

HK Electric Investments, constituted in January 2014, is the first fixed single investment trust in Hong Kong focusing purely on the energy sector. Our Share Stapled Units, issued by the trust and HK Electric Investments Limited (collectively known as “HKEI”), are listed on the Main Board of the Hong Kong Stock Exchange. Our trust is structured to enable us to maintain a single-minded focus on delivering stable distributions to holders of our Share Stapled Units, while ensuring we have the potential for sustainable long-term growth.

Our main operating company, HK Electric, is a vertically integrated power utility responsible for the generation, transmission, distribution and supply of electricity to more than 570,000 customers in Hong Kong. Through HK Electric, we have a heritage of powering Hong Kong’s economic growth for over 125 years, investing in the most appropriate technologies and fuels to support the provision of affordable, safe, reliable and clean electricity to both businesses and residential communities.

We are committed to continuing HK Electric’s long tradition of community engagement and support for the underprivileged, and to remaining a positive and responsible member of the Hong Kong community.

Certainty Underpinning a Clean Energy Future

The 2017 Annual Report cover is a visual statement of HKEI’s vision and commitment to Hong Kong’s clean energy future.

HKEI has long served as Hong Kong’s trusted partner, with its solid, reliable operations attracting world class institutions to make the city their base.

Today, Asia’s World City seeks to demonstrate to the world that progress can be both smart and sustainable. With the signing of the new Scheme of Control Agreement, HKEI too is making necessary investments to achieve this ideal and showcase Hong Kong as a beacon of the future.
