MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The uncertain outlook of the global macroeconomic landscape under the dynamic rebalancing of the international trading system, along with the slow recovery of China's economy, has led to volatile demand of the Group's furniture products.

The Group has been undergoing constant business transformation throughout the years to streamline its business in order to enhance overall performance. The Group has been focusing on the design, quality control, branding and enhancing its distribution channels of its wood-base furniture as well as after-sales services. Currently, the Group has outsourced its wood-base furniture production to other manufacturers to enhance its production efficiency and flexibility. As a result of the effort of the Group and its asset-light business model, the Group made a profit in the period under review.

The Company adopts effective and conservative operating policies. As a result, the Group does not have any bank borrowings, loans, or material capital commitments. To recognise the continued support of the shareholders, the Board of Directors of the Company has declared an interim dividend.

FINANCIAL REVIEW

Turnover

The Group's turnover decreased by approximately 18.0% from about HK\$61.5 million for the six months ended 30 June 2024 to HK\$50.4 million for the six months ended 30 June 2025.

In the first half of 2025, a series of extreme trade policies and tariff measures introduced by the United States triggered a succession of shocks and vast uncertainties to the global business environment, resulting in a decrease in consumer demand and hence lowered the demand for our products. As a result, the business of the Group has been affected.

Gross Profit

The Group's gross profit margin decreased to approximately 10.7% for the six months ended 30 June 2025 from approximately 14.9% for the six months ended 30 June 2024, primarily due to the ceased of the Group's promotion business in March 2024 which provided a higher profit margin for the six months ended 30 June 2024.

Selling and Distribution Expenses

The Group's selling and distribution expenses amounted to about HK\$2.2 million for the six months ended 30 June 2025, against about HK\$2.4 million for the six months ended 30 June 2024.

Administrative Expenses

The Group's administrative expenses amounted to approximately HK\$1.5 million for the six months ended 30 June 2025, against about HK\$4.8 million for the six months ended 30 June 2024. The decrease in administrative expenses during the period was mainly attributable to two major areas: (1) the reversal of credit impairment on trade receivables of approximately HK\$2.6 million (six months ended 30 June 2024: HK\$0.1 million); and (2) the increase in foreign exchange gain of approximately HK\$1.2 million.

Profit for the Period

Profit attributable to equity shareholders of the Company for the six months ended 30 June 2025 was approximately HK\$2.6 million as compared to profit attributable to equity shareholders of the Company of approximately HK\$1.1 million for the corresponding period last year.

PROSPECTS

The Group has been focusing on the overseas markets by exporting its wood-based furniture, sofa and mattress products to overseas countries mainly in Asia, Europe and the United States. The Group will put more effort in research, development and promoting the new products by participating in trade fairs and will make frequent contact with customers to keep them updated on the Group's latest offerings and share the market trend information with the customers to assist them in making favourable procurement decisions. The management of the Group will closely monitor the on-going market trends and customer preferences to ensure that the design and quality of the home furniture products remain aligned with market expectations.

Looking ahead, the world economy is expected to be increasingly constrained by the uncertainties arisen from the lingering geopolitical tensions, higher volatility in interest rates and the potential escalation of trade conflicts, particularly between the US and Mainland China which could significantly interrupt the Group's export business. The management will continuously monitor and review the overall operation and financial performance of the Group's businesses so as to cope with the ever-changing business environment. We will protect our business fundamentals, maintain our agility, vigilance and discipline whilst continuing to adapt to the changing dynamics in consumer behaviour, channels and the market arena. The Group remains cautious but optimistic and is confident that our team and corporate values will capture the foreseeable recovery.

LIQUIDITY AND FINANCIAL RESOURCES

The Group's funding and treasury activities are managed and controlled by the senior management. The Group maintained cash and bank balances of HK\$31.8 million as at 30 June 2025 (31 December 2024: HK\$26.9 million). As at 30 June 2025, the Group had no bank borrowings (31 December 2024: Nil).

As at the same date, the gearing ratio (total debt/total equity) was 0.2 (31 December 2024: 0.3).

As at 30 June 2025, the current ratio (current assets/current liabilities) was 5.7 (31 December 2024: 4.5) and the net current assets amounted to HK\$54.0 million (31 December 2024: HK\$49.1 million).

The ageing analysis of trade creditors and bills payable is set out in Note 11 to the financial statements of this interim report.

FOREIGN CURRENCY RISK

The Group is exposed to foreign currency risk primarily through sales and purchases that are denominated in a currency other than the functional currency of the operations to which they relate.
