## REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

#### TO THE DIRECTORS OF FIBOCOM WIRELESS INC.

(Incorporated in the People's Republic of China with limited liability)

#### Introduction

We have reviewed the interim financial information of Fibocom Wireless Inc. (the "Company") and its subsidiaries (together, the "Group") set out on pages IA-3 to IA-32, which comprises the interim condensed consolidated statement of financial position as of 30 June 2025, and the interim condensed consolidated statement of profit or loss and other comprehensive income, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the six-month period then ended, and selected explanatory notes (together, the "Interim Financial Information").

The directors of the Company are responsible for the preparation and presentation of the Interim Financial Information in accordance with International Accounting Standard 34 "Interim Financial Reporting".

Our responsibility is to express a conclusion on the Interim Financial Information based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

## Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of Interim Financial Information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the Interim Financial Information of the Group is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

#### Other Matter

The comparative information for the interim condensed consolidated statement of financial position is based on the audited financial statements as at 31 December 2024. The comparative information for the interim condensed consolidated statement of profit or loss, the interim condensed consolidated statement of comprehensive income, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows, and related explanatory notes, for the period ended 30 June 2024 has not been audited or reviewed.

## (a) Basic EPS

The basic EPS is calculated by dividing the profit attributable to owners of the Company by the weighted average number of ordinary shares in issue during the six months ended 30 June 2025 and 2024, excluding treasury shares held for share schemes as these shares are not considered outstanding for EPS calculation purposes.

The following table illustrates the earnings and share information used in the calculation of basic EPS:

## (b) Diluted EPS

The share schemes granted by the Company and the subsidiaries have potential dilutive effect on the EPS.

Diluted EPS is calculated by adjusting the weighted average number of ordinary shares outstanding by the assumption of the conversion of all potential dilutive ordinary shares arising from share options (collectively forming the denominator for computing the diluted EPS).

The following table illustrates the earnings and share information used in the calculation of diluted EPS:

|  | Six months ended 30 June |                        |
|--|--------------------------|------------------------|

Majority amounts are short term and hence the carrying amounts of the Group's trade payables, bills payables, salaries payables and other payables are considered to be a reasonable approximation of fair value.

During the six months ended 30 June 2025 and the year ended 31 December 2024, the Group endorsed certain bills receivables accepted by banks in the PRC (the "Endorsed Bills") to certain of its suppliers in order to settle the trade payables due to such suppliers (the "Endorsement"). In the opinion of the directors, the Group has retained the substantial risks and rewards, which include default risks relating to such Endorsed Bills, and accordingly, it continued to recognise the full carrying amounts of the Endorsed Bills and the associated trade payables settled. Subsequent to the Endorsement, the Group did not retain any rights on the use of the Endorsed Bills, including the sale, transfer or pledge of the Endorsed Bills to any other third parties.

The Group is granted by its suppliers a credit period of 0-90 days. Based on the invoice date, the ageing analysis of the trade payables is as follows:

|     |                      | As at 30 June 2025              | As at<br>31 December 2024       |

The Company pledges bills receivables to the bank as collateral for issuing bills payables. These bills payables are mainly used to pay suppliers for procurement.

#### 33. FINANCIAL RISK MANAGEMENT AND FAIR VALUE MEASUREMENTS

The Group is exposed to financial risks through its use of financial instruments in its ordinary course of operations and in its investment activities. The financial risks include market risk (including foreign currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The Group's overall risk management strategy seeks to minimise potential adverse effects on the Group's financial performance. Risk management is carried out by the senior management of the Group.

The Interim Financial Information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Historical Financial Information.

There has been no change to the types of the Group's exposure in respect of financial instruments or the manner in which it manages and measures the risks during the six months ended 30 June 2025.

#### 33.1 Fair value measurements

Financial assets and liabilities measured at fair value in the condensed consolidated statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability and significance of inputs to the measurements, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and not using significant unobservable inputs.
- Level 3: significant unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which the financial asset or liability is categorised in its entirety is based on the lowest level of input that is significant to the fair value measurement.

## Valuation techniques used to determine fair values

The fair value of financial instruments traded in an active market is determined at the quoted market price; and the fair value of those not traded in an active market is determined by the Group using valuation technique. The valuation models used mainly comprise discounted cash flow approach, recent transaction price approach and market approach. The inputs of the valuation technique mainly include volatility, financial data of target companies, market multiple of comparable companies and discount for lack of marketability.

Assets subject to Level 2 fair value measurement were mainly included bills receivables measured at FVTOCI are evaluated by market approach.

Assets subject to Level 3 fair value measurement were mainly included cash financial products measured at FVTPL, contingent consideration measured at FVTPL and equity investments in unlisted entities measured at FVTOCI. These assets were measured mainly using discounted cash flow approach, recent transaction price approach and market approach. The judgment of Level 3 of the fair value hierarchy is based on the materiality of unobservable inputs towards calculation of whole fair value. Significant unobservable inputs mainly include expected interest rate per annum, percentage change of probability for scenario, discounts for lack of marketability and market multiple of comparable companies, discount for lack of marketability price-to book ratio and price-to-sales ratio.

The Group did not change any valuation techniques in determining the Level 2 and Level 3 fair values.

The financial assets measured at fair value in the condensed consolidated statement of financial position on a recurring basis are grouped into the fair value hierarchy as follows:

#### 34. CAPITAL MANAGEMENT

The Group's capital management objectives are to ensure the Group's ability to continue as a going concern and to provide an adequate return to shareholders by pricing goods and services commensurately with the level of risk.

The Group actively and regularly reviews its capital structure and makes adjustments in light of changes in economic conditions. The Group monitors its capital structure on the basis of the net debt to equity ratio. For this purpose, net debt is defined as trade and other payables, contract liabilities and borrowings (which includes interest-bearing borrowings and lease liabilities) less cash and cash equivalents, pledged deposits and financial assets at FVTPL. In order to maintain a desirable ratio, the Group may adjust the amount of dividends paid to shareholders, issue new shares, return capital to shareholders, raise new debt financing or sell assets to reduce debt.

No changes were made in the objectives, policies or processes for managing capital during the year ended 31 December 2024 and the six months ended 30 June 2025.

The net debt to equity ratio at the reporting date was:
