

# OUR GOAL IS GOLD IN 2008

We focus on the present while we plan for the future.

For the 2004 Olympics, we created China's first electronic display panels for bus shelters.

Our innovation provided the public with regularly updated gold medal standings of China's Olympics team in Athens. We expect these displays to be even more popular with advertisers when the 2008 Olympics comes to Beijing.

WE LOOK FORWARD TO WELCOMING THE

OLYMPICS AND GOING FOR GOLD IN 2008. ♥
