VOLUNTARY ANNOUNCEMENT
SALES CONTRACT FOR QUADRUPED ROBOTS

This announcement is made on a voluntary basis by Star Plus Legend Holdings Limited (the "**Company**", together with its subsidiaries, the "**Group**") to provide the shareholders and potential investors of the Company with the latest information in relation to the business development of the Group.

Reference is made to the announcement of the Company dated 30 July 2025 (the "**Announcement**"), pursuant to which the Company and Yushu Technology will jointly develop consumer-grade Robot products with strong IP attributes. Unless otherwise defined, capitalized terms used herein shall have the same meanings as those defined in the Announcement.

SALES CONTRACT

The board of directors of the Company (the "**Board**") is pleased to announce that, on 4 November 2025 (after trading hours), Star Plus IP (HK) Limited ("**Star Plus IP**") entered into a sales contract (the "**Sales Contract**") with Cloud Factory Technology Holdings Limited ("**Cloud Factory**"), pursuant to which Cloud Factory, acting as a distributor, will purchase 5,000 units of quadruped Robots (the "**Product**") from Star Plus IP for a total consideration of over RMB100 million.

REASONS FOR AND BENEFITS OF ENTERING INTO THE SALES CONTRACT

Yushu Technology will be responsible for the research and development of technology and hardware and production of the Product, as well as the development of the related mobile applications. The Product is expected to complete testing this year and commence mass production early next year.

The entering into of the Sales Contract marks another significant milestone for the Group following the first batch of sales orders for the Product signed on 3 November 2025, which reflect the market's continued recognition of the Group's IP empowerment capabilities. By integrating IP content with intelligent robots, the Group is driving the evolution of technological products towards trend-driven and consumer-oriented directions, achieving deep integration of IP content with smart hardware, and further promoting the implementation and application of the "IP + Robot + AI" integration model. The advancement of the Product's sales signifies a further extension of the Company's IP value chain, driving the transformation of IPs from content creation to real-world applications. This progress provides solid foundation for the Company in building an "IP + Technology" integrated ecosystem.

The Board believes that entering into the Sales Contract will facilitate the stable sales of IP-related products in the Group's ordinary course of business, which aligns with the Group's future development.

INFORMATION ON THE PARTIES

Star Plus IP is a company incorporated under the laws of Hong Kong and a wholly-owned subsidiary of the Company, principally engaged in entertainment IP development, operation, and licensing business. The Group is principally engaged in IP creation and operation business and new consumption business in the PRC.
