

PROSPECT

Confronted with the adverse condition of the local and external economies coupled with the opportunities and challenges brought by China's entry into the WTO, the Group is committed to deliver value and return to shareholders with our strengths. We are creating the right structure to underpin the development of our business and to achieve economies of scale and scope. The management do believe that the Group's business in Hong Kong and PRC will continue to provide positive return in the second half of the year.

The management is confident that the Group will continue to grow at a well managed pace.
