

Corporate Mission

To be a leading independent CG animation studio bringing world-class entertainment to families around the world.

Company Profile

Headquartered in Hong Kong with offices in Japan and the USA, Imagi International is a computer graphics (“CG”) animation specialist focused on the production of feature length animated motion pictures and TV series.

The team of over 300 CG talents at Imagi International’s two Hong Kong studios fuses art with technology to create CG animation of the highest international standards. Having built its foundation through the creation of its award-winning original TV series *Zentrix*TM, Imagi International now produces its own proprietary feature film titles as well as provides production services for global industry leaders.
