VOLUNTARY ANNOUNCEMENT
(1) UNUSUAL PRICE AND TRADING VOLUME MOVEMENTS; AND
(2) BUSINESS UPDATE

This announcement is made by Befar Group Co., Ltd (the "**Company**", together with its subsidiaries, the "**Group**") on a voluntary basis.

(1) UNUSUAL PRICE AND TRADING VOLUME MOVEMENTS

The board (the "**Board**") of directors (the "**Directors**") of the Company has noted the recent unusual movements in the price and trading volume of the shares of the Company and recent news release in relation to the Company's financial performance in the first half of 2026 and relevant business updates. Having made reasonable enquiries, the Board confirms that, as of the date of this announcement, it is not aware of any reasons for these price and trading volume movements or any information that needs to be disclosed to avoid a false market in the Company's securities, or any inside information that needs to be disclosed under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The Board confirms that the Group's business operations remain normal, and that there is no material change to the business operation and financial position of the Group as of the date of this announcement.

(2) BUSINESS UPDATE

Recently, the Company commenced production of electronic grade high-purity hydrogen fluoride gas. Hydrogen fluoride gas is the key raw material for electronic grade hydrofluoric acid, and the Company has been able to upgrade the quality of hydrogen fluoride gas to 6N grade (99.9999%) through systematic technological upgrade. At present, the Company has completed the construction and commissioning of a 50-ton/year cylinder filling line for high-purity hydrogen fluoride, and has obtained the licensing procedures issued by the market supervision and administration authority. It has commenced promoting its products to key domestic and overseas customers, and there is uncertainty as to whether the products will gain customers' acceptance in the future. It is expected that the sales revenue of high-purity hydrogen fluoride gas will account for a small proportion of the Company's total operating revenue, and will not have a material impact on the Company's performance in 2026.

Shareholders and potential investors of the Company should exercise caution when dealing in the securities of the Company, and if they are in any doubt about their position, they should consult their professional adviser(s).
