

Shareholders, partners and customers can access to our company news, announcements to the Stock Exchange, interim and annual reports through the website 24 hours a day, 7 days a week. The website also includes information of our full portfolio of handset models we have launched or are about to launch.

We have also strengthened our hotline services in an effort to handle inquiries and inputs from our shareholders more effectively in addition to our info@iglobaltech.com inquiry e-mail address. Our experiences suggested that shareholders do care about the Group's development and are able to contribute constructive advice to help the Group improves. We have pledged to respond to inquiries from these channels as promptly as we can upon reception.
