from employers and employees according to the provisions of the MPF Ordinance.

Forfeited contributions of approximately RMB374,000 (2023: RMB537,000) were used to reduce the level of employers' contributions for the year ended 31 December 2024. As at 31 December 2024 and 2023, there was no forfeited contribution available to reduce the contributions payable in the future years.

Long service payment obligations

Pursuant to the Hong Kong Employment Ordinance, the Group has the obligation to pay long service payment ("LSP") to qualifying employees in Hong Kong upon retirement, subject to a minimum of 5 years' employment period, based on the formula of "last monthly wages (before termination of employment) \times 2/3 \times years of service". Last monthly wage is capped at HK\$22,500 while the amount of long service payment shall not exceed HK\$390,000. This obligation is accounted for as a post – employment defined benefit plan. The Mandatory Provident Fund Schemes Ordinance permits the withdrawal of accrued benefits derived from an employer's MPF contributions for the purpose of offsetting LSP payable to an employee under the Employment Ordinance. The LSP obligation, if any, is presented on a net basis.

The Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 (the "Amendment Ordinance") was gazetted in June 2022 and will take effect on 1 May 2025 (the "Transition Date"). Under the Amended Ordinance, accrued benefits derived from an employer's mandatory MPF contributions after the Transition Date can only be applied to offset the pre-Transition Date LSP obligation but no longer eligible to offset the post-Transition Date LSP obligation. Furthermore, the LSP obligation before the Transition Date will be calculated based on the last monthly wages immediately preceding the Transition Date.

The Group has not accounted for the offsetting mechanism owing to immateriality.

42. RETIREMENT BENEFITS SCHEMES (Continued)

(c) The US

In 2015, the Company established a 401(k) savings trust plan ("401(k) Plan"), a defined contribution plan and is funded by employers and employees, in the US that qualifies as an Inland Revenue Service ("IRS") deferred salary arrangement under Section 401(k) of the US Internal Revenue Code. Under the 401(k) Plan, participating employees may elect to contribute up to a maximum amount subject to certain IRS limitations.

During the year ended 31 December 2024, total amounts contributed by the Group to the schemes in the PRC, Hong Kong and the US and charged to profit or loss, which represent contributions payable to the schemes by the Group at rates specified in the rules of the schemes are approximately RMB31,452,000 (2023: RMB30,249,000).

| — Interest expense on lease liabilities | 306 | 545 |

As at 31 December 2024, the Group had the following lease liabilities in respect of the aforesaid lease:

| | 2024 RMB'000 | 2023 RMB'000 |
|---|-----------------|-----------------|
| Suzhou GCL Industrial Applications Research | | |
| — Lease liabilities | 15,472 | 14,956 |
| | 15,472 | 14,956 |

Note: The Group has entered into a lease agreement for the use of office premises from Suzhou GCL Industrial Application Research for three years and recognised right-of-use assets and lease liabilities of approximately RMB45,570,000 during the year ended 31 December 2020. On 27 September 2023, the lease was renewed for two years to 30 September 2025. The Group made payments for the respective right-of-use assets of approximately RMB8,149,000 and approximately RMB16,298,000 for both years ended 31 December 2024 and 2023 respectively for the premises. Suzhou GCL Industrial Applications Research is an associate of Mr. Zhu Gongshan and his family and thus a connected person of the Company under the Listing Rules.

43. RELATED PARTY DISCLOSURES (Continued)

(e) Profit attributable on perpetual notes

| | 2024 RMB'000 | 2023 RMB'000 |
|-------------------|-----------------|-----------------|
| GCL-Poly (Suzhou) | 78,283 | 78,069 |
| Taichang GCL | 22,367 | 22,306 |
| Suzhou GCL | 55,917 | 55,764 |
| Jiangsu GCL | 44,733 | 44,611 |
| | 201,300 | 200,750 |

Perpetual notes which are denominated in RMB and unsecured, have a variable distribution rate of 7.3% to 11% which could be deferred indefinitely at the option of the issuer and have no fixed repayment term. There is no distribution on perpetual notes for both years.

(f) Guarantees provided to related companies

As at 31 December 2024, the Group provided guarantee to associates of connected persons, in which Mr. Zhu Gorgshan and his family members have significant influence, including Huzhou Haoyang and Haidong Yuantong for certain of their bank and other borrowings with maximum amount of RMBnil (2023: RMB367,000,000). Since these bank and other borrowings were secured by the borrowers' (i) property, plant and equipment, (ii) trade receivables, contract assets and fee collection right in relation to sales of electricity, in the opinion of the Directors, the fair value of the guarantee was considered insignificant at initial recognition and the ECL as at 31 December 2023 were considered insignificant. No fee was charged to those related companies during both years.

(g) Compensation of key management personnel

The remuneration of senior management personnel, comprising directors' (whether executive or otherwise) remuneration during the year was as follows:

| | 2024 RMB'000 | 2023 RMB'000 |
|--------------------------|-----------------|-----------------|
| Short-term benefits | 27,263 | 21,276 |
| Post-employment benefits | 699 | 358 |
| Share-based payments | 522 | 1,845 |
| | 28,484 | 23,479 |

The remuneration of the Directors and other key executives is determined by the remuneration committee having regard to the performance of individuals and market trends.

44. EVENTS AFTER THE REPORTING PERIOD

On 9 January 2025, the Company (the “Purchaser”) and Golden Concord Group Limited (the “Seller”), a company ultimately wholly-owned by the Zhu Family Trust, entered into the Sale and Purchase Agreement, pursuant to which the Purchaser has conditionally agreed to acquire and the Seller has conditionally agreed to sell, the Sale Share, being the entire issued share capital of Harmonic Century Global Limited (the “Target Company”) and its subsidiaries (collectively referred to as the “Target Group”), at the Consideration (as defined in the circular) of RMB325 million (equivalent to approximately HK\$345.15 million) (the “Acquisition”).

The Consideration shall be satisfied by the Purchaser (i) as to RMB200 million (equivalent to approximately HK\$212.40 million) by way of cash; (ii) allotted and issued 153,400,000 Consideration Shares at the issue price of HK\$0.45 per Consideration Share; and (iii) issued the Convertible Bonds in the principal amount of HK\$63.72 million which are convertible into a maximum number of 141,600,000 Conversion Shares at the initial Conversion Price of HK\$0.45 per Conversion Share (subject to adjustment), to the Seller.

The Acquisition was completed on 21 March 2025. Upon Completion, the Company owns the entire issued share capital of the Target Company. As such, the financial results of the Target Group will be consolidated into the financial statements of the Company. Please refer to the Company’s announcement on 21 March 2025 and circular dated 24 January 2025 for further details.

45. BUSINESS COMBINATION

Regarding to the Acquisition as disclosed in note 44 to the consolidated financial statements, the Target Group is principally engaged in construction, management and operation of LNG terminals and piers, as well as the storage, processing and sales of LNG products, to be invested, constructed and managed by its group entities in Jiangsu and Guangdong Provinces. The Acquisition is an opportunity for the Group to expand and diversify its LNG related business and accelerate the marketisation of its LNG trade, which are expected to bring additional revenue growth to the Group in future.

The initial accounting has not been completed as the business combination occurred in late-March 2025, being close to the date of approval of the Group’s consolidated financial statements and when the fair value is not easily determinable. The management is in the process of assessing the financial impact of these transactions including but not limited to the purchase price allocation as required under IFRS 3 as at the approval date of these financial statements.
