(Expressed in millions of Hong Kong dollars)

1. PRINCIPAL ACCOUNTING POLICIES

a. Basis of preparation

The financial statements have been prepared in accordance with the Hong Kong Financial Reporting Standards and Interpretations (collectively, "HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the disclosure requirements of the Hong Kong Companies Ordinance and Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"). The financial statements are prepared under the historical cost convention except for investment properties and certain financial instruments, which are measured at fair value, as explained in the principal accounting policies set out below.

In the current year, the Group has applied, for the first time, the following new and revised standards, amendments and interpretations of Hong Kong Financial Reporting Standards (hereinafter collectively referred to as "new HKFRSs") issued by the HKICPA, which are effective for the Group's financial year beginning 1 July 2009.

HKFRSs (Amendments) Improvements to HKFRSs 2008
HKFRSs (Amendments) Improvements to HKFRSs 2009¹
HKAS 1 (Revised) Presentation of financial statements

HKAS 23 (Revised) Borrowing costs

HKAS 27 (Revised) Consolidated and separate financial statements

HKAS 32 and 1 (Amendments) Puttable financial instruments and obligations arising on liquidation

HKAS 39 (Amendment) Eligible hedged items

HKFRS 1 and HKAS 27 (Amendments)

Cost of an investment in a subsidiary, jointly controlled entity or associate

HKFRS 2 (Amendment) Vesting conditions and cancellations

HKFRS 3 (Revised) Business combinations

HKFRS 7 (Amendment) Improving disclosures about financial instruments

HKFRS 8 Operating segments

HK(IFRIC)—INT 15

Agreements for the construction of real estate

HK(IFRIC)—INT 16

Hedges of a net investment in a foreign operation

HK(IFRIC)—INT 17

Distribution of non-cash assets to owners

HK(IFRIC)—INT 18

Transfers of assets from customers

HKAS 1 (Revised) has introduced a number of terminology changes, including revised titles for the consolidated financial statements, and has resulted in a number of changes in presentation and disclosure. Under the revised standard, the Balance Sheet is renamed as the "Statement of Financial Position" and the Cash Flow Statement is renamed as the "Statement of Cash Flows". All income and expenses arising from transactions with non-owners are presented in two statements named the "Income Statement" and "Statement of Comprehensive Income", and the total carried to the "Statement of Changes in Equity", while the owners changes in equity are presented in the "Statement of Changes in Equity".

HKFRS3 (Revised) introduces a number of changes in the accounting for business combinations that will impact the amount of goodwill recognized, the reported results in the period that an acquisition occurs, and future reported results. HKAS 27 (Revised) requires that a change in ownership interest of a subsidiary without loss of control is accounted for as an equity transaction.

HKFRS 8 is a disclosure standard that requires the identification of operating segments to be performed on the same basis as financial information that is reported internally for the purpose of allocating resources between segments and assessing their performance. The predecessor standard, HKAS 14 "Segment reporting", required the identification of two sets of segments (business and geographical) using risks and return approach. The adoption of HKFRS 8 has resulted in a redesignation of the Group's reportable segments (see note 2).

136

Amendments that are effective for annual periods beginning on or after 1 January 2009 or 1 July 2009, as appropriate

(Expressed in millions of Hong Kong dollars)

PRINCIPAL ACCOUNTING POLICIES (cont'd) 1.

Basis of preparation (cont'd) a.

Improvements to HKFRSs 2008 include an amendment to HKAS 40 under which an investment property which is under construction is to be classified as investment property and carried at fair value where this can be reliably measured. Prior to this amendment, the Group had treated such property as an investment property only to the extent of its land portion which is carried at fair value with any gain or loss being recognized in profit or loss whereas its construction cost portion is carried at cost under the fixed assets until the construction had been completed, at which time the construction cost would be stated together with the land portion at fair value. As a result of this amendment, the construction costs of investment properties under construction have been reclassified and accounted for as investment properties with effective from 1 July 2009. This amendment is applied prospectively and the corresponding amounts of prior periods have not been restated.

The adoption of the above new HKFRSs has no significant impact on the Group's results and financial position.

The Group has not early applied the following new and revised standards, amendments and interpretations that have been issued but are not yet effective.

HKFRSs (Amendments) Improvements to HKFRSs 2009² Improvements to HKFRSs 2010³ HKFRSs (Amendments) HKAS 24 (Revised) Related Party disclosures⁴ HKAS 32 (Amendment) Classification of right issues⁵

HKFRS 1 (Amendment) Additional exemptions for first-time adoptors⁶

HKFRS 1 (Amendment) Limited exemptions from comparative HKFRS 7 disclosures for first-time adoptors⁸

Group cash-settled share based payment transactions⁶ HKFRS 2 (Amendment)

HKFRS 9 Financial instruments⁷

Prepayment of a minimum funding requirement⁴ HK(IFRIC)-INT 14 (Amendment) HK(IFRIC)-INT 19 Extinguishing financial liabilities with equity instruments⁸

It is not anticipated that these new and revised standards, amendments and interpretations will have a significant impact on the results and financial position of the Group.

² Amendments that are effective for annual periods beginning on or after 1 January 2010

³ Effective for annual periods beginning on or after 1 July 2010 and 1 January 2011, as appropriate

⁴ Effective for annual periods beginning on or after 1 January 2011

⁵ Effective for annual periods beginning on or after 1 February 2010

Effective for annual periods beginning on or after 1 January 2010

Effective for annual periods beginning on or after 1 January 2013

Effective for annual periods beginning on or after 1 July 2010

(Expressed in millions of Hong Kong dollars)

1. PRINCIPAL ACCOUNTING POLICIES (cont'd)

b. Basis of consolidation

The consolidated financial statements of the Group incorporate the financial statements of the Company and all its subsidiaries made up to 30 June each year and include the Group's interests in associates and jointly controlled entities on the basis set out in note 1(f) and note 1(g) below, respectively. The financial statements of the associates and jointly controlled entities used for this purpose are either coterminous with the financial statements of the Company or cover a year ended not more than three months before the Company's year-end. The results of subsidiaries, associates and jointly controlled entities acquired or disposed of during the year are included in the consolidated income statement from the effective dates of acquisition and to the effective dates of disposal. All material intra-group transactions and balances are eliminated on consolidation. Unrealized profits and losses resulting from transactions between the Group and its associates and jointly controlled entities are eliminated to the extent of the Group's interest in the associate or jointly controlled entity.

Changes in the Group's ownership interest in a subsidiary that do not result in the Group losing control over the subsidiary are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and their fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Company.

Non-controlling interests in the net assets or liabilities consist of the amount of those interests at the date of the original business combination and their share of changes in equity since the date of the combination.

c. Revenue

Revenue derived from the Group's principal activities comprises proceeds from sale of properties (excluding proceeds on development properties sold prior to their completion which are included in deposits received on sale of properties under current liabilities), gross rental income from properties letting under operating leases, revenue from hotel operation and revenue derived from other business activities including property management, car parking and transport infrastructure management, toll road management, logistics business, construction, financial services, telecommunications, internet infrastructure, enabling services, department store, container and cargo handling services. It does not include the revenue of associates and jointly controlled entities.

d. Revenue recognition

Revenue of a transaction is recognized when it is probable that the economic benefits associated with the transaction will flow to the Group and these benefits can be measured reliably, on the following bases:

(i) Property sales

Profit from sale of properties is recognized when the significant risks and rewards of ownership of the properties are transferred to the buyers. Deposits and instalments received from purchasers prior to this stage are included in current liabilities.

(ii) Rental income

Rental income from properties letting under operating leases is recognized on a straight line basis over the lease terms.

(iii) Hotel operation

Revenue from hotel operation is recognized upon provision of services.

(iv) Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

(Expressed in millions of Hong Kong dollars)

PRINCIPAL ACCOUNTING POLICIES (cont'd) 1.

Revenue recognition (cont'd) d.

(v) Construction

Revenue in respect of building construction job is recognized based on the stage of completion method measured by reference to the proportion that costs incurred to date bear to estimated total costs for the contract.

(vi) Dividend income

Dividend income from investments is recognized when the right to receive payment is established.

(vii) Use of internet services centre facilities

Revenue from customer use of internet services centre facilities is recognized ratably over the term of the agreement.

(viii) Telecommunications

Revenue from telecommunication is recognized when the service is rendered.

(ix) Toll income

Toll income is recognized upon the passage of vehicles through tunnel.

(x) Department store

Revenue from sale of own-bought goods and commission income from concession and consignment sales is recognized upon the transfer of risks and rewards of ownership of the goods.

Provision of container and cargo handling service

Revenue from the provision of container and cargo handling service is recognized when the service is rendered.

(xii) Others

Other revenue including property management service fee, car parking management fee and insurance income are recognized when the services are rendered.

Subsidiaries e.

A subsidiary is a company in which the Company directly or indirectly controls more than half of the voting power, or controls the composition of the board of directors. Investments in subsidiaries are carried in the Company's financial statements at cost less impairment loss.

f. **Associates**

Associates are those in which the Group is in a position to exercise significant influence, but not control or joint control, over the management, including participation in the financial and operating policy decisions.

Results of associates are incorporated in the consolidated income statement to the extent of the Group's share of post-acquisition profits less losses.

Interests in associates are accounted for in the consolidated statement of financial position under the equity method and are carried at cost as adjusted for post acquisition changes in the Group's share of their results and reserves less any identified impairment loss.

(Expressed in millions of Hong Kong dollars)

1. PRINCIPAL ACCOUNTING POLICIES (cont'd)

a. Joint ventures

A joint venture is a contractual arrangement whereby the Group and other parties undertake an economic activity which is subject to joint control.

(i) Jointly controlled entities

Jointly controlled entities involve the establishment of a separate entity in which the Group has a long-term interest and over which the Group is in a position to exercise joint control with other venturers in accordance with contractual arrangements.

Results of jointly controlled entities are incorporated in the consolidated income statement to the extent of the Group's share of post-acquisition profits less losses whereas accounted for in the Company's income statement only to the extent of dividend income.

Interests in jointly controlled entities are accounted for in the consolidated statement of financial position under the equity method and are carried at cost as adjusted for post-acquisition changes in the Group's share of their results and reserves less any identified impairment loss whereas in the Company's statement of financial position at cost less impairment loss.

(ii) Jointly controlled assets

Jointly controlled assets are assets of a joint venture over which the Group has joint control with other venturers in accordance with contractual arrangements and through the joint control of which the Group has control over its share of future economic benefits earned from the assets.

The Group recognized in the financial statements its share of jointly controlled assets and any liabilities incurred jointly with other venturers according to their nature. Liabilities and expenses incurred directly in respect of its interests in jointly controlled assets are accounted for on an accrual basis. Income from the sale or use of the Group's share of the output of the jointly controlled assets, together with its share of any expenses incurred by the joint ventures, are recognized in the income statement when it is probable that the economic benefits associated with the transactions will flow to or from the Group.

h. Intangible assets

(i) Telecommunication licences

A mobile carrier licence, which is a right to establish and maintain a telecommunication network and to provide mobile services in Hong Kong, is recorded as an intangible asset. Upon the issue of the third generation licence ("3G Licence"), renewal of the Global System for Mobile communications licence ("GSM Licence") and Personal Communications Services Licence (the "PCS Licence") the cost thereof, which is the discounted value of the minimum annual fees payable over the licence period of 15 years and directly attributable costs of preparing the asset for its intended use, is recorded together with the related obligations. Amortization is provided on the straight line basis over the remaining licence period from the date when the asset is ready for its intended use

The difference between the discounted value and the total of the minimum annual fee payments represents the effective cost of financing and, accordingly, for the period prior to the asset being ready for its intended use, is capitalized as part of the intangible asset. Subsequent to the date when the asset is ready for its intended use, such finance costs will be charged to the consolidated income statement in the year in which they are incurred.

Variable annual payments on top of the minimum annual payments, if any, are recognized in the consolidated income statement as incurred.

(Expressed in millions of Hong Kong dollars)

PRINCIPAL ACCOUNTING POLICIES (cont'd) 1.

Intangible assets (cont'd) h.

Goodwill (ii)

Goodwill represents the excess of the cost of acquisition over the net fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities of the acquired subsidiaries, associates and jointly controlled entities at the date of acquisition.

Goodwill is tested annually for impairment loss and carried at cost less accumulated impairment losses. Impaired losses recognized on Goodwill are not reversed. Goodwill on acquisition of associates and jointly controlled entities is included in investments in associates and jointly controlled entities respectively.

Any excess of the Group's interest in fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the cost of acquisition is recognized immediately in the income statement.

On disposal of a subsidiary, associate or jointly controlled entity, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Concession Assets

The Group has entered into a service concession arrangement with the HKSAR Government to participate in the development, financing, operation and maintenance of toll road infrastructures. Under the arrangement, the Group carries out the construction of toll road for the granting authority and receives in exchange a right to operate the toll road and the entitlement to toll fees collected from users of the toll road. The assets including the cost of tunnel, approach road and buildings, electrical and mechanical systems under the service concession arrangement are recorded as intangible assets. Once the underlying infrastructure of the concession arrangement is completed, the concession assets are amortized over the term of the concession on a straight line basis.

i. Financial assets, financial liability and equity

The Group classifies its financial assets into the following categories: financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments and available-for-sale investments. The classification depends on the purpose for which the financial assets were acquired and is reviewed by the management at every reporting date.

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability on initial recognition.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss comprise marketable securities held for trading. At each year end date subsequent to initial recognition, these investments are measured at fair value. Changes in fair value are recognized in profit or loss

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are carried at amortized cost using the effective interest method less impairment loss.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity. Held-to-maturity investments are initially recognized at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest method, less any identified impairment loss. Any impairment loss is recognized in profit or loss when there is objective evidence that the asset is impaired.

(Expressed in millions of Hong Kong dollars)

PRINCIPAL ACCOUNTING POLICIES (cont'd) 1.

Financial assets, financial liability and equity (cont'd)

Available-for-sale investments

Available-for-sale investments are non-derivatives that are either designated or not classified as any of the other categories. At each year end date subsequent to initial recognition, available-for-sale investments are measured at fair value by reference to market prices. Changes in fair value are recognized in other comprehensive income, until the financial asset is disposed of or is determined to be impaired, at which time, the cumulative gains or losses previously recognized in equity are removed from equity and recognized in profit or loss. Any impairment loss on available-for-sale investments is immediately recognized in profit or loss. Impairment loss recognized on available-for-sale investments will not reverse through income statement in subsequent periods.

For available-for-sale investments that do not have a guoted market price in an active market and whose fair value cannot be reliably measured, they are measured at cost less any identified impairment loss at each year end date subsequent to initial recognition. Any impairment loss is recognized in profit or loss when there is objective evidence that the asset is impaired. Such impairment loss will not reverse in subsequent periods.

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definition of a financial liability and an equity instrument. Financial liabilities are measured at amortized cost, using the effective interest method. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

j. Derivative financial instruments and hedging

The Group only enters into derivative financial instruments in order to hedge its underlying exposures. Derivative financial instruments are initially recognized at fair value on the date derivative contracts are entered into and are subsequently remeasured at their fair value.

The method of recognizing the resulting gain or loss depends on the nature of the item being hedged. The Group designates certain derivatives as hedging instruments in hedges of the fair value of a recognized asset or liability.

For fair value hedges that qualify for hedge accounting, gains or losses arising on changes in fair values of hedging instruments are recognized immediately in profit or loss, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

At the inception of the hedging relationship the entity documents the relationship between the hedging instrument and hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument that is used in a hedging relationship is highly effective in offsetting changes in fair values or cash flows of the hedged item.

The fair values of interest rate swaps are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates.

The fair values of currency swaps are measured using quoted forward exchange rates and yield curves derived from quoted interest rates matching maturities of the contracts.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting.

(Expressed in millions of Hong Kong dollars)

PRINCIPAL ACCOUNTING POLICIES (cont'd) 1.

k. **Properties**

Investment properties

Investment properties are properties held for long term rental income or capital appreciation or both. These include completed properties, those under construction and properties that are being redeveloped for continuing use as investment properties.

Investment properties are carried at fair value based on valuation performed by an independent professional valuer on a market value basis related to individual properties, and separate values are not attributed to land and buildings. Changes in fair values are recognized in income statement in the period in which they arise. For the completed investment properties, valuation is arrived at on the basis of capitalization of net income with due allowance for the reversionary income potential and by making reference to comparable market sale and purchase transactions for similar properties. For the investment properties under development, valuation is arrived at by making reference to comparable market sale and purchase transactions and valuing the properties as if they were completed, taking into account construction costs already incurred and future construction costs required for completion of the development.

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use or no future economic benefits are expected to arise from its disposal. Any gain or loss on derecognition, calculated as the difference between the net disposal proceeds and the carrying amount of the property, is included in income statement in the period in which the asset is derecognized.

(ii) Hotel properties

Hotel properties and their integral fixed plant used in the operation of hotel are included in fixed assets at cost less accumulated depreciation and accumulated impairment losses, if any. Any gain or loss on disposal of a hotel property is recognized in the income statement.

Properties pending/under development for sale (iii)

Properties pending/under development for sale are included in stocks at the lower of cost and net realizable value. Net realizable value takes into account the price ultimately expected to be realized and the anticipated costs to completion.

Stocks of completed properties

Completed properties remaining unsold at year end are stated at the lower of cost and net realizable value.

Cost is determined by apportionment of the total land and development costs attributable to the unsold properties.

Net realizable value is determined by reference to sale proceeds of properties sold in the ordinary course of business less all estimated selling expenses after the year end date, or by management estimates based on prevailing market conditions.

Other properties

Other properties are properties held for production or administrative purposes and are included in fixed assets at cost less accumulated depreciation and accumulated impairment losses, if any. Any gain or loss on disposal of other properties is recognized in the income statement.

(Expressed in millions of Hong Kong dollars)

1. PRINCIPAL ACCOUNTING POLICIES (cont'd)

I. Depreciation

(i) Hotel properties

Depreciation is provided on hotel property and on its integral fixed plant and calculated on a straight line basis to write off their costs less accumulated impairment losses over the shorter of the term of the lease and estimated useful lives at rates ranging from 0.68% to 20% per annum.

(ii) Properties under development

No depreciation is provided on properties under development.

(iii) Network equipment

Network equipment including assets and equipment of the digital mobile radio telephone and local multipoint distribution services networks are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on a straight line basis to write off their costs over their estimated useful lives at rates ranging from 10% to 50% per annum. No depreciation is provided on network equipment under construction.

(iv) Other properties

The cost of leasehold land and construction cost of buildings thereon are depreciated on a straight line basis over the shorter of the term of the lease and their estimated useful lives.

(v) Other fixed assets

Other fixed assets including equipment, furniture, fixtures, vessels and vehicles are stated at cost less accumulated depreciation calculated on a straight line method to write off the assets over their estimated useful lives at rates ranging from 4% to 33.3% per annum.

m. Borrowings and borrowing costs

Borrowings are initially recognized at fair value, net of transaction costs incurred, and are subsequently measured either at amortized cost, using the effective interest method or at fair value when accounting for fair value hedges set out in note 1(j) applies.

Borrowing costs are expensed as incurred, except to the extent that they are capitalized as being directly attributable to the construction or production of assets which necessarily take a substantial period of time to get ready for their intended use or sale. Capitalization of such borrowing costs begins when construction or production activities commence and ceases when the assets are substantially ready for their intended use or sale.

n. Materials

Materials comprising mainly building materials, hotel stocks, handsets and consumable goods are valued at the lower of cost, calculated on a weighted average cost basis, and net realizable value.

(Expressed in millions of Hong Kong dollars)

PRINCIPAL ACCOUNTING POLICIES (cont'd) 1.

Translation of foreign currencies 0.

Foreign currency transactions during the year are converted into Hong Kong dollars at the market rates of exchange ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into Hong Kong dollars at closing rates of exchange ruling at the year end date. Exchange differences arising in these cases are dealt with in the income statement.

The assets and liabilities of overseas subsidiaries, associates and jointly controlled entities expressed in functional currencies are translated into Hong Kong dollars at the closing rates of exchange ruling at the year end date whereas the income statement are translated at average exchange rates for the year. Exchange differences arising on translation are recognized in other comprehensive income.

Deferred taxation p.

Deferred tax liabilities are provided in full, using the liability method, on all temporary differences between the carrying amount of assets and liabilities in the financial statements and their tax bases used in the computation of taxable profits, while deferred tax assets are recognized to the extent that it is probable that the future taxable profits will be available against which the deductible temporary differences and unused tax losses can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Provision a.

Provisions are recognized when it is probable that an outflow of economic benefits will be required to settle a present obligation and the amount of obligation can be reliably estimated.

Seament reporting r.

Operating segments are presented in a manner consistent with the Group's internal financial reporting. This is the measure reported to the Group's management for the purpose of resources allocation and assessment of segment performance.

Retirement benefits ς

The retirement benefit costs charged to the income statement represent the contributions payable in respect of the current year to the Group's defined contribution schemes and Mandatory Provident Fund Schemes.

(Expressed in millions of Hong Kong dollars)

SEGMENT INFORMATION 2

Segment profit represents the profit earned by each segment without allocation of investment income, central administration costs, other income, net finance costs and change in fair value of investment properties. This is the measure reported to the Group's management for the purpose of resource allocation and assessment of segment performance.

(a) Segment revenue and results

An analysis of the revenue and results for the year of the Group and its share of associates and jointly controlled entities by operating segments is as follows:

2 **SEGMENT INFORMATION (cont'd)**

(c) Other segment information

The Group's depreciation and amortization and additions to segment assets by operating segments are analysed as follows:

Depreciation and amortization charged to

	consolidated income statement		Additions to s	egment assets
	2010	2009	2010	2009
Property development for sale	9	9	13,567	3,062
Property investment for rental	_	_	6,110	7,544
Hotel operation	156	153	2,153	87
Telecommunications	560	514	569	467
Other businesses	526	570	109	499
Unallocated corporate assets	27	27	8	70
	1,278	1,273	22,516	11,729

In addition to the above additions to segment assets, the Group also acquired interests in subsidiaries in 2009 as explained in note 31(b).

Geographical information

An analysis of the Group's revenue by geographical area of principle markets is as follows:

	2010	2009
Hong Kong	32,064	32,930
Mainland China	926	1,061
Others	221	243
	33,211	34,234

An analysis of the Group's non-current assets by geographical location is as follows:

		2010			2009	
	The Company and its subsidiaries	Associates and jointly controlled entities	Consolidated	The Company and its subsidiaries	Associates and jointly controlled entities	Consolidated
Hong Kong	170,884	24,396	195,280	158,720	22,724	181,444
Mainland China	34,177	4,392	38,569	26,035	3,161	29,196

Other financial assets			3,554			2,953
Total non-current assets			241,564			217,112

(Expressed in millions of Hong Kong dollars)

3 **NET FINANCE COSTS**

	2010	2009
Interest expenses on		
Bank loans and overdrafts	489	682
Other loans wholly repayable within five years	53	97
Other loans not wholly repayable within five years	275	255
	817	1,034
Notional non-cash interest accretion	86	82
Less: Amount capitalized	(233)	(514)
	670	602
Interest income on bank deposits	(31)	(94)
	639	508

Finance costs have been capitalized for properties under development at rates ranging from 0.67% to 7.56% per annum (2009: 1.08% to 7.56%).

Notional non-cash interest accretion represents notional adjustments to accrete the carrying amount of asset retirement obligations and contractual obligations of telecommunications licence recognized in the statement of financial position to the present value of the estimated future cash flows expected to be required for their settlement in the future.

10.5 — 11.0	1	_
12.5 — 13.0	_	1
	2	2

STAFF RETIREMENT SCHEMES 6

The Group operates a number of defined contribution schemes for all qualified employees. The assets of these schemes are held separately from those of the Group in independently administered funds. Contributions to these schemes are made by both the employers and employees at rates ranging from 5% to 10% on the employees' salary.

With effect from 1 December 2000, the Group sets up an employer sponsored scheme ("MPF Scheme") for other employees. The MPF Scheme is registered with the Mandatory Provident Fund Schemes Authority under the Mandatory Provident Fund Schemes Ordinance. The assets of the MPF Scheme are held separately from those of the Group in independently administered funds. Pursuant to the rules of the MPF Scheme, the Group and its employees are each required to make contributions to the scheme at specific rates. Contributions of the Group to the MPF Scheme are charged to income statement as incurred.

Total contributions to the retirement schemes made by the Group during the year amounted to HK\$190 million (2009: HK\$180 million). Forfeited contributions for the year of HK\$2 million (2009: HK\$2 million) were used to reduce the existing level of contributions.

(Expressed in millions of Hong Kong dollars)

7 **TAXATION**

	2010	2009
Company and subsidiaries		
Current taxation		
Hong Kong profits tax	1,986	1,949
Under provision in prior years	6	29
	1,992	1,978
Tax outside Hong Kong	668	91
	2,660	2,069
Deferred taxation charge/(credit)		
Change in fair value of investment properties	3,730	(427)
Tax released on disposal of investment properties	(718)	_
Other origination and reversal of temporary differences	224	243
	3,236	(184)
	5,896	1,885

- Hong Kong profits tax is provided at the rate of 16.5% (2009: 16.5%) based on the estimated assessable profits for the year. Tax outside (a) Hong Kong is calculated at the rates applicable in the relevant jurisdictions.
- (b) Reconciliation between tax expenses and accounting profit at applicable tax rate:

	2010	2009
Profit before share of results of associates, jointly controlled entities and taxation	29,672	10,821
Tax at Hong Kong profits tax rate of 16.5% (2009: 16.5%)	4,896	1,785
Effect of change in tax rate and different tax rates of		
subsidiaries operating outside Hong Kong	991	37
Net effect of non-deductible expenses and non-taxable income	65	80
Utilization/recognition of tax losses not previously recognized	(37)	(34)
Tax losses and other temporary differences not recognized	(3)	37
Others	(16)	(20)
Tax expenses	5,896	1,885

The tax assessments for certain subsidiaries of the Group for certain prior years have not been agreed with the relevant tax authorities. Provision has been made by the Group for these liabilities based on the estimates of the management, taking into consideration the best professional advice available. The final liabilities in respect of these outstanding assessments may differ from provisions made, giving rise to further provisions or a write back for provisions already made.

(Expressed in millions of Hong Kong dollars)

8 **DIVIDENDS**

	2010	2009
Dividends recognized as distribution during the year:		
2010 Interim dividend of HK\$0.85 per share based on 2,564 million shares		
(2009: HK\$0.80 per share based on 2,564 million shares)	2,180	2,051
2009 final dividend of HK\$1.70 per share based on 2,564 million shares		
(2009: 2008 final dividend of HK\$1.70 per share based on 2,564 million shares)	4,359	4,359
	6,539	6,410
Proposed final dividend of HK\$1.85 per share based on 2,570 million shares		
(2009: HK\$1.70 per share based on 2,564 million shares)	4,755	4,359

EARNINGS PER SHARE

(a) Reported earnings per share

The calculations of basic and diluted earnings per share are based on the Group's profit attributable to the Company's shareholders of HK\$28,043 million (2009: HK\$10,356 million) and on the weighted average number of shares in issue during the year of 2,565,240,040 (2009: 2,564,333,362).

No diluted earnings per share for the year ended 30 June 2010 and 30 June 2009 is presented as there are no potential ordinary shares.

(b) Underlying earnings per share

For the purpose of assessing the underlying performance of the Group, basic earnings per share is additionally calculated based on the underlying profit attributable to the Company's shareholders of HK\$13,883 million (2009: HK\$12,415 million), excluding the effect of fair value changes on investment properties. A reconciliation of profit is as follows:

	2010	2009
Profit attributable to the Company's shareholders as shown		
in the consolidated income statement	28,043	10,356
(Increase)/decrease in fair value of investment properties	(16,469)	2,654
Effect of corresponding deferred tax charges/(credits)	3,730	(427)
Realized fair value gains of investment properties disposed net of deferred tax	805	53
Realized fair value losses of investment properties held by jointly controlled entities		
disposed net of deferred tax	_	(8)
Share of increase in fair value of investment properties net of deferred tax		
of associates and jointly controlled entities	(2,489)	(187)
	(14,423)	2,085
Non-controlling interests	263	(26)
	(14,160)	2,059
Underlying profit attributable to the Company's shareholders	13,883	12,415

(Expressed in millions of Hong Kong dollars)

	29,381	25,792

(Expressed in millions of Hong Kong dollars)

14 JOINTLY CONTROLLED ENTITIES (cont'd)

Amounts due from jointly controlled entities are unsecured, interest free and have no fixed terms of repayment and are repayable as may from time to time be agreed among the shareholders except for the amounts of HK\$3,188 million (2009: HK\$2,593 million) which are interest bearing at market rates.

The Group's effective interest in the revenues, results, assets and liabilities of its jointly controlled entities are summarised below:

	2010	2009
Non-current assets	48,622	45,818
Current assets	13,131	15,578
Current liabilities	(8,250)	(5,848)
Non-current liabilities	(34,221)	(39,087)
Net assets	19,282	16,461
Revenue	5,620	4,026
Fair value change of investment properties net of related deferred tax	2,467	198
Profit for the year	4,637	1,412

Particulars regarding principal jointly controlled entities are set out on pages 184 to 185.

15 LOAN RECEIVABLES

The Group

	2010	2009
Loan receivables	371	511
Less: Amount due within one year included under current assets	(25)	(46)
	346	465

Loan receivables include mortgage loan receivables which are secured on properties and repayable by monthly instalments with various tenors not more than 20 years at the year end date and carry interest at rates with reference to banks' lending rates.

As at 30 June 2010, 5% (2009: 5%) of loan receivables have been overdue but not impaired, of which 98% (2009: 96%) are aged less than three months since the due dates. These relate to a number of independent customers for whom the creditworthiness, collateral and subsequent settlement after reporting date are assessed and there has not been a significant change in credit quality and the amounts are still considered recoverable.

Impairment losses in respect of loan receivables are recorded using an allowance account unless the Group is satisfied that recovery of the amount is remote, in which case the impairment loss is written off against loan receivables directly. The balance and movement of the impairment allowance as at 30 June 2010 and 30 June 2009 is not significant.

(Expressed in millions of Hong Kong dollars)

17 INTANGIBLE ASSETS (cont'd)

Concession assets represent cost of tunnel, approach road and buildings, electrical and mechanical systems under the service concession arrangement with the HKSAR Government to participate in the development, financing, operation and maintenance of toll road infrastructure less accumulated amortization and impairment loss.

Goodwill represents the excess of the cost of acquisition over the net fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities of the acquired subsidiaries. At the year end date, an impairment test was performed by comparing the carrying amount of the business with the recoverable amount.

Telecommunications licences represent the discounted value of the annual fees payable for the telecommunications licences over the licence period less accumulated amortization and impairment loss. The corresponding non-current and current portion of these contractual liabilities are recorded in other long-term liabilities and other payables respectively.

Short-term loans		63	_	287	_
Derivative financial instruments	19b	547	_	393	
		16,060	7	15,611	7

Considerations in respect of sold properties are payable by the purchasers pursuant to the terms of the sale and purchase agreements. Monthly rents in respect of leased properties are payable in advance by the tenants. Other trade debtors settle their accounts according to the payment terms as stated in the respective contracts.

Included in debtors, prepayments and others of the Group are trade debtors of HK\$5,228 million (2009: HK\$11,661 million), of which 92% (2009: 95%) are aged less than 60 days, 2% (2009: 1%) between 61 to 90 days and 6% (2009: 4%) more than 90 days.

As at 30 June 2010, 14% (2009: 7%) of trade debtors are past due but not impaired, of which 85% (2009: 85%) are aged less than three month since the due dates. These relate to a number of independent customers for whom there is no recent history of default and there has not been a significant change in credit quality and the amounts are still considered recoverable.

Impairment losses in respect of trade debtors are recorded using an allowance account unless the Group is satisfied that recovery of the amount is remote, in which case the impairment loss is written off against trade debtors directly. The balance and movement of the impairment allowance as at 30 June 2010 and 30 June 2009 is not significant.

(Expressed in millions of Hong Kong dollars)

19 DEBTORS, PREPAYMENTS AND OTHERS (cont'd)

19a. Amounts due from/(to) customers for contract works

The Group

	Notes	2010	2009
Contract costs incurred plus recognized profits less recognized losses		1,499	729
Less: Progress billings		(1,495)	(687)
		4	42
Represented by:			
Due from customers included in current assets	19	60	50
Due to customers included in current liabilities	24	(56)	(8)
		4	42

19b. Derivative financial instruments

		2010		2009	
	Notes	Assets	Liabilities	Assets	Liabilities
Fair value hedges	19 & 24				
— interest rate swaps		544	_	391	_
— currency swaps		3	4	2	2
		547	4	393	2
Cash flow hedge					
— interest rate swap		_	2	_	_

At the year end date, the Group had outstanding fair value hedges in respect of fixed-to-floating interest rate swaps to hedge the fair value interest rate risk of the Group's fixed interest rate borrowings and currency swaps (to hedge principal repayment of USD debt) analysed as follows:

	Notional principal amount	
	2010	2009
Fixed-to-floating interest rate swaps maturing		
Within one year	_	250
After one year, but within five years	921	521
After five years	3,123	2,925
	4,044	3,696
Currency swaps maturing		
Within one year	_	233
After one year, but within five years	452	450
	452	683

The fixed-to-floating interest rate swaps converted the fixed rates to floating rates at HIBOR plus a weighted average margin of 0.42% (2009: 0.39%) per annum. The swaps are measured at fair value at the year end date and the increase in fair value during the year in the amount of HK\$152 million (2009: HK\$311 million) along with the corresponding increase in fair value of the hedged borrowings attributable to the hedged risk of the same amount has been recognized in income statement.

(Expressed in millions of Hong Kong dollars)

19 DEBTORS, PREPAYMENTS AND OTHERS (cont'd)

19b. Derivative financial instruments (cont'd)

At the year end date, the Group had outstanding cash flow hedge in respect of floating-to-fixed interest rate swap to hedge the exposure to variability in cash flows of the Group's floating interest rate borrowing analysed as follows:

	Notional principal amount	
	2010	2009
Floating-to-fixed interest rate swap maturing		
After one year, but within five years	100	100

The floating-to-fixed interest rate swap converted the floating rate to fixed rate at 2.66%. The swap is measured at fair value and the increase in fair value during the year are recognized in the cash flow hedging reserve in equity and will be released to the income statement when the hedged forecast transaction affects profit or loss.

20 AMOUNT DUE FROM A SUBSIDIARY

The Company

Amount due from a subsidiary is interest free and repayable on demand.

21 OTHER FINANCIAL ASSETS

The Group

25 BANK AND OTHER BORROWINGS (cont'd)

The maturity of the Group's long-term bank and other loans are as follows:

	Note	2010	2009
Secured bank loans repayable			
Within one year		195	220
After one year, but within two years		225	646
After two years, but within five years		2,646	1,605
After five years		207	724
		3,273	3,195
Unsecured bank loans repayable			
Within one year		10,975	381
After one year, but within two years		5,424	10,045
After two years, but within five years		13,480	16,304
		29,879	26,730
Other unsecured loans repayable			
Within one year		_	1,938
After one year, but within two years		2,373	_
After two years, but within five years		3,276	4,533
After five years		6,495	5,524
		12,144	11,995
		45,296	41,920
Less : Amount due within one year included under current liabilities	23	(11,170)	(2,539)
		34,126	39,381

The fair values of the long-term borrowings as estimated by discounting their future cash flows at the prevailing market borrowing rates at the year end date for similar borrowings are as follows:

	Carrying amount		Fair value	
	2010	2009	2010	2009
Secured bank loans	3,078	2,975	3,078	2,975
Unsecured bank loans	18,904	26,349	18,904	26,349
Other unsecured loans	12,144	10,057	12,711	10,194
	34,126	39,381	34,693	39,518

- As at 30 June 2010, the Group had entered into fixed-to-floating interest rate swaps in the aggregate notional amount of HK\$4,044 million (2009: HK\$3,696 million) to hedge the fair value interest rate risk of certain fixed interest rate borrowings (see note 19b). These borrowings and the related hedging derivatives are reported at fair value through income statement.
- Secured bank loans related to bank borrowings of the Group's subsidiaries which are secured by way of legal charges over certain of its (b) assets and business undertakings.
- The above bank loans and other loans are repayable on various dates up to September 2019 (2009: June 2019) and carry interest, after hedging where appropriate, at effective rate per annum of 1.98% (2009: 1.34%) at the year end date.

(Expressed in millions of Hong Kong dollars)

25 BANK AND OTHER BORROWINGS (cont'd)

The carrying amount of the borrowings are denominated in the following currencies:

	2010		2009	
	The Group	The Company	The Group	The Company
Hong Kong dollars	35,641	3	33,297	23
United States dollars	3,081	_	3,372	_

On 4 May 2010, the Company issued and allotted 5,705,819 new fully paid shares of HK\$0.50 each in the Company at HK\$117.74 to the shareholders who elected to receive shares in the Company in lieu of cash for the interim dividends pursuant to the scrip dividend schemes announced by the Company on 11 March 2010. The new ordinary shares rank pari passu in all respects with the existing ordinary shares of the Company.

29 SHARE OPTION SCHEMES

The Company has a share option scheme which was adopted on 5 December 2002 ("the New Scheme") to replace a former scheme previously adopted on 20 November 1997 ("the Old Scheme"), whereby the directors of the Company may grant options to eligible employees, including executive directors of the Company and its subsidiaries, to subscribe for shares in the Company. Details of the share option schemes are set out in the Directors' Report on pages 100 to 106.

The Old Scheme

Upon the termination of the Old Scheme, no further options could be offered and no options remained outstanding at 30 June 2010 and 30 June 2009.

The New Scheme

The New Scheme was adopted by the Company in order to comply with the new requirements under Chapter 17 of the Listing Rules. No options have been granted to any person for both years.

(Expressed in millions of Hong Kong dollars)

33 RELATED PARTY TRANSACTIONS

During the year, the Group undertook various transactions with related parties. The following is a summary of significant transactions, in addition to those disclosed elsewhere in the financial statements, between the Group and related parties, which were carried out in the normal course of the Group's business at similar terms to other customers or suppliers and at market prices:

		Associates		Jointly controlled entities		
		2010	2009	2010	2009	
Interest income	(a)	_	1	98	103	
Rental income	(b)	6	6	1	1	
Rental expenses	(b)	_	_	29	29	
Other revenue from services rendered	(c)	93	129	710	246	
Purchase of goods and services	(c)	_	_	384	400	
Purchase of assets	(d)	490	111	_		

- The outstanding balances with associates and jointly controlled entities at the year end date are disclosed in notes 13 and 14 respectively. (a)
- The Group has, in the normal course of its business, entered into lease agreements to lease premises to and from related parties. The (b) leases were entered into on normal commercial terms.
- (c) Purchase of goods from and rendering of services to related parties were conducted in the normal course of business at prices and on terms comparable to those contracted with other suppliers/customers of the Group.
- (d) In January 2010, the Group purchased 50% interest in a development site from a wholly-owned subsidiary of Transport International Holdings Limited, for a consideration of HK\$490 million. (2009 transactions are disclosed in note 31(b)).

Emoluments to directors (being the key management personnel compensation) are disclosed in note 5.

(Expressed in millions of Hong Kong dollars)

34 CONTINGENT LIABILITIES AND COMMITMENTS

The Group

At the year end date, the Group had contingent liabilities and commitments, so far as not provided for in the consolidated financial statements,

		2010	2009
(a)	Capital commitments in respect of fixed assets		
	Contracted but not provided for	4,323	10,529
	Authorized but not contracted for	2,841	544
(b)	Capital commitments in respect of investments Contracted but not provided for	2	2
(c)	The Group's share of capital commitments of jointly controlled entities		
	Contracted but not provided for	705	772
	Authorized but not contracted for	_	1

Guarantees given to banks and financial institutions for the borrowings of an associate and jointly controlled entities of HK\$3,037 million (2009: HK\$2,833 million) and other guarantees of HK\$4 million (2009: HK\$2 million).

The Company

At the year end date, the Company had contingent liabilities, not included in the Company's financial statements, in respect of guarantees for bank and other borrowings drawn by:

	2010	2009
Subsidiaries	42,826	38,724
An associate	363	363
Jointly controlled entities	2,445	2,470
	45,634	41,557

35 OPERATING LEASE

At the year end date, the future aggregate minimum lease income receivable by the Group under non-cancellable operating leases for land and buildings is analysed as follows:

	2010	2009
Not later than one year	7,445	6,811
Later than one year but not later than five years	9,021	7,787
Later than five years	1,967	2,182
	18,433	16,780

At the year end date, the future aggregate minimum lease charges payable by the Group under non-cancellable operating leases for land and buildings, transmission sites and leased lines is analysed as follows:

	2010	2009
Not later than one year	637	590
Later than one year but not later than five years	555	394
Later than five years	266	112
	1,458	1,096

(Expressed in millions of Hong Kong dollars)

36 CHARGES OF ASSETS

At the year end date, certain bank deposits of the Group's subsidiary, SmarTone Telecommunications Holdings Limited, in the aggregate amount of HK\$340 million (2009: HK\$389 million) have been pledged for securing performance bonds related to 3G licence and some other guarantees issued by the banks.

At the year end date, certain assets of the Group's subsidiaries with an aggregate net carrying amount of approximately HK\$16,441 million (including bank balances of HK\$6 million) (2009: HK\$7,436 million (including bank balances of HK\$8 million)) have been charged to secure its bank borrowings.

37 CRITICAL ACCOUNTING JUDGEMENTS AND ESTIMATIONS

In the application of the Group's accounting policies, the management of the Company is required to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and assumptions used in preparing the financial statements are continually evaluated based on historical experience and other factors that are considered relevant, including expectation of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and assumptions that have a significant effect on the carrying amounts of assets and liabilities are discussed below:

(a) Fair value of investment properties

At each year end date, the Group's investment properties are stated at fair value based on the valuation carried out by an independent qualified professional valuer. In determining the fair value, the valuer has based on market value basis which takes into account, inter-alia, certain estimates, including open market rents, appropriate capitalization rates, reversionary income potential, redevelopment potential and comparable market transactions. The management has reviewed the valuation and is satisfied that the valuation of the Group's investment properties is reasonable.

(b) Impairment of assets

Assets including goodwill and intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset exceeds its recoverable amount. The recoverable amount of an asset is the greater of the fair value less costs to sell and value in use. Estimating the value in use of an asset involves estimating the future cash flows expected to arise from its continuing use and from its disposal at the end of its useful life and applying the appropriate discount rate that reflects current market assessment of the time value of money and the risk specific to the asset.

(c) Income taxes

There are transactions and calculations relating to the Group's ordinary business activities for which the ultimate tax determination is uncertain and judgement is required in determining the provision for income taxes. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the year in which such determination is made.

(d) Recognition of deferred tax assets

The amount of the deferred tax assets included in the financial statement of the Group is recognized only to the extent that it is probable that future taxable profits will be available against which the temporary differences and unused tax losses can be utilized. The recognition of deferred tax assets requires the Group to make judgements, based on assessment regarding future financial performance, about the amount of future taxable profits and the timing of when these will be realized.

(Expressed in millions of Hong Kong dollars)

37 CRITICAL ACCOUNTING JUDGEMENTS AND ESTIMATIONS (cont'd)

(e) Assessment of useful economic lives

Fixed assets and intangibles (other than goodwill) are depreciated or amortized over their useful economic lives. The assessment of estimated useful lives is a matter of judgement based on the experience of the Group, taking into account factors such as technological progress, changes in market demand, expected usage and physical wear and tear. Useful lives are periodically reviewed for continued appropriateness. Due to long lives of assets, changes to the estimates used can result in variations in their carrying value.

(f) Fair value of financial instruments

Financial instruments such as available-for-sale securities and derivative financial instruments are measured in the financial statements at fair values. The management uses its judgement in selecting the appropriate valuation technique for financial instruments that are not quoted in an active market. For derivative financial instruments such as interest rate swaps and currency swaps, assumptions are made based on inputs supported by observable market prices or rates.

38 FINANCIAL RISK MANAGEMENT

The Group's major financial instruments include investments, amounts due from associates and jointly controlled entities, loans receivables, trade debtors, bank balances and deposits, trade creditors, bank and other borrowings and other long-term liabilities. Details of these financial instruments are disclosed in respective notes.

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, interest rate risk and price risk), credit risk and liquidity risk. The risks associated with these financial instruments are managed by the Group's financial management policies and practices described below:

(a) Foreign currency risk

Foreign currency exposure does not pose a significant risk for the Group as most of the Group's assets, operational cash flows and borrowings are denominated in Hong Kong dollars. The Group aims to minimize its currency risk using forward contracts where feasible and cost effective. The Group's primary foreign currency exposures arise mainly from the property development and investment activities in Mainland China and Singapore, whose net assets are exposed to foreign currency translation risk. Where appropriate, the Group seeks to finance these investments through borrowings denominated in the relevant foreign currencies. Exchange differences arising from the translation of the net investment in these Mainland China and Singapore subsidiaries, associates and jointly controlled entities have been dealt with as an equity movement.

The Group is also exposed to foreign currency risk in respect of its foreign currency borrowings, mainly denominated in United States dollars. Where appropriate, the Group may enter into currency swaps to hedge the currency risks associated with its borrowings. Foreign currency exposure of the Group's other monetary assets/liabilities is minimal.

At 30 June 2010, it is estimated that a 10% increase/decrease in exchange rate of Hong Kong dollars against all other currencies, with all other variables held constant, would increase/decrease the profit before taxation for the year by approximately HK\$48 million (2009: HK\$69 million). The equity would be decreased/increased by HK\$173 million (2009: HK\$97 million).

(Expressed in millions of Hong Kong dollars)

38 FINANCIAL RISK MANAGEMENT (cont'd)

(b) Interest rate risk

The Group is exposed to interest rate risk through the impact of rate changes on interest bearing liabilities and assets. These exposures are managed partly by using natural hedges that arise from offsetting interest rate sensitive assets and liabilities, and partly, at times of interest rate uncertainty, through the use of interest rate swaps.

The Group's interest rate risks arise principally from borrowings. Borrowings raised at floating rates expose the Group to cash flow interest rate risk. Interest rate risk is managed by the Group's senior management through regular review to determine the strategy as to having the funding in floating/fixed rate mix appropriate to the Group's businesses and investments.

The Group's borrowings are principally arranged on a floating rate basis. When appropriate, interest rate swaps are used to hedge and manage its long-term interest rate exposure. Speculative derivative transactions are strictly prohibited.

As at 30 June 2010, it is estimated that an increase/decrease of 100 basis points in interest rates, with all other variables held constant, would decrease/increase the profit before taxation for the year by approximately HK\$297 million (2009: HK\$265 million). The equity would be decreased/increased by approximately HK\$46 million and HK\$55 million, respectively (2009: HK\$34 million and HK\$36 million, respectively).

The sensitivity analysis has been determined assuming that the change in interest rates had occurred at the year end date and had been applied to the exposure to interest rate risk for both derivative and non-derivative financial instruments in existence at that date. The analysis is performed on the same basis for financial year 2009.

(c) Price risk

The Group is exposed to price risk through the Group's certain available-for-sale investments and other financial assets that are measured at fair value at each year end date with reference to the quoted market prices. The Group manages its exposure by closely monitoring the price movements and the changes in market conditions that may affect the value of these investments.

As at 30 June 2010, it is estimated that an increase/decrease of 10% in equity prices, with all other variables held constant, would increase/decrease the profit before taxation for the year and total equity by approximately HK\$50 million and HK\$271 million, respectively (2009: HK\$51 million and HK\$219 million, respectively).

(d) Credit risk

The Group's credit risk is primarily attributable to trade debtors, derivative financial instruments and deposits with banks and financial institutions and held-to-maturity debt securities.

The Group's trade debtors mainly arise from sale of properties developed by the Group and rent receivables from tenants. Occasionally, long term loans are provided to purchasers of the Group's properties and carry interest at rates with reference to banks' lending rates. Regular review is carried out and stringent monitoring procedures are in place to deal with overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at each year end date to ensure that adequate impairment loss is made for irrecoverable amounts.

Counterparty exposure from derivatives is managed, together with that from deposits and bank account balances, with credit limit that reflect published credit ratings and monitored on a regular basis to ensure there is no significant risk to any individual counterparty. Investments in held-to-maturity debt securities are generally limited to issuers of sound credit and rating.

The Group has no significant concentration of credit risk. The maximum exposure to credit risk without taking account of any collateral held is represented by the carrying amount of each financial asset in the financial statement after deducting any impairment loss. Except for the financial guarantees given by the Company as set out in note 34, the Group does not provide any other guarantee which would expose the Group to material credit risk.

(Expressed in millions of Hong Kong dollars)

38 FINANCIAL RISK MANAGEMENT (cont'd)

(e) Liquidity risk

The Group's financial and treasury activities are centrally managed and contolled at the corporate level. The Group takes liquidity risk into consideration when deciding its sources of finances and their respective tenors. The Group aims to diversify its funding sources and minimize its refinancing risk by preventing substantial refinancing in any one period. The Group also maintains substantial undrawn committed revolving banking facilities to allow for flexibility in meeting its funding requirements.

The following tables detail the Group's remaining contractual maturity for its derivative and non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.

As at 30 June 2010	Note	Carrying amount	Total contractual undiscounted cash flow	Up to 1 year	> 1 year to 2 years	> 2 years to 5 years	> 5 years
Creditors and accrued expenses	24	16,089	16,091	13,430	1,068	1,458	135

Fair values (f)

Listed investments are stated at quoted market prices. Unlisted equity investments for which fair values cannot be reliably measured are stated at cost less impairment losses.

The fair values of trade receivables, bank balances, trade payables, accruals and short-term borrowings approximate to their carrying amounts due to the short-term maturities of these assets and liabilities.

The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows. The fair value of currency swap contracts is determined using quoted forward exchange rates at the year end date.

The carrying amounts of mortgage loan receivables, which carry variable interest rates and reprice with reference to market changes, approximate their fair values.

The carrying amounts of other financial assets and liabilities in the financial statements are not materially different from their fair values.

38 FINANCIAL RISK MANAGEMENT (cont'd)

(f) Fair values (cont'd)

The following table presents the carrying value of financial instruments that are measured at fair value at end of reporting date, categorised across the levels of fair value hierarchy defined as follows:

Level 1 Fair values measured at quoted prices (unadjusted) in active markets.

Level 2 Fair values measured using inputs other than quoted prices where those inputs are based on observable market data.

	Level 1	Level 2	Total
Financial assets			
Available-for-sale debt securities			
Listed debt securities, overseas	891	_	891
Listed debt securities, Hong Kong	52	_	52
Unlisted debt securities	41	_	41
Available-for-sale equity securities			
Listed equity securities, overseas	554	_	554
Listed equity securities, Hong Kong	1,180	_	1,180
Unlisted equity securities	_	166	166
Financial assets at fair value through profit or loss			
Listed equity securities, Hong Kong	514	_	514
Listed equity securities, overseas	22	_	22
Derivative financial instruments			
Interest rate swap	_	544	544
Currency swap	_	3	3
	3,254	713	3,967
Financial liabilities			
Derivative financial instruments			
Interest rate swap	_	2	2
Currency swap	_	4	4
	_	6	6

Comparative figure is not required in accordance with the transitional provision set out in the amendments to HKFRS 7.

(Expressed in millions of Hong Kong dollars)

39 CAPITAL MANAGEMENT

The Group's objective for managing capital is to maintain a strong capital base to support the development of its business and to continue to provide returns for shareholders while maintaining a prudent level of financial leverage.

The Group actively reviews and monitors its capital structure on a regular basis to maintain a healthy net debt-to-shareholders' funds ratio. For this purpose the Group defines net debt as total borrowings less bank balances and deposits. Shareholders' funds comprise share capital, share premium and reserves attributable to the Company's shareholders as shown in the consolidated statement of financial position. In order to maintain or adjust the capital structure, the Group may adjust the payment of dividends, issue new shares, raise new debt financing or sell assets to reduce debt.

The net debt-to-shareholders' funds ratios at the year end were as follows:

	2010	2009
Secured bank loans	3,273	3,195
Unsecured bank and other loans	42,115	38,830
Total borrowings	45,388	42,025
Less: Bank balance and deposits	(8,204)	(8,143)
Net debt	37,184	33,882
Shareholders' funds	245,078	222,268
Net debt-to-shareholders funds ratio	15.2%	15.2%

40 APPROVAL OF FINANCIAL STATEMENTS

The financial statements set out on pages 130 to 186 were approved by the board of directors on 20 September 2010.
