

The Kingsway sail Powered to create value

The power of creating value sets the sail of Kingsway apart from others. We believe the power comes through the right mix of financial offerings delivered at the right focus of time and market.

For issuers, we diligently attend to all details to unlock their underlying values and price them to market at the right time. For investors, we capture unique investment angles and identify undervalued and hidden gems ahead of others. There is no absolute fix but a telescopic view put in the right focus by our team of talented and committed people.

We have achieved this for more than 15 years and we are committed to the same mission as we sail on while we hold firmly to our mast of sail - the five core values of Kingsway - Integrity, Teamwork, Respect, Responsibility, and above all, the pursuit of Excellence.
