SENIOR MANAGEMENT REMUNERATION SYSTEM

The remuneration system of the senior management of the Group is a combination of the economic benefit of the senior management (including executive director) and the operation result and share performance of the Group. Most of the members of the senior management have signed result examination contract with the Company. In this system, the remuneration of the senior management comprises three parts, including basic salary, bonus and share options. The floating remuneration of the senior management represents approximately 70% to 75% of their total potential remuneration, which includes result bonus and share option representing approximately 15% to 25% and 50% to 60% respectively of the total potential remuneration. Floating remuneration is linked with the specific business performance indicators, for example, the net profit, capital return and cost reduction indicator.
