

Ten-Year Results

Power Assets brings to bear a judicious mix of investment acumen, expertise in the power sector around the world and a long-term perspective in all its investment activities. This approach has enabled it to continue to achieve a sustained increase in shareholder value over the long term, as demonstrated by the healthy performance of key business parameters.

Profit Attributable to Shareholders

HK\$M

+78%

Overall profit continues its healthy growth trend, underpinned by positive contributions from Power Assets' geographically diversified investments around the world.

■ Operations Outside Hong Kong
■ Hong Kong Operations

+44%

Dividend levels have once again been maintained to reward long-term shareholders for their support and loyalty, despite challenging economic conditions prevailing across all the Group's markets of operation.

Dividends Per Share

HK\$

+78%

The Group's cautious growth strategy, leading to its first investment in continental Europe and strategic capital expenditure projects to improve the value and performance of its existing companies, resulted in a continued increase in overall assets.
