4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, that take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. Capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (a) from the sale of goods, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;
- (b) rental and leasing income, on a straight-line basis over the terms of the relevant lease;
- (c) interest income, on a time proportion basis taking into account the principal outstanding and effective interest rates applicable;
- (d) from the rendering of services, when the services are rendered; and
- (e) dividends, when the shareholders' right to receive payment is established.

Foreign currencies

Foreign currency transactions are recorded at the applicable rates of exchange ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the applicable rates of exchange ruling at that date. Exchange differences are dealt with in the profit and loss account.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Foreign currencies (continued)

On consolidation, the financial statements of overseas subsidiaries and associates expressed in foreign currencies are translated to Hong Kong dollars at the applicable rates of exchange ruling at the balance sheet date. The resulting translation differences are included in the translation reserve.

Retirement scheme

Retirement benefits are provided to certain Hong Kong staff employed by the Group. In accordance with the Mandatory Provident Fund Schemes Ordinance and the Occupational Retirement Schemes Ordinance, the Group's Hong Kong employees enjoy retirement benefits under either the Mandatory Provident Fund Exempted ORSO scheme, or the Mandatory Provident Fund Scheme operated since 1 December 2000 under which employer's voluntary contributions have to be made. The assets of the schemes are held separately from those of the Group in independently administered funds. The Group's contributions to both schemes are at a maximum of 5% of the monthly salary. When an employee leaves the Mandatory Provident Fund Exempted ORSO scheme prior to his/her interest in the Group's employer contributions vesting fully, the ongoing contributions payable by the Group may be reduced by the relevant amount of forfeited contributions. However, in respect of the Mandatory Provident Fund Scheme, the forfeited amounts shall be refunded to the Group when the members leave employment prior to the vesting of any employer voluntary contributions. The Group's mandatory contributions are fully vested with the employees when the employees leave the scheme.

Prior to 1 December 2000, the Group operated a defined contribution retirement benefits scheme (that is the predecessor of the Mandatory Provident Fund Exempted ORSO scheme) for those employees who were eligible and had elected to participate in the scheme. The assets of the scheme were held separately from those of the Group in an independently administered fund. Contributions were made based on a percentage of the participating employees' basic salaries and were charged to the profit and loss account as they become payable in accordance with the rules of the scheme. When an employee left the scheme prior to his/her interest in the Group's employer contributions vesting fully, the ongoing contributions payable by the Group may be reduced by the relevant amount of forfeited contributions.

The employees in subsidiaries located in the People's Republic of China ("the PRC") are members of the Central Pension Scheme operated by the Chinese government. The subsidiaries are required to contribute a certain percentage of their covered payroll to the Central Pension Scheme to fund the benefits. The only obligation of the subsidiaries with respect to the Central Pension Scheme is to meet the required contributions under the Central Pension Scheme.

The employees in the subsidiaries located in South Africa are not entitled to receive retirement benefit contributions from the Group.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Related parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party, or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities.

Cash equivalents

Cash equivalents represent short term highly liquid investments which are readily convertible into known amounts of cash and which were within three months of maturity when acquired, less advances from banks repayable within three months from the date of the advance.

5. SEGMENT INFORMATION

SSAP 26 was adopted during the year, as detailed in note 3 to the financial statements. Segment information is presented by way of two segment formats: (i) on a primary segment reporting basis, by business segment; and (ii) on a secondary segment reporting basis, by geographical segment.

The Group's operating businesses are structured and managed separately, according to the nature of their operations and the products and services they provide. Each of the Group's business segments represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of other business segments. Summary details of the business segments are as follows:

- (a) the wine products segment engages in the manufacture, sale and distribution of wines; and
- (b) the ostrich products segment engages in the ostrich farming and the processing and distribution of ostrich leather and meat.

In determining the Group's geographical segments, revenues and results are attributed to the segments based on the location of the customers, and assets are attributed to the segments based on the location of the assets.

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

A loss of approximately HK\$11,772,000, being the proceeds less the carrying amount of the attributable net assets, translation reserve and goodwill arising from the disposal, was charged to the profit and loss account for the year ended 31 December 2000.

Since 1998, the Group has ceased its manufacturing and trading of electronic components operations in Hong Kong and elsewhere in the PRC. As detailed in note 24 to the financial statements, two subsidiaries previously engaged in the manufacturing and trading of electronic components were disposed of during the year. A provision of HK\$24,316,000 was made during the year ended 31 December 2000 to write down the carrying value of the attributable net assets of these subsidiaries and the goodwill previously included in the contributed surplus (note 29) to the estimated net realisable value.

31 December 2001
