ACCOUNTANTS' REPORT ON HISTORICAL FINANCIAL INFORMATION TO THE DIRECTORS OF GUANGZHOU XIAO NOODLES CATERING MANAGEMENT CO., LTD. AND CMB INTERNATIONAL CAPITAL LIMITED

Introduction

We report on the historical financial information of Guangzhou Xiao Noodles Catering Management Co., Ltd. (the "Company") and its subsidiaries (together, the "Group") set out on pages I-4 to I-76, which comprises the consolidated statements of financial position of the Group and the statements of financial position of the Company as at 31 December 2022, 2023 and 2024 and 30 June 2025, and the consolidated statements of profit or loss and other comprehensive income, the consolidated statements of changes in equity and the consolidated statements of cash flows for each of the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2025 (the "Track Record Period"), and material accounting policy information and other explanatory information (together, the "Historical Financial Information"). The Historical Financial Information set out on pages I-4 to I-76 forms an integral part of this report, which has been prepared for inclusion in the prospectus of the Company dated 27 November 2025 (the "Prospectus") in connection with the initial listing of shares of the Company on the Main Board of The Stock Exchange of Hong Kong Limited.

Directors' responsibility for the Historical Financial Information

The directors of the Company are responsible for the preparation of the Historical Financial Information that gives a true and fair view in accordance with the basis of preparation and presentation set out in note 1 to the Historical Financial Information, and for such internal control as the directors of the Company determine is necessary to enable the preparation of the Historical Financial Information that is free from material misstatement, whether due to fraud or error.

Reporting accountants' responsibility

Our responsibility is to express an opinion on the Historical Financial Information and to report our opinion to you. We conducted our work in accordance with Hong Kong Standard on Investment Circular Reporting Engagements 200 "Accountants' Reports on Historical Financial Information in Investment Circulars" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"). This standard requires that we comply with ethical standards and plan and perform our work to obtain reasonable assurance about whether the Historical Financial Information is free from material misstatement.

Our work involved performing procedures to obtain evidence about the amounts and disclosures in the Historical Financial Information. The procedures selected depend on the reporting accountants' judgement, including the assessment of risks of material misstatement of the Historical Financial Information, whether due to fraud or error. In making those risk assessments, the reporting accountants consider internal control relevant to the entity's preparation of the Historical Financial Information that gives a true and fair view in accordance with the basis of preparation and presentation set out in note 1 to the Historical Financial Information in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Our work also included evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the Historical Financial Information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the Historical Financial Information gives, for the purpose of the accountants' report, a true and fair view of the Company's and the Group's financial position as at 31 December 2022, 2023 and 2024 and 30 June 2025 and of the Group's financial performance and cash flows for the Track Record Period in accordance with the basis of preparation and presentation set out in note 1 to the Historical Financial Information.

Review of stub period corresponding financial information

We have reviewed the stub period corresponding financial information of the Group which comprises the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the six months ended 30 June 2024 and other explanatory information (the "Stub Period Corresponding Financial Information"). The directors of the Company are responsible for the preparation and presentation of the Stub Period Corresponding Financial Information in accordance with the basis of preparation and presentation set out in note 1 to the Historical Financial Information. Our responsibility is to express a conclusion on the Stub Period Corresponding Financial Information based on our review. We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as issued by the HKICPA. A review consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion. Based on our review, nothing has come to our attention that causes

us to believe that the Stub Period Corresponding Financial Information, for the purpose of the accountants' report, is not prepared, in all material respects, in accordance with the basis of preparation and presentation set out in note 1 to the Historical Financial Information.

Report on matters under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and the Companies (Winding Up and Miscellaneous Provisions) Ordinance

Adjustments

In preparing the Historical Financial Information, no adjustments to the Underlying Financial Statements as defined on page I-4 have been made.

Dividends

We refer to note 27(b) to the Historical Financial Information which contains information about the dividends paid by the Company in respect of the Track Record Period.

NOTES TO THE HISTORICAL FINANCIAL INFORMATION

(Expressed in Renminbi unless otherwise indicated)

1 BASIS OF PREPARATION AND PRESENTATION OF HISTORICAL FINANCIAL INFORMATION

Guangzhou Xiao Noodles Catering Management Co., Ltd. (formerly known as Guangzhou Meet Xiaomian Catering Management Co., Ltd.) (the "Company") was incorporated in the People's Republic of China (the "PRC") on 14 February 2014 as a limited liability company under the Companies laws of the PRC. The Company was converted into a joint stock limited liability company on 7 September 2023.

The Company and its subsidiaries (together, the "Group") are principally engaged in self-operated restaurant operations and franchise management in the PRC. Details of the Group's principal subsidiaries are set out in note 13.

As at 30 June 2025, the Group had net current liabilities amounting to RMB254,960,000. Based on the projection of the Group's profit and cash inflows from operations and the unused banking loan facilities of RMB250,000,000 as at 30 June 2025, the directors are of the opinion that the Group has sufficient financial resources to continue as a going concern for the next twelve months from the date of this report and there are no material uncertainties related to events or conditions which, individually or collectively, may cast significant doubt on the Group's ability to continue as a going concern.

The Historical Financial Information has been prepared in accordance with all applicable IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB"). Further details of the material accounting policy information are set out in note 2.

The IASB has issued a number of new and revised IFRS Accounting Standards. For the purpose of preparing the Historical Financial Information, the Group has adopted all applicable new and revised IFRS Accounting Standards to the Track Record Period, except for any new standards or interpretations that are not yet effective for the accounting period beginning on 1 January 2025. The revised and new accounting standards and interpretations issued but not yet effective for the accounting year beginning on 1 January 2025 are set out in note 32.

The Historical Financial Information also complies with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The accounting policies set out below have been applied consistently to all periods presented in the Historical Financial Information.

The Stub Period Corresponding Financial Information has been prepared in accordance with the same basis of preparation and presentation adopted in respect of the Historical Financial Information.

The Historical Financial Information and the Stub Period Corresponding Financial Information are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand (RMB'000) except when otherwise indicated

2 MATERIAL ACCOUNTING POLICY INFORMATION

(a) Basis of measurement

The measurement basis used in the preparation of the Historical Financial Information is the historical cost basis except that the financial assets measure at FVOCI and financial assets measure at FVPL are stated at their fair value as explained note 2(e).

(b) Use of estimates and judgements

The preparation of Historical Financial Information in conformity with IFRS Accounting Standards requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRS Accounting Standards that have significant effect on the Historical Financial Information and major sources of estimation uncertainty are discussed in note 3.

(c) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the Historical Financial Information from the date on which control commences until the date on which control ceases.

Intra-group balances and transactions, and any unrealised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions are eliminated. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

When the Group loses control of a subsidiary, it derecognises the assets and liabilities of the subsidiary. Any resulting gain or loss is recognised in profit or loss. Any interest retained in that former subsidiary is measured at fair value when control is lost.

In the Company's statements of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 2(i)(ii), unless it is classified as held for sale (or included in a disposal group classified as held for sale).

(d) Associate

An associate is an entity in which the Group or Company has significant influence, but not control or joint control, over the financial and operating policies.

An investment in an associate is accounted for using the equity method, unless it is classified as held for sale (or included in a disposal group classified as held for sale). They are initially recognised at cost, which includes transaction costs. Subsequently, the consolidated financial statements include the Group's share of the profit or loss and other comprehensive income ("OCI") of those investees, until the date on which significant influence ceases.

When the Group's share of losses exceeds its interest in the associate, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For this purpose, the Group's interest is the carrying amount of the investment under the equity method, together with any other long-term interests that in substance form part of the Group's net investment in the associate, after applying the ECL model to such other long-term interests where applicable (see note 2(i)(i)).

Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent there is no evidence of impairment.

(e) Other investments in securities

The Group's policies for investments in securities, other than investments in subsidiaries, are set out below.

Investments in securities are recognised/derecognised on the date the Group commits to purchase/sell the investment. The investments are initially stated at fair value plus directly attributable transaction costs, except for those investments measured at FVPL for which transaction costs are recognised directly in profit or loss. For an explanation of how the Group determines fair value of financial instruments, see note 28(e). These investments are subsequently accounted for as follows, depending on their classification.

(i) Non-equity investments

Non-equity investments are classified into one of the following measurement categories:

- amortised cost, if the investment is held for the collection of contractual cash flows which represent solely payments of principal and interest. Expected credit losses, interest income calculated using the effective interest method (see note 2(t)(iii)), foreign exchange gains and losses are recognised in profit and loss. Any gain or loss on derecognition is recognised in profit or loss.
- FVPL if the investment does not meet the criteria for being measured at amortised cost or FVOCI (recycling). Changes in the fair value of the investment (including interest) are recognised in profit or loss.

(ii) Equity investments

An investment in equity securities is classified as FVPL, unless the investment is not held for trading purposes and on initial recognition the Group makes an irrevocable election to designate the investment at FVOCI (non-recycling) such that subsequent changes in fair value are recognised in OCI. Such elections are made on an instrument-by-instrument basis, but may only be made if the investment meets the definition of equity from the issuer's perspective. If such election is made for a particular investment, at the time of disposal, the amount accumulated in the fair value reserve (non-recycling) is transferred to retained earnings and not recycled through profit or loss. Dividends from an investment in equity securities, irrespective of whether classified as at FVPL or FVOCI, are recognised in profit or loss as other income (see note 2(t)(ii)).

(f) Property, plant and equipment and right-of-use assets

Property, plant and equipment and right-of-use assets are stated at cost, less accumulated depreciation and any accumulated impairment losses (see note 2(i)(ii)).

The cost of self-constructed items of property, plant and equipment includes the cost of materials, direct labor, the initial estimate, where relevant, of the costs of dismantling and removing the items and restoring the site on which they are located, and an appropriate proportion of production overheads.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual values, if any, using the straight-line method over their estimated useful lives, and is generally recognised in profit or loss. No depreciation is provided for in respect of construction in progress until it is completed and ready for its intended use.

The estimated useful lives are as follows:

	Over the lease term
	Over the lease term
Kitchen equipment	2-5 years
Electronic equipment	
Other equipments	4-5 years

Depreciation methods, useful lives and residual values are reviewed annually and adjusted if appropriate.

(g) Intangible assets

Research and development costs comprise all costs that are directly attributable to research and development activities or that can be allocated on a reasonable basis to such activities. Because of the nature of the Group's research and development activities, the criteria for the recognition of such costs as an asset are generally not met until late in the development stage of the project when the remaining development costs are immaterial. Hence both research costs and development costs are generally recognised as expenses in the period in which they are incurred.

Other intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses (see note 2(i)(ii)).

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their useful lives, if any, and is generally recognised in profit or loss.

Amortisation methods, useful lives and residual values are reviewed annually and adjusted if appropriate.

(h) Leased assets

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. This is the case if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

(i) As a lessee

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for leases that have a short lease term of 12 months or less and leases of low-value items. When the Group enters into a lease in respect of a low-value item, the Group decides whether to capitalise the lease on a lease-by-lease basis. If not capitalised, the associated lease payments are recognised in profit or loss on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is recognised using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability, and are charged to profit or loss as incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see notes 2(f) and 2(i)(ii)).

Refundable rental deposits are accounted for separately from the right-of-use assets in accordance with the accounting policy applicable to investments in non-equity securities carried at amortised cost (see notes 2(e)(i) and 2(i)(i)). Any excess of the nominal value over the initial fair value of the deposits is accounted for as additional lease payments made and is included in the cost of right-of-use assets.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a lease modification, which means a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract, if such modification is not accounted for as a separate lease. In this case, the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification.

In the consolidated statements of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

(ii) As a lessor

The Group determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee. Otherwise, the lease is classified as an operating lease.

When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. The rental income from operating leases is recognised in accordance with note 2(t).

When the Group is an intermediate lessor, the sub-leases are classified as a finance lease or as an operating lease with reference to the right-of-use asset arising from the head lease. If the head lease is a short-term lease to which the Group applies the exemption described in note 2(h)(i), then the Group classifies the sub-lease as an operating lease.

(i) Credit losses and impairment of assets

(i) Credit losses from financial instruments and lease receivables

The Group recognises a loss allowance for expected credit losses ("ECL"s) on:

- financial assets measured at amortised cost (including cash and cash equivalents, restricted bank deposits, trade and other receivables, rental deposits); and
- lease receivables.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Generally, credit losses are measured as the present value of all expected cash shortfalls between the contractual and expected amounts.

The expected cash shortfalls are discounted using the following rates if the effect is material:

- fixed-rate financial assets and trade and other receivables: effective interest rate determined at initial recognition or an approximation thereof;
- lease receivables: discount rate used in the measurement of the lease receivable.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

ECLs are measured on either of the following bases:

- 12-month ECLs: these are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months); and
- lifetime ECLs: these are the ECLs that result from all possible default events over the expected lives of the items to which the ECL model applies.

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-months ECLs:

- financial instruments that are determined to have low credit risk at each reporting date; and
- other financial instruments for which credit risk (i.e. the risk of default occurring over the
 expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs.

Significant increases in credit risk

When determining whether the credit risk of a financial instrument has increased significantly since initial recognition and when measuring ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment, that includes forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the financial asset is 90 days past due.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

Credit-impaired financial assets

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable events:

- significant financial difficulties of the debtor;
- a breach of contract, such as a default or past due event;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties of the issuer.

Write-off policy

The gross carrying amount of a financial asset or lease receivable is written off to the extent that there is no realistic prospect of recovery. This is generally the case when the Group otherwise determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(ii) Impairment of other non-current assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units ("CGU"s).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. They are reduced the carrying amounts of the assets in the CGU on a pro rata basis.

An impairment loss is reversed only to the extent that the resulting carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(j) Inventories

Inventories are measured at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(k) Contract liabilities

A contract liability is recognised when the customer pays non-refundable consideration before the Group recognises the related revenue (see note 2(t)). A contract liability is also recognised if the Group has an unconditional right to receive non-refundable consideration before the Group recognises the related revenue. In such latter cases, a corresponding receivable would also be recognised (see note 2(1)).

When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method (see note 2(t)).

(1) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration and only the passage of time is required before payment of that consideration is due.

Trade receivables that do not contain a significant financing component are initially measured at their transaction price. Trade receivables that contain a significant financing component and other receivables are initially measured at fair value plus transaction costs. All receivables are subsequently stated at amortised cost (see note 2(i)(i)).

(m) Software-as-a-service (SaaS) arrangement costs

A SaaS arrangement is a service arrangement where the Group has a right to access to the supplier's application software running on the supplier's cloud infrastructure during the term of the arrangement, but not control over the underlying software asset.

Costs to implement a SaaS arrangement, including those incurred in configuring or customising the access to the supplier's application software, are evaluated to determine if they give rise to a separate asset that the Group controls. Any resulting asset is recognised and accounted for in accordance with the policy for intangible assets as set out in note 2(g). Implementation costs that do not give rise to an asset are recognised in profit or loss as incurred, which may be over the period the configuration or customisation services are received to the extent that such services are distinct from the SaaS, or over the term of the SaaS arrangement to the extent the configuration or customisation services are not distinct from the SaaS.

Payment made in advance of receiving the related services is recognised as prepayment.

(n) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions and other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Cash and cash equivalents are assessed for ECL (see note 2(i)(i)).

(o) Trade and other payables

Trade and other payables are initially recognised at fair value. Subsequent to initial recognition, trade and other payables are stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at invoice amounts.

(p) Interest-bearing borrowings

Interest-bearing borrowings are measured initially at fair value less transaction costs. Subsequently, these borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with note 2(u).

(q) Employee benefits

(i) Short term employee benefits and contributions to defined contribution retirement plans

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Pursuant to the relevant laws and regulations of the PRC, the Group participates in a defined contribution basic pension insurance in the social insurance system established and managed by government organisations. The Group makes contributions to basic pension insurance plans based on the applicable benchmarks and rates stipulated by the government. The local government authorities are responsible for the pension obligations payable to the retired employees covered under the defined contribution basic pension insurance. There are no forfeited contributions for the defined contribution basic pension insurance in the PRC social insurance system as the contributions are fully vested to the employees upon payment to the scheme.

Obligations for contributions to defined contribution retirement plans are recognised as part of the cost of assets or expensed as the related service is provided.

(ii) Share-based payments

The grant-date fair value of equity-settled share-based payments granted to employees is measured using the binomial lattice model, taking into account any transfer restriction imposed on the vested equity instruments, and based on the most likely outcome of the performance condition where there are mutually exclusive vesting alternatives.

The amount is generally recognised as an expense, with a corresponding increase in equity, over the vesting period of the awards determined based on the most likely vesting alternative where there are mutually exclusive vesting alternatives. The amount recognised as an expense is adjusted to reflect the number of awards for which the related vesting conditions are expected to be met, such that the amount ultimately recognised is based on the number of awards that meet the related vesting conditions at the vesting date. The equity amount is recognised in the share-based payments reserve until the awards are vested (when it is transferred to capital reserve/share premium).

For a share-based payment transaction in which the terms of the arrangement provide the Group with the choice of whether to settle in cash or in equity instruments, the Group determines whether it has a present obligation to settle in cash and account for the share-based payment transaction accordingly. The Group has a present obligation to settle in cash if the choice of settlement in equity instruments has no commercial substance, or the entity has a past practice or a stated policy of settling in cash, or generally settles in cash whenever the counterparty asks for cash settlement. The exercise price received from the grantees, which is refundable when the awards are forfeited, is recognised as a deposit liability until the share-based payments vests.

(iii) Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring.

(r) Income tax

Income tax expense comprises current tax and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination.

Current tax comprises the estimated tax payable or receivable on the taxable income or loss for the year and any adjustments to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects any uncertainty related to income taxes. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a
 business combination and that affects neither accounting nor taxable profit or loss and does not give rise
 to equal taxable and deductible temporary differences;
- temporary differences related to investment in subsidiaries, associates and joint venture to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- those related to the income taxes arising from tax laws enacted or substantively enacted to implement the Pillar Two model rules published by the Organisation for Economic Co-operation and Development.

The Group recognised deferred tax assets and deferred tax liabilities separately in relation to its lease liabilities, provisions and right-of-use assets.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries in the Group. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if certain criteria are met.

(s) Provisions and contingent liabilities

Generally provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and the risks specific to the liability.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, a separate asset is recognised for any expected reimbursement that would be virtually certain. The amount recognised for the reimbursement is limited to the carrying amount of the provision.

(t) Revenue and other income

Income is classified by the Group as revenue when it arises from the sale of goods and the provision of services.

Further details of the Group's revenue and other income recognition are as follows:

(i) Revenue from contracts with customers

The Group is the principal for its revenue transactions and recognises revenue on a gross basis. In determining whether the Group acts as a principal or as an agent, it considers whether it obtains control of the products before they are transferred to the customers. Control refers to the Group's ability to direct the use of and obtain substantially all of the remaining benefits from the products or services.

Revenue is recognised when control over a product or service is transferred to the customer at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties such as value added tax or other sales taxes.

Where the contract contains a financing component which provides a significant financing benefit to the customer for more than 12 months, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction with the customer, and interest income is accrued separately under the effective interest method. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. The Group takes advantage of the practical expedient in paragraph 63 of IFRS 15 and does not adjust the consideration for any effects of a significant financing component if the period of financing is 12 months or less.

(a) Revenue from self-operated restaurant operations

The self-operated restaurant operations included dine-in service and delivery business. Revenue is recognised at a point in time when the related services have been rendered to customers.

The Group operates customer loyalty scheme for customers which enable customers to earn loyalty points on their consumptions in the restaurants. Points are redeemable against any future consumptions in the restaurants. The Group allocates a portion of the consideration to loyalty points based on the relative stand-alone selling prices. The amount allocated to the loyalty points is deferred and recognised as revenue when loyalty points are redeemed or expire.

(b) Revenue from franchise management

The revenue of franchise management mainly generated from royalty and franchising income and provision of services as well as sales of food ingredients and restaurant supplies.

The Group enters into a series of agreements with each franchisee, which mainly include a license agreement and a sales agreement (collectively "Franchise Agreements"), whereby the franchisees are licensed to operate the franchised restaurants.

The franchisees employ and manage their own staffs to operate the restaurants and serve their customers (i.e. end consumers), and undertake the costs associated with the operations. The franchisees sell the dishes based on the menu and recipe provided by the Group.

The franchisees are responsible for the placement, physical custody and condition of the equipment and goods after the deliveries are accepted in restaurants. In general, the Group does not have any obligation or historical practices to accept any return of unsold products, except for rare cases such as a latent defect subject to product recall.

At inception of the Franchise Agreements, franchisees are required to place a deposit to the Group throughout the franchise period. The deposits are refundable upon the termination of the Franchise Agreements, provided that the franchisees settled all outstanding balances with the Group.

Royalty and franchising income

Under the Franchise Agreements, franchisees pay a non-refundable upfront initial fee including the pre-opening training services fee upon entering into Franchise Agreements and monthly royalty fee. The non-refundable upfront initial fee is charged for pre-opening support services provided to the franchisees, including market and location analysis, certain advisory services like license application and pre-opening marketing, etc. As these services are highly interrelated with the franchise right, they are not individually distinct from the ongoing franchising arrangement with the franchisees. As a result, initial franchise fees, which are considered as consideration for the Group to provide right to access the Group's intellectual property, are recognised on a straight-line basis over the expected franchise period, typically of 5 years. Unrecognised non-refundable upfront initial fee is recognised as contract liabilities in the consolidated statements of financial position.

Franchisees are also required to pay a monthly royalty fee, which is determined based on a fixed percentage of the gross merchandise value generated by the franchised restaurant. Fixed amount royalty fees are recognised monthly. For fixed percentage royalty fees, the Group applies "sales-based royalty" under IFRS 15 "Revenue from Contracts with Customers" to recognise the royalty fees when the sales to end customers occurred or the performance obligation to which some or all of the sales-based royalty has been allocated has been satisfied (or partially satisfied), whichever is the later.

Provision of services

The Group provides other services including system maintenance and support services to franchisees. Revenue are recognised when these services are performed in the accounting period in which the services are rendered.

Sales of food ingredients and restaurant supplies

Revenue from sales of food ingredients and restaurant supplies to franchisees is recognised at the point in time when the franchisees accept the products and the control over those products is transferred to the franchisees.

(ii) Dividends

Dividend income is recognised in profit or loss on the date on which the Group's right to receive payment is established.

(iii) Interest income

Interest income is recognised using the effective interest method. The "effective interest rate" is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. In calculating interest income, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired). However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

(iv) Government grants

Government grants are recognised in the statements of financial position initially when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them.

Grants that compensate the Group for expenses incurred are recognised as income in profit or loss on a systematic basis in the same periods in which the expenses are incurred.

(u) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

(v) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(w) Redemption liabilities

A contract that contains an obligation for the Company to purchase its own equity instruments for cash or another financial asset gives rise to a financial liability even if the Company's obligation to purchase is conditional on the counterparty exercising its right to redeem. The redemption liability is measured at the present value of the redemption amount and the changes in the carrying amount arising from the remeasurement of the present value of the redemption amount, is recognised in profit or loss.

(x) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

3 ACCOUNTING JUDGEMENTS AND ESTIMATES

Notes 2(q)(ii), 26 and 28 contain information about the assumptions and their risk factors relating to fair value of share option granted and financial instruments. Other significant sources of estimation uncertainty are as follows:

(a) Impairment of property, plant and equipment and right-of-use assets

Internal and external sources of information are reviewed at the end of each reporting period to assess whether there is any indication that property, plant and equipment and right-of-use assets may be impaired. If any such indication exists, the recoverable amount of the property, plant and equipment and right-of-use assets is estimated. Changes in facts and circumstances may result in revisions to the conclusion of whether an indication of impairment exists and revised estimates of recoverable amounts, which would affect profit or loss in future periods.

(b) Depreciation of property, plant and equipment and right-of-use assets

Property, plant and equipment, and right-of-use assets, are depreciated on a straight-line basis over the estimated useful lives of the assets. The Group reviews the estimated useful lives of the assets regularly in order to determine the amount of depreciation expense to be recorded during any reporting period. The useful lives are based on the Group's historical experience with similar assets. The depreciation expense for future periods is adjusted if there are material changes from previous estimates.

(c) Provision for restoration costs

As explained in note 23, the Group makes provision for restoration costs based on the best estimate of the expected costs to be incurred upon expiry of the respective rental agreements, which are subject to uncertainty and might differ from the actual costs incurred. Any increase or decrease in the provision would affect profit or loss in future periods.

(d) Determining the lease term

As explained in policy note 2(h), the lease liability is initially recognised at the present value of the lease payments payable over the lease term. In determining the lease term at the commencement date for leases that include renewal options exercisable by the Group, the Group evaluates the likelihood of exercising the renewal options taking into account all relevant facts and circumstances that create an economic incentive for the Group to exercise the option, including favourable terms, leasehold improvements undertaken and the importance of that underlying asset to the Group's operation. The lease term is reassessed when there is a significant event or significant change in circumstance that is within the Group's control. Any increase or decrease in the lease term would affect the amount of lease liabilities and right-of-use assets recognised in future years.

4 REVENUE AND SEGMENT REPORTING

(a) Revenue

The principal activities of the Group are self-operated restaurant operations and franchise management.

(i) Disaggregation of revenue

Disaggregation of revenue from contracts with customers by major service lines is as follows:

	Years	ended 31 Decemb	er	Six months end	ded 30 June
	2022	2023	2024	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000 (unaudited)	RMB'000
Revenue from contracts with customers within the scope of IFRS 15:					
Self-operated restaurant operations					
- Dine-in service	270,998	547,353	820,301	370,612	497,176
- Delivery business	65,738	124,587	180,709	82,128	128,898

	Years	ended 31 Decemb	er	Six months end	ded 30 June
	2022	2023	2024	2024	2025
	RMB'000	RMB '000	RMB'000	RMB'000 (unaudited)	RMB'000
Franchise management					
 Royalty and franchising income and provision of service 	12,547	22,729	27,042	12,736	13,875
- Sales of food ingredients and restaurant supplies	67,964	104,965	125,488	59,736	62,787
Others	849	880	894	445	449
	418,096	800,514	1,154,434	525,657	703,185
Disaggregated by timing of revenue recognition					
- Point in time	405,549	777,785	1,127,392	512,921	689,310
- Over time	12,547	22,729	27,042	12,736	13,875
	418,096	800,514	1,154,434	525,657	703,185

Others includes sales of retail products on e-commerce platforms.

No revenue from individual customer contributing over 10% of total revenue of the Group for the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2024 (unaudited) and 2025.

(ii) Revenue expected to be recognised in the future arising from contracts in existence at the reporting date

Contracts within the scope of IFRS 15

As at 31 December 2022, 2023 and 2024 and 30 June 2025, the aggregated amount of the transaction price allocated to the remaining performance obligations under the Group's existing contracts is RMB1,875,000, RMB3,564,000, RMB4,564,000 and RMB4,553,000. This amount represents revenue expected to be recognised in the future from Franchise Agreements. The Group will recognise the expected revenue in future over the remaining contract period, which is expected to occur over the next 12-60 months.

(b) Segment reporting

The directors of the Company have been identified as the Group's most senior executive management. The Group manages its businesses as a whole by the most senior executive management for the purposes of resource allocation and performance assessment. Therefore, the Group has one operating segment. The Group's most senior executive management reviews the Group's consolidated results of operations in assessing performance of and making decisions about allocations to this segment. Accordingly, no reportable segment information is presented.

Analysis of the Group's revenue from external customers as well as analysis of the Group's carrying amount of non-current assets by geographical market has not been presented as over 90% of the Group's revenue and non-current assets are generated and located in the Chinese Mainland.

5 OTHER INCOME

	Years	ended 31 Decemb	er	Six months end	ded 30 June
	2022	2023	2024	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000 (unaudited)	RMB'000
Interest income on:					
- bank deposits	470	1,070	573	182	482

	2					

Notes:

(i) Taxable income for the Group's subsidiaries in the Chinese Mainland are subject to PRC income tax rate of 25% for the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2024 and 2025, unless otherwise specified below.

Certain subsidiaries met the criteria required for preferential income tax rate granted to small and low profit-making enterprise in the Chinese Mainland, and were entitled to a preferential income tax rate of 5% on taxable income for the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2024 and 2025.

Certain subsidiaries fell within the state encouraged industries in the specified western regions and were entitled to a preferential income tax rate of 15% for the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2024 and 2025.

(ii) The Group's Hong Kong subsidiaries were established since 2023 and did not have any other assessable profits for the year ended 31 December 2023. The provision for Hong Kong Profits Tax for the year ended 31 December 2024 and the six months ended 30 June 2024 and 2025 is calculated at 16.5% of the estimated assessable profits for the period, except for one subsidiary of the Group which is a qualifying corporation under the two-tiered Profits Tax rate regime for the year ended 31 December 2024 and the six months ended 30 June 2024 and 2025. For this subsidiary, the first HK\$2 million of assessable profits are taxed at 8.25% and the remaining assessable profits are taxed at 16.5%.

The provision for Hong Kong Profits Tax for the year ended 31 December 2024 and the six months ended 30 June 2024 and 2025 takes into account a reduction granted by the Hong Kong SAR Government of 100% of the tax payable for the year of assessment 2023/24 and 2024/25 subject to a maximum reduction of HK\$3,000 and HK\$1,500 for each business.

(iii) The Group's Singapore subsidiary was established in 2025 and did not have any assessable profits for the six months ended 30 June 2025.

8 DIRECTORS' EMOLUMENTS

Notes:

- (a) These represent the estimated value of share options granted to the directors and supervisors under the Company's share-based incentive scheme. The value of these share options is measured according to the Group's accounting policies for share-based payment transactions as set out in note 2(q)(ii) and, in accordance with that policy, includes adjustments to reverse amounts accrued in previous years where grants of equity instruments are forfeited prior to vesting.
 - The details of these benefits in kind, including the principal terms and number of option granted, are disclosed in note 26.
- (b) For the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2024 and 2025, there were no amounts paid or payable by the Group to the directors, supervisors or any of the highest paid individuals set out in note 9 below as an inducement to join or upon joining the Group or as a compensation for loss of office. There was no arrangement under which a director or a supervisor waived or agreed to waive any remuneration for the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2024 and 2025.

9 INDIVIDUALS WITH HIGHEST EMOLUMENTS

For the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2024, of the six individuals (joint-fifth highest) with the highest emoluments, 2, 3, 3, and 3 (unaudited) are directors whose emoluments are disclosed in note 8. For the six months ended 30 June 2025, of the five individuals with the highest emoluments, 1 is a director whose emoluments is disclosed in note 8.

The aggregate of the emoluments in respect of the other 4, 3, 3, 3 (unaudited) and 4 individuals are as follows:

	Years	ended 31 Decemb	Six months ended 30 June			
	2022	2023	2024	2024	2025	
	RMB'000	RMB'000	RMB'000	RMB'000 (unaudited)	RMB'000

10 (LOSS)/EARNINGS PER SHARE

(a) Basic (loss)/earnings per share

The calculation of basic loss/earnings per share during the Track Record Period is based on the loss/profit attributable to ordinary equity shareholders of the Company and the weighted average number of ordinary shares in issue or deemed to be in issue for the respective year.

As set out in note 27(c), the Company was converted from a limited liability company into a joint stock limited liability company on 7 September 2023. The Company's paid-in capital of RMB12,266,000 was converted into 613,324,800 shares with the par value of RMB0.02 each accordingly. For the purpose of determining basic loss/earnings per share, the weighted average number of ordinary shares were deemed to be in issue before the Company's conversion into a joint stock limited liability company as if the above conversion had occurred on 1 January 2022 at the exchange ratio established on 7 September 2023.

(i) (Loss)/profit attributable to ordinary equity shareholders of the Company

Weighted average number of ordinary shares (deemed to be) at 31						
December/30 June	573,380	575,089	576,629	576,377	577,747	

(b) Diluted (loss)/earnings per share

Diluted loss/earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. For the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2024 and 2025, the Group's potential ordinary shares are from redemption liabilities (note 20(b)) and share-based incentive scheme (note 26).

(i) (Loss)/profit attributable to ordinary equity shareholders of the Company (diluted):

	Years ended 31 December			Six months ended 30 June		
	2022	2023	2024	2024	2025	
	RMB'000	RMB'000	RMB*000	RMB'000 (unaudited)	RMB '000	
(Loss)/profit for the year/period attributable to ordinary equity	13	sono ingrativo			40.107	
shareholders of the Company Effect of allocation of loss for the year/period attributable to	(34,544)	44,090	58,288	20,502	40,137	
redemption liabilities (note 20(b)) .	1,429	-				
(Loss)/profit for the year/period attributable to ordinary equity shareholders of the Company						
(diluted)	(35,973)	44,090	58,288	20,502	40,137	

(ii) Weighted average number of ordinary shares (diluted):

	Years ended 31 December		Six months ended 30 June		
_	2022	2023	2024	2024	2025
_	'000	'000	'000	'000 (unaudited)	'000
Weighted average number of ordinary shares (deemed to be) at 31					
December	573,380	575,089	576,629	576,377	577,747
Effect of unvested shares held for share-based incentive scheme after					
vested		4,684	8,461	5,781	4,308
Effect of redemption liabilities after					
conversion to share capital	5,230				
Weighted average number of ordinary shares (deemed to be) (diluted) at					
31 December/30 June	578,610	579,773	585,090	582,158	582,055

Ordinary shares with redemption option (note 20(b)) were not included in the calculation of diluted earnings per share for the years ended 31 December 2023 and 2024 and the six months ended 30 June 2024 and 2025 because their effect would have been anti-dilutive.

The effects of unvested ordinary shares held for under the share-based incentive scheme with employees have not been included in the calculation of diluted loss per share for the year ended 31 December 2022 because their effect would be anti-dilutive.

Impairment losses

As at 31 December 2022, 2023 and 2024 and 30 June 2025, in view of the unfavorable future prospects of certain restaurants, the Group's management estimated the recoverable amount of each such restaurant (cashgenerating unit ("CGU")) with an indication of impairment. The recoverable amount of each CGU is determined based on fair value less cost of disposal or the value-in-use calculations by preparing cash flow projections of the relevant CGUs derived from the most recent financial forecast approved by the management covering the remaining lease term, which is higher.

The cash flows are discounted using a discount rate of 19.67%, 18.25% and 18.17% and 17.86% as at 31 December 2022, 2023 and 2024 and 30 June 2025, respectively. The discount rate used is pre-tax and reflects specific risks relating to the relevant CGU.

In addition, the recoverable amount of certain CGU is determined based on fair value less cost of disposal, using direct comparison approach by assuming each of the stores is assigned in its current condition with vacant possession. Significant unobservable inputs used in the fair value measurement include market rentals, by making reference to lease transactions of comparable properties in close proximity as available in the relevant market, adjusted for any difference in factors such as location and property size. The fair value on which the recoverable amount is based on its categorised as level 3 measurement.

For the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2024 and 2025, an impairment loss of RMB9,440,000, RMB8,938,000, RMB1,589,000, RMB846,000 (unaudited) and RMB1,956,000 was recognised, respectively, as the carrying amount of certain CGUs exceeded their recoverable amount. Impairment losses were allocated to the assets in related restaurant including leasehold improvement and other property, plant and equipment within CGU on a pro rata basis, was recognised in the consolidated statements of profit or loss and other comprehensive income in the respective year.

(b) Right-of-use assets

The analysis of the net book value of right-of-use assets by class of underlying asset is as follows:

The Group

		As at 30 June

value assets	1,109	2,175	2,586	1,257	1,084
Variable lease payments not included in the measurement of lease					
liabilities	3,414	16,190	19,046	9,388	14,573

For the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2025, additions to right-of-use assets were RMB120,179,000, RMB280,678,000, RMB380,744,000 and RMB140,596,000, respectively. These amounts primarily related to the capitalised lease payments payable under new tenancy agreements.

Details of total cash outflow for leases and the maturity analysis of lease liabilities are set out in notes 19(d) and 22, respectively.

Notes:

(i) Property - Right-of-use assets

The Group has obtained the right to use properties as its restaurants through tenancy agreements. The leases run for an initial period of 2 to 14 years.

The Group leased a number of restaurants which contain variable lease payment terms that are based on sales generated from the restaurants and minimum annual lease payment terms that are fixed. These payment terms are common in restaurants in the PRC where the Group principally operates.

The amount of fixed and variable lease payments associated with right-of-use assets for each reporting period is summarised below:

	Years	ended 31 Decemb	Six months ended 30 June		
	2022	2023	2024	2024	2025
,	RMB'000	RMB'000	RMB'000	RMB'000 (unaudited)	RMB'000
Fixed payments	85,545	147,685	204,161	97,700	118,495
variable payments	3,414	16,190	19,046	9,388	14,573
Total payments	88,959	163,875	223,207	107,088	133,068

	RMB'000	RMB'000	RMB'000	RMB'000
Redemption liabilities	45,000	45,000	45,000	45,000

During 2014 to 2021, the Company conducted several rounds of financing by issuing paid-in capital to investors and granting them certain special rights.

The Series Angel, Series Pre-A, Series A, Series A+, Series B and Series B+ investors (collectively refer to as "the Investors") are entitled to the same voting rights and dividend rights as the founding shareholder of the Company. Certain key special rights issued to the Investors are summarised as follows:

Redemption rights

Redemption rights granted by the Company

In March 2021, the Company entered into an investment agreement with an investor (the "Series B Investor"), pursuant to which, the Series B Investor agreed to pay, in aggregate, RMB30,000,000 to subscribe for the Company's paid-in capital of RMB487,000.

The Series B Investor would have the right to request the Company to purchase all or part of the paid-in capital of the Company held by it, upon the occurrence of any of the specified contingent events, including but not limited to:

- the Company fails to complete a qualified initial public offering on or before the seventh anniversary from 11 March 2021;
- the Company or the actual controllers of the founding shareholder of the Company have seriously breached any term of the transaction documents;
- (3) the actual controllers of the founding shareholder of the Company lose control over the Company without the written consent of the Series B Investor.

The redemption price is the higher of (i) the aggregate of the original issue price plus an annual rate of return of 7% calculated on a simple basis plus all declared but unpaid dividends; and (ii) the aggregate of the 150% original issue price plus all declared but unpaid dividends.

The redemption right will automatically expire upon the qualified initial public offering of the Company's shares.

Redemption rights granted by Huai'an Chuangtao Enterprise Management Partnership (Limited Partnership), Mr. Song and Mr. Su

Certain investors had been granted redemption rights by Huai'an Chuangtao Enterprise Management Partnership (Limited Partnership), Mr. Song and Mr. Su.

The directors of the Company have confirmed that (i) the Company does not have any obligation to fulfil the redemption rights granted by Huai'an Chuangtao Enterprise Management Partnership (Limited Partnership), Mr. Song and Mr. Su; and (ii) the Company has not provided any guarantee for the redemption rights granted by Huai'an Chuangtao Enterprise Management Partnership (Limited Partnership), Mr. Song and Mr. Su in the event of a default by Huai'an Chuangtao Enterprise Management Partnership (Limited Partnership), Mr. Song or Mr. Su. Accordingly, no financial liability has been recorded in the Historical Financial Information with respect to the redemption rights granted by Huai'an Chuangtao Enterprise Management Partnership (Limited Partnership), Mr. Song and Mr. Su.

Anti-dilution right

If the Company issues new shares at a price per share lower than the respective issue price per share to the Investors, the Investors shall have the right to subscribe for new shares or to acquire shares from the founding shareholder at nil consideration or at minimum consideration permitted by law, so that the total amount paid by the Investors divided by the total amount of shares obtained is equal to the price per share in the new issuance.

Measurement

The Company recognised the financial liabilities arising from its obligation to purchase all or part of the paid-in capital from the Series B Investor under the specified contingent events of which the occurrence are beyond the control of the Company. The redemption liabilities are measured at the highest redemption amount under different contingent events on a present-value basis.

Pursuant to the terms of the respective tenancy agreements entered into by the Group, the Group is required to return its leased properties to the conditions as stipulated in the tenancy agreements at the expiration of the corresponding lease term as appropriate. The provision for reinstatement costs was estimated based on certain assumptions and estimates made by the Group's management with reference to historical reinstatement costs and/or other available market information. The estimation basis is reviewed on an ongoing basis and revised where appropriate.

24 BANK LOANS

The analysis of the repayment schedule of bank loans is as follows:

The Group

	As at 31 December			As at 30 June	
	2022	2023	2024	2025	
	RMB'000	RMB'000	RMB'000	RMB '000	
Within one year or on demand

The Company					
		As at 31 December		As at 30 June	
	2022	2023	2024	2025	
	RMB '000	RMB'000	RMB'000	RMB'000	
Within one year or on demand					
– guaranteed	9,859	=	=	=	

All of the bank loans as at 31 December 2022 and 2024 were guaranteed by related parties (note 30(d)).

All of the Group's banking facilities are subject to the fulfilment of covenants relating to the Group's financial metrics which are tested periodically, as are commonly found in lending arrangements with financial institutions. If the Group were to breach the covenants, the related loans would become payable on demand. The Group did not identify any difficulties complying with the covenants. Further details of the covenants and the Group's management of liquidity risk are set out in note 28(b). As at 31 December 2022 and 2024, none of the covenants relating to the drawn down facilities had been breached.

26 EQUITY SETTLED SHARE-BASED PAYMENTS

The share-based incentive scheme (the "Scheme") was approved and adopted by Company in 2019. In connection with the Scheme, Huai'an Yujian Haoren Enterprise Management Partnership (Limited Partnership) ("Huai'an Yujian Haoren") was established as the employee incentive vehicles to hold the shares of the Company. The eligible employees under the Scheme would be granted options which give the holder the right to subscribe for the shares of the Company through holding the limited partnership interests in Huai'an Yujian Haoren at the exercise price of RMB0.02 per share of the Company. As the Company has the right to direct the relevant activities of Huai'an Yujian Haoren so as to suit the Company's obligations in relation to the Scheme, Huai'an Yujian Haoren is treated as the subsidiary of the Company.

Accordingly, the ordinary shares of the Company held by the Huai'an Yujian Haoren are recorded under the shares held for the share-based incentive scheme of the Group until the share options are exercised and vested.

(a) The terms and conditions of the grants are as follows:

Each share option would become exercisable when the explicit required service period and the grantee's annual performance evaluation during the explicit required service period are satisfied. The shares of the Company underlying the share options ("Restricted Shares") are not allowed to transfer before the completion of a qualified listing of the Company ("IPO") unless the Company approves the transfer. Before the completion of an IPO, the Company has the right to repurchase the Restricted Shares at the original exercise price received per share for the employees at manager-level or below or at the higher of 30% of the per-share valuation in the most recent financing round and the original exercise price received per share for the employees at departmental director-level or above.

The grantees as the holder of the Restricted Shares would be entitled to the relevant non-forfeitable dividend right. All unexercised share options shall become lapse upon the termination of employment.

	Number of instruments	Required service period	Contractual life of options
Options granted to employees at departmental director-level or above: on 5 April 2019, 5 May 2019, 1 October 2019, 5 April 2020, 5 May 2020, 1 June 2020, 28 June 2020, 1 October 2020, 5 April	9,353,550	No vesting period	0.25 years
2021, 5 May 2021 and 1 October 2021 on 2 December 2019, 7 January 2020,	1,595,300	2 years	2.25 years
1 November 2020 and 1 December 2020	6,118,150	3 years	3.25 years
26 February 2024, 20 March 2024	1,595,700	4 years	4.25 years
- on 1 November 2020	1,025,650	4.91 years	5.16 years
on 26 February 2024	306,650	1.59 years	1.84 years
- on 9 January 2025	306,650	3 years	3.25 years
- on 31 March 2025	54,250	No vesting period	0.25 years
- on 31 March 2025	2,339,950	3 years	3.25 years
Options granted to employees at manager-level or below:			
- on 15 October 2021	60,000	Until the later of the completion of an IPO and the end of 3.96 years from the date of the grant	4.21 years
- on 16 February 2023, 31 March 2023, 17 January 2024 and 28 March 2024	1,020,000	Until the later of the completion of an IPO and the end of 3 years from the date of the grant	3.25 years
- 16 January 2025 and 31 March 2025	2,220,000	Until the later of the completion of an IPO and the end of 3 years from the date of the grant	3.25 years
Total share options granted	25,995,850		

(b) The number of share options and the number of the Restricted Shares are as follows:

	Number of Options	Number of Restricted Shares
Outstanding as of 1 January 2022	6,143,400	
Granted during the year	613,300	-
Exercised during the year	(1,709,250)	1,709,250
Vested during the year		(1,709,250)
Outstanding as of 31 December 2022	5,047,450	_
Granted during the year	1,449,700	
Exercised during the year	(1,709,350)	1,709,350
Vested during the year		(1,709,350)
Outstanding as of 31 December 2023	4,787,800	_
Granted during the year	3,173,200	-
Exercised during the year	(1,699,150)	1,699,150
Vested during the year		(1,639,150)
Outstanding as of 31 December 2024	6,261,850	60,000
Granted during the period	4,920,850	
Exercised during the period	(54,250)	54,250
Vested during the period		(54,250)
Forfeited during the period	(306,650)	
Outstanding as of 30 June 2025	10,821,800	60,000

For the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2024 and 2025, the Group recognised share-based expenses of RMB1,337,000, RMB1,419,000, RMB3,139,000, RMB1,551,000 (unaudited) and RMB2,624,000.

(c) Fair value of share options and assumptions

The fair value of services received in return for share options granted is measured by reference to the fair value of share options granted. The estimate of the fair value of the share options granted is measured based on a binomial lattice model. The contractual life of the share option is used as an input into this model. Expectations of early exercise are incorporated into the binomial lattice model.

_	Ye	Six months ended 30 June		
_	2022	2023	2024	2025
Fair value of share options and assumptions				
Fair value at measurement date				
(RMB)	1.47	1.47-2.02	1.93-1.97	3.63
Share price (RMB)	1.49	1.49-2.04	2.04	3.77
Exercise price (RMB)	0.02	0.02	0.02	0.02
		54.84%-	47.73%-	50.02%-
Expected volatility	52.41%	55.61%	54.38%	50.59%
Option life (years)	3.25	3.25	1.84-3.25	3.25
Early exercise level	2.80	2.20-2.80	2.20-2.80	2.20-2.80
Expected dividends	0.00%	0.00%	1.57%	1.11%
Risk-free interest rate	2.24%	2.40%-2.53%	1.97%-2.31%	1.27%-1.60%

The expected volatility is based on the historic volatility (calculated based on the weighted average remaining life of the share options), adjusted for any expected changes to future volatility based on publicly available information. Changes in the subjective input assumptions could materially affect the fair value estimate.

27 CAPITAL, RESERVES AND DIVIDENDS

Issue of ordinary shares upon conversion into a joint stock limited liability company	i	613,325	(12,266)	12,266
At 31 December 2023 and 31 December 2024 and 30 June 2025		613,325		12,266

Note:

Pursuant to the shareholders' resolutions and agreements dated 30 August 2023, the shareholders of the Company agreed to convert the Company into a joint stock limited liability company. The net assets of the Company as of the conversion base date, which is 30 April 2023, including paid-in capital, capital reserve, share-based payment reserve, statutory reserve and accumulated losses were converted into 613,324,800 shares with par value of RMB0.02 each. The excess of the net assets converted over the nominal value of the ordinary shares was credited to the Company's share premium. Upon the completion of registration with the Company on 7 September 2023, the Company was converted into a joint stock limited liability company under PRC Company Law, and renamed from Guangzhou Meet Xiaomian Catering Management Co., Ltd. to Guangzhou Xiao Noodles Catering Management Co., Ltd..

(d) Nature and purpose of reserves

(i) Capital reserve and share premium

The capital reserve of the Group represents:

- the differences between the net considerations received and the nominal amount of paid-in capital issued by the Company before its conversion into a joint stock limited liability company in September 2023;
- (ii) the grant date fair value of the share options issued to employees of the Group under the share-based incentive scheme which have been vested and exercised before its conversion into a joint stock limited liability company in September 2023.

The share premium of the Group represents:

- (i) the difference between the net assets and total amount of the par value of share issued in relation to the conversion into a joint stock limited liability company as disclosed in note 27(c);
- (ii) the grant date fair value of the share options issued to employees of the Group under the share-based incentive scheme which have been vested and exercised after its conversion into a joint stock limited liability company in September 2023.

(ii) Share-based payment reserve

The share-based payment reserve is for recognising the grant date fair value of options issued to employees of the Group under the share-based incentive scheme which are not yet vested or exercised in accordance with the accounting policy adopted for equity-settled share-based payments in note 2(q)(ii).

(iii) Statutory reserve

Pursuant to the Articles of Association of the Group's PRC companies and relevant statutory regulations, appropriations to the statutory reserve fund were made at 10% of profit after tax determined in accordance with accounting rules and regulations of the PRC until the reserve balance reaches 50% of the registered capital. This reserve fund can be utilised in setting off accumulated losses or increasing capital of the PRC companies provided that the balance after such conversion is not less than 25% of their registered capital, and is non-distributable other than in liquidation.

(iv) Other reserve

Other reserve represents the initial carrying amount of the redemption liabilities, which is reclassified from equity as note 20(b) mentioned.

(v) Exchange reserve

The exchange reserve comprise all foreign exchange differences arising from the translation of the financial information of operations with functional currency other than RMB.

(e) Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

28 FINANCIAL RISK MANAGEMENT AND FAIR VALUES

Exposure to credit, liquidity, interest rate and currency risks arises in the normal course of the Group's business.

The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

(a) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group's credit risk is primarily attributable to trade and other receivables, lease payment receivables and long-term receivables. The Group's exposure to credit risk arising from cash and cash equivalents and restricted deposits is limited because the counterparties are banks and financial institutions with high-credit-quality, for which the Group considers to have low credit risk. The Group's exposure to credit risk arising from refundable rental deposits is considered to be low, taking into account (i) the landlords' credit rating and (ii) the remaining lease term and the period covered by the rental deposits.

The Group's trade receivables mainly due from the third party payment platforms such as Unionpay, Alipay or WeChat Pay are with high credit rating and no past due history. The management of the Group considers these assets are short-term in nature and the probability of default is negligible on the basis of high-credit-rating issuers during the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2025, and accordingly, no ECL allowance for trade receivables has been recognised at 31 December 2022, 2023 and 2024 and 30 June 2025.

In determining the ECL for other receivables, lease payment receivables (excluding rental deposits) and long-term receivables, the management of the Group has taken into account the historical default experience and forward-looking information, as appropriate. The management of the Group has assessed that other receivables, lease payment receivables and long-term receivables have not had a significant increase in credit risk since initial recognition and risk of default is insignificant. The expected credit loss rate is minimal and therefore, no ECL allowance for other receivables, lease payment receivables and long-term receivables have been recognised at 31 December 2022, 2023 and 2024 and 30 June 2025. The expected credit loss rate is minimal.

The Group does not provide any guarantee which would expose the Group to credit risk.

(b) Liquidity risk

As at 31 December 2022, 2023 and 2024 and 30 June 2025, the Group had net current liabilities amounting to RMB148,565,000, RMB186,756,000 and RMB242,225,000 and RMB254,960,000, respectively. In management of liquidity risk, the Group's policy is to regularly monitor its liquidity requirements, to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The Group relies on the cash generated from operating activities as the main source of liquidity. For the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2025, the Group had net cash generated from operating activities of approximately RMB104,773,000, RMB245,126,000, RMB313,546,000 and RMB202,051,000, respectively. The directors believe that the Group will have sufficient funds available to meet their financial obligations in the foreseeable future.

The following tables show the remaining contractual maturities as at 31 December 2022, 2023 and 2024 and 30 June 2025 of the Group's non-derivative financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current as at 31 December 2022, 2023 and 2024 and 30 June 2025 and the earliest date the Group can be required to pay:

	Within 1 year or on demand	More than 1 year but less than 2 years	More than 2 years but less than 5 years	More than 5 years	Total	Carrying amount at 31 December 2022

(c) Interest rate risk

The Group's exposure to the interest rate risk is not significant since the Group does not hold any financial instrument of which the fair value or future cash flows will fluctuate due to changes in market interest rates.

(d) Currency risk

The Group is not exposed to significant foreign currency risk since financial assets and liabilities denominated in currencies other than the functional currencies of the Company and its subsidiaries are not significant.

As the Group's principal activities are carried out in the Chinese Mainland, the Group's transactions are mainly dominated in Renminbi, which is not freely convertible into foreign currencies. All foreign exchange transactions involving Renminbi must take place through the People's Bank of China or other institutions authorised to buy and sell foreign exchange. The exchange rates adopted for the foreign exchange transactions are the rates of exchange quoted by the People's Bank of China that are determined largely by supply and demand.

As at 31 December 2022, 2023 and 2024 and 30 June 2025, cash and cash equivalents situated in Chinese Mainland amounted to RMB36,519,000, RMB26,739,000, RMB39,031,000 and RMB44,006,000. Remittance of funds out of Chinese Mainland is subject to relevant rules and regulations of foreign exchange control.

(e) Fair value measurement

(i) Financial assets and liabilities measured at fair value

Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of each reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in IFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
 Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
 Level 3 valuations: Fair value measured using significant unobservable inputs

The Group has a team headed by the finance manager performing valuations for the financial instruments, including structured deposits and financial assets measured at FVOCI which are categorised into Level 3 of the fair value hierarchy. The team reports directly to the chief financial officer. A valuation report with analysis of changes in fair value measurement is prepared by the team at each interim and annual reporting date, and is reviewed and approved by the chief financial officer.

	Fair value at 31 December	Fair value measurements as at 31 December 2022 categorised into

Financial assets measured at FVOCI:							
 Unlisted equity securities Financial assets measured at FVPL: 	. 50	_		50			
- Unlisted structured deposits.	25,018	-	~	25,018			

For the years ended 31 December 2022, 2023 and 2024 and the six months ended 30 June 2025, there were no transfers between Level 1 and Level 2, or transfer into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of each reporting period in which they occur.

Information about Level 3 fair value measurements

	Valuation techniques	Significant unobservable inputs
Unlisted structured deposits	Discounted cash flow (note)	Discount rate

Note: The fair value of unlisted structured deposits is determined by discounting the estimated future cash flows at risk-adjusted rate, which is the benchmark interest rate plus the risk premium as at the end of each reporting period.

The following table indicates the instantaneous change in the Group's loss/profit after tax and accumulated losses/retained profits that would arise if fair value of unlisted structured deposits to which the Group has significant exposure at the end of the each reporting period had changed at that date, assuming all other risk variables remained constant.

At 31 December 2022		At 31 Dece	ember 2023	At 31 Dece	mber 2024	At 30 June 2025		
Increase in fair value of unlisted structured deposits	Effect on loss after tax and accumulated losses	Increase in fair value of unlisted structured deposits	Effect on profit after tax and accumulated losses	Increase in fair value of unlisted structured deposits	Effect on profit after tax and retained profit	Increase in fair value of unlisted structured deposits	Effect on profit after tax and retained profit	
-	RMB'000	(RMB'000	-	RMB'000		RMB'000	
5%	263	5%	940	5%	2,635	5%	938	
-5%	(263)	-5%	(940)	-5%	(2,635)	-5%	(938)	

The movement during the period in the balance of Level 3 fair value measurements is as follows:

Unlisted structured deposits	At 31 December 2022	At 31 December 2023	At 31 December 2024	At 30 June 2025
	RMB'000	RMB'000	RMB'000	RMB '000
At 1 January	=	7,009	25,063	70,261
Payment for purchases of unlisted structured deposits.	142,000	345,000	436,000	135,000
Disposals of unlisted structured deposits	(135,000)	(327,009)	(391,063)	(180,261)
Changes in fair value recognised in profit or loss				
during the year/period	9	63	261	18
At 31 December/30 June	7,009	25,063	70,261	25,018

Any gains or losses arising from the remeasurement of the Group's investment in unlisted structured deposits are recognised in the profit or loss.

Any gains or losses arising from the remeasurement of the Group's unlisted equity securities held for strategic purposes are recognised in the fair value reserve (non-recycling) in other comprehensive income. Upon disposal of the equity securities, the amount accumulated in other comprehensive income is transferred directly to retained earnings.

(ii) Fair values of financial assets and liabilities carried at other than fair value

The carrying amounts of the Group's financial instruments carried at amortised cost are not materially different from their fair values as at 31 December 2022, 2023 and 2024 and 30 June 2025.

29 COMMITMENTS

Capital commitments of the Group outstanding at 31 December 2022, 2023 and 2024 and 30 June 2025 not provided for in the Historical Financial Information were as follows:

	As at 31 December			As at 30 June
	2022	2023	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000
Contracted for acquisition of				
property, plant and equipment	2,019	5,236	6,846	9,173

As at 31 December 2022, the Group has entered into new leases of four to eight years that are not yet commenced, the lease payments under which amounted ranging from RMB340,000 to RMB865,000 per annum over the lease terms.

As at 31 December 2023, the Group has entered into new leases of three to eleven years that are not yet commenced, the lease payments under which amounted ranging from RMB470,000 to RMB938,000 per annum over the lease terms.

As at 31 December 2024, the Group has entered into new leases of two to ten years that are not yet commenced, the lease payments under which amounted ranging from RMB79,000 to RMB911,000 per annum over the lease terms.

As at 30 June 2025, the Group has entered into new leases of three to six years that are not yet commenced, the lease payments under which amounted ranging from RMB198,000 to RMB977,000 per annum over the lease terms.

30 MATERIAL RELATED PARTY TRANSACTIONS

(a) Names and relationships of the related parties that had material transactions with the Group

For the years ended 31 December 2022 and 2023 and 2024 and the six months ended 30 June 2025, the directors are of the view that the following are related parties of the Group:

Name of party	Relationship with the Group		
Huai'an Yujian Haoren Enterprise Management Partnership (Limited	Shareholder		
Partnership) (淮安市遇見好人企業管理合夥企業(有限合夥))*			
Mr. Song	Chairman of our Board, executive director and ultimate controlling party		
Mr. Su	Executive director		
Ms. Luo Yanling ("Ms. Luo")	Key management personnel and close members of the family of the ultimate controlling party		

^{*} The official names of these entities are in Chinese. The English names are for identification purpose only.

(b) Key management personnel remuneration

Remuneration for key management personnel of the Group, including amounts paid to the Company's directors as disclosed in note 8 and certain of the highest paid employees as disclosed in note 9, is as follows.

	Years ended 31 December			Six months ended 30 June	
	2022	2023	2024	2024	2025
	RMB*000	RMB'000	RMB'000	RMB'000 (unaudited)	RMB'000
Salaries, wages and other benefits	2,475	3,395	3,713	1,781	2,006
Contributions to defined contribution retirement			20	10	21
plan	32	33	38	19	21
Equity-settled share-based					202
payment expenses	427	302	218	114	259
	2,934	3,730	3,969	1,914	2,286
	7		 :		

Total remuneration is included in "staff costs" (see note 6(b)).

(c) Balance with related parties

	As at 31 December			As at 30 June
•	2022	2023	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000
Non-trade in nature				
Dividends payable	1-2	394	1 - 1	-
Dividends payment	=		=	=

The balance with the related party is unsecured, interest-free and have no fixed repayment terms.

(d) Guarantees from related parties

All of the bank loans as at 31 December 2022 and 2024 were guaranteed by Mr. Song, Mr. Su and Ms. Luo. As at 31 December 2022, 2023 and 2024 and 30 June 2025, the unused banking loan facilities of RMB9,950,000, RMB80,000,000, RMB140,000,000 and RMB250,000,000 were guaranteed by Mr. Song, Mr. Su or Ms. Luo. These guarantees from related parties will be released on or before the listing.

31 IMMEDIATE AND ULTIMATE CONTROLLING PARTY

As at the date of this report, the Directors consider the immediate parent of the Group to be Huai'an Chuangtao Enterprise Management Partnership (Limited Partnership), which is incorporated in the PRC, and the ultimate controlling party of the Company to be Mr. Song.

32 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE ACCOUNTING YEAR BEGINNING ON 1 JANUARY 2025

Up to the date of issue of the Historical Financial Information, the IASB has issued a number of new or amended standards, which are not yet effective for the year beginning on 1 January 2025 and which have not been adopted in the Historical Financial Information. These developments include the following which may be relevant to the Group.

	Effective for accounting periods beginning on or after
Amendments to IFRS 9 and IFRS 7, Contracts Referencing Nature-dependent Electricity	1 January 2026
Amendments to IFRS 9 and IFRS 7, Amendments to the classification and measurement of financial instruments	1 January 2026
Annual improvements to IFRSs - Volume 11	1 January 2026
IFRS 18, Presentation and disclosure in financial statements	1 January 2027
IFRS 19, Subsidiaries without public accountability: disclosures	1 January 2027
Amendments to IFRS 10 and IAS 28, Sale or Contribution of Assets between an Investor and its Associate or Joint venture	Note

Note: The effective date for these amendments was deferred indefinitely. Early adoption continues to be permitted.

The Group is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the Historical Financial Information except for the following:

IFRS 18, Presentation and disclosure in financial statements

IFRS 18 will replace IAS 1 Presentation of financial statements and aims to improve the transparency and comparability of information about an entity financial statements. IFRS 18 is effective for the year beginning on or after 1 January 2027 and is to be applied retrospectively.

Among other changes, under IFRS 18, entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to provide specific disclosures about management-defined performance measures in a single note in the financial statements.

The Group does not plan to early adopt IFRS 18 and IFRS 18 will impact the presentation of financial statements and is not expected to have significant impact on the financial performance and positions of the Group.

33 SUBSEQUENT EVENTS

In October 2025, the Company passed a board resolution and shareholders resolution to declare a dividend of RMB34,365,000 to existing shareholders.

SUBSEQUENT FINANCIAL STATEMENTS

No audited financial statements have been prepared by the Company and its subsidiaries in respect of any period subsequent to 30 June 2025.
