MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

During the six months ended 30 September 2025, the Group's consolidated turnover increased by 2.93% to HK\$421 million (2024: HK\$409 million) despite the overall poor operating environment. The turnover increase was mainly contributed by the Group's original design manufacturing ("ODM") business. However, the Group incurred restructuring expenses of HK\$7 million (2024: nil) to streamline workforce in order to increase efficiency during the period under review. Moreover, other income, gains and losses decreased to HK\$1 million (2024: HK\$8 million), which was mainly attributable to the decrease in bank interest income and the lack of government grant for the six months ended 30 September 2025. In addition, the Group's gross profit margin decreased to 10.55% (2024: 12.88%) also due to keen competition in the industry. As a result, loss attributable to the owners of the Company increased to HK\$20 million (2024: HK\$11 million) and the basic loss per share was HK\$7.77 cents (2024: HK\$4.30 cents) for the period.

THE ODM BUSINESS

The Group's turnover from its ODM business increased by 6.90% to HK\$341 million (2024: HK\$319 million), which accounted for 81.00% of the Group's total consolidated turnover. During the period under review, turnover from ODM customers in Europe and Asia increased by 12.59% to HK\$161 million (2024: HK\$143 million) and 41.77% to HK\$112 million (2024: HK\$79 million) as a result of our marketing efforts. On the other hand, the Group's turnover to the United States decreased significantly by 30.21% to HK\$67 million (2024: HK\$96 million) due to slowing shipments to the customers in the United States after the dramatic increase in tariff imposed on goods made in China during the period under review. Europe, Asia and the United States are the top three markets of the Group's ODM business, and they accounted for 47.21%, 32.84% and 19.65% (2024: 44.83%, 24.76%, 30.09%) of the Group's total ODM turnover respectively. In terms of product mix, plastic frames, metal frames and others contributed 64%, 35% and 1% (2024: 68%, 31% and 1%) of the Group's ODM turnover respectively.

MANAGEMENT DISCUSSION AND ANALYSIS

THE BRANDED EYEWEAR BUSINESS

During the period under review, our branded eyewear distribution business suffered from the poor demand from consumers in its core markets of China and other Asian regions. As a result, the Group's turnover from its branded eyewear distribution business decreased by 11.24% to HK\$79 million (2024: HK\$89 million), which accounted for 18.76% of the Group's total consolidated turnover. Asia continued to be the most important of the Group's branded eyewear distribution business, and it accounted for 98.73% (2024: 98.88%) of the Group's total distribution turnover.

OTHER BUSINESSES

For the six months ended 30 September 2025, the Group's other businesses represented licensing income of HK\$1 million (2024: HK\$1 million) from an external party in connection with the trademark of Jill Stuart.

LIQUIDITY AND CAPITAL RESOURCES

The Group continued to maintain a strong liquidity and financial position. As at 30 September 2025, the Group held bank balances and cash of HK\$120 million. On the other hand, it had outstanding bank borrowings of approximately HK\$41 million, which are comprised of loans over a period of 5 years and 20 years with a repayable on demand clause. The debt-to-equity ratio (expressed as a percentage of bank borrowings over equity attributable to owners of the Company) as at 30 September 2025 was 6.67%, which is considered to be healthy and reasonable in light of the Group's business nature. The bank borrowings of the Group were secured by certain leasehold land and buildings situated in Hong Kong and Vietnam.

As at 30 September 2025, the net current assets and current ratio of the Group were HK\$266 million and 1.91:1 respectively. The total equity attributable to owners of the Company decreased to HK\$614 million as at 30 September 2025 from HK\$630 million as at 31 March 2025. The Group's debtor turnover period and inventory period increased to 114 days (2024: 98 days) and 72 days (2024: 71 days) respectively during the period under review. The Group believes that its receivables and inventories were still managed at a healthy level and will continue to monitor the debt collection status and inventory level in order to reduce risk and maximize the efficiency of working capital. The Directors are confident the financial position of the Group will remain strong, and the Group has sufficient liquidity and financial resources to meet its present commitments and future business needs.

MANAGEMENT DISCUSSION AND ANALYSIS

After considering the Group's profitability, liquidity, cash position and future business plans, the Directors resolved not to declare any interim special dividend and interim dividend for the six months ended 30 September 2025 (2024: interim special dividend: nil; interim dividend: nil). The Directors will continue to monitor the dividend policy closely to ensure that an optimal balance can be achieved between the retention of sufficient liquidity in the Group to prepare for the future development ahead and the distribution of earnings to the shareholders respectively.

FOREIGN EXCHANGE EXPOSURE

Most of the Group's transactions were conducted in United States dollars, Hong Kong dollars and Renminbi. In addition, the majority of the Group's assets were also kept in these currencies. Other than the potential exposure to the fluctuation of Renminbi, the Group's exposure to currency fluctuation was relatively limited. The Group closely monitors the foreign exchange exposure and uses foreign exchange forward contracts and/or other appropriate tools to control the exposure in connection with Renminbi.

HUMAN RESOURCES

The Group had a workforce of around 3,100 people as at 30 September 2025. The Group remunerates its employees based on their performance, years of service, work experience and the prevailing market situation. Bonuses and other incentive payments are granted on a discretionary basis based on individual performance, years of service and overall operating results of the Group. Other employee benefits include medical insurance scheme, mandatory provident fund scheme or other retirement benefit scheme, subsidised or free training programs and participation in the Company's share option scheme.

CHARGES ON GROUP'S ASSETS AND CONTINGENT LIABILITIES

Details of the charges on the Group's assets are set out in Note 11 to the condensed consolidated financial statements. As at 30 September 2025, there were no significant contingent liabilities other than those disclosed in the condensed consolidated financial statements.

CAPITAL COMMITMENTS

Details of the Group's capital commitments are set out in Note 13 to the condensed consolidated financial statements.

IMPORTANT EVENTS AFTER THE REPORTING PERIOD

Save as disclosed in this report, no important events affecting the Group occurred since 30 September 2025 and up to the date of this report.

MANAGEMENT DISCUSSION AND ANALYSIS

PROSPECTS

It is expected the current complicated geopolitical and macroeconomic environment will continue in the foreseeable future. The US tariff measures since April of 2025 have caused significant disruptions to global supply chains, in which the Group is one of the many participants. Market demand for eyewear products in the near future is expected to remain volatile, and any potential new trade policies of the United States will add further uncertainty to the Group's production and logistics activities.

Maintaining geographically diversified production bases will be a key advantage in face of the highly uncertain operating environment. The construction of our new production plant in Vietnam is complete and the new capacity offered by our Vietnamese production base has been highly welcome by our customers. Further improvement in production efficiency will also be our focus in the coming few quarters to become more competitive in the industry. In addition, marketing efforts will be further strengthened to acquire new projects from existing customers and open up new accounts.

The Group will continue to explore new sales channels and distribution partners for its branded eyewear distribution business. The Group's brand portfolio is being constantly reviewed and we will take advantage of any opportunity to enrich our portfolio with new brands carrying strong potential. Besides, in order to cope with the rapidly changing consumers' behaviors and preferences, the Group will further enrich its product scopes by introducing collections at more flexible price ranges, incorporating more design and tailor-made elements in our products and distributing them in more and also different sales channels.

Despite all the headwinds that we are facing, with our strength in product development, brand management and manufacturing in the eyewear industry as well as our strong financial status, we are confident that the Group will overcome the difficulties ahead, and will continue to create long-term values for our various stakeholders as well as deliver the objective to achieve sustainable growth in the long run.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of these condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.
