

## **Prospects**

The exhibition industry remains sound inspite of the September 11 incident. The outlook for the rest of the year is better than it was at the beginning of the period under review. In particular we will see the return of Asia Telecom show to Hong Kong in December this year although in reporting terms, this revenue falls in the next financial year.

Various shows that will be recorded in the second half of this financial year include Communicasia (held in Singapore), Auto China (Beijing), ChinaPlas (Shanghai), Tibet Exhibition (Shanghai), Watch and Clock Fair (Hong Kong), Jewellery and Watch Fair (Hong Kong), Chongqing Week (Hong Kong), and others.

As for the museum business, half of the contract for Phase 2 of the Taipei Astronomical Science Museum will be completed in the second half of this financial year. The Group will also complete other smaller museum projects such as the Bangkok Children Museum and the Singapore Police Heritage Centre.
