

Good Corporate Citizenship

The Group recognizes its social responsibility as part of good corporate citizenship. Social, recreational activities and voluntary services were organized and promoted by the K. Wah Construction Materials Social Club (the Club).

During the year, the Club has, in conjunction with various social service and voluntary associations, organized and participated in a series of charitable activities including elderly home visit, the 4th “Challenging 12 Hours” by SOWERS Action, Hong Kong Red Cross blood donation campaign, environmental workshop of “Cultivating a Green Generation”, Walk for Millions by the Community Chest and Round-the-CU Walkathon & Carnival by the Chinese University of Hong Kong etc.

The activities demonstrate the Group’s continued commitment towards voluntary services, the mission of which is to enrich our contact and support to our fellow citizens in Hong Kong and to reinforce the corporate culture of balancing work and family/social life. The Group also believes with a common goal for individuals, companies and social service organizations, we can jointly build a stronger and more resilient community in facing challenges ahead.
