The Art of Communication

*“There is an art to science, and a science in art;
the two are not enemies but different aspects of the whole.”*

Dr. Isaac Asimov (1920 -1992)

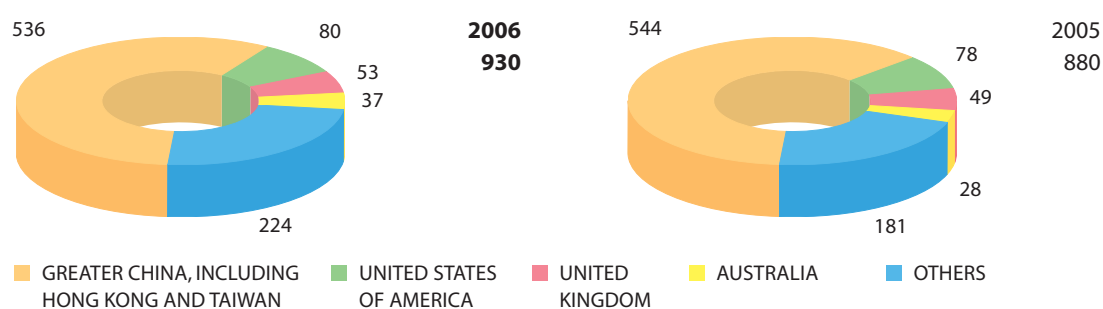

The quintessential writer - widely considered a master of the science fiction genre,
and one of the greatest such writers of his time.

AsiaSat is a master in the art of combining information and technology across a broad canvas,
and the visual theme of this annual report takes an unusual approach to convergence.
