

Corporate Profile

Xiamen International Port Co., Ltd (“Xiamen Port Co” or the “Company”) and its subsidiaries (collectively referred to as the “Group”) is the largest port terminal operator in Xiamen. It is also the only company providing full scale ancillary value-added port services in Xiamen. The Group is principally engaged in container loading and unloading and storage for international and domestic trade, bulk/general cargo loading and unloading and ancillary value-added port services, including port-related logistics, tugboat services, shipping agency and tallying in Xiamen. The Group operates three international container terminals (namely the Haitian container terminal, XICT container terminal and Hairun terminal (Haicang berth numbers 4 and 5)) and the Dongdu terminal, a terminal which provides container loading and unloading in respect of domestic trade and bulk/general cargo loading and unloading in respect of both international and domestic trade. The Group currently operates an aggregate of 15 berths, capable of accommodating the largest container vessels. Shipping routes have been developed from the container terminals to Europe, United States, the Mediterranean, Australia, Southeast Asia and Japan. The container terminals are also connected to major domestic shipping routes.
