

The Group's principal products include petroleum products, petrochemical and organic chemical products, synthetic rubber products, chemical fertilizers and inorganic chemical products. As a result of the Group's high degree of integration, some of its products are used primarily in the production of its downstream products. The following table sets out the turnover of the Group's major products in 2004 as a percentage of total turnover calculated in accordance with IFRS, together with their principal uses.

Major products	Percentage of 2004 turnover (%)	Principal uses
Petroleum products		
	Diesel oil	23.35 transportation fuels
	Gasoline	8.17 transportation fuels
	Solvent oil	0.06 production of paint and dyestuff
	Catalytic diesel oil	2.79 production of coker diesel oil, coker gatch and coker gasoline
	Residue	5.76 production of coker diesel oil, coker gatch and coker gasoline
	Others (Note)	1.86
	Subtotal:	41.99
Petrochemical and organic chemical products		
	Ethylene	9.56 production of polyethylene, ethylene glycol and other chemical products
	Propylene	3.92 production of polypropylene, acrylonitrile and other chemical products
	Acetic acid	0.92 production of acetic anhydride and other chemical products
	Ethanol	0.06 production of formaldehyde and other chemical products
	Ortho-xylene	2.13 production of pharmaceuticals, pesticides, phthalic anhydride and other chemical products
	Acetic anhydride	1.02 production of cellulose acetates, dyestuff and other chemical products
	Octanol	1.34 production of plasticiser
	Xylene	0.03 production of pharmaceuticals, pesticides, paint and chemical products
	Styrene	3.87 production of ABS, PS and HIPS
	Aniline	3.73 production of dyes and pharmaceuticals
	Butyl acrylate	1.10 production of bonding agent and other fine chemical products

Principal Products

JILIN CHEMICAL INDUSTRIAL COMPANY LIMITED Annual Report 2004

Major products	2004 turnover (%)	Percentage of Principal uses
Alcohol ether	1.23	production of detergent and other fine chemical products
Others (Note)	<u>11.17</u>	
Subtotal:	<u>40.08</u>	
Synthetic rubber products		
Styrene-butadiene rubber	4.61	production of rubber products, such as tyres
Others (Note)	<u>1.02</u>	
Subtotal:	<u>5.63</u>	
Chemical fertilizers and inorganic chemical products		
Inorganic chemical products and others (Note)	<u>2.08</u>	
Subtotal:	<u>2.08</u>	
Other products and services (Note)	<u>10.22</u>	
Total:	<u><u>100.00</u></u>	

Note: No single chemical product in these categories comprised more than 1.0% of the Group's turnover in 2004.
