3 ACCOUNTING POLICIES (Continued)

(b) (Continued)

None of the above new standard and amendments to existing standards is expected to have a significant effect on the condensed consolidated financial statements of the Group.

4 ESTIMATES

The preparation of condensed consolidated interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual consolidated financial statements for the year ended 31 December 2022.

3 會計政策(續)

5 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

5.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, cash flow and fair value interest rate risk), credit risk and liquidity risk.

The condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2022.

There have been no changes in the risk management team since year end or in any risk management policies since year end.

5.2 Liquidity risk

Comparing to the year ended 31 December 2022, there was no material change in the contractual undiscounted cash flows for financial liabilities.

- 5.3 Fair value estimation
 - (i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standards. An explanation of each level follows underneath the table.

 - Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period.
 - 級別1: 於活躍市場買賣的金融工具(如公開買賣衍生工具及股本證券)的公平值乃基於報告期末的市場報價。
 - Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
 - 級別2: 並非於活躍市場買賣的金融工具(如場外衍生工具)的公平 值採用估值技術釐定,該等估值技術盡量利用可觀察獲得之 市場數據而極少依賴實體的特定估計。倘計算工具公平值所 需全部重大參數均為可觀察獲得之數據,則該工具列入級別 2。
 - Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs). This is the case for unlisted equity interests.
 - 級別3: 資產或負債並非根據可觀察獲得之市場數據(即不可觀察獲得之參數)得出之參數。非上市股本權益屬於此情況。

The carrying amounts of the Group's financial instruments carried at cost or amortised cost approximate their fair values as at the reporting date since either the instrument are with short maturities or the interest rate is close to the current market rate.

6 SEGMENT INFORMATION (Continued)

The executive directors assess the performance of the operating segments based on profit before income tax, which is consistent with that in the financial statements. Other information, as noted below, is also provided to the executive directors. The executive directors consider the Group has three reportable segments: (1) manufacturing and sale of garments on an original equipment manufacturer basis ("OEM"); (2) manufacturing and retailing of branded fashion apparel ("Retail"); and (3) property investment in the PRC ("Property investment").

Total segment assets exclude certain investment properties located in Hong Kong, corporate assets and investments measured at FVPL and FVOCI, all of which are managed on a central basis.

Turnover represents sale of goods and rental income. Sales between segments are carried out based on agreed terms similar to terms offered to third parties. The revenue from external parties reported to the executive directors is measured in a manner consistent with that in the condensed consolidated statement of comprehensive income.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting".

BUSINESS REVIEW

During the six months ended 30 June 2023 (the "1H2023"), according to the information published by the General Administration of Customs, the contribution of the net export to the economic growth of China was (10.8)%, which pushed down the GDP growth of China by 0.6 percentage points. The growth rate of the trade surplus in goods also declined, which was due to, against the backdrop of the modest recovery of the global economy and high inflation, the tightening monetary policies implemented for the purpose of stabilising the inflation, which are inevitably reducing the demand and resulting in a decrease in the net export of China, Moreover, the tension between China and the United States has led to the further contraction in the trading activities between the two countries. As for the domestic economy, the recovery of the tertiary industry has been promising, contributing more than 60% to the recovery of the domestic economy, while the recovery of the secondary industry has been slow. With the three-year pandemic haze dissipating, the domestic real economy, household income and the consumer price levels have been growing slowly, showing a promising future generally.

The Group's OEM/ODM business did not perform well in the 1H2023, recording a total revenue of HK\$495.3 million, representing a decrease of 27.3% as compared to the six months ended 30 June 2022 (the "1H2022"), which was mainly due to the weak demand from the American customers. Besides, the production capacity of the Group in Vietnam and Cambodia has yet to scale up and compensate the loss incurred by the Group's in China because of the loss of purchase orders.

業務回顧

截至二零二三年六月三十日止六個月 (「二零二三年上半年」),根據海關總署 發佈數據,中國淨出口對經濟增長的 貢獻率為(10.8)%,向下拉動中國GDP 增長0.6個百分點,貨物貿易順差增速 回落。這是由於全球經濟恢復乏力,同 時伴隨高通脹,為穩通脹而實施的收 縮性貨幣政策不可避免地導致需求收 縮,使我國淨出口下降。同時中美之間 的大國博弈,也進一步導致了中美貿 易活動減少。而國內經濟部分,第三產 業的恢復情況良好,對國內經濟恢復的 貢獻率高於60%,但第二產業的恢復 則遲緩一些。伴隨著三年疫情的結束, 國內的實體經濟、家庭收入和消費物 價水平都在緩慢增長,整體趨勢向好。

集團OEM/ODM業務在二零二三年上半 年表現欠佳,共錄得了495.3百萬港元 的收入,較截至二零二二年六月三十 日止六個月(「二零二二年上半年」)下 跌27.3%,主要是因為美國客戶的需求 低迷。而集團在越南和柬埔寨的產能 尚未形成規模且無法彌補集團在國內 因採購訂單流失而產生的損失。 管理層討論及分析

In terms of the retail business, with the three-year pandemic control becoming history, retail business and logistics services have returned to the normal level and are thus growing at a relatively faster pace. During the 1H2023, the growth rate of the retail business reached 29.1% with the number of stores expanding as expected. The online sales are a key task for this year and have become an important channel to promote the rapid development of our retail business. The domestic retail market is on the rise will provide ample opportunities for the development of the Group's retail business with its own brands.

Management Discussion and Analysis

管 理 層 討 論 及 分 析

TREASURY POLICIES AND EXPOSURE TO FLUCTUATION IN FOREIGN EXCHANGE RATES

The Company uses Hong Kong dollars ("HK\$") as its functional currency and the Group's presentation currency. Since HK\$ was pegged against United Sates dollars ("USD"), the Directors consider the Group's foreign currency exchange exposure arising from USD transactions to be minimal during the 1H2023.

The sales and purchase of raw materials of the Group are mainly denominated in USD and Renminbi ("RMB"). During the 1H2023, approximately 28.9% and 71.1% of revenue were denominated in USD and RMB, respectively, and approximately 8.7% and 91.3% of purchase of raw materials were denominated in USD and RMB, respectively.

As of 30 June 2023, approximately 12.6%, 82.5% and 4.7% of cash and cash equivalents and pledged bank deposits were denominated in USD, RMB and HK\$, respectively, and approximately 54.7% and 45.3% of bank borrowings were denominated in HK\$ and RMB, respectively.

Regarding the trade disputes between China and the United States, it is expected that on-going currency fluctuation of RMB against USD is unavoidable. To minimise the impact, the Group will monitor the foreign currency risk closely to ensure the net exposure is at an acceptable level. The Directors may consider using financial instruments to reduce the currency risk exposure when necessary. During the 1H2023, the Group did not use any financial instrument for hedging purpose.

財政政策及外匯匯率波動風險敞 口

本公司使用港元(「港元」)作為其功能 貨幣及本集團的呈列貨幣。由於港元 與美元(「美元」)掛鈎,因此董事認為 本集團於二零二三年上半年自美元交 易產生的外幣匯兑風險極低。

本集團的原材料銷售及採購主要以美 元及人民幣(「人民幣」)計值。二零二 三年上半年,收入的約28.9%及71.1% 分別以美元及人民幣計值,原材料採 購的約8.7%及91.3%分別以美元及人民 幣計值。

截至二零二三年六月三十日,有約 12.6%、82.5%及4.7%的現金及現金等 值項目以及已抵押銀行存款分別以美 元、人民幣及港元計值,有約54.7%及 45.3%的銀行借款分別以港元及人民幣 計值。

就中美貿易爭端而言,人民幣兑美元 的持續貨幣波動預期將不可避免。為 了使影響最小化,本集團將密切監控 外幣風險以確保淨敞口處於可接受水 平。董事可能考慮於必要時使用金融 工具降低貨幣風險。二零二三年上半 年,本集團並無使用任何作對沖用途 的金融工具。
