

愉景灣遊艇會的碇泊位出租率穩定，並計劃進行碇泊位的維修工程；高爾夫球會於二零零零年四月開展的全面翻新工程經已完成；在二白灣海澄湖畔興建新康樂會的計劃已經展開，新會所將由現時的康樂會負責管理。

年內在愉景灣內進行了多項大型慈善及環保活動。其中一項為諾貝爾和平獎得主無國界醫生籌款的慈善活動，獲得集團員工及區內居民積極回應及參與。此外，為兩輛全新環保巴士所舉辦的車身設計比賽亦獲得居民的踴躍反應。得獎作品更於兩輛全新的環保巴士上展出。另一方面，集團亦積極在愉景灣推動各項環保新意念。除了購置新型的環保巴士外，在公眾地方的垃圾袋均採用可分解的環保膠袋，以減少棄置不可分解塑膠對環境造成的影響。另外，愉景廣場正計劃一系列的節約能源措施。

愉景灣的居民來自本地及海外三十多個不同國家，使愉景灣成為一個獨特和諧的多元文化社區。愉景灣將大都市現代化及舒適的設施，融和於寧靜、寬敞及綠化的生活環境中。愉景灣著實吸引了不少外國人才在此定居，為居民提供與其故鄉相近的生活環境。

Rental of finger piers at Discovery Bay Marina Club was stable. A renovation exercise was being planned for the finger piers. The extensive golf course renovation programme, which began in April 2000, was completed. Undertaken by Discovery Bay Residents Club, new club premises for the residents were also being planned at Siena, the Yi Pak development.

During the year, a charity event with active participation from staff members of the Group and the community was held in Discovery Bay to raise fund for Nobel Peace Prize winner Médecins Sans Frontières. Residents responded well to an open design competition and two new buses were painted with the champion designs. More environmental protection initiatives were also introduced to Discovery Bay. Besides buying new, environment-friendly buses, all plastic waste bags in public areas were replaced by degradable types to avoid damages that disposal of non-degradable plastic bags could have caused to the environment. An energy saving plan is being drawn up for the shopping centre, Discovery Bay Plaza.

With a residential community comprising an equal mix of local and foreign nationals from more than 30 countries, Discovery Bay has firmly established itself as a multi-national community with all the amenities and convenience of urban living amidst a tranquil, spacious and green environment. It continues to play a significant role in offering overseas talents and their families a pleasant living environment akin to their home country.
