永恒策略投資有限公司 二零二四年年報

To our shareholders

In 2024, we reported a loss attributable to owners of the Company of HK\$416 million, a 51% increase compared to last year. This increase in loss attributable to owners of the Company was mainly attributable to (i) a HK\$137 million increase in impairment loss in respect of goodwill; (ii) a HK\$12 million decrease in gain on disposals of residential serviced apartments under longterm lease agreements treated as finance leases, (iii) a HK\$49 million increase in the loss arising on change in fair value of investment properties, (iv) which were partly offset by (i) a HK\$95 million decrease in allowance for expected credit losses ("**ECL**") on loan receivables, and (ii) the recognition of a one-off loss of HK\$23 million on the modification of the terms of the guaranteed secured notes due 2025.

We reported a segment loss (before taxation) of HK\$25 million for our sale of financial assets business in 2024, a 281% increase compared to last year. The increase in segment loss (before taxation) was mainly due to the recognition of the trading loss of HK\$8 million in the year ended 31 December 2024, in contrast to the trading gain of HK\$4 million in the year ended 31 December 2023, and a HK\$6 million increase in the loss arising on change in fair value of financial assets at fair value through profit or loss. As we expect the global macroeconomic environment to remain uncertain in 2025, we will cautiously monitor the equity market, adjust our equity securities portfolio from time to time, and realise our equity securities into cash as and when appropriate.

致本公司股東

於二零二四年,我們呈報本公司擁有人應佔虧 損416百萬港元,較去年增加51%。本公司擁 有人應佔虧損有所增加主要歸因於(i)有關商譽 的減值虧損增加137百萬港元;(ii)出售長期租 賃協議(被視為融資租賃)項下住宅服務式公寓 所得收益減少12百萬港元;(iii)投資物業公平 值變動產生的虧損增加49百萬港元;(iv)部分 被以下各項所抵銷:(i)應收貸款的預期信貸虧 損(「預期信貸虧損」)撥備減少95百萬港元; 及(ii)就二零二五年到期的有擔保抵押票據條款 修改確認一次性虧損23百萬港元。

於二零二四年,我們呈報銷售金融資產業務之 分部虧損(除税前)為25百萬港元,較去年增 加281%。分部虧損(除税前)有所增加,主要 是由於截至二零二四年十二月三十一日止年度 確認買賣虧損8百萬港元(對比截至二零二三 年十二月三十一日止年度則為買賣收益4百萬 港元)及按公平值計入損益表之金融資產公平 值變動產生之虧損增加6百萬港元。由於我們 預期二零二五年全球宏觀經濟環境仍將不明 朗,我們將謹慎觀察股票市場,不時調整我們 的股本證券投資組合,並於適當時將我們的股 本證券變現。

Our money lending business reported a segment loss (before taxation) of HK\$20 million in 2024, a 84% improvement from HK\$124 million last year. This 84% improvement in segment results was mainly due to a HK\$95 million decrease in allowance for ECL on loan receivables, which was partly offset by a HK\$10 million decrease in interest income on loans. Given the global macroeconomic environment is expected to be uncertain, we intend to maintain the size of the Group's loan portfolio in 2025. Nevertheless, we will closely monitor the performance of the Group's loan portfolio, especially in each customer's repayment and financial condition, and make every effort to recover the overdue loan receivables.

Our sale of jewelry products business reported a segment profit (before taxation) of HK\$1 million in 2024. a 67% decrease from HK\$3 million last year. Due to the significant increase in gold price since the second half of 2023, the sales orders for jewelry accessories, which generally have a high volume with a slim profit margin, has dropped significantly resulting an increase in gross profit margin. However, the gross profit for the year ended 31 December 2024 was slightly deteriorated from the previous year due to the decrease of revenue from sale of jewelry products. To cope with the sluggish market condition and the surge in gold price, we are expanding our product categories by developing budgeted jewelry products to meet the shrinking budget of the consumer public. Starting from the fourth quarter of 2023, we launched our other stone-type jewelry products and received more substantial orders in the forth quarter of 2024. In addition, we will cultivate new markets for its jewelry products, such as Japan and other Southeast Asian countries, in 2025 by attending trade shows and organizing sales trips.

於二零二四年,我們之借貸業務呈報分部虧 損(除税前)20百萬港元,較去年的124百萬 港元改善84%。分部業績改善84%乃主要由 於應收貸款預期信貸虧損撥備減少95百萬港 元所致,惟部分被貸款利息收入減少10百萬 港元所抵銷。鑑於預期全球宏觀經濟環境不明 朗,我們擬於二零二五年維持本集團貸款組合 的規模。儘管如此,我們將密切監察本集團貸 款組合的表現,尤其是每名客戶的還款及財務 狀況,並竭盡全力收回逾期應收貸款。

於二零二四年,我們之銷售珠寶產品業務呈報 分部溢利(除税前)為1百萬港元,較去年3百 萬港元減少67%。由於金價自二零二三年 4年以來大幅上漲,邁常量大利薄之珠寶配 銷售訂單大幅減少,導致毛利薄之珠寶配 而,由於銷售珠寶產品收差有所提高。然 而四年十二月三十一日止年度的毛價飆升,截至二年 度略有轉差。價珠對市況低迷及金價麵升,以四 年十二月三十一日止年度的毛價 額時,我們指出其產品種類,以四 合消費者持續縮減出其產品種類,以四 年第一,我們將於二零二五年通過參加展銷會及 組織銷售路演為珠寶 產品開拓新市場,如日本 及其他東南亞國家。

Our property investment business reported a segment loss (before taxation) of HK\$278 million in 2024, a 430% increase from HK\$52 million last year. The deterioration in segment results was mainly attributable to (i) the HK\$12 million decrease in gain on disposals of residential serviced apartments resulting from a decrease in the number of residential serviced apartments delivered for vacant possession under longterm lease agreements, (ii) the HK\$137 million increase in impairment loss in respect of goodwill. (iii) the HK\$49 million increase in the loss arising on the change in the fair value of investment properties, and (iv) the absence of rental income of HK\$23 million generated from the assets of the Club which were partly offset by a HK\$2 million decrease in imputed interest income on other receivables for leasing of residential serviced apartments under long-term lease agreements due to the fullyear effect on interest income recognition. Although there is a sign that the Mainland Chinese economy is slowing down, we will put more effort and resources into marketing and leasing activities to achieve a high occupancy rate to build up the continuous income stream derived from rental income of the properties erected on the Subject Land. In addition, we will put more effort and resources into completing the remaining four blocks of residential serviced apartments and two blocks of office buildings as planned.

Since October 2023, we expanded into the golf club operation business following the termination of the club lease agreement relating to the assets of our membership golf club and resort in Beijing, Mainland China, adjacent to the Subject Land (the "Club") by the lessee. Our newly expanded golf club operation business reported a segment profit (before taxation) of HK\$14 million whereas a segment loss (before taxation) of HK\$7 million for the period from 5 October 2023 to 31 December 2023. The turnaround from segment loss to segment profit mainly resulted from the golf course of the Club being closed for winter from November to February each year. As such, the directors considered that the golf club operation business could generate a steady revenue and segment profit to the Group. The directors are cautiously monitor the revenue and the operation cost of the Club from time to time in order to create a continuous income stream.

於二零二四年,我們之物業投資業務呈報分部 虧損(除税前)為278百萬港元,由去年的52 百萬港元增加430%。分部業績轉差,主要歸 因於(i)長期租賃協議項下已交付空置管有權的 住宅服務式公寓數目有所減少,致使出售住宅 服務式公寓所得收益減少12百萬港元;(ii)有 關商譽的減值虧損增加137百萬港元;(iii)投 資物業公平值變動產生的虧損增加49百萬港 元;及(iv)會所資產不再產生租金收入23百萬 港元,部分被長期租賃協議項下住宅服務式公 寓的租賃的其他應收款項的估算利息收入減少 2百萬港元(乃由於確認利息收入的全年影響) 所抵銷。儘管有跡象顯示中國內地經濟正在放 緩,我們仍將投放更多心力及資源於營銷及租 **賃活動以提高佔用率**,從而建立自主體地塊上 已建物業產生之持續性收入來源。此外,我們 將投放更多心力及資源以按計劃完成餘下四座 住宅服務式公寓和兩座寫字樓。

自二零二三年十月起,我們於承租人終止與毗 鄰主體地塊之位於中國內地北京一間會員制高 爾夫球會所及酒店(「會所」)資產有關的會所租 賃協議後擴展至高爾夫球會所營運業務。我們 新擴展的高爾夫球會所營運業務呈報分部溢利 (除税前)14百萬港元,而自二零二三年十月 五日至二三年十二月三十一日期間則錄得 分部虧損(除税前)7百萬港元。分部虧損轉為 分部溢利,主要由於會所的高爾夫球場於, 董事不時審慎監察 來穩定的收益及分部溢利。董事不時審慎監察 會所的收益及營運成本,旨在創造持續的收入 來源。

Due to the global macroeconomic environment remaining uncertain in 2025, we remain cautious and watchful over the key risks for 2025 and their impact. We commit to leading the Group to weather the challenges, monitor the business environment cautiously, and strengthen the Group's business foundation by focusing on its existing businesses.

Finally, I would like to take this opportunity to extend our appreciation to all fellow directors and employees for their invaluable efforts, dedication, and commitment to the Group and to thank all shareholders and business associates for their continuous support. 考慮到全球宏觀經濟環境於二零二五年仍然不 明朗,我們對二零二五年主要風險及其影響保 持謹慎及警惕。我們致力於領導本集團應對挑 戰,審慎監察營商環境,通過專注於現有業務 鞏固本集團之業務基礎。

最後,本人藉此機會向全體董事及僱員對本集 團作出之寶貴努力、熱誠及承擔致以衷心謝 意,亦感謝所有股東及業務夥伴長久以來之支 持。

FINANCIAL REVIEW (Continued)

Results of operations (Continued)

Allowance for ECL on financial assets decreased from HK\$132,729,000 in the year ended 31 December 2023 to HK\$39,756,000 in the year ended 31 December 2024. Of the total allowance for ECL on financial assets for the year ended 31 December 2024, HK\$37,854,000 was recognised for loan receivables, which is discussed in the *"Money lending business"* section under "Operations Review" below, and HK\$1,902,000 was recognised for trade receivables.

Administrative expenses increased by 3% from HK\$129,153,000 in the year ended 31 December 2023 to HK\$132,839,000 in the year 31 December 2024. This increase was mainly attributable to an increase in general administration expenses resulting from the commencement of the golf club operation business in the fourth quarter of 2023, which were partly offset by a decrease in salaries and allowances mainly resulting from two executive directors waived their emoluments.

Share of losses of associates amounted to HK\$869,000 for the year ended 31 December 2024, representing (i) the share of gain of HK\$96,000 from Elite Prosperous Investment Limited ("**Elite Prosperous**"), a 49% owned associate of the Company, and (ii) the share of loss of HK\$965,000 from China Healthwise Holdings Limited ("**China Healthwise**"), a 21.94% owned associate of the Company.

Finance costs increased by 8% from HK\$66,603,000 in the year ended 31 December 2023 to HK\$71,863,000 in the year ended 31 December 2024. This increase was mainly due to the delay in settlement of partial redeem principal and semi-annual interest for the guaranteed secured notes due 2025 and the increase in the amounts due to directors and related party in 2024.

The Group recorded an income tax expense of HK\$7,662,000 for the year ended 31 December 2024. The income tax expense mainly derived from (i) the recognition of a reversal of the deferred tax credit of HK\$8,283,000 relating to the allowance for ECL previously made on the Group's loan receivables, and (ii) the current year's tax expense of HK\$4,481,000, which were partly offset by the recognition of (i) deferred tax credit of HK\$4,002,000 resulting from the movements in the deferred tax liabilities recognised for the fair value adjustments on the acquisition of Smart Title Limited in October 2015 and (ii) deferred tax credit of HK\$1,100,000 resulting from the movements in deferred tax assets related to lease contracts.

FINANCIAL REVIEW (Continued)

Contingent liabilities

On 6 May 2021, a Beijing law firm as plaintiff filed (a) a civil claim to the People's Court in Chaovang District, Beijing, Mainland China against four defendants, one of the four defendants is 北京北 湖九號商務酒店有限公司 (Beijing Bavhood No. 9 Business Hotel Company Limited, "Bayhood No. 9 Co."), a wholly-owned subsidiary of the Company, for an unsettled legal fee of RMB31,000,000 (equivalent to HK\$33,477,000) (excluding overdue interest) regarding an engagement of such law firm by the four defendants to resolve a civil dispute brought against them by an independent third party in relation to a property transaction in 2010. Details of the civil claim were disclosed in the Company's announcement dated 6 August 2021.

The Group's Mainland Chinese legal adviser has advised that the possibility of Bayhood No. 9 Co. being required to pay the unsettled legal fee is remote. Accordingly, no provision for liability has been made with respect to the civil claim.

(b) On 13 January 2023, certain bank accounts of Bayhood No. 9 Co. were frozen by a civil ruling (the "Civil Ruling") (民事裁定書) dated 13 January 2023 issued by 北京市海淀區人民法院 (Haidian District People's Court of Beijing Municipality) (the "Court") against Bayhood No. 9 Co. in relation to an alleged unsettled liability before the acquisition of the entire issued share capital of Smart Title Limited on 6 October 2015 (the "Acquisition"), the principal and the interest of which amounted to approximately RMB44,000,000 (equivalent to HK\$47,516,000) as at 1 January 2023 (the "Alleged Liability").

Based on the findings, the directors noted that the Civil Ruling is related to a civil filing (the "Civil Filing") filed by a plaintiff (the "Plaintiff") to the Court on 9 January 2023. Pursuant to the Civil Filing, Bayhood No. 9 Co., together with the other three defendants to the Civil Filing, were alleged that (i) they had entered into an agreement in 2019 (the "Settlement Agreement") with the Plaintiff in relation to the settlement of the property pre-sale agreements (the "Pre-Acquisition Agreements") which had been entered into before the Acquisition and (ii) they had not repaid the Alleged Liability in relation to the Settlement Agreement.

OPERATIONS REVIEW (Continued)

Sale of financial assets business (Continued)

The directors believe that the future performance of the Hong Kong-listed equity securities held by the Group is primarily affected by economic factors, investor sentiment, demand and supply balance of an investee company's shares, and fundamentals of an investee company, such as the investee company's news, business fundamentals and development, financial performance, and prospects. Accordingly, the directors closely monitor the above factors, particularly the fundamentals of each investee company in the Group's equity securities portfolio, proactively adjust the Group's equity securities portfolio mix from time to time, and realise the Hong Kong-listed equity securities into cash as and when appropriate.

Money lending business

During the year ended 31 December 2024, the Group's money lending business generated interest income on loans amounting to HK\$21,046,000, a 33% decrease from HK\$31,474,000 for the previous year. The segment loss (before taxation) was HK\$20,162,000, an 84% decrease from HK\$124,120,000 for the previous year.

The 33% decrease in interest income on loans was mainly due to no further interest income being recognised for loan receivables that were classified under stage 3 (credit-impaired) and fully impaired.

The 84% decrease in segment loss (before taxation) was mainly attributable to a HK\$95,118,000 decrease in allowance for ECL recognised on loan receivables, which was partly offset by a HK\$10,428,000 decrease in interest income on loans.

During the year ended 31 December 2024, no new loan was granted, and the final repayment dates of existing loans with an aggregate principal amount of HK\$210,101,000 were yet to be extended upon the fulfilment of certain conditions precedent to the relevant agreement. In addition, no customers made drawings from the existing loans, and three customers repaid the principal with an aggregate amount of HK\$18,324,000 to the Group.

借貸業務

於截至二零二四年十二月三十一日止年度內, 本集團之借貸業務產生之貸款利息收入為 21,046,000港元,較去年的31,474,000港元 減少33%。分部虧損(除税前)為20,162,000 港元,較去年的124,120,000港元減少84%。

貸款利息收入減少33%主要是由於不再就分 類至第3階段(信貸減值)之貸款確認其利息收 入並將之全數撇銷。

分部虧損(除税前)錄得84%減幅主要由於 就應收貸款確認之預期信貸虧損撥備減少 95,118,000港元所致,惟部分被貸款利息收入 減少10,428,000港元所抵銷。

於截至二零二四年十二月三十一日止年度 內,本集團並無授出新貸款,而本金總額為 210,101,000港元之現有貸款之最後還款日期 尚未於達成相關協議之若干先決條件後予以延 長。此外,並無客戶從現有貸款中提取本金, 而三名客戶向本集團償還18,324,000港元。

OPERATIONS REVIEW (Continued)

Money lending business (Continued)

At 31 December 2024, 12 loans granted by the Group's money lending business remained outstanding, 12 loan receivables with an aggregate gross balance of HK\$985,520,000 were classified under stage 3 (creditimpaired). During the year ended 31 December 2024, four loan receivables with an aggregate gross balance of HK\$241,693,000 were reclassified from stage 1 (initial recognition) to stage 3 (credit-impaired) due to the two customers' failure to repay the outstanding principal amount of the loans and the accrued and unpaid interest thereon on the final repayment dates. The Group has conditionally extended the final repayment date of three loan receivables with a customer by obtaining additional collateral, and is currently negotiating with the other customer with a view to entering into binding settlement agreement. As at the date of this annual report, the negotiations were still ongoing.

At the end of the reporting period, the directors performed an impairment assessment on the Group's loan receivables with reference to a valuation prepared by an independent professional valuer. The valuation measured impairment on loan receivables using the general approach, which is often referred to as the "three-stage model" under Hong Kong Financial Reporting Standard 9 Financial Instruments. Based on the valuation, an allowance for ECL on loan receivables of HK\$37.854.000 was made, a HK\$95,118,000 decrease compared to the year ended 31 December 2023. Of the total allowance for ECL, (i) HK\$38,184,000 was recognised for the loan receivables classified under stage 3 (credit-impaired), (ii) HK\$330,000 was reversal of allowance for ECL for the loan receivables classified under stage 1 (initial recognition), and (iii) HK\$20,944,000 being the unwinding of discount on loan receivables classified under stage 3 (credit-impaired).

The allowance for ECL of HK\$38,184,000 recognised for the loan receivables under stage 3 (credit-impaired) comprised HK\$64,555,000 recognised for the four loan receivables with an aggregate gross balance of HK\$241,693,000 reclassified from stage 1 (initial recognition) to stage 3 (credit-impaired), which were partly offset by a reversal of allowance for ECL of HK\$26,371,000 resulting from the recovering of unpaid interest on loan receivables classified under stage 3 (credit-impaired).

At 31 December 2024, the Group's loan and interest receivables (after accumulated allowance for ECL) amounted to HK\$171,816,000 (2023: HK\$248,614,000).

業務回顧(續)

借貸業務(續)

於二零二四年十二月三十一日,本集團借貸業務所批出之12筆貸款尚未償還。未償還本金額合共985,520,000港元之12筆應收貸款分類為第3階段(信貸減值)。於截至二零二四年十二月三十一日止年度內,由於兩名客戶未能於最後還款日償還貸款本金及其應計及未付利息,因此四筆應收貸款總額241,693,000港元由第1階段(初始確認)重新分類至第3階段(信貸減值)。本集團已透過取得額外抵押品有條件延長與一名客戶之三項應收貸款之最終還款日期,目前正與另一名客戶磋商,以期達成具有約束力的和解協議。截至本年報日期,磋商仍在進行中。

於報告期末,董事已參考一名獨立專業估值師 編製之估值就本集團之應收貸款進行減值評 估。該估值根據香港財務報告準則第9號金融 工具使用一般方法(通常稱為「三階段模型」) 計量應收貸款之減值。根據該估值,已作出應 收貸款之預期信貸虧損撥備37,854,000港元, 相比截至二零二三年十二月三十一日止年度 減少95,118,000港元。於預期信貸虧損撥備 總額中,(i)已就分類為第3階段(信貸減值)之 應收貸款確認撥備38,184,000港元,(ii)已就 分類為第1階段(初始確認)之應收貸款撥回預 期信貸虧損撥備330,000港元,及(iii)已就分 類為第3階段(信貸減值)之應收貸款折讓貼現 20,944,000港元。

第3階段(信貸減值)應收貸款確認之預期信貸 虧損撥備為38,184,000港元,包括就由第1階 段(初始確認)重新分類至第3階段(信貸減值) 之四筆未償還本金額合共241,693,000港元之 應收貸款所確認之64,555,000港元,惟部分 被因收回分類為第3階段(信貸減值)之應收貸 款之未付利息而導致預期信貸虧損撥備撥回 26,371,000港元所抵銷。

於二零二四年十二月三十一日,本集團之應收 貸款及利息(除累計預期信貸虧損撥備後)為 171,816,000港元(二零二三年:248,614,000 港元)。

OPERATIONS REVIEW (Continued)

Money lending business (Continued)

Information on the Group's money lending business, including (i) business model, (ii) internal control system, (iii) basis of determining the allowance for ECL on loan receivables, (iv) major terms of each outstanding loan receivables, and (v) actions being taken for recovering the loan receivables classified under stage 3 (creditimpaired) are disclosed in the Company's annual report for the year ended 31 December 2024.

Sale of jewelry products business

During the year ended 31 December 2024, the Group's sale of jewelry products business generated revenue of HK\$69,284,000, a 16% decrease from HK\$82,421,000 for the previous year, and reported a segment profit (before taxation) of HK\$432,000, a 84% decrease from HK\$2,730,000 in the previous year.

Due to the significant increase in gold price since the second half of 2023, the sales orders for jewelry accessories, which generally have a high volume with a slim profit margin, has dropped significantly resulting an increase in gross profit margin. However, the gross profit for the year ended 31 December 2024 was slightly deteriorated from the previous year due to the decrease of revenue from sale of jewelry products.

To cope with the sluggish market condition and the surge in gold price, the Group is expanding its product categories by developing budgeted jewelry products to meet the shrinking budget of the consumer public. Starting from the fourth quarter of 2023, the Group launched its other stone-type jewelry products and started to receive more substantial orders in the fourth quarter of 2024. In addition, the Group would cultivate new markets for its jewelry products, such as Japan and other Southeast Asian countries, in 2025 by attending trade shows and organizing sales trips.

At the end of the reporting period, the directors performed an impairment assessment on the Group's trade receivables based on a valuation prepared by the independent professional valuer. Based on the valuation, an allowance for ECL on trade receivables of HK\$1,902,000 was made, a HK\$1,782,000 increase compared to the previous year.

At 31 December 2024, the Group's inventories of jewelry products, including raw materials, work-in-progress, and finished goods, amounted to HK\$27,400,000 (2023: HK\$31,235,000). The Group's sale of jewelry products business had undelivered sales orders amounting to HK\$546,000 (2023: HK\$1,200,000).

銷售珠寶產品業務

於截至二零二四年十二月三十一日止年度內, 本集團之銷售珠寶產品業務產生之收益為 69,284,000港元,較上一年度之82,421,000 港元減少16%,及呈報分部溢利(除税前)為 432,000港元,較上一年度2,730,000港元減 少84%。

由於金價自二零二三年下半年起大幅上漲,通 常量大利薄之珠寶配飾銷售訂單大幅減少,導 致毛利率增加。然而,由於銷售珠寶產品收益 減少,截至二零二四年十二月三十一日止年度 的毛利較上一年度略有轉差。

為應對市況低迷及金價飆升,本集團正開發廉 價珠寶產品擴展其產品種類,以迎合消費者持 續縮減的預算。自二零二三年第四季度開始, 本集團推出其他寶石類珠寶產品,並於二零 二四年第四季度開始收到更多大訂單。此外, 本集團將於二零二五年透過參加貿易展覽及組 織銷售差旅,為其珠寶產品開拓新市場,如日 本及其他東南亞國家。

於報告期末,董事已按一名獨立專業估值師編 製之估值就本集團之貿易應收款項進行減值評 估。根據該估值,已作出貿易應收款項之預 期信貸虧損撥備1,902,000港元,較去年增加 1,782,000港元。

於二零二四年十二月三十一日,本集團之珠寶 產品存貨(包括原材料、在製品及製成品)為 27,400,000港元(二零二三年:31,235,000港 元)。本集團之銷售珠寶產品業務有546,000 港元(二零二三年:1,200,000港元)之未交貨 銷售訂單。

Property investment business

During the year ended 31 December 2024, the Group's property investment business generated a turnover of HK\$9,104,000, a 81% decrease from HK\$48,206,000 for the previous year, and recorded a segment loss (before taxation) of HK\$278,118,000, a 430% increase from HK\$52,446,000 in the previous year.

Of the total turnover, HK\$4,060,000 was rental income generated from the investment property portion of the Shun Tak Property, HK\$3,322,000 was rental income generated from the residential serviced apartments under short-term lease agreements, and HK\$1,722,000 was derived from property and car parks management fees. Following the delivery of the vacant possession of the residential serviced apartments to lessees upon completion of three blocks of residential serviced apartments erected on the Subject Land in the third quarter of 2022, rental income is generated from the residential serviced apartments under short-term lease agreements, and property management fees are charged to the delivered residential serviced apartments. The decrease in turnover mainly resulted from the absence of the rental income generated form the assets of the Club (for the year ended 31 December 2023; HK\$22,585,000) as the club lease agreement relating to the assets of the Club was terminated by the lessee on 5 October 2023.

The deterioration in segment results was mainly attributable to (i) the HK\$12,016,000 decrease in gain on disposals of residential serviced apartments resulting from a decrease in the number of residential serviced apartments delivered for vacant possession under long-term lease agreements, (ii) the HK\$137,250,000 increase in impairment loss in respect of goodwill, (iii) the HK\$48,885,000 increase in the loss arising on the change in the fair value of investment properties, and (iv) the absence of rental income of HK\$22,585,000 generated from the assets of the Club as mentioned above which were partly offset by a HK\$2,376,000 decrease in imputed interest income on other receivables for leasing of residential serviced apartments under long-term lease agreements due to the full-year effect on interest income recognition.

The Company's indirect wholly-owned subsidiary, Bayhood No. 9 Co., owns (i) the rights to construct and operate the club facilities of the Club and (ii) the rights to develop and operate the Subject Land and the rights to construct and manage properties (each a "**Property**" and collectively, the "**Properties**") erected on the Subject Land (the "**Management Rights**") for around 38 years until 30 January 2062.

分部業績惡化,主要由於(i)在根據長期租賃 協議交付空置管有權之住宅服務式公寓數目 減少,導致出售住宅服務式公寓之收益減少 12,016,000港元,(ii)商譽之減值虧損增加 137,250,000港元,(iii)投資物業公平值變動產 生之虧損增加48,885,000港元,及(iv)缺少上 述會所資產產生之租金收入22,585,000港元, 惟部分被確認利息收入的全年影響,導致根據 長期租賃協議出租住宅服務式公寓的其他應收 款項之估算利息收入減少2,376,000港元所抵 銷。

Property investment business (Continued)

The second and third phases of the Subject Land have been developed into seven blocks of threestorey residential serviced apartments comprising 279 residential serviced apartments with an aggregate gross floor area of 45,165 square meters (with individual apartments of sizes ranging from approximately 88 to 459 square meters), together with two blocks of three-storey office buildings each having a gross floor area of approximately 6,300 square meters with total construction costs of RMB727,000,000 (equivalent to HK\$785,065,000). The residential serviced apartments and the office buildings are offered for lease by Bayhood No. 9 Co..

During the year ended 31 December 2024, no new long-term lease agreement for a residential serviced apartment was signed, no lease agreement for office premises was signed, and the vacant possession of two residential serviced apartments was delivered under long-term lease agreements. As a result, the Group recognised the gain on disposals of residential serviced apartments of HK\$6,395,000 for the year ended 31 December 2024.

At 31 December 2024, there was one signed long-term lease agreement for residential serviced apartments remaining undelivered.

The applicable ratios calculated in respect of each of the lease agreements entered into by Bayhood No. 9 Co. were under 5%, and none of them constituted a notifiable transaction to the Company under Chapter 14 of the Listing Rules. To the best of the directors' knowledge, information, and belief, having made all reasonable enquiries, all the lessees (and the ultimate beneficial owners of the corporate lessees) are third parties independent of the Company and its connected persons (as defined in the Listing Rules).

Property investment business (Continued)

At the end of the reporting period, the directors performed an impairment test for the goodwill arising from the acquisition of Smart Title Limited, the intangible assets, and the right-of-use assets relating to (i) the rights to construct and operate the club facilities of the Club and (ii) the rights to develop and operate the Subject Land and the rights to manage the properties erected on the Subject Land with reference to the discounted cash flow projections to assess the value in use of the property investment business and the golf club operation business in Beijing, Mainland China. As the carrying amount of the cash-generating units of the Group's property investment business and golf club operation business exceeded their recoverable amounts, an impairment loss of HK\$189,029,000 in respect of the goodwill was recognised for the year ended 31 December 2024. The impairment loss arose from (i) the removal of two residential serviced apartments delivered under long-term lease agreements (being treated as disposals for accounting purposes) from the discounted cash flow projection of the property investment business, with the correspondence gain on disposals being recognised in the "Other gains and losses" line item in the consolidated statement of profit or loss and other comprehensive income, and (ii) the change in key assumption and input for longer delivery dates of residential serviced apartments and office premises used in the discounted cash flow projection of the property investment business to reflect the prevailing market conditions and the management's latest estimation.

At the end of the reporting period, the directors measured the investment properties of the residential serviced apartments under short-term lease agreements. Based on a valuation prepared by an independent qualified valuer, the Group recognised a loss of HK\$50,911,000 arising on change in fair value of investment properties.

At the end of the reporting period, the directors measured the investment property portion of the Shun Tak Property at fair value. Based on a property valuation prepared by the independent qualified valuer, the fair value of the investment property portion of the Shun Tak Property decreased from HK\$163,700,000 at 31 December 2023 to HK\$116,000,000 at 31 December 2024. OPERATIONS REVIEW (Continued)

Golf club operation business

On 3 April 2023, the Group received an advance notice from the lessee of the assets of the Club for the termination of the club lease agreement by 5 October 2023. Upon such termination by 5 October 2023, the Group expanded into the golf club operation business by operating and managing the Club on its own.

With a proximity location, the Club is only about a 10-minute drive from the Beijing Capital International Airport and a 25-minute drive from the urban center of Beijing. The Club is one of Beijing's largest high-end leisure complexes operating under membership plans for corporations and individuals. With an area of 1,150 Chinese acres, the Club was designed jointly by several world-renowned design firms with a comprehensive range of facilities, including an 18-hole golf course, a golf academy, restaurants, lakeside VIP private rooms, conference facilities, and a retail shop. The Group's golf club operation business mainly derives income from membership, golf club operation, and food and beverage operation.

Given that the Subject Land is located next to the Club, the directors consider that the operation and management of the Club by the Group itself will provide great flexibility to the Group in formulating marketing plans for leasing the residential serviced apartments erected on the Subject Land, such as allowing admission by lessees to use the facilities of the Club.

During the year ended 31 December 2024, the Group's newly expanded golf club operation business generated a turnover of HK\$132,176,000 (period from 5 October 2023 to 31 December 2023: HK\$29,428,000) and recorded a segment profit (before taxation) of HK\$14,048,000 (period from 5 October 2023 to 31 December 2023: segment loss (before taxation) of HK\$7,235,000). The turnaround from segment loss to segment profit mainly resulted from the golf course of the Club being closed for winter from November to February each year. As such, the directors considered that the golf club operation business could generate a steady revenue and segment profit to the Group. The directors are cautiously monitor the revenue and the operation cost of the Club from time to time in order to create a continuous income stream.

高爾夫球會所營運業務

於二零二三年四月三日,本集團收到會所承租 人關於於二零二三年十月五日前終止會所資產 租賃協議的提前通知。於二零二三年十月五日 有關終止後,本集團透過自行經營及管理會 所,擴展至高爾夫球會所營運業務。

會所地理位置優越,距離北京首都國際機場僅 10分鐘車程,距離北京市中心僅25分鐘車程。 會所為北京最大型的高端休閒綜合體之一,為 企業及個人提供會員制計劃。會所佔地面積約 1,150畝,由多間國際知名的設計公司主理, 其配套設施完備,包括一個18洞標準高爾夫 球場、高爾夫學院、餐廳、湖畔包院、會議設 施及零售商店。本集團高爾夫球會所營運業務 以會員、高爾夫球會所營運及餐飲營運為主要 收入來源。

於截至二零二四年十二月三十一日止年度, 本集團新擴展的高爾夫球會所營運業務產生 之收益為132,176,000港元(二零二三年十 月五日至二零二三年十二月三十一日期間: 29,428,000港元),並錄得分部溢利(除税前) 14,048,000港元(二零二三年十月五日至二零 二三年十二月三十一日期間:分部虧損(除税 前)7,235,000港元)。分部虧損轉為分部溢利 主要由於高爾夫球會所之高爾夫球場於每年 十一月至二月的冬季關閉所致。因此,董事認 為高爾夫球會所營運業務可以為本集團帶來穩 定的收益及分部溢利。董事不時謹慎監控會所 的收益及營運成本,以創造持續收益來源。

FUTURE PROSPECTS

In 2024, the global macroeconomic environment was marked by uncertainty. Persistent inflation, fluctuating energy prices, and geopolitical tensions, including the ongoing Russia-Ukraine conflict, disrupted supply chains and heightened market volatility. Additionally, the trade war between the U.S. and key trading partners, particularly China, continued to strain global trade relations, impacting economic growth, Central banks worldwide grappled with balancing inflation control and economic stability, leading to mixed monetary policies. While technological advancements and green energy transitions offered growth opportunities, uneven implementation and geopolitical risks hindered progress. Overall, 2024 was a year of cautious optimism, with businesses and governments navigating a complex landscape of risks and opportunities.

The directors expect the global macroeconomic environment to remain uncertain in 2025. As such, the directors will cautiously monitor the equity market, adjust the Group's equity securities portfolio from time to time, and realise the Group's equity securities into cash as and when appropriate in 2025.

Given the global macroeconomic environment is expected to be uncertain, the directors intend to maintain the size of the Group's loan portfolio in 2025. As a result, the interest income on loans generated from the Group's money lending business in 2025 is expected to be more or less the same as in 2024. Nevertheless, the directors will closely monitor the performance of the Group's loan portfolio, especially in each customer's repayment and financial condition, and make every effort to recover the overdue loan receivables.

Due to the sluggish market condition, the Group has been developing new product lines, such as other stone-type and budgeted jewelry products, to meet the shrinking budget of the consumer public. In addition, the Group has planned to broaden its sales territories by cultivating new overseas markets, such as Japan and other Southeast Asian countries. Although measures have been taken to improve the performance of the Group's sale of jewelry products business, the directors expect the performance of the Group's sale of jewelry products business in 2025 will be more or less the same as in 2024 due to the uncertainty casting on the global macroeconomic environment.

未來前景

二零二四年,全球宏觀經濟環境充滿不確定 性。通貨膨脹壓力持續,能源價格波動,加上 持續的俄烏衝突等地緣政治風險,擾亂了供應 鏈並加劇了市場波動性。此外,美國與主要貿 易夥伴(特別是中國)之間的貿易戰持續加劇 全球貿易關係的緊張,對經濟增長造成影響。 全球各國央行在控制通貨膨脹與穩定經濟之間 。全球各國央行在控制通貨膨脹與穩定經濟之間 進步與綠色能源轉型帶來了增長機會,但推動 進步與綠色能源轉型帶來了增長機會,但推動 之。二零二四年整體呈現審慎樂觀的態勢, 業與政府在風險與機遇交織的複雜環境中謹慎 應對。

董事預期二零二五年全球宏觀經濟環境將仍然 不明朗。因此,董事將在二零二五年謹慎觀察 股票市場,不時調整本集團的股本證券投資組 合,並於適當時將本集團的股本證券變現。

鑑於預期全球宏觀經濟環境不明朗,董事擬於 二零二五年維持本集團貸款組合的規模。因 此,本集團借貸業務於二零二五年產生的貸款 利息收入預期將與二零二四年大致相同。儘管 如此,董事將密切監察本集團貸款組合的表 現,尤其是每名客戶的還款及財務狀況,並竭 盡全力收回逾期應收貸款。

由於市況欠佳,本集團正已發展新產品系列 -如其他寶石類及廉價珠寶產品,以迎合消費者 持續縮減的預算。此外,本集團計劃通過開拓 新海外市場,如日本及其他東南亞國家,以擴 闊銷售區域。儘管本集團已採取措施改善銷售 珠寶產品業務的表現,但董事預計,由於全球 宏觀經濟環境不明朗,本集團銷售珠寶產品業 務於二零二五年的表現將與二零二四年大致相 同。

FUTURE PROSPECTS (Continued)

Although there is a sign showing that the Mainland Chinese economy is slowing down, the directors will put more effort and resources into marketing and leasing activities to achieve a high level of occupancy rate in order to build up the continuous income stream derived from rental income of the properties erected on the Subject Land. In addition, the directors will put more effort and resources into completing the remaining four blocks of residential serviced apartments and two blocks of office buildings as planned.

Starting from October 2023, the Group expanded into the golf club operation business following the termination of the club lease agreement relating to the assets of the Club by the lessee. The future prospects of the golf course operation business in Beijing are moderately positive, with potential growth driven by increasing interest in leisure activities among the city's affluent residents. However, challenges such as strict land use regulations, environmental concerns, and limited space for expansion may constrain significant growth. The directors believe this business will generate stable revenue with modest, steady growth for the Group. Management will focus on improving operational efficiency, enhancing customer experience, and adopting sustainable practices to maintain competitiveness. While the business may not see rapid expansion, it is expected to contribute reliably to the Group's overall performance in the coming years.

Due to the global macroeconomic environment remaining uncertain in 2025, the directors remain cautious and watchful over the key risks for 2025 and their impact. The directors commit to leading the Group to weather the challenges, monitor the business environment cautiously, and strengthen the Group's business foundation by focusing on its existing businesses.

EVENTS AFTER THE REPORTING PERIOD

The Group issued an unsecured bond with conditional convertible right in an aggregate principal amount of HK\$4,000,000 at 23 December 2024. All the conditions had been fulfilled on 6 January 2025. Accordingly, the conversion rights attached to the bond have become unconditional and irrevocable.

PRINCIPAL RISKS AND UNCERTAINTIES

A summary of the principal risks and uncertainties which may impact the Group's financial conditions, results of operations or future performance and how the Group to mitigate these risks is set out below.

This summary should not be regarded as a complete and comprehensive statement of all potential risks and uncertainties faced by the Group, but rather those risks that the Group currently believes may have a significant impact on the Group's performance and future prospects.

未來前景(續)

儘管有跡象顯示中國內地經濟正在放緩,董事 仍將投放更多心力及資源於營銷及租賃活動以 提高佔用率,從而建立自主體地塊上所建物業 產生之持續性收入來源。此外,董事將投放更 多心力及資源以按計劃完成餘下四座住宅服務 式公寓和兩座寫字樓。

考慮到全球宏觀經濟環境於二零二五年仍然不 明朗,董事對二零二五年主要風險及其影響保 持謹慎及警惕。董事致力於領導本集團應對挑 戰,審慎監察營商環境,通過專注於現有業務 鞏固本集團之業務基礎。

報告期後事項

於二零二四年十二月二十三日,本集團發行本 金總額為4,000,000港元附帶有條件換股權的 無抵押債券。於二零二五年一月六日,所有條 件均已獲達成。因此,該債券所附帶的換股權 已成為無條件及不可撤銷。

Accordingly, the directors are of the opinion that it is appropriate to prepare the consolidated financial statements for the year ended 31 December 2024 on a going concern basis. Except for this, as at 31 December 2024, the directors were not aware of any other material uncertainties relating to any events or conditions that may cast significant doubt on the Group's ability to continue as a going concern.

The annual independent review covered all material controls, including financial, operational and compliance controls, and risk management functions of the Group. The review reports were presented to and reviewed by the Audit Committee and the Board. No material internal control defects were found. Our opinion on the consolidated financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the Other Information and, in doing so, consider whether the Other Information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this Other Information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS AND THOSE CHARGED WITH GOVERANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

 陳述風險更高。
- 了解與審核有關的內部控制,以設計恰當的審核程序,但並非旨在對 貴集團 內部控制的有效程度發表意見。
- 評估所用會計政策是否恰當,以及董事 所作會計估算及相關披露是否合理。

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement director on the audit resulting in this independent auditors' report is Lee Pak Kin.

Consolidated Statement of Changes in Equity 綜合權益變動表

For the year ended 31 December 2024 截至二零二四年十二月三十一日止年度

Notes:

- (a) The Company's shares purchased under the share award plan and held by the trustee of the share award plan are presented as "shares held for share award plan" and deducted from total equity.
- (b) Capital reserve represents the difference of share capital and share premium of the subsidiaries and the nominal value of the 880 shares issued by RICHE (BVI) LIMITED prior to the allotment of 120 shares to Classical Statue Limited and the amount arising from issue of share by a subsidiary.
- (c) Contributed surplus represents the net amount transferred from share capital and share premium to retained profits pursuant to the special resolutions passed at the special general meetings held on 22 August 2003, 30 April 2008 and 12 December 2011.

Under the Company Act 1981 of Bermuda (as amended), the contributed surplus is available for distribution. However, the Company cannot make a distribution out of the contributed surplus if: (i) it is, or would after the payment be, unable to pay its liabilities as they become due; or (ii) the realisable value of its assets would thereby be less than its liabilities.

- (d) Property revaluation reserve relates the properties transferred from owner-occupied to investment properties. The excess amount between the fair value and the carrying amount of the properties at the date of transfer is included in the property revaluation reserve, and will be transferred to accumulated losses upon the retirement or disposal of the relevant properties.
- (e) The fair value through other comprehensive income ("FVTOCI") reserve represents cumulative gains and losses arising from revaluation of equity instruments at FVTOCI that have been recognised in other comprehensive income. Gains and losses arising from revaluation of equity instruments at FVTOCI will not be reclassified to profit or loss in subsequent periods.
- (f) Equity-settled share-based payment reserve represents the fair value of services estimated to be received in exchange for the grant of the relevant share options and share award over the relevant vesting periods, the total of which is based on the fair value of the share options and share award at grant date. The amount for each reporting period is determined by spreading the fair value of the share options and share award over the relevant vesting periods (if any) and is recognised as staff costs and related expenses with a corresponding increase in equity-settled share-based payment reserve.

附註:

- (a) 本公司根據股份獎勵計劃購買並由股份獎勵計劃 受託人持有之股份呈列為「為股份獎勵計劃持有 之股份」,並從權益總額扣除。
- (b) 資本儲備指附屬公司之股本及股份溢價與向 Classical Statue Limited配發120股股份前 RICHE (BVI) LIMITED所發行之880股股份之面 值及附屬公司發行股份所得款項之差額。
- (c) 實繳盈餘指根據於二零零三年八月二十二日、二 零零八年四月三十日及二零一一年十二月十二日 舉行之股東特別大會上通過之特別決議案自股本 及股份溢價轉撥至保留溢利之淨額。

- (d) 物業重估儲備指物業由擁有者自用轉撥至投資物 業。因應重新分類,物業在轉撥當天的公平值與 賬面值差額列入物業重估儲備,並將於相關物業 報廢或出售時轉撥至累計虧損。
- (e) 按公平值計入其他全面收益(「按公平值計入其他 全面收益」)儲備指已在其他全面收益中確認之按 公平值計入其他全面收益之權益工具重估所產生 的累計損益。按公平值計入其他全面收益之權益 工具重估所產生的收益及虧損將不會於往後期間 重新分類為損益。
- (f) 以股權結算之股份支款儲備指歸屬期內授出相關 購股權及股份獎勵以換取估計將接獲服務之公平 值,總額乃根據購股權及股份獎勵於授出日期之 公平值計算。於各報告期之金額乃透過按有關歸 屬期(如有)攤分購股權及股份獎勵公平值予以釐 定,並確認為員工成本及相關開支,而以股權結 算之股份支款儲備作相應增加。

3. MATERIAL ACCOUNTING POLICY INFORMATION

Basis of preparation

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Exchange (the "Listing Rules") and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis, except for investment properties and certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Basis of preparation (Continued)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in the consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 Share-based Payment, leasing transactions that are accounted for in accordance with HKFRS 16 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 Inventories or value in use in HKAS 36 Impairment of Assets.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For financial instruments and investment properties which are transacted at fair value and a valuation technique that unobservable inputs are to be used to measure fair value in subsequent periods, the valuation technique is calibrated so that the results of the valuation technique equal the transaction price.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

 Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

編製基準(續)

公平值是於計量日期市場參與者於有秩 序交易中出售資產可收取或轉讓負債須 支付之價格,而不論該價格是否直接可 觀察得出或可使用其他估值技術估計。 倘市場參與者於計量日期對資產或負債 定價時會考慮資產或負債之特徵,則本 集團於估計資產或負債之公平值時會考 慮該等特徵。本綜合財務報表中作計量 及/或披露用途之公平值乃按此基準釐 定,惟屬於香港財務報告準則第2號以股 *份支款*範圍之以股份形式支付之交易、 根據香港財務報告準則第16號租賃入賬 之租賃交易,以及與公平值有部分相似 之處但並非公平值之計量,如香港會計 準則第2號存貨之可變現淨值或香港會計 準則第36號資產減值之使用價值除外。

非金融資產的公平值計量計入市場參與 者透過使用其資產的最高及最佳用途或 透過將資產出售予將使用其最高及最佳 用途的另一名市場參與者而能夠產生經 濟利益的能力。

對於按公平值交易並且相關估值技術將 使用不可觀察輸入數據計量其後期間公 平值之金融工具及投資物業,估值技術 會作調整,以令估值技術的結果等於交 易價格。

此外,就財務報告而言,公平值計量根 據公平值計量輸入數據之可觀察程度及 輸入數據對公平值計量整體之重要性分 類為第1、第2或第3級,載述如下:

 第1級輸入數據乃實體於計量日期 可取得之相同資產或負債於活躍市 場中所報價格(未經調整);

For the year ended 31 December 2024 截至二零二四年十二月三十一日止年度

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Basis of preparation (Continued)

- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Going concern

During the year ended 31 December 2024, the Group incurred a loss for the year attributable to owners of the Company of HK\$415,699,000 and, as of that date, the Group's current liabilities exceeded its current assets by HK\$563,632,000.

In view of such circumstances, the directors of the Company have given careful consideration to the future liquidity, operating performance of the Group and its available sources of financing, and are of the opinion that the cash flow generated from operating activities and certain appropriate financing activities of the Group will be able to meet the funding needs of operations and repay the outstanding borrowings. - taking active measures to collect loan receivables to improve operating cash flows and its financial position;

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Basis of preparation (Continued)

Going concern (Continued)

- reviewing its investments and actively considering to realise certain financial assets at fair value through profit or loss ("FVTPL") or other assets in order to enhance the cash flow position of the Group whenever it is necessary; and
- implementing active cost-saving measures to control administrative costs through various ways to improve operating cash flows at a level sufficient to finance the working capital requirements of the Group.

The directors of the Company have carried out detail review on the Group's cash flow projections prepared by management. The cash flow projections cover a period up to 31 March 2026. In preparing the cash flow projections, the directors of the Company have considered the historical cash requirements of the Group as well as other key factors, including the availability of the loan finance which may impact the operations of the Group during the next twelve-month period. They are of the opinion that, taking into account the above-mentioned measures, the Group would have sufficient working capital to finance its operations and to meet its financial obligations as and when they fall due within the next twelve months from the date of approval of the consolidated financial statements.

Accordingly, the directors of the Company are of the opinion that it is appropriate to prepare the consolidated financial statements for the year ended 31 December 2024 on a going concern basis. Should the Group be unable to continue as a going concern, adjustments would have to be made to the consolidated financial statements to adjust the value of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets and liabilities as current assets and liabilities, respectively. The effects of these adjustments have not been reflected in the consolidated financial statements.

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstance in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

綜合基準

綜合財務報表包括本公司以及本公司及 其附屬公司所控制之實體(包括結構實 體)之財務報表。當本公司符合以下要素 時,則取得控制權:

- 可對投資對象行使權力;

- 有能力使用其權力影響其回報。

倘有事實及情況顯示上述三項控制權要 素有一項或以上出現變動,本集團會重 新評估其是否對投資對象擁有控制權。

倘本集團在投資對象中擁有少於過半數 之表決權,則在本集團之表決權足以 實質上單方面指示該投資對象之相關活 動時,本集團方會對該投資對象具有權 力。本集團在評估其在該投資對象中的 表決權是否足以賦予其權力時,已考慮 所有相關事實及情況,其中包括:

- 本集團所持有之表決權規模相對於 其他表決權持有人之持股規模及分 散程度;
- 本集團、其他表決權持有人或其他 人士可能擁有之潛在表決權;

For the year ended 31 December 2024 截至二零二四年十二月三十一日止年度

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Basis of consolidation (Continued)

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the noncontrolling interests even if this results in the noncontrolling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Business combinations

A business is an integrated set of activities and assets which includes an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired processes are considered substantive if they are critical to the ability to continue producing outputs, including an organised workforce with the necessary skills, knowledge, or experience to perform the related processes or they significantly contribute to the ability to continue producing outputs and are considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

損益表及其他全面收益表之每個項目乃 歸屬於本公司擁有人及非控股權益。附 屬公司之全面收益總額歸屬於本公司擁 有人及非控股權益,即使此舉會導致非 控股權益產生虧絀結餘。

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Business combinations (Continued)

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

The identifiable assets acquired and liabilities assumed must meet the definitions of an asset and a liability in the Conceptual Framework for Financial Reporting (the "**Conceptual Framework**") except for transactions and events within the scope of HKAS 37 *Provisions, Contingent Liabilities and Contingent Assets* or HK(IFRIC)-Int 21 Levies, in which the Group applies HKAS 37 or HK(IFRIC)-Int 21 instead of the Conceptual Framework to identify the liabilities it has assumed in a business combination. Contingent assets are not recognised.

lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in HKFRS 16) as if the acquired leases were new leases at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after re-assessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation are initially measured at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets or at fair value. The choice of measurement basis is made on a transaction-bytransaction basis.

Goodwill

Goodwill arising on an acquisition of business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cashgenerating units ("**CGUs**") (or groups of CGUs) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of CGUs).

On disposal of the relevant CGU, the attributable amount of goodwill is included in the determination of the amount of the gain or loss on disposal. When the Group disposes of an operation within the CGU (or a CGU within a group of CGUs), the amount of goodwill disposed of is measured on the basis of the relative values of the operation (or the CGU) disposed of and the portion of the CGU (or the group of CGUs) retained.

Investments in subsidiaries

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the interests in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

Investments in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in the consolidated financial statements using the equity method of accounting. The financial statements of associates used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of profit or loss and other comprehensive income of the associate. Changes in net assets of the associate other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

Investments in associates (Continued)

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The Group assesses whether there is an objective evidence that the interest in an associate may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group applies HKFRS 9, including the impairment requirements, to long-term interests in an associate or joint venture to which the equity method is not applied and which form part of the net investment in the investee. Furthermore, in applying HKFRS 9 to long-term interests, the Group does not take into account adjustments to their carrying amount required by HKAS 28 (i.e. adjustments to the carrying amount of long-term interests arising from the allocation of losses of the investee or assessment of impairment in accordance with HKAS 28).

3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Investments in associates (Continued)

When the Group ceases to have significant influence over an associate, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss. When the Group retains an interest in the former associate and the retained interest is a financial asset within the scope of HKFRS 9 Financial Instruments, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition. The difference between the carrying amount of the associate and the fair value of any retained interest and any proceeds from disposing the relevant interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) upon disposal/partial disposal of the relevant associate.

When a group entity transacts with an associate of the Group, profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

When the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

Acquisition of additional interests in associates

When the Group increases its ownership interest in an associate but the Group continues to use the equity method, goodwill is recognised at acquisition date if there is excess of the consideration paid over the share of carrying amount of net assets attributable to the additional interests in associates acquired. Any excess of share of carrying amount of net assets attributable to the additional interests in associates acquired over the consideration paid are recognised in the profit or loss in the period in which the additional interest are acquired.

Non-current assets held for sale

Non-current assets (and disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Group will retain a non-controlling interest in the relevant subsidiary after the sale.

When the Group is committed to a sale plan involving disposal of an investment, or a portion of an investment, in an associate or joint venture, the investment or the portion of the investment that will be disposed of is classified as held for sale when the criteria described above are met, and the Group discontinues the use of the equity method in relation to the portion that is classified as held for sale from the time when the investment (or a portion of the investment) is classified as held for sale.

Revenue and other income

Income is classified by the Group as revenue when it arises from the sale of goods, the provision of services or the use by others of the Group's assets under leases in the ordinary course of the Group's business.

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Revenue from contracts with customers (Continued)

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

For contracts that contain more than one performance obligations, the Group allocates the transaction price to each performance obligation on a relative stand-alone selling price basis.

Revenue and other income recognition policies

Further details of the Group's revenue and other income recognition policies are as follows:

(i) Sales of jewelry products

Revenue is recognised at a point in time when the customer takes possession of and accepts the products. If the products are a partial fulfilment of a contract covering other goods and, then the amount of revenue recognised is an appropriate proportion of the total transaction price under the contract, allocated between all the goods and services promised under the contract on a relative stand-alone selling price basis.

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate stand-alone price of the non-lease components, including contract for acquisition of ownership interests of a property which includes both leasehold land and nonlease building components, unless such allocation cannot be made reliably.

The Group applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exception to leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Except for those that are classified as investment properties and measured under fair value model, right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term is depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets that do not meet the definition of investment property as a separate line item on the consolidated statement of financial position. Right-of-use assets that meet the definition of investment property are presented within "investment properties" respectively.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate the lease.

Lease liabilities (Continued)

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-ofuse assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.
- a lease contract is modified and the lease modification is not accounted for as a separate lease (see below for the accounting policy for "lease modifications").

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the standalone price for the increase in scope and any appropriate adjustments to that standalone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification. 3. 重大會計政策資料(續)

Classification and measurement of leases (Continued)

Amounts due from lessees under finance leases are recognised as receivables at commencement date at amounts equal to net investments in the leases, measured using the interest rate implicit in the respective leases. Interest income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and such costs are recognised as an expense on a straight-line basis over the lease term except for investment properties measured under fair value model.

Rental income which are derived from the Group's ordinary course of business are presented as revenue.

Allocation of consideration to components of a contract

The Group applies HKFRS 15 *Revenue from Contracts* with Customers to allocate consideration in a contract to lease and non-lease components. Non-lease components are separated from lease components on the basis of their relative standalone selling prices.

When the Group is an intermediate lessor, it accounts for the head lease and the sublease as two separate contracts. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset.

- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a modification to a finance lease that is not accounted for as a separate lease, if the lease would have been classified as an operating lease had the modification been in effect at the inception date, the Group accounts for the lease modification as a new lease from the effective date of the modification: and measures the carrying amount of the underlying asset as the net investment in the lease immediately before the effective date of the lease modification. Otherwise, the Group accounts for the modification in accordance with the requirements of HKFRS 9. If the change represents a substantial modification, the finance lease receivables of the original lease are derecognised and a derecognition gain or loss calculated using the revised lease payments discounted at the revised discount rate is recognised in profit or loss on the date of the modification. If the change does not represent a substantial modification, the Group continues to recognise the finance lease receivables in which such carrying amount will be calculated at the present value of the modified contractual cash flows discounted at the related receivables' original discount rate. Any adjustment to the carrying amount is recognised in profit or loss at the effective date of modification.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case, the exchange rates prevailing at the dates of the transactions are used. Bonuses

The Group recognises a liability for bonuses when there is a contractual obligation and the amount can be estimated reliably.

Retirement benefit obligations

The Group operates the Mandatory Provident Fund Scheme (the "**MPF Scheme**") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for those employees employed under the jurisdiction of the Hong Kong Employment Ordinance. The MPF Scheme is a defined contribution scheme, the assets of which are held in separate trusteeadministered funds.

Under the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at 5% of the employees' relevant income, with the employees' contributions subject to a cap of monthly relevant income of HK\$30,000. The Group's contributions to the MPF Scheme are expensed as incurred. 5% of relevant income vests immediately upon the completion of service in the relevant service period, while the remaining portion vests in accordance with the MPF Scheme's vesting scales. Where employees leave the MPF Scheme prior to the full vesting of the employer's contributions, the amount of forfeited contributions is used to reduce the contributions payable by the Group.

For LSP obligation, the Group accounts for the employer MPF contributions expected to be offset as a deemed employee contribution towards the LSP obligation in terms of HKAS 19.93(a) and it is measure on a net basis. The estimated amount of future benefit is determined after deducting the negative service cost arising from the accrued benefits derived from the Group's MPF contributions that have been vested with employees, which are deemed to be contributions from the relevant employees.

The employees employed by the Group's subsidiaries in the PRC are members of statemanaged retirement benefit schemes operated by the government of the PRC. The subsidiaries are required to contribute a specific percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefits schemes operated by the government of the PRC is to make the specified contributions under the schemes.

Equity-settled share-based payment transactions

Share options granted to employees

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (equity-settled share-based payment reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled share-based payment reserve. For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in equity-settled sharebased payment reserve will be transferred to share capital and share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in equity-settled share-based payment reserve will be transferred to accumulated losses.

Share award granted to non-employees

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service. The fair values of the goods or services received are recognised as expenses (unless the goods or services qualify for recognition as assets).

Awarded shares granted to employees

Where shares are purchase by the share award plan from the market, the total consideration of shares purchased from the market (including any directly attributable incremental costs) is presented as "shares held for the share award plan" and deducted from total equity.

Upon vesting, the related costs of the vested awarded shares purchased from the market are credited to "shares held for the share award plan", with a corresponding decrease in the equity-settled share-based payment reserve for awarded shares.

Taxation

Income tax expense represents the sum of current and deferred income tax expenses.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from "loss before taxation" as reported in the profit or loss because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Taxation (Continued)

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and interests in associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred taxes for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when investment properties are depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 requirements to the lease liabilities, and the related assets separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss.

Property, plant and equipment

Property, plant and equipment including buildings held for use in the production or supply of goods or services, or for administrative purpose are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, including costs of testing whether the related assets is functioning properly, and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Property, plant and equipment (Continued)

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition.

To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as "right-of-use assets" in the consolidated statement of financial position except for those that are classified and accounted for as investment properties under the fair value model. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

If a property becomes an investment property because its use has changed as evidenced by end of owner-occupation, any difference between the carrying amount and the fair value of that item (including the relevant leasehold land classified as right-of-use assets) at the date of transfer is recognised in other comprehensive income and accumulated in property revaluation reserve. On the subsequent sale or retirement of the property, the relevant revaluation reserve will be transferred directly to accumulated losses.

Depreciation is recognised so as to write off the cost of assets other than construction in progress less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. Property, plant and equipment (Continued)

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties also include leased properties which are being recognised as rightof-use assets and subleased by the Group under operating leases.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values, adjusted to exclude any prepaid or accrued operating lease income.

Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the property is derecognised.

If a property becomes an owner-occupied property because its use has been changed as evidenced by commencement of owner-occupation, the fair value of the property at the date of change in use is considered as the deemed cost for subsequent accounting.

Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination are recognised separately from goodwill and are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination with finite useful lives are reported at cost less any accumulated amortisation and any accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognised in profit or loss when the asset is derecognised.

Impairment of property, plant and equipment, right-of-use assets and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

Impairment of property, plant and equipment, right-of-use assets and intangible assets other than goodwill (Continued)

The recoverable amount of property, plant and equipment, right-of-use assets and intangible assets are estimated individually, when it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the CGU to which the asset belongs.

In testing a CGU for impairment, corporate assets are allocated to the relevant CGU when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the CGU or group of CGUs to which the corporate asset belongs, and is compared with the carrying amount of the relevant CGU or group of CGUs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a CGU) for which the estimates of future cash flows have not been adjusted.

Impairment of property, plant and equipment, right-of-use assets and intangible assets other than goodwill (Continued)

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or a CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGUs, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrving amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro-rata to the other assets of the unit. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or CGU or a group of CGUs) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU or a group of CGUs) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Cash and cash equivalents

Cash and cash equivalents presented on the consolidated statement of financial position include:

- (a) cash, which comprises of cash on hand and demand deposits, excluding bank balances that are subject to regulatory restrictions that result in such balances no longer meeting the definition of cash; and
- (b) cash equivalents, which comprises of shortterm (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined using the first-in, first-out or weighted average method as appropriate. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and nonincremental costs which the Group must incur to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as cost of sales in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as cost of sales in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is offset against the cost of sales in the period in which the reversal occurs.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent assets and contingent liabilities

Contingent assets

Contingent assets arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Group and they are not recognised in the consolidated financial statements. The Group assesses continually the development of contingent assets. If it has become virtually certain that an inflow of economic benefits will arise, the Group recognises the asset and the related income in the consolidated financial statements in the reporting period in which the change occurs.

Contingent assets and contingent liabilities *(Continued)*

Contingent liabilities

A contingent liability is a present obligation arising from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Where the Group is jointly and severally liable for an obligation, the part of the obligation that is expected to be met by other parties is treated as a contingent liability and it is not recognised in the consolidated financial statements.

The Group assesses continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognised in the consolidated financial statements in the reporting period in which the change in probability occurs, except in the extremely rare circumstances where no reliable estimate can be made.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date/ settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial instruments (Continued)

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

(ii) Equity instruments designated as at FVTOCI

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the FVTOCI reserve; and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will be transferred to accumulated losses/will continue to be held in the FVTOCI reserve.

Dividends from these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "Investment and other income" line item in profit or loss. 3. 重大會計政策資料(續)

(iii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial asset and is included in the "Other gains and losses" line item.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss ("**ECL**") model on financial assets (including loan receivables, trade receivables, deposits and other receivables and bank balances), and other items (including finance lease receivables and financial guarantee contract) which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at the end of each reporting period to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the end of the reporting period as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables without significant financing component.

Impairment of financial assets (Continued)

For all other instruments, the Group measures the loss allowance equal to 12-month ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting period with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;

- (i) Significant increase in credit risk (Continued)
 - an actual or expected significant deterioration in the operating results of the debtor; and
 - an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 180 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

For financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of financial guarantee contracts, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due. 3. 重大會計政策資料(續)

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when (i) a trade receivable is more than 240 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate, and (ii) the credit quality of a loan receivable is classified as significant increase in credit risk or credit-impaired in accordance with the Group's credit rating system.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probabilityweighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

For a financial guarantee contract, the Group is required to make payments only in the event of a default by the debtor in accordance with the terms of the instrument that is guaranteed. Accordingly, the ECL is the present value of the expected payments to reimburse the holder for a credit loss that it incurs less any amounts that the Group expects to receive from the holder, the debtor or any other party.

For ECL on financial guarantee contracts for which the effective interest rate cannot be determined, the Group will apply a discount rate that reflects the current market assessment of the time value of money and the risks that are specific to the cash flows but only if, and to the extent that, the risks are taken into account by adjusting the discount rate instead of adjusting the cash shortfalls being discounted.

Lifetime ECL for trade receivables are considered on a collective basis taking into consideration past due information and relevant credit information such as forwardlooking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of loan receivables, trade and other receivables where the corresponding adjustment is recognised through a loss allowance account. 3. 重大會計政策資料(續)

Derecognition/modification of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the FVTOCI reserve is not reclassified to profit or loss, but is transferred to accumulated losses.

A modification of a financial asset occurs if the contractual cash flows are renegotiated or otherwise modified.

When the contractual terms of a financial asset are modified, the Group assesses whether the revised terms result in a substantial modification from original terms taking into account all relevant facts and circumstances including qualitative factors. If qualitative assessment is not conclusive, the Group considers the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received, and discounted using the original effective interest rate, is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial asset, after reducing gross carrying amount that has been written off.

Debt and equity instruments issued by a group entity are classified as either financial liabilities or equity instruments according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using effective interest method or at FVTPL.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is (i) contingent consideration of an acquirer in a business combination to which HKFRS 3 applies, (ii) held for trading or (iii) it is designated as at FVTPL.

A financial liability is held for trading if:

- it has been acquired principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative, except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration of an acquirer in a business combination may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or

Financial liabilities at FVTPL (Continued)

 it forms part of a contract containing one or more embedded derivatives, and HKFRS 9 permits the entire combined contract to be designated as at FVTPL.

For financial liabilities that are designated as at FVTPL, the amount of changes in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss.

Financial liabilities at amortised cost

Financial liabilities including trade payables, deposit received, accruals and other payables, bank borrowings, other borrowings, lease liabilities, guaranteed secured notes, amounts due to associates and amounts due to directors are subsequently measured at amortised cost, using the effective interest method.

Derecognition/modification of financial liabilities (Continued)

When the contractual terms of a financial liability are modified, the Group assess whether the revised terms result in a substantial modification from original terms taking into account all relevant facts and circumstances including qualitative factors. If qualitative assessment is not conclusive, the Group considers that the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received, and discounted using the original effective interest rate, is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability. Accordingly, such modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. The exchange or modification is considered as non-substantial modification when such difference is less than 10 per cent.

For non-substantial modifications of financial liabilities that do not result in derecognition, the carrying amount of the relevant financial liabilities will be calculated at the present value of the modified contractual cash flows discounted at the financial liabilities' original effective interest rate. Transaction costs or fees incurred are adjusted to the carrying amount of the modified financial liabilities and are amortised over the remaining term. Any adjustment to the carrying amount of the financial liability is recognised in profit or loss at the date of modification.

Financial guarantee contract

A financial guarantee contract is a contract that requires the issuers to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. Financial guarantee contract liabilities are measured initially at their fair values. It is subsequently measured at the higher of:

- the amount of the loss allowance determined in accordance with HKFRS 9; and
- the amount initially recognised less, where appropriate, cumulative amortisation recognised over the guarantee period.

Derivative financial instruments

Derivatives are initially recognised at fair value at the date when derivative contracts are entered into and are subsequently remeasured to their fair value at the end of the reporting period. The resulting gain or loss is recognised in profit or loss.

A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not due to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Offsetting a financial asset and a financial liability

A financial asset and a financial liability are offset and the net amount presented in the consolidated statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the recognised amounts; and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In the application of the Group's accounting policies, which are described in note 3, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The followings are the critical judgements, apart from those involving estimations (see below), that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

Deferred taxation on investment properties

For the purposes of measuring deferred tax arising from investment properties that are measured using the fair value model, the directors have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are not held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time. Therefore, in determining the Group's deferred taxation on investment properties, the directors have determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is not rebutted. The Group has not recognised any deferred tax on changes in fair value of investment properties located in Hong Kong as the Group is not subject to any income taxes on the fair value changes of the investment properties located in Hong Kong on disposal.

Principal versus agent consideration (principal)

The Group engages in trading of jewelry products. The Group reassessed whether the Group should continue to recognise revenue on gross basis based on the requirements in HKFRS 15. The Group concluded that the Group acts as the principal for such transactions as it controls the specified good before it is transferred to the customer after taking into consideration indicators such as the Group is primarily responsible for fulfilling the promise to provide the goods and the Group has inventory risk.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

Key sources of estimation uncertainty

The followings are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimated impairment of property, plant and equipment, right-of-use assets and intangible asset

Property, plant and equipment, right-of-use assets and intangible asset are stated at costs less accumulated depreciation and impairment, if any. In determining whether an asset is impaired, the Group has to exercise judgement and make estimation, particularly in assessing: (1) whether an event has occurred or any indicators that may affect the asset value; (2) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset: and (3) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. When it is not possible to estimate the recoverable amount of an individual asset (including right-ofuse assets), the Group estimates the recoverable amount of the CGU to which the assets belong, including allocation of corporate assets when a reasonable and consistent basis of allocation can be established, otherwise recoverable amount is determined at the smallest group of CGUs, for which the relevant corporate assets have been allocated. Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections, could materially affect the recoverable amounts. Details of the impairment of property, plant and equipment, right-of-use assets and intangible assets are disclosed in note 24.

估計不確定因素之主要來源

以下為關於未來之主要假設,以及於報告期末極有可能導致須對下個財政年度 的資產及負債賬面值作出重大調整之估 計不確定因素之其他主要來源。

物業、廠房及設備、使用權資產以及無 形資產之估計減值

物業、廠房及設備、使用權資產以及無 形資產乃按成本減累計折舊及減值(如 有)列賬。於釐定資產是否減值時,本集 團須作出判斷及估計,尤其評估:(1)是 否有事件已發生或有任何指標可能影響 資產價值;(2)資產賬面值是否能夠以可 收回金額(如為使用價值)支持,即按照 持續使用資產估計的未來現金流量的淨 現值;及(3)將應用於估計可收回金額的 適當關鍵假設(包括現金流量預測及適當 的貼現率)。當無法估計個別資產(包括 使用權資產)的可收回金額時,本集團 會估計該資產所屬現金產生單位的可收 回金額,包括在能夠確定合理及一致的 分配基準的情況下的公司資產分配,否 則,可收回金額按已分配相關公司資產 的現金產生單位的最小組別釐定。更改 有關假設及估計(包括現金流量預測中的 貼現率或增長率),可對可收回金額產生 重大影響。有關物業、廠房及設備、使 用權資產以及無形資產減值之詳情披露 於附註24。

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

Key sources of estimation uncertainty (Continued)

Estimated impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the recoverable amount of the CGU (or group of CGUs) to which goodwill has been allocated, which is the higher of the value in use or fair value less costs of disposal. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the CGU (or a group of CGUs) and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, or change in facts and circumstances which results in downward revision of future cash flows or upward revision of discount rate, a material impairment loss or further impairment loss may arise. Details of the recoverable amount calculation are disclosed in note 24.

Fair value measurement of financial instruments under Level 3 of the fair value hierarchy

As at 31 December 2024, certain of the Group's financial assets including unlisted equity securities amounted to HK\$Nil (2023: HK\$8,645,000) are measured at fair value with fair value being determined based on significant unobservable inputs using valuation techniques. Judgement and estimation are required in establishing the relevant valuation techniques and the relevant inputs thereof. Changes in assumptions relating to these factors could affect the reported fair value of these financial assets. See note 54 for further disclosures.

Key sources of estimation uncertainty (Continued)

Fair value of investment properties

Investment properties are stated at fair value based on the market values, being the estimated amount for which properties could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction or the valuation performed by an independent valuer. In determining the fair value, the valuer has based on method of valuation which involves certain estimates and assumptions. In relving on the valuation report, the management has exercised their judgement and is satisfied that the method of valuation is reflective of the current market conditions. Should there be any changes in assumptions due to change of market conditions, the fair value of the investment properties will be adjusted accordingly.

Provision of ECL for financial assets

The Group makes loss allowance on receivables based on various factors including the aging of the receivables, historical write-off experience and forward-looking information. The identification of impairment of receivables requires the use of judgement and estimates. Where the expectations are different from the original estimates, such differences will impact the carrying amounts of receivables and the allowance for ECL on receivables is recognised in the years in which such estimates have been changed. See note 54 for further discussion.

11. INCOME TAX EXPENSE (Continued)

Under the two-tiered profits tax rates regime, the first HK\$2,000,000 of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2,000,000 will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

Accordingly, the Hong Kong Profits Tax is calculated at 8.25% on the first HK\$2,000,000 of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2,000,000 for both years.

Under the Law of the PRC on Enterprise Income Tax (the "**EIT Law**") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% for both years.

The income tax expense for the year can be reconciled to the loss before taxation per consolidated statement of profit or loss and other comprehensive income as follows:

11. 所得税開支(續)

根據兩級制利得税率制度,合資格集團 實體的首2,000,000港元溢利將按8.25% 的税率徵税,而超過2,000,000港元溢利 將按16.5%的税率徵税。不符合兩級制 利得税率制度的集團實體之溢利將繼續 按16.5%之劃一税率徵税。

因此,於兩個年度,香港利得税之首 2,000,000港元之估計應課税溢利以 8.25%計算,而超過2,000,000港元之估 計應課税溢利以16.5%計算。

根據中國企業所得税法(「企業所得税 法」)及企業所得税法實施規例,中國附 屬公司於兩個年度之税率為25%。

No diluted loss per share for the year ended 31 December 2023 was presented as there were no potential ordinary shares in issue.

- Long-term and short-term lease ratios for residential serviced apartments are 68% (2023: 65%) and 32% (2023: 35%).
- (iii) Rental income per square meter of office premises is based on the current market rate for comparable properties nearby, with a 4% annual increment (2023: 4%).
- (iv) Office premises are 100% under shortterm leases (2023: 100%).

(b) Golf club operation business of the Club

The value in use calculation of the golf club operation business of the Club for the year ended 31 December 2024 and 2023 has been determined with reference to a valuation prepared by APAC. The calculation uses cash flow projection based on the financial budget approved by management covering a 27-year period (2023: 28-year period) for operating and managing the Club by Smart Title itself. The budget period represents the remaining period of the rights to construct and operate the club facilities of the Club, pursuant to the signed cooperation construction and operating agreements. The pre-tax discount rate used for golf club operation business is 17% (2023: 15%). The pre-tax discount rate used reflects the estimated weighted average cost of capital and specific risks relating to the operations. Cash flow projection during the budget period for the golf club operation business of the Club is based on the budgeted revenue. gross margin, operating expenses, capital expenditures incurred, and expected inflation during the budget period, which has been determined based on the past performance of the Club operated and managed by the lessee and management's expectations for the future performance and market development with reference to the industry and macro-economic data.

- Revenue is based on the past performance of the Club operated and managed by the lessee with a 7% in 2025 and 2% afterwards (2023: 7%) annual increment.
- (ii) Operating expenses are based on the past performance of the Club operated and managed by the lessee with a 2% (2023: 2%) annual increment.

(b) 會所之高爾夫球會所營運業務

計算會所之高爾夫球會所營運業務 於截至二零二四年及二零二三年 十二月三十一日止年度之使用價值 時乃經參考亞太資產所編製之一項 估值釐定。該計算使用根據管理 層批准且涵蓋27年期間(二零二三 年:28年期間)Smart Title自行經 營及管理會所的財政預算得出的現 金流量預測。預算期為根據已訂立 合作建設及經營協議,建設及經營 會所內的會所設施之權利之餘下期 間。用於高爾夫球會所營運業務的 税前貼現率為17%(二零二三年: 15%)。所使用之税前貼現率反映估 計資本加權平均成本及經營之特定 風險。會所之高爾夫球會所營運業 務之預算期內現金流量預測乃根據 預算期內之預算收益、毛利率、經 營開支、所產生之資本開支及預期 通脹率, 乃根據承租人經營及管理 之會所之過往業績,以及管理層參 考行業及宏觀經濟數據得出之未來 業績及市場發展期望而釐定。

計算使用價值的關鍵假設如下:

- (i) 收益乃根據承租人經營及管理 之會所之過往業績加上於二零 二五年7%之增幅及其後每年 2%(二零二三年:7%)之增幅 計算。
- (ii) 經營開支乃根據承租人經營及 管理之會所之過往業績加上每 年2%(二零二三年:2%)之 增幅計算。

24. IMPAIRMENT TESTING ON PROPERTY, PLANT AND EQUIPMENT, RIGHT-OF-USE ASSETS, INTANGIBLE ASSETS AND GOODWILL (Continued)

At the end of the reporting period, the directors performed impairment tests for the right-of-use assets, intangible assets, goodwill, and property, plant and equipment belonging to the CGU engaged in property investment business and golf club operation business in Beijing, the PRC, with reference to the valuations prepared by APAC. As the carrying amount of the CGU engaged in property investment business and golf club operation business in Beijing, the PRC, exceeded its recoverable amount, an impairment loss on goodwill of HK\$189,029,000 (2023: HK\$51,779,000) was recognised in the "Other gains and losses" line item in the consolidated statement of profit or loss and other comprehensive income.

The impairment loss for the year ended 31 December 2024 and 2023 arose from (i) the removal of the residential serviced apartments delivered under long-term leases (being treated as disposals for accounting purposes) from the value in use calculation, with the correspondence gain on disposals being recognised in the "Other gains and losses" line item in the consolidated statement of profit or loss and other comprehensive income, and (ii) the use of longer delivery dates for residential serviced apartments and office premises in the value in use calculation to reflect the prevailing market conditions and management's latest estimation.

As the CGU engaged in property investment business and golf club operation business in Beijing, the PRC, has been reduced to its recoverable amount of HK\$1,387,633,000 (2023: HK\$1,637,594,000), any adverse change in the key assumptions used in the calculation of recoverable amount would result in further impairment losses.

24. 物業、廠房及設備、使用權資產、 無形資產及商譽減值測試(續)

於報告期末,董事已參考亞太資產所編 製之估值,對屬於在中國北京從事物業 投資業務及高爾夫球會所營運業務之現 金產生單位有關之使用權資產、無形資 產、商譽及物業、廠房及設備進行減資 產、商譽及物業、廠房及設備進行減資 調試。由於在中國北京從事物業投資 整位之賬面值超過其可收回金額,故已 於綜合損益及其他全面收益表中「其他收 益及虧損」項目就商譽確認189,029,000 港元(二零二三年:51,779,000港元)減 值虧損。

截至二零二四年及二零二三年十二月 三十一日止年度之減值虧損產生自(i)根 據長期租賃交付之住宅服務式公寓自使 用價值計算移除(就會計目的而言被視為 出售),對應出售收益於綜合損益及其他 全面收益表中「其他收益及虧損」項目確 認,及(ii)於使用價值計算中就住宅服務 式公寓及寫字樓使用較長之交付日期, 以反映當時市況及管理層的最新估計。

由於在中國北京從事物業投資業務及高 爾夫球會所營運業務之現金產生單位已 減至可收回金額1,387,633,000港元(二 零二三年:1,637,594,000港元),用於 計算可收回金額的主要假設之任何不利 變動將導致進一步減值虧損。

購股權計劃(續)

二零一一年購股權計劃(續)

截至二零二一年十二月三十一日止年 度,授出購股權之公平值乃由中證採用 二項式購股權定價模式進行之估值而釐 定。下表載列模式所用輸入數據:

| | | Share option type 購股權類別 2021 二零二一年 |
|-------------------------|---------|--|
| Grant date share price | 授出日期股價 | HK\$0.295 0.295港元 |
| Exercise price | 行使價 | HK\$0.298 0.298港元 |
| Expected life | 預期年期 | 3 years 3年 |
| Expected volatility | 預期波幅 | 53.28% |
| Expected dividend yield | 預期股息收益率 | 0% |
| Risk-free interest rate | 無風險利率 | 0.399% |

Expected volatility was determined by using the historical volatility of the Company's share price over the previous year. The expected life used in the model has been adjusted, based on the directors' best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

The binomial option pricing model has been used to estimate the fair value of the share options. The variables and assumptions used in computing the fair value of the share options are based on the directors' best estimate. The value of a share option varies with different variables of certain subjective assumptions. 預期波幅乃利用本公司過去一年之股價 之歷史波幅釐定。該模式所用之預期年 期已根據董事對非可轉讓性、行使限制 及行為因素之影響作出最佳估計後予以 調整。

購股權之公平值乃使用二項式購股權定 價模式估計。計算購股權之公平值所用 之變數及假設乃以董事之最佳估計為基 準。購股權之價值須視乎若干主觀假設 之數據而計算出不同之估值。

Market risk

(a) Foreign currency risk

The Group's operations are mainly in Hong Kong and the PRC. An entity within the Group is exposed to foreign currency risk from commercial transactions and monetary assets and liabilities that are denominated in a currency that is not the entity's functional currency.

The Group engages in property investment and golf club operation businesses in the PRC through its local subsidiaries, which use RMB as their functional currency. 市場風險

(a) 外幣風險

本集團之經營主要位於香港及中 國。本集團一間實體面臨外幣風 險,其由商業交易及以並非該實體 功能貨幣之貨幣計值之貨幣資產及 負債產生。

本集團通過國內附屬公司在中國從 事物業投資及高爾夫球會所營運業 務以人民幣作為功能貨幣。該等中 國附屬公司並無面臨外匯風險,原 因為其商業交易以及貨幣資產及負 債乃以人民幣計值。

本集團以港元為其功能貨幣之多間 附屬公司擁有以美元、英鎊及歐元 計值之商業交易以及貨幣資產及負 債。

54. FINANCIAL INSTRUMENTS (Continued)

Financial risk management objectives and policies (Continued)

Market risk (Continued)

(a) Foreign currency risk (Continued)

The Group currently does not have a foreign currency hedging policy. It manages its foreign currency risk by closely monitoring financial position and cash flow exchange risk exposures and where considered appropriate using financial instruments, such as forward exchange contracts, foreign currency options and forward rate agreements, to hedge the foreign currency risk.

As at 31 December 2024, the Group's entities with functional currency of Hong Kong dollar had the aggregate net monetary assets denominated in USD amounted to HK\$3,600,000 (2023: HK\$8,358,000). Given that Hong Kong dollar are pegged to USD, the directors consider that there is no significant foreign currency risk exposure with respect to USD.

As at 31 December 2024, the Group's entities with functional currency of Hong Kong dollar had the aggregate net monetary assets denominated in Pound Sterling and Euro amounted to HK\$99,000 (2023: HK\$268,000). Given that the aggregate net monetary assets denominated in Pound Sterling and Euro is less than 1.00% (2023: less than 1.00%) of the Group's net assets at 31 December 2024, the directors consider that the net monetary assets of Pound Sterling and Euro are not significant to the Group at the end of the reporting period. Accordingly, no sensitivity analysis is prepared and disclosed.

市場風險(續)

(a) 外幣風險(續)

本集團現時並無外幣對沖政策。本 集團管理其外幣風險,密切監測財 務狀況及現金流匯兑風險,並在其 認為適用的情況下使用金融工具(如 遠期外匯合約、外匯期權及遠期利 率協議)對沖該外幣風險。

於二零二四年十二月三十一日,本 集團以港元為功能貨幣之實體擁有 以美元計值之貨幣資產淨值總額 為3,600,000港元(二零二三年: 8,358,000港元)。鑑於港元與美元 掛鈎,董事認為並無有關美元之重 大外幣風險。

於二零二四年十二月三十一日,本 集團以港元為功能貨幣之實體擁有 以英鎊及歐元計值之貨幣資產淨值 總額為99,000港元(二零二三年: 268,000港元)。由於以英鎊及歐元 計值之貨幣資產淨值總額佔本集 計值少於1.00%(二零二三年: 少於1.00%),故董事認為英鎊及歐 元於報告期末之貨幣資產淨值對本 集團而言並不重大。因此,並無編 製及披露敏感度分析。

Market risk (Continued)

(b) Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to its bank borrowings, amount due to an associate, amounts due to directors and related party, an unsecured other borrowing classified under "other borrowings" and two of the securities margin financing facilities classified under "other borrowings" respectively with variable rates (the "Borrowings"). The Group's cash flow interest rate risk is concentrated on fluctuation of HIBOR and prime rate arising from the above borrowings denominated in Hong Kong dollar and United States dollar. The Group's certain other borrowings, an unsecured other borrowing and guaranteed secured notes carry fixed interest rates, which are not exposed to cash flow interest rate risk.

A fundamental reform of major interest rate benchmarks is being undertaken globally, including the replacement of some interbank offered rates ("**IBORs**") with alternative nearly risk-free rates. Details of the impacts on the Group's risk management strategy arising from the interest rate benchmark reform and the progress towards implementation of alternative benchmark interest rates are set out under "interest rate benchmark reform" in this note.

The Group currently does not have an interest rate hedging policy. It manages its interest rate risk by closely monitoring the interest rate movements and where considered appropriate using financial instruments to hedge the interest rate risk.

As at 31 December 2024, if interest rates of the borrowings had been 50 basis points (2023: 50 basis points) higher/lower, with all other variables remain constant, the Group's loss and total comprehensive expense for the year ended 31 December 2024 would have increased/decreased by HK\$1,117,000 (2023: HK\$1,229,000).

(b) 利率風險

全球正在對主要利率基準進行根本 性改革,包括用幾乎無風險的替代 利率取代若干銀行同業拆息(「銀行 同業拆息」)。利率基準改革對本集 團風險管理策略的影響及替代基準 利率的實施進展詳情載於本附註「利 率基準改革」。

本集團現時並無利率對沖政策。本 集團透過密切監察利率變動及在適 合時動用金融工具對沖利率風險以 管理其利率風險。

於二零二四年十二月三十一日,倘 有關借款的利率上升/下降50個基 點(二零二三年:50個基點),而所 有其他變數維持不變,則本集團截 至二零二四年十二月三十一日止年 度的虧損及全面開支總額將增加/ 減少1,117,000港元(二零二三年: 1,229,000港元)。

(b) Interest rate risk (Continued)

The sensitivity analysis above has been determined based on the exposure to a change in interest rates for the Borrowings at the end of the reporting period. The analysis is prepared assuming that the change in interest rates had occurred at the end of the reporting period and had been applied to re-measure the Borrowings which expose the Group to cash flow interest rate risk at the end of the reporting period. The impact on the Group's loss and total comprehensive expense for the year ended 31 December 2024 is estimated as an annualised impact on interest expense of such change in interest rates. The sensitivity analysis is performed on the same basis for 2023.

(c) Equity price risk

The Group is exposed to equity price risk arising from listed equity securities in Hong Kong held by it classified as financial assets at FVTPL. The Group's listed equity securities in Hong Kong are listed on the Exchange.

The Group manages its equity price risk by regularly monitoring equity portfolio to address any portfolio issues promptly and spreading price risk exposure by investing a number of listed equity securities in Hong Kong.

The sensitivity analyses have been determined based on the exposure to equity price risk at the reporting date.

As at 31 December 2024, if the prices of the listed equity securities in Hong Kong with quoted market price held by the Group had been 15% (2023: 15%) higher/lower, with all other variables remain constant, the Group's loss for the year ended 31 December 2024 would have decreased/increased by HK\$8,056,000 (2023: HK\$12,189,000).

Credit risk and ECL assessment

The credit risk of the Group mainly arises from restricted bank deposits, pledged bank deposits, bank balances, trade receivables, loan receivables, other receivables and finance lease receivables. The exposures to these credit risks are regularly monitored on an ongoing basis by established credit policies in each of the Group's core businesses.

(a) Pledged bank deposits, restricted bank deposits and bank balances

The Group's exposure to credit risk arising from pledged bank deposits and bank balances is limited because the counterparties are high-credit-quality banks and/or financial institutions, for which the Group considers to have low credit risk.

(b) Trade receivables

Trade receivables arise from the Group's sale of jewelry products business. The Group trades only with recognised and creditworthy third parties. The Group allows credit period ranging from 0 to 270 days to its customers. Before accepting any new customer, credit evaluation is performed by the responsible executive director to assess the potential customer's credit quality and define its credit limit. Credit evaluations are reviewed regularly. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. In this regard, the directors of the Company consider the Group's credit risk is significantly reduced.

The Group performs ECL assessment by applying the HKFRS 9 simplified approach, which uses lifetime ECL allowance as basis for all trade receivables with reference to a valuation on the allowance for ECL prepared by Grant Sherman, an independent firm of professional valuer. The ECL of trade receivables is calculated as the product of the three factors: gross credit exposure, probability of default, and recovery rate in case of insolvency in Hong Kong. The probability of default is derived through the application of a linear multiple regression model, which estimates the statistical relationship between a dependent variable and multiple independent variables. To reflect any current or forward-looking information affecting the customers' abilities to settle the trade receivables, certain adjustments have been made in the process of deriving the appropriate probability of default. The calculation reflects the probability-weighted outcome, the time value of money, and reasonable and supportable information that is available at the end of the reporting period about past events, current conditions and forecasts of future economic conditions.

 - (ii) Mechanism in determining loan terms

The terms of a loan are normally determined following arm's length negotiation between the Group and the customer, taking into account the factors set out in (i) above. Normally, the Group tends to grant loans under loan tenure of not more than two years, subject to renewals by mutual consent. The Group expects the interest rate of a loan to be not less than the best lending rate guoted by The Hongkong and Shanghai Banking Corporation Limited plus 3.00% per annum. The Group would normally test the customer's willingness/reluctance to provide collateral/guarantee to the loan, but will take a pragmatic approach in order to maintain flexibility and competitiveness as compared to banking institutions who can normally offer better rates to the customer if they can provide collateral/quarantee.

(iii) Approval process for granting loans, and related checks and balances

The approval process for granting or renewing loans is normally as follows:

- the Group would request the customer to complete the Loan Application Form, the Know Your Customer Form, and the Personal Financial Information Form;
- (2) the Finance and Accounting Department would seek to verify the information provided by the customer, collect supporting documents, and complete the Loan Recommendation Form on the customer's loan application and submit to the responsible directors;

(c) Loan receivables (Continued)

The Group applies the general approach, which is often referred to "three-stage model", under HKFRS 9, in which ECL of loan receivable are determined based on (i) the changes in credit quality of the loan receivable since initial recognition, and (ii) the estimated expectation of an economic loss of the loan receivable under consideration.

Under the general approach, there are two measurement bases for allowance for ECL:

- (i) 12-months ECL, which are the ECL that result from default events that are possible within 12 months after the reporting date and are calculated as the allowance for ECL on a loan receivable weighted by the probability of default accumulated over the 12 months after the reporting date.
- (ii) lifetime ECL, which are the ECL that result from all possible default events over the expected life of a loan receivable and are calculated as the allowance for ECL on a loan receivable weighted by the probability of default accumulated over the entire life of the loan receivable.

The allowance for ECL on loan receivables are derived from gross credit exposure, recovery rate, and probability of default. The Group uses the following ECL formula to calculate the allowance for ECL on its loan receivables:

Allowance for ECL = gross credit exposure x adjusted probability of default x (1 - recovery rate)

(c) 應收貸款(續)

本集團應用香港財務報告準則第9 號的一般方法(通常稱為「三階段模 型」),其中應收貸款的預期信貸虧 損乃根據(i)應收貸款的信貸質量自 初始確認以來的變化,以及(ii)所考 慮的應收貸款經濟損失的估計預期 來確定。

根據一般方法,預期信貸虧損的撥 備有兩個衡量基礎:

- (i) 12個月預期信貸虧損,指因報告日期後12個月內可能發生的違約事件而產生的預期信貸虧損,並計算為應收貸款的預期信貸虧損撥備,按報告日期後12個月內累積的違約概率加權計算。
- (ii) 全期預期信貸虧損,指於應收 貸款的預期年期內所有可能違約事件產生的預期信貸虧損, 並計算為應收貸款的預期信貸 虧損撥備,按應收貸款在整個 年期內累積的違約概率加權計算。

應收貸款的預期信貸虧損撥備乃根 據信貸風險承擔總額、收回率及違 約率計算。本集團使用以下預期信 貸虧損公式計算其應收貸款的預期 信貸虧損撥備:

預期信貸虧損撥備=信貸風險承擔 總額x經調整違約率x(1 - 收回率)

For ECL assessment, the Group's loan receivables are classified as follows:

- Stage 1 (initial recognition) includes loan receivables that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date. For these loan receivables, 12-month ECL are recognised.
- (ii) Stage 2 (significant increase in credit risk) includes loan receivables that have had a significant increase in credit risk since initial recognition (unless they have low credit risk at the reporting date) but that do not have objective evidence of impairment. For these loan receivables, lifetime ECL are recognised.
- (iii) Stage 3 (credit-impaired) includes loan receivables that have objective evidence of impairment at the reporting date. For these loan receivables, lifetime ECL are recognised.

To ensure the adequacy of allowance for ECL on loan receivables, the Group engaged APAC (2023: Grant Sherman) an independent firm of professional valuers, to conduct a valuation on the allowance for ECL on loan receivables recognised for the reporting period.

> The two loans are secured by corporate guarantees by a company in favour of the Group. The guarantor is wholly owned by Customer D and a substantial shareholder of a company listed on the Main Board of the Exchange. The major asset of the guarantor is its interests in the shares of that company.

> During the year ended 31 December 2021, the two loan receivables from Customer D with the aggregate outstanding principal amount of HK\$234,293,000 were transferred from stage 1 (initial recognition) to stage 3 (creditimpaired) as Customer D failed to repay one of the loans in the outstanding principal amount of HK\$134,293,000 and the accrued and unpaid interest on 6 February 2022, being the final repayment date.

Notes: (Continued)

Further details of the loan are set out in Note
 3 of the Company's announcement dated 25
 November 2021.

The loan is secured by corporate guarantees given by two companies owned and controlled by Customer I in favour of the Group. One of which is the corporate vehicle holding Customer I's shares in a company listed on the Main Board of the Exchange. The other guarantor is an investment holding company whose major asset is a debt with a face value of HK\$117,000,000.

In September 2021, Customer I procured one of the guarantors to enter into an agreement (the "**Debt Assignment Agreement**") to assign the debt with a face value of HK\$117,000,000 owned by the guarantor (the "**Assigned Debt**") to the Group to enable the Group to demand payment and liquidate the Assigned Debt and to apply the proceeds, if any, from the recovery of the Assigned Debt to offset the loan due by Customer I.

After establishing dialogues with the representative of the debtor of the Assigned Debt, the Group decided to abort the recovery action on the Assigned Debt and revert to pursuing Customer I and the guarantors on the original loan due by Customer I. In August 2022, the Group terminated the Debt Assignment Agreement. In October 2022, the Group commenced civil proceedings in Hong Kong against Customer I and the guarantors for recovering the outstanding principal amount of the original loan together with the accrued and unpaid interest thereon.

8. The loan of HK\$20,000,000 was granted to Customer N on 1 November 2021. The loan is secured by a share charge over 100% of the issued shares in a company in favour of the Group. The principal activities of the company are investment holdings and the provision of security services. On 1 November 2022, the final repayment date of the loan was extended for one month to 31 December 2022, and the interest rate increased from 12% per annum to 20% per annum. On 30 December 2022, the final repayment date of the loan was further extended to 15 February 2023 as Customer N repaid HK\$2,000,000 to the Group. On 20 March 2023, the final repayment date of the loan was further extended to 31 March 2023 as Customer N further repaid HK\$2,000,000 to the Group.

> During the year ended 31 December 2023, the loan receivable was reclassified from stage 2 (significant increase in credit risk) to stage 3 (credit-impaired) as Customer N failed to repay the outstanding principal amount of the loan and the accrued and unpaid interest on 31 March 2023, being the final repayment date.

> The Group has been negotiating with Customer N on the repayment of the loan receivables with a view to entering into a binding settlement agreement. During the negotiation, Customer N paid HK\$2,141,000 during the year ended 31 December 2023 and HK\$750,000 after 31 December 2023 to the Group to repay part of the outstanding principal amount of the loan and settle part of the unpaid interest on the loan. The negotiation is still ongoing.

於二零二三年十二月三十一日的未 償還應收貸款主要條款如下:(續)

附註:(續)

20.000.000港元的貸款已於二零 8. 二一年十一月一日授予客戶N。該 貸款以一間公司之100%已發行股 份並以本集團為受益人之股份押記 作抵押。該公司之主要業務為投資 控股及提供證券服務。於二零二二 年十一月一日,貸款的最後還款日 期延長一個月至二零二二年十二月 三十一日,而利率由年利率12%增 加至年利率20%。於二零二二年 十二月三十日,由於客戶N向本集 團 償 還 2,000,000 港 元, 貸 款 的 最 後還款日期進一步延長至二零二三 年二月十五日。於二零二三年三月 二十日,由於客戶N向本集團進一 步償還2.000.000港元,貸款的最後 還款日期進一步延長至二零二三年 三月三十一日。

> 於截至二零二三年十二月三十一 日止年度,由於客戶N未能於二零 二三年三月三十一日(即最後還款日 期)償還未償還本金額以及應計及未 付利息,因此該應收貸款由第2階段 (信貸風險明顯增加)重新分類為第3 階段(信貸減值)。

> 本集團一直就應收貸款的償還與客 戶N進行磋商,以期達成一項具有約 束力的和解協議。磋商期間,客戶N 於截至二零二三年十二月三十一日 止年度向本集團支付2,141,000港元 及於二零二三年十二月三十一日後 向本集團支付750,000港元,以償 還貸款之部分未償還本金額及結付 貸款之部分未付利息。磋商仍在進 行中。

(d) Other receivables

Other receivables arise from transactions outside the principal activities of the Group and mainly represent cash advances to various construction contractors and services providers in relation to the development of the Subject Land.

The directors performed an ECL assessment on the other receivables of HK\$73,481,000 (2023: HK\$70,310,000) (before accumulated allowance for ECL of HK\$22.395.000 (2023: HK\$23,436,000)) at the end of the reporting period of the HK\$73,481,000 (2023: HK\$70,310,000), HK\$22,395,000 (2023: HK\$23,436,000) was considered creditimpaired and the related allowance for ECL was fully made in previous financial years. As such, the directors performed the ECL assessment on the remaining other receivables of HK\$51,086,000 (2023: HK\$46,874,000). In view of the credit status and recurring business relationships with the debtors, the directors considered that the remaining other receivables were not credit-impaired and the related ECL rate was minimal. Accordingly, no allowance for ECL was recognised during the vear ended 31 December 2024 (2023: Nil).

(e) Finance lease receivables

The Group's finance lease receivables arise from leasing residential serviced apartments erected on the Subject Land under long-term leases. The directors assessed that there had been no significant increase in the credit risk of the finance lease receivables since initial recognition. In view of the credit status of each of the lessees, the directors considered the credit risk was minimal. In addition. the credit risk associated with the finance lease receivables is also mitigated as the Group has the right to terminate the finance lease arrangement and takes possession of the residential serviced apartments if the lessees default in lease payments. Hence, the directors assessed that the 12-month ECL for finance lease receivables was insignificant and no allowance for ECL was recognised.

(d) 其他應收款項

本集團主要業務以外的交易產生其 他應收款項,及主要為主體地塊之 開發而向多名建築承建商及服務供 應商作出之現金墊款。

董事於報告期末對其他應收款 項73,481,000港元(二零二三 年:70,310,000港元)進行預期 信貸虧損評估(累計預期信貸虧損 撥備22,395,000港元(二零二三 年:23,436,000港元)前),於 73,481,000港元(二零二三年: 70.310.000港元)中,22,395,000 港元(二零二三年:23,436,000港 元) 被視為信貸減值, 相關預期信貸 虧損撥備已在過往財政年度全數作 出。因此,董事對51,086,000港元 (二零二三年:46.874.000港元)的 餘下其他應收款項進行預期信貸虧 損評估。鑑於信貸狀況及與債務人 的經常性業務關係,董事認為,餘 下其他應收款項並無信貸減值,相 關的預期信貸虧損率屬低水平。因 此,截至二零二四年十二月三十一 日止年度,並無確認預期信貸虧損 撥備(二零二三年:無)。

Liquidity risk

Ultimate responsibility for liquidity risk rests with the board of directors, which has built an appropriate liquidity risk management framework to meet the Group's short, medium and long-term funding and liquidity management requirements. The Group manages its liquidity risk by regularly monitoring liquidity and financial position, maintaining appropriate liquidity to cover commitments, limiting liquidity risk exposure by investing only in securities listed on major stock exchanges, and ensuring acceptable and appropriate finance in place, or believed to be available before committing investment projects.

At 31 December 2023, certain bank accounts of the Group amounted to RMB16,344,000 (equivalent to HK\$18,035,000) were frozen by a civil ruling issued by a court in the PRC. These events or conditions indicate that a material uncertainty exists that may cast significant doubts on the Group's ability to continue as a going concern. The certain bank accounts were unfrozen during the year ended 31 December 2024.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities based on the agreed repayment terms. The tables have been drawn up based on the undiscounted cash flows of the financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank borrowings and unsecured other borrowing with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

Bank borrowings, the unsecured other borrowing classified under "Other borrowings" and amounts due to associates with a repayable on demand clause are included in the "within 1 year or repayable on demand" time band in the above maturity analysis. At 31 December 2024, the undiscounted cash flows of the bank borrowings, unsecured other borrowing and amounts due to associates amounted to HK\$208,656,000 (2023: HK\$206,159,000), HK\$213,670,000 (2023: HK\$226,235,000) and HK\$7,560,000 (2023: HK\$9,385,000) respectively, which contained a repayable on demand clause. Taking into account the Group's financial position, the directors do not believe that it is probable that the counterparties will exercise their discretionary rights to demand immediate repayment. The directors believe that such bank borrowings, unsecured other borrowings and amounts due to associates will be repaid after the end of the reporting period in accordance with the scheduled repayment dates set out in the loan agreements, details of which are set out in the table below:

Fair value measurements of financial instruments

Fair value of the Group's financial assets and liabilities that are measured at fair value on a recurring basis

(a) Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13. The level into which a fair value measurement is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs, i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date;
- Level 2 valuations: Fair value measured using Level 2 inputs, i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available; and
- Level 3 valuations: Fair value measured using significant unobservable inputs.

The board of directors has appointed the Finance and Accounting Department, which is headed up by an executive director, to determine the appropriate valuation techniques and inputs for fair value measurements.

In estimating the fair value of an asset or a liability, the Group uses market observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages independent third party qualified valuers to perform valuation. The Finance and Accounting Department works closely with the independent third party qualified valuers to establish the appropriate valuation techniques and inputs to the model.
