ACCOUNTANT'S REPORT ON HISTORICAL FINANCIAL INFORMATION OF SHANGHAI SIYANLI INDUSTRIAL CO., LTD TO THE DIRECTORS OF BEAUTY FARM MEDICAL AND HEALTH INDUSTRY INC.

#### Introduction

We report on the historical financial information of Shanghai Siyanli Industrial Co., Ltd (the "Target Company") and its subsidiaries (together, the "Target Group") set out on pages II-4 to II-93, which comprises the balance sheets of the Target Company as at 31 December 2022, 2023 and 2024 and 30 June 2025, the consolidated balance sheets of the Target Group as at 31 December 2022, 2023 and 2024 and 30 June 2025, and the consolidated statements of profit or loss, the consolidated statements of comprehensive income, the consolidated statements of changes in equity and the consolidated statements of cash flows of the Target Group for each of the years ended 31 December 2022, 2023 and 2024 and for the six months ended 30 June 2025 (the "Track Record Period") and material accounting policy information and other explanatory information (together, the "Historical Financial Information"). The Historical Financial Information set out on pages II-4 to II-93 forms an integral part of this report, which has been prepared for inclusion in the circular of Beauty Farm Medical and Health Industry Inc. (the "Company") dated 17 November 2025 (the "Circular") in connection with the proposed acquisition of the Target Group by the Company.

# Directors' responsibility for the Historical Financial Information

The directors of the Company are responsible for the preparation of Historical Financial Information that gives a true and fair view in accordance with the basis of preparation set out in Note 2.1 to the Historical Financial Information, and for such internal control as the directors of the Company determine is necessary to enable the preparation of Historical Financial Information that is free from material misstatement, whether due to fraud or error.

The financial statements of the Target Group for the Track Record Period ("Underlying Financial Statements"), on which the Historical Financial Information is based, were prepared by the directors of the Target Company. The directors of the Target Company are responsible for the preparation of the Underlying Financial Statements that gives a true and fair view in accordance with HKFRS Accounting Standards issued by the

PricewaterhouseCoopers, 22/F Prince's Building, Central, Hong Kong T: +852 2289 8888, F: +852 2810 9888, www.pwchk.com Hong Kong Institute of Certified Public Accountants (the "HKICPA"), and for such internal control as the directors of the Target Company determine is necessary to enable the preparation of Underlying Financial Statements that are free from material misstatement, whether due to fraud or error.

# Reporting accountant's responsibility

Our responsibility is to express an opinion on the Historical Financial Information and to report our opinion to you. We conducted our work in accordance with Hong Kong Standard on Investment Circular Reporting Engagements 200, Accountants' Reports on Historical Financial Information in Investment Circulars issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). This standard requires that we comply with ethical standards and plan and perform our work to obtain reasonable assurance about whether the Historical Financial Information is free from material misstatement.

Our work involved performing procedures to obtain evidence about the amounts and disclosures in the Historical Financial Information. The procedures selected depend on the reporting accountant's judgement, including the assessment of risks of material misstatement of the Historical Financial Information, whether due to fraud or error. In making those risk assessments, the reporting accountant considers internal control relevant to the entity's preparation of Historical Financial Information that gives a true and fair view in accordance with the basis of preparation set out in Note 2.1 to the Historical Financial Information in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Our work also included evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the Historical Financial Information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# **Opinion**

In our opinion, the Historical Financial Information gives, for the purposes of the accountant's report, a true and fair view of the financial position of the Target Company and the consolidated financial position of the Target Group as at 31 December 2022, 2023 and 2024 and 30 June 2025 and of its consolidated financial performance and its consolidated cash flows for the Track Record Period in accordance with the basis of preparation set out in Note 2.1 to the Historical Financial Information.

## Review of stub period comparative financial information

We have reviewed the stub period comparative financial information of the Target Group which comprises the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the six months ended 30 June 2024 and other explanatory information (the "Stub Period Comparative Financial Information"). The

directors of the Company and the Target Company are responsible for the presentation and preparation of the Stub Period Comparative Financial Information in accordance with the basis of preparation set out in Note 2.1 to the Historical Financial Information. Our responsibility is to express a conclusion on the Stub Period Comparative Financial Information based on our review. We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity issued by the HKICPA. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion. Based on our review, nothing has come to our attention that causes us to believe that the Stub Period Comparative Financial Information, for the purposes of the accountant's report, is not prepared, in all material respects, in accordance with the basis of preparation set out in Note 2.1 to the Historical Financial Information.

#### 1 GENERAL INFORMATION

Shanghai Siyanli Industrial Co., Ltd. (the "Target Company") is a foreign-invested limited liability company and was incorporated in Shanghai, the People's Republic of China on December 31, 2009. The principal business scope of the Target Company and its subsidiaries (the "Target Group") includes developing its premium salon skincare products, focusing on delivering professional skincare, beauty experiences and aesthetic medical services for women.

Before the completion of the Acquisition defined below, the Target Company was 74% held by SYL Holding Limited and 26% held by Shanghai Anyan Enterprise Management Co., Ltd., respectively.

On 15 October 2025, Beauty Farm Medical and Health Industry Inc. (the "Purchaser"), a company registered in Cayman Islands, and a wholly subsidiary of SYL holding limited (the "Company") entered into a share purchase agreement, proposing to acquire 100% equity interests in the Target Company at a base purchase price of RMB1,250,000,000 (adjustable) (the "Acquisition"). The Acquisition is subject to the approval of the shareholders at the Purchaser's Annual General Meeting and upon the completion of the Acquisition, the Purchaser will become the ultimate holding company of Shanghai Siyanli Industrial Co., Ltd.

These financial statements are presented in RMB, unless otherwise stated.

#### 2 SUMMARY OF MATERIAL ACCOUNTING POLICIES

This note provides a list of material accounting policies adopted in the preparation of the historical financial information. These policies have been consistently applied throughout the years ended 31 December 2022, 2023 and 2024 and the six month ended 30 June 2025 ("Reporting Periods"), unless otherwise stated.

#### 2.1 Basis of preparation

The historical financial information of the Target Group have been prepared in accordance with Hong Kong Financial Reporting Standards (HKFRS) as issued by the Hong Kong Institute of Certified Public. The historical financial information have been prepared under the historical cost convention except for the revaluation of financial assets at fair value through profit or loss, which are stated at fair value.

The preparation of the historical financial information in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Target Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the historical financial information are disclosed in Note 4.

#### 2.1.1 Going concern

As at 30 June 2025, the Target Group's current liabilities exceeded its current assets by RMB315,345,000. The net current liabilities position was mainly due to the contract liabilities of RMB574,760,000 classified under current liabilities as at the end of the reporting period. These contract liabilities will be redeemed by providing services and selling products rather than repayment of cash. Taking into account the stable operating cash inflows to be generated from the provision of services and the sale of products, the directors of the Target Company and the Company consider the Target Group will have adequate resources to meet its liabilities, commitments and funding requirements as and when they fall due within one year from the end of the reporting period. Accordingly, the historical financial information have been prepared on a going concern basis.

Effective for annual periods

# 2.1.2 New and amended standards and interpretations not yet adopted

Certain new accounting standards and amendments to accounting standards have been published that are not mandatory for Reporting Periods and have not been early adopted by the Target Group. The Target Group's assessment of the impact of these new standards and amendments is set out below.

|   |  | beginning on or<br>after |
|---|--|--------------------------|
| Amendments to HKFRS 9 and HKFRS 7                 | Amendments to the Classification and Measurement of Financial Instruments  | 1 January 2026           |
| Amendments to HKFRS 9 and HKFRS 7                 | Contracts Referencing Nature-dependent Electricity                         | 1 January 2026           |
| HKFRS 18  | Presentation and Disclosure in Financial Statements                        | 1 January 2027           |
| HKFRS 19  | HKFRS 19 Subsidiaries without<br>Public Accountability:<br>Disclosures     | 1 January 2027           |
| Annual Improvements to HKFRS Accounting Standards | Volume 11  | 1 January 2027           |
| Amendments to HKFRS 10 and IAS 28                 | Sale or Contribution of Assets<br>between an Investor and its<br>Associate | To be determined         |

According to the assessment made by the directors of the Target Company, these new and amended standards are either not relevant to the Target Group or not significant to the financial performance and positions of the Target Group when they become effective, except for HKFRS 18 which will mainly impact the presentation of the historical financial information of comprehensive loss.

HKFRS 18 sets out requirements on presentation and disclosures in historical financial information and will replace HKAS 1 Presentation of Financial Statements. HKFRS 18 introduces new requirements to present specified categories and defined subtotals in the historical financial information of comprehensive loss; provide disclosures on management — defined performance measures in the notes to the historical financial information and improve aggregation and disaggregation of information to be disclosed in the historical financial information. Minor amendments to HKAS 7 "Statement of Cash Flows" and HKAS 33 "Earnings per Share" are also made.

HKFRS 18, and the consequential amendments to other HKFRS Accounting Standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted.

The application of HKFRS 18 is not expected to have material impact on the consolidated financial position of the Target Group but is expected to affect the presentation of the historical financial information of comprehensive loss and disclosures in the future historical financial information. The Target Group will continue to assess the impact of HKFRS 18 on the historical financial information of the Target Group.

# 2.2 Principles of consolidation and equity accounting

#### (i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Target Group has control. The Target Group controls an entity where the Target Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Target Group and are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Target Group not under common control (Note 2.3).

Inter-company transactions, balances and unrealised gains on transactions between the Target Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Target Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of comprehensive income, statement of changes in equity and balance sheet respectively.

# (ii) Changes in ownership interests in subsidiaries without change of control

The Target Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Target Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in other reserves within equity attributable to owners of the Target Company.

#### 2.3 Business combinations not under common control

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the following:

- fair values of the assets transferred
- liabilities incurred to the former owners of the acquired business
- equity interests issued by the Target Group
- fair value of any asset or liability resulting from a contingent consideration arrangement, and
- fair value of any pre-existing equity interest in the subsidiary.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Target Group recognises non-controlling interest in the acquired entities at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition related costs are expensed as incurred.

The excess of the:

- consideration transferred;
- amount of any non-controlling interest in the acquired entity; and
- acquisition-date fair value of any previous equity interest in the acquired entity;

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised directly in profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions. Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in profit or loss.

#### 2.4 Property, plant and equipment

All property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Target Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values of 0% to 5% over their estimated useful lives as follows:

Buildings 25–50 years
Electronic equipment and vehicles 5–10 years
Beauty equipment 5–10 years
Office furniture 5–10 years

Long-term leasehold improvement Shorter of the lease term and the estimated useful life

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.7).

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are included in profit or loss.

Construction-in-progress is stated at cost less accumulated impairment losses. This includes cost of construction and other direct costs. Construction-in-progress is not depreciated until such time as the assets are completed and are ready for operational use.

#### 2.5 Intangible assets

#### (i) Software

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring the specific software into usage. These costs are amortised using the straight-line method over their estimated useful lives.

#### (ii) Customer relationships

Customer relationships, which are acquired during business combinations, are recognised at fair value at the acquisition date. Customer relationships are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method over the expected useful lives.

#### (iii) Amortisation methods and periods

The Target Group amortises intangible assets with limited useful life using the straight-line method over the following periods:

Software

5-10 years

Customer relationships

10 years

Management estimated the useful life of the software based on license period, expected technical obsolescence and innovations. Management estimated the useful life of customer relationships based on their industry knowledge, experience and judgement and took into account the historical customers renewal pattern of the acquired subsidiaries.

#### 2.6 Goodwill

Goodwill is measured as described in Note 2.3. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, being the brand, city or region of business that goodwill is attributable to.

# 2.7 Impairment of non-financial assets

Goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

#### 2.8 Investments and other financial assets

#### (i) Classification

The Target Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ("OCI") or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Target Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income ("FVOCI").

The Target Group reclassifies debt investments when and only when its business model for managing those assets changes.

#### (ii) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Target Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Target Group has transferred substantially all the risks and rewards of ownership.

#### (iii) Measurement

At initial recognition, the Target Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss ("FVPL"), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

### Debt instruments

Subsequent measurement of debt instruments depends on the Target Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Target Group classifies its debt instruments:

• Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in the statement of profit or loss.
- FVPL: Assets that do not meet the criteria for amortised cost or FVOCI are
  measured at FVPL. A gain or loss on a debt investment that is subsequently
  measured at FVPL is recognised in profit or loss and presented net within other
  gains/(losses) in the period in which it arises.

#### Equity instruments

The Target Group subsequently measures all equity investments at fair value. Where the Target Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Target Group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in other gains/(losses) in the statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

#### (iv) Impairment

The Target Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Target Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables (Note 21). Expected credit losses of trade receivables from related parties are assessed individually.

### 2.9 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average method. Costs of purchased inventory comprise the purchase price (net off discounts), freight charges, duty and other miscellaneous charges. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

#### 2.10 Trade and other receivables

Trade receivables are amounts due from customers for goods sold or services rendered in the ordinary course of business. If collection of trade receivables is expected in one year or less (or in the normal operating cycle of business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Target Group holds the trade and other receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method. See Note 3.1 for further information about the Target Group's accounting for trade and other receivable and Note 2.8 for a description of the Target Group's impairment policies.

#### 2.11 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank deposits which are restricted to use are included in "restricted cash" of the consolidated balance sheet. Restricted cash is excluded from cash and cash equivalents.

#### 2.12 Borrowings and borrowings cost

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are derecognised when the obligation specified in the contract is extinguished, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as finance costs.

Borrowings are classified as current liabilities unless, at the end of the reporting period, the Target Group has a right to defer settlement of the liability for at least 12 months after the reporting period.

Covenants that the Target Group are required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Target Group are required to comply with after the reporting period do not affect the classification at the reporting date.

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

# 2.13 Trade and other payables

These amounts represent liabilities for goods and services provided to the Target Group prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities, unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

#### 2.14 Current and deferred income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

#### (i) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the regions where the Target Company's subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation, and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Target Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

#### (ii) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the historical financial information. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the Target Group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

#### 2.15 Employee benefits

### (i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and accumulating annual leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service, are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the consolidated balance sheet.

#### (ii) Pension obligations

Full-time employees in the PRC are covered by various government-sponsored defined contribution pension plans under which the employees are entitled to a monthly pension based on certain formulae. The relevant government agencies are responsible for the pension liability to these retired employees. The Target Group contributes on a monthly basis to these pension plans. Under these plans, the Target Group has no further payment obligation for post-retirement benefits beyond the contributions made. Contributions to these plans are expensed as incurred and contributions paid to the defined-contribution pension plans for an employee are not available to reduce the Target Group's future obligations to such defined contribution pension plans even if the employee leaves.

#### (iii) Housing funds, medical insurances and other social insurances

Employees of the Target Group in the PRC are entitled to participate in various government-supervised housing funds, medical insurances and other social insurance plan. The Target Group contributes on a monthly basis to these funds based on certain percentages of the salaries of the employees, subject to certain ceiling. The Target Group's liability in respect of these funds is limited to the contributions payable in each year. Contributions to the housing funds, medical insurances and other social insurances are expensed as incurred.

#### (iv) Bonus entitlements

The expected cost of bonus payments is recognised as a liability when the Target Group has a present contractual or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

### 2.16 Share-based payments

Share-based compensation benefits are provided to employees via the employee share award scheme and share option scheme. Information relating to these schemes is set out in Note 23. The fair value of awarded shares granted to employees under the employee share award and option schemes less amount paid by employees is recognised as an employee benefits expense over the relevant service period, being the vesting period of the shares, and the credit is recognised in equity in the share-based payment reserves. The fair value of the shares is measured at the grant date.

#### (i) Share award scheme

The Target Group operates an equity-settled, share-based compensation plan (the "Share Award Scheme"), under which the Target Group receives services from employees as consideration for equity instruments (shares) of the Target Group. The fair value of the employee services received in exchange for the grant of the shares or share options is recognised as an expense. The total amount to be expensed is determined by reference to the fair value of the shares or share options granted:

- including any market performance conditions;
- excluding the impact of any service and non-market performance vesting conditions; and
- excluding the impact of any non-vesting conditions.

Non-market vesting conditions are included in assumptions about the number of shares that are expected to vest. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied.

At the end of each reporting period, the Target Group revises its estimates of the number of shares that are expected to vest based on the non-market vesting conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

## 2.17 Revenue recognition

The Target Group is principally engaged in the provision of beauty and wellness services, subhealth medical services, aesthetic medical services. Revenue comprises the fair value of the consideration received or receivable for the sales of products and services rendered in the ordinary course of the Target Group's activities. Revenue is shown net of value-added tax, returns, refunds discounts and after eliminating sales within the Target Group.

Further details of the Target Group's revenue recognition policies are as follows:

#### (i) Sales of services

The Target Group sells prepaid cards to end customers, which gives the right to end customers to redeem multiple services. Contract liabilities are recognised when the Target Group receives cash consideration from end customers. The total consideration is allocated to multiple services under the prepaid cards based on their relative stand-alone selling prices.

Revenue is recognised when the services have been rendered to end customers or the likelihood of the end customers exercising the remaining rights under the prepaid cards becomes remote.

When there is a modification to the contract, for example, provision of additional distinct services to the end customer without any additional charge, the Target Group accounts for the modification prospectively. The contract consideration, which is the unrecognised consideration initially included in the transaction price of the contract before the modification, is allocated to the remaining performance obligations after the modification, including any unsatisfied performance obligations from the original contract.

The Target Group also pays sales commission to salesmen, which are treated as acquisition cost to obtain a contract. The Target Group applies the practical expedient to expense the acquisition cost because the amortization period is normally within one year or less.

# (ii) Sales of products

The Target Group also generates revenue from sales of skincare products to customers. Revenue from the sale of skincare products is recognised when customers accept the products.

#### (iii) Franchise fee

The Target Group as the franchisor enters into franchise agreement with franchisee for 5 years. Franchise is a right to access license because the Target Group shall undertake activities that significantly affect the license, either positive or negative. Franchisee pays a fixed upfront fee and revenue from franchise fee is recognised over the franchise period. Training fee and other service fee are recognised when the services are rendered.

### 2.18 Leases

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Target Group.

Contracts may contain both lease and non-lease components. The Target Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Target Group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments, less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Target Group under residual value guarantees
- the exercise price of a purchase option if the Target Group is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Target Group exercising that option.

The lease payments are discounted using the interest rate implicit in the lease, if that rate can be determined, or the Target Group's incremental borrowing rate, the LPR rates when the leases were signed. Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Target Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise equipment and small items of office furniture.

Lease income from operating leases where the Target Group is a lessor is recognised in income on a straight-line basis over the lease term.

#### 3 FINANCIAL RISK MANAGEMENT

#### 3.1 Financial risk factors

The Target Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk), credit risk and liquidity risk. The Target Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Target Group's financial performance. The Target Group does not use any derivative financial instruments to hedge certain risk exposures during the current and prior years.

#### (a) Market risk

Foreign exchange risk

The Target Group mainly operates in the PRC and is exposed to foreign exchange risk arising from currency exposures with respect to HKD. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities. The Target Group does not hedge against any fluctuation in foreign currency.

As at 31 December 2022, 2023 and 2024 and 30 June 2025, if RMB had weakened/strengthened by 5% against HKD with all other variables held constant, post-tax profit for the year would have been RMB205,000, RMB957,000, RMB1,232,000 and RMB16,000 respectively lower/higher mainly as a result of foreign exchange losses/gains on translation of cash and cash equivalents denominated in foreign currencies.

### (b) Credit risk

The Target Group is exposed to credit risk in relation to its cash and cash equivalents, restricted cash, trade receivables, deposit and other receivables and financial assets at FVPL. The carrying amounts of these balances represent the Target Group's maximum exposure to credit risk in relation to financial assets.

(i) Credit risk of cash and cash equivalents, restricted cash and wealth management products

To manage the risk arising from credit risk of cash and cash equivalents, restricted cash and wealth management products maintained in the PRC, they are mainly placed with banks and reputable institution which are high-credit-quality financial institutions. There has been no recent history of default in relation to these financial institutions. The expected credit loss of these financial assets is close to zero.

#### (ii) Credit risk of trade receivables

The majority of the Target Group's sales are settled through credit cards or e-pay applications against payment without credit terms. The Target Group applies the HKFRS 9 simplified approach to measure expected credit losses, which uses a lifetime expected loss allowance for all trade receivables. For trade receivable balances with objective evidence of impairment and significant different credit risk characteristics, individual provision was made based on a probability weighted estimation of the present value of the difference between the contractual cash flows that are due to the Target Group under the contract and the cash flows that the Target Group expects to receive.

The expected loss rates are based on the payment profiles of sales over a period of 36 months before, 31 December 2022, 2023 and 2024 and 30 June 2025, and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Target Group has identified the GDP and the unemployment rate of PRC to be the most relevant factors, and accordingly adjusts the historical loss rates based on expected changes in these factors.

The Target Group assesses the credit quality of its customers by taking into account various factors including their financial position, past experience and other factors. The utilisation of credit terms is regularly monitored and management does not expect any losses from non-performance by these counterparties (Note 21).

#### (iii) Credit risk of deposits and other receivables

The directors of the Target Company consider the probability of default upon initial recognition of asset and whether there has been significant increase in credit risk on an ongoing basis during the year. To assess whether there is a significant increase in credit risk:

- Financial instruments that are not credit-impaired on initial recognition are classified in 'Stage 1' and have their credit risk continuously monitored by the Target Group. The expected credit loss is measured on a 12-month basis.
- If a significant increase in credit risk (specifically, when the debtor is more than 30 day past due on its contractual payments) since initial recognition is identified, the financial instrument is moved to 'Stage 2' but is not yet deemed to be credit-impaired. The expected credit loss is measured on lifetime basis.
- If the financial instrument is credit-impaired (specifically, when the debtor is more than 90 days past due on its contractual payments), the financial instrument is then moved to 'Stage 3'. The expected credit loss is measured on lifetime basis.

As at 31 December 2022, 2023 and 2024 and 30 June 2025, there was no significant increase in credit risk since initial recognition of deposits and other receivables. The assessment the Target Group made regarding the expected credit losses for these receivables in 12 months were disclosed in Note 21.

## (c) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents. The Target Group's objective is to maintain adequate committed credit lines to ensure sufficient and flexible funding is available to the Target Group.

The table below analyses the Target Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

|  | Less than<br>1 year<br>RMB'000 | Between<br>1 and<br>2 years<br>RMB'000 | Between<br>2 and<br>5 years<br>RMB'000 | Over<br>5 years<br>RMB'000 | Total             |

| and dividend payable)  | 74,420                         |  |  |                            | 74,420           |
|  | 196,619                        | 69,482                                 | 80,021                                 | 2,136                      | 348,258          |

## 3.2 Capital management

In order to maintain or adjust the capital structure, the Target Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, sell assets to reduce debt or finance through bank borrowings.

Due to the simple capital structure, the Target Group monitors capital on the basis of the operating cash flows and bank borrowings.

#### 3.3 Fair value estimation

# Financial assets and liabilities

The Target Group measures its financial assets at FVPL at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset either in the principal market for the asset, or in the absence of a principal market, in the most advantageous market for the asset. The principal or the most advantageous market must be accessible by the Target Group. The fair value of an asset is measured using the assumptions that market participants would use when pricing the asset, assuming that market participants act in their economic best interest.

The Target Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Target Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Target Group has classified its financial instruments into the three levels prescribed under the accounting standards. An explanation of each level follows underneath.

| Fair value measurements<br>At 31 December 2022                         | Note | Level 1<br>RMB'000 | Level 2<br>RMB'000 | Level 3<br>RMB'000 | Total<br>RMB'000 |

| Total financial assets   |      |                    |                    | 80,557             | 80,557           |

The fair value of financial assets at FVPL that are not traded in an active market is determined by using valuation techniques, which include the use of quoted prices from the relevant financial institutions.

These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. If one or more of the significant inputs are not based on observable market data, the instrument is included in level 3.

There were no transfers among levels 1, 2 and 3 for recurring fair value measurements during the year.

The carrying amounts of the Target Group's current financial assets, including cash at banks, trade receivables, deposits and other receivables; and the Target Group's current financial liabilities, including trade payables, borrowings, lease liabilities and accruals and other payables approximate their fair values due to their short maturities.

The following table presents the changes in level 3 items for Reporting Periods:

|   | Wealth<br>management<br>product<br>RMB'000 | Equity<br>Investment<br>RMB'000 | Total<br>RMB'000 |
|---|--|---------------------------------|------------------|
| Closing balance as at 31 December 2021  | _  | 63,137                          | 63,137           |

| Acquisitions                           | 413,730                         |
| Redemption upon maturity               | (334,416)                       |
| Fair value change                      | 1,243                           |
| Closing balance as at 30 June 2025     | 80,557                          |

Unrealised gains recognised for the three years ended 31 December 2022, 2023 and the six months ended 30 June 2025 and 30 June 2024 are RMB1,511,000, RMB52,000, RMB527,000 and RMB255,000.

## Valuation inputs and relationships to fair value

The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements of FVPL:

|            | Fair Value        |         |         |         | Range of inputs |         |         |
|------------|-------------------|---------|---------|---------|-----------------|---------|---------|
|            |                   |         |         | As at   |                 |         | As at   |
|            | As at 31 December |         |         | 30 June | As at 31 I      | 30 June |         |
|            | 2022              | 2023    | 2024    | 2025    | 2022            | 2023    | 2025    |
|            | RMB'000           | RMB'000 | RMB'000 | RMB'000 | RMB'000         | RMB'000 | RMB'000 |
| Wealth     |                   |         |         |         |                 |         |         |
| management |                   |         |         |         | 1.309%          | 1.660%  | 1.173%  |
| products   | 354,163           | 1,014   | 1-1     | 80,557  | ~4.59%          | ~2.388% | ~3.04%  |

If the expected rate of return had been 10% higher/lower with all other variables held constant, the fair value of wealth management products as at 31 December 2022, 2023, 2024 and 30 June 2025 would have been approximately RMB1,040,000, RMB2,000, RMB0 and RMB169,000 higher/lower, respectively.

# 4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the historical financial information requires the use of accounting estimates, which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Target Group's accounting policies.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

#### (a) Impairment of goodwill

During Reporting Periods, management conducted an impairment review on goodwill. For Reporting periods, the recoverable amount of cash-generating units (CGUs) was determined based on value-in-use calculations which require the use of assumptions. The calculations use cash flow projections based on financial budgets approved by management covering a five-year period.

Cash flows beyond the five-year period are extrapolated using the estimated growth rate as stated in Note 17. These growth rate are consistent with forecasts included in industry reports specific to the industry in which each CGU operates.

Details of impairment charge and key assumptions are disclosed in Note 17.

## (b) Useful Life of Intangible Assets Arising from Customer Relationships

The management of the Target Group makes estimates of the expected useful life of intangible assets arising from customer relationships. Such estimates are based on market data analysis of the same industry and the expected revenue-generating period of the intangible assets. Different estimates may affect the amortization of intangible assets and the current period profits and losses.

# (c) Fair value assessment of customer relationships and the recognition of goodwill arising from business combinations

Significant judgements and estimates were involved in the fair value assessment of the identified customer relationships and the recognition of goodwill arising from business combinations. These significant judgements and estimates include the adoption of appropriate valuation methodologies and the use of key assumptions in the valuation (mainly annual revenue growth rate, EBIT/Revenue rate, discount rate, long-term growth rate and expected useful lives of identified intangible assets).

#### (d) Current and deferred income tax

The Target Group is subject to corporate income taxes in the PRC. Judgement is required in determining the amount of the provision for taxation and the timing of payment of the related taxations. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Deferred tax assets relating to certain temporary differences and tax losses are recognised when management considers to be probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. The outcome of their actual utilisation may be different.

### (e) Depreciation of property, plant and equipment

The Target Group's management determines the estimated useful lives and related depreciation charges for the Target Group's property, plant and equipment with reference to the estimated periods that the Target Group intends to derive future economic benefits from the use of these assets.

Management performs periodic review of the estimated useful lives of property, plant and equipment, and will revise the depreciation charges where estimated useful lives are different than those previously estimated.

#### (f) Revenue recognised from unutilised prepaid packages

Most of Group's services are sold on a prepaid basis and offer a variety of prepaid packages. When a customer prepays for a service or product, the relevant payment is recorded as contract liabilities in the consolidated balance sheet until the Target Group recognise revenue from the relevant prepaid package. These prepayments give the customer a right to receive services or products in the future and oblige the Target Group to stand ready to provide services or products. However, customers may not exercise all of their contractual rights for various reasons. Those expected unexercised rights are referred to as "forfeited income".

The expected unexercised rights on prepaid packages are estimated by management based on historical customer behaviour and usage pattern and are recognised as revenue when the likelihood of the customer exercising its remaining rights becomes remote. Forfeited income will be recognised in the consolidated statement of profit or loss.

#### 5 REVENUE & CONTRACT LIABILITIES

# (a) Disaggregation of revenue from contracts with customers

The Target Group derives revenue from the beauty and wellness services at a point in time, franchise revenue over time and transfer of goods at a point in time in the following major revenue streams:

| Year ended 31 December |   |  | Six months ended 30 June   |  |  |
|------------------------|---|--|--|--|--|
| 2022                   | 2023  | 2024   | 2024   | 2025   |  |

No significant revenue comes from a single external customer. There is no customer contributing more than 10% of revenue. Most of the Target Group's customers are individuals, which are widely distributed.

The Target Group is domiciled in the PRC. The majority of its sales from external customers are generated in the PRC.

#### (b) Liabilities related to contracts with customers

# (i) The Target Group has recognised the following liabilities related to contracts with customers:

|                            | As      | As at 30 June |         |         |
|----------------------------|---------|---------------|---------|---------|
|                            | 2022    | 2023          | 2024    | 2025    |
|                            | RMB'000 | RMB'000       | RMB'000 | RMB'000 |
| Contract liabilities —     |         |               |         |         |
| services and product sales | 527,133 | 532,455       | 556,685 | 574,760 |

The Target Group classified these contract liabilities as current because the Target Group does not have an unconditional right to defer for at least 12 months after the reporting period.

The services and products are sold on a prepaid basis. When the Target Group receives prepayment from consumers and franchised stores, the relevant payment is recorded as contract liabilities in the consolidated balance sheet until the Target Group recognizes revenue upon service rendered and delivery of products to consumers and franchised stores.

### (ii) Revenue recognised in relation to contract liabilities

The following table shows how much of the revenue recognised in the current reporting period relates to carried-forward contract liabilities:

|                        | Year    | ended 31 Dece | Six months e | nded 30 June           |         |

#### (a) Pensions — defined contribution plans

The Target Group did not have any forfeited contribution for Reporting Periods in connection with the defined contribution plan operated by local governments.

Employees of the Target Group are required to participate in a defined contribution plan administrated and operated by the local municipal government in the PRC. The Target Group contributes funds which are calculated on certain percentages of the employee salary as agreed by the local municipal government to the plan to fund the retirement benefits of the employees.

# (a) Hong Kong Profits Tax

The subsidiary incorporated in Hong Kong is subject to Hong Kong profits tax, and the profits are taxed at 16.5% on any estimated assessable profits arising in Hong Kong.

#### (b) PRC corporate income tax ("CIT")

PRC CIT was calculated on the taxable profit for the Reporting Periods at the rates of taxation prevailing in the PRC.

During the six months ended 30 June 2025, were subsidiaries of the Target Group met the definition of STE (Small and Thin-profit Enterprises) and were entitled to a reduced corporate income tax rate of 5% (2024: 5%, 2023: 5%, 2022: 5%).

During the six months ended 30 June 2025, the Target Company and its subsidiaries, except for STE and those incorporated in Hong Kong, are generally subject to the PRC standard corporate income tax rate of 25% (2024: 25%,2023: 25%,2022: 25%).

The tax on the Target Group's profit before income tax differs from the theoretical amount that would arise using the statutory tax rate of 25% is as follows:

As at 31 December 2022, 2023 and 2024, and 30 June 2025 the Target Group assessed the fair values of investment properties with reference to valuation reports. The valuation method is the market approach, which takes into account the comparable sales price of such portion of the property derived in the existing market. The fair value as at 31 December 2022, 2023 and 2024, and 30 June 2025 approximated their net book value at respective year/period end dates.

During Reporting Periods, rental income of the Target Group's investment properties recognised as "other income" (Note 6) amounted to RMB3,624,000, RMB3,091,000, RMB1,566,000, RMB320,000 and RMB985,000 respectively. Depreciation of the Target Group's investment properties recognised as "other expenses" amounted to RMB1,684,000, RMB894,000 and RMB627,000, RMB184,000 and RMB436,000 respectively.

The investment properties are leased to tenants under operating leases with rentals receivables quarterly.

As at 31 December 2022, 2023 and 2024, and the six months ended 30 June 2025, the fair value of investment properties are approximately its carry amounts.

#### (a) Impairment tests of goodwill

Goodwill, customer relationships and other related assets are allocated to group of CGUs by cities located in PRC.

The management performed impairment test applying "value-in-use" method as at 31 December 2022, 2023 and 2024 and 30 June 2025 by using the discounted cash flow model. The value-in-use calculations use cash flow projections based on financial budgets approved by management for the purposes of impairment reviews. The forecast period is 5 years.

The recoverable amount of the CGUs based on the estimated value-in-use calculations was lower than the carrying amount at 31 December 2023. Accordingly, the Target Group recognize impairment loss for goodwill amounted RMB1,887,000.

#### (b) Key assumptions

The following table sets forth key assumptions on which management has based its cash flow projections to undertake impairment testing of goodwill and intangible assets of customer relationships as at 31 December 2022, 2023 and 2024 and the six months ended 30 June 2025.

|                           | As at 31 December |               |               | As at 30 June |  |  |
|---------------------------|-------------------|---------------|---------------|---------------|--|--|
|                           | 2022              | 2023          | 2024          | 2025          |  |  |
| Revenue next 5 year       |                   |               |               |               |  |  |
| (% annual growth rate)    | 0%-38%            | 0%-39%        | 0%-26%        | 0%-6%         |  |  |
| EBIT/Revenue (%)          | 0%-35%            | 0%-22%        | 0%-32%        | 0%-20%        |  |  |
| Long term growth rate (%) | 2%                | 2%            | 2%            | 2%            |  |  |
| Pre-tax discount rate (%) | 11%-14%           | 11%-14%       | 11%-14%       | 11%-14%       |  |  |
| Carry amount of CGUs      | 3,457-134,225     | 3,894-131,655 | 4,352-133,663 | 4,886-141,505 |  |  |

The long term growth rates were estimated based on the overall long-term business development plan of the Target Group and the inflation rate of the PRC as a whole during the Year.

Management has determined the values assigned to each of the above key assumptions as follows:

| Assumption            | Approach used to determine values  |
|-----------------------|--|
| Revenue growth rate   | Average annual growth rate over the five-year forecast period; based on past performance and management's expectations of market development.                              |
| EBIT/Revenue          | Based on past performance and management's expectations for the future.  |
| Long term growth rate | The basis used to determine the value assigned to the long-term growth rate is the forecast price indices during the budget year from where the main services are located. |
| Pre-tax discount rate | Reflect specific risks relating to the operation of the business in the PRC.   |

#### 18 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

#### The Target Group:

Financial assets measured at FVPL include the following:

|                                | As at 31 December |         | As at 30 June |         |

(i) The Target Group purchases low-risk investments for cash management purposes, which mainly included wealth management products from licensed commercial banks and state-owned trust companies. The products are standardised and short-term wealth management products with maturity day within one year. Wealth management products are all held for trading and classified as financial assets at FVPL. For information about the methods and assumptions used in determining fair value, see Note 3.3.

Financial assets measured at FVPL were mainly placed with high-credit-quality financial institutions and therefore, the credit risk of these financial assets is low.

Amounts recognised in profit or loss:

The Target Group's exposure to various risks associated with the financial instruments is discussed in Note 3. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of financial assets mentioned above.

#### 20 INVENTORIES

### The Target Group:

|                                 | As at 31 December |          |         | As at 30 June |
|---------------------------------|-------------------|----------|---------|---------------|
|                                 | 2022              | 2023     | 2024    | 2025          |
|                                 | RMB'000           | RMB'000  | RMB'000 | RMB'000       |
| Body and skin care products and |                   |          |         |               |
| medical consumables             | 85,083            | 66,959   | 76,420  | 73,956        |
| Less: provision for inventory   | (9,982)           | (11,955) | (9,251) | (3,904)       |
|                                 | 75,101            | 55,004   | 67,169  | 70,052        |

The provision for inventory as at 31 December 2022, 2023, 2024 and the six months ended 30 June 2025 reconciles to the opening balance of the provision as follows:

|                                   | As at 31 December |         |   | As at 30 June |  |
|-----------------------------------|-------------------|---------|---|---------------|--|
|                                   | 2022              | 2023    | 2024  | 2025          |  |
|                                   | RMB'000           | RMB'000 | RMB'000   | RMB'000       |  |
| As at the beginning of year       | 19,303            | 9,982   | 11,955  | 9,251         |  |
| Increase/(decrease) in loss       |                   |         | 100 May 200 00 00 00 00 00 00 00 00 00 00 00 00 | ,             |  |
| allowance recognised in profit or |                   |         |   |               |  |
| loss during the year              | 140               | 2,981   | (317)   |               |  |
| Written off                       | (9,461)           | (1,008) | (2,387)   | (5,347)       |  |
| As at the end of year             | 9,982             | 11,955  | 9,251   | 3,904         |  |

The costs of individual items of inventory are determined using weighted average costs. See Note 2.8 for the Target Group's accounting policies for inventories.

During Reporting Periods, the cost of inventories recognised as expense and included in "cost of sales and services" amounted to RMB75,800,000, RMB81,523,000, RMB76,909,000 and RMB41,014,000 respectively (Note 8).

#### The Target Company:

|                                 | As at 31 December |          |         | As at 30 June |
|---------------------------------|-------------------|----------|---------|---------------|

# (i) Aging analysis of trade receivables

The majority of the Target Group's sales are settled through credit cards or third-party electronic payment platforms. The aging analysis of the trade receivables from contracts with customers receivables as at the balance sheet dates based on invoice date was as follows:

|                       | As at 31 December |         |         | As at 30 June |
|-----------------------|-------------------|---------|---------|---------------|
|                       | 2022              | 2023    | 2024    | 2025          |
|                       | RMB'000           | RMB'000 | RMB'000 | RMB'000       |
| Up to 1 year          | 9,519             | 18,753  | 22,068  | 23,293        |
| Between 1 and 2 years | 150               | 174     | 993     | 991           |
| Between 2 and 3 years | 102               | 150     | 148     | 253           |
| Over 3 years          | 200               | 238     | 288     | 183           |
|                       | 9,971             | 19,315  | 23,497  | 24,720        |

# (ii) Fair values of trade receivables

Due to the short-term nature of the current receivables, their carrying amount is considered to approximate their fair value.

#### (iii) Deposits

The current portion of deposits mainly represented the deposits for short-term lease of stores and buildings, and the non-current portion of deposits represented the deposits for long-term lease of stores and buildings.

### (iv) Other current assets

Other current assets include deductible input VAT and prepayment of PRC corporate income tax.

#### (v) Impairment and risk exposure

The movements in the loss allowance of impairment of trade receivables are as below:

|  | As at 31 December |         |         | As at 30 June |
|--|-------------------|---------|---------|---------------|
|  | 2022              | 2023    | 2024    | 2025          |
|  | RMB'000           | RMB'000 | RMB'000 | RMB'000       |
| As at 1 January Provision of receivables | (403)             | (640)   | (2,150) | (2,237)       |
| impairment                               | (237)             | (1,510) | (87)    | (571)         |
| As at 31 December                        | (640)             | (2,150) | (2,237) | (2,808)       |

Set out below is the information about the credit risk exposure on the Target Group's trade receivables using a provision matrix:

#### (a) Individual basis

Deposits and other receivables are considered to have a low risk of default and each of the counterparties has a strong capacity to meet its contractual cash flow obligations in the near term, hence the Target Group considers them to have low credit risk, and thus the impairment provision recognised is limited to 12-month expected losses. For trade receivables, the Target Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

#### (vi) Prepayments

The Target Group makes prepayments for property management fees and utility fees of stores and buildings, certain purchases of inventories, marketing fees, etc.

The carrying amounts of the Target Group's trade receivables, prepayments, deposits and other receivables are primarily denominated in RMB.

# (a) Employee benefits payables

The employee benefits payables represented payables for employee salaries, accrual for bonuses and social welfare benefits as at 31 December 2022, 2023,2024 and 30 June 2025.

The carrying amounts of trade and other payables and accruals are considered to approximate their fair values due to their short-term nature.

#### (b) Acquisition related payables

On December 31, 2023, the Target Group entered into a share subscription agreement with Shanghai Weimao Economic Development Co., Ltd., and received RMB26,366,000 from Shanghai Weimao Economic Development Co., Ltd. for subscribing 1.323% of the Target Company's shares. In February 2024, the Target Group entered into a share subscription termination agreement with Shanghai Weimao Economic Development Co., Ltd., and returned RMB26,366,000 to Shanghai Weimao Economic Development Co., Ltd.

#### (c) Redemption liability from put option

The Target Group recognized redemption liability of RMB20,811,000 in respect of put option granted to non-controlling interest upon the acquisition of 80% equity interest of Zhejiang siyanli Health Culture Management Co., Ltd in 2021 and equivalent redemption liability of RMB4,111,000 upon the acquisition of 80% equity interest of Shanghai Yancu Enterprise Management Co., Ltd in 2023 (Note 31).

### The Target Company:

In accordance with the PRC laws and regulations, tax losses could be carried forward for a period of five years to offset against its future taxable profits. Deferred tax assets relating to unutilised tax losses are recognised to the extent that it is probable that sufficient taxable profit will be available to allow such deferred tax assets to be utilised.

#### 33 DISPOSAL OF SUBSIDIARIES

In December 2022, the Target Group entered into an equity transfer agreement with SYL Holding Limited, pursuant to which the Target Group transferred total equity interest in its subsidiary Jianhong Co., LTD, at the total consideration of HK \$10,000. The consideration was determined based on agreement with the ultimate parent company.

In January 2023, the Target Group entered into an equity transfer agreement with Shanghai Anyan Enterprise Management Co., Ltd., pursuant to which the Target Group transferred total equity interest in its subsidiary Shanghai Yueyanmei Brand Management Co., Ltd. and Shanghai Weierqin Brand Management Co., Ltd., at the total consideration of RMB12,050,000 (Note 7).

In January 2025, the Target Group entered into an equity transfer agreement with Shanghai Anyan Enterprise Management Co., Ltd., pursuant to which the Target Group transferred total equity interest in its subsidiary Chengdu Fanyan Information Technology Co., LTD., at the total consideration of RMB2,061,000.

The Target Group derecognised the assets and liabilities of Shanghai Yueyanmei Brand Management Co., Ltd., Shanghai Weierqin Brand Management Co., Ltd., and Jianhong Co., LTD from its consolidated balance sheets upon losing control. The consideration was determined based on arm's length negotiation between the parties by reference to the net asset of Shanghai Yueyanmei Brand Management Co., Ltd., Shanghai Weierqin Brand Management Co., Ltd., at the time of the disposal.

# 34 EVENTS AFTER THE BALANCE SHEET DATE

There were no material subsequent events during the period from 30 June 2025 to the approval date of these historical financial information by the Board of Directors.

## 35 INVESTMENT IN SUBSIDIARIES AND AMOUNTS DUE FROM SUBSIDIARIES

|                             | As      | As at 30 June |         |         |
|-----------------------------|---------|---------------|---------|---------|
|                             | 2022    | 2023          | 2024    | 2025    |
|                             | RMB'000 | RMB'000       | RMB'000 | RMB'000 |
| Investments in subsidiaries | 233,973 | 246,399       | 255,199 | 250,769 |

The amounts due from subsidiaries are denominated in RMB, unsecured, interest free and receivable on demand.

|                               | A       | As at 31 December |         |         |  |  |
|-------------------------------|---------|-------------------|---------|---------|--|--|
|                               | 2022    | 2023              | 2024    | 2025    |  |  |
|                               | RMB'000 | RMB'000           | RMB'000 | RMB'000 |  |  |
| Amounts due from subsidiaries | 96,522  | 98,188            | 127,651 | 153,242 |  |  |

The Target Company held direct or indirect equity interests in the subsidiaries as showed in Note 32.

#### 36 LOANS FROM SUBSIDIARIES

The Target Company, together with several subsidiaries (as the "Participants") and Industrial and Commercial Bank of China Limited Shanghai Branch (the "ICBC"), have entered into a cash pool service agreement. Pursuant to the agreement, ICBC shall conduct fund management and transfers under the instructions of the Target Company. The balances of such borrowings are unsecured and have no fixed repayment terms.

### 37 OTHER ACCOUNTING POLICIES

## 37.1 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Target Company on the basis of dividend received and receivable. Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the historical financial information of the investee's net assets including goodwill.

## 37.2 Foreign currency translation

# (i) Functional and presentation currency

Items included in the financial statements of each of the Target Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The Target Company's functional currency is Hong Kong Dollars ("HKD"). As the majority of the assets and operations of the Target Group are located in the PRC, the historical financial information are presented in Renminbi (RMB).

## (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

Foreign exchange gains and losses that relate to borrowings are presented in the statement of profit or loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit or loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equities classified as fair value through other comprehensive income are recognised in other comprehensive income.

#### (iii) Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet
- income and expenses for each statement of profit or loss and statement of
  comprehensive income are translated at average exchange rates (unless this is not a
  reasonable approximation of the cumulative effect of the rates prevailing on the
  transaction dates, in which case income and expenses are translated at the dates of the
  transactions), and
- all resulting exchange differences are recognised in other comprehensive income.

## 37.3 Investment properties

Investment properties, principally leasehold office buildings, are held for long-term rental yields and are not occupied by the Target Group. Investment property is initially measured at cost, including related transaction costs and where applicable borrowing costs. Subsequently, they are carried at cost less accumulated depreciation and impairment losses.

Depreciation of the investment properties is calculated using the straight-line method to allocate cost over their estimated useful lives of 20 to 50 years.

#### 37.4 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

#### 37.5 Provisions

Provisions for legal claims are recognised when the Target Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

#### 37.6 Interest income

Interest income from financial assets at FVPL is included in the net fair value gains/(losses) on these assets, see Note 18.

Interest income on financial assets at amortised cost calculated using the effective interest method is recognised in profit or loss as part of other income.

Interest income is presented as finance income where it is earned from financial assets that are held for cash management purposes. Any other interest income is included in other income. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

#### 37.7 Dividend distribution

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

# 37.8 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received, and the Target Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected useful lives of the related assets.
