DIRECTOR'S STATEMENT 董事報告書

The board (the "Board") of directors (the "Directors") of Aceso Life Science Group Limited (the "Company") is pleased to present the shareholders of the Company (the "Shareholders") the annual results of the Company and its subsidiaries (the "Group") for the year ended 31 March 2023 (the "Year").

After three years, the world has finally recovered from the pandemic and moved towards the "post-pandemic era". However, the global economy still faced many challenges, including the ongoing Russian-Ukraine war, geopolitical tensions, high global inflation and interest rate, which also had a certain impact on global economic activities. Among this complicated external environment, the Group has adopted a sound financial policy, and actively explored new development opportunities.

We expected the Year 2023 market conditions to be similar to last year. Although the global and local economic and business environment is still affected by the uncertainties, the Group will continue to create value for shareholders and seize opportunities, continue to optimize its business portfolio, and get ready for new investment opportunities.

In terms of the existing construction machinery business, due to the relatively stable undertaking of government infrastructure projects, the Group managed to record an increase in the (i) sales of construction machinery and spare parts, and (ii) rental income generated from construction machinery during the Year. The occupancy rate for the rental machineries was approximately 90%.

For the financial services business, we shall continue our business expansion with a cautious and positive attitude. The Group is confident in the prospects of the financial markets in Hong Kong and the Mainland China, and would like to increase its presence in the financial markets by either organic growth or working with reputable partners.

For our investment property in the United Kingdom (the "UK"), 55 Mark Lane, the rental income is steady through the Year. The Group does not foresee significant fluctuation in rental income in Year 2023.

Finally, on behalf of the Board, I would like to express my sincere gratitude to all the Shareholders for their full support, and appreciate the directors, the management and the staff for their valuable contributions to the Group, which shall strive to streamline its existing businesses and to explore new business opportunities in order to create returns for Shareholders.

Mr. Fok Chi Tak Executive Director

Hong Kong, 28 June 2023

Amid major economies gradually resumed economic activities among the post-pandemic era, the global economy was still affected by the Russia-Ukraine War, heightened geo-political tension, high global inflation and interest rate. The global and Hong Kong economy have remained vulnerable as economic recovery was uneven in different sectors. The Group remained resilient and focused on its existing businesses.

Though operations of the construction industry in Hong Kong have been affected as a consequence of COVID-19, due to the relatively stable undertaking of government infrastructure projects, such as the Mobile Cabin Hospital (方艙 醫院) and the 3rd runway of the Hong Kong International Airport, the Group managed to record an increase in the i) sales of construction machinery and spare parts, and ii) rental income generated from construction machinery during the Year. - Assessing the financial information of the associates;

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA, accounting principles generally accepted in Hong Kong and the applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of investment properties, financial assets at FVTOCI, financial assets at FVTPL and financial liabilities at FVTPL which is carried at its fair value. The consolidated financial statements are presented in Hong Kong Dollars ("HK\$") and rounded to the nearest million ("million"), unless otherwise stated.

The preparation of the consolidated financial statements in conformity with HKFRSs requires the use of certain key assumptions and estimates. It also requires the directors of the Company to exercise their judgements in the process of applying the accounting policies. The areas involving critical judgements and areas where assumptions and estimates are significant to these consolidated financial statements, are disclosed in note 4.

The significant accounting policies applied in the preparation of the consolidated financial statements are set out below.

Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 March. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties, to determine whether it has control. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date the control ceases.

3. 主要會計政策

於編製綜合財務報表時應用之重大會計政 策列載如下。

綜合入賬

綜合財務報表包括本公司及其附屬公司截 至三月三十一日之財務報表。附屬公司指 本集團擁有控制權之實體。當本集團參與 實體業務而對其可變回報承擔風險或享有 可變回報之權利,且能夠通過其對該實體 之權力影響該等回報時,則本集團控制該 實體。當本集團之現有權利賦予其目前掌 控有關業務(即大幅影響實體回報之業務) 之能力時,則本集團對該實體擁有權力。

For the year ended 31 March 2023 截至二零二三年三月三十一日止年度

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Consolidation (Continued)

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill relating to that subsidiary and any related accumulated foreign currency translation reserve.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Noncontrolling interests are presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e. transactions with owners in their capacity as owners). The carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

3. 主要會計政策(績)

綜合入賬(續)

引致喪失控制權之附屬公司出售所產生之 收益或虧損指以下兩項之差額:(i)銷售代 價之公平值加上該附屬公司所保留之任何 投資之公平值,及(ii)本公司分佔該附屬公 司資產淨值加上與該附屬公司有關之任何 剩餘商譽及任何相關之累計外匯換算儲 備。

集團內公司間之交易、結餘及未變現溢利 予以對銷。未變現虧損亦予以對銷,除非 交易提供所轉讓資產減值之證據。如有需 要,附屬公司之會計政策已作出變動,以 確保與本集團所採納政策貫徹一致。

非控股權益是指並非由本公司直接或間接 擁有之附屬公司權益。非控股權益在綜合 財務狀況表及綜合權益變動表之權益項目 中列示。非控股權益於綜合損益及其他全 面收益表呈列為本公司非控股股東及擁有 人之間之年內損益及全面收益總額分配。

損益及其他全面收益之各項目歸屬予本公 司擁有人及非控股股東,即使此導致非控 股權益出現虧絀結餘。

本公司於附屬公司之所有權之變動(不會 導致失去控制權)作為股本交易入賬(即與 擁有人以彼等之擁有人身份進行交易)。 控股及非控股權益之賬面值經調整以反映 其於附屬公司相關權益之變動。非控股權 益被調整之金額與已付或已收代價公平值 之間之任何差額須直接於權益內確認並歸 屬於本公司擁有人。

For the year ended 31 March 2023 截至二零二三年三月三十一日止年度

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Associates

Associates are entities over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of an entity but is not control or joint control over those policies. The existence and effect of potential voting rights that are currently exercisable or convertible, including potential voting rights held by other entities, are considered when assessing whether the Group has significant influence. In assessing whether a potential voting right contributes to significant influence, the holder's intention and financial ability to exercise or convert that right is not considered.

Investment in an associate is accounted for in the consolidated financial statements by the equity method and is initially recognised at cost. Identifiable assets and liabilities of the associate in an acquisition are measured at their fair values at the acquisition date. The excess of the cost of acquisition over the Group's share of the net fair value of the associate's identifiable assets and liabilities is recorded as goodwill. The goodwill is included in the carrying amount of the investment and is tested for impairment together with the investment at the end of each reporting period when there is objective evidence that the investment is impaired. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss.

The Group's share of an associate's post-acquisition profits or losses is recognised in consolidated profit or loss, and its share of the postacquisition movements in reserves is recognised in the consolidated reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The gain or loss on the disposal of an associate that results in a loss of significant influence represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that associate and (ii) the Group's share of the net assets of that associate plus any remaining goodwill relating to that associate and any related accumulated foreign currency translation reserve. If an investment in an associate becomes an investment in a joint venture, the Group continues to apply the equity method and does not remeasure the retained interest.

3. 主要會計政策(續)

聯營公司

聯營公司為本集團對其有重大影響力而無 控制權或共同控制權之實體。重大影響力 乃於有關實體之財務及營運政策之決策擁 有參與權而非控制或共同控制該等政策。 包括其他實體持有之潛在投票權在內之現 時可行使或可兑換之潛在投票權之存在及 影響將於評估本集團是否擁有重大影響力時,不會考慮持有者是否有意 及在財務上是否有能力行使或兑換該項權 利。

於聯營公司之投資乃採用權益法於綜合財 務報表列賬,並按成本作出初始確認。所 收購聯營公司之可識別資產及負債乃按其 於收購當日之公平值計算。倘收購成本損 出本集團分佔聯營公司之可識別資產及負 債之公平值淨值,則差額將以商譽列入 投資之賬面值,並在有 額 證據顯示投資出現減值時連同於各報 期末之投資一併進入負債之公平值淨值高於 收購成本,則有關差額將於綜合損益內確 認。

本集團應佔聯營公司之收購後損益於綜合 損益內確認,而其應佔之收購後儲備變動 則於綜合儲備內確認。累計收購後鬱動於 投資之賬面值內調整。倘本集團應佔聯營 公司之虧損等於或超過其於該聯營公司之 權益(包括任何其他無抵押應收款項),本 集團不會確認進一步虧損,惟其須代表聯 營公司承擔責任或付款除外。倘聯營公司 其後錄得溢利,則本集團僅於其應佔溢利 與未確認之應佔虧損相等後,方會繼續確 認其應佔溢利。

出售一間聯營公司導致失去重大影響力之 收益或虧損指(i)出售代價之公平值加上該 聯營公司保留任何投資之公平值,及(ii)本 集團應佔該聯營公司資產淨值加上有關該 聯營公司之任何剩餘商譽及任何有關累計 外幣換算儲備間之差額。倘於聯營公司之 投資成為於合營公司之投資,則本集團繼 續應用權益法且不會重新計量保留權益。

Associates (Continued)

Unrealised profits on transactions between the Group and its associates are eliminated to the extent of the Group's interests in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Joint arrangements

A joint arrangement is an arrangement of which two or more parties have joint control. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control. Relevant activities are activities that significantly affect the returns of the arrangement. When assessing joint control, the Group considers its potential voting rights as well as potential voting rights held by other parties, to determine whether it has joint control. A potential voting right is considered only if the holder has the practical ability to exercise that right.

A joint arrangement is either a joint operation or a joint venture. A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement.

In relation to its interest in a joint operation, the Group recognises in its consolidated financial statements, its assets, including its share of any assets held jointly; its liabilities, including its share of any liabilities incurred jointly; its revenue from the sale of its share of the output arising from the joint operation; its share of the revenue from the sale of the output by the joint operation; and its expenses, including its share of any expenses incurred jointly, in accordance with the HKFRSs applicable to the particular assets, liabilities, revenues and expenses.

3. SIGNIFICANT ACCOUNTING POLICIES(CONTINUED)

Joint arrangements (Continued)

Investment in a joint venture is accounted for in the consolidated financial statements by the equity method and is initially recognised at cost. Identifiable assets and liabilities of the joint venture in an acquisition are measured at their fair values at the acquisition date. The excess of the cost of acquisition over the Group's share of the net fair value of the joint venture's identifiable assets and liabilities is recorded as goodwill. The goodwill is included in the carrying amount of the investment and is tested for impairment together with the investment at the end of each reporting period when there is objective evidence that the investment is impaired. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss.

The Group's share of a joint venture's post-acquisition profits or losses is recognised in consolidated profit or loss, and its share of the postacquisition movements in reserves is recognised in the consolidated reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint venture. If the joint venture subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The gain or loss on the disposal of a joint venture that results in a loss of joint control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that joint venture and (ii) the Group's share of the net assets of that joint venture plus any remaining goodwill relating to that joint venture and any related accumulated foreign currency translation reserve. If an investment in a joint venture becomes an investment in an associate, the Group continues to apply the equity method and does not remeasure the retained interest.

Unrealised profits on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interests in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the group entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in HK\$, which is the Company's functional currency and the Group's presentation currency.

(b) Transactions and balances in each entity's financial statements

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary items that are measured at fair values in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

Foreign currency translation (Continued)

(c) Translation on consolidation

The results and financial position of all the group entities that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- (iii) All resulting exchange differences are recognised in the foreign currency translation reserve.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities and of borrowings are recognised in the foreign currency translation reserve. When a foreign operation is sold, such exchange differences are recognised in consolidated profit or loss as part of the gain or loss on disposal.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

Property, plant and equipment

Land and buildings comprise mainly factories and offices. Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The principal annual rates are as follows:

Leasehold land and buildings	Over the lease terms
Leasehold improvements	10% to 20%
Furniture, fixtures and office equipment	20% to 25%
Motor vehicles	10% to 25%
Machinery	10%
Yacht	5%

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

Investment properties

Investment properties are buildings held to earn rentals and/or for capital appreciation. An investment property is measured initially at its cost including all direct costs attributable to the property.

After initial recognition, the investment property is stated at its fair value based on valuation by an external independent valuer. Gains or losses arising from changes in fair value of the investment property are recognised in profit or loss for the period in which they arise.

The gain or loss on disposal of an investment property is the difference between the net sales proceeds and the carrying amount of the property, and is recognised in profit or loss.

Leases

The Group as lessee

Leases are recognised as right-of-use assets and corresponding lease liabilities when the leased assets are available for use by the Group. Right-of-use assets are stated at cost less accumulated depreciation and impairment losses. Depreciation of right-of-use assets is calculated at rates to write off their cost over the shorter of the asset's useful life and the lease term on a straight-line basis. The principal annual rate is as follows:

Land and buildings	Over the lease term
Machinery	Over the lease term
Motor vehicles	Over the lease term

Right-of-use assets are measured at cost comprising the amount of the initial measurement of the lease liabilities, lease payments prepaid, initial direct costs and the restoration costs. Lease liabilities include the net present value of the lease payments discounted using the interest rate implicit in the lease if that rate can be determined, or otherwise the Group's incremental borrowing rate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the lease liability.

Payments associated with short-term leases and leases of low-value assets are recognised as expenses in profit or loss on a straight-line basis over the lease terms. Short-term leases are leases with an initial lease term of 12 months or less. Low-value assets are assets of value below US\$5, 000 (approximately equivalent to HK\$38,000).

Properties under development

Properties for sale under development are stated at the lower of cost and net realisable value. Costs include acquisition costs, prepaid land lease payments, construction costs, borrowing costs capitalised and other direct costs attributable to such properties. Net realisable value is determined by reference to sale proceeds received after the reporting period less selling expenses, or by estimates based on prevailing market condition. On completion, the properties are reclassified to properties held for sale at the then carrying amount.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average basis. The cost of finished goods and work in progress comprises raw materials, direct labour and an appropriate proportion of all production overhead expenditure, and where appropriate, subcontracting charges. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Financial assets are derecognised when the contractual rights to receive cash flows from the assets expire; the Group transfers substantially all the risks and rewards of ownership of the assets; or the Group neither transfers nor retains substantially all the risks and rewards of ownership of the assets but has not retained control on the assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid is recognised in profit or loss.

Financial assets

Financial assets are recognised and derecognised on a trade date basis where the purchase or sale of an asset is under a contract whose terms require delivery of the asset within the timeframe established by the market concerned, and are initially recognised at fair value, plus directly attributable transaction costs except in the case of investments at fair value through profit or loss. Transaction costs directly attributable to the acquisition of investments at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets of the Group are classified under the following categories:

- Financial assets at amortised cost
- Equity investments at fair value through other comprehensive income; and
- Investments at fair value through profit or loss.

Financial assets (Continued)

(i) Financial assets at amortised cost

Financial assets (including trade, loan and other receivables) are classified under this category if they satisfy both of the following conditions:

- the assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

They are subsequently measured at amortised cost using the effective interest method less loss allowance for expected credit losses.

(ii) Equity investments at fair value through other comprehensive income

On initial recognition, the Group can make an irrevocable election (on an instrument-by- instrument basis) to designate investments in equity instruments that are not held for trading as at fair value through other comprehensive income.

Equity investments at fair value through other comprehensive income are subsequently measured at fair value with gains and losses arising from changes in fair values recognised in other comprehensive income and accumulated in the equity investment revaluation reserve. On derecognition of an investment, the cumulative gains or losses previously accumulated in the equity investment revaluation reserve are not reclassified to profit or loss.

Dividends on these investments are recognised in profit or loss, unless the dividends clearly represent a recovery of part of the cost of the investment.

(iii) Investments at fair value through profit or loss

Financial assets are classified under this category if they do not meet the conditions to be measured at amortised cost and the conditions of debt investments at fair value through other comprehensive income unless the Group designates an equity investment that is not held for trading as at fair value through other comprehensive income on initial recognition.

Investments at fair value through profit or loss are subsequently measured at fair value with any gains or losses arising from changes in fair values recognised in profit or loss. The fair value gains or losses recognised in profit or loss are net of any interest income and dividend income. Interest income and dividend income are recognised in profit or loss.

Loss allowances for expected credit losses

The Group recognises loss allowances for expected credit losses on financial assets at amortised cost and lease receivables. Expected credit losses are the weighted average of credit losses with the respective risks of a default occurring as the weights.

At the end of each reporting period, the Group measures the loss allowance for a financial instrument at an amount equal to the expected credit losses that result from all possible default events over the expected life of that financial instrument ("lifetime expected credit losses") for trade receivables or if the credit risk on that financial instrument has increased significantly since initial recognition.

If, at the end of the reporting period, the credit risk on a financial instrument (other than trade receivables) has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to the portion of lifetime expected credit losses that represents the expected credit losses that result from default events on that financial instrument that are possible within 12 months after the reporting period.

The amount of expected credit losses or reversal to adjust the loss allowance at the end of the reporting period to the required amount is recognised in profit or loss as an impairment gain or loss.

預期信貸虧損之虧損撥備

本集團按攤銷成本及租賃應收款項確認金 融資產之預期信貸虧損之虧損撥備。預期 信貸虧損乃加權平均信貸虧損,並以發生 相關違約之風險作為加權數值。

於各報告期末或倘金融工具之信用風險自 初始確認以來大幅增加,本集團就貿易應 收款項,按相等於所有可能發生違約事件 之預期信用虧損除以該金融工具之預計年 期([全期預期信用虧損」)之金額,計量金 融工具之虧損撥備。

倘於報告期末金融工具(貿易應收款項除外)之信用風險自初始確認以來並無大幅增加,則本集團按相等於反映該金融工具可能於報告期間後十二個月內發生之違約事件所引致預期信用虧損之全期預期信用虧損部分之金額計量金融工具之虧損撥備。

預期信用虧損金額或旨在將報告期末之虧 損撥備調整至所需金額而撥回之金額於損 益中確認為減值收益或虧損。

Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents represent cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term highly liquid investments which are readily convertible into known amounts of cash and subject to an insignificant risk of change in value. Bank overdrafts which are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents.

Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under HKFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Where any group company purchases the Company's share (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders until the shares are cancelled or reissued. Where such ordinary shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

Financial liabilities at FVTPL

Financial liabilities at FVTPL are initially recognised and subsequently measured at fair value with any gains or losses arising from changes in fair values recognised in profit or loss.

Revenue from contracts with customers

Revenue is measured based on the consideration specified in a contract with a customer with reference to the customary business practices and excludes amounts collected on behalf of third parties. For a contract where the period between the payment by the customer and the transfer of the promised product or service exceeds one year, the consideration is adjusted for the effect of a significant financing component.

The Group recognises revenue when it satisfies a performance obligation by transferring control over a product or service to a customer. Depending on the terms of a contract and the laws that apply to that contract, a performance obligation can be satisfied over time or at a point in time. A performance obligation is satisfied over time if:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance;
- the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If a performance obligation is satisfied over time, revenue is recognised by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the product or service.

Other income

Interest income is recognised on a time-proportion basis using the effective interest method.

Rental income is recognised on a straight-line basis over the lease term.

Employee benefits

(a) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(b) Pension obligations

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The Group also participates in a defined contribution retirement scheme organised by the government in the PRC. The Group is required to contribute a specific percentage of the payroll of its employees to the retirement scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the retirement scheme. No forfeited contributions may be used by the employers to reduce the existing level of contributions.

Share-based payments

Equity-settled share-based payment transactions

The Group issues equity-settled share-based payments to certain directors and employees. Equity-settled share-based payments are measured at the fair value (excluding the effect of non market-based vesting conditions) of the equity instruments at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non marketbased vesting conditions.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation is determined by applying a capitalisation rate to the expenditures on that asset. The capitalisation rate is the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants relating to income are deferred and recognised in profit or loss over the period to match them with the costs they are intended to compensate.

Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Government grants relating to the purchase of assets are deducted from the carrying amount of the assets. The grant is recognised in profit or loss over the life of a depreciable asset by way of a reduced depreciation charge.

Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Taxation (Continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model of the Group whose business objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. If the presumption is rebutted, deferred tax for such investment properties are measured based on the expected manner as to how the properties will be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

遞延税項資產及負債之計量反映按本集團 預計於報告期末收回或清償其資產及負債 之賬面值之税務後果。

就計量使用公平值模式計量之投資物業產 生之遞延税項而言,該等物業的賬面值乃 假設可透過出售收回(除該項假設被推翻 外)。倘投資物業可予折舊,且按目的為 隨時間消耗(而非出售)投資物業所含絕大 部分經濟利益之業務模式持有,該項假設 則可以被推翻。倘有關假設被推翻,該等 投資物業之遞延税項會根據該等物業之預 期收回方式)予以計量。

Impairment of assets

Intangible assets that have an indefinite useful life or not yet available for use are reviewed annually for impairment and are reviewed for impairment whenever events or changes in circumstances indicate the carrying amount may not be recoverable.

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and other intangible assets except goodwill, deferred tax assets, inventories and receivables to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of any impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of cash-generating units ("CGU") to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset or CGU is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset or CGU in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

資產減值

具有無限使用年期或尚未可供使用之無形 資產會每年進行減值檢討,並於發生任何 事件或情況有變顯示未必能夠收回賬面值 時檢討是否減值。

於各報告期末,本集團會對其有形及其他 無形資產(商譽、遞延税項資產、存貨及 應收款項除外)之賬面值進行檢討,以釐 定有否任何跡象顯示該等資產出現減值虧 損。倘出現任有關跡象,則會估計該項資 產之可收回金額以釐定任何減值虧損之程 度。倘未能估計個別資產之可收回金額, 則本集團會估計該項資產所屬之現金產生 單位(「現金產生單位」)之可收回金額。

可收回金額為公平值減銷售成本及其使用 價值兩者中之較高者。評估使用價值時, 估計未來現金流量以除税前貼現率貼現至 彼等之現值,而該貼現率反映當時市場對 金錢時間價值之評估及該項資產之特有風 險。

倘資產或現金產生單位之可收回金額估計 低於其賬面值,則將該資產或現金產生單 位之賬面值減低至其可收回金額。減值虧 損會於損益內即時確認,除非有關資產按 重估價值列賬,在該情況下,減值虧損則 視作重估減少處理。

倘減值虧損於其後撥回,則將該資產或現 金產生單位之賬面值增加至其重新估算之 可收回金額,惟增加後之賬面值不能超過 該資產或現金產生單位過往年度已確認為 無減值虧損之賬面值(扣除攤銷或折舊)。 減值虧損之撥回會於損益內即時確認,除 非有關資產按重估價值列賬,在該情況 下,減值虧損撥回則視作重估增加處理。

Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes when material.

In the process of applying the accounting policies, the directors have made the following judgements that have the most significant effect on the amounts recognised in the consolidated financial statements.

(a) Consolidation of entity of less than 50% equity interest

Although the Group owns less than 50% of the equity interest in Hao Tian International Construction Investment Group Limited ("HTICI"), HTICI is treated as a subsidiary because the directors consider that the Group has de facto control of HTICI. The Group is the majority shareholder of HTICI with a 47.57% (2022: 47.13%) equity interest, The second, third and fourth substantial shareholders hold 11.74% (2022: 13.23%), 7.62% (2022: 9.97%) and less than 5% (2022: 6.02%) equity interest of HTICI respectively. All other shareholders individually own less than 5% of equity interest of HTICI. There is no history of other shareholders forming a group to exercise their votes collectively.

(b) Accounted for 49% equity interest in Kingdom Future Limited ("Kingdom Future") as fair value through profit or loss

The Group and the controlling shareholder of Kingdom Future hold 49% and 51% equity interest of Kingdom Future respectively. The Group is not entitle to appoint director of Kingdom Future and is not able to vote against the controlling shareholder of Kingdom Future. Hence, the directors of the Company considered that the Group has no significant influence over Kingdom Future and it is more appropriate to account for Kingdom Future as financial assets at fair value through profit or loss.

4. 關鍵判斷及主要估計

應用會計政策時之關鍵判斷

於應用會計政策過程中,董事已作出以下 對綜合財務報表內所確認金額具有重大影 響的判斷。

(a) 合併少於50%股權之實體

儘管本集團於昊天國際建設投資集 團有限公司(「昊天國際建設投資」)擁 有少於50%股權, 昊天國際建設投資 被視為附屬公司,原因為董事認為 本集團實際上對昊天國際建設投資 擁有控制權。本集團為昊天國際建 設投資之主要股東,擁有47.57%(二 零二二年:47.13%)股權,第二、第 三及第四名主要股東分別持有昊天 國際建設投資11.74%(二零二二年: 13.23%)、7.62%(二零二二年:9.97%) 及少於5%(二零二二年:6.02%)股 權。所有其他股東個別擁有昊天國 際建設投資少於5%股權。過往未曾 有其他股東組成集團共同行使投票 權。

(b) 入賬為以公平值計量且其變化計入 損益之帝暉有限公司(「帝暉」)49%股 權

本集團及帝暉之控股股東分別持有 帝暉之49%及51%股權。本集團無權 委任帝暉之董事,亦未能投票反對 帝暉之控股股東。因此,本公司董 事認為本集團對帝暉並無重大影響 力,故將帝暉入賬為以公平值計量 且其變化計入損益之金融資產更為 合適。

4. CRITICAL JUDGEMENTS AND KEY ESTIMATION (CONTINUED)

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

(a) Impairment of property, plant and equipment, intangible assets and investments accounted for using equity method

Assets that have an indefinite useful life are tested annually for impairment; or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The recoverable amounts have been determined based on the higher of value-in-use calculations or fair value less costs of disposal. These calculations require the use of judgements and estimates. Management judgement is required in the area of asset impairment particularly in assessing: (i) whether an event has occurred that may indicate that the related asset values may not be recoverable; (ii) whether the carrying value of an asset can be supported by the recoverable amount, being the higher of fair value less costs of disposal and net present value of future cash flows which are estimated based upon the continued use of the asset in the business; and (iii) the appropriate key assumptions to be applied in preparing cash flow projections including whether these cash flow projections are discounted using an appropriate rate. Changing the assumptions selected by management in assessing impairment, including the discount rates or the growth rate assumptions in the cash flow projections, could materially affect the net present value used in the impairment test and as a result affect the Group's financial condition and results of operations.

4. 關鍵判斷及主要估計(續)

估計不明朗因素之主要來源

有關日後之主要假設及於報告期末估計不 明朗因素之其他主要來源(擁有可導致下 一個財政年度之資產與負債賬面值出現大 幅調整之重大風險)載於下文。

(a) 物業、廠房及設備、無形資產及按 權益法入賬之投資減值

具有無限可使用年期之資產每年進 行減值測試;或當有事件出現或情 況改變顯示其可能出現減值時進行 更頻密之減值測試。當有事件出現 或情況改變顯示賬面值可能無法收 回時, 會對其他資產進行減值測 試。可收回金額乃根據使用價值計 算或公平值減出售成本之較高者釐 定。該等計算須使用判斷及估計。 資產減值方面需要管理層作出判 斷,尤其是評估:(i)是否已發生可能 顯示有關資產價值可能無法收回之 事件;(ii)可收回金額(即公平值減出 售成本與根據於業務中持續使用資 產而估計之未來現金流量淨現值之 較高者)可否支持資產賬面值;及(iii) 編製現金流量預測所用之適當主要 假設,包括該等現金流量預測是否 以適當利率貼現。管理層評估減值 時選用之假設(包括現金流量預測所 用之貼現率或增長率假設)之變動可 能對減值測試所用之淨現值造成重 大影響,因而影響本集團之財務狀 況及經營業績。

4. CRITICAL JUDGEMENTS AND KEY ESTIMATION (CONTINUED)

Key sources of estimation uncertainty (Continued)

(b) Impairment of financial assets

The Group estimates the allowances for expected credit loss for its trade receivables, finance lease receivables, loan receivables, corporate note receivables and other receivables. This requires the use of estimates and judgements which are based on the Group's historical credit loss experience, possibility of default adjusted for factors that are specific to the debtors, and an assessment of both the current and forecast general economic conditions at the end of reporting period. Where the estimation is different from the original estimate, such difference will affect the carrying amounts of the financial assets and will affect the result of allowance for loss recognised and results of operations.

(c) Fair value of other financial instruments

The fair values of financial assets and liabilities at FVTPL or FVTOCI were determined by using various valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions, including the discount rates, which are mainly based on market conditions existing at the end of each reporting period. Changes in assumptions used could materially affect the fair value of these balances and as a result affect the Group's financial condition and results of operation.

(d) Fair value of investment properties

The Group appointed an independent professional valuer to assess the fair values of the investment properties. In determining the fair values, the valuer has utilised a method of valuation which involves certain estimates. The directors have exercised their judgement and are satisfied that the method of valuation is reflective of the current market conditions.

(d) 投資物業之公平值

本集團委任獨立專業估值師評估投 資物業公平值。於釐定公平值時, 估值師已使用涉及若干估計之估值 方法。董事已行使其判斷,並信納 估值方法能反映當前市況。

4. CRITICAL JUDGEMENTS AND KEY ESTIMATION (CONTINUED)

Key sources of estimation uncertainty (Continued)

(e) Property, plant and equipment and depreciation

The Group determines the estimated useful lives, residual values and related depreciation charges for its property, plant and equipment. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment of similar nature and functions. The Group will revise the depreciation charge where useful lives and residual values are different to those previously estimated, or it will write-off or writedown technically obsolete or non-strategic assets that have been abandoned or sold.

(f) Measurement of right-of-use assets and lease liabilities

The Group estimated the right-of-use assets and lease liabilities based on the terms of the rental agreements and the Group's incremental borrowing rate. Estimates are required in determining the Group's incremental borrowing rate.

(f) 使用權資產及租賃負債計量

5. FINANCIAL AND CAPITAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign currency risk, price risk, interest rate risk, credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Foreign currency risk

The Group has minimal exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in the functional currencies of the Group entities. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

(b) Price risk

The Group's investments at fair value through profit or loss and equity investments at fair value through other comprehensive income are measured at fair value at the end of each reporting period. Therefore, the Group is exposed to equity security price risk. The directors manage this exposure by maintaining a portfolio of investments with difference risk profiles.

5. 金融及資本風險管理

本集團之業務承受各種財務風險:利率風 險、外幣風險、價格風險、信貸風險及流 動資金風險。本集團之整體風險管理計劃 針對金融市場之不穩定性,著眼於盡量減 低對本集團財務表現造成之潛在不利影 響。

(a) **外幣風險**

由於本集團大部分業務交易、資產 及負債主要以本集團實體之功能貨 幣定值,故其面臨之外幣風險極 低。本集團在外幣交易、資產及負 債方面,現時沒有外幣對沖政策。 本集團將密切監察其外幣風險及如 有需要,將考慮對沖重大之外幣風 險。

(b) 價格風險

本集團以公平值計量且其變化計入 損益之投資及以公平值計量且其變 化計入其他全面收益之股本投資及 按各報告期末之公平值計量。因 此,本集團承受股本證券價格風 險。董事透過維持具有不同風險的 投資組合管理有關風險。

The sensitivity analysis below has been determined based on the exposure to listed equity securities price risks at the end of the reporting period. The sensitivity analysis included those financial assets at FVTPL and financial assets at FVTOCI. (c) Interest rate risk

The Group's certain bank deposits and borrowings bear interests at fixed interest rates and therefore are subject to fair value interest rate risks.

The Group's exposure to interest-rate risk arises from its bank deposits and bank borrowings. These deposits and borrowings bear interests at variable rates varied with the then prevailing market condition.

The sensitivity analysis below demonstrates the effect of the interest differences by a 0.5% change on floating-rate borrowings and bank and pledged deposits, assuming all other variables were held constant.

(c) 利率風險

本集團的若干銀行存款及借貸以固 定利率計息,因此面對公平值利率 風險。

本集團面臨之利率風險來自其銀行 存款及銀行借貸。該等存款及借貸 按當時現行市況之浮動利率計息。

The carrying amount of the trade and other receivables, loan receivables, finance lease receivables, corporate note receivables, deposits and bank balances included in the consolidated statement of financial position represents the Group's maximum exposure to credit risk in relation to the Group's financial assets.

As at 31 March 2023, the Group has concentration of credit risk in respect of its loan receivables and corporate note receivables. The number of counterparties from these receivables are as follows:

(d) 信貸風險

計入綜合財務狀況表內之貿易及其 他應收款項、應收貸款、融資租賃 應收款項、應收企業票據、訂金及 銀行結餘之賬面值為本集團就其金 融資產面臨的最高信貸風險。

於二零二三年三月三十一日,本集 團就其應收貸款及應收企業票據面 臨信貸集中風險。該等應收款項之 交易對方數目如下:

		2023 二零二三年	2022 二零二二年
Loan receivables	應收貸款	16	26
Corporate note receivables	應收企業票據	5	4

It has policies in place to ensure that sales are made to customers with an appropriate credit history.

The credit risk on bank balances is limited because the counterparties are banks with high credit- ratings assigned by international credit-rating agencies.

The credit risk on investments is limited because the counterparty is a well-established securities broker firm in Hong Kong.

本集團已有既定政策確保向具有良好信貸記錄的客戶銷售產品。

由於交易對手均為由國際信貸評級 機構評定為高信貸評級的銀行,故 有關銀行結餘的信貸風險屬有限。

由於交易對手為一間聲譽良好的香 港證券經紀行,故有關投資信貸風 險有限。

5. FINANCIAL AND CAPITAL RISK MANAGEMENT (CONTINUED)

(d) Credit risk (Continued)

The Group considers whether there has been a significant increase in credit risk of financial assets on an ongoing basis throughout each reporting period by comparing the risk of a default occurring as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding- looking information. Especially the following information is used:

- internal credit rating;
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations;
- actual or expected significant changes in the operating results of the borrower;
- significant changes in the value of the collateral or in the quality of guarantees or credit enhancements; and
- significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of borrower.

A significant increase in credit risk is presumed if a debtor is more than 30 days past due in making a contractual payment. A default on a financial asset is when the counterparty fails to make contractual payments within 90 days of when they fall due.

5. 金融及資本風險管理(續)

(d) 信貸風險(續)

本集團透過比較於報告日期發生違約的風險及於初始確認日期的違約 風險,持續考慮於各報告期間金融 資產信貸風險有否顯著增加。其考 慮可得的合理有據的前瞻性資料。 尤其使用以下資料:

- 一 內部信貸評級;
- 預期導致借款人履行其責任的 能力出現重大變動的業務、財 務或經濟狀況的實際或預期重 大不利變動;
- 借款人經營業績的實際或預期 重大變動;
- 抵押品價值或擔保或信貸提升
 措施的質素出現重大變動;及
- 借款人預期表現及行為的重大
 變動,包括借款人的付款狀況
 變動。

倘涉及合約付款的債務人逾期超過30 日,則假定信貸風險顯著增加。當 交易對手無法於合約付款到期90日內 支付款項,則金融資產出現違約。

For the year ended 31 March 2023 截至二零二三年三月三十一日止年度

5. FINANCIAL AND CAPITAL RISK MANAGEMENT (CONTINUED)

(d) Credit risk (Continued)

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. The Group normally categorises a receivable for write off when a debtor fails to make contractual payments greater than 365 days past due. Where receivables have been written off, the Group, if practicable and economical, continues to engage in enforcement activity to attempt to recover the receivable due.

The Group uses two categories for non-trade receivables which reflect their credit risk and how the loss provision is determined for each of the categories. In calculating the expected credit loss rates, the Group considers historical loss rates for each category and adjusts for forward looking data.

5. 金融及資本風險管理(續)

(d) 信貸風險(續)

金融資產於合理預期無法收回(例如 債務人無法與本集團達成還款計劃) 時撇銷。當債務人未能於逾期365日 後支付合約付款,本集團通常會撇 銷有關貸款或應收款項。倘貸款或 應收款項被撇銷,則本集團(於實際 可行及符合經濟效益的情況下)繼續 採取強制執行活動試圖收回到期應 收款項。

本集團使用兩個非貿易應收款項類 別,反映該等應收款項之信貸風險 及就各類別釐定虧損撥備之方式。 於計算預期信貸虧損率時,本集團 考慮各類別之歷史虧損率,並就前 瞻性數據作出調整。

(g) Fair values

The carrying amounts of the Group's financial assets and financial liabilities as reflected in the consolidated statement of financial position approximate their respective fair values.

6. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs: unobservable inputs for the asset or liability.

The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.

19. INTANGIBLE ASSETS (CONTINUED)

Notes:

(a) Brand name and customer list

The amount arose on the acquisitions of crawler crane business in HTICI in February 2017.

The Group's brand name of HK\$167 million (2022: HK\$154 million) at 31 March 2023 is assessed as having indefinite useful life because there is no time limit that the Group can use the brand name.

The Group carried out reviews of the recoverable amount of its intangible assets in 2023 and 2022 as a result of the change of the markets of the Group's products and services. These assets are used in the Group's rental and sale of construction machinery and spare parts segment. The reviews led to the recognition of a reversal of impairment loss of HK\$13 million (2022: reversal of impairment loss of HK\$12 million), that has been recognised in profit or loss. The recoverable amount of the relevant assets of HK\$167 million (2022: HK\$154 million) has been determined on the basis of value in use using discounted cash flow method (level 3 fair value measurements).

The key assumptions for the discounted cash flow method are those regarding the discount rates, growth rates and budgeted gross margin and revenue during the period. The Group estimates discount rates of 11% (2022: 11%) using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGUs. The growth rates are based on long-term average economic growth rate of the geographical area in which the businesses of the CGUs operate. Budgeted gross margin and revenue are based on past practices and expectations on market development.

The Group prepares cash flow forecasts derived from the most recent financial budgets approved by the directors for the next five years with the residual period using the growth rate of 2.5% (2022: 2.5%). This rate does not exceed the average long-term growth rate for the relevant markets.

附註:

(a) 品牌名稱及客戶清單

該金額自二零一七年二月收購昊天國際 建設投資履帶吊機業務產生。

本集團於二零二三年三月三十一日之 品牌名稱價值為167百萬港元(二零二二 年:154百萬港元)已評定為具無限可使 用年期,原因為本集團享用品牌名稱之 時間並無限制。

由於本集團產品及服務之市場情況惡 化,故本集團曾審閱二零二三年及二零 二二年無形資產之可收回金額。該等資 產用於本集團之建築機械及備用零件租 賃及銷售分部。審閱有關金額導致須於 損益確認減值虧損撥回13百萬港元(二 零二二年:減值撥回2百萬港元)。相關 資產之可收回金額為167百萬港元(二零 二二年:154百萬港元),根據其使用價 值採用貼現現金流量法(第三級公平值計 量)釐定。

現金流量折現法的關鍵假設是關於折現 率、增長率以及期內預算毛利率和收入 的假設。本集團使用反映當前貨幣時間 價值的市場評估和現金產生單位特有風 險的税前利率估計折現率為11%(二零 二二年:11%)。增長率基於現金產生單 位業務經營所在地理區域的長期平均經 濟增長率。預算毛利率和收入基於過去 的業務和對市場發展的期望。

本集團根據董事批准的最近五年財務 預算及剩餘期使用2.5%(二零二二年: 2.5%)的增長率編製現金流量預測。這 增長率不超過相關市場的平均長期增長 率。

For the year ended 31 March 2023 截至二零二三年三月三十一日止年度

19. INTANGIBLE ASSETS (CONTINUED)

Notes: (Continued)

(b) Securities brokerage licenses

The amount arose on the acquisitions of Hao Tian International Securities Limited ("HTIS") in February 2017.

The Group's securities brokerage licenses of HK\$4 million (2022: HK\$4 million) at 31 March 2023 is assessed as having indefinite useful life because th Group can renew the securities brokerage license without substantial costs.

The recoverable amount of HTIS has been determined based on a value in use calculation. The calculation uses cash flow projections based on financial budgets approved by management covering a five-year period with a pre-tax discount rate of 17% (2022: 17%). Cash flow after the five-year period are extrapolated at 3% (2022: 3%) growth rate. Another key assumption for the value in use calculation is the budgeted revenue and gross margin, which is determined based on the unit's past performance and management's expectations for the market development.

(b) 證券經紀牌照

該金額自二零一七年二月收購昊天國際 證券有限公司(「昊天國際證券」)產生。

本集團於二零二三年三月三十一日的 之證券經紀牌照價值為4百萬港元(二零 二二年:4百萬港元)已評定為具無限可 使用年期,原因為本集團可重續證券經 紀牌照而毋須付出大額成本。

吴天國際證券之可收回金額乃根據使用 價值計算釐定。該計算使用以管理層批 准之五年期財務預算為基礎之現金流量 預測,税前貼現率為17%(二零二二年: 17%)。五年期後之現金流量以3%(二零 二二年:3%)之增長率推算。使用價值 計算之另一個關鍵假設為預算收入及毛 利率,乃根據單位之過往表現及管理層 對市場發展之期望釐定。

For loan receivables that are not credit-impaired without significant increase in credit risk since initial recognition ("Stage 1"), ECLs is measured at an amount equal to the portion of lifetime ECLs that result from default events possible within the next 12 months. If a significant increase in credit risk since initial recognition is identified ("Stage 2") but not yet deemed to be credit impaired, ECL is measured based on lifetime ECLs. In general, when loan receivables or its related instalments are overdue by 30 days, there are significant increase in credit risk. In general, loan receivables are considered as default ("Stage 3") when they are overdue by over 90 days.

對於非信貸減值且自初始確認以來信貸 風險並無顯著增加(「第1階段」)之應收貸 款,預期信貸虧損按相等於未來12個月 內可能發生違約事件引致之全期預期信 貸虧損部分之金額計量。倘自初始確認 以來已識別信貸風險顯著增加(「第2階 段」)但未視為已出現信貸虧損計量。一 般而言,倘應收貸款或其相關分期付款 逾期30日,則信貸風險顯著增加。一般 而言,倘應收貸款逾期超過90日,即被 視為違約(「第3階段」)。

The Group holds 51% in this joint venture and the financial results will be consolidated into the financial statements of the Group. In July 2020, JV 1 entered into a JV Agreement with Promethera Biosciences S.A./N.V. ("Promethera Biosciences"), an independent third party which was incorporated under the laws of Belgium, for the formation of a joint venture ("JV 2"), which will have the exclusive right to engage in the development. commercialisation, sell and distribution of cell-based and biological therapies for the treatment of liver diseases, autoimmune diseases and various types of cancer based on the applications and development of contributed intellectual property of Promethera Biosciences in the Asia. At the same time, the Company has conditionally agreed to subscribe for convertible bonds of Promethera Biosciences in the principal amount of up to Euro 10 million (equivalent to approximately HK\$88 million) in two equal tranches. In July 2020, the Group subscribed the first tranche of Euro 5 million (equivalent to approximately HK\$44 million). The Group did not subscribe the second tranche of Euro 5 million convertible bond subscription.

As Promethera Biosciences faced with litigations of claims and failed to obtain sufficient funding to support its research and development activities, by application lodged in January 2021, it requested that a judicial reorganisation procedure be changed by collective agreement of creditors in order to ensure that the continuity of its business is preserved under the supervision of a delegated judge. The reorganisation plan was approved by the Third Chamber of the Court of the Enterprise of the Walloon Brabant in Belgium in March 2021. Included in the reorganisation plan was the reduction of the rights of creditors by 80% or provision for a payment of 20% payable in 5 years (2% per year for the first 4 years and 12% in the fifth year), but with a better fortune clause of up to 100% of the value as soon as the value of Promethera Biosciences exceeds Euro 400 million at the time of its monetisation.
