

PROSPECTS

The Hong Kong economy was adversely affected by the global economy recession and the business environment will be still unfavorable. Together with the terror attacks in the United States, the economy of Hong Kong will be decelerated. Under the circumstances, the Group will make every endeavor to control cost and to increase revenue on the existing business. Meanwhile, the Group will equip themselves and make solid foundation in order to identify and development good and stable investment opportunities following the entry of PRC into the World Trade Organization and the recovery of economy.
