

2004

April

- Digital China Networks Limited announced the implementation of [D²SMP] (Distributed Domain of Security Management Policy), designed to provide network management settings with versatile security strategies.
- The Financial Business Unit struck a RMB20 million deal with the Construction Bank of China to develop a data pooling system for the latter.

July

- Digital China entered into a global strategic partnership with Microsoft for full-scale cooperation in the training of software personnel, software development, industry solutions, software enterprise management and technical training, joining forces to serve the domestic market for enterprise software applications.

October

- The core business system of the China Development Bank ("CDB"), a key project of ultra-large scale with a total investment of over RMB30 million, came officially on-line after 17 months of project construction. It represented the first on-line system in the PRC financial sector that employed internationally advanced technology to serve the needs of domestic banking customers. As the principal systems integrator of the project, Digital China also provided a full range of IT services to CDB, including consultation services for the overall planning of the bank's IT systems.
- A grand ceremony was held to mark the establishment of Digital China (Zhengzhou) Limited as the Group's 13th regional center in the regional markets throughout the nation.
- The Financial Business Department won a RMB37 million deal from the Bank of China to develop an Internet banking system.

4 月

- 神州數碼網絡發佈了[D²SMP] (Distributed Domain of Security Management Policy) — “分散式安全域管理策略”，為網絡管理設定提供多種方式的安全策略。
- 金融本部與建設銀行簽署資料集中工程項目，單額人民幣2,000萬元。

7 月

- 神州數碼與微軟結成全球戰略合作夥伴，在軟體技術人員培訓、軟體研發、行業解決方案定制、軟體企業管理、技術培訓等方面展開全面合作，共同服務於國內企業級軟體應用市場。

10 月

- 歷時一年零五個月開發的超大型重點專案——國家開發銀行（下稱“國開行”）的核心業務系統全面上線並行。總金額超過了人民幣3,000萬元。這是中國金融業首宗將國內銀行客戶的需求和國外先進技術結合，並在國有銀行成功上線項目。神州數碼不僅是該項目的總集成商，同時為國開行提供全面IT服務，包括IT系統總體規劃諮詢等。
- 神州數碼第13個區域中心——神州數碼（鄭州）有限公司舉行了隆重的開業慶典。
- 金融本部獲得中國銀行網上銀行項目，單額人民幣3,700萬元。

November

- Systems Business of Digital China invited its partners in value-added services to take part in conferences held in Beijing, Shanghai and Guangzhou, respectively, under the common axiom of "Hand in Hand, We Win", bringing together representatives from a host of top-notch international IT suppliers as well as systems integrators, independent software developers, intermediary independent service suppliers and distributors. Participants shared their successful experiences and new insights in IT application while engaged in a wide range of discussions on information security management in the light of corporate IT requirements, the development of industry applications and future directions for the development of new products and technologies.
- The Authorized Assembler Program (AAP), a collaborative effort between Digital China and IBM, was officially launched, whereby Digital China was authorized by IBM to customize IBM's medium to low-end eServer p series and TotalStorage products for users.
- The Digital China Network Computer (Digital China NC) Project was granted project listing by the National Development and Reform Commission (NDRC) upon review and approval by NDRC's expert group, whereby the government will provide financial and policy support to Digital China in the next two years to procure the development of the network computer industry with Digital China as a flagship enterprise. This is definitely an important milestone for Digital China NC that will provide solid foundations for its future development.

11 月

- 神州數碼系統業務分別在北京、上海、廣州三地舉辦“攜手神州·增值無限”——增值服務合作夥伴大會。本次盛會雲集了眾多國際一流的 IT 供應商和系統集成商、獨立軟體發展商、中間獨立服務提供商以及代理經銷商等合作夥伴代表，共同分享成功經驗，探討企業 IT 需求環境下資訊安全管理、行業應用發展、新產品與新技術發展的未來之路。
- 神州數碼與 IBM 的授權產品定制計劃正式啟動。神州數碼獲得 IBM 為用戶定制中低端 IBM eServer p 系列伺服器 and TotalStorage 存儲產品的權力。
- 神州數碼網絡電腦 (Network Computer) 專案正式通過國家發改委專家組的評審，列入國家發改委專項投資項目。國家將在未來 2 年的時間裏，向神州數碼投入專項資金，並配套以相關政策，以神州數碼作為網絡電腦產業的龍頭單位，大力促進網絡電腦產業的發展。這對於神州數碼網絡電腦的發展來說是一個極具意義的里程碑，也為神州數碼網絡電腦的發展奠定了堅實的基礎。
