

香港交易及結算所有限公司及香港聯合交易所有限公司(「香港聯交所」)對本公告的內容概不負責，對其準確性或完整性不發表任何聲明，並明確表示概不對因本公告全部或任何部分內容而產生或因依賴該等內容而引致的任何損失承擔任何責任。

本公告及本公告提述的上市文件僅供參考用途，並不構成收購、購買或認購證券的邀請或要約，亦不構成訂立任何協議以進行任何該等行為的邀請，且其並非旨在邀請任何收購、購買或認購任何證券的要約。

本公告不構成或組成任何在美國或任何其他司法管轄區中未經根據該等司法管轄區的證券法登記或取得資格而使該等要約、邀請或出售屬於非法的情況下出售證券的要約或購買或認購證券的邀請的一部分。本公告所述證券(「證券」)未曾亦不會根據1933年美國證券法(經修訂)(「證券法」)或美國任何州或任何其他司法管轄區的證券法註冊，除非根據《證券法》的註冊要求獲得豁免，或在不受該等註冊要求約束的交易中進行，否則證券不得於美國境內提呈發售或出售。因此，債券(定義見下文)僅可遵照《證券法》項下的S規例以離岸交易形式於美國境外提呈發售及出售。本公告及其所載資料不得直接或間接於美國境內或向美國境內分發或傳播。本公告所述證券的公開發售並非亦不會於美國進行。

本公告及其中所提述的上市文件乃根據香港聯合交易所有限公司證券上市規則(「上市規則」)的規定刊發，僅供參考用途，並不構成出售要約或招攬購買任何證券的要約。本公告或其中提述的任何內容(包括上市文件)均不構成任何合約或承諾的依據。為免生疑問，刊發本公告及其中所提述的上市文件不應被視為根據由或代表發行人(定義見下文)及擔保人(定義見下文)就香港法例第32章《公司(清盤及雜項條文)條例》刊發的招股章程提呈發售證券，亦不構成就香港法例第571章《證券及期貨條例》所指其中載有邀請公眾訂立或要約訂立協議以收購、出售、認購或包銷證券的廣告、邀請或文件。

致香港投資者的通告：發行人及擔保人確認，債券(定義見下文)擬僅供專業投資者(定義見香港聯合交易所有限公司證券上市規則第三十七章)購買，並已按此基準在香港聯交所上市。因此，發行人及擔保人確認，債券不適合香港個人投資者投資。投資者應審慎考慮所涉及的風險。

附錄一——日期為2025年6月12日的發行通函

IMPORTANT NOTICE

NOT FOR DISTRIBUTION DIRECTLY OR INDIRECTLY IN OR INTO THE UNITED STATES

IMPORTANT: You must read the following disclaimer before continuing. The following disclaimer applies to the offering circular (the “Offering Circular”) attached to this e-mail. You are therefore advised to read this disclaimer carefully before reading, accessing or making any other use of the Offering Circular. In accessing the Offering Circular, you agree to be bound by the following terms and conditions, including any modifications to them from time to time, each time you receive any information as a result of such access. You acknowledge that the access to the Offering Circular is intended for use by you only and you agree you will not forward or otherwise provide access to any other person.

NOTHING IN THIS ELECTRONIC TRANSMISSION CONSTITUTES AN OFFER OF SECURITIES FOR SALE IN THE UNITED STATES OR ANY OTHER JURISDICTION WHERE IT IS UNLAWFUL TO DO SO.

THE SECURITIES (THE “SECURITIES”) AND THE GUARANTEE (EACH AS DESCRIBED IN THE OFFERING CIRCULAR) HAVE NOT BEEN, AND WILL NOT BE, REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE “SECURITIES ACT”), OR THE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES OR OTHER JURISDICTION AND THE SECURITIES AND THE GUARANTEE MAY NOT BE OFFERED OR SOLD IN THE UNITED STATES, EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND APPLICABLE STATE OR LOCAL SECURITIES LAWS. THIS OFFERING IS MADE SOLELY IN OFFSHORE TRANSACTIONS PURSUANT TO REGULATION S UNDER THE SECURITIES ACT.

THE OFFERING CIRCULAR MAY NOT BE FORWARDED OR DISTRIBUTED TO ANY OTHER PERSON, ELECTRONICALLY OR OTHERWISE, AND MAY NOT BE REPRODUCED IN ANY MANNER WHATSOEVER AND, IN PARTICULAR, MAY NOT BE FORWARDED TO ANY ADDRESS IN THE UNITED STATES. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS DOCUMENT IN WHOLE OR IN PART IS UNAUTHORISED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS.

Confirmation of Your Representation: You have accessed the attached document on the basis that you have represented to the Issuer, the Guarantor, the Joint Lead Managers (each as defined in the Offering Circular), that: (1) you and any customers you represent are not in the United States, (2) the e-mail address that you gave us and to which this e-mail has been delivered is not located in the United States, (3) you consent to delivery of this document and any amendments or supplements by electronic transmission, and (4) to the extent you purchase the Securities, you will be doing so in an offshore transaction as defined in regulations under the Securities Act in compliance with Regulation S thereunder.

The communication of the attached document and any other document or materials relating to the issue of the securities offered hereby is not being made, and such documents and/or materials have not been approved, by an authorised person for the purposes of section 21 of the United Kingdom’s Financial Services and Markets Act 2000, as amended. Accordingly, such documents and/or materials are not being distributed to, and must not be passed on to, the general public in the United Kingdom. The communication of such documents and/or materials as a financial promotion is only being made to those persons in the United Kingdom falling within the definition of investment professionals (as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “Financial Promotion Order”), or within Article 49(2)(a) to (d) of the Financial Promotion Order, or to any other persons to whom it may otherwise lawfully be made under the Financial Promotion Order (all such persons together being referred to as “relevant persons”). In the United Kingdom, the securities offered hereby are only available to, and any investment or investment activity to which the attached document relates will be engaged in only with, relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on the attached document or any of its contents.

The Offering Circular has been made available to you in electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of transmission and consequently neither the Issuer, the Guarantor, the Joint Lead Managers, the Trustee, the Agents, nor any of their affiliates, directors, officers, employees, representatives, agents, advisers and each person who controls any of them accepts any liability or responsibility whatsoever in respect of any such alteration or change to the Offering Circular distributed to you in electronic format or any difference between the Offering Circular distributed to you in electronic format and the hard copy version.

Restrictions: The attached document is being furnished in connection with an offering in offshore transactions outside the United States in compliance with Regulation S under the Securities Act solely for the purpose of enabling a prospective investor to consider the purchase of the Securities.

Nothing in this electronic transmission constitutes, and may not be used in connection with, an offer or an invitation by or on behalf of any of the Issuer, the Guarantor or the Joint Lead Managers to subscribe or purchase any of the Securities, in any place where offers or solicitations are not permitted by law and access has been limited so that it shall not constitute in the United States or elsewhere directed selling efforts (within the meaning of Regulation S under the Securities Act). If a jurisdiction requires that the offering be made by a licensed broker or dealer and any Joint Lead Manager or any affiliate of a Joint Lead Manager is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by that Joint Lead Manager or such affiliate on behalf of the Issuer and the Guarantor in such jurisdiction. Any Securities to be issued in respect thereof will not be registered under the Securities Act and may not be offered or sold in the United States unless registered under the Securities Act or pursuant to an exemption from such registration. Access has been limited so that it shall not constitute a general solicitation in the United States or elsewhere. If you have gained access to this transmission contrary to the foregoing restrictions, you will be unable to purchase any of the Securities.

You are reminded that you have accessed the Offering Circular on the basis that you are a person into whose possession the Offering Circular may be lawfully delivered in accordance with the laws of the jurisdiction in which you are located.

Actions that you may not take: If you receive the Offering Circular by e-mail, you should not reply by e-mail to this electronic transmission, and you may not purchase any securities by doing so. Any reply e-mail communications, including those you generate by using the “Reply” function on your e-mail software, will be ignored or rejected.

You are responsible for protecting against viruses and other destructive items. Your use of this e-mail is at your own risk and it is your responsibility to take precautions to ensure that it is free from viruses and other items of a destructive nature.

HENGJIAN INTERNATIONAL INVESTMENT LIMITED

恒健國際投資有限公司

(incorporated in the British Virgin Islands with limited liability)

U.S.\$500,000,000 4.25 per cent. Guaranteed Bonds due 2028

Unconditionally and Irrevocably Guaranteed by

GUANGDONG HENGJIAN INVESTMENT HOLDING CO., LTD.

(廣東恒健投資控股有限公司)

(incorporated in the People's Republic of China with limited liability)

Issue Price: 99.66 per cent.

The 4.25 per cent. guaranteed bonds in the aggregate principal amount of U.S.\$500,000,000 (the “**Bonds**”) will be issued by Hengjian International Investment Limited 恒健國際投資有限公司 (the “**Issuer**”) and will be unconditionally and irrevocably guaranteed (the “**Guarantee**”) by Guangdong Hengjian Investment Holding Co., Ltd. (廣東恒健投資控股有限公司) (the “**Guarantor**”), a company incorporated under the laws of the People's Republic of China. The Issuer is an indirect wholly-owned subsidiary of the Guarantor.

The Bonds will bear interest on their outstanding principal amount from and including 17 June 2025 (the “**Issue Date**”) at the rate of 4.25 per cent. per annum, and such interest will be payable semi-annually in arrear in equal instalments on 17 June and 17 December in each year (each an “**Interest Payment Date**”), commencing on 17 December 2025. Unless previously redeemed, or purchased and cancelled, the Bonds will be redeemed at their principal amount on 17 June 2028.

The Bonds will constitute direct, unsubordinated, unconditional and (subject to Condition 4(a) of the terms and conditions of the Bonds (the “**Terms and Conditions of the Bonds**”)) unsecured obligations of the Issuer and shall at all times rank *pari passu* and without any preference among themselves. The payment obligations of the Issuer under the Bonds shall, save for such exceptions as may be provided by applicable legislation and subject to Condition 4(a) of the Terms and Conditions of the Bonds, at all times rank *pari passu* with all the Issuer's other present and future unsecured and unsubordinated obligations.

All payments of principal, premium (if any) and interest by or on behalf of the Issuer or the Guarantor in respect of the Bonds or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within the British Virgin Islands or the PRC or any political subdivision or any authority therein or thereof having power to tax, to the extent described in “**Terms and Conditions of the Bonds — Taxation**”.

The Guarantor has made an application for the pre-issuance registration (the “**Pre-Issuance Registration**”) in relation to the Bonds with the National Development and Reform Commission (the “**NDRC**”) in accordance with the Administrative Measures for the Review and Registration of Medium-to Long-Term Foreign Debt of Enterprises (企業中長期外債審核登記管理辦法(國家發展和改革委員會令第56號)) (the “**NDRC Foreign Debt Measures**”). The Guarantor has received an Enterprise Foreign Debt Filing Registration Certificate dated 3 January 2025 from the NDRC in connection with the Pre-Issuance Registration. Pursuant to the requirements of the NDRC Foreign Debt Measures, the Guarantor will be required to file or cause to be filed with the NDRC the requisite information and documents within 10 PRC Business Days (as defined in the Terms and Conditions of the Bonds) after the Issue Date (the “**Post-Issuance Filing**”).

The Guarantor will enter into a deed of guarantee (the “**Deed of Guarantee**”) with China Construction Bank (Asia) Corporation Limited (中國建設銀行(亞洲)股份有限公司) (the “**Trustee**”) on or around the Issue Date. The Guarantor will be required to register or cause to be registered with the Guangdong Branch (or other relevant branch) of the State Administration of Foreign Exchange (“**SAFE**”), the Deed of Guarantee within 15 PRC Business Days after execution of the Deed of Guarantee in accordance with the Provisions on the Foreign Exchange Administration of Cross-Border Guarantees (跨境擔保外匯管理規定) promulgated by SAFE on 12 May 2014 which came into effect on 1 June 2014 (the “**Cross-Border Security Provisions**”) (the “**Cross-Border Security Registration**”). The Guarantor shall use all reasonable endeavours to complete the Cross-Border Security Registration and obtain a registration certificate from SAFE (or any other document evidencing the completion of registration issued by SAFE) on or before the Registration Deadline (being the day falling 90 PRC Business Days after the Issue Date) and comply with all applicable PRC laws and regulations in relation to the Guarantee. The obligations of the Guarantor under the Guarantee shall, save for such exceptions as may be provided by applicable legislation and subject to Condition 4(a) of the Terms and Conditions of the Bonds, at all times rank *pari passu* with all its other present and future unsecured and unsubordinated obligations.

The Bonds may be redeemed at the option of the Issuer in whole, but not in part, at any time, at their principal amount together with any unpaid interest accrued up to, but excluding the date fixed for redemption, in the event of certain changes in, or amendments to, the laws and regulations of the British Virgin Islands or the PRC, as further described in the Terms and Conditions of the Bonds. See “**Terms and Conditions of the Bonds — Redemption and Purchase — Redemption for Taxation Reasons**”. At any time following the occurrence of a Change of Control or a No Registration Event (each as defined in the Terms and Conditions of the Bonds), the holder of any Bond will have the right, at such holder's option, to require the Issuer to redeem all but not some only of that holder's Bonds on the Put Settlement Date (as defined in the Terms and Conditions of the Bonds) at 101 per cent. (in the case of a redemption for a Change of Control) or 100 per cent. (in the case of a redemption for a No Registration Event) of their principal amount, together with any unpaid interest accrued up to and but excluding such Put Settlement Date. See “**Terms and Conditions of the Bonds — Redemption and Purchase — Redemption for Relevant Events**”.

The Bonds will be issued in the specified denomination of U.S.\$200,000 and integral multiples of U.S.\$1,000 in excess thereof.

Investing in the Bonds involves risks. See “**Risk Factors**” beginning on page 13 for a discussion of certain factors to be considered in connection with an investment in the Bonds.

The Bonds and the Guarantee have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”) and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. The Bonds and the Guarantee are being offered in offshore transactions outside the United States in reliance on Regulation S under the Securities Act. For a description of these and certain further restrictions on offers and sales of the Bonds and the distribution of this Offering Circular, see “**Subscription and Sale**”.

Application will be made to The Stock Exchange of Hong Kong Limited (the “**Hong Kong Stock Exchange**”) for the listing of, and permission to deal in, the Bonds by way of debt issues to professional investors (as defined in Chapter 37 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited) (“**Professional Investors**”) only and such permission is expected to become effective on 18 June 2025. This document is for distribution to Professional Investors only.

Notice to Hong Kong investors: the Issuer and the Guarantor confirm that the Bonds are intended for purchase by Professional Investors only and will be listed on the Hong Kong Stock Exchange on that basis. Accordingly, the Issuer and the Guarantor confirm that the Bonds are not appropriate as an investment for retail investors in Hong Kong. Investors should carefully consider the risks involved.

The Hong Kong Stock Exchange has not reviewed the contents of this document, other than to ensure that the prescribed form disclaimer and responsibility statements, and a statement limiting distribution of this document to Professional Investors only have been reproduced in this document. Listing of the Bonds on the Hong Kong Stock Exchange is not to be taken as an indication of the commercial merits or credit quality of the Bonds, the Issuer, the Guarantor, the Group or the quality of disclosure in this document. Hong Kong Exchanges and Clearing Limited and the Hong Kong Stock Exchange take no responsibility for the contents of this document, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.

The Bonds will be represented initially by beneficial interests in a global certificate (the “**Global Certificate**”) in registered form, which will be registered in the name of a nominee for, and shall be deposited on or about the Issue Date with, a common depositary for Euroclear Bank SA/NV (“**Euroclear**”) and Clearstream Banking S.A. (“**Clearstream**”). Beneficial interests in the Global Certificate will be shown on, and transfer thereof will be effected only through, records maintained by Euroclear and Clearstream. Except in the limited circumstances as described herein, certificates for Bonds will not be issued in exchange for interests in the Global Certificate.

The Guarantor has been assigned a rating of “A2” with a negative outlook by Moody's Investors Service, Inc (“**Moody's**”), “A” with a stable outlook by Fitch Ratings Inc. (“**Fitch**”) and “A” with a stable outlook by S&P Global Ratings (“**S&P**”). The Bonds are expected to be rated “A2” by Moody's. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, qualification, suspension, reduction or withdrawal at any time by the assigning rating agency.

Offering Circular dated 12 June 2025

IMPORTANT NOTICE

THIS OFFERING CIRCULAR DOES NOT CONSTITUTE AN OFFER TO SELL, OR A SOLICITATION OF AN OFFER TO BUY, ANY SECURITIES IN ANY JURISDICTION TO ANY PERSON TO WHOM IT IS UNLAWFUL TO MAKE THE OFFER OR SOLICITATION IN SUCH JURISDICTION. NEITHER THE DELIVERY OF THIS OFFERING CIRCULAR NOR ANY SALE MADE HEREUNDER SHALL UNDER ANY CIRCUMSTANCES IMPLY THAT THERE HAS BEEN NO CHANGE IN THE AFFAIRS OF THE ISSUER, THE GUARANTOR OR ANY OF THE GUARANTOR'S OTHER SUBSIDIARIES (COLLECTIVELY, THE "**GROUP**") OR THAT THE INFORMATION SET FORTH IN THIS OFFERING CIRCULAR IS CORRECT AS OF ANY DATE SUBSEQUENT TO THE DATE HEREOF.

This Offering Circular includes particulars given in compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited for the purpose of giving information with regard to the Issuer, the Guarantor and the Group. Each of the Issuer and the Guarantor accepts full responsibility for the accuracy of the information contained in this document and confirms, having made all reasonable enquiries, that to the best of its knowledge and belief there are no other facts the omission of which would make any statement herein misleading. Listing of the Bonds on the Hong Kong Stock Exchange is not to be taken as an indication of the merits of the Issuer, the Guarantor, the Group or the Bonds.

This Offering Circular has been prepared by the Issuer and the Guarantor solely for use in connection with the proposed offering of the Bonds and giving of the Guarantee described in this Offering Circular. The distribution of this Offering Circular, the offering of the Bonds and the giving of the Guarantee in certain jurisdictions may be restricted by law. Persons into whose possession this Offering Circular comes are required by the Issuer, the Guarantor and DBS Bank Ltd., Bank of China Limited, Singapore Branch, China International Capital Corporation Hong Kong Securities Limited, CLSA Limited, China Everbright Bank Co., Ltd., Hong Kong Branch, China Minsheng Banking Corp., Ltd. Hong Kong Branch, Guotai Junan Securities (Hong Kong) Limited, Hua Xia Bank Co., Limited Hong Kong Branch, Industrial Bank Co., Ltd. Hong Kong Branch and Luso International Banking Ltd. (together, the "**Joint Lead Managers**", and each a "**Joint Lead Manager**") to inform themselves about and to observe any such restrictions. No action is being taken to permit a public offering of the Bonds and the giving of the Guarantee or the possession or distribution of this Offering Circular or any offering or publicity material relating to the Bonds in any jurisdiction where such action is prohibited by law would be required for such purposes. There are restrictions on the offer and sale of the Bonds, and the circulation of documents relating thereto, in certain jurisdictions and to persons connected therewith. For a description of certain further restrictions on offers, sales and resales of the Bonds and the distribution of this Offering Circular, see "*Subscription and Sale*". This Offering Circular does not constitute an offer of, or an invitation to purchase, any of the Bonds in any jurisdiction in which such offer or invitation would be unlawful. By purchasing the Bonds, investors represent and agree to all of those provisions contained in that section of this Offering Circular.

The PRC government (including the Guangdong government and Guangdong SASAC) is not an obligor and shall under no circumstances have any obligation arising out of or in connection with the Bonds in lieu of the Issuer and/or the Guarantor. Any reference to government support in this Offering Circular shall not be read as indication that financial support will be given in respect of the Issuer's or the Guarantor's obligations under the Bonds. See "*Risk Factors — Risks relating to the Bonds — the PRC government (including the Guangdong Government and Guangdong SASAC) has no obligations under the Bonds.*"

No person has been or is authorised in connection with the issue, offer or sale of the Bonds to give any information or to make any representation concerning the Issuer, the Guarantor, the Group, the Bonds or the Guarantee of the Bonds, other than as contained herein and, if given or made, any such other information or representation should not be relied upon as having been authorised by the Issuer, the Guarantor, the Joint Lead Managers, the Trustee or the Agents (as defined in the Terms and

Conditions of the Bonds) or any of their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them. Neither the delivery of this Offering Circular nor any offering, sale or delivery made in connection with the issue of the Bonds shall, under any circumstances, constitute a representation that there has been no change or development reasonably likely to involve a change in the affairs of the Issuer, the Guarantor or the Group or any of them since the date hereof or create any implication that the information contained herein is correct as at any date subsequent to the date hereof. This Offering Circular does not constitute an offer of, or an invitation by or on behalf of the Issuer, the Guarantor, the Joint Lead Managers, the Trustee or the Agents or any of their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them to subscribe for or purchase any of the Bonds and may not be used for the purpose of an offer to, or a solicitation by, anyone in any jurisdiction or in any circumstances in which such offer or solicitation is not authorised or is unlawful.

This Offering Circular is being furnished by the Issuer and the Guarantor in connection with the offering of the Bonds exempt from registration under the Securities Act solely for the purpose of enabling a prospective investor to consider purchasing the Bonds. Investors must not use this Offering Circular for any other purpose, make copies of any part of this Offering Circular or give a copy of it to any other person, or disclose any information in this Offering Circular to any other person. The information contained in this Offering Circular has been provided by the Issuer and the Guarantor. Any reproduction or distribution of this Offering Circular, in whole or in part, and any disclosure of its contents or use of any information herein for any purpose other than considering an investment in the Bonds offered by this Offering Circular is prohibited. Each offeree of the Bonds, by accepting delivery of this Offering Circular, agrees to the foregoing.

The communication of this Offering Circular and any other document or materials relating to the issue of the Bonds offered hereby is not being made, and such documents and/or materials have not been approved, by an authorised person for the purposes of section 21 of the United Kingdom's Financial Services and Markets Act 2000, as amended. Accordingly, such documents and/or materials are not being distributed to, and must not be passed on to, the general public in the United Kingdom. The communication of such documents and/or materials as a financial promotion is only being made to those persons in the United Kingdom falling within the definition of investment professionals (as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “**Financial Promotion Order**”), or within Article 49(2)(a) to (d) of the Financial Promotion Order, or to any other persons to whom it may otherwise lawfully be made under the Financial Promotion Order (all such persons together being referred to as “**relevant persons**”). In the United Kingdom, the Bonds offered hereby are only available to, and any investment or investment activity to which this Offering Circular relates will be engaged in only with, relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on this Offering Circular or any of its contents.

No representation or warranty, express or implied, is made or given by the Joint Lead Managers, the Trustee or the Agents or any of their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them as to the accuracy, completeness or sufficiency of the information contained in this Offering Circular or any other information supplied in connection with the Bonds or the Guarantee of the Bonds and nothing contained in this Offering Circular is, or shall be relied upon as, a promise, representation or warranty by the Joint Lead Managers, the Trustee or the Agents or any of their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them. The Joint Lead Managers, the Trustee and the Agents and any of their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them have not independently verified any of the information contained in this Offering Circular and can give no assurance that this information is accurate, truthful or complete. Each person receiving this Offering Circular acknowledges that such person has not relied on the Joint Lead Managers, the Trustee or the Agents or any of their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them in connection with its investigation of the

accuracy of such information or its investment decision, and each such person must rely on its own examination of the Issuer and the Guarantor and the merits and risks involved in investing in the Bonds. See “*Risk Factors*” for a discussion of certain factors to be considered in connection with an investment in the Bonds.

To the fullest extent permitted by law, none of the Joint Lead Managers, the Trustee, the Agents or any of their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them accepts any responsibility for the contents of this Offering Circular or any statement made or purported to be made by any such person or on its behalf, in connection with the Issuer, the Guarantor, the Group, the issue and offering of the Bonds or the giving of the Guarantee of the Bonds. Each of the Joint Lead Managers, the Trustee, the Agents and their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them accordingly disclaims all and any liability whether arising in tort or contract or otherwise which it might otherwise have in respect of this Offering Circular or any such statement. None of the Joint Lead Managers, the Trustee, the Agents or any of their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them, undertakes to review the financial condition or affairs of the Issuer or the Guarantor for so long as the Bonds remain outstanding nor to advise any investor or potential investor of the Bonds of any information coming to the attention of the Joint Lead Managers, the Trustee, or the Agents or their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them.

This Offering Circular should not be considered as a recommendation by any of the Issuer, the Guarantor, Joint Lead Managers, the Trustee or the Agents or any of their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them that any recipient of this Offering Circular should purchase the Bonds. Each potential purchaser of the Bonds should determine for itself the relevance of the information contained in this Offering Circular and its purchase of the Bonds should be based upon such investigations with its own tax, legal and business advisers as it deems necessary.

Any of the Joint Lead Managers and their respective affiliates may purchase the Bonds for its or their own account and enter into transactions, including credit derivatives, such as asset swaps, repackaging and credit default swaps relating to the Bonds and/or other securities of the Issuer or the Guarantor or their respective subsidiaries or associates at the same time as the offer and sale of the Bonds or in secondary market transactions. Such transactions may be carried out as bilateral trades with selected counterparties and separately from any existing sale or resale of the Bonds to which this Offering Circular relates (notwithstanding that such selected counterparties may also be purchasers of the Bonds). Furthermore, investors in the Bonds may include entities affiliated with the Group.

Investors are advised to read and understand the contents of this Offering Circular before investing. If in doubt, investors should consult his or her advisor.

In making an investment decision, investors must rely on their own examination of the Issuer, the Guarantor, the Group and the terms of the offering of the Bonds, including the merits and risks involved. See “*Risk Factors*” for a discussion of certain factors to be considered in connection with an investment in the Bonds. The Issuer, the Guarantor, the Joint Lead Managers, the Trustee and the Agents and their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them are not making any representation to any purchaser of the Bonds regarding the legality of any investment in the Bonds by such purchaser under any legal investment or similar laws or regulations. The contents of this Offering Circular should not be construed as providing legal, business, accounting or investment advice. Each person receiving this Offering Circular acknowledges that such person has not relied on the Joint Lead Managers, the Trustee, the Agents or any of their respective directors, officers, advisers, employees, agents, affiliates, representatives or any person who controls any of them in connection with its investigation of the accuracy of such information or its investment decision.

Market data and certain industry forecasts and statistics in this Offering Circular have been obtained from both public and private sources, including market research, publicly available information and industry publications. Although the Issuer and the Guarantor believe this information to be reliable, this information has not been independently verified by the Issuer, the Guarantor, the Joint Lead Managers, the Trustee or the Agents or their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them, and none of the Issuer, the Guarantor, the Joint Lead Managers, the Trustee or the Agents or their respective affiliates, directors, officers, employees, agents, advisers, representatives or any person who controls any of them makes any representation as to the accuracy or completeness of that information. In addition, third party information providers may have obtained information from market participants and such information may not have been independently verified. This Offering Circular summarises certain documents and other information, and investors should refer to them for a more complete understanding of what is discussed in those documents.

The Issuer and the Guarantor, having made all reasonable inquiries, confirm that: (i) this Offering Circular contains all information with respect to the Issuer, the Guarantor, the Group, the Guarantee and the Bonds which is material in the context of the issue and offering of the Bonds; (ii) the statements contained in this Offering Circular relating to the Issuer, the Guarantor and the Group, are true and accurate in all material respects and not misleading; (iii) the opinions and intentions expressed in this Offering Circular with regard to the Issuer, the Guarantor and the Group are honestly and reasonably held, have been reached after considering all relevant circumstances and are based on reasonable assumptions; (iv) there are no other facts in relation to the Issuer, the Guarantor, the Group, the Bonds or the Guarantee, the omission of which would, in the context of the issue and offering of the Bonds, make any statement, opinions or intentions expressed in this Offering Circular misleading in any material respect; and (v) the Issuer and the Guarantor have made all reasonable enquiries to ascertain such facts and to verify the accuracy of all such information and statements in this Offering Circular.

The information about the Group's portfolio companies which were not consolidated for the purposes of the audited financial statements of the Group as at and for the years ended 31 December 2022, 2023 and 2024 contained in this Offering Circular is extracted or derived from the reports or other information issued by such portfolio companies. Although the Group believes such information to be reliable, such information not been independently verified by the Group and the Group does not make any representation as to the accuracy or completeness of such information. Please also note that other than as set forth in this Offering Circular, the reports and other information issued by such portfolio companies are not incorporated into this Offering Circular and should not be considered a part of this Offering Circular.

Important Notice to Prospective Investors

Prospective investors should be aware that certain intermediaries in the context of this offering of the Bonds, including certain Joint Lead Managers, are "capital market intermediaries" ("CMIs") subject to Paragraph 21 of the Code of Conduct for Persons Licensed by or Registered with the Securities and Futures Commission (the "SFC Code"). This notice to prospective investors is a summary of certain obligations the SFC Code imposes on such CMIs, which require the attention and cooperation of prospective investors. Certain CMI(s) may also be acting as "overall coordinators" ("OCs") for this offering and are subject to additional requirements under the SFC Code.

Prospective investors who are the directors, employees or major shareholders of the Issuer, the Guarantor, a CMI or its group companies would be considered under the SFC Code as having an association ("Association") with the Issuer, the Guarantor, the CMI or the relevant group company. Prospective investors associated with the Issuer, the Guarantor or any CMI (including its group companies) should specifically disclose this when placing an order for the Bonds and should disclose, at the same time, if such orders may negatively impact the price discovery process in relation to this

offering. Prospective investors who do not disclose their Associations are hereby deemed not to be so associated. Where prospective investors disclose their Associations but do not disclose that such order may negatively impact the price discovery process in relation to this offering, such order is hereby deemed not to negatively impact the price discovery process in relation to this offering.

Prospective investors should ensure, and by placing an order prospective investors are deemed to confirm, that orders placed are bona fide, are not inflated and do not constitute duplicated orders (i.e. two or more corresponding or identical orders placed via two or more CMIs). If a prospective investor is an asset management arm affiliated with any Joint Lead Manager, such prospective investor should indicate when placing an order if it is for a fund or portfolio where the Joint Lead Manager or its group company has more than 50 per cent. interest, in which case it will be classified as a “proprietary order” and subject to appropriate handling by CMIs in accordance with the SFC Code and should disclose, at the same time, if such “proprietary order” may negatively impact the price discovery process in relation to this offering. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not a “proprietary order”. If a prospective investor is otherwise affiliated with any Joint Lead Manager, such that its order may be considered to be a “proprietary order” (pursuant to the SFC Code), such prospective investor should indicate to the relevant Joint Lead Manager when placing such order. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not a “proprietary order”. Where prospective investors disclose such information but do not disclose that such “proprietary order” may negatively impact the price discovery process in relation to this offering, such “proprietary order” is hereby deemed not to negatively impact the price discovery process in relation to this offering.

Prospective investors should be aware that certain information may be disclosed by CMIs (including private banks) which is personal and/or confidential in nature to the prospective investor. By placing an order, prospective investors are deemed to have understood and consented to the collection, disclosure, use and transfer of such information by the Joint Lead Managers and/or any other third parties as may be required by the SFC Code, including to the Issuer, the Guarantor, any OCs, relevant regulators and/or any other third parties as may be required by the SFC Code, it being understood and agreed that such information shall only be used for the purpose of complying with the SFC Code, during the bookbuilding process for this offering. Failure to provide such information may result in that order being rejected.

IN CONNECTION WITH THE ISSUE OF THE BONDS, THE JOINT GLOBAL COORDINATORS, AS STABILISATION COORDINATORS (EACH A “STABILISATION COORDINATOR”) (OR PERSONS ACTING ON BEHALF OF A STABILISING COORDINATOR), MAY OVER-ALLOT BONDS OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE BONDS AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, THERE IS NO ASSURANCE THAT THE STABILISATION COORDINATOR (OR PERSONS ACTING ON BEHALF OF A STABILISATION COORDINATOR) WILL UNDERTAKE STABILISATION ACTION. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE BONDS IS MADE AND, IF BEGUN, MAY BE ENDED AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE BONDS AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE BONDS. ANY STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE STABILISATION COORDINATOR (OR PERSONS ACTING ON BEHALF OF A STABILISATION COORDINATOR) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

The contents of this Offering Circular have not been reviewed by any regulatory authority in any jurisdiction. Investors are advised to exercise caution in relation to the offer. If investors are in any doubt about any of the contents of this Offering Circular, investors should obtain independent professional advice.

PRESENTATION OF FINANCIAL INFORMATION

This Offering Circular contains the audited consolidated financial information of the Guarantor as at and for the years ended 31 December 2022, 2023 and 2024, which are derived from the Guarantor's consolidated financial statements for the years ended 31 December 2023 and 2024 (the “**Guarantor's Consolidated Financial Statements**”). The Guarantor's Consolidated Financial Statements were prepared and presented in accordance with the Accounting Standards for Business Enterprises in China (“**PRC GAAP**”) and have been audited by ShineWing Certified Public Accountants LLP (信永中和會計師事務所(特殊普通合夥)) (“**ShineWing**”).

The Guarantor has not prepared its financial statements or consolidated financial statements, as the case may be, in accordance with IFRS. PRC GAAP differs in certain respects from IFRS. See “*Description of Certain Differences Between PRC GAAP and IFRS*”.

The Guarantor's Consolidated Financial Statements have been prepared in Chinese only and are available on the website of Shanghai Clearing House at <https://www.shclearing.com.cn/>. An English translation of the Guarantor's Consolidated Financial Statements (collectively, the “**Financial Statements Translation**”) has been prepared by ShineWing and included in this Offering Circular for reference only. None of the Joint Lead Managers, the Trustee, the Agents or their respective affiliates, directors, officers, employees, advisers, agents, representatives or any person who controls any of them have independently verified or checked the accuracy of the Financial Statements Translation and can give no assurance that the information contained in the Financial Statements Translation is accurate, truthful or complete.

ROUNDING

In this Offering Circular, where information has been presented in thousands or millions of units, amounts may have been rounded up or down. Accordingly, figures shown as totals in certain table may not be an arithmetic aggregation of the figures which precede them. References to information in billions of units are to the equivalent of a thousand million units.

CERTAIN DEFINITIONS AND CONVENTIONS

In this Offering Circular, unless otherwise indicated or the context otherwise requires, references to:

Unless the context otherwise requires, references to “2022”, “2023” and “2024” in this Offering Circular means the Group's financial years ended 31 December 2022, 2023 and 2024, respectively.

- “**Baogang Zhanjiang**” refers to Bao Steel Zhanjiang Iron & Steel Co., Ltd (寶鋼湛江鋼鐵有限公司);
- “**CAIGA**” refers to China Aviation Industry General Aircraft Co., Ltd. (中航通用飛機有限責任公司);
- “**CGN Power**” refers to CGN Power Co., Ltd. (中國廣核電力股份有限公司);
- “**CGN Power Group**” refers to China General Nuclear Power Group Co., Ltd. (中國廣核集團有限公司);
- “**China**” or the “**PRC**” refers to the People's Republic of China, excluding, for the purposes of this Offering Circular only, Taiwan, Hong Kong and the Macau Special Administrative Region;

- **“VAT”** refers to value-added tax.

Unless otherwise stated in this Offering Circular, all translations from Renminbi into U.S. dollars were made at the rate of RMB7.2993 to U.S.\$1.00 based on the noon buying rate as set forth in the H.10 statistical release of the Federal Reserve Board on 31 December 2024. All such translations in this Offering Circular are provided solely for convenience and no representation is made that the Renminbi amounts referred to herein have been, could have been or could be converted into U.S. dollars, or vice versa, at any particular rate, or at all. For further information relating to exchange rates, see “*Exchange Rate Information*”.

Unless specified otherwise, references in this Offering Circular to, and financial and other information presented with respect to, the Group are to such information of the Guarantor compiled on a consolidated basis.

The English names of the PRC nationals, entities, departments, facilities, laws, regulations, certificates, titles and the like are translations of their Chinese names and are included for identification purposes only.

FORWARD-LOOKING STATEMENTS

This Offering Circular contains certain forward-looking statements. All statements other than statements of historical facts contained in this Offering Circular constitute “forward-looking statements”. Some of these statements can be identified by forward-looking terms, such as “anticipate”, “target”, “believe”, “can”, “would”, “could”, “estimate”, “expect”, “aim”, “intend”, “may”, “plan”, “will”, “would” or similar words. However, these words are not the exclusive means of identifying forward-looking statements. All statements regarding expected financial condition and results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include but are not limited to statements as to the business strategy, revenue and profitability, planned projects and other matters as they relate to the Group discussed in this Offering Circular regarding matters that are not historical fact. These forward-looking statements and any other projections contained in this Offering Circular (whether made by the Group or by any third party) involve known and unknown risks, including those disclosed under the caption “Risk Factors”, assumptions, uncertainties and other factors that may cause the actual results, performance or achievements of the Group to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or other projections.

These forward-looking statements speak only as at the date of this Offering Circular. The Issuer and the Guarantor expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in the Group’s expectations with regard thereto or any change of events, conditions or circumstances, on which any such statement was based.

The factors that could cause the Group’s actual results, performance and achievements of to be materially different include, among others:

- the Group’s business and operating strategies;
- the Group’s capital commitment and development plans;
- the amount and nature of, and potential for, future development of the Group’s business;
- various business opportunities that the Group may pursue;
- the regulatory environment of the industries in which the Group operates;
- changes in political, economic, legal and social conditions, in particular in the PRC, including the specific policies of the PRC central and local governments affecting the regions where the Group operates;
- the prospective financial condition and performance regarding the Group’s businesses;
- availability and costs of financing;
- changes in competitive conditions and the Group’s ability to compete under these conditions;
- the Group’s ability to obtain additional capital on acceptable terms;
- reduction or discontinuance of the government subsidies and other government grants or the mismatch in terms of timing of the availability of the government fiscal support and that of the Group’s cash flow requirement; and
- other risks identified in “*Risk Factors*” in this Offering Circular.

Neither the Issuer or the Guarantor undertake any obligation to update or revise publicly any of the opinions or forward-looking statements expressed in this Offering Circular as a result of any new information, future events or otherwise.

SUMMARY

The summary below is only intended to provide a limited overview of information described in more detail elsewhere in this Offering Circular. As it is a summary, it does not contain all of the information that may be important to investors and terms defined elsewhere in this Offering Circular shall have the same meanings when used in this summary. Prospective investors should therefore read this Offering Circular in its entirety, including the “Risk Factors” section in this Offering Circular, before making any investor decision.

OVERVIEW

The Group is wholly-owned by Guangdong SASAC and is the sole provincial-level state-owned capital operating company in Guangdong province, combining both industrial production capabilities and financial service capabilities. Since its establishment in 2006, the Group has played an essential and active role in implementing the Guangdong government’s major strategic initiatives for optimising the allocation of state-owned assets in and around Guangdong province, and has received strong financial and operational support from the Guangdong government. Over the years, the Group has diversified its business portfolio to include a power business, a policy-driven investment and asset management business and a financial investment business. After more than a decade of operation, the Guarantor has become a leading enterprise in Guangdong province in terms of net assets and financial strength.

As the sole provincial-level state-owned capital operation company in Guangdong province, the Group performs financing, investment and capital operation functions for the Guangdong government. In terms of its financing function, the Group is committed to the financing of major infrastructure projects in Guangdong province and to satisfying the financing requirements for urban development projects in and around the province. To perform its state-owned assets investment function, the Group has established a number of investment funds and participated in several significant projects in Guangdong province, including raising funds for China Southern Airlines and establishing Guangdong Advanced Manufacturing Industry Investment Fund and Guangdong Listed Company High-quality Development Fund for promoting the industrial upgrade in Guangdong province. The Group also invests in infrastructure construction projects in the Guangdong-Hong Kong-Macau Bay Area through the management of the Guangdong-Macau Cooperation and Development Fund. For its capital operation function, the Group operates state assets and seeks to facilitate and promote the development of SOEs through its financing capabilities. The Group currently holds equity interests in a number of large-scale SOEs, such as Southern Power Grid, CGN Power Group, CAIGA and Baogang Zhanjiang. Drawing on its strengths as a state-owned capital operation company, the Group has sustained cooperation with central SOEs to increase their investment presence in Guangdong province.

The Group’s business primarily consists of three major business segments, namely, power business, financial investment and policy-driven investment and asset management. Set forth below is a summary of each of the Group’s business segments:

- **Power Business:** The Group is principally engaged in power generation, coal sales and logistics businesses. The Group conducts its power business primarily through Guangdong Energy, a subsidiary of the Guarantor. Guangdong Energy is the largest energy group in Guangdong province in terms of total controlled installed capacity and is one of the largest regional energy groups in China in terms of total controlled installed capacity as at 31 December 2024. For the years ended 31 December 2022, 2023 and 2024, revenue generated from the Group’s power business was approximately RMB73,812.0 million, RMB83,593.6 million and RMB83,760.4 million, respectively, representing approximately 96.7 per cent., 97.4 per cent. and 97.2 per cent. of the Group’s total revenue for the corresponding periods.

- **Financial Investment:** The Group engages in diversified financial investments for its own account, including by way of acquisitions, equity investments, fund investments and management and venture capital investments. For the years ended 31 December 2022, 2023 and 2024, revenue generated from the Group's financial investment was approximately RMB2,497.5 million, RMB2,219.2 million and RMB2,387.2 million, respectively, representing approximately 3.3 per cent., 2.6 per cent. and 2.8 per cent. of the Group's total revenue for the corresponding periods.
- **Policy-driven Investment and Asset Management:** As the sole provincial-level state-owned capital operation company in Guangdong province, the Group is entrusted by the Guangdong government and Guangdong SASAC to hold equity interests in a number of SOEs, including, among others, CGN Power Group, Southern Power Grid and Baogang Zhanjiang. Through the integration of their resources and capital market operations, the Group invests in, manages and operates state-owned assets, and optimises asset allocations for each SOE in which it has an equity stake. For the years ended 31 December 2022, 2023 and 2024, the Group's investment income derived from its policy-driven investment and asset management segment was approximately RMB2,315.7 million, RMB5,930.2 million and RMB5,963.1 million, respectively.

As at 31 December 2024, the paid-up capital of the Guarantor was approximately RMB24.7 billion and the total assets of the Group was approximately RMB506.7 billion. For the years ended 31 December 2022, 2023 and 2024, the Group recorded a total revenue of approximately RMB76.3 billion, RMB85.8 billion and RMB86.1 billion, respectively, and a total gross profit of approximately RMB4.9 billion, RMB14.8 billion and RMB14.6 billion, respectively.

COMPETITIVE STRENGTHS

The Group believes that its competitive strengths outlined below distinguishes it from its competitors and are important to its success and future development:

- The Group primarily operates in Guangdong province, which has demonstrated strong economic growth and financial strength
- Sole provincial-level state-owned asset management platform under Guangdong SASAC, with strong support from the Guangdong government
- Quality asset portfolio supported by increasing growth of emerging businesses
- Diversified funding channels
- Comprehensive and effective risk management system
- Experienced management and operational teams with sound corporate governance

BUSINESS STRATEGIES

The Group will continue to enhance the operation of state-owned assets, promote the optimisation of the allocation of state-owned assets, support the industrial and social and economic development of Guangdong province and participate in the development of the Guangdong-Hong Kong-Macau Greater Bay Area. The Group operates under a resource-integrated fund model, which aims to take advantage of the fund-integrating policies, industries, capital and science and research resources, supporting the development of strategic industries or emerging industries. The Group also devotes itself to the construction of modern industrial system in Guangdong province, meanwhile optimising the allocation of state-owned capital as well as maintaining and increasing its value.

Through the implementation of the following strategies, the Group aims to become a top nationwide state-owned assets operating company with a global level of competitiveness:

- Continue to enhance the Group's ability to operate state-owned assets and support the economic development of Guangdong province and the Guangdong-Hong Kong-Macau Greater Bay Area
- Preserving and increasing the value of state-owned assets by continuing to enhance the operational efficiency and investment returns of state-owned assets
- Strengthen risk management and internal control systems

RECENT DEVELOPMENT

Additional Indebtedness since 31 December 2024

Since 31 December 2024, the Group has incurred additional indebtedness. In particular, in January 2025, the Guarantor issued RMB2.0 billion 2.20 per cent. medium-term notes with a tenor of 15 years; in March 2025, the Guarantor issued RMB2.2 billion 2.42 per cent. corporate bonds with a tenor of 10 years and in April 2025, the Guarantor issued RMB1.0 billion 2.30 per cent. medium-term notes with a tenor of 15 years.

Performance of the Group as at and for the three months ended 31 March 2025

On 30 April 2025, the Guarantor published its financial statements as at and for the three months ended 31 March 2025 (the “**2025 Q1 Financial Statements**”) on the website of the Shanghai Clearing House, which were not subject to an audit or review.

For the three months ended 31 March 2025, the total operating revenue and total operating cost of the Group declined as compared to the same period in 2024, while the Group's total operating profit and net profit increased as compared to the corresponding period in 2024. This is primarily attributable to the increase in investment income of the Group for the three months ended 31 March 2025. As at 31 March 2025, the Group's total assets increased as compared to the balance as at 31 December 2024. As at 31 March 2025, total liabilities of the Group increased as compared to the balance as at 31 December 2024, which is primarily attributable to the increases in the Group's long-term loans and bonds payable incurred to meet the Group's increasing capital needs as it continued to expand its businesses.

The financial information in the 2025 Q1 Financial Statements may differ from future audited or reviewed information and the 2025 Q1 Financial Statements should not be relied upon by potential investors to provide the same quality of information associated with information that has been subject to an audit or review. The 2025 Q1 Financial Statements should not be taken as an indication of the financial condition or results of operations of the Group for the full financial year ending 31 December 2025. The 2025 Q1 Financial Statements does not constitute part of this Offering Circular. See “*Risk Factors — Risks Relating to the Group's Financial Information — Investors should be cautious and not place any reliance on the financial information other than that disclosed in this Offering Circular.*”.

THE OFFERING

The following summary contains some basic information about the Bonds. Some of the terms described below are subject to important limitations and exceptions. Words and expressions defined in “Terms and Conditions of the Bonds” shall have the same meanings in this summary. For a more complete description of the terms and conditions of the Bonds, see “Terms and Conditions of the Bonds”.

Issuer	Hengjian International Investment Limited 恒健國際投資有限公司.
Legal Entity Identification of the Issuer	3003009ZQDYGEQ6JXB25.
Guarantor	Guangdong Hengjian Investment Holding Co., Ltd. (廣東恒健投資控股有限公司).
Issue	U.S.\$500,000,000 4.25 per cent. guaranteed bonds due 2028.
Guarantee	The Guarantor will unconditionally and irrevocably guarantee the due payment of all sums expressed to be payable by the Issuer under the Trust Deed and the Bonds. Its obligations in that respect will be contained in the Deed of Guarantee.
Issue Price	99.66 per cent.
Form and Specified Denomination	The Bonds will be issued in registered form in the specified denomination of U.S.\$200,000 and integral multiples of U.S.\$1,000 in excess thereof.
Interest	The Bonds will bear interest on their outstanding principal amount from and including 17 June 2025 at the rate of 4.25 per cent. per annum, payable semi-annually in arrear in equal instalments on 17 June and 17 December in each year commencing on 17 December 2025.
Issue Date	17 June 2025.
Maturity Date	17 June 2028.
Use of Proceeds	The gross proceeds from the offering of the Bonds will be used for refinancing medium to long-term offshore debts of the Issuer. See “ <i>Use of Proceeds</i> ”.
Status of the Bonds	The Bonds will constitute direct, unsubordinated, unconditional and (subject to Condition 4(a) of the Terms and Conditions of the Bonds) unsecured obligations of the Issuer and shall at all times rank <i>pari passu</i> and without any preference among themselves. The payment obligations of the Issuer under the Bonds shall, save for such exceptions as may be provided by applicable legislation and subject to Condition 4(a) of the Terms and Conditions of the Bonds, at all times rank <i>pari passu</i> with all the Issuer’s other present and future unsecured and unsubordinated obligations.

Status of the Guarantee	The obligations of the Guarantor under the Guarantee shall, save for such exceptions as may be provided by applicable legislation and subject to Condition 4(a) of the Terms and Conditions of the Bonds, at all times rank <i>pari passu</i> with all its other present and future unsecured and unsubordinated obligations.
Negative Pledge	The Bonds will contain a negative pledge provision as further described in Condition 4(a) of the Terms and Conditions of the Bonds.
Events of Default	Upon the occurrence of certain events as described in Condition 9 of the Terms and Conditions of the Bonds, the Trustee at its sole and absolute discretion may, and if so requested in writing by holders of at least 25 per cent. in principal amount of the Bonds then outstanding or if so directed by an Extraordinary Resolution (as defined in the Trust Deed) shall (provided in any such case that the Trustee shall have been indemnified and/or secured and/or pre-funded to its satisfaction), give written notice to the Issuer and the Guarantor that the Bonds are, and they shall immediately become, due and payable at their principal amount together (if applicable) with any accrued and unpaid interest.
Cross-Default	The Bonds are subject to a cross-default provision in respect of present or future indebtedness for or in respect of moneys borrowed or raised or any guarantee and/or indemnity thereof of the Issuer or the Guarantor or any of their respective Subsidiaries in aggregate equals or exceeds U.S.\$80 million or its equivalent. See Condition 9(c) of the Terms and Conditions of the Bonds.
Taxation	<p>All payments of principal, premium (if any) and interest by or on behalf of the Issuer or the Guarantor in respect of the Bonds or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within the British Virgin Islands or the PRC or any political subdivision or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.</p> <p>If the Issuer or the Guarantor is required to make a deduction or withholding required by law, the Issuer or the Guarantor, as the case may be, shall pay (except in certain circumstances set out in Condition 8 of the Terms and Conditions of the Bonds) such additional amounts as will result in receipt by the Bondholders of such amounts as would have been received by them had no such withholding or deduction been required. See “<i>Terms and Conditions of the Bonds — Taxation</i>”.</p>

Final Redemption	Unless previously redeemed, or purchased and cancelled, the Bonds will be redeemed at their principal amount on the Maturity Date.
Redemption for Taxation Reasons	The Bonds may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than 30 nor more than 60 days' notice to the Bondholders (which notice shall be irrevocable) and in writing to the Trustee and Principal Paying Agent, at their principal amount together with interest accrued up to, but excluding the date fixed for redemption, at any time in the event of certain changes in, or amendments to, the laws and regulations of the British Virgin Islands or the PRC, as further described in " <i>Terms and Conditions of the Bonds — Redemption and Purchase — Redemption for Taxation Reasons</i> ".
Redemption for Relevant Events	At any time following the occurrence of a Change of Control or a No Registration Event (each a " Relevant Event "), the holder of any Bond will have the right, at such holder's option, to require the Issuer to redeem all but not some only of that holder's Bonds on the Put Settlement Date at 101 per cent. (in the case of a redemption for a Change of Control) or 100 per cent. (in the case of a redemption for a No Registration Event) of their principal amount, together with accrued interest up to but excluding such Put Settlement Date. See " <i>Terms and Conditions of the Bonds — Redemption and Purchase — Redemption for Relevant Events</i> ".
Further Issues	The Issuer may from time to time without the consent of the Bondholders create and issue further securities having the same terms and conditions as the Bonds in all respects (or in all respects except for the issue date, the first payment of interest on them, the timing for the Post-Issuance Filing and the timing for completion of the Cross-Border Security Registration and the making of the notifications in respect thereof) and so that such further issue shall be consolidated and form a single series with the outstanding Bonds, as further described in " <i>Terms and Conditions of the Bonds — Further Issues</i> ".
Clearing Systems	The Bonds will be represented by beneficial interests in a Global Certificate in registered form, which will be registered in the name of a nominee for, and shall be deposited on or about the Issue Date with, a common depository for Euroclear and Clearstream. Beneficial interests in the Global Certificate will be shown on, and transfers thereof will be effected only through, records maintained by Euroclear and Clearstream. Except in the limited circumstances as described herein, certificates for Bonds will not be issued in exchange for interests in the Global Certificate.
Governing Law and Jurisdiction	English law. Exclusive jurisdiction of the Hong Kong courts.

Trustee	China Construction Bank (Asia) Corporation Limited (中國建設銀行(亞洲)股份有限公司).
Principal Paying Agent	China Construction Bank (Asia) Corporation Limited (中國建設銀行(亞洲)股份有限公司).
Registrar and Transfer Agent . .	China Construction Bank (Asia) Corporation Limited (中國建設銀行(亞洲)股份有限公司).
Listing.	Application will be made to the Hong Kong Stock Exchange for the listing of, and permission to deal in, the Bonds by way of debt issues to Professional Investors only.
Rating.	The Bonds are expected to be rated “A2” by Moody’s. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, qualification, suspension, reduction or withdrawal at any time by the assigning rating agency. Prospective investors should evaluate each rating independently of any other rating of the Bonds or other securities of the Issuer or the Guarantor.
ISIN	XS3059267362.
Common Code	305926736.

SUMMARY CONSOLIDATED FINANCIAL INFORMATION OF THE GROUP

The summary audited consolidated financial information of the Guarantor as at and for the years ended 31 December 2022, 2023 and 2024, as set out below, has been derived from the Guarantor's Consolidated Financial Statements, which have been audited by ShineWing.

The Guarantor's Consolidated Financial Statements were prepared and presented in accordance with PRC GAAP. The Guarantor's Consolidated Financial Statements have been prepared in Chinese only and the Financial Statements Translation has been prepared and included in this Offering Circular for reference only. None of the Joint Lead Managers, the Trustee, the Agents or their respective affiliates, directors, officers, employees, advisers, agents or representatives or any person who controls any of them has independently verified or checked the accuracy of the Financial Statements Translation and can give no assurance that the information contained in the Financial Statements Translation is accurate, truthful or complete.

Prospective investors should read the summary audited consolidated financial information below in conjunction with the Guarantor's Consolidated Financial Statements and the related notes included elsewhere in this Offering Circular. Historical results are not necessarily indicative of results that may be achieved in any future period.

RISK FACTORS

Prior to making any investment decision, prospective investors should consider carefully all of the information contained in this Offering Circular, including the risks and uncertainties described below. The business, financial condition or results of operations of the Group could be materially and adversely affected by any of these risks. The Issuer and the Guarantor believe that the risk factors described below represent the principal risks inherent in investing in the Bonds, but the ability of the Issuer or the Guarantor to pay interest, principal or other amounts on or in connection with any Bonds may be affected by some factors that may not be considered as significant risks by the Issuer, the Guarantor or the Group on information currently available to them or which they are currently unable to anticipate. Additional risks and uncertainties not presently known to the Group or which the Group currently deems immaterial may also have an adverse effect on an investment in the Bonds. All of these factors are contingencies which may or may not occur and the Group is not in a position to express a view on the likelihood of any such contingency occurring.

Factors which the Group believes may be material for the purpose of assessing the market risks associated with the Bonds are described below. The Group believes that the factors described below represent the principal risks inherent in investing in the Bonds, but the inability of the Group to repay principal, pay interest or other amounts or fulfil other obligations on or in connection with the Bonds may occur for other reasons and the Group does not represent that the statements below regarding the risks of holding the Bonds are exhaustive.

RISKS RELATING TO THE GROUP'S BUSINESS IN GENERAL

Any adverse change in the economic development or social conditions of Guangdong province and the PRC could materially and adversely affect the Group's business, financial condition, results of operations and prospects.

Revenue of the Group is substantially derived from its business operations in Guangdong province, and will continue to be substantially derived from its operations in Guangdong province in the near future. In light of the Group's businesses being concentrated in Guangdong province, the Group is exposed to risks associated with such concentration. The Group's business, financial condition, results of operations and prospects have been and will continue to be heavily dependent on the level of economic development in Guangdong province. Any economic slowdown in Guangdong province could reduce the demand for the Group's electricity supply, power facilities and the services rendered by the Group.

In recent years, there has been a slowdown in the growth of China's economic development as evidenced by the decrease in China's gross domestic product annual growth rate. See "*Risk Factors — Risks Relating to the PRC — The PRC has experienced a slowdown in its economic development and the future performance of the PRC's economy is uncertain*". It is unclear how the economic development in Guangdong province will be affected by a perceivable slowdown in the growth of the PRC economy, and there is no assurance that the policies and measures issued by the PRC government will be effective in stimulating the recovery of the economy. There can be no assurance that the level of economic development in Guangdong province or the PRC will continue to be maintained at the past rate of growth. Any slowdown in the economic development in Guangdong province or the PRC may affect the PRC government's support or the Guangdong investments in the industries where the Group operates, and therefore adversely affect its business, financial condition, profitability, results of operations and prospects.

The Group's performance and financial condition are largely dependent on fiscal and other government policies and public spending on infrastructure of the Guangdong government.

The Guarantor is the sole provincial-level state-owned capital operation company in Guangdong province. Since its establishment in 2006, the Guarantor has played an important role in implementing the Guangdong government's blueprint for the energy industry and infrastructure construction

projects, and has received strong financial and operational support from the Guangdong government. The Guarantor also participates in SOE reform and development through the financing and management of state-owned assets for SOEs. Due to the nature of the Group's businesses, its business and financial performance may be materially affected by changes to the public budget of the Guangdong government, especially by any significant reduction in the Guangdong government's public spending.

The Guangdong government's investment plans in public infrastructure and SOE reform and development are affected by a number of factors including the nature, scale, location and timing of the investments, the PRC government's policies and priorities concerning the development of different regions of China, the Guangdong government's fiscal and monetary policies and the availability of credit and funding for projects. These factors may be directly affected by changes in the economic conditions in the PRC generally and in Guangdong province. In addition, any sustained slowdown or material deterioration in China's overall economic conditions may increase the vulnerability of the economic conditions of Guangdong province and the fiscal conditions of the Guangdong government, which could in turn materially and adversely affect the Guangdong government's investment plans in public infrastructure and SOE reform and development. If the Guangdong government decreases or intends to decrease spending on such public investment plans, the Group's business, financial condition, results of operations and prospects may be materially and adversely affected. Furthermore, while the Guangdong government has adopted preferential policies for a number of industries in which the Group conducts its businesses and has granted governmental support through such means as cash injections and equity transfers, there can be no assurance that the Guangdong government will not change or terminate such preferential policies or governmental support. Any adverse change in the economic development, social conditions or government policies in Guangdong province could materially and adversely affect the Group's business, financial conditions, results of operations and prospects.

The Guangdong government can exert significant influence on the Group, and could cause the Group to make decisions or modify the scope of its activities, or impose new obligations on the Group, that may not be in the Group's best interests.

The Group is wholly-owned by Guangdong SASAC and, accordingly, the Guangdong government is able to significantly influence the Group's major business decisions and strategies, including the scope of its activities, investment decisions and dividend policy. There can be no assurance that Guangdong SASAC will always take actions that are in the Group's best interests or that aim to maximise the Group's profits. For example, Guangdong SASAC could use its ability to influence the Group's business and strategy in a manner beneficial to Guangdong province as a whole, which may not necessarily be in the Group's best interests. The Guangdong government may also change its policies, plans, preferences, views, expectations, projections, forecasts and opinions, as a result of changes in the PRC's economic, political and social environment, its projections of population and employment growth, which may in turn have a material effect on the Group's business and prospects. Any amendment, modification or repeal of existing policies of the Guangdong government could result in a modification of the existing regulatory regime which in turn could have a material adverse effect on the Group's financial condition and results of operations.

PRC regulations on the administration of fiscal debts of local governments may materially and adversely affect the Group's financing condition, results of operation and business prospect.

The Group's results of operations and financial condition may be affected by changes in the regulation of the PRC government concerning local government debts. Various PRC government entities maintain and enforce regulations related to local government financing vehicles ("LGFV"). See "PRC Laws and Regulations — Regulation on Fiscal Debts of Local Governments". The PRC government has released several additional regulations and rules relating to the financing vehicles of local governments in the PRC. The PRC government may also continue to release new policies or amend existing regulations to control the increase in local government debts in the PRC. The implementation

and interpretation of the legislations, regulations and rules by the PRC central government and different local governments may vary from one to the other. It is uncertain how they will be implemented and how it will affect the Group's business and financial performance in the future. There is also no assurance that the Group's financing model and business model will not be materially affected by future changes in the regulatory regime concerning local government fiscal debts and the financing platforms of local governments.

Changes in government grants or other incentives currently received by the Group from local governments may adversely affect the Group's business, results of operations and financial conditions.

A certain portion of the Group's operations are currently entitled to government grants or other incentives from local governments. For the years ended 31 December 2022, 2023 and 2024, the government grants received by the Group amounted to approximately RMB13.8 million, RMB15.8 million and RMB0.5 million, respectively, representing 4.9 per cent., 8.9 per cent. and 0.2 per cent. of the Group's non-operating income for the corresponding periods. There can be no assurance that such government grants or incentives will not be reduced or revoked, or that upon the expiration of the current preferential treatment or grant periods, these projects of the Group will be entitled to other government grants or incentives. A reduction or discontinuance of such government subsidies or support may materially and adversely affect the Group's financial condition and results of operations.

The Group faces risks associated with contracting with public bodies.

As the sole provincial-level state-owned capital operation company in Guangdong province, the Group collaborates with various governmental authorities and their controlled entities in Guangdong province and other regions in the PRC. Although the Group believes that the Group currently maintains close working relationships with those governmental authorities and entities relevant to its businesses, there can be no assurance that these relationships will continue to be maintained on good terms in the future. Local governments and government-controlled entities with which the Group collaborates may (i) have economic or business interests or consideration that are inconsistent with the Group's; (ii) take actions contrary to the Group's requests, policies or objectives; (iii) be unable or unwilling to fulfil their obligations; (iv) have financial difficulties; or (v) have disputes with the Group as to the contractual terms or other matters. If there are any material disagreements between the Group and any local government or any of the government-controlled entities, there can be no assurance that the Group is able to successfully resolve them in a timely manner.

In addition, disputes with public bodies may last for considerably longer periods of time than for those with private sector counterparties, and payments from public bodies may be delayed as a result. Any of these could materially and adversely affect the business relationships between the Group and the local governments and governmental entities, which may in turn materially and adversely affect the Group's business, financial condition, results of operations and prospects.

The Group's business operations require substantial capital and failure to raise such capital may materially and adversely affect the Group's business, financial conditions, results of operations and prospects.

The Group's business operations and investment plans require substantial capital. A portion of the capital demand of the Group is satisfied with subsidies from the Guangdong government. The Group generally formulates and updates its capital expenditure and investment plans on an annual basis and reports its plans to the Guangdong SASAC. The Guangdong government takes into consideration these plans when determining the government budget for the subsequent financial year. There can be no assurance, however, that the capital expenditure and investment plans submitted by the Group will be approved. The Group may need to adjust its plans to align with the overall urban development strategies and plans of the Guangdong government or resort to alternative funding to meet its capital needs.

In addition, the ability of the Group to generate sufficient operating cash flow is affected by a number of factors, such as the Group's ability to carry out its business activities in an efficient manner, the Guangdong government investment plans relevant to the Group's business, due performance of the Group's contractors, changes in the general market conditions and regulatory environment and the competition in certain sectors in which the Group operates. Any adverse change in any of these factors, which may be out of the Group's control, may create capital shortfall. There is no assurance that the Group's operating activities are able to generate sufficient cash to satisfy its cash needs at all times.

Insufficient cash flow generated from the Group's operating activities will increase the Group's reliance on external financing. As at 31 December 2024, the Group had total credit facilities of approximately RMB645.9 billion, of which approximately RMB445.1 billion had not been utilised. The Group's ability to access and raise sufficient capital through different sources depends upon a number of factors, some of which may be beyond the Group's control. These factors include the economic condition of the PRC, prevailing conditions in capital markets, regulatory requirements and policies, the Group's financial condition, and costs of financing, including changes in interest rates. Some of these factors may be beyond the Group's control. If the Group fails to raise sufficient funds in a timely manner or fails to obtain external financing on commercially acceptable terms, it may not be able to fund the capital expenditure necessary to expand its production facilities, upgrade or purchase additional facilities and equipment or implement its business strategies, which may in turn have a material and adverse impact on the Group's business, financial condition, results of operations and prospects.

Significant indebtedness may restrict the Group's business activities and increase the Group's exposure to various operational risks.

The Group relies on external borrowings to satisfy a portion of its capital requirements and, therefore, the Group has significant outstanding indebtedness. As at 31 December 2024, the Group had total indebtedness (comprising short-term loans, financial liabilities held for trading, non-current liabilities due within one year, short-term bonds payable, other interest-bearing current indebtedness, bonds payable, long-term loans, long-term payables and lease liabilities) of approximately RMB239.9 billion, of which RMB51.7 billion would become due within 12 months. The Group may from time to time incur substantial additional indebtedness and contingent liabilities in the ordinary course of business. Substantial indebtedness could significantly impact the Group's businesses in a number of ways, including:

- require the Group to dedicate part of its operating cash flow to service its indebtedness before it receives government funding;
- increase the Group's finance costs, thus affecting the overall profitability of the Group;
- limit the Group's ability to satisfy its obligations under its existing indebtedness;
- limit the Group's ability to pay dividends to its shareholders;
- limit the Group's flexibility in planning for or responding to changes in the Group's businesses and the industries in which it operates;
- together with any financial and other restrictive covenants in respect of the Group's indebtedness level, limit the Group's ability to borrow additional funds; and
- increase the Group's vulnerability to adverse general economic and industry conditions.

For the years ended 31 December 2022, 2023 and 2024, the Group's financing costs, which consist of the Group's interest expense and capitalised interest, was approximately RMB5.3 billion, RMB6.3 billion and RMB6.6 billion, respectively. The Group's borrowings are secured by encumbrances

created over a number of its assets such as real estate properties, pledges over the equity stocks of the Group's subsidiaries and certain designated account receivables. As at 31 December 2024, the Group's total secured indebtedness was approximately RMB6.5 billion. These third-party security rights may limit the Group's use of these assets and adversely affect its operational efficiency. If the Guarantor and its subsidiaries are unable to service and repay their debts under such loan facilities on a timely basis, the assets mortgaged or charged to secure the Group's bank loans may be foreclosed, which may adversely affect the Group's business, financial condition, results of operations and prospects.

In addition, the Group enters into guarantee arrangements for the benefit of its subsidiaries and third parties from time to time and incurs contingent liabilities as a result. If the creditors for a material part of such liabilities demand payment from the Group, the Group's cash flow and liquidity may be severely strained, which may, in turn, materially and adversely affect the Group's business, financial condition and results of operations.

The Group's business operations are restricted by the terms of its debt arrangements, which could limit the Group's ability to plan for or to react to market conditions or meet its capital needs.

The Group's debt and financing documents include a number of significant restrictive covenants. These covenants may restrict, among other things, the Group's ability and the ability of its subsidiaries to incur or guarantee additional indebtedness, make investments, transfer assets or shares, create liens, mortgages, or pledges, enter into transactions with shareholders or affiliates, and effect a consolidation, merger, restructuring, joint venture, joint operation or listing. These covenants could limit the Group's ability to plan for or react to market conditions or to meet its capital needs. The Group's ability to comply with these covenants may be affected by events beyond its control, and the Group may have to curtail some of its operations and growth plans to maintain compliance. If the Guarantor or any of its relevant subsidiaries is unable to comply with the restrictions (including restrictions on future investments) and covenants in its current or future debt obligations and other financing agreements, a default under the terms of such agreements may occur. In the event of a default under such agreements, the creditors may be entitled to terminate their commitments granted to the Issuer or its subsidiaries, accelerate the debt and declare all amounts borrowed due and payable or terminate the agreements, depending on the provisions of the relevant agreements.

In addition, some of the Group's loan agreements contain cross-acceleration or cross-default provisions. A default under one loan may cause the acceleration of repayment of other debt, or result in a default under the other loan agreements of the subsidiaries. Certain subsidiaries of the Group have voluntarily scheduled and may in the future voluntarily schedule deferrals or arrangements with creditors with respect to their indebtedness, which deferrals or arrangements may contain additional restrictive covenants, impose more stringent capital and covenant compliance requirements or trigger cross-acceleration or cross-default provisions under other financial agreements. If any of these events occur, there can be no assurance that its assets and cash flow would be sufficient to repay in full all of its indebtedness which has become due and payable, or that it would be able to find alternative financing.

The Group's business and results of operations may be susceptible to the material fluctuations of interest rates.

Most of the Group's existing floating rate bank loans bear interest that accrue at rates linked to the Loan Prime Rate (the "LPR") published by the People's Bank of China (the "PBOC"). A material fluctuation in the LPR may have a material impact on the Group's interest expense and payables under its bank loans and in turn negatively affect its financing costs and results of operations. The Group's interest expense for the years ended 31 December 2022, 2023 and 2024 were approximately RMB4.9 billion, RMB5.5 billion and RMB5.7 billion, respectively. Any increase in the LPR in the future will increase the Group's financing costs and adversely affect its profitability, financial condition and results of operations.

As at the date of this Offering Circular, the Group also has outstanding offshore debts. As the Group will further explore overseas sources of funding to replenish its capital, it is also exposed to risks arising from interest rate fluctuation overseas. Any unfavourable interest rate overseas could cause the Group to incur additional financing cost for its overseas financing.

Failure to collect account receivables may affect the Group's liquidity and restrict the Group's business activities.

As at 31 December 2022, 2023 and 2024, the Group's accounts receivable amounted to approximately RMB12.9 billion, RMB14.6 billion and RMB15.1 billion respectively, representing approximately 26.2 per cent., 26.2 per cent. and 22.9 per cent. of the Group's total current assets, respectively. The Group's accounts receivable is mainly comprised of the outstanding amounts owed to Guangdong Energy by its main customers. Any failure of these companies or the Group's other customers to make timely payments could materially and adversely affect the value of the Group's other accounts receivable and its liquidity and in turn affect its business, financial condition or results of operations.

The Group may not be able to successfully manage its growth or implement its expansion plans.

The Guarantor has a significant number of subsidiaries operating in different industries. As the Group continues to grow, its operations will become more widespread and complex and its financial condition will become largely dependent on the financial condition of the subsidiaries that it invests in. The Group must continue to improve its managerial, technical, operational and other resources, and to implement an effective management and internal control system that (i) emphasises proper authorisations, reliability and accountability of financial reporting, (ii) imposes financial and internal control disciplines on subsidiaries and associate companies, and (iii) creates value-focused incentives for the management. There is no guarantee that the Group may be able to implement such management and internal control system in an effective manner or at all.

In addition, in order to fund the Group's ongoing operations and future growth, the Group must have access to sufficient liquidity or additional financing from external sources. Further, the Group will be required to manage relationships with a greater number of customers, suppliers, contractors, service providers, lenders and other third parties. There can be no assurance that the Group will not experience issues such as capacity and capital constraints, construction delays, operational difficulties at new facilities or difficulties in upgrading or expanding existing facilities and training an increasing number of personnel to manage and operate those facilities. In particular, failure of the Group to implement its expansion plans in a timely manner could adversely affect its ability to maintain, expand and diversify its revenue base and to maintain the profitability of the Group. There can be no assurance that any such failure in implementing its expansion plans will not adversely affect the Group's existing operations and thereby will have a material adverse effect on its business, operating results and financial condition and future prospects.

The Group may have difficulties in implementing and monitoring corporate policies across its subsidiaries and portfolio companies.

The Group strives to implement its corporate governance and operational and safety standards across each member of the Group and portfolio companies in a uniform manner. Due to the large number of the Guarantor's subsidiaries and portfolio companies, implementing and monitoring corporate governance and operation and safety standards may prove difficult and a failure to do so may result in violations of local regulations. There can be no assurance that the Group can effectively monitor and prevent non-compliance in each subsidiary and affiliated company. This may result in violations that could adversely affect the Group's reputation and business prospects, which could materially and adversely affect its business, financial condition and results of operations.

The Group's business operations are subject to extensive regulation at various levels of government, and any failure to comply with applicable laws, rules and regulations, including obtaining any necessary qualifications, permits or approvals for its operations could adversely affect the Group.

The Group's business activities are extensively regulated by laws and regulations of the PRC government at various levels. Power plant, power grid and certain other businesses of the Group require approvals, licences and permits from a number of governmental authorities. For example, for its power business, the Group needs to obtain, among others, the Electric Power Business Permit (電力業務許可證), the Insourcing Qualification of Construction of Electric Power (電力工程施工總承包資質) and the Permit for Installing/Repairing & Trying Electric Power Facilities (承裝(修、試)電力設施許可證).

The Group is required to comply with extensive environmental, safety and health regulations in the PRC, including obtaining all required approvals, licences and permits from competent governmental authorities on a timely basis. Failure to obtain any of the necessary approvals, licences or permits in a timely manner could result in delay or suspension of the relevant business activities, and operations without these necessary approvals, licences or permits may subject the relevant member companies of the Group to regulatory or administrative penalties. There is no assurance that the Group may be able to obtain all required approvals, licences or permits in a timely manner, or at all, or remain in compliance with relevant laws and regulations at all times. As a result of these lapses or other non-compliance events, the Group may be subject to fines and other penalties, or certain activities currently undertaken by the Group may be suspended by governmental authorities until the relevant non-compliance event is remedied and/or fines as assessed by authorities are paid in full, which may adversely affect the business, financial conditions and results of operations of the relevant member company of the Group.

In addition, PRC laws and regulations are constantly evolving. There can be no assurance that the PRC government or the local government will not impose additional or stricter laws or regulations, which may increase compliance costs of the Group. Complying with such laws, regulations or policies may require the Group to incur substantial expense and may delay the completion of the Group's relevant projects. In the event of any non-compliance, the Group may have to incur significant expense and divert substantial management time to resolve any deficiencies.

The Group may not be successful in integrating and managing future investments and/or acquisitions.

The Group may from time to time consider investment and acquisition opportunities that may complement its core business portfolio and capabilities, and assist in expanding the market share of its core business operations. The ability of the Group's operations to grow through investments in and/or acquisitions of its target businesses is dependent upon, and may be limited by, the availability of attractive projects, its ability to agree commercial, technical and financing terms to the satisfaction of the Group and to obtain required approvals from relevant regulatory authorities.

Such investments and/or acquisitions may expose the Group to potential difficulties that could prevent it from achieving the strategic objectives for the investments and/or acquisitions or the anticipated levels of profitability from the investments and/or acquisitions. These difficulties include:

- diversion of management's attention from the Group's existing businesses;
- increases in the Group's expenses and working capital requirements, which may reduce its return on invested capital;
- difficulties in expanding into different markets and challenges of operating in markets and industries that the Group does not have substantial experience in;

- an increase in indebtedness, which may in turn increase the Group's financing costs as a result of higher interest payments;
- exposure to unanticipated contingent liabilities to acquired businesses; and
- difficulties in integrating acquired businesses or investments into the Group's existing operations, which may prevent it from achieving, or may reduce, the anticipated synergies.

There is no assurance that the Group will be able to address these issues effectively at all times. The above difficulties, including any material decrease in its financial resources, may limit the Group's ordinary operating activities and increase pressure on its liquidity, and in turn could adversely affect its business, financial condition and results of operations.

The Group depends on key management members and qualified personnel in a competitive market for skilled personnel, and the Group's inability to attract and retain key personnel as well as Guangdong SASAC's approval and removal rights could adversely affect the Group's ability to manage its business.

The Group depends on the expertise of the principal members of its management team. The loss of key management personnel would adversely affect the Group's ability to manage its business. The Group also relies on its ability to identify, hire and retain qualified personnel for its different business lines. For a description of the Group's senior management, see "*Directors and Senior Management*". The Group faces intense competition for qualified personnel from large SOEs, private local companies and international companies. While the Group attempts to provide competitive compensation packages to attract and retain key management members and qualified personnel, many of its competitors may have more experience than the Group, making it difficult for the Group to compete successfully for personnel retention and new hires. In addition, most key management personnel appointments are appointed by Guangdong SASAC. The Group's failure to retain key management members and qualified personnel and maintain an adequate workforce could materially adversely affect its results of operations and prospects.

Disputes with joint venture partners may adversely affect the Group's business.

Some of the Group's businesses are operated by joint venture enterprises formed by the Group and third-party partners. The economic or business interests or goals of those partners may not always be consistent with those of the Group. Joint venture partners may be unable or unwilling to fulfil their obligations under the relevant joint venture or may have financial difficulties. Additionally, a disagreement with any joint venture partner could result in postponement or suspension of the relevant projects, early termination of joint venture or cooperation arrangements, or litigation or other legal proceedings, which could adversely affect the Group's business, financial condition and results of operations.

The Group may not be able to execute successfully or fully its business strategy with respect to assets, projects or subsidiaries in which the Guarantor has minority interests.

The Group may not be able to execute successfully or fully its business strategy with respect to assets, projects or subsidiaries in which the Guarantor has minority interests. The Group may also fail to manage such assets, projects or subsidiaries successfully. The Group's involvement with such assets, projects and subsidiaries is generally subject to the terms of applicable agreements and arrangements. The Guarantor may not have any board representation, veto power or power to exercise control over the management, policies, business and affairs of certain of its subsidiaries in which the Guarantor does not have majority interests. If any of the other equity owners fails to perform its obligations or otherwise breach the terms and conditions of the Group's shareholding arrangements, or if the Group has different views or strategies with its partners, it could have a material adverse effect on the Group's business, financial condition or results of operations.

The Group faces competition in some of the industries in which it operates, which may adversely affect its financial condition, results of operations and business prospects.

The Group faces competition in the industries in which it operates, which comes from various sources, including large SOEs, privately-owned domestic companies, and leading international companies that operate in Guangdong province. In recent years, the PRC government has further opened up domestic markets to foreign competition, and foreign invested companies are now allowed to participate in various types of financial investments. The Group also competes with both local and international companies in capturing new business opportunities in the PRC. Some of these companies have significant financial resources, marketing and other capabilities. The Group's market position depends on its ability to anticipate and respond to various competitive factors, including the availability of capital and financing resources. There can be no assurance that the Group's current or potential competitors will not offer services or products comparable or superior to those that it offers at the same or lower prices or adapt more quickly than the Group does to evolving industry trends or changing market conditions. The Group may lose its customers to its competitors if, among other things, it fails to keep its prices at competitive levels or to sustain and upgrade its capacity and technology. Increased competition may result in reduced profit margins and loss of market share.

If the Group fails to maintain effective internal controls and corporate governance or fails to prevent misconduct committed by its employees, representatives, agents or other third parties, its business, financial condition, results of operations and reputation could be materially and adversely affected.

The Group has implemented various measures to improve and optimise its internal controls and corporate governance. The Group has established an internal system to enhance protection of confidential information and education of employees. The Guangdong Audit Office and the disciplinary compliance departments of the Guangdong government also conduct reviews of the Group's operations from time to time and takes into consideration the Group's corporate governance and disciplinary compliance. As at the date of this Offering Circular, the Group has not received from the Guangdong Audit Office or the disciplinary compliance departments of the Guangdong government (i) any notification of non-compliance or (ii) any notification that the Group's internal controls or corporate governance systems are inadequate or ineffective. However, there can be no assurance that all such measures will prove effective in the future or that any existing or potential material deficiencies in the Group's internal controls or any misconduct committed by its employees, representatives, agents or other third parties will not be discovered. The Group's efforts to improve and optimise its internal controls have required, and in the future may require, increased costs and significant management time and commitment. If the Group fails to maintain effective internal controls, its business, financial condition, results of operations or reputation could be materially and adversely affected.

The Group is subject to litigation risks and may face significant liabilities as a result.

The Group may from time to time be involved in disputes with governmental entities, incumbent residents, contractors, suppliers, employees and other third party service providers during the course of its daily operations. Claims may be brought against the Group companies for defective or incomplete work, personal injuries, damage to or destruction of property, breaches of warranty, delay in delivery and late completion of the project. If the Group companies are found to be liable for any of the claims against it, its business, financial condition and results of operations could be negatively impacted to the extent the claims are not sufficiently covered by its insurance coverage.

Both claims brought against the Group and by it, if not resolved through negotiation, may be subject to lengthy and expensive litigation or arbitration proceedings. Amounts ultimately realised from claims by the Group could differ materially from the provisions included in its financial statements. Charges associated with claims brought against the Group and write downs associated with claims brought by the Group could have a material adverse impact on its financial condition, results of operations and cash flow. The Group cannot assure investors that other claims will not arise against or be brought by the Group in future which, if determined adversely against the Group, may have an adverse effect on its financial condition and results of operations.

An investee company of the Guarantor may be adversely affected by sanctions administered by the United States, the European Union, the United Kingdom or other relevant sanctions authorities, which could in turn negatively affect the Group.

The United States and other jurisdictions or organisations, including but not limited to the European Union, the United Kingdom and the United Nations, have, through executive order, passing of legislation or other governmental actions, implemented measures that impose economic sanctions against countries or against targeted industry sectors, groups of companies or persons, and/or organisations within such countries. If the Group, or any of its affiliates, is in the future determined to have engaged in any prohibited transactions or had otherwise violated applicable sanction regulations, the Group could be subject to penalties and its business or reputation may be severely affected.

In 2017 and 2018, an investee company (the “**Investee Company**”) of the Guarantor leased certain commercial airplanes to a Russian entity (the “**Russian Entity**”) (the “**Leasing Business**”). The Russian Entity has been listed on the Denied Persons List of the Bureau of Industry and Security of the U.S. Department of Commerce since 2024. In the process of conducting the Leasing Business, the Investee Company transferred money through a bank in Russia (the “**Russian Bank**”) which is a target subject to sanctions. As at the date of this Offering Circular, the Investee Company is not a consolidated subsidiary of the Guarantor. For the three years ended 31 December 2024, the Guarantor did not receive any dividend from the Investee Company.

While the Group has implemented internal control measures to minimise its risk exposure to international sanctions, sanctions laws and regulations are constantly evolving, and new persons and entities may be added to the sanction lists. Furthermore, new requirements or restrictions could come into effect which might increase the scrutiny on the Group’s business and investments or result in one or more of the Group’s business activities or investments being deemed to have violated the sanctions. The Group’s business and reputation could be adversely affected if the relevant authorities of the United States, the European Union, the United Kingdom, the United Nations or any other jurisdictions or organisations were to determine that any of the Group’s future activities constitutes a violation of the sanctions or provides a basis for a sanction designation of any entities within the Group.

The Group’s insurance coverage may not adequately protect it against all operating risks.

The Group faces various operational risks in connection with its business, including but not limited to:

- production interruptions caused by operational errors, electricity outages, raw material shortages, equipment failure and other production risks;
- operating limitations imposed by environmental or other regulatory requirements;
- work-related personal injuries;
- on-site production accidents;
- credit risks relating to the performance of customers or other contractual third parties;

- disruptions in the global capital markets and the economy in general;
- loss on investments;
- environmental or industrial accidents; and
- catastrophic events such as fires, earthquakes, explosions, floods, collapse of mine or other natural disasters.

To manage operating risks, the Group maintains insurance policies that provide different types of risk coverage which the Group believes are consistent with industry and business practice in the PRC. However, claims under the insurance policies may not be fully or timely honoured, and the insurance coverage may not be sufficient to cover costs associated with accidents incurred in the Group's operations due to the above-mentioned operational risks. To the extent that any member of the Group suffers loss or damage that is not covered by insurance or that exceeds the limit of its insurance coverage, the Group's results of operations and cash flow may be materially and adversely affected.

The Group's operations are subject to force majeure events, natural disasters and outbreaks of contagious diseases.

Force majeure events, natural disasters, catastrophe or other events could result in severe personal injury to the Group's staff, property damage and environmental damage, which may curtail the Group's operations, cause delays in estimated completion dates for projects and materially and adversely affect its cash flows and, accordingly, adversely affect its ability to service debt. The Group's operations are based in Guangdong province, which is exposed to potential natural disasters such as flooding. If any of the Group's assets are damaged by severe weather or any other disaster, accident, catastrophe or other event, the Group's operations may be significantly interrupted. The occurrence or continuance of any of these or similar events could increase the costs associated with the Group's operations and reduce its ability to operate its businesses effectively. For example, in early 2020, COVID-19, a highly infectious virus, spread throughout the globe, resulting in numerous deaths around the world. A prolonged outbreak of any contagious disease similar to COVID-19 may have a material adverse impact on China's economy, the global economy and financial markets in general, which in turn could materially and adversely affect the Group's business, financial condition and results of operations.

The occurrence or continuance of any of these or similar events could increase the costs associated with the Group's operations and reduce its ability to operate its businesses effectively, thereby reducing its operating income. Such accidents could also lead to the shutdown of the Group's affected operating facilities such as power plants and, potentially, similar facilities that may be considered to present the same risks.

The Group may not be able to detect and prevent fraud or other misconduct committed by its employees, representatives, agents, customers or other third parties.

Following the 18th Chinese Communist Party Congress in 2012, various PRC regulatory authorities have intensified their efforts to combat commercial bribery in the PRC, and the Central Committee of the Chinese Communist Party has dispatched inspection teams to provinces and central government organs such as ministries and state-owned enterprises, including the Guarantor, in the PRC to conduct inspection work on party disciplinary enforcement. The Group believes that the inspection team's findings will not materially and adversely affect the business, financial condition and results of operations of the Group. However, there can be no assurance that there will not be any further investigations or actions against the Group or its officers or employees resulting from the findings taken by governmental authorities of the PRC or that such investigations or actions would not affect the Group as a result.

In addition, the Group may be exposed to fraud or other misconduct committed by its employees, representatives, agents, customers or other third parties that could subject it to financial losses and sanctions imposed by governmental authorities, which in turn affects its reputation. The Group may be harmed if, for example, any of these parties engages in misrepresentation or fraudulent, deceptive or otherwise improper activities, conduct transactions that exceed authorised limits, make or accept bribes or improperly use or disclose confidential information.

The Group's internal control procedures are designed to monitor its operations and ensure overall compliance. In particular, the Group has adopted policies and procedures aimed at detecting and preventing the use of its business platforms to facilitate money laundering activities and terrorist acts. However, such internal control procedures may be unable to identify all incidents of non-compliance or suspicious transactions in a timely manner if at all. In addition, it is not always possible to detect and prevent fraud and other misconduct, and the precautions undertaken by the Group to prevent and detect such activities may not be effective. There can be no assurance that fraud or other misconduct will not occur in the future. If such fraud or other misconduct does occur, it may cause negative publicity as a result and the relevant government agencies may freeze its assets or impose fines or other penalties on the Group. Any of these may materially and adversely affect the Group's reputation, financial condition and results of operations.

The Group may not be able to adequately protect its intellectual property and brand, which could adversely affect its business operations.

The Group relies on a combination of patents, trademarks and contractual rights to protect its intellectual property and brand. There can be no assurance that these measures will be sufficient to prevent any misappropriation of the Group's intellectual property or brand, or that the Group's competitors will not independently develop alternative technology that are equivalent or superior to technology based on the Group's intellectual property. The legal regime governing intellectual property in the PRC is still evolving and the level of protection of intellectual property rights in the PRC differs from those in other jurisdictions. In the event that the steps taken by the Group and the protection afforded by law do not adequately safeguard its proprietary technology or brand, the Group could suffer losses due to the sales of competing products that exploit its intellectual property or brand. In addition, the Group may experience lapses or other noncompliance events with respect to registration or certification of its intellectual property rights, and any such noncompliance event may materially and adversely affect the Group's business, financial condition and results of operations.

The Group relies on information technology systems for its business and any information technology system limitations or failures could adversely affect its business, financial condition and results of operations.

The Group's business depends on the integrity and performance of its business, accounting and other data processing systems. If the Group's systems cannot cope with increased demand or otherwise experiences a systems failure, the Group could experience unanticipated business disruptions, slower response times and a limitation on its ability to monitor and manage data and risk exposure, control financial and operation conditions, and keep accurate records. These consequences could result in operating outages, poor operating performance, financial losses, and potential intervention by regulatory authorities.

Although the Group's systems have not experienced major systems failures or delays in the past, there can be no assurance that the Group's systems would not experience future system failures and delays, or that the measures taken by the Group to reduce the risk of system disruptions are effective or adequate. If unanticipated events occur, the Group may need to expand and upgrade the Group's technology, systems and network infrastructure. There can be no assurance that the Group will be able to accurately project the rate, timing or cost of any such expansions or upgrades or that it will be able to effect such expansions or upgrades in a timely manner.

RISKS RELATING TO THE GROUP'S POWER BUSINESS

A decrease in electricity consumption demand and introduction of other sources of electricity in Guangdong province may have a negative impact on the Group's revenue and operating performance.

In 2024, the annual total electricity consumption in the PRC amounted to approximately 9.85 trillion kWh representing an increase of 6.8 per cent. compared to 2023. However, it is unclear how electricity consumption demands will evolve in the future. If there is a decline in the demand for electricity consumption in the PRC or in Guangdong province, the Group may not be able to effectively maximise its unit utilisation rate and its revenue and profitability may be adversely affected.

Also, with the introduction of future large hydropower projects from the south-western region of the PRC, the volume of electricity transmitted from Western China to Eastern China may in turn increase, thereby increasing the competition amongst electricity suppliers in Guangdong province. In addition, a number of thermal electricity and coastal nuclear electricity projects will gradually come into operation. These factors may adversely affect the Group's unit utilisation rate and in turn, the Group's business, financial condition and results of operation.

The fluctuation in coal prices may increase the Group's operating costs and reduce the Group's profitability.

Coal expenditure and transportation costs account for a large proportion of the Group's operating costs. According to the National Bureau of Statistics (國家統計局), coal production volume in the PRC was 4.76 billion tonnes in 2024, representing a year-to-year increase of 1.3 per cent. Although the PRC has abundant coal reserves, various factors such as insufficient production capacity, the government's tightened regulation on the coal industry and insufficient railway transportation capacity may adversely affect the supply of coal, resulting in a fluctuation in coal prices which may in turn affect the Group's profits due to an increase in the Group's operating costs.

On-grid tariffs and planned output policy may adversely affect the Group's results of operations.

The Group's revenue is primarily derived from the generation and sale of electricity, which is primarily determined by electricity output and on-grid tariffs. Total electricity output consists of planned electricity output and traded electricity output, with the majority being planned electricity output. The planned electricity output of the Group's power plants is controlled and determined by the relevant government authorities. The on-grid tariffs for the planned electricity amounts are subject to review and approval by the NDRC and relevant government authorities at the provincial level. See "PRC Laws and Regulations - Major Regulations in Energy Industries". In the event of any increase in coal prices, however, there can be no assurance that thermal power generation companies will be able to pass on such increases through on-grid tariff increases, or that the NDRC's other related measures will effectively relieve the pressure on power generation companies resulting from coal price increases. In addition, if there is any significant reduction in the on-grid tariffs in the future without a corresponding decline in coal prices, the Group's margins could be adversely affected. Any of the foregoing could have a material adverse effect on the Group's business, financial condition and results of operations.

The reform in power industry may affect the Group's power generation business.

The PRC government is gradually introducing reforms to open up the power generation industry for competition. For example, in 2015, the State Council issued the Electric Power Regime Reform Opinions and six supplementary documents, introducing reform of the electric power regime, promoting tariff reform on transmission and distribution of electricity, electricity market construction, power selling side reform and the establishment of electricity trading organisation relaxing the electricity generation and consumption plan in an orderly manner, and enhancing the supervision and management of coal-fired self-owned power plants. See "PRC Laws and Regulations - Major

Regulations in Energy Industries” for the relevant policy reforms. Under the current progress of the electric power system reform, the impact on the power generation enterprises are the expansion of the market trading electricity volume and the liberalisation of the electricity sale market. Further, the PRC government has introduced a series of regulatory measures to restrict high-energy-consuming industries and to upgrade and reform the energy industry in recent years. The introduction of these policies may increase the operation cost of and have other negative impact on the Group’s coal-fired business. The Group intends to actively respond by strengthening power market research, actively participating in cross-provincial and regional transactions, spot transactions, ancillary service transactions and other new market transactions. However, there can be no assurance that such reform would not further intensify the competition in the electricity industry, which may have an adverse impact on the Group’s business, financial condition and results of operations.

The Group’s hydropower business is dependent on hydrological conditions.

The Group’s hydropower projects are dependent upon hydrological conditions prevailing from time to time in the geographic regions in which the Group’s existing and future hydropower projects are located. The Group cannot assure that water flows at its project sites will be consistent with its expectations, or that climatic and environmental conditions will not change significantly from the prevailing conditions at the time project decisions were made. Water flows vary on a yearly and seasonal basis and depends primarily on the levels of precipitation and seasonal changes. Existing and future hydropower projects of the Group may be subject to substantial variations in climatic and hydrological conditions, which may result in fluctuations in water flows and thus the Group’s ability to generate electricity. While the Group has selected and will continue to select its hydropower projects primarily based on their projected output, the actual water flow required to produce that output may not be sustained. If hydrological conditions result in droughts or other conditions that negatively impact the Group’s hydropower generation, its hydropower business, and by extension its financial condition and results of operations, could be adversely affected.

The resettlement of relocated residents may cause significant cost increases and/or construction delays of the Group’s hydropower projects.

The construction of hydropower projects requires the construction of dams and reservoirs, typically increasing the water-level at the hydropower project site, and leaving part of the area submerged. This generally requires the relocation and resettlement of residents in the area surrounding the project sites. The relevant PRC local government authorities are responsible for the relocation and resettlement of such residents, but the hydropower project’s owner is responsible for paying associated resettlement compensation. In accordance with PRC law, a hydropower company is also required to take into account the costs to be incurred by the relevant local authority for relocation and resettlement of residents in its investment costs. Accordingly, resettlement compensation costs are included in a hydropower project’s construction cost, which the NDRC will consider in determining the on-grid tariff for such project. While the Group has not experienced any significant setbacks or disputes due to resettlement issues, there is no assurance that such problems will not arise in the future. In addition, the local government may dispute or request adjustment of the amount of resettlement compensation the Group allocates for a hydropower project, even after the hydropower project commences operations. The PRC government may adopt more stringent standards and impose more obligations on hydropower companies regarding the resettlement of relocated residents. Furthermore, the Group may also face opposition from local environmental and other interest groups due to the perceived impact of its hydropower projects. Any of the above could cause significant cost increases and/or construction delays for the Group’s hydropower projects, which could materially and adversely affect the Group’s business, financial condition and results of operations.

Increases in the water resources fee may have an adverse effect on the Group's hydropower business.

In order to strengthen the management and protection of water resources, and promote water conservation, the State Council implemented the Water Licensing and Regulation of Water Resources Fee (《取水許可和水資源費徵收管理條例》) in April 2006, which was amended in March 2017. According to such regulation, companies engaged in the hydropower business are required to pay water resources fees in accordance with a set standard. However, this standard may change from time to time. If the PRC government chooses to adjust the water resources fee, the cost of the Group's power generation would increase, which could have an adverse effect on the Group's business, financial condition or results of operations.

The Group's wind power business is dependent on wind conditions.

The amounts of electricity and revenue generated by a wind power project are highly dependent on wind conditions, which vary across seasons and regions and are difficult to predict. Wind turbines will only operate within certain wind speed ranges. If wind speed falls outside the required wind speed ranges, which vary by turbine model and manufacturer, the amount of electricity the Group generates will decrease. The Group cannot ensure that the wind conditions at any given wind site will always fall within such ranges.

The Group bases its investment decisions for each wind power project on the feasibility studies conducted onsite before starting construction. However, actual climatic conditions at a wind site, particularly wind conditions, may not conform to the findings of these feasibility studies, and, therefore, the Group's wind power projects may not meet anticipated production levels, which could adversely affect its projected profitability.

The Group relies on local grid companies for grid connection and electricity transmission and dispatch.

The Group is required to obtain consent from the relevant local grid companies to connect the Group's power plants to their grids. The Group cannot ensure that it will be able to obtain all the consents from local grid companies in a timely manner, or at all. Failure or delays in obtaining such consents may prevent the Group from developing power plants as planned, which may have a material adverse effect on the Group's business, financial condition and results of operations.

Local grid companies are required by law (including the Electric Power Law of the PRC (《中華人民共和國電力法》)) to provide grid connections and related technical support for all the power plants within their coverage. In practice, however, the local grid companies may take a number of factors into consideration in granting the consents, including the availability and stability of the existing grids, the construction and upgrade status of local grids and the cost of grid connections. There can be no assurance that the Group will be able to obtain all the consents from local grid companies in a timely manner, or at all.

The Group also relies on local grid companies for electricity transmission and dispatch services. The Group's revenue depends largely upon the sale of electricity which is subject to the level of dispatch to the power grids, which in turn is controlled by the relevant dispatch centres of the local grid companies according to dispatch agreements entered into between such companies and the Group, and to relevant government regulations. The dispatch centres may consider various factors when dispatching electricity, including, among others, local demand for electricity, interconnection agreements between power grid companies and the transmission capacity of the power grid companies, most of which are beyond the Group's control.

Power plant development, acquisition and construction are complex and time-consuming processes, and the Group may encounter difficulties or delays during the construction of new projects.

The Group principally develops, constructs, manages and operates power plants, which mainly include coal-fired power plants, LNG power plants, wind power plants, hydropower plants, solar power and biomass power plants. The Group's success depends upon its ability to secure all required PRC government approvals, power sales and dispatch agreements, construction contracts, fuel supply and transportation agreements and electricity transmission arrangements. Delay or failure to secure any of these could increase costs or obstruct commercial operation of the affected power plant of the Group. There can be no assurance that all power plant projects will receive approvals in a timely manner or at all.

The Group generally adopts an engineering, procurement and construction model for its domestic power plant projects. Similar to other major infrastructure constructions, the construction of power plants involves many risks, including shortages of equipment, material, labour disturbances, accidents, inclement weather, unforeseen engineering, environmental or geological problems, delays and other problems and unanticipated cost increases, any of which could give rise to delays or cost overruns. Construction delays may result in loss of revenues. Failure to complete construction according to specifications may result in increased liabilities and operating costs, decreased power plant efficiencies, and reduced earnings. No assurance can be given that the construction of on-going future projects will be completed on schedule or within budget.

The operation of power plants involves many risks, and if there are interruptions in the normal operation of the Group's power plants, the Group may not have adequate insurance to cover the economic losses.

The operation of the Group's power plants involves many risks and hazards, including the breakdown, failure or substandard performance of equipment, improper installation or operation of equipment, labour disturbances, natural disasters, environmental hazards and industrial accidents. The occurrence of material operational problems, including but not limited to the above events, may result in lost revenues and increased maintenance costs, which, in turn, could have a material adverse effect on the Group's business or results of operations.

The Group's power plants in the PRC currently maintain insurance coverage that is typical in the electric power industry in the PRC and in amounts that the Group believes to be adequate. Such insurance, however, may not provide adequate coverage in certain circumstances.

The Group may incur significant costs or liability relating to its environmental responsibilities.

The Group's power business is subject to extensive and increasingly stringent environmental protection laws, regulations and decrees that impose fines for violation of such laws, regulations or decrees and provide for the suspension of any pollution treatment facilities that fail to satisfy certain regulatory requirements. There is growing awareness of environmental issues and the Group may sometimes be expected to meet a standard which is higher than the requirement under prevailing environmental laws and regulations. The Group may incur significant expense in order to comply with existing or future environmental laws and regulations.

The Group has adopted environmental protection measures, including conducting environmental assessments on its power plants. However, there is no assurance that more stringent environmental protection requirements will not be imposed by relevant governmental authorities in the future. The Group may be required to pay penalties or fines or take remedial actions or suspend operations if it fails to comply with relevant environmental laws and regulations and causes damages to the environment or third parties. In addition, if the Group fails to meet public expectations in relation to environmental matters, its reputation may be damaged. Any of the above events could have a material adverse effect on the business, financial position and results of operations of the Group's power business.

The operation of the Group's power business involve inherent industrial risk and occupational hazards.

The Group's power business is exposed to inherent industrial risks as its operations involve the operation of heavy machinery, extreme heat and hazardous chemical substances that could lead to industrial accidents and personal injuries which the Group's insurance coverage may also not be sufficient to protect against. The breakdown of generation equipment or failure of other key equipment in one or more of the Group's power plants and projects could disrupt the generation of power and result in revenues being lower than expected. Further, any breakdown or failure of one or more of the Group's transmission systems could disrupt transmission of power to the power grid. In addition, if the problem is related to the power grid, the Group's affected power plants or projects will be unable to dispatch power until the grid company carries out the necessary repairs. Furthermore, older generating equipment may require significant capital expenditure to maintain and upgrade. Breakdown or failure at one of the Group's power plants or projects may also prevent the Group from performing under the applicable power sales agreement which, in certain situations, could result in termination of the agreement or the incurrence of liability for liquidated damages.

The Group from time to time reviews its internal guidance and implements new measures to enhance the awareness of employee safety. However, there can be no assurance that accidents will not occur in the future. The Group may be liable for loss of life and property damages, medical expenses, medical leave payments and fines and penalties for violation of applicable PRC laws and regulations as a result of any material industrial accidents. The Group may also experience interruptions in its operations and may be required to change the manner in which it operates as a result of governmental investigations or the implementation of safety measures due to accidents. Any of the foregoing could adversely affect the business and results of operations of the Group's power business.

The Group's clean energy business benefits from government support and incentives which may be changed or abolished.

The Group's clean energy business benefits from government policies, regulations and incentives that support clean energies such as wind power, solar power and hydropower. During the past few years, the PRC government has adopted a number of policies and regulations to encourage the development of clean energy and to enhance the economic feasibility of developing and operating wind power, solar power and hydropower projects. These policies and regulations include, among others, mandatory grid connection, mandatory power off-take and preferential tax treatments.

Other than government policies and regulations of the wind power, solar power and hydropower sectors, the Group's business and operations may also be affected by government policies and regulations affecting upstream and downstream industries such as wind turbine manufacturing and grid sectors. If any of these policies, regulations or incentives are changed or abolished, the Group's business, financial condition and results of operations may be materially and adversely affected. There can be no assurance that these favourable policies, regulations and incentives will not change in the future in a manner adverse to the Group's business.

RISKS RELATING TO THE GROUP'S OTHER BUSINESSES

The Group's financial investment business is subject to extensive regulation and supervision of the government authorities at various levels and failure to comply with applicable regulations may have a material adverse impact on the related business and results of operations.

Over the years, the Group has diversified its businesses to conduct broader investment activities in the capital markets. These financial activities are subject to extensive national, provincial and municipal laws, rules, regulations, policies and measures issued and enforced by the governmental authorities at different levels. Local authorities have broad discretion in implementing and enforcing the applicable rules and regulations. For this reason, there are significant uncertainties in the interpretation and implementation of such laws, rules, regulations, policies and measures. In certain

occasions, verbal clarifications given by government authorities may be inconsistent with the regulations concerned, increasing the Group's compliance risk. If the Group fails to fully comply with applicable laws, rules, regulations, policies and measures or fails to respond to any changes in the regulatory environment in a timely manner, any delays or non-compliance may result in sanctions by regulatory authorities, monetary penalties, or restrictions on its activities or revocation of licences. These factors in turn may have a material adverse impact on its business and results of operations.

The Group faces intense competition in the financial investment industry in the PRC.

Market players in the financial investment industry in the PRC face intense competition from both domestic and international companies. The Group competes on the basis of various factors, including price, products and services, innovation, transaction execution capability, reputation, experience and knowledge of the Group's staff, employee compensation and geographic scope.

Some of the Group's competitors may have certain competitive advantages over the Group, such as greater financial resources, stronger brand recognition, longer operational record, broader product and service offerings and more advanced information technology systems. They may also have more experience with a broader range of services and more complex financial products than the Group does. Many of the financial institutions that the Group competes with are larger in terms of asset size and customer base and have greater financial resources, more specialised capabilities or more extensive distribution capabilities. Some of the foreign financial institutions that the Group competes with have been expanding their operations in the PRC, either organically or through partnership with existing financial institutions in the PRC. The Group expects that it will face greater competition from the Group's foreign competitors if these limitations and restrictions are lifted in the future.

Certain subsidiaries or portfolio companies of the Guarantor are or may become listed and therefore they are or may be subject to regulatory restrictions and listing requirements and the Guarantor's shareholding or voting interests in such members may be diluted.

The shares of certain subsidiaries or portfolio companies of the Guarantor are, or may become, listed on one or more stock exchanges. For example, as at 31 December 2024, the Guarantor held 76.0 per cent. of the equity interest in Guangdong Energy, which in turn held 69.65 per cent. of the equity interest in Guangdong Electric Power Development Co., Ltd. (廣東電力發展股份有限公司), a company listed on the Shenzhen Stock Exchange since 1993. As a result, entering into certain transactions by any such listed entity may be subject to various regulatory restrictions. Intra-group transactions may also be subject to applicable listing requirements, such as the issuance of announcements, the obtaining of independent shareholders' approval at general meetings and disclosure in annual reports and accounts. In addition, in the event that the shares of one or more subsidiaries or portfolio companies of the Guarantor become listed on a stock exchange, the Guarantor's shareholding or voting interests in such subsidiaries may be diluted. There can be no assurance that any such dilution in shareholding or voting interests will not have a material adverse effect on the Group's business, financial condition and results of operations.

RISKS RELATING TO THE GROUP'S FINANCIAL INFORMATION

Investors should be cautious and not place any reliance on the financial information other than that disclosed in this Offering Circular.

The Guarantor from time to time issues corporate bonds and short-term commercial paper in the domestic capital markets in the PRC. According to applicable PRC securities regulations on debt capital markets, the Guarantor needs to publish its semi-annual and annual financial information to satisfy its continuing disclosure obligations relating to its corporate bonds and short-term commercial paper. After the Bonds are issued, the Guarantor is obligated by the terms of the Bonds, among others, to provide holders of the Bonds with its audited financial statements and certain unaudited but reviewed periodical financial statements. The semi-annual financial information published by the Group in the PRC is normally derived from the Group's management accounts which have not been

audited or reviewed by independent auditors. As such, this financial information published in the PRC should not be referred to or relied upon by potential purchasers to provide the same quality of information associated with any audited information. The Guarantor is not responsible to holders of the Bonds for the unaudited and unreviewed financial information from time to time published in the PRC and therefore investors should not place any reliance on any such financial information.

The Guarantor's accounts were audited in accordance with PRC GAAP which may be different from IFRS.

The Guarantor's Consolidated Financial Statements were prepared in accordance with PRC GAAP. Although PRC GAAP are substantively in line with IFRS, PRC GAAP are, to a certain extent, different from IFRS. See "*Summary of Certain Differences Between PRC GAAP and IFRS*". There is no guarantee that PRC GAAP will fully converge with IFRS or there will be no additional differences between the two accounting standards in the future. Potential investors should consult their own professional advisers for an understanding of any differences that may exist between PRC GAAP and IFRS, and how those differences might affect the financial information included in this Offering Circular.

The Guarantor's auditors were subject to regulatory sanctions and/or warnings by relevant PRC authorities.

ShineWing, the independent auditors of the Guarantor for the years ended 31 December 2023 and 2024, is a registered accounting firm in the PRC. It is supervised by relevant PRC regulatory authorities, including the China Securities Regulatory Commission (the "CSRC") and the MOF. ShineWing, has been subject to administrative regulatory measures by relevant PRC regulatory agencies in the past. For example, in January 2025, the CSRC Beijing Regulatory Bureau issued a warning letter against ShineWing and two of its auditors for their defective performance during the audit of Poten Environment Group Co., Ltd. (博天環境集團股份有限公司); and in August 2024, the CSRC Guangdong Regulatory Bureau issued a warning letter against ShingWing and two of its auditors for their defective performance during the audit of Greatoo Intelligent Equipment Inc. (巨輪智能裝備股份有限公司).

According to ShineWing, the past administrative regulatory measures imposed by CSRC on ShineWing are not related to ShineWing serving as the Guarantor's auditor, and the administrative sanctions imposed by CSRC do not disqualify ShineWing from participating in the offering of the Bonds or have any impact on the ability of ShineWing to provide services to the Group. There can be no assurance that the involvement of ShineWing in such administrative actions or any negative news about ShineWing would not affect investors' confidence in companies and financial statements audited by it. Prospective investors should consider these factors prior to making any investment decision.

Historical consolidated financial information of the Group may not be indicative of its current or future results of operations.

The historical financial information of the Group included in this Offering Circular is not indicative of its future financial results and is sometimes adjusted or restated to address subsequent changes in accounting standards, accounting policies and/or applicable laws and regulations with retrospective impact on the Guarantor's financial reporting or to reflect the comments provided by the Guarantor's independent auditors during the course of their audit or review in subsequent financial periods. The Group's future results of operations may change materially if its future growth does not follow the historical trends for various reasons, including factors beyond its control, such as changes in economic environment, PRC environmental rules and regulations and the domestic and international competitive landscape of the industries in which the Group operates its business.

RISKS RELATING TO THE PRC

The PRC has experienced a slowdown in its economic development and the future performance of the PRC's economy is uncertain.

Substantially all of the Group's assets are located in the PRC and substantially all of the Group's revenue is sourced from the PRC. The Group's business operations depend heavily on the PRC's economic growth, which has been slowing down in the past decade. There has been a slowdown in the growth of the PRC's GDP since the second half of 2013, which has raised market concerns that the historic rapid growth of the economy of the PRC may not be sustainable. According to the National Statistics Bureau of the PRC, the annual growth rate of China's GDP in 2021, 2022 and 2023 slowed to 8.1 per cent., 3.0 per cent. and 5.2 per cent., respectively. China's growth is likely to come under the pressure of uncertainties over U.S.-China tensions, geopolitical developments such as the ongoing conflict between Russia and Ukraine and ongoing efforts to restructure the economy and reduce financial risks.

The PRC's debt burden has also exacerbated in recent years. Since March 2016, Moody's Investors Service, Inc. and S&P Global Ratings have changed China's credit rating outlook to "negative" from "stable" and downgraded China's credit rating. On 3 April 2025, Fitch has downgraded China's long-term foreign-currency issuer default rating from "A+" to "A". These measures highlight the country's surging debt burden and question the government's ability to enact reforms.

In addition to the economic and monetary policies of the PRC government, the future performance of the PRC economy is also exposed to material changes in the global economic and political environment as well as the performance of certain major developed economies in the world, such as the United States, the United Kingdom and the European Union. The United Kingdom officially left the European Union on 31 January 2020 ("**Brexit**"). With Brexit taking full effect, it is unclear how Brexit would ultimately affect the fiscal, monetary and regulatory landscape within the United Kingdom, the European Union and the rest of the world. Furthermore, the Russo-Ukrainian conflict has led to significant volatility in the global markets. The extent and duration of such conflict, resulting sanctions and future market disruptions are impossible to predict, but could be significant and may have a severe adverse effect on the region, including a significant negative impact on the economy and the markets for certain securities and commodities, such as oil and natural gas, and on global economies.

Moreover, the aggravation of U.S.-China trade friction, trade protectionism and the slowdown in global economic growth have also caused volatility in the global financial market. The impact of the resulting trade policies or the terms of any renegotiated trade agreements is uncertain. The escalating U.S.-China trade war and U.S. global trade policy against the PRC, including the tightening of regulatory restrictions and industry-specific quotas, tariffs, non-tariff barriers, and taxes, could negatively impact the PRC economy. This, in turn, could adversely impact PRC's and Guangdong province's economy and the Group's business, financial condition, and operating results.

Volatility in global stock markets may result in adverse changes to the global economy. The global economy and global financial markets are facing significant uncertainties as the Russo-Ukrainian conflict continues to intensify. Global oil prices have experienced and continue to experience considerable volatility, as a result of, among others, the fluctuating demand for oil amidst the Russo-Ukrainian conflict. Economic conditions in the PRC are also sensitive to global economic conditions. Uncertainties in the global and PRC economy and a reduction in liquidity in the global and PRC financial markets may negatively affect the Group's access to financing resources to support its business plans and expansion. Therefore, instability in the global economy and China's economic growth may materially and adversely affect the Group's business, financial condition and results of operations.

Economic, political and social conditions in the PRC could affect the Group's business and prospects.

Substantially all of the Group's assets are located in the PRC and substantially all of the Group's revenue is sourced from the PRC. Accordingly, the Group's financial condition, results of operations and prospects are, to a material extent, subject to economic, political and legal developments in the PRC. The PRC economy differs from the economies of developed countries in many respects, including, among other things, government involvement, level of economic development, growth rate, foreign exchange controls and resources allocation. Although the PRC economy has been transitioning from a planned economy to a more market-oriented economy for more than three decades, a substantial portion of productive assets in the PRC is still owned by the PRC government. The PRC government also exercises significant control over the economic growth of the PRC through allocating resources, controlling payments of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. In recent years, the PRC government has implemented measures emphasising the utilisation of market forces in economic reform, the reduction of state ownership of productive assets and the establishment of sound corporate governance practices in business enterprises. These economic reform measures may be adjusted or modified, or applied inconsistently from industry to industry or across different regions of the country. As a result, the Group may not benefit from some of these measures.

The Group's operations and financial results could be affected by changes in political, economic and social conditions or the relevant policies of the PRC government, such as changes in laws and regulations (or the interpretation thereof). If the PRC's economic growth slows down or if the PRC economy experiences a recession, the growth in demand in the PRC may also slow down, and the Group's business prospects may be materially and adversely affected. The Group's operations and financial results, as well as its ability to satisfy its obligations under the Bonds, could also be materially and adversely affected by changes to or introduction of measures to control changes in the rate or method of taxation and the imposition of additional restrictions on currency conversion.

Uncertainty with respect to the PRC legal system could have a material adverse effect on the Group.

As substantially all of the Group's businesses are conducted, and substantially all of the Group's assets are located, in the PRC, the Group's operations are governed principally by the PRC laws and regulations. The PRC legal system is based on written statutes while prior court decisions can only be cited as reference. Since 1979, the PRC government has promulgated laws and regulations in relation to economic matters such as foreign investment, corporate organisation and governance, commerce, taxation, foreign exchange and trade, with a view to developing a comprehensive system of commercial law. However, China has not developed a fully integrated legal system and recently enacted laws and regulations that may not sufficiently cover all aspects of economic activities. In addition, the PRC legal system is based, in part, on government policies and internal rules (some of which are not published on a timely basis or at all) that may have a retroactive effect. As a result, the Group may not be aware of the Group's violation of these policies and rules until sometime after the violation. In addition, any litigation in the PRC may be protracted and result in substantial costs and diversion of resources and management's attention. These uncertainties relating to the interpretation and implementation of PRC laws and regulations may adversely affect the legal protections and remedies that are available to the Group in its operations and to the holders of the Bonds.

Investors may experience difficulties in effecting service of legal process and enforcing judgments against the Group and its management.

The Guarantor and most of its subsidiaries and portfolio companies are incorporated in the PRC. Substantially all of the Group's assets are located in the PRC. In addition, most of the Group's directors and executive officers reside within the PRC and the assets of the Group's directors and officers may be located within the PRC. As a result, it may not be possible to effect service of process outside the PRC upon most of the Group's directors and senior management, including for matters arising under applicable securities law.

The Terms and Conditions and the transaction documents relating to the Bonds are governed by English law, and parties to these documents have submitted to the exclusive jurisdiction of the Hong Kong courts. According to the Arrangement on Reciprocal Recognition and Enforcement of Judgments in Civil and Commercial Matters by the Courts of the Mainland and of the Hong Kong Special Administrative Region (關於內地與香港特別行政區法院相互認可和執行民商事案件判決的安排) (the “**2019 Arrangement**”) which became effective in January 2024, the scope of judicial assistance has been extended, however, recognition and enforcement of a Hong Kong court judgment could be refused if the PRC courts consider the enforcement of such judgment to be contrary to the social and public interest of the PRC or fails to meet other circumstances specified by the 2019 Arrangement. While it is expected that the PRC courts will recognise and enforce a judgment given by the Hong Kong courts, there can be no assurance that the PRC courts will do so for all such judgments as there is no established practice in this area. Compared to other similar debt securities issuances in the international capital markets where the relevant holders of the debt securities would not typically be required to submit to an exclusive jurisdiction, the holders of the Bonds will be deemed to have submitted to the exclusive jurisdiction of the Hong Kong courts, and thus the holders’ ability to initiate a claim outside of Hong Kong will be limited.

In addition, China does not have treaties providing for the reciprocal recognition and enforcement of judgments of courts with many countries, including the United States and the United Kingdom. Therefore, it may be difficult for investors to enforce any judgments obtained from foreign courts against the Guarantor or any of its directors or senior management in the PRC.

The PRC government’s control of currency conversion may adversely affect the value of investors’ investments.

Most of the Group’s revenue is denominated in Renminbi, which is also the reporting currency of the Group. Renminbi is not a freely convertible currency. A portion of the Group’s cash may be required to be converted into other currencies in order to meet the Group’s foreign currency needs. The PRC government may restrict future access to foreign currencies for current account transactions at its discretion. Foreign exchange transactions under capital account in the PRC may continue to be not freely convertible and require the approval of the SAFE. These limitations could affect the Group’s ability to obtain foreign currencies through equity financing, or to obtain foreign currencies for capital expenditures. In addition, significant future cash flows in Renminbi may limit the Group’s ability to purchase goods outside the PRC or fund business activities outside the PRC.

Future fluctuations in the value of the Renminbi could have a material adverse effect on the Group’s financial condition and results of operations.

A portion of the Group’s revenue, expenses and bank borrowings is denominated in Hong Kong dollars, U.S. dollars and other foreign currencies, although the Group’s functional currency is the Renminbi. As a result, fluctuations in exchange rates, particularly between the Renminbi, the Hong Kong dollar or the U.S. dollar, could affect the Group’s profitability and may result in foreign currency exchange losses of the Group’s foreign currency-denominated assets and liabilities.

The value of the Renminbi against the U.S. dollar, the euro and other currencies fluctuates and is affected by, among other things, changes in China’s political and economic conditions. With an increased floating range of the Renminbi’s value against foreign currencies and a more market-oriented mechanism for determining the mid-point exchange rates, the Renminbi may further appreciate or depreciate significantly in value against the U.S. dollar, the euro or other foreign currencies in the long-term. Any significant appreciation of the Renminbi against the U.S. dollar, the euro or other foreign currencies may result in the decrease in the value of the Group’s foreign currency-denominated assets. Conversely, any significant depreciation of the Renminbi may adversely affect the value of its businesses and its proceeds from the offering of the Bonds. In addition, there are limited instruments available for the Group to reduce its foreign currency risk exposure at reasonable costs. All of these factors could materially and adversely affect the Group’s businesses, financial conditions and results of operations.

The payment of dividends by the Guarantor's operating subsidiaries in the PRC is subject to restrictions under PRC law.

The Guarantor operates most of its businesses through its operating subsidiaries in the PRC. PRC laws require that dividends be paid only out of net profit, calculated according to PRC accounting principles, which differ from generally accepted accounting principles in other jurisdictions. In addition, PRC law requires enterprises set aside part of their net profit as statutory reserves before distributing the net profit for the current financial year. These statutory reserves are not available for distribution as cash dividends. Since the availability of funds to fund the Guarantor's operations and to service its debt depends on dividends received from these subsidiaries, any legal restrictions on the availability and usage of dividend payments from the Guarantor's subsidiaries may impact the Guarantor's ability to fund its operations and to service its indebtedness.

The enforcement of the Labour Contract Law and other labour-related regulations in the PRC may adversely affect the Group's business and results of operations.

The Group's businesses are labour intensive. Industrial action or other labour unrest may directly or indirectly prevent or hinder the Group's normal operating activities, and could adversely affect its business. In addition, the PRC government has amended labour laws to enhance the protection of employees' rights. The PRC Labour Contract Law (《中華人民共和國勞動合同法》) (the “**PRC Labour Contract Law**”), which became effective on 1 January 2008 and which was amended on 28 December 2012, imposes stringent requirements on employers in relation to entry into fixed-term employment contracts and dismissal of employees. For more information on PRC labour laws, see “*PRC Laws and Regulations — The Labour Law*”. Further, under the PRC Labour Contract Law, when an employer terminates its PRC employees' employment, the employer may be required to compensate them for such amount which is determined based on their length of service with the employer, and the employer may not be able to efficiently terminate non-fixed-term employment contracts under the PRC Labour Contract Law without cause. In the event the Group decides to significantly change or decrease its workforce, the PRC Labour Contract Law could adversely affect its ability to effect these changes in a cost-effective manner or in the manner that the Group desires, which could result in an adverse impact on the Group's business, financial condition and results of operations.

Increasing minimum wages, awareness of labour protections and inflation have also led to increases in labour costs for PRC enterprises. The Group may not be able to pass on any such increases to customers. Any failure to do so may have a material and adverse effect on the Group's business, financial condition and results of operations.

The Issuer may be treated as a PRC enterprise for PRC tax purposes, which may subject the Issuer to the PRC income taxes on its worldwide income and interest payable by the Issuer to foreign investors and gain on the sale of the Bonds may be subject to withholding taxes under the PRC tax law.

Under the PRC Enterprise Income Tax Law (《企業所得稅法》) (the “**EIT Law**”) which took effect on 1 January 2008 as last amended on 29 December 2018 and its implementation rules, enterprises established outside the PRC whose “de facto management bodies” are located in China are considered as “resident enterprises” for PRC tax purposes. The implementation rules define the term “de facto management body” as a management body that exercises full and substantial control and management over the business, personnel, accounts and properties of an enterprise. See “*Taxation - PRC*”. As at the date of this Offering Circular, the Issuer has not been notified or informed by the PRC tax authorities that it is considered as a PRC tax resident enterprise for the purpose of the EIT Law. If the Issuer is deemed to be a PRC resident enterprise for EIT purposes, the Issuer would be subject to the PRC enterprise income tax at the rate of 25 per cent. on its worldwide taxable income. Furthermore, the Issuer may be obligated to withhold the PRC income tax of up to seven per cent. on payments of interest and certain other amounts on the Bonds to investors that are Hong Kong resident enterprises or 10 per cent. on payments of interest and other amounts on the Bonds to investors that are “non-resident enterprises” as defined under the EIT Law or 20 per cent. for non-resident

individuals, who are also not Hong Kong resident enterprises, provided that there are no tax treaties between China and those countries which exempt or reduce such withholding tax, because the interest and other amounts may be regarded as being derived from sources within the PRC. In addition, if the Issuer fails to do so, it may be subject to fines and other penalties. Similarly, any gain realised by such non-resident enterprise investors from the transfer of the Bonds may be regarded as being derived from sources within the PRC and may accordingly be subject to a 10 per cent. PRC withholding tax provided that there are no tax treaties between China and those countries which exempt or reduce such withholding tax. Moreover, if the Issuer is deemed to be a PRC resident enterprise for EIT purposes, the non-resident individual holders of the Bonds may be subject to the PRC withholding tax applicable to payment of interest and other amounts on the Bonds and any gains realised from transfer of the Bonds at the rate of 20 per cent. for non-resident individuals and 10 per cent. for non-resident enterprises.

If the Issuer is required under the EIT Law to withhold PRC income tax from interest payments made to the Issuer's foreign investors who are "non-resident enterprises", the Issuer will be required to pay such additional amounts as will result in receipt by a holder of the Bonds of such amounts as would have been received by the holder had no such withholding been required. The requirement to pay additional amounts will increase the cost of servicing interest payments on the Bonds, and could have a material adverse effect on the ability of the Issuer to pay interest on, and repay the principal amount of, the Bonds, as well as their profitability and cash flow. In addition, if holders of Bonds are required to pay the PRC income tax on the transfer of the Bonds, the value of investments in the Bonds may be materially and adversely affected. It is unclear whether, if the Issuer is considered a PRC "resident enterprise", the holders of the Bonds might be able to claim the benefit of income tax treaties or agreements entered into between China and other countries or areas.

There can be no assurance of the accuracy or comparability of facts, forecasts and statistics contained in this Offering Circular with respect to the PRC, its economy or the relevant industry.

Facts, forecasts and other statistics in this offering relating to the PRC, its economy or the industries in which the Group operates have been directly or indirectly derived from official government publications and certain other public industry sources and the Group can guarantee neither the quality nor the reliability of such source materials. They have not been prepared or independently verified by the Issuer, the Group, the Joint Lead Managers, the Trustee, the Agents or any of its or their respective affiliates, employees, directors, officers, agents, advisers, representatives or any person who controls any of them and, therefore, the Issuer, the Group, the Joint Lead Managers, the Trustee, the Agents or any of its or their respective affiliates, employees, directors, officers, agents, advisers, representatives or any person who controls any of them makes no representation as to the completeness, accuracy or fairness of such facts, forecasts or other statistics, which may not be consistent with other information compiled within or outside the PRC. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be incomplete, inaccurate or unfair or may not be comparable to statistics produced for other economies or the same or similar industries in other countries and should not be unduly relied upon. Furthermore, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. In all cases, investors should give consideration as to how much weight or importance they should attach to or place on such facts, forecasts or other statistics.

RISKS RELATING TO THE BONDS AND THE GUARANTEE

The PRC government (including the Guangdong government and Guangdong SASAC) has no obligation to pay any amount under the Bonds.

The PRC government (including the Guangdong government and Guangdong SASAC) is not an obligor and shall under no circumstances have any obligation arising out of or in connection with the Bonds. This position has been reinforced by the Circular of the Ministry of Finance on Issues relevant to the Regulation on the Financing Activities Conducted by Financial Institutions for Local Governments and State-owned Enterprises (《財政部關於規範金融企業對地方政府和國有企業投融資行為有關問題的通知》(財金[2018]23號)) (the “**MOF Circular**”) promulgated on 28 March 2018 and took effect on the same day, and the Circular of the National Development and Reform Commission and the Ministry of Finance on Improvement of Market Regulatory Regime and Strict Prevention of Foreign Debt Risks and Local Government Indebtedness Risks (《國家發展改革委財政部關於完善市場約束機制嚴格防範外債風險和地方債務風險的通知》) (the “**Joint Circular**”) promulgated on 11 May 2018 and took effect on the same day.

The PRC government (including the Guangdong government and Guangdong SASAC) has no obligation to pay any amount under the Bonds. Investments in the Bonds are relying solely on the credit risk of the Issuer and the Guarantor. In the event the Issuer and/or the Guarantor do not fulfil their obligations under the Bonds, investors will only be able to claim as an unsecured creditor against the Issuer, the Guarantor and their assets, and not any other person including the PRC government, the Guangdong government, Guangdong SASAC or any other local or municipal government. Given the limited volume of published decisions related to the MOF Circular and the Joint Circular, the interpretation and enforcement of these laws and regulations involve uncertainties.

An active trading market for the Bonds may not develop.

The Bonds are a new issue of securities for which there is currently no trading market. There can be no assurance as to the liquidity of the Bonds or that an active trading market will develop or as to liquidity or sustainability of any such market, the ability of holders to sell their Bonds or the price at which holders will be able to sell their Bonds. If the Bonds are allocated to a limited group of investors, and a limited number of investors hold a significant proportion of the Bonds, liquidity will be restricted and the development of a liquid trading market for the Bonds will be affected. If a market does develop, it may not be liquid and the Bonds could trade at prices that may be higher or lower than the initial issue price depending on many factors, including prevailing interest rates, the Group’s operations and the market for similar securities. The Joint Lead Managers are not obligated to make a market in the Bonds and any such market making, if commenced, may be discontinued at any time at the sole discretion of the Joint Lead Managers. Therefore, investors may not be able to sell their Bonds easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. In addition, Bondholders should be aware of the prevailing and widely reported global credit market conditions (which continue at the date of this Offering Circular), whereby there is a general lack of liquidity in the secondary market for instruments similar to the Bonds. Such lack of liquidity may result in investors suffering losses on the Bonds in secondary resales even if there is no decline in the performance of the assets of the Group. It is not possible to predict which of these circumstances will change and whether, if and when they do change, there will be a more liquid market for the Bonds and instruments similar to the Bonds at that time. Although application will be made for the listing of the Bonds on the Hong Kong Stock Exchange, no assurance can be given as to the liquidity of, or trading market for, the Bonds. In addition, the Bonds are being offered pursuant to exemptions from registration under the Securities Act and, as a result, investors will only be able to resell their Bonds in transactions that have been registered under the Securities Act or in transactions not subject to or exempt from registration under the Securities Act.

The liquidity and price of the Bonds following this offering may be volatile.

If an active trading market for the Bonds were to develop, the price and trading volume of the Bonds may be highly volatile. Factors such as variations in the revenues, earnings and cash flows of the Group, proposals of new investments, strategic alliances and/or acquisitions, interest rates and fluctuations in prices for comparable companies, changes in the industry that the Group operates and competition and general economic conditions could cause the price of the Bonds to change. Any such developments may result in large and sudden changes in the volume and price at which the Bonds will trade. There can be no assurance that these developments will not occur in the future.

Investors in the Bonds may be subject to foreign exchange risks.

The Bonds are denominated and payable in U.S. dollars. An investor who measures investment returns by reference to a currency other than the U.S. dollar would be subject to foreign exchange risks by virtue of an investment in the Bonds, due to, among other things, economic, political and other factors over which neither the Issuer nor the Guarantor has any control. Depreciation of the U.S. dollar against such currency could cause a decrease in the effective yield of the Bonds below their stated coupon rates and could result in a loss when the return on the Bonds is translated into such currency. In addition, there may be tax consequences for investors as a result of any foreign currency gains resulting from any investment in the Bonds.

Developments in other markets may adversely affect the market price of the Bonds.

The market price of the Bonds may be adversely affected by declines in the international financial markets and world economic conditions. The market for the Bonds is, to varying degrees, influenced by economic and market conditions in other markets, especially those in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can affect the securities markets and the securities of issuers in other countries, including the PRC. The global credit markets have experienced significant volatility, such as those caused in recent years by the global financial and economic crisis. Since the global financial crisis in 2008 and 2009, the international financial markets have experienced significant volatility. In particular, various global economic, political and military events such as the European debt crisis, the United Kingdom's withdrawal from the European Union, the recent trade tensions between the United States and the PRC and the ongoing Israeli— Hamas and Russo-Ukrainian conflict. If similar developments occur in the international financial markets in the future, the market price of the Bonds could be adversely affected.

The Bonds may not be a suitable investment for all investors.

Each potential investor in any Bonds must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds and the information contained or incorporated by reference in this Offering Circular;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Bonds and the impact such investment will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Bonds, or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the Bonds and be familiar with the behaviour of any relevant indices and financial markets; and

- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

A potential investor should not invest in Bonds which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Bonds will perform under changing conditions, the resulting effects on the value of such Bonds and the impact this investment will have on the potential investor's overall investment portfolio.

Additionally, the investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (a) Bonds are legal investments for it, (b) Bonds can be used as collateral for various types of borrowing and (c) other restrictions apply to its purchase of any Bonds. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Bonds under any applicable risk-based capital or similar rules.

The Guarantor's obligations under the Guarantee will be structurally subordinated to all existing and future indebtedness and other liabilities of each of the Guarantor's existing and future subsidiaries (other than the Issuer), and effectively subordinated to the Guarantor's secured debt to the extent of the value of the collateral securing such indebtedness.

The Issuer was established by the Guarantor specifically for the purpose of issuing bonds and may on-lend the net proceeds from the issue of the bonds to the Guarantor or to other members of the Group. Moreover, the Issuer may issue other bonds in the future and on-lend the proceeds to other entities. The Issuer does not and will not have any assets other than such loan and its ability to make payments under the bonds will depend on its receipt of timely payments from the Guarantor or other members of the Group under such loan arrangement.

The Guarantee will be structurally subordinated to any debt and other liabilities and commitments, including trade payables and lease obligations, of the Guarantor's existing and future subsidiaries, whether or not secured. The Guarantor's obligations under the Guarantee will not be guaranteed by any of the Guarantor's subsidiaries, and the Guarantor's ability to make payments under the Guarantee depends partly on the receipt of dividends, distributions, interest or advances from its subsidiaries. The ability of such subsidiaries to pay dividends to the Guarantor is subject to various restrictions under applicable laws. The Guarantor's subsidiaries are separate legal entities that have no obligation to pay any amounts due under the Guarantee or make any funds available therefor, whether by dividends, loans or other payments. The Guarantor's right to receive assets of any of the Guarantor's subsidiaries, upon that subsidiary's liquidation or reorganisation, will be effectively subordinated to the claim of that subsidiary's creditors (except to the extent that the Guarantor are creditors of that subsidiary). Consequently, the Guarantee will be effectively subordinated to all liabilities, including trade payables and lease obligations, of any of the Guarantor's subsidiaries and any subsidiaries that the Guarantor may in the future acquire or establish. The outstanding indebtedness of the subsidiaries of the Guarantor may also contain covenants restricting the ability of such subsidiaries to pay dividends in certain circumstances for so long as such indebtedness remains outstanding. Moreover, the Guarantor's percentage interests in its subsidiaries and joint ventures could be reduced in the future.

The Guarantee constitutes the Guarantor's unsecured obligations and will (i) rank equally in right of payment with all the Guarantor's other present and future unsubordinated and unsecured indebtedness; and (ii) be effectively subordinated to all of the Guarantor's present and future secured indebtedness to the extent of the value of the collateral securing such obligations. Accordingly, claims of secured lenders, whether senior or junior, with respect to assets securing their loans will have priority with respect to those assets. In the event of the Guarantor's bankruptcy, insolvency, liquidation, reorganisation, dissolution or other winding up, or upon any acceleration of the Bonds, these assets will be available to pay obligations on the Guarantee only after all other debt secured by

these assets has been repaid in full. Any remaining assets will be available to the Bondholders rateably with all of the Guarantor's other unsecured and unsubordinated creditors, including trade creditors. If there are not sufficient assets remaining to pay all these creditors, then all or a portion of the Bonds then outstanding would remain unpaid.

If the Guarantor fails to submit the Deed of Guarantee for registration with SAFE or complete such registration with SAFE within the time period prescribed by SAFE, there may be logistical hurdles for cross-border payment under the Guarantee.

Pursuant to the Deed of Guarantee, the Guarantor will unconditionally and irrevocably guarantee the due payment of all sums expressed to be payable by the Issuer under the Bonds and the Trust Deed. The Guarantor is required to submit the Deed of Guarantee to SAFE for registration in accordance with, and within the time period prescribed by, the Provisions on the Foreign Exchange Administration of Cross-Border Guarantees. Although the non-registration does not render the Deed of Guarantee ineffective or invalid under PRC law, the Guarantor may not be able to go through the procedures for the purchase of foreign exchange and remittance to perform its obligations under the Deed of Guarantee, and SAFE may impose penalties on the Guarantor if registration of the Deed of Guarantee is not carried out within the stipulated timeframe. Under the Terms and Conditions of the Bonds, if the Cross-Border Security Registration is not completed before the Registration Deadline (being the day falling 90 PRC Business Days (as defined in the Terms and Conditions of the Bonds) after the Issue Date), the holder of a Bond will have the option to require the Issuer to redeem such Bond pursuant to Condition 6(c) of the Terms and Conditions of the Bonds. In addition, if the Guarantor fails to complete the Cross-Border Security Registration, there may be logistical hurdles at the time of remittance of funds (if any cross-border payment is to be made by the Guarantor under the Guarantee) as domestic banks may require evidence of the registration of the Deed of Guarantee with SAFE in order to effect such remittance, although this does not affect the validity of the Deed of Guarantee itself.

The interpretation of the Provisions on the Foreign Exchange Administration of Cross-Border Guarantees may involve significant uncertainty, which may adversely affect the enforceability and/or effective performance of the Deed of Guarantee of the Bonds in the PRC. In addition, the administration of the Provisions on the Foreign Exchange Administration of Cross-Border Guarantees may be subject to a certain degree of executive and policy discretion by SAFE. There is no assurance that the registration of the Deed of Guarantee with SAFE can be completed by the Guarantor or that such registration will not be revoked or amended in the future or that future changes in PRC laws and regulations will not have a negative impact on the validity and enforceability of the Deed of Guarantee in the PRC.

Any failure to complete the relevant filings under the NDRC Foreign Debt Measures within the prescribed time frame following the completion of the issue of the Bonds may have adverse consequences for the Issuer, the Guarantor and/or the investors of the Bonds.

On 5 January 2023, the NDRC published the NDRC Foreign Debt Measures, which came into effect on 10 February 2023 and repealed the NDRC Circular on the same date. The NDRC Foreign Debt Measures apply to medium and long-term foreign debts with a maturity of more than one year that are borrowed from overseas by enterprises within the territory of the PRC and by overseas enterprises or branches controlled by aforementioned PRC enterprises, denominated in local or foreign currency, and of which principal is repaid with payment of interest as agreed. Domestic enterprises and their overseas controlled entities shall obtain from the NDRC a pre-issuance registration certificate prior to issuing offshore debt securities. The Guarantor has registered the issuance of the Bonds with the NDRC and obtained an Enterprise Foreign Debt Review and Registration Certificate (《企業借用外債審核登記證明》) from the NDRC on 3 January 2025 evidencing such registration (the “**NDRC Certificate**”). The Guarantor undertakes to complete the Post-Issuance Filing within 10 PRC Business Days (as defined in the Terms and Conditions of the Bonds) after the Issue Date according to the NDRC Foreign Debt Measures and shall comply with regulations regarding risk management and

interim and ex-post supervision of the NDRC Foreign Debt Measures and any other rules and regulations promulgated by the NDRC in relation with the supervision and management of foreign debt from time to time. For any enterprise failing to comply with filing and reporting requirements under the NDRC Foreign Debt Measures, the NDRC will order such enterprise to take rectification actions within a prescribed time limit; and if the circumstances are severe or the enterprise fails to take rectification action within the prescribed time limit, give a warning to the relevant enterprise and its principal liable person. Furthermore, any violation of the NDRC Foreign Debt Measures committed by enterprises will be publicised on, among others, the Credit China (信用中國) website and the National Enterprise Credit Information Publicity System (國家企業信用信息公示系統). As a new regulation, the NDRC Foreign Debt Measures will be subject to interpretation and application by the relevant PRC authorities, and it remains unclear what impact non-compliance will have on the Bonds. Potential investors in the Bonds are advised to exercise due caution when making their investment decisions.

The Bonds and the Guarantee are unsecured obligations.

The Bonds and the Guarantee are unsecured obligations of the Issuer and the Guarantor, respectively. The repayment of the Bonds and payment under the Guarantee may be adversely affected if:

- the Issuer or the Guarantor enters into bankruptcy, liquidation, reorganisation or other winding-up proceedings;
- there is a default in payment under the Issuer's or the Guarantor's future secured indebtedness or other unsecured indebtedness; or
- there is an acceleration of any of the Issuer's or the Guarantor's indebtedness.

If any of these events were to occur, the Issuer's or the Guarantor's assets may not be sufficient to pay amounts due on the Bonds.

Modifications and waivers may be made in respect of the Terms and Conditions of the Bonds, the Deed of Guarantee, the Agency Agreement and the Trust Deed by the Trustee or less than all of the holders of the Bonds.

The Terms and Conditions of the Bonds provide that the Trustee may (but shall not be obliged to), without the consent of the Bondholders, agree to any modification of the Trust Deed, the Terms and Conditions of the Bonds, the Deed of Guarantee and/or the Agency Agreement which in the opinion of the Trustee will not be materially prejudicial to the interests of Bondholders and to any modification of the Trust Deed, the Terms and Conditions of the Bonds, the Deed of Guarantee and/or the Agency Agreement which in the opinion of the Trustee is of a formal, minor or technical nature or is to correct a manifest error or to comply with any mandatory provision of law.

In addition, the Trustee may (but shall not be obliged to), without the consent of the Bondholders, authorise or waive any proposed breach or breach of the Bonds, the Trust Deed, the Terms and Conditions of the Bonds, the Deed of Guarantee or the Agency Agreement (other than a proposed breach, or a breach relating to the subject of certain reserved matters) if, in the opinion of the Trustee, the interests of the Bondholders will not be materially prejudiced thereby.

If the Guarantor or any of its subsidiaries, including the Issuer, is unable to comply with the restrictions and covenants in their respective debt agreements (if any), or the Bonds, there could be a default under the terms of these agreements, or the Bonds, which could cause repayment of the debt of the Issuer or the Guarantor to be accelerated.

If the Guarantor or any of its subsidiaries is unable to comply with the restrictions and covenants in the Bonds, or current or future debt obligations and other agreements (if any), there could be a default under the terms of these agreements. In the event of a default under these agreements, the holders of the debt could terminate their commitments to lend to the Guarantor or any of its subsidiaries, including the Issuer, accelerate repayment of the debt, declare all amounts borrowed due and payable or terminate the agreements, as the case may be. Furthermore, those debt agreements may contain cross-acceleration or cross-default provisions. As a result, the default by the Guarantor or any of its subsidiaries under one debt agreement may cause the acceleration of repayment of debt, including the Bonds, or result in a default under its other debt agreements. If any of these events occur, there can be no assurance that there would be sufficient assets and cash flows to repay in full all of the indebtedness of the Guarantor or any of its subsidiaries, or that it would be able to find alternative financing. Even if the Guarantor and its subsidiaries could obtain alternative financing, there can be no assurance that it would be on terms that are favourable or acceptable to the Guarantor and its subsidiaries.

The ratings assigned to the Guarantor or the Bonds may be lowered or withdrawn in the future, and changes in such ratings may adversely affect the value of the Bonds.

The Bonds are expected to be assigned a rating of “A2” by Moody’s. The ratings represent the opinions of the rating agencies and their assessment of the ability of the Issuer and the Guarantor to perform their respective obligations under the Bonds and the Guarantee and credit risks in determining the likelihood that payments will be made when due under the Bonds. In addition, the Guarantor has been assigned a rating of “A2” with a negative outlook by Moody’s, “A” with a stable outlook by Fitch and “A” with a stable outlook by S&P. The Guarantor has also been assigned with a rating of “AAA” by China Chengxin International Credit Rating Co, Ltd. (中誠信國際信用評級有限公司). A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time. The Group cannot assure investors that a rating will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by the relevant rating agency if in its judgment circumstances in the future so warrant. In addition, credit rating agencies may change their methodology for assigning ratings at any time. Neither the Issuer nor the Guarantor has any obligation to inform holders of the Bonds of any such revision, downgrade or withdrawal. A suspension, reduction or withdrawal at any time of the rating assigned to the Bonds may adversely affect the market price of the Bonds and the ability of the Issuer and the Guarantor to access the debt capital markets.

The Bonds will be initially represented by a Global Certificate and holders of a beneficial interest in the Global Certificate must rely on the procedures of the relevant Clearing System(s).

The Bonds will be represented by a Global Certificate which will be deposited with a common depositary for Euroclear and Clearstream (each a “**Clearing System**”). Except in the limited circumstances described in the Global Certificate, investors will not be entitled to receive definitive certificates representing the Bonds. The Clearing System(s) will maintain records of the beneficial interests in the Global Certificate. While the Bonds are represented by the Global Certificate, investors will be able to trade their beneficial interests only through the Clearing Systems.

While the Bonds are represented by the Global Certificate, the Issuer, or failing which, the Guarantor will discharge its payment obligations under the Bonds by making payments to the Clearing System for distribution to their account holders. A holder of a beneficial interest in the Global Certificate must rely on the procedures of the Clearing System(s) to receive payments under the Bonds. Neither the Issuer nor the Guarantor has any responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Certificate.

Holders of beneficial interests in the Global Certificate will not have a direct right to vote in respect of the Bonds. Instead, such holders will be permitted to act only to the extent that they are enabled by the Clearing System(s) to appoint appropriate proxies. Similarly, holders of beneficial interests in the Global Certificate will not have a direct right under the Global Certificate to take enforcement action against the Issuer or the Guarantor in the event of a default under the Bonds but will have to rely upon their rights under the Trust Deed.

The Issuer or the Guarantor may issue additional bonds which affect the price of the Bonds.

The Issuer or the Guarantor may raise additional capital through the issue of other bonds or other means. Other than certain restrictions on issuing certain secured indebtedness as set out in Condition 4(a) of the Terms and Conditions of the Bonds, there is no restriction, contractual or otherwise, on the amount or type of securities or other liabilities which the Issuer may issue or incur and which rank senior to, or *pari passu* with, the Bonds. The issue of any such securities or the incurrence of any such other liabilities may reduce the amount (if any) recoverable by Bondholders on a winding-up of the Issuer or the Guarantor. The issue of any such securities or the incurrence of any such other liabilities might also have an adverse impact on the trading price of the Bonds and/or the ability of Bondholders to sell their Bonds.

Changes in market interest rates may adversely affect the value of the Bonds.

The Bonds will carry a fixed interest rate. Consequently, the trading price of the Bonds will vary with the fluctuations in the US dollar interest rates. If a holder of the Bonds tries to sell such Bonds before their maturity, he may receive an offer that is less than his investment.

The Issuer or the Guarantor may not be able to redeem the Bonds upon the due date for redemption thereof.

The Issuer may, on the occurrence of a Relevant Event (as defined under the Terms and Conditions of the Bonds), and at maturity will, be required to redeem part or all of the Bonds. If such an event were to occur, the Issuer may not have sufficient cash in hand and may not be able to arrange financing to redeem the Bonds in time, or on acceptable terms, or at all. There is also no assurance that the Guarantor would have sufficient funds at such time to make the required redemption of the Bonds. The ability to redeem the Bonds in such event may also be limited by the terms of other debt instruments. Failure to repay or redeem tendered Bonds by the Issuer or the Guarantor would constitute an event of default under the Bonds, which may also constitute a default under the terms of the Group's other indebtedness.

The insolvency laws of the British Virgin Islands and the PRC and other local insolvency laws may differ from those of another jurisdiction with which the holders of the Bonds are familiar.

As the Issuer and the Guarantor are incorporated under the laws of the British Virgin Islands and the PRC, respectively, any insolvency proceeding relating to the Issuer or the Guarantor would likely involve British Virgin Islands or PRC insolvency laws, respectively, the procedural and substantive provisions of which may differ from comparable provisions of the local insolvency laws of jurisdictions with which the holders of the Bonds are familiar.

The Trustee may request the Bondholders to provide an indemnity and/or security and/or prefunding to its satisfaction.

In certain circumstances, including, without limitation, giving of notice to the Issuer and the Guarantor pursuant to Condition 9 of the Terms and Conditions of the Bonds and taking steps and/or actions and/or instituting proceedings pursuant to Condition 13 of the Terms and Conditions of the Bonds, the Trustee may, at its sole and absolute discretion, request the Bondholders to provide an indemnity and/or security and/or prefunding to its satisfaction before it takes steps and/or actions and/or institutes proceedings on behalf of the Bondholders. The Trustee shall not be obliged to take any such steps and/or actions and/or institute proceedings if not indemnified and/or secured and/or prefunded to its satisfaction.

Negotiating and agreeing to an indemnity and/or security and/or prefunding can be a lengthy process and may impact on when such steps and/or actions can be taken and/or proceedings can be instituted. The Trustee may not be able to take actions, notwithstanding the provision of an indemnity and/or security and/or prefunding to it, in breach of the terms of the Trust Deed and in such circumstances, or where there is uncertainty or dispute as to the applicable laws or regulations, to the extent permitted by the agreements and the applicable law and regulations, it will be for the holders of the Bonds to take such steps and/or actions and/or to institute such proceedings directly.

Decisions may be made on behalf of all holders of the Bonds that may be adverse to the interests of individual holders of the Bonds.

The Terms and Conditions of the Bonds contain provisions for calling meetings of holders of the Bonds to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders of the Bonds including holders who did not attend and vote at the meeting and holders who voted in a manner contrary to the majority. Furthermore, there is a risk that the decision of the majority of holders of the Bonds may be adverse to the interests of the individual Bondholders.

Gains on the transfer of the Bonds and interest payable by the Issuer to overseas Bondholders may be subject to income tax and value-added tax under PRC tax laws.

Under the EIT Law which took effect on 1 January 2008 as last amended on 29 December 2018 and its implementation rules, any gains realised on the transfer of the Bonds by holders who are deemed under the EIT Law as non-resident enterprises may be subject to PRC enterprise income tax if such gains are regarded as income derived from sources within the PRC. Under the EIT Law, a non-resident enterprise means an enterprise established under the laws of a jurisdiction other than the PRC and whose actual administrative organisation is not in the PRC, which has established offices or premises in the PRC, or which has not established any offices or premises in the PRC but has obtained income derived from sources within the PRC. There remains uncertainty as to whether the gains realised on the transfer of the Bonds by enterprise holders would be treated as incomes derived from sources within the PRC and be subject to PRC enterprise income tax. In addition, there is uncertainty as to whether gains realised on the transfer of the Bonds by individual holders who are not PRC citizens or residents will be subject to PRC individual income tax. If such gains are subject to PRC income tax, the 10 per cent. enterprise income tax rate and 20 per cent. individual income tax rate will apply respectively unless there is an applicable tax treaty or arrangement that reduces or exempts such income tax. The taxable income will be the balance of the total income obtained from the transfer of the Bonds minus all costs and expenses that are permitted under PRC tax laws to be deducted from the income. According to the Arrangement between the Mainland of China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with its interpretations and its Protocol II, III and IV. Respect to Taxes on Income which was promulgated on 21 August 2006, Bondholders who are Hong Kong residents, including both enterprise holders and individual holders, will be exempted from PRC income tax on capital gains derived from a sale or exchange of the Bonds if such capital gains are not connected with an office or establishment that the Bondholders have in the PRC and all the other relevant conditions are satisfied.

In addition, according to the Circular of Full Implementation of Replacing Business Tax with Value-Added Tax Reform (關於全面推開營業稅改徵增值稅試點的通知) (Caishui [2016] No. 36) (“**Circular 36**”) issued by MOF and the State Administration of Taxation with effect from 1 May 2016, value-added tax (“**VAT**”) is applicable where the entities or individuals provide services within the PRC. The Guarantor, and if treated as a PRC resident enterprise, the Issuer, will be obligated to withhold VAT of six per cent. and certain surcharges (if any). VAT is unlikely to be applicable to any transfer of the Bonds between entities or individuals located outside of the PRC and therefore unlikely to be applicable to gains realised upon such transfers of the Bonds, but there is uncertainty as to the applicability of VAT if either the seller or buyer of the Bonds is located inside the PRC.

If a Bondholder, being a non-resident enterprise or non-resident individual, is required to pay any PRC income tax on interest or gains on the transfer of the Bonds, the value of the relevant Bondholder’s investment in the Bonds may be materially and adversely affected.

Additional procedures may be required to be taken to bring English law governed matters or disputes to the Hong Kong courts and the holders of the Bonds would need to be subject to the exclusive jurisdiction of the Hong Kong courts. There is also no assurance that the PRC courts will recognise and enforce judgments of the Hong Kong courts in respect of English law governed matters or disputes.

The Terms and Conditions of the Bonds, the Deed of Guarantee, the Trust Deed and the Agency Agreement are governed by English law, whereas parties to these documents have submitted to the exclusive jurisdiction of the Hong Kong courts. In order to hear English law governed matters or disputes, the Hong Kong courts may require certain additional procedures to be taken.

Under the 2019 Arrangement, where the Hong Kong court has given a legally effective judgment in a civil and commercial matter, any party concerned may apply to the relevant People’s Court of the PRC for recognition and enforcement of the judgment, subject to the provisions, limits, procedures and other terms and requirements of the 2019 Arrangement and the Judicial Interpretation. The recognition and enforcement of a Hong Kong court judgment could be refused if the relevant People’s Court of the PRC consider that the enforcement of such judgment is contrary to the basic principles of law of the PRC or the social and public interests of the PRC. While it is expected that the relevant People’s Courts of the PRC will recognise and enforce a judgment given by a Hong Kong court and governed by English law, there can be no assurance that such courts will do so for all such judgments as there is no established practice in this area.

TERMS AND CONDITIONS OF THE BONDS

The following, subject to modification and other than the words in italics, is the text of the Terms and Conditions of the Bonds which will appear on the reverse of each of the definitive certificates evidencing the Bonds:

The issue of the U.S.\$500,000,000 in aggregate principal amount of 4.25 per cent. guaranteed bonds due 2028 (the “**Bonds**”, which term shall include, unless the context requires otherwise, any further bonds issued in accordance with Condition 15 and consolidated and forming a single series therewith) was authorised by a resolution of the sole director of Hengjian International Investment Limited 恒健國際投資有限公司 (the “**Issuer**”) passed on 3 June 2025 and the guarantee of the Bonds was authorised by a resolution of the board of directors of Guangdong Hengjian Investment Holding Co., Ltd. (廣東恒健投資控股有限公司) (the “**Guarantor**”) passed on 24 April 2024. The Bonds are constituted by a trust deed (as amended or supplemented from time to time, the “**Trust Deed**”) dated 17 June 2025 (the “**Issue Date**”) between the Issuer, the Guarantor and China Construction Bank (Asia) Corporation Limited (中國建設銀行(亞洲)股份有限公司) (the “**Trustee**”, which expression shall include its successors(s)) as trustee for the holders of the Bonds. These terms and conditions include summaries of, and are subject to, the detailed provisions of the Trust Deed, which includes the form of the certificates evidencing the Bonds. The Bonds have the benefit of a deed of guarantee (as amended or supplemented from time to time, the “**Deed of Guarantee**”) dated the Issue Date executed by the Guarantor and the Trustee relating to the Bonds. An agency agreement (as amended or supplemented from time to time, the “**Agency Agreement**”) dated the Issue Date relating to the Bonds has been entered into between the Issuer, the Guarantor, the Trustee, China Construction Bank (Asia) Corporation Limited (中國建設銀行(亞洲)股份有限公司) as principal paying agent (the “**Principal Paying Agent**”, which expression shall include any successor principal paying agent appointed from time to time in connection with the Bonds), as registrar (in such capacity, the “**Registrar**”, which expression shall include its successor(s)) and as transfer agent (in such capacity, the “**Transfer Agent**”, which expression shall include any other transfer agent appointed in connection with the Bonds) and any other agents named therein. For so long as any Bond is outstanding, copies of the Trust Deed, the Deed of Guarantee and the Agency Agreement are available for inspection at all reasonable times during normal business hours (being between 9:00 a.m. (Hong Kong time) to 3:00 p.m. (Hong Kong time) from Monday to Friday (other than public holidays)) by the Bondholders (as defined below) following prior written request and satisfactory proof of holding at the principal place of business of the Trustee (being as at the Issue Date at 3/F, CCB Tower, 3 Connaught Road Central, Central, Hong Kong) and at the specified office of the Principal Paying Agent (being as at the Issue Date at 3/F, CCB Tower, 3 Connaught Road Central, Central, Hong Kong). “**Agents**” means the Principal Paying Agent, the Registrar, the Transfer Agent and any other agent or agents appointed from time to time pursuant to the Agency Agreement with respect to the Bonds. The Bondholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Trust Deed and the Deed of Guarantee and are deemed to have notice of those provisions applicable to them of the Agency Agreement.

All capitalised terms that are not defined in these terms and conditions (these “**Conditions**”) will have, unless the context otherwise requires, the meanings given to them in the Trust Deed.

1 Form, Specified Denomination and Title

The Bonds are issued in the specified denomination of U.S.\$200,000 and integral multiples of U.S.\$1,000 in excess thereof.

The Bonds are represented by registered certificates (“**Certificates**”) and, save as provided in Condition 2(a), each Certificate shall represent the entire holding of Bonds by the same holder.

Title to the Bonds shall pass by registration in the register that the Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement (the “**Register**”). Except as ordered by a court of competent jurisdiction or as required by law, the holder (as

defined below) of any Bond shall be deemed to be and may be treated as its absolute owner for all purposes whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on the Certificate representing it or the theft or loss of such Certificate and no person shall be liable for so treating the holder.

In these Conditions, “**Bondholder**” and, in relation to a Bond, “**holder**” mean the person in whose name a Bond is registered.

*Upon issue, the Bonds will be represented by a global certificate (the “**Global Certificate**”) registered in the name of a nominee of, and deposited with, a common depositary for Euroclear Bank SA/NV (“**Euroclear**”) and Clearstream Banking S.A. (“**Clearstream**”). These Conditions are modified by certain provisions contained in the Global Certificate. See “Summary of Provisions Relating to the Bonds in Global Form”.*

Except in the limited circumstances described in the Global Certificate, owners of interests in Bonds represented by the Global Certificate will not be entitled to receive definitive Certificates in respect of their individual holdings of Bonds. The Bonds are not issuable in bearer form.

2 Transfers of Bonds and Delivery of New Certificates

- (a) **Transfer:** A holding of Bonds may, subject to Conditions 2(d) and 2(e), be transferred in whole or in part upon the surrender (at the specified office of the Registrar or any Transfer Agent) of the Certificate(s) representing such Bonds to be transferred, together with the form of transfer endorsed on such Certificate(s) (or another form of transfer substantially in the same form and containing the same representations and certifications (if any), unless otherwise agreed by the Issuer), duly completed and executed and any other evidence as the Registrar or the relevant Transfer Agent may require. In the case of a transfer of part only of a holding of Bonds represented by one Certificate, a new Certificate shall be issued to the transferee in respect of the part transferred and a further new Certificate in respect of the balance of the holding not transferred shall be issued to the transferor. In the case of a transfer of Bonds to a person who is already a holder of Bonds, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding. No transfer of title to a Bond will be valid unless and until entered on the Register.

Transfers of interests in the Bonds evidenced by the Global Certificate will be effected in accordance with the rules of the relevant clearing systems.

- (b) **Delivery of New Certificates:** Each new Certificate to be issued pursuant to Condition 2(a) shall be available for delivery within seven business days of receipt of a duly completed form of transfer and surrender of the existing Certificate(s). Delivery of the new Certificate(s) shall be made at the specified office of the Transfer Agent or of the Registrar (as the case may be) to whom delivery or surrender of such form of transfer or Certificate shall have been made or, at the option of the holder making such delivery or surrender as aforesaid and as specified in the relevant form of transfer or otherwise in writing, be mailed by uninsured post at the risk of the holder entitled to the new Certificate to such address as may be so specified, unless such holder requests otherwise and pays in advance to the relevant Transfer Agent or the Registrar (as the case may be) the costs of such other method of delivery and/or such insurance as it may specify. In this Condition 2(b), “**business day**” means a day, other than a Saturday or Sunday or public holiday, on which banks are open for business in the place of the specified office of the relevant Transfer Agent or the Registrar (as the case may be).

- (c) **Transfer or Exercise Free of Charge:** Certificates, on transfer, shall be issued and registered without charge to the relevant Bondholder by or on behalf of the Issuer, the Registrar or any Transfer Agent, but upon (i) payment by the relevant Bondholder of any and all tax or other governmental charges that may be imposed in relation to them (or the giving of such indemnity and/or security and/or pre-funding as the Registrar or the relevant Transfer Agent may require in respect thereof); (ii) the Registrar or the relevant Transfer Agent being satisfied in its sole and absolute discretion with the documents of title or identity of the person making the application; and (iii) the Registrar or the relevant Transfer Agent being satisfied that the regulations concerning transfer of Bonds have been complied with.
- (d) **Closed Periods:** No Bondholder may require the transfer of a Bond to be registered (i) during the period of 15 days ending on (and including) the due date for redemption of that Bond, (ii) after a Put Exercise Notice has been deposited in respect of such Bond pursuant to Condition 6(c), (iii) during the period of seven days ending on (and including) any Record Date (as defined in Condition 7(a)), or (iv) during the period of 15 days prior to (and including) any date on which Bonds may be called for redemption by the Issuer pursuant to Condition 6(b).
- (e) **Regulations:** All transfers of Bonds and entries on the Register will be made in accordance with the detailed regulations concerning transfer and registration of Bonds scheduled to the Agency Agreement. Each of the Issuer and the Registrar may change the regulations from time to time, with the prior written approval of the Trustee and (in the case of any regulation proposed by the Issuer) of the Registrar. A copy of the current regulations will be made available for inspection at the specified office of the Registrar at all reasonable times during usual business hours (being between 9:00 a.m. (Hong Kong time) to 3:00 p.m. (Hong Kong time) from Monday to Friday (other than public holidays)) by the Registrar to any Bondholder upon prior written request and proof of holding to the satisfaction of the Registrar.

3 Guarantee and Status

- (a) **Guarantee:** The Guarantor has unconditionally and irrevocably guaranteed the due payment of all sums expressed to be payable by the Issuer under the Trust Deed and the Bonds. Its obligations in that respect (the “**Guarantee**”) are contained in the Deed of Guarantee. The obligations of the Guarantor under the Guarantee shall, save for such exceptions as may be provided by applicable legislation and subject to Condition 4(a), at all times rank *pari passu* with all its other present and future unsecured and unsubordinated obligations.
- (b) **Status:** The Bonds constitute direct, unsubordinated, unconditional and (subject to Condition 4(a)) unsecured obligations of the Issuer and shall at all times rank *pari passu* and without any preference among themselves. The payment obligations of the Issuer under the Bonds shall, save for such exceptions as may be provided by applicable legislation and subject to Condition 4(a), at all times rank *pari passu* with all the Issuer’s other present and future unsecured and unsubordinated obligations.

4 Negative Pledge; Undertakings relating to the Bonds and the Guarantee

- (a) **Negative Pledge:** So long as any Bond remains outstanding (as defined in the Trust Deed), neither the Issuer nor the Guarantor will, and each of the Issuer and the Guarantor will ensure that none of their respective Subsidiaries will create, or have outstanding, any mortgage, charge, lien, pledge or other security interest, upon the whole or any part of its present or future undertaking, assets or revenues (including any uncalled capital) to secure any Relevant Indebtedness, or to secure any guarantee or indemnity in respect of any such

Relevant Indebtedness, without at the same time or prior thereto according to the Bonds (a) the same security as is created or subsisting to secure any such Relevant Indebtedness, guarantee or indemnity or (b) such other security as shall be approved by an Extraordinary Resolution (as defined in the Trust Deed) of the Bondholders.

(b) **Undertakings relating to the Bonds and the Guarantee:** The Guarantor undertakes:

- (i) to file or cause to be filed with the National Development and Reform Commission of the PRC (the “**NDRC**”) the requisite information and documents, within 10 PRC Business Days after the Issue Date and in accordance with the Administrative Measures for the Review and Registration of Medium- and Long-Term Foreign Debts of Enterprises (企業中長期外債審核登記管理辦法(國家發展和改革委員會令第56號)) (the “**NDRC Foreign Debt Measures**”) issued by the NDRC and effective from 10 February 2023, and any implementation rules as issued by the NDRC from time to time (the “**Post-Issuance Filing**”) and to comply with all applicable PRC laws and regulations in relation to the issue of the Bonds; and
- (ii) to register or cause to be registered with the Guangdong Branch (or other relevant branch) of the State Administration of Foreign Exchange (“**SAFE**”), the Deed of Guarantee within 15 PRC Business Days after execution of the Deed of Guarantee in accordance with the Provisions on the Foreign Exchange Administration of Cross-Border Guarantees (跨境擔保外匯管理規定) promulgated by SAFE on 12 May 2014 which came into effect on 1 June 2014 (the “**Cross-Border Security Registration**”) and to use all reasonable endeavours to complete the Cross-Border Security Registration and obtain a registration certificate from SAFE (or any other document evidencing the completion of registration issued by SAFE) on or before the Registration Deadline and comply with all applicable PRC laws and regulations in relation to the Guarantee.

The Guarantor shall, within five PRC Business Days after the later of the submission of the Post-Issuance Filing and receipt of the registration certificate from SAFE (or any other document evidencing the completion of the Cross-Border Security Registration), provide the Trustee with:

- (i) a certificate in English substantially in the form set out in the Trust Deed signed by an Authorised Signatory (as defined in the Trust Deed) of the Guarantor confirming the completion of the Post-Issuance Filing and the Cross-Border Security Registration;
- (ii) copies of the SAFE registration certificate, any other document evidencing the Cross-Border Security Registration and the particulars of registration, each certified in English by an Authorised Signatory of the Guarantor as being a true and complete copy of the original,

(such documents as set out in (i) and (ii) collectively, the “**Registration Documents**”).

In addition, the Guarantor shall, as soon as reasonably practicable after the Registration Documents are delivered to the Trustee, notify Bondholders (in accordance with Condition 16) of the completion of the Post-Issuance Filing and the Cross-Border Security Registration in the form set out in the Trust Deed.

The Trustee shall have no obligation or duty to:

- (i) monitor, assist with or ensure the completion of the Cross-Border Security Registration with SAFE on or before the Registration Deadline and the Post-Issuance Filing with the NDRC within 10 PRC Business Days after the Issue Date;
- (ii) verify the accuracy, content, completeness, validity and/or genuineness of any documents in relation to or in connection with the Post-Issuance Filing and/or the Cross-Border Security Registration and/or the Registration Documents or any translation thereof or to procure that any document in relation to or in connection with the Post-Issuance Filing, the Cross-Border Security Registration and/or the Registration Documents or any document not in English is translated into English or to verify the accuracy of any English translation thereof of any such documents (if any); or
- (iii) give notice to the Bondholders confirming the completion of the Post-Issuance Filing and the Cross-Border Security Registration,

and shall not be liable to the Issuer, Guarantor, any Bondholder or any other person for not doing so.

- (c) **Issuer Activities:** The Issuer shall not, and the Guarantor shall procure that the Issuer will not, carry on any business activity whatsoever other than in connection with the issue of the Bonds or other bonds and any other activities reasonably incidental thereto (such activities shall, for the avoidance of doubt, include the on lending of the proceeds of the issue of the Bonds or other bonds to the Guarantor or any other Subsidiaries of the Guarantor).
- (d) **Financial Statements:** So long as any Bond remains outstanding, the Issuer and the Guarantor shall furnish the Trustee with:
 - (i) a Compliance Certificate (on which the Trustee may rely conclusively as to such compliance) of each of the Issuer and the Guarantor and a copy of the relevant Guarantor Audited Financial Reports in the Chinese language within 150 days of the end of each Relevant Period prepared in accordance with PRC GAAP (audited by the Guarantor's then existing external auditor or a nationally recognised firm of independent accountants);
 - (ii) a copy of the English translation of the relevant Guarantor Audited Financial Reports referred to in Condition 4(d)(i) above within 180 days of the end of each Relevant Period, translated by (x) the Guarantor's then existing external auditor or a nationally recognised firm of accountants or (y) a professional translation service provider and checked and confirmed in writing by the Guarantor's then existing external auditor or a nationally recognised firm of accountants together with a certificate signed by an Authorised Signatory of the Guarantor certifying that such translation is complete and accurate in all material respects. The Trustee shall be entitled to rely conclusively on such translation being true and complete in all respects and shall not be liable to Bondholders, the Issuer, the Guarantor or any other person for so doing or for any erroneous or incomplete translation; and
 - (iii) if so requested by the Trustee, a Compliance Certificate (on which the Trustee may rely conclusively as to such compliance) of each of the Issuer and the Guarantor within 21 days of any such written request.

The Trustee shall not be required to review the Guarantor Audited Financial Reports or any other financial report furnished or delivered to it as contemplated in this Condition 4 and,

if the same shall not be in the English language, shall not be required to request or obtain an English translation of the same or to investigate or verify the accuracy of any translation of any Guarantor Audited Financial Reports or any other financial report furnished or delivered to it as contemplated in this Condition 4, and the Trustee shall not be liable to any Bondholder or any other person for not doing so.

The Trustee shall be entitled to rely conclusively upon each Compliance Certificate given as contemplated in these Conditions and in the Trust Deed and shall not be liable to the Issuer, the Guarantor, any Bondholder or any other person for so relying.

- (e) **Ratings:** So long as any Bond remains outstanding, save with the approval of an Extraordinary Resolution of the Bondholders, the Issuer will use its best endeavours to maintain a rating on the Bonds by at least one Rating Agency.

In these Conditions:

“Compliance Certificate” means a certificate (substantially in the form scheduled to the Trust Deed) of the Issuer or the Guarantor (as the case may be) in English signed by an Authorised Signatory of the Issuer or the Guarantor (as the case may be) that, having made all reasonable enquiries, to the best knowledge, information and belief of the Issuer or the Guarantor (as the case may be) as at a date (the **“Certification Date”**) not more than five calendar days before the date of the certificate that:

- (a) no Relevant Event (as defined in Condition 6(c)), Event of Default (as defined in Condition 9) or Potential Event of Default (as defined in the Trust Deed) has occurred since the Certification Date of the last such certificate or (if none) the date of the Trust Deed or, if such an event had occurred, giving details of it; and
- (b) the Issuer or the Guarantor (as the case may be) has complied with all its covenants and obligations under the Trust Deed, the Bonds and the Deed of Guarantee or, if any non-compliance had occurred, giving details of the same.

“Exchangeable Debt” means any indebtedness incurred outside the PRC which is in the form of, or represented or evidenced by, bonds, notes, or other securities, and the terms of such indebtedness provide that the holders of such indebtedness shall have the right to exchange such indebtedness for shares of a company;

“Guarantor Audited Financial Reports” means, for a Relevant Period the annual audited consolidated financial statements of the Guarantor together with any statements, reports (including any directors’ and auditors’ reports) and notes attached to or intended to be read with any of them, prepared in accordance with the applicable PRC GAAP;

“PRC” means the People’s Republic of China, and for the purpose of these Conditions only, excluding the Hong Kong Special Administrative Region of the PRC, the Macau Special Administrative Region of the PRC and Taiwan;

“PRC Business Day” means a day (other than a Saturday, Sunday or public holiday) on which commercial banks are generally open for business in Guangzhou;

“PRC GAAP” means the Accounting Standards for Business Enterprises in China issued by the Ministry of Finance of the PRC from time to time;

“Project Finance Debt” means any present or future indebtedness incurred to finance the ownership, acquisition, construction, development and/or operation of an asset or a portfolio of assets (whether or not an asset of the Guarantor or any of its Subsidiaries) in respect of which the person or persons to whom any such indebtedness is or may be owed by the relevant borrower (whether or not the Guarantor or any of its Subsidiaries) has or have no recourse whatsoever to the Guarantor or any of its Subsidiaries for the repayment thereof other than:

- (i) recourse for amounts limited to the cash flow or net cash flow (other than historic cash flow or historic net cash flow) from such asset; or
- (ii) recourse for the purpose only of enabling amounts to be claimed in respect of such indebtedness in an enforcement of any encumbrance given by such borrower over such asset or the income, cash flow or other proceeds deriving therefrom (or given by any shareholder or the like in the borrower over its shares or the like in the capital of the borrower) to secure such indebtedness, provided that (x) the extent of such recourse is limited solely to the amount of any recoveries made on any such enforcement, and (y) such person or persons is/are not entitled, by virtue of any right or claim arising out of or in connection with such indebtedness, to commence proceedings for the winding up or dissolution of the Guarantor or any of its Subsidiaries or to appoint or procure the appointment of any receiver, trustee or similar person or officer in respect of the Guarantor or any of its Subsidiaries or any of their respective assets (save for the assets (or the income, cash flow or other proceeds deriving therefrom) the subject of such encumbrance); or
- (iii) recourse under any form of assurance, undertaking or support, which recourse is limited to a claim for damages (other than liquidated damages and damages required to be calculated in a specified way) for breach of an obligation (not being a payment obligation or an obligation to procure payment by another or an indemnity in respect thereof or any obligation to comply or to procure compliance by another with any financial ratios or other tests of financial condition) by the Guarantor or any of its Subsidiaries;

“Rating Agency” means (1) Fitch Ratings Ltd. and its successors; (2) S&P Global Ratings and its successors; (3) Moody’s Investors Service, Inc. and its successors or (4) any other reputable credit rating agency of international standing;

“Registration Deadline” means the day falling 90 PRC Business Days after the Issue Date;

“Relevant Indebtedness” means any indebtedness incurred outside the PRC which is in the form of, or represented or evidenced by, bonds, notes, or other securities which for the time being are, or are intended to be or capable of being, quoted, listed or dealt in or traded on any stock exchange or over-the-counter or other securities market but excludes any Project Finance Debt and Exchangeable Debt. For the avoidance of doubt, Relevant Indebtedness shall not include any indebtedness under any transferrable loan facility, bilateral bank loan or syndicated bank loan (including any drawing down of any existing credit line or facility of the Guarantor or any of its Subsidiaries);

“Relevant Period” means each period of 12 months ending on the last day of the Guarantor’s financial year (being 31 December of that financial year); and

a **“Subsidiary”** of any person means (a) any company or other business entity of which that person owns or controls (either directly or through one or more other Subsidiaries) more than 50 per cent. of the issued share capital or other ownership interest having ordinary voting power to elect directors, managers or trustees of such company or other business

entity, or (b) any company or other business entity which at any time has its accounts consolidated with those of that person or which, under the laws, regulations or generally accepted accounting principles of the jurisdiction of incorporation of such person from time to time, should have its accounts consolidated with those of that person.

5 Interest

The Bonds bear interest on their outstanding principal amount from and including 17 June 2025 at the rate of 4.25 per cent. per annum, payable semi-annually in arrear in equal instalments of U.S.\$21.25 per Calculation Amount (as defined below) on 17 June and 17 December in each year (each an “**Interest Payment Date**”) commencing on 17 December 2025.

Each Bond will cease to bear interest from the due date for redemption unless, upon surrender of the Certificate representing such Bond, payment of principal is improperly withheld or refused. In such event it shall continue to bear interest at such rate (both before and after judgment) until whichever is the earlier of (a) the date on which all sums due in respect of such Bond up to that day are received by or on behalf of the relevant Bondholder, and (b) the date falling seven days after the Trustee or the Principal Paying Agent has notified Bondholders of the receipt of all sums due in respect of all the Bonds up to that seventh day (except to the extent that there is failure in the subsequent payment to the relevant Bondholder under these Conditions).

In these Conditions, the period beginning on and including 17 June 2025 and ending on but excluding the first Interest Payment Date and each successive period beginning on and including an Interest Payment Date and ending on but excluding the next succeeding Interest Payment Date is called an “**Interest Period**”.

If interest is required to be calculated for a period of less than a complete Interest Period, the relevant day-count fraction will be determined on the basis of a 360-day year consisting of 12 months of 30 days each and, in the case of an incomplete month, the number of days elapsed.

Interest in respect of any Bond shall be calculated per U.S.\$1,000 in principal amount of the Bonds (the “**Calculation Amount**”). The amount of interest payable per Calculation Amount for any period shall (save as provided above in relation to equal instalments) be equal to the product of the rate of interest specified above, the Calculation Amount and the day-count fraction for the relevant period, rounding the resulting figure to the nearest cent (half a cent being rounded upwards).

Neither the Trustee nor any of the Agents shall be responsible for calculating or verifying the calculations of any amount payable under any notice of redemption and shall not be liable to the Issuer, the Guarantor, any Bondholder or any other person for not doing so.

6 Redemption and Purchase

- (a) **Final Redemption:** Unless previously redeemed, or purchased and cancelled, the Bonds will be redeemed at their principal amount on 17 June 2028. The Bonds may not be redeemed at the option of the Issuer other than in accordance with this Condition 6.
- (b) **Redemption for Taxation Reasons:** The Bonds may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than 30 nor more than 60 days’ notice to the Bondholders and in writing to the Trustee and the Principal Paying Agent, which should specify the date for redemption and the method by which payment shall be made to the Bondholders (which notice shall be irrevocable), at their principal amount together with any unpaid interest accrued up to, but excluding the date fixed for redemption, if the Issuer and/or the Guarantor (as the case may be) satisfies the Trustee immediately prior to the giving of such notice (i) that the Issuer (or, if the Guarantee was

called, the Guarantor) has or will become obliged to pay Additional Tax Amounts (as defined in Condition 8) as provided or referred to in Condition 8 as a result of any change in, or amendment to, the laws or regulations of the British Virgin Islands or the PRC, or, in each case, any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including but limited to any decision by a court of competent jurisdiction), which change or amendment becomes effective on or after 12 June 2025; and (ii) such obligation cannot be avoided by the Issuer (or the Guarantor, as the case may be) taking reasonable measures available to it, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer (or the Guarantor, as the case may be) would be obliged to pay such Additional Tax Amounts were a payment in respect of the Bonds (or the Guarantee, as the case may be) then due.

Prior to the publication of any notice of redemption pursuant to this Condition 6(b), the Issuer (or the Guarantor, as the case may be) shall deliver to the Trustee (A) a certificate signed in English by an Authorised Signatory of the Issuer (or a certificate in English of the Guarantor signed by an Authorised Signatory of the Guarantor, as the case may be) stating that the obligation referred to in (i) above of this Condition 6(b) cannot be avoided by the Issuer (or the Guarantor, as the case may be) taking reasonable measures available to it and (B) an opinion, addressed to and in form and substance satisfactory to the Trustee, of independent tax or legal advisers of recognised standing to the effect that the Issuer (or the Guarantor, as the case may be) has or will become obliged to pay such Additional Tax Amounts as a result of such change or amendments, and the Trustee shall be entitled to accept and rely conclusively upon such certificate and opinion (without further investigation or query and without liability to the Issuer, the Guarantor, the Bondholders or any other person) as sufficient evidence of the satisfaction of the conditions precedent set out in (i) and (ii) above of this Condition 6(b), in which event the same shall be conclusive and binding on the Bondholders. All Bonds in respect of which any notice of redemption is given under Condition 6(b) shall be redeemed on the date specified in such notice in accordance with this Condition 6(b).

- (c) **Redemption for Relevant Events:** At any time following the occurrence of a Relevant Event, the holder of any Bond will have the right, at such holder's option, to require the Issuer to redeem all but not some only of that holder's Bonds on the Put Settlement Date (as defined below) at 101 per cent. (in the case of a redemption for a Change of Control) or 100 per cent. (in the case of a redemption for a No Registration Event) of their principal amount, together with any unpaid interest accrued up to but excluding such Put Settlement Date. In order to exercise such right, the holder of the relevant Bond must deposit at the specified office of the Principal Paying Agent or any other Paying Agent a duly completed and signed notice of redemption, in the form set out in the Agency Agreement, obtainable from the specified office of the Principal Paying Agent or any other Paying Agent (a "**Put Exercise Notice**"), together with the Certificate evidencing the Bonds to be redeemed by not later than 30 days following a Relevant Event, or, if later, 30 days following the date upon which notice thereof is given to Bondholders by the Issuer in accordance with Condition 16.

The "**Put Settlement Date**" shall be the fourteenth calendar day (in the case of a redemption for a Change of Control) or the tenth calendar day (in the case of a redemption for a No Registration Event) after the expiry of such period of 30 days as referred to above or, if such day is not a Payment Business Day, the next following Payment Business Day. A Put Exercise Notice, once delivered, shall be irrevocable and the Issuer shall redeem the Bonds the subject of the Put Exercise Notices delivered as aforesaid on the Put Settlement Date.

The Issuer or the Guarantor as the case may be shall give notice in writing to Bondholders in accordance with Condition 16 and to the Trustee and the Principal Paying Agent in writing by not later than 14 days (in the case of a redemption for a Change of Control) or ten days (in the case of a redemption for a No Registration Event) following the first day on which it becomes aware of the occurrence of a Relevant Event, which notice shall specify the procedure for exercise by holders of their rights to require redemption of the Bonds pursuant to this Condition 6(c).

In this Condition 6(c):

a **“Change of Control”** occurs when:

- (i) (a) Guangdong SASAC and (b) any other person Controlled (whether directly or indirectly) by Guangdong SASAC or the provincial government of Guangdong or the central government of the PRC, together cease to Control the Guarantor;
- (ii) the Guarantor ceases to hold or own 100 per cent. of the issued share capital of the Issuer; or
- (iii) the Guarantor consolidates with or merges into or sells or transfers all or substantially all of the Guarantor’s assets to any other person or persons, acting together, unless (x) the Guarantor is the surviving person after such consolidation or merger, or (y) if the Guarantor is not the surviving person after such consolidation or merger, such person(s) is/are Controlled (whether directly or indirectly) by Guangdong SASAC or the provincial government of Guangdong;

“Control” means, with respect to a person, (i) the ownership or control of 75 per cent. of the voting rights of the issued share capital of a person whether obtained directly or indirectly or (ii) the right to appoint and/or remove all of the members of a person’s board of directors or other governing body, whether obtained directly or indirectly, and whether obtained by ownership of share capital, the possession of voting rights, contract or otherwise;

“Guangdong SASAC” means the State-owned Assets Supervision and Administration Commission of the People’s Government of Guangdong Municipality or its successors;

a **“No Registration Event”** occurs when the Registration Conditions have not been satisfied in full on or before the Registration Deadline;

a **“person”** includes any individual, company, corporation, firm, partnership, joint venture, undertaking, association, organisation, trust, state, agency of a state (in each case whether or not being a separate legal entity);

“Registration Conditions” means the receipt by the Trustee of the Registration Documents which relate to the Cross-Border Security Registration only as set forth in Condition 4(b) above; and

a **“Relevant Event”** means a Change of Control or a No Registration Event.

- (d) **Notices of Redemption:** All Bonds in respect of which any notice of redemption is given under this Condition 6 shall be redeemed on the date specified in such notice in accordance with this Condition 6. If there is more than one notice of redemption given in respect of any Bond (which shall include any notice given by the Issuer pursuant to Condition 6(b) and any Put Exercise Notice given by a Bondholder pursuant to Condition 6(c)), the notice given first in time shall prevail and in the event of two notices being given on the same date, the first to be given shall prevail. Neither the Trustee nor any of the Agents shall be

responsible for monitoring or taking any steps to ascertain whether any of the circumstances mentioned in this Condition 6 has occurred or for calculating or verifying any calculations of any amounts payable under any notice of redemption or Put Exercise Notice and none of them shall be liable to the Bondholders, the Issuer, the Guarantor or any other person for not doing so.

- (e) **Purchase:** The Issuer, the Guarantor and their respective Subsidiaries may at any time purchase Bonds in the open market or otherwise at any price. The Bonds so purchased, while held by or on behalf of the Issuer, the Guarantor or any such Subsidiary, shall not entitle the holder to vote at any meetings of the Bondholders and shall not be deemed to be outstanding for, among other things, the purposes of calculating quorums at meetings of the Bondholders or for the purposes of Conditions 9, 12(a) and 13.
- (f) **Cancellation:** All Certificates representing Bonds purchased by or on behalf of the Issuer, the Guarantor and their respective Subsidiaries shall be surrendered for cancellation to the Registrar and, upon surrender thereof, all such Bonds shall be cancelled forthwith. Any Certificates so surrendered for cancellation may not be reissued or resold and the obligations of the Issuer and the Guarantor in respect of any such Bonds shall be discharged.

7 Payments

(a) Method of Payment:

- (i) Payments of principal and premium (if any) shall be made (subject to surrender of the relevant Certificates at the specified office of any Transfer Agent or of the Registrar if no further payment falls to be made in respect of the Bonds represented by such Certificates) in the manner provided in Condition 7(a)(ii) below.
- (ii) Interest on each Bond shall be paid on the due date to the person shown on the Register at the close of business on the fifth Payment Business Day before the due date for payment thereof (the “**Record Date**”). Payments of interest on each Bond shall be made in U.S. dollars by wire transfer to the registered account of the holder of such Bond. In these Conditions, the “registered account” of a holder means the U.S. dollar account maintained by or on behalf of the such holder with a bank, details of which appear in the Register at the close of business on the Record Date.

*So long as the Global Certificate is held on behalf of Euroclear and Clearstream or any other clearing system, each payment in respect of the Global Certificate will be made to the person shown as the holder in the Register at the close of business of the relevant clearing system on the Clearing System Business Day before the due date for such payments, where “**Clearing System Business Day**” means a weekday (Monday to Friday, inclusive) except 25 December and 1 January.*

- (iii) If the amount of principal being paid upon surrender of the relevant Certificate is less than the outstanding principal amount of such Certificate, the Registrar will annotate the Register with the amount of principal so paid and will (if so requested by the Issuer or a Bondholder) issue a new Certificate with a principal amount equal to the remaining unpaid outstanding principal amount. If the amount of premium (if any) or interest being paid is less than the amount then due, the Registrar will annotate the Register with the amount of premium (if any) or interest so paid.
- (b) **Payments subject to Fiscal Laws:** All payments are subject in all cases to (i) any applicable fiscal or other laws, regulations and directives in the place of payment but without prejudice to the provisions of Condition 8 and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal

Revenue Code of 1986 (the “**Code**”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreement thereunder, any official interpretations thereof, or (without prejudice to provisions of Condition 8) any law implementing an intergovernmental approach thereto. No commission or expenses shall be charged to the Bondholders in respect of such payments.

- (c) **Payment Initiation:** Where payment is to be made by transfer to an account in U.S. dollars, payment instructions (for value on the due date or, if that is not a Payment Business Day, for value the first following day which is a Payment Business Day) will be initiated on the due date for payment (or, if that date is not a Payment Business Day, on the first following day which is a Payment Business Day), or, in the case of payments of principal or premium (if any) where the relevant Certificate has not been surrendered at the specified office of any Paying Agent, on a Payment Business Day on which the Principal Paying Agent is open for business and on which the relevant Certificate is surrendered.
- (d) **Appointment of Agents:** The Principal Paying Agent, the Registrar and the Transfer Agent initially appointed by the Issuer and the Guarantor and their respective specified offices are listed below. The Principal Paying Agent, the Registrar and the Transfer Agent act solely as agents of the Issuer and the Guarantor (or, as provided in the Trust Deed, the Trustee) and do not assume any obligation or relationship of agency or trust for or with any Bondholder. The Issuer and the Guarantor reserve the right at any time with the prior written approval of the Trustee to vary or terminate the appointment of the Agents and to appoint additional or other Agents, provided that the Issuer shall at all times maintain (i) a Principal Paying Agent, (ii) a Registrar, (iii) a Transfer Agent, and (iv) such other agents as may be required by the stock exchange on which the Bonds may be listed, in each case, as approved in writing by the Trustee.

Notice of any such change or any change of any specified office shall promptly be given by the Issuer (failing whom, the Guarantor) to the Bondholders in accordance with Condition 16.

- (e) **Delay in Payment:** Bondholders will not be entitled to any interest or other payment for any delay in receiving the amount due on a Bond if the due date is not a Payment Business Day, or if the Bondholder is late in surrendering or cannot surrender its Certificate (if required to do so), or if a wire transfer made in accordance with Condition 7(a)(ii) reaches the registered account of the relevant holder after the due date for payment.
- (f) **Non-Payment Business Days:** If any date for payment in respect of any Bond is not a Payment Business Day, the holder shall not be entitled to payment until the next following Payment Business Day, nor to any interest or other sum in respect of such postponed payment. In this Condition 7, “**Payment Business Day**” means a day (other than a Saturday, a Sunday or a public holiday) on which banks and foreign exchange markets are generally open for business and settlement of U.S. dollars payments in Hong Kong and New York City and (if surrender of the relevant Certificate is required) the relevant place of presentation.

8 Taxation

All payments of principal, premium (if any) and interest by or on behalf of the Issuer or the Guarantor in respect of the Bonds or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within the British Virgin Islands or the PRC or any political subdivision or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.

Where such withholding or deduction is made by the Issuer or, as the case may be, the Guarantor by or within the PRC at the rate applicable on 12 June 2025 (the “**Applicable Rate**”), the Issuer or, as the case may be, the Guarantor will increase the amounts paid by it to the extent required, so that the net amount received by Bondholders equals the amount which would otherwise have been receivable by them had no such withholding or deduction been required.

If (i) the Issuer is required to make any deduction or withholding by or within the British Virgin Islands, or (ii) the Issuer, or as the case may be, the Guarantor is required to make a deduction or withholding by or within the PRC in excess of the Applicable Rate, then the Issuer (or the Guarantor, as the case may be) shall pay such additional amounts (“**Additional Tax Amounts**”) as will result in receipt by the Bondholders of such amounts as would have been received by them had no such withholding or deduction been required, except that no Additional Tax Amounts shall be payable in respect of any Bond (or the Guarantee, as the case may be):

- (a) **Other Connection:** to a holder (or to a third party on behalf of a holder) who is liable to such taxes, duties, assessments or governmental charges in respect of such Bond by reason of his having some connection with the British Virgin Islands (in the case of payments made by the Issuer) or the PRC (in the case of payments made by the Issuer or the Guarantor) other than the mere holding of the Bond; or
- (b) **Lawful avoidance of withholding:** to a holder, or to a third party on behalf of, a holder who could lawfully avoid (but has not so avoided) such deduction or withholding by complying or procuring that any third party complies with any statutory requirements or by making or procuring that any third party makes a declaration of non-residence or other similar claim for exemption to any tax authority in the place where the Certificate representing the Bond is presented for payment; or
- (c) **Surrender more than 30 days after the Relevant Date:** in respect of which the Certificate representing it is presented for payment more than 30 days after the Relevant Date except to the extent that the holder of it would have been entitled to such Additional Tax Amounts on surrendering the Certificate representing such Bond for payment on the last day of such period of 30 days (as if such last day were a Payment Business Day).

In this Condition 8, “**Relevant Date**” in respect of any Bond means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date falling seven days after that on which notice is duly given to the Bondholders that, upon further surrender of the Certificate representing such Bond being made in accordance with these Conditions, such payment will be made, provided that payment is in fact made upon such surrender.

Neither the Trustee nor any Agent shall be responsible for paying any tax, duty, assessments, governmental charges, withholding or other payment referred to in this Condition 8 or otherwise in connection with the Bonds or for determining whether such amounts are payable or the amount thereof, and none of them shall be responsible or liable for any failure by the Issuer, the Guarantor, any Bondholder or any third party to pay such tax, duty, assessments, governmental charges, withholding or other payment in any jurisdiction or to provide any notice or information that would permit, enable or facilitate the payment of any principal, premium (if any), interest or other amount under or in respect of the Bonds without deduction or withholding for or on account of any tax, duty, assessments, governmental charge, withholding or other payment imposed by or in any jurisdiction.

References in these Conditions to principal, premium (if any) and interest shall be deemed also to refer to any Additional Tax Amounts which may be payable under this Condition 8 or any undertaking or covenant given in addition thereto or in substitution therefor pursuant to the Trust Deed.

9 Events of Default

If any of the following events (each an “**Event of Default**”) occurs the Trustee at its sole and absolute discretion may, and if so requested in writing by holders of at least 25 per cent. in principal amount of the Bonds then outstanding or if so directed by an Extraordinary Resolution shall (provided in any such case that the Trustee shall have been indemnified and/or secured and/or pre-funded to its satisfaction), give written notice to the Issuer and the Guarantor that the Bonds are, and they shall immediately become, due and payable at their principal amount together (if applicable) with any accrued and unpaid interest:

- (a) **Non-Payment:** there has been a failure to pay (i) the principal of or any premium (if any); or (ii) interest on any of the Bonds when due within 14 days of the due date for payment thereof; or
- (b) **Breach of Other Obligations:** the Issuer or the Guarantor does not perform or comply with any one or more of their respective other obligations under the Bonds, the Trust Deed or the Deed of Guarantee (other than where such default gives rise to a Bondholder right to require the redemption of the Bonds pursuant to Condition 6(c)), which default is, in the opinion of the Trustee, incapable of remedy or, if such default is, in the opinion of the Trustee, capable of remedy, such default is not, in the opinion of the Trustee, remedied within 30 calendar days after written notice of such default shall have been given to the Issuer or the Guarantor (as the case may be) by the Trustee; or
- (c) **Cross-Default:** (i) any other present or future indebtedness of the Issuer or the Guarantor or any of their respective Subsidiaries for or in respect of moneys borrowed or raised becomes due and payable prior to its stated maturity by reason of any actual or potential default, event of default or the like (howsoever described), or (ii) any such indebtedness is not paid when due or, as the case may be, within any originally applicable grace period, or (iii) the Issuer or the Guarantor or any of their respective Subsidiaries fails to pay when due any amount payable by it under any present or future guarantee for, or indemnity in respect of, any moneys borrowed or raised (as extended by any originally applicable grace period), provided that the aggregate amount of the relevant indebtedness, guarantees and indemnities in respect of which one or more of the events mentioned above in this Condition 9(c) have occurred equals or exceeds U.S.\$80 million or its equivalent (on the basis of the middle spot rate for the relevant currency against the U.S. dollar as quoted by any leading bank on the day on which this Condition 9(c) operates); or
- (d) **Enforcement Proceedings:** a distress, attachment, execution or other legal process is levied, enforced or sued out on or against any material part of the property, assets or revenues of the Issuer, the Guarantor or any of the Principal Subsidiaries and is not discharged or stayed within 60 calendar days; or
- (e) **Security Enforced:** any mortgage, charge, pledge, lien or other encumbrance, present or future, created or assumed by the Issuer or the Guarantor or any Principal Subsidiaries on all or any material part of its assets becomes enforceable and any step is taken to enforce it (including the taking of possession or the appointment of a receiver, manager or other similar person) and is not discharged or stayed within 60 calendar days; or

- (f) **Insolvency:** (i) any proceeding under any applicable bankruptcy or insolvency law is commenced against the Issuer or (ii) the Guarantor or any of the Principal Subsidiaries is (or is deemed by law or a court of competent jurisdiction to be) insolvent or bankrupt or (iii) the Issuer or the Guarantor or any of the Principal Subsidiaries is unable to pay its debts as they fall due, stops, suspends or threatens to stop or suspend payment of all or any material part of its debts as they fall due, or (iv) the Issuer or the Guarantor or any of the Principal Subsidiaries proposes or makes a general assignment or an arrangement or composition with or for the benefit of the relevant creditors in respect of any of such debts or a moratorium is agreed or declared in respect of or affecting all or any material part of the debts of the Issuer, the Guarantor or any of the Principal Subsidiaries provided, for the avoidance of doubt, this sub-clause (iv) shall not apply to an assignment, arrangement or composition with creditors entered into by the Issuer, the Guarantor or any Principal Subsidiary on a solvent basis with respect to the indebtedness of any Principal Subsidiary (or any guarantee thereof granted by the Issuer or the Guarantor) and on terms as notified to the Trustee through a notice to be delivered on or before the commencement of such assignment, arrangement or composition, which notice should confirm that such assignment, arrangement or composition is conducted on a solvent basis and will not affect the Issuer and the Guarantor's ability to perform their obligations under the Bonds, the Trust Deed and the Deed of Guarantee; or
- (g) **Winding-up:** an order is made by a court of competent jurisdiction or an effective resolution is passed for the winding-up or dissolution of the Issuer or the Guarantor or any Principal Subsidiaries, or the Issuer, the Guarantor or any Principal Subsidiaries ceases or threatens to cease to carry on all or substantially all of its business or operations, except (i) for the purpose of and followed by a reconstruction, amalgamation, reorganisation, merger or consolidation (A) on terms approved by an Extraordinary Resolution of the Bondholders, or (B) in the case of a Principal Subsidiary, whereby the undertaking and assets of such Principal Subsidiary are transferred to or otherwise vested in the Issuer or the Guarantor and/or any of the Subsidiary(ies) of the Guarantor or (ii) a solvent winding up, liquidation or dissolution of any Principal Subsidiary other than the Issuer or the Guarantor or (iii) a disposal of or by a Principal Subsidiary of the Guarantor on an arm's length basis where the proceeds from such disposal shall be transferred to or otherwise vested in the Issuer, the Guarantor and/or any of their respective Subsidiary(ies); or
- (h) **Government Intervention:** any part of the assets or undertaking of the Issuer, the Guarantor and any Principal Subsidiaries (taken as a whole) with a value being equal to or exceeding one per cent. of the Consolidated Total Assets (or its equivalent in any other currency) is seized, compulsorily acquired or expropriated by any person acting under the authority of any national, regional or local government, provided that any actions taken by Guangdong SASAC or the provincial government of Guangdong or any political subdivision or any authority thereof solely in its capacity as a direct or indirect shareholder in the Guarantor, the Issuer and/or the Principal Subsidiaries shall not be deemed to be a seizure, compulsory acquisition or expropriation for the purposes of this Condition 9(h); or
- (i) **Authorisation and Consents:** any action, condition or thing (including the obtaining or effecting of any necessary consent, approval, authorisation, exemption, filing, licence, order, recording or registration) at any time required to be taken, fulfilled or done in order (i) to enable the Issuer and the Guarantor lawfully to enter into, exercise their respective rights and perform and comply with their respective obligations under the Bonds, the Trust Deed, Agency Agreement and the Deed of Guarantee, (ii) to ensure that those obligations are legally binding and enforceable and (iii) to make the Bonds, the Trust Deed, Agency Agreement and the Deed of Guarantee admissible in evidence in the courts of Hong Kong is not taken, fulfilled or done; or

- (j) **Illegality:** it is or will become unlawful for the Issuer or the Guarantor to perform or comply with any one or more of its obligations under any of the Bonds, the Trust Deed and/or the Deed of Guarantee; or
- (k) **Unenforceability of Guarantee:** the Guarantee becomes unenforceable or invalid or shall for any reason cease to be in full force and effect or is claimed to be unenforceable, invalid or not in full force and effect by the Guarantor; or
- (l) **Analogous Events:** any event occurs which under the laws of any relevant jurisdiction has an analogous effect to any of the events referred to in any of Conditions 9(d) to 9(g) (both inclusive).

In this Condition 9:

“Consolidated Total Assets” means the aggregate of all assets of the Guarantor as shown in the latest audited consolidated balance sheet of the Guarantor; and

“Principal Subsidiary” means, at any time, any Subsidiary of the Guarantor:

- (i) whose total revenue (consolidated in the case of a Subsidiary which itself has Subsidiaries) attributable to the Guarantor as shown by its latest audited income statement, is at least five per cent. of the consolidated total revenues as shown by the latest published audited consolidated income statement of the Guarantor and its consolidated Subsidiaries;
- (ii) whose gross profit (consolidated in the case of a Subsidiary which itself has Subsidiaries) attributable to the Guarantor as shown by its latest audited income statement, is at least five per cent. of the consolidated gross profit as shown by the latest published audited consolidated income statement of the Guarantor and its consolidated Subsidiaries; or
- (iii) whose total assets (consolidated in the case of a Subsidiary which itself has Subsidiaries) attributable to the Guarantor as shown by its latest audited balance sheet, is at least five per cent. of the consolidated total assets as shown by the latest published audited consolidated balance sheet of the Guarantor and its consolidated Subsidiaries; or
- (iv) to which is transferred the whole or substantially the whole of the assets of a Subsidiary which immediately prior to such transfer was a Principal Subsidiary, provided that (xx) the Principal Subsidiary which so transfers its assets shall forthwith upon such transfer cease to be a Principal Subsidiary and the Subsidiary to which the assets are so transferred shall forthwith become a Principal Subsidiary and (yy) on or after the date on which the first published audited accounts (consolidated, if appropriate) of the Guarantor prepared as of a date later than such transfer are issued, whether such transferor Subsidiary or such transferee Subsidiary is or is not a Principal Subsidiary shall be determined on the basis of such accounts by virtue of the provisions of paragraphs (i), (ii) or (iii) above of this definition,

provided that, in relation to paragraphs (i), (ii) and (iii) above of this definition:

- (a) in the case of a corporation or other business entity becoming a Subsidiary after the end of the financial period to which the latest consolidated audited accounts of the Guarantor relate, the reference to the then latest consolidated audited accounts of the Guarantor for the purposes of the calculation above shall, until consolidated audited accounts of the Guarantor for the financial period in which the relevant corporation or other business entity becomes a Subsidiary are published, be deemed to be a reference to the then latest consolidated audited accounts of the Guarantor, adjusted to consolidate the latest accounts (consolidated in the case of a Subsidiary of the Guarantor which itself has Subsidiaries) of such Subsidiary in such accounts;

- (b) if at any relevant time in relation to the Guarantor or any Subsidiary no financial statements are prepared and audited, the total revenue, gross profit or total assets of the Guarantor and/or any such Subsidiary (consolidated, if appropriate) shall be determined on the basis of pro forma financial statements (consolidated, if appropriate) prepared for this purpose; and
- (c) if the accounts of any Subsidiary (not being a Subsidiary referred to in proviso (a) above of this definition) are not consolidated with those of the Guarantor then the determination of whether or not such Subsidiary is a Principal Subsidiary shall be based on a pro forma consolidation of its accounts (consolidated, if appropriate) with the consolidated accounts (determined on the basis of the foregoing) of the Guarantor.

A certificate (substantially in the form scheduled to the Trust Deed) prepared by an Authorised Signatory of the Guarantor stating that, in his opinion, a Subsidiary of the Guarantor, is or is not, or was or was not, a Principal Subsidiary of the Guarantor shall, in the absence of manifest error, be conclusive and binding on the Bondholders and all parties. If there is a dispute as to whether any Subsidiary of the Guarantor is or is not a Principal Subsidiary of the Guarantor such certificate shall be accompanied by a report by a nationally recognised firm of independent public accountants addressed to the Guarantor as to proper extraction of the figures used by the Guarantor in determining the Principal Subsidiaries of the Guarantor and mathematical accuracy of the calculation.

10 Prescription

Claims against the Issuer or the Guarantor for payment in respect of the Bonds shall be prescribed and become void unless made within 10 years (in the case of principal or premium (if any)) or five years (in the case of interest) from the appropriate Relevant Date (as defined in Condition 8) in respect of them.

11 Replacement of Certificates

If any Certificate is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations or other relevant regulatory authority regulations, at the specified office of the Registrar or such Transfer Agent as may from time to time be designated by the Issuer for that purpose and notice of whose designation is given to Bondholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security, indemnity and otherwise as the Issuer, the Registrar or the relevant Transfer Agent may require. Mutilated or defaced Certificates must be surrendered before replacements will be issued.

12 Meetings of Bondholders, Modification and Waiver

- (a) **Meetings of Bondholders:** The Trust Deed contains provisions for convening meetings of Bondholders to consider matters affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of any of these Conditions or any provisions of the Trust Deed, the Agency Agreement or the Deed of Guarantee. Such a meeting may be convened by the Issuer, the Guarantor and the Trustee and shall be convened by the Trustee if requested in writing by Bondholders holding not less than 10 per cent. in principal amount of the Bonds for the time being outstanding and subject to the Trustee being indemnified and/or secured and/or pre-funded to its satisfaction against all costs and expenses. The quorum for any meeting convened to consider an Extraordinary Resolution will be two or more persons holding or representing more than 50 per cent. in principal amount of the Bonds for the time being outstanding, or at any adjourned meeting two or more persons being or representing Bondholders whatever the principal amount of the Bonds held or represented, unless the business of such meeting includes consideration of proposals, *inter alia*, (i) to modify the maturity of the Bonds or the dates on which interest

is payable in respect of the Bonds, (ii) to reduce or cancel the principal amount of, any premium payable on redemption of, or interest on, the Bonds, (iii) to change the currency of payment of the Bonds, (iv) to modify the provisions concerning the quorum required at any meeting of Bondholders or the majority required to pass an Extraordinary Resolution, or (v) to modify or cancel the Deed of Guarantee (other than as provided in Condition 12(b)), in which case the necessary quorum will be two or more persons holding or representing not less than 75 per cent., or at any adjourned meeting not less than 25 per cent., in aggregate principal amount of the Bonds for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on Bondholders (whether or not they were present at the meeting at which such resolution was passed).

The Trust Deed provides that a resolution in writing signed by or on behalf of the holders of not less than 90 per cent. of the aggregate principal amount of the Bonds outstanding (a “**Written Resolution**”) and consent given by way of electronic consents through the relevant clearing system(s) (in a form satisfactory to the Trustee) by or on behalf of the Bondholders of not less than 90 per cent. of the aggregate principal amount of the Bonds outstanding (an “**Electronic Consent**”) shall in each case for all purposes be as valid and effective as an Extraordinary Resolution. A Written Resolution may be contained in one document or several documents in like form, each signed by or on behalf of one or more Bondholders. A Written Resolution and/or Electronic Consent will be binding on all Bondholders whether or not they participated in such Written Resolution and/or Electronic Consent, as the case may be.

- (b) **Modification and Waiver:** The Trustee may (but shall not be obliged to) agree, without the consent of the Bondholders, to (i) any modification of any of these Conditions or any of the provisions of the Trust Deed, the Bonds, the Agency Agreement or the Deed of Guarantee that is in its opinion of a formal, minor or technical nature or is made to correct a manifest error or to comply with any mandatory provision of law, and (ii) any other modification (except as mentioned in the Trust Deed), and any waiver or authorisation of any breach or proposed breach, of any of these Conditions or any of the provisions of the Trust Deed, the Bonds, the Agency Agreement and/or the Deed of Guarantee that is in the opinion of the Trustee not materially prejudicial to the interests of the Bondholders. Any such modification, authorisation or waiver shall be binding on the Bondholders and, unless the Trustee otherwise agrees, such modification, authorisation or waiver shall be notified by the Issuer, failing whom the Guarantor, to the Bondholders as soon as practicable in accordance with Condition 16.
- (c) **Entitlement of the Trustee:** In connection with the exercise of its functions, rights powers and discretions (including but not limited to those referred to in this Condition 12) the Trustee shall have regard to the interests of the Bondholders as a class and shall not have regard to the consequences of such exercise for individual Bondholders and the Trustee shall not be entitled to require on behalf of any Bondholder, nor shall any Bondholder be entitled to claim, from the Issuer, the Guarantor or the Trustee any indemnification or payment in respect of any tax consequence of any such exercise upon individual Bondholders.

13 Enforcement

At any time after the Bonds become due and payable, the Trustee may, at its sole and absolute discretion and without further notice, take such steps and/or actions and/or institute such proceedings against the Issuer and/or the Guarantor as it may think fit to enforce the terms of the Trust Deed, the Agency Agreement, the Bonds and/or the Deed of Guarantee (as the case may be), but it need not take any such steps and/or actions and/or proceedings unless (a) it shall have been so directed by an Extraordinary Resolution or so requested in writing by Bondholders

holding at least 25 per cent. in principal amount of the Bonds outstanding, and (b) it shall have been indemnified and/or secured and/or pre-funded to its satisfaction. No Bondholder may proceed directly against the Issuer or the Guarantor unless the Trustee, having become bound so to proceed, fails to do so within a reasonable time and such failure is continuing.

14 Indemnification of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility including, without limitation, provisions relieving it from taking steps and/or actions and/or instituting proceedings to enforce its rights under the Trust Deed, the Deed of Guarantee, the Agency Agreement and/or these Conditions and in respect of the Bonds and payment or taking other actions unless first indemnified and/or secured and/or pre-funded to its satisfaction and to be paid or reimbursed for its fees, costs, expenses and indemnity payments and for liabilities incurred by it in priority to the claims of the Bondholders. The Trustee is entitled to enter into business transactions with the Issuer, the Guarantor and any entity related to the Issuer or the Guarantor without accounting for any profit.

The Trustee and each Agent may rely without liability to Bondholders, the Issuer, the Guarantor or any other person on any report, confirmation, certificate or information from or any advice or opinion of any legal counsel, accountants, financial advisers, financial institution or any other expert, whether or not obtained by or addressed to it and whether their liability in relation thereto is limited (by its terms or by any engagement letter relating thereto entered into by it or any other person in any other manner) by reference to a monetary cap, methodology or otherwise. The Trustee and the Agents may accept and shall be entitled to rely on any such report, confirmation, certificate, information, advice or opinion, in which event such report, confirmation, certificate, information, advice or opinion shall be binding on the Bondholders and, provided that the relevant report, confirmation, certificate, information, advice or opinion is procured by the Issuer or the Guarantor, or the Issuer or the Guarantor has expressly agreed to be bound by the same, binding on the Issuer and the Guarantor.

Whenever the Trustee is required or entitled by the terms of the Trust Deed, the Deed of Guarantee, the Agency Agreement or these Conditions to exercise any discretion or power, take or refrain from taking any action, make any decision or give any direction or certification, the Trustee is entitled, prior to exercising any such discretion or power, taking or refraining from taking any such action, making any such decision or giving any such direction or certification, to seek directions from the Bondholders by way of Extraordinary Resolution or clarification of any directions, and shall have been indemnified and/or secured and/or pre-funded to its satisfaction against all action, proceedings, claims and demands to which it may be or become liable and all costs, charges, damages, expenses (including legal expenses) and liabilities which maybe incurred by it in connection therewith, and the Trustee shall not be responsible for any loss or liability incurred by the Issuer, the Guarantor, the Bondholders or any other person as a result of any delay in it exercising such discretion or power, taking or refraining from taking such action, making such decision or giving such direction or certification as a result of seeking such direction or clarification from the Bondholders or in the event that no direction or clarification is given to the Trustee by the Bondholders.

None of the Trustee or any of the Agents shall be responsible for the performance by the Issuer, the Guarantor or any other person appointed by the Issuer and/or the Guarantor in relation to the Bonds of the duties and obligations on their part expressed in respect of the same and, unless it has written notice from the Issuer or the Guarantor to the contrary, the Trustee and each Agent shall be entitled to assume that the same are being duly performed. None of the Trustee or any Agent shall be liable to any Bondholder, the Issuer, the Guarantor or any other person for any action taken by the Trustee or such Agent in accordance with the instructions of the Bondholders. The Trustee shall be entitled to rely on any direction, request or resolution of Bondholders given by holders of the requisite principal amount of Bonds outstanding or passed at a meeting of

Bondholders convened and held in accordance with the Trust Deed. Neither the Trustee nor any of the Agents shall be under any obligation to ascertain whether any Event of Default, Potential Event of Default (as defined in the Trust Deed) or Relevant Event has occurred or to monitor compliance by the Issuer or the Guarantor with the provisions of the Trust Deed, the Agency Agreement, the Deed of Guarantee or these Conditions, and shall not be liable to any Bondholder, the Issuer, the Guarantor or any other person for not doing so.

Each Bondholder shall be solely responsible for making and continuing to make its own independent appraisal and investigation into the financial condition, creditworthiness, condition, affairs, status and nature of the Issuer, the Guarantor and their respective Subsidiaries, and the Trustee shall not at any time have any responsibility for the same and each Bondholder shall not rely on the Trustee in respect thereof.

15 Further Issues

The Issuer may from time to time without the consent of the Bondholders create and issue further securities having the same terms and conditions as the Bonds in all respects (or in all respects except for the issue date, the first payment of interest on them, the timing for the Post-Issuance Filing and the timing for completion of the Cross-Border Security Registration and the making of the notifications in respect thereof) and so that such further issue shall be consolidated and form a single series with the outstanding Bonds. Any further securities forming a single series with the Bonds may be constituted by a deed supplemental to the Trust Deed and be guaranteed by the Guarantor pursuant to a deed supplemental to the Deed of Guarantee or an additional deed of guarantee.

16 Notices

Notices to the holders of Bonds shall be mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday or a public holiday) after the date of mailing. The Issuer shall also ensure that notices are duly published in a manner that complies with the rules and regulations of any stock exchange or other relevant authority on which the Bonds are for the time being listed. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once, on the first date on which publication is made.

So long as the Global Certificate is held by or on behalf of Euroclear and Clearstream or any Alternative Clearing System (as defined in the Global Certificate), any notice to the holders of the Bonds shall be validly given by the delivery of the relevant notice to Euroclear and Clearstream or any Alternative Clearing System, for communication by the relevant clearing system to entitled accountholders in substitution for notification as required by these Conditions and shall be deemed to have been given on the date of delivery to such clearing system.

17 Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of the Bonds under the Contracts (Rights of Third Parties) Act 1999, but this shall not affect any rights or remedies which exist or are available apart from such Act and is without prejudice to the rights of the Bondholders as set out in Condition 13.

18 Governing Law and Jurisdiction

- (a) **Governing Law:** The Trust Deed, the Agency Agreement, the Deed of Guarantee and the Bonds and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law.

- (b) **Jurisdiction:** The courts of Hong Kong are to have exclusive jurisdiction to settle any disputes that may arise out of or in connection with the Bonds, the Deed of Guarantee, the Trust Deed or the Agency Agreement and accordingly any legal action or proceedings arising out of or in connection with any Bonds, the Deed of Guarantee, the Trust Deed or the Agency Agreement (“**Proceedings**”) may be brought in such courts. Each of the Issuer and the Guarantor has irrevocably submitted to the exclusive jurisdiction of such courts and waives any objections to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum.
- (c) **Agent for Service of Process:** Each of the Issuer and the Guarantor irrevocably appoints Hengjian International Investment Holding (Hong Kong) Limited of 15th Floor, Guangdong Finance Building, 88 West Connaught Road, Sheung Wan, Hong Kong as its authorised agent in Hong Kong to accept service of process in any Proceedings based on any of the Bonds, the Guarantee, the Trust Deed or the Agency Agreement. If for any reason the Issuer or the Guarantor, as the case may be, ceases to have such an agent in Hong Kong, it will promptly appoint a substitute process agent and notify the Bondholders and the Trustee of such appointment within 30 days of such cessation. Nothing herein shall affect the right to serve process in any other manner permitted by law.
- (d) **Waiver of Immunity:** Each of the Issuer and the Guarantor has waived any right to claim sovereign or other immunity from jurisdiction or execution and any similar defence, and has irrevocably consented to the giving of any relief or the issue of any process, including, without limitation, the making, enforcement or execution against any property whatsoever (irrespective of its use or intended use) of any order or judgment made or given in connection with any Proceedings.

SUMMARY OF PROVISIONS RELATING TO THE BONDS IN GLOBAL FORM

The Global Certificate contains provisions which apply to the Bonds in respect of which the Global Certificate is issued, some of which modify the effect of the Terms and Conditions of the Bonds set out in this Offering Circular. Terms defined in the Terms and Conditions of the Bonds have the same meaning in the paragraphs below. The following is a summary of those provisions:

The Bonds will be represented by the Global Certificate in registered form, which will be registered in the name of a nominee of, and deposited with, a common depository for Euroclear and Clearstream.

Under the Global Certificate, the Issuer, for value received, promises to pay such principal and interest on the Bonds to the holder of the Bonds on such date or dates as the same may become payable in accordance with the Terms and Conditions of the Bonds.

EXCHANGE OF BONDS REPRESENTED BY THE GLOBAL CERTIFICATE

Owners of interests in the Bonds in respect of which the Global Certificate is issued will be entitled to have title to the Bonds registered in their names and to receive individual definitive Certificates if either Euroclear or Clearstream, or any other clearing system (an “**Alternative Clearing System**”) is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so. In such circumstances, the Issuer at its own expense will cause sufficient individual definitive Certificates to be executed and delivered to the Registrar for completion, authentication and despatch to the relevant holders of the Bonds. A person with an interest in the Bonds in respect of which the Global Certificate is issued must provide the Registrar not less than 30 days’ notice at its specified office of such holder’s intention to effect such exchange and a written order containing instructions and such other information as the Issuer and the Registrar may require to complete, execute and deliver such individual definitive Certificates.

PROMISE TO PAY

The Issuer, for value received, promises to pay to the Registered Holder of the Bonds represented by the Global Certificate (subject to surrender of the Global Certificate if no further payment falls to be made in respect of such Bonds) on the Maturity Date (or on such earlier date as the amount payable upon redemption under the Terms and Conditions of the Bonds may become repayable in accordance with the Terms and Conditions of the Bonds) the amount payable upon redemption under the Terms and Conditions of the Bonds in respect of the Bonds represented by the Global Certificate and to pay interest in respect of such Bonds from the Issue Date in arrear at the rates, on the dates for payment and in accordance with the method of calculation provided for in the Terms and Conditions of the Bonds, save that the calculation is made in respect of the total aggregate amount of the Bonds represented by the Global Certificate, together with such other sums and additional amounts (if any) as may be payable under the Terms and Conditions of the Bonds, in accordance with the Terms and Conditions of the Bonds.

So long as the Bonds are represented by the Global Certificate, each payment in respect of the Global Certificate will be made to, or to the order of, the person whose name is entered on the Register at the close of business on the record date which shall be the Clearing System Business Day immediately prior to the due date for payment, where “**Clearing System Business Day**” means a weekday (Monday to Friday inclusive) except 25 December and 1 January.

TRUSTEE'S POWERS

In considering the interests of the Bondholders whilst the Global Certificate is registered in the name of a nominee for a clearing system, the Trustee may, to the extent it considers it appropriate to do so in the circumstances, but without being obligated to do so, (a) have regard to any information as may have been made available to it by or on behalf of the relevant clearing system or its operator as to the identity of its accountholders (either individually or by way of category) with entitlements in respect of the Bonds and (b) consider such interests on the basis that such accountholders were the holders of the Bonds in respect of which the Global Certificate is issued.

The Global Certificate shall not become valid for any purpose until authenticated by or on behalf of the Registrar.

The Global Certificate and any non-contractual obligations arising out of or in connection with it shall be governed by and construed in accordance with English Law.

NOTICES

So long as the Bonds are represented by the Global Certificate and the Global Certificate is held on behalf of Euroclear or Clearstream or any Alternative Clearing System, notices to holders of the Bonds shall be validly given by delivery of the relevant notice to Euroclear or Clearstream or such Alternative Clearing System, for communication by the relevant clearing system to accountholders entitled to an interest in the Bonds in substitution for notification as required by the Terms and Conditions of the Bonds and shall be deemed to have been given on the date of delivery to such clearing system.

TRANSFERS

Transfers of beneficial interests in the Bonds represented by the Global Certificate will be effected through the records of Euroclear and Clearstream (or any Alternative Clearing System) and their respective participants in accordance with the rules and procedures of Euroclear and Clearstream (or any Alternative Clearing System) and their respective direct and indirect participants.

CANCELLATION

Cancellation of any Bond represented by the Global Certificate will be effected by reduction in the principal amount of the Bonds in the register of the Bondholders and the Global Certificate on its presentation to or to the order of the Registrar for annotation (for information only).

MEETINGS

For the purposes of any meeting of Bondholders, the holder of the Bonds represented by the Global Certificate shall (unless the Global Certificate represents only one Bond) be treated as two persons for the purposes of any quorum requirements of a meeting of Bondholders and as being entitled to one vote in respect of each U.S.\$1,000 in principal amount of the Bonds for which the Global Certificate is issued.

BONDHOLDER'S REDEMPTION

The Bondholder's redemption option in Condition 6(c) of the Terms and Conditions of the Bonds may be exercised by the holder of the Global Certificate giving notice to the Principal Paying Agent of the principal amount of Bonds in respect of which the option is exercised within the time limits specified in the of the Terms and Conditions of the Bonds.

ISSUER'S REDEMPTION

The option of the Issuer provided for in Condition 6(b) shall be exercised by the Issuer giving notice to the Bondholders within the time limits set out in and containing the information required by the of the Terms and Conditions of the Bonds.

USE OF PROCEEDS

The gross proceeds from the offering of the Bonds will be U.S.\$498,300,000, which will be used for refinancing medium to long-term offshore debts of the Issuer.

CAPITALISATION AND INDEBTEDNESS OF THE GROUP

The following table sets forth the consolidated capitalisation and indebtedness of the Guarantor as at 31 December 2024 and as adjusted to give effect to the issue of the Bonds. The table should be read in conjunction with the Guarantor's Consolidated Financial Statements and the related notes included elsewhere in this Offering Circular.

	Actual		As Adjusted	
	RMB (millions)	U.S.\$ (millions)	RMB (millions)	U.S.\$ (millions)
Current indebtedness:				
Short-term loans ⁽¹⁾	25,262.7	3,461.0	25,262.7	3,461.0
Financial liabilities held for trading	12.3	1.7	12.3	1.7
Non-current liabilities due within one year ⁽¹⁾	21,331.4	2,922.4	21,331.4	2,922.4
Short-term bonds payable ⁽¹⁾	4,518.2	619.0	4,518.2	619.0
Other interest-bearing current indebtedness	555.6	76.1	555.6	76.1
Total current indebtedness	51,680.2	7,080.2	51,680.2	7,080.2
Non-current indebtedness:				
Bonds payable ⁽¹⁾	50,446.0	6,911.1	50,446.0	6,911.1
Long-term loans ⁽¹⁾	129,674.9	17,765.4	129,674.9	17,765.4
Long-term payables ⁽²⁾	1,876.8	257.1	1,876.8	257.1
Lease liabilities	6,204.7	850.0	6,204.7	850.0
Bonds to be issued ⁽³⁾	—	—	3,649.7	500.0
Total non-current indebtedness	188,202.3	25,783.6	191,852.0	26,283.6
Total indebtedness	239,882.5	32,863.8	243,532.2	33,363.8
Total owner's equity	224,087.6	30,699.9	224,087.6	30,699.9
Total capitalisation ⁽⁴⁾	463,970.1	63,563.7	467,619.8	64,063.7

Notes:

- (1) The amount of short-term loans, non-current liabilities due within one year, short-term bonds payable, bonds payable and long-term loans include the amount of outstanding interests.
- (2) This amount represents the interest-bearing portion of the long-term payables of the Group as at 31 December 2024.
- (3) This amount represents the aggregate principal amount of the Bonds to be issued, before deducting the fees and commissions, offering discounts and other expenses payable by the Issuer in connection with the issuance of the Bonds.
- (4) Total capitalisation represents the sum of total indebtedness and total owner's equity.
- (5) Based on the exchange rate of RMB7.2993 to U.S.\$1.00, the noon buying rate in effect on 31 December 2024 as set forth in the H.10 weekly statistical release of the Board of the Governors of the Federal Reserve System of the United States.

Since 31 December 2024, the Group has incurred additional indebtedness. In particular, in January 2025, the Guarantor issued RMB2.0 billion 2.20 per cent. medium-term notes with a tenor of 15 years; in March 2025, the Guarantor issued RMB2.2 billion 2.42 per cent. corporate bonds with a tenor of 10 years and in April 2025, the Guarantor issued RMB1.0 billion 2.30 per cent. medium-term notes with a tenor of 15 years.

Except as disclosed above, there has been no material change in the Guarantor's consolidated capitalisation and indebtedness since 31 December 2024.

DESCRIPTION OF THE ISSUER

FORMATION

The Issuer is a BVI business company with limited liability incorporated under the BVI Business Companies Act, 2004 (as amended) of the British Virgin Islands on 2 May 2017. The Issuer's registration number is 1944011. Its registered office is located at Luna Tower, Waterfront Drive, Road Town, Tortola, VG1110, British Virgin Islands. The Issuer is an indirect wholly-owned subsidiary of the Guarantor.

BUSINESS ACTIVITY

As an indirect wholly-owned subsidiary of the Guarantor, the Issuer will not carry on any business activity other than in connection with the issue of the Bonds or other bonds and any other activities incidental thereto (such activities shall, for the avoidance of doubt, include the on-lending of the proceeds of the issue of the Bonds and other bonds to any other subsidiary of the Guarantor).

As at the date of this Offering Circular, the Issuer has not engaged, since its incorporation, in any material activities other than the issue of its U.S.\$500,000,000 2.75 per cent. guaranteed bonds due 2020 (the “**2017 Bonds**”), the issue of its U.S.\$500,000,000 1.875 per cent. guaranteed bonds due 2025 (the “**2020 Bonds**”) and the on-lending of the respective proceeds to another member of the Group and the activities incidental thereto. As at the date of this Offering Circular, other than the 2020 Bonds, the Issuer has no outstanding borrowings or contingent liabilities nor subsidiaries or employees.

FINANCIAL STATEMENTS

Under British Virgin Islands law, the Issuer is not required to publish condensed or annual financial statements. The Issuer has not published, and does not propose to publish, any financial statements. The Issuer is, however, required to keep proper books of accounts as are necessary to give a true and fair view of the state of the Issuer's affairs and to explain its transactions. Effective from 1 January 2023, the issuer is also required to file a financial annual return with its registered agent within 9 months after the end of each year to which the financial annual return relates.

DIRECTORS AND OFFICERS

The sole director of the Issuer is Guang Li. The sole director of the Issuer does not hold any shares or options to acquire shares of the Issuer. The Issuer does not have any employees and has no subsidiaries.

SHARE CAPITAL

The Issuer is authorised under its memorandum of association to issue a maximum of 50,000 shares with US\$1.00 par value each of a single class and one share has been issued to, and is held by, Hengjian International Investment Holding (Hong Kong) Limited (恒健國際投資控股(香港)有限公司). The register of members of the Issuer is maintained at its registered office in the British Virgin Islands. No part of the equity securities of the Issuer is listed or dealt on any stock exchange and no listing or permission to deal in such securities is being or is proposed to be sought.

DESCRIPTION OF THE GROUP

OVERVIEW

The Group is wholly-owned by Guangdong SASAC and is the sole provincial-level state-owned capital operating company in Guangdong province, combining both industrial production capabilities and financial service capabilities. Since its establishment in 2006, the Group has played an essential and active role in implementing the Guangdong government's major strategic initiatives for optimising the allocation of state-owned assets in and around Guangdong province, and has received strong financial and operational support from the Guangdong government. Over the years, the Group has diversified its business portfolio to include a power business, a policy-driven investment and asset management business and a financial investment business. After more than a decade of operation, the Guarantor has become a leading enterprise in Guangdong province in terms of net assets and financial strength.

As the sole provincial-level state-owned capital operation company in Guangdong province, the Group performs financing, investment and capital operation functions for the Guangdong government. In terms of its financing function, the Group is committed to the financing of major infrastructure projects in Guangdong province and to satisfying the financing requirements for urban development projects in and around the province. To perform its state-owned assets investment function, the Group has established a number of investment funds and participated in several significant projects in Guangdong province, including raising funds for China Southern Airlines and establishing Guangdong Advanced Manufacturing Industry Investment Fund and Guangdong Listed Company High-quality Development Fund for promoting the industrial upgrade in Guangdong province. The Group also invests in infrastructure construction projects in the Guangdong-Hong Kong-Macau Bay Area through the management of the Guangdong-Macau Cooperation and Development Fund. For its capital operation function, the Group operates state assets and seeks to facilitate and promote the development of SOEs through its financing capabilities. The Group currently holds equity interests in a number of large-scale SOEs, such as Southern Power Grid, CGN Power Group, CAIGA and Baogang Zhanjiang. Drawing on its strengths as a state-owned capital operation company, the Group has sustained cooperation with central SOEs to increase their investment presence in Guangdong Province.

The Group's business primarily consists of three major business segments, namely, power business, financial investment and policy-driven investment and asset management. Set forth below is a summary of each of the Group's business segments:

- **Power Business:** The Group is principally engaged in power generation, coal sales and logistics businesses. The Group conducts its power business primarily through Guangdong Energy, a subsidiary of the Guarantor. Guangdong Energy is the largest energy group in Guangdong province in terms of total controlled installed capacity and is one of the largest regional energy groups in China in terms of total controlled installed capacity as at 31 December 2024. For the years ended 31 December 2022, 2023 and 2024, revenue generated from the Group's power business was approximately RMB73,812.0 million, RMB83,593.6 million and RMB83,760.4 million, respectively, representing approximately 96.7 per cent., 97.4 per cent. and 97.2 per cent. of the Group's total revenue for the corresponding periods.
- **Financial Investment:** The Group engages in diversified financial investments for its own account, including by way of acquisitions, equity investments, fund investments and management and venture capital investments. For the years ended 31 December 2022, 2023 and 2024, revenue generated from the Group's financial investment was approximately RMB2,497.5 million, RMB2,219.2 million and RMB2,387.2 million, respectively, representing approximately 3.3 per cent., 2.6 per cent. and 2.8 per cent. of the Group's total revenue for the corresponding periods.

- ***Policy-driven Investment and Asset Management:*** As the sole provincial-level state-owned capital operation company in Guangdong province, the Group is entrusted by the Guangdong government and Guangdong SASAC to hold equity interests in a number of SOEs, including, among others, CGN Power Group, Southern Power Grid and Baogang Zhanjiang. Through the integration of their resources and capital market operations, the Group invests in, manages and operates state-owned assets, and optimises asset allocations for each SOE in which it has an equity stake. For the years ended 31 December 2022, 2023 and 2024, the Group's investment income derived from its policy-driven investment and asset management segment was approximately RMB2,315.7 million, RMB5,930.2 million and RMB5,963.1 million, respectively.

As at 31 December 2024, the paid-up capital of the Guarantor was approximately RMB24.7 billion and the total assets of the Group was approximately RMB506.7 billion. For the years ended 31 December 2022, 2023 and 2024, the Group recorded a total revenue of approximately RMB76.3 billion, RMB85.8 billion and RMB86.1 billion, respectively, and a total gross profit of approximately RMB4.9 billion, RMB14.8 billion and RMB14.6 billion, respectively.

The chart below shows the simplified corporate structure of the Group as at 31 December 2024.

HISTORY AND DEVELOPMENT

The following timeline sets out a number of key events and milestones in the business and corporate development of the Group since 2006:

- 2006 According to the Decision of Deepening the Reform of State-owned Enterprises (Yue Fa [2005] No. 15) (《關於深化國有企業改革的決定》(粵發[2005]15號)) by the Guangdong government, the Guarantor, formerly known as Guangdong Hengsheng Investment Holding Co., Ltd. (廣東恒盛投資控股有限公司) was established by Guangdong SASAC with registered capital of RMB50.0 million in March 2006.
- 2007 The Guarantor changed its name from Guangdong Hengsheng Investment Holding Co., Ltd. (廣東恒盛投資控股有限公司) to Guangdong Hengjian Investment Holding Co., Ltd. (廣東恒健投資控股有限公司).
- 2008 Guangdong SASAC injected RMB40.0 million in cash and transferred 9.0 per cent. of the equity interest in Shenzhen Huaqiang Group Co., Ltd. (深圳華強集團有限公司) (valued at RMB27.0 million) into the Guarantor. The registered capital of the Guarantor was increased to RMB117.0 million.
- 2009 According to the Approval of Transferring Equity Interests in Guangdong Yudean Group Co., Ltd. to Guangdong Hengjian Investment Holding Co., Ltd. (Yue Fu Han [2009] No. 21) (《關於同意將廣東省粵電集團有限公司省屬股權劃轉廣東恒健投資控股有限公司持有的批復》(粵府函[2009]21號), 76.0 per cent. of the equity interest in Guangdong Energy (formerly known as Guangdong Yudean Group Co., Ltd.) (valued at RMB26.2 billion) was transferred to the Guarantor by Guangdong SASAC for nil consideration. The Guarantor's registered capital was increased to approximately RMB15.3 billion.
- On behalf of the Guangdong government, the Guarantor, together with Aviation Industry Corporation of China Ltd. (中國航空工業集團有限公司) and Zhuhai Gree Group Co., Ltd. (珠海格力集團有限公司), established CAIGA. The Guarantor contributed RMB1.0 billion and held a 10.0 per cent. equity interest in CAIGA at the time of its establishment.
- The Guarantor received a capital injection of RMB800.0 million.
- 2010 The Guarantor received a capital injection of RMB200.0 million. The Guarantor invested in the private placement projects of Zoomlion and TCL.
- 2011 The Guarantor received a capital injection of RMB25.0 million. The Guarantor participated in the listing process of CGN Power.
- The Group participated in the Proton and Heavy Ion Tumor Therapy Technology Industrialization Project (質子和重離子腫瘤治療技術產業化項目).
- 2012 According to the Approval of Entrusting 49 per cent. of Equity Interest in Shaoguan Steel Iron & Steel Co., Ltd. and 36.3375 per cent. of Equity Interest in Baogang Zhanjiang Iron & Steel Co., Ltd. to Guangdong Hengjian Investment Holding Co., Ltd. (Yue Guo Zi Chan Quan [2012] No. 166) (《廣東省國資委關於我省所持韶鋼集團49%股權和湛江鋼鐵 36.3375%股權委託恒健公司持有的批復》(粵國資產權[2012]166號), Guangdong SASAC transferred to the Guarantor a 10.0 per cent. equity interest in Baogang Zhanjiang (valued at RMB2.0 billion).

	<p>The Guarantor established the first fund management company owned by the Guangdong government.</p> <p>The Group participated in the initial public offering project of Hongda Blasting Engineering Group Co., Ltd. (宏大爆破工程集團有限責任公司).</p>

- 2024
 - Top 4 State-Owned Market-Oriented Fund of Funds by Best Returns in 2024 by Fund of Funds Research Centre
 - Top 50 State-Owned Investment Institutions in China by Zero2IPO
 - National First Batch of Zero-Carbon Building Assessment for Terminal 2 of Guangzhou Baiyun International Airport

The Group has passed all assessments performed by Guangdong SASAC in the past five years and received an A ranking evaluation from Guangdong SASAC in 2022. The appraisal evaluation performed by Guangdong SASAC of state-owned holding companies (including the Guarantor) does not focus on a review of the company's profitability. Instead, the main indicators are economic benefit, social benefit and core function, including key factors such as cost control, liquidity management, mid/long term solvency and ability to complete instructions and assignments from Guangdong SASAC.

COMPETITIVE STRENGTHS

The Group believes that its competitive strengths outlined below distinguishes it from its competitors and are important to its success and future development:

The Group primarily operates in Guangdong province, which has demonstrated strong economic growth and financial strength

The Group primarily operates in Guangdong province, which has demonstrated strong economic growth and financial strength in recent years. Since 1989, Guangdong province has been the largest province by GDP in the PRC. For the year ended 31 December 2024, according to the National Bureau of Statistics of the PRC, the total GDP of Guangdong province was over RMB14.1 trillion. In addition, Guangdong province has a steadily growing population, which has reached 127.8 million in 2024 according to the Guangdong government.

The Group originates most of its business in and from Guangdong province and is well-positioned to leverage off Guangdong province's economic growth. For the year ended 31 December 2024, the Group's total revenue amounted to approximately RMB86.1 billion, approximately 93.1 per cent. of which originated from the Group's businesses in Guangdong province. As at 31 December 2024, the Group recorded total assets of approximately RMB506.7 billion, approximately 84.8 per cent. of which were located in Guangdong province. The Group believes that the strength of Guangdong province's economy has contributed to the Group's operating and financial performance and increased its assets value, and expects this dynamic will continue.

Sole provincial-level state-owned asset management platform under Guangdong SASAC, with strong support from the Guangdong government

The Group is the sole provincial-level state-owned capital operation company in Guangdong province and is wholly-owned by Guangdong SASAC. Since its establishment in 2006, the Group has received strong financial and operational support from the Guangdong government, including equity transfers, provisions of special purpose funds, capital injections and the provision of subsidies. The below are brief summaries of certain governmental support received by the Group in recent years:

Equity Transfer

- 76.0 per cent. of the equity interest in Guangdong Energy with a book value of approximately RMB26.2 billion was transferred to the Group for nil consideration in 2009.
- 10.0 per cent. of the equity interest in Baogang Zhanjiang with a book value of approximately RMB2.0 billion was transferred to the Group for nil consideration in 2012.

- 10.0 per cent. of the equity interest in CGN Power Group with a book value of approximately RMB4.8 billion was transferred to the Group for nil consideration in 2013.
- certain equity interest in Southern Power Grid with a book value of approximately RMB76.3 billion was transferred to the Group for nil consideration in 2014. As at 31 December 2024, the Group held 25.57 per cent. of the equity interest in Southern Power Grid.
- 100.0 per cent. of the equity interests in Guangdong Architectural Design and Research Institute was granted to the Guarantor for nil consideration in 2020.

Special Purpose Funds

- The Group received an agriculture fund from the Guangdong government in the amount of RMB3.0 billion in 2018 and RMB1.0 billion in 2019, respectively.
- The Group received special funds from the Guangdong government in the amount of RMB500.0 million for the construction of a cold chain logistics network in December 2020.
- The Group received special funds for enterprise reform and development and Pearl River Delta rail construction in an amount of RMB115.0 million and RMB300.0 million, respectively, in 2012.

Capital Injection

- The Group has received capital injection in the aggregate amount of approximately RMB22.9 billion (either in cash or through equity transfer) from 2008 to 2024 from the Guangdong government and/or Guangdong SASAC. The Group received capital injection from the Guangdong government in the amount of RMB200 million in April 2024. From 2008 to 2024, the Group has also been approved to convert its undistributed profits into registered capital in the aggregate amount of RMB 1.8 billion. As at the date of this Offering Circular, the registered capital of the Guarantor is RMB24,717 million.

Leveraging on the advantages of its platform, the Group also strives to build a multi-level co-operation framework with central SOEs which it holds equity interest in, aiming to expand such enterprises' investment in Guangdong province and attracting high-quality projects to the Guangdong province. By integrating the Group's investment capabilities and resources with the industrial advantages of the central SOEs, the Group has contributed to the development of modern industries and social progress in Guangdong province. In addition, the Group has been upgrading its capital operation model. Utilising state-owned capital to attract more social capital, the Group has been consolidating advanced production resources to support high-quality listed companies in key industries through mergers and acquisitions, effectively implementing sectoral integration and realising multilateral gains. The Group has formed a capital operation model with its distinct characteristics and enhanced its influence in the domestic capital markets.

Furthermore, as the sole shareholder of the Guarantor, Guangdong SASAC closely participates in and influences the decision-making of key investments and the appointment of directors and senior management of the Group. The Group and Guangdong SASAC routinely engage in discussions and follow requisite appraisal procedures to ensure that informed and viable investment decisions are made. Major share transfer transactions of the Group are required to be conducted through public bidding and auction sales based on terms and conditions approved by Guangdong SASAC. The Group believes that the support from Guangdong SASAC and its participation in the Group's operations distinguish the Group from other companies in industries where it operates and will provide effective assurance for achieving its objectives.

Quality asset portfolio supported by increasing growth of emerging businesses

The Group has historically focused on investing in energy resources, including power generation, coal sales and logistics. As entrusted by the Guangdong government and Guangdong SASAC, the Group also holds a portfolio of quality assets, including among others, equity interests in Guangdong Energy and CGN Power Group.

- *Guangdong Energy*: Guangdong Energy is one of the largest power generation enterprises in Guangdong province in terms of its scale of operation and market share as at 31 December 2024. As at 31 December 2024, Guangdong Energy had a controllable installed capacity of approximately 59,002 MW, accounting for over 20.0 per cent. of the province's total capacity. As at 31 December 2024, the total assets of Guangdong Energy amounted to approximately RMB310.0 billion. For the year ended 31 December 2024, the total revenue and total net profit of Guangdong Energy was approximately RMB83.8 billion and RMB4.8 billion, respectively. As at 31 December 2024, the Group held a 76.0 per cent. equity interest in Guangdong Energy.
- *CGN Power Group*: CGN Power Group is primarily engaged in operating and constructing nuclear power plants, providing nuclear fuel and technological services and participating in certain financial investment activities. As at 31 December 2024, the Group held a 10.0 per cent. equity interest in CGN Power Group and a 6.79 per cent. equity interest in CGN Power, which is the main subsidiary of CGN Power Group.
- *Southern Power Grid*: Southern Power Grid is one of the major power grid companies in China. Southern Power Grid's main business focuses on operating, constructing and investing in electricity networks that cover the Hong Kong, Macau, Guangdong, Guangxi, Yunnan, Guizhou and Hainan provinces. As at 31 December 2024, the Group held a 25.57 per cent. equity interest in Southern Power Grid.

In addition, the Group is dedicated to further expanding its financial investment businesses, including capital market investments, acquisitions, equity investment, fund investment and management and venture capital investment. Its business portfolio provides diversified sources of income for the Group. In addition, some of the Group's investments involve projects that have generated and are expected to continue to generate long-term recurring income.

The Group believes that its high-quality asset portfolio will continue to position itself for continuous stable growth and enable it to capture potential opportunities.

Diversified funding channels

The Group has access to various funding channels. The Group is able to leverage on optimal market conditions to tap into these sources of funding. This in turn increases the Group's ability to secure favourable financing terms and enhance its funding efficiency. In addition to cash generated from its operations, the Group continues to diversify its financing channels to seek low-cost external funds:

- *Bank Loans.* The Group has maintained long-term relationships with a number of well-established domestic banks. As at 31 December 2024, the Group had total credit facilities of approximately RMB645.9 billion, of which approximately RMB445.1 billion had not been utilised.
- *Debt Financing.* The Group also participates in the onshore and offshore debt capital markets, which includes the issuance of multiple series of medium-term notes, short-term financing bills and super-short-term financing bills. As at 31 December 2024, the Group has existing onshore bonds in an aggregate amount of approximately RMB41.2 billion.

The Group considers its ability to obtain diversified financing as a comparative advantage over competitors with access to limited funding sources. The Group believes that it has a strong liquidity position. As at 31 December 2024, the Group had cash and cash equivalents of approximately RMB25.2 billion and long-term and short-term borrowings in an aggregate amount of approximately RMB163.4 billion. The Group actively manages its cash flow and capital commitments to ensure that it has sufficient funds to meet its existing and future financial needs.

The Group's strong financing capability has enabled it to capitalise on various business opportunities, which in turn allows it to purchase or construct new production facilities and equipment in the capital-intensive industries in which it operates.

Comprehensive and effective risk management system

The Group believes that it has developed and maintained a comprehensive and effective risk management system. The Group has set up a series of standardised risk management procedures to prudently and systematically manage its operational risks including the following measures:

- strictly following the strategic blueprint from the Guangdong government and Guangdong SASAC, and conducting financing and state-owned assets operations for SOEs as well as developing strategic businesses within its authorised business scope. The Group also (i) sets its maximum indebtedness level in accordance with its risk assessment results and optimises its asset and debt ratio to ensure its financial stability; (ii) allocates investments according to the profitability and liquidity of different business segments; (iii) reduces its financial risks by raising funds and expanding its investment scale and (iv) assesses investment projects by developing value and risks models and tracking risk factors;
- building up a three-layer risk management defence system with (i) the risk oversight department and subsidiary level as the first layer, (ii) the risk management department and internal control committee supervised by the board of directors level as the second layer, and (iii) the internal auditors, audit committee supervised by the board of directors and the discipline inspection and supervision committee as the third layer. This comprehensive risk management defence system ensures the strict implementation of risk management procedures and operations;
- enhancing the segregation of duties, including an improved system of authorised approvals, accounting systems, property protection, budgeting, operating analysis and performance review;

- building up risk investigation and reporting system, and setting up comprehensive risk management control on pre-transaction checking, reporting and monitoring and post-transaction evaluation; and
- focusing on investment risk control by strictly following the guidance from Guangdong SASAC, setting up a series of internal guidance with regard to risk and investment management, carefully conducting due diligence, reviewing investments and following up with ongoing inspections. The Group also strictly enforces its management procedures to reduce investment risks.

As a result of its continuous efforts in risk management and internal control, the Group was the only enterprise in Guangdong province awarded “*Benchmarking Enterprises for Internal Control*” by the Guangdong Enterprises Internal Control Association in 2016. The Guarantor also obtained the international and domestic certifications for its compliance management system and the “Compliance Management System Excellent Results Award (合規管理體系優秀成效獎)” from China Quality Certification Centre in 2023. In 2024, the Guarantor passed the assessment of compliance management by China Quality Certification Centre again and was awarded as “Trustworthy Enterprise in Commerce (誠信興商企業)”. The “Integrity, Compliance, and Contribution to Development of Guangdong (誠信興商，守法合規，服務廣東高品質發展)” case study prepared by the Group was selected as an outstanding example of Outstanding Corporate Integrity Best Practices in China (中國企業誠信建設優秀實踐案例). In 2025, the Guarantor was awarded the “Innovation Breakthrough Award” (創新突破獎) by China Quality Certification Centre.

Experienced management and operational teams with sound corporate governance

The Group’s management team has extensive experience in the management of state-owned enterprises and companies operating in the same business sectors as the Group, including the power business, asset management and financial investment sectors. The management team has on average over 20 years of management experience in either large SOEs or administrative agencies in the PRC. The Group believes that its management team’s extensive experience in a broad range of industries and strong execution capabilities have been and will continue to be instrumental in executing its business strategies and capturing market opportunities as they arise, and have contributed and will continue to contribute to the sustainable growth of the Group.

In addition, the Group’s operational teams across its businesses are led by professionals with extensive experience in relevant industries and supported by a skilled and well-trained workforce. Throughout its years of operation, the Group has maintained effective and efficient management and operational control over its key subsidiaries. The Group has adopted a commercially driven approach to managing its business operations while leveraging its established relationship with governmental authorities with a view to maximising its growth potential.

BUSINESS STRATEGIES

The Group will continue to enhance the operation of state-owned assets, promote the optimisation of the allocation of state-owned assets, support the industrial and social and economic development of Guangdong province and participate in the development of the Guangdong-Hong Kong-Macau Greater Bay Area. The Group operates under a resource-integrated fund model, which aims to take advantage of the fund-integrating policies, industries, capital and science and research resources, supporting the development of strategic industries or emerging industries. The Group also devotes itself to the construction of modern industrial system in Guangdong province, meanwhile optimising the allocation of state-owned capital as well as maintaining and increasing its value.

Through the implementation of the following strategies, the Group aims to become a top nationwide quality state-owned assets operating company with a global level of competitiveness:

Continue to enhance the Group's ability to operate state-owned assets and support the economic development of Guangdong province and the Guangdong-Hong Kong-Macau Greater Bay Area

Under the leadership of the Guangdong government and Guangdong SASAC, the Group aims to (i) maximise the value of its assets, (ii) provide financing services for infrastructure construction projects such as the Guangdong highway construction project and (iii) support the economic development of Guangdong province and the Guangdong Hong Kong-Macau Greater Bay Area. In addition, as the sole provincial-level state-owned capital operation company in Guangdong province, the Group will continue to support key economic reform initiatives and the strategic development of SOEs.

The Group will also endeavour to optimise its business segments in order to further enhance the development of the Group. Leveraging on the Group's market position and core capabilities and in accordance with the Outline Development Plan for the Guangdong-Hong Kong-Macau Greater Bay Area (《粵港澳大灣區發展規劃綱要》), the Group will support the implementation of the key development strategies of Guangdong province. These strategies include the development of the Guangdong-Hong Kong-Macau Greater Bay Area, the development of rural areas within the province, guaranteeing the steady growth and building a strong manufacturing industry.

Preserving and increasing the value of state-owned assets by continuing to enhance the operational efficiency and investment returns of state-owned assets

In order to preserve and increase the value of its state-owned assets, the Group aims to increase the liquidity of its existing state-owned assets whilst supporting the enhancement of social capital within the Guangdong province. The Group will continue to adopt a centralised management system to manage and achieve an efficient deployment of the Group's capital. The Group will also continue to adopt a prudent financial and risk management policy, which the Group believes will further improve its financial control systems, cost controls and profitability.

In addition, over the years, the Group has built strategic relationships with multiple national-level or provincial-level state-owned enterprises, governmental agencies, financial institutions and science and research institutes, such as China Railway Engineering Group Co., Ltd. (中國鐵路工程集團有限公司), Zhuhai Municipal People's Government (珠海市人民政府), XtalPi Holdings Limited (晶泰控股有限公司), Guangzhou Industrial Investment Holdings Group (廣州工業投資控股集團有限公司) and Guangdong Rising Holding Group Co., Ltd. (廣東省廣晟控股集團有限公司). The Group plans to enhance the strategic cooperation with its business partners and further promote operational efficiency and its role as a state-owned assets operation company in the Guangdong province.

Strengthen risk management and internal control systems

The Group aims to improve its risk management capabilities through the continued implementation of its risk management and internal control system in line with similar SOEs operating state-owned assets. The Group will also continue to streamline its risk management functions, strengthen its risk management review and risk accountability mechanisms and enhance its management processes, including approval controls, accounting systems, asset protection plans and budget execution.

RECENT DEVELOPMENT

Additional Indebtedness since 31 December 2024

Since 31 December 2024, the Group has incurred additional indebtedness. In particular, in January 2025, the Guarantor issued RMB2.0 billion 2.20 per cent. medium-term notes with a tenor of 15 years; in March 2025, the Guarantor issued RMB2.2 billion 2.42 per cent. corporate bonds with a tenor of 10 years and in April 2025, the Guarantor issued RMB1.0 billion 2.30 per cent. medium-term notes with a tenor of 15 years.

Performance of the Group as at and for the three months ended 31 March 2025

On 30 April 2025, the Guarantor published its financial statements as at and for the three months ended 31 March 2025 (the “**2025 Q1 Financial Statements**”) on the website of the Shanghai Clearing House, which were not subject to an audit or review.

For the three months ended 31 March 2025, the total operating revenue and total operating cost of the Group declined as compared to the same period in 2024, while the Group’s total operating profit and net profit increased as compared to the corresponding period in 2024. This is primarily attributable to the increase in investment income of the Group for the three months ended 31 March 2025. As at 31 March 2025, the Group’s total assets increased as compared to the balance as at 31 December 2024. As at 31 March 2025, total liabilities of the Group increased as compared to the balance as at 31 December 2024, which is primarily attributable to the increases in the Group’s long-term loans and bonds payable incurred to meet the Group’s increasing capital needs as it continued to expand its businesses.

The financial information in the 2025 Q1 Financial Statements may differ from future audited or reviewed information and the 2025 Q1 Financial Statements should not be relied upon by potential investors to provide the same quality of information associated with information that has been subject to an audit or review. The 2025 Q1 Financial Statements should not be taken as an indication of the financial condition or results of operations of the Group for the full financial year ending 31 December 2025. The 2025 Q1 Financial Statements does not constitute part of this Offering Circular. See “*Risk Factors — Risks Relating to the Group’s Financial Information — Investors should be cautious and not place any reliance on the financial information other than that disclosed in this Offering Circular.*”.

DESCRIPTION OF THE GROUP'S BUSINESSES

Over the years, the Group has developed three main business segments, namely, (i) power business, (ii) financial investment business and (iii) policy-driven investment and asset management business. The following table sets out a breakdown of the Group's revenue and income by business segments for the periods indicated.

	Year ended 31 December					
	2022		2023		2024	
	Amount	% of total	Amount	% of total	Amount	% of total
	(in RMB millions) (audited)		(in RMB millions) (audited)		(in RMB millions) (audited)	
Business segment						
Power Business	73,812.0	96.7	83,593.6	97.4	83,760.4	97.2
Financial Investment . .	2,497.5	3.3	2,219.2	2.6	2,387.2	2.8
Total Revenue	76,309.5	100.0	85,812.8	100.0	86,147.6	100.0
Policy-driven investment and asset management ⁽¹⁾	2,315.7	—	5,930.2	—	5,963.1	—

Note:

- (1) Under PRC GAAP, the income derived from the Group's policy-driven investment and asset management business is recognised as investment income.

As at 31 December 2024, the Group's assets attributable to its power business, financial investment business and policy-driven investment and asset management business account for approximately 61.2 per cent., 9.8 per cent. and 29.0 per cent., of its total assets, respectively.

Power Business

The Group is principally engaged in power generation, coal sales and logistics businesses. The Group conducts its power business primarily Guangdong Energy, a subsidiary of the Guarantor. Guangdong Energy was established as Guangdong Yudean Asset Management Co., Ltd. (廣東省粵電資產經營有限公司) in August 2001 as a provincial state-owned enterprise. As at the date of this Offering Circular, 76.0 per cent. of the equity interest in Guangdong Energy is held by the Guarantor. Guangdong Energy is the largest energy group in Guangdong province in terms of total controlled installed capacity and is one of the largest regional energy groups in China in terms of total controlled installed capacity as at 31 December 2024. In 2024, Guangdong Energy was ranked 294th in the "Top 500 PRC Enterprises" jointly published by the China Enterprise Confederation (中國企業聯合會) and the China Enterprise Directors Association (中國企業家協會) and 65th in the "Top 500 PRC Energy Enterprises" jointly published by the China Energy Journal (中國能源報) and the China Institute of Energy Economics Research (中國能源經濟研究院).

A significant proportion of the Group's revenue and operating profit are derived from its power business. For the years ended 31 December 2022, 2023 and 2024, the revenue contributed by the Group's power business was approximately RMB73,812.0 million, RMB83,593.6 million and RMB83,760.4 million, respectively, representing approximately 96.7 per cent., 97.4 per cent. and 97.2 per cent. of the Group's total revenue for the corresponding period. For the years ended 31 December 2022, 2023 and 2024, the gross profit contributed by the Group's power business was approximately RMB4.0 billion, RMB14.1 billion and RMB13.6 billion, representing approximately 81.1 per cent., 95.2 per cent. and 93.7 per cent. of its total gross profit for the corresponding periods.

Power Generation Business

The Group develops, invests in, constructs, manages and operates power stations and sells the power generated by those power stations to the power grid companies. As a major power generation company in Guangdong province, Guangdong Energy continues to make investments in power generation plants and projects, optimising its installed capacity and developing clean energy.

Installed Capacity

As at 31 December 2024, the Group was the largest regional power company in Guangdong province in terms of controlled installed capacity.

As at 31 December 2022, 2023 and 2024, the Group had a controlled installed capacity of 44,471.1 MW, 49,628.0 MW and 59,002.0 MW, respectively, which primarily comprised of coal-fired power, LNG, hydropower, wind power, solar power and biomass power. As at 31 December 2024, the Group operated more than 300 power plants in the PRC and had approximately 128.0 kilometres of natural gas pipes in operation. The power generated from more than 300 power companies of the Group supplies electricity to the eastern, western and northern areas of Guangdong province, as well as the Pearl River Delta, Guizhou province, Yunnan province and Xinjiang.

Power Plants and Projects

To optimise the development of clean and efficient coal-fired power, the Group has continually focused on the construction of large-scale, efficient and clean coal-fired units. As at 31 December 2024, the Group owned more than 300 power plants, including 19 power plants that had an installed capacity of one GW or above. At the same time, the Group gradually improved the structure of its power sources by developing LNG, hydropower, wind power, solar power and biomass power capability. As at 31 December 2024, the controlled installed capacity of the Group's clean energy sources reached approximately 57.5 per cent. of the total controlled installed capacity of the Group.

For the years ended 31 December 2022, 2023 and 2024, the total power generated from all of the Group's operating power plants amounted to approximately 152.8 billion kWh, 162.2 billion kWh and 171.4 billion kWh respectively. During the same period, the Group sold 144.7 billion kWh, 153.8 billion kWh and 163.2 billion kWh of electricity, respectively. The table below sets forth the details of the power generated and electricity sold by the different types of power plants of the Group in 2022, 2023 and 2024:

	Power generation in 2022	Power generation in 2023	Power generation in 2024	Electricity sold in 2022	Electricity sold in 2023	Electricity sold in 2024
	<i>(million kWh)</i>	<i>(million kWh)</i>	<i>(million kWh)</i>	<i>(million kWh)</i>	<i>(million kWh)</i>	<i>(million kWh)</i>
Coal-fired power . . .	116,874	120,130	113,786	109,461	112,524	106,637
Hydropower.	7,468	5,077	8,145	7,421	5,037	8,080
LNG	18,722	22,441	29,695	18,371	22,011	29,253
Wind power.	6,148	7,556	8,135	5,917	7,292	7,820
Solar power.	2,877	6,321	10,888	2,869	6,278	10,771
Biomass power	709	708	703	628	622	621
Total	152,798	162,233	171,352	144,667	153,764	163,182

On-grid tariffs

On-grid tariffs refer to the prices at which a power generation company may sell its electricity to the grid companies to which it is connected. The on-grid tariffs for the Group are decided by the price administrative department of the Guangdong government. The government takes into account factors such as the economic life cycle of the power generation projects and the principles of reasonable cost compensation, reasonable profits determination and legitimate incurrence of tax. The Group's cost of electricity generation is based on the average cost of power generation in the PRC. The Group's profits are determined on the basis of its internal rate of return and an appraisal based on the interest rate of long-term national debts plus a certain percentage point.

The PRC Electric Power Law (《中華人民共和國電力法》) and the On-grid Tariffs Interim Management Rules (《上網電價管理暫行辦法》) sets out the general principles and the detailed rules for the determination of power tariffs. Based on those principles and rules, on-grid tariffs are to be set to provide reasonable compensation to power generation companies for the costs they incur plus a reasonable return on their investment. This is aimed at facilitating the fair sharing of expenses among industry participants, and the promotion of the construction of new power projects.

Electricity Sales

The Group typically clears and settles accounts with its clients for electricity sales through telegraphic transfers and bills within a 30-day settlement period.

The following table sets forth the revenue from electricity sold by the Group's coal-fired power, hydropower, LNG, wind power and solar and biomass power and other power plants in the PRC for the periods indicated:

	Years ended 31 December		
	2022	2023	2024
	(RMB million)		
Coal-fired power	49,580.9	54,047.3	45,286.1
Hydropower	1,855.3	1,344.7	2,136.6
LNG	10,344.2	13,934.7	17,563.3
Wind power	3,451.9	4,020.9	4,138.8
Solar and biomass power	1,859.7	2,851.5	4,274.8
Coalbed methane power	47.5	43.6	52.5
Miscellaneous	352.3	262.9	419.3
Total	67,491.7	76,505.7	73,871.5

Clean Energy Development

While retaining the Group's coal-fired power generation capacity, the Group is committed to upgrading its power generation portfolio and pursuing clean energy developments. As at 31 December 2024, the Group's controlled installed capacity of clean energy was approximately 33,943.0 MW, accounting for 57.5 per cent. of its total controlled installed capacity. With its development in clean energy power generation, the Group believes that its installed capacity will be further diversified in the future.

LNG

As at 31 December 2024, the Group had nine LNG power plants in operation with a total installed capacity of approximately 13,227.0 MW. The Group's largest LNG plant in terms of installed capacity, Huizhou LNG Power Plant (惠州液化天然氣發電廠), is located in Guangdong province with a total installed capacity of approximately 2,550.0 MW.

As at 31 December 2024, the Group had one LNG power generation project under construction, namely, Yangjiang LNG Peak-Shaving Storage Project (陽江LNG調峰儲氣庫項目), which consists of two full-containment LNG storage tanks, each with a capacity of 160,000 m³, and the supporting regasification facilities. This project is operated by Guangdong Yangjiang Hailing Bay LNG Co., Ltd. (廣東陽江海陵灣液化天然氣有限責任公司), a subsidiary of Guangdong Energy.

Hydropower

As at 31 December 2024, the Group had 12 hydropower plants in operation with a total installed capacity of approximately 2,459 MW. The Group's largest hydropower plant in terms of installed capacity, Tianyi Power Plant (天一電廠), is located in Guizhou province with a total installed capacity of 1,200 MW.

The Tianshengqiao-I Hydropower Station (天生橋一級水電站), which is under operation by the Group, is located in the Hongshui River Basin (紅水河流域) and is the lead station in the national "West to East electricity transmission project" (西電東送項目).

Wind Power

The Group is exploring nationwide opportunities in the wind power market by accelerating the development of its onshore wind power capability and actively promoting the development of offshore wind power off the coast of Guangdong province. As at 31 December 2024, the Group had 54 wind power plants (including project companies) in operation with a total installed capacity of approximately 4,883.6 MW. Notable onshore and offshore wind power projects of the Group include:

- *Yudean Yangjiang Qingzhou One Offshore Wind Power Plant Project* (粵電陽江青洲一海上風電場項目) —this project is located in the north-eastern part of the planned wind power plant area in the deep-water zone near Qingzhou in Yangjiang. This project has a total planned installed capacity of 600.0 MW. 55 units of wind turbines, each with a capacity of 11 MW, are planned to be installed. The total investment amount for this project is approximately RMB10.1 billion.
- *Yudean Yangjiang Qingzhou Two Offshore Wind Power Plant Project* (粵電陽江青洲二海上風電場項目) —this project is located in the planned wind power plant area in the deep-water zone near Qingzhou in Yangjiang. This project has a total planned installed capacity of 400.0 MW. 37 units of wind turbines, each with a capacity of 11 MW, are planned to be installed. The total investment amount for this project is approximately RMB6.7 billion.

Solar Power

As of 31 December 2024, the Group had 34 solar power generation companies under construction with a total installed capacity of approximately 3,350.0 MW. The Group's largest solar power generation project in terms of installed capacity, Open Pit Mine Forest Light Complementary Project (露天礦林光互補項目), is located in Guangdong province with a total installed capacity of approximately 100.0 MW.

Coal Sales Business

The Group is engaged in the supply and management of coal for its wholly-owned and controlled power plants through Guangdong Electric Power Industrial Fuel Co., Ltd. (廣東省電力工業燃料有限公司), a subsidiary of the Guarantor. Coal purchase and supply costs account for the majority of its operating expenses incurred by power business. The Group's long-term partnership with major domestic coal suppliers, including Guoneng Trading Group Limited (國能銷售集團有限公司) (formerly known as Shenhua Trading Group Limited (神華銷售集團有限公司)), China National Coal Group Corp (中國中煤能源集團有限公司) and Inner Mongolia Yitai Group (內蒙古伊泰煤炭股份有限公司), helps to ensure a stable coal supply at a competitive price, which in turn helps the Group to control its operating costs. By vertically integrating coal production, transportation and sales, the Group better controls coal costs and overall production costs and enhance its bargaining power in negotiations with third party coal suppliers when purchasing coal. The Group believes this will consequently enhance its ability to ensure a stable supply of coal and at the same time control and manage its procurement costs.

The following table sets forth the volume and certain operating data of the Group's coal procurement activities for the periods indicated:

	2022	2023	2024
Amount of thermal coal purchased (million tonnes)	47.3	47.6	46.1
Average standard coal purchase price (RMB/tonne)	1,546.4	1,175.6	1,058.0

To further enhance its coal supply chain management, the Group has participated in the development of several coal projects in Shanxi province, Shaanxi province, the western region of the Inner Mongolia Autonomous Region in the PRC and Australia. The Group primarily participates in coal projects through equity investments.

The following table sets forth the mines which the Group has invested in as at 31 December 2024:

Projects	Designed annual production volume	Shareholding of the Group
	(million tonnes)	(%)
Shanxi Huoerxinhe Coal Mine (山西霍爾辛赫煤礦)	4.1	30.0
Inner Mongolia Suancigou Coal Mine (內蒙古酸刺溝煤礦)	20.1	24.0
Guizhou Xiangshui Coal Mine (貴州響水煤礦)	2.3	26.4
Guizhou Mayi Coal Mine (貴州馬依煤礦)	0.3	20.4
Narrabri Coal Mine in Australia	5.1	7.5

Logistics Business

The Group is also engaged in the logistics business with a focus on the transportation of coal products. Leveraging on the logistics facilities owned or operated by the Group, it strives to build a stable, reliable and efficient coal products supply system. The Group believes its logistics business has allowed the Group to better control the operating costs of its power generation business and ensure a reliable coal supply chain.

The Group's logistics business is primarily operated through Guangdong Yudean Shipping Co., Ltd. (廣東粵電航運有限公司), Guangdong Maritime Shipping Co., Ltd. (廣東海運股份有限公司) and Upper Horn Investments Limited (超康投資有限公司), subsidiaries of the Guarantor. As at 31 December 2024, the Group had a total of 27 cargo ships, with a controllable shipping capacity of

approximately 198.0 million tonnes, which ranked it second in Guangdong province and fifth in China. The Group is mainly engaged in coal transportation on the domestic north-south routes in China, and also operates international routes to Australia, Southeast Asia and Americas. Not only is the Group's fleet able to meet the transportation demands of its own coal supply chain network, the Group is also expanding its external market by independently developing a port tugboat business.

Financial Investment Business

The Group engages in financial investments, including capital markets investments, acquisitions, equity investments, fund investment and management and venture capital investments. The Group actively utilises its own investment platform and promotes a diversified investment portfolio. The Group operates under a "Four in One + Fund" business model, which aims to integrate the key strengths from the four spheres of government, industry, the Group and social capital. The Group's financial investment business is primarily conducted by the Guarantor's subsidiaries, Guangdong Hengjian Asset Management Co., Ltd. (廣東恒健資產管理有限公司), Guangdong Hengjian International Investment Co., Ltd. (廣東恒健國際投資有限公司) and Guangdong Hengkuo Investment Management Co., Ltd. (廣東恒闊投資管理有限公司).

For the years ended 31 December 2022, 2023 and 2024, the total revenue contributed by the Group's financial investment business was approximately RMB2,497.5 million, RMB2,219.2 million and RMB2,387.2 million, respectively, representing approximately 3.3 per cent., 2.6 per cent. and 2.8 per cent. of the Group's total revenue for the corresponding periods. For the years ended 31 December 2022, 2023 and 2024, the gross profit contributed by the Group's financial investment business was approximately RMB0.9 billion, RMB0.7 billion and RMB0.9 billion, respectively, representing approximately 18.9 per cent., 4.9 per cent., and 6.2 per cent. of the Group's total gross profit for the corresponding periods.

Fund Investment and Management: As at 31 December 2024, the amount of funds that the Group subscribed to has exceeded RMB180.0 billion. As at 31 December 2024, the Group had participated in the establishment of over 70 funds and the investments of such funds cover 21 cities in Guangdong province, supporting the construction of around 20 strategic industrial clusters or major infrastructure construction projects in Guangdong province. Through the optimisation and expansion of its investments, the Group continues to focus on the strategies set out by the Guangdong government in order to promote the development of the economy of the Guangdong province. The Group has also participated in the establishment the following key funds:

- *Guangdong-Macau Cooperation and Development Fund (廣東粵澳合作發展基金)* —this fund was established by the Guarantor and the Macau government in 2018. It has a total size of approximately RMB20.0 billion and is managed by the Group. It aims to invest in infrastructure projects in Guangdong province and other key quality projects in relation to the development of the Guangdong-Hong Kong Macau Bay Area.
- *Guangdong Agricultural Supply-side Structural Reform Fund (廣東農業供給側結構性改革基金)* — this fund was established in 2018 with a total size of RMB30.0 billion. It focuses on supply-side structural reform and the agricultural development in Guangdong province. This is the first fund that focuses on supply-side structural reform of the agricultural industry in China and one of the three government-funded and policy-driven industrial guidance funds in Guangdong province. As at 31 December 2024, this fund had set up 30 sub-funds and had invested approximately RMB9.3 billion in 68 projects covering 17 cities and 45 counties or districts in Guangdong province, providing support to nearly 30,000 households of farmers.

- *Guangdong Advanced Manufacturing Industry Investment Fund* (廣東先進製造業產業投資基金) —this fund was established by the Guarantor together with other SOEs with an investment size of RMB12.0 billion in 2017. It aims to provide support for the transformation and upgrading of the manufacturing industry and emerging industries with strategic importance in Guangdong province. This fund focuses on the investment of around 50 strategic industrial cluster investment projects, with a total investment amount of approximately RMB23.4 billion. As at 31 December 2024, the subscribed size of this fund and its sub-funds was approximately RMB70.0 billion.
- *Guangdong Listed Company High-quality Development Fund* (廣東上市公司高品質發展基金) —the total size of this fund is approximately RMB20.0 billion and it aims to support the listed companies in Guangdong province by means including mergers, acquisitions and reorganisations, therefore promoting industrialisation and formation of productive forces in emerging industries. Since 2022, the Guarantor has cooperated with local governments of Zhongshan, Shunde, Dongguan and Foshan to establish sub-funds that focus on the development of local listed companies. For example, one of the sub-funds which was established with the local government agencies of Foshan has invested in an acquisition project of Grandblue Environment Co., Ltd. (瀚藍環境股份有限公司), which is a listed company based in Foshan. One of the sub-funds has supported the acquisition of Farasis Energy (Gan Zhou) Co., Ltd. (孚能科技(贛州)股份有限公司) by Guangzhou Industry Investment Holding Group Co., Ltd. (廣州工業投資控股集團有限公司).
- *Guangdong Strategic Industry Fund* (廣東戰略性產業基金)— this fund was established in December 2022 and consists of Guangdong Strategic Industry Promotion Development Fund (廣東戰略性產業促進發展基金) which has a total size of RMB10.0 billion and an initial size of approximately RMB3.0 billion, and Guangdong Strategic Industry High-quality Development Fund (廣東戰略性產業高品質發展基金) which has a total size of RMB10.0 billion and an initial size of approximately RMB2.0 billion. This fund aims to attract investments and landing of key enterprises or projects in various cities in Guangdong province, thereby facilitating the development of the manufacturing industry.
- *Guangdong County Regional Economy High-quality Development Equity Investment Fund* (廣東省縣域經濟高品質發展股權投資基金) —this fund was established in 2023 with a total size of RMB10 billion and an initial size of RMB2.0 billion. This fund serves as a platform to attract investments in the agricultural industry and supports the leading agricultural enterprises to expand business in different counties located in eastern, western and northern region of Guangdong province.
- *Guangdong Innovation Union Fund* (廣東省創新聯合體基金) —this fund was established in 2023 with a total size of RMB10.0 billion and an initial size of RMB10.0 billion. This fund targets to strengthen the collaboration between leading technology enterprises, universities and research institutes in Guangdong province, to transform scientific research outcome into mature products or industrialisation results, and to promote the integration of the capital chain, industrial chain and innovation chain. Certain research results of this fund were awarded the first prize of the 31st National Enterprise Management Modernisation Innovation Results (第三十一屆全國企業管理現代化創新成果一等獎).
- *Henghang Industry Investment Fund* (恒航產業投資基金) —this fund was established in 2019 with a total size of RMB3.0 billion. This fund has made investments in six enterprises in the 5G technology industry.

- *Chinese Medicine Great Health Fund (中醫藥大健康基金)* —this fund was established in 2021 with an initial size of RMB5.0 billion, and now it has a total size of RMB30.0 billion. It is the first fund focusing on investment in the Chinese medicine industry in China and invests in key areas for improving the quality of the Chinese medicine industry.

The Group has established or participated in multiple funds with a total scale of hundreds of billions and has played an active role in the development of Guangdong's manufacturing industry and the construction of the Guangdong-Hong Kong-Macau Greater Bay Area through those funds. The Group received 17 awards for its fund investment business in 2024, including but not limited to "Top 8 Best State-owned Capital Market-oriented Fund of Funds in 2024" by Fund of Funds Research Centre, "Top 30 Best Private Equity Investment Institution" by CVINFO Institute and "2024 China Influence State-owned Capital Investment Institution Top 50" by the Commercial Vehicle Crash Research Institute.

Capital markets investments: The Group has actively participated in the domestic capital markets investments through private and public placements, with a focus on the asset reform, equity management and operation of listed provincial-level SOEs. For example, in January 2020, the Group, through Guangdong Henghui Equity Investment Fund (Limited Partnership) (廣東恒會股權投資基金(有限合夥)) (managed by the Guangdong-Macau Cooperation and Development Fund (廣東粵澳合作發展基金)) invested RMB1.3 billion into Zhongxing Telecommunication Equipment Corporation (中興通訊股份有限公司) ("**ZTE**") to support ZTE's development of 5G technology. In October 2020, the Group, through Guangdong Hengjian Xinxin Investment Partnership (Limited Partnership) (廣東恒健欣芯投資合夥企業(有限合夥)), invested approximately RMB1.4 billion in ZTE for the reorganisation of its chip business. In October 2021, the Group invested approximately RMB0.7 billion in Zhongji Innolight Co., Ltd. (中際旭創股份有限公司) ("**Zhongji Innolight**") to support its development of high-end optical module projects. In 2010, The Group invested in the TCL group through private placement, which assisted its development of the 8.5th Generation LCD Panel Project (第8.5代液晶面板項目). In 2021, the Group invested in the TCL China Star Ultra HD Advanced Display Panel T9 Project (TCL華星光超高清新型顯示面板T9項目) of TCL China Star Optoelectronic Technology Co., Ltd. (TCL華星光電技術有限公司) with an investment amount of approximately RMB4.4 billion. In 2022, the Group invested in an aggregate amount of approximately RMB1.2 billion in Guangdong Fenghua Advanced Technology Holding Co., Ltd. (廣東風華高新科技股份有限公司) through private placement. As at 31 December 2024, the Group had invested in the domestic capital markets with a total amount of over RMB14.0 billion. The Group prioritises industry-led strategies and value-based investments and aims to gather resources through the capital market to support high-quality listed companies, invest in major industrial projects, facilitate its mergers and acquisitions projects and achieve industrial integration and innovative development.

Acquisitions & Equity Investments: The Group acquires quality industry resources, assets and businesses. It invests in strategic emerging industries and key technology companies in order to promote their development. For example, the Group participated in the pre-initial public offering investments of Mingyang Smart Energy Group Co., Ltd. (明陽智慧能源股份有限公司) ("**Mingyang Smart Energy**") in 2017, which became listed on the Shanghai Stock Exchange in January 2019 (Stock Code: 601615). In October 2020, the Group further invested RMB1.0 billion in Mingyang Smart Energy by private placement. Since 2024, the Group has participated in the private placement of China Southern Power Grid Energy Storage Co., Ltd. (南方電網儲能股份有限公司) and the equity structure reform of China Southern Power Grid Technology Co., Ltd. (南方電網電力科技股份有限公司) and Guangdong Power Grid Energy Development Co., Ltd. (廣東電網能源發展有限公司). In addition, the Group invested in Hubei Hangte Manufacturing Co., Ltd. (湖北航特裝備製造股份有限公司), which became listed on the National Equities Exchange and Quotations (Stock Code: 874477) in September 2024. As at 31 December 2024, the Guarantor held equity interests in more than 500 wholly-owned or controlled subsidiaries and more than 110 investee companies. The Guarantor also held equity interests in six national-level SOEs and two provincial-level SOEs as at 31 December

2024. As at 31 December 2024, the value of the equity interests of national-level SOEs managed by the Group exceeded RMB130.0 billion, and the Group ranked first among all provincial-level state-owned capital operation companies in China in terms of both the number of national-level SOEs in which it held equity interests and the asset scale of the equity interests it operated.

Policy-driven Investment and Asset Management Business

As the sole provincial-level state-owned capital operation company in Guangdong province, the Group is entrusted by the Guangdong government and Guangdong SASAC to hold equity interests in a number of large-scale SOEs. These SOEs are not consolidated subsidiaries for the purposes of the Group's financial statements but most of the equity interests held by the Group in these SOEs are recognised as long-term equity investments of the Group.

The Group is also committed to financing major infrastructure projects and promote urban development in Guangdong province. For example, the Group raised RMB10.0 billion via the issuance of medium-term notes for the Pearl River Delta inter-city rail construction project (珠三角城軌建設項目) in 2009. The Group has also established a number of investment funds and participated in several significant projects in Guangdong province, including raising RMB10.0 billion in 2019 for China Southern Airlines controlled by SASAC. By integrating resources and tapping into the capital markets, the Group intends to promote the restructuring, reorganisation and allocation of state-owned assets and the optimisation of their industrial structure. In addition, from 2021 to 2022, the Group invested an aggregate amount of approximately RMB4.4 billion in a project undertaken by a renowned optoelectronics semiconductor display company in Guangdong province. Further, as at 31 December 2024, the Group held 10.445 per cent. equity interest in China Southern Air Holding Company Limited (中國南方航空集團有限公司) and 11.84 per cent. equity interest in Guangdong Pearl River Delta Intercity Railway Co., Ltd. (廣東珠三角城際軌道交通有限公司), respectively.

For the years ended 31 December 2022, 2023 and 2024, the Group's investment income derived from its policy-driven investment and asset management segment was approximately RMB2,315.7 million, RMB5,930.2 million and RMB5,963.1 million, respectively. For the year ended 31 December 2024, the Group received total dividends of approximately RMB1.35 billion from the SOEs in which the Group holds equity interests.

Set forth below are descriptions of the Group's key portfolio companies held on behalf of the Guangdong government and Guangdong SASAC.

China Southern Power Grid Co., Ltd. (中國南方電網有限責任公司)

According to the Approval regarding Transfer of Equity Interest in Southern Power Grid Co., Ltd. (《關於做好南方電網有限公司股權入帳相關事項的批復》) by Guangdong SASAC, certain equity interest in Southern Power Grid was granted to the Group in 2014. As at 31 December 2024, the Group held 25.57 per cent. of the equity interest in Southern Power Grid. Southern Power Grid is one of the key state-owned enterprises in the PRC and is one of the major power grid companies in China. Southern Power Grid's main business focuses on operating, constructing and investing in electricity networks that cover the Hong Kong, Macau, Guangdong, Guangxi, Yunnan, Guizhou and Hainan provinces. Southern Power Grid has also developed cooperative relationships with neighbouring countries and regions such as Vietnam, Laos and Myanmar. It is also a key operator of the southern channel in the West-East Electricity Transmission Network (西電東送) of the PRC. In terms of assets and transmission line length, Southern Power Grid is one of the largest electricity utility companies in the world. In February 2023, the Guarantor became the second-largest shareholder of Southern Power Grid. For the years ended 31 December 2022, 2023 and 2024, the Group received approximately RMB581 million, RMB469 million and RMB763 million of dividends in cash from Southern Power Grid, respectively.

China General Nuclear Power Group Co., Ltd. (中國廣核集團有限公司)

According to the Approval regarding Guangdong Hengjian Investment Holding Co., Ltd. holding Equity Interest in China General Nuclear Power Group Co., Ltd. on behalf of the Guangdong Government (Yue Fu Han [2012] No. 349) (《廣東省人民政府關於同意廣東恒健投資控股有限公司代表省人民政府持有廣東核電集團有限公司股權的批復》(粵府函[2012]349號)), 10.0 per cent. of the equity interest in CGN Power Group was granted to the Group in 2013. As at 31 December 2024, the amount of equity interest held by the Group in CGN Power Group remained unchanged.

CGN Power Group is mainly engaged in operating and constructing nuclear power plants, providing nuclear fuel and technological services and participating in certain financial investment activities. It also operates electricity generation units in hydropower, wind power and solar energy. It is one of the few companies in the PRC that holds qualifications for developing and operating nuclear power plants. As one of the world's leading clean energy suppliers and service providers, CGN Power Group has a number of nuclear power units in operation in various provinces in the PRC, accounting for a significant amount of the total installed capacity for nuclear power plants in operation in the PRC. Furthermore, it has a wind power installed capacity covering more than 20 provinces in China. Such business is operated by its subsidiaries including CGN Wind Energy Co., Limited (中廣核風電有限公司) and CGN Yangjiang Wind Power Co., Limited (中廣核陽江海上風力發電有限公司). For the years ended 31 December 2022, 2023 and 2024, the Group received approximately RMB148 million, RMB175 million and RMB172 million of dividends in cash from CGN Power Group, respectively.

CGN Power Co., Ltd. (中國廣核電力股份有限公司)

In 2014, the Guarantor, together with CNG Power Group and China National Nuclear Corporation (中國核工業集團) established CGN Power. The Guarantor contributed RMB5.1 billion to, and held 10.0 per cent. equity interest in, CGN Power at the time of its establishment. As at 31 December 2024, the Group held 6.79 per cent. of the equity interest in CGN Power.

CGN Power was listed on the Hong Kong Stock Exchange in December 2014 (Stock Code: 1816) and the Shenzhen Stock Exchange in August 2019 (Stock Code 003816.SZ). It is a major platform for nuclear power generation of CGN Power Group. It builds, operates and manages nuclear power plants, sells electricity generated by these nuclear power plants and manage the design research and development of nuclear power plants. For the years ended 31 December 2022, 2023 and 2024, the Group received approximately RMB288 million, RMB298 million and RMB322 million of dividends in cash from CGN Power, respectively.

China Aviation Industry General Aircraft Co., Ltd. (中航通用飛機有限責任公司)

In 2009, the Guarantor, together with Aviation Industry Corporation of China Ltd. (中國航空工業集團有限公司) and Zhuhai Gree Group Co., Ltd. (珠海格力集團有限公司), established CAIGA. As at 31 December 2024, the Group held 8.87 per cent. of the equity interest in CAIGA. As at the date of this Offering Circular, the Guarantor is the third largest shareholder of CAIGA.

CAIGA is primarily engaged in the manufacture and development of corporate jets, amphibious aircraft, single-rotor turbine aircrafts and small piston engine airplanes. It has also established and made improvements to a scientific research production system for general aircraft. The Group also participated in the initial public offering project of Cirrus Aircraft Limited (西銳飛機有限公司), which is a subsidiary of CAIGA. For the years ended 31 December 2022, 2023 and 2024, the Group received approximately RMB20.5 million, nil and nil of dividends in cash from CAIGA, respectively.

Baogang Zhanjiang Iron & Steel Co., Ltd. (寶鋼湛江鋼鐵有限公司)

According to the Approval of Entrusting 49 per cent. of Equity Interest in Shaoguan Steel Iron & Steel Co., Ltd. and 36.3375 per cent. of Equity Interest in Baogang Zhanjiang Iron & Steel Co., Ltd. to Guangdong Hengjian Investment Holding Co., Ltd. (Yue Guo Zi Chan Quan [2012] No. 166) (《廣東省國資委關於我省所持韶鋼集團49%股權和湛江鋼鐵36.3375%股權委託恒健公司持有的批復》(粵國資產權[2012]166號), in 2012, Guangdong SASAC entrusted to Group to exercise control over 10.0 per cent. of the equity interest in Baogang Zhanjiang. In 2020, the equity interest held by the Group in Shaoguan Steel was transferred to other parties for nil consideration. As at 31 December 2024, the amount of equity interest held by the Group in Baogang Zhanjiang respectively remained unchanged. As at the date of this Offering Circular, the Guarantor is the second-largest shareholder of Baogang Zhanjiang.

Baogang Zhanjiang is primarily engaged in iron-production and the manufacture of steel materials for industrial purposes. Baogang Zhanjiang is an SOE specialised in medium to high-end steel production. It targets the southern China market and also covers the Southeast Asia market. For the years ended 31 December 2022, 2023 and 2024, the Group received approximately RMB240.0 million, RMB20.0 million and RMB93.0 million of dividends in cash from Baogang Zhanjiang.

COMPETITION

As the sole provincial-level state-owned capital operation company for financial investment of state-owned assets in Guangdong province, the Group enjoys advantages and receives strong government support for its businesses. However, the Group nonetheless faces certain competition from various sources, including other large SOEs, privately-owned domestic companies, and leading international companies that operate in Guangdong province, particularly in areas and regions where the markets have been opened up to both state-owned and private participants.

For the Group's energy business segment, the Group believes its competitors are mostly domestic SOEs. However the competition in this segment is relatively low as the infrastructure required for the construction of power plants and the power grid has been subject to the macro-management of the provincial and central governments. For its financial investment companies, the Group faces competition from all sources as the market has been opened up to state-owned, private and international participants.

The main competitive factors influencing the Group's financial investment business segments include, among others, investment strategies adopted by competitors, availability of capital and financing resources, professional experience and the skill of competitors and the quality of competitors' investment portfolios. Large international companies may have advantages in terms of scale, capital and experience.

QUALITY, SAFETY AND ENVIRONMENTAL PROTECTION

The Group has established and implemented a group-wide quality, safety and environmental protection control management system pursuant to the requirements of the ISO9001 standards. The management system specifies the standards to be met in terms of quality, safety and environmental protection control, clarifies the responsibility of various departments and personnel, identifies procedures, materials and other factors that are subject to the control of management, and provides for measures to be undertaken to ensure that various standards are met.

The Group imposes safety and anti-pollution measures, as well as regular internal safety and environmental inspections at all stages of its operational process to minimise the possibility of work-related accidents and injuries, occupational illness and environmental contamination. In addition, it provides safety education to employees and has established safety standards in relation to matters such as power plant operation, pollution control, purchasing, installing and operating new equipment, constructing new facilities and improving existing facilities. The Group's portfolio companies are also devoted to developing and implementing clean and new technology in the process of power generation and transmission. The Group believes that its safety control systems, environmental protection systems and facilities are adequate to comply with applicable national and local regulations. As at the date of this Offering Circular, the Group is not aware of any penalties associated with any material breach of or non-compliance with any safety and environmental laws and regulations.

INTELLECTUAL PROPERTY

The Group places a priority on the invention, application, management and protection of intellectual property rights. In its ordinary course of business, the Group has obtained patents, trademarks and other contractual rights. As at the date of this Offering Circular, there has not been any material legal proceedings or disputes regarding the Group's intellectual property rights.

EMPLOYEES

As at 31 December 2024, the Group had approximately 22,000 employees.

In accordance with the applicable regulations of local governments of the regions in which the Group has business operations, the Group makes contributions to a pension contribution plan for its employees. The amount of contributions is based on the specified percentages of employees' aggregate salaries as required by relevant PRC authorities. The Group also makes contributions to an employee housing fund according to applicable PRC regulations.

The Group enters into an employment contract with each of its employees in accordance with applicable laws. Such contracts include provisions on work content, work location, wages, vacation, social insurance, employee benefits, training programmes, health and safety, confidentiality obligations, mediation and arbitration and grounds for discharge and termination.

INSURANCE

The Group purchases pension insurance, unemployment insurance maternity insurance, personal injury insurance and medical insurance for its employees according to the relevant PRC laws and regulations. The Group maintains insurance coverage in accordance with applicable laws and practice customary in the industries in which it operates.

Consistent with what the Group believes to be customary practice in the PRC, the Group does not carry any business interruption insurance, key-man insurance or insurance covering potential environmental damage claims.

LITIGATION

The Group may, from time to time, become involved in legal proceedings arising in the ordinary course of its operations. As at the date of this Offering Circular, except as disclosed in this Offering Circular, to the best of the knowledge of the Guarantor, there are no litigation or arbitration proceedings against the Group or any of its senior management team members that could have a material adverse effect on its business, financial condition or results of operations.

DIRECTORS AND SENIOR MANAGEMENT

DIRECTORS

The board of directors (the “**Board**”) of the Guarantor is comprised of six directors, all of which are appointees of Guangdong SASAC or the Guangdong government. The Board is primarily focused on overall strategic development, internal controls and risk management. The Board provides guidance on business plans and monitors the results of such plans as implemented by management, and reviews and approves the Guarantor’s financial objectives and major financial activities.

The members of the Board as at the date of this Offering Circular are as follows:

Name	Age	Title
Tang Jun (唐軍)	60	Chairman of the Board and Secretary of the Party Committee
Yang Chenhui (楊晨暉)	52	Director, General Manager and Deputy Secretary of the Party Committee
Jia Yingwei (賈穎偉)	59	External Director
Zheng Jinzhong (鄭錦忠)	56	External Director
Liao Wenyi (廖文義)	63	External Director
Liu Yinghong (劉映紅)	58	External Director

Mr. Tang Jun (唐軍), aged 60, is the chairman of the Board and secretary of the Chinese Communist Party Committee of the Guarantor (the “**Party Committee**”). He previously served as the deputy general manager and a member of the Party Committee of Southern United Equity Exchange Centre Co., Ltd. (南方聯合產權交易中心有限責任公司), the deputy general manager, deputy secretary of the Party Committee, director and general manager of the Guarantor and the secretary of the Party Committee and chairman of Guangdong Yueke Financial Group Co., Ltd. (廣東省粵科金融集團有限公司). Mr. Tang holds a master’s degree in business administration and a master’s degree in engineering. Mr. Tang is also a senior economist and an engineer.

Mr. Yang Chenhui (楊晨暉), aged 52, is the director, general manager and deputy secretary of the Party Committee of the Guarantor. He previously served as director of the Human Resources Department of the Guarantor, the deputy general manager of CAIGA, the assistant to the general manager and the director of the Human Resources Department of Guangdong Tourism Holding Group Co., Ltd. (廣東省旅遊控股集團有限公司) and the deputy secretary of the Party Committee, the chairman of the labor union and the director of Guangdong Salt Industry Group Co., Ltd. (廣東省鹽業集團有限公司). Mr. Yang is a senior economist and holds a master’s degree in management..

Mr. Jia Yingwei (賈穎偉), aged 59, is an external director of the Guarantor. He previously served as the director of the Investment and Development Department of Guangdong Railway Construction Investment Group Co., Ltd. (廣東省鐵路建設投資集團有限公司), the chairman of the board of directors and the secretary of the party committee of Guangdong Railway Investment Real Estate Development Co., Ltd. (廣東省鐵投置業發展有限公司) and the external director of Guangdong Guangye Group Co., Ltd. (廣東省廣業集團有限公司), Guangdong Hydropower Group Co., Ltd. (廣東省水電集團有限公司), Guangdong Salt Industry Group Co., Ltd. (廣東省鹽業集團有限公司), Guangdong Guangsheng Investment Holding Co., Ltd. (廣東省廣晟投資控股集團公司), Guangdong Construction Engineering Group Co., Ltd. (廣東省建築工程集團有限公司), Guangdong Yueke Financial Group Co., Ltd. (廣東省粵科金融集團有限公司) and Guangdong Guangwu Holdings Group Corporation (廣東省廣物控股集團公司). Mr. Jia holds a master’s degree in business administration and is a senior economist.

Mr. Zheng Jinzhong (鄭錦忠), aged 56, is an external director of the Guarantor. He previously served as the director of the Human Resources Department and the secretary of the board of directors of Guangdong Hydropower Group Co., Ltd. (廣東省水電集團有限公司), the external director of Guangdong Shipping Group Co., Ltd. (廣東省航運集團有限公司), the external director of Guangdong Construction Engineering Group Co., Ltd. (廣東省建築工程集團有限公司), the external director of Guangdong Salt Industry Group Co., Ltd. (廣東省鹽業集團有限公司), the external director of Guangdong Tourism Holding Group Co., Ltd. (廣東省旅遊控股集團有限公司) and the external director of Guangdong Energy. Mr. Zheng holds a master's degree in business administration and is a senior engineer and a water conservancy engineer.

Mr. Liao Wenyi (廖文義), aged 63, is an external director of the Guarantor. He previously served as the vice president of Guangzhou Finance College (廣州金融高等專科學校), the director of the office of People's Bank of China, Guangdong branch (中國人民銀行廣東省分行), the deputy director of the Business Management Department of the People's Bank of China, Guangzhou branch (中國人民銀行廣州分行), the vice president of the People's Bank of China, Dongguan central branch (中國人民銀行東莞中心支行) and the president of the People's Bank of China, Yangjiang central branch (中國人民銀行陽江中心支行). He also served as the director of the City and Commercial Supervision Division of China Banking Regulatory Commission, Guangdong branch (中國銀監會廣東監管局), the deputy director and a member of the Party Committee of the China Banking Regulatory Commission, Guangxi branch (中國銀監會廣西銀監局), the vice president and executive director of Guangdong Nanyue Bank (廣東南粵銀行), an independent director of Guilin Bank (桂林銀行) and an independent director of Guangzhou Rural Commercial Bank (廣州農村商業銀行). Mr. Liao holds a master's degree and is an associate professor.

Ms. Liu Yinhong (劉映紅), aged 58, is an external director of the Guarantor. She currently also serves as the managing partner of Guangdong Zhongtianyue Public Accountants (Special General Partnership) (廣東中天粵會計師事務所(特殊普通合伙)). She previously served as the director of the Settlement Department of Guangzhou Futures Exchange (廣州期貨交易所), the director of Information and Technology Department of Guangdong Guangfa Futures Settlement Co., Ltd. (廣東廣發期貨清算公司), the manager of Guangdong Tianhua Huayue Public Accountants Co., Ltd. (廣東天華華粵會計師事務所有限公司) and an independent director of Guangzhou Jiujia Group Co., Ltd. (廣州酒家集團股份有限公司). Ms. Liu holds a master's degree in science and is a senior financial manager, a certified public accountant, a certified tax agent and a certified assessor.

SENIOR MANAGEMENT

The table below sets forth certain information with respect to the Guarantor’s senior management members.

Name	Age	Title
Yang Chenhui (楊晨暉)	52	Director, General Manager and Deputy Secretary of the Party Committee
Li Biao (李彪)	59	Member of the Party Committee and Secretary of the Disciplinary Committee
Li Yiming (李一鳴)	56	Deputy General Manager and Member of the Party Committee
Luo Song (羅松)	53	Deputy General Manager and Member of the Party Committee
Ye Zhonghao (葉仲豪)	42	Deputy General Manager and Member of the Party Committee
Feng Jian (馮堅)	58	Deputy General Manager and Member of the Party Committee
Lan Zhiwei (藍志威)	50	Deputy General Manager and Member of the Party Committee

Mr. Yang Chenhui (楊晨暉), aged 52, is the director, general manager and deputy secretary of the Party Committee of the Guarantor. For Mr. Yang’s biography, see “*Directors and Senior Management — Directors*”.

Mr. Li Biao (李彪), aged 59, is a member of the Party Committee and the secretary of the Discipline Inspection Committee of the Guarantor (“**Discipline Committee**”). Mr. Li previously served as the director of Human Resource Office, Technology Achievement and Technology Market Office, Scientific Research and Financial Services Office, Supervision Audit Office and Production and Research Office of the Science and Technology Department in the Guangdong government. Mr. Li holds a master’s degree.

Mr. Li Yiming (李一鳴), aged 56, is a member of the Party Committee and the deputy general manager of the Guarantor. Mr. Li previously served as the director of the General Office and secretary of the board of directors of Guangdong Construction Engineering Group Co., Ltd. (廣東省建築工程集團有限公司), the general manager of Guangdong Building Decoration Engineering Co., Ltd. (廣東省建築裝飾工程有限公司), the general manager and legal representative of Guangdong Jianzong Industrial Development Co. Ltd. (廣東建總實業發展公司), the director of the Technology Division of Venue and Equipment Department of the Organising Committee of the 16th Asian Games (第16屆亞運會組委會), a member of the Party Committee and the deputy director of Guangzhou Road Extension Project Office (廣州市道路擴建工程辦公室) and the director of the General Office of the Guarantor. Mr. Li holds a master’s degree in economics and is a senior economist.

Mr. Luo Song (羅松), aged 53, is a member of the Party Committee and the deputy general manager of the Guarantor. Mr. Luo previously served as the deputy director of the Second Cadre Division, the deputy director of the Sixth Cadre Division, the director of the Evaluation Centre and the director of the Cadre Training Division of the Organisation Department of the Chinese Communist Party Guangdong Committee (中國共產黨廣東省委員會) and the deputy secretary of the Party Committee of Guangdong Rural Credit Union (廣東農村信用聯合社). Mr. Luo has a master’s degree in philosophy.

Mr. Ye Zhonghao (葉仲豪), aged 42, is a member of the Party Committee and the deputy general manager of the Guarantor. Mr. Ye previously served as a member of the Party Leadership Group of Yunfu Municipal Government (雲浮市政府) and the deputy secretary of the Party Working Committee and the director of the Administrative Committee of Yunfu High-Tech Industrial Development Zone (雲浮高新技術產業開發區). Mr. Ye has a doctor’s degree in economics.

Mr. Feng Jian (馮堅), aged 58, is a member of the Party Committee and the deputy general manager of the Guarantor. He currently also serves as the chairman of Guangdong Seed Industry Group Co., Ltd. (廣東省種業集團有限公司). Mr. Feng previously served as the director, deputy general manager and vice chairman of Guangdong Hengjian Hezi Medical Industry Co., Ltd. (廣東恒健核子醫療產業有限公司), the executive director of Guangdong Hengtai'an Investment Co., Ltd. (廣東恒泰安投資有限公司) and the chairman of Guangdong Agricultural Supply-Side Structural Reform Fund Management Co., Ltd. (廣東省農業供給側結構性改革基金管理有限公司). Mr. Feng holds a master's degree and is an accountant.

Mr. Lan Zhiwei (藍志威), aged 50, is a member of the Party Committee and the deputy general manager of the Guarantor. Mr. Lan previously served as the deputy director of the Policy and Legal Affairs Department, deputy director of the Personnel Department and director of the General Office of Guangdong Provincial Department of Transport (廣東省交通運輸廳), the assistant to general manager and director of the General Affairs Department of the South China Regional Headquarter of China Communications Construction Group Corporation Limited (中國交通建設集團有限公司), the deputy chief economist, director of the General Office, director of the Party Organisation Department and general manager of the Human Resource Department of CCCC Urban Investment Holding Co., Ltd. (中交城市投資控股有限公司), the member of the Party Standing Committee and deputy general manager of CCCC Urban Investment Holding Co., Ltd. and the assistant to general manager and director of the General Office of the Guarantor. Mr. Lan holds a bachelor's degree and a master's degree in public administration. He is a senior economist, senior human resource management specialist and senior political engineer.

EXCHANGE RATE INFORMATION

PBOC, the central bank of the PRC, sets and publishes daily a base exchange rate with reference primarily to the supply and demand of Renminbi against a basket of currencies in the market during the prior day. The PBOC also takes into account other factors, such as the general conditions existing in the international foreign exchange markets. On 21 July 2005, the PRC government introduced a managed floating exchange rate system to allow the value of the Renminbi to fluctuate within a regulated band based on market supply and demand and by reference to a basket of currencies. On 11 August 2015, the PBOC announced to improve the central parity quotations of Renminbi against the U.S. dollar by authorising market-makers to provide central parity quotations to the China Foreign Exchange Trading Centre daily before the opening of the interbank foreign exchange market with reference to the interbank foreign exchange market closing rate of the previous day, the supply and demand for foreign exchange as well as changes in major international currency exchange rates. On 11 December 2015, CFETS, a sub-institutional organisation of the PBOC, published the CFETS Renminbi exchange rate index for the first time which weighs the Renminbi based on 13 currencies, to guide the market in order to measure the Renminbi exchange rate from a new perspective. In December 2016, the CFETS announced that starting on 1 January 2017, the number of currencies in the CFETS currency basket will be increased to 24 from 13. Renminbi kept experiencing fluctuations against the U.S. dollar for the years of 2023 and 2024. There remains significant international pressure on the PRC government to adopt an even more flexible currency policy, which could result in further and more significant depreciation of the Renminbi against the U.S. dollar. The PRC government may from time to time make further adjustments to the exchange rate system in the future.

The following table sets forth the noon buying rates for U.S. dollars in New York City for cable transfers payable in Renminbi as certified by the Federal Reserve Bank of New York for customs purposes for and as at the periods indicated as set forth in the H.10 statistical release of the Federal Reserve Board.

Period	Noon Buying Rate			
	Period End	Average ⁽¹⁾	High	Low
		<i>(Renminbi per U.S.\$1.00)</i>		
2021	6.3726	6.4382	6.5716	6.3435
2022	6.8972	6.7518	7.3048	6.3084
2023	7.0999	7.0896	7.3430	6.7010
2024	7.2993	7.1957	7.2993	7.0106
2025				
January	7.2422	7.2957	7.3326	7.2422
February	7.2828	7.2734	7.3088	7.2420
March	7.2567	7.2493	7.2843	7.2273
April	7.2706	7.2968	7.3499	7.2675
May	7.1991	7.2166	7.2706	7.1798

Note:

- (1) Averages are calculated by averaging the rates on the last business day of each month during the relevant year. Monthly averages are calculated by averaging the daily rates during the relevant monthly period.

PRC LAWS AND REGULATIONS

This section summarises the principal PRC laws and regulations which are relevant to the Group's business and operations and the provision of the Guarantee. As this is a summary, it does not contain a detailed analysis of the PRC laws and regulations which are relevant to the Group's business and operations or to the Guarantor.

NDRC REGISTRATION

On 14 September 2015, the NDRC issued the NDRC Circular. On 5 January 2023, the NDRC published the NDRC Foreign Debt Measures, which came into effect on 10 February 2023 and repealed the NDRC Circular on the same date. The Guarantor undertakes to complete the NDRC Post-issue Filing within the prescribed time period after the Issue Date according to the NDRC Foreign Debt Measures and shall comply with regulations regarding risk management and interim and ex-post supervision of the NDRC Foreign Debt Measures and any other rules and regulations promulgated by the NDRC in relation with the supervision and management of foreign debt from time to time. For any enterprise failing to comply with filing and reporting requirements under the NDRC Foreign Debt Measures, the NDRC will order such enterprise to take rectification actions within a prescribed time limit; and if the circumstances are severe or the enterprise fails to take rectification action within the prescribed time limit, give a warning to the relevant enterprise and its principal liable person. Furthermore, conducts in violation of the NDRC Foreign Debt Measures committed by enterprises will be publicised on, among others, the Credit China (信用中國) website and the National Enterprise Credit Information Publicity System (國家企業信用信息公示系統).

CROSS-BORDER SECURITY

On 19 May 2014, the SAFE promulgated the Cross-Border Security Provisions (跨境擔保外匯管理規定) which took effect on 1 June 2014 and superseded a series of regulations previously issued by the SAFE and brought substantial changes to the current cross-border security regime.

The Cross-Border Security Provisions require post-event registration of the cross-border security with a local SAFE branch, and subject to the exceptions set out in its appendix 1, the enforcement of any properly registered cross-border security no longer requires prior verification by the SAFE. Also, the registration of cross-border security with a local SAFE branch is no longer a “perfection” requirement, i.e., the Cross-Border Security Provisions have clarified that failure to carry out any approval, registration or filing will not impact the validity of the security.

The Cross-Border Security Provisions also allow the cross-border security to be used for securing an offshore bond issuance, provided that (a) the offshore issuer shall be directly or indirectly owned by the onshore security provider; (b) the proceeds obtained from the offshore bond issuance shall be used for certain offshore projects which are related to the onshore security provider from a shareholding perspective; and (c) the issuer and such offshore projects have been duly approved by, registered and filed with, the relevant authorities in charge of outbound investment in the PRC.

Although the approval/registration requirements relating to the cross-border security were largely relaxed under such Cross-Border Security Provisions, restrictions on the repatriation of proceeds from an offshore debt still applied, which provided that such proceeds may not be repatriated, whether directly or indirectly, from offshore to onshore, whether by way of equity investment or lending (which includes direct or indirect equity investment in an offshore company where 50.0 per cent. or more of its assets are located in mainland China) without obtaining prior approval from the SAFE. However, according to the Notice on Further Promoting the Reform of Foreign Exchange Administration and Improving Authenticity and Compliance Review (關於進一步推進外匯管理改革完善真實合規性審核的通知) newly promulgated by the SAFE on 26 January 2017, proceeds from offshore debt secured by cross-border security may be repatriated to the PRC for use directly or indirectly by way of loans, equity investment, etc.

REGULATION ON FISCAL DEBTS OF LOCAL GOVERNMENTS

For example, in accordance with the Guidance on Further Strengthening Adjustment of Credit Structure to Promote Fast and Smooth Development of National Economy (《中國人民銀行、中國銀行業監督管理委員會關於進一步加強信貸結構調整促進國民經濟平穩較快發展的指導意見》) issued jointly by PBOC and the China Banking Regulatory Commission (which was merged with the China Insurance Regulatory Commission to form the China Banking and Insurance Regulatory Commission in April 2018) (“**CBRC**”) on 18 March 2009, local governments are encouraged to establish financing platforms to issue financing instruments such as enterprise notes and medium-term notes. In order to strengthen the management of financing platforms and effectively prevent fiscal financial risks, the Circular of the State Council on Relevant Issues Concerning Strengthening the Management of Financing Platform Companies of Local Governments (《國務院關於加強地方政府融資平臺公司管理有關問題的通知》) (“**Circular 19**”) and the Circular of the General Office of NDRC on Relevant Issues Concerning Further Regulating the Issuance of Bonds of Local Government Investment and Financing Platform Enterprise (《國家發展改革委辦公廳關於進一步規範地方政府投融資平臺公司發行債券行為有關問題的通知》) (“**Circular 2881**”) were separately promulgated on 10 June 2010 and 20 November 2010, respectively. In accordance with Circular 19, all levels of local governments shall clear up the debts of their respective financing platform. In accordance with Circular 2881, indebtedness of local governments will impact the financing platform’s issuance of enterprise notes.

On 21 September 2014, the State Council released Several Opinions of State Council on Strengthening the Administration of Local Government Debts (《國務院關於加強地方政府性債務管理的意見》) (“**Circular 43**”). In accordance with Circular 43, financing platform companies shall no longer function as a financing vehicle of the local government or incur new government debts. New public interest projects of a local government that are not for profit earning should not be financed by the investment vehicles of the local government in the form of corporate bond issuances. Instead, local governments should finance the development of such public interest projects by issuance of government bonds. Public interest projects that are profit earning may be developed either by private investors independently or by a special purpose company jointly set up by the local government and private investors. Such private investors and special purpose companies shall invest in accordance with market-oriented principles and development of the projects may be financed by bank loans, corporate bonds, project revenue bonds and asset-backed securitisation. Furthermore, private investors and the special purpose companies shall bear the obligation to repay their debts and the local government shall not be liable for any of the private investors’ or the special purpose companies’ debts. Circular 43 also sets forth the general principles of dealing with existing debts of financing platforms. Based on the auditing results of such debts run by the local governments, the existing debts that should be repaid by the local governments shall be identified, reported to State Council for approval, and then included in the budget plan of local governments. There are a few stray cases where certain debts of the local financing platforms were classified as non-government debts since the release of Circular 43. However, whether the factual basis for such individual cases is comparable or relevant to other local governments’ financing platforms or not is unclear, and different local governments’ interpretation and application of Circular 43 may vary from one another. It is unclear what impact Circular 43 has on the existing government debts of the local financing platforms in the PRC.

In addition, on 23 October 2014, MOF promulgated the Methods to Clear up and Clarify the Existing Fiscal Debt of Local Governments and Integrate it into Budgetary Management (《地方政府存量債務納入預算管理清理甄別辦法》) (“**Circular 351**”) based on Circular 43. Circular 351 further requires local governments to clear up the existing debts of the financing platforms of the local governments and classify such existing fiscal debts of the local governments into government debts and non-government debts. On 9 November 2016, MOF promulgated the Circular on Local Government General Debt Budget Management (《地方政府一般債務預算管理辦法》) (“**Circular 154**”) and the Circular on Local Government Special Debt Budget Management (《地方政府專項債務預算管理辦法》) (“**Circular 155**”), which aim to realise the monitoring of the entire process of borrowing, using and repaying local governments debts, enhance the transparency of local government debts, and

strengthen the supervision of local government debt management by the central government. Circular 154 and Circular 155 clarify the upper limit of local government debt, budget preparation and approval process, and provide that debts that are not in the form of government bonds shall be included in budget management.

On 11 May 2015, the Opinion on the Proper Solution of the Follow-up Financing Issues for Projects under Construction of Financing Platform of Local Governments issued jointly by MOF, PBOC and CBRC (《財政部人民銀行銀監會關於妥善解決地方政府融資平臺公司在建項目後續融資問題意見》) (“**Circular 40**”) was promulgated by the General Office of State Council. In accordance with Circular 40, local governments at all levels and banking financial institutions shall properly deal with follow-up financing issues for projects under construction of financing platform companies. Projects under construction refer to projects that have started construction upon the completion of examination, approval or filing procedures in accordance with relevant regulations manuscript by competent investment authorities before the date when Circular 43 was promulgated.

In addition, MOF, together with NDRC, PBOC, China Securities Regulatory Commission, CBRC and the Ministry of Justice of the PRC, released the Notice concerning Further Regulation of Local Government Borrowing and Financing Conduct (《關於進一步規範地方政府舉債融資行為的通知》) to emphasise the principles and policies set out in Circular 43 in April 2017.

Also, the PRC government issued the MOF Circular (as defined below), effective on 28 March 2018, which aims to increase the responsibility of the PRC state-owned financial institutions to investigate into the financial independence and liquidity level of the local government financing vehicles that they assist with fundraising. On 11 May 2018, the Joint Circular (as defined below) was released which reiterates the PRC government’s position to isolate the debt of local government financing vehicles from the relevant local governments and to control the increase of the local governments’ debt. The Joint Circular requires companies that plan to borrow medium and long-term foreign debt to establish a sound and standardised corporate governance structure, management decision-making mechanism and financial management system. It further requires that the assets owned by such companies should be of good quality and clear ownership and it is forbidden to include public interest assets in corporate assets. See “— *Risks relating to the Bonds and the Guarantee — The PRC government (including the Guangdong government and Guangdong SASAC) has no obligation to pay any amount under the Bonds*”.

On 13 September 2018, the Guiding Opinions on Strengthening Asset-Liability Constraints on State-owned Enterprises (《關於加強國有企業資產負債約束的指導意見》) (the “**Guiding Opinions**”) was promulgated by the General Office of the CPC Central Committee and the General Office of State Council and became effective on the same date. Pursuant to the Guiding Opinions, the average debt ratio of state-owned enterprises shall decrease by approximately two percentage points starting from the end of 2017 and by the end of 2020, and thereupon the debt ratio of state-owned enterprises shall be maintained basically at the average level of enterprises of the same size in the same industry. The Guiding Opinions also set forth the basic principles and indicative standards of constraining the debt ratio of state-owned enterprises.

On 6 June 2019, the General Office of the NDRC issued the Circular of the General Office of the NDRC on the Relevant Requirements for Filing and Registration of Foreign Debt Issuance by Local State-owned Enterprises (《國家發展改革委辦公廳關於對地方國有企業發行外債申請備案登記有關要求的通知》) (“**Circular 666**”), which aims to strengthen the management of local government debt and prevent the risks relating to medium and long-term foreign debt and hidden debt of local government. Circular 666 expressly limits the use of proceeds of foreign debt issued by local state-owned enterprises which undertake local government financing functions to repaying medium and long-term foreign debt due within one year.

MAJOR REGULATIONS IN ENERGY INDUSTRIES

China has established a systematic regulatory regime with respect to: (i) the electric power industry and its entrance thresholds; (ii) transmission, supply, and dispatch of power; (iii) power tariffs; and (iv) the renewable energy. The major laws and regulations in this regime are summarised as follows:

Electric Power Industry and Entrance Thresholds

The Electric Power Law

The Electric Power Law of the PRC (中華人民共和國電力法) (the “**Electric Power Law**”), effective since April 1996 and amended effective since April 2018, is the first national law enacted specifically for the electric power industry. It regulates electric power construction, electric power production, grid management, pricing and tariffs and protection of electric power facilities.

The Electric Power Law aims to protect the legitimate interests of investors, operators and users and to ensure the safety of power operation. The Electric Power Law also enables the PRC government to regulate and promote domestic and foreign investments in the electric power industry.

The Electric Power Regulatory Ordinance

The Electric Power Regulatory Ordinance (電力監管條例), effective since May 2005, regulates various aspects of the electric power industry, including, among others, the issuance of electric power business permit, the supervision and inspection of power generators and grid companies as well as the legal liabilities for violations of the regulatory requirements.

The Provisions on the Administration of Electric Power Business Permit

Pursuant to the Provisions on the Administration of Electric Power Business Permit (電力業務許可證管理規定) effective since December 2005 and amended in January 2024, the PRC government adopts a market access permit regime in the electric power industry. Unless otherwise provided by the China Electricity Regulatory Commission (電力監管委員會) (the “**SERC**”) (the SERC as a regulatory authority ceased to exist in 2013 and its functions, including issuing Electric Power Business Permit, have been consolidated into the NEA), no entity or individual in the PRC may conduct any electric power business (including power generation, transmission and supply) without obtaining an Electric Power Business Permit. Specifically, the entities conducting power generation business shall obtain an Electric Power generation Business Permit, the entities conducting power transmission business shall obtain an Electric Power Transmission Business Permit, the entities conducting power supply business shall obtain an Electric Power Supply Business Permit, and the entities conducting two or more electric power businesses shall obtain two or more electric power business permits respectively. The measures for the administration of business permits for power distribution or power sale shall be separately provided for by the National Energy Administration.

Pursuant to the Notice to Clarify Issues concerning Delegating the Issuance of Electric Power Business Permit to Lower Levels (關於明確下放電力業務許可證核發職責等事項的通知), effective since November 2013, the authority to issue Electric Power Business Permit (including power generation, transmission and supply) has been delegated to agencies of the NEA in the regions where the applicants are located.

Several Opinions of the CPC Central Committee and the State Council on Further Deepening the Reform of the Electric Power System

In order to further deepen the Reform of the Electric Power System, solve the outstanding contradictions and deep-seated problems that restrict the scientific development of the electric power industry, promote both quality and speed of developing the electric power industry and promote the

structural transformation and industrial upgrading, in March 2015, the CPC Central Committee and the State Council issued and executed the Several Opinions on Further Deepening the Reform of the Electric Power System (中共中央、國務院關於進一步深化電力體制改革的若干意見) (the “**2015 Electric Power Opinions**”) and six supplementary documents, which sought to, among other things:

- introduce reforms to the electric power regime;
- promote tariff reforms on transmission and distribution of electricity;
- promote the construction of the electricity market construction;
- promote power selling side reform;
- promote the establishment of an electricity trading organisation;
- relax the electricity generation and consumption plan in an orderly manner; and
- enhance the supervision and management of coal-fired self-owned power plants.

The major tasks addressed in the 2015 Electric Power Opinions in the near future mainly include: promoting the reform of power tariffs and straightening the formation mechanism of power tariffs; promoting the reform of power trading system and refining the market-driven system of power trading; establishing a relatively independent institution for power trading and forming a fair and standard market trading platform; promoting the reform of the power generation and consumption plan and leading the market to play a more important role; promoting the reform of the power sales side and introducing public capitals into the power sales business; providing equitable access to grid and establishing a new mechanism in connection with the development of distributed generation; strengthening the overall planning, scientific supervision and increasing the reliable level of electrical safety.

In August 2017, the NDRC and the NEA jointly issued the Notice on the Pilot Work on the Construction of the Power Spot Market (《關於開展電力現貨市場建設試點工作的通知》(發改辦能源[2017]1453號)). Eight regions, including South China (starting in Guangdong province), were selected for the first batch of pilot projects for the establishment of a power spot market in the PRC.

Transmission, Supply, and Dispatch of Power

Electric Power Law and the Provisions on the Administration of the Operation of Power Plants Connected to Grids

The Electric Power Law encourages the connection between power generating enterprises and power grids as well as the connection between power grids. Power generating entities with independent legal capacities may request to integrate their power into the electronic grids, which shall be accepted by grids operating enterprises. Connected power grids shall be operated in accordance with the national or industrial standards. The Provisions on the Administration of the Operation of Power Plants Connected to Grids (電力並網運行管理規定), effective since November 2006 and amended in December 2021, regulates operation management and assessment standards for all grid-connected entities, including power generation (thermal, hydropower, new energy), load-side (adjustable loads, virtual power plants), and new energy storage.

The Provisions on the Settlement of Disputes over Grid-connection or Interconnection of Electric Power

Pursuant to the Provisions on the Settlement of Disputes over Grid-connection or Interconnection of Electric Power (電力併網互聯爭議處理規定) effective since January 2007 and amended in January 2024, where a dispute arises between a power generating enterprise and a grids operating enterprise over grid-connection dispatching, the National Energy Administration (NEA) and its local agencies shall settle the disputes in accordance with the principles of rationality, legality, impartiality and efficiency.

Regulation on Supply and Use of Electric Power

The Regulation on Supply and Use of Electric Power (電力供應與使用條例) (the “**Supply and Use Regulation**”), effective since September 1996 and amended in March 2019, applies to the supply and use of electric power in the PRC. According to the Supply and Use Regulation, grids operating enterprises are responsible for the power supply within their service areas. Before the power supply is provided, power supply enterprises and power users shall enter into power supply contracts to agree on the supply terms based upon the capacity of power supply enterprises and the needs of users in accordance with the principles of fairness and voluntary consultation.

Regulation on the Administration of Power Grid Dispatch

The Regulation on the Administration of Power Grid Dispatch (電網調度管理條例) (the “**Dispatch Regulation**”) promulgated by the State Council, effective since November 1993 and amended in January 2011, regulates the operation of dispatching centres and lays down the principle of unified dispatch and hierarchical management in terms of grids operation. Pursuant to the Dispatch Regulation, dispatch centres are established in five levels: (i) national dispatch centres; (ii) inter-provincial dispatch centres; (iii) provincial-level dispatch centres; (iv) dispatch centres for grids of municipalities under provincial governance; and (v) county-level dispatch centres. Dispatch centres shall follow the dispatch instructions from the dispatch centres on higher levels. The operating units in charge of power plants and substations within the jurisdiction of a dispatch centre shall follow the dispatch instructions from such dispatch centre.

Power Tariffs

The Electric Power Law

The Electric Power Law sets forth the general principles for the pricing of power tariffs. Power tariffs refer to (i) the tariffs charged to the power generating enterprises for connection with the grids; (ii) the tariffs on mutual supply between different power grids; and (iii) the sales prices of electricity supplied to consumers (the “**Electricity Sales Prices**”). Power tariffs are to be calculated based on the consideration of reasonable compensation for costs, reasonable estimate of profits, legal incorporation of taxes, fairness in burden sharing and promotion of electric power construction. In July 2003, the State Council approved the Power Tariff Reform Plan (電價改革方案) with a long-term goal to set up a standardised and transparent management regime of power tariffs. Power generation prices and Electricity Sales Prices shall be determined by market condition and competition, while transmission and distribution tariffs shall be determined by the government planning.

Notice on Issues Concerning Regulating the Management of Prices for Electricity Trading

In October 2009, the NDRC, NEA and the SERC promulgated the Notice on Issues Concerning Regulating the Management of Prices for Electricity Trading (關於規範電能交易價格管理等有關問題的通知). The Notice provides the on-grid tariffs, prices for inter-provincial and inter-regional electricity trading and the Electricity Sales Prices should be determined as follows:

- The on-grid tariffs set by the competent price department of the government shall uniformly apply to the volume of on-grid electricity of the power generators, unless otherwise prescribed;
- The prices set by the PRC government for inter-provincial and inter-regional electricity trading shall be strictly implemented. If the prices for inter-provincial and inter-regional electricity trading have not been determined by the PRC government, the power transmission and receiving parties shall determine tariff settlement between the power generation plant and the power grid enterprise based on the average on-grid tariff for the power grid of the transmission terminal and the average power purchase tariff for the power grid of the receiving terminal under the guidance of the competent price department at the provincial level, the electricity regulatory agency and the power administration authority in the power transmission and receiving regions;
- The electricity sales prices shall be strictly subject to the tariff standards announced by the NDRC. The PRC governments at all levels and the power grid enterprises shall neither amend the Electricity Sales Prices at discretion nor offer discounted tariff by means of direct power purchase (or direct power supply) by large end-users.

Notice of the General Department of the NEA Concerning Launching Direct Trade Between Electric Power Consumers and Power Generating Enterprises at the Current Stage

In order to strengthen the supervision of direct trade between electric power consumers and power generating enterprises, the NEA promulgated the Notice of the General Department of the NEA Concerning Launching Direct Trade Between Electric Power Consumers and Power Generating Enterprises at the Current Stage (關於當前開展電力用戶與發電企業直接交易有關事項的通知) in July 2013 (the “Notice”). The Notice provides that governmental authorities shall not impose administrative requirements for approval of pilot programs for the direct trade of electric power. Meanwhile, the Notice has raised the market entrance thresholds for direct trade of electric power and accelerated the calculation of and approval for the tariff for transmission and distribution of electric power.

Suggestions on the Implementation of Promoting the Tariff Reform of Power Transmission and Dispatch

In November 2015, the NDRC and the NEA promulgated the Suggestion on the Implementation of Promoting the Tariff Reform of Power Transmission and Dispatch (關於推進輸配電價改革的實施意見) (the “Suggestion”). The purpose of the Suggestion is to establish a rational, transparent and independent transmission and dispatch tariff system and a transmission and dispatch price formation mechanism with clear rules, reasonable price level and strong supervision. In accordance with the principal of “Permit Costs and Reasonable Profits”, the implementation of tariff reform will ratify the permitted gross income of grid enterprises and the transmission and dispatch tariff of various voltage grades and specify the government funds and cross subsidisation.

Guiding Opinions on Deepening the Reform of On-Grid Tariff Formation Mechanism for Coal-Fired Power Generation

According to the Guiding Opinions on Deepening the Reform of On-Grid Tariff Formation Mechanism for Coal-Fired Power Generation (《關於深化燃煤發電上網電價形成機制改革的指導意見》) promulgated by the NDRC on 21 October 2019, the coal and electricity prices linkage system has been replaced by the “benchmark price plus both upward and downward fluctuations” mechanism since 1

January 2020. The benchmark price of this new mechanism will be determined by the on-grid tariff of the current coal-fired power generation benchmarks in various cities, with a fluctuation of no more than 10 percent for the upper limit, and a maximum of 15 percent for the lower one. Electricity prices will be decided by power generating companies, firms focusing on sales of electricity and users through negotiation or bidding.

According to Certain Opinions on Further Deepening the Reform of the Electric Power Regime (Zhong Fa [2015] No. 9) (《關於進一步深化電力體制改革的若干意見》(中發[2015]9號文)) issued by the State Council in March 2015, China aims to relax its power generation and consumption plan in an orderly manner. In addition, it is expected that the planned output proportion will decrease gradually, while the traded electricity proportion will increase gradually.

According to the Notice on Improving Coal and Electricity Prices Linkage System (《關於完善煤電價格聯動機制有關事項的通知》) published by the NDRC in December 2015, the coal and electricity prices linkage system was implemented annually at the provincial (autonomous regional or municipality) level under the supervision of the NDRC. The Guiding Opinions on Deepening the Reform of On-Grid Tariff Formation Mechanism for Coal-Fired Power Generation (《關於深化燃煤發電上網電價形成機制改革的指導意見》) published by the NDRC on 21 October 2019 replaced the coal and electricity price linkage system with the “benchmark price plus both upward and downward fluctuations” mechanism. From 1 January 2020, the benchmark price will be determined based on the on-grid tariff of the current coal-fired power generation benchmarks in various cities, with a fluctuation of 10 per cent. to 15 per cent. Electricity prices will be decided by power generating companies, firms focusing on sales of electricity and users through negotiation or bidding.

Renewable Energy

The Renewable Energy Law and the Guidance Catalogue on the Development of the Renewable Energy Industry

According to the Renewable Energy Law of the PRC (中華人民共和國可再生能源法) (the “Renewable Energy Law”), effective since January 2006 and amended in December 2009, and the Guidance Catalogue on the Development of the Renewable Energy Industry (可再生能源產業發展指導目錄) as promulgated by the NDRC, effective since November 2005, renewable energy includes wind power, solar power, hydropower, bio-energy, geothermal energy, ocean energy and other types of non-fossil energy. The Renewable Energy Law sets out the regulatory framework for the development and use of renewable energy.

Pursuant to the Renewable Energy Law, power grid enterprises shall (i) conclude grid connection agreements with enterprises which generate electricity by using renewable energy resources and have lawfully obtained administrative approvals or filed for records in accordance with the plan for development and utilisation of renewable energy resources; (ii) purchase in full volume the on-grid electricity of the grid-connected power generation projects which meet the grid connection technical standards in the covered area of their power grids; and (iii) provide services and relevant technical support for bringing on-grid the electricity generated by renewable energy resources.

The Supervision Measures on the Purchase of the Full Volume of Renewable Energy Power by Grid Enterprises

Measures for Regulating the Guaranteed Full Purchase of Renewable Electricity (全額保障性收購可再生能源電量監管辦法) effective since February 2024, the SERC and its local agencies shall supervise the grid enterprises to fulfil their purchase and dispatch priority duties. Grid enterprises that fail to fulfil these duties and cause losses to renewable energy enterprises shall compensate for such losses and rectify their faults upon affirmation by the competent electric power regulatory authority; otherwise, the grid enterprise may be subject to a fine at a sum no more than the losses sustained by the renewable energy enterprises.

The Interim Measure for the Administration of the Collection and Use of the Renewable Energy Development Fund

According to the Interim Measure for the Administration of the Collection and Use of the Renewable Energy Development Fund (可再生能源發展基金徵收使用管理暫行辦法) which became effective in January 2012:

- The State will establish a renewable energy development fund, which shall include the special purpose fund appropriated by the public budget of the State finance and the income from surcharges on renewable energy power prices as levied from power users.
- The surcharges for renewable energy power prices shall be levied throughout the country, except for the Tibet Autonomous Region, on the sales volume of electricity of all provinces, autonomous regions and municipalities directly under the central government after deducting the electricity used for agricultural production (including electricity used for agricultural irrigation and drainage). The surcharges for renewable energy power prices shall be levied by the financial supervision commissioner's offices of the MOF across the PRC from power grid enterprises on a monthly basis, and be paid to the treasury directly. The income shall be transferred to the central treasury in full amount.
- The renewable energy development fund shall be used to support the renewable energy generation and the development and utilisation thereof. The income from the surcharges on renewable energy power prices shall be used to subsidise the following: (i) where a power grid enterprise incurs expenses in purchasing the electricity generated from renewable energy by applying (a) the on-grid tariffs determined by the pricing authority of the State Council; or (b) the on-grid tariffs determined through competitive measures such as invitation to bid in accordance with the relevant provisions of the Renewable Energy Law, the portion of such expenses which exceeds those expenses which would have been otherwise incurred by applying the average on-grid tariff of the electricity generated from conventional energy; (ii) where a public renewable energy independent power system, whose construction is Statefunded or subsidised, applies the locally classified electricity sales prices, the portion of its reasonable operation and management expenses which exceeds the electricity sales prices; (iii) where a power grid enterprise purchases the electricity generated from renewable energy, the portion of the reasonable grid connection expenses and other reasonably relevant expenses incurred by such enterprise which cannot be covered by the electricity sales prices.

The MOF and NDRC issued the Notice on Issues concerning Raising the Collection Rate of the Renewable Energy Development Fund (《財政部、國家發展改革委關於提高可再生能源發展基金徵收標準等有關問題的通知》), which has become effective since January 2016. Beginning on 1 January 2016, the collection rate of the fund for all sales volumes of electricity in all provinces (autonomous regions and municipalities directly under the central government, excluding Xinjiang Uighur Autonomous Region and Tibet Autonomous Region) but those for residential life and agricultural production shall rise from 0.015 yuan/kWh to 0.019 yuan/kWh. The price departments of all provinces (autonomous regions and municipalities directly under the central government) shall adjust the sales prices of electricity supplied by the provincial power grids and the local independent power grids within the same range so as to ensure the effective implementation of the policy to raise the collection rate of the fund. The collection administration of the fund shall be enhanced for enterprises' own power plants.

MAJOR LAWS AND REGULATIONS GENERALLY APPLICABLE TO INDUSTRIAL ENTERPRISES

In addition to the regulatory regime specifically applies to the electric power and energy industry, as an industrial enterprise, the Group is also subject to the general PRC laws and regulations concerning project approval, land use, environmental protection, construction, labour and occupational protection issues. The relevant laws and regulations include:

Administrative License Law

Pursuant to the Administrative License Law of the PRC (中華人民共和國行政許可法), which became effective since July 2004 and amended in April 2019, the administrative authority shall, after the examination in accordance with law, grant approval for engaging in certain activities to citizens, legal persons and other organisations upon their application. The imposition and implementation of administrative licensing shall be consistent with the authority, scope, conditions and procedures set forth by the law and follow the principles of publicity, fairness, impartiality, convenience for the public. The administrative licenses lawfully obtained by a citizen, a legal entity or other forms of organisations shall be protected by law. The administrative authority shall not alter an effective administrative license without legal basis.

Environmental Protection Law

The Environmental Protection Law of the PRC (中華人民共和國環境保護法) (the “**Environment Protection Law**”), which became effective since December 1989 and was amended in April 2014 and became effective since January 2015, is the principle law regulating the environmental protection within the PRC. It provides that all entities and individuals shall have the obligation to protect the environment and shall have the right to report on or file charges against the entities or individuals that cause pollution or damage to the environment. The competent department of environmental protection administration under the State Council shall conduct unified supervision and management of the environmental protection work throughout the country. Any violation of the Environmental Protection Law shall, according to the circumstances of the case, be warned, fined or penalised by the competent environmental protection administration.

The Law on Assessment of Environment Impact and the Catalogue for the Classified Administration of Environmental Impact Assessment for Construction Projects

Under the Law of the PRC on Assessment of Environment Impact (中華人民共和國環境影響評價法) which became effective since September 2003 and was amended in December 2018, environment impact assessment documents consist of the report of environmental impact, the report form of environmental impact and the registration form of environmental impact according to the seriousness of the relevant environmental impact.

Power transmission and transformation projects, according to the Catalogue for the Classified Administration of Environmental Impact Assessment for Construction Projects (環境保護部審批環境影響評價文件的建設項目目錄) (2015 Revision), promulgated in June 2015, Catalogue of Construction Projects Requiring Environmental Impact Assessment Documents Approval by the Ministry of Ecology and Environment (2019 Edition) (生態環境部審批環境影響評價檔案的建設項目目錄 (2019年本)) shall obtain the following formats of environment impact assessment documents under different situations:

- Report of environmental impact for the construction projects with a voltage of 500 KV or above and related to sensitive environmental areas;
- Report form of environmental impact for other construction projects.

The Land Administration Law

The PRC resorts to a land regime under public ownership, according to which the land is either owned by the State or by collective economic organisations. Entities or individuals are allowed to acquire the land use right in accordance with the laws. According to the Land Administration Law of the PRC (中華人民共和國土地管理法) which became effective since January 1987 and was amended in August 2019, a land user shall compensate for the use of State-owned land unless the land use right is obtained through allocation by the State in accordance with the law. The State sets up general plans of land usage which classify the land as agricultural land, construction land and unused land. The entities and individuals who use the land shall strictly comply with the land usage plan.

The Construction Law

The Construction Law of the PRC (中華人民共和國建築法), which became effective since March 1998 and was amended in April 2019, aims to strengthen the supervision and regulation of construction activities, maintain the order of construction market, ensure the quality and safety of construction projects and promote the healthy development of the construction industry. The construction activities regulated by this law refer to the construction of various kinds of buildings and ancillary facilities and relevant installation activities of lines, pipelines and equipment. Before the commencement of a construction project, the construction entity shall obtain a construction permit from the competent local construction authority. Construction activities shall ensure the quality and safety of the construction projects and comply with the State's safety standards for construction projects.

The Urban and Rural Planning Law

The Urban and Rural Planning Law of the PRC (中華人民共和國城鄉規劃法), which became effective since January 2008 and was amended in April 2019, regulates the formulation and implementation of urban and rural planning and construction activities within the planned areas. Entities and individuals shall obtain a construction land planning permit and a construction project planning permit prior to their commencement of actual construction activities.

The Labour Law

The Labour Contract Law of the PRC (中華人民共和國勞動合同法), which became effective since January 2008 and was amended in December 2012, together with its implementation regulations as effective since September 2008, emphasises the conclusion of employment contracts in written form and imposes severe penalties for non-compliance. If the employer fails to conclude a written employment contract with an employee within the period of one month to one year after the actual commencement of work, the employer must pay the employee double salary for every month within the actual employment term. If the employer fails to conclude a written employment contract with an employee for more than one year after the actual commencement of work, an unfixed-term of contract is deemed to have been concluded. Enterprises and institutions are forbidden from forcing employees to work beyond the statutory time limits and the employers shall pay employees for overtime work in accordance with national regulations.

Under applicable PRC laws, regulations and rules, including the Social Insurance Law (社會保險法), promulgated by the SCNPC on 28 October 2010, which became effective on 1 July 2011, and as amended on 29 December 2018, the Interim Regulations on the Collection and Payment of Social Insurance Premiums (社會保險費徵繳暫行條例), promulgated by the State Council on 22 January 1999, which became effective on 22 January 1999, and as amended on 24 March 2019, and Administrative Regulations on the Housing Provident Fund (住房公積金管理條例), promulgated by the State Council on 3 April 1999, which became effective on 3 April 1999 and as amended on 24 March 2002, on 24 March 2019, employers are required to contribute, on behalf of their employees, to a number of social security funds, including funds for basic pension insurance, unemployment

insurance, basic medical insurance, occupational injury insurance, maternity leave insurance, and to housing provident funds. These payments are made to local administrative authorities and any employer who fails to contribute may be fined and ordered to pay the outstanding amount within a stipulated time period.

The Social Security Law

Under the Social Security Law of the PRC (中華人民共和國社會保險法) which became effective since July 2011 and was amended in December 2018, the State establishes social insurance systems such as basic pension insurance, basic medical insurance, occupational injury insurance, unemployment insurance and maternity insurance so as to ensure that citizens shall receive assistance from the State and the society at the time of retirement, sickness, occupational injury, unemployment and maternity. Individuals may enjoy social insurance benefits and are entitled to supervise the status of premium payment by their employers for them in accordance with the law.

The Work Safety Law and the Measures on Supervision and Administration of the Work Safety of Electricity

The Work Safety Law of the PRC (中華人民共和國安全生產法) (the “**Work Safety Law**”), which became effective since November 2002 and was amended in June 2021 and became effective since September 2021, is the principal law governing the supervision and administration of work safety. The Work Safety Law provides that the safety facilities of newly built or rebuilt or expanded construction projects of production and business operation entities shall be designed, built and put into production and used at the same time with the main body of such projects. The Measures on Supervision and Administration of the Work Safety of Electricity (電力安全生產監督管理辦法) (the “**Electricity Safety Measures**”), executed in March 2015, regulate the operation safety of the electricity industry.

The Law of Prevention of Occupational Disease

The Law of Prevention of Occupational Disease of the PRC (中華人民共和國職業病防治法) (the “**Occupational Disease Law**”), which became effective since May 2002 and was amended in December 2018, aims to prevent, control and eradicate occupational diseases. The health administrative department, and labour and social security administrative department of the State Council shall, according to the functions prescribed by the Occupational Disease Law, supervise and administrate the prevention and control of occupational diseases across the country. According to the Occupational Disease Law, the State shall establish a report system for projects with occupational disease hazards. Where an employer’s work site has any occupational disease hazard factors as listed in the catalogue of occupational diseases, the employer shall truthfully report the hazardous project to the local work safety administrative department in a timely manner and accept supervision.

With respect to the construction activities, the Occupational Disease Law provides that where a construction project may cause any occupational disease hazards, the construction project owner shall submit a preliminary assessment report on occupational disease hazards to the health administrative department at the stage of feasibility study. The health administrative department shall, within thirty days from the date of receipt of the report, make a decision and notify the construction project owner of the decision in writing. The construction project owner shall not commence construction prior to the filing of the preliminary assessment or obtaining consent from the health administrative department. The expenses necessary for the protective facilities against occupational diseases of a construction project shall be included in the project budget of the construction project, and such facilities shall be designed, constructed, and put into use in production and operations at the same time with the main body of the project.

PRC CURRENCY CONTROLS

Current Account Items

Under PRC foreign exchange control regulations, current account items refer to any transaction for international receipts and payments involving goods, services, earnings and other frequent transfers.

Prior to July 2009, all current account items were required to be settled in foreign currencies with limited exceptions. In July 2009, the PRC commenced a pilot scheme pursuant to which Renminbi may be used for settlement of imports and exports of goods between approved pilot enterprises in five designated cities in the PRC including Shanghai, Guangzhou, Dongguan, Shenzhen and Zhuhai and enterprises in designated offshore jurisdictions including Hong Kong and Macau. On 17 June 2010, 27 July 2011 and 3 February 2012 respectively, the PRC government promulgated the Circular on Issues concerning the Expansion of the Scope of the Pilot Programme of Renminbi Settlement of Cross-Border Trades (關於擴大跨境貿易人民幣結算試點有關問題的通知), the Circular on Expanding the Regions of Cross-border Trade Renminbi Settlement (關於擴大跨境貿易人民幣結算地區的通知) and the Notice on Matters Relevant to the Administration of Enterprises Engaged in Renminbi Settlement of Export Trade in Goods (關於出口貨物貿易人民幣結算企業管理有關問題的通知) (together as “Circulars”). Pursuant to these Circulars, (i) Renminbi settlement of imports and exports of goods and of services and other current account items became permissible, (ii) the list of designated pilot districts were expanded to cover all provinces and cities in the PRC, (iii) the restriction on designated offshore districts has been lifted and (iv) any enterprise qualified for the export and import business is permitted to use Renminbi as settlement currency for exports of goods without obtaining the approval as previously required, provided that the relevant provincial government has submitted to PBOC and five other PRC authorities (the “**Six Authorities**”) a list of key enterprises subject to supervision and the Six Authorities have verified and signed off such list (the “**Supervision List**”).

On 5 July 2013, the PBOC promulgated the Circular on Policies related to Simplifying and Improving Cross-border Renminbi Business Procedures (關於簡化跨境人民幣業務流程和完善有關政策的通知) (the “**2013 PBOC Circular**”), which, in particular, simplified the procedures for cross-border Renminbi trade settlement under current account items. For example, PRC banks may conduct settlement for PRC enterprises (excluding those on the Supervision List) upon the PRC enterprises presenting the payment instruction. PRC banks may also allow PRC enterprises to make/receive payments under current account items prior to the relevant PRC bank’s verification of underlying transactions (noting that verification of underlying transactions is usually a precondition for cross border remittance).

On 1 November 2014, the PBOC introduced a cash pooling arrangement for qualified multinational enterprise group companies, under which a multinational enterprise group can process cross-border Renminbi payments and receipts for current account items on a collective basis for eligible member companies in the group. On 5 September 2015, the PBOC promulgated the Circular on Further Facilitating the Cross-Border Bi-directional Renminbi Cash Pooling Business by Multinational Enterprise Groups (關於進一步便利跨國企業集團開展跨境雙向人民幣資金池業務的通知) (the “**2015 PBOC Circular**”), which, *inter alia*, has lowered the eligibility requirements for multinational enterprise groups and increased the cap for net cash inflow. The 2015 PBOC Circular also provides that enterprises within a pilot free trade zone in the PRC, such as the China (Shanghai) Pilot Free Trade Zone (“**Shanghai FTZ**”) may establish an additional cash pool in the local scheme in such pilot free trade zone, but each onshore company within the group may only elect to participate in one cash pool.

On 4 January 2018, the PBOC promulgated the Notice on Further Improving Policies of Cross-Border RMB Business to Promote Trade and Investment Facilitation (中國人民銀行關於進一步完善人民幣跨境業務政策促進貿易投資便利化的通知), which supports enterprises to use RMB in cross-border settlement and for the investment income such as profits and dividends legally obtained by overseas investors in China, banks shall review relevant materials as required before processing cross-border RMB settlement and ensure free remittance of profits of foreign investors in accordance with the law.

The regulations referred to above are subject to interpretation and application by the relevant PRC authorities. Local authorities may adopt different practices in applying these regulations and impose conditions for settlement of current account items.

Capital Account Items

Under PRC foreign exchange control regulations, capital account items include cross-border transfers of capital, direct investments, securities investments, derivative products and loans. Capital account payments are generally subject to the approval of, and/or registration or filing with, the relevant PRC authorities. Until recently, settlement of capital account items, for example, the capital contribution of foreign investors to foreign-invested enterprises in the PRC, were generally required to be made in foreign currencies. Under progressive reforms by the PBOC, the MOFCOM and the SAFE, foreign investors are now permitted to make capital contribution, share transfer, profit allocation and liquidation and certain other transactions in Renminbi for their foreign direct investment within the PRC. Cross-border Renminbi payment in infrastructure and trading facilities are being improved. Approval, registration and filing requirements for capital account payments in Renminbi are being removed gradually. The Circular on Reforming the Administrative Approach of the Foreign Exchange Capital Settlement for Foreign Invested Enterprises (關於改革外商投資企業外匯資金結匯管理方式的通知) became effective on 1 June 2015 (the “**2015 SAFE Circular**”). In addition to the option to settle foreign current capital through payment-based foreign exchange settlement (支付結匯制), the 2015 SAFE Circular allows foreign-invested enterprises to settle up to 100.0 per cent. (subject to future adjustment at discretion of SAFE) of the foreign currency capital (which has been processed through the SAFE’s equity interest confirmation procedure for capital contribution in cash or registered by a bank on the SAFE’s system for account-crediting for such capital contribution) into Renminbi according to their actual operational needs on a voluntary basis. In principle, the Renminbi proceeds through the aforementioned voluntary settlement shall be deposited into designated bank account called capital account item — account for foreign currency settlement pending payment (資本項目-結匯待支付帳戶) (the “**Account for Foreign Currency Settlement Pending Payment**”) as opened by such foreign-invested enterprise, and accordingly all future payments shall be processed from such Account for Foreign Currency Settlement Pending Payment. A negative list with respect to the usage of the foreign currency capital and the Renminbi proceeds settled therefrom is set forth under the 2015 SAFE Circular. In particular, a foreign-invested enterprise with investment as its main business (including the foreign-invested investment company (外商投資性公司), foreign-invested venture capital enterprise (外商投資創業投資企業) or foreign-invested private equity investment enterprise (外商投資股權投資企業)) is permitted to use the Renminbi proceeds settled from its foreign currency capital (whether directly settled, or from the Renminbi deposit in its Account for Foreign Currency Settlement Pending Payment as previously settled through voluntary settlement) to make equity contribution to its invested enterprises directly, without further filings with SAFE.

According to the 2013 PBOC Circular, PRC entities may also denominate security or guarantee arrangements in Renminbi and make payments thereunder to parties in the PRC as well as other jurisdictions (which is referred to as “cross-border security”).

According to the Circular on Further Promoting the Facilitation of Cross-border Trade and Investment (關於進一步促進跨境貿易投資便利化的通知), apart from the foreign-invested enterprise with investment as its main business, other foreign-invested enterprise are allowed to make equity investment with their capital funds remitted in China in compliance with special administrative measures for foreign investment and the projects invested thereby are true and legitimate. In the pilot region, non-financial enterprises are not required to register each transaction of foreign debt; non-financial enterprises may register foreign debt with local foreign exchange authorities as much as two times of their net assets and borrow foreign debt within the limit.

TAXATION

The following summary of certain tax consequences of the purchase, ownership and disposition of the Bonds is based upon applicable laws, regulations, rulings and decisions in effect as at the date of this Offering Circular, all of which are subject to change (possibly with retroactive effect). This discussion does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Bonds and does not purport to deal with consequences applicable to all categories of investors, some of which may be subject to special rules. Neither these statements nor any other statements in this Offering Circular are to be regarded as advice on the tax position of any holder of the Bonds or any persons acquiring, selling or otherwise dealing in the Bonds or on any tax implications arising from the acquisition, sale or other dealings in respect of the Bonds. Persons considering the purchase of the Bonds should consult their own tax advisers concerning the possible tax consequences of buying, holding or selling any Bonds under the laws of their country of citizenship, residence or domicile.

PRC TAXATION

The following summary accurately describes the principal PRC tax consequences of ownership of the Bonds by beneficial owners who, or which, are not residents of PRC for the PRC tax purposes. These beneficial owners are referred to as non-resident Bondholders in this “PRC Taxation” section. In considering whether to invest in the Bonds, investors should consult their individual tax advisers with regard to the application of PRC tax laws to their particular situations as well as any tax consequences arising under the laws of any other tax jurisdiction. Reference is made to PRC taxes from the taxable year beginning on or after 1 January 2008.

Pursuant to the EIT Law effective on 1 January 2008 and last amended on 29 December 2018 and the Individual Income Tax Law of the PRC effective on 10 September 1980 and last amended on 31 August 2018 (“**IIT Law**”), and their implementation rules respectively, an income tax is imposed on the interests by way of withholding in respect of the Bonds, paid by the Issuer (if such interests are regarded as income derived from sources within the PRC under the EIT Law or the IIT Law (as the case may be)) to non-resident Bondholders, including non-resident enterprises and non-resident individuals. The current rates of such income tax are 20 per cent. (for non-resident individuals) and 10 per cent. (for non-resident enterprises) of the gross amount of the interest. However, the tax so charged on interests paid on the Bonds to non-resident Bondholders who or which are residents of Hong Kong (including enterprise holders and individual holders) as defined under the Arrangement between mainland China and Hong Kong for Purpose of the Avoidance of Double Taxation will be 7 per cent. of the gross amount of the interest pursuant to the arrangement between mainland China and Hong Kong and relevant interpretation of the arrangement formulated by the SAT.

Under the EIT Law and its implementation rules, enterprises established outside the PRC whose “de facto management bodies” are located in China are considered as “resident enterprises” for PRC tax purposes. The implementation rules define the term “de facto management body” as a management body that exercises full and substantial control and management over the business, personnel, accounts and properties of an enterprise. A circular issued by the SAT on 22 April 2009, Circular of the State Administration of Taxation on Issues Concerning the Identification of Chinese-Controlled Overseas Registered Enterprises as Resident Enterprises, in Accordance with the Actual Standards of Organisation Management (《國家稅務總局關於境外注冊中資控股 企業依據實際管理機構標準認定為居民企業有關問題的通知》) (“**Circular 82**”), provides that a foreign enterprise controlled by a PRC enterprise or a PRC enterprise group will be treated as a “resident enterprise” with a “de facto management body” located within China if all of the following requirements are satisfied at the same time: (i) the senior management and core management departments in charge of daily operations are located mainly within China; (ii) financial and human resources decisions are subject to determination or approval by persons or bodies in China; (iii) major assets, accounting books, company seals and minutes and files of board and shareholders’ meetings are located or kept within China; and (iv) at least half of the enterprise’s directors with voting rights or senior management frequently reside

within China. On 27 July 2011, the SAT issued Administrative Measures for Income Tax on Chinese-controlled Resident Enterprises Incorporated Overseas (Trial Implementation) (《境外注册中资控股居民企业所得税管理办法(试行)》) (“**Circular 45**”), to further prescribe the rules concerning the recognition, administration and taxation of a foreign enterprise “controlled by a PRC enterprise or PRC enterprise group”. Circular 45 provides two ways for a foreign enterprise “controlled by a PRC enterprise or a PRC enterprise group” to be treated as a resident enterprise. First, the foreign enterprise may decide on its own whether its de facto management body is located in China based on the criteria set forth in Circular 82, and, if it makes such determination, it shall apply to the competent tax bureau to be treated as a resident enterprise. Second, the tax authority may determine that the foreign enterprise is a resident enterprise after its active investigation. As at the date of this Offering Circular, the Issuer has not been notified or informed by the PRC tax authorities that it is considered as a PRC tax resident enterprise for the purpose of the EIT Law. If the Issuer is deemed to be a PRC resident enterprise for EIT purposes, the Issuer would be subject to the PRC enterprise income tax at the rate of 25 per cent. on its worldwide taxable income. Furthermore, the Issuer may be obligated to withhold the PRC income tax of up to seven per cent. on payments of interest and certain other amounts on the Bonds to investors that are Hong Kong resident enterprises or 10 per cent. on payments of interest and other amounts on the Bonds to investors that are “non-resident enterprises” as defined under the EIT Law or 20 per cent. for non-resident individuals, who are also not Hong Kong resident enterprises, provided that there are no tax treaties between China and those countries which exempt or reduce such withholding tax, because the interest and other amounts may be regarded as being derived from sources within the PRC.

Under the EIT Law and its implementation rules, any gains realised on the transfer of the Bonds by holders who are deemed under the EIT Law as non-resident enterprises may be subject to PRC enterprise income tax if such gains are regarded as incomes derived from sources within the PRC. Under the EIT Law, a “non-resident enterprise” means an enterprise established under the laws of a jurisdiction other than the PRC and whose actual administrative organisation is not in the PRC, which has established offices or premises in the PRC, or which has not established any offices or premises in the PRC but has obtained incomes derived from sources within the PRC. In addition, there is uncertainty as to whether gains realised on the transfer of the Bonds by individual holders who are not PRC citizens or residents will be subject to PRC individual income tax under the IIT Law and its implementation rules. If such gains are subject to PRC income tax, the 10 per cent. enterprise income tax rate and 20 per cent. individual income tax rate will apply respectively unless there is an applicable tax treaty or arrangement that reduces or exempts such income tax. The taxable income will be the balance of the total income obtained from the transfer of the Bonds minus all costs and expenses that are permitted under PRC tax laws to be deducted from the income. According to an arrangement between the PRC and Hong Kong for avoidance of double taxation, Bondholders who are Hong Kong residents, including both enterprise holders and individual holders, will be exempted from PRC income tax on capital gains derived from a sale or exchange of the Bonds.

On 23 March 2016, the MOF and the SAT issued Circular 36, which introduced a new VAT from 1 May 2016. Under Circular 36, VAT is applicable where the entities or individuals provide services within the PRC. The operating income generated from the provision of taxable sale of services by entities and individuals, such as financial services, shall be subject to PRC VAT if the seller or buyer of the services is within PRC. In the event that foreign entities or individuals do not have a business establishment in the PRC, the purchaser of services shall act as the withholding agent. According to the Explanatory Notes to Sale of Services, Intangible Assets and Real Property attached to Circular 36, financial services refer to the business activities of financial and insurance operation, including loan processing services, financial services of direct charges, insurance services and the transfer of financial instruments, and the VAT rate is 6 per cent. Circular 36 further clarified that “loan processing” refers to the activity of lending capital for another’s use and receiving the interest income thereon, therefore based on such an interpretation of “loan processing” under the Circular 36, the issuance of Bonds may be treated as the Bondholders providing loans to the Issuer or the Guarantor, which thus shall be regarded as the provision of financial services. Accordingly, the interest and other interest like earnings received by a non-PRC resident Bondholder from the Issuer will be subject to

PRC VAT at the rate of 6 per cent. The Issuer will be obligated to withhold VAT of 6 per cent. for payments of interest and certain other amounts on the Bonds paid by the Issuer to Bondholders that are non-resident enterprises or individuals. And as the withholding agent, the Issuer shall calculate the withholding tax according to the following formula: withholding tax = price paid by the purchaser ÷ (1 + tax rate) × tax rate. However, there is uncertainty as to whether gains derived from a sale or exchange of Bonds consummated outside of the PRC between non-PRC resident Bondholders will be subject to PRC VAT. VAT is unlikely to be applicable to any transfer of Bonds between entities or individuals located outside of the PRC and therefore unlikely to be applicable to gains realised upon such transfers of Bonds, but there is uncertainty as to the applicability of VAT if either the seller or buyer of Bonds is located inside the PRC. Circular 36 together with other laws and regulations pertaining to VAT are relatively new, the interpretation and enforcement of such laws and regulations involve uncertainties.

The Issuer has agreed to pay additional amounts to holders of the Bonds so that holders of the Bonds would receive the full amount of the scheduled payment, as further set out in “*Terms and Conditions of the Bonds*”. If the Guarantor makes any payments in respect of interest on the Bonds under the Deed of Guarantee, the Guarantor will be obliged to withhold PRC enterprise income tax at the rate of up to 10 per cent. on such payments to non-PRC resident enterprise Bondholders as such payments will be regarded as being derived from sources within the PRC. The Guarantor will pay additional amounts to holders of the Bonds so that holders of the Bonds would receive the full amount of the scheduled payments of interest, as further set out in the “*Terms and Conditions of the Bonds*”.

No PRC stamp duty will be imposed on non-resident Bondholders either upon issuance of the Bonds or upon a subsequent transfer of Bonds.

BRITISH VIRGIN ISLANDS TAXATION

The Issuer is exempt from all provisions of the Income Tax Ordinance of the British Virgin Islands.

Payments of principal, premium or interest in respect of the Bonds to persons who are not resident in the British Virgin Islands are not subject to British Virgin Islands tax or withholding tax.

Capital gains realised with respect to the Bonds by persons who are not persons resident in the British Virgin Islands are also exempt from all provisions of the Income Tax Ordinance of the British Virgin Islands.

No estate, inheritance, succession or gift tax, rate, duty, levy or other charge is payable by persons who are not resident in the British Virgin Islands with respect to the Bonds.

All instruments relating to transactions in respect of the Bonds are exempt from payment of stamp duty in the British Virgin Islands. This assumes that the Issuer do not hold an interest in real estate in the British Virgin Islands.

HONG KONG TAXATION

Withholding tax

No withholding tax is payable in Hong Kong in respect of payments of principal or interest on the Bonds or in respect of any capital gains arising from the sale of the Bonds.

Profits tax

Hong Kong profits tax is chargeable on every person carrying on a trade, profession or business in Hong Kong in respect of profits arising in or derived from Hong Kong from such trade, profession or business (excluding profits arising from the sale of capital assets).

Interest on the Bonds may be deemed to be profits arising in or derived from Hong Kong from a trade, profession or business carried on in Hong Kong in the following circumstances:

- (a) Interest on the Bonds is derived from Hong Kong and is received by or accrues to a corporation carrying on a trade, profession or business in Hong Kong;
- (b) Interest on the Bonds is derived from Hong Kong and is received by or accrues to a person other than a corporation, carrying on a trade, profession or business in Hong Kong and is in respect of the funds of that trade, profession or business;
- (c) Interest on the Bonds is received by or accrues to a financial institution (as defined in the Inland Revenue Ordinance (Cap. 112) of Hong Kong (the “**IRO**”)) and arises through or from the carrying on by the financial institution of its business in Hong Kong; or
- (d) Interest on the Bonds is received by or accrues to a corporation, other than a financial institution, and arises through or from the carrying on in Hong Kong by the corporation of its intra-group financing business (within the meaning of section 16(3) of the IRO).

Sums received by or accrued to a financial institution by way of gains or profits arising through or from the carrying on by the financial institution of its business in Hong Kong from the sale, disposal and redemption of the Bonds will be subject to Hong Kong profits tax. Sums received by or accrued to a corporation, other than a financial institution, by way of gains or profits arising through or from the carrying on in Hong Kong by the corporation of its intra-group financing business (within the meaning of section 16(3) of the IRO) from the sale, disposal or other redemption of Bonds will be subject to Hong Kong profits tax.

Sums derived from the sale, disposal or redemption of the Bonds will be subject to Hong Kong profits tax where received by or accrued to a person, other than a financial institution, who carries on a trade, profession or business in Hong Kong and the sum has a Hong Kong source unless otherwise exempted. The source of such sums will generally be determined by having regard to the manner in which the Bonds are acquired and disposed of.

In addition, with effect from 1 January 2024, pursuant to various foreign-sourced income exemption legislation in Hong Kong (the “**FSIE Amendments**”), certain specified foreign-sourced income (including interest, dividend, disposal gain or intellectual property income, in each case, arising in or derived from a territory outside Hong Kong) accrued to an MNE entity (as defined in the FSIE Amendments) carrying on a trade, profession or business in Hong Kong is regarded as arising in or derived from Hong Kong and subject to Hong Kong profits tax when it is received in Hong Kong. The FSIE Amendments also provide for relief against double taxation in respect of certain foreign-sourced income and transitional matters.

In certain circumstances, Hong Kong profits tax exemptions (such as concessionary tax rates) may be available. Investors are advised to consult their own tax advisers to ascertain the applicability of any exemptions to their individual position.

Stamp duty

No Hong Kong stamp duty will be chargeable upon the issue or transfer of a Bond.

SUBSCRIPTION AND SALE

The Issuer and the Guarantor have entered into a subscription agreement with the Joint Lead Managers dated 12 June 2025 (the “**Subscription Agreement**”) pursuant to which and subject to certain conditions contained in the Subscription Agreement, the Issuer has agreed to sell to the Joint Lead Managers, and the Joint Lead Managers have agreed to severally and not jointly, subscribe and pay for, or to procure subscribers to subscribe and pay for, the aggregate principal amount of the Bonds set forth opposite its name below:

Joint Lead Managers	Principal amount of the Bonds to be Subscribed
	<i>(U.S.\$)</i>
DBS Bank Ltd.	110,000,000
Bank of China Limited, Singapore Branch	110,000,000
China International Capital Corporation Hong Kong Securities Limited	110,000,000
CLSA Limited	110,000,000
China Everbright Bank Co., Ltd., Hong Kong Branch	10,000,000
China Minsheng Banking Corp., Ltd. Hong Kong Branch	10,000,000
Guotai Junan Securities (Hong Kong) Limited	10,000,000
Hua Xia Bank Co., Limited Hong Kong Branch	10,000,000
Industrial Bank Co., Ltd. Hong Kong Branch	10,000,000
Luso International Banking Ltd.	10,000,000
Total	<u>500,000,000</u>

The Subscription Agreement provides that the Issuer and the Guarantor will jointly and severally indemnify the Joint Lead Managers and their affiliates against certain liabilities in connection with the offer and sale of the Bonds. The Subscription Agreement provides that the obligations of the Joint Lead Managers are subject to certain conditions precedent and entitles the Joint Lead Managers to terminate it in certain circumstances prior to payment being made to the Issuer.

In connection with the issue of the Bonds, each of the Joint Global Coordinators (the “**Stabilisation Coordinator**”) or any person acting on behalf of the Stabilisation Coordinator may, to the extent permitted by applicable laws and directives, over-allot the Bonds or effect transactions with a view to supporting the price of the Bonds at a level higher than that which might otherwise prevail, but in so doing, the Stabilisation Coordinator or any person acting on behalf of the Stabilisation Coordinator shall act as principal and not as agent of the Issuer or the Guarantor. However, there is no assurance that the Stabilisation Coordinator or any person acting on behalf of the Stabilisation Coordinator will undertake Stabilisation action. Any loss or profit sustained as a consequence of any such overallotment or stabilisation shall be for the account of the Joint Lead Managers.

The Joint Lead Managers and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities (“**Banking Services or Transactions**”). The Joint Lead Managers and their respective affiliates may have, from time to time, performed, and may in the future perform, various Banking Services or Transactions with the Issuer and the Guarantor for which they have received, or will receive, fees and expenses.

In connection with the offering of the Bonds, the Joint Lead Managers and/or their respective affiliates, or affiliates of the Issuer or the Guarantor, may act as investors and place orders, receive allocations and trade the Bonds for their own account and such orders, allocations or trade of the Bonds may be material. Such entities may hold or sell such Bonds or purchase further Bonds for their

own account in the secondary market or deal in any other securities of the Issuer or the Guarantor, and therefore, they may offer or sell the Bonds or other securities otherwise than in connection with the offering of the Bonds. Accordingly, references herein to the offering of the Bonds should be read as including any offering of the Bonds to the Joint Lead Managers and/or their respective affiliates, or affiliates of the Issuer or the Guarantor as investors for their own account. Such entities are not expected to disclose such transactions or the extent of any such investment, otherwise than in accordance with any applicable legal or regulatory requirements. If such transaction occurs, the trading price and liquidity of the Bonds may be impacted. The Issuer, the Guarantor and the Joint Lead Managers are under no obligation to disclose the extent of the distribution of the Bonds amongst individual investors.

Furthermore, it is possible that a significant proportion of the Bonds may be initially allocated to, and subsequently held by, a limited number of investors. If this is the case, the trading price and liquidity of trading in the Bonds may be constrained. The Issuer, the Guarantor and the Joint Lead Managers are under no obligation to disclose the extent of the distribution of the Bonds amongst individual investors, otherwise than in accordance with any applicable legal or regulatory requirements.

In the ordinary course of their various business activities, the Joint Lead Managers and their respective affiliates make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the Issuer and/or the Guarantor, including the Bonds and could adversely affect the trading price and liquidity of the Bonds. The Joint Lead Managers and their affiliates may make investment recommendations and/or publish or express independent research views (positive or negative) in respect of the Bonds or other financial instruments of the Issuer or the Guarantor, and may recommend to their clients that they acquire long and/or short positions in the Bonds or other financial instruments of the Issuer or the Guarantor.

Notice to capital market intermediaries and prospective investors pursuant to paragraph 21 of the Hong Kong SFC Code of Conduct - Important Notice to CMIs (including private banks): This notice to CMIs (including private banks) is a summary of certain obligations the SFC Code imposes on CMIs, which require the attention and cooperation of other CMIs (including private banks). Certain CMIs may also be acting as OCs for this offering and are subject to additional requirements under the SFC Code.

Prospective investors who are the directors, employees or major shareholders of the Issuer, the Guarantor, a CMI or its group companies would be considered under the SFC Code as having an Association with the Issuer, the Guarantor, the CMI or the relevant group company. CMIs should specifically disclose whether their investor clients have any Association when submitting orders for the Bonds. In addition, private banks should take all reasonable steps to identify whether their investor clients may have any Associations with the Issuer, the Guarantor or any CMI (including its group companies) and inform the Joint Lead Managers accordingly.

CMIs are informed that the marketing and investor targeting strategy for this offering includes institutional investors, sovereign wealth funds, pension funds, hedge funds, family offices and high net worth individuals, in each case, subject to the selling restrictions set out elsewhere in this Offering Circular.

CMIs should ensure that orders placed are bona fide, are not inflated and do not constitute duplicated orders (i.e. two or more corresponding or identical orders placed via two or more CMIs). CMIs should enquire with their investor clients regarding any orders which appear unusual or irregular. CMIs should disclose the identities of all investors when submitting orders for the Bonds (except for

omnibus orders where underlying investor information should be provided to any OCs when submitting orders). Failure to provide underlying investor information for omnibus orders, where required to do so, may result in that order being rejected. CMIs should not place “X-orders” into the order book.

CMIs should segregate and clearly identify their own proprietary orders (and those of their group companies, including private banks as the case may be) in the order book and book messages.

CMIs (including private banks) should not offer any rebates to prospective investors or pass on any rebates provided by the Issuer or the Guarantor. In addition, CMIs (including private banks) should not enter into arrangements which may result in prospective investors paying different prices for the Bonds.

The SFC Code requires that a CMI disclose complete and accurate information in a timely manner on the status of the order book and other relevant information it receives to targeted investors for them to make an informed decision. In order to do this, those Joint Lead Managers in control of the order book should consider disclosing order book updates to all CMIs.

When placing an order for the Bonds, private banks should disclose, at the same time, if such order is placed other than on a “principal” basis (whereby it is deploying its own balance sheet for onward selling to investors). Private banks that do not provide such disclosure are hereby deemed to be placing their order on such a “principal” basis. Otherwise, such order may be considered to be an omnibus order pursuant to the SFC Code. Private Banks should be aware that placing an order on a “principal” basis may require the Joint Lead Managers to apply the “proprietary orders” requirements of the SFC Code to such order.

In relation to omnibus orders, when submitting such orders, CMIs (including private banks) that are subject to the SFC Code should disclose underlying investor information in respect of each order constituting the relevant omnibus order (failure to provide such information may result in that order being rejected). Underlying investor information in relation to omnibus orders should consist of:

- the name of each underlying investor;
- a unique identification number for each investor;
- whether an underlying investor has any “Associations” (as used in the SFC Code);
- whether any underlying investor order is a “Proprietary Order” (as used in the SFC Code);
- whether any underlying investor order is a duplicate order.

Underlying investor information in relation to omnibus order should be sent to:

DCMOmnibus@db.com; dcmsg@bankofchina.com; IB_Project_GoldenCoiniii@cicc.com.cn; ib.dcm.southchina@clsa.com

To the extent information being disclosed by CMIs and investors is personal and/or confidential in nature, CMIs (including private banks) agree and warrant: (A) to take appropriate steps to safeguard the transmission of such information to the OCs; (B) that they have obtained the necessary consents from the underlying investors to disclose such information to the OCs. By submitting an order and providing such information to the OCs, each CMI (including private bank) further warrants that they and the underlying investors have understood and consented to the collection, disclosure, use and transfer of such information by any OCs and/or any other third parties as may be required by the SFC Code, including to the Issuer, the Guarantor, relevant regulators and/or any other third parties as may be required by the SFC Code, for the purpose of complying with the SFC Code, during the bookbuilding process for this offering. CMIs that receive such underlying investor information are reminded that such information should be used only for submitting orders in this offering. The Joint

Lead Managers may be asked to demonstrate compliance with their obligations under the SFC Code, and may request other CMIs (including private banks) to provide evidence showing compliance with the obligations above (in particular, that the necessary consents have been obtained). In such event, other CMIs (including private banks) are required to provide the relevant Joint Lead Manager(s) with such evidence within the timeline requested.

GENERAL

The distribution of this Offering Circular or any offering material and the offering, sale or delivery of the Bonds is restricted by law in certain jurisdictions. Therefore, persons who may come into possession of this Offering Circular or any offering material are advised to consult their own legal advisers as to what restrictions may be applicable to them and to observe such restrictions. This Offering Circular may not be used for the purpose of an offer or invitation in any circumstances in which such offer or invitation is not authorised.

No action has been or will be taken in any jurisdiction by the Issuer, the Guarantor or the Joint Lead Managers that would permit a public offering, or any other offering under circumstances not permitted by applicable law, of the Bonds, or possession or distribution of this Offering Circular, any amendment or supplement thereto issued in connection with the proposed resale of the Bonds or any other offering or publicity material relating to the Bonds, in any country or jurisdiction where action for that purpose is required. Accordingly, the Bonds may not be offered or sold, directly or indirectly, and neither this Offering Circular nor any other offering material or advertisements in connection with the Bonds may be distributed or published, by the Issuer, the Guarantor or the Joint Lead Managers, in or from any country or jurisdiction, except in circumstances which will result in compliance with all applicable rules and regulations of any such country or jurisdiction and will not impose any obligations on the Issuer, the Guarantor or the Joint Lead Managers.

If a jurisdiction requires that the offering be made by a licensed broker or dealer and any Joint Lead Manager or any affiliate of a Joint Lead Manager is a licenced broker or dealer in that jurisdiction, the offering shall be deemed to be made by that Joint Lead Manager or such affiliate on behalf of the Issuer and the Guarantor in such jurisdiction.

UNITED STATES

The Bonds and the Guarantee have not been and will not be registered under the Securities Act and, subject to certain exceptions, may not be offered or sold within the United States.

The Bonds and the Guarantee are being offered and sold outside of the United States in reliance on Regulation S under the Securities Act.

Each Joint Lead Manager has represented, warranted and agreed that it has not offered or sold, and agrees that it will not offer or sell, any of the Bonds or the Guarantee constituting part of its allotment within the United States except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to the Bonds or the Guarantee. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Each Joint Lead Manager has represented, warranted and agreed that neither it nor any of their respective affiliates (as defined in Rule 501(b) of Regulation D under the Securities Act (“**Regulation D**”)), nor any person acting on its or their behalf has engaged or will engage in any form of general solicitation or general advertising (within the meaning of Regulation D) in connection with any offer and sale of the Bonds and the Guarantee in the United States.

UNITED KINGDOM

Each Joint Lead Manager has represented, warranted and agreed that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 (the “**FSMA**”)) received by it in connection with the issue or sale of any Bonds in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer or the Guarantor; and
- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Bonds in, from or otherwise involving the United Kingdom.

HONG KONG

Each Joint Lead Manager has represented and agreed that:

- (a) it has not offered or sold and will not offer or sell in Hong Kong, by means of any document, any Bonds other than (i) to “professional investors” as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong (the “**SFO**”) and any rules made under the SFO; or (ii) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong (the “**C(WUMP)O**”) or which do not constitute an offer to the public within the meaning of the C(WUMP)O; and
- (b) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Bonds, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to the Bonds which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made under the SFO.

SINGAPORE

Each Joint Lead Manager has acknowledged that this Offering Circular has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, each Joint Lead Manager has represented and agreed that it has not offered or sold any Bonds or caused the Bonds to be made the subject of an invitation for subscription or purchase and will not offer or sell any Bonds or cause the Bonds to be made the subject of an invitation for subscription or purchase, and has not circulated or distributed, nor will it circulate or distribute, this Offering Circular or any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Bonds, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor (as defined in Section 4A of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the “**SFA**”)) pursuant to Section 274 of the SFA or (ii) to an accredited investor (as defined in Section 4A of the SFA) pursuant to and in accordance with the conditions specified in Section 275 of the SFA.

JAPAN

The Bonds have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended, the “**Financial Instruments and Exchange Act**”). Accordingly, each Joint Lead Manager has represented and agreed that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell any Bonds in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organised under the laws of Japan) or to others for re-offering or re-sale, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Act and other relevant laws and regulations of Japan.

THE PEOPLE’S REPUBLIC OF CHINA

Each Joint Lead Manager has represented and agreed that the Bonds are not being offered or sold and may not be offered or sold, directly or indirectly, in the People’s Republic of China (for such purposes, not including the Hong Kong and Macau Special Administrative Regions or Taiwan), except as permitted by applicable laws of the People’s Republic of China.

BRITISH VIRGIN ISLANDS

Each Joint Lead Manager has represented, warranted and agreed that no invitation has been made or will be made, directly or indirectly, to any person in the British Virgin Islands or to the public in the British Virgin Islands to purchase the Bonds and the Bonds are not being offered or sold and may not be offered or sold, directly or indirectly, in the British Virgin Islands, except as otherwise permitted by the British Virgin Islands laws.

This Offering Circular does not constitute, and there will not be, an offering of the Bonds to any person in the British Virgin Islands.

DESCRIPTION OF CERTAIN DIFFERENCES BETWEEN PRC GAAP AND IFRS

The consolidated financial statements of the Group included in this Offering Circular have been prepared and presented in accordance with PRC GAAP. PRC GAAP are substantially in line with IFRS, except for certain modifications that still exist between PRC GAAP and IFRS, which might be relevant to the financial information of the Group included herein.

The following is a general summary of certain differences between PRC GAAP and IFRS as applicable to the Group. The differences identified below are limited to those significant differences that are appropriate to the Group's financial statements. The Group is responsible for preparing the summary below. Since the summary is not meant to be exhaustive, there can be no assurance regarding the completeness of the summary. The Group has not prepared a complete reconciliation of the consolidated financial information and related footnote disclosure between PRC GAAP and IFRS and has not quantified such differences. Had any such quantification or reconciliation been undertaken by the Group, other potentially significant accounting and disclosure differences may be required that are not identified below. Additionally, no attempt has been made to identify possible future differences between PRC GAAP and IFRS as a result of prescribed changes in accounting standard. Regulatory bodies that promulgate PRC GAAP and IFRS have significant projects ongoing that could affect future comparisons such as this one. Finally, no attempt has been made to identify future differences between PRC GAAP and IFRS that may affect the financial information as a result of transactions or events that may occur in the future. Accordingly, no assurance is provided that the following summary of differences between PRC GAAP and IFRS is complete.

In making an investment decision, investors must rely upon their own examination of the Group, the terms of the offering and other disclosure contained herein. Investors should consult their own professional advisers for an understanding of the differences between PRC GAAP and IFRS and/or between PRC GAAP and other generally accepted accounting principles, and how those differences might affect the financial information contained herein.

PROVISION FOR FUTURE DEVELOPMENT FUND AND WORK SAFETY COST

Under PRC GAAP, in accordance with relevant regulations of the Chinese authorities, the Group has to accrue special reserves such as future development funds and work safety cost, which are presented as cost of expenses of the period and the amount that has been accrued, are presented in special reserve of owner's equity. Work safety cost, which belongs to cost of expenses, directly offset the special reserves. The accrued work safety reserve, which is used by enterprises and used to form fixed assets, shall be charged as "construction in progress", and recognised as a fixed asset upon the project being completed and reaching the expected operational standard. Meanwhile, the special reserves are offset in accordance with the cost of fixed asset formation, while the equivalent amount of accumulated depreciation is recorded. The fixed asset so formed shall cease to accrue depreciation in the following periods.

Pursuant to the IFRS, these expenditures should be recognised when incurred. Relevant capital expenditures are recognised as part of cost of non-current assets when they are incurred and depreciated according to the respective depreciation policy. The differences between the above mentioned standards give rise to differences in deferred tax.

GOVERNMENT GRANT

Under PRC GAAP, an assets-related government grant is required to be presented in the statement of financial position by deducting the grant in arriving at the carrying amount of the asset. However, under IFRS, such assets-related government grants are allowed to be presented in the statement of financial position either by setting up the grant as deferred income or by deducting the grant in arriving at the carrying amount of the asset.

Under PRC GAAP, the relocation compensation for public interests is required to be recognised as special payables. The income from compensation attributable to losses of fixed assets and intangible assets, related expenses, losses from production suspension incurred during the relocation and reconstruction period and purchases of assets after the relocation shall be transferred from special payables to deferred income and accounted for in accordance with the government grants standard. The surplus reached after deducting the amount transferred to deferred income shall be recognised in capital reserve.

Under IFRS, if an entity relocates for reasons of public interests, the compensation received shall be recognised in profit and loss.

REVERSAL OF IMPAIRMENT LOSS

Under PRC GAAP, once an impairment loss is recognised for a long term asset (including fixed assets, intangible assets and goodwill, etc.), it shall not be reversed in any subsequent period.

Under IFRS, an impairment loss recognised in prior periods for an asset other than goodwill could be reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised.

RELATED PARTY DISCLOSURES

Under PRC GAAP, government-related entities are not treated as related parties. Under IFRS, government-related entities are still treated as related parties.

FIXED ASSETS AND INTANGIBLE ASSETS

Under PRC GAAP, only the cost model is allowed.

Under IFRS, an entity can choose either the cost model or the revaluation model as its accounting policy.

GENERAL INFORMATION

1. **Clearing Systems:** The Bonds have been accepted for clearance through Euroclear and Clearstream under Common Code 305926736 and ISIN XS3059267362. The Legal Entity Identifier of the Issuer is 3003009ZQDYGEQ6JXB25.
2. **Authorisations:** The Issuer has obtained all necessary consents, approvals and authorisations in connection with the issue and performance of its obligations under the Bonds, the Trust Deed and the Agency Agreement. The issue of the Bonds was authorised by written resolutions of the sole director of the Issuer on 3 June 2025. The Guarantor has obtained all necessary consents, approvals and authorisations in connection with the giving and performance of its obligations under the Deed of Guarantee, the Trust Deed and the Agency Agreement. The giving of the Guarantee was authorised by a resolution of the board of directors of the Guarantor on 24 April 2024.
3. **No Material Adverse Change:** There has been no material adverse change, or any development or event likely to involve a prospective change, in the condition (financial or otherwise), prospects, properties, results of operations, business or general affairs of the Issuer, the Guarantor or the Group since 31 December 2024.
4. **Litigation:** Save as disclosed in this Offering Circular, none of the Issuer, the Guarantor or any other member of the Group is not involved in any litigation or arbitration proceedings that the Issuer or Guarantor believes are material in the context of the Bonds and the giving of the Guarantee, and so far as the Issuer and the Guarantor are aware, no such proceedings are pending or threatened.
5. **Available Documents:** So long as any of the Bonds is outstanding, copies of the following documents will be available for inspection from the Issue Date during usual business hours at the registered office of the Issuer and, in the case of last three documents mentioned below, upon prior written request and proof of holding and identity to the satisfaction of the Trustee, at the specified office of the Trustee (currently at 3/F, CCB Tower, 3 Connaught Road Central, Central, Hong Kong) at all reasonable times during normal business hours (being between 9:00 a.m. (Hong Kong time) and 3:00 p.m. (Hong Kong time) from Monday to Friday (other than a public holiday)):
 - the Guarantor's Consolidated Financial Statements;
 - the Trust Deed;
 - the Deed of Guarantee; and
 - the Agency Agreement.
6. **Financial Statements:** The Guarantor's Consolidated Financial Statements, which are included elsewhere in this Offering Circular, have been audited by ShineWing, the Guarantor's independent auditor, as stated in its report appearing herein.
7. **Listing:** Application will be made to the Hong Kong Stock Exchange for the listing of, and permission to deal in, the Bonds by way of debt issues to Professional Investors only and such permission is expected to become effective on or about 18 June 2025.

Independent Auditor's Report

XYZH/2025GZAA1B0598

Guangdong Hengjian Investment Holding Co., Ltd.

To the Board of Directors of Guangdong Hengjian Investment Holding Co., Ltd.:

I. Audit opinion

We have audited the financial statements prepared by Guangdong Hengjian Investment Holding Co., Ltd. (hereinafter referred to as "Hengjian Holding Company"), including the Consolidated and Parent Company's Balance Sheet as at December 31st, 2024, Consolidated and Parent Company's Income Statement, Consolidated and Parent Company's Cash Flow Statement, Consolidated and Parent Company's Statement of Changes in Owners' Equity and Notes to the Financial Statements for 2024.

We believe that the attached financial statements have been prepared in accordance with the Accounting Standards for Business Enterprises in all major aspects, and have fairly reflected the Consolidated and Parent Company's financial position of Hengjian Holding Company as at December 31st, 2024, and the Consolidated and Parent Company's operating results and cash flows of 2024.

II. Basis for the audit opinion

We have conducted our audits in accordance with the Chinese Standards on Auditing. The "Auditor's responsibility for the financial statements" section further clarifies our responsibilities under these guidelines. In accordance with the Code of Professional Ethics of Chinese Certified Public Accountants, we are independent of the Hengjian Holding Company and have fulfilled other responsibilities in terms of professional ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

III. Key audit matters

Key audit matters are those matters that, in our professional judgment, are considered to be most significant to the audit of the financial statements for the period. These matters were addressed in the context of our audit of the financial statements as a whole and, in forming our audit opinion thereon, and we do not express a separate opinion on these matters.

Independent Auditors' Report (Continued)

XYZH/2025GZAA1B0598

Guangdong Hengjian Investment Holding Co., Ltd.

Fair value of financial instruments	
Key audit matter	Audit response
<p>As described in Note VIII. 2, 14, and 15 to the financial statements, as of December 31st, 2024, the financial assets held for trading, investments in other equity instruments and other non-current financial assets of Hengjian Holding Company were RMB 10,861,811,776.67, RMB 25,037,053,418.12 and RMB 7,735,247,756.80 respectively.</p> <p>The inputs used for the valuation techniques applied to financial instruments are classified as Level 1 and Level 3. As the valuation of the Company's financial instruments is based on a combination of market data and valuation models, a high number of variables usually need to be entered. The majority of these inputs are derived from data available in liquid markets. Where observable market data is not available for Level 3 financial instruments, significant judgements and estimates are involved. Due to the significant amounts involved and given the level of complexity involved in assessing the value of a financial instrument and the degree of reliance on the judgement applied by the management in determining the inputs used in the valuation methodology, we have identified the valuation of financial instruments measured at fair value as a key audit matter.</p>	<p>The audit procedures we performed on the valuation of financial instruments measured at fair value include:</p> <ol style="list-style-type: none"> 1. Understand and assess the effectiveness of the internal control processes used by the management to identify, measure and manage risks associated with the valuation of financial instruments; 2. Assess the reasonableness of the models used in the valuation of the management's Level 3 financial instruments, based on our knowledge of industry practice; 3. For Level 1 of valuation, we independently obtained observable market information and compared it with the valuation prices used by the Company by means of an audit sample; 4. We have also assessed the reasonableness and appropriateness of a sample of unobservable and observable inputs used by the management in measuring the fair value of Level 3 financial instruments based on relevant market data; 5. We have recalculated part of the sample for Level 3 financial instruments.

IV. The responsibility of the management and those charged with governance for the financial statements

The management of Hengjian Holding Company (Hereinafter referred to as “the Management”) is responsible for the preparation of the financial statements in accordance with the provisions of the Accounting Standards for Business Enterprises to achieve a fair presentation, and designing, implementing and maintaining the necessary internal controls so that the financial statements are free from material misstatement, whether due to fraud

or error.

In preparing the financial statements, the Management is responsible for assessing Hengjian Holding Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate Hengjian Holding Company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing Hengjian Holding Company's financial reporting process.

V. Auditor's responsibility for the financial statements

Our objective is to achieve reasonable assurance that the financial statements are free from material misstatements, whether due to fraud or error, and to express an opinion on these financial statements based on our audit. Reasonable assurance is a high level of assurance, but it does not guarantee that an audit performed in accordance with the auditing standards can detect all existing material misstatements. Misstatement can be caused by fraud or error. Misstatements are generally considered to be material if the reasonably expected misstatements, individually or collectively, may affect the economic decisions made by stakeholders based on the financial statements.

As part of an audit in accordance with Chinese Auditing Standards for Certified Public Accountants, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, design and performs audit procedures responsive to those risks, and obtain sufficient and appropriate audit evidence as a basis for our audit opinion. As fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls, the risk of material misstatement due to fraud is more likely than for one resulting from errors.
2. Obtain an understanding of internal control relevant to the entity's audit in order to design audit procedures that are appropriate in the circumstances.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and relevant disclosures made by the Management.
4. Draw a conclusion on the appropriateness of the Management's use of the going concern assumption, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Hengjian

Holding Company's ability to continue as a going concern. If we conclude that material uncertainties exist, we are required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause Hengjian Holding Company to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the financial statements, and evaluate whether the financial statements represent the underlying transactions and events in a manner that achieve fair presentation.

Based on the financial information of Hengjian Holding Company, we obtained sufficient and appropriate audit evidence to express an audit opinion on the financial statement. We are responsible for guiding, supervising and implementing group audits, and are fully responsible for audit opinion.

We communicate with those charged with governance regarding, among other matters, the audit scope, timing, and significant audit findings, including any significant deficiencies in internal control that we have identified during the audit.

We also provide those charged with governance with a declaration that we have complied with the professional ethics requirements relating to our independence, and communicate with those charged with governance all relationships and other matters that may reasonably be deemed to affect our independence, as well as relevant precautions (if applicable).

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation prohibited public disclosure about the matter or when, in rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I. Background of the Company

1. Enterprise history, place of registration, organizational form, and headquarters address

Guangdong Hengjian Investment Holding Co., Ltd. (hereinafter referred to as "the Company", in the case of subsidiaries, "the Group") was established with the approval of the People's Government of Guangdong Province and is a wholly state-owned company where the State-owned Assets Supervision and Administration Commission of the Guangdong Provincial People's Government (hereinafter referred to as the "Provincial SASAC") performs the duties of a funder. The Company was founded on March 16th, 2006, with a registered capital of RMB 50 million at that time. After several rounds of capital increase in the past years, the registered capital of the Company is now RMB 24,717 million.

Unified social credit code: 91440000787926455P, company legal representative: Tang Jun, registered office: Room 386 of Room 406, No.1 Yichuang Street, Huangpu District (Zhong Xin Guangzhou Knowledge City), Guangzhou, China.

2. Business nature and principal operating activities of the enterprise

The Company belongs to the investment and asset management industry, and its business scope mainly includes operation and management of state-owned assets, operation and management of state-owned equity, trustee management, capital operation, fund investment and management, equity investment and management, financial investment, industrial research, and investment and consultancy business for the purpose of carrying out the above businesses.

3. Name of the parent company and the Group's headquarters

The controlling shareholder of the Company is the Guangdong Provincial SASAC, and the actual controller is the People's Government of Guangdong Province. The Company sets up major functional institutions and departments, including Party Building Department, Discipline Inspection and Supervision Office, Board of Directors' Office, Office, Audit Center, Human Resources Department, Financial Management Center, Operation Management Department, Risk Control and Legal Affairs Center, Investment Management Department, Capital Operation Department, Fund Management Department and Strategic Research Institute.

The Company has established the Board of Directors, which exercises management and control over significant decisions and the daily work of the Company.

4. Approval for presentation of the financial report

The Group's financial report was approved for presentation by the Board of Directors on April 27th, 2025.

II. Basis for the preparation of the financial statements

The Group's financial statements are prepared on a going concern basis, based on transactions and events that actually occurred, in accordance with the Accounting Standards for Business Enterprises issued by the Ministry of Finance and related regulations, and based on the accounting policies and estimates described in "Note IV. Significant accounting policies and accounting estimates".

III. Statement of compliance with Accounting Standards for Business Enterprises

The financial statements prepared by the Group comply with the requirements of enterprise accounting standards and give a true and complete picture of the Group's financial position, operating results, and cash flows.

IV. Significant accounting policies and accounting estimates

1. Accounting period

The Group's accounting period is from January 1st to December 31st of the calendar year.

2. Functional currency

The Group uses Renminbi ("RMB") as its functional currency. Subsidiaries, joint ventures, and associates of the Company determine their own functional currencies of record in accordance with the major economic environments in which they operate, and the currencies are translated into RMB, the Group's functional currency of record, for the purpose of preparing the consolidated statements.

3. Basis of bookkeeping and pricing principles

The Group's accounts are maintained on the accrual basis of accounting, with a pricing principle of historical cost, except for financial assets held for trading, investments in other equity instruments, other non-current financial assets, and financial liabilities held for trading, which are measured at fair value.

4. Business combinations

Business combinations are categorized into business combinations involving entities under common control and business combinations involving entities not under common control.

Assets and liabilities acquired by the Group as a consolidator in a business combination under common control are measured at the book value of the consolidated party in the consolidated statements of the ultimate controlling party at the date of the combination. The difference between the book value of net assets acquired and the book value of the

consideration paid for the combination is adjusted to capital reserves. If capital reserves are not sufficient to offset it, the retained earnings are adjusted.

The acquiree's identifiable assets, liabilities, and contingent liabilities acquired in a business combination not under common control are measured at fair value at the acquisition date. The cost of consolidation is the sum of the fair value of cash or non-cash assets, liabilities issued or assumed, equity securities issued, etc., paid by the Group at the date of purchase to acquire control over the acquiree and all directly related costs incurred in the business combination (for a business combination achieved in stages through multiple transactions, the cost of consolidation is the sum of the costs of each individual transaction). If the cost of consolidation is greater than the fair value of the share of the acquiree's identifiable net assets acquired in the combination, the difference is recognized as goodwill. If the cost of consolidation is less than the fair value of the share of the acquiree's identifiable net assets acquired in the combination, the fair value of each of the identifiable assets, liabilities and contingent liabilities acquired in the combination, as well as the fair value of the non-cash assets or equity securities issued in the consideration of the combination, are first reviewed; and after the review, if the cost of consolidation is still less than the fair value of the share of the acquiree's identifiable net assets acquired in the combination, the difference is recognized in non-operating income for the period of the combination.

5. Methodology for the preparation of the consolidated financial statements

(1) Principles for determining the scope of consolidation

The Group includes all controlled subsidiaries and structured entities within the scope of the consolidated financial statements.

(2) Principles, procedures and methodology for the preparation of consolidated financial statements

If, in preparing the consolidated financial statements, the subsidiaries do not conform to the accounting policies or accounting periods adopted by the Company, the subsidiaries' financial statements are adjusted as necessary in accordance with the Company's accounting policies or accounting periods.

All significant internal transactions, balances, and unrealized gains within the scope of the consolidation are eliminated in the preparation of the consolidated statements. The share of the ownership interest of a subsidiary that is not attributable to the parent company and the share of net profit or loss, other comprehensive income and total comprehensive income attributable to non-controlling interests for the current period are shown in the consolidated financial statements under the headings "Minority interests, gains or losses on non-controlling interests,

other comprehensive income attributable to non-controlling interests and total comprehensive income attributable to non-controlling interests".

For subsidiaries acquired through business combinations under common control, the results of operations and cash flows are included in the consolidated financial statements from the beginning of the period in which they are consolidated. In preparing the comparative consolidated financial statements, adjustments are made to the relevant items in the prior year's financial statements, and the reporting entity resulting from the consolidation is considered to have existed from the point at which the ultimate controlling party commenced control.

Equity interest of the investee under common control acquired in stages through multiple transactions, which ultimately results in a business combination, is treated as if it had existed in its current state at the time when the ultimate controlling party began to exercise control and is adjusted in the preparation of the consolidated statements. When the comparative statements are prepared, the related assets and liabilities of the consolidated party are incorporated in the comparative statements of the Group's consolidated financial statements to the extent that they are no earlier than the point at which the Group and the consolidated party are both under the control of the ultimate controlling party, and the related items under owner's equity are adjusted in the comparative statements for the increase in net assets resulting from the combination. To avoid double-counting the value of the consolidated party's net assets, related profit or loss, other comprehensive income and other changes in net assets recognized for long-term equity investments held by the Group prior to the date of consolidation are offset against opening retained earnings and profit or loss for the comparative statement period from the later of the date of acquisition of the original equity interest and the date on which the Group and the consolidated party are under the ultimate control of the same party until the date of consolidation, respectively.

In the case of subsidiaries acquired through a business combination not under common control, the results of operations and cash flows are included in the consolidated financial statements from the date the Group acquires control. In preparing the consolidated financial statements, adjustments are made to the financial statements of subsidiaries based on the fair value of each identifiable asset, liability, and contingent liability as determined at the date of purchase.

For the equity interest of the investee not under common control acquired in stages through multiple transactions, which ultimately results in a business combination, the equity interest in the investee held prior to the date of purchase is remeasured to its fair value at the date of purchase and the difference between the fair value and its book value is recognized in

current investment income in preparing the consolidated statements; if the equity interest in the investee held prior to the date of purchase to which it relates involves other comprehensive income under the equity method of accounting and other changes in owner's equity other than net profit or loss, other comprehensive income and profit distributions, it is converted to investment income or loss in the current period at the date of purchase, except for other comprehensive income arising from the remeasurement of changes in net liabilities or net assets of the investee's defined benefit plan.

The Group partially disposes of its long-term equity investments in subsidiaries without losing control, and the difference between the disposal price and the share of the subsidiaries' net assets calculated continuously from the date of purchase or the date of consolidation corresponding to the long-term equity investments disposed of is adjusted to capital premium or equity premium in preparing the consolidated financial statements. Retained earnings are adjusted if the capital reserve is not enough to offset them.

If the Group loses control of the investee due to, for example, the disposal of a portion of its equity investment, the remaining equity interest is remeasured at its fair value at the date of loss of control in the preparation of the consolidated financial statements. The difference between the sum of the consideration received for the disposal of the equity interest and the fair value of the remaining equity interest, and the share of the original subsidiary's net assets calculated continuously according to the original shareholding ratio from the date of purchase or the date of consolidation, is included in the investment income or loss in the period in which control is lost, and goodwill is offset. Other comprehensive income related to equity investments in the original subsidiary is transferred to current investment income or loss upon loss of control.

If the Group's equity investment in a subsidiary is disposed of step by step through multiple transactions up to the loss of control, if each transaction that disposes of the equity investment in the subsidiary up to the loss of control is a package deal, each transaction is accounted for as a transaction that disposes of the subsidiary up to the loss of control; however, the difference between the price of each disposal prior to the loss of control and the share of the subsidiary's net assets corresponding to the investment disposed of is recognized as other comprehensive income in the consolidated financial statements and transferred to the investment income or loss for the period of loss of control when the control is lost.

6. Classification of joint arrangements and accounting treatment of joint operations

The Group's joint arrangements include joint operations and joint ventures. For the projects belonging to joint operations, the Group recognizes assets held and liabilities assumed on its own and assets held and liabilities assumed on a share basis as a joint operator in the joint operations, and recognizes the related revenues and expenses on its own or a share basis in

accordance with the relevant agreements. If a transaction such as purchases of assets from or sales of assets to a joint operation occurs and does not constitute a business, only the portion of the gain or loss arising from the transaction that is attributable to the other participants in the joint operation is recognized. A joint arrangement is an arrangement under the common control of two or more participants, divided into joint operations and joint ventures.

7. Criteria for determining cash and cash equivalents

Cash in the Group's cash flow statement represents cash on hand and deposits readily available for payment, while cash equivalents in the cash flow statement represent investments with a holding period of not more than three months, which are liquid, readily convertible into known amounts of cash and have little risk of changes in value.

8. Foreign currency operations and translation of foreign currency statements

(1) Foreign currency transactions

The Group's foreign currency transactions are translated into RMB amounts at the spot rate on the date of the transaction. At the balance sheet date, monetary items in foreign currencies are translated into RMB using the spot rate at the balance sheet date. The resulting translation differences are recognized directly in profit or loss, except for exchange differences arising from special foreign currency borrowings for the purchase or production of assets eligible for capitalization, which are treated on a capitalization basis.

(2) Translation of foreign currency financial statements

Assets and liabilities items on the foreign currency balance sheet are translated using the spot rate at the balance sheet date; items in the owners' equity category, except for "undistributed profits", are translated at the spot rate at the time of the operation; income and expense items in the income statement are translated using the average exchange rate of the year in which the transaction occurs. The translation differences of foreign currency statements arising from the above translation are shown in the item "Other comprehensive income" of owners' equity. Foreign currency cash flows are translated using the average exchange rate in the year in which the cash flows occur. The effect of exchange rate changes on cash is shown separately in the cash flow statement.

9. Recognition and measurement of financial instruments

A financial instrument is a contract that creates a financial asset of an enterprise and a financial liability or equity instrument of another entity.

(1) Financial assets

1) Classification, recognition, and measurement of financial assets

The Group's financial assets are classified at initial recognition based on its business model for managing the financial assets and contractual cash flow characteristics of the financial assets, into as follows: financial assets measured at amortized cost, financial assets at fair value through other comprehensive income, and financial assets at fair value through profit or loss. All related financial assets that are affected are reclassified when, and only when, the Group changes its business model for managing the financial assets.

Financial assets are initially recognized at fair value, except that accounts receivable or notes receivable arising from the sale of goods or provision of services, etc., which do not contain significant financing components or do not consider financing components of no more than one year, are initially measured at the transaction price.

For financial assets at fair value through profit or loss, the related transaction costs are recognized directly in the current profit or loss, while the related transaction costs of other categories of financial assets are included in their initial recognition amounts.

The Group classifies financial assets as financial assets measured at amortized cost if both of the following conditions are met: ① the business model for managing such financial assets is to collect contractual cash flows. ② the contractual terms of the financial assets provide that the cash flows arising on a specific date are solely payments of principal and interest on the principal amount outstanding. Interest income from such financial assets is recognized using the effective interest method, and gains or losses arising from derecognition, modification, or impairment are recognized in profit or loss for the current period. The Group's financial assets in this category mainly include accounts receivable, notes receivable, and other receivables.

The Group classifies financial assets as financial assets at fair value through other comprehensive income if both of the following conditions are met: ① the business model for managing the financial assets is to collect contractual cash flows and sell the financial assets. ② the contractual terms of the financial assets provide that the cash flows arising on a specific date are solely payments of principal and interest on the principal amount outstanding. Interest income from such financial assets is recognized using the effective interest method. Changes in fair value are recognized in other comprehensive income, other than interest income, impairment losses, and exchange differences, which are recognized in the current profit or loss. When a financial asset is derecognized, the cumulative gains or losses previously recognized in other comprehensive income shall be transferred from other comprehensive income to the current profit or loss.

Investments in equity instruments at fair value through other comprehensive income: the Group irrevocably elects to designate certain investments in non-trading equity instruments as financial assets at fair value through other comprehensive income and recognizes only the

related dividend income (except for dividend income that is explicitly recovered as the costs of the investments) in the current profit or loss, and subsequent changes in fair value are recognized in other comprehensive income without provisions for impairment. When a financial asset is derecognized, the cumulative gains or losses previously recognized in other comprehensive income shall be transferred from other comprehensive income to retained earnings.

For financial assets other than those classified as financial assets measured at amortized cost and those classified as financial assets at fair value through other comprehensive income as described above, the Group classifies them as financial assets at fair value through profit or loss. Such financial assets are subsequently measured at fair value, and all changes in fair value are recognized in the current profit or loss. The Group's financial assets in this category mainly include financial assets held for trading and other non-current financial assets.

If the contingent consideration recognized by the Group in a business combination not under common control constitutes a financial asset, the financial asset is classified as a financial asset at fair value through profit or loss.

2) Recognition and measurement of the transfer of financial assets

If substantially all the risks and rewards of ownership of a financial asset have been transferred by the Group to the transferee, the financial asset is derecognized. If substantially all the risks and rewards of ownership of the financial asset have been retained, the financial asset is not derecognized.

If the Group has neither transferred nor retained substantially all the risks and rewards of ownership of the financial asset, the treatment shall be as follows: ① where the control over the financial asset has been surrendered, the financial asset shall be derecognized and the resulting assets and liabilities shall be recognized; ② where the control over the financial asset has not been surrendered, the related financial asset shall be recognized to the extent of the continuing involvement in the transferred financial asset and the associated liability is recognized correspondingly.

Where the continuing involvement is in the form of a financial guarantee for the transferred financial asset, the asset resulting from the continuing involvement is recognized at the lower of the book value of the financial asset and the amount of the financial guarantee. The amount of the financial guarantee is the maximum amount of consideration received that will be required to be repaid.

If the transfer of a financial asset as a whole satisfies the conditions for derecognition, the difference between the book value of the transferred financial asset and the sum of the

consideration received for the transfer and the cumulative amount of changes in fair value previously recognized directly in other comprehensive income corresponding to the derecognized portion is recognized in the current profit or loss.

3) Impairment of financial instruments

a. Application scope

The Group accounts for the impairment of financial assets measured at amortized cost, investments in debt instruments at fair value through other comprehensive income, lease receivables, and contract assets, and recognizes a provision for losses on the basis of expected credit losses.

For receivables and contract assets that do not contain significant financing components, the Group applies a simplified measurement method and measures the provision for losses at an amount equal to the expected credit losses over the entire duration.

For lease receivables and receivables and contract assets with significant financing components, the Group elects to use the simplified measurement method and measures the provision for losses at an amount equal to the expected credit losses over the entire duration.

b. Methodology for determining expected credit losses and accounting treatment

For a financial asset, loan commitment, and financial guarantee contract other than those using the simplified measurement method as described above, the Group assesses at each balance sheet date whether its credit risk has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition and it is in the first stage, the Group measures the provision for losses at an amount equal to the expected credit losses over the next 12 months and calculates interest income based on the book balance and the effective interest rate. If the credit risk has increased significantly since initial recognition but no credit impairment has occurred, it is in the second stage, and the Group measures the provision for losses at an amount equal to the expected credit losses over the entire duration and calculates interest income based on the book balance and the effective interest rate. If credit impairment occurs after initial recognition, it is in the third stage, and the Group measures the provision for losses at an amount equal to the expected credit losses over the entire duration and calculates interest income based on the amortized cost and the effective interest rate. For financial instruments with only low credit risk at the balance sheet date, the Group assumes that the credit risk has not increased significantly since initial recognition.

The Group's approach to measuring expected credit losses on financial instruments reflects the elements including an unbiased and probability-weighted average amount that is

determined by evaluating a range of possible outcomes; the time value of money; and reasonable and well-founded information that is available without undue cost or effort at the balance sheet date about past events, current conditions and forecasts of future economic conditions.

When the Group no longer reasonably expects to recover all or part of the contractual cash flows from a financial asset, it directly writes down the book balance of the financial asset.

(2) Financial liabilities

1) Classification, recognition and measurement of financial liabilities

The Group's financial liabilities are classified on initial recognition as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost. For financial liabilities at fair value through profit or loss, the related transaction costs are recognized directly in the current profit or loss; and for financial liabilities measured at amortized cost, the related transaction costs are recognized in their initial recognition amounts.

If the contingent consideration recognized by the Group in a business combination not under common control creates a financial liability, it is accounted for at fair value through profit or loss.

The subsequent measurement of a financial liability depends on its classification:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss comprise financial liabilities held for trading (including derivatives that are financial liabilities) and financial liabilities designated as at fair value through profit or loss at initial recognition. Financial liabilities held for trading (including derivatives that are financial liabilities) are subsequently measured at fair value and all changes in fair value are recognized in the current profit or loss, except those relating to hedge accounting. Financial liabilities designated as at fair value through profit or loss are subsequently measured at fair value and changes in fair value are recognized in the current profit or loss, except for changes in fair value attributable to changes in the Group's own credit risk, which are recognized in other comprehensive income. If the recognition of changes in fair value attributable to changes in the Group's own credit risk in other comprehensive income would result in or magnify accounting mismatches in profit or loss, the Group recognizes all changes in fair value (including the amount of the effect of changes in the own credit risk) in the current profit or loss.

Financial liabilities measured at amortized cost

Such financial liabilities are subsequently measured at amortized cost using the effective interest method.

2) Derecognition of financial liabilities

A financial liability or the part thereof with the obligation discharged shall be derecognized if the present obligation of the financial liability has been discharged in whole or in part. If the Group and the creditor sign an agreement to replace the existing financial liabilities by assuming the new financial liabilities, and the contractual terms of the new financial liabilities and the existing financial liabilities are substantially different, the Group shall derecognize the existing financial liabilities and recognize the new financial liabilities at the same time. If the Group substantially modifies all or part of the contractual terms of the existing financial liabilities, the existing financial liabilities or a part thereof shall be derecognized, and at the same time, the financial liabilities under modified terms shall be recognized as a new financial liability. The difference between the book value of the derecognized portion and the consideration paid is recognized in the current profit or loss.

(3) Methodology for determining the fair values of financial assets and financial liabilities

Fair value is the price that a market participant would receive for selling an asset or pay for transferring a liability in an orderly transaction occurring at the measurement date.

The Group measures the fair values of financial assets and financial liabilities at the price in the principal market; in the absence of the principal market, the fair values of financial assets and financial liabilities are measured at the price in the most advantageous market, and the valuation techniques applicable at that time and supported by enough available data and other information are adopted. The inputs used in fair value measurement are divided into three levels, namely, Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that are available at the measurement date; Level 2 inputs are inputs other than Level 1 inputs that are observable for the related assets or liabilities, either directly or indirectly; and Level 3 inputs are unobservable inputs for the related assets or liabilities. The Group prioritizes the use of the Level 1 inputs and finally the Level 3 inputs. Level 1 inputs are used for financial assets held for trading, and either Level 1 or Level 3 inputs are used for other non-current financial assets and investments in other equity instruments. The level at which the fair value measurement result falls is determined by the lowest level at which the inputs that are significant to the overall fair value measurement fall.

At each balance sheet date, the Group reassesses the assets and liabilities measured at fair value on a recurring basis in the financial statements to determine whether there is a conversion between the fair value measurement levels.

The Group's investments in equity instruments are measured at fair value. However, in limited circumstances where there is insufficient recent information available to determine fair value or where the range of possible estimates of fair value is wide and the cost represents the best estimate of fair value within that range, the cost may represent the appropriate estimate of fair value within that range.

(4) Offsetting of financial assets and financial liabilities

The Group's financial assets and financial liabilities are presented separately on the balance sheet and are not offset against each other. However, they are presented on the balance sheet in net amounts after offsetting each other when both of the following conditions are met: 1) the Group has a legal right to offset the recognized amounts and such legal right is currently enforceable; and 2) the Group plans to settle on a net basis, or to realize the financial assets and settle the financial liabilities simultaneously.

(5) Derivative financial instruments

The Group uses derivative financial instruments, which are initially measured at fair value at the date the derivative transaction contract is entered into and subsequently measured at fair value. A derivative financial instrument is recognized as an asset if with a positive fair value or as a liability if with a negative fair value. Gains or losses on changes in fair value of derivatives are recognized directly in profit or loss, except those in relation to hedge accounting.

(6) Distinction between financial liabilities and equity instruments and related treatment

The Group distinguishes between financial liabilities and equity instruments in accordance with the following principles: 1) a contractual obligation meets the definition of financial liability if the Group cannot unconditionally avoid meeting that obligation by delivering cash or other financial assets. Some financial instruments do not explicitly contain terms and conditions for the obligation to deliver cash or other financial assets, but it is possible that contractual obligations may arise indirectly through other terms and conditions. 2) if a financial instrument must or may be settled with the Group's own equity instruments, consideration needs to be given to whether the Group's own equity instruments used to settle the instrument are intended as a substitute for cash or other financial assets or to give the holder of the instrument a residual interest in the assets of the issuer after deducting all liabilities. In the former case, the instrument is a financial liability of the issuer; in the latter case, the instrument is an equity instrument of the issuer. In some cases, a financial instrument contract stipulates that the Group must or may settle the financial instrument with its own equity instruments, where the amount of the contractual right or contractual obligation is equal to the number of its own equity instruments available for acquisition or delivery multiplied by their fair values at the time of

settlement, regardless of whether the amount of the contractual right or obligation is fixed or varies wholly or partly with variables other than the market price of the Group's own equity instruments (such as interest rates, the price of a commodity or the price of a financial instrument), the contract is classified as a financial liability.

The Group takes into account all terms and conditions agreed between group members and holders of financial instruments when classifying financial instruments (or their components) in the consolidated statements. An instrument is classified as a financial liability if the Group in its entirety has an obligation to deliver cash, or other financial assets, or settle in another manner that causes the instrument to become a financial liability as a result of the instrument.

If financial instruments or their components are financial liabilities, the related interest, dividends (or bonuses), gains or losses, and gains or losses arising from redemption or refinancing are recognized by the Group in the current profit or loss.

If financial instruments or their components are equity instruments, when they are issued (including refinancing), repurchased, sold, or canceled, the Group treats them as changes in equity and does not recognize changes in the fair value of equity instruments.

10. Notes receivable and receivables

(1) Notes receivable, accounts receivable, receivables financing, and contract assets

For receivables such as accounts receivable, notes receivable, receivables financing, and contract assets that do not contain significant financing components and that arise from ordinary operating activities, e.g., sales of goods and rendering of services, the Company applies a simplified measurement method and measures the provision for losses at an amount equal to the expected credit losses over the entire duration.

The Group classifies notes receivable, accounts receivable, receivables financing, contract assets, and long-term receivables into portfolios based on their credit risk characteristics, calculates expected credit losses on a portfolio basis, and determines the portfolio categories as follows:

1) Notes receivable

- Notes receivable portfolio 1: Bank notes receivable portfolio
- Notes receivable portfolio 2: Commercial notes receivable portfolio

2) Accounts receivable

- Accounts receivable portfolio 1: Electricity bills receivable (general electricity bills)
- Accounts receivable portfolio 2: Electricity bills receivable (new energy subsidy)

- Accounts receivable portfolio 3: Receivables from related parties
- Accounts receivable portfolio 4: Other accounts receivable portfolio

3) Receivables financing

- Receivables financing portfolio 1: Notes receivable portfolio
- Receivables financing portfolio 2: Accounts receivable portfolio

4) Contract assets

- Contract asset portfolio 1: Portfolio of receivables not meeting collection terms
- Contract asset portfolio 2: Portfolio of outstanding warranties

5) Long-term receivables

- Long-term receivables portfolio 1: Finance lease deposit portfolio
- Long-term receivables portfolio 2: Sales of goods by installment receipts portfolio
- Long-term receivables portfolio 3: Provision of services by installment receipts portfolio
- Long-term receivables portfolio 4: Other long-term receivables portfolio

For notes receivable, accounts receivable, receivables financing, contract assets, and long-term receivables classified as a portfolio, the Group calculates expected credit losses by taking into account historical credit loss experience, current conditions, and forecasts of future economic conditions through default exposures and expected credit loss rates for the entire duration.

(2) Other receivables

The Group measures a provision for losses on other receivables based on the following situation: ① for financial assets whose credit risk has not increased significantly since initial recognition, the Group measures the provision for losses based on the amount of expected credit losses over the next 12 months; ② for financial assets whose credit risk has increased significantly since initial recognition, the Group measures the provision for losses based on the amount of expected credit losses over the entire duration; ③ for purchased or originated financial assets with credit impairment, the Group measures the provision for losses based on the amount of expected credit losses over the entire duration.

The Group classifies other receivables into portfolios based on credit risk characteristics and calculates expected credit losses on a portfolio basis, which is determined as follows:

- Other receivables portfolio 1: Interest receivable

- Other receivables portfolio 2: Dividends receivable
- Other receivables portfolio 3: Receivables from governmental units
- Other receivables portfolio 4: Supplementary medical insurance
- Other receivables portfolio 5: Advances receivable portfolio
- Other receivables portfolio 6: Deposits and reserves receivable
- Other receivables portfolio 7: Receivables from related parties
- Other receivables portfolio 8: Other portfolios

For other receivables classified as a portfolio, the Group calculates expected credit losses by reference to historical credit loss experience, combined with current conditions and projections of future economic conditions, through default exposure and expected credit loss rates over the next 12 months or the entire duration.

(3) Low credit risk

A financial instrument is considered to have low credit risk if the risk of default on the financial instrument is low, the borrower's ability to meet its contractual cash flow obligations in the short term is strong, and even if there are unfavorable changes in economic conditions and the business environment in a long period, it may not necessarily weaken the borrower's ability to meet its contractual cash flow obligations.

(4) Assessment of a significant increase in credit risk

The Group determines the relative change in the risk of default over the expected life of a financial instrument by comparing the risk of default at the balance sheet date to the risk of default at the initial recognition date to assess whether the credit risk of the financial instrument has increased significantly since initial recognition.

In determining whether credit risk has increased significantly since initial recognition, the Group considers reasonable and well-founded information, including forward-looking information, that is available without undue additional cost or effort. The information considered by the Group includes:

- ① Failure of the debtor to pay principal and interest as due under the contract;
- ② Significant deterioration that has occurred or is expected, if any, in the external or internal credit ratings of financial instruments;
- ③ Significant deterioration that has occurred or is expected in the debtor's operating results;

④ Existing or anticipated changes in the technological, market, economic, or legal environment that would have a material adverse effect on the debtor's ability to repay the Group.

⑤ Whether there are significant changes in internal price indicators resulting from changes in credit risk;

⑥ Whether there are adverse changes in business, financial, or economic conditions that are expected to result in a significant change in the debtor's ability to meet its debt service obligations;

⑦ Whether there is a significant change in the actual or expected operating results of the debtor; whether there is a significant adverse change in the regulatory, economic, or technological environment in which the debtor operates;

⑧ Whether there are significant changes in the value of collateral pledged as debt security or in the quality of guarantees or credit enhancements provided by third parties. These changes are expected to reduce the debtor's economic incentive to make repayments within the contractual period or affect the probability of default;

⑨ Whether there is a significant change in the expectation that would reduce the debtor's economic incentive to make repayments within the contractual period;

⑩ Expected changes in the borrowing contract, including whether the expected breach of the contract may result in a waiver or modification of the contractual obligations, the granting of an interest-free period, a hike in the interest rate, a requirement for additional collateral or guarantees, or other changes to the contractual framework of the financial instrument;

⑪ Whether there is a significant change in the expected performance and repayment behavior of the debtor;

⑫ Whether the contractual payment has been overdue for more than 30 days (inclusive).

Depending on the nature of the financial instrument, the Group evaluates whether credit risk increases significantly on a single financial instrument or a combination of financial instruments basis. When evaluating financial instruments on a portfolio basis, the Group may classify financial instruments based on common credit risk characteristics, such as past due information and credit risk ratings.

The Group's main criterion for determining a significant increase in credit risk is that one or more of the following indicators change: the business environment in which the debtor operates, internal and external credit ratings, a significant change in actual or expected operating results, a significant decrease in the value of collateral or the credit rating of the guarantor.

(5) Financial assets for which credit impairment has been incurred

The Group assesses at the balance sheet date whether credit impairment has occurred on financial assets measured at amortized cost and on debt investments measured at fair value with changes therein recognized in other comprehensive income. A financial asset becomes a credit-impaired financial asset when one or more events occur that have an adverse effect on the financial asset's expected future cash flows. Evidence that a financial asset has been impaired includes the following observable information:

- ① Significant financial difficulties of the issuer or debtor;
- ② Breach of contract by the debtor, e.g., default or overdue payment of interest or principal, etc..
- ③ The Group grants concessions to the debtor that it would not have made under any other circumstances because of economic or contractual considerations relating to the debtor's financial difficulties;
- ③ The debtor is likely to become insolvent or undergo other financial reorganization;
- ④ Financial difficulties of the issuer or debtor cause an active market for the financial asset to disappear;
- ⑤ A financial asset is purchased or originated at a significant discount that reflects the fact that a credit loss has been incurred.

(6) Presentation of the provision for expected credit losses

To reflect changes in the credit risk of financial instruments since their initial recognition, the Group remeasures expected credit losses at each balance sheet date, and the resulting increase or reversal of the amount of the provision for losses is recognized in profit or loss as an impairment loss or gain in the current period. For financial assets measured at amortized cost, a provision for losses is offset against the book value of the financial asset shown on the balance sheet; for debt investments at fair value through other comprehensive income, the Group recognizes a provision for losses in other comprehensive income without offsetting the book values of the financial assets.

11. Inventories

The Group's inventory consists mainly of raw materials, semi-finished goods, work in progress, goods in stock, turnover materials, contract performance costs, etc.

Inventories are maintained on a perpetual inventory basis, where inventories are valued at actual cost at the time of acquisition; inventories are received or issued, and their actual cost is

determined using the weighted average method. Low-value consumables and packaging are amortized using the one-time reversal method.

Inventories at the end of the period are stated at the lower of cost or net realizable value, and a provision for the decline in the value of inventories is made to the extent that their cost is not expected to be recoverable because of destruction, obsolescence in whole or in part, or sale prices below cost. A provision for the decline in the value of goods in stock and bulk raw material is made based on the excess of the cost of individual items of inventory over their net realizable value, and a provision is made by category for other raw and supplementary materials in large quantities and with lower unit prices.

The net realizable value of inventories of goods, such as goods in stock, work in progress and materials used for sale, which are used directly for sale, is determined by the amount of the estimated selling price of the inventory less estimated selling expenses and related taxes; the net realizable value of inventories of materials held for production is determined by the amount of the estimated selling price of the finished product produced less estimated costs to be incurred to completion, estimated selling expenses and related taxes.

12. Contract assets and contract liabilities

(1) Contract assets

1) Methods and criteria for recognition of contract assets

A contract asset is a right to receive consideration for goods that the Group has transferred to a customer and that is dependent on factors other than the passage of time. If the Group sells two distinguishable commodities to a customer and is entitled to receive payment because one of the commodities has been delivered, but the receipt of such payment is also dependent on the delivery of the other commodity, the Group treats the right to receive payment as a contract asset.

2) Methodology for determining expected credit losses on contract assets and accounting treatment

The method of determining expected credit losses on contract assets is referred to in "Note IV. 10. (1) Notes receivable, accounts receivable, receivables financing and contract assets".

Accounting treatment: when the Group calculates expected credit losses on contract assets at the balance sheet date, if the expected credit loss is greater than the current book value of the provision for impairment of contract assets, the Group recognizes the difference as an impairment loss and debits "Impairment loss of assets" and credits "Provision for impairment of contract assets". Conversely, the Group recognizes the difference as an impairment gain and makes the opposite accounting entry.

The Group incurs credit losses in practice and identifies the related contract assets are irrecoverable. If they are approved to be written off, the Group debits "Provision for impairment of contract assets" and credits "Contract assets" based on the approved write-off amount. If the write-off amount is greater than the provision amount made, the difference is debited to "Impairment loss of assets".

(2) Contract liabilities

Contract liabilities reflect the Group's obligation to transfer goods to customers for which consideration has been received or is receivable from customers. If the Group has paid the contract consideration or the Group has obtained the unconditional right to receive the contract consideration before transferring the goods to the customer, a contract liability is recognized at the earlier of the actual amount paid by the customer or the amount due and payable, based on the amount received or receivable.

(3) Offsetting of contract assets and contract liabilities

The net amount of contract assets and contract liabilities under the same contract after offsetting each other, if it is a debit balance, is shown in "Contract assets" or "Other non-current assets" according to their liquidity; if it is a credit balance, is shown in "Contract liabilities" or "Other non-current liabilities" according to their liquidity.

13. Long-term equity investments

(1) Determination of control, joint control, or significant influence over the investee

The Group's long-term equity investments mainly consist of equity investments held by the Group that are capable of exercising control and significant influence over the investee, as well as equity investments in its joint ventures.

Control means that the Group has power over the investee, enjoys variable returns by participating in the investee's related activities, and has the ability to use its power over the investee to influence the amount of its returns.

Joint control is the shared control over an arrangement as agreed in the relevant agreement, and decisions about the activities of the arrangement must be made with the unanimous consent of the participants sharing control. A joint arrangement is an arrangement under the joint control of two or more participants. A joint venture is a joint arrangement in which the joint venturer has rights only to the net assets of the arrangement.

Significant influence is the power to participate in decision-making on the financial and operating policies of the investee, but not control or have joint control with other parties over the development of those policies. Significant influence is determined primarily by

representatives on the board of directors or similar authority of the investee and by having a say in the financial and operating decision-making process of the investee; the Group owns, directly or indirectly through a subsidiary, more than 20 percent but less than 50 percent of the voting shares of the investee, if there is clear evidence that the Group cannot participate in the production and operating decision-making of the investee in such cases. In determining whether significant influence can be exerted over the investee, the Group will consider, on the one hand, the voting shares of the investee held directly or indirectly by the Group and, on the other hand, the effect of current enforceable potential voting rights held by the Group and others, such as current convertible warrants, stock options and convertible corporate bonds issued by the investee, upon their assumed conversion into equity interest in the investee.

(2) Methodology for determining the cost of long-term equity investments, subsequent measurement, and profit or loss recognition

The initial investment cost of a long-term equity investment at the date of consolidation is based on the share of the book value of the consolidated party's ownership interest in the consolidated financial statements of the ultimate controlling party if the consideration for the consolidation is by way of cash payments, transfers of non-cash assets or incurring debt. The difference between the initial investment cost of the long-term equity investment and the cash paid, non-cash assets transferred, and the book value of obligations assumed is adjusted to the equity premium in the capital reserve; if the equity premium in the capital reserve is not sufficient for offsetting, the retained earnings are adjusted.

If equity securities are issued as consideration for a combination, the initial investment cost of the long-term equity investment is recognized at the date of consolidation as the share of the book value of the investee's equity interest in the consolidated financial statements of the ultimate controlling party, and the total nominal value of the shares issued is recognized as equity; the difference between the initial investment cost of the long-term equity investment and the total nominal value of the shares issued is adjusted to the equity premium in the capital reserve; and the equity premium in the capital reserve is not sufficient to offset the difference, retained earnings are adjusted.

Business combinations not under common control: the Group's initial investment cost of the long-term equity investment is based on the cost of consolidation determined at the date of purchase.

The intermediary fees, such as audit, legal services, valuation consulting, and other related management fees incurred in connection with a business combination are recognized in profit or loss when incurred; transaction costs for equity or debt securities issued as consideration for

a business combination are included in the initial recognition amount of the equity or debt securities.

Except for long-term equity investments acquired through business combinations as described above, long-term equity investments acquired by paying cash are treated as investment costs based on the actual purchase price paid; long-term equity investments acquired by issuing equity securities are treated as investment costs based on the fair value of the equity securities issued; long-term equity investments invested by investors are treated as investment costs based on the value agreed in the investment contract or agreement; long-term equity investments acquired through debt restructuring, non-monetary asset exchange, etc. are treated as investment costs in accordance with the provisions of relevant accounting standards.

The Group adopts the cost method of accounting for long-term equity investments in which it is able to exercise control over the investee, and the equity method of accounting for investments in joint ventures and associates.

Under the cost method of accounting, long-term equity investments are valued at the initial investment cost, and the cost of long-term equity investments is adjusted when the investments are added to or recovered. Profits or cash dividends declared as distributions by the investee are recognized as investment income.

Under the equity method of accounting, the initial investment cost is greater than the share of the fair value of the identifiable net assets of the investee at the time of investment, without adjusting the initial investment cost of the long-term equity investment; the initial investment cost is less than the share of the fair value of the identifiable net assets of the investee at the time of investment, which is recognized in profit or loss for the current period, and the cost of the long-term equity investment is adjusted. After acquiring the long-term equity investment, the investment income and other comprehensive income are recognized separately according to the shares of net profit or loss and other comprehensive income realized by the investee during the year, and the book value of the long-term equity investment is adjusted; the book value of the long-term equity investment is reduced accordingly by calculating the portion of the investor's entitlement based on the profit or cash dividends declared by the investee; the book value of the long-term equity investment is adjusted by the investor for other changes in the ownership interest of the investee other than net profit or loss, other comprehensive income and profit distribution, and is included in the owners' equity. In recognizing the share of net profit or loss of the investee, investment income is recognized on the basis of the fair value of the identifiable assets of the investee at the time of investment acquisition, adjustments to the net profit of the investee in accordance with the Group's accounting policies and accounting periods, and the offsetting of unrealized gains and losses on internal transactions with associates

and joint ventures in proportion to the portion of such gains and losses attributable to the investee.

(3) Changes in long-term equity investments

If, as a result of additional investments or other reasons, the investee is able to exercise joint control or significant influence over the investee but it does not constitute control, or an increase in the proportion of shareholding resulting from additional investment results in joint control or significant influence over the investee but it does not constitute control, upon transferring to the equity method of accounting, the investor shall determine the fair value of the original equity investment plus the fair value of the consideration payable for the acquisition of the additional investment as the initial investment cost to be accounted for under the equity method. If an equity investment previously held is classified as a financial asset at fair value through profit or loss, the difference between its fair value and the book value shall be transferred to the current profit or loss that is accounted for under the equity method. If an equity investment previously held is designated as an investment in a non-trading equity instrument measured at fair value through other comprehensive income, the difference between its fair value and book value and the cumulative change in fair value previously recognized in other comprehensive income shall be transferred directly to retained earnings. The difference between the initial investment cost calculated above and the share of the fair value of the identifiable net assets of the investee at the date of the additional investment, calculated on the basis of the proportion of the new shareholding after the additional investment, is not adjusted for the book value of the long-term equity investment if the former is greater than the latter; if the former is less than the latter, the difference is adjusted for the book value of the long-term equity investment and recognized in non-operating income in the current period.

For long-term equity investments in which control over the investee not under common control can be exercised due to additional investments, etc., the initial investment cost under the cost method of accounting is determined by the sum of the book value of the equity investments originally held plus the cost of the new investments in preparing the individual financial statements. Other comprehensive income recognized as a result of the equity method of accounting for equity investments existing prior to the date of purchase is accounted for on the same basis as the disposal of the underlying assets or liabilities directly by the investee. Where equity investments held prior to the date of purchase are designated as non-trading equity instruments at fair value through other comprehensive income, the cumulative changes in fair value that were previously included in other comprehensive income cannot be transferred to the current profit or loss.

If the Group no longer has joint control or significant influence over the investee due to the disposal of a portion of the equity investment, the remaining equity investment is treated in accordance with the standard on recognition and measurement of financial instruments, and the difference between the fair value and book value at the date of loss of joint control or significant influence is recognized in profit or loss for the current period. Other comprehensive income recognized under the equity method of accounting for the original equity investment is accounted for on the same basis as if the related assets or liabilities had been disposed of directly by the investee when the equity method of accounting is discontinued.

If the investor loses control of the investee due to the disposal of part of the equity investment, etc., the remaining equity interest after the disposal that can exercise joint control or significant influence over the investee when individual financial statements are prepared is accounted for under the equity method, and the remaining equity interest is adjusted as if it had been accounted for using the equity method of accounting since acquisition; if the remaining equity interest after disposal cannot exercise joint control or significant influence over the investee, which is treated based on the recognition and measurement standard of financial instruments, and the difference between the fair value and book value at the date of loss of control is recognized in profit or loss for the current period.

(4) Disposal of long-term equity investments

The difference between the book value and the actual acquisition price of long-term equity investments, when disposed of, is recognized in current investment income. Long-term equity investments accounted for using the equity method of accounting, when disposed of, are accounted for on the same basis as the related assets or liabilities directly disposed of by the investee, and the portion previously included in other comprehensive income is accounted for in the corresponding proportion.

(5) Impairment of long-term equity investments

For the impairment testing method and the impairment provision method for long-term equity investments, please refer to “Note IV. 22”.

14. Investment properties

The Group's investment properties are recorded at their cost. The cost of purchased investment properties consists of the purchase price, related taxes, and other expenses directly attributable to the assets; the cost of self-constructed investment properties consists of the necessary expenditures incurred before the constructed assets are available for the intended use.

The Group uses a cost model for subsequent measurement of investment properties and depreciates or amortizes them based on their estimated useful life and net residual rate.

When the use of investment property is changed to its use, the investment property is converted to fixed assets or intangible assets from the date of the change. When the use of real estate for self-use is changed to earn rent or capital appreciation, fixed assets or intangible assets are converted to investment property from the date of the change. When a conversion occurs, the book value before the conversion is used as the recorded value after the conversion.

Recognition of investment property is terminated when the property is disposed of or permanently withdrawn from use and no economic benefit is expected from its disposal. The amount of disposal proceeds from the sale, transfer, obsolescence, or destruction of investment properties, net of their book value and related taxes and fees, is recognized in profit or loss for the current period.

15. Fixed assets

The Group's fixed assets are tangible assets held for the production of goods, provision of services, lease or management, and have a useful life of more than one year.

Fixed assets include land assets, houses and buildings, machinery equipment, transportation facilities, electronic equipment, office equipment, hotel furniture, and other equipment, which are recorded at their cost at the time of acquisition. Of these, the cost of purchased fixed assets includes taxes and duties relating to the purchase price and import duties, and other expenses directly attributable to the fixed assets that were incurred before the fixed assets were available for intended use; the cost of self-constructed fixed assets consist of expenses necessary to construct the assets before they are available for intended use; fixed assets invested by investors are recorded at the value agreed in the investment contract or agreement, but are recorded at fair value if the agreed value in the contract or agreement is not fair; fixed assets leased under a finance lease are recorded at the lower of the fair value of the leased asset and the present value of the minimum lease payment on the commencement date of the lease.

Subsequent expenditures related to fixed assets, including repair expenditures and renovation expenditures, are included in the cost of fixed assets if they meet the conditions for recognition of fixed assets, and the book value of the replaced part is derecognized; if they do not meet the conditions for recognition of fixed assets, they are recognized in profit or loss when incurred.

The Group accrues depreciation on all fixed assets except those that are fully depreciated and are still in use, and land that is accounted for separately. Depreciation is provided using the

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

average useful life method and is charged to the cost or current expense of the respective asset, depending on its use.

The Group, excluding Guangdong Energy Group Co., Ltd. (“Guangdong Energy Group”) and its subsidiaries, has depreciated its fixed assets over the following categorized depreciation periods, estimated net residual value, and depreciation rates:

SN	Category	Depreciation period (years)	Estimated residual value rate (%)	Annual depreciation rate (%)
1	Houses and buildings	30 -50	3.00 -5.00	1.90 -3.23
2	Machinery equipment	3 -10	0.00 -5.00	9.50 -33.33
3	Transportation facility	4 -10	0.00 -5.00	9.50 -25.00
4	Electronic equipment	3 -5	0.00 -5.00	19.00 -33.33
5	Office equipment	3 -8	0.00 -5.00	19.00 -33.33
6	Other equipment	3 -5	0.00 -5.00	19.00 -33.33

Guangdong Energy Group classifies depreciation periods, estimated net residual value rates, and depreciation rates for fixed assets as follows:

SN	Category	Depreciation period (years)	Estimated residual value rate (%)	Annual depreciation rate (%)
1	Land assets (Note 1)	-	-	-
2	Houses and buildings	10 -50	0 -10.00	1.80 -10.00
3	Machinery equipment	5 -30	0 -10.00	3.00 -20.00
4	Transportation facility	5 -20	0 -10.00	4.50 -20.00
5	Other equipment	5 -22	0 -10.00	4.09 -20.00

Note 1: Land assets are mainly transferred at no cost; their useful lives cannot be determined, and no depreciation is provided.

For fixed assets for which an impairment provision has been made, the depreciation rate is calculated by deducting the cumulative amount of the impairment provision that has been made for the fixed assets.

At the end of each year, the Group reviews the estimated useful life, estimated net residual value, and depreciation method of fixed assets and treats changes, if any, as changes in accounting estimates.

Recognition of a fixed asset is discontinued when the asset is disposed of or when no economic benefit is expected to result from its use or disposal. The amount of disposal proceeds from the sale, transfer, obsolescence, or destruction of fixed assets, net of their book value and related taxes and fees, is recognized in profit or loss for the current period.

16. Construction in progress

Construction in progress is measured at the cost actually incurred. Self-operated construction works are measured according to direct materials, direct wages, direct construction costs, etc.; outsourced construction works are measured according to the project price payable, etc.; equipment installation works are determined according to the value of the installed equipment, installation costs, expenses incurred in commissioning works, etc. The cost of construction in progress also includes borrowing costs and exchange gains and losses that should be capitalized.

On the date when the construction in progress is available for intended use, the estimated value will be carried forward to fixed assets according to the project budget, cost or actual cost of the project, etc., and depreciation will be provided from the following month onwards, and the difference in the original value of fixed assets will be adjusted after the completion of the final accounting procedures.

17. Borrowing costs

Borrowing costs include interest on borrowings, amortization of discounts or premiums, ancillary costs, and exchange differences arising from foreign currency borrowings. Borrowing costs directly attributable to the acquisition or production of assets eligible for capitalization are capitalized when expenditures on the assets have been incurred, the borrowing costs have been incurred and the acquisition or production activities necessary to bring the assets to the intended use or sale have commenced; capitalization ceases when the acquisition or production of assets eligible for capitalization are available for intended use or sale. The remaining borrowing costs are recognized as expenses in the period in which they are incurred.

Interest expense actually incurred during the period of the special purpose borrowing is capitalized net of interest income earned on unused borrowing funds deposited with the bank or investment income earned on temporary investments; capitalization is determined for general purpose borrowing by multiplying the weighted average of asset expenditures in excess of the special purpose borrowing portion of accumulated asset expenditures by the weighted average interest rate on the general purpose borrowing occupied.

Assets eligible for capitalization are fixed assets, investment properties, and inventories that require a significant period of time (usually more than one year) of acquisition, construction, or production activities to reach a predetermined state of use or sale.

If there is an abnormal interruption in the acquisition or production of an asset eligible for capitalization that occurs for more than three consecutive months, capitalization of borrowing costs is suspended until the acquisition or production activities of the asset recommence.

18. Intangible assets

The Group's intangible assets include land use rights, software, patents, non-patent technologies, franchises, sea area use rights, power transmission and transformation ancillary projects and microwave projects, favorable contracts, and others etc. They are measured at their actual costs at the time of acquisition, of which the actual costs are based on the prices actually paid and related other expenses for purchased intangible assets; the actual costs of the intangible assets invested by investors are determined based on the values agreed upon in the investment contracts or agreements, or based on the fair values if the values agreed upon in the contracts or agreements are not fair.

For intangible assets that are not recognized in the financial statements but are owned by the acquiree and acquired by the Group in a business combination not under common control, the Group recognizes them at fair value if one of the following conditions is met in the initial recognition of the acquiree's assets: (1) they are derived from contractual or other legal rights; (2) they can be separated or divided from the acquiree and can be used for sale, transfer, license, lease or exchange, either individually or in conjunction with related contracts, assets and liabilities.

When the Group acquires intangible assets, it analyzes and determines their useful lives and classifies them into intangible assets with finite useful lives and those with indefinite useful lives. Intangible assets with finite useful lives are amortized over their estimated useful lives from the time they become available for use, using an amortization method that reflects the expected manner of realization of the economic benefits associated with the asset; where the expected manner of realization cannot be reliably determined, the straight-line method is used; intangible assets with indefinite useful lives are not amortized.

The estimated useful life and amortization method for intangible assets with finite useful lives are reviewed at the end of each year, and the changes, if any, are treated as changes in accounting estimates. The expected useful life of an intangible asset with an indefinite useful life is reviewed in each accounting period, and, where there is evidence that the intangible asset has a finite useful life, its useful life is estimated and amortized over its expected life.

19. Research and development

The Group's research and development expenses are divided into research phase expenses and development phase expenses based on their nature and the greater uncertainty as to whether the research and development activities will result in intangible assets. Research phase expenditure is recognized in profit or loss as incurred; development phase expenditure is recognized as an intangible asset when the following conditions are also met:

- (1) Completion of the intangible asset to make it technically feasible to use or sell;

(2) An intent to complete the intangible asset and use or sell it;

(3) There is a market for the product produced using the intangible asset or a market for the intangible asset itself;

(4) Adequate technical, financial, and other resources are available to support the development of the intangible asset and the ability to use or sell it;

(5) The expenditures attributable to the development phase of the intangible asset can be measured reliably.

Expenditures for the development phase that meet the above conditions are recognized in profit or loss as incurred. Development expenditures that were recognized in profit or loss in prior periods are not recognized as assets in subsequent periods. Expenditures for the capitalized development phase are shown as development expenditures on the balance sheet and are reported as intangible assets from the date the project is available for the intended use.

20. Long-term prepaid expenses

The Group's long-term prepaid expenses represent those costs that have been expended but are chargeable to the current and future periods over an amortization period of more than one year (excluding one year), which are amortized equally over the benefit period. If a long-term prepaid expense item does not benefit subsequent accounting periods, the full amortized value of the item that has not been amortized is transferred to the current profit or loss.

21. Goodwill

Goodwill is the excess of the cost of an equity investment or a business combination not under common control over the share of the fair value of the identifiable net assets of the investee or acquiree acquired in the business combination at the date of acquisition or purchase.

Goodwill relating to subsidiaries is shown separately in the consolidated financial statements, and goodwill relating to associates and joint ventures is included in the book value of long-term equity investments.

22. Impairment of non-financial long-term assets

The Group examines items such as long-term equity investments, fixed assets, construction in progress, right-of-use assets, and intangible assets with finite useful lives at each balance sheet date, and conducts impairment tests when the following indications exist that an asset may be impaired. Goodwill and intangible assets with indefinite useful lives are tested for impairment at the end of each year, regardless of whether there are indications of impairment. Where it is difficult to test the recoverable amount of an individual asset, the test is based on the asset group or combination of asset groups to which the asset belongs.

After the impairment test, if the book value of the asset exceeds its recoverable amount, the difference is recognized as an impairment loss, which, once recognized, is not reversed in subsequent accounting periods. The recoverable amount of an asset is the higher of the fair value of the asset, net of disposal costs, and the present value of the asset's expected future cash flows.

Indications of impairment are as follows:

(1) The market price of the asset has fallen significantly in the current period, significantly more than would be expected as a result of the passage of time or normal use;

(2) The economic, technological, or legal environment in which the enterprise operates and the market in which the asset is located have changed significantly in the current period or will change in the near future, which will adversely affect the enterprise.

(3) Market interest rates or other market rates of return on investments have increased in the current period, affecting the discount rate at which the enterprise calculates the present value of the asset's expected future cash flows, resulting in a significant reduction in the recoverable amount of the asset;

(4) Evidence that the assets are obsolete or physically damaged;

(5) The assets have been or will be idled, discontinued, or scheduled for early disposal;

(6) Evidence reported internally by the enterprise that the economic performance of the asset has been or will be lower than expected, such as net cash flows generated by the asset or operating profits (or losses) realized that are significantly lower (or higher) than expected;

(7) Other indications that an asset may have been impaired.

23. Employee benefits

The Group's employee benefits refer to the various forms of remuneration or compensation paid by the Group for services rendered by its employees or for the termination of their employment, including short-term remuneration, post-employment benefits, termination benefits, and other long-term employee benefits. Benefits provided by the Group to spouses, children, dependents, survivors of deceased employees and other beneficiaries of employees are also part of their remuneration.

(1) Short-term remuneration is the remuneration of the Group's employees that is required to be paid in full within twelve months after the end of the annual report period in which the employees perform the relevant services, except for compensation for termination of the employment relationship with the employees. The Group's short-term remuneration includes employee salaries, bonuses, allowances and subsidies, employee welfare expenses,

social insurance premiums such as medical insurance premiums, work injury insurance premiums and maternity insurance premiums, housing provident fund, trade union dues and personnel education funds, short-term paid absences, short-term profit-sharing schemes, non-monetary benefits and short-term remuneration.

The Group recognizes the short-term remuneration actually incurred as a liability in the accounting period in which the services are rendered by the employees and recognizes it in profit or loss or the related cost of assets for the current period, depending on the beneficiary of the services rendered by the employees. Where short-term remuneration is a non-monetary benefit, it is measured at fair value.

(2) Post-employment benefits are all forms of compensation and benefits provided by the Group after the employee retires or terminates the employment with the Group in order to obtain services from the employee, except short-term remuneration and termination benefits. The Group classifies post-employment benefit plans into defined contribution plans and defined benefit plans. (1) Defined contribution plan: a post-employment benefit plan in which the Group has no further obligation to pay after it has contributed a fixed fee to a separate fund. In the accounting period in which an employee provides services, including basic pension insurance, unemployment insurance, etc., the amount of contributions due under the defined contribution plan is recognized as a liability and included in current profit or loss or the cost of related assets. (2) Defined benefit plans: post-employment benefit plans other than defined contribution plans.

(3) Termination benefits refer to the termination of the Group's employment relationship with an employee prior to the expiration of the employee's employment contract, or compensation given to an employee to encourage the employee to accept voluntary redundancy. For employees who have not terminated their employment contracts with the Group, but who will no longer provide services to the Group in the future and cannot bring financial benefits to the Group, the Group is committed to providing financial compensation in the nature of termination benefits, and in the event of "internal retirement", the termination benefits shall be treated as such prior to their official retirement date, and after their official retirement date, the post-employment benefits.

If the Group provides termination benefits to employees, the Group recognizes the employee's compensation liability for termination benefits and recognizes it in profit or loss for the current period when the Group cannot unilaterally withdraw the termination benefits provided as a result of the termination plan or reduction proposal, or when the Group recognizes the costs or expenses related to the restructuring of the termination benefits.

(4) Other long-term employee benefits are all employee compensation other than short-term remuneration, post-employment benefits, and termination benefits, including long-term paid absences, long-term disability benefits, long-term profit-sharing plans, etc.

Other long-term employee benefits provided by the Group to employees who are eligible for defined contribution plans are accounted for in accordance with the relevant provisions of the defined contribution plans. Other long-term employee benefits provided by the Group to employees who are eligible for defined benefit plans are accounted for in accordance with the relevant provisions of the defined benefit plans, but the changes resulting from the remeasurement of the net liabilities or net assets of other long-term employee benefits. The total net amount is included in the current profit or loss or the cost of the related asset.

24. Bonds payable

The Group's bonds payable are measured at fair value on initial recognition, and the related transaction costs are included in the initial recognition amount. Subsequent measurement is based on amortized cost.

The difference between the price paid for the bonds and the total face value of the bonds is treated as a premium or discount to the bonds, amortized over the life of the bonds as interest is accrued using the effective interest method, and treated in accordance with the treatment of borrowing costs.

25. Provisions

The Group recognizes a liability when the operations related to contingencies such as external guarantees, discounting of commercial acceptance bills, pending litigation or arbitration, product quality warranty, etc. meet all of the following conditions: the obligation is a present obligation of the Group; it is probable that the performance of the obligation will result in an outflow of economic benefits to the enterprise; and the amount of the obligation can be measured reliably.

A provision is initially measured on the basis of the best estimate of the expenditure required to meet the related present obligation, taking into account factors such as risks, uncertainty, and the time value of money related to contingencies. Where the influence of the time value of money is significant, the best estimate is determined by discounting the related future cash outflows. The book value of the provision is reviewed at each balance sheet date, and if there are any changes, the book value is adjusted to reflect the current best estimate.

26. Revenue

The Group recognizes revenue when it has satisfied its performance obligations under the contract, that is, when the customer obtains control of the relevant goods or services.

Where a contract contains two or more performance obligations, the Group apportions the transaction price to each individual performance obligation at the contract inception in the relative proportion of the individual selling price of the goods or services promised by each individual performance obligation at the contract start date and measures revenue based on the transaction price apportioned to each individual performance obligation.

The transaction price is the amount of consideration to which the Group is expected to be entitled due to the transfer of goods or services to the customer, excluding amounts collected on behalf of third parties. The transaction price recognized by the Group does not exceed the amount by which it is highly probable that a material reversal of the cumulative recognized income will not occur when the related uncertainty is removed. The amount expected to be refunded to the customer as a liability is not included in the transaction price. Where there is a significant financing component in the contract, the Group determines the transaction price on the basis of the amount payable that is assumed to be paid in cash by the customer at the time control of the goods or services is obtained. The difference between the transaction price and the consideration of the contract is amortized over the life of the contract using the effective interest method. The significant financing component in the contract is not taken into account if the interval between the customer's acquisition of control of the goods or services and the customer's payment of the price does not exceed one year on the commencement date of the contract.

A performance obligation of the Group in a contract is performed within a certain period of time if one of the following conditions is met; otherwise, it is performed at a certain point in time:

- (1) The customer acquires and consumes the economic benefits of the Group's performance at the same time as the Group's performance.
- (2) The customer is able to control the goods under construction in the course of the Group's performance.
- (3) The goods produced in the course of the Group's performance are of an irreplaceable use, and the Group is entitled to receive payment for the portion of the performance that has been completed cumulatively to date during the entire term of the contract.

For performance obligations performed within a certain period of time, revenue is recognized over that period by the Group in accordance with the progress of performance. When the progress of performance cannot be reasonably determined, revenue is recognized for costs already incurred that are expected to be reimbursed at the amount of the costs already incurred until the progress of performance can be reasonably determined.

For performance obligations performed at a certain point in time, revenue is recognized by the Group at the point when the customer acquires control of the relevant goods or services. In determining whether the customer has acquired control of the goods or services, the following indications are considered:

- (1) The Group has a present right to receive payment for the goods or services.
- (2) Legal ownership of the goods has been transferred by the Group to the customer.
- (3) The Group has physically transferred the goods to the customer.
- (4) The Group has transferred the principal risks and rewards of ownership of the goods to the customer.
- (5) The customer has accepted the goods or services, etc.

The right to receive consideration for goods or services transferred by the Group to customers is shown as a contract asset, the contract asset is impaired on the basis of expected credit losses. The unconditional right that the Group has to receive consideration from customers is presented as a receivable. The Group's obligations to transfer goods or services to customers for consideration received or receivable from customers are presented as contractual liabilities.

(1) Warranty obligation

The Group provides warranties for goods sold and construction works performed in accordance with contractual agreements and legal requirements. For assurance-type warranty to assure customers that the goods sold meet the established standards, the Group accounts for them in accordance with Accounting Standards for Business Enterprises No. 13 - Contingencies. For service-type quality assurance that provides a separate service in addition to the guarantee to the customer that the goods sold meet the established standards, the Group treats it as a single performance obligation and allocates a portion of the transaction price to the service-type quality assurance based on the relative proportion of the stand-alone selling prices of the goods and service-type quality assurance provided, and recognizes revenue when the customer obtains control of the services. In assessing whether the quality assurance provides a separate service in addition to the assurance to the customer that the goods sold meet established standards, the Group considers factors such as whether the quality assurance is a statutory requirement, the duration of the quality assurance, and the nature of the Company's commitment to performing the task.

(2) Principal and agent

The Group determines whether the Company is a primary principal or an agent when engaging in a transaction based on whether it has control over the goods or services before transferring them to the customer. If the Group is able to control the goods or services before transferring them to the customer, the Group is a primary principal and recognizes revenue based on the total amount of consideration received or receivable; Otherwise, the Group, as an agent, recognizes revenue based on the amount of commissions or handling charges to which it is expected to be entitled, which shall be determined as the net amount of the total consideration received or receivable less the price payable to other related parties, or in accordance with the established commission amount or percentage, etc.

(3) Customer's unexercised contractual rights

When the Group receives advances from customers for sales of goods or services, the amount is first recognized as a liability and then transferred to revenue when the related performance obligation is fulfilled. When the Company's advances from customers are not required to be returned and it is probable that the customer will waive all or part of its contractual rights, the Group recognizes the above amounts as revenue on a pro-rata basis in accordance with the pattern of the customer's exercise of contractual rights, if the Group expects to be entitled to the amounts related to the contractual rights waived by the customer; Otherwise, the Group reverses the related balance of the above liabilities to revenue only when the probability of the customer requiring performance of the remaining performance obligation is extremely low.

(4) Contract changes

In the event of a contractual change to a construction contract between the Group and a customer:

① If the contract change adds clearly distinguishable construction services and contract price, and the new contract price reflects the separate selling price of the new construction services, the Group accounts for the contract change as a separate contract;

② If the contract change does not fall into the situation described in ① above and the construction services that have been transferred and the construction services that have not been transferred at the date of the contract change can be clearly distinguished from each other, the Group treats it as a termination of the original contract, and at the same time, the non-performed portion of the original contract and the contract change are combined into a new contract for accounting purposes;

③ If the contract change does not fall into the situation described in ① above and the construction services transferred and the construction services not transferred at the date of

contract change are not clearly distinguishable from each other, the Group accounts for the changed portion of the contract as an integral part of the original contract, and the resulting impact on recognized revenue is adjusted to current revenue at the date of contract change. The Group recognizes revenue when the Group has fulfilled its performance obligations under the contract, that is, when the customer obtains control of the relevant goods or services.

The specific methods of revenue recognition:

(1) Revenue from the electricity business

A. Revenue from sales of electricity and heat

The Group recognizes revenue from sales of electricity and heat when the electricity and heat are supplied to the grid company or customer and the grid company or customer acquires control of the electricity.

B. Revenue from sales of by-products

The Group recognizes revenue when the by-products, such as fly ash generated from power generation, are transported to the agreed delivery location in accordance with the contract and confirmed to be received by the relevant resource utilization enterprise, and the relevant resource utilization enterprise obtains control of the by-products.

C. Provision of electricity trading services

The Group recognizes revenue from electricity trading services provided by the Group to external parties based on the difference between the price of electricity purchased and the price of electricity sold when the electricity service is accepted by the electricity consumers.

D. Provision of services

The Group provides external transportation services, operation and maintenance services, loading and unloading services, and in-port storage services. Revenue is recognized over a period of time based on the progress of completed services, where the progress of completed services is determined based on the proportion of costs incurred to the estimated total costs. At the balance sheet date, the Group re-estimates the progress of completed services so that it can reflect changes in performance.

(2) Architectural design income

The Group's architectural design business is mainly classified into design services, EPC services, and other services. The Group's specific principles for revenue recognition are as follows: on the commencement date of a contract, the contract is evaluated, each performance obligation included in the contract is identified, and revenue is recognized upon fulfillment of the performance obligations in the contract, i.e., when the customer obtains control of the

relevant assets (goods or services). Whether the performance obligations are fulfilled within a certain period of time or at a certain point in time depends on the terms of the contract and the relevant legal provisions.

The design service, EPC service and other services provided by the Group to customers are performed over a period of time, and the goods or services provided to customers in the course of performance have irreplaceable uses and entitle the Group to receive payment for the cumulative portion of performance performed to date throughout the term of the contract, which the Company treats as a performance obligation fulfilled within a certain period of time, and recognizes revenue in accordance with the progress of performance, unless the progress of performance is not reasonably determined. The progress of performance for design service is determined by the output method, and the progress of performance for EPC service is determined by the input method.

Revenue from design service contracts with a value of RMB 500,000 or less is recognized in a lump sum upon completion.

Design service is generally recognized on the basis of external evidence obtained (including confirmation letters from clients, acceptance reports, and documents from institutions such as drawing review agencies or government agencies), and the output value of the performance progress is determined based on the work results submitted and approved in writing by the clients and in accordance with the contractual agreements.

(3) Rental and property service income

Rental income is recognized monthly in accordance with the lease agreement for the rental of the Company's houses and buildings.

Property service represents the comprehensive management service for public areas of buildings, including property management, operation of parking lots, cafeteria operation, etc. The Company recognizes revenue from property management fees monthly in accordance with the accrual basis of accounting for property management fees that have been explicitly agreed upon in the contracts.

(4) Income from management fees

Management fees are collected for the equity investment and management services provided by the Company, and the Company recognizes income from management fees in accordance with the accrual basis of accounting and based on the rate and calculation method agreed in the partnership agreement.

27. Contract costs

(1) Methodology for determining the amount of assets relating to contract costs

The Group's assets related to contract costs include contract performance costs and contract acquisition costs.

Contract performance costs, i.e., costs incurred by the Group to perform a contract, that does not fall within the scope of the relevant accounting standard specifications, are recognized as an asset as contract performance costs when the following conditions are also met: the costs are directly related to a current contract or expected contract to be obtained, including direct labor, direct materials, manufacturing costs (or similar costs), costs explicitly borne by the customer and other costs incurred solely as a result of the contract; the costs increase the Group's future resources available to meet its performance obligations; and the costs are expected to be recovered.

Contract acquisition costs, which are the incremental costs incurred by the Group to acquire a contract that is expected to be recovered, are recognized as an asset as contract acquisition costs. If the amortization period of the asset does not exceed one year, it is recognized in profit or loss when incurred. Incremental costs are costs that would not have been incurred without obtaining the contract (e.g., sales commissions, etc.). Expenses incurred by the Group to obtain a contract other than incremental costs expected to be recovered (such as travel expenses that would have been incurred regardless of whether the contract was obtained) are charged to profit or loss as incurred, except for those explicitly borne by the client.

(2) Amortization of assets related to contract costs

The Group's assets related to contract costs are amortized to the current profit or loss using the same basis as that used to recognize revenue from the goods to which the assets relate.

(3) Impairment of assets related to contract costs

In determining the impairment losses on assets related to contract costs, the Group first determines the impairment losses on other assets related to the contract recognized in accordance with other relevant accounting standards for enterprises; and then, if the book value of the asset is greater than the difference between the remaining consideration that the Group expects to receive for the transfer of goods related to the asset and the estimated costs to be incurred for the transfer of the related goods, an impairment provision is made for the excess, and an asset impairment loss is recognized.

If the factors causing the impairment in prior periods change subsequently, and as a result, the aforementioned difference is greater than the book value of the asset, the impairment provision accrued shall be reserved and recognized in profit or loss for the current period, but the book value of the asset after the reversal should not exceed the book value of the asset that

would have been determined as of the date of the reversal had no provision for impairment been made.

28. Government grants

Government grants are monetary or non-monetary assets acquired by the Group from the government without compensation, excluding capital invested by the government as the owner of the enterprise. Government grants are recognized when the Group is able to meet the conditions attached to them and when they can be received.

Government grants are measured at the amount actually received if they are monetary assets, or at the amount receivable if they are disbursed in accordance with fixed flat-rate criteria or if there is conclusive evidence at the end of the period that the relevant conditions set out in the fiscal support policy can be met and the financial support funds are expected to be received; government grants are measured at fair value if they are non-monetary assets and if the fair value cannot be reliably obtained, at the nominal amount (RMB 1).

The Group's government grants are distinguished between asset-related government grants and revenue-related government grants. Of these, government grants related to assets are government grants acquired by the Group for the purpose of acquiring or otherwise forming long-term assets, and government grants related to revenue are government grants other than those related to assets. If government documents do not specify the recipients of the subsidy, the Group makes a judgment based on the above-mentioned distinction principle, and if it is difficult to make a distinction, the subsidy as a whole is categorized as a revenue-related government grant.

Government grants related to assets are recognized as deferred income.

Government grants related to assets recognized as deferred income are recognized in profit or loss over the useful life of the related assets.

When the related assets are sold, transferred, retired, or destroyed before the end of their useful lives, the unallocated balance of the related deferred income is transferred to profit or loss in the period of disposal.

Government grants related to revenue, which are used to compensate for related costs or losses incurred in subsequent periods, are recognized as deferred income and are recognized in profit or loss in the period in which the related costs or losses are recognized; those used to compensate for related costs or losses already incurred are recognized directly in profit or loss. Government grants related to day-to-day activities are included in other income based on the substance of economic operations. Government grants that are not related to day-to-day activities are included in the non-operating income and expenses.

When the Group obtains interest subsidies for policy preferential loans, the Group distinguishes between the case in which the treasury disburses the discount interest funds to the lending banks and the case in which the treasury disburses the discount interest funds directly to the Group, and adopts the accounting treatment in accordance with the following principles, respectively:

(1) If the treasury allocates the discount interest funds to the lending bank to provide a loan to the Group at the policy preferential interest rate, the Group uses the actual amount of the borrowing received as the recorded value of the borrowing and calculates the related borrowing costs based on the principle of the borrowing and the policy preferential interest rate (or, the fair value of the borrowing is used as its recorded value and the borrowing costs are calculated based on the effective interest method. The difference between the actual amount received and the fair value of the borrowing is recognized as deferred income. The deferred income is amortized over the life of the borrowing using the effective interest method and is reduced by the related borrowing costs).

(2) The treasury disburses the discount interest funds directly to the Group, which will offset the related borrowing costs by the corresponding discount interest.

The Group's recognized government grants that are required to be returned are accounted for in the period in which they are required to be returned in accordance with the following provisions:

(1) Where the book value of the underlying asset is reduced on initial recognition, the book value of the asset is adjusted.

(2) Where related deferred income exists, the book balance of the related deferred income is reduced, and the excess is recognized in profit or loss in the current period.

(3) In other cases, they are recognized directly in profit or loss for the current period.

29. Deferred tax assets and deferred tax liabilities

The Group's deferred tax assets and deferred tax liabilities are calculated and recognized based on the difference (temporary difference) between the tax bases of assets and liabilities and their book values. Deferred tax assets are recognized for deductible losses and tax credits that can be utilized against taxable income in future years in accordance with the provisions of the tax laws, as if they were temporary differences. At the balance sheet date, deferred tax assets and deferred tax liabilities are measured at the tax rates applicable to the period when it is expected to realize the asset or settle the liability.

The Group recognizes deferred tax assets arising from deductible temporary differences to the extent that it is probable that taxable income will be available against which the deductible

temporary differences can be utilized. For deferred tax assets that have been recognized, the book values of the deferred tax assets are written down when it is probable that sufficient taxable income will not be available to offset the deferred tax assets in a future period. The amount written down is reversed when it is probable that sufficient taxable income will be available.

30. Leases

A lease is a contract in which the lessor cedes the right to use an asset to the lessee for a certain period of time in return for consideration. On the commencement date of the contract, the Group shall assess whether the contract is a lease or contains a lease. A contract is a lease or contains a lease if a party to the contract cedes the right to control the use of one or more identified assets for a certain period of time in exchange for consideration. In order to determine whether the contract cedes the right to control the use of the identified assets for a certain period of time, the Group shall assess whether the customer in the contract is entitled to almost all of the economic benefits arising from the use of the identified asset during the period of use and is entitled to dominate the use of the identified asset during that period of use.

Where a contract contains multiple separate leases at the same time, the contract is split by the Group, and each separate lease is accounted for separately. If a contract contains both leased and non-leased components, the leased and non-leased components are separated for accounting treatment.

(1) The Group as a lessee

Right-of-use assets and lease liabilities are recognized against the lease at the commencement date of the lease term.

Right-of-use assets are initially measured at cost, which includes the initial measurement amount of the lease liability, the lease payments made on or before the commencement date of the lease (net of amounts related to lease incentives received), the initial direct costs incurred and the costs expected to be incurred to disassemble and remove the leased asset, restore the site where the leased asset is located or restore the leased asset to its agreed condition under the terms of the lease. The Group depreciates right-of-use assets using the straight-line method. Where it is reasonably certain that ownership of the leased asset will be obtained at the end of the lease term, the Group depreciates the leased asset over its remaining useful life. Otherwise, the leased asset is depreciated over the shorter of the lease term and the remaining useful life of the leased asset.

The lease liability is initially measured at the present value of the outstanding lease payments at the commencement date of the lease term, and the discount rate is the interest

rate implicit in the lease. If the interest rate implicit in the lease cannot be determined, the Group uses the incremental borrowing rate as the discount rate.

The Group calculates the interest expense on the lease liability for each period of the lease term based on a fixed periodic interest rate, which is charged to the current profit or loss or the cost of the related asset. Variable lease payments that are not included in the measurement of the lease liability are charged to the current profit or loss or the cost of the related assets when they are actually incurred.

After the start date of the lease term, the Group redetermines the lease payments and remeasures the lease liability at the present value calculated based on the changed lease payments and the revised discount rate if the following circumstances occur: a change in the evaluation of the purchase option, lease renewal option or lease termination option, a change in the lease term due to the actual exercise of the lease renewal option or lease termination option that is inconsistent with the original evaluation; a change in the amount expected to be payable based on the guaranteed residual value, or a change in the index or rate used to determine the lease payments.

When the lease liability is remeasured, the Group adjusts the book value of the right-of-use asset accordingly. If the book value of the right-of-use asset has been reduced to zero but the lease liability is subject to further reduction, the Group recognizes the remaining amount in profit or loss for the current period.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases (leases with a lease term not exceeding 12 months) and leases of low-value assets, and to recognize the related lease payments in profit or loss or the cost of the related assets on a straight-line basis or other systematic and reasonable methods over the respective periods of the lease term.

(2) The Group as a lessor

At the start date of the lease, the Group classifies leases as finance leases and operating leases. Finance leases are leases that substantially transfer all the risks and rewards associated with ownership of the leased assets, regardless of whether ownership is ultimately transferred. Operating leases are leases other than finance leases.

When the Group acts as a sublease lessor, it classifies the sublease based on the right-of-use asset arising from the original lease, rather than the underlying asset of the original lease. If the original lease is a short-term lease and the Group chooses to apply the simplified treatment of short-term leases described above to the original lease, the Group classifies the sublease as an operating lease.

Under finance leases, the Group recognizes finance lease receivables for finance leases at the start date of the lease term and derecognizes the finance lease assets. When the Group makes an initial measurement of finance lease receivables, the net amount of the lease investment is used as the entry value of the finance lease receivables. The net amount of the lease investment is the sum of the unguaranteed residual value and the present value of the lease payment not yet received at the start date of the lease term, discounted at the interest rate implicit in the lease.

The Group calculates and recognizes interest income for each period of the lease term based on a fixed periodic interest rate. Variable lease payments not included in the measurement of the net amount of the lease investment are recognized in profit or loss when they are actually incurred.

Under operating leases, the Group recognizes the lease payments from operating leases as rental income using the straight-line method (or other systematic and reasonable methods) over the respective periods of the lease term. Initial direct costs related to operating leases are capitalized and amortized to the current profit or loss over the lease term on the same basis as that rental income is recognized. Variable lease payments not included in the lease payments are recognized in profit or loss when they are actually incurred.

31. Held for sale

(1) The Group classifies non-current assets or disposal groups as held for sale if they are also: 1) immediately available for sale in their current condition in accordance with the practice of selling such assets or disposal groups in similar transactions; and 2) highly probable that a sale will occur, i.e., a resolution has been made and a firm purchase commitment obtained for a plan of sale, which is expected to be completed within one year. The relevant regulations require the approval of the relevant authority or regulatory authority before the sale can take place. The Group measures the book value of each asset and liability in a non-current asset or disposal group in accordance with the relevant accounting standards before it is first classified as held for sale. If the book value of a non-current asset or disposal group held for sale that is initially measured or re-measured at the balance sheet date is higher than the fair value less costs to sell, the book value is written down to the net amount of the fair value less costs to sell, and the amount written down is recognized as an impairment loss of the asset and recognized in profit or loss for the current period, with a provision for impairment of assets held for sale.

(2) Non-current assets or disposal groups acquired by the Group specifically for resale are classified as held for sale at the date of acquisition if they meet the condition that "the sale is expected to be completed within one year" at the date of acquisition and if they are likely to meet other classification conditions for the held for sale category within a short period of time

(usually three months). The initial measurement is to compare the initial measurement amount, assuming they are not classified as the held-for-sale category, with the net amount of the fair value less costs to sell and use the lower value. Except for non-current assets or disposal groups acquired in a business combination, differences arising from the initial measurement of non-current assets or disposal groups at fair value less costs to sell are recognized in profit or loss in the current period.

(3) If the Group loses control of a subsidiary as a result of the sale of an investment in the subsidiary, whether or not the Group retains part of the equity investment after the sale, the Group will classify the investment in the subsidiary as a whole as held for sale in the parent company's individual financial statements and all assets and liabilities of the subsidiary as held for sale in the consolidated financial statements when the investment in the subsidiary to be sold satisfies the criteria for classification as held for sale.

(4) Where the net amount of the fair value of non-current assets held for sale less costs to sell increases at the subsequent balance sheet date, the amount previously written down should be restored and reversed within the amount of the impairment loss of assets recognized after they have been classified as held for sale, and the reversed amount should be recognized in profit or loss for the current period. Impairment losses of assets recognized before the classification as held for sale are not reversed.

(5) For the amount of impairment losses of assets recognized for a disposal group held for sale, the book value of goodwill in the disposal group is first eliminated, and then the book value of each non-current asset is eliminated pro rata based on its share of the book value.

Where the net amount of the fair value of disposal groups held for sale less costs to sell increases at the subsequent balance sheet date, the amount previously written down should be restored and reversed within the amount of the impairment loss of assets recognized after they have been classified as held for sale and measured using the relevant provisions for non-current assets, and the reversed amount should be recognized in profit or loss for the current period. The book value of goodwill that has been eliminated and impairment losses of assets recognized before the classification of non-current assets as held for sale are not reversed.

The amount of subsequent reversal of impairment losses of assets recognized for disposal groups held for sale is increased proportionately to the book value of each non-current asset in the disposal groups, other than goodwill, based on its proportionate share of the book value of the asset.

(6) Non-current assets held for sale or non-current assets in disposal groups are not depreciated or amortized, and interest and other charges on liabilities in disposal groups held for sale continue to be recognized.

(7) Non-current assets held for sale or disposal groups that are no longer classified as held for sale because they no longer meet the criteria for classification as held for sale or non-current assets are removed from disposal groups held for sale are measured at the lower of 1) book value before classification as held for sale, adjusted for depreciation, amortization or impairment that would have been recognized had they not been classified as held for sale or 2) recoverable amount.

(8) Upon derecognition of non-current assets held for sale or disposal groups, the unrecognized gain or loss is recognized in profit or loss in the current period.

32. Fair value measurements

(1) Initial measurement of fair value

For an asset or liability measured at fair value, the Group measures its fair value using the price that a market participant would receive from selling an asset or paying to transfer a liability in an orderly transaction occurring at the measurement date, taking into account the characteristics of the asset or liability. When the underlying asset or liability is measured at fair value, a transaction by a market participant to sell the asset or transfer the liability at the measurement date is an orderly transaction under current market conditions; an orderly transaction to sell the asset or transfer the liability takes place in the primary market for the underlying asset or liability. Where no primary market exists, the transaction is assumed to take place in the most advantageous market for the underlying asset or liability; the assumptions used by the market participant in pricing the asset or liability to maximize its economic benefits are used. When measuring non-financial assets at fair value, consideration is given to the ability of a market participant to put the asset to its best use to generate an economic benefit, or to sell the asset to another market participant that is able to put it to its best use.

(2) Valuation technique

The Group measures the relevant asset or liability at fair value using valuation techniques that are appropriate in the circumstances and supported by sufficient available data and other information. The valuation techniques used mainly include the market approach, the income approach, and the cost approach, and in applying the valuation techniques, preference is given to the use of relevant observable inputs, and the use of unobservable inputs is only made when the relevant observable inputs are unavailable or impracticable to obtain.

(3) Fair value hierarchy

The Group determines the level at which the fair value measurement falls based on the lowest level at which the inputs that are significant to the overall fair value measurement fall: Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities

that are available at the measurement date. An active market is one in which the underlying asset or liability is traded in sufficient volume and frequency to provide pricing information on an ongoing basis. Level 2 inputs are inputs that are directly or indirectly observable for the underlying asset or liability, in addition to the Level 1 inputs. Level 3 inputs are the unobservable inputs of the underlying asset or liability.

33. Accounting treatment of financial asset transfers and securitization of non-financial assets

When a transfer of a financial asset occurs, it is judged on the basis of the transfer of substantially all the risks and rewards of ownership of the relevant financial asset: the corresponding financial asset is derecognized if it has been transferred in full; if it has not been transferred and substantially all the risks and rewards of ownership of the relevant financial asset have been retained, it is not derecognized; if it has neither transferred nor retained substantially all the risks and rewards of ownership of the relevant financial asset, derecognition is determined on the basis of the extent to which control over the financial asset is involved: if control over the financial asset is relinquished, the financial asset is derecognized; if control over the financial asset is not relinquished, the relevant financial asset is recognized to the extent of its continuing involvement in the financial asset and the related liability is recognized accordingly. If a financial asset meets the conditions for derecognition in its entirety, the difference between the consideration received for the transfer and the corresponding book value is included in the current profit or loss, and the cumulative change in the fair value of the financial asset previously included in the owners' equity directly is transferred to the current profit or loss; if the conditions for derecognition of a partial transfer are met, the book value of the entire financial asset involved in the transfer is apportioned between the derecognized portion and the non-derecognized portion according to their respective relative fair values, and the apportioned book value is treated on the basis of the entire transfer against the portion of the partial transfer. If the conditions for derecognition are not met, the consideration received is recognized as a financial liability.

34. Discontinued operations

A discontinued operation is a separately distinguishable component of the Group that meets one of the following conditions and is disposed of or classified as held for sale: (1) the component represents a separate principal business or a separate principal operating area; (2) the component is part of an associated plan to dispose of a separate principal business or a separate principal operating area; and (3) the component is a subsidiary acquired for resale.

35. Production safety expenses

The Group accrues and uses production safety expenses in accordance with the notice of Administrative Measures for the Extraction and Use of Enterprise Production Safety Expenses issued by the Ministry of Finance and the Ministry of Emergency Management (Cai Zi [2022] No. 136), and the actual operating income of the previous year is the basis for the accrual. The accrual is in accordance with the standards stipulated in the Measures. Production safety expenses are charged to the cost of the related product or profit or loss when withdrawn and are included in the "special reserve" account.

When the production safety expenses are used in accordance with the scope of regulations, they will be directly deducted from the special reserve if they belong to cost expenditure; if they belong to capital expenditure, the expenditure will be collected under the account of construction in progress, and then transferred to fixed assets when the project is completed and available for the intended use. The special reserve is written down according to the costs of the generated fixed assets, and the corresponding amount of accumulated depreciation is recognized at the same time. No depreciation will be charged for the fixed assets in subsequent periods.

36. Carbon emission rights

Certain subsidiaries of the Company are required to fulfill their emission reduction obligations as key emitters and recognize carbon emission-related assets and carbon emission expenses in accordance with relevant regulations:

(1) Present obligations arising from the fulfillment of emission reduction obligations are measured in accordance with the best estimates of the required expenditures and recognized as other payables and non-operating expenses;

(2) When carbon emission allowances are purchased, a carbon emission right asset is recognized in accordance with the price paid or payable at the date of purchase, with the balance shown as other current assets. If carbon emission allowances are acquired without compensation, no accounting treatment is required. When the purchased carbon emission allowances are used to fulfill the emission reduction obligations, the carbon emission right asset is reduced in accordance with the book value of the allowances used;

(3) No accounting treatment is required for the use of carbon emission allowances obtained without compensation to fulfill the obligations;

(4) When carbon emission allowances are sold, non-operating income or non-operating expenses are recognized in accordance with the difference between the price received or receivable on the date of sale and the book balance of the allowances sold.

V. Statement of changes in accounting policies and accounting estimates, and other adjustments

1. Significant changes in accounting policies

On October 25th, 2023, the Ministry of Finance issued *Accounting Standards for Business Enterprises Interpretation No. 17* (Cai kuai [2023] No. 21), which stipulates the following: “Classification of current liabilities and non-current liabilities”, “Disclosure of vendor financing arrangements”, and “Accounting for sale and leaseback transactions”, which became effective on January 1st, 2024. The implementation of this provision had no significant impact on the Company's financial statements for the reporting period.

On December 6th, 2024, the Ministry of Finance issued *Accounting Standards for Business Enterprises Interpretation No. 18* (Cai kuai [2024] No. 24), which stipulates the following: “I. Subsequent measurement of investment properties held as underlying items under the floating fee approach”, “II. Accounting for warranty-type quality assurance that is not a single performance obligation”, which became effective on January 1st, 2024. The implementation of this provision had no significant impact on the Company's financial statements for the reporting period.

2. Significant changes in accounting estimates

The Group had no significant changes in accounting estimates during the year.

3. Correction of significant prior-period accounting errors

The Group had no significant prior-period adjustments during the year.

VI. Taxes

1. Main taxes and tax rates

Taxes	Tax base	Statutory tax rate/levy rate
Value-added tax (VAT)	Taxable income derived from the sale of goods or the provision of taxable labor, taxable services	1%, 3%, 5%, 6%, 9%, 13%
Urban maintenance and construction tax	Actual turnover tax paid	3.5%, 5%, 7%
Education surtax	Amount of turnover tax paid	1.5%, 3%
Local education surtax	Amount of turnover tax paid	1%, 1.5%, 2%
Property tax	For ad valorem, 1.2 per cent of the residual value of the property after a lump sum deduction of 30 per cent of the original value; for rent-based levy, 12 per cent of the rental income	1.2% or 12%
Land use tax	Levy based on land area	RMB 3, 9, 12, 18/m ²
Resource tax	Sales amount obtained from the sale of goods	1%
Corporate income tax	Taxable income	7.5%, 12.5%, 15%, 20%, 25%

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

Taxes	Tax base	Statutory tax rate/levy rate
Profits tax	Taxable income	0%, 8.25%, 16.5%

2. Tax incentives and approvals**(1) Corporate income tax**

1) Pursuant to the *Notice of the Ministry of Finance and the State Taxation Administration on Issues Concerning the Implementation of the Catalogue of Preferential Corporate Income Tax for Public Infrastructure Projects* (Cai Shui [2008] No. 46) and the *Notice of the State Taxation Administration on Issues Concerning the Implementation of Preferential Corporate Income Tax for Public Infrastructure Projects Especially Supported by the State* (Guo Shui Fa [2009] No. 80), wind power projects and photovoltaic projects, approved after January 1st, 2008, of the Group's certain subsidiaries, which engage in public infrastructure, will be entitled to the tax incentive for a three-year tax exemption followed by a three-year half reduction starting from the year in which the projects receive the first production and operating income.

2) Pursuant to the *Reply Letter on Continuing the Implementation of Preferential Corporate Income Tax Policies in Ethnic Minority Autonomous Areas* (Yue Cai Fa [2017] No. 11) jointly issued by the Department of Finance of Guangdong Province, Guangdong Provincial Tax Service, State Taxation Administration, local tax service bureaus of Guangdong Province, the subsidiary Guangdong Yuedian Nanshui Power Generation Co., Ltd. ("Nanshui Power Generation"), is entitled to the local sharing portion of the exemption from corporate income tax, i.e. a 40% reduction of the income tax payable, from January 1st, 2018 to December 31st, 2025; and the subsidiary Yuedian Zhongda New Energy (Shaoguan) Co., Ltd. is entitled to the local sharing portion of the exemption from corporate income tax, i.e. a 40% reduction of the income tax payable, from January 1st, 2023 to December 31st, 2025.

3) Pursuant to the *Announcement on Continuing Corporate Income Tax Policies for the Development of the Western Region* (Announcement No. 23 of the Ministry of Finance, the State Taxation Administration and the National Development and Reform Commission of 2020), from January 1st, 2021 to December 31st, 2030, the corporate income tax for enterprises in the encouraged industries located in the western region is reduced to a tax rate of 15%. The subsidiaries, Tianshengqiao No.1 Level Water and Electricity Development Co., Ltd. ("Tianyi Company"), Guizhou Yueqian Electric Power Co., Ltd. ("Yueqian Electric Power"), Inner Mongolia Yuedian Menghua New Energy Co., Ltd., and Guizhou Yuebang Integrated Energy Co., Ltd. ("Guizhou Yuebang"), are subject to the preferential corporate income tax policies for enterprises that support the development of the western region.

4) High and new technology enterprises recognized in accordance with the *Administrative Measures for the Recognition of High and New Technology Enterprises* and *High and New Technology Enterprises Especially Encouraged by the State* jointly promulgated by the Ministry of Science and Technology, the Ministry of Finance and the State Taxation Administration in January 2016 may be entitled to the tax-related preferential policies for high and new technology enterprises in accordance with the new *Corporate Income Tax Law* and its implementation regulations which came into effect on January 1st, 2008, *the Law of the People's Republic of China on Taxation Levy and Administration* and the *Implementation Rules of the Law of the People's Republic of China on Taxation Levy and Administration*. Certain subsidiaries within the Group meet the above requirements and are eligible to pay corporate income tax at a rate of 15% for the current year.

5) Pursuant to the *Announcement on Further Improving the Policy of Pre-tax Additional Deduction of Research and Development Expenses* (No. 7 of 2023), the actual research and development expenses incurred by enterprises in carrying out research and development activities, which do not result in the formation of intangible assets to be recognized in the current profit or loss, shall be deducted based on the actual amount incurred in accordance with the regulations and then implement additional deduction before tax at 100% of the actual amount incurred from January 1st, 2023 onwards; and if intangible assets are formed, they shall be amortized before tax at 200% of the costs of the intangible assets from January 1st, 2023 onwards. The research and development expenses actually incurred by certain subsidiaries of the Group in carrying out research and development activities during the year complied with the above provisions and were entitled to the tax incentive.

6) Pursuant to the *Notice of the Ministry of Finance and the State Taxation Administration on the Preferential Corporate Income Tax Policies in Guangzhou Nansha* (Cai Shui [2022] No. 40), eligible enterprises of encouraged industries located in the Nansha Pilot Areas are subject to a reduced corporate income tax rate of 15%. The subsidiary Guangdong Energy Finance Leasing Co., Ltd. is entitled to this tax incentive.

7) Pursuant to the *Notice of the Ministry of Finance and the State Taxation Administration on Issues Concerning the Implementation of the Catalogue of Preferential Corporate Income Tax for Comprehensive Utilization of Resources* (Cai Shui [2008] No. 47), from January 1st, 2008, the revenue obtained by an enterprise by using the resources specified in the *Catalogue of Preferential Corporate Income Tax for Comprehensive Utilization of Resources* as the main raw materials to produce products that fall within the aforesaid catalogue and comply with the relevant national and industry standards is reduced to 90% and included in the total revenue of the enterprise for the year. Certain power generation subsidiaries of the Group, which produce commercial fly ash by comprehensive utilization of resources, meet the aforesaid

conditions for income tax preferences on the comprehensive utilization of resources, and therefore, the revenue generated from the sales of fly ash in 2024 may be deducted to 90% and included in the total revenue of the year.

8) Pursuant to the *Notice of the Ministry of Finance and the State Taxation Administration on Issues Concerning the Implementation of the Catalogue of Preferential Corporate Income Tax for Environmental Protection Specialized Equipment, the Catalogue of Preferential Corporate Income Tax for Energy-saving and Water-saving Specialized Equipment, and the Catalogue of Preferential Corporate Income Tax for Safety Production Specialized Equipment* (Cai Shui [2008] No. 48), the enterprises that purchased and used the specialized equipment for environmental protection, energy-saving and water-saving and safety production within the scope of the Catalogue of Preferential Corporate Income Tax for Environmental Protection Specialized Equipment, the Catalogue of Preferential Corporate Income Tax for Energy-saving and Water-saving Specialized Equipment and the Catalogue of Preferential Corporate Income Tax for Safety Production Specialized Equipment from January 1st, 2008 can offset the corporate income tax payable for the year at 10% of the investment amount in the specialized equipment; if the enterprise's tax payable for the year is insufficient for offsetting, it can be carried over to the subsequent years, but no more than five taxable years. Certain subsidiaries within the Group were entitled to this tax incentive during the year.

9) According to Cai Shui (2023) No. 5 *Circular of the Guangxi Zhuang Autonomous Region Tax Service of the State Taxation Administration on Clarifying the Policy of Exemption from the Local Sharing Portion of Corporate Income Tax in Certain Circumstances*, the following policy of exemption from the local sharing portion of corporate income tax shall be implemented for enterprises newly operated in the Beibu Gulf Economic Zone from 2014 to 2020 and in the Pearl River-Xijiang River Economic Belt (Guangxi) from 2016 to 2020 that have not applied the policy of exempting corporate income tax belonging to the local sharing portion; enterprises that meet the conditions of the National Preferential Corporate Income Tax Policy for the Development of Western China during the period of 2021-2025 shall be exempted from the corporate income tax belonging to the portion shared by the localities for five consecutive years, starting from the tax year in which they first meet the conditions of the Preferential Corporate Income Tax Policy for the Development of Western China. Subsidiaries Guangxi Wuxuan Yuefeng New Energy Co., Ltd. and Guangxi Hangneng New Energy Co., Ltd. were entitled to this tax incentive during the year.

10) Pursuant to the *Announcement of the Ministry of Finance and the State Taxation Administration on Tax Policies for Further Supporting the Development of Micro and Small Enterprises and Self-employed Individuals* (Announcement No. 12 of 2023), for small low-profit enterprises, the portion of their annual taxable income not exceeding RMB 1 million is included

in taxable income at a reduced percentage of 12.5% and subject to corporate income tax at a rate of 20%. The portion of their annual taxable income exceeding RMB 1 million but not exceeding RMB 3 million is included in taxable income at a reduced percentage of 25% and subject to corporate income tax at a rate of 20%. Certain subsidiaries within the Group were entitled to this tax incentive during the year.

11) Pursuant to Article 1 of the *Notice of the Ministry of Finance and the State Taxation Administration on Extending the Carry-forward Period for Losses of High and New Technology Enterprises and Science and Technology-based Small and Medium-sized Enterprises* (Cai Shui [2018] No. 76), from January 1st, 2018, enterprises with the qualification of high and new technology enterprises or science and technology-based small and medium-sized enterprises (hereinafter collectively referred to as the “qualifications”) in the current year are permitted to carry forward the losses not yet made up for but incurred in the preceding five years to the subsequent five years for making up for the losses, with the maximum carry-forward period being extended from 5 years to 10 years. The subsidiary Guangdong Construction Engineering Supervision Co., Ltd., being a high-tech enterprise, is allowed to carry forward the unrecovered losses for deduction within 10 years.

12) According to the *Announcement of the Ministry of Finance and the State Taxation Administration on Corporate Income Tax Deduction Policy for Equipment and Instruments* (Announcement No. 37 of 2023), for equipment and instruments newly purchased by enterprises between January 1st, 2014, and December 31st, 2027, those with a unit value not exceeding RMB 5 million are permitted to be included in the current period’s expenses and deducted in calculating taxable income, without annual depreciation calculations. For equipment and instruments with a unit value exceeding RMB 5 million, the relevant regulations such as *Regulations on the Implementation of the Corporate Income Tax Law*, the *Notice of the Ministry of Finance and the State Taxation Administration on Improving the Corporate Income Tax Policies for the Accelerated Depreciation of Fixed Assets* (Cai Shui [2014] No. 75), and the *Notice of the Ministry of Finance and the State Taxation Administration on Further Improving the Corporate Income Tax Policies for the Accelerated Depreciation of Fixed Assets* (Cai Shui [2015] No. 106) shall still apply. The subsidiary Guangdong Architectural Design and Research Institute Group Co., Ltd. is entitled to the tax incentive.

(2) Value-added tax (VAT)

1) According to the *Circular of the Ministry of Finance and the State Taxation Administration on Value-added Tax Policies for Wind Power Generation* (Cai Shui (2015) No. 74), since July 1st, 2015, the policy of 50% instant refund of value-added tax is implemented for the sale of electricity products generated by wind power and produced by taxpayers. Certain wind

power generation subsidiaries within the Group were entitled to this tax incentive during the year.

2) Pursuant to the *Circular of the Ministry of Finance and State Taxation Administration on Comprehensively Implementing the Pilot Program of Business Tax to VAT* (Cai Shui [2016] No. 36), the provision of international transportation services by subsidiaries, namely Guangdong Shipping Co., Ltd. ("Shipping Company") and Guangdong Yudean Shipping Co., Ltd. ("Yudean Shipping") are subject to zero VAT rate. International transportation services include the carriage of passengers or goods out of the country, the carriage of passengers or goods into the country, and the carriage of passengers or goods outside the country.

3) The *Announcement of the Ministry of Finance and the State Taxation Administration on Further Increasing the Implementation of the Policy of VAT End-of-Period Credit Refund* (Announcement of the Ministry of Finance and the State Taxation Administration No. 14 of 2022) stipulates that the policy of VAT end-of-period credit refund for "manufacturing", "scientific research and technology services", "electricity, heat, gas and water production and supply", "software and information technology services", "ecological protection and environmental management" and "transportation, storage and postal services" (hereinafter referred to as the "manufacturing and other industries") should be increased, and the policy of fully refunding the incremental value-added tax credit in advanced manufacturing industries on a monthly basis should be extended to the enterprises in the manufacturing and other industries that are eligible for the policy and the stock of tax credits of enterprises in manufacturing and other industries should be refunded in one go. Certain subsidiaries within the Group were entitled to this tax incentive during the year.

4) In accordance with the spirit of the document *Announcement of the Ministry of Finance and the State Taxation Administration on Clarifying the Policy of Reducing and Exempting Value-added Tax for Small-scale Taxpayers* (No. 1 of 2023), taxpayers in the production service industry are allowed to offset their taxable amount by the current period's deductible input tax increased by 5%. Certain subsidiaries within the Group were entitled to this tax incentive during the year.

5) Pursuant to the *Announcement of Ministry of Finance and the State Taxation Administration on the Policy of Reducing and Exempting Value-added Tax for Small-Scale Taxpayers of Value-added Tax* (Announcement No. 19 of 2023 of the Ministry of Finance and the State Taxation Administration), small-scale VAT taxpayers with a monthly sales volume of less than RMB 100,000 (inclusive) are exempt from VAT; small-scale VAT taxpayers to which the levy rate of 3% on their taxable sales revenue applied are subject to a reduced VAT levy rate of 1%; and the VAT on the items subject to VAT prepayment at the pre-collection rate of 3% are prepaid

at the reduced pre-collection rate of 1%. Certain subsidiaries within the Group were entitled to this tax incentive during the year.

6) Pursuant to the *Circular of the Ministry of Finance and State Taxation Administration on Comprehensively Implementing the Pilot Program of Business Tax to VAT* (Cai Shui [2016] No. 36), the subsidiaries, Guangdong Energy Group Science and Technology Research Institute Co., Ltd. ("Science Research Institute") and Information Technology Company are exempt from value-added tax when providing technology transfer, technology development, and the related technology consultation and technology services, provided that they are certified by the provincial-level science and technology authorities at their respective locations, and submit the relevant written contracts and the certification documents of the audit opinions of the science and technology authorities to the competent tax authorities for record-keeping.

7) Pursuant to the *Circular of the Ministry of Finance and State Taxation Administration on Comprehensively Implementing the Pilot Program of Business Tax to VAT* (Cai Shui [2016] No. 36), for general taxpayers among the pilot taxpayers engaged in financial leasing business and financial sale and leaseback business whose paid-in capital reaches RMB 170 million after May 1st, 2016, the part of the actual value-added tax burden exceeding 3% is subject to the policy of immediate refund of value-added tax upon collection. The subsidiary Finance Leasing Company is entitled to this tax incentive.

8) According to the *Preferential Catalogue of Value-added Tax on Products and Services for Comprehensive Utilization of Resources* (Cai Shui [2015] No. 78) of the Ministry of Finance and the State Taxation Administration, taxpayers are entitled to the policy of immediate refund of value-added tax on the sale of self-produced products of comprehensive utilization of resources and the provision of labor services of comprehensive utilization of resources. Certain subsidiaries within the Group were in compliance with the above provisions and were entitled to this tax incentive during the year.

9) Pursuant to the *Announcement of the Ministry of Finance and the State Taxation Administration on Further Increasing the Implementation of the Policy of VAT End-of-Period Credit Refund* (Announcement of the Ministry of Finance and the State Taxation Administration No. 14 of 2022), the policy of VAT end-of-period credit refund for micro and small enterprises should be increased, and the policy of fully refunding the incremental value-added tax credit in advanced manufacturing industries on a monthly basis should be extended to the micro and small enterprises that are eligible for the policy and the stock of tax credits of micro and small enterprises should be refunded in one go. Certain subsidiaries within the Group were in compliance with the above provisions and were entitled to this tax incentive during the year.

10) According to the *Circular of the Ministry of Finance and the State Taxation Administration on the Policies for the Levy and Exemption of Value-added Tax on Agricultural Production Materials* (Cai Shui (2001) No. 113), wholesale and retail sales of seeds, seedlings, chemical fertilizers, pesticides and agricultural machinery are exempted from value-added tax. The subsidiary Guangdong Huanong University Seed Industry Co., Ltd. is entitled to the tax incentive.

(3) Other tax incentives

1) Pursuant to the *Environmental Protection Tax Law of the People's Republic of China* (President Decree No. 61 of the People's Republic of China), if the concentration of taxable air pollutants or water pollutants discharged by a taxpayer is less than 30% of the pollutant emission standards set by the national and local regulations, the environmental protection tax shall be levied at 75% of the taxable amount. If the concentration of taxable air pollutants or water pollutants discharged by a taxpayer is less than 50% of the pollutant emission standards set by the national and local regulations, the environmental protection tax shall be levied at 50% of the taxable amount. Certain thermal power generation companies within the Group are entitled to this tax incentive.

2) Pursuant to the *Announcement of the Ministry of Finance and the State Taxation Administration on Tax Policies for Further Supporting the Development of Micro and Small Enterprises and Self-employed Individuals* (Announcement No. 12 of the Ministry of Finance and the State Taxation Administration of 2023), from January 1st, 2023 to December 31st, 2027, the resource tax (excluding water resource tax), urban maintenance and construction tax, property tax, urban land use tax, stamp duty (excluding stamp duty on securities transactions), farmland occupation tax, education surtax and local education surtax shall be levied by half for small-scale VAT taxpayers, small low-profit enterprises, and self-employed individuals. Certain subsidiaries within the Group are entitled to this tax incentive.

3) Pursuant to the *Announcement on Related Tax Policies to Support Financing for Micro and Small Enterprises* (Announcement No. 13 of the Ministry of Finance and the State Taxation Administration of 2023), stamp duty is exempt on borrowing contracts signed between financial institutions and small enterprises or micro enterprises. The subsidiary Guangdong Energy Group Finance Co., Ltd. is entitled to this tax incentive.

4) Pursuant to the *Notice of Guangdong Provincial Tax Service on Issues Concerning the Levy and Exemption of Land Use Tax for the Electric Power Industry* (Yue Shui San Zi [1989] No. 33), land use tax shall be levied on the land inside the perimeter wall of the thermal power plant according to the regulations. Land use tax shall be exempt for the land of the ash yard, ash pipeline and oil (gas) pipeline, and railroad lines outside the perimeter wall of the plant; other

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

land outside the perimeter wall of the plant shall be taxed according to the regulations. Certain thermal power generation companies within the Group are entitled to this tax incentive.

5) Pursuant to the *Announcement of the Ministry of Finance and the State Taxation Administration on Continuing to Implement the Preferential Urban Land Use Tax Policies for Land Used for Bulk Commodity Warehousing Facilities of Logistics Enterprises* (Announcement No. 5 of the Ministry of Finance and the State Taxation Administration of 2023), from January 1st, 2023 to December 31st, 2027, the urban land use tax on land used for bulk commodity warehousing facilities owned (including self-used and leased) or leased by logistics enterprises is reduced by 50% of the applicable tax rate of the respective land class. The subsidiary Guangdong Yangjiang Port Co., Ltd. is entitled to this tax incentive.

6) Pursuant to the *Announcement of the Ministry of Finance and the State Taxation Administration on Tax Policies for Further Supporting the Development of Micro and Small Enterprises and Self-employed Individuals* (Announcement No. 12 of the Ministry of Finance and the State Taxation Administration of 2023), from January 1st, 2023 to December 31st, 2027, the resource tax (excluding water resource tax), urban maintenance and construction tax, property tax, urban land use tax, stamp duty (excluding stamp duty on securities transactions), farmland occupation tax, education surtax and local education surtax shall be levied by half for small-scale VAT taxpayers, small low-profit enterprises, and self-employed individuals.

The subsidiaries, Guangdong Pearl River Delta Optimization Development Fund (Limited Partnership), Guangdong Hengrui Equity Investment Partnership (Limited Partnership), Guangdong Hengning Management Co., Ltd., and Guangdong Yuejian Digital Engineering Technology Co., Ltd. are VAT small-sized taxpayers, and are entitled to the tax benefits related to the above VAT exemption policy and the “Six Taxes and Two Fees” reduction and exemption policy.

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

(Unless otherwise specified, the amounts are expressed in RMB)

2. Reasons why the parent company does not own more than 50% of the voting rights of an investee but is able to exercise control over the investee

No.	Name of company	Shareholding ratio(%)	Ratio of voting rights (%)	Registered Capital	Investment amount	Level	Reasons for inclusion in the scope of consolidation
1	Tianshengqiao No.1 Level Water and Electricity Development Co., Ltd.	50.00	50.00	2,700,000,000.00	1,350,000,000.00	3	Note 1

Note: 1. The Company holds a 50% equity interest in Tianyi Company and is its largest shareholder. By appointing the chairman, general manager, and financial manager to oversee the daily operations of Tianyi Company, the Company has the ability to dominate the relevant activities of this investee and enjoy variable returns, thus exercising substantive control over Tianyi Company.

3. Reasons for the Group owning, directly or indirectly through other subsidiaries, more than half of the voting rights of the investee but failing to exercise control over the investee

No.	Name of company	Shareholding ratio(%)	Percentage of voting rights(%)	Registered capital (RMB 10,000)	Investment amount (RMB 10,000)	Level	Reasons for not being included in the scope of consolidation

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

No.	Name of company	Shareholding ratio(%)	Percentage of voting rights(%)	Registered capital (RMB 10,000)	Investment amount (RMB 10,000)	Level	Reasons for not being included in the scope of consolidation
6	Guangdong Hengjian Industrial Control New Energy Industry Equity Investment Fund Partnership Enterprise (Limited Partnership)	55.00	66.67	200,100.00	550.00	2	Note 6
7	Zhanjiang Yuexin Distributed Energy Technology Co., Ltd.	55.00	55.00	17,000,000.00	9,350,000.00	5	Note 7
8	AVIC Shenxin Wind Power Co., Ltd.	51.00	51.00	256,590,000.00	174,328,518.00	5	Note 8

Note: 1. (1) The Company did not meet the condition of owning the rights of the investee: the vote of the Investment Decision-making Committee of Guangdong Agricultural Supply-Side Structural Reform Fund Partnership (Limited Partnership) (hereinafter referred to as the "Agricultural Fund") is not considered to have been adopted until a two-thirds majority of the Committee has been reached. The Investment Decision-making Committee consists of five members, three of whom are appointed by the Company's controlled subsidiaries and two of whom are drawn from the Agricultural Fund's pool of experts, and the proportion of the Company's voting rights is less than two-thirds, which is not sufficient to meet the control conditions.

(2) The Company is not entitled to the variable returns of the Agricultural Fund: Firstly, according to the formation program, the income of the Fund attributable to Hengjian Holding Company's capital contribution may be fully transferred, specifically: in accordance with the principle of capital recovery before profit sharing, after all shareholders have recovered their investment costs, the Fund will generate investment income, and the income portion will be distributed by the shareholders of the Fund and the Fund Manager in accordance with the agreement. When the fund's investment is withdrawn and the principal is recovered, the fund's income attributable to Hengjian Holding Company's capital contribution can be fully transferred, and the transfer is linked to the results of the performance appraisal. Specific concessions will be proposed by the fund manager and approved by the Provincial Department of Agriculture in conjunction with the Provincial Department of Finance and the Provincial State-owned Assets Supervision and Administration Commission. Secondly, the Company's clear entitlement to the income from this investment is the fund management fee, which is charged at a fixed rate of 0.25% per annum of the limited partners' contributions and does not constitute a variable return.

As a result of the above factors: the Company cannot substantially control this company and therefore it is not included in the scope of consolidation.

2. In accordance with the relevant arrangements of the provincial government for the comprehensive promotion of rural revitalization, the Company established a seed industry revitalization sub-fund by relying on the Agriculture Supply-side Structural Reform Fund, and according to the Partnership Agreement of Guangdong Seed Industry Revitalization Equity Investment Fund Partnership (Limited Partnership) (hereinafter referred to as the "Seed Industry Revitalization Fund"), the share held by Guangdong Seed Industry Group Seed Industry Revitalization Private Fund Management Co., Ltd., a subsidiary of the Group, as a general partner (GP), is share of 0.05% and the Agriculture Fund, as a limited partner (LP), holds a share of 99.95%. The Seed Industry Revitalization Fund distributes income on the basis of the principle of return of capital before profit sharing, and the income distribution is mainly based on the ratio of paid-in capital of all partners, with the Agriculture Fund enjoying a significant proportion of the income. The Investment Decision Board of the Seed Industry Revitalization Fund consists of three members, two appointed by the Executive Partner, Guangdong Seed Industry Group Seed Industry Revitalization Private Fund Management Co., Ltd., and one appointed by the Limited Partner, Guangdong Province Agriculture Supply-side Structural Reform Fund Partnership (L.P.). Each member is entitled to one vote, and the unanimous approval of all members is required for significant matters such as investment and withdrawal of the partnership to be valid. As the Company does not have substantial control over the Agriculture Fund, the Company has not been able to achieve control over the decision-making of the Seed Industry Revitalization Fund.

As a result of the above factors: the Company cannot substantially control this company and therefore it is not included in the scope of consolidation.

3. In November 2019, the subsidiary Guangdong Hengkun Development Investment Fund Co., Ltd. (hereinafter referred to as "Hengkun Company") absorbed and merged with the former Guangdong Hengrong Agricultural Development Co., Ltd., and Hengkun Company became the controlling shareholder of Hengxin Company. In January 2021, Hengkun Company proposed to write off and liquidate Hengxin Company, and Guangdong New Rural Construction Investment Co., Ltd. explicitly replied that it did not recognize Hengkun Company's status as a shareholder of Hengxin Company and rejected Hengkun Company's proposal to write off and liquidate Hengxin Company. Hengkun Company has appealed to the Guangzhou Yuexiu District People's Court in relation to the shareholders' rights, requesting the People's Court to dissolve Hengxin Company. On May 26th, 2024, the People's Court ruled against Hengkun's request to dissolve and write off Hengxin Company. After the judgement, in the process of communicating with the

external shareholders of Hengxin Company, there were still many obstacles resulting in Hengkun Company's inability to exercise control over the operating activities of Hengxin Urban Rural.

Based on the above facts, the Company has not included Hengxin Company in the scope of consolidation as it has not been able to exercise control over Hengxin Company during the liquidation and write-off phase since 2021.

4. According to the *Partnership Agreement of Guangdong Beautiful Countryside No.1 Equity Investment Partnership (Limited Partnership)*, it has been agreed that the investment decision-making committee of the fund has a total of three members, two of which are appointed by the controlled subsidiary of Hengjian Holding Company, and that a resolution shall be valid only if it is unanimously agreed to by all the members.

As a result of the above factors: the Company was not able to exercise control over this fund and therefore it was not included in the scope of consolidation.

5. According to the *Partnership Agreement of Guangdong Zhongshan Listed Company High Quality Development Fund Partnership (Limited Partnership)*, it has been agreed that the investment decision-making committee of the fund has a total of three members, two of which are appointed by the controlled subsidiary of Hengjian Holding Company, and that a resolution shall be valid only if it is unanimously agreed to by all the members.

As a result of the above factors: the Company was not able to exercise control over this fund and therefore it was not included in the scope of consolidation.

6. According to the *Partnership Agreement of Guangdong Hengjian Industrial Control New Energy Industry Equity Investment Fund Partnership Enterprise (Limited Partnership)*, it has been agreed that the investment decision-making committee of the fund has a total of three members, two of which are appointed by the controlled subsidiary of Hengjian Holding Company, and that a resolution shall be valid only if it is unanimously agreed to by all the members.

As a result of the above factors: the Company was not able to exercise control over this fund and therefore it was not included in the scope of consolidation.

7. According to the articles of association of Zhanjiang Yuexin Distributed Energy Technology Co., Ltd., the chairman is appointed by the other shareholders, and several shareholders have significant influence over the company's directorships, management positions, and operational management.

8. According to the articles of association of AVIC Shenxin Wind Power Co., Ltd., shareholders of both parties have significant influence over the company's directorships, management positions, and operational management, jointly controlling the investee.

Note: The main changes in the provision for impairment during the period are as follows:

(1) Tumushuk Thermal Power Co., Ltd. (referred to as “Tumxuk Thermal”), a subsidiary of the Company, suffered operating losses due to persistently high fuel prices and other reasons, and there were indications of impairment for the long-term assets of Tumushuk Thermal, and Tumushuk Thermal was tested for impairment as an asset group (including goodwill) as at the end of the period, and the present value of the estimated future cash flows was determined to be RMB 1,864,922,200.00, after comparing the net fair value of the asset group less disposal costs and the present value of estimated future cash flows, a provision for impairment - machinery and equipment of RMB 170,093,337.17 was made in FY 2024.

(2) The subsidiary Honghai Bay Power part of the power generation equipment used for production to implement technological transformation, the equipment parts that should be

Notes to Financial Statements

Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

dismantled or replaced will be terminated or disposed of in advance, and there are indications of impairment of the related assets, and a provision for impairment of assets-machinery equipment of RMB 127,589,889.35 was made in 2024.

(3) Guangdong Yueneng Wind Power Co., Ltd., a subsidiary of the Company, suffered damage to the blades of some of its wind power generation equipment due to strong typhoon "Capricorn" during the year, and made a provision for impairment - machinery and equipment of RMB 11,738,926.20 based on the estimated loss in FY 2024.

(4) Subsidiary Hainan Wenyang New Energy Power Generation Co., Ltd. was affected by Typhoon "Capricorn" during the current year, and the General Manager's Office approved the provision for impairment of machinery and equipment based on the estimated loss of RMB 188,379,787.35 for FY 2024.

(5) The subsidiary, Shiguai District Guoyuan Qingneng Power Co., Ltd. made a provision for impairment of machinery and equipment of RMB 240,447,758.06 in FY 2024 due to the low probability of recovery of subsidies for photovoltaic projects, and the projected future cash flows of the power generation asset group were lower than the present value of the asset group.

(6) The subsidiary, Yangquan Huiyang New Energy Power Generation Co., Ltd. made a provision for impairment of machinery and equipment of RMB 153,344,071.34 in FY 2024 due to the low probability of recovery of subsidies for photovoltaic projects, and the projected future cash flows of the power generation asset group were lower than the present value of the asset group.

(2) Details of fixed assets without the title certificates

As of December 31st, 2024, the Company's Shajiao C Power Plant, Guangdong Electric Power Shajiao A Power Plant, Nanshui Power Generation, Maoming Thermal Power Plant, Xinfengjiang Company, Jinchang Muhong New Energy Co., Ltd. (hereinafter referred to as the "Muhong New Energy "), Ruyuan Yao Autonomous County Nanyuan Hydropower Development Co., Ltd., and Tianyi Company have fixed assets for which property rights certificates have not been issued.

Notes to Financial Statements

Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Machinery, transportation and office equipment	1,877,841,357.10	-	-	3,745,011,189.12
Others	26,918,439.30	-	-	311,505,331.58
Total provision for impairment	2,899,509.80	-	2,899,509.80	-
Including: Land	-	-	-	-
Houses and buildings	-	-	-	-
Machinery, transportation and office equipment	2,899,509.80	-	2,899,509.80	-
Others	-	-	-	-
Total book value	4,865,841,156.97	-	-	7,938,205,887.51
Including: Land	2,730,036,613.40	-	-	3,592,124,634.90
Houses and buildings	233,944,256.97	-	-	289,564,731.91
Machinery, transportation and office equipment	1,874,941,847.30	-	-	3,745,011,189.12
Others	26,918,439.30	-	-	311,505,331.58

Note: During the period, the decrease in right-of-use assets is due to the fact that some subsidiaries terminated the lease contracts early and acquired the ownership of the relevant power generation equipment by way of financing exchange, and the book value of the relevant right-of-use assets was transferred out to fixed assets.

Total	396,843,550.12	6,158,995.50	-	403,002,545.62

Note: In FY2024, there were impairment indicators for the long-term assets of Guangdong Guangye Nanhua New Energy Co., Ltd. ("Nanhua New Energy"), a subsidiary of the Company, due to the underutilization of production capacity, which resulted in lower-than-expected revenues. Guangdong Electric Power recognized Nanhua New Energy as an asset group (including goodwill) and tested the asset group for impairment. It used the present value of the estimated future cash flows to determine the recoverable amount of the asset group (including goodwill), and provided a provision for impairment of the full amount of goodwill of RMB 6,158,995.50.

38. Lease liabilities

Item	Closing balance	Opening balance
Lease payment amount	10,393,341,942.11	6,354,143,400.56
Less: Unrecognized financing costs	2,631,537,518.30	1,619,957,449.33
Reclassification to non-current liabilities due within one year	1,557,115,151.44	389,931,061.79
Net lease liabilities	6,204,689,272.37	4,344,254,889.44

39. Long-term payables

Item	Closing balance	Opening balance
Long-term payables	2,386,483,470.72	2,714,211,580.04
Specialized accounts payable	34,488,712.38	44,530,605.53
Total	2,420,972,183.10	2,758,742,185.57

(1) The top 5 items with the largest closing balance of long-term payables:

Item	Closing balance	Opening balance
Nanwang Finance Leasing Co., Ltd.	226,166,666.62	245,833,333.30
Sea area use right fee	497,787,634.13	400,793,283.13
Huadian Financial Leasing Co., Ltd.	389,709,157.54	-
Bank of China Financial Leasing Co., Ltd.	201,850,333.32	282,730,000.00
Bank of Communications Financial Leasing Co., Ltd.	185,928,242.49	307,661,504.19
Total	1,501,442,034.10	1,237,018,120.62

(2) The top 5 items with the largest closing balance of specialized accounts payable:

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Hanging Basket River Power Station and Nanrongtian Power Station Efficiency and Capacity Expansion Supporting Funds	24,960,000.00	-	-	24,960,000.00
Guangdong Infrastructure Investment Fund	3,000,000.00	-	-	3,000,000.00
Guangdong Jiaoling County Changdian Industry Development Corporation liquidation payment	2,860,609.75	-	-	2,860,609.75
Guangdong Fengshu Bashui Power Plant Economic Development Corporation liquidation payment	1,159,713.74	-	-	1,159,713.74
Guangdong Qingxi Hydropower Plant Industrial Development Corporation liquidation payment	1,404,977.42	-	-	1,404,977.42
Total	33,385,300.91	-	-	33,385,300.91

Note 1: The closing balance of the specialized accounts payable is mainly the supporting funds of RMB 24,960,000.00 for the efficiency and capacity expansion of Hanging Basket River Power Station and Nanrongtian Power Station in the subsidiary, Lincang Yudean Energy

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

Co., Ltd., which are provincial and centrally allocated funds for efficiency and capacity expansion and renovation. According to the *Notice on the Issuance of Implementation Rules for the Construction Management of Rural Hydropower Efficiency and Capacity Expansion and Renovation Projects in Yunnan Province* (Yun Shui Dian [2013] No. 46) issued by the Department of Water Resources of Yunnan Province and the Department of Finance of Yunnan Province, 4% interest was charged on this portion of the special payables.

40. Long-term employee benefits payable

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
I. Net liability for post-employment benefits - defined benefit plans	138,403,925.75	11,989,576.89	40,135,484.91	110,258,017.73
II. Termination benefits	394,921,104.82	345,026,291.64	50,117,751.48	689,829,644.98
III. Others long-term benefits	13,993,784.75	499,368.87	8,646.66	14,484,506.96
Total	547,318,815.32	357,515,237.40	90,261,883.05	814,572,169.67

Note: 1. The Group's long-term employee benefits payable are discounted by reference to the interest rate of treasury bonds with the same maturity.

2. Post-employment benefits represent primarily the present value of the Group's future extra-concentration expenses for retired employees.

3. Termination benefits mainly consist of: (1) Guangdong Electric Power Shajiao A Power Plant, a subsidiary, has officially shut down its remaining units on October 31st, 2023 and has prepared an employee resettlement plan. According to the employee resettlement plan, the balance of the termination benefits accrued as at the end of the period of 2024 amounting to RMB 264,362,150 was included in long-term employee benefits payable, and the termination benefits with an actual payment term of one year or less amounting to RMB 57,947,867 was included in employee benefits payable; (2) In accordance with the requirements of the "Guangdong Provincial Development and Reform Commission Issues Work Plan for Promoting the Decommissioning of the Shajiao Power Plant and the Construction of Alternative Power Sources" (Yue Fa Gai Neng Yuan Han [2019] No. 1537), the three units of the Company's Shajiao C Power Plant are expected to be shut down and retired at the end of 2025, and the present value of the termination benefits of RMB 224,466,320.51 was accrued in FY 2024; (3) The present value of employee benefits to be paid from the date of internal retirement to the actual date of retirement for employees eligible for internal retirement.

4. The balance of other long-term employee benefits payable mainly represented the retroactive medical insurance contributions for retired employees. The Group calculates the estimated expenses for each year between the end of the current year and the year in which the required number of accumulated contribution years is reached based on a certain

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

percentage of the corresponding year's salary of the retired employees, and estimates the present value for the medical insurance of related retired employees based on the discount rate (2024: 2%) for the same maturity of treasury bonds.

41. Provisions

Item	Closing balance	Opening balance
Pending litigation (Note 1)	665,859.60	586,891.37
Longhu PPP Project	-	13,840,000.00
Others (Note 3)	9,289,490.35	10,316,230.53
Total	9,955,349.95	24,743,121.90

Note 1: In February 2024, the case of construction contract dispute between Guangdong Changhai Construction Engineering Co., Ltd., Guangzhou Ruiyi Environmental Protection Technology Co., Ltd. and Municipal Management Center of Ruyuan Yao Autonomous County was filed in the People's Court of Luyuan Yao Autonomous County of Guangdong Province, and the subsidiary, GADRI, participated in the litigation as a third party. In the case, the Municipal Center of Ruyuan was unable to pass the environmental assessment and acceptance because the project process did not meet the environmental protection requirements. The Court of the first trial ruled to terminate the General Contracting Agreement, finding that all parties were at fault for the failure of the project to pass the environmental assessment and acceptance, and determining that the Municipal Center of Ruyuan should bear 70% of the liability at fault, and the Guangdong Institute, Changhai Company, Ruiyi Company, and Hongrui Company should bear 30% of the liability at fault. Accordingly, Guangdong Architectural Design and Research Institute Group Co., Ltd. is required to jointly and severally with other parties to compensate the loss of RMB 665,859.60 to the Municipal Center of Ruyuan, and the Guangdong Institute is expected to bear the full amount of the loss, thus recognizing a provision of RMB 665,859.60.

Note 2: In April 2017, the Company, as the Sponsor, together with Guangzhou Construction Engineering Co., Ltd. (hereinafter referred to as Guangzhou Construction) and Central & Southern China Municipal Engineering Design and Research Institute Co., Ltd. (hereinafter referred to as Central & Southern China Institute), formed a bidding consortium to participate in the bidding of Shantou Longhu East Industrial Park Infrastructure and Supporting PPP Project (hereinafter referred to as Longhu PPP Project), and won the bid on July 26th, 2017. After the project was awarded, due to the successive introduction of documents such as the Ministry of Finance's Notice on Regulating the Management of Project Pools on the Comprehensive Information Platform for Government and Social Capital Cooperation (PPP) (Cai Ban Jin [2017] No. 92) and the Provincial State-owned Assets

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

Supervision and Administration Commission's Notice on Strictly Controlling PPP Businesses of Provincial Enterprises (YGZH [2017] No. 1504), the project is now in the consultation withdrawal stage due to the restrictions of national laws and regulations.

The Company and Central & Southern China Institute entered into an agreement between the two parties for the payment of compensation of RMB 15.34 million by the Company to Central & Southern China Institute, which has now been paid. After the Company and the Longhu District Government reached a consensus to resolve the differences of the Longhu PPP project through friendly negotiation on February 2nd, 2021, taking into account the legal opinions of the legal advisors of both parties, the accounts provided for a provision of RMB 13,840,000.00 based on the schedule of preliminary costs of the Longhu East Industrial Park Infrastructure and Supporting PPP Project. The project was terminated by amicable negotiation in 2024, and the amount of compensation paid by the Company to the Longhu District Housing Construction Department was approximately RMB 23,493,237.27, and the amount of provision at the end of the period was zero.

Note 3: Other provisions primarily represent the 7.5% Narrabri mine rehabilitation costs that the subsidiary, UHI Investment (Australia) Co., Ltd., is contractually obligated to bear.

42. Deferred income

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Government grants	338,999,196.64	24,218,850.71	81,579,175.58	281,638,871.77

Including: Solely-state-owned capital reserve	-	-	-	-

Note 1: ① On February 6th, 2024, Guangdong Huanong Asset Management Co., Ltd. increased the capital of the Group's subsidiary, Guangdong Seed Industry Group Co., Ltd. with 25% of the equity interest of its subsidiary, Guangdong Huanong University Seed Industry Co., Ltd., and the Group's shareholding in Guangdong Seed Industry Group Co., Ltd. changed from 100% to 93.87%, and the transaction had an impact on the increase in the capital reserves by RMB 1,447,862.29.

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

② On December 26th, 2024, Guangdong Hengtai'an Investment Co., Ltd., a subsidiary of the Group, acquired a 49% minority interests in a subsidiary, Guangdong SOE Restructuring and Development Fund Management Co., Ltd., and the difference between the acquisition consideration and the share of the book value of the net assets affected the decrease of capital reserves by RMB 235,401.42.

Note 2: ① Other changes in the Group's equity in associates for the year, in proportion to the Group's shareholding, increased capital reserves by RMB 120,344,173.31.

46. Special reserves

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Production safety expenses	37,724,183.51	486,475,784.21	427,989,822.02	96,210,145.70
Total	37,724,183.51	486,475,784.21	427,989,822.02	96,210,145.70

Note: According to the *Administrative Measures for the Extraction and Use of Enterprise Production Safety Expenses* (Cai Zi [2022] No. 136) issued by the Ministry of Finance and the Ministry of Emergency Management, the Group extracts and uses special reserves during the year. The special reserves accrued for the year were RMB 969,561,358.35, of which the accrued special reserves attributable to the parent company amounted to RMB 486,475,784.21 and those attributable to non-controlling interests amounted to RMB 483,085,574.14. The special reserves utilized during the year were RMB 862,497,815.39, of which the utilized special reserves attributable to the parent company amounted to RMB 427,989,822.02 and those attributable to non-controlling interests amounted to RMB 434,507,993.37.

47. Surplus reserves

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Statutory Provident Fund	1,466,295,310.94	556,958,071.55	-	2,023,253,382.49
Total	1,466,295,310.94	556,958,071.55	-	2,023,253,382.49

Note: A statutory surplus reserve of RMB 556,958,071.55 was withdrawn at 10% of net profit for the year.

48. Undistributed profits

Item	Amount in the current year	Amount in the prior year
Closing balance in the prior year	26,804,821,410.03	20,114,237,566.71
Adjustment at the beginning of the year	-	-
Opening balance in the current year	26,804,821,410.03	20,114,237,566.71

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

Item	Amount in the current year	Amount in the prior year
Increase during the year	9,147,149,194.95	8,281,829,310.20
Including: Transfer to net profit for the year	8,909,712,524.99	8,281,829,310.20
Other adjustment factors (Note 1)	237,436,669.96	-
Decrease during the year	3,279,697,957.20	1,591,245,466.88
Including: Withdrawal of surplus reserves during the year	556,958,071.55	504,703,498.10
Cash dividends distributed during the year	753,851,100.00	999,479,700.00
Conversion into capital	1,800,000,000.00	
Other decreases (Note 2)	168,888,785.65	87,062,268.78
Closing balance in the current year	32,672,272,647.78	26,804,821,410.03

Note 1: The increase of RMB 199,034,725.83 in the Group's undistributed profits was affected by the change in accounting policy and the correction of prior-period errors of China Southern Power Grid Co., Ltd., an investee of the Group under the equity method, for the current year.

The increase of RMB 38,401,944.13 in the undistributed profits was affected by the transfer of the difference between the disposal price and book value to retained earnings due to the Group's disposal of investments in other equity instruments.

Note 2: The decrease of RMB 45,211,494.67 in the undistributed profits was affected by the transfer of the cumulative change in fair value previously recognized directly in owners' equity to retained earnings due to the Group's disposal of investments in other equity instruments.

The contribution of financial funds by Guangdong Energy Group, a subsidiary of the Group, affected the decrease of RMB 43,877,290.98 in the undistributed profits, and the contribution of the Reservoir Resettlement Fund by Guangdong Energy Group affected the decrease of RMB 79,800,000.00 in the undistributed profits.

49. Operating income and operating costs

Others	6,732,995,948.21	Right-of-use assets under finance lease, factoring financing, equity pledges for syndicated loans, etc.

IX. Contingencies

- Contingent liabilities arising from guarantees of debts given to other entities and their financial effects

- Guarantees for Guangdong-Macao Cooperation Development Fund (Limited Partnership)

In May 2018, the Group issued a letter of guarantee in favour of ICBC (Macao) Investment Company Limited (hereinafter referred to as the "Macao Party to the Guangdong-Macao Fund"), a party representing the Monetary Authority of the Macao Special Administrative Region. The entire paid-up capital contribution payable to the Macao Party to the Guangdong-Macao Fund under the *Guangdong-Macao Cooperation Development Fund (Limited Partnership) Partnership Agreement*, the limited partner's return calculated on the basis of its

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2024 - Dec. 31st, 2024

(Unless otherwise specified, the amounts are expressed in RMB)

paid-up capital contribution at the expected benchmark rate of return (the expected benchmark rate of return shall be used to calculate the limited partner's return regardless of whether the fund achieves such expected benchmark rate of return) and the Macao Party's share of the actual excess return generated under the partnership agreement is all guaranteed by the Company for the operating period of the Guangdong-Macao Cooperation Development Fund (Limited Partnership).

- (2) Counter-guarantee for China National Debt Credit Enhancement Investment Co., Ltd.

In May 2023, the Group, together with two other state-owned enterprises, provided a counter-guarantee to China National Debt Credit Enhancement Investment Co., Ltd. for an aggregate amount of RMB 1.7 billion, and the guarantee ratios of the Company and the other two guarantors were 40%, 40% and 20%, respectively, which means that the counter-guarantee provided by the Group to China National Debt Credit Enhancement Investment Co., Ltd. amounted to RMB 680 million.

- (3) As of December 31st, 2024, the subsidiary Guangdong Energy Group Co., Ltd. provided guarantees for the following companies:

Insured company	The guarantees	Amount (ten thousand yuan)	Guarantee start date	Guarantee termination date	Note
I. Subsidiaries	—	—	—	—	—
Guizhou Yudean Shiqian Wind Energy Co., Ltd.	Bank credit guarantee	3,162.86	2015-8-28	2030-8-27	Joint and several liability guarantee

Guizhou Yudean Zunyi Wind Energy Co., Ltd.	Bank credit guarantee	2,750.00	2017-5-15	2030-6-28	Joint and several liability guarantee
Yudean International Development Limited	Opening of letters of guarantee/standby letter of credit operations	8,895.65	2024-11-4	2025-11-4	General liability guarantee

Note: The main guarantees are listed below:

1. In 2019, the subsidiary, Guangdong Electric Power, entered into a joint liability guarantee contract with the Company to guarantee the loan transferred by the Company to the subsidiary, Guangdong Yudean Yangjiang Offshore Wind Power Co., Ltd. ("Yangjiang Offshore Wind Power"), which stipulates that Guangdong Electric Power will provide joint liability guarantee for the Company to the Guangdong Provincial Department of Finance in respect of all of Yangjiang Offshore Wind Power's debts under the *Energy Group Loan Transfer Agreement*, with the scope of the guarantee including, but not limited to, the principal amount, the interest, etc. As the actual debtor of the project loan is Yangjiang Offshore Wind Power, the guarantee provided by Guangdong Electric Power for the Company in respect of the

project loan is essentially a guarantee provided by the Company for the project loan obtained by Yangjiang Offshore Wind Power from the New Development Bank. At December 31st, 2024, the guarantee included a principal balance of RMB 1,789,440,000.00 and RMB 17,607,581.00 of interest payable.

2. Outstanding litigations and their financial impact

The Group's subsidiary Guangdong Architectural Design and Research Institute Co., Ltd. ("GADRI") is one of the members of the consortium for the construction project of Hainan Tropical Ocean University. On September 3rd, 2024, Hainan Tropical Ocean University (the plaintiff) sued various consortium entities, including Zhongtian Construction Group Co., Ltd. and the Company, on the grounds of project delay and project quality problems, claiming that the consortium should pay liquidated damages of RMB 19,419,959.70 and bear the attorney's fees, appraisal fees, preservation insurance premiums, and other litigation-related expenses. The Company received the prosecution materials on September 3rd, 2024, and the case is currently in its first hearing on December 2nd, 2024, and the hearing has not yet entered into court arguments. The Company believes that, according to the contractual agreement and the available evidence, the Company has completed the design work in accordance with the contract which has been accepted by the plaintiff, and there is no breach of contract, and the plaintiff has not made any allegation of breach of contract directly against the Company, therefore the Company does not need to be jointly and severally liable. Based on the above analysis, the Company considers that the case has no material adverse impact on the Company and therefore no provisions have been made.

As at the date of approval of this financial report, apart from the above pending litigations, other major pending litigations involving the Group and its subsidiaries are as follows:

3. Other significant events and their financial impacts

Pursuant to the relevant requirements of the People's Government of Guangdong Province and the State-owned Assets Supervision and Administration Commission, the People's Government of Guangdong Province, Naye Group Limited (hereinafter referred to as "Naye Group"), CHINA UNICON LIMITED (hereinafter referred to as "CHINA UNICON"), and the Group's subsidiary, Hengjian International Investment Holding (Hong Kong) Co., Ltd. (hereinafter referred to as "Hengjian Hong Kong"), entered into an *Equity Gift Agreement* on June 17th, 2024. Naye Group granted its 1% equity interest in THE MACAU CHINESE BANK LIMITED (hereinafter referred to as "CHINESE BANK") to CHINA UNICON and Hengjian Hong Kong as a gift, respectively.

On December 30th, 2024, Naye Group, CHINA UNICON, and Hengjian Hong Kong entered into the *Shareholders' Agreement*, stipulating that the board of directors shall consist of at least five members, among which Naye Group, CHINA UNICON, and Hengjian Hong Kong each appoint one member, and the remaining two members are jointly decided by the shareholders. As a result, Hengjian Hong Kong can have significant influence on the operating decisions of CHINESE BANK and should be accounted for under the equity method. Since the fair value of the net assets of CHINESE BANK was less than zero on the date of equity settlement, the cost of the long-term equity investment was zero and the book value of the long-term equity investment at the end of 2024 was also zero.

On November 25th, 2024, Hengjian Hong Kong deposited MOP 600 million to CHINESE BANK. On December 31st, 2024, the Company deposited MOP 2 billion to the bank and committed to the Monetary Authority of Macao that the above two funds would be subsequently used for capital increase of CHINESE BANK as replenishment of the bank's capital or replacement with other assets of equivalent value. Therefore, at the end of 2024, the Company reported MOP 2.6 billion (equivalent to approximately RMB 2.338 billion) as other non-current assets. As of the date of the auditor's report, the Company has not yet obtained the final directive documents from the superior government for the capital investment of CHINESE BANK, and therefore has not yet completed the procedures for the capital investment of CHINESE BANK.

4. Apart from the existence of the above contingencies, the Group had no other material contingencies as at December 31st, 2024.

X. Events after the balance sheet date

The Group has no other significant events after the balance sheet date.

Independent Auditor's Report

XYZH/2024GZAA1B0788

Guangdong Hengjian Investment Holding Co., Ltd.

To the Board of Directors of Guangdong Hengjian Investment Holding Co., Ltd.:

I. Audit opinion

We have audited the financial statements prepared by Guangdong Hengjian Investment Holding Co., Ltd. (hereinafter referred to as "Hengjian Holding Company"), including the Consolidated and Parent Company's Balance Sheet as at December 31st, 2023, Consolidated and Parent Company's Income Statement, Consolidated and Parent Company's Cash Flow Statement, Consolidated and Parent Company's Statement of Changes in Shareholders' Equity and Notes to the Financial Statements for 2023.

We believe that the attached financial statements have been prepared in accordance with the Accounting Standards for Business Enterprises in all major aspects, and have fairly reflected the Consolidated and Parent Company's financial position of Hengjian Holding Company as at December 31st, 2023, and the Consolidated and Parent Company's operating results and cash flows of 2023.

II. Basis for the audit opinion

We have conducted our audits in accordance with the Chinese Standards on Auditing. The "Auditor's responsibility for the financial statements" section further clarifies our responsibilities under these guidelines. In accordance with the Code of Professional Ethics of Chinese Certified Public Accountants, we are independent of the Hengjian Holding Company and have fulfilled other responsibilities in terms of professional ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

III. Key audit matters

Key audit matters are those matters that, in our professional judgment, are considered to be most significant to the audit of the financial statements for the period. These matters were addressed in the context of our audit of the financial statements as a whole and, in forming our audit opinion thereon, and we do not express a separate opinion on these matters.

Independent Auditors' Report (Continued)

XYZH/2024GZAA1B0788

Guangdong Hengjian Investment Holding Co., Ltd.

Fair value of financial instruments	
Key audit matter	Audit response
<p>As described in Note VIII. 2, 14, and 15 to the financial statements, as of December 31st, 2023, the financial assets held for trading, investments in other equity instruments and other non-current financial assets of Hengjian Holding Company were RMB 6,320,311,127.30, RMB 25,350,648,103.55 and RMB 6,863,343,948.58 respectively.</p> <p>The inputs used for the valuation techniques applied to financial instruments are classified as Level 1 and Level 3. As the valuation of the Company's financial instruments is based on a combination of market data and valuation models, a high number of variables usually need to be entered. The majority of these inputs are derived from data available in liquid markets. Where observable market data is not available for Level 3 financial instruments, significant judgements and estimates are involved. Due to the significant amounts involved and given the level of complexity involved in assessing the value of a financial instrument and the degree of reliance on the judgement applied by the management in determining the inputs used in the valuation methodology, we have identified the valuation of financial instruments measured at fair value as a key audit matter.</p>	<p>The audit procedures we performed on the valuation of financial instruments measured at fair value include:</p> <ol style="list-style-type: none"> 1. Understand and assess the effectiveness of the internal control processes used by the management to identify, measure and manage risks associated with the valuation of financial instruments; 2. Assess the reasonableness of the models used in the valuation of the management's Level 3 financial instruments, based on our knowledge of industry practice; 3. For Level 1 of valuation, we independently obtained observable market information and compared it with the valuation prices used by the Company by means of an audit sample; 4. We have also assessed the reasonableness and appropriateness of a sample of unobservable and observable inputs used by the management in measuring the fair value of Level 3 financial instruments based on relevant market data; 5. We have recalculated part of the sample for Level 3 financial instruments.

IV. The responsibility of the management and those charged with governance for the financial statements

The management of Hengjian Holding Company (Hereinafter referred to as "the Management") is responsible for the preparation of the financial statements in accordance with the provisions of the Accounting Standards for Business Enterprises to achieve a fair presentation, and designing, implementing and maintaining the necessary internal controls so that the financial statements are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management is responsible for assessing Hengjian Holding Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate Hengjian Holding Company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing Hengjian Holding Company's financial reporting process.

V. Auditor's responsibility for the financial statements

Our objective is to achieve reasonable assurance that the financial statements are free from material misstatements, whether due to fraud or error, and to express an opinion on these financial statements based on our audit. Reasonable assurance is a high level of assurance, but it does not guarantee that an audit performed in accordance with the auditing standards can detect all existing material misstatements. Misstatement can be caused by fraud or error. Misstatements are generally considered to be material if the reasonably expected misstatements, individually or collectively, may affect the economic decisions made by stakeholders based on the financial statements.

As part of an audit in accordance with Chinese Auditing Standards for Certified Public Accountants, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, design and performs audit procedures responsive to those risks, and obtain sufficient and appropriate audit evidence as a basis for our audit opinion. As fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls, the risk of material misstatement due to fraud is more likely than for one resulting from errors.

2. Obtain an understanding of internal control relevant to the entity's audit in order to design audit procedures that are appropriate in the circumstances.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and relevant disclosures made by the Management.

4. Draw a conclusion on the appropriateness of the Management's use of the going concern assumption, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Hengjian Holding Company's ability to continue as a going concern. If we conclude that material uncertainties exist, we are required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause Hengjian Holding Company to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the financial statements, and evaluate whether the financial statements represent the underlying transactions and events in a manner that achieve fair presentation.

Based on the financial information of Hengjian Holding Company, we obtained sufficient and appropriate audit evidence to express an audit opinion on the financial statement. We are responsible for guiding, supervising and implementing group audits, and are fully responsible for audit opinion.

We communicate with those charged with governance regarding, among other matters, the audit scope, timing, and significant audit findings, including any significant deficiencies in internal control that we have identified during the audit.

We also provide those charged with governance with a declaration that we have complied with the professional ethics requirements relating to our independence, and communicate with those charged with governance all relationships and other matters that may reasonably be deemed to affect our independence, as well as relevant precautions (if applicable).

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation prohibited public disclosure about the matter or when, in rare circumstances, we determine that a matter should not be communicated in our

I. Background of the Company

1. Enterprise history, place of registration, organizational form and headquarters address

Guangdong Hengjian Investment Holding Co., Ltd. (hereinafter referred to as "the Company", in the case of subsidiaries, "the Group") was established with the approval of the People's Government of Guangdong Province and is a wholly state-owned company where the State-owned Assets Supervision and Administration Commission of the Guangdong Provincial People's Government (hereinafter referred to as the "Provincial SASAC") performs the duties of a funder. The Company was founded on March 16th, 2006, with a registered capital of RMB 50 million at that time. After several rounds of capital increase in the past years, the registered capital of the Company is now RMB 22,717 million.

Unified social credit code: 91440000787926455P, company legal representative: Tang Jun, registered office: Room 386 of Room 406, No.1 Yichuang Street, Huangpu District (Zhong Xin Guangzhou Knowledge City), Guangzhou, China.

2. Business nature and principal operating activities of the enterprise

The Company belongs to the investment and asset management industry, and its business scope mainly includes operation and management of state-owned assets, operation and management of state-owned equity, trustee management, capital operation, fund investment and management, equity investment and management, financial investment, industrial research, and investment and consultancy business for the purpose of carrying out the above businesses.

3. Name of the parent company and the Group's headquarters

The controlling shareholder of the Company is the Guangdong Provincial SASAC and the actual controller is the People's Government of Guangdong Province. The Company sets up major functional institutions and departments, including Party Building Department, Discipline Inspection and Supervision Office, Board of Directors' Office, Office, Audit Center, Human Resources Department, Financial Management Center, Operation Management Department, Risk Control and Legal Affairs Center, Investment Management Department, Capital Operation Department, Fund Management Department and Strategic Research Institute.

The Company has established the Board of Directors, which exercises management and control over significant decisions and daily work of the Company.

4. Approval for presentation of the financial report

The Group's financial report was approved for presentation by the Board of Directors on April 29th, 2024.

II. Basis for the preparation of the financial statements

The Group's financial statements are prepared on a going concern basis, based on transactions and events that actually occurred, in accordance with the Accounting Standards for Business Enterprises issued by the Ministry of Finance and related regulations, and based on the accounting policies and estimates described in "Note IV. Significant accounting policies and accounting estimates".

III. Statement of compliance with Accounting Standards for Business Enterprises

The financial statements prepared by the Group comply with the requirements of enterprise accounting standards and give a true and complete picture of the Group's financial position, operating results and cash flows.

IV. Significant accounting policies and accounting estimates

1. Accounting period

The Group's accounting period is from January 1st to December 31st of the calendar year.

2. Functional currency

The Group uses Renminbi ("RMB") as its functional currency. Subsidiaries, joint ventures and associates of the Company determine their own functional currencies of record in accordance with the major economic environments in which they operate, and the currencies are translated into RMB, the Group's functional currency of record, for the purpose of preparing the consolidated statements.

3. Basis of bookkeeping and pricing principles

The Group's accounts are maintained on the accrual basis of accounting, with a pricing principle of historical cost, except for financial assets held for trading, investments in other equity instruments, and other non-current financial assets, which are measured at fair value.

4. Business combinations

Business combinations are categorized into business combinations involving entities under common control and business combinations involving entities not under common control.

Assets and liabilities acquired by the Group as a consolidator in a business combination under common control are measured at the book value of the consolidated party in the consolidated statements of the ultimate controlling party at the date of the combination. The difference between the book value of net assets acquired and the book value of the consideration paid for the combination is adjusted to capital reserves. If capital reserves are not sufficient to offset it, the retained earnings are adjusted.

The acquiree's identifiable assets, liabilities and contingent liabilities acquired in a business combination not under common control are measured at fair value at the acquisition date. The cost of consolidation is the sum of the fair value of cash or non-cash assets, liabilities issued or assumed, equity securities issued, etc., paid by the Group at the date of purchase to acquire control over the acquiree and all directly related costs incurred in the business combination (for a business combination achieved in stages through multiple transactions, the cost of consolidation is the sum of the costs of each individual transaction). If the cost of consolidation is greater than the fair value of the share of the acquiree's identifiable net assets acquired in the combination, the difference is recognized as goodwill. If the cost of consolidation is less than the fair value of the share of the acquiree's identifiable net assets acquired in the combination, the fair value of each of the identifiable assets, liabilities and contingent liabilities acquired in the combination, as well as the fair value of the non-cash assets or equity securities issued in the consideration of the combination, are first reviewed; and after the review, if the cost of consolidation is still less than the fair value of the share of the acquiree's identifiable net assets acquired in the combination, the difference is recognized in non-operating income for the period of the combination.

5. Methodology for the preparation of the consolidated financial statements

(1) Principles for determining the scope of consolidation

The Group includes all controlled subsidiaries and structured entities within the scope of the consolidated financial statements.

(2) Principles, procedures and methodology for the preparation of consolidated financial statements

If, in preparing the consolidated financial statements, the subsidiaries do not conform to the accounting policies or accounting periods adopted by the Company, the subsidiaries' financial statements are adjusted as necessary in accordance with the Company's accounting policies or accounting periods.

All significant internal transactions, balances and unrealized gains within the scope of the consolidation are eliminated in the preparation of the consolidated statements. The share of the ownership interest of a subsidiary that is not attributable to the parent company and the share of net profit or loss, other comprehensive income and total comprehensive income attributable to non-controlling interests for the current period are shown in the consolidated financial statements under the headings "Minority interests, gains or losses on non-controlling interests, other comprehensive income attributable to non-controlling interests and total comprehensive income attributable to non-controlling interests".

For subsidiaries acquired through business combinations under common control, the results of operations and cash flows are included in the consolidated financial statements from the beginning of the period in which they are consolidated. In preparing the comparative consolidated financial statements, adjustments are made to the relevant items in the prior year's financial statements, and the reporting entity resulting from the consolidation is considered to have existed from the point at which the ultimate controlling party commenced control.

Equity interest of the investee under common control acquired in stages through multiple transactions, which ultimately results in a business combination, is treated as if it had existed in its current state at the time when the ultimate controlling party began to exercise control and is adjusted in the preparation of the consolidated statements. When the comparative statements are prepared, the related assets and liabilities of the consolidated party are incorporated in the comparative statements of the Group's consolidated financial statements to the extent that they are no earlier than the point at which the Group and the consolidated party are both under the control of the ultimate controlling party, and the related items under owner's equity are adjusted in the comparative statements for the increase in net assets resulting from the combination. To avoid double-counting the value of the consolidated party's net assets, related profit or loss, other comprehensive income and other changes in net assets recognized for long-term equity investments held by the Group prior to the date of consolidation are offset against opening retained earnings and profit or loss for the comparative statement period from the later of the date of acquisition of the original equity interest and the date on which the Group and the consolidated party are under the ultimate control of the same party until the date of consolidation, respectively.

In the case of subsidiaries acquired through a business combination not under common control, the results of operations and cash flows are included in the consolidated financial statements from the date the Group acquires control. In preparing the consolidated financial statements, adjustments are made to the financial statements of subsidiaries based on the fair value of each identifiable asset, liability and contingent liability as determined at the date of purchase.

For the equity interest of the investee not under common control acquired in stages through multiple transactions, which ultimately results in a business combination, the equity interest in the investee held prior to the date of purchase is remeasured to its fair value at the date of purchase and the difference between the fair value and its book value is recognized in current investment income in preparing the consolidated statements; if the equity interest in the investee held prior to the date of purchase to which it relates involves other comprehensive income under the equity method of accounting and other changes in owner's equity other than

net profit or loss, other comprehensive income and profit distributions, it is converted to investment income or loss in the current period at the date of purchase, except for other comprehensive income arising from the remeasurement of changes in net liabilities or net assets of the investee's defined benefit plan.

The Group partially disposes of its long-term equity investments in subsidiaries without losing control, and the difference between the disposal price and the share of the subsidiaries' net assets calculated continuously from the date of purchase or the date of consolidation corresponding to the long-term equity investments disposed of is adjusted to capital premium or equity premium in preparing the consolidated financial statements. Retained earnings are adjusted if the capital reserve is not enough for offsetting.

If the Group loses control of the investee due to, for example, the disposal of a portion of its equity investment, the remaining equity interest is remeasured at its fair value at the date of loss of control in the preparation of the consolidated financial statements. The difference between the sum of the consideration received for the disposal of the equity interest and the fair value of the remaining equity interest, and the share of the original subsidiary's net assets calculated continuously according to the original shareholding ratio from the date of purchase or the date of consolidation, is included in the investment income or loss in the period in which control is lost, and goodwill is offset. Other comprehensive income related to equity investments in the original subsidiary is transferred to current investment income or loss upon loss of control.

If the Group's equity investment in a subsidiary is disposed of step by step through multiple transactions up to the loss of control, if each transaction that disposes of the equity investment in the subsidiary up to the loss of control is a package deal, each transaction is accounted for as a transaction that disposes of the subsidiary up to the loss of control; however, the difference between the price of each disposal prior to the loss of control and the share of the subsidiary's net assets corresponding to the investment disposed of is recognized as other comprehensive income in the consolidated financial statements and transferred to the investment income or loss for the period of loss of control when the control is lost.

6. Classification of joint arrangements and accounting treatment of joint operations

The Group's joint arrangements include joint operations and joint ventures. For the projects belonging to joint operations, the Group recognizes assets held and liabilities assumed on its own and assets held and liabilities assumed on a share basis as a joint operator in the joint operations, and recognizes the related revenues and expenses on its own or a share basis in accordance with the relevant agreements. If a transaction such as purchases of assets from or sales of assets to a joint operation occurs and does not constitute a business, only the portion of the gain or loss arising from the transaction that is attributable to the other participants in

the joint operation is recognized. A joint arrangement is an arrangement under the common control of two or more participants, divided into joint operations and joint ventures.

7. Criteria for determining cash and cash equivalents

Cash in the Group's cash flow statement represents cash on hand and deposits readily available for payment, while cash equivalents in the cash flow statement represent investments with a holding period of not more than three months, which are liquid, readily convertible into known amounts of cash and have little risk of changes in value.

8. Foreign currency operations and translation of foreign currency statements

(1) Foreign currency transactions

The Group's foreign currency transactions are translated into RMB amounts at the spot rate on the date of the transaction. At the balance sheet date, monetary items in foreign currencies are translated into RMB using the spot rate at the balance sheet date. The resulting translation differences are recognized directly in profit or loss, except for exchange differences arising from special foreign currency borrowings for the purchase or production of assets eligible for capitalization, which are treated on a capitalization basis.

(2) Translation of foreign currency financial statements

Assets and liabilities items on the foreign currency balance sheet are translated using the spot rate at the balance sheet date; items in the owners' equity category, except for "undistributed profits", are translated at the spot rate at the time of the operation; income and expense items in the income statement are translated using the average exchange rate of the year in which the transaction occurs. The translation differences of foreign currency statements arising from the above translation are shown in the item "Other comprehensive income" of owners' equity. Foreign currency cash flows are translated using the average exchange rate in the year in which the cash flows occur. The effect of exchange rate changes on cash is shown separately in the cash flow statement.

9. Recognition and measurement of financial instruments

A financial instrument is a contract that creates a financial asset of an enterprise and a financial liability or equity instrument of another entity.

(1) Financial assets

1) Classification, recognition and measurement of financial assets

The Group's financial assets are classified at initial recognition based on its business model for managing the financial assets and contractual cash flow characteristics of the financial assets, into as follows: financial assets measured at amortized cost, financial assets at fair value through

other comprehensive income, and financial assets at fair value through profit or loss. All related financial assets that are affected are reclassified when, and only when, the Group changes its business model for managing the financial assets.

Financial assets are initially recognized at fair value, except that accounts receivable or notes receivable arising from the sale of goods or provision of services, etc., which do not contain significant financing components or do not consider financing components of no more than one year, are initially measured at the transaction price.

For financial assets at fair value through profit or loss, the related transaction costs are recognized directly in the current profit or loss, while the related transaction costs of other categories of financial assets are included in their initial recognition amounts.

The Group classifies financial assets as financial assets measured at amortized cost if both of the following conditions are met: ① the business model for managing such financial assets is to collect contractual cash flows. ② the contractual terms of the financial assets provide that the cash flows arising on a specific date are solely payments of principal and interest on the principal amount outstanding. Interest income from such financial assets is recognized using the effective interest method, and gains or losses arising from derecognition, modification or impairment are recognized in profit or loss for the current period. The Group's financial assets in this category mainly include accounts receivable, notes receivable and other receivables.

The Group classifies financial assets as financial assets at fair value through other comprehensive income if both of the following conditions are met: ① the business model for managing the financial assets is to both collect contractual cash flows and sell the financial assets. ② the contractual terms of the financial assets provide that the cash flows arising on a specific date are solely payments of principal and interest on the principal amount outstanding. Interest income from such financial assets is recognized using the effective interest method. Changes in fair value are recognized in other comprehensive income, other than interest income, impairment losses and exchange differences which are recognized in the current profit or loss. When a financial asset is derecognized, the cumulative gains or losses previously recognized in other comprehensive income shall be transferred from other comprehensive income to the current profit or loss.

Investments in equity instruments at fair value through other comprehensive income: the Group irrevocably elects to designate certain investments in non-trading equity instruments as financial assets at fair value through other comprehensive income and recognizes only the related dividend income (except for dividend income that is explicitly recovered as the costs of the investments) in the current profit or loss, and subsequent changes in fair value are recognized in other comprehensive income without provisions for impairment. When a financial

asset is derecognized, the cumulative gains or losses previously recognized in other comprehensive income shall be transferred from other comprehensive income to retained earnings.

For financial assets other than those classified as financial assets measured at amortized cost and those classified as financial assets at fair value through other comprehensive income as described above, the Group classifies them as financial assets at fair value through profit or loss. Such financial assets are subsequently measured at fair value, and all changes in fair value are recognized in the current profit or loss. The Group's financial assets in this category mainly include financial assets held for trading and other non-current financial assets.

If the contingent consideration recognized by the Group in a business combination not under common control constitutes a financial asset, the financial asset is classified as a financial asset at fair value through profit or loss.

2) Recognition and measurement of the transfer of financial assets

If substantially all the risks and rewards of ownership of a financial asset have been transferred by the Group to the transferee, the financial asset is derecognized. If substantially all the risks and rewards of ownership of the financial asset have been retained, the financial asset is not derecognized.

If the Group has neither transferred nor retained substantially all the risks and rewards of ownership of the financial asset, the treatment shall be as follows: ① where the control over the financial asset has been surrendered, the financial asset shall be derecognized and the resulting assets and liabilities shall be recognized; ② where the control over the financial asset has not been surrendered, the related financial asset shall be recognized to the extent of the continuing involvement in the transferred financial asset and the associated liability is recognized correspondingly.

Where the continuing involvement is in the form of a financial guarantee for the transferred financial asset, the asset resulting from the continuing involvement is recognized at the lower of the book value of the financial asset and the amount of the financial guarantee. The amount of the financial guarantee is the maximum amount of consideration received that will be required to be repaid.

If the transfer of a financial asset as a whole satisfies the conditions for derecognition, the difference between the book value of the transferred financial asset and the sum of the consideration received for the transfer and the cumulative amount of changes in fair value previously recognized directly in other comprehensive income corresponding to the derecognized portion is recognized in the current profit or loss.

3) Impairment of financial instruments

a. Application scope

The Group accounts for the impairment of financial assets measured at amortized cost, investments in debt instruments at fair value through other comprehensive income, lease receivables and contract assets and recognizes a provision for losses on the basis of expected credit losses.

For receivables and contract assets that do not contain significant financing components, the Group applies a simplified measurement method and measures the provision for losses at an amount equal to the expected credit losses over the entire duration.

For lease receivables and receivables and contract assets with significant financing components, the Group elects to use the simplified measurement method and measures the provision for losses at an amount equal to the expected credit losses over the entire duration.

b. Methodology for determining expected credit losses and accounting treatment

For a financial asset, loan commitment and financial guarantee contract other than those using the simplified measurement method as described above, the Group assesses at each balance sheet date whether its credit risk has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition and it is in the first stage, the Group measures the provision for losses at an amount equal to the expected credit losses over the next 12 months and calculates interest income based on the book balance and the effective interest rate. If the credit risk has increased significantly since initial recognition but no credit impairment has occurred, it is in the second stage, and the Group measures the provision for losses at an amount equal to the expected credit losses over the entire duration and calculates interest income based on the book balance and the effective interest rate. If credit impairment occurs after initial recognition, it is in the third stage, and the Group measures the provision for losses at an amount equal to the expected credit losses over the entire duration and calculates interest income based on the amortized cost and the effective interest rate. For financial instruments with only low credit risk at the balance sheet date, the Group assumes that the credit risk has not increased significantly since initial recognition.

The Group's approach to measuring expected credit losses on financial instruments reflects the elements including an unbiased and probability-weighted average amount that is determined by evaluating a range of possible outcomes; the time value of money; and reasonable and well-founded information that is available without undue cost or effort at the

balance sheet date about past events, current conditions and forecasts of future economic conditions.

When the Group no longer reasonably expects to recover all or part of the contractual cash flows from a financial asset, it directly writes down the book balance of the financial asset.

(2) Financial liabilities

1) Classification, recognition and measurement of financial liabilities

The Group's financial liabilities are classified on initial recognition as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost. For financial liabilities at fair value through profit or loss, the related transaction costs are recognized directly in the current profit or loss; and for financial liabilities measured at amortized cost, the related transaction costs are recognized in their initial recognition amounts.

If the contingent consideration recognized by the Group in a business combination not under common control creates a financial liability, it is accounted for at fair value through profit or loss.

The subsequent measurement of a financial liability depends on its classification:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss comprise financial liabilities held for trading (including derivatives that are financial liabilities) and financial liabilities designated as at fair value through profit or loss at initial recognition. Financial liabilities held for trading (including derivatives that are financial liabilities) are subsequently measured at fair value and all changes in fair value are recognized in the current profit or loss, except those relating to hedge accounting. Financial liabilities designated as at fair value through profit or loss are subsequently measured at fair value and changes in fair value are recognized in the current profit or loss, except for changes in fair value attributable to changes in the Group's own credit risk, which are recognized in other comprehensive income. If the recognition of changes in fair value attributable to changes in the Group's own credit risk in other comprehensive income would result in or magnify accounting mismatches in profit or loss, the Group recognizes all changes in fair value (including the amount of the effect of changes in the own credit risk) in the current profit or loss.

Financial liabilities measured at amortized cost

Such financial liabilities are subsequently measured at amortized cost using the effective interest method.

2) Derecognition of financial liabilities

A financial liability or the part thereof with the obligation discharged shall be derecognized if the present obligation of the financial liability has been discharged in whole or in part. If the Group and the creditor sign an agreement to replace the existing financial liabilities by assuming the new financial liabilities and the contractual terms of the new financial liabilities and the existing financial liabilities are substantially different, the Group shall derecognize the existing financial liabilities and recognize the new financial liabilities at the same time. If the Group substantially modifies all or part of the contractual terms of the existing financial liabilities, the existing financial liabilities or a part thereof shall be derecognized, and at the same time the financial liabilities under modified terms shall be recognized as a new financial liability. The difference between the book value of the derecognized portion and the consideration paid is recognized in the current profit or loss.

(3) Methodology for determining the fair values of financial assets and financial liabilities

Fair value is the price that a market participant would receive for selling an asset or pay for transferring a liability in an orderly transaction occurring at the measurement date.

The Group measures the fair values of financial assets and financial liabilities at the price in the principal market; in the absence of the principal market, the fair values of financial assets and financial liabilities are measured at the price in the most advantageous market, and the valuation techniques applicable at that time and supported by enough available data and other information are adopted. The inputs used in fair value measurement are divided into three levels, namely, Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that are available at the measurement date; Level 2 inputs are inputs other than Level 1 inputs that are observable for the related assets or liabilities, either directly or indirectly; and Level 3 inputs are unobservable inputs for the related assets or liabilities. The Group prioritizes the use of the Level 1 inputs and finally the Level 3 inputs. Level 1 inputs are used for financial assets held for trading, and either Level 1 or Level 3 inputs are used for other non-current financial assets and investments in other equity instruments. The level at which the fair value measurement result falls is determined by the lowest level at which the inputs that are significant to the overall fair value measurement fall.

At each balance sheet date, the Group reassesses the assets and liabilities measured at fair value on a recurring basis in the financial statements to determine whether there is a conversion between the fair value measurement levels.

The Group's investments in equity instruments are measured at fair value. However, in limited circumstances where there is insufficient recent information available to determine fair value or where the range of possible estimates of fair value is wide and the cost represents the

best estimate of fair value within that range, the cost may represent the appropriate estimate of fair value within that range.

(4) Offsetting of financial assets and financial liabilities

The Group's financial assets and financial liabilities are presented separately on the balance sheet and are not offset against each other. However, they are presented on the balance sheet in net amounts after offsetting each other when both of the following conditions are met: 1) the Group has a legal right to offset the recognized amounts and such legal right is currently enforceable; and 2) the Group plans to settle on a net basis, or to realize the financial assets and settle the financial liabilities simultaneously.

(5) Derivative financial instruments

The Group uses derivative financial instruments, which are initially measured at fair value at the date the derivative transaction contract is entered into and subsequently measured at fair value. A derivative financial instrument is recognized as an asset, if with a positive fair value or as a liability if with a negative fair value. Gains or losses on changes in fair value of derivatives are recognized directly in profit or loss, except those in relation to hedge accounting.

(6) Distinction between financial liabilities and equity instruments and related treatment

The Group distinguishes between financial liabilities and equity instruments in accordance with the following principles: 1) a contractual obligation meets the definition of financial liability if the Group cannot unconditionally avoid meeting that obligation by delivering cash or other financial assets. Some financial instruments do not explicitly contain terms and conditions for the obligation to deliver cash or other financial assets, but it is possible that contractual obligations may arise indirectly through other terms and conditions. 2) if a financial instrument must or may be settled with the Group's own equity instruments, consideration needs to be given to whether the Group's own equity instruments used to settle the instrument are intended as a substitute for cash or other financial assets or to give the holder of the instrument a residual interest in the assets of the issuer after deducting all liabilities. In the former case, the instrument is a financial liability of the issuer; in the latter case, the instrument is an equity instrument of the issuer. In some cases, a financial instrument contract stipulates that the Group must or may settle the financial instrument with its own equity instruments, where the amount of the contractual right or contractual obligation is equal to the number of its own equity instruments available for acquisition or delivery multiplied by their fair values at the time of settlement, regardless of whether the amount of the contractual right or obligation is fixed or varies wholly or partly with variables other than the market price of the Group's own equity

instruments (such as interest rates, the price of a commodity or the price of a financial instrument), the contract is classified as a financial liability.

The Group takes into account all terms and conditions agreed between group members and holders of financial instruments when classifying financial instruments (or their components) in the consolidated statements. An instrument is classified as a financial liability if the Group in its entirety has an obligation to deliver cash, or other financial assets or settle in another manner that causes the instrument to become a financial liability as a result of the instrument.

If financial instruments or their components are financial liabilities, the related interest, dividends (or bonuses), gains or losses, and gains or losses arising from redemption or refinancing are recognized by the Group in the current profit or loss.

If financial instruments or their components are equity instruments, when they are issued (including refinancing), repurchased, sold or canceled, the Group treats them as changes in equity and does not recognize changes in the fair value of equity instruments.

10. Notes receivable and receivables

(1) Notes receivable, accounts receivable, receivables financing and contract assets

For receivables such as accounts receivable, notes receivable, receivables financing, and contract assets that do not contain significant financing components and that arise from ordinary operating activities, e.g., sales of goods and rendering of services, the Company applies a simplified measurement method and measures the provision for losses at an amount equal to the expected credit losses over the entire duration.

The Group classifies notes receivable, accounts receivable, receivables financing, contract assets and long-term receivables into portfolios based on their credit risk characteristics, calculates expected credit losses on a portfolio basis and determines the portfolio categories as follows:

1) Notes receivable

- Notes receivable portfolio 1: Bank notes receivable portfolio
- Notes receivable portfolio 2: Commercial notes receivable portfolio

2) Accounts receivable

- Accounts receivable portfolio 1: Electricity bills receivable (general electricity bills)
- Accounts receivable portfolio 2: Electricity bills receivable (new energy subsidy)
- Accounts receivable portfolio 3: Receivables from related parties
- Accounts receivable portfolio 4: Other accounts receivable portfolio

3) Receivables financing

- Receivables financing portfolio 1: Notes receivable portfolio
- Receivables financing portfolio 2: Accounts receivable portfolio

4) Contract assets

- Contract asset portfolio 1: Portfolio of receivables not meeting collection terms
- Contract asset portfolio 2: Portfolio of outstanding warranties

5) Long-term receivables

- Long-term receivables portfolio 1: Finance lease deposit portfolio
- Long-term receivables portfolio 2: Other long-term receivables portfolio

For notes receivable, accounts receivable, receivables financing, contract assets and long-term receivables classified as a portfolio, the Group calculates expected credit losses by taking into account historical credit loss experience, current conditions and forecasts of future economic conditions through default exposures and expected credit loss rates for the entire duration.

(2) Other receivables

The Group measures a provision for losses on other receivables based on the following situation: ① for financial assets whose credit risk has not increased significantly since initial recognition, the Group measures the provision for losses based on the amount of expected credit losses over the next 12 months; ② for financial assets whose credit risk has increased significantly since initial recognition, the Group measures the provision for losses based on the amount of expected credit losses over the entire duration; ③ for purchased or originated financial assets with credit impairment, the Group measures the provision for losses based on the amount of expected credit losses over the entire duration.

The Group classifies other receivables into portfolios based on credit risk characteristics and calculates expected credit losses on a portfolio basis, which is determined as follows:

- Other receivables portfolio 1: Interest receivable
- Other receivables portfolio 2: Dividends receivable
- Other receivables portfolio 3: Receivables from governmental units
- Other receivables portfolio 4: Advances receivable portfolio
- Other receivables portfolio 5: Deposits and reserves receivable
- Other receivables portfolio 6: Receivables from related parties

- Other receivables portfolio 7: Other portfolios

For other receivables classified as a portfolio, the Group calculates expected credit losses by reference to historical credit loss experience, combined with current conditions and projections of future economic conditions, through default exposure and expected credit loss rates over the next 12 months or the entire duration.

(3) Low credit risk

A financial instrument is considered to have low credit risk if the risk of default on the financial instrument is low, the borrower's ability to meet its contractual cash flow obligations in the short term is strong, and even if there are unfavorable changes in economic conditions and the business environment in a long period, it may not necessarily weaken the borrower's ability to meet its contractual cash flow obligations.

(4) Assessment of a significant increase in credit risk

The Group determines the relative change in the risk of default over the expected life of a financial instrument by comparing the risk of default at the balance sheet date to the risk of default at the initial recognition date to assess whether the credit risk of the financial instrument has increased significantly since initial recognition.

In determining whether credit risk has increased significantly since initial recognition, the Group considers reasonable and well-founded information, including forward-looking information, that is available without undue additional cost or effort. The information considered by the Group includes:

- ① Failure of the debtor to pay principal and interest as due under the contract;
- ② Significant deterioration that has occurred or is expected, if any, in the external or internal credit ratings of financial instruments;
- ③ Significant deterioration that has occurred or is expected in the debtor's operating results;
- ④ Existing or anticipated changes in the technological, market, economic or legal environment that would have a material adverse effect on the debtor's ability to repay the Group.
- ⑤ Whether there are significant changes in internal price indicators resulting from changes in credit risk;
- ⑥ Whether there are adverse changes in business, financial or economic conditions that are expected to result in a significant change in the debtor's ability to meet its debt service obligations;

⑦ Whether there is a significant change in the actual or expected operating results of the debtor; whether there is a significant adverse change in the regulatory, economic or technological environment in which the debtor operates;

⑧ Whether there are significant changes in the value of collateral pledged as debt security or in the quality of guarantees or credit enhancements provided by third parties. These changes are expected to reduce the debtor's economic incentive to make repayments within the contractual period or affect the probability of default;

⑨ Whether there is a significant change in the expectation that would reduce the debtor's economic incentive to make repayments within the contractual period;

⑩ Expected changes in the borrowing contract, including whether the expected breach of the contract may result in a waiver or modification of the contractual obligations, the granting of an interest-free period, a hike in the interest rate, a requirement for additional collateral or guarantees, or other changes to the contractual framework of the financial instrument;

⑪ Whether there is a significant change in the expected performance and repayment behavior of the debtor;

⑫ Whether the contractual payment has been overdue for more than 30 days (inclusive).

Depending on the nature of the financial instrument, the Group evaluates whether credit risk increases significantly on a single financial instrument or a combination of financial instruments basis. When evaluating financial instruments on a portfolio basis, the Group may classify financial instruments based on common credit risk characteristics, such as past due information and credit risk ratings.

The Group's main criterion for determining a significant increase in credit risk is that one or more of the following indicators change: the business environment in which the debtor operates, internal and external credit ratings, a significant change in actual or expected operating results, a significant decrease in the value of collateral or the credit rating of the guarantor.

(5) Financial assets for which credit impairment has been incurred

The Group assesses at the balance sheet date whether credit impairment has occurred on financial assets measured at amortized cost and on debt investments measured at fair value with changes therein recognized in other comprehensive income. A financial asset becomes a credit-impaired financial asset when one or more events occur that have an adverse effect on the financial asset's expected future cash flows. Evidence that a financial asset has been impaired includes the following observable information:

① Significant financial difficulties of the issuer or debtor;

② Breach of contract by the debtor, e.g. default or overdue payment of interest or principal, etc.;

③ The Group grants concessions to the debtor that it would not have made under any other circumstances because of economic or contractual considerations relating to the debtor's financial difficulties;

③ The debtor is likely to become insolvent or undergo other financial reorganization;

④ Financial difficulties of the issuer or debtor cause an active market for the financial asset to disappear;

⑤ A financial asset is purchased or originated at a significant discount that reflects the fact that a credit loss has been incurred.

(6) Presentation of the provision for expected credit losses

To reflect changes in the credit risk of financial instruments since their initial recognition, the Group remeasures expected credit losses at each balance sheet date and the resulting increase or reversal of the amount of the provision for losses is recognized in profit or loss as an impairment loss or gain in the current period. For financial assets measured amortized cost, a provision for losses is offset against the book value of the financial asset shown on the balance sheet; for debt investments at fair value through other comprehensive income, the Group recognizes a provision for losses in other comprehensive income without offsetting the book values of the financial assets.

11. Inventories

The Group's inventory consists mainly of raw materials, semi-finished goods, work in progress, goods in stock, turnover materials, contract performance costs, etc.

Inventories are maintained on a perpetual inventory basis, where inventories are valued at actual cost at the time of acquisition; inventories are received or issued and their actual cost is determined using the weighted average method. Low-value consumables and packaging are amortized using the one-time reversal method.

Inventories at the end of the period are stated at the lower of cost or net realizable value, and a provision for the decline in the value of inventories is made to the extent that their cost is not expected to be recoverable because of destruction, obsolescence in whole or in part, or sale prices below cost. A provision for the decline in the value of goods in stock and bulk raw material is made based on the excess of the cost of individual items of inventory over their net realizable value, and a provision is made by category for other raw and supplementary materials in large quantities and with lower unit prices.

The net realizable value of inventories of goods, such as goods in stock, work in progress and materials used for sale, which are used directly for sale, is determined by the amount of the estimated selling price of the inventory less estimated selling expenses and related taxes; the net realizable value of inventories of materials held for production is determined by the amount of the estimated selling price of the finished product produced less estimated costs to be incurred to completion, estimated selling expenses and related taxes.

12. Contract assets and contract liabilities

(1) Contract assets

1) Methods and criteria for recognition of contract assets

A contract asset is a right to receive consideration for goods that the Group has transferred to a customer and that is dependent on factors other than the passage of time. If the Group sells two distinguishable commodities to a customer and is entitled to receive payment because one of the commodities has been delivered, but the receipt of such payment is also dependent on the delivery of the other commodity, the Group treats the right to receive payment as a contract asset.

2) Methodology for determining expected credit losses on contract assets and accounting treatment

The method of determining expected credit losses on contract assets is referred to in "Note IV. 10. (1) Notes receivable, accounts receivable, receivables financing and contract assets".

Accounting treatment: when the Group calculates expected credit losses on contract assets at the balance sheet date, if the expected credit loss is greater than the current book value of the provision for impairment of contract assets, the Group recognizes the difference as an impairment loss and debits "Impairment loss of assets" and credits "Provision for impairment of contract assets". Conversely, the Group recognizes the difference as an impairment gain and makes the opposite accounting entry.

The Group incurs credit losses in practice and identifies the related contract assets are irrecoverable. If they are approved to be written off, the Group debits "Provision for impairment of contract assets" and credits "Contract assets" based on the approved write-off amount. If the write-off amount is greater than the provision amount made, the difference is debited to "Impairment loss of assets".

(2) Contract liabilities

Contract liabilities reflect the Group's obligation to transfer goods to customers for which consideration has been received or is receivable from customers. If the Group has paid the

contract consideration or the Group has obtained the unconditional right to receive the contract consideration before transferring the goods to the customer, a contract liability is recognized at the earlier of the actual amount paid by the customer or the amount due and payable, based on the amount received or receivable.

(3) Offsetting of contract assets and contract liabilities

The net amount of contract assets and contract liabilities under the same contract after offsetting each other, if it is a debit balance, is shown in "Contract assets" or "Other non-current assets" according to their liquidity; if it is a credit balance, is shown in "Contract liabilities" or "Other non-current liabilities" according to their liquidity.

13. Long-term equity investments

(1) Determination of control, joint control or significant influence over the investee

The Group's long-term equity investments mainly consist of equity investments held by the Group that are capable of exercising control and significant influence over the investee, as well as equity investments in its joint ventures.

Control means that the Group has power over the investee, enjoys variable returns by participating in the investee's related activities, and has the ability to use its power over the investee to influence the amount of its returns.

Joint control is the shared control over an arrangement as agreed in the relevant agreement, and decisions about the activities of the arrangement must be made with the unanimous consent of the participants sharing control. A joint arrangement is an arrangement under the joint control of two or more participants. A joint venture is a joint arrangement in which the joint venturer has rights only to the net assets of the arrangement.

Significant influence is the power to participate in decision-making on the financial and operating policies of the investee but not control or have joint control with other parties over the development of those policies. Significant influence is determined primarily by representatives on the board of directors or similar authority of the investee and by having a say in the financial and operating decision-making process of the investee; the Group owns, directly or indirectly through a subsidiary, more than 20 percent but less than 50 percent of the voting shares of the investee, if there is clear evidence that the Group cannot participate in the production and operating decision-making of the investee in such cases. In determining whether significant influence can be exerted over the investee, the Group will consider, on the one hand, the voting shares of the investee held directly or indirectly by the Group and, on the other hand, the effect of current enforceable potential voting rights held by the Group and others, such as

current convertible warrants, stock options and convertible corporate bonds issued by the investee, upon their assumed conversion into equity interest in the investee.

- (2) Methodology for determining the cost of long-term equity investments, subsequent measurement and profit or loss recognition

The initial investment cost of a long-term equity investment at the date of consolidation is based on the share of the book value of the consolidated party's ownership interest in the consolidated financial statements of the ultimate controlling party if the consideration for the consolidation is by way of cash payments, transfers of non-cash assets or incurring debt. The difference between the initial investment cost of the long-term equity investment and the cash paid, non-cash assets transferred, and the book value of obligations assumed is adjusted to the equity premium in the capital reserve; if the equity premium in the capital reserve is not sufficient for offsetting, the retained earnings are adjusted.

If equity securities are issued as consideration for a combination, the initial investment cost of the long-term equity investment is recognized at the date of consolidation as the share of the book value of the investee's equity interest in the consolidated financial statements of the ultimate controlling party, and the total nominal value of the shares issued is recognized as equity; the difference between the initial investment cost of the long-term equity investment and the total nominal value of the shares issued is adjusted to the equity premium in the capital reserve; and the equity premium in the capital reserve is not sufficient to offset the difference, retained earnings are adjusted.

Business combinations not under common control: the Group's initial investment cost of the long-term equity investment is based on the cost of consolidation determined at the date of purchase.

The intermediary fees, such as audit, legal services, valuation consulting, and other related management fees incurred in connection with a business combination are recognized in profit or loss when incurred; transaction costs for equity or debt securities issued as consideration for a business combination are included in the initial recognition amount of the equity or debt securities.

Except for long-term equity investments acquired through business combinations as described above, long-term equity investments acquired by paying cash are treated as investment costs based on the actual purchase price paid; long-term equity investments acquired by issuing equity securities are treated as investment costs based on the fair value of the equity securities issued; long-term equity investments invested by investors are treated as investment costs based on the value agreed in the investment contract or agreement; long-term

equity investments acquired through debt restructuring, non-monetary asset exchange, etc. are treated as investment costs in accordance with the provisions of relevant accounting standards.

The Group adopts the cost method of accounting for long-term equity investments in which it is able to exercise control over the investee and the equity method of accounting for investments in joint ventures and associates.

Under the cost method of accounting, long-term equity investments are valued at the initial investment cost and the cost of long-term equity investments is adjusted when the investments are added or recovered. Profits or cash dividends declared as distributions by the investee are recognized as investment income.

Under the equity method of accounting, the initial investment cost is greater than the share of the fair value of the identifiable net assets of the investee at the time of investment, without adjusting the initial investment cost of the long-term equity investment; the initial investment cost is less than the share of the fair value of the identifiable net assets of the investee at the time of investment, which is recognized in profit or loss for the current period, and the cost of the long-term equity investment is adjusted. After acquiring the long-term equity investment, the investment income and other comprehensive income are recognized separately according to the shares of net profit or loss and other comprehensive income realized by the investee during the year, and the book value of the long-term equity investment is adjusted; the book value of the long-term equity investment is reduced accordingly by calculating the portion of the investor's entitlement based on the profit or cash dividends declared by the investee; the book value of the long-term equity investment is adjusted by the investor for other changes in the ownership interest of the investee other than net profit or loss, other comprehensive income and profit distribution, and is included in the owners' equity. In recognizing the share of net profit or loss of the investee, investment income is recognized on the basis of the fair value of the identifiable assets of the investee at the time of investment acquisition, adjustments to the net profit of the investee in accordance with the Group's accounting policies and accounting periods, and the offsetting of unrealized gains and losses on internal transactions with associates and joint ventures in proportion to the portion of such gains and losses attributable to the investee.

(3) Changes in long-term equity investments

If, as a result of additional investments or other reasons, the investee is able to exercise joint control or significant influence over the investee but it does not constitute control, or an increase in the proportion of shareholding resulting from additional investment results in joint control or significant influence over the investee but it does not constitute control, upon transferring to the equity method of accounting, the investor shall determine the fair value of

the original equity investment plus the fair value of the consideration payable for the acquisition of the additional investment as the initial investment cost to be accounted for under the equity method. If an equity investment previously held is classified as a financial asset at fair value through profit or loss, the difference between its fair value and the book value shall be transferred to the current profit or loss that is accounted for under the equity method. If an equity investment previously held is designated as an investment in a non-trading equity instrument measured at fair value through other comprehensive income, the difference between its fair value and book value and the cumulative change in fair value previously recognized in other comprehensive income shall be transferred directly to retained earnings. The difference between the initial investment cost calculated above and the share of the fair value of the identifiable net assets of the investee at the date of the additional investment, calculated on the basis of the proportion of the new shareholding after the additional investment, is not adjusted for the book value of the long-term equity investment if the former is greater than the latter; if the former is less than the latter, the difference is adjusted for the book value of the long-term equity investment and recognized in non-operating income in the current period.

For long-term equity investments in which control over the investee not under common control can be exercised due to additional investments, etc., the initial investment cost under the cost method of accounting is determined by the sum of the book value of the equity investments originally held plus the cost of the new investments in preparing the individual financial statements. Other comprehensive income recognized as a result of the equity method of accounting for equity investments existing prior to the date of purchase is accounted for on the same basis as the disposal of the underlying assets or liabilities directly by the investee. Where equity investments held prior to the date of purchase are designated as non-trading equity instruments at fair value through other comprehensive income, the cumulative changes in fair value that were previously included in other comprehensive income cannot be transferred to the current profit or loss.

If the Group no longer has joint control or significant influence over the investee due to the disposal of a portion of the equity investment, the remaining equity investment is treated in accordance with the standard on recognition and measurement of financial instruments, and the difference between the fair value and book value at the date of loss of joint control or significant influence is recognized in profit or loss for the current period. Other comprehensive income recognized under the equity method of accounting for the original equity investment is accounted for on the same basis as if the related assets or liabilities had been disposed of directly by the investee when the equity method of accounting is discontinued.

If the investor loses control of the investee due to the disposal of part of the equity investment, etc., the remaining equity interest after the disposal that can exercise joint control or significant influence over the investee when individual financial statements are prepared is accounted for under the equity method, and the remaining equity interest is adjusted as if it had been accounted for using the equity method of accounting since acquisition; if the remaining equity interest after disposal cannot exercise joint control or significant influence over the investee, which is treated based on the recognition and measurement standard of financial instruments, and the difference between the fair value and book value at the date of loss of control is recognized in profit or loss for the current period.

(4) Disposal of long-term equity investments

The difference between the book value and the actual acquisition price of long-term equity investments, when disposed of, is recognized in current investment income. Long-term equity investments accounted for using the equity method of accounting, when disposed of, are accounted for on the same basis as the related assets or liabilities directly disposed of by the investee, and the portion previously included in other comprehensive income is accounted for in the corresponding proportion.

(5) Impairment of long-term equity investments

For the impairment testing method and the impairment provision method for long-term equity investments, please refer to “Note IV. 22”.

14. Investment properties

The Group's investment properties are recorded at their cost. The cost of purchased investment properties consists of the purchase price, related taxes and other expenses directly attributable to the assets; the cost of self-constructed investment properties consists of the necessary expenditures incurred before the constructed assets are available for the intended use.

The Group uses a cost model for subsequent measurement of investment properties and depreciates or amortizes them based on their estimated useful life and net residual rate.

When the use of investment property is changed to its use, the investment property is converted to fixed assets or intangible assets from the date of the change. When the use of real estate for self-use is changed to earn rent or capital appreciation, fixed assets or intangible assets are converted to investment property from the date of the change. When a conversion occurs, the book value before the conversion is used as the recorded value after the conversion.

Recognition of investment property is terminated when the property is disposed of or permanently withdrawn from use and no economic benefit is expected from its disposal. The

amount of disposal proceeds from the sale, transfer, obsolescence or destruction of investment properties, net of their book value and related taxes and fees, is recognized in profit or loss for the current period.

15. Fixed assets

The Group's fixed assets are tangible assets held for the production of goods, provision of services, lease or management, and have a useful life of more than one year.

Fixed assets include land assets, houses and buildings, machinery equipment, transportation facilities, electronic equipment, office equipment, hotel furniture and other equipment, which are recorded at their cost at the time of acquisition. Of these, the cost of purchased fixed assets includes taxes and duties relating to the purchase price and import duties, and other expenses directly attributable to the fixed assets that were incurred before the fixed assets were available for intended use; the cost of self-constructed fixed assets consist of expenses necessary to construct the assets before they are available for intended use; fixed assets invested by investors are recorded at the value agreed in the investment contract or agreement, but are recorded at fair value if the agreed value in the contract or agreement is not fair; fixed assets leased under a finance lease are recorded at the lower of the fair value of the leased asset and the present value of the minimum lease payment on the commencement date of the lease.

Subsequent expenditures related to fixed assets, including repair expenditures and renovation expenditures, are included in the cost of fixed assets if they meet the conditions for recognition of fixed assets, and the book value of the replaced part is derecognized; if they do not meet the conditions for recognition of fixed assets, they are recognized in profit or loss when incurred.

The Group accrues depreciation on all fixed assets except those that are fully depreciated and are still in use, and land that is accounted for separately. Depreciation is provided using the average useful life method and is charged to the cost or current expense of the respective asset, depending on its use.

The Group, excluding Guangdong Energy Group Co., Ltd. ("Guangdong Energy Group") and its subsidiaries, has depreciated its fixed assets over the following categorized depreciation periods, estimated net residual value and depreciation rates:

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

SN	Category	Depreciation period (years)	Estimated residual value rate (%)	Annual depreciation rate (%)
1	Houses and buildings	30-50	3.00-5.00	1.90-3.23
2	Machinery equipment	3-10	0.00-5.00	9.50-33.33
3	Transportation facility	4-10	0.00-5.00	9.50-25.00
4	Electronic equipment	3-5	0.00-5.00	19.00-33.33
5	Office equipment	3-5	0.00-5.00	19.00-33.33
6	Other equipment	3-5	0.00-5.00	19.00-33.33

Guangdong Energy Group classifies depreciation periods, estimated net residual value rates and depreciation rates for fixed assets as follows:

SN	Category	Depreciation period (years)	Estimated residual value rate (%)	Annual depreciation rate (%)
1	Land assets (Note 1)	-	-	-
2	Houses and buildings	10-50	0-10.00	1.80-10.00
3	Machinery equipment	5-30	0-10.00	3.00-20.00
4	Transportation facility	5-20	0-10.00	4.50-20.00
5	Other equipment	5-22	0-10.00	4.09-20.00

Note 1: Land assets are mainly transferred at no cost, their useful lives cannot be determined and no depreciation is provided.

For fixed assets with an impairment provision has been made, the depreciation rate is calculated by deducting the cumulative amount of the impairment provision that has been made for the fixed assets.

At the end of each year, the Group reviews the estimated useful life, estimated net residual value and depreciation method of fixed assets and treats changes, if any, as changes in accounting estimates.

Recognition of a fixed asset is discontinued when the asset is disposed of or when no economic benefit is expected to result from its use or disposal. The amount of disposal proceeds from the sale, transfer, obsolescence or destruction of fixed assets, net of their book value and related taxes and fees, is recognized in profit or loss for the current period.

16. Construction in progress

Construction in progress is measured at the cost actually incurred. Self-operated construction works are measured according to direct materials, direct wages, direct construction costs, etc.; outsourced construction works are measured according to the project price payable, etc.; equipment installation works are determined according to the value of the installed equipment, installation costs, expenses incurred in commissioning works, etc. The cost of

construction in progress also include borrowing costs and exchange gains and losses that should be capitalized.

On the date when the construction in progress is available for intended use, the estimated value will be carried forward to fixed assets according to the project budget, cost or actual cost of the project, etc., and depreciation will be provided from the following month onwards, and the difference in the original value of fixed assets will be adjusted after the completion of the final accounting procedures.

17. Borrowing costs

Borrowing costs include interest on borrowings, amortization of discounts or premiums, ancillary costs and exchange differences arising from foreign currency borrowings. Borrowing costs directly attributable to the acquisition or production of assets eligible for capitalization are capitalized when expenditures on the assets have been incurred, the borrowing costs have been incurred and the acquisition or production activities necessary to bring the assets to the intended use or sale have commenced; capitalization ceases when the acquisition or production of assets eligible for capitalization are available for intended use or sale. The remaining borrowing costs are recognized as expenses in the period in which they are incurred.

Interest expense actually incurred during the period of the special purpose borrowing is capitalized net of interest income earned on unused borrowing funds deposited with the bank or investment income earned on temporary investments; capitalization is determined for general purpose borrowing by multiplying the weighted average of asset expenditures in excess of the special purpose borrowing portion of accumulated asset expenditures by the weighted average interest rate on the general purpose borrowing occupied.

Assets eligible for capitalization are fixed assets, investment properties and inventories that require a significant period of time (usually more than one year) of acquisition, construction or production activities to reach a predetermined state of use or sale.

If there is an abnormal interruption in the acquisition or production of an asset eligible for capitalization that occurs for more than three consecutive months, capitalization of borrowing costs is suspended until the acquisition or production activities of the asset recommence.

18. Intangible assets

The Group's intangible assets include land use rights, software, patents, non-patent technologies, franchises, sea area use rights, power transmission and transformation ancillary projects and microwave projects, favorable contracts and others, etc. They are measured at their actual costs at the time of acquisition, of which the actual costs are based on the prices

actually paid and related other expenses for purchased intangible assets; the actual costs of the intangible assets invested by investors are determined based on the values agreed upon in the investment contracts or agreements, or based on the fair values if the values agreed upon in the contracts or agreements are not fair.

For intangible assets that are not recognized in the financial statements but are owned by the acquiree and acquired by the Group in a business combination not under common control, the Group recognizes them at fair value if one of the following conditions is met in the initial recognition of the acquiree's assets: (1) they are derived from contractual or other legal rights; (2) they can be separated or divided from the acquiree and can be used for sale, transfer, license, lease or exchange, either individually or in conjunction with related contracts, assets and liabilities.

When the Group acquires intangible assets, it analyzes and determines their useful lives and classifies them into intangible assets with finite useful lives and those with indefinite useful lives. Intangible assets with finite useful lives are amortized over their estimated useful lives from the time they become available for use, using an amortization method that reflects the expected manner of realization of the economic benefits associated with the asset; where the expected manner of realization cannot be reliably determined, the straight-line method is used; intangible assets with indefinite useful lives are not amortized.

The estimated useful life and amortization method for intangible assets with finite useful lives are reviewed at the end of each year and the changes, if any, are treated as changes in accounting estimates. The expected useful life of an intangible asset with an indefinite useful life is reviewed in each accounting period and, where there is evidence that the intangible asset has a finite useful life, its useful life is estimated and amortized over its expected life.

19. Research and development

The Group's research and development expenses are divided into research phase expenses and development phase expenses based on their nature and the greater uncertainty as to whether the research and development activities will result in intangible assets. Research phase expenditure is recognized in profit or loss as incurred; development phase expenditure is recognized as an intangible asset when the following conditions are also met:

1. Completion of the intangible asset to make it technically feasible to use or sell;
2. An intent to complete the intangible asset and use or sell it;
3. There is a market for the product produced using the intangible asset or a market for the intangible asset itself;

4. Adequate technical, financial and other resources are available to support the development of the intangible asset and the ability to use or sell it;

5. The expenditures attributable to the development phase of the intangible asset can be measured reliably.

Expenditures for the development phase that meet the above conditions are recognized in profit or loss as incurred. Development expenditures that were recognized in profit or loss in prior periods are not recognized as assets in subsequent periods. Expenditures for the capitalized development phase are shown as development expenditures on the balance sheet and are reported as intangible assets from the date the project is available for the intended use.

20. Long-term prepaid expenses

The Group's long-term prepaid expenses represent those costs that have been expended but are chargeable to the current and future periods over an amortization period of more than one year (excluding one year), which are amortized equally over the benefit period. If a long-term prepaid expense item does not benefit subsequent accounting periods, the full amortized value of the item that has not been amortized is transferred to the current profit or loss.

21. Goodwill

Goodwill is the excess of the cost of an equity investment or a business combination not under common control over the share of the fair value of the identifiable net assets of the investee or acquiree acquired in the business combination at the date of acquisition or purchase.

Goodwill relating to subsidiaries is shown separately in the consolidated financial statements, and goodwill relating to associates and joint ventures is included in the book value of long-term equity investments.

22. Impairment of non-financial long-term assets

The Group examines items such as long-term equity investments, fixed assets, construction in progress, right-of-use assets and intangible assets with finite useful lives at each balance sheet date, and conducts impairment tests when the following indications exist that an asset may be impaired. Goodwill and intangible assets with indefinite useful lives are tested for impairment at the end of each year, regardless of whether there are indications of impairment. Where it is difficult to test the recoverable amount of an individual asset, the test is based on the asset group or combination of asset groups to which the asset belongs.

After the impairment test, if the book value of the asset exceeds its recoverable amount, the difference is recognized as an impairment loss, which, once recognized, is not reversed in subsequent accounting periods. The recoverable amount of an asset is the higher of the fair

value of the asset, net of disposal costs, and the present value of the asset's expected future cash flows.

Indications of impairment are as follows:

1. The market price of the asset has fallen significantly in the current period, significantly more than would be expected as a result of the passage of time or normal use;

2. The economic, technological or legal environment in which the enterprise operates and the market in which the asset is located has changed significantly in the current period or will change in the near future, which will adversely affect the enterprise;

3. Market interest rates or other market rates of return on investments have increased in the current period, affecting the discount rate at which the enterprise calculates the present value of the asset's expected future cash flows, resulting in a significant reduction in the recoverable amount of the asset;

4. Evidence that the assets are obsolete or physically damaged;

5. The assets have been or will be idled, discontinued or scheduled for early disposal;

6. Evidence reported internally by the enterprise that the economic performance of the asset has been or will be lower than expected, such as net cash flows generated by the asset or operating profits (or losses) realized that are significantly lower (or higher) than expected;

7. Other indications that an asset may have been impaired.

23. Employee benefits

The Group's employee benefits refer to the various forms of remuneration or compensation paid by the Group for services rendered by its employees or for the termination of their employment, including short-term remuneration, post-employment benefits, termination benefits and other long-term employee benefits. Benefits provided by the Group to spouses, children, dependents, survivors of deceased employees and other beneficiaries of employees are also part of their remuneration.

1. Short-term remuneration is the remuneration of the Group's employees that are required to be paid in full within twelve months after the end of the annual report period in which the employees perform the relevant services, except for compensation for termination of the employment relationship with the employees. The Group's short-term remuneration includes employee salaries, bonuses, allowances and subsidies, employee welfare expenses, social insurance premiums such as medical insurance premiums, work injury insurance premiums and maternity insurance premiums, housing provident fund, trade union dues and

personnel education funds, short-term paid absences, short-term profit-sharing schemes, non-monetary benefits and short-term remuneration.

The Group recognizes the short-term remuneration actually incurred as a liability in the accounting period in which the services are rendered by the employees and recognizes it in profit or loss or the related cost of assets for the current period, depending on the beneficiary of the services rendered by the employees. Where short-term remuneration is a non-monetary benefit, it is measured at fair value.

2. Post-employment benefits are all forms of compensation and benefits provided by the Group after the employee retires or terminates the employment with the Group in order to obtain services from the employee, except short-term remuneration and termination benefits. The Group classifies post-employment benefit plans into defined contribution plans and defined benefit plans. (1) Defined contribution plan: a post-employment benefit plan in which the Group has no further obligation to pay after it has contributed a fixed fee to a separate fund. In the accounting period in which an employee provides services, including basic pension insurance, unemployment insurance, etc., the amount of contributions due under the defined contribution plan is recognized as a liability and included in current profit or loss or the cost of related assets. (2) Defined benefit plans: post-employment benefit plans other than defined contribution plans.

3. Termination benefits refer to the termination of the Group's employment relationship with an employee prior to the expiration of the employee's employment contract, or compensation given to an employee to encourage the employee to accept voluntary redundancy. For employees who have not terminated their employment contracts with the Group, but who will no longer provide services to the Group in the future and cannot bring financial benefits to the Group, the Group is committed to providing financial compensation in the nature of termination benefits, and in the event of "internal retirement", the termination benefits shall be treated as such prior to their official retirement date, and after their official retirement date, the post-employment benefits.

If the Group provides termination benefits to employees, the Group recognizes the employee's compensation liability for termination benefits and recognizes it in profit or loss for the current period when the Group cannot unilaterally withdraw the termination benefits provided as a result of the termination plan or reduction proposal, or when the Group recognizes the costs or expenses related to the restructuring of the termination benefits.

4. Other long-term employee benefits are all employee compensation other than short-term remuneration, post-employment benefits, and termination benefits, including long-term paid absences, long-term disability benefits, long-term profit-sharing plans, etc.

Other long-term employee benefits provided by the Group to employees that are eligible for defined contribution plans are accounted for in accordance with the relevant provisions of the defined contribution plans. Other long-term employee benefits provided by the Group to employees who are eligible for defined benefit plans are accounted for in accordance with the relevant provisions of the defined benefit plans, but the changes resulting from the remeasurement of the net liabilities or net assets of other long-term employee benefits. The total net amount is included in the current profit or loss or the cost of the related asset.

24. Bonds payable

The Group's bonds payable are measured at fair value on initial recognition and the related transaction costs are included in the initial recognition amount. Subsequent measurement is based on amortized cost.

The difference between the price paid for the bonds and the total face value of the bonds is treated as a premium or discount to the bonds, amortized over the life of the bonds as interest is accrued using the effective interest method, and treated in accordance with the treatment of borrowing costs.

25. Provisions

The Group recognizes a liability when the operations related to contingencies such as external guarantees, discounting of commercial acceptance bills, pending litigation or arbitration, product quality warranty, etc. meet all of the following conditions: the obligation is a present obligation of the Group; it is probable that the performance of the obligation will result in an outflow of economic benefits to the enterprise; and the amount of the obligation can be measured reliably.

A provision is initially measured on the basis of the best estimate of the expenditure required to meet the related present obligation, taking into account factors such as risks, uncertainty and time value of money related to contingencies. Where the influence of the time value of money is significant, the best estimate is determined by discounting the related future cash outflows. The book value of the provision is reviewed at each balance sheet date and if there are any changes, the book value is adjusted to reflect the current best estimate.

26. Revenue

The Group recognizes revenue when it has satisfied its performance obligations under the contract, that is, when the customer obtains control of the relevant goods or services.

Where a contract contains two or more performance obligations, the Group apportions the transaction price to each individual performance obligation at the contract inception in the relative proportion of the individual selling price of the goods or services promised by each

individual performance obligation at the contract start date and measures revenue based on the transaction price apportioned to each individual performance obligation.

The transaction price is the amount of consideration to which the Group is expected to be entitled due to the transfer of goods or services to the customer, excluding amounts collected on behalf of third parties. The transaction price recognized by the Group does not exceed the amount by which it is highly probable that a material reversal of the cumulative recognized income will not occur when the related uncertainty is removed. The amount expected to be refunded to the customer as a liability is not included in the transaction price. Where there is a significant financing component in the contract, the Group determines the transaction price on the basis of the amount payable that is assumed to be paid in cash by the customer at the time control of the goods or services is obtained. The difference between the transaction price and the consideration of the contract is amortized over the life of the contract using the effective interest method. The significant financing component in the contract is not taken into account if the interval between the customer's acquisition of control of the goods or services and the customer's payment of the price does not exceed one year on the commencement date of the contract.

A performance obligation of the Group in a contract is performed within a certain period of time if one of the following conditions is met; otherwise, it is performed at a certain point in time:

1. The customer acquires and consumes the economic benefits of the Group's performance at the same time as the Group's performance.
2. The customer is able to control the goods under construction in the course of the Group's performance.
3. The goods produced in the course of the Group's performance are of an irreplaceable use and the Group is entitled to receive payment for the portion of the performance that has been completed cumulatively to date during the entire term of the contract.

For performance obligations performed within a certain period of time, revenue is recognized over that period by the Group in accordance with the progress of performance. When the progress of performance cannot be reasonably determined, revenue is recognized for costs already incurred that are expected to be reimbursed at the amount of the costs already incurred until the progress of performance can be reasonably determined.

For performance obligations performed at a certain point in time, revenue is recognized by the Group at the point when the customer acquires control of the relevant goods or services. In

determining whether the customer has acquired control of the goods or services, the following indications are considered:

1. The Group has a present right to receive payment for the goods or services.
2. Legal ownership of the goods has been transferred by the Group to the customer.
3. The Group has physically transferred the goods to the customer.
4. The Group has transferred the principal risks and rewards of ownership of the goods to the customer.
5. The customer has accepted the goods or services, etc.

The right to receive consideration for goods or services transferred by the Group to customers is shown as a contract asset, the contract asset is impaired on the basis of expected credit losses. The unconditional right that the Group has to receive consideration from customers is presented as a receivable. The Group's obligations to transfer goods or services to customers for consideration received or receivable from customers are presented as contractual liabilities.

Warranty obligation

The Group provides warranties for goods sold and construction works performed in accordance with contractual agreements and legal requirements. For assurance-type warranty to assure customers that the goods sold meet the established standards, the Group accounts for them in accordance with Accounting Standards for Business Enterprises No. 13 - Contingencies. For service-type quality assurance that provides a separate service in addition to the guarantee to the customer that the goods sold meet the established standards, the Group treats it as a single performance obligation and allocates a portion of the transaction price to the service-type quality assurance based on the relative proportion of the stand-alone selling prices of the goods and service-type quality assurance provided, and recognizes revenue when the customer obtains control of the services. In assessing whether the quality assurance provides a separate service in addition to the assurance to the customer that the goods sold meet established standards, the Group considers factors such as whether the quality assurance is a statutory requirement, the duration of the quality assurance, and the nature of the Company's commitment to performing the task.

Primary principal and agent

The Group determines whether the Company is a primary principal or an agent when engaging in a transaction based on whether it has control over the goods or services before transferring them to the customer. If the Group is able to control the goods or services before

transferring them to the customer, the Group is a primary principal and recognizes revenue based on the total amount of consideration received or receivable; Otherwise, the Group, as an agent, recognizes revenue based on the amount of commissions or handling charges to which it is expected to be entitled, which shall be determined as the net amount of the total consideration received or receivable less the price payable to other related parties, or in accordance with the established commission amount or percentage, etc.

Customer's unexercised contractual rights

When the Group receives advances from customers for sales of goods or services, the amount is first recognized as a liability and then transferred to revenue when the related performance obligation is fulfilled. When the Company's advances from customers are not required to be returned and it is probable that the customer will waive all or part of its contractual rights, the Group recognizes the above amounts as revenue on a pro-rata basis in accordance with the pattern of the customer's exercise of contractual rights, if the Group expects to be entitled to the amounts related to the contractual rights waived by the customer; Otherwise, the Group reverses the related balance of the above liabilities to revenue only when the probability of the customer requiring performance of the remaining performance obligation is extremely low.

Contract changes

In the event of a contractual change to a construction contract between the Group and a customer:

① If the contract change adds clearly distinguishable construction services and contract price, and the new contract price reflects the separate selling price of the new construction services, the Group accounts for the contract change as a separate contract;

② If the contract change does not fall into the situation described in ① above and the construction services that have been transferred and the construction services that have not been transferred at the date of the contract change can be clearly distinguished from each other, the Group treats it as a termination of the original contract, and at the same time, the non-performed portion of the original contract and the contract change are combined into a new contract for accounting purposes;

③ If the contract change does not fall into the situation described in ① above and the construction services transferred and the construction services not transferred at the date of contract change are not clearly distinguishable from each other, the Group accounts for the changed portion of the contract as an integral part of the original contract, and the resulting impact on recognized revenue is adjusted to current revenue at the date of contract change.

The Group recognizes revenue when the Group has fulfilled its performance obligations under the contract, that is, when the customer obtains control of the relevant goods or services.

The specific methods of revenue recognition:

1. Revenue from electricity business

A. Revenue from sales of electricity and heat

The Group recognizes revenue from sales of electricity and heat when the electricity and heat are supplied to the grid company or customer and the grid company or customer acquires control of the electricity.

B. Revenue from sales of by-products

The Group recognizes revenue when the by-products, such as fly ash generated from power generation, are transported to the agreed delivery location in accordance with the contract and confirmed to be received by the relevant resource utilization enterprise, and the relevant resource utilization enterprise obtains control of the by-products.

C. Provision of electricity trading services

The Group recognizes revenue from electricity trading services provided by the Group to external parties based on the difference between the price of electricity purchased and the price of electricity sold when the electricity service is accepted by the electricity consumers.

D. Provision of services

The Group provides external transportation services, operation and maintenance services, loading and unloading services, and in-port storage services. Revenue is recognized over a period of time based on the progress of completed services, where the progress of completed services is determined based on the proportion of costs incurred to the estimated total costs. At the balance sheet date, the Group re-estimates the progress of completed services so that it can reflect changes in performance.

2. Architectural design income

The Group's architectural design business is mainly classified into design services, EPC services and other services. The Group's specific principles for revenue recognition are as follows: on the commencement date of a contract, the contract is evaluated, each performance obligation included in the contract is identified, and revenue is recognized upon fulfillment of the performance obligations in the contract, i.e., when the customer obtains control of the relevant assets (goods or services). Whether the performance obligations are fulfilled within a certain period of time, or at a certain point in time, depends on the terms of the contract and the relevant legal provisions.

The design service, EPC service and other services provided by the Group to customers are performed over a period of time, and the goods or services provided to customers in the course of performance have irreplaceable uses and entitle the Group to receive payment for the cumulative portion of performance performed to date throughout the term of the contract, which the Company treats as a performance obligation fulfilled within a certain period of time, and recognizes revenue in accordance with the progress of performance, unless the progress of performance is not reasonably determined. The progress of performance for design service is determined by the output method, and the progress of performance for EPC service is determined by the input method.

Revenue from design service contracts with a value of RMB 500,000 or less is recognized in a lump sum upon completion.

Design service is generally recognized on the basis of external evidence obtained (including confirmation letters from clients, acceptance reports, and documents from institutions such as drawing review agencies or government agencies), and the output value of the performance progress is determined based on the work results submitted and approved in writing by the clients and in accordance with the contractual agreements.

3. Rental and property service income

Rental income is recognized monthly in accordance with the lease agreement for the rental of the Company's houses and buildings.

Property service represents the comprehensive management service for public areas of buildings, including property management, operation of parking lots, cafeteria operation, etc. The Company recognizes revenue from property management fees monthly in accordance with the accrual basis of accounting for property management fees that have been explicitly agreed upon in the contracts.

4. Income from management fees

Management fees are collected for the equity investment and management services provided by the Company, and the Company recognizes income from management fees in accordance with the accrual basis of accounting and based on the rate and calculation method agreed in the partnership agreement.

27. Contract costs

(1) Methodology for determining the amount of assets relating to contract costs

The Group's assets related to contract costs include contract performance costs and contract acquisition costs.

Contract performance costs, i.e., costs incurred by the Group to perform a contract, that does not fall within the scope of the relevant accounting standard specifications, are recognized as an asset as contract performance costs when the following conditions are also met: the costs are directly related to a current contract or expected contract to be obtained, including direct labor, direct materials, manufacturing costs (or similar costs), costs explicitly borne by the customer and other costs incurred solely as a result of the contract; the costs increase the Group's future resources available to meet its performance obligations; and the costs are expected to be recovered.

Contract acquisition costs, which are the incremental costs incurred by the Group to acquire a contract that is expected to be recovered, are recognized as an asset as contract acquisition costs. If the amortization period of the asset does not exceed one year, it is recognized in profit or loss when incurred. Incremental costs are costs that would not have been incurred without obtaining the contract (e.g., sales commissions, etc.). Expenses incurred by the Group to obtain a contract other than incremental costs expected to be recovered (such as travel expenses that would have been incurred regardless of whether the contract was obtained) are charged to profit or loss as incurred, except for those explicitly borne by the client.

(2) Amortization of assets related to contract costs

The Group's assets related to contract costs are amortized to the current profit or loss using the same basis as that used to recognize revenue from the goods to which the assets relate.

(3) Impairment of assets related to contract costs

In determining the impairment losses on assets related to contract costs, the Group first determines the impairment losses on other assets related to the contract recognized in accordance with other relevant accounting standards for enterprises; and then, if the book value of the asset is greater than the difference between the remaining consideration that the Group expects to receive for the transfer of goods related to the asset and the estimated costs to be incurred for the transfer of the related goods, an impairment provision is made for the excess, and an asset impairment loss is recognized.

If the factors causing the impairment in prior periods change subsequently, and as a result, the aforementioned difference is greater than the book value of the asset, the impairment provision accrued shall be reserved and recognized in profit or loss for the current period, but the book value of the asset after the reversal should not exceed the book value of the asset that would have been determined as of the date of the reversal had no provision for impairment been made.

28. Government grants

Government grants are monetary or non-monetary assets acquired by the Group from the government without compensation, excluding capital invested by the government as the owner of the enterprise. Government grants are recognized when the Group is able to meet the conditions attached to them and when they can be received.

Government grants are measured at the amount actually received if they are monetary assets, or at the amount receivable if they are disbursed in accordance with fixed flat-rate criteria or if there is conclusive evidence at the end of the period that the relevant conditions set out in the fiscal support policy can be met and the financial support funds are expected to be received; government grants are measured at fair value if they are non-monetary assets and if the fair value cannot be reliably obtained, at the nominal amount (RMB 1).

The Group's government grants are distinguished between asset-related government grants and revenue-related government grants. Of these, government grants related to assets are government grants acquired by the Group for the purpose of acquiring or otherwise forming long-term assets, and government grants related to revenue are government grants other than those related to assets. If government documents do not specify the recipients of the subsidy, the Group makes a judgment based on the above-mentioned distinction principle, and if it is difficult to make a distinction, the subsidy as a whole is categorized as a revenue-related government grant.

Government grants related to assets are recognized as deferred income.

Government grants related to assets recognized as deferred income are recognized in profit or loss over the useful life of the related assets.

When the related assets are sold, transferred, retired or destroyed before the end of their useful lives, the unallocated balance of the related deferred income is transferred to profit or loss in the period of disposal.

Government grants related to revenue, which are used to compensate for related costs or losses incurred in subsequent periods, are recognized as deferred income and are recognized in profit or loss in the period in which the related costs or losses are recognized; those used to compensate for related costs or losses already incurred are recognized directly in profit or loss. Government grants related to day-to-day activities are included in other income based on the substance of economic operations. Government grants that are not related to day-to-day activities are included in the non-operating income and expenses.

When the Group obtains interest subsidies for policy preferential loans, the Group distinguishes between the case in which the treasury disburses the discount interest funds to the lending banks and the case in which the treasury disburses the discount interest funds

directly to the Group, and adopts the accounting treatment in accordance with the following principles, respectively:

1. If the treasury allocates the discount interest funds to the lending bank to provide a loan to the Group at the policy preferential interest rate, the Group uses the actual amount of the borrowing received as the recorded value of the borrowing and calculates the related borrowing costs based on the principle of the borrowing and the policy preferential interest rate (or, the fair value of the borrowing is used as its recorded value and the borrowing costs are calculated based on the effective interest method. The difference between the actual amount received and the fair value of the borrowing is recognized as deferred income. The deferred income is amortized over the life of the borrowing using the effective interest method and is reduced by the related borrowing costs).

2. The treasury disburses the discount interest funds directly to the Group, which will offset the related borrowing costs by the corresponding discount interest.

The Group's recognized government grants that are required to be returned are accounted for in the period in which they are required to be returned in accordance with the following provisions:

1. Where the book value of the underlying asset is reduced on initial recognition, the book value of the asset is adjusted.

2. Where related deferred income exists, the book balance of the related deferred income is reduced and the excess is recognized in profit or loss in the current period.

3. In other cases, they are recognized directly in profit or loss for the current period.

29. Deferred tax assets and deferred tax liabilities

The Group's deferred tax assets and deferred tax liabilities are calculated and recognized based on the difference (temporary difference) between the tax bases of assets and liabilities and their book values. Deferred tax assets are recognized for deductible losses and tax credits that can be utilized against taxable income in future years in accordance with the provisions of the tax laws, as if they were temporary differences. At the balance sheet date, deferred tax assets and deferred tax liabilities are measured at the tax rates applicable to the period when it is expected to realize the asset or settle the liability.

The Group recognizes deferred tax assets arising from deductible temporary differences to the extent that it is probable that taxable income will be available against which the deductible temporary differences can be utilized. For deferred tax assets that have been recognized, the book values of the deferred tax assets are written down when it is probable that sufficient taxable income will not be available to offset the deferred tax assets in a future period. The

amount written down is reversed when it is probable that sufficient taxable income will be available.

30. Leases

A lease is a contract in which the lessor cedes the right to use an asset to the lessee for a certain period of time in return for consideration. On the commencement date of the contract, the Group shall assess whether the contract is a lease or contains a lease. A contract is a lease or contains a lease if a party to the contract cedes the right to control the use of one or more identified assets for a certain period of time in exchange for consideration. In order to determine whether the contract cedes the right to control the use of the identified assets for a certain period of time, the Group shall assess whether the customer in the contract is entitled to almost all of the economic benefits arising from the use of the identified asset during the period of use and is entitled to dominate the use of the identified asset during that period of use.

Where a contract contains multiple separate leases at the same time, the contract is split by the Group and each separate lease is accounted for separately. If a contract contains both leased and non-leased components, the leased and non-leased components are separated for accounting treatment.

(1) The Group as a lessee

Right-of-use assets and lease liabilities are recognized against the lease at the commencement date of the lease term.

Right-of-use assets are initially measured at cost, which includes the initial measurement amount of the lease liability, the lease payments made on or before the commencement date of the lease (net of amounts related to lease incentives received), the initial direct costs incurred and the costs expected to be incurred to disassemble and remove the leased asset, restore the site where the leased asset is located or restore the leased asset to its agreed condition under the terms of the lease. The Group depreciates right-of-use assets using the straight-line method. Where it is reasonably certain that ownership of the leased asset will be obtained at the end of the lease term, the Group depreciates the leased asset over its remaining useful life. Otherwise, the leased asset is depreciated over the shorter of the lease term and the remaining useful life of the leased asset.

The lease liability is initially measured at the present value of the outstanding lease payments at the commencement date of the lease term, and the discount rate is the interest rate implicit in the lease. If the interest rate implicit in the lease cannot be determined, the Group uses the incremental borrowing rate as the discount rate.

The Group calculates the interest expense on the lease liability for each period of the lease term based on a fixed periodic interest rate, which is charged to the current profit or loss or the cost of the related asset. Variable lease payments that are not included in the measurement of the lease liability are charged to the current profit or loss or the cost of the related assets when they are actually incurred.

After the start date of the lease term, the Group redetermines the lease payments and remeasures the lease liability at the present value calculated based on the changed lease payments and the revised discount rate if the following circumstances occur: a change in the evaluation of the purchase option, lease renewal option or lease termination option, a change in the lease term due to the actual exercise of the lease renewal option or lease termination option that is inconsistent with the original evaluation; a change in the amount expected to be payable based on the guaranteed residual value, or a change in the index or rate used to determine the lease payments.

When the lease liability is remeasured, the Group adjusts the book value of the right-of-use asset accordingly. If the book value of the right-of-use asset has been reduced to zero but the lease liability is subject to further reduction, the Group recognizes the remaining amount in profit or loss for the current period.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases (leases with a lease term not exceeding 12 months) and leases of low-value assets, and to recognize the related lease payments in profit or loss or the cost of the related assets on a straight-line basis or other systematic and reasonable methods over the respective periods of the lease term.

(2) The Group as a lessor

At the start date of the lease, the Group classifies leases as finance leases and operating leases. Finance leases are leases that substantially transfer all the risks and rewards associated with ownership of the leased assets, regardless of whether ownership is ultimately transferred. Operating leases are leases other than finance leases.

When the Group acts as a sublease lessor, it classifies the sublease based on the right-of-use asset arising from the original lease, rather than the underlying asset of the original lease. If the original lease is a short-term lease and the Group chooses to apply the simplified treatment of short-term leases described above to the original lease, the Group classifies the sublease as an operating lease.

Under finance leases, the Group recognizes finance lease receivables for finance leases at the start date of the lease term and derecognizes the finance lease assets. When the Group

makes an initial measurement of finance lease receivables, the net amount of the lease investment is used as the entry value of the finance lease receivables. The net amount of the lease investment is the sum of the unguaranteed residual value and the present value of the lease payment not yet received at the start date of the lease term discounted at the interest rate implicit in the lease.

The Group calculates and recognizes interest income for each period of the lease term based on a fixed periodic interest rate. Variable lease payments not included in the measurement of the net amount of the lease investment are recognized in profit or loss when they are actually incurred.

Under operating leases, the Group recognizes the lease payments from operating leases as rental income using the straight-line method (or other systematic and reasonable methods) over the respective periods of the lease term. Initial direct costs related to operating leases are capitalized and amortized to the current profit or loss over the lease term on the same basis as that rental income is recognized. Variable lease payments not included in the lease payments are recognized in profit or loss when they are actually incurred.

31. Held for sale

(1) The Group classifies non-current assets or disposal groups as held for sale if they are also: 1) immediately available for sale in their current condition in accordance with the practice of selling such assets or disposal groups in similar transactions; and 2) highly probable that a sale will occur, i.e., a resolution has been made and a firm purchase commitment obtained for a plan of sale, which is expected to be completed within one year. The relevant regulations require the approval of the relevant authority or regulatory authority before the sale can take place. The Group measures the book value of each asset and liability in a non-current asset or disposal group in accordance with the relevant accounting standards before it is first classified as held for sale. If the book value of a non-current asset or disposal group held for sale that is initially measured or re-measured at the balance sheet date is higher than the fair value less costs to sell, the book value is written down to the net amount of the fair value less costs to sell, and the amount written down is recognized as an impairment loss of the asset and recognized in profit or loss for the current period, with a provision for impairment of assets held for sale.

(2) Non-current assets or disposal groups acquired by the Group specifically for resale are classified as held for sale at the date of acquisition if they meet the condition that "the sale is expected to be completed within one year" at the date of acquisition and if they are likely to meet other classification conditions for the held for sale category within a short period of time (usually three months). The initial measurement is to compare the initial measurement amount assuming they are not classified as the held-for-sale category with the net amount of the fair

value less costs to sell and use the lower value. Except for non-current assets or disposal groups acquired in a business combination, differences arising from the initial measurement of non-current assets or disposal groups at fair value less costs to sell are recognized in profit or loss in the current period.

(3) If the Group loses control of a subsidiary as a result of the sale of an investment in the subsidiary, whether or not the Group retains part of the equity investment after the sale, the Group will classify the investment in the subsidiary as a whole as held for sale in the parent company's individual financial statements and all assets and liabilities of the subsidiary as held for sale in the consolidated financial statements when the investment in the subsidiary to be sold satisfies the criteria for classification as held for sale.

(4) Where the net amount of the fair value of non-current assets held for sale less costs to sell increases at the subsequent balance sheet date, the amount previously written down should be restored and reversed within the amount of the impairment loss of assets recognized after they have been classified as held for sale, and the reversed amount should be recognized in profit or loss for the current period. Impairment losses of assets recognized before the classification as held for sale are not reversed.

(5) For the amount of impairment losses of assets recognized for a disposal group held for sale, the book value of goodwill in the disposal group is first eliminated, and then the book value of each non-current asset is eliminated pro rata based on its share of the book value.

Where the net amount of the fair value of disposal groups held for sale less costs to sell increases at the subsequent balance sheet date, the amount previously written down should be restored and reversed within the amount of the impairment loss of assets recognized after they have been classified as held for sale and measured using the relevant provisions for non-current assets, and the reversed amount should be recognized in profit or loss for the current period. The book value of goodwill that has been eliminated and impairment losses of assets recognized before the classification of non-current assets as held for sale are not reversed.

The amount of subsequent reversal of impairment losses of assets recognized for disposal groups held for sale is increased proportionately to the book value of each non-current asset in the disposal groups, other than goodwill, based on its proportionate share of the book value of the asset.

(6) Non-current assets held for sale or non-current assets in disposal groups are not depreciated or amortized, and interest and other charges on liabilities in disposal groups held for sale continue to be recognized.

(7) Non-current assets held for sale or disposal groups that are no longer classified as held for sale because they no longer meet the criteria for classification as held for sale or non-current assets are removed from disposal groups held for sale are measured at the lower of 1) book value before classification as held for sale, adjusted for depreciation, amortization or impairment that would have been recognized had they not been classified as held for sale or 2) recoverable amount.

(8) Upon derecognition of non-current assets held for sale or disposal groups, the unrecognized gain or loss is recognized in profit or loss in the current period.

32. Fair value measurements

(1) Initial measurement of fair value

For an asset or liability measured at fair value, the Group measures its fair value using the price that a market participant would receive from selling an asset or paying to transfer a liability in an orderly transaction occurring at the measurement date, taking into account the characteristics of the asset or liability. When the underlying asset or liability is measured at fair value, a transaction by a market participant to sell the asset or transfer the liability at the measurement date is an orderly transaction under current market conditions; an orderly transaction to sell the asset or transfer the liability takes place in the primary market for the underlying asset or liability. Where no primary market exists, the transaction is assumed to take place in the most advantageous market for the underlying asset or liability; the assumptions used by the market participant in pricing the asset or liability to maximize its economic benefits are used. When measuring non-financial assets at fair value, consideration is given to the ability of a market participant to put the asset to its best use to generate an economic benefit, or to sell the asset to another market participant that is able to put it to its best use.

(2) Valuation technique

The Group measures the relevant asset or liability at fair value using valuation techniques that are appropriate in the circumstances and supported by sufficient available data and other information. The valuation techniques used mainly include the market approach, the income approach and the cost approach, and in applying the valuation techniques, preference is given to the use of relevant observable inputs, and the use of unobservable inputs is only made when the relevant observable inputs are unavailable or impracticable to obtain.

(3) Fair value hierarchy

The Group determines the level at which the fair value measurement falls based on the lowest level at which the inputs that are significant to the overall fair value measurement fall: Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities

that are available at the measurement date. An active market is one in which the underlying asset or liability is traded in sufficient volume and frequency to provide pricing information on an ongoing basis. Level 2 inputs are inputs that are directly or indirectly observable for the underlying asset or liability in addition to the Level 1 inputs. Level 3 inputs are the unobservable inputs of the underlying asset or liability.

33. Accounting treatment of financial asset transfers and securitization of non-financial assets

When a transfer of a financial asset occurs, it is judged on the basis of the transfer of substantially all the risks and rewards of ownership of the relevant financial asset: the corresponding financial asset is derecognized if it has been transferred in full; if it has not been transferred and substantially all the risks and rewards of ownership of the relevant financial asset have been retained, it is not derecognized; if it has neither transferred nor retained substantially all the risks and rewards of ownership of the relevant financial asset, derecognition is determined on the basis of the extent to which control over the financial asset is involved: if control over the financial asset is relinquished, the financial asset is derecognized; if control over the financial asset is not relinquished, the relevant financial asset is recognized to the extent of its continuing involvement in the financial asset and the related liability is recognized accordingly. If a financial asset meets the conditions for derecognition in its entirety, the difference between the consideration received for the transfer and the corresponding book value is included in the current profit or loss, and the cumulative change in the fair value of the financial asset previously included in the owners' equity directly is transferred to the current profit or loss; if the conditions for derecognition of a partial transfer are met, the book value of the entire financial asset involved in the transfer is apportioned between the derecognized portion and the non-derecognized portion according to their respective relative fair values, and the apportioned book value is treated on the basis of the entire transfer against the portion of the partial transfer. If the conditions for derecognition are not met, the consideration received is recognized as a financial liability.

34. Discontinued operations

A discontinued operation is a separately distinguishable component of the Group that meets one of the following conditions and is disposed of or classified as held for sale: (1) the component represents a separate principal business or a separate principal operating area; (2) the component is part of an associated plan to dispose of a separate principal business or a separate principal operating area; and (3) the component is a subsidiary acquired for resale.

35. Production safety expenses

The Group accrues and uses production safety expenses in accordance with the notice of Administrative Measures for the Extraction and Use of Enterprise Production Safety Expenses issued by the Ministry of Finance and the Ministry of Emergency Management (Cai Zi [2022] No. 136), and the actual operating income of the previous year is the basis for the accrual. The accrual is in accordance with the standards stipulated in the Measures. Production safety expenses are charged to the cost of the related product or profit or loss when withdrawn and are included in the "special reserve" account.

When the production safety expenses are used in accordance with the scope of regulations, they will be directly deducted from the special reserve if they belong to cost expenditure; if they belong to capital expenditure, the expenditure will be collected under the account of construction in progress, and then transferred to fixed assets when the project is completed and available for the intended use. The special reserve is written down according to the costs of the generated fixed assets and the corresponding amount of accumulated depreciation is recognized at the same time. No depreciation will be charged for the fixed assets in subsequent periods.

36. Carbon emission rights

Certain subsidiaries of the Company are required to fulfill their emission reduction obligations as key emitters and recognize carbon emission-related assets and carbon emission expenses in accordance with relevant regulations:

(1) Present obligations arising from the fulfillment of emission reduction obligations are measured in accordance with the best estimates of the required expenditures and recognized as other payables and non-operating expenses;

(2) When carbon emission allowances are purchased, a carbon emission right asset is recognized in accordance with the price paid or payable at the date of purchase, with the balance shown as other current assets. If carbon emission allowances are acquired without compensation, no accounting treatment is required. When the purchased carbon emission allowances are used to fulfill the emission reduction obligations, the carbon emission right asset is reduced in accordance with the book value of the allowances used;

(3) No accounting treatment is required for the use of carbon emission allowances obtained without compensation to fulfill the obligations;

(4) When carbon emission allowances are sold, non-operating income or non-operating expenses are recognized in accordance with the difference between the price received or receivable on the date of sale and the book balance of the allowances sold.

V. Statement of changes in accounting policies and accounting estimates and other adjustments

1. Changes in accounting policies

(1) Accounting Standards for Business Enterprises Interpretation No. 16

The Ministry of Finance issued Accounting Standards for Business Enterprises Interpretation No. 16 (Cai Kuai [2022] No. 31) in November 2022, which is hereinafter referred to as the “Interpretation No. 16”.

The Interpretation No. 16 stipulates that a single transaction that is not a business combination and that, at the time of occurrence of the transaction, affects neither the accounting profit nor the taxable income (or deductible losses), and in which the initial recognition of assets and liabilities results in equal taxable temporary differences and deductible temporary differences (including lease transactions where the lessee initially recognizes a lease liability on the commencement date of the lease term and includes it in the right-of-use asset, and transactions where a provision is recognized for abandonment obligations of fixed assets and included in the cost of the relevant assets, etc., which are referred to as “single transaction” subject to this interpretation), is not subject to the provisions of Articles 11(2) and Article 13 of Accounting Standards for Business Enterprises No. 18 - Income Taxes regarding exemption from initial recognition of deferred tax liabilities and deferred tax assets. The enterprise shall recognize the corresponding deferred tax liabilities and deferred tax assets, respectively, at the time of the transaction in accordance with the relevant provisions of Accounting Standards for Business Enterprises No. 18 - Income Taxes for the taxable temporary differences and deductible temporary differences arising from the initial recognition of assets and liabilities for the transaction.

The Group recognizes deferred tax assets and deferred tax liabilities and makes retrospective adjustments accordingly, and adjusts the comparative statements for the equal amounts of deductible temporary differences and taxable temporary differences arising from lease transactions in which a lease liability is initially recognized and included in the right-of-use asset on the commencement date of the lease term.

The Interpretation No. 16 does not have any impact on the parent company's financial statements, and the impact on the opening balances of the Company's consolidated balance sheet and the prior period amounts of the income statement for each item is as follows:

1) Impact on the consolidated balance sheet

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

2) Impact on the consolidated income statement

FY2022 (Before policy change)		FY2022 (After policy change)	
Item	Book value	Item	Book value
Income tax expenses	855,144,027.68	Income tax expenses	811,456,856.78
Net profit	-191,263,682.36	Net profit	-147,576,511.46
Net profit attributable to owners (or shareholders) of the parent company	1,160,168,573.11	Net profit attributable to owners (or shareholders) of the parent company	1,192,005,891.35
Gains or losses on non-controlling interests	-1,351,432,255.47	Gains or losses on non-controlling interests	-1,339,582,402.81

2. Changes in accounting estimates

Contents and reasons for changes in accounting estimates	Approval procedure	Commencement date of implementation	Statement items significantly affected
For the new energy subsidy portfolio of accounts receivable, the Group makes a provision for bad debts based on the difference between the present value of estimated future cash flows and the book value.	The change was considered and approved internally by each subsidiary.	Implementation from December 1 st , 2023	See other descriptions for details

Other descriptions: The Group adopts the future application method for the above change in accounting estimates. Based on the balance of accounts receivable (new energy subsidy) as at December 31st, 2023, the change in accounting estimates resulted in the Group's credit impairment loss increasing by RMB 140,779,100 and its net profit decreasing by RMB 110,795,200 for the year of 2023, among which the net profit attributable to owners of the parent company by RMB 72,673,600, and gains or losses on non-controlling interests decreasing by RMB 38,121,600.

3. Important prior adjustments

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

The adjustments made by the Group to the financial statements at the beginning of the year were mainly due to the reclassification of the financial statements of the Group's subsidiary, GuangDong Architectural Design & Research Institute Co., Ltd. and the adjustments made with reference to the relevant accounting of listed companies in the same industry. The impact of such adjustments on the Group's financial statements is set out in the table below.

(1) Impact on the consolidated financial statements**1) Impact on the balance sheet**

December 31st, 2022 (Before adjustment)		January 1st, 2023 (After adjustment)

Profits tax	Taxable income	0%, 8.25%, 16.5%

2. Tax incentives and approvals

(1) Corporate income tax

1) Pursuant to the Notice of the Ministry of Finance and the State Taxation Administration on Issues Concerning the Implementation of the Catalogue of Preferential Corporate Income Tax for Public Infrastructure Projects (Cai Shui [2008] No. 46) and the Notice of the State Taxation Administration on Issues Concerning the Implementation of Preferential Corporate Income Tax for Public Infrastructure Projects Especially Supported by the State (Guo Shui Fa [2009] No. 80), certain wind power projects and photovoltaic projects, approved after January 1st, 2008, of the Group's subsidiaries, which engage in public infrastructure, will be entitled to the tax incentive for a three-year tax exemption followed by a three-year half reduction starting from the year in which the projects receive the first production and operating income (hereinafter referred to as the "Three-year Exemption and Three-year Half Reduction").

2) Pursuant to the Supplementary Notice of the Ministry of Finance and the State Taxation Administration on Issues Concerning Preferential Corporate Income Tax Policies Applicable to Public Infrastructure Projects (Cai Shui [2014] No. 55), where an enterprise invests in and operates a public infrastructure project that meets the conditions and criteria set forth in the Catalogue of Preferential Corporate Income Tax for Public Infrastructure Projects, and the project is approved once and constructed batch by batch (e.g., wharf, berths, terminal, runway, road section, generator set, etc.), the enterprise may calculate the income by taking each batch as a unit if all batches meet the conditions set forth in the regulations and is entitled to the "Three-year Exemption and Three-year Half Reduction" preference for corporate income tax. The subsidiaries, Guangdong Yuedian Qujie Wind Power Generation Co., Ltd. (hereinafter referred to as "Qujie Wind Power"), Guangdong Yuedian Pingyuan Wind Power Co., Ltd. and Guangdong Yudean Zhanjiang Wind Power Co., Ltd. (hereinafter referred to as "Zhanjiang Wind Power") met the above conditions in 2023. Therefore, Qujie Wailuo Offshore Wind Power Project Phase I (the first year for receiving income from electricity sales is 2019), Qujie Wailuo Offshore Wind Power Project Phase II (the first year for receiving income from electricity sales is 2021), Xinliao Offshore Wind Power Project (the first year for receiving income from electricity sales is 2021), Pingyuan Maoping Project (the first year for receiving income from electricity sales is 2020), Pingyuan Sishui Project (the first year for receiving income from electricity sales is 2021) and Zhanjiang Linfen Hongdong Photovoltaic Project (the first year for receiving income from electricity sales is 2023) are entitled to the "Three-year Exemption and Three-year Half Reduction" preference for corporate income tax separately for each wind power project or photovoltaic project.

3) Pursuant to the Reply Letter on Continuing the Implementation of Preferential Corporate Income Tax Policies in Ethnic Minority Autonomous Areas (Yue Cai Fa [2017] No. 11) jointly issued by the Department of Finance of Guangdong Province, Guangdong Provincial Tax Service, State Taxation Administration, local tax service bureaus of Guangdong Province,

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

Guangdong Yuedian Nanshui Power Generation Co., Ltd. ("Nanshui Power Generation"), a subsidiary of the Group, is entitled to the local sharing portion of the exemption from corporate income tax, i.e. a 40% reduction of the income tax payable, from January 1st, 2018 to December 31st, 2025; and the subsidiary Yuedian Zhongda New Energy (Shaoguan) Co., Ltd. is entitled to the local sharing portion of the exemption from corporate income tax, i.e. a 40% reduction of the income tax payable, from January 1st, 2023 to December 31st, 2025.

4) Pursuant to the Corporate Income Tax Law of the People's Republic of China (President Decree No. 63 of the People's Republic of China) and the Regulations for Implementing the Corporate Income Tax Law of the People's Republic of China, revenues received by an enterprise from the comprehensive utilization of resources and the production of products conforming to the provisions of the State's industrial policy may be deducted from the taxable income. Being deducted from the taxable income means that the revenue obtained by an enterprise by using the resources specified in the Catalogue of Preferential Corporate Income Tax for Comprehensive Utilization of Resources as the main raw materials for the production of products that are not restricted or prohibited by the State and comply with the relevant national and industry standards, is reduced to 90% and included in the total revenue. The subsidiary Guizhou Yuebang Comprehensive Energy Co., Ltd. ("Guizhou Yuebang") meets the aforesaid regulations and is entitled to the tax incentives for the current year.

5) Pursuant to the Announcement on Continuing Corporate Income Tax Policies for the Development of the Western Region (Announcement No. 23 of the Ministry of Finance, the State Taxation Administration and the National Development and Reform Commission of 2020), from January 1st, 2021 to December 31st, 2030, the corporate income tax for enterprises in the encouraged industries located in the western region is reduced to a tax rate of 15%. The subsidiaries, Tianshengqiao No.1 Level Water and Electricity Development Co., Ltd. Company ("Tianyi Company"), Guizhou Yueqian Electric Power Co., Ltd. ("Yueqian Electric Power"), Inner Mongolia Yuedian Menghua New Energy Co., Ltd. and Guizhou Yuebang, are subject to the preferential corporate income tax policies for enterprise that support the development of the western region.

6) High and new technology enterprises recognized in accordance with the Administrative Measures for the Recognition of High and New Technology Enterprises and High and New Technology Enterprises Especially Encouraged by the State jointly promulgated by the Ministry of Science and Technology, the Ministry of Finance and the State Taxation Administration in January 2016 may be entitled to the tax-related preferential policies for high and new technology enterprises in accordance with the new Corporate Income Tax Law and its implementation regulations which came into effect on January 1st, 2008, the Law of the People's Republic of China on Taxation Levy and Administration and the Implementation Rules of the Law

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

of the People's Republic of China on Taxation Levy and Administration. The subsidiaries, GuangDong Architectural Design & Research Institute Co., Ltd., Guangdong Construction Engineering Supervision Co., Ltd., Guangdong Yudean Information Technology Co., Ltd. ("Information Technology Company"), Guangdong Yuedian Zhanjiang Biomass Power Generation Co., Ltd. ("Biomass Power Generation"), Zhanjiang Wind Power, Guangdong Energy Group Science and Technology Research Institute Co., Ltd. ("Science Research Institute"), Guangdong Yudean Jinghai POWER Generation Co., Ltd. ("Jinghai POWER Generation"), Guangdong Red Bay Power Generation Co., Ltd. ("Red Bay Power Generation"), Zhanjiang Zhongyue Energy Co., Ltd., Guangzhou Development Zone Yuedian New Energy Co., Ltd., Guangdong Yuedian Zhuhai Offshore Wind Power Co., Ltd. and Guangdong Yudean Electric Power Marketing Co., Ltd. are high and new technology enterprises and are eligible to pay corporate income tax at a rate of 15% for the year.

7) Pursuant to the Notice on Increasing the Proportion of Pre-tax Additional Deduction for Research and Development Expenses of Science and Technology-based Small and Medium-sized Enterprises (Cai Shui [2017] No. 34) issued by the Ministry of Finance, the State Taxation Administration and the Ministry of Science and Technology, research and development expenses that were incurred by the subsidiary, Information Technology Company, in carrying out research and development activities during the current year and did not result in the formation of intangible assets to be charged to the current profit or loss are eligible for additional deduction before corporate income tax at 75% of the actual amount incurred on the basis of the actual deductions in accordance with the regulations.

8) Pursuant to the Notice of the Ministry of Finance and the State Taxation Administration on the Preferential Corporate Income Tax Policies in Guangzhou Nansha (Cai Shui [2022] No. 40), eligible enterprises of encouraged industries located in the Nansha Pilot Areas are subject to a reduced corporate income tax rate of 15%. The subsidiary Guangdong Energy Finance Leasing Co., Ltd. ("Finance Leasing Company") is entitled to this tax incentive.

9) Pursuant to the Notice of the Ministry of Finance and the State Taxation Administration on Issues Concerning the Implementation of the Catalogue of Preferential Corporate Income Tax for Comprehensive Utilization of Resources (Cai Shui [2008] No. 47), from January 1st, 2008, the revenue obtained by an enterprise by using the resources specified in the Catalogue of Preferential Corporate Income Tax for Comprehensive Utilization of Resources as the main raw materials to produce products that fall within the aforesaid catalogue and comply with the relevant national and industry standards is reduced to 90% and included in the total revenue of the enterprise for the year. The subsidiaries, Zhanjiang Electric Power Co., Ltd. ("Zhanjiang Electric Power") and Guangdong Huizhou Pinghai Power Plant Co., Ltd. ("Pinghai Power Plant"), which utilize fly ash to produce fly ash as goods, meet the aforesaid conditions

for income tax preferences on the comprehensive utilization of resources, and therefore, the revenue generated from the sales of fly ash in 2023 may be deducted to 90% and included in the total revenue of the year.

10) Pursuant to the Notice of the Ministry of Finance and the State Taxation Administration on Issues Concerning the Implementation of the Catalogue of Preferential Corporate Income Tax for Environmental Protection Specialized Equipment, the Catalogue of Preferential Corporate Income Tax for Energy-saving and Water-saving Specialized Equipment, and the Catalogue of Preferential Corporate Income Tax for Safety Production Specialized Equipment (Cai Shui [2008] No. 48), the enterprises that purchased and used the specialized equipment for environmental protection, energy-saving and water-saving and safety production within the scope of the Catalogue of Preferential Corporate Income Tax for Environmental Protection Specialized Equipment, the Catalogue of Preferential Corporate Income Tax for Energy-saving and Water-saving Specialized Equipment and the Catalogue of Preferential Corporate Income Tax for Safety Production Specialized Equipment from January 1st, 2008 can offset the corporate income tax payable for the year at 10% of the investment amount in the specialized equipment; if the enterprise's tax payable for the year is insufficient for offsetting, it can be carried over to the subsequent years, but no more than five taxable years. The subsidiary Guangdong Yudean Bohe Energy Co., Ltd. ("Bohe Energy") purchased and used the aforesaid specialized equipment in 2020 and met the aforesaid conditions for preferential income tax on specialized equipment, and therefore, the tax payable of Bohe Energy in 2023 can be offset in accordance with the aforesaid provisions.

11) Pursuant to the Announcement of the Ministry of Finance and the State Taxation Administration on Tax Policies for Further Supporting the Development of Micro and Small Enterprises and Self-employed Individuals (Announcement No. 12 of the Ministry of Finance and the State Taxation Administration of 2023), the portion of the annual taxable income of small low-profit enterprises not exceeding RMB 1 million shall be reduced to 25% of the taxable income, and the corporate income tax shall be paid at a tax rate of 20%; the portion of the annual taxable income of small low-profit enterprises exceeding RMB 1 million but not exceeding RMB 3 million shall be reduced to 25% of the taxable income, and the corporate income tax shall be paid at a tax rate of 20%. Some of the Group's subsidiaries are entitled to this tax incentive.

12) Pursuant to the Announcement on Further Improving the Policy of Pre-tax Additional Deduction of Research and Development Expenses (No. 7 of 2023), the actual research and development expenses incurred by enterprises in carrying out research and development activities, which do not result in the formation of intangible assets to be recognized in the current profit or loss, shall be deducted based on the actual amount incurred in accordance with the regulations and then implement additional deduction before tax at 100% of the actual

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

amount incurred from January 1st, 2023 onwards; and if intangible assets are formed, they shall be amortized before tax at 200% of the costs of the intangible assets from January 1st, 2023 onwards. The subsidiary Guangdong Architectural Design & Research Institute Co., Ltd. is entitled to this preferential policy.

13) Pursuant to the Notice of the Ministry of Finance and the State Taxation Administration on Related Policies for Corporate Income Tax Deduction of Equipment and Apparatus (Cai Shui [2018] No. 54) and the Announcement of the Ministry of Finance and the State Taxation Administration on Extending the Implementation Period of Certain Preferential Tax Policies (Announcement No. 6 of the Ministry of Finance and the State Taxation Administration of 2021), the newly purchased equipment and apparatus of Guangdong Architectural Design & Research Institute Co., Ltd. in 2023, whose unit value does not exceed RMB 5 million, may choose to be included in the current costs and expenses and be deducted in the calculation of the taxable income, and no depreciation is provided by year.

14) Pursuant to Article 1 of the Notice of the Ministry of Finance and the State Taxation Administration on Extending the Carry-forward Period for Losses of High and New Technology Enterprises and Science and Technology-based Small and Medium-sized Enterprises (Cai Shui [2018] No. 76), from January 1st, 2018, enterprises with the qualification of high and new technology enterprises or science and technology-based small and medium-sized enterprises (hereinafter collectively referred to as the “qualifications”) in the current year are permitted to carry forward the losses not yet made up for but incurred in the preceding five years to the subsequent five years for making up for the losses, with the maximum carry-forward period being extended from 5 years to 10 years. The subsidiary Guangdong Construction Engineering Supervision Co., Ltd., as a high and new technology enterprise, is allowed to carry forward the losses not yet made up for to be offset within 10 years.

(2) Value-added tax (VAT)

1) Pursuant to the Notice of the Ministry of Finance and the State Taxation Administration on the Value-added Tax Policy for Wind Power Generation (Cai Shui [2015] No. 74), from July 1st, 2015, a policy of 50% immediate refund of value-added tax is applied to the sales of self-produced electricity products produced by taxpayers using wind power. The Group's wind power subsidiaries are entitled to this tax incentive in the year.

2) Pursuant to the Notice of the Ministry of Finance and the State Taxation Administration on Comprehensive Roll-out of Business Tax to Value-added Tax Transformation Pilot Program (Cai Shui [2016] No. 36), the zero-rated value-added tax applies to the provision of international transportation services by the subsidiary Guangdong Shipping Co., Ltd. (“Shipping Company”). International transportation services include the transportation of

passengers or cargoes from China to overseas, the transportation of passengers or cargoes from overseas to China, the transportation of passengers or cargoes abroad.

3) Pursuant to the Announcement of the Ministry of Finance and the State Taxation Administration on Further Enhancing the Implementation of the Policy of the Value-added Tax Credits for Refund at the End of the Period (Announcement No. 14 of the Ministry of Finance and the State Taxation Administration of 2022), the policy of the VAT credits for refund at the end of the period was strengthened for micro and small enterprises. The policy of fully refunding the VAT incremental tax credits to advanced manufacturing industries on a monthly basis was expanded to eligible micro and small enterprises and the stock of tax credits were refunded to micro and small enterprises on a one-off basis. The policy of the VAT credits for refund at the end of the period was strengthened for the sectors including “manufacturing”, “scientific research and technology services”, “electricity, heat, gas and water production and supply”, “software and information technology services”, “ecological protection and environmental governance” and “transportation, storage and postal services” (hereinafter referred to as “manufacturing and other industries”). The policy of fully refunding the VAT incremental tax credits to advanced manufacturing industries on a monthly basis was expanded to eligible enterprises in manufacturing and other industries, and the stock of tax credits was refunded to enterprises in manufacturing and other industries on a one-off basis. Some of the Group's subsidiaries are entitled to this tax incentive.

4) Pursuant to the Announcement of the Ministry of Finance and the State Taxation Administration on Clarifying the Value-added Tax Relief and Exemption Policy for Small-scale Taxpayers (Announcement No. 1 of the Ministry of Finance and the State Taxation Administration of 2023), from January 1st, 2023 to December 31st, 2023, small-scale VAT taxpayers with a monthly sales volume of less than RMB 100,000 (inclusive) are exempt from VAT. From January 1st, 2023 to December 31st, 2023, small-scale VAT taxpayers to which the levy rate of 3% on their taxable sales revenue applied were subject to a reduced VAT levy rate of 1%; and the VAT on the items subject to VAT prepayment at the pre-collection rate of 3% were prepaid at the reduced pre-collection rate of 1%. From January 1st, 2023 to December 31st, 2023, taxpayers engaging in the producer services were allowed to offset their payable tax by adding 5% to the deductible input tax of the current period. Some of the Group's subsidiaries were entitled to this tax incentive in 2023.

5) Pursuant to the Notice of the Ministry of Finance and the State Taxation Administration on Further Clarifying the Policies Relating to Comprehensive Roll-out of Business Tax to Value-added Tax Transformation Pilot Program in the Financial Sector (Cai Shui [2016] No. 46), interest income from the pledged-type financial products purchased for resale by financial institutions is considered to be interest income from transactions between financial institutions

and is exempt from VAT. The subsidiary Guangdong Energy Group Finance Co., Ltd. (“Energy Finance Company”) is entitled to this tax incentive.

6) Pursuant to the Notice of the Ministry of Finance and the State Taxation Administration on Comprehensive Roll-out of Business Tax to Value-added Tax Transformation Pilot Program (Cai Shui [2016] No. 36), the subsidiaries Science Research Institute and Information Technology Company may be exempt from VAT for the provision of technology transfers, technology development, and technology consulting and technological services related thereto, if they are certified by the competent provincial science and technology department at the local place, and are reported to the competent tax authorities for record purposes with the relevant written contracts and supporting documents for the review and approval opinions of the competent science and technology department.

7) Pursuant to the Notice of the Ministry of Finance and the State Taxation Administration on Comprehensive Roll-out of Business Tax to Value-added Tax Transformation Pilot Program (Cai Shui [2016] No. 36), after May 1st, 2016, general taxpayers among the pilot taxpayers engaging in the finance leasing business and the financial sale-and-leaseback business with a paid-in capital of RMB 170 million are subject to the VAT immediate refund policy for the portion of the actual VAT burden exceeding 3%. The subsidiary Finance Leasing Company is entitled to this tax incentive.

8) Pursuant to the Catalogue of Preferential Value-added Tax for Products and Services with Comprehensive Utilization of Resources issued by the Ministry of Finance and the State Taxation Administration (Cai Shui [2015] No. 78), taxpayers selling self-produced products with comprehensive utilization of resources and providing services with comprehensive utilization of resources are entitled to the VAT immediate refund policy. The subsidiaries Guizhou Yuebang and Biomass Power Generation meet the aforesaid regulations and are entitled to tax incentives for the current year.

(3) Other tax incentives

1) Pursuant to the Announcement on Further Implementation of the “Six Taxes and Two Fees” Relief and Exemption Policy for Micro and Small Enterprises (Announcement No. 10 of the State Taxation Administration of 2022), during the period of compliance with the criteria for the authentication of small low-profit enterprises, the resource tax, urban maintenance and construction tax, property tax, urban land use tax, stamp duty (excluding the stamp duty on securities transactions), farmland occupation tax, education surtax and local education surtax will be reduced by a maximum of 50% of the tax amount. The subsidiaries Guangdong Energy Group Natural Gas Co., Ltd. (“Energy Natural Gas”) and Foshan Gangsen New Energy Technology

Co., Ltd. met the aforesaid regulations for the first and second quarters of 2023 and were entitled to this tax incentive.

2) Pursuant to the Notice of Guangdong Provincial Tax Service on Issues Concerning the Levy and Exemption of Land Use Tax for the Electric Power Industry (Yue Shui San Zi [1989] No. 33), land use tax shall be levied on the land inside the perimeter wall of the thermal power plant according to the regulations. Land use tax shall be exempt for the land of the ash yard, ash pipeline and oil (gas) pipeline, and railroad lines outside the perimeter wall of the plant; other land outside the perimeter wall of the plant shall be taxed according to the regulations. The Group's thermal power subsidiaries are entitled to this tax incentive.

3) Pursuant to the Announcement of the Ministry of Finance and the State Taxation Administration on Continuing to Implement the Preferential Urban Land Use Tax Policies for Land Used for Bulk Commodity Warehousing Facilities of Logistics Enterprises (Announcement No. 5 of the Ministry of Finance and the State Taxation Administration of 2023), from January 1st, 2023 to December 31st, 2027, the urban land use tax on land used for bulk commodity warehousing facilities owned (including self-used and leased) or leased by logistics enterprises is reduced by 50% of the applicable tax rate of the respective land class. The subsidiary Guangdong Yudean Farnon Investment Co., Ltd. ("Yudean Farnon") is entitled to this tax incentive.

4) Pursuant to the Environmental Protection Tax Law of the People's Republic of China (President Decree No. 61 of the People's Republic of China), if the concentration of taxable air pollutants or water pollutants discharged by a taxpayer is less than 30% of the pollutant emission standards set by the national and local regulations, the environmental protection tax shall be levied at 75% of the taxable amount. If the concentration of taxable air pollutants or water pollutants discharged by a taxpayer is less than 50% of the pollutant emission standards set by the national and local regulations, the environmental protection tax shall be levied at 50% of the taxable amount. The Group's thermal power subsidiaries are entitled to this tax incentive.

5) Pursuant to the Announcement of the Ministry of Finance and the State Taxation Administration on Tax Policies for Further Supporting the Development of Micro and Small Enterprises and Self-employed Individuals (Announcement No. 12 of the Ministry of Finance and the State Taxation Administration of 2023), from January 1st, 2023 to December 31st, 2027, the resource tax (excluding water resource tax), urban maintenance and construction tax, property tax, urban land use tax, stamp duty (excluding stamp duty on securities transactions), farmland occupation tax, education surtax and local education surtax shall be levied by half for small-scale VAT taxpayers, small low-profit enterprises, and self-employed individuals. Some of the Group's subsidiaries are entitled to this tax incentive.

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

6) Pursuant to the Announcement on Related Tax Policies to Support Financing for Micro and Small Enterprises (Announcement No. 13 of the Ministry of Finance and the State Taxation Administration of 2023), stamp duty is exempt on borrowing contracts signed between financial institutions and small enterprises or micro enterprises. The subsidiary Energy Finance Company is entitled to this tax incentive.

8	Yuncheng Changle Yuefeng New Energy Co., Ltd.	66.00	66.00	1,000,000.00	-	5	Note 8

Note: 1. (1) The Company did not meet the condition of owning the rights of the investee: the vote of the Investment Decision-making Committee of Guangdong Agricultural Supply-Side Structural Reform Fund Partnership (Limited Partnership) (hereinafter referred to as the "Agricultural Fund") is not considered to have been adopted until a two-thirds majority of the Committee has been reached. The Decision-making Committee consists of five members, three of whom are appointed by the Company's controlled subsidiaries and two of whom are drawn from the Agricultural Fund's pool of experts, and the proportion of the Company's voting rights is less than two-thirds, which is not sufficient to meet the control conditions.

(2) The Company is not entitled to the variable returns of the Agricultural Fund: Firstly, according to the formation program, the income of the Fund attributable to Hengjian Holding Company's capital contribution may be fully transferred, specifically: in accordance with the principle of capital recovery before profit sharing, after all shareholders have recovered their investment costs, the Fund will generate investment income, and the income portion will be distributed by the shareholders of the Fund and the Fund Manager in accordance with the agreement. When the fund's investment is withdrawn and the principal is recovered, the fund's income attributable to Hengjian Holding Company's capital contribution can be fully transferred,

and the transfer is linked to the results of the performance appraisal. Specific concessions will be proposed by the fund manager and approved by the Provincial Department of Agriculture in conjunction with the Provincial Department of Finance and the Provincial State-owned Assets Supervision and Administration Commission. Secondly, the Company's clear entitlement to the income from this investment is the fund management fee, which is charged at a fixed rate of 0.25% per annum of the limited partners' contributions and does not constitute a variable return.

As a result of the above factors: The Company cannot substantially control this company and therefore it is not included in the scope of consolidation.

2. In accordance with the relevant arrangements of the provincial government for the comprehensive promotion of rural revitalization, the Company established a seed industry revitalization sub-fund by relying on the Agriculture Supply-side Structural Reform Fund, and according to the Partnership Agreement of Guangdong Seed Industry Revitalization Equity Investment Fund Partnership (Limited Partnership) ("Seed Industry Revitalization Fund"), the share held by Guangdong Seed Industry Group Seed Industry Revitalization Private Fund Management Co., Ltd., a subsidiary of the Group, as a general partner (GP), is share of 0.05% and the Agriculture Fund, as a limited partner (LP), holds a share of 99.95%. The Seed Industry Revitalization Fund distributes income on the basis of the principle of return of capital before profit sharing, and the income distribution is mainly based on the ratio of paid-in capital of all partners, with the Agriculture Fund enjoying a significant proportion of the income. The Investment Decision Board of the Seed Industry Revitalization Fund consists of three members, two appointed by the Executive Partner, Guangdong Seed Industry Group Seed Industry Revitalization Private Fund Management Co., Ltd., and one appointed by the Limited Partner, Guangdong Province Agriculture Supply-side Structural Reform Fund Partnership (L.P.). Each member is entitled to one vote, and the unanimous approval of all members is required for significant matters such as investment and withdrawal of the partnership to be valid. As the Company does not have substantial control over the Agriculture Fund, the Company has not been able to achieve control over the decision-making of the Seed Industry Revitalization Fund.

As a result of the above factors: The Company cannot substantially control this company and therefore it is not included in the scope of consolidation.

3. In November 2019, the subsidiary Guangdong Hengkun Development Investment Fund Co., Ltd. (hereinafter referred to as "Hengkun Company") absorbed and merged with the former Guangdong Hengrong Agricultural Development Co., Ltd., and Hengkun Company became the controlling shareholder of Hengxin Company. In January 2021, Hengkun Company proposed to write off and liquidate Hengxin Company, and Guangdong New Rural Construction Investment Co., Ltd. explicitly replied that it did not recognize Hengkun Company's status as a shareholder

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

of Hengxin Company and rejected Hengkun Company's proposal to write off and liquidate Hengxin Company. Hengkun Company has appealed to the Guangzhou Yuexiu District People's Court in relation to the shareholders' rights.

Based on the above facts, the Company has not included Hengxin Company in the scope of consolidation as it has not been able to exercise control over Hengxin Company during the liquidation and write-off phase since 2021.

4. According to the "Partnership Agreement of Guangdong Beautiful Countryside No.1 Equity Investment Partnership (Limited Partnership)", it has been agreed that the investment decision-making committee of the fund has a total of three members, two of which are appointed by the controlled subsidiary of Hengjian Holding Company, and that a resolution shall be valid only if it is unanimously agreed to by all the members.

As a result of the above factors: The Company was not able to exercise control over this fund and therefore it was not included in the scope of consolidation.

5. According to the "Partnership Agreement of Guangdong Zhongshan Listed Company High Quality Development Fund Partnership (Limited Partnership)", it has been agreed that the investment decision-making committee of the fund has a total of three members, two of which are appointed by the controlled subsidiary of Hengjian Holding Company, and that a resolution shall be valid only if it is unanimously agreed to by all the members.

As a result of the above factors: The Company was not able to exercise control over this fund and therefore it was not included in the scope of consolidation.

6. The company's articles of association stipulate that the shareholders of both parties have significant influence over the company's directorships, management positions and management, and that the shareholders of both parties have joint control.

7. The company's articles of association stipulate that the chairman of the board of directors shall be appointed by another shareholder, and several shareholders have significant influence over the company's directorships, management positions and management, and Guangdong Wind Power Generation Co., Ltd. has failed to achieve control.

8. As there are key provisions that require joint decision-making by all shareholders, the shareholders of both parties have significant influence over the company's major business matters and the shareholders of both parties have joint control.

4. Significant non-wholly owned subsidiaries

(1) Non-controlling interests

Others	447,253,168.25	—	—	474,272,738.56

Note: The main changes in the provision for impairment during the period are as follows:

1) As a result of the intensified competition in the hydropower generation market in Yunnan Province and the continuous drying up of the water supply in the basin in which it is located, the operating loss of its subsidiary, Lincang Yudean Energy Co., Ltd. (referred to as "Lincang Yudean"), has not been further improved, and there are indications of impairment of the long-term assets of the company's Dayakou Hydropower Station and Xintangfang Hydropower Station. The Group separately accounted for the Dayakou Hydropower Station and the Xintangfang Hydropower Station as an asset group and conducted impairment tests on each of them. After comparing the fair value of the asset group less disposal costs and the present value of the estimated future cash flows, the Group used the present value of the estimated future cash flows to determine the recoverable amount of the asset group of the Dayakou Hydropower Station and the Xintangfang Hydropower Station to be RMB 414,000,000.00 and 25,000,000.00, and a provision for impairment of assets - houses and buildings of RMB 558,397,458.72 was made in 2023.

2) The subsidiary Biomass Power Generation reported an operating loss in 2023 due to a decline in power generation efficiency, and there are indications of impairment of this company's long-term assets. The Group accounted for the Biomass Power Generation as an asset group and conducted impairment tests on each of them. After comparing the fair value of the asset group less disposal costs and the present value of the estimated future cash flows, the Group used the present value of the estimated future cash flows to determine the recoverable amount of the asset group of the Biomass Power Generation to be RMB 229,644,100.00, and a provision for impairment of assets - machinery equipment of RMB 306,528,103.07 was made in 2023.

3) The subsidiary Jinghai Power part of the power generation equipment used for production to implement technological transformation, the equipment parts that should be dismantled or replaced will be terminated or disposed of in advance, and there are indications

of impairment of the related assets, and a provision for impairment of assets-machinery equipment of RMB 210,566,011.21 was made in 2023.

4) The subsidiary Honghai Bay Power part of the power generation equipment used for production to implement technological transformation, the equipment parts that should be dismantled or replaced will be terminated or disposed of in advance, and there are indications of impairment of the related assets, and a provision for impairment of assets-machinery equipment of RMB 181,682,234.16 was made in 2023.

5) According to the Southern Regulatory Bureau of the National Energy Administration's *Notice on Units in Excess of Service Life*, units No.4 and No.5 of Guangdong Electric Power ShajiaoA Power Plant were formally decommissioned on October 31st, 2023, and a provision for impairment of assets-machinery equipment amounting to RMB 104,611,231.73 was made for the year 2023.

6) Based on the Net Recoverable Value of the Company's 18 Bulk Carriers Involved in the Shipping Company's Proposed Asset Impairment Tests issued by the third-party appraisal institution, an asset impairment measurement and assessment were conducted for the 18 bulk carriers owned by the subsidiary, Guangdong Yudean Shipping Co., Ltd. and a provision for impairment of assets - transportation facilities of RMB 437,877,100.00 was made for the year 2023.

7) Based on the Net Recoverable Value of the Company's 3 Bulk Carriers Involved in the Maritime Company's Proposed Asset Impairment Tests issued by the third-party appraisal institution, an asset impairment measurement and assessment were conducted for the 3 bulk carriers owned by the subsidiary, Maritime Company and a provision for impairment of assets - transportation facilities of RMB 126,888,700.00 was made for the year 2023.

8) In FY2023, Yuehua Power Generation, the subsidiary, approved the disposal of production power generation equipment belonging to the shut-down units No. 5 and No. 6 coal units through a resolution at the shareholders' meeting, and transferred the original value of the related assets of RMB 1,047,704,237.81, the accumulated depreciation of RMB 814,440,639.15, and the corresponding provision for impairment of RMB 225,517,783.46, to the liquidation of fixed assets.

(2) Details of fixed assets without the title certificates

As at December 31st, 2023, the Group's subsidiaries, including Shajiao C Power Plant, Guangdong Electric Power Shajiao Power Plant, Bayan Obo Yuemeng New Energy Co., Ltd., Maoming Thermal Power Plant, Bohe Energy, Shenzhen Guangqian Electric Power Co., Ltd.

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

(referred to as "Guangqian Company"), Zhanjiang Electric Power, Zhanjiang Wind Power, Tianyi Company and Guangdong Electric Power Xinfengjiang, had fixed assets without title certificates.

(3) Disposal of fixed assets

Item	Closing book value	Opening book value	Reason for transferring to disposal
Machinery equipment	167,188,124.94	126,656,118.45	Scrapped but the disposal unfinished
House and building	1,126,695.15	59,020.00	Scrapped but the disposal unfinished

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Machinery, transportation and office equipment	2,899,509.80	—	—	2,899,509.80
Others	-	—	—	-
Total book value	4,482,488,772.74	—	—	4,865,841,156.97
Including: Land	2,052,590,593.49	—	—	2,730,036,613.40
Houses and buildings	298,691,049.31	—	—	233,944,256.97
Machinery, transportation and office equipment	2,125,532,007.67	—	—	1,874,941,847.30
Others	5,675,122.27	—	—	26,918,439.30

Note: During the year, part of the Group's subsidiaries terminated the lease contracts early and acquired the ownership of the relevant power generation equipment by way of financing exchange, and the book value of the relevant right-of-use assets was transferred out to fixed assets.

20. Intangible assets

(1) Classification of intangible assets

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Total original value	8,097,541,837.28	420,889,276.02	27,999,805.55	8,490,431,307.75
Including: Software	793,320,434.64	118,555,321.39	8,532,780.04	903,342,975.99
Land use rights	5,913,165,282.71	254,223,585.51	19,286,204.86	6,148,102,663.36
Patent	56,588,949.00	241,216.70	68,000.00	56,762,165.70
Non-patent technologies	27,755,631.68	10,680,893.68	112,820.65	38,323,704.71

Patent	36,419,728.65	13,802,759.08	68,000.00	50,154,487.73
Non-patent technologies	20,335,639.37	3,777,267.74	112,820.65	24,000,086.46
Franchise	115,189,931.06	7,741,240.09	-	122,931,171.15

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Sea area use rights	37,565,360.81	18,600,059.92	-	56,165,420.73
Power transmission and transformation ancillary project and microwave project	260,331,315.46	-	-	260,331,315.46
Favourable contracts	7,199,828.03	4,114,190.29	-	11,314,018.32
Others	11,568.70	6,867.26	-	18,435.96
Total provision for impairment	285,519,885.06	8,531,417.09	-	294,051,302.15
Including: Software	2,548,482.97	448,340.98	-	2,996,823.95
Land use rights	86,052,407.09	-	-	86,052,407.09
Patent	-	-	-	-
Non-patent technologies	-	2,460,161.11	-	2,460,161.11
Franchise	196,918,995.00	5,622,915.00	-	202,541,910.00
Sea area use rights	-	—	—	-
Power transmission and transformation ancillary project and microwave project	-	—	—	-
Favourable contracts	-	—	—	-
Others	-	—	—	-
Total book value	5,392,377,392.14	—	—	5,576,565,859.53
Including: Software	260,542,420.11	—	—	314,581,139.20
Land use rights	4,414,751,219.18	—	—	4,552,916,058.85
Patent	20,169,220.35	—	—	6,607,677.97
Non-patent technologies	7,419,992.31	—	—	11,863,457.14
Franchise	115,029,327.41	—	—	111,207,880.95
Sea area use rights	529,430,894.24	—	—	538,476,384.43
Power transmission and transformation ancillary project and microwave project	-	—	—	-
Favourable contracts	45,011,550.96	—	—	40,897,360.67
Others	22,767.58	—	—	15,900.32

Note: The decrease in land use rights during the year was mainly due to the decrease in the original value of RMB 12,611,416.80 and accumulated amortization of RMB 5,509,823.47 as a result of the disposal of the assets of Tourist Hotel by Yudean Farnon.

(2) Details of land use rights without the title certificates

As at December 31st, 2023, the Group's subsidiaries, including Maoming Thermal Power Plant, Guangqian Company, Jinghai Power Generation, Guangdong Power Industry Fuel Co., Ltd., Yuehua Company, Guangdong Yudean Yunhe Power Generation Co., Ltd., Guangdong Shaoguan Port Co., Ltd., Yueqian Electric Power, Guangxi Wuxuan Yuefeng New Energy Co., Ltd., Shaoguan

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

Nanxiong Yuefeng New Energy Co., Ltd., Guangdong Yudean Xuwen Wind Power Co., Ltd., Qian'an Rongzhi Power Co., Ltd., Wuzhi Jindian New Energy Technology Co., Ltd. and Huilai Wind Power Co., Ltd., had land use rights for which title certificates had not been completed.

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

21. Development expenditure

Item	Opening balance	Increase during the period		Decrease during the period			Closing balance
		Internal development expenditure	Others	Recognized as intangible assets	Transferred to the current profit or loss	Others	
Data Lake-based Big Data Platform and Data Center Construction Project	-	10,579,638.34	-	-	-	-	10,579,638.34
Business and Technology Middle Office Tool Building and Application Project	-	5,250,000.00	-	-	-	-	5,250,000.00
Research and development of digital twin platform for pumped storage power plant based on BIM+GIS	-	397,344.71	2,009,433.96	-	-	-	2,406,778.67
Research and application of PCM platform technology for natural gas pipelines	2,233,962.27	47,169.81	-	-	-	-	2,281,132.08
Research and development of digital management platform for the construction period of the Luhe pumped storage power station	-	-	1,975,471.69	-	-	-	1,975,471.69
Emerging Gas Pipeline Project	-	1,381,128.00	-	-	-	-	1,381,128.00
Research and application of unmanned intelligent cabin cleaner systems based on the demand for epidemic prevention	-	1,351,724.00	-	-	-	-	1,351,724.00
Research and development of information systems for new energy settlement centers	999,237.74	3,415,916.72	-	-	3,198,827.10	-	1,216,327.36
Research on the application of pilot hole machine technology in large slope photovoltaic projects	-	1,037,735.85	-	-	-	-	1,037,735.85
Research and application of anti-clogging of No.1 furnace air preheater heat exchange element	6,889,335.83	-	-	-	-	6,889,335.83	-
Large-capacity offshore wind power key core technology and wind farm equipment health diagnosis intelligent perception technology research project	-	-	51,326,169.84	-	-	51,326,169.84	-
Experimental research on coal blending	-	49,713,714.90	-	-	49,713,714.90	-	-
Research and application of AGC hybrid energy storage assisted frequency regulation for unit AGCs	-	-	49,709,758.96	-	49,709,758.96	-	-

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

Item	Opening balance	Increase during the period		Decrease during the period			Closing balance
		Internal development expenditure	Others	Recognized as intangible assets	Transferred to the current profit or loss	Others	
Research and development of turbine flux technology based on low vapor consumption and high efficiency	-	37,632,492.26	-	-	37,632,492.26	-	-
Research and application of denitrification urea ammonia production and ammonia supply system optimization and upgrading	-	36,614,971.62	-	-	36,614,971.62	-	-
New furnace bottom seal application for boiler No. 1	-	35,585,306.78	-	-	35,585,306.78	-	-
Research on intelligent monitoring and early warning technology of million-unit ash delivery system	-	33,488,268.41	-	-	33,488,268.41	-	-
Coal mill structure technology research in 2023	-	33,213,122.99	-	-	33,213,122.99	-	-
Research and application of anti-high-parameter steam leakage technology for main and reheat steam systems of generating units	-	32,631,035.48	-	-	32,631,035.48	-	-
Research on diversified fuel coupling power generation technology for large-scale circulating fluidized bed boiler	-	32,299,762.51	-	-	32,299,762.51	-	-
Optimization and test of control strategy of MCS system of 600MW unit	-	30,725,714.49	-	-	30,725,714.49	-	-
Research and application of anti-burnout technology for high-temperature environment of combustor and its components in generator set combustion furnaces	-	29,939,144.86	-	-	29,939,144.86	-	-
Vibration research of turbine variable load operation test	-	-	23,876,399.23	-	23,876,399.23	-	-
Intelligent integrated system construction	-	-	23,614,423.90	-	-	23,614,423.90	-
Research and application of anti-leakage technology for 600MW unit MGGH primary heat exchanger based on three-dimensional tube	-	23,074,209.72	-	-	23,074,209.72	-	-
Research, development and application of combustion optimization and adjustment exhaust control technology	-	21,771,690.72	-	-	21,771,690.72	-	-
Application of new network architecture in 1000MW unit ash transfer programming	-	21,557,569.22	-	-	21,557,569.22	-	-

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

Item	Opening balance	Increase during the period		Decrease during the period		Closing balance
		Internal development expenditure	Others	Recognized as intangible assets	Transferred to the current profit or loss	Others
Research and application of high-efficiency combustion technology for boilers under the condition of blending poor quality coal	-	21,192,593.03	-	-	21,192,593.03	-
Research and application of anti-spontaneous combustion deflagration technology for coal mill combustion of Indonesian coal	-	20,991,759.13	-	-	20,991,759.13	-

Note: 1. Provision for impairment of goodwill: As at December 31st, 2023, the Group conducted an impairment test of goodwill, and there were indications of impairment of the long-term assets of its subsidiary, Tumushuk Thermal Power Co., Ltd. (referred to as "Tumushuk"), as a result of operating losses caused by persistently high fuel prices. The Group recognized Tumushuk as an asset group (including goodwill) and tested the asset group for impairment. After comparing the fair value of the asset group (including goodwill) net of disposal costs and the present value of estimated future cash flows, the Group used the present value of the estimated future cash flows to determine the recoverable amount of the asset group (including goodwill) and provided a provision for impairment of goodwill of RMB 119,488,672.00.

2. Goodwill and provision for impairment carried forward: During the year, the original value of goodwill recognized and provision for impairment was reduced by RMB 14,655,492.71 due to the fact that the subsidiary, Guangzhou Huangpu Guangdong Petroleum Storage and Transportation Co., Ltd. had been deregistered and its business had been discontinued; due to the fact that the relevant assets of the former Zhuhai Tourism Hotel Co., Ltd. which was absorbed and merged by the subsidiary Yudean Farnon have been sold and the business has been ceased, the original value of goodwill recognized was reduced by RMB 3,513,261.52; due to the transfer of the equity interest in Tancheng Shuntian Photoelectric Technology Co., Ltd. held by a subsidiary, Guangdong Electric Power Development Company (referred to as "Development Company"), the original value of goodwill recognized was reduced by RMB 297,804.32.

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Total	15,115,260,270.30	13,348,634,459.28

Note: 1. The details of assets to be disposed of are as follows:

Item	Original book value	Provision for impairment	Net book value	Note
Assets held for disposal:	—	—	—	—
Construction in progress	3,704,400.00	-	3,704,400.00	
Subtotal assets held for disposal	3,704,400.00	-	3,704,400.00	—

The subsidiary Guangdong Construction Industry Co., Ltd. signed the *Agreement on Housing Expropriation and Monetization Resettlement for the Transformation Project (Phase II) of the Shantytown (Urban Village) in Mianqianpo Area, Longhua District, Haikou City* with files including M2652, M2646, M2640, M2637, M2636 and M2635, respectively, in 2017, and obtained the demolition and relocation compensation properties of Room 903, Room 703, Room 503, Room 403, Room 402 and Room 401 in Building B of Waijing Community, Mianqianpo Village, Haikou City. According to the agreement, the total value of the demolition and relocation compensation properties acquired was RMB 3,704,400.00, which was not recognized as fixed assets for accounting because the property ownership certificates had not yet been issued. After verification, the assets did not meet the definition of construction in progress and were adjusted to other non-current assets for accounting purposes, with a decrease of construction in progress of RMB 3,704,400.00 and an increase of other non-current assets of RMB 3,704,400.00.

2. The project investment was the investment of the subsidiary Guangdong Hengyi Tourism and Cultural Industry Fund Co., Ltd. in Guangdong CTS Hengfu (Fuchuan) Cultural Tourism Industry Development Co., Ltd. Which was dissolved after the Shareholders Meeting on December 3rd, 2018 and a corporate liquidation team was set up. The liquidation was not finished as of the statement date, so the balance of RMB 1,592,000 for previous years was transferred to other non-current assets and a provision for the decline in value totaling RMB 755,200 was made. The net book value was RMB 836,800 as of the statement date.

(Unless otherwise specified, the amounts are expressed in RMB)

specialized funds for the efficiency expansion and renovation funds allocated by the province and the central government. According to the document of Yunnan Water Conservancy & Hydropower Investment Co., Ltd. (YSTF. [2015] No. 16), an interest of 4% has been levied on this part of the specialized accounts payable since January 1st, 2015. The Group's corresponding interest is charged to finance costs.

Note 2: In 2013, the Provincial State-owned Assets Supervision and Administration Commission and the Company entered into the *Agreement on Entrusted Management of Equity Investment of Special Funds for Reform and Development of Provincial Enterprises*, under which the Company is entrusted to manage special funds for reform and development of provincial enterprises in the amount of RMB 36,000,000 for a period of 5 years (which may be extended for 3 years or as otherwise agreed), and the Company receives management fees and performance incentives as agreed, and after the funds are recovered at the end of the project and distributed in accordance with the agreement, the remaining proceeds and principal are fully paid to the provincial treasury. As of December 31st, 2023, RMB 26.0 million was surrendered to the provincial treasury due to the end of some investment projects, leaving a balance of RMB 10.0 million.

40. Long-term employee benefits payable

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
I. Net liability for post-employment benefits - defined benefit plans	107,786,519.27	52,547,450.21	21,930,043.73	138,403,925.75
II. Termination benefits	323,039,386.92	197,321,568.04	125,439,850.14	394,921,104.82
III. Others long-term benefits	38,222,143.29	101,356.01	24,329,714.55	13,993,784.75
Total	469,048,049.48	249,970,374.26	171,699,608.42	547,318,815.32

Note: 1. In accordance with the relevant provisions of the GZTF Reform [2020] No. 36 *Questions and Answers Concerning the Socialized Management of Retirees of State-Owned Enterprises*, Guangdong Energy Group, a subsidiary of the Group, makes a one-time accrual for the existing extra-concentration expenses paid to retirees who are currently retired and the expenses are paid on a monthly basis. Guangdong Energy Group's extra-concentration expenses mainly include retirement allowance, military transfer allowance and living allowance for retired primary, secondary school teachers, etc. The present value of the cash flows of the extra-concentration expenses expected to remain payable to the retirees over their expected remaining lives is recognized as long-term employee benefits payable by Guangdong Energy Group, and is included in current profit or loss. As of December 31st, 2023, Guangdong Energy Group calculates the estimated expenses for each year of the expected remaining life of the retirees based on a certain percentage of the retirees' corresponding

year's extra-concentration expenses, and estimates the present value of future cash expenses for extra-concentration expenses based on the discount rate of 2.75% (2022: 3.22%) for the same maturity of treasury bonds.

2. According to the internal retirement policy of Guangdong Energy Group, employees who are eligible for internal retirement after examination may retire early before reaching the statutory retirement age. After early retirement, employees may draw a certain percentage of their original salary every month until the statutory retirement age. In accruing the above termination benefits, the management determines the amount based on the present value of the cash flows of termination benefits expected to be paid in the future. As of December 31st, 2023, Guangdong Energy Group calculates the estimated expenses for each year of years until the statutory retirement age based on a certain percentage of the employees' corresponding year's salary, and estimates the present value of future cash expenses for termination benefits based on the discount rate of 2.75% (2022: 3.22%) for the same maturity of treasury bonds.

3. The subsidiary Guangdong Electric Power ShajiaoA Power Plant formally shut down its remaining units on October 31st, 2023 and formulated an employee resettlement plan. Guangdong Energy Group, in accordance with the employee resettlement plan and the relevant internal retirement policy, estimates that for the employees who have been resettled in the form of internal retirement, such employees may receive a certain percentage of their original salary each month until they reach the statutory retirement age. In accruing the above termination benefits, the management determines the amount based on the present value of the cash flows of termination benefits expected to be paid in the future. As of December 31st, 2023, Guangdong Energy Group forecasts the estimated expenses until the statutory retirement age based on a certain percentage of the employees' corresponding internal retirement year's salary with consideration of growth rate of local salary, and estimates the present value of future cash expenses for termination benefits based on the discount rate of 2.75% for the same maturity of treasury bonds. As at 31st December 2023, the balance of termination benefits provided by Guangdong Energy Group under the employee resettlement plan amounted to RMB 121,869,848.00 was included in long-term employee benefits payable, and RMB 31,912,076.00 was included in employee benefits payable for termination benefits with an actual payment term of less than one year, and RMB 46,608,078.00 was provided for one-off employee resettlement compensation and recognized as employee benefits payable.

4. According to the relevant regulations of the social medical insurance of the localities to which Guangdong Energy Group belongs, for individual employees of Guangdong Energy Group who participate in the basic medical insurance for urban employees and whose accumulated contribution years at the time of reaching the statutory retirement age have not yet reached the required local limit, Guangdong Energy Group is required to continue to

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

contribute to the required number of years after the employees' retirement. The present value of the cash flows of future medical insurance payments expected to continue after the employees' retirement until reaching the required number of years is recognized by Guangdong Energy Group as long-term employee benefits payable, and is charged to profit or loss. As of December 31st, 2023, the balance of other long-term employee benefits payable mainly represented the retroactive medical insurance contributions for retired employees. Guangdong Energy Group calculates the estimated expenses for each year between the end of the current year and the year in which the required number of accumulated contribution years is reached based on a certain percentage of the corresponding year's salary of the retired employees, and estimates the present value of future cash expenses for the medical insurance of related retired employees based on the discount rate of 2.75% (2022: 3.22%) for the same maturity of treasury bonds.

41. Provisions

Item	Closing balance	Opening balance
Pending litigation (Note 1)	586,891.37	35,762,625.23
Others (Note 2)	24,156,230.53	23,585,801.01
Total	24,743,121.90	59,348,426.24

Note 1: The main balances of provisions recognized at year-end due to pending litigation are as follows:

(1) Labor disputes in subsidiaries

In December 2022, Zhang Zhihao, a natural person, filed an arbitration request to the Guangdong Labor and Personnel Dispute Arbitration Commission on the grounds that Guangdong Architectural Design and Research Institute Co. (hereinafter referred to as "GADRI") conducted illegal termination of labour relationship, and demanded a payment of RMB 91,612.75 as compensation for illegal termination of labour relationship, RMB 91,612.75 for the difference in salaries, RMB 200,000 for year-end bonus, RMB 62,000 for qualification subsidy and RMB 21,000 for holiday subsidy, as well as requesting to go through the separation procedures and issue a certificate of separation. The Arbitration Commission held a hearing on February 10th, 2023, and GADRI received the arbitration ruling on April 3rd, 2023, which required the payment of compensation for illegal termination of labor contract of RMB 156,891.37, handling of separation procedures and the issuance of a certificate of separation, and Zhang Zhihao's return of RMB 636.02 to the company. The GADRI filed a lawsuit against the Arbitration Commission's ruling to the People's Court of Liwan District, Guangzhou City, which was scheduled for June 9th, 2023 for hearing. The Group has recognized a provision of RMB 156,891.37 for this matter.

(2) Construction engineering design contract disputes

In November 2022, Guangzhou Benchu Design Engineering Co., Ltd. (Benchu) filed a lawsuit against the Jiangxi Branch of the GADRI with the Liwan District People's Court of Guangzhou City, demanding Jiangxi Branch of the GADRI to pay the principal and interest for the overdue payment based on RMB 1.2 million at the quoted market interest rate of the loan, on the grounds that it signed the Architectural Design Cooperation Agreement with Jiangxi Branch of the GADRI on September 28th, 2017, and Benchu had provided five design plans to Jiangxi Branch of the GADRI and was responsible for the tender documents of the design of the project in question throughout the process, but the company did not pay the design fee according to the consensus, and multiple collection attempts failed. The case was heard in March 2023. On December 26th, 2023, the result of the first trial verdict was received, which ruled that the Jiangxi Branch of the GADRI, as a branch of the GADRI, the legal consequences arising from its civil activities in its own name should be born by its head office, and therefore, the GADRI was required to pay the design fee of RMB 430,000 to Benchu, together with interest for late payment (the interest for late payment was calculated based on RMB 430,000, and was calculated at the quoted interest rate of the loan market published by the National Interbank Offered Rate Center since November 21st, 2022 until the date of settlement). The Group has recognized a provision of RMB 430,000.00 for this matter.

2. Other main balances of provisions recognized at year-end are as follows:

(1) In April 2017, the Company, as the Sponsor, together with Guangzhou Construction Engineering Co., Ltd. (hereinafter referred to as Guangzhou Construction) and Central & Southern China Municipal Engineering Design and Research Institute Co., Ltd. (hereinafter referred to as Central & Southern China Institute), formed a bidding consortium to participate in the bidding of Shantou Longhu East Industrial Park Infrastructure and Supporting PPP Project (hereinafter referred to as Longhu PPP Project), and won the bid on July 26th, 2017. After the project was awarded, due to the successive introduction of documents such as the Ministry of Finance's Notice on Regulating the Management of Project Pools on the Comprehensive Information Platform for Government and Social Capital Cooperation (PPP) (Cai Ban Jin [2017] No. 92) and the Provincial State-owned Assets Supervision and Administration Commission's Notice on Strictly Controlling PPP Businesses of Provincial Enterprises (YGZH [2017] No. 1504), the project is now in the withdrawal consultation stage due to the restrictions of national laws and regulations.

The Company and Central & Southern China Institute entered into an agreement between the two parties for the payment of compensation of RMB 15.34 million by the Company to Central & Southern China Institute, which has been paid now. After the Company

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

and the Longhu District Government reached a consensus to resolve the differences of the Longhu PPP project through friendly negotiation on February 2nd, 2021, taking into account the legal opinions of the legal advisors of both parties, the accounts provided for a provision of RMB 13,840,000.00 based on the schedule of preliminary costs of the Longhu East Industrial Park Infrastructure and Supporting PPP Project. As of the reporting date of the financial statements, the project is in the stage of communication for problem solving between the leaders of both parties, and no substantial progress has been made.

(2) Primarily represents the 7.5% Narrabri mine rehabilitation costs that UHI is contractually obligated to bear.

42. Deferred income

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Government grants	421,751,459.10	29,132,247.74	110,638,549.20	340,245,157.64
Total	421,751,459.10	29,132,247.74	110,638,549.20	340,245,157.64

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

43. Other non-current liabilities

Item	Closing balance	Opening balance
Output tax to be transferred	1,996,551.90	1,665,277.15
Housing working capital	1,028,166.97	1,028,166.97
Capital injection	-	78,400,000.00
Total	3,024,718.87	81,093,444.12

44. Paid-in capital

Investor	Opening balance		Increase during the year	Decrease during the year	Closing balance	
	Investment amount	Ratio (%)			Investment amount	Ratio (%)
State-owned Assets and Administration Commission of Guangdong Provincial People's Government	22,717,000,000.00	100.00	-	-	22,717,000,000.00	100.00
Total	22,717,000,000.00	100.00	-	-	22,717,000,000.00	100.00

45. Capital reserves

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Capital (equity) premium	1,099,256,759.71	478,017,033.36	-	1,577,273,793.07
Other capital reserve	119,328,221,413.94	60,332,980.93	-	119,388,554,394.87
Total	120,427,478,173.65	538,350,014.29	-	120,965,828,187.94
Including: Solely-state-owned capital reserve	-	-	-	-

Note: 1. The increase in capital premium was mainly attributable to the capital increase of the subsidiary Provincial Wind Power Company, the subsidiary Guangdong Seed Industry Group Innovation Research Institute Co., Ltd., and the subsidiary Guangdong Yangjiang Port Co., Ltd. during the year, which affected the changes in the proportion of the minority shareholders' equity interest and led to the increase in capital surplus.

2. Changes in other capital reserve represent the Group's proportionate share of other changes in equity in associates during the year.

46. Special reserves

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Production safety expenses	18,958,378.58	424,228,411.50	405,462,606.57	37,724,183.51
Total	18,958,378.58	424,228,411.50	405,462,606.57	37,724,183.51

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

Note: According to the *Administrative Measures for the Extraction and Use of Enterprise Production Safety Expenses* (Cai Zi [2022] No. 136) issued by the Ministry of Finance, Ministry of Emergency Management, the Group extracts and uses special reserves. The special reserves attributable to the parent company amounted to RMB 424,228,411.50 in 2023 and the use of special reserves amounted to RMB 405,462,606.57; special reserves attributable to minority shareholders amounting to RMB 235,679,772.23 were accrued in 2023 and special reserves of RMB 223,282,252.52 were utilized.

47. Surplus reserves

Item	Opening balance	Increase during the year	Decrease during the year	Closing balance
Statutory provident fund	961,591,812.84	504,703,498.10	-	1,466,295,310.94
Total	961,591,812.84	504,703,498.10	-	1,466,295,310.94

Note: A statutory surplus reserve of RMB 504,703,498.10 was withdrawn at 10% of net profit for the year.

48. Undistributed profits

Item	Amount in the current year	Amount in the prior year
Closing balance in the prior year	20,114,237,566.71	22,336,242,304.46
Adjustment at the beginning of the year (Note 1)	-	70,731,783.14
Opening balance in the current year	20,114,237,566.71	22,406,974,087.60
Increase during the year	8,281,829,310.20	1,880,874,012.83
Including: Transfer to net profit for the year	8,281,829,310.20	1,193,117,737.37
Other adjustment factors (Note 2)	-	687,756,275.46
Decrease during the year	1,591,245,466.88	4,173,610,533.72
Including: Withdrawal of surplus reserves during the year	504,703,498.10	249,158,156.41
Cash dividends distributed during the year	999,479,700.00	3,822,301,900.00
Other decreases (Note 3)	87,062,268.78	102,150,477.31
Closing balance in the current year	26,804,821,410.03	20,114,237,566.71

Note: 1. The adjustment at the beginning of the year: it was due to the reclassification of the financial statements of Guangdong Architectural Design and Research Institute Co. Ltd., a subsidiary of the Group, as well as the adjustments made with reference to the relevant accounting of listed companies in the same industry, which increased the undistributed profits at the beginning of the previous year by RMB 6,388,950.83 and the adjustment of the undistributed profits at the beginning of the previous year based on the changes of accounting policy in implementation of *Accounting Standard Interpretation No. 16* of RMB 64,342,832.31.

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

2. Other adjustment factors of the previous year: On January 1st, 2022, the Company implemented the shareholders' rights of central government enterprises and substantially fulfilled the authority of assigning directors, and converted China General Nuclear Power Group Co., Ltd., Baosteel Zhanjiang Iron & Steel Co., Ltd., China Aviation Industry General Aircraft Co., Ltd., and China Southern Air Holding Company to the equity method of accounting, which increased the surplus reserve of RMB 76,417,363.94 and the undistributed profits of RMB 687,756,275.46.

3. Other decreases during the year were mainly due to the contribution of financial funds by Guangdong Energy Group, a subsidiary, and the transfer to undistributed profits of the portion of cumulative changes in fair value and disposal premiums that were previously recognized directly in owners' equity as a result of the disposal of certain investments in other equity instruments.

49. Operating income and operating costs

Item	Amount in the current year		Amount in the prior year	
	Income	Cost	Income	Cost
(1) Subtotal of main businesses	85,503,033,670.87	70,860,155,792.03	76,045,864,862.90	71,277,479,998.88

IX. Contingencies

1. Contingent liabilities arising from guarantees of debts given to other entities and their financial effects

- (1) Guarantees for Guangdong-Macao Cooperation Development Fund (Limited Partnership)

In May 2018, the Group issued a letter of guarantee in favour of ICBC (Macau) Investment Company Limited (hereinafter referred to as the "Macau Party to the Guangdong-Macao Fund"), a party representing the Monetary Authority of the Macau Special Administrative Region. The entire paid-up capital contribution payable to the Macau Party to the Guangdong-Macao Fund under the *Guangdong-Macao Cooperation Development Fund (Limited Partnership) Partnership Agreement*, the limited partner's return calculated on the basis of its paid-up capital contribution at the expected benchmark rate of return (the expected benchmark rate of return shall be used to calculate the limited partner's return regardless of whether the fund achieves such expected benchmark rate of return) and the Macau Party's share of the actual excess return generated under the partnership agreement are all guaranteed by the Company and a guarantee fee of 1% is charged for the operating period of the Guangdong-Macao Cooperation Development Fund (Limited Partnership).

- (2) Counter-guarantee for China National Debt Credit Enhancement Investment Co., Ltd.

In May 2023, the Group, together with two other state-owned enterprises, provided a counter-guarantee to China National Debt Credit Enhancement Investment Co., Ltd. for an aggregate amount of RMB 1.7 billion, and the guarantee ratios of the Company and the other two guarantors were 40%, 40% and 20%, respectively, which means that the counter-guarantee provided by the Group to CBCEI amounted to RMB 680 million.

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

(3) As of December 31st, 2023, the subsidiary Guangdong Energy Group Co., Ltd. provided guarantees for the following companies:

Insured company	The guarantees	Amount (ten thousand yuan)	Guarantee start date	Guarantee termination date	Note

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)

Notes to Financial Statements

Jan. 1st, 2023 - Dec. 31st, 2023

(Unless otherwise specified, the amounts are expressed in RMB)

Note: The main guarantees are listed below:

1. In June 2019, Guangdong Energy Group entered into a guarantee contract with THE BANK OF NEW YORK MELLON, LONDON BRANCH to provide a full unconditional irrevocable joint and several liability guarantee to UHI CAPITAL LTD, a subsidiary of UHI, for the USD 500 million debt issuance project. At at December 31st, 2023, the balance of this guaranteed debt assumed by Guangdong Energy Group was USD 500 million (RMB 3,541,350,000).

2. In October 2019, Guangdong Energy Group provided an unconditional full irrevocable joint and several liability guarantee in respect of the RMB 1 billion green medium-term notes of its subsidiary Development Company. At at December 31st, 2023, the balance of this guaranteed debt assumed by Guangdong Energy Group was USD 500 million.

3. In January 2017, Guangdong Energy Group provided a guarantee for Line of Credit Agreement for letter of guarantee/standby letter of credit business entered into by APCO Holdco Company of Yudean International Development Limited (abbreviated as “Yudean International Development”), a subsidiary of Guangdong Energy Group and Guangzhou Zhujiang Sub-branch of Bank of China Limited, and the guaranteed party is Yudean International Development. The agreement was valid from February 22nd, 2017 to October 31st, 2020. Guarantees are subsequently provided on an ongoing basis by entering into guarantee continuation agreements. The Company most recently entered into a guarantee extension agreement on November 3rd, 2024, and the amount of the guarantee was amended to USD 12,375,000. At at December 31st, 2023, the balance of this guaranteed liability assumed by Guangdong Energy Group was USD 12,375,000 (RMB 87,648,400).

4. In 2019, the subsidiary, Guangdong Electric Power, entered into a joint liability guarantee contract with Guangdong Energy Group to guarantee the loan transferred by Guangdong Energy Group to the subsidiary, Yangjiang Offshore Wind Power, which stipulates that the Joint Stock Company will provide joint liability guarantee for Guangdong Energy Group to the Guangdong Provincial Department of Finance in respect of all of Yangjiang Offshore Wind Power's debts under the *Energy Group Loan Transfer Agreement*, with the scope of the guarantee including, but not limited to, the principal amount, the interest, etc. As the actual debtor of the project loan is Yangjiang Offshore Wind Power, the guarantee provided by Guangdong Electric Power for Guangdong Energy Group in respect of the project loan is essentially a guarantee provided by Guangdong Energy Group for the project loan obtained by Yangjiang Offshore Wind Power from the New Development Bank. At December 31st, 2023, the guarantee had a principal balance of RMB 1,894,720,000 and RMB 14,318,477 of interest payable.

2. Outstanding litigations and their financial impact

The Company's subsidiary GADRI, as one of the consortiums of Xinfeng County People's Hospital Relocation and New Construction Project, on January 1st, 2024, Xinfeng Fengjiang Investment Development Co., Ltd. (the plaintiff) sued every consortium entities, including Chongqing Construction Engineering Group Co., Ltd. (hereinafter referred to as "Chongqing Construction Engineering"), the subsidiary GADRI, and Guangdong Finance and Trade Construction Engineering Consulting Co., Ltd. (hereinafter referred to as "Finance and Trade Supervision Company"), on the grounds of project quality problems, overdue work, non-appearance of the project manager, and failure of the contractor to hand over the project information, claiming that the consortium should pay RMB 79,497,900 for the costs of redesigning, constructing and rectifying the hospital project due to the fact that the design and construction of the hospital project did not comply with the contract documents, did not satisfy the functionality of the project, and did not meet the conditions for its use; The defendant shall pay overdue liquidated damages of RMB 12,849,700 to the plaintiff (three ten thousandths per day); the defendant shall be ordered to pay liquidated damages of RMB 52,000 for the failure of the project manager to appear; the defendant shall be liable for the liquidated damages of RMB 350,000 for the petition incident, and so on. The subsidiary GADRI received the prosecution documents on January 24th, 2024, and the first hearing of the case is currently scheduled for March 24th, 2024. The Group believes that the subsidiary GADRI has no responsibility in this case, and rectification has already been completed for the part of the previous period for which there was a design responsibility, and this part of the project is now free from problems, therefore no provision has been made.

As at the date of approval of this financial report, apart from the above pending litigations, other litigations involving the Group and its subsidiaries are in the process of further trial and the outcome of the legal proceedings cannot be determined, the management of the Group, on the basis of the evidence obtained, does not anticipate that the aforesaid matters will have a material negative impact on the Group's financial position and results of operations.

3. Apart from the existence of the above contingencies, the Group had no other material contingencies as at December 31st, 2023.

Guangdong Hengjian Investment Holding Co., Ltd. (Consolidated)**Notes to Financial Statements**Jan. 1st, 2023 - Dec. 31st, 2023
