SUPPLEMENTARY INFORMATION FOR ADR HOLDERS

The Group's accounting policies conform with generally accepted accounting principles in Hong Kong ("HK GAAP") which differ in certain material respects from those applicable generally accepted accounting principles in the United States of America ("US GAAP").

The significant differences relate principally to the following items and the adjustments considered necessary to present the net profit and shareholders' equity in accordance with US GAAP are shown in the tables set out below:

(a) Effect of combination of entities under common control

Under HK GAAP, the Group adopted the acquisition method to account for the purchase of Jiangsu Mobile, Fujian Mobile, Henan Mobile, Hainan Mobile, Beijing Mobile, Shanghai Mobile, Tianjin Mobile, Hebei Mobile, Liaoning Mobile, Shandong Mobile and Guangxi Mobile. Under the acquisition method, the acquired results are included in the results of operations from the date of their acquisition. Goodwill arising on the acquisition, being the excess of the cost over the fair value of the Group's share of the separable net assets acquired, is eliminated against reserves immediately on acquisition.

As a result of the Group, Jiangsu Mobile, Fujian Mobile, Henan Mobile, Hainan Mobile, Beijing Mobile, Shanghai Mobile, Tianjin Mobile, Hebei Mobile, Liaoning Mobile, Shandong Mobile and Guangxi Mobile being under common control prior to the acquisition, such acquisitions under US GAAP are considered "combinations of entities under common control". Under US GAAP, combinations of entities under common control are accounted for under the "as if pooling-of-interests" method, whereby assets and liabilities are accounted for at historical cost and the financial statements of previously separate companies for periods prior to the combination generally are restated on a combined basis. The cash consideration paid by the Group has been treated as an equity transaction in the year of acquisition for US GAAP purposes.

(b) Capitalisation of interest

Under HK GAAP, the Group capitalises interest costs to the extent that the related borrowings are directly attributable to the acquisition or construction of an asset which necessarily takes a substantial period of time to get ready for its intended use.

Under US GAAP, interest costs capitalised are determined based on specific borrowings related to the acquisition or construction of an asset, if an entity's financing plans associate a specific new borrowing with a qualifying asset. If average accumulated expenditures for the asset exceed the amounts of specific new borrowings associated with an asset, additional interest costs capitalised are based on the weighted average interest rate applicable to other borrowings of the entity.

(c) Revaluation and impairment of fixed assets

For certain periods prior to 31 May 1997, the fixed assets of the subsidiaries were revalued in compliance with PRC rules and regulations, resulting in an increase in shareholders' equity.

Additionally, the fixed assets of Guangdong Mobile and Zhejiang Mobile were revalued as of 31 May 1997 as a result of the Restructuring occurred in 1997. The fixed assets of Jiangsu Mobile were revalued as of 31 December 1997 upon its acquisition by the Group on 3 June 1998. The fixed assets of Fujian Mobile, Henan Mobile and Hainan Mobile were revalued as of 30 June 1999 upon their acquisitions by the Group on 11 November 1999. The fixed assets of Beijing Mobile, Shanghai Mobile, Tianjin Mobile, Hebei Mobile, Liaoning Mobile, Shandong Mobile and Guangxi Mobile were revalued as of 30 June 2000 upon their acquisitions by the Group on 10 November 2000. These fixed asset revaluations result in an increase in shareholders' equity with respect to the increase in carrying amount of certain fixed assets above their historical cost bases.

The carrying amount of fixed assets under HK GAAP is reviewed periodically in order to assess whether the recoverable amount has declined below the carrying amount. When such a decline occurs, the carrying amount is reduced to the recoverable amount based on the expected future cash flows generated by the fixed assets, discounted to their present values. A subsequent increase in the recoverable amount is written back to results of operations when circumstances and events that led to the write-down or write-off cease to exist.

Under US GAAP, fixed assets are stated at their historical cost, less accumulated depreciation. However, as a result of the tax deductibility of the revaluation reserve, a deferred tax asset related to the reversal of the revaluation reserve is created under US GAAP with a corresponding increase in shareholders' equity.

Under US GAAP, fixed assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognised is measured by the amount by which the carrying amounts of the assets exceed the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

(d) Employee housing scheme

The Group provides staff quarters under its employee housing schemes at below market prices. Under HK GAAP, employee housing scheme costs borne by the corresponding PTAs and not charged to the subsidiaries are not recognised by the subsidiaries.

Under US GAAP, employee housing scheme costs borne by the corresponding PTAs and not charged to the subsidiaries are reflected as an expense in the statement of income and a corresponding capital contribution. Additionally, under US GAAP, the costs to be borne by the subsidiaries are accrued over the term of the program.

(e) Deferred taxation

Under HK GAAP, the Group provides for deferred tax liabilities only to the extent that there is a reasonable probability that such deferred tax liabilities will become payable in the foreseeable future. Deferred tax assets are not recognised unless their realisation is assured beyond reasonable doubt.

Under US GAAP, provisions are made for all deferred taxes as they arise, except a valuation allowance is provided against deferred tax assets when realisation of such amounts does not meet the criterion of "more likely than not".

(f) Share option scheme

The Group grants share options to directors and employees. Under HK GAAP, the proceeds received are recognised as an increase to capital upon the exercise of the share options.

Under US GAAP, the Group determines compensation expenses based upon the excess, if any, of the quoted market price of the shares on the date of grant over the exercise price of the options and amortises this amount over the vesting period of the option concerned.

(g) Revenue recognition

Until 30 June 1999, under both HK GAAP and US GAAP, connection fee revenue and telephone number selection fee were recognised as received. Under US GAAP, effective 1 July 1999, net connection fees and telephone number selection fees received in excess of direct costs were deferred and recognised over the estimated customer usage period for the related service.

Under US GAAP, effective 1 January 2000, the Group adopted the provisions of Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements" ("SAB101"). Under SAB101, connection fees and telephone number selection fees received and incremental direct costs up to, but not exceeding such fees, are deferred and amortised over the estimated customer usage period for the related service. The cumulative effect from the adoption of SAB101 was not material.

(h) Interconnection, roaming and leased line agreements

In May 2000, the Group entered into new agreements with China Mobile for interprovincial interconnection and domestic and international roaming services, and interprovincial long distance transmission leased line arrangement with retrospective effect from 1 October 1999 for Guangdong Mobile, Zhejiang Mobile and Jiangsu Mobile and from 1 April 1999 for Fujian Mobile, Henan Mobile and Hainan Mobile. Under HK GAAP, the net savings refunded to the Group as a result of the two agreements taking retrospective effect were recorded in operations for the period ended 30 June 2000. Under US GAAP, such net savings are deferred and amortised on a straight-line basis over seven years.

(i) Recently issued accounting standards

In June 1998, the United States Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133"). SFAS 133 establishes accounting and reporting standards for derivative instruments and for hedging activities. SFAS 133 requires that an entity recognise all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. Changes in the fair value of derivatives are recorded each period in current earnings or other comprehensive income, depending on whether a derivative is designated as part of a hedge transaction and the type of hedge transaction. SFAS 133, as amended, is effective for fiscal years beginning after 15 June 2000. Because the Group does not hold any derivative instruments and does not engage in hedging activities, the adoption of SFAS 133 did not have any impact on the Group's operations or financial position under US GAAP.

Effect on net profit of significant differences between HK GAAP and US GAAP is as follows:
