

### 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

#### **(b) Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries made up to 30 September each year. All material intercompany transactions and balances within the Group are eliminated on consolidation.

The results of subsidiaries acquired during the year are included in the consolidated income statement from the effective date of acquisition.

#### **(c) Subsidiaries**

Subsidiaries are those enterprises controlled by the Company.

Control exists when the Company has the power to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities.

In the Company's balance sheet, subsidiaries are carried at cost less impairment losses. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable at the balance sheet date.

#### **(d) Goodwill**

Goodwill arising on acquisition represents the excess of the cost of acquisition over the Group's interest in the fair value of the identifiable assets and liabilities acquired as at the date of acquisition. Goodwill is recognised in the consolidated balance sheet as an asset and amortised on a straight-line basis over its estimated useful life for a period not exceeding twenty years.

On disposal of a subsidiary, the gain or loss on disposal is calculated by reference to the net assets at the date of disposal, including the attributable amount of goodwill which remains unamortised and the relevant reserves, as appropriate.

The carrying amount of goodwill is reviewed annually and written down for impairment when it is considered necessary. A previously recognised impairment loss for goodwill is not reversed unless the impairment loss was caused by a specific external event of an exceptional nature that was not expected to recur, and subsequent external events have occurred which have reversed the effect of that event.

## Notes to the Financial Statements

For the year ended 30 September 2003

### 2. PRINCIPAL ACCOUNTING POLICIES (Continued)

#### (e) Property, plant and equipment

##### (i) Depreciation and amortisation

Depreciation is provided to write off the cost or valuation of property, plant and equipment less their residual value, being the net amount which the Group expects to obtain for an asset at the end of its useful life after deducting the expected cost of dispose, over their estimated useful lives, using the straight line method, at the following rates per annum:

Plant and machinery	10%
Equipment and furniture	20%
Motor vehicles	20%
Buildings	Over the shorter of the terms of the leases or the estimated useful lives. The principal annual rate used is 5%.

Leasehold land is amortised over the remaining unexpired period of the lease or its estimated useful life to the Group, whichever is shorter. The principal annual rate used is 2%.

##### (ii) Measurement bases

Property, plant and equipment, other than land and buildings, are stated at cost less accumulated depreciation and amortisation and impairment losses. The cost of an asset comprises its purchase price and any directly attributable cost of bringing the asset to the working condition and location for its intended use.

Land and buildings are stated at valuation less accumulated depreciation and amortisation and impairment losses.

Subsequent expenditure relating to property, plant and equipment is added to the carrying amount of the assets if it can be demonstrated that such expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the assets.

Surplus arising on revaluation of land and buildings is credited to assets revaluation reserve. A decrease in net carrying amount arising on revaluation is charged to the income statement to the extent that this exceeds the surplus, if any, held in assets revaluation reserve relating to the previous revaluation of the same item of land and buildings. A revaluation increase is recognised as income to the extent that it reverses a revaluation decrease of the same asset previously recognised as an expense.

**2. PRINCIPAL ACCOUNTING POLICIES** *(Continued)***(e) Property, plant and equipment** *(Continued)**(ii) Measurement bases (Continued)*

When assets are sold or retired, any gain or loss resulting from their disposal, being the difference between the net disposal proceeds and the carrying amount of the assets, is included in the income statement. Any revaluation surplus relating to the assets under disposal is transferred to retained profits.

**(f) Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials, computed using the weighted average method, and, where applicable, direct labour and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value is calculated as the actual or estimated selling price less further costs of completion and the estimated costs necessary to make the sale.

**(g) Investments**

Investments in debt securities that the Group has the expressed intention and ability to hold to maturity are classified as held-to-maturity securities. Held-to-maturity securities are stated in the balance sheet at amortised costs less any provisions for impairment losses. Provisions for impairment losses are made and charged to the income statement when the carrying value of the held-to-maturity securities is not expected to be recovered.

The gain or loss on disposal of held-to-maturity securities, being the difference between the net sales proceeds and the carrying amount of the securities, is accounted for in the period in which the disposal occurs.

**(h) Impairment**

The carrying amounts of the Group's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the income statement unless the relevant asset is carried at revalued amount under another SSAP, in which case the impairment loss is treated as a revaluation decrease under that SSAP.

## Notes to the Financial Statements

For the year ended 30 September 2003

### 2. PRINCIPAL ACCOUNTING POLICIES (Continued)

#### (h) Impairment (Continued)

##### (i) Calculation of recoverable amount

The recoverable amount of an asset is the greater of its net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

##### (ii) Reversals of impairment

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

#### (i) Leases

##### *Operating leases*

Leases where substantially all the risks and rewards of ownership of assets remain with the lessor are accounted for as operating leases. Annual rentals applicable to such operating leases are charged to the income statement on a straight line basis over the lease terms.

##### *Finance leases*

Leases are classified as finance leases wherever the terms of the leases transfer substantially all the risk and rewards of ownership of the asset to the group. Assets acquired by way of finance leases are stated at an amount equal to the lower of the fair value and the present value of the minimum lease payments at inception of the lease. The corresponding liabilities net of finance charges, are recorded as obligations under finance leases. Finance charges implicit in the lease payment are charged to the income statement over the period of the lease so as to produce a constant periodic rate of interest on the remaining balance of the obligations for each accounting period.

**2. PRINCIPAL ACCOUNTING POLICIES** (Continued)**(j) Employee benefits***(i) Employee entitlements*

Employee entitlements to annual leave and long service payments are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service payments as a result of services rendered by employees up to balance sheet date. Non-accumulating compensated absences are not recognised until the time of leave.

*(ii) Retirement benefits scheme*

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its employees in Hong Kong. The MPF Scheme became effective on 1 December 2000. Contributions are made based on a percentage of the employees' basic salaries, limited to a maximum of HK\$1,000 per month, and are charged to the income statement as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

According to the relevant rules and regulations in the People's Republic of China ("PRC"), each of the Company's subsidiaries operating in the PRC is required to participate in the state-sponsored retirement plan (the "PRC RB Plan") operated by the respective local municipal governments in the PRC. These PRC subsidiaries are required to contribute a certain percentage of the basic salaries of the employees, at 10% to 17%, to the PRC RB Plan. The PRC RB Plan is responsible for the entire pension obligations payable to the retired employees and the Group has no further obligations for the actual pension payments or other post-retirement benefits beyond the annual contributions. Contributions under the PRC RB Plan are charged to the income statement as they become payable in accordance with the rules of the PRC RB Plan.

*(iii) Equity compensation benefits*

The Group has a share option scheme which is part of the remuneration policy with rewards determined based upon the performance of the Group and individual employees. When options are granted, no compensation cost is recognised. When the options are exercised, the proceeds received net of any transaction costs are credited to share capital (nominal value) and share premium.

## Notes to the Financial Statements

For the year ended 30 September 2003

### 2. PRINCIPAL ACCOUNTING POLICIES (Continued)

#### (k) Foreign currencies

Transactions in foreign currencies are translated into Hong Kong dollars at the rates of exchange ruling at the dates of transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated into Hong Kong dollars at rates of exchange ruling at that date. Exchange differences arising in these cases are dealt with in the consolidated income statement.

On consolidation, the balance sheets of subsidiaries expressed in foreign currencies are translated into Hong Kong dollars at the rates of exchange ruling at the balance sheet date. Income and expense items are translated at the average exchange rates for the year. Exchange differences arising are classified as equity and are dealt with as movements in exchange reserve.

#### (l) Cash and cash equivalents

Cash comprises cash on hand and demand deposits repayable on demand with any bank or other financial institution. Cash includes deposits denominated in foreign currencies.

Cash equivalents represent short-term, highly liquid investments which are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts that are repayable on demand and form an integral part of the group's cash management are also included as a component of cash and cash equivalents for the purpose of the cash flow statement.

#### (m) Recognition of revenue

Revenue from the sale of goods is recognised when the goods are dispatched to the customers.

Interest income is recognised on a time proportion basis.

### 3. TURNOVER AND REVENUE

The Group is principally engaged in the design, manufacture and sale of footwear products.

Turnover represents total invoiced value of goods sold, net of sales tax.

An analysis of the Group's turnover and revenue is as follows:

	<b>2003</b>	2002
	<b>HK\$'000</b>	HK\$'000

### 4. SEGMENT INFORMATION

The Group's operating businesses are structured and managed separately, according to the nature of their operations and the products and services they provide. Each of the Group's business segments represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of other business segments.

In accordance with the Group's internal financial reporting policy, its segment information is presented by way of two segments format: (i) on a primary segment reporting basis, by business segment; and (ii) on a secondary segment reporting basis, by geographical segment.

### Notes:

- (i) The Company was incorporated in Bermuda on 7 November 2001 with an authorised share capital of HK\$100,000 divided into 1,000,000 ordinary shares of HK\$0.10 each.
- (ii) On 28 November 2001, 1,000,000 ordinary shares of HK\$0.10 each were allotted and issued nil paid to the subscribers.
- (iii) On 12 June 2002, the authorised share capital of the Company was increased from HK\$100,000 to HK\$100,000,000 by the creation of 999,000,000 ordinary shares of HK\$0.10 each, ranking *pari passu* with the existing shares of the Company.
- (iv) On 12 June 2002, as part of the Group Reorganisation, the Company issued an aggregate of 1,000,000 ordinary shares of HK\$0.10 each credited as fully paid in consideration for the acquisition of the entire share capital of Fortress Ocean Limited. The excess of the fair value of the ordinary shares of Fortress Ocean Limited, determined on the basis of its consolidated net assets at that date, over the nominal value of the Company's ordinary shares issued and credited as fully paid on exchange therefor, amounting to HK\$42,700,000, was credited to the Company's contributed surplus as detailed in note 23 to the financial statements.
- (v) On 12 June 2002, an amount of HK\$100,000 (being a portion of the amount credited to the contributed surplus of the Company on the issue of shares in exchange for the issued ordinary shares of Fortress Ocean Limited as set out in (iv) above) was applied to pay up, in full at par value, the 1,000,000 ordinary shares allotted and issued nil paid on 28 November 2001.
- (vi) On 12 June 2002, a total of 338,000,000 ordinary shares of HK\$0.10 each were allotted and issued as fully paid at par to the holders of the ordinary shares whose names appeared on the register of members of the Company at that date, in proportion to their respective shareholdings, by way of the capitalisation of the sum of HK\$33,800,000 standing to the credit of the share premium account and the contributed surplus account of the Company, conditional on the share premium account being credited as a result of the issue of new ordinary shares to the public on 3 July 2002 as detailed in (vii) below.
- (vii) On 3 July 2002, 60,000,000 ordinary shares of HK\$0.10 each of the Company were issued at HK\$0.50 per share for cash to the public by placing and public offer. The excess of the issue proceeds over the par value of the shares issued was credited to the share premium account.

- (a) Merger reserve of the Group represents the difference between the aggregate of the nominal value of the ordinary shares of the subsidiaries acquired and the nominal value of the ordinary shares of the Company issued pursuant to the Group Reorganisation.

## Notes to the Financial Statements

For the year ended 30 September 2003

### 23. RESERVES (Continued)

- (b) Contributed surplus of the Company represents the difference between the nominal value of the ordinary shares of the Company issued in a share for share exchange and the fair value of the aggregate net assets of the subsidiaries acquired.

Under the Companies Act 1981 of Bermuda (as amended), contributed surplus of the Company is available for distribution, subject to condition that the Company cannot declare or pay a dividend, or make a distribution out of contributed surplus if (i) it is, or would after the payment be, unable to pay its liabilities as they become due, or (ii) the realisable value of its assets would thereby be less than the aggregate of its liabilities and its issued share capital and share premium accounts.

- (c) According to the Articles of Association of Huayi, Huayi is required to transfer at least 10% of its net profit, as determined in accordance with the PRC accounting rules and regulations, to a statutory reserve fund until the reserve balance reaches 50% of the registered capital. The transfer to this reserve must be made before distribution of a dividend to shareholders. Statutory reserve fund can be used to make good previous years' losses, if any, and may be converted into capital but not distributable to shareholders. No appropriation was made during the year as Huayi incurred a net loss for the year. During the year ended 30 September 2002, 10% of the net profit of Huayi was appropriated to the statutory reserve fund.

In the opinion of the directors, the Company's reserves available for distribution to shareholders at 30 September 2003 consisted of the aggregate of the contributed surplus and retained profits totalling approximately HK\$61,258,000 (2002: HK\$36,435,000 (excluding the proposed final dividend)).

### 24. CASH AT BANKS

Included in cash at banks is an amount of approximately HK\$23,569,000 (2002: HK\$35,762,000), representing Renminbi deposits placed with banks in the PRC by the Group. The remittance of these funds out of the PRC is subject to the exchange control restrictions imposed by the PRC government.

### 25. NOTES TO THE CONSOLIDATED CASH FLOW STATEMENT (Continued)

#### (b) Major non-cash transactions (Continued)

##### (iii) Group Reorganisation

The Group Reorganisation in the prior year in preparation for the public listing of the Company's shares involved the acquisition of Fortress Ocean Limited through the issue of shares of the Company in aggregate of 1,000,000 ordinary shares of HK\$0.10 each. An amount of HK\$100,000 (being a portion of the amount credited to the contributed surplus of the Company on the issue of shares in exchange for the issued ordinary shares of Fortress Ocean Limited) was applied to pay for the 1,000,000 ordinary shares allotted and issued nil paid on 28 November 2001.

##### (iv) Capitalisation issue

In the prior year, a total of 338,000,000 ordinary shares of HK\$0.10 each were allotted and issued as fully paid at par by way of capitalisation of the sum of HK\$33,800,000 standing to the credit of the share premium account and the contributed surplus account of the Company.

##### (v) Acquisition of minority interests

In the prior year, consideration for the acquisition of the 5% minority interests in Huayi prior to the Group Reorganisation was satisfied by the issue of 50 shares of US\$1 each in Kaitai.

### 26. COMMITMENTS

#### (a) Commitments under operating leases

At 30 September 2003, the Group's total future minimum lease payments under non-cancellable operating leases are payable as follows:

	Land and buildings

Contracted but not provided for in the financial statements in respect of investment in a joint venture in the PRC	<b>3,123</b>	-
	<b>10,132</b>	-

Chinaway Network Technology Limited, a wholly-owned subsidiary of the Company, has entered into an agreement with an independent third party for the establishment of a joint venture company in the PRC. Under the agreement, Chinaway Network Technology Limited has committed to contribute approximately HK\$3,123,000 to the joint venture and will be entitled to 84% of its equity interest.

At 30 September 2003, the Company had no outstanding capital commitment.

**27. PLEDGE OF ASSETS**

At 30 September 2003, the Group's land and buildings with an aggregate carrying value of approximately HK\$2,775,000 (2002: HK\$3,200,000) were pledged to a bank to secure the Group's bank loan.

**28. RETIREMENT BENEFITS SCHEMES**

The Group operates a MPF scheme for all qualifying employees in Hong Kong. The assets of the scheme are held separately from those of the Group in funds under the control of independent trustees.

The employees of the Company's subsidiaries in the PRC participate in the state-managed retirement benefits schemes operated by the relevant local government authority in the PRC. The subsidiaries are required to make contribution to the retirement schemes at a certain percentage of the basic salaries of their employees.

The only obligation of the Group with respect to the retirement benefits schemes is to make the specified contributions.

## Notes to the Financial Statements

For the year ended 30 September 2003

### **28. RETIREMENT BENEFITS SCHEMES** *(Continued)*

The total cost charged to the income statement of HK\$1,139,000 (2002: HK\$1,155,000) represents contributions payable to the schemes by the Group at the rates specified in the rules of the schemes. As at 30 September 2003 and 2002, all contributions due in respect of the reporting years have been paid to the schemes.

### **29. CONTINGENT LIABILITIES**

The Group and the Company did not have any significant contingent liabilities as at the balance sheet date.

### **30. APPROVAL OF FINANCIAL STATEMENTS**

The financial statements on pages 20 to 58 were approved by the board of directors on 15 January 2004.
