The eligible Chinese policy banks are state-owned and their objectives typically include providing social benefit, stimulating the economy, and supporting growing local industries. The composition of the FTSE Chinese Policy Bank Bond 6 Months-3 Years Index excludes central bank bills, private placements, callable and puttable bonds, and bonds issued prior to 1st January 2005.

2 Material Accounting Policies

These condensed semi-annual financial statements for the six months ended 30th June 2025 have been prepared in accordance with the International Accounting Standard (“IAS 34”) “Interim Financial Reporting”. The condensed semi-annual financial statements should be read in conjunction with the annual financial statements for the year ended 31st December 2024, which have been prepared in accordance with International Financial Reporting Standards (“IFRS Accounting Standards”).

The accounting policies and methods of computation adopted in the preparation of the half year financial report are consistent with those of the annual financial statements for the year ended 31st December 2024.

Notes to the Unaudited Condensed Financial Statements (continued)

2 Material Accounting Policies (continued)

On 11th July 2025, the Manager made an announcement and notice of the proposed cessation of trading, termination, voluntary deauthorization and delisting of Short Duration China Policy Bank Bond ETF. The termination of the Short Duration China Policy Bank Bond ETF is expected to be on 14th October 2025 (the “Termination Date”). As a result, the condensed financial statements of the Short Duration China Policy Bank Bond ETF for the period ended 30th June 2025 have not been prepared on a going concern basis. The Trustee and the Manager have assessed that the values of all assets and liabilities of the Short Duration China Policy Bank Bond ETF at the reporting date approximate their net realizable value, and therefore no changes to accounting policies or adjustments have been made in the condensed financial statements of the Short Duration China Policy Bank Bond ETF in order to reflect the fact that it will be able to realize its assets or to extinguish its liabilities in the normal course of business.

3 Critical Accounting Estimates and Judgements

The preparation of condensed financial statements in conformity with IFRS Accounting Standards requires the Management to make estimates and assumptions that affect the amounts reported in the condensed financial statements and accompanying notes. Actual results could differ from those estimates.

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below.

(a) Functional Currency

MSCI China ETF, Hang Seng ETF and Hang Seng TECH ETF

Management considers the Hong Kong dollar to be the currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The Hong Kong dollar is the currency in which the Sub-Funds measure their performance and report their results, as well as the currency in which the Sub-Funds determine the net asset value per unit at the time of issue or redemption. This determination also considers that the Sub-Funds are all listed on the SEHK and their units are quoted in Hong Kong dollar.

China A50 ETF, CSI 300 ETF, CGB ETF and Policy Bank Bond ETF

Management considers the Renminbi (“RMB”) to be the currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The RMB is the currency in which the Sub-Funds measure their performance and report their results, as well as the currency in which the Sub-Funds determine the net asset value per unit at the time of issue or redemption. This determination also considers that the Sub-Funds are all listed on the SEHK and their units are quoted in RMB.

SENSEX India ETF, MSCI Asia ex Japan ETF, MSCI Taiwan ETF, and NASDAQ 100 ETF

Management considers the United States dollar (“US dollar”) to be the currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The US dollar is the currency in which the Sub-Funds measure their performance and report their results, as well as the currency in which the Sub-Funds determine the net asset value per unit at the time of issue or redemption. This determination also considers that the Sub-Funds are all listed on the SEHK and their units are quoted in US dollar.

3 Critical Accounting Estimates and Judgements (continued)

(b) Fair value of securities not quoted in an active market

The fair value of such securities not quoted in an active market may be determined by the Management using reputable pricing sources (such as pricing agencies). Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. The Management would exercise judgment and estimates on the quantity and quality of pricing sources used. Where no market data is available, the Management may value positions using their own models, which are usually based on valuation methods and techniques generally recognized as standard within the industry. The inputs into these models include earning multiples and discounted cash flows. The models used to determine fair values are validated and periodically reviewed by experienced personnel at the Manager.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require the Management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The determination of what constitutes “observable” requires significant judgment by the Management. The Management considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

4 Transactions with the Trustee, Manager and Connected Persons

The following is a summary of significant related party transactions/transactions entered into during the period between the Sub-Funds and their related parties, including the Trustee, the Manager and their Connected Persons. Connected Persons are those as defined in the Code on Unit Trusts and Mutual Funds issued by the SFC (the “SFC Code”). All transactions entered into during the period between the Sub-Funds and their related parties, including the Trustee, the Manager and their Connected Persons were carried out in the normal course of business and on normal commercial terms. To the best of the Manager’s knowledge, the Sub-Funds do not have any other transactions with their related parties, including the Trustee, the Manager and their Connected Persons except for those disclosed below.

(a) Manager’s holding in the Sub-Funds

(c) Management Fee

The Manager is entitled to receive a management fee at the annual rate of the net asset value of the respective Sub-Funds. The fee is accrued daily and calculated as at each dealing day and payable monthly in arrears. The Sub-Funds employ a single management fee structure, with each Sub-Fund paying all of its fees, costs and expenses (and its due proportion of any costs and expenses of the Trust allocated to it) as a single flat fee. Fees and expenses taken into account in determining a Sub-Funds' Management Fee include, but are not limited to, the Manager's fee, Trustee's fee, fees and expenses of the auditor, fees of service agents, ordinary legal and out-of-pocket expenses incurred by the Trustee or Manager, and the costs and expenses of licensing indices used in connection with an Sub-Funds.

The following table presents the annual rate of the respective Sub-Funds for the periods ended 30th June 2025 and 2024, except for those disclosed separately below:

8 Interest in other entities

The Sub-Funds' investments in other funds are subject to the terms and conditions of the other fund's prospectuses and are susceptible to market price risk arising from uncertainties about future values of those other funds. The Manager makes investment decisions after extensive due diligence of the other funds and their strategy.

As at 30th June 2025 and 31st December 2024, no Sub-Funds held investments in other funds.

9 Fair Value Estimation

The fair value of investments traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. Investments that are listed or traded on an exchange are fair valued based on the last traded market prices.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

IFRS 13 requires the Sub-Funds to classify their fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2).
- Inputs for the asset or liability that are unobservable inputs (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorized in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes “observable” requires significant judgment by the Manager. The Manager considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments whose values are based on quoted market prices in active markets are classified within level 1. The Sub-Funds do not adjust the quoted price for these instruments.

Investments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. The Sub-Funds' level 2 investments are mainly fixed rate government and bank bonds, suspended equity securities, unlisted equities and unlisted rights.

Investments classified within level 3 have significant unobservable inputs, as they are infrequently traded. As at 30th June 2025, the level 3 investments consisted of equity securities held by the MSCI China ETF and MSCI Asia ex Japan ETF (31st December 2024: MSCI China ETF and MSCI Asia ex Japan ETF) priced using an external pricing source, that are suspended from trading, unlisted equities, unlisted rights and unlisted warrants.

Level 3 valuations are reviewed bi-monthly by the Manager's valuation committee who evaluates the appropriateness of the valuation of the investments.

MSCI China ETF and MSCI Asia ex Japan ETF

A sensitivity analysis for level 3 investments held by the Sub-Funds as at 30th June 2025 and 31st December 2024 were not presented, as it was deemed that the impact of reasonable changes in inputs were not significant.

During the period/year ended 30th June 2025 and 31st December 2024, there were no transfers between levels of investments held by the Sub-Funds.

The equity securities transferred from level 1 to level 2 related to securities which were temporarily suspended from trading for two months or less as of the year end and resumed active trading after the period/year end.

The equity securities transferred from level 1 to level 3 related to securities which were suspended from trading for over two months as of the year end. Suspended securities are initially fair valued at the last traded price prior to suspension, and subsequently subject to fair value adjustments by the Manager, as applicable.

11 Segment Information

The Manager makes the strategic resource allocations on behalf of the Sub-Funds and has determined the operating segments based on the reports reviewed which are used to make strategic decisions.

The Manager considers that each Sub-Fund has a single operating segment which is investing in securities. The objectives of the Sub-Funds are to track the performance of their respective index and invest, directly or indirectly, in substantially all the index constituents with security weight and industry weight that are closely aligned with the characteristics of the tracked indices.

The internal financial information used by the Manager for the Sub-Funds' assets, liabilities and performance is the same as that disclosed in the Condensed Statement of Financial Position and Condensed Statement of Comprehensive Income.

The Sub-Funds are domiciled in Hong Kong. All of the Sub-Funds' income is derived from investments in securities which constitute the relevant tracked indices. The Sub-Funds' investments have been categorized by relevant geography but no geographical information for performance is provided as the Manager considers that the cost to develop it would be excessive and the information is generally not used by the Manager in managing the Sub-Funds.

The Sub-Funds have no assets classified as non-current assets. The Sub-Funds have portfolios that closely correspond to the security weight and industry weight of the relevant tracked indices. Refer to note 7 for investment holdings that account for more than 10% of each Sub-Fund's net asset value.

12 Subsequent Event

On 11th July 2025, the Manager made an announcement and notice of the proposed cessation of trading, termination, voluntary deauthorization and delisting of Short Duration China Policy Bank Bond ETF. The termination of the Short Duration China Policy Bank Bond ETF is expected to be on 14th October 2025 (the "Termination Date"). The deauthorization and delisting of the Short Duration China Policy Bank Bond ETF will take place either on the Termination Date or shortly after the Termination Date. Please see Manager's announcement dated 11th July 2025 regarding the proposed cessation of trading, termination, deauthorization and delisting of Short Duration China Policy Bank Bond ETF.
