Chairman's Statement

We are pleased to present to shareholders of Tern Properties Company Limited (the "Company") the annual results of the Company and its subsidiaries (the "Group") for the year ended 31 March 2025.

Financial Results

The revenue of the Group for 2025 was HK\$50.4 million, a decrease of 10% from last year. The decrease in revenue was primarily due to the declining in rental income upon lease renewal and slightly increase in vacancy rate of the Group's properties during the year.

The loss attributable to the owners of the Company for the year was HK\$54.5 million. Such loss was primarily attributable by the decrease in the fair value of the Group's investment properties as compared with last year. Loss per share amounted to HK19.6 cents.

Dividend

The Board of Directors of the Company has resolved to recommend a final dividend of HK1.4 cents per share for the year ended 31 March 2025. Together with the interim dividend of HK0.3 cent per share that have already been paid, the total dividends for the year will amount to HK1.7 cents per share. The proposed final dividend, subject to approval by the shareholders of the Company at the annual general meeting ("2025 Annual General Meeting") to be held on Wednesday, 20 August 2025, will be payable on Friday, 12 September 2025 to the shareholders on the Register of Members of the Company on Tuesday, 2 September 2025.

Closure of Register Members

To ascertain the entitlement of the shareholders to attend and vote at the 2025 Annual General Meeting, the Register of Members of the Company will be closed from Friday, 15 August 2025 to Wednesday, 20 August 2025, both days inclusive, during which period no transfer of shares will be registered by the Company. In order to be eligible to attend and vote at the 2025 Annual General Meeting, all duly completed transfer forms accompanied by the relevant share certificates must be lodged with the Company's Share Registrar and Transfer Office, Computershare Hong Kong Investor Services Limited, Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong not later than 4:30 p.m. on Thursday, 14 August 2025.

Subject to the approval of the shareholders at the 2025 Annual General Meeting, the proposed final dividend will be payable to the shareholders whose names appear on the Register of Members of the Company on 2 September 2025. To ascertain the entitlement of the shareholders to the proposed final dividend, the Register of Members of the Company will be closed from Friday, 29 August 2025 to Tuesday, 2 September 2025, both days inclusive, during which period no transfer of shares will be registered by the Company. In order to qualify for the proposed final dividend, all duly completed transfer forms accompanied by the relevant share certificates must be lodged with the Company's Share Registrar and Transfer Office, Computershare Hong Kong Investor Services Limited, Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong not later than 4:30 p.m. on Thursday, 28 August 2025.

Chairman's Statement

Business Outlook

Since 2024, world economic growth continues on a delicate path of volatility with trade tensions, inflation and global tensions continue to cast a shadow on the economic outlook. As such, the global economic outlook remains highly volatile and is likely to continue to impede global growth and business activities.

Whilst the Hong Kong economy has been showing signs of recovery, the progress is still lagging behind expectations. Hong Kong's office and retail leasing sector continues with its challenges stemming from weak demand and oversupply of new office spaces. The ongoing economic uncertainty, trade tariffs under the Trump administration, inflation, high borrowing cost, unstable geopolitical situation have considerably dampened the real estate performance. Consequently, businesses are exhibiting heightened uncertainty and are more cautious to expand their business. In addition, the impact of Hong Kong residents' northbound visits to the Greater Bay Area on weekends and holidays has led to changes in shopping patterns in Hong Kong. All these factors have resulted in a decline in rental income and property values across all retail shops and commercial buildings segments in Hong Kong.

Nevertheless, we have seen supportive measures from the China and Hong Kong governments such as promoting Hong Kong as "the premier hub for mega events", expanding the Individual Visit Scheme to various cities in China, and enhancing the duty-free allowances for Mainland tourists in mid of 2024. These measures are aimed at boosting market confidence and driving business expansion in Hong Kong which will provide support and resilience to the local economy. The Group remains cautiously optimistic about the Hong Kong market in the long term.

Given the volatile economic situation, the Group is taking cautious approach to mitigate these challenges by prioritising cost control and sustainable development. The Group holds adequate net cash balances and deposits on hand with a very low debt level. The investment income has provided the Group with steady income and liquidity, mitigating the impact of potential economic slowdown on declining rental income. We shall continue to enhance productivity and efficiency along with prudent financial management while keeping an eye on future opportunities.

Appreciation

On behalf of the Board of Directors, we would like to take this opportunity to express our sincere appreciation to all our employees for their commitment, dedication and continuing support. At the same time, we would also like to express our gratitude to our shareholders, fellow Directors, customers and business partners for their guidance and support.

Chan Yan Wai Emily, Chan Yan Lam Alan
Joint Chairmen

Financial Review

Financial Results

Revenue

The revenue derived from the Group's investment in properties for the year was HK\$50.4 million (2024: HK\$56.0 million). The decrease in revenue was primarily due to the declining in rental income upon lease renewal and slightly increase in vacancy rate of the Group's properties during the year.

Treasury investments income

The Group's treasury investment income for the year consists of debt securities interest income of HK\$4.1 million (2024: HK\$7.9 million), share dividend income of HK\$3.3 million (2024: HK\$0.01 million) and bank interest income of HK\$12.1 million (2024: HK\$11.8 million) which are about the same level compared to last year.

An unrealized gain on revaluation of financial assets at fair value through profit or loss of HK\$15.4 million (2024: HK\$0.8 million) on listed equity securities was recorded during the year.

There was an impairment loss on debt instruments at fair value through other comprehensive income of HK\$0.9 million (2024: a net reversal of impairment loss of HK\$15.5 million) was recorded during the year. The fair value loss are mainly derived from debt securities being bought in previous periods.

Management Discussion and Analysis

Operational Review (Cont'd)

Our Risk Profile

Our approach for managing risk is underpinned by our understanding of our current risks exposures, and how our risks are changing over time. The following illustrates the nature of our major risks. Further analysis of our strategies is set out in other sections of the Annual Report as indicated below:

Business Risk

We ensure our properties remain competitive and up to the highest standards by closely monitoring market trends and the business environment. Regular maintenance and renovation help us uphold the safety and quality of our properties. To protect the Group's assets, we employed professionals who oversee the design, progress and capital expenditures of major maintenance and renovation projects.

Operational Risk

Operational risk is concerned with possible losses caused by inadequate or failed internal processes, people, systems or external events. Operational risk is mitigated and controlled through establishing robust internal controls, setting our clear lines of responsibility, proper segregation of duties and effective internal reporting and contingency planning. It is our corporate culture that the business and operating line management are fully aware of, and responsible for, managing the operational risks of their business units on a day-to-day basis. Independent monitoring and reviews are conducted by the external consultant which reports regularly to the respective senior management and the Audit Committee.

Financial Risk

Financial risk included market risk, credit risk and liquidity risk. Market risk concerns that the value of an investment will change due to movements in market factors and which can be further divided into equity risk, interest rate risk and foreign exchange risk. Credit risk is the risk of losses arising from clients or counterparties failing to make payments as contracted. Liquidity risk concerns that a given security or asset cannot be traded readily in the market to prevent a loss or make the required profit. Further discussion on financial risk management is outlined in note 32(b) to the consolidated financial statements.

Corporate Governance Report

Corporate Governance Practices

The Board of Directors of the Company (the “Board”) is committed to maintaining a high standard of corporate governance. The Board believes that a high standard of corporate governance will provide a framework for the Group to formulate the business strategies and policies, and manage the associated risks through effective internal control procedures. It will also enhance the transparency of the Group and strengthen the accountability to the shareholders and creditors.

The Company has adopted the code provisions set out in the Corporate Governance Code (the “Code”) contained in Appendix C1 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (the “Listing Rules”). The Company has complied with all the applicable code provisions in the Code throughout the year ended 31 March 2025, except that the roles of chairman and chief executive are performed by the same individual which is a deviation from provision C.2.1 of the Code.

The Board will continuously review and improve the corporate governance policies and practices of the Company and monitor the compliance with the Code to ensure that business activities and decision-making processes are regulated in a proper and prudent manner.

Culture

The Group instills a culture that emphasizes on quality and strives for improvement in its operations. The Group specialised in investments in properties for leasing and earned its reputation for being known as a preferred landlord for tenants.

Directors play a leading role in promoting the Company’s desired culture. Management and employees instill the culture across the organisation through different channels from time to time. The desired culture is developed and reflected consistently in the operating practices of the Group. The Company’s purpose, values and strategy align with the Company’s culture.

Property, Values, Strategy and Culture

The Group’s core businesses comprise property investments for rental as well as securities investments. Its investment properties are primarily located in Hong Kong which include retail and office assets. Most of the investment properties of the Group are highly accessible and strategically located in prime retail and commercial areas, and generate stable and recurrent rental income for the Group.

Apart from the aforesaid, the Group has equity and debt securities investment with the aim to yield enhancement for treasury management.

The Group believes that the stable rental income from its investment properties, together with securities investment, forms a diversified cash flow stream which allows the Group to weather the cyclicity of the real estate business.

Corporate Governance Report

Board of Directors

The Board comprises six members, three of which are Executive Directors, namely Ms. Chan Yan Wai, Emily and Mr. Chan Yan Lam, Alan as the Joint Chairmen and Co-Managing Directors of the Board and Mr. Chan Yan Tin, Andrew. Three members are Independent Non-Executive Directors, namely Mr. Chan Kwok Wai, Mr. Tse Lai Han, Henry and Ms. Cheung Chong Wai, Janet.

The biographies of all Directors are set out in the section headed “Profile of Directors and Senior Management” of this annual report. The Company publishes and maintains on its website and on the Stock Exchange’s website an updated list of the Directors identifying their roles and functions.

During the year, the Board at all times has met the requirement of Rules 3.10 and 3.10A of the Listing Rules relating to the appointment of at least three independent non-executive directors with at least one independent non-executive director possessing appropriate professional qualifications, or accounting or related financial management expertise.

The Board held four meetings during the year ended 31 March 2025. The Board is responsible for the formulation of the Group’s business strategies and overall policies, and monitoring the performance of the management. The Executive Directors and management are delegated the power to execute the business strategies, develop and implement the policies in the daily operation of the Group. The Independent Non-Executive Directors provide their professional advices to the Group whenever necessary.

The Board is responsible to review and monitor the Group’s policies and practices on compliance with the legal and regulatory requirements, and the training and continuous professional development of the Directors and senior management.

All Directors have full and timely access to all the information and accounts of the Group. The Directors may seek independent professional advice at the expense of the Company.

Ms. Chan Yan Wai, Emily and Mr. Chan Yan Lam, Alan, the Joint Chairmen of the Board and Co-Managing Directors of the Company, and Mr. Chan Yan Tin, Andrew, an Executive Director of the Company, are brother and sister. Save as disclosed above, during the year, none of the other directors has or maintained any financial, business, family or other material relevant relationship with any of the other directors.

Corporate Governance Report

Chairman and Chief Executive

Provision C.2.1 of the Code stipulates that the roles of the chairman and the chief executive should be separate and should not be performed by the same individual. Ms. Chan Yan Wai, Emily and Mr. Chan Yan Lam, Alan are the Joint Chairmen of the Board and Co-Managing Directors of the Company. Ms. Chan Yan Wai, Emily and Mr. Chan Yan Lam, Alan have been performing the duties of both the chairman and the chief executive. The Board considers that the current management structure ensures consistent leadership and optimal efficiency for the operation of the Company. As three members of the Board comprises Independent Non-Executive Directors who are professional accountant, engineer and manager respectively, the balance of power and authority between the Board and the management will not be compromised.

Non-Executive Directors

The Company has received annual written confirmation from each of the Independent Non-Executive Directors as regards to their independence to the Company as required under the Listing Rules. The Company considers that each of the Independent Non-Executive Directors is independent to the Company.

All of the Independent Non-Executive Directors have been appointed for a period of three years. However, one-third of all the Directors are subject to retirement from office by rotation at the annual general meeting in accordance with Article 103 of the Articles of Association of the Company.

Board Diversity Policy

The Company has adopted a board diversity policy which sets out the approach to achieve and maintain diversity on the Board. The Board recognises the benefits of a diverse Board with members possessing a balance of skills, experience and expertise which complement to the business success of the Group, and seeks to increase diversity at Board level to enhance the effectiveness of the Board and to achieve a sustainable and balanced development.

Pursuant to the policy, the Company seeks to achieve Board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and education background, ethnicity, professional experience, skills, knowledge and length of service. All Board appointments will continue to be made on a merit basis and candidates will be considered against objective criteria, having regard to the benefits of diversity of the Board.

The Nomination Committee will review the policy from time to time to ensure its continued effectiveness. During the year under review, the Nomination Committee has considered and reviewed the board diversity policy and considered that the existing board diversity policy is suitable and effective.

The Board recognises the importance of gender, social and ethnic diversity, and the strengths diversity brings to Board effectiveness. Diversity is taken into account in its broadest sense when considering succession plans and appointments at both Board and senior management level, as well as more broadly across the Group.

Corporate Governance Report

Board Diversity Policy (Con'd)

In line with the Board diversity policy, the Board remains committed to increasing diversity at Board and senior management level to ensure we reflect the markets and societies we serve. During the year, the Board has two female Directors and four male Directors. The elements of the Board Diversity Policy have substantially been included in the current Board composition. It was concluded in the Board’s yearly review that the Board Diversity Policy was effective during the year.

The Board places emphasis on diversity (including gender diversity) across all levels of the Group. The employee male to female ratio of the Group as at 31 March 2025 is 67:33. The Group when hiring employees considers a number of factors, including but not limited to gender, age, cultural and education background, qualification, ethnicity, professional experience, skills, knowledge and length of service, and the Group will make sure achieving gender diversity across the workforce.

An analysis of the board diversity based on a range of diversity perspectives is set out below:

Corporate Governance Report

Nomination Policy

The Nomination Policy of the Company was adopted by the Board in 2018, the Nomination Policy is set out as follows:

1.0 Objective

- 1.1 The Nomination Committee ("NC") shall nominate suitable candidates to the Board for it to consider and make recommendations to shareholders for election as directors ("Directors") of the Company at general meetings or appoint as Directors to fill casual vacancies.
- 1.2 The NC may, as it considers appropriate, nominate a number of candidates more than the number of directors to be appointed or re-appointed at a general meeting, or the number of casual vacancies to be filled.

2.0 Selection Criteria

2.1 The factors listed below would be used as reference by the NC in assessing the suitability of a proposed candidate.

- Reputation for integrity
- Accomplishment and experience in the real estate industry
- Commitment in respect of available time and relevant interest
- Diversity in all its aspects, including but not limited to gender, age (18 years or above), cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service

These factors are for reference only, and not meant to be exhaustive and decisive. The NC has the discretion to nominate any person, as it considers appropriate.

- 2.2 Retiring Independent Non-Executive Directors ("INEDs"), who have served as INEDs for a period of 9 years, are eligible for nomination by the Board to stand for re-election at a general meeting. His/Her further appointment should be subject to a separate resolution to be approved by shareholders. The papers to shareholders accompanying that resolution should include the reasons why the Board believes her/she is still independent and should be re-elected.
- 2.3 Proposed candidates will be asked to submit the necessary personal information in a prescribed form, together with their written consent to be appointed as a Director and to the public disclosure of their personal data on any documents or the relevant websites for the purpose of or in relation to their standing for election as a Director.
- 2.4 The NC may request candidates to provide additional information and documents, if considered necessary.

Corporate Governance Report

Nomination Policy (Con'd)

3.0 Nomination Procedures

- 3.1 The Secretary of the NC shall call a meeting of the NC, and invite nominations of candidates from Board members if any, for consideration by the NC prior to its meeting. The NC may also put forward candidates who are not nominated by Board members.
- 3.2 For filling a casual vacancy, the NC shall make recommendations for the Board's consideration and approval. For proposing candidates to stand for election at a general meeting, the NC shall make nominations to the Board for its consideration and recommendation.
- 3.3 Until the issue of the shareholder circular, the nominated persons shall not assume that they have been proposed by the Board to stand for election at the general meeting.
- 3.4 In order to provide information of the candidates nominated by the Board to stand for election at a general meeting, and to invite nominations from shareholders, a circular will be sent to shareholders. The circular will set out the lodgment period for shareholders to make the nominations. The names, brief biographies (including qualifications and relevant experience), independence, proposed remuneration and any other information, as required pursuant to the applicable laws, rules and regulations, of the proposed candidates will be included in the circular to shareholders.
- 3.5 A shareholder can serve a notice to the Company Secretary within the lodgment period of its intention to propose a resolution to elect a certain person as a Director, without the Board's recommendation or the NC's nomination, other than those candidates set out in the shareholder circular. The particulars of the candidates so proposed will be sent to all shareholders for information by a supplementary circular.
- 3.6 A candidate is allowed to withdraw his candidature at any time before the general meeting by serving a notice in writing to the Company Secretary.
- 3.7 The Board shall have the final decision on all matters relating to its recommendation of candidates to stand for election at any general meeting.

Corporate Governance Report

Accountability and Audit

The Directors acknowledge their responsibility for preparing the accounts which give a true and fair view of the state of affairs of the Group and of the financial performance and cash flows for the year ended 31 March 2025 in accordance with the Hong Kong Companies Ordinance. The Directors have prepared the accounts on a going concern basis, and have selected appropriate accounting policies and applied them consistently, with applicable disclosures required under the Listing Rules and pursuant to statutory requirements.

The statement issued by the auditor of the Company regarding their reporting responsibilities is set out in detail in the Independent Auditor's Report on pages 72 to 75.

Risk Management Control and Internal Control Environment

Responsibility

Our Board of Directors has the overall responsibility to ensure that sound and effective risk management and internal controls are maintained, while management is charged with the responsibility to design and implement a risk management and internal controls system to manage risks. A sound system of risk management and internal controls is designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable but not absolute assurance.

Internal Control

The Board is responsible for the Group's system of internal controls and for reviewing its effectiveness. The Audit Committee supports the Board in monitoring our risk exposures, the design and operating effectiveness of the underlying risk management and internal controls systems. Management assesses and represents regular reports to the Audit Committee on its own assessments of key risks, the strength of the overall internal controls systems with action plans to address the weaknesses. The Group has outsourced the internal audit function to external service provider who will provide regular reports on reviews of the business process and activities, including action plans to address any identified control weaknesses. External auditors also report on any control issues identified in the course of their work. Taking these into consideration, the Audit Committee reviews the effectiveness of the Group's system of internal controls and reports to the Board on such reviews.

Review of Internal Control Effectiveness

In respect of the year ended 31 March 2025, the Board considered the internal controls system effective and adequate. No significant areas of concern that might affect the financial, operational, compliance controls, and risk management functions of the Group were identified. The Board will review and assess the internal control systems at least once a year.

Corporate Governance Report

Risk Management

Establishment of Risk Management Framework

The Company has established a Risk Management Framework that includes developing a risk management policy and procedures since 2017.

Our Risk Management Process

Our risk management process includes risk identification, risk assessment and prioritization, risk treatment and upward reporting and monitoring of identified risk to the Audit Committee. A series of facilitated senior management risk assessment workshops to review and discuss risk exposures across the business were conducted in accomplishing the above. Risks were assessed by considering the impacts and likelihoods of their occurrence/non-occurrence as a result of changes in internal and external factors, further events or otherwise; whether these risks are being effectively managed; and if not, the need for establishing further actions. A corporate risk register has been established to track and document the identified risks, risk owners, mitigation actions and control measures, and facilitates continuous update of risk treatments.

Annual reviews were conducted to follow up on the significant risks and related actions as documented in the corporate risk register, and the results were reported to the Audit Committee. The year end risk management assessment was reported to the Board through the Audit Committee.

Subsequent to the year, the Audit Committee has reviewed the effectiveness and adequacy of risk management system for the year and the Board is satisfied with the effectiveness and adequacy of the system of risk management of the Group and considered that the Company had complied with the Code provisions in respect of risk management during the year. The Board will review and assess the risk management system at least once a year.

Dissemination of Inside Information

The Company is committed to a consistent practice of timely, accurate and sufficiently detailed disclosure of material information about the Group. The Company has adopted a Policy on Disclosure of Inside Information which sets out the obligations, guidelines and procedures for handling and dissemination of inside information. With those guidelines and procedures, the Group has management controls in place to ensure that potential inside information can be promptly identified, assessed and escalated for the attention of the Board to decide about the need for disclosure.

Auditors' Remuneration

The remuneration payable to the Group's auditor, HLM CPA Limited for their audit services for the year ended 31 March 2025 amounted to HK\$449,000. The auditor did not provide any non-audit service to the Group during the year.

Corporate Governance Report

Company Secretary

The Company's secretarial functions are outsourced to external service provider, Ms. Lee Ka Man ("Ms. Lee"), as its Company Secretary and Ms. Wong Sze Wing, the Financial Controller of the Company, is the primary contact person of the Company with the Company Secretary.

Ms. Lee is an associate member of both The Chartered Governance Institute in the United Kingdom and The Hong Kong Chartered Governance Institute. She has more than 18 years of experience in the field of company secretarial services.

Ms. Lee has been in full compliance with the requirements of Rule 3.29 of the Listing Rules during the year.

Communication with Shareholders

The objective of communications with shareholders is to provide our shareholders with detailed information about the Company so that they can exercise their rights as shareholders in an informed manner.

The Company uses a variety of means to communicate with its shareholders and ensure that they are kept well informed of its key business development. The tools include convening general meetings, despatching to the shareholders interim and annual reports, announcements and circulars which are also posted on the websites of the Company and the Stock Exchange. Shareholders may at any time send their enquiries and concerns to the Company via the Company's website. Shareholders may also make enquiries with the Board at the general meetings of the Company.

Shareholder's Communication Policy

The Board has adopted a Shareholder's Communication Policy which sets out the Group's commitment of maintaining an effective ongoing dialogue with shareholders. In summary, the Company establishes different communication channels with shareholders and stakeholders including: (i) provision of printed or electronic copies of corporate communications; (ii) provision of timely corporate information on the company website; (iii) holding of annual general meetings to provide platform for shareholders to raise comments and exchange views with the Board; and (iv) arrangement in serving the shareholders in respect of all share registration matters.

The Board reviewed the validity of implementation of the Shareholder's Communication Policy during the year and considered that it remained effective in enhancing timely, transparent, accurate and open communication between the Company and its shareholders.

2024 Annual General Meeting

At the 2024 annual general meeting, the chairman of the meeting explained the procedures for conducting a poll to the shareholders. Separate resolution was proposed by the chairman in respect of each separate issue, including re-election of directors, re-appointment of auditor, general mandates respectively authorising the Directors to buy back shares or to issue shares of the Company and voted by way of poll. The Company announced the results of the poll in the manner prescribed under the Listing Rules. The Chairman of the Board and the Chairman of respective committees attended the annual general meeting to address enquiries raised by shareholders and ensure effective communication with shareholders.

Corporate Governance Report

General Meeting on Requisition by Shareholders

Pursuant to Section 566 of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong), shareholder(s) representing at least 5 per cent of the total voting rights of all shareholders having a right to vote at general meetings can make a request to call a general meeting.

The request:

- (a) must state the general nature of the business to be dealt with at the meeting;
- (b) may include the text of a resolution that may properly be moved and is intended to be moved at the meeting;
- (c) may consist of several documents in like form;
- (d) may be sent in hard copy form or electronic form; and
- (e) must be authenticated by the person or persons making it.

Pursuant to section 567 of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong), directors must call a general meeting within 21 days after the date on which they become subject to the requirement and the meeting so called must be held on a date not more than 28 days after the date of the notice convening the meeting. If the directors do not do so, the shareholders who requested the meeting, or any of them representing more than one half of the total voting rights of all of them, may themselves call a meeting pursuant to section 568 of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong), but the meeting must be called for a date not more than 3 months after the date on which the directors become subject to the requirement to call a meeting. The Company must reimburse any reasonable expenses incurred by the shareholders requesting the meeting by reason of the failure of the directors duly to call the meeting.

Corporate Governance Report

Putting Forward Proposal at Annual General Meeting (“AGM”)

Pursuant to Section 615 of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong), shareholder(s) can make a request to circulate a resolution for an AGM if they represent:

- (a) at least 2.5 per cent of the total voting rights of all shareholders who have a right to vote on the resolution at the AGM to which the request relates; or
- (b) at least 50 shareholders who have a right to vote on the resolution at the AGM to which the request relates.

The request:

- (a) may be sent in hard copy form or electronic form;
- (b) must identify the resolution of which notice is to be given;
- (c) must be authenticated by the person or persons making it; and
- (d) must be received by the Company not later than 6 weeks before the AGM to which the request relates or if later, the time at which notice is given of that AGM.

Procedures for Shareholders to Propose A Person for Election as a Director

The procedures for shareholders to propose a person for election as a director have been uploaded to the website of the Company.

Constitutional Documents

The Company's Articles of Association are available on both the Company's and the Stock Exchange's websites. During the year ended 31 March 2025, there was no change in the Company's constitutional documents.

Mechanisms Ensuring Independent View

The Board has adopted effective mechanisms to ensure independent views and input are available to the Board. Subject to approval of the Chairman of the Board, Directors may seek, at the Company's expense, independent legal, financial or other professional advices from advisors independent to those advising the Company as and when necessary in appropriate circumstances to enable them to discharge their responsibilities effectively. The Board will review the implementation and effectiveness of such mechanisms on an annual basis.

The Board reviewed the validity of implementation of such mechanisms during the year and considered that such mechanisms are effective.

Corporate Governance Report

Dividend Policy

The Dividend Policy aims to allow shareholders of the Company to participate in the Company's profits whilst allowing the Company to retain adequate reserves for future growth.

Under the Dividend Policy, the Company intends to provide Shareholders with semi-annual dividends in an aggregate amount subject to the Company's capacity to pay from accumulated and future earnings, liquidity position, fund reserve for growth and future commitments at the time of declaration of dividend.

The Company may also consider declaring special dividends from time to time in addition to the semi-annual dividends.

The Company's ability to pay dividends will depend upon, among other things, the Company's current and future operations, liquidity position and capital requirements, as well as dividends received from the Company's subsidiaries and associates, which in turn will depend on the ability of those subsidiaries and associates to pay a dividend. The payment of dividend is also subject to any restrictions under the Hong Kong law and the Company's Articles of Association.

The Board has complete discretion on whether to pay a dividend, subject to Shareholder's approval, where applicable. Even if the Board decides to recommend and pay dividends, the form, frequency and amount will depend upon the operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors of and affecting the Company and its subsidiaries (the "Group").

This policy reflects the Board's views on the financial and cash-flow position of the Group prevailing at the time of its adoption, such dividend policy will continue to be reviewed by the Board from time to time and there can be no assurance that dividends will be paid in any amount for any given period. The Board may adopt changes on this policy as appropriate at the relevant time.

Anti-corruption policy and whistleblowing policy

The Company has adopted an anti-corruption policy to govern acceptance of advantages by employees and a whistleblowing policy to provide guidance to employees and external stakeholders to report concerns about any suspected or actual improprieties relating to the Group.

Environmental, Social and Governance Report

1. About the Report

Overview

Tern Properties Company Limited's (the "Company") and its subsidiaries (together referred to as the "Group") are pleased to present the Group's eight Environmental, Social and Governance ("ESG") report (the "Report"). This Report summarizes the environmental and social impacts, policies and initiatives of the Group during the financial year of 2024/2025 which began on 1 April 2024 and ended on 31 March 2025 to demonstrate our long-term commitment in ensuring that the Group's business are economically, socially and environmentally sustainable.

Preparation Basis

In preparing this report, the Group has complied with the "Comply or Explain" provisions in accordance with the ESG Reporting Code (the "Code") as set out in Appendix C2 to the Main Board Listing Rules of the Hong Kong Stock Exchange ("Stock Exchange") and in accordance with the practical circumstances of the Company.

The content of the Report was prepared according to a set of systematic procedures. The Report was prepared through the following procedures. The Report was prepared through the following procedures: identifying key stakeholders, prioritizing material ESG issues, collecting relevant data, collating and examining report materials.

Scope and Coverage of the Report

The policies, statements and data in the Report cover the actual business scope of Tern Properties Company Limited and its subsidiaries, except for some specific data with extra notes. The Company works with an outsourced Property Management service provider to ensure that the more important data having an impact on the stakeholder will be included in the report boundary in our future ESG reports.

Data Sources and Reliability Statement

The data used herein all comes from Tern Properties Company Limited and its subsidiaries. The board of director of the Company (the "Board") acknowledges its responsibility for ensuring the integrity of the ESG report and to the best of its knowledge, this report addresses all material issues and fairly presents the ESG performance of the Company and its impact. The Board confirms that it has reviewed and approved the report.

Environmental, Social and Governance Report

1. About the Report (Cont'd)

Reporting Principles

This report has been prepared in accordance with the reporting principles set out in the Stock Exchange's "Environmental, Social and Governance Reporting Code":

Materiality: this report engages with stakeholders to identify current significant environmental, social and governance issues, taking into account the nature of the Company's business, how it operates and where it operates.

Quantitative: this report provides key performance indicators in quantitative terms, where feasible, with explanations to enable readers to assess and verify the performance of the Company's environmental, social and governance policies and practices.

Balance: This report provides comprehensive disclosure of the Company's environmental, social and governance performance based on objective facts and avoids statements or presentation formats that might inappropriately influence readers' decisions or judgments.

Consistency: this report uses consistent disclosure statistics for the current and successive years to allow readers to compare the Company's performance from year to year.

2. Our Approach to ESG

In 2024, Hong Kong's economic recovery has remained fragile amid persistent macroeconomic headwinds, including elevated interest rates, geopolitical instability, and a rising trend of cross-border consumption. These challenges have significantly impacted both the office and retail leasing markets, contributing to elevated vacancy rates and subdued rental demand.

Despite these pressures, Tern Properties has demonstrated resilience by maintaining stable occupancy across its portfolio, supported by strategically located properties and competitive rental levels. Recognizing the shifting dynamics of the commercial property landscape, we continue to adopt a cautious yet forward-looking approach to property management and capital allocation.

We remain committed to enhancing the sustainability, functionality, and adaptability of our assets. As hybrid work models and evolving consumer behaviours reshape the demand for space, we are progressively reconfiguring our office and retail environments to foster greater flexibility, energy efficiency, and occupant well-being. Our focus remains on upgrading building infrastructure and amenities in ways that support environmental performance, tenant satisfaction, and long-term value creation.

Looking ahead, we will continue to prioritize prudent financial and resource management, while embedding sustainability principles into our operations. By staying agile and responsive to both market and environmental shifts, Tern Properties aims to create lasting value for stakeholders and contribute positively to Hong Kong's sustainable urban development.

2. Our Approach to ESG (Cont'd)

Board Statement

The Board of Directors is fully committed to maintaining high standards of corporate governance, integrity, and accountability. It believes the collective expertise and diverse backgrounds of its members equip the Board to effectively oversee the Group's strategic direction, ensure sound risk management, and advance sustainable value creation.

The Board assumes overall responsibility for the governance of the Company, including the development and oversight of policies that promote responsible and sustainable business operations. It actively communicates these policies to stakeholders and engages with them to track progress and foster transparency in the Group's corporate responsibility and sustainability journey.

ESG risks — including climate-related risks, bribery and corruption, business ethics, occupational health and safety, and environmental protection — are embedded into the Group's periodic risk assessments. Climate-related risks, both physical and transitional, are increasingly integrated into the Group's decision-making processes, recognizing their potential to impact asset performance, operational costs, and stakeholder expectations.

Material ESG and climate risks identified during these assessments are escalated to the ESG Executive Committee. As the central governance body for sustainability, the Committee is responsible for evaluating these risks and ensuring that appropriate mitigation strategies, disclosures, and performance metrics are in place.

Through this governance framework, the Board reaffirms its commitment to ethical leadership, stakeholder accountability, and long-term resilience in the face of emerging ESG and climate challenges.

2. Our Approach to ESG (Cont'd)

Corporate Governance

Tern Properties Company Limited is committed to upholding the highest standards of corporate governance and business integrity in all our business activities, which are essential for our reputation for the long-term viability of the Group's businesses and the enhancement of shareholder value.

The Group has in place an internal policy of business and ethical conduct reflecting the Company's business principles and practices for matters which may have ethical implications. Such policy provides a clear framework for staff to observe the Company's principles such as honesty, integrity, responsibility, and accountability at all levels of the organisation and in the conduct of the Company's business in their dealings with tenants, suppliers, and fellow colleagues. It is available on the employee handbook for easy access by all employees, which includes:

- Conflicts of interest and the appropriate disclosures to be made.
- The Company's stance against corruption and bribery
- Compliance with applicable laws and regulations including those relating to the prevention of Corona Virus infection, the protection of the environment and the conservation of energy and natural resources
- Safeguarding and proper use of the Company's assets, confidential information, and intellectual property rights

More on corporate governance and risk management can be accessed on our Annual Report 2024/2025.

Environmental, Social and Governance Report

2. Our Approach to ESG (Cont'd)

ESG Executive Committee

We recognise that making business decisions involves calculated risks and managing these risks within reason is fundamental to creating long-term value for all our stakeholders. As a property investor, we conduct risk assessments at critical decision points during the investment process to identify risks and to meet target returns. The Board adopts a balanced risk profile to maintain a sustainable business and ensure that we remain an attractive investment proposition over the long term.

We acknowledge that ESG leadership at the Board and senior management is critical to integrating sustainability management and performance into our corporate culture, processes and business relationships. We also recognise the importance of effective management and remuneration methods that will help to promote and incentivise proactive approaches to sustainability both at a Group and asset level.

Since 2019, a company wide ESG executive committee was set up to drive ESG practices across all assets within Tern Properties. Led by the Managing Director and the senior management, the committee initiates, drives and monitors various aspects of our ESG practices, ensuring effective integration of ESG initiatives into our business operations and corporate objectives.

The Group's ESG executive committee is responsible for the sustainability performance and receives a formal update on ESG from the operational -level committee at least once a year. The Board of Director will advice on the ESG Strategy from time to time. The Group has established a framework for implementing its ESG programs across the Group within different functions with the support of our various service providers in each of the property building.

Environmental, Social and Governance Report

2. Our Approach to ESG (Cont'd)

ESG Executive Committee (Cont'd)

In 2024/2025, our ESG Executive Committee focused on:

- **Tenant Retention & Operational Resilience** – In response to prolonged market softness and elevated vacancy levels across Hong Kong's office and retail leasing sectors, we prioritized initiatives that enhance tenant satisfaction and retention. This included reviewing building management practices, implementing energy-saving measures to reduce operating costs for tenants, and maintaining service quality across our portfolio.
- **Risk Management & Regulatory Readiness** – With increasing scrutiny on sustainability disclosures and evolving compliance landscapes, especially under the HKEX ESG Reporting Code and global climate-related reporting frameworks, we continued strengthening our data governance and risk management processes. This ensures we remain well-positioned to comply with current and anticipated ESG disclosure requirements.
- **Sustainable Asset Enhancement** – While new leasing opportunities remain limited, we focused on low-disruption upgrades to existing properties, including retrofitting common areas with energy-efficient lighting, improving indoor environmental quality, and exploring renewable energy options to improve our portfolio's environmental performance and competitiveness.

Looking ahead, we will continue to adopt a measured and adaptive approach to ESG integration, balancing financial prudence with our long-term commitment to sustainable value creation for stakeholders.

3. Our Stakeholders

We review and evaluate our progress against our stakeholder engagement commitments and priorities as part of our annual report process.

Using a comprehensive five-stage framework, a list of ESG issues were reviewed against current global and local trends and emerging regulatory development which can have an impact on the Group business.

Six major groups of stakeholders have been identified, namely tenants, employees, suppliers/contractors/service providers/professional advisors, investors/shareholders, local communities, and regulator. The suggestions and concerns of the stakeholders are referred to the respective business unit according to their scope and nature through the following diversified communication channels for the Company to address in a timely manner. The Group believes that good interaction with the stakeholders not only allows the Company to keep abreast of the latest economic, social, and environmental information more quickly, but also help maximise its industry identity and business value.

4. Materiality Assessment

In 2024/2025, we continued to conduct a structured materiality assessment to identify and prioritize the ESG issues most relevant to our business and stakeholders amid a challenging commercial property landscape. A total of 13 ESG topics were reviewed in consultation with internal departments and external stakeholders.

This year's analysis reflects the ongoing shifts in stakeholder expectations, particularly in light of sustained economic headwinds and market volatility. Key issues such as tenant health and wellness, financial resilience, security, and service quality remain at the top of our materiality matrix, underscoring the importance of providing a stable, safe, and responsive environment for our tenants during uncertain times.

In contrast, areas such as development and training, and community engagement were assessed as relatively less material this year, given the Group's sharpened focus on core business performance and tenant retention. Nonetheless, these topics continue to be monitored as part of our broader ESG strategy.

The updated materiality matrix serves as a foundation for shaping our ESG disclosures and aligning our actions with stakeholder concerns. Moving forward, we will periodically reassess material topics to ensure our sustainability priorities remain responsive to the evolving business environment and stakeholder landscape.

5.1 Services Responsibility – Leasing Properties

The Group has established our requirements for our outsourced property management service provider which details our commitment to excelling in service delivery to our tenants. We set internal key performance indicators for critical safety services, for example, response time in attending to people trapped in lifts, handling a number of breakdowns of essential services such as fire protection system. We track and monitor the performance of these indicators on an on-going basis.

In delivering our properties leasing services it is very important to meet our tenants' expectations to ensure continuous improvement and growth of our business. In a very competitive leasing market, understanding our tenants' needs and expectations are imperative for sustainable growth.

To sustain long-term relationship with our tenants we are committed to:

- ensure our properties are maintained at high quality.
- ensure properties safety.
- address tenants' needs, requirements, and expectations.
- support our professional property management partners.
- manage our service quality by following industry standards.
- maintain open communications with our employees, tenants, and suppliers.

In addition, regular maintenance and inspections would be carried out on the leased properties by our technical staff and outsourcing contractors. A customer satisfaction survey would be held at the end of each year. The tenants' satisfaction ratings would be assessed and used to identify specific areas for further improvement.

We also value the feedback from our tenants as they act as catalyst for advancement in our services. Tenants can reflect their comments and views on the quality of our services through different channels such as through a designated phone call which will be handled by our dedicated customer service team.

Property Security

As a responsible property owner, the Group actively identifies the significant hazards and manages the risks in all managed commercial buildings. To ensure the safety and security of our commercial tenants and the public, every building is under the care of our outsourced Property Management service provider who oversees our properties' daily operations and a range of safety and security measures.

Measures	Coverage and Features
Security	• CCTV monitors • 24 hours security guards
Lifts and Escalators	• In compliance with Hong Kong latest mandatory safety standards • Engaged only licensed and qualified contractors to perform maintenance and inspections • Incident reporting • Lifts and Escalators will be taken out service until problems are addressed and deemed safe for use again
Emergency Response Plan	• Covers building's utilities services such as electricity outages, water supply interruptions • Fire equipment testing • Fire exit route map

Used of Technology for Better Tenant Experience

The Group actively leverages technology to standardise protocols and drive decision making. We have implemented systems that support lease management and facilities management. Desired outcomes include more consistent service standards, higher productivity, and increased competitiveness in the market position.

Property Renovation Arrangement

Before any renovation project begins, we communicate closely with all the involved parties to minimize disputes related to our projects that may affect tenants or any adjacent neighbours. We aim to find solutions and reduce the negative effects on anyone in our renovation.

Property Hygiene Measure

In addition to that, the Group maintains environment hygiene of properties, special attention given to the following areas.

- Maintain good ventilation. Ventilation system is functioning properly and regularly maintain.
- Provide adequate hand hygiene facilities, such as 70 to 80% alcohol-based hand-rub in public areas, for example, at the reception counter and corridor area.
- Areas with frequent access by members of the public (e.g. lifts, escalators, lobby entrance, waiting areas, corridors and lounges); Clean and wipe at least twice daily.
- Frequent touched surfaces (e.g. buttons, handrails). Clean and wipe at least twice daily and when visibly dirty.
- Properly collect and pick up rubbish and waste every day.

5.2 Tenants Satisfaction Survey

To improve our service delivery, the Group will conduct satisfaction through formalised surveys at the end of each year. Our target is to achieve a 70% satisfaction rate from our tenants.

Apart from that, the Group also conducts commercial and technical discussions and meetings with tenants to understand their needs. Through the feedback received, we can better understand tenants' expectations and identify areas for continual improvements. Some of our service engagement initiatives have originated from tenants' feedback.

The tenants' satisfaction survey covered the following topics:

- Tenants' communication services (response time, handling of complaints)
- Management services (overall service quality, service reliability)
- Security services
- Cleaning and environmental care services

Customers can rate on a scale from Excellent, Good, Satisfactory, Acceptance to Unsatisfactory, with the value like Excellent and Good indicating a higher degree in satisfaction. The value like Unsatisfactory implies dissatisfaction.

5.4 Intellectual Property Rights

The Group protects and respect intellectual property rights. Our business complies with all applicable laws and regulations, including but not limited to the Patents Ordinance and the Trade Description Ordinance. We require our employees and officers to maintain the confidentiality of proprietary information provided by our tenants during business activities, including trade secrets, ideas, and designs. In technology equipment part, we ensure that the computer hardware and software we purchased or installed are legally licensed.

5.5 Anti-Corruption

The Group maintains and effectively implements a comprehensive system of internal control and stringent policies for anti-corruption and is committed to prevent and monitor any malpractices or unethical practice.

The Group has strictly complied with ethical requirements and there was no occurrence of corruption, bribery, fraud, and money laundering throughout the reporting period. The Group will adhere to its corporate ethics and uphold its reputation to prevent corruption.

Anti-corruption policy was issued to all employees of the Group including the Board to systematically explain contents in relation to the business ethics and code of conduct. The purpose of the program is to help all employee understand the Group's values and the policy. Integrity is a vital part of the Group's business. The Group's management is committed to sending clear, and regular message to all employees and business partners that corruption and bribery are unacceptable and illegal.

Employees can report to the management of the Group with respect to any non-compliance such as receiving bribes, abuse of power by mail, electronic mail, or phone. All business units have a responsibility to conduct regular risk assessment of their anti-corruption procedures and implement remediating measures to mitigate risks.

During the reporting period, the Group complied with relevant laws and regulations relating to bribery, extortion, fraud and money laundering. There was no confirmed incident or public legal case regarding corruption in relation to the Group.

5.6 Supply Chain Management

The Group believe that proper management of its supply chain could bring positive impacts to the social environment and a stable and long-term cooperation relationship with suppliers which in turn would enhance the standard of operation and services of the Group.

The Group has established the relevant policy on supply chain management, such as the Procurement Policies which have explicitly stated, among other things, the procedure of procurement, selection of suppliers, review and approval process and management, to ensure that the process is fair and transparent. We have established a qualified suppliers' list in which their performances are constantly being evaluated. We selected suppliers in accordance with the approved contractor list and consideration of the cost, reputation, quality, and job performance. The supplier has to follow the Group's instruction to submit quote and complete the work on time. Rating report of the supplier would be prepared twice per year.

For office supplies and office equipment, we give preference to products that are more environmentally friendly with energy-saving features. The management of the Company conducts a final review based on the information obtained.

During the reporting period, all of our suppliers were from Hong Kong.

6. Social – Employment and Labour Practices

Employees are the cornerstone of a successful business. We are dedicated to maintaining an inclusive, rewarding and safe work environment, where employees can enjoy their work, develop their career and grow together with the Group. Our commitment to being a caring and equal opportunity employer is reflected in our employment policies and employee engagement initiatives.

The Group has developed sound employment policies covering the requirements and standards of recruitment, promotion, remuneration, resignation, treatment and so on, and regulates each requirement and standard to ensure the efficient management of human resources.

The Human Resource Department develops recruitment plans in accordance with the recruitment needs of various departments, and continuously introduce talents to join the Group through reputable recruiters and other channels. The Human Resource Department strictly implements the recruitment evaluation program, adheres to the selection principle of fairness and selection of high calibre, and provides equal job opportunities in accordance with their competence and abilities.

The Group is in strict compliance with all the applicable laws and regulations, including the Employment Ordinance, the Mandatory Provident Fund Schemes Ordinance and the Minimum Wage Ordinance in Hong Kong. During the reporting period, the Group has not discovered any material violation of employment and labour related laws and regulations.

Benefits and Remuneration

The Group is committed to implementing the remuneration distribution principals based on performance, efficiency, and fairness. On top of labour basic salary, the Group may pay performance bonuses in accordance with employees' performance. In order to maintain a competitive remuneration package, the Group carries out evaluation and adjustment on remuneration every year with reference to the industry's average wage, the consumption level and the industry rate, so as to attract and retain talents.

Equal Opportunities

As an employer promoting equal opportunities, the Group strongly opposes to all discriminatory behaviour and is committed to constructing a fair and inclusive working environment for employees. We promote fair competition and prohibit discrimination or harassment against any employee on their race, age, gender, disability, pregnancy, religion, or marital status. The principle of equal opportunities is applied in all employment practices, including promotions, rewards, access to training and demotion.

The Group fully complies with all applicable laws and regulations, including the Sex Discrimination Ordinance, the Family Status Discrimination Ordinance, the Race Discrimination Ordinance and Disability Discrimination Ordinance in Hong Kong.

6.2 Health and Safety

Our policy on occupational health and safety is communicated through our employee handbooks and the Code. Maintaining a safe and healthy workplace is defined as a shared responsibility of all employees and officers. Employees are also educated to conduct work in a manner that is free of violence, drugs, alcohol and other restricted substances, as well as to report safety hazards, including unsafe equipment, practices or conditions when identified.

The Group focuses on two major areas to minimize occupational hazards and health and safety risks:

1. Occupational health management; and
2. Workplace safety at our office and our investment properties including fire protection measures.

Apart from accident prevention, we invested resources to enhance health consciousness among employees. All employees in the Group are covered by medical insurance.

Although the nature of jobs in the Group are low-danger positions, we do not take this lightly. The Group evaluates and identifies the risk of safety in our premises and various investment properties, and precautionary measures are recommended accordingly. For example, regular checks will be conducted on first aid kits and fire services equipment to ensure that they are placed in a prominent position and are properly maintained.

During the reporting period, the Group has achieved zero work-related fatalities and lost days due to work injury and did not discover any material non-compliance of occupational health and safety related laws and regulations.

6.3 Development and Training

It is our policy to empower our employees through adequate training and development opportunities, with the objective of enhancing their job performance and capabilities for future advancement. Orientation and introduction programs are organised for all new employees to understand the Group's work culture and environment.

Our employees contribute directly to the service delivery, they are also an integral part of maintaining the long-term relationship with many of our stakeholders, such as tenants and property management service providers. Therefore, we offer staff with a variety of trainings, ranging from anti-corruption, professional development, occupational health and safety to facilitate continuous improvement of our service quality and risk management.

6.4 Labour Standard

We attach particular importance to the human rights of labours and has set out clear policies on human resources management for implementation: We strictly adhere to the minimum wage provisions under applicable laws and regulations. In particular, we ensure that:

1. No employment of child labours – Job applicants must be at least 18 years old. Our Human Resources Department checks the identity documents of candidates before employment to prevent child labour.
2. No forced labour – Corporal punishment or coercion of any type related to work are prohibited.
3. Free chosen employment – We ensure that the terms of employment are voluntary. Our employees are free to leave the Company upon reasonable notice under our employment contract and/or Employment Ordinance of Hong Kong. We do not require employees to lodge deposits or hand over passports or work permits as a condition of employment, unless required by applicable law.
4. Remuneration and benefits – We ensure that the remuneration and benefits for our employees comply with or exceed the minimum legal requirements of the Employment Ordinance of Hong Kong. We do not make any deductions from wages as disciplinary measure.
5. Equal opportunity and no discrimination policy – We ensure that our hiring, compensation, training, promotion, termination and retirement policies and practices do not discriminate on the grounds of age, sex, marital status, race, religion, disability or any other non-job-related factors. Remuneration is determined with reference to performance, qualifications and experience.
6. Work overtime. All overtime work is performed on a voluntary basis, and employees may choose to apply for overtime work. Regulations on overtime work are clearly stated and explained under the relevant employees' contract.
7. Harassment and abuse – We do not tolerate any physical, sexual, psychological, verbal harassment or abuse towards our employees.

Our Human Resource Department has procedures in place to ensure that our policies are properly implemented throughout the Company. The Group abides by the Employment Ordinance of Hong Kong in relation to labour standards. During the reporting period, the Group did not discover any material non-compliance of labour rights and labour related laws and regulations.

Environmental, Social and Governance Report

7. Environment

We have developed a group-wide Environmental Management Plan which provides an overview of our commitment to environmental aspects and sets out how we resource and implement programs and procedures to achieve our goals. The intend of the Environmental Management Plan is to minimize the adverse effects on the environmental from our daily operations and also to meet local statutory requirement. Our Plan is directed towards the following:

- Waste Management,
- Energy Saving,
- Environmental Protection,
- Recycling,
- Noise Reduction,
- Pollution Prevention,
- Legal Compliance

This year marked the ninth year of our journey to reduce our operational footprint affecting our environment. It has also presented an opportunity for reflection. We attribute much of our progress to data monitoring, with accountability and ownership cascading to individual properties.

The Group is committed to green development concept at a sensible level. The awareness of environment protection is weaved into all the steps of the Company's operation.

During the reporting period, no penalties had been imposed upon the Group for violation of any environmental laws and regulations. We did not receive any complaints in relation to environment protection raised by the tenants or any other person.

7.1 Emissions

As the Group is principally engaged in property investment and treasury investment without any manufacturing facility, the Group uses office located in one of its office portfolios. It does not have significant emissions, discharge into water or land in relation to its operations in Hong Kong. And no substantial hazardous waste was produced by the Group.

The Group's main emissions from their corporate office were nitrogen oxides ("NOx"), sulphur oxides ("SOx") air emission, Greenhouse Gas ("GHG"), non-hazardous waste and wastewater.

The Group's transport vehicles conformed to relevant environmental laws and regulations in Hong Kong.

Environmental, Social and Governance Report

7. Environment (Cont'd)

7.1 Emissions (Cont'd)

The Group has implemented appropriate checks on their properties' equipment to prevent breakdown or inefficient operations which may negatively affect air emissions.

During the Reporting Period, the Group believes that its adopted environmental measures are sufficient and effective for meeting local environmental protection regulations and requirements. The Group complied with all relevant environmental rules and regulations in Hong Kong that have a significant impact on the company's business. There were no significant fines or penalties for non-compliance with environmental laws and regulations during the year; and no material pollution and damage to the air, land, water sources and ecological environment in the vicinity have occurred.

7.1.1 Air Emissions

Air emissions include nitrogen oxides ("NOx") and ("SOx") and other pollutants regulated under national laws and regulations. Table below is the Group's NOx and SOx emissions data from gaseous fuel (Towngas) consumption from one of our properties and the company vehicle's petrol consumption.

Air Emissions	2024/2025	
	Amount	Intensity (Consumption/ Headcount)
Nitrogen oxides ("NOx")	7.24 kg	0.4022 kg
Sulphur oxides ("SOx")	0.083 kg	0.0046 kg
Particulate Matter	0.043 kg	0.0023 kg

7.1.2 Greenhouse Gas Emissions

Greenhouse gas ("GHG") emissions (or "carbon emissions") are closely related to climate change, which presents businesses with both long-term risks and opportunities. To better understand, quantify and manage the carbon and climate change related impacts, risks, and opportunities in our investments, it is important, to measure and evaluate our carbon footprint as a first step. This information will serve as a foundation of developing more relevant carbon reduction strategies and identify carbon reduction targets.

The consumption of electricity at corporate office is the primary source of our GHG emission. The second primary source of GHG emission is the consumption of petrol for company vehicles.

During the reporting period, the Group's GHG emissions of corporate office equated to a total of approximately 57.6 tonnes of CO₂ equivalent ("tCO₂e") and the detailed summary of the GHG emission is shown as below:

7.1.3 Waste

The generation of wastes in our properties are divided into 2 parts: wastes generated in our corporate offices and waste generated by our tenants.

For our corporate office, most of the wastes we generated is non-hazardous in nature, including general waste and food waste. The Group has implemented various programs to encourage employees to participate in waste reduction management, including:

- Encourage double-side printing and reuse of wastepaper.
- Encourage to use electronic channels for internal correspondence and communication.
- Used printing toners will be returned to recycling companies for recycling and reuse.
- Encourage staff to recycle all plastic items by disposing them into proper recycling bins.

Through the above mitigation measures, the Group believes that it will change the behaviour of the use of resources in our workplaces and enable us to achieve a higher goal of waste reduction in the coming years.

For our leasing properties, renovation waste is generated from works carried out by contractors or end users. We maintain regular communication with our contractors and tenants on renovation projects. A fitting-out guideline will be sent to tenants prior to their property renovation. This procedure is to ensure that waste generated at our renovation site can prevent unlawful waste dumping. For hazardous waste, licensed service providers will be appointed by our outsourced property management service provider to collect and treat the waste properly before disposal.

7. Environment (Cont'd)

7.2 Use of Resources

The Group strives to use resources effectively and minimize the discharge of wastes. In the ordinary course of business, we have implemented various energy saving and emission reduction measures.

User Behaviour

User behaviour has an impact on energy and resource consumption. As a property owner, we actively engage employee on the importance of energy conservation.

- 1) Keep indoor air-conditioning temperature at 25°C during summer;
- 2) Switch off lobby lighting and certain elevators operation during non-busy hours; and
- 3) Encourage staff to switch off office equipment, such as printers and computers, (some equipment will enter into the sleep mode or energy saving mode under the standby condition); and
- 4) To ensure all fancoils in the office are switched off daily at the end of working days
- 5) Advocate adopting preventive maintenance programs to prolong lifespan of building facilities and equipment

Equipment and Facilities Upgrade

Improving energy efficiency is a fundamental strategy to reduce GHG emissions associated with energy use.

Apart from the waste reduction actions mentioned above, a variety of energy conservation and efficiency initiatives have been implemented. We have retrofitted our existing commercial properties through initiatives such as:-

- chillers plants upgrading
- introduction of modern sensors to reduce lighting consumption
- installation of LED lighting

7.2.1 Energy Consumption

The total energy consumption of our properties is divided into three main parts: the electricity consumption from shared services in the common areas of our buildings, the energy consumption in the tenanted areas, and the energy consumption in our corporate offices.

The procurement of energy in our properties is organized in two types: landlord usage of energy and the tenant usage of energy. As a landlord, we are solely responsible for the energy consumed in our corporate offices and will cooperate in reducing the energy consumed from the shared services in the common areas of our buildings.

In this Report, the Group will disclose the energy consumption of the corporate office and electricity consumption from shared services in the common areas of our building.

Energy Consumption of our Corporate Office

During the Reporting Period, the Group consumed 70,887 kWh of electricity at its corporate office and 33,312 MJ of Towngas across its operational properties. These figures reflect our ongoing efforts to track and manage energy use across different facilities.

As part of our annual energy management system review, we conducted a detailed analysis of energy consumption by source and usage category. The findings reaffirm that the primary drivers of office energy consumption are computing equipment, lighting systems, and water heating appliances. These categories remain the focal points for future efficiency upgrades.

In terms of transportation, the Group maintains two company-owned vehicles in Hong Kong for business operations. These vehicles represent the second-largest contributor to our overall energy consumption and carbon emissions profile. During the reporting period, the vehicles consumed approximately 3,902.85 litres of petrol.

In response to rising fuel prices and our commitment to sustainable operations, the Group has adopted a structured fuel-efficiency action plan. This plan promotes:

- Strategic trip planning to minimize unnecessary travel,
- Adoption of eco-driving practices such as smooth acceleration and speed moderation,
- Regular vehicle maintenance including engine servicing and tyre pressure checks, which are essential for optimizing fuel efficiency and extending vehicle lifespan.

The use of water in our properties are divided into 2 parts: resources used in our corporate offices and resources used in tenanted areas. As our business operation is in Hong Kong, the water challenges we face are mostly related to rainfall and weather changes events. We have to confront problems such as the overloading of sewers and water collecting points. We believe that, by collecting and measuring water consumption properly, we can manage the usage of water more effectively.

In addition, we comply with all applicable Hong Kong laws regarding access to water and its treatment. Since we start to collect water consumption data, we have focused on reducing the water footprint in our own operations. We have undertaken measures to check water leakage from our building's drainage facilities.

Behavioural habits are also critical, we have encouraged staff to save water. Regardless of the abundance of water in Hong Kong, we consider it our duty to conserve water and use it in a responsible manner.

During the reporting period, the Group's director's quarter water usage is 816 m³.

7.2.3 Paper Usage

Alongside environmental concerns of the Group are the drive to improve operational efficiency and to keep paper costs under control over all aspects of the office's operations. Within this context, the Company has identified paper usage as a key area to address.

During the reporting period, the Group used 116 reams of A4 paper, representing a 0.85% reduction compared to the previous year. This slight decrease reflects continued efforts to promote environmentally responsible office practices, particularly the increased adoption of double-sided printing by employees.

7.2.4 Metric Target

We are aware of the importance of achieving the sustainable development of the Group. To meet our goal, we have set the following targets:

Greenhouse Gas Emissions and Electricity Usage	We have targeted to reduce our greenhouse gas emission and electricity usage within the next 5 years at our existing level of business activities.
Water	We have targeted to reduce our water consumption at our existing level of business activities
Waste	We have targeted to reduce our waste emission at our existing level of business activities

7.3 The Environmental and Natural Resources

The Group is aware its own obligations on environmental protection and continually explores the integration of the sustainable development concepts into corporate planning to consistently improve the environmental management system.

Apart from emissions and resources management, the Group is taking steps to minimise its impacts on the environment and natural resources. With a broad array of our property's portfolios, the extent and nature of our impacts vary among different property buildings. We regularly review our operating practices and introduced a series of measures for specific property buildings, ranging from energy saving measures to sustainable purchasing practices.

In addition, we make best efforts to minimize the adverse effects on the environment from our daily operations. Our guidelines are directed towards the following:

- Waste Management,
- Energy Saving,
- Recycling,
- Noise Reduction,
- Pollution Prevention,
- Legal Compliance

During the reporting period, the Group was not aware of any significant impacts towards the environment and natural resources through daily operation. The Group continues to follow and complied with all relevant environmental rules and regulations in Hong Kong.

7.4 Climate Change

Climate change presents risks and opportunities for our business and we are committed to identifying, assessing, and managing these to support our business and assets. Climate-related risks will persist in the foreseeable future and the nature of these risks depends on complex factors such as policy change, technology development and market forces.

Our actions to address climate change to date has been focused on the following areas:

- monitoring emissions and energy use
- reducing emissions through our office operations as much as possible.
- consult frequently with service providers partners to investigate how best to integrate sustainable solutions into our properties
- communicating our position and performance in alignment with Hong Kong Stock Exchange ESG Reporting Code.

We acknowledge that physical risks associated with climate change can trigger negative financial impacts, such as, an increase of maintenance costs or a falling of revenues resulting from disrupted operations. In recognition of these potential impacts, we are committed to manage our property assets with greater efforts to endure severe weather impacts and operate mindfully to minimize any potential disruptions at any kinds. For transition risk, carbon emissions regulation may impact our business through the pricing of energy required to develop and operate our assets. Therefore, we have enhanced the energy efficiency of our property assets and we continue to take a proactive approach in developing a sensible strategy that can generate value for our business while reducing our carbon emissions.

7.4 Climate Change (Cont'd)

The table below describes key categories of climate related risks and opportunities that we have identified for our business.

Climate-related risks	Potential Positive Impact	Potential Negative Impact
Acute physical risks related to typhoon, storm, and floods	Resilient assets that can withstand extreme weather can attract tenants and promote business continuity	Increased of maintenance expenses Potential higher insurance premium Higher manpower costs
Chronic physical risks including rise of temperature and sea levels.	Assets that can accommodate future climate changes such as property that comes with proper insulation can prevent the need for retrofits	High costs to upgrade buildings to cope with changing climate conditions
Transition risks – Policy	Assets that are rated as “Green Building” may enjoy government incentive	Significant increase of investment cost
Transition risks – Technology	Opportunity to use technology to reduce energy expenditure	Increase investment on energy efficiency equipment. Higher human capital costs
Transition risks – Market	Attract investment from investors favouring companies with green building	Reduced attractiveness of our assets and our business from an investment perspective if we fail to manage climate risks appropriately
Transition risks – Reputation	Energy efficiency and climate resilience assets can help us to gain an enduring reputation for being known as preferred landlord for tenants	Reduced revenues if tenants are less environmental concern

8. Social – Community Investment

With a vision to progress and to prosper with our community, the Group is committed to giving back by contributing to the society. Despite the absence of an explicit policy in this regard, the Group supports employees' participation in volunteer services for good causes.

During the reporting period, due to the devastating impacts caused by the unprecedented pandemic on the society, the Group was unable to participate in any social activities. Nevertheless, the Group will continue to deliver on its commitments to social responsibility and take any opportunity to support the prosperity of communities after the pandemic.

TO THE MEMBERS OF TERN PROPERTIES COMPANY LIMITED

太興置業有限公司

(Incorporated in Hong Kong with limited liability)

Opinion

We have audited the consolidated financial statements of Tern Properties Company Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 76 to 140, which comprise the consolidated statement of financial position as at 31 March 2025, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of investment properties

Refer to notes 16 and 19 to the consolidated financial statements.

Independent Auditor's Report

Key Audit Matter

We identified the valuations of investment properties as a key audit matter due to the materiality of the related balances to the consolidated financial statements as a whole, combined with the significant judgements involved in determining the inputs used in the valuation.

The Group had investment properties held by subsidiaries of approximately HK\$1,937,917,000 and associates of approximately HK\$517,460,000 as at 31 March 2025 for which a loss arising on change in fair value was recognised and presented as "Fair value loss on investment properties" and included in "Share of results of associates" respectively in the consolidated statement of profit or loss and other comprehensive income. The fair value was determined by management with reference to the valuations performed by independent professional property valuers (the "Valuers") engaged by the Group.

The valuations of investment properties involved significant judgements and estimates including:

- the determination of valuation techniques, which included direct comparison approach and income capitalization approach;
- assumptions of market conditions; and
- the selection of different inputs in the models.

How our audit addressed the Key Audit Matter

Our procedures in relation to the valuations of the investment properties included:

- evaluating the competence, capabilities, independence and objectivity of the Valuers;
- obtaining and reviewing the valuation reports prepared by the Valuers;
- discussing the valuations with management and the Valuers and challenging the key estimates adopted and inputs used in the valuations, including those relating to market selling prices, market rents and capitalisation rates, by comparing them with historical rates and market observable data;
- evaluating the valuation methodologies used and the appropriateness of the key assumptions and parameters based on our knowledge of other property valuations for similar types of properties; and
- checking the accuracy and relevance of the input data used in the valuations on a sample basis.

Our audit procedures confirmed that the key assumptions and valuation methodologies adopted by management in determining the fair values of investment properties were appropriately supported by independent market evidence and consistent with industry valuation standards.

Other Information

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Independent Auditor's Report

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors and Those Charged with Governance for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the content of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit concluded in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

Independent Auditor's Report

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes to the Consolidated Financial Statements

1. General Information

Tern Properties Company Limited (the “Company”) is a public limited company incorporated in Hong Kong and its shares are listed on The Stock Exchanges of Hong Kong Limited. The addresses of the registered office and principal place of business of the Company are disclosed in the Corporate Information section to the annual report.

The consolidated financial statements of the Company and its subsidiaries (collectively referred to as the “Group”) are presented in Hong Kong dollars (“HK\$”), which is also the functional currency of the Company.

The Company continues to act as an investment holding company. The principal activities of its subsidiaries and associates are set out in notes 35 and 19 to the consolidated financial statements respectively.

2. Application of New and Amendments to Hong Kong Financial Reporting Standards (“HKFRSs”)

New and amendments to HKFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following new and amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time, which are mandatorily effective for the Group’s annual periods beginning on 1 April 2024 for the preparation of the consolidated financial statements:

Amendments to HKFRS 16	Lease Liability in a Sale and Leaseback
Amendments to HKAS 1	Classification of Liabilities as Current or Noncurrent and related amendments to Hong Kong Interpretation 5 (2020)
Amendments to HKAS 1	Non-current Liabilities with Covenants
Amendments to HKAS 7 and HKFRS 7	Supplier Finance Arrangements

Except as described below, the application of these new and amendments to HKFRSs in the current year has no material impact on the Group’s financial performance and positions for the current or prior years and/or on the disclosures set out in these consolidated financial statements.

Notes to the Consolidated Financial Statements

2. Application of New and Amendments to Hong Kong Financial Reporting Standards (“HKFRSs”) (Cont’d)

New Guidance on accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong issued by the HKICPA

In June 2022, Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 (“the Amendment Ordinance”) was enacted. The Amendment Ordinance abolishes the use of the accrued benefits derived from employers’ mandatory contributions under the mandatory provident fund (“MPF”) to offset severance payments (“SP”) and long service payments (“LSP”) (“the Abolition”). Subsequently, the Government of HKSAR announced that the Abolition will take effect on 1 May 2025 (“the Transition Date”). The following key changes will take effect starting from the Transition Date:

- Accrued benefits derived from employers’ mandatory MPF contributions cannot be used to offset the LSP/SP in respect of the employment period after the Transition Date.
- The pre-transition LSP/SP is calculated using the last month’s salary immediately preceding the Transition Date, instead of using the salary of employment termination date.

Due to the complexities of the accounting for the offsetting of accrued benefits derived from an employer’s MPF contributions and its LSP obligation and the accounting for offsetting mechanism could become material in light of the Abolition, the HKICPA published “Accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong” (“the Guidance”) in July 2023 to provide guidance to account for the offsetting mechanism and the Abolition. The HKICPA concluded that there are two acceptable accounting approaches for the offsetting mechanism, being:

- Approach 1: Account for the amount expected to be offset as a deemed employee contribution towards that employee’s LSP benefits in terms of Hong Kong Accounting Standard 19.93(a)
- Approach 2: Account for the employer MPF contributions and the offsetting mechanism as a funding mechanism for the LSP obligation

For the years ended 31 March 2024 and 2025, the Group’s LSP liability before the expected offsetting under the MPF-LSP offsetting mechanism is insignificant. Application of the Guidance had no material effect on the consolidated financial statements of the Group.

Notes to the Consolidated Financial Statements

2. Application of New and Amendments to Hong Kong Financial Reporting Standards (“HKFRSs”) (Cont’d)

Amendments to HKFRSs in issue but not yet effective

The Group has not early applied the following amendments to HKFRSs that have been issued but are not yet effective:

Amendments to HKFRS 9 and HKFRS 7	Amendments to the Classification and Measurement of Financial Instruments ³
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ¹
Amendments to HKFRS Accounting Standards	Annual Improvements to HKFRS Accounting Standards — Volume 11 ³
Amendments to HKAS 21	Lack of Exchangeability ²
HKFRS 18	Presentation and Disclosure in Financial Statements ⁴

¹ Effective date to be determined.

² Effective for annual periods beginning on or after 1 January 2025.

³ Effective for annual periods beginning on or after 1 January 2026.

⁴ Effective for annual periods beginning on or after 1 January 2027.

Other than HKFRS 18, which could impact the presentation and disclosure of the Group’s financial statements, the directors of the Company anticipate that the application of the above amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

HKFRS 18 Presentation and Disclosure in Financial Statements

HKFRS 18 Presentation and Disclosure in Financial Statements, which sets out requirements on presentation and disclosures in financial statements, will replace HKAS 1 Presentation of Financial Statements. This new HKFRS Accounting Standard, while carrying forward many of the requirements in HKAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some HKAS 1 paragraphs have been moved to HKAS 8 and HKFRS 7. Minor amendments to HKAS 7 Statement of Cash Flows and HKAS 33 Earnings per Share are also made.

HKFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted.

The directors of the Company anticipate that the application of HKFRS 18 has no impact on the Group’s financial position and performance in foreseeable future, but has impact on presentation of the consolidated statement of comprehensive income.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies

Basis of preparation

The consolidated financial statements have been prepared in accordance with all applicable HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules") and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain investment properties and financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 "Share-based Payment", leasing transactions that are accounted for in accordance with HKFRS 16 "Leases", and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 "Inventories" or value in use in HKAS 36 "Impairment of Assets".

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For investment properties which are transacted at fair value and a valuation technique that unobservable inputs is to be used to measure fair value in subsequent periods, the valuation technique is calibrated so that at initial recognition the results of the valuation technique equals the transaction price.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)

Basis of preparation (Cont'd)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2: inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)

Basis of consolidation (Cont'd)

- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Interests in subsidiaries

Interests in subsidiaries presented in the statement of financial position of the Company included in note 36 to the consolidated financial statements are stated at cost less any identified impairment loss.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)

Interests in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting.

Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. Changes in net assets of the associate other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interests by the Group. When the Group's share of losses of an associate exceeds the Group's interests in that associate (which include any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The Group assesses whether there is an objective evidence that the interest in an associate may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When a group entity transacts with an associate of the Group, profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Revenue from contracts with customers**

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer. The revenues are presented as turnover in the consolidated statement of profit or loss and other comprehensive income.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

Revenue is measured at the fair value of the consideration received or receivable.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any direct attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values. All of the Group’s property interests held under operating leases to earn rentals or for capital appreciation purposes are classified and accounted for as investment properties and are measured using the fair value model. Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the property) is included in profit or loss in the period in which the property is derecognised.

Property, plant and equipment

Property, plant and equipment including buildings held for use in the production or supply of goods or services, or for administrative purposes are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Leasehold land and building in the course of construction for production or supply of goods or services or for administrative purposes are carried at cost, less any recognised impairment loss. Costs include any cost directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as "right-of-use assets" in the consolidated statement of financial position except for those that are classified and accounted for as investment properties under the fair value model. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Depreciation is recognised so as to write off the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. The principal annual rates used for this purpose are as follows:

Leasehold buildings	4% p.a. or over the terms of the lease, if higher
Furniture and office equipment	20% p.a.
Leasehold improvement	10% p.a.
Motor vehicles	20% p.a.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in profit or loss.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Impairment of non-financial assets**

At the end of the reporting period, the Group reviews the carrying amounts of its non-financial assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of non-financial assets are estimated individually, when it is not possible to estimate the recoverable amount of an asset individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Lease**Definition of a lease**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application of HKFRS 16, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as lessee**Allocation of consideration to components of a contract**

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Lease (Cont'd)****The Group as lessee (Cont'd)****Short-term leases and leases of low-value assets**

The Group applies the short-term lease recognition exemption to leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Except for those that are classified as investment properties and measured under fair value model, right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 Financial Instruments ("HKFRS 9") and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Lease (Cont'd)****The Group as lessee (Cont'd)****Lease liabilities (Cont'd)**

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group as a lessor**Classification and measurement of leases**

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised in profit or loss on a straight line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and such costs are recognised as an expense on a straight-line basis over the lease term except for investment properties measured under fair value model.

Rental income which are derived from the Group's ordinary course of business are presented as turnover.

3. Material Accounting Policies (Cont'd)

Lease (Cont'd)

The Group as a lessor (Cont'd)

Allocation of consideration to components of a contract

When a contract includes both leases and non-lease components, the Group applies HKFRS 15 to allocate consideration in a contract to lease and non-lease components. Non-lease components are separated from lease component on the basis of their relative stand-alone selling prices.

Refundable rental deposits

Refundable rental deposits received are accounted for under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments from lessees.

Lease modification

Changes in considerations of lease contracts that were not part of the original terms and conditions are accounted for as lease modifications, including lease incentives provided through forgiveness or reduction of rentals.

The Group accounts for a modification to an operating lease as a new lease from the effective date of the modification, considering any prepaid or accrued lease payments relating to the original lease as part of the lease payments for the new lease.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss for the period in which they arise.

For the purposes of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange reserve.

3. Material Accounting Policies (Cont'd)

Retirement benefits scheme

Payment to the Mandatory Provident Fund Scheme ("MPF Scheme") are recognised as an expense when employees have rendered service entitling them to the contributions.

Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

Taxation

Income tax expense represents the sum of the current and deferred income tax expense.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from loss before taxation as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)

Taxation (Cont'd)

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

In assessing any uncertainty over income tax treatments, the Group considers whether it is probable that the relevant tax authority will accept the uncertain tax treatment used, or proposed to be used by individual group entities in their income tax filings. If it is probable, the current and deferred taxes are determined consistently with the tax treatment in the income tax filings. If it is not probable that the relevant taxation authority will accept an uncertain tax treatment, the effect of each uncertainty is reflected by using either the most likely amount or the expected value.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event and it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short-term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Financial instruments**

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets**Classification and subsequent measurement of financial assets**

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI"):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets that other than those categorised as amortised cost and FVTOCI above, are subsequently measured at FVTPL.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Financial instruments (Cont'd)****Financial assets (Cont'd)****Classification and subsequent measurement of financial assets (Cont'd)**

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term;
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost and debt instruments subsequently measured at FVTOCI. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

(ii) Debt instruments classified as at FVTOCI

Subsequent changes in the carrying amounts for debt instruments classified as at FVTOCI as a result of interest income calculated using the effective interest method, and foreign exchange gains and losses are recognised in profit or loss. All other changes in the carrying amount of these debt instruments are recognised in OCI and accumulated under the heading of FVTOCI reserve. Impairment allowances are recognised in profit or loss with corresponding adjustment to OCI without reducing the carrying amounts of these debt instruments. When these debt instruments are derecognised, the cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Financial instruments (Cont'd)****Financial assets (Cont'd)**

Classification and subsequent measurement of financial assets (Cont'd)

(iii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss (excludes any dividend or interest earned on the financial asset which are disclosed as separate items) and is included in the consolidated statement of profit or loss and other comprehensive income.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss ("ECL") model on financial assets (including trade and other receivables, pledged bank deposits, bank balances and cash and debt instruments at FVTOCI), which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment is done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables. The ECL on these assets are assessed individually for significant balances or collectively using a provision matrix with appropriate groupings based on aging and past due status.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Financial instruments (Cont'd)****Financial assets (Cont'd)****Impairment of financial assets (Cont'd)****(i) Significant increase in credit risk**

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 60 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) it has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definitions.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Financial instruments (Cont'd)****Financial assets (Cont'd)****Impairment of financial assets (Cont'd)****(i) Significant increase in credit risk (Cont'd)**

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when the instrument is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Financial instruments (Cont'd)****Financial assets (Cont'd)****Impairment of financial assets (Cont'd)****(iv) Write-off policy**

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over one year past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost of the financial asset.

Except for investments in debt instruments that are measured at FVTOCI, the Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables where the corresponding adjustment is recognised through a loss allowance account. For investment in debt instruments that are measured at FVTOCI, the loss allowance is recognised in other comprehensive income and accumulated in the FVTOCI reserve without reducing the carrying amount of these debt instruments. Such amount represents the changes in the FVTOCI reserve in relation to accumulated loss allowance.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Financial instruments (Cont'd)****Derecognition of financial assets (Cont'd)**

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the FVTOCI reserve is reclassified to profit or loss.

Financial liabilities and equity instruments**Classification as debt or equity**

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities at amortised cost

Financial liabilities (including financial liabilities included in other payables and receipts in advance, deposits received from tenants, lease liabilities, and secured bank borrowings) are subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Related parties

A related party is a person or an entity that is related to the Group.

(a) A person, or a close member of that person's family, is related to the Group if that person:

- (i) has control or joint control over the Group;
- (ii) has significant influence over the Group; or
- (iii) is a member of the key management personnel of the Group and the Group's parent.

Notes to the Consolidated Financial Statements

3. Material Accounting Policies (Cont'd)**Related parties (Cont'd)**

(b) An entity is related to the Group if any of the following conditions applies:

- (i) the entities and the Group are the member of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
- (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
- (iii) both entities are joint ventures of the same third party;
- (iv) one entity is a joint venture of a third entity and other entity is an associate of the third entity;
- (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
- (vi) the entity is controlled or jointly controlled by a person identified in (a);
- (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or
- (viii) the entity or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close family members of an individual are those family members who may be expected to influence, or be influenced by, that individual in their dealings with the entity.

- (i) the person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; or
- (iii) dependents of that person or that person's spouse or domestic partner.

Notes to the Consolidated Financial Statements

4. Critical Accounting Judgements and Key Sources of Estimation Uncertainty

In the application of the Group's accounting policies, which are described in note 3 to the consolidated financial statements, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations, that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Depreciation

The Group depreciates the property, plant and equipment and right-of-use assets over their estimated useful life and after taking into account of their estimated residual values, using the straight-line method. The estimated useful life reflects the directors' estimate of the periods that the Group intends to derive future economic benefits from the use of the Group's property, plant and equipment and right-of-use assets. The residual values reflect the directors' estimated amount that the Group would currently obtain from disposal of the assets, after deducting the estimated costs of disposal, if the assets were already of the age and in the condition expected at the end of its useful life.

Allowance for credit losses in respect of trade receivables

The Group determines the allowance for credit losses in respect of trade receivables based on the ECLs. Allowance for credit losses in respect of trade receivables is assessed on lifetime ECL.

The policy for allowance for credit losses in respect of trade receivable of the Group is based on the evaluation of collectability and aging analysis of accounts and on management's judgement. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, including the current creditworthiness and the past collection history of each debtor. If the financial conditions of debtors of the Group were to deteriorate, resulting in an impairment of their abilities to make payments, additional allowance may be required.

Deferred taxation on investment properties

For the purposes of measuring deferred tax arising from investment properties using the fair value model, the directors of the Company have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are not held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time. Therefore, in determining the Group's deferred taxation on investment properties, the directors have determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is not rebutted. The Group has not recognised any deferred taxes on changes in fair value of investment properties in Hong Kong as the Group is not subject to any income taxes on the fair value changes of the investment properties on disposal of its investment properties.

Notes to the Consolidated Financial Statements

4. Critical Accounting Judgements and Key Sources of Estimation Uncertainty (Cont'd)**Key sources of estimation uncertainty**

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Valuation of investment properties

Investment properties are carried in the consolidated statement of financial position at 31 March 2025 at their fair value of approximately HK\$1,937,917,000 (2024: approximately HK\$2,029,390,000). The fair value was based on a valuation on these properties conducted by independent firms of professional valuers using property valuation techniques which involve certain assumptions of market conditions. Favourable or unfavourable changes to these assumptions would result in changes in the fair value of the Group's investment properties and corresponding adjustments to the amount of gain or loss reported in the consolidated statement of profit or loss and other comprehensive income.

5. Turnover

Turnover represents the aggregate amounts received and receivable from property rental income.

	2025 HK\$'000	2024 HK\$'000
Property rental income	50,397	56,032

6. Operating Segments

The Group's operating activities are attributable to two operating segments under HKFRS 8 "Operating Segments", namely property investment and treasury investment. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

For property investment, the segment represents the operations of property investment and property leasing. Discrete financial information is provided to the Board on a property-by-property basis. Information provided includes net rental income (including gross rental income and property expenses), fair value loss on investment properties and share of results of associates. Individual properties with similar economic characteristics are aggregated into one segment for presentation purposes.

For treasury investment, the segment represents the investments in debt and equity securities. Financial information is provided to the Board on a company-by-company basis. Information provided includes loss on derecognition of debt instruments at FVTOCI, gain on disposal of financial assets at FVTPL, unrealised gain (loss) on revaluation of financial assets at FVTPL, interest income from debt instruments and bank deposits and dividend income from equity securities.

Notes:

1. A rent-free accommodation with rateable value of approximately HK\$885,000 (2024: approximately HK\$885,000), is provided to Mr. Chan Hoi Sow by the Group during the year.
2. Mr. Chan Hoi Sow resigned as the Chairman of the Board, Managing Director and Executive Director of the Company due to retirement with effect from 22 August 2024 and will be appointed as the Honorary Chairman of the Company.

The executive directors' emoluments shown above include their services in connection with the management of the affairs of the Company and the Group.

The fees paid to independent non-executive directors shown above were mainly for their services as directors of the Company.

There was no arrangement under which a director waived or agreed to waive any emoluments during the year.

During the years ended 31 March 2025 and 31 March 2024, no emoluments were paid by the Group to any of the directors as an inducement to join or upon joining the Group or as compensation for loss of office.

Notes to the Consolidated Financial Statements

11. Directors' Emoluments (Cont'd)**(b) Directors' material interests in transactions, arrangement or contracts**

No directors of the Company had a material interest, directly or indirectly, in any significant transactions, arrangements and contracts in relation to the Company's business to which the Company was or is a party that subsisted at the end of the year or at any time during the year (2024: Nil).

(c) Loans, quasi-loans and other dealings in favour of directors

No loans, quasi-loans and other dealings in favour of directors or body corporate controlled by such directors, or entities connected with such directors, subsisted at the end of the year or at any time during the year (2024: Nil).

12. Individuals with Highest Emoluments

Deferred taxation (note 26)		
Charge for the year	143	965
Over provision in prior years	(4)	–
	5,301	4,168

Hong Kong Profits Tax is calculated at 16.5% (2024: 16.5%) of the estimated assessable profit for the year.

Overseas taxation is calculated at the rates prevailing in the respective jurisdictions.

The tax charge for the year can be reconciled to the loss before taxation per the consolidated statement of profit or loss and other comprehensive income as follows:

	2025 HK\$'000	2024 HK\$'000
Loss before taxation	(49,158)	(5,629)

14. Dividends

	2025	2024
	HK\$'000	HK\$'000
Interim, paid – HK0.3 cent (2024: HK0.3 cent) per share	832	832
Final, proposed – HK1.4 cents (2024: HK1.4 cents) per share	3,881	3,881
	4,713	4,713

The final dividend of HK1.4 cents (2024: HK1.4 cents) per share has been proposed by the board of directors and is subject to approval by the shareholders of the Company in the annual general meeting. The final dividend proposed after the end of the reporting period has not been recognised as a liability at the end of reporting period.

15. Loss Per Share

The calculation of loss per share is based on the loss for the year attributable to owners of the Company of approximately HK\$54,459,000 (2024: approximately HK\$9,797,000) and on 277,232,883 (2024: 277,232,883) ordinary shares in issue during the year.

The Company had no dilutive potential ordinary shares outstanding in both the years ended 31 March 2025 and 2024. Accordingly, diluted loss per share is the same as basic loss per share.

16. Investment Properties

Notes to the Consolidated Financial Statements

16. Investment Properties (Cont'd)

The Group's property interests held under operating leases to earn rentals are measured using the fair value model and are classified and accounted for as investment properties.

The carrying amount of investment properties shown above comprises:

	2025 HK\$'000	2024 HK\$'000
Properties in Hong Kong		
Medium-term lease	1,266,280	1,319,530
Long-term lease	666,900	704,600

Properties in Canada		
Freehold	4,737	5,260
	1,937,917	2,029,390

Fair value measurement of the Group's investment properties

The fair value of the Group's investment properties situated in Hong Kong and Canada has been arrived at on the basis of a valuation of the properties carried out on the year end date by Jones Lang LaSalle Limited and Johnston Ross & Cheng Ltd., respectively, who are independent qualified professional valuers not connected to the Group and have appropriate qualifications and recent experiences in the valuation of similar properties in the relevant locations.

The fair value of each investment property is individually determined at the end of each reporting period based on direct comparison method and/or income capitalisation method, as appropriate. The direct comparison method assumes the sale of the property interest in its existing state with the benefit of vacant possession and by making reference to comparable sales evidence available in the relevant market. The income capitalisation method is based on the capitalisation of the current passing rental income and potential reversionary income over the remaining tenure of the property from the date of valuation at appropriate investment yields to arrive at the capital value. The rental value and capitalisation rate adopted for the valuation are derived from an analysis of market transactions.

There has been no change from the valuation technique used in the prior year. In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The following table gives information about how the fair values of these investment properties are determined (in particular, the valuation techniques and inputs used), as well as the fair value hierarchy into which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.

Leasehold lands and buildings are depreciated on a straight line basis over the term of the leases.

For both years, the Group leases properties for its director's quarter. Lease contract is entered into for fixed term of 2 years (2024: 2 years) for the properties. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

Non-current assets	700	700
	95,625	9,955
	128,608	73,633

Note:

- (i) The debt instruments are held by the Group within a business model whose objective is both to collect their contractual cash flows which are solely payments of principal and interest on the principal amount outstanding and to sell these financial assets. Hence, these debt instruments are classified as at FVTOCI.

Financial assets at FVTOCI include listed debt instruments held by the Group, the issuers of which include those that are mainly engaged in, among others, the hospitality, banking and real estate businesses. Such debt instruments' maturity dates vary from within one year and those that are perpetual.

As of 31 March 2025, such debt instruments at FVTOCI constitute approximately 1.25% (2024: 2.37%) of the total assets of the Group and no single debt instrument at FVTOCI has an outstanding amount representing over 5% of the Group's total assets.

The Group recognised an impairment allowance, net of reversal, of approximately HK\$946,000 (2024: net reversal of impairment allowance of approximately HK\$15,525,000) on debt instruments at FVTOCI for the current year.

Details of impairment assessment are set out in note 32.

At 31 March 2025 and 2024, listed debt instruments at FVTOCI and listed equity securities at FVTPL were stated at fair values which were determined based on the quoted market closing prices available on the Stock Exchange or other recognised stock exchanges.

Notes to the Consolidated Financial Statements

21. Trade and Other Receivables (Cont'd)

An aging analysis of trade receivables which are past due but not impaired, is as follow:

	2025 HK\$'000	2024 HK\$'000
31 – 60 days	687	1,381
61 – 90 days	318	–
Over 90 days	2,023	769
	3,028	2,150

The movements in allowance for expected credit losses of trade receivables during the years are set out below:

	2025 HK\$'000	2024 HK\$'000
Balance at beginning of the year	263	203
Increase in allowance for credit losses recognised in profit or loss	993	60
Amount written off as uncollectible	(118)	–
Balance at end of the year	1,138	263

During the year, the Group has made an allowance of expected credit losses, net of reversal of approximately HK\$993,000 (2024: HK\$60,000) for the trade receivables.

The movements in allowance for expected credit losses of other receivables during the years are set out below:

	2025 HK\$'000	2024 HK\$'000
Balance at beginning of the year	4,746	2,280
Net increase in allowance for credit losses recognised in profit or loss	1,230	2,466
Reversal of allowance for credit losses	(327)	–
Amount written off as uncollectible	(197)	–
Balance at end of the year	5,452	4,746

Based on historical and forward looking information of the Group, there has not been a significant change in credit quality of the customers and the balances are still considered to be fully recoverable. The Group does not hold any collateral over these balances apart from the rental deposits received.

Notes to the Consolidated Financial Statements

22. Pledged Bank Deposits and Bank Balances and Cash

	2025 HK\$'000	2024 HK\$'000
Pledged bank deposits	–	4,170
Bank balances and cash	276,942	288,425

Pledged bank deposits represent deposits pledged to the bank to secure loan facilities granted to the Group.

Pledged bank deposits and bank balances and cash comprise cash and short-term bank deposits carrying effective interest rates at 0.001% to 4.57% (2024: 0.001% to 5.55%) per annum with an original maturity of six months or less.

Included in bank balances and cash are the following significant amounts denominated in currencies other than the functional currencies of the respective group entities:

	2025 HK\$'000	2024 HK\$'000
Renminbi ("RMB")	20	1,480
Canadian dollar ("CAD")	71	134
United States dollars ("USD")	253,466	244,347

23. Other Payables and Receipts in Advance

Dividend payable	913	883
Accrued expenses	702	641
Others	1,179	1,535
	5,859	5,473

Note: The balance of receipts in advance in relation to rental income as at 1 April 2024 of approximately HK\$2,324,000 was fully recognised as revenue during the year.

Notes to the Consolidated Financial Statements

24. Lease Liabilities

	2025 HK\$'000	2024 HK\$'000
Within one year	416	578
Within a period of more than one year but not exceeding two years	34	372
	450	950
Less: Amount due for settlement within one year shown under current liabilities	(416)	(578)
Amount due for settlement after one year shown under non-current liabilities	34	372

The weighted average incremental borrowing rate applied to lease liabilities was 2.50% to 3.10% (2024: 2.50% to 3.10%) p.a.

There were no rental expenses from short-term leases for the year. (2024: the Group had recognised rental expenses from short-term leases of approximately HK\$62,000).

25. Secured Bank Borrowings

	2025 HK\$'000	2024 HK\$'000
Carrying amounts of secured bank borrowings repayable based on contractual repayment dates:		
Within one year	3,002	2,806
More than one year but not exceeding two years	3,081	2,898
More than two years but not exceeding five years	9,737	9,273
More than five years	25,909	29,609
	41,729	44,586
Less: Amounts due within one year shown under current liabilities	(3,002)	(2,806)
Amount due after one year shown under non-current liabilities	38,727	41,780

All of the bank loans were denominated in Hong Kong dollars with interest rate at 1.25% (2024: 1.25%) over HIBOR per annum.

At the end of the reporting period, the Group's banking facilities amounting to approximately HK\$42,230,000 (2024: HK\$45,086,000) were supported by (i) a corporate guarantee provided by the Company; and (ii) certain investment properties held by subsidiaries. Details of the assets pledged are disclosed in note 29 to the consolidated financial statements.

Notes to the Consolidated Financial Statements

26. Deferred Taxation

The following is the major deferred tax liabilities (assets) recognised and movements thereon during the current and prior reporting periods:

	Accelerated tax depreciation HK\$'000	Tax allowance on investment properties HK\$'000	Total HK\$'000
At 1 April 2023	(837)	35,304	34,467
Charge for the year (note 13)	119	846	965
At 31 March 2024 and 1 April 2024	(718)	36,150	35,432
Charge for the year (note 13)	20	119	139
At 31 March 2025	(698)	36,269	35,571

For the purpose of presentation in the consolidated statement of financial position, certain deferred tax assets and liabilities have been offset. The following is the analysis of the deferred tax balances for financial reporting purposes:

	2025 HK\$'000	2024 HK\$'000
Deferred tax assets	168	150
Deferred tax liabilities	(35,739)	(35,582)
	(35,571)	(35,432)

With regard to the Group's investment properties, as none of them is held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale, the Group has not recognised any deferred taxes on changes in fair value of the investment properties in Hong Kong as the Group is not subject to any income taxes on disposal of its investment properties. For the Group's investment property in Canada, the deferred tax on changes in fair value of investment property is recognised taking into account the tax payable upon sale of this investment property in Canada.

At the end of the reporting period, the Group has unused tax losses of approximately HK\$16,018,000 (2024: approximately HK\$19,495,000) available for offset against future profits. Certain deferred tax assets on tax losses had not been recognised in respect of the unused tax losses due to the unpredictability of future profit streams. These tax losses may be carried forward indefinitely.

28. Pensions Scheme

The Group operates the Mandatory Provident Fund ("MPF") Scheme for all existing staff members of the Group.

The MPF Scheme is a defined contribution scheme and the assets of the scheme are managed by independent trustees.

The MPF Scheme is available to all employees aged 18 to 64 and with at least 60 days of service under the employment of the Group in Hong Kong. Contributions are made by the Group at 5% based on the staff's monthly relevant income. The maximum relevant income for contribution purpose is HK\$30,000 per month.

Staff members are entitled to 100% of the Group's contributions together with accrued returns irrespective of their length of service with the Group, but the benefits are required by law to be preserved until the retirement age of 65.

The Group's cost for the MPF Scheme charged to profit or loss for the year ended 31 March 2025 in respect of MPF Scheme amounted to approximately HK\$258,000 (2024: approximately HK\$257,000).

During the years ended 31 March 2024 and 2025, there were no contributions forfeited by the Group on behalf of its employees who leave the plan prior to vesting fully in such contribution, nor had there been any utilization of such forfeited contributions to reduce future contributions. As at 31 March 2024 and 2025, no forfeited contributions were available for utilization by the Group to reduce the existing level of contributions as described in paragraph 26(2) of Appendix 16 to the Listing Rules.

29. Pledge of Assets

At the end of the reporting period, the Group's banking facilities amounted to approximately HK\$42,230,000 (2024: approximately HK\$45,086,000).

The following assets were pledged to secure the banking facilities granted to the Group:

- i) Investment properties with carrying amounts of HK\$261,400,000 (2024: HK\$281,000,000);
- ii) Debt instruments at FVTOCI and financial assets at FVTPL with carrying amounts in total of approximately HK\$nil (2024: approximately HK\$26,139,000); and
- iii) Bank deposits with carrying amounts of approximately HK\$nil (2024: approximately HK\$4,170,000).

At the end of the reporting period, the Group has utilised loan facilities from bank with an amount of approximately HK\$41,729,000 (2024: approximately HK\$44,586,000).

30. Operating Lease Arrangements

The Group as lessor

The investment properties of the Group are expected to generate average rental yields of approximately 2.60% (2024: approximately 2.76%) on an ongoing basis. All of the properties held have committed tenants not exceeding three years (2024: four years).

At the end of the reporting period, the Group had contracted with tenants for the following future minimum lease payments:

	2025 HK\$'000	2024 HK\$'000
Within one year	36,249	40,477
In the second year	13,430	18,842
In the third year	2,022	2,596
In the fourth year	–	689
	51,701	62,604

32. Financial Instruments (Cont'd)**(b) Financial risk management objectives and policies**

The Group's major financial instruments include debt instruments at FVTOCI, financial assets at FVTPL, financial assets included in trade and other receivables, pledged bank deposits, bank balances and cash, financial liabilities included in other payables and receipts in advance, deposits received from tenants, lease liabilities and secured bank borrowings. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Foreign currency risk management

One subsidiary of the Company has foreign currency assets and income which exposes the Group to foreign currency risk. Certain other assets of the Group are also denominated in foreign currencies. The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The carrying amounts of the Group's major foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

	Assets	Liabilities

32. Financial Instruments (Cont'd)**(b) Financial risk management objectives and policies (Cont'd)****Liquidity risk management**

Ultimate responsibility for liquidity risk management rests with the board of directors, which has built an appropriate liquidity risk management framework for the Group's funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves and banking facilities, continuously monitoring forecast and actual cash flows, carrying out fund raising activities and matching the maturity profiles of financial assets and liabilities. The maturity profile of the Group's financial liabilities at the end of the reporting period based on contractual undiscounted payments is summarised below:

Notes to the Consolidated Financial Statements

32. Financial Instruments (Cont'd)**(b) Financial risk management objectives and policies (Cont'd)****Credit risk management**

The Group's maximum exposure to credit risk in the event of the counterparties' failure to perform their obligations as at 31 March 2025 in relation to each class of recognised financial assets is the carrying amount of those assets as stated in the consolidated statement of financial position. The Group's pledged bank deposits and bank balances are deposited with banks of high credit quality in Hong Kong and overseas.

The Group made transactions with counterparties with acceptable credit quality in conformance to the Group's treasury policies to minimise credit exposure. Acceptable credit ratings from reputable credit rating agencies and scrutiny of financials for non-rated counterparties are two important criteria in the selection of counterparties. The credit quality of counterparties will be closely monitored over the life of the transaction. The Group reviews its financial counterparties periodically in order to reduce credit risk concentrations relative to the underlying size and credit strength of each counterparty.

In order to forestall adverse market movement, the Group also monitors potential exposures to each counterparty. Management of the Group has delegated a team responsible for the determination of credit limits, credit approvals and other monitoring procedures to ensure that prompt follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors consider that the Group's credit risk is significantly reduced.

When making decisions on investments in debt securities, the management of the Group has made reference to the credit ratings of the issuers and assessed their financials. The Group reviews the credit and performance of the issuers periodically to monitor the credit risk on debt instruments. The Group determines individually whether the issuers of the debt instruments have suffered from significant increase in credit risk since initial recognition by comparing the credit rating and other qualitative benchmarks that affect the credit quality of the issuers at initial recognition and at the end of the reporting period. As there are no downgrading in the credit rating of the debt instruments, the credit loss allowances on individual debt instrument are measured on 12m ECL basis as the credit risk on financial instruments have not increased significantly since initial recognition.

During the year ended 31 March 2025, impairment allowance on debt instruments at FVTOCI, net of reversal, of approximately HK\$946,000 (2024: a net reversal of impairment allowance on debt instruments at FVTOCI of approximately HK\$15,525,000) and the related interest receivables from the impaired-debt instruments of approximately HK\$1,550,000 (2024: HK\$1,550,000) were recognised in profit or loss.

Notes to the Consolidated Financial Statements

32. Financial Instruments (Cont'd)**(b) Financial risk management objectives and policies (Cont'd)****Interest rate risk management**

The Group's exposure to changes in interest rates is mainly attributable to its cash and cash equivalent and secured bank borrowings. Cash and cash equivalent and secured bank borrowings at variable rates expose the Group to cash flow interest rate risk. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of HIBOR.

The Group analyses its interest rate exposure on a dynamic basis. Various scenarios are simulated taking into consideration of refinancing, renewal of existing position, alternative financing and hedging. Based on these scenarios, the Group calculates the impact on profit and loss of a defined interest rate shift. For each simulation, the same interest rate shift is used for all currencies. The scenarios are run only for liabilities that represent major interest-bearing positions.

The Group currently does not use any interest rate swaps to hedge its exposure to interest rate risk. However, the Group will consider hedging significant interest rate exposure should the need arise.

Sensitivity analysis

The sensitivity analysis below, which includes interest rate exposure on variable interest-bearing bank deposits and secured bank borrowings, has been determined based on the exposure to interest rates for non-derivative instrument at the end of the reporting period. A 100 basis-points increase or decrease is used, which represents management's assessment of the possible change in interest rates.

If interest rates have been 100 basis-points higher/lower and all other variables were held constant, the Group's loss for the year ended 31 March 2025 would increase/decrease by approximately HK\$313,000 (2024: approximately HK\$198,000).

Market price risk management

The Group's market price risk is primarily attributable to debt instruments at FVTOCI and financial assets at FVTPL which were stated at their fair values at the end of the reporting period. The management manages this exposure by maintaining a portfolio of investments with different risk profiles.

As at 31 March 2025, carrying values of debt instruments at FVTOCI and financial assets at FVTPL which were stated at their fair values amounted to approximately HK\$32,983,000 (2024: HK\$63,678,000) and approximately HK\$94,925,000 (2024: HK\$9,255,000) respectively. For sensitivity analysis purpose, a 15% change in the fair value of corresponding financial instruments would result in the movement in investments revaluation reserve of approximately HK\$4,947,000 (2024: HK\$9,552,000) and changes in results for the year of approximately HK\$14,239,000 (2024: HK\$1,388,000) respectively.

Notes to the Consolidated Financial Statements

32. Financial Instruments (Cont'd)**(c) Fair values measurement of financial instruments****Fair value of the Group's financial instruments measured at fair value on a recurring basis**

Some of the Group's financial assets are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets are determined, as well as the level of the fair value hierarchy into which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurement are observable.

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for these financial assets held by the Group, which are listed debt instruments and listed equity securities, is the current price within the bid-ask spread in stock market and bond market. These instruments are included in level 1 which comprise primarily investments classified as financial assets at fair value through other comprehensive income (listed debt instruments) and financial assets at fair value through profit or loss (listed equity securities).

The fair value of financial instruments that are not traded in an active market (for example, over-the counter derivatives) is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

32. Financial Instruments (Cont'd)**(c) Fair values measurement of financial instruments (Cont'd)****Fair value of the Group's financial instruments measured at fair value on a recurring basis (Cont'd)**

There were no transfers between Levels 1, 2 and 3 in the current year and last year.

The directors of the Company consider the carrying amounts of the financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values.

33. Capital Risk Management

The management's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for equity holders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to equity holders, return capital to equity holders, issue new shares or sell assets to reduce debt.

As at 31 March 2025, the Group's strategy remained unchanged as compared to 31 March 2024. Management of the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net borrowing (net of bank balances and cash and pledged bank deposits) divided by total equity.

Gearing ratio of the Group at the year end date is as follows:

	2025 HK\$'000	2024 HK\$'000
Secured bank borrowings, net of bank balance and cash and pledged bank deposits	(235,213)	(248,009)
Total equity	2,522,972	2,575,107
Net debt to total equity ratio	N/A	N/A
